FACIAL CHANGES IN THE METHODIST STATION SHEET

Rev. T. J. Dlenstead for Zion Church—Conference to Raise \$70,000 for Missionary Purposes

WOODSTOCK, N. B., June 18.—There was a large attendance at the afternoon session of the Methodist Conference, which opened at 2 o'clock. Rev. H. A. Brown was admitted into full ministerial relations. The annual missionary anniversary took place in the evening with Rev. A. D. McCully in the chair. The exercises were most interesting.

Rev. Dr. Sprague moved the following resolution: On the eve of the departure of the Rev. B. S. Fulton, who has been transferred to the British Columbia conference, this conference, with which he has been connected for fourteen years, from the time of his entrance into the ministry, expresses its sincere regret on account of the severance of the relation so long and happily existing. Its appreciation of the superior ability and untiring energy which Brother Fulton has devoted to his work as a minister of the Methodist church and its best wishes for his happiness and success and the welfare of his family in his western field.

Rev. Geo. Steel introduced to the conference Rev. Jas. Allan, general secretary of the missionary society. Mr. Allan addressed the conference and gave the brethren a good deal of information that will be of great use to them in their work during the coming year.

Mrs. E. C. Turner, representative of the Women's Missionary Society, spoke of the work being done by that society. They decided to send out 10 new workers each year for the next four years. Rev. James Allen and J. N. Harvey also spoke upon the subject, the latter urging the brethren to be raised next year for missionary purposes.

Following are the final changes in the station sheet: Zion—T. J. Dlenstead, George—J. J. Durst, Cape—O. H. F. Hall, St. John—A. H. Brown, Upper Mills—Leon Jewett, Cape Wolfe and O'Leary—A. H. Brown.

ST. JOHN MEN FORM TWO NEW COMPANIES Letters of Incorporation Granted to St. John Produce Co. and Peoples' Stove and Plumbing Co.

The last issue of the Royal Gazette contained notices of incorporation of two St. John companies. Letters patent have been granted incorporating Fred E. Law, Oliver B. Akery, Frank E. Williams, Alexander W. MacRae and George Swanton, of St. John, to purchase the export business carried on by the F. E. Williams Co., Ltd., and to continue the said business under the name of the St. John Produce Company, Ltd.

Incorporation has been applied for by Fred E. Law, Robert Clark, Walter R. Stewart, Amos A. Wilson and John Hamilton, who desire to take over the business in stoves and plumbing conducted by Frederick E. Law. The new company will be known as "The People's Stove and Plumbing Company, Ltd."

JAS. J. HILL BOUND FOR ST. JOHN IN HIS YACHT Steamer Campana Not Badly Damaged—Will be Repaired at Montreal—A. T. Peterson Fell Dead.

MONTREAL, June 19.—James J. Hill arrived here today from New York and left on his private yacht, Wacousta, for the St. John, N. B., fishing grounds. In the party were G. F. Baker, Samuel Thorne, L. G. Hill, Dr. Geo. D. Stewart. They will be gone three weeks.

QUEBEC, June 19.—The steamer Campana is not thought to be badly damaged. She is expected to float at high tide today, and be brought here for repairs.

MONTREAL, June 19.—The body of A. T. Peterson arrived last night from Flat Lands. He was fishing from a boat with the rod in his hands when he collapsed from heart failure.

Rev. B. N. Nobles, of Victoria Street Baptist Church, and Rev. Gideon Swin, of Faterloo Street Church, will exchange pulpits at the morning service tomorrow.

A big Old Home week is to be held in Montreal September 13th to 20th, and an elaborate programme has been arranged.

OTTAWA, Ont., June 19.—An order in council was passed this afternoon relieving fishing vessels from all wharfage dues at government wharves unless such vessels engage in carrying trade.

BALLOON FELL FROM HEIGHT OF A MILE

Court Official Killed and His Wife Fatally Hurt. Other Passengers Escape With Severe Injuries—All Members of New Russian Aero Club.

