No. 7

Col. Weatherbe Has Paid an Official Visit of Inspection to Work Point.

(From Monday's Daily.) As a result of official inspection of

the part of the commanding officer, it is not improbable that the strength of the Royal Canadian Engineers in this garrison will be considerably increased in the near future.

At present the complement consists Argonauts of Toronto, by a score of 17 the material condition of the Work Point barracks establishment and the fortifications of Esquimalt. The en gineer corps consists of skilled me chanics. Every man is a master of one or other of the basic trades. They are carpenters, masons, plumbers, machinists, blacksmiths, electricians what not. In the multitudinous tasks of repairing, building, re-building and operating, that are imposed by a large garrison establishment, the engineers are looked for to grapple with them alone. There was a time when the en gineers must have divers and hands skilled at doing the work in connection with submarine mines, but the doing away with this service locally has relieved the garrison of the necessity ci providing in this regard. They must have electricians, however, to look af-ter the lighting plant and apparatus as well as the searchlights employed is the service. The engineers on this sta-tion are not idle by any means.

The local garrison has just received a visit from Lieut.-Col. Paul Weatherbe Montreal, Oct. 7.-Victor Hanc, a O. C., R. C. E., of Halifax, who is just

CAPT. S. F. M'KENZIE ON COMPANY'S PLANS

He Desires That Cheap Labor **Employed--New Vessels Now** Being Constructed

(From Friday's Daily.) Capt. S. F. McKenzie, of the firm of ernment had recently hired Norwegian McKenzie Bros., has been identified ships to take machinery and other mawith the coastal trade of British Co- terial from Liverpool to Plymouth. lumbia from its birth. It was he who This was what might be called direct Liberal party of the province, continubuilt the first steamer eighteen years ago, which carried freight between the meagre coast settlements of that time. competition against British shipping.

"But in spite of this," remarked the ternoon. There was throughout a wonderful display of inspinity at the Vanderful display of inspinity at t it is to-day, with growing communities all along its seaboard, numerous islands fast becoming centres of industrial activity, and a vast territory in the porth yielding a contributory in the porth The conception of British Columbia, as ish shipping has diminished in any way the north, yielding a contributory im- vessel is getting the trade somewhere all returned and are unanimous in pulse to its growth, was beyond the else. most optimistic dream. Human foresight had not yet fathomed the commercial potentialities of Alaska and the Yukon. The pioneer venture that speculated with one small vessel is associated with a history of wonderful maritime growth. The ventursome lit-

zie Bros.' steamers have carried about On the downward trip she will call at 63,800 tons of ore, representing in value Sulzer for a full cargo of ore, approximately one million dollars, from Prince of Wales Island and White-horse, for the smelters at Ladysmith CALAMITY GREATER mines. All of these ores, with the exception of those from Whitehorse, re sent trade which has been diverted British Columbia smelters, from the American side, by the shipping facili-ties provided by McKenzie Bros. and the hustling they have done to get the business. In their northbound trips the steamers have transported 150 car loads of machinery, for the Guggen-heims' interests in the Yukon. This shipment consisted largely of steel hydraulic pipe. From British Columbia which recently destroyed four-fifths of ports they carried 1.350,000 feet of lumber to Skagway, and in addition to this about 500,000 feet of building masteers, 3,000 sheep and 500 hogs. All these shipments were for points in the erican board of commissioners for for-

vard, of like tonnage, and the steamer Henriette, of 1,200 tons. We also had commission the barges Hayden own, 1,200 tons, Melanope, 3,000 tons and Canada 600 tons."

were Norwegian, that foreign tained by Anna Gould, the former counthe mover of the resolution supplies, etc., locally as British ves-sels would. In reply to this he said A London dispatch owned in British Columbia with the of the Boilermakers' Society on Octoexception of the Halvard and Haldis ber 5th has been averted. which were under the Norwegian flag. With respect to the newspaper article that these vessels were operating to the disadvantage of local shipping, Capt. McKenzie said that the article was a fabrication of the grossest na-

