ENEMY ON OFFENSIVE AROUND YPRES HELD IN CHECK BY ALLIES; MORE ABOUT SEA FIGHT OFF CHILE

Enemy In Position on New Route Chosen To Reach Coast, Hammering Away at Allies, But So Far Without Success—Allies Find Floods Hindrance To Their Advance Movement—In Eastern Area Czar's Army Has Driven Back German Centre—Success of Russians Will Mean Earlier Relief For Allies In West—Turkey's Entrance Into Conflict Had Been Anticipated By Russia—London Inclined to Accept Story of Losses Off Chilean Coast—France Declares War On Ottoman Empire.

London, Nov. 5, 9.15 p. m.—No decision has yet been reached in the battle in the sand dunes of West Flanders, and the opposing armies stand now virtually as they have stood for many days.

While the Germans keep hammering away at the Allies around Ypres, which route they chose for their march to the coast, after they had found that the road along the sea barred them, and the Allies are making an effort to move northward to Ostend, neither side has got very far. The Belgians and those supporting them have found that the floods which they created to stop the German advance are a hindrance to their movements, although they have been able to occupy some villages, including Bixchoote, which had been in the possession of the Germans.

Around Ypres, the German offensive, according to the accounts of the Allies has met with no success. In fact it seems that all along the line there has been merely a repetition of artillery duels and of infantry attacks and counter attacks, which some times succeed, but more often do not.

On the frontier in the east more wide sweeping movements are being made by the opposing armies. The Russians from all reports have driven back the German centre to the River Warthe, in Russian Poland, have held back a German offensive movement from East Prussia, are now straightening out their line for a more vigorous offensive against the Austrians, who have been trying to beat back their left wing in Galicia.

It is to the battles in these regions that the British military men now are looking, for they declare that if the Russians can keep up their successful fighting against the Austrians and Germans, relief will come to the Allied armies in the west, because of the necessity for a withdrawal of German army corps from France and Belgium to protect Silesia and East Prussia.

RUSSIA HAD DISCOUNTED TURKEY'S MOVE.

These military observers express the belief that the Turkish threat against the Russian Caucasus will weaken the Russian armies by withdrawals from Poland, but the Russians say that the advent of Turkey into the war already had been discounted, and that they have sufficient troops to deal with Turkey on the spot. The first reports of the fighting between the Russians and Turks are as conflicting as were the first Austrian and Russian accounts of the warfare in Galicia. Each claims to have invaded the other's territory, and to have defeated his frontier armies. These fights, however, probably have been only advance guards affairs, and it is thought here that some time may elapse before a pitched battle takes place.

The Anglo-French fleet continued to bombard the Dardanelles force but the Turks say the warships have inflicted no damage. In other parts of Turkey, British warships are being kept busy. The government at London, however, has ordered that Holy places shall be respected by the British gun fire, so long as the Indian subjects visiting them are not molested.

This necessity for respecting the feelings of her Moslem subjects it is considered, here may hamper Great Britain somewhat in the prosecution of the war against Turkey, but with her large Moslem population it cannot be disregarded. In addition to the assurances received from the Indian princes, England has been informed by the leaders of the Moslems in the Malay States that her war against Turkey will not affect the loyalty of the Moslems to the Empire.

The result of the naval battle off the coast of Chilean between British and German squadrons, few details of which have been received, naturally is the most discussed subject of the war in England. It is realized that the worst accounts which include the sinking of the

Daily Telegraph's Tribute to Fine Condition of Dominion's First Contingent.

London, Nov. 5.—That the Canadian troops need not be detained much longer at Salisbury Plain is the opinion of the London Daily Telegraph, which commenting on the king's inspection, says, "now that their training is all but complete, the time has almost come for them to join the fighting line. They could have no better send-off than the praise and en-

couragement from their Sovereign and the Minister of War."

This opinion coming from such a responsible journal amply refutes the ideas expressed in certain quarters that the Canadian expeditionary force would require several months' training on this side before the troops would be fit for service in the fighting line.