ST. PETERSBURG, June 18.—Court Chamberlain Pallatin was killed and his wife fatally injured and two other persons received severe injuries in a balloon accident here yesterday. The balloon General Wannowski belonging to the army department, in which four officers had a similar misfortune last year, ascended today from the military balloon park, in Charge of Captain Korbe. In the basket with him were Court Chamberlain Pallatin and his wife and Count Rosstoft, director of the private chancellery of Empress Alexandra. The gas bag had drifted across the city at an altitude of a little less than a mile, and when just above the outskirts, Count Rosstoft by mistake pulled the rip-cord.

As the gas escaped from the envelope the balloon fell rapidly to the ground, the car falling in the garden of a country house. M. Pallatin was killed by the fall and his wife suffered terrible injuries. Captain Korbe escaped with a broken leg and Count Rosstoft with severe contusions. With the exception of Captain Korbe, all the occupants of the car were inexperienced members of the newly-formed Russian Aero Club.

HORRIBLE MURDER OF YOUNG GIRL STARTLES NEW YORK

Her Decomposed Body in Trunk in Chinaman's Room—Had Been Interested in Mission Work Among Celestials

NEW YORK, June 18.—Elizabeth Sigel, daughter of Paul Sigel, of the city, and granddaughter of the illustrious Franz Sigel, her German warrior who enlisted his services with the Union army during the civil war, is, according to all indications today the victim of one of the most sordid murders in the history of New York. If she is not the victim, the police are confronted with a remarkable series of coincidental facts. Taken from a trunk in a room of a Chinaman above a chop suey restaurant in the Tenderloin, the body, in a state of decomposition, which makes identification very difficult, lies in the morgue, while detectives are collecting the threads of a tangled story involving the girl and her associations with Chinese.

An envelope addressed to the girl was found in the room, signed "E. Sigel," all seem to indicate that Franz Sigel's grand-daughter was murdered. The body was partially stripped of its clothing, tied with ropes, wrapped in a faded blue blanket and crammed into a dilapidated old trunk, where it lay for a week at least before the odor cropped through the building arousing the suspicions of the policeman proprietor of the restaurant below, who summoned the police and instituted an investigation.

Mr. Sigel had not identified the body at a late hour tonight, nor had Mrs. Sigel, although the mother, when told that her daughter had evidently been murdered by a Chinaman, became hysterical.

Elizabeth, or Elsie, was twenty years old and was greatly interested in mission work among the Chinese. Sun Leong, proprietor of the restaurant, who also conducted the rooming house above, disappeared shortly after the discovery of the murder, adding further obstacles to the mystery. The case has unusual interest, notably among which is the fact that a Chinaman has been known to call at the Sigel home, presumably with the sanction of the parents.

Elizabeth, or Elsie, was twenty years old and was greatly interested in mission work among the Chinese. It is understood that she became acquainted with one Chinaman who may be able to throw some light on the case, several years ago, when he conducted a can-can at an amusement park at Port George. The Sigel home in Wadsworth Avenue, the Bronx, is not far away from the resort. Neighbors said tonight that the call of the Chinaman at the house ceased more than a year ago.

Mrs. Paul Sigel, at 1:30 o'clock this morning, when shown the jewelry found in the trunk containing the body of the murdered girl in a Chinese rooming house in Eighth avenue, identified it as that worn by her daughter Elsie.

FENDISH CRIMS OF THREE ONTARIO MEN

Exploded Dynamite Bomb Under House Containing Eleven Occupants—Latter Escaped by a Miracle.

OTTAWA, June 18.—The investigations of County Constable Hamilton and Provincial Detective Reburn into the mysterious explosion which wrecked the large frame house of Moses Laporte on Montreal Road on the outskirts of the city just prior to the heavy thunderstorm of Sunday night last, have resulted in the arrest of three men. Two of them are brothers named Delour, employed in a stone quarry near the wrecked house, and the third is a market gardener named Lacasse. It is alleged that they fearfully exploded a charge of dynamite under the house in which they were at the time eleven persons, all of whom, however, miraculously escaped practically unharmed from the wreck. The motive is said to be that of revenge for some grievance the men harbored against the occupants.