In reply to an inquiry as to why he had found it necessary to employ these Norweglan vessels, Capt. McKenzie re-tiary at Caldwell narrowly escr marked that, as a shipping man, he found the development on the British Thomas Jacobs, the collector, adverthe visiting delegates for the hospital-Columbia coast was such that it was tised the penitentiary for sale at a lity extended. The debt of the party to necessary to have vessels here within public auction on October 3rd to settle the press (the Toronto Globe, which, public auction on October 3rd to settle the press (the Toronto Giode, which, an unpaid township tax debt of \$78.50. for its splendid Asiatic campaign, the that was either offering or in immediate prospect. "I negotiated with British, German and Norwegian ship owners as to how soon I could get any vessels suitable to the trade. I had quotations from all the big shipping firms and the prices asked for the class of to the highest bidder.

vessel required showed no difference whatever between the Norwegian and British vessels. In fact we were offered British vessels on slightly better terms than the Norwegian, but unfortunately they were not available to be ere in time to meet the business that we were looking for."

"What is the objection to the em ployment of Norwegian vessels based in?" he was asked. "I can only attribute it to parties RESOLUTIONS PASSED

whose interests would be affected by lied the captain. "I have found, since I have been in the shipping business the cry has been in British Columbia for better and cheaper means of transportation, both by rail and water. The Premier McBride's Position With ompetition of foreign railways, for instance, is not only not discouraged, bu they are encouraged by bonuses and in other ways to come into the country." As to the fault found with him for employing Norwegian ships, Capt. Mc-Kenzie remarked that the British gov-

maritime growth. The ventursome little freighter of eighteen years ago was the harbinger of a fleet that is now rapidly developing into consequence. For the service of McKenzie Bros., two new steamers are now under construction in British yards. These vessels are to be of the very finest coast trading type, with a carrying capacity of about 3,000 tons. Their length will be about 265 feet with a 45

push that belongs to members of the firm, McKenzie Bros. service has already become a powerful factor in the carrying trade of this coast. During the six months that the firm has been from Mt. Andrews on the return trip.

WORK RESUMED AT NANAIMO MINES

ACCEPTED BY MEN

Covers Terms of Two Years--City Jubilant Over Settlement of Differences.

The Nanaimo mines are all working to-day, the miners in mass meeting last night deciding to return to work, The present situation is almost without parallel in Canadian coal mining history. The miners committee signed an agreement with company on Saturday which was accepted by a vote of miners, and which covered a term of two years, starting Monday. On Monday the drivers, who had voted on the agreement, refused to abide by it, maintaining they should have more pay, although the company maintained that they were already making more per hour than drivers in any mine in America. The drivers refused to arbitrate. They number but two or three hundred, but their refusal to work kept about one thousand men idle. These men argued and pleaded with the drivers to line up to the agreement and negotiations have been going on between the drivers and the rest of the men since

Monday. Yesterday the miners asked the driv-

plant here. The state alleges that by means of this pretended competiti

MARCHING AGAINST BROTHER.

No Limit Within Sight to Greatness to Which Canada May Attain Before Century Closes.

Among the features of a second day's ing five hands and over and those emproceedings at the annual convention ploying less than five—the number for of the Canadian Manufacturers' Asso- 1905 was 15,796. The capital employed ciation in Toronto last week was a paper by Archibald Blue, chief officer of census and statistics, upon "The Growth of Canada in the Twentieth Century." The resume of the Dominions progress was a most valuable one, summarising as it does the development.

The paper can be thus condensed:
Our foreign trade, exclusive of coin and bullion, goods not the produce of Canada, and exports estimated short, has grown from \$336,018,000 in the last fiscal year of the 19th century to \$518, 800,000 in the sixth year of the 20th. Thirty years ago, at the end of a period of six years, it showed a gain of \$39,381,000, and at the end of our last period of six years the gain is \$182,748, 1000. Our chartered banks, which in 1870 had assets of \$103,200,000, and in 1906 of \$878,500,000, and in the fewers period of the paper can be thus condensed:

Tokio, Oct. 3.—A notable celebration took place here to-day to commemorate the conclusion of the Russo-Japanese the colar the case to the congress which was presented to the colar the found in the found the found the case to the congress the foun 1810 had assets of \$108,200,000, and in 1876 of \$188,500,000, had in 1900 assets of \$459,700,000, and in 1906 of \$878,500,000, being a gain in the former period of \$80,300,000, and in the latter of \$418,800,—has not reached a full measure of de-000. In 1870 the total cash on deposit in the banks was \$48,763,000, and \$72,-853,000 in 1876; and after thirty years 1900 was 100 to 108, and in 1905 it was the amount was \$305,140,000 in 1900 and 100 to 85. The cause of this change is \$605,968,000 in 1906. In the first period revealed in the returns of some of the of six years the gain was \$24,090,000, recently organized works. The capital and in the last it was \$300,828,000. There invested in electric light and power and in the last it was \$300,828,000. There was at the credit of the depositors in chartered and savings banks in 1906 a sum of \$667,880,000, whereof the large amount of \$309,500,000 has been an accumulation of this century. In the chartered banks alone the increase of umble to the production was \$00 to 9.44. So also with smelting works like those in Nova Scotia, Ontario and British Colembia, whose capital has been increase of the \$75,000 to 1970, the production was \$100 to 9.44. deposits from \$45,763,000 in 1870 to \$305.- ed by \$76,000,000, the ratio to production 140,000 in 1900, and to \$605,968,000 in 1906 is 100 to 32.50. But industries which shows the very large extent to which show in the aggregate an increase of

Railway Development.

Our steam railways in operation in the Dominion, which had a length of 2,517 miles and of 5,218 miles in 1876, had 17,627 miles for the control of the contr steam railways in operation in ducts, timber and lumber and their remachinery and harder work, it can be said that in every group of our industries the average of production has in in 1900 it was \$998,000,000, and in 1906 it was \$1,396,000,000. Trade, transportation, and banking have been the most and in 1905 it was \$1,990 per wage work active and potent of all agencies in the er; or compared on the basis of all employees on salaries and wages, it international trade we should exist as a hermit nation; without railways the opening up of our great interior bea hermit nation; without railways the opening up of our great interior between ocean and ocean could not be achieved; and without banks there would be little business beyond a simple exchange between neighbor. The figures given show how Canada is advancing on the highways of the nations.

A Johnson, consisting of the Asiatic General Samejima, commander of the Imperial audience accorded yesterday to General Samejima, commander of the Asiatic General Samejima, commander of the trades and labor council, then took the platform, that the was glad to claim Victoria as his birth-place and was yet glad to be a good citizen of Vancouver, was the manners." (Asyantay of Manchuria, as man in the audience asked that the was glad to claim Victoria as his birth-place and was yet glad to be a good citizen of Vancouver, was the that the Oriental question fathers did before me," was the canadas as advancing on the highways officials of the Japanese agreement, is attached to the fine trades and labor council, then the Australia Meleculary. (As placed to the father than the audience asked that the was glad to claim Victoria, the did did that the placed to the father than the audience ask neighbor. The figures given show how Canada is advancing on the highways of the nations.

our growth are found in the records of the cost of wages was \$286 in 1900 and the census of our Northwest provinces, \$379 in 1905, an increase of \$93 per emprovince of the Confederation in 1870. and Saskatchewan and Alberta in 1905. In 1881, when the first census of those three areas was taken, they had a population of 105,631; in 1891 they had 419,512. In 1906, five years later, the population was 808,863, an increase of 98 per cent. There were 2,370 townships with inhabitants in 1901, and 4,365 in 1906, and the cities, towns, and incorporation with the cities of the south the cities of the construction of the population of 105,631; in 1891 they had 419,512. In 1906, five years later, the population was 808,863, an increase of 98 are shown for Ontario and Quebec. In Ontario the greatest increase of products with the cities, towns, and incorporation with the cities of the construction of the population of 105,631; in 1891 they had 419,512. In 1906, five years later, the Dominion except Prince der in the second degree for the killing of Andrew and Stephen Starzyuski, hotel proprietors, of the south the cities, towns are constructed in the crease of products. In 1881, when the first census of those 1906, and the cities, towns, and incorporated villages grew in the same period from 84 to 185. The number of occupied farms increased from 67,773 in 1901 to 122,398 in 1906. Live stock shows into 122,398 in 1906. Live stock shows intree of nine in Quebec have values of creases in the five years of 342,590 \$10,000,000 and over. In fourteen cities creases in the five years of 342,590 flowers of \$24,590 flowers of \$25,790 milch cows, of 802,185 and towns with increases in the values of product of \$2,000,000 and over. In fourteen cities and towns with increases in the values of product of \$2,000,000 and over. Months increases of \$28,647, when the areas of all field crops in 1905 and 1906, there were in the three provinces (338,000 acres in the former and 8,408, on the first with a production of \$27,300,000 and an increase of \$27,300,000 and an increase of \$27,300,000 and an increase of \$27,500,000 and an increase of \$28,625,000 and an increase of \$28,625,000 and an increase of \$28,883,000 shows an increase of \$2 of 2,010,000 acres, or hearty so better in one year. Last year's area was more than three times the area of all crops in 1900, yet it was only 28 per cent. of the land occupied as farms, and only 7 per cent. of the surveyed land in the provinces.