BOMBARDMENT OF JODDAH IS DENIED
Britain Has Pledged Herself Not to Attack Holy Places in Arabia.
London, Nov. 5, 2.14 p. m.—The report current in London last night that the British cruiser Minora had bombarded the Arabian seaport of Jiddah, on the Red Sea, is devoid of foundation. The Minora has not been within five hundred miles of the place.
On issuing this denial today the London official press bureau publishes the text of a proclamation circulated in India, pledging the British government not to molest the Holy places in Arabia. The proclamation points out that no question of a religious character is involved by the war.
The holy places and shrines in Arabia, including Mesopotamia and Jiddah will be immune from attack or molestation by British naval and military forces, so long as there is no interference with the pilgrims from India. The governments of France and Russia have given similar assurances.

NEARLY 300,000 AUSTRIAN AND GERMANS HERE
Will All Have to Report to Registration Offices in the Dominion.
Special to The Standard.
Ottawa, Nov. 5.—Reports to the Mounted Police headquarters at Ottawa from the police who are rounding up the Germans and Austrians in the Northwest show they estimate that there are about 200,000 in the Provinces of Alberta and Saskatchewan also. All of these will have to report at the registration offices at Regina, Saskatoon, Calgary or Edmonton. Other offices may be opened later if considered necessary.
There are about 300,000 Germans and Austrians in Canada altogether and about 15,000 Assyrians.

TURKS IN THIS COUNTRY MUST REMAIN HERE
Will be Placed on Same Footing as Other Alien Enemies—Trade With Turkey Suspended.
Special to The Standard
Ottawa, Ont., Nov. 5.—The government today received a brief message from Hon. Mr. Harcourt, colonial secretary, stating that war had been declared with Turkey. Consequently a proclamation will be issued forthwith placing all Turkish subjects in Canada on the same footing as Austrians and Germans. All trade with Turkey or dealings of any kind with the Turkish government will be prohibited. Turks of military age will be prevented from leaving the country or having arms or explosives in their possession, and they will all have to register the same as the Austrians and Germans, as soon as the registration system is established. The proclamation regarding the Turks will include of course the Armenians, the Syrians, the people of Asia Minor or other subjects of the Sultan.

A BERLIN VERSION OF SITUATION
Says English Have Abandoned Arabian Frontier—Denies Report of Capture by Russians.
London, Nov. 5, 10.05 p. m.—The following despatch has been received from Berlin by the Marconi Wireless Telegraph Company:
"Main army headquarters issued a statement yesterday, denying reports that the Russians had taken German prisoners; that the Germans had left their wounded on the battlefields, or that they had lost machine guns."
"Vienna reports officially that the situation in Galicia is unchanged."
"In the Macva region the Austrians captured large quantities of supplies, and a number of locomotives from the Servians, who are retreating hastily."
"In Egypt the English have abandoned the Arabian frontier, and have withdrawn across the Suez Canal."
"Shanghai newspapers report that the German artillery fire is destroying systematically the entrenched positions occupied by the Japanese around Taitung. The Japanese have positioned themselves to attack the German waters around Taitung. They are sown with mines."

German Agent Scouring Switzerland and Italy for Supplies—People of Ostend Ordered to Take Refuge in Cellars.
Geneva, Nov. 5, via Paris (3.20 p. m.).—According to advices received from Geneva from Munich, fourteen German naval officers and fifty sailors, all in uniform, have left Munich for Turkey. They are travelling by way of Vienna. According to reliable information in Geneva, German agents are abroad in Switzerland and Italy, endeavoring to purchase lead, copper, leather, canned foods, and motors for aeroplanes and submarines. The Swiss and Italian authorities, which already have prohibited the exportation of some of these articles, are taking further measures in this same direction.

BRITISH MINE SWEEPER SUNK.
London, Nov. 5, 4 p. m.—The British mine sweeper Mary was sunk by a mine in the North Sea today. Six of the crew of fourteen were rescued. The survivors who were landed at Lowestoft reported heavy gun firing off the Yorkshire coast this afternoon.

