Ottawa, June 14.—(Special)—There was a very slim attendance of the house especially on the government benches. The Liberals tendered an enthusiastic welcome to Augustus Carr, member-elect for Levis, who was presented by Sir Wilfrid Laurier and Hon. Mr. Patterson. The ministerial supporters availed themselves of the opportunity to rally Dr. Spruille Cole, Hon. Hughes and other Liberal Conservatives on the outcome of the London and North-Westby-elections.

The minister of railways, reviewed the business showing of the government railway system for the current year. When the accounts are balanced the working expenses of the twelve months will exceed the earnings by close to \$2,000,000. In addition to this there has been a so-called capital outlay on the road of \$4,000,000. Hon. Mr. Emerson's statement was purposely framed so as to offer an open rebuke as possible to the government management of railways.

The opposition admitted that Hon. Mr. Emerson's administration of the L.C.R. last year would offer a setback to the government's railway policy. He insisted, that with the present management of the road could even be made to pay. The transportation committee in some damaging reports on the telephone system, passed without discussion, the understanding being that the government will furnish full information when the supplementary estimates are taken up. In the course of the discussion the government promised that the latter would be brought down next week.

Mr. Foster says that at the next sitting he would bring up the correspondence between the Toronto District Labor Council and the government in relation to W. T. Preston's encouragement to strike railway employees. He also mentioned the employment of a committee of supply. Hon. Mr. Emerson proceeded to make his statement of the earnings and expenditure of the Intercolonial Railway, amounts to between \$1,500,000 and \$2,000,000, and he says this deficit was partly due to the increase in wages of the Intercolonial and partly also to the abnormal conditions of last year when the expenditure for new equipment was phenomenally large. For instance, whereas the cost of the Intercolonial was \$11,000, in 1914-5 it was \$35,175. While the revenue of the Intercolonial was \$5,600,000, the expenditure was \$6,250,000.

Time has gone.

He proceeded to discuss the government's policy by pointing out that the L.C.R. was built as an imperial road and could not be expected to pay. He also pointed out, in other words it was a sort of contribution to the empire. The advantage was that it was a public utility, and that it was a source of revenue for the government. He also mentioned the fact that the L.C.R. was a public utility, and that it was a source of revenue for the government.

TO FIGHT FOR THE CHURCH TRUSTEES ARE UNDER FIRE

Preliminary Meeting of Members of
McCauley St. Church Indicates Some
Lively Developments.

Ever since negotiations were entered into for the sale of McCauley Street Methodist Church, there has been a spirit of bitter opposition by the congregation as a whole. With the ratification by the general conference at Barre of the bargain whereby the church is to be converted into a Jewish synagogue for a \$25,000 consideration, the members of dissatisfaction have been fanned into a very fair-sized blaze. This much was evident from the meeting in the church last night. Indignation over what was freely spoken of as the trickery of the church trustees found its vent in the determination to follow these two lines of action:

1. To call a meeting to be held in the church on Monday night, at which the trustees will be asked to appear with a full report of the church's financial affairs, the president of the conference being asked to fill the chair.
2. A committee made up of three leading members of the congregation, Messrs. Back, Wallace and Woodland was appointed to secure legal opinion as to the binding nature, or otherwise, of the deed. It was also decided that the meeting was a large one, and with ladies of the church present in majority. The keynote was indignation against the trustees who had, it was claimed, drawn up the memorial recommending the sale of the church building without conferring with their brother trustees or consulting the congregation.

Can't Be Upped.

Recording Steward Fred Dane, while taking the stand that the sale was not put on a proper manner, said he did not think that anything could be done to upset the deal, now that the church has given its assent to the bargain. He understood that \$500 had been paid over to bind the contract, and it was to be looked upon as final.

The attitude of the trustees, particularly Trustees W. P. Smith and Brandon, was warmly criticized. It was pointed out that the trustees had been acting in a most unbecoming manner. There appeared to be a strong feeling that the management of the church's financial affairs had been inefficient. One member of the congregation declared that there were all sorts of rumors going about the church's affairs. It was due to the trustees themselves to declare the amounts subscribed, actually in the hands of the balance had been applied.

An Independent Audit.

The assembly was one demanding an independent audit of the books was debated at some length, but it was at last agreed to let the particular matter stand over until after Monday's meeting.

The assembly's negotiations could be invalidated by the action of Mr. Talbot, who was on the ground, and who was not bound by the Smith act of parliament. This, it was felt, was any avenue of escape, and a Toronto hope legal inquiry will be made.

Niagara Falls, Ont., June 14.—Alfred Bode, a cousin of Dr. Emmerich Schottmayer, who committed suicide on Sunday, arrived this morning from New York. Arrangements were made for the cremation of the body at the crematorium, and this evening the coffin will be taken to the shore of the side.

The suicide was not in line with the woman in the case, whose name is Anna Zava, a well-known actress. She was a resident of Toronto, and was in the city on Sunday morning when she was killed. She was driving an automobile when she was struck by a car. She was killed instantly.

WHY THE ENGLISH EXPERT DISCOURAGED PUBLIC PHONE

Has a Valuable Connection With
British and American Tele-
phone Companies.