WASHINGTON, June 18.—Senator Elkins laughs at the suggestion that his daughter, Miss Katherine, is going to Europe to meet the Duke of Abruzzi. He said today that the young lady has for some time had a slight heart affection, which is always materially augmented by heat, and that her physician had directed that upon the approach of hot weather she should immediately betake herself to the cooler shores of the European continent.

Friend (admiringly)—Where in the world did you get your wonderful knowledge of those deep economic questions? You must be a great student. The Father—No, just been reading my daughter's commencement essay.

TRAINING A DERBY WINNER

It takes two years to make a racehorse ready for the post, and for a foal which is to show whether he is a fit candidate for the Derby Stakes, and there are two years in which the animal receives as much watchful care and is as well looked after as the most adored child of the wealthiest millionaire. According to the rules of racing a colt is a yearling, or one year old, on the 1st of January following his foaling. Consequently late February or early March is reckoned the best time for birth, the importance of the date being realized when it is explained that if the animal is obliged to compete with a horse who is both nominally and actually two years old, when he himself is little more than two months—although nominally a two-year-old—there is but a small chance of success attending, at any rate, his early career. Beyond acclimating the colt to handling and the restraint of a halter, little is done while the animal is growing from a yearling into a yearling, and the youngster generally goes to the great September sales, where he is examined and criticized from every point of view, and probably purchased at a heavy figure by one who aspires to lead in a Derby winner. After the sale the real schooling of the future Derby candidate commences, and one of the best and most important of the horse's early lessons, after being shod and handled in the stable, is to learn to bear the bit. From this he proceeds to a more active schooling, and has breaking-tackle put on him, in which he is led about daily and allowed to exercise his limbs on a specially selected soft piece of ground. This exercise removes much of the surer, and the colt is made to follow the driver's collar, and made to follow the driver's collar, and made to follow the driver's collar.

NOTES OF SPORT.

Ketchel is making the trip to California by way of Chicago and Denver, stopping off at both places. In Denver he will take on a local steeplechase for a good sized purse, after which he will make a beeline for the coast to prepare for the Pacific trip on July 5. Instead of remaining in California for the rest of the summer, as he originally planned, however, the Michigan Lion will come back to New York right after the go with Papke, as the Fairmount-A.C. has offered to hang up a purse for a bout of ten rounds with Willie Lewis, who has just returned from a victorious tour of England and France. When Lewis got here the other day his manager stated that Sam Langford, who has just returned from a victorious tour of England and France, was afraid to meet him on the other side, and as Langford has always been anxious to tackle Ketchel, the Fairmount club quickly decided to make a try for a match between the middle-weight champion and Lewis, but will Lewis fight Ketchel when the time comes? If he does ring experts predict that Ketchel will score a quick knockout. SOME HONOR. Play ball! How sweet the summons sounds! And every man feels richer. A BIG POINT IS INVOLVED. The replevin case of Thos. Mitchell v. Robert F. Davis, Scott Act inspector for Queens Co., was up before his honor Mr. Justice McLeod in chambers yesterday. W. B. Wallace, K. C., appeared for plaintiff and A. A. Wilson, K. C., and J. R. Dunn for defendant. Friday's proceedings was trying out a proof of claim of property. This action arose over the seizure of a lot of liquor sent into Queens Co. last autumn. Mr. Wallace argued that the inspector had no right to seize the stuff without a search warrant. Mr. Wilson claimed that he enjoyed that right by virtue of his office. Judgment was reserved. "Should his honor decide this point in favor of the plaintiff and the supreme court en banc uphold the finding it will mean that a large number of seizures under the act have been made unlawfully. The outcome is awaited with interest.

THE BEST SINGING TREAT YET AT H. H. H. Those who missed the ultimate treat at the Happy Half Hour last evening should not miss it today, for its equal is seldom if ever heard in this city. When the audience applauds for three minutes, and some stay in to hear it the second time it must be a treat. That's what happened last night at the H. H. H. Signor Beal by request sang Violets, and all the comment made as the audience left the building at the request of many she will sing I Dreamt I Dwelt in Marble Halls, from the same opera, and these two selections will be worth the price of admission alone. An excellent programme of pictures were given. The Evening dropper is one of the best dramas ever seen here. Two Ladies and a Beggar, and the Suicide Club kept the audience laughing while Good Evening Pierrot, a hand colored trick picture, mystified them. A splendid show for the children's matinee today, and adults should not miss the chance to hear the unequalled singing.