VALPARAISO, CHILE, NOV. 5.—A wireless call from the British cruiser Glasgow—intercepted by the German victors—was the last word received from Rear Admiral Cradock's squadron following the engagement off the Chilean coast Sunday.

GERMAN OFFICERS HAND OUT FURTHER DETAILS OF SEA BATTLE OFF CHILE
Wireless From the Glasgow Last Word from Rear Admiral Cradock's Squadron—Enemy Forced Battle Which was Fought in Teeth of North-eastern Gale—Roll of Ship Rendered Good Hope's Guns Useless, They Claim—Did British Cruisers Get the Leipzig and Bremen Before Going Down Themselves?

The Germans saw the Monmouth sink, and heard an explosion on board the Good Hope and they believe sent the crippled flagship to the bottom. All that night the German cruiser Nurnberg searched the seas for the Good Hope unsuccessfully. They picked up a radiogram directed to the flagship by the Glasgow. There was no reply.

LEIPZIG AND BREMEN NOT HEARD FROM EITHER
There were about 650 men on the Monmouth when she disappeared beneath the waves. Admiral Cradock had 900 men with him on board the Good Hope.
Whether the Glasgow and the transport Otranto, which escaped destruction, survived the damage suffered is not known. The whereabouts also of the German cruisers Leipzig and Bremen remains in doubt.

Further details of the first really important naval battle of the war became known from statements made by German officers. The latter did not hesitate to commend the bravery of the Britishers in the uneven combat, and intimated that an effort to save lives would have been made if the weather had permitted.

The engagement was fought in the teeth of a northerner that assumed almost hurricane proportions. Small boats could not live in the sea. The heavy weather militated against the larger ships, and the Good Hope found her guns almost useless because of the ship's roll. The German China fleet, the cruisers Scharnhorst, Gneisenau and the Nurnberg, had rejoined the cruisers Leipzig and Bremen, which latter had been detached to patrol the coast north of Valparaiso. The unit proceeded southward, apparently well aware of the rendezvous of the British off Concepcion Bay. At the same time the British cruisers Monmouth and Glasgow, accompanied by the transport Otranto, moved north to meet the flagship Good Hope. The Britishers evidently were not aware of the proximity of the Germans, and they met off Cor-

onel. It was six o'clock Sunday night when the Germans sighted the three British ships. The latter attempted to alter their course, evidently with an intention to approach the coast and gain territorial waters, and so avoid an unequal match. The Germans, however, headed them off and forced the battle. At the moment that the German guns were trained, the Good Hope was seen coming at full speed, and through good seamanship she managed to join the other British ships. The Britishers had come about, and the two squadrons sailed southward in parallel lines, the Germans being nearer the coast. Gradually the two lines came nearer to each other, and the Scharnhorst and Gneisenau simultaneously let go their twelve 8-inch guns, which they concentrated on the Good Hope. The firing continued for several minutes without damage. The German shots fell short, and the Good Hope had such a roll that she could not reply. The smaller cruisers were far out of reach.

MONMOUTH'S HEROIC ATTEMPT TO HELP COMPANION.
Slowly the sea fighters drew in nearer, and when the two units were but six thousand yards apart the Good Hope fired her two 9-inch guns. She was still unable to use her 6-inch guns, which, on the gun deck were so near the water line that as the vessel rolled they were almost awash. A terrible broadside from the Scharnhorst and Gneisenau crippled the British flagship, and her engines stopped. The Monmouth, recognizing the distress of her companion, made a dash to cover the Good Hope, but by that time the distance separating the two squadrons had been reduced to five thousand yards, and the Germans were able to bring all their ships into action and to use all the guns of the five vessels. These were directed first against the Monmouth, Glasgow and Otranto.