Ottawa, June 14.—(Special)—The Bell Telephone Company produced an expert witness before the telephone committee some three weeks ago. He was H. L. Webb of London, England. He was presented to the committee as an English expert, who would smush public ownership of the telephone system more than glib, and those in the public ownership hailed his evidence with delight.

A letter has been received from England, addressed to Sir William Murray, dealing with Mr. Webb's record. It is written by the National Telephone Company of the Institute of Electrical Engineers, and at the present time, the chief expert of the municipalities in England that own telephone systems.

In consequence of paragraphs appearing in the London papers that H. L. Webb had given evidence before the telephone committee in some damaging reports on the telephone system, passed without discussion, the understanding being that the government will furnish full information when the supplementary estimates are taken up. In the course of the discussion the government promised that the latter would be brought down next week.

THREE EGGS AT THE MILLNER. Who Sees, and Gets Judgment for the Costs.

Brookville, June 14.—(Special)—A peculiar case was tried here before Judge Reynolds yesterday. It was a case involving three eggs at the Millner.

The case was brought by a woman who claimed that she had been defamed by a man who had written a letter to her. She claimed that the letter was defamatory and that she had suffered damage as a result of it.

The man who wrote the letter denied the charges and claimed that the letter was a true and accurate account of the facts. He claimed that he had written the letter in good faith and that he had not intended to defame the woman.

The judge found in favor of the woman and awarded her judgment for the costs. He found that the man's letter was defamatory and that he had acted negligently in writing it.

ORANGE YOUNG BRITONS ARE PROSPERING GRANDLY

Arnprior, June 14.—The grand lodge of the Orange Young Britons met in their annual session in the I.O.O.F. hall here this afternoon. Already the number of delegates in attendance is larger than in any previous year, upwards of a hundred having registered, while the number will be greatly augmented.

The afternoon reports of the various lodges were read, and the association to be making progress during the past year sixteen lodges have been organized and the membership generally greatly increased. The lodge at Arnprior is in the first class shape, the balance on the treasurer's hands being over two hundred dollars in excess of last year.

ABOUT STRAWBERRIES ABOUT WHEAT.

Ideal weather conditions prevailed through the Niagara Peninsula yesterday, and commission men predicted last night that one good week of like sun and wind would inaugurate the season, on the local market reports of Canadian fruit were limited to a few baskets, with the price ranging from 15c to 18c per box. A few baskets were offered for sale at the market, but they were not taken. The market for strawberries is very favorable. Good shipments are beginning to move. Quality is excellent. The average per acre will be equal if not better than former years.—C. M. Hoppers.

TO IMPROVE BRITISH WHEAT.

Washington, June 14.—A plan to improve the quality of British wheat has been reported to the department of agriculture by its European agent. The report says that during the past two years experiments likely to reach important practical results have been carried on by the National Association of British and Irish millers. The millers hope the existing industry will be revived.

TICKET WAD AND A SWEETHEART TOOK DETROITERS HOME TO VOTE

By-Elections Left \$500 Distributed in City of Straits—150
Were Lined Up to Go to London.

Detroit, June 14.—An evening paper says: "A hot campaign was waged in Detroit to secure the attendance and vote of Canadians residing here at the by-elections just held at London and North Oxford, and both Liberals and Conservative natives had plenty of political detectives at work here securing the voters. One campaigner said that he lined up 150 for the London election, but he declined to say in which party's interest."

He said: "A ticket slipped into their pocket with a wad of money, and they think of the duty they owe to the old cause." They are sent home in small squads so as not to attract attention.

He believed that five thousand dollars had been spent here on the two by-elections.

He added: "They don't get in such a hurry about becoming American citizens if we Canadians treat them to an excursion and let 'em see their old sweethearts whenever we have an election."

THE GLOBE AND THE SCHOOL

The spectacle of the Globe rejoicing in the victory over provincial rights in London and North Oxford brings into sharp contrast the Globe's attitude as it is today.

It was little short of sacrilege to mention the name of George Brown at such a time and at such a place. The Globe, directed by George Brown, would not be found glorying in the coercion of the Northwest.

There are Liberals in Ontario possessed with the idea that the Globe, in George Brown's days, would have fought for right because it was right, and wholly regardless of how others fought for it.

Canada's fight to deport officials of the Pere Marquette Railway is being challenged in the courts. It is claimed that Canada, not having sovereign rights, has not the power to deport aliens.

Canada must have some means of defending herself against an unfriendly neighbor. Our Alien Labor Law, whether constitutional or not, has had the effect of securing better treatment for Canadians in the United States.

With the original attempt to deport the chief officials of the Pere Marquette Railway, the World has not now, and never had, any sympathy. It was a petty piece of business, absolutely unrelated to the interests of Canadian workmen.

BARGAIN LIST FOR BUSY MEN

This gathering of strong values is the result of the competition among the men's departments for the biggest bargain in store.

Once a week the wave of enthusiasm for extra value giving grows higher and sweeps through the store from end to end; a strong desire to keep in its right position the reputation of the store as THE STORE OF STORES for value giving.