crease of \$7,500.000. But Winnipeg with a production of \$18,983,000 shows an increase of \$10,367,000, and Peterborough with \$11,566,000 shows an increase of \$7,777,000, and as regards increase each of them exceeds Hamilton at the end of the Sycovers.

Manufacturing Progress. A census of manufactures taken last same comparison. In the fourteen cities ear for the year 1905 supplies illustrations of the growth of the Dominion in manufactures in the five years is \$112,the 20th century which may be to the 410,000, or 58 per cent. Montreal's inconvention more interesting and appro-priate than any one of the others. A 47 per cent. Adding to these two cities comparison of works, employing five the value of products for works emhands and over in 1905 with those of 1900 cannot be accurately made for Montreal's total is \$100,426,000 and Tornumbers, partly because in the interval many works have been merged under one management, such as butter and ada in the 20th century found in the control of the growth of Candal of the control of the growth o cheese factories and canning works; statistics of manufactures, of railways, partly because in large establishments banking and commerce are for the carrying on several kinds of industries whole Dominion, and they show a surone return has been made in 1906 where prising record of expansion. The cenin 1901 separate returns were made for sus of population and agriculture in the each kind; and partly also because owners of shops in receipt of stated salar-les or allowances from the business who were counted in 1901 have not been so older provinces are growing at the same counted in 1906. Consequently in hun- rate, there is no doubt that all parts of cases in the census of the the country have prospered in their vaclass of four employees and under. But it may be added that in the 27 classes of industries showing a decrease in the number of works there is an in-

seaboard. By agreement the case against Armour only was tried.

EXCLUSION LEAGUE steps, fell heavily to the street pavement. By the strangest chance, though for but a moment, there was left a space in the crowd, and although Mr. Morton several times sought to save himself, and others stretched out a helping hand, he tell backward the whole distance, striking his head with such violence as to fracture his skull, and he may not recover.

Public Meeting Was Held Last Evening in City Hall For Purpose of Organization.

(From Friday's Daily.)

object of bringing his family here. He is a man of 40 years of age, and recently came into a rich legacy by the will of a relative in England.

The formation of a Victoria Asiatic Exclusion League and the endorsation of the resolutions adopted by the Dominion Labor Congress, held recently at Winnipeg, was the net result of the anti-Asiatic meeting held in the coun-cil chambers of the city hall last even-Meeting at Tokio Commemorating Con clusion of Russo-Japanese Treaty. ing. The resolution, which was passed both at Winnipeg and here, will be Tokio, Oct. 3.-A notable celebration

> personal remarks. H. Cowan and Gordon Grant, of Vancouver, represented the Vancouver Asiatic Exclusion League, and spoke feelingly upon the question under consideration. Representatives of the local labor council also took the platform and were ac corded quiet hearings, broken only by

enthusiastic applause Mayor Morley was elected chairman and B. Knight secretary of the meet-ing, and the former called it to order promptly at 8 o'clock. The Mayor made a few introductory remarks, and referred to the importance of the question which was to be discussed. It was the most important question before the whole Dominion, and while it was of freight rates rebating. The circuit court of appeals sustained these fines. The evidence showed the companies received a preferential rate of ½ cent per hundred pounds on shipments of meat for export was a question that vitally effected the circle, the sanctity of which it was a patriotic man's highest ambition to preserve. It was in the light of a home problem that the subject should be viewed and dealt with. Noobdy

be ashamed of afterwards. (Applause.)
A. Johnson, chairman of the Asiatic Convicted of Murder in the Second De-gree-Killed Two Men.