HINTS to MOTHERS

Probably "naughty" and "bad" do not convey their true meaning to 2 and 3-year-olds. They simply stand for your disapproval.

Use tepid water which has been sterilized that is, boiled 15 minutes, to wash the baby's mouth.

The best treatment of sprains and bruises is the application of water. The bruised or sprained part may be immersed in a pail of water and gently pressed or manipulated with the hand.

## NEW HEAD OF NATIONAL MANUFACTURERS' ASSOCIATION IS A RABID ANTI-UNIONIST

DAYTON, O., June 18.—Who is John Kirby, the man who has just been elected president of the National Manufacturers Association, succeeding the militant Jas. W. Van Cleave, who tried to kill all labor unions in America? John Kirby is the general manager of the Dayton Manufacturing Co., which employs about 200 men and boys, paid by the piece. In the manufacture of car trimmings, Kirby came to Dayton in 1888 from Ludlow, Ky., where he had been superintendent of a plant. He is about 60 years old, has a neatly curled gray mustache, a heavy shock of gray hair and a square jaw. Kirby hates unionism as Van Cleave did, and Dan Farrell, Dayton labor leader, says that Van Cleave and Kirby are "like a pair of sheeps" and that Kirby will make a fierce war on unionism than Van Cleave did.

It was Breitenbaugh, another labor leader, said: "By electing Kirby to the presidency the National Association has committed itself to industrial war. Kirby has all the fire in him that Van Cleave has, and a dangerous imagination in addition. For that reason he is a dangerous leader."

"Kirby isn't talking now about what he is going to do, but his anti-labor record is at hand as indication of what may be expected. It is also to be remembered that in his speech accepting the presidency of the National Association he reaffirmed the declaration of war in stronger terms than any ever used by Van Cleave."

"I consider Mr. Kirby the strongest man in Dayton," says Rev. Morris E. Wilson, pastor of the Presbyterian Church where Kirby worships, a minister who sympathizes with the war on unionism, and has taken upon himself the task of defending his friend Kirby.

"There are others in Dayton who will also bear testimony to Kirby's 'strength' and these are men who once struck and are now blacklisted, men who tried to run for office as representatives of the workers and were defeated through the political influence of Kirby and his associates, and members of unions that once flourished but are now in dissolution because of successive defeats, Kirby caused. The association quietly but aggressively labored for the nomination of Judge Snedker, resulting in a change of about 2,000 votes and the defeat of Roehm."

The defeat of Leo for nomination as the candidate for sheriff was a conspicuous illustration of the influence of the association.

"These were the first serious blows to the labor agitators, the first substantial warning to the politician."

Leo was a leading officer of the metal polishers union, which Kirby fought.

At present there is pending in the Dayton courts a \$25,000 suit for damages instituted by Kirby against the polishers union, which, if it comes to trial will mean the last crushing blow to the life of the organization. The club is now in the hands of "the strongest man in Dayton" who has

also been made the foremost figure in the fight on unions in America.

Speaking of Kirby, Rev. Wilson says: "He has a big heart. He is a siver of charity but he gives unostentatiously. I could give you instances of this but am not at liberty to do so. Mr. Kirby is not against the union proper but his fight is in behalf of the non-union man. Against this statement is that of Kirby himself declaring that he is against unions on general principles."

"The life of the American Federation of Labor is hanging by a thread, and there would be no militant organization of labor today if it were not for the support of misguided philanthropists and women's societies," said Kirby, in his speech accepting the presidency of the national association. "The only way to deal with this animal is to take it by the horns till it is made obedient."

"The only way to deal with this animal is to take it by the horns till it is made obedient."

"He fears nobody and no thing," says Rev. Wilson, his defender. "Jones was dying about factory. Threats were made. John Kirby showed that he was no coward."