The Otranto, badly damaged escaped in the gathering darkness, and so on afterwards was followed by the Glasgow, which also had been put out of action, but continued apparently seaworthy. The five German ships continued their attack on the Monmouth and Good Hope until in a few minutes the former sank. By this time only 4,500 yards separated the fighters. The Good Hope, badly damaged, hung on until an explosion occurred on board her. She withdrew to the westward at 7.30 o'clock. As she disappeared flames were seen on her. Whether her crew was able to stop the fire, or if the explosion finally sank her, is not known. The flames died down and she was not seen again. The Nurnberg searched until daybreak for the wounded ship, when the German officers concluded that she had been lost, with all her crew. The only trace found of the Britishers was in the wireless message in which the Glasgow called unsuccessfully for the flagship. It was impossible to save any of the crew of the Monmouth, as the Germans could not put over their small boats in the face of the gale, and the Monmouth could not have lowered her boats. Contrary to first reports the Glasgow did not reach Coronel or Talcahuano, nor did the Otranto find a Chilean port. The German fleet, with the exception of the Leipzig and Bremen, after putting in here sailed again yesterday. If they had any word of the Leipzig and Bremen they did not make it known. The transport Prinz Eitel anchored in the bay last night.

Santiago, Chile, Nov. 5.—News was still lacking tonight concerning the whereabouts of the five missing British and German vessels which were among those participating in the naval engagement off the Chilean coast last Sunday night. These ships are the British cruiser Good Hope which the Germans believe was sent to the bottom; the British cruiser Glasgow, the British transport Otranto, and the German cruisers Leipzig and Bremen.

HEAVY FIGHTING CONTINUES IN FRANCE AND BELGIUM; NO CHANGE IN BATTLE LINE

MOST FIERCELY FOUGHT BATTLE OF WAR IN THE WESTERN THEATRE

Fight Which Has Developed Around Ypres Bitterly Contested With Reinforced German Army Making Desperate Attempt to Hack Road Through to Calais—Allies Holding Enemy In Check, and Inflicting Heavy Losses—Germans Forced to Throw Their Dead Out of Trenches So Deadly Was the Fire of British and French—Indian Troops Take Position in Daring Bayonet Charge.

London, Nov. 5, 9.50 p. m.—The following descriptive account, which has been communicated by an eye-witness present with the general headquarters continues and supplements the narrative published November 3 of the movements of the British force and of the French armies in immediate touch with it.

"November 1—In spite of the great losses which they suffered in their attacks last week the Germans have continued their offensive toward the west almost continuously during the five days from the 26th to the 30th of October. Opposite us it has gradually grown in intensity and in extent of application, as more men and guns have been brought up and pushed into their right, and it has developed into the most bitterly contested battle which has been fought in the western theatre of the war.

"The German artillery, has, to a large extent, been increased by that transferred from around Antwerp. As regards infantry, it is possible that some of the additional troops now appearing on our front have been rendered available by relaxation of the pressure against our Allies to the north of Ypres, caused by the desperate and successful resistance made by the latter, by the harassing nature of the artillery fire brought to bear by the ships against the strip of country along the coast, and the flooding of the area along the River Yser.

"Calais Still Enemy's Objective.

"Forces have been massed also from the south, while another of the new army corps has definitely made its de- parture from the north of France, and is to be gathered from articles in their newspapers, or whether the operation is due to a desire to drive the allied forces out of the whole of Belgium, in order to complete the conquest of that country with a view to its annexation and to gain prestige with neutrals, is immaterial.

"What concerns us more closely is that they have been making, and are still pressing, a desperate attempt to gain the town.

"On Monday the 26th, south of the Lys on our right, the enemy attacked Neuvechappelle, one of the villages held by us. In the evening, advancing under cover of a wood, they managed to gain possession of a portion of it north of the Lys.

"In the centre a bombardment alone was kept up, and some ground was made by us. A detached post, which was attacked in force during the night, drove back its assailants, who left fifty-six dead behind.

"Furious Attack on Allies' Centre.

"Near our left the Germans developed a very strong attack on the section of our line to the east of Ypres. Though supported by a great mass of artillery this was checked, but it had two results. One was that our position was re-adjusted, and the other was that our extreme left alone advanced, in conjunction with some of our allies.