Mr. Johnson said that the Mayor had called the meeting through the instrumentality of the Victoria Trades and Pittsburg, Pa., Oct. 3.—Ludwig Szozy-latter body had considered a public uncil. The reason why the meeting necessary was because the people of Victoria had not yet been heard from upon what was considered the most important problem before the proprietors, of the south side, last August, was sentenced this afternoon to undergo thirty years' imprisonment in the Western penitentiary. With commutation for good behaviour this will be replayed by Victorians, but he was glad played by Victorians, but he was glad the white and yellow races would take to see that there was such a large amount of interest shown in respect to

marks Mayor Morley stated that the ing of the Orientals. platform was open to anybody who wished to speak. It was a public meeting, and although he had called it at the instigation of the trades and labor council, it was not proposed to deal with the subject of Oriental immigration from one side only.

migration he referred to as "the burning question of Western Canada." He stated that he was a British Columbat that Canada could not stand up against bian of over twenty years' standing, and had the interests of the province, and had the interests of the province, and especially the workingman, at heart. He asked the privilege to tell "the truth about the Vancouver trouble." He had followed the stories of the riot in the press exchanges that came from all over the world and had found that, the further afield the story of the incident went the worse it got. In one of the Honolulu papers a dispatch told how scores of Japanese had been slaughtered and the streets were red with blood. (Laughter).

The facts of the case were, briefly, and rot given sufficient consideration in the province, and especially the workingman, at his juncture Mr. Crease was interrupted by a tempest of disapproval, and requests to leave the platform. The Mayor strove to obtain order, but was not very successful.

"I was going to say that Canada could not stand up against Japan without the whole of the Empire at her back." (Further hisses.) He agreed to the light fingered fraternity, was this morning committed for trial by Police Magistrate Jay. Hayes, it will be remembered, was rounded up during exhibition week. He was seized by Mr. Reid, of Vancouver, while the latter mingled with the crowd at the races. Hayes, according to his captor, had his heard the formal question that they had not given sufficient consideration brought up for his preliminary hearing to the light fingered fraternity, was this morning committed for trial by Police Magistrate Jay. Hayes, charged with belonging to the light fingered fraternity, was this morning committed for trial by Police Magistrate Jay. Hayes, the light fingered fraternity, was this morning committed for trial by Police Magistrate Jay. Hayes, charged with belonging to the light fingered fraternity, was this morning committed for trial by Police Magistrate Jay. Hayes, charged with belonging to the light finder of the light find

been slaughtered and the streets were red with blood. (Laughter).

The facts of the case were, briefly, that the workingmen of Vancouver, having become alive to the great danger of the Oriental influx, had decided that something must be done to check it or the province would become a colony of the Mikado. Accordingly meetings were called for the purpose of distinguished for the purpose of the province was the find the purpose of the purpose of the province was the form the province was the find the purpose of the province was the find the purpose of the province was the find the purpose of the ings were called for the purpose of discussing the question, but the interest "That this meeting re cussing the question, but the interest shown was not representative and a great demonstration was planned to awaken the public to the seriousness of the situation. Some 20,000 to 30,000 turned out to see the parade which, after circling about the city, went to the city hall. Here only a part of the propose was prepared to the best interests of Canada part of the propose who the could not the the city hall. Here only a part of the people who turned out could get into the hall, where a number of speakers were to address the mass meeting. The trouble in Chinatown was started by a few boys and drunken men and amounted to nothing more than windowsmashing. It was not a vicious crowd that did the damage or the Orientals would have been attacked. As it was, not a single Oriental was injured in any way.

"That incident was a most unfortunate at the time," continued Mr. Cowan. "It arose from pure devitry. It was regretted by everyone who is at one at the time," continued Mr. Cowan. "It arose from pure devitry. It was regretted by everyone who is at one at the time," continued Mr. Cowan. "It arose from pure devitry. It was regretted by everyone who is a shout putting up a barrier to keep the workman. Why was he not encouraged to the English workman. Why was he not encouraged to the English workman. Why was he not encouraged to the English workman. Why was he not encouraged to the province. He had neard it said, and he would like to hear the statement contradicted, that the local unilons were afraid to have Englishmen come into the city as they might disorganize the unions. (This remark was greeted with a was give evidence.