The war finally got into court through the injunction suit.

"I am against unions on general principles," said Kirby, on the witness stand, at that time. He also identified a letter shown him as one written by him to his "agent," whom he had hired to join the union.

"I got many reports from him," he said. "It was his business to find out what was going on among the union men. One of the letters captured by the defense exposing the sleuth system employed by Kirby read as follows: 'Dear M. A.: We mail you today list of employees of the Dayton Manufacturing Co. You will keep your eye open for information in reference to these men, particularly learn what you can about the three men named with a cross. It is believed that these three men were put in the shop by the union.'"

"The first practical political result of the association was the defeat of Police Judge Roehm, for whose reelection the labor leaders made the greatest possible cause, because as police judge he had championed their cause. The association quietly but aggressively labored for the nomination of Judge Snedker, resulting in a change of about 2,000 votes and the defeat of Roehm."

THE SPINSTER'S REPLY.

Dr. Emil Reich was present at a dinner, when the conversation turned on marriage.

"That was a wise saying of the old Greek philosopher," said some one.

"Whether you marry her or not, you will regret it!"

"Yes," answered Dr. Reich. "It reminds me of a certain old maid, who once said something almost as good as that. 'Auntie,' said her little niece to her, 'what would you do if you had your life to live over again?' To which the lonely spinster replied, 'Get married, my child, before I had sense enough to decide to be an old maid.'"

## BLUSH OF GOLD SWEEPS NORTHWARD OVER MILLIONS OF WHEAT ACRES

THE PATH OF THE THRASHERS.

Map showing average dates upon which harvesting begins in the wheat zone of the United States.

"The march of wheat has begun."

From the end of May into September it rallies its forces for its wonderful majestic invasion of the United States. Starting in northern Texas, it sweeps in a widening golden belt up and up, through the great valley of the Mississippi, up past the forty-ninth parallel and 200 miles on into Canada.

A new field of the Cloth of Gold—this is the middle west when the wheat begins to ripen—a field more magnificent than planter has ever sketched. First, bare ground as the snows of winter clear away, then tiny, pale-green, moss-like covering, which grows slowly deeper in color and in thickness until the whole land is a field of waving green from the Rio Grande to the North Fork of the Columbia.

Then the miracle—the culmination. The green fields turn to gold. The waves of gold move north, north, sweeping slowly, every single field a-rippling to every chance gust of air until the whole west reflects the glory of harvest moon. And harvest time has come.

The march has started. Texas, the leader, has responded to the call of arms, the forward march of harvest time.

The most wonderful thing in the United States—such is the ripening of that golden grain that feeds the world—that gives muscle and strength to the coole of India, the Russian serf, the lonely British soldier in Africa's desert, the yellow slave of China, the gold digger of Alaska, the pampered millionaire of the United States.

The rattle of the harvester will soon swell to a great roar. The wave of the noise of machinery will sweep through all the Mississippi valley and up through Assiniboia. A great army of men will rush to the scene, drawn from every part of the nation.

Up with the dawn of day, working like mad through the heat and sweat of the July sun, and on till night falls, this army will toil, cutting and thrashing and winnowing and shipping the wheat.

Great long trains will dash into the heart of the wheat belt empty and groan away with bursting sides. Ships will wait at Seattle, San Francisco, New York, to carry it away to foreign countries. Great elevators and mills will rattle and roar, digesting their share.

In September the harvest moon shines red through the frosty air, on fields of stubble. The plowing for next year begins. The vast fields grow black with the upturned earth. The white snows of winter cover them. But next year, just as spring begins to time.

break again in northern Saskatchewan and the northern farmers see the sprouts of winter wheat appear, the fields of Texas will be yellow again, ready for the thrashers, and the wonderful circles of wheat will be started again.

600,000,000 BUSHELS.

The estimated crop in the United States this year, as compiled by the

department of agriculture, is 600,000,000 bushels, worth approximately that many dollars. Last year it was 584,607,000 bushels.

PROVIDING FOR THE FINISH.

"What is the excitement?" asked the tortoise.

"The snails are having a Marathon race."