"On Tuesday, the 27th, the Germans rather forced their principal attention on our right centre and most desperate fighting took place for the possession of Neuvechappelle.

"In spite of repeated counter-attacks by our troops, the enemy during the day managed to hold on to the northern part of the village, which he had gained the day before.

"Toward evening we have gradually regained part of the place by step-

MAJ.-GEN. HUGHES EXPECTED HOME ON SUNDAY

Due in New York Saturday—Premier Borden at Hot Springs.

Ottawa, Ont., Nov. 5.—Major-General Sam Hughes is expected to arrive in New York on Saturday by the American liner St. Paul and will be in Ottawa on Sunday.

Sir Robert Borden is still at Hot Springs, Virginia, and intends to stay there until Sunday week.

Hon. Robert Rogers is in Winnipeg and may not return for another week or so.

Hon. Dr. Roche is at his home in Minnedosa, Man., and is reported as recovering rapidly from the effects of his recent operation at Rochester, N. Y.

PRUSSIAN PRINCE WOUNDED IN BATTLE

Names of Fifteen Officers Killed and Twenty-two Wounded in British Casualty List Issued Last Night.

Amsterdam, via London, Nov. 5.—Prince Joachim Albrecht of Prussia, son of the late Regent of Brunswick, has been wounded while fighting in France, according to the Telegraaf.

London, Nov. 5, 8.45 p. m.—A casualty list dated October 31, issued here tonight, gives the names of fifteen officers killed and twenty-two wounded. Among the killed is Captain the Hon. H. B. Bruce, of the Argyll and Sutherland Highlanders. In the list of wounded appear the names of Lt. Col. E. P. Lambert, of the Royal Field Artillery, and Major the Hon. A. C. Weld Forester, of the Grenadier Guards, third son of Baron Forester.

While the army list of Great Britain gives no Captain H. B. Bruce, it does contain Captain the Hon. Henry L. Bruce of the Third Royal Scots, heir of Baron Abernethy. This Captain Bruce, in 1906, married Camille Clifford, an American actress, whom he met while she was playing in an American music hall production in London.

Aldershot, England, via London, Nov. 5 (11.10 p. m.)—Aviator Busk of the aircraft staff, was burned to death in mid-air today when the biplane which he was testing caught fire.

While about one thousand feet above the ground the biplane suddenly burst into flames. Busk tried to descend by gliding. This continued for nearly a mile, the aircraft meanwhile blazing furiously.

The aviator was burned to death before the machine struck the ground.

ENEMY TRYING TO FORCE ROAD THROUGH LINES OF ALLIES TO CALAIS

(Continued from page 1)

Monmouth and serious damage to the Good Hope, probably are true.

"It is the price of Admiralty," says the average Englishman of this and other losses to ships that have been sustained since the war commenced, but every Britisher seems confident that when the main fleets meet these losses will be more than wiped out. It is expected here that should the German fortress of Tainig Tau fall, the British and Japanese vessels engaged there will start out in an endeavor to round up the eight or nine German cruisers still at large.

FRANCE DECLARES WAR ON TURKEY

Paris, Nov. 5 (11.30 p. m.)—The French government tonight declared that "a state of war exists between France and Turkey," according to the Bordeaux correspondent of the Havas Agency. He says that the foreign office issued the following note:

"The hostile acts of the Turkish fleet against a French steamer, causing the death of two Frenchmen and serious damage to the ship, not having been followed by the dismissal of the German naval military missions, the measure whereby Turkey could disclaim responsibility, the Government of this Republic is obliged to state that as a result of the action of the Ottoman government, a state of war exists between France and Turkey."

BELGIUM

Havre, Nov. 5 via Paris, Nov. 5.—The Belgian government issues the following statement:

"The Belgian advanced detachments which progressed as far as Lomme, toward the Yser, between Saint George Capelle and Tervate, could only advance with great difficulty owing to the poor roads and the inundated country. They were also harassed constantly by the infantry and machine gun fire of the enemy.