Committee To Wait on Others Interested on Government Street and Present Proposition.

city council last evening was not very large, considerable good was acomplished by the meeting it would appear, judging from the views ex-pressed by some of them before they dispersed.

Several of the property owners stated, after a free discussion, that they had not understood the scheme for repaving in the way it was explained last evening. They moreover were statisfied with the proposition as the best under all the circumstances.

Accordingly Ald. Vincent, James Forman and A. W. Simmons were appointed a committee to wait upon the other property owners who opposed the proposition and explain the working of it in the hope that they would come to endorse it. Messrs. Holland, Pemberton, Musgrave and Langley had written expressing disapproval of the scheme, and these will be visited.

The plan of the council, which seemed to appeal most strongly to the property owners who were present last evening, was one which looked to repaying the street, the cost to be extended over ten years. For the first five years the city would assume the five years the city would assume the liability, and for the second five years the property owners would pay. By method the city assumes one-half the cost, the maximum which it can assume, but while the property owners are still paying off the cost of the pave-ment now in place, they will not be ment now in place, they will not be asked to pay on the new pavement to be laid. At the end of five years the property owners will be free from all cost under the by-law under which the present pavement was laid, and which costs about 74 cents a foot. They will then beginn paying their share of the new pavement at a cost of about 27

If this is acceded to by the property owners, the work will likely begin at once and be pushed to completion. The blocks to be used will be treated in the new works and are expected to last Desperate Fight With Penitentiary at least fifteen years.

In opening the meeting last evening His Worship reminded the property

which the city financed the proposition for the first five years, paying half only of the entersection as well as the rest finance it for the next ten years, costing 27 cents a foot yearly. There was a difficulty in this owing to the fact that it became a question how the city Ald. Henderson did not think the

first arrangement a hardship upon the property owners, constituting as it did double assessment for a few years He rather favored the last proposition nowever.

Henry Young thought the city should keep the pavement in repair until the time of the by-law was up. Then he have to replace it

Ald. Fell wanted to know what kind of repairing should be done. Mr. Young said bad blocks should be taken out and replaced. It should not be all taken up and new pavement put

Ald. Fell said all the blocks would have to come out to repair.

Young.
Ald. Verrinder pointed out the danger in delaying the repairing of the street until it could be paid for out of the general revenue, the cement foundation would require replacing.

the property owners would be if the blocks did not last fifteen years, as it was prophesied they would. The present paying on Government street could not be said to have lasted more than three years.

Ald Henderson pointed out that For and Broad street paving promised to last fully ten years. He said that hy to creosote the blocks. The blocks would then have a life of 15 years. situation. He did not think it was

Mayor Morley said it was found that mation to the grand jury.

would have been useless to have attempted to have patched it. It was deemed wiser to leave it as long as it would last and then replace it. would last and then replace it.

Ald. Fell said that when the pavenent was laid the council acted to the best of its judgment. He approved of the ten-year plan of payment. The city

paid for the first five years, so that the property owners were not called upon to pay their share until the time of the present by-law was up. If the rate-payers meant to appeal to litigation he uld advocate letting the street stand

James Forman did not understand that the proposition was made to have the city pay the whole cost for the first five years under the ten-year by-law.

Ald. Fell said he was prepared to do

that however.
Ald. Gleason said the paving was past repair. If the work was let go the (From Saturday's Daily.)

Reported Loss of Life at Sea.

New York Cot 4.—An ominous contract, whereby the Standard oil Company obtains from every steamship company operating betw-zen New York and all ports in Africa a rate for lubricating oil that is about one-half of what its competitor, the New York Lubricator Company, pays, was produced to-day in the

New York, Oct. 4.—On the arrival of the White Star liner Cedric to-day a rumor was circulated that a wireless message had been received by the Cedric while at sea from the Cunard liner Umbria reporting that the Umbria had encountered a gale, that her bridge had been demolished, and that lives were lost.

The purser of the Cedric declared the rumor was untrue, but said the Cedric received a message from the Umbrina at sea in which no accident was mentioned. The Cunarder is due at Liverpool to-morrow.