"Who are the judges?"

"A six-year-old boy at the start has promised to send his grandson to check the finish."

CORDIAL AND CONFIDENTIAL.

"How did you get along with Marie's father?"

"Fine. He said it was all right before I asked him. And then he asked me if I didn't know a few more likely young fellows who would take the rest of his girls."

TIME'S REVENGE.

"I wonder if everybody will have what he wants a hundred years from now?"

"I doubt it. The men will then probably be agitating for the suffrage." Louisville Courier-Journal.

MR. GREGORY CALLED UPON TO TESTIFY

VAN BUREN, Me., June 18.—At this morning's session of the St. John River Commission, Neal McLean of St. Francis, Me., testified that previous to the building of the Bangor and Aroostook Railroad there was no other highway, shipment of lumber from Northern Maine was then made by the Canadian Pacific Railway and by boat.

MR. GREGORY CALLED UPON TO TESTIFY (continued) Commissioner Keefe—"Do I understand you to say that the sorting works and holding booms were then made by the Canadian Pacific Railway and by boat. Another Modern Miracle. Paralysis Permanently Cured

The Sufferer Paralyzed from Waist to Feet—Encased in Plaster of Paris for Nine Months—Dr. Williams' Pink Pills After Four Doctors Had Failed—The Cure Vouched For by a Well Known Clergyman

Paralysis, no matter how slight, is a terrible affliction, but to be paralyzed from waist to the feet, to be a helpless cripple, totally dependent upon what others do for you, is a condition as wretched as man could possibly bear.

I'll Explain Why I Always Drive a GENDRON. "You see the breaking of the springs causes us baby drivers more trouble than any other weakness in carriage cars. But there is no spring weakness in the GENDRON car. Note that double curve. It is exclusive with the GENDRON. It so distributes the strain that the spring never breaks. And then the wheels—you see they are specially welded, and cannot warp or break. Note also that little rubber cap over the nut of the axle. Sometimes when I have a restless passenger, I want to drive the car around the house without scratching the furniture—it is a little point, but a good one. The materials for all the GENDRON cars are the very best in the bodies, tops and every other part. There is style and service in every GENDRON model—Canadian made, so that any unexpected accident can be easily remedied."

## LOCAL NEWS

A stylish dresser with an economical instinct will order his summer suit at C. B. Pidgeon's tailoring department.

The pressure of gas last evening was exceedingly low owing to a leak in the main pipe on Carman street. The superintendent was in great demand. Finally the leak was repaired about 11:30 o'clock.

Very Rev. W. F. Chapman, V. G., has purchased the lot on the northern side of British street, near the corner of Sydney, on which to build a hall for St. John the Baptist Society. The work of excavating was begun last week, and the erection of the building will be begun at once.

The C. P. R. mechanical department of this division have devised methods to clear the tracks of the post of caterpillars which for over thirty years have been a great source of annoyance during the summer months. Steam will be used to blow the caterpillars from the rails. It is applied from an apparatus attached to locomotive No. 1200, the largest on the division. A clean rail is thus secured and the locomotives have no difficulty in passing.

## CONFIRMATION IN ST. PETERS TOMORROW

His Lordship Bishop Casey will administer the Sacrament of Confirmation to a number of candidates in St. Peter's church tomorrow afternoon at 4 o'clock. The children will make their first communion at the 9 o'clock Mass on that morning.

On next Saturday morning in the Cathedral a large class of candidates from the Cathedral, St. John the Baptist and Holy Trinity parishes will be confirmed.

Instructions have been in process for some weeks past in all the parishes. The number of candidates is an exceptionally large one.

## DECISION GIVEN TO I. R. G. IN TEST CASE

HALIFAX, N. S., June 19—In the Exchequer Court yesterday the case of Waugh vs. the Intercolonial Railway, was finished, and judgment was given in favor of the defendant. This action arose over a railway accident, and the plaintiff claimed \$1000 damages for the death of a person who was killed in the accident at Belmont several years ago. The judge in his decision remarked that "precisions possible had been taken by the railway officials and he therefore gave his decision in favor of the defendant."

## ORGANIZED FIRST BASE BALL TEAM IN ST. JOHN

Visit of William Melville Recalls Old Times

Describes Introduction of the Game Into This City in 1870—Some of the Surviving Members.

St. John has greeted during the past week a distinguished factor in local baseball circles in the person of William Melville, the organizer of the first ball team which ever played on a local diamond.

The nine was gotten together under the directorship of Mr. Melville in the early seventies. Since then this branch of sport has been vigorously pursued and today there are six strong amateur teams, as well as several subordinate aggregations.

Mr. Melville left the city twenty-two years ago and this is his first return visit. He comes to St. John on a mission. He accompanied the captain of his mother, who died at Portland on Saturday last, to this city.

In conversation with a Star representative last evening, Mr. Melville recalled a number of the early battles on the diamond, and the enthusiasm that was aroused by the contests. Parker Melville, a cousin, came from Bangor in 1889, while William Melville followed to the city in the spring of 1870.

At that period baseball had been played in Maine for several years and the sport, it is soon indicated, a number to assist him and the movement to organize a team was vigorously pushed forward. It was decided to name the organization the Mutuals, and the membership grew rapidly.

The problem which then confronted the organizer was that of securing games with outside aggregations. He communicated with several places and a St. Stephen team was invited to play the first contest with the Mutuals. The game took place on the Barracks Square and was witnessed by a large crowd. The popularity of baseball steadily increased and as further matches were contested the interest grew to fever heat.

Among the leading members of the team were—P. A. Melville, who was connected with the Daily Telegraph for a number of years; catcher, C. J. Sullivan; pitcher, Charles Olive, now marine editor of the Times; Harry Masters, Walter Hart, William Finch and others.

Although a member of the club, Mr. William Melville did not play on the team. However, he was a valued member of the first amateur team in this city organized shortly after the introduction of baseball in St. John.

The team was known as the Baltimore. Amateur baseball subsequently became very popular. Other teams were organized including the Alerts and Actives of Portland. A meeting was held and the formation of a league was decided upon. Six teams competed in the matches and at the conclusion of the schedule the Actives captured the championship. They were awarded a handsome trophy donated by the Crawford.

Mr. Melville left the city twenty-two years ago. Although he noticed many new faces, there remained a large number of his former acquaintances and friends. He is now a prominent contractor in Portland, Me.

## THEY TAKE THE GREAT WHITE WAY BY STORM

Combination of Clothes and Whiskers on Street That Couldn't be Beaten

For years it has been the nightly practice of certain of the youth and beauty of the city to parade the great white way of Charlotte street. At times the phantom seekers have happened upon something that has more than a dog's age there is a real live occurrence. Most often it is nothing more than a runaway of a bedouin drunk. But last night the Charlotte street trippers came into their own. The hand organ at the corner was grinding out for—oh, we'll say the forth time—"The Good Old Summer Time" when there came in sight an aggregation that fairly made the blood of the boldest turn cold. Down the street it came, the queerest combination of clothes and whiskers that one can well imagine. Involuntarily a way was made, and without "it" or "the" distance, with noise of awe the group passed through. For some moments a perceptive hush was recorded, the hand organ sounded no more and only the weird spasm of a distant fountain was heard to accentuate the stillness that passed by of the strangers had caused. Slowly the lane filled up and slowly the crowd moved off again on its jostling way.

But there wasn't anything to be excited over after all. The scene was made up of two every day articles of humanity. It was merely Captain Leblanc and his merry crew from over Nova Scotia way taking in the sights of the city.

Captain Leblanc is returning from Quebec, after having sailed a schooner here from Yarmouth. It was a powerful trip said Captain Leblanc last night and in the somewhat unorthodox appearance of his lusty crew the words of the old sea dog found their first observance.

Pius Michaud, M. P. of Edmundston, reached the city yesterday. He is vigorously pushing forward the plans to erect the new court house at Edmundston which will cost about \$100,000. There remains \$15,000 to be raised and Mr. Michaud's business here was to raise bonds for this amount. He arranged the matter with J. M. Robinson and Sons.