Reported Loss of Life at Sea.

New York, Oct. 4.—On the arrival of the laboration of the Work Lubricating of the federal suit against the alleged oil combine.

This contract was placed in evidence, and Philip Harrison, manager of the New York Lubricating Oil Company, declared that his company was forced to pay double the Standard Oil rate, notwith-standing his protest to the steamship companies. Mr. Harrison said that by reason of the freight discrimination the Standard could place its products in Africa at less than the cost price of the oils of his own company, and that to maintain African trade the New York Lubricating Oil Company was forced to purchase from the Standard the cheaper grades of oils which it sold to its customers.

Mr. Harrison said that the Standard of What the shipping the pettor, the New York Lubricating Oil Company.

grades of oils which it sold to its customers.

Mr. Harrison said that the shipping charges to his company were increased from 21 shillings until they reached 42 shillings and sixpence in 1965. The contract with the Standard, made on February 10th, 1906, with the Hansa, Prince, Houston and American-African steamship lines, made the rate to the Standard for oil shipments slightly less than 17 shillings. The witness declared that he wrote a letter to the steamship agents demanding equal rates for the companies, but no change in the charges was made.

Chicago, Oct. 4.—The grand jury before which President James A. Moffett, of the Standard Oil Company of Indiana, was which President James A. Moffett, of the Standard Oil Company of Indiana, was recently called, to afford him an opportunity to substantiate certain statements made over his name in a pamphlet which has been extensively circulated across the continent, returned its report to Judge Landis, of the United States district court, to-day. The jury declared that President Moffett had not only failed to uphold the statements he made, but that he had no knowledge whatever leading up to them, and the statement purporting to Arriving at the auditorium rink, where the deep waterways convention is being held, President Roosevelt alighted, and after chatting with several friends ascended the platform. LADYSMITH MINE

MAN IS FLOORED BY FALLING ROCK

Opening Football Match in Island City--Mr. F. Thick and Miss M. Christie Wedded

Ladysmith, Oct. 4.-A miner named S. Williams, met with an accident in No. 2. Extension mine yesterday, which piece of rock fell upon him, crushing his head to the floor. He suffered some severe abrasions on the face, and sus tained a nasty cut on the left eye. However, the doctor does not fear any permanent injury to the eye, and a few weeks should see the injured man about again.

Footballers Practice.

The local footballers are now practising every evening. On Sunday last men from the Old Country showed a lamentable lack of form, and the game created more amusement than excitement. On Sunday there will be a city league game, when the Hearts, cantained by Jas. Adair, will meet the Shamrocks, led by Tom O'Connell, and a good game should result. This is the opening match of the league, for which there are four teams entered.

Society Wedding.

Two young people, well known and generally esteemed in Ladysmith social circles, were united in matrimony on Saturday last. The groom was Mr. Frank Thick and the bride Miss Marfaret Christie. The ceremony was pertor of the Presbyterian church, and was followed by a lunch at the bride's mother's residence, to which only relatives and close personal friends were invited. Immediately after the lunch Mr. and Mrs. Thick boarded the evening train for Nanaimo, thence to Vancouver, on a six weeks' tour of the Sound and California cities.

Mr. Horace Thick acted as best man and Miss Isabel Thick as bridesmaid. The bride was dressed in a blue travelling suit, long white fur, white hat with white feathers. The bridesmaid wore a dress of white organdie. The groom's present to the bride was a lovely pearl prooch, and the bridesmaid was the re cipient of a beautiful pearl ring. The happy couple received a host of hand-some presents from friends and wellwishers, including two cheques to the and Mrs. Thick carry with them into their new life the best wishes of a host

of sincere friends. Attended Victoria Fair. The Victoria fair was largely patronized by Ladysmith people. Among those who attended were Mr. and Mrs.

The Tortoise and the Sloth

Once upon a time as the Tortoise was wandering through the forest in search of a can of oxtail soup he came upon the Sloth, who had a grape-shot in his jaws and was trying to crack it for a hickory nut.

"Say, you are a good deal of a scrub," observed the Tortoise after watching operations for awhile. "Oh, there are others," airly replied

"How many years does it take you to elimb up a hoe-handle?" "About a year less than it takes you o crawl ten feet."

The Tortoise was in search of a can of

"About a year less than it takes you to crawl ten feet."

"Don't give me any of your sass."

"And I don't want any from you."

Look here, Mister Sloth, you have seen fit to throw out hints that I was not the speedlest thing on legs in this forest. You must put up or shut up."

"How do you mean?"

"You know where the red school house is, five miles away? I'll run you a race to the spot to prove that you ain't within a mile of being in it."

"Done," replied the Sloth, and they separated to prepare for the contest.

The Tortoise was in search of a can of ox-tail soup.

There was grass on his back, but none under his feet. The Sloth had an idea or two, however; and crawling down to the highway he stopped an auto and begged a ride, and when the Tortoise arrived at the spot he was greeted with:

"Well, I knew you were a slow old coach, but I thought you could get a hustle on you once in twenty years."

MORAL:

Which goes to prove, and in fact does prove, that the race is not always to the strong—not when the liar is about.

HAGUE SHOULD CONSIDER PEACE

NOTEWORTHY SPEECH

Animated Discussion Leads to Approval of Principle of Obligatory Arbitration.

day of the committee on arbitration was the most important and animated since the beginning of the peace con-ference, and led to the approval of the during a portion of the summer, and key, China and Roumania.

Four of the powers abstained from tives of the department were now envoting, they being Japan, Luxemberg, A number of meetings of fruit grow-Montenegro and Switzerland, and there ers had been held and discussion had were four absentees. Argentina, Guatemala, Nicaragua and Venezuela. So various insects from which the orchfar as is known Argentina is favorable to the proposals, and the ayes may to the presence of the San Jose scale,

bitration, but opposed to a treaty inbitration, but opposed to a treaty including all the nations of the world.

The Baron said the general feeling was that the conference, having dealt with questions of war, must do something for peace. He favored obligatory arbitration on grounds similar to the general treaty concluded between Italy and Argentina; in other words, individual treaties between nations in prefitting the following moth, and the entomologist had given full information in reference to the coding moth, and the entomologist had given full information in reference to the coding moth, and the world, which it was proposed should apply to judicial and not to political matters, which the speaker contended. It would be impossible to separate, as what might be a judicial question in one country, might be a political question in another.

used next year, and the beetle will be kept under close control.

...any of the agriculturists of the

Joseph H. Choate, of the American delegation, made a speech. Mr. Choate began by saying he did not know why the projects under discussion were generally called "obligatory arbitration." There were no insects which could not be overcome when their life history was known.

Lampy of the agriculturists of the province were disposed to believe that the harmful insects from which they began by saying he did not know why the projects under discussion were generally called "obligatory arbitration." There were no insects which could not be overcome when their life history was known.

Lampy of the agriculturists of the province were disposed to believe that the harmful insects from which they suffered could not be controlled. This Dr. Fletcher declared to be an error. There were no insects which could not be overcome when their life history was known. Speaker voiced his profound respect for the countries represented at the conference by Baron Marschall von Bieberstein and his admiration personally for the first German delegate, but, continued Mr. Choate, "there are in Baron Marchall von Bieberstein two delegates, speaking two different landelegates, speaking two different languages. Indeed, while the baron admires obligatory arbitration without reserve in its abstract form, he does not want it on earth, but prefers it in heaven. He even dreams about obligatory arbitration, but after waking up the turns thwards the wall in order not record the proper through Canada greatly increases

B. C. Smelters Are Better Supplied Owing to Cessation of Foreign Shipments.

Rossland, Oct. 5.—Coke is arriving more freely at local smelters. This is said to be due to cessation by the Crow's Nest Pass Coal Company of sending shipments to points in Montana. While there is an increase in the supply, the smelters could take more, so that a small surplus could be created. At Trall, for instance, five out of seven furnaces are running. With an increased supply of coke two additional furnaces could be blown in. It is supposed that there will be little trouble in the future as to coke.

In othe missing couple and assure them that they had no illwill towards either of them.

Notice is hereby given that, thirty days after date, I intend to make application to the Hon. the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, Coast District S. Commencing at a post planted on the north shore of Francois Lake, about 6 chains east, thence 40 chains north, thence 160 chains west, thence 40 chains south to point of commencement.