"The enemy still occupies Saint George Capelle and the farms located on the left bank of the Yser in the neighborhood of Schoorbakke.

"To the south of Dixmude the Germans made an attack last night in the direction of the Blixschote bridge. They failed in the attempt, and were forced to evacuate completely the village of Blixschote, to the south of Zandvoorde.

"The enemy continues to attack with the greatest violence along the front of the allies, between Hollebecke and Messines.

"All positions have been held, and at certain points the allies have progressed, notably towards Hollebecke and Blixschote.

"In the region of Armentieres, and to the south of the Lys, the situation remains the same."

TURKEY

Amsterdam via London, Nov. 5, 7.35 p. m.—The following Turkish official statement is contained in a despatch from Constantinople:

"The Russians are now strengthening their positions near the frontier, but have been repulsed completely from the Karaklissa and Teehan districts.

"During the bombardment at the entrance to the Dardanelles the hosts first fired 240 shells without causing material damage. Our forts fired only ten shots."

FRANCE

Paris, Nov. 5, 10.50 p. m.—The following official communication was issued at the war office tonight:

"There is no new information on the operations at the north of the Lys.

"In a violent offensive movement by the Germans north of Arras, we lost a few trenches, which later were retaken.

"Yesterday the Argonne (region of St. Hubert), all the German attacks have been successfully repulsed.

"Concerning the remainder of the battlefield there is nothing of importance to report."

RUSSIA

Petrograd, via London, Nov. 5, 10.35 p. m.—The following official communication has been issued from Russian general headquarters:

"We continue to progress on the East Prussian front. The Germans are falling back along the whole front, keeping a fortified position only in the region of Wergbolino.

"On the left bank of the Vistula the Russian army is continuing its vigorous attack, pursuing the retreating enemy. The crossing of the river San by our troops continues with success. The Austrians also are retreating.

"In the Black Sea region no change is reported."

GERMANY

Berlin, Nov. 5. (by way of London, 4.25 p. m.)—The German general headquarters issued the following statement today:

"Yesterday the Belgians, assisted by British and French troops, made a fierce attack, by way of Nieupoit, between the sea and the inundations, but they were easily repulsed.

"Near Ypres, southwest of Lille and south of Berry-Au-Bac, in the Argonne region and in the Vosges, our attacks are progressing.

"In the eastern theatre of the war there have been no material events."

CAVALRY OF CZAR STRIKING TERROR INTO ENEMY IN EAST PRUSSIA

London, Nov. 5.—Professor Bernard Pares, the British government's representative with the Russian headquarters in the field, sends the following report:

"Trustworthy eye-witnesses speak with great enthusiasm of the conduct of the Russian troops on the upper Vistula river, where more serious fighting is to be expected.

"Here again the German heavy artillery commands respect, but the Russian field guns and howitzers are served with remarkable precision and alertness, and meet with great success. The complete confidence of the Russian infantry in the effectiveness of the Russian artillery is a striking and general feature.

"The men are always training in bayonet work, which the enemy often avoids. The Russian cavalry has, by different accounts, shown great dash and has been handled with speed and skill. In raids beyond the river on the enemy's communications Russian cavalry divisions have several times disturbed German forays, taking many prisoners. Large numbers of stragglers have been taken by the Russians.

"A Hungarian division put up good resistance for three days, but then collapsed.

"The population in Southern Poland is in a state of profound distress and the Russians are organizing extensive relief work.

"The Germans compel captured officers to work with the men, and spit at them and drive them about, bare to the waist.

"In East Prussia the German communications are very good. Underground telephones are frequently discovered. Large forces are in close contact here, and the Russian counter-

HOSPITAL SHIP STRUCK MINE

London, Nov. 5, 4.45 p. m.—The hospital ship Rohilla, which was recently wrecked off the Yorkshire coast with a large number of casualties, was struck by a mine and so badly injured that her captain was forced to run her onto the rocks in order to escape sinking at sea. Captain Wilson, the commander of the Rohilla, gave testimony to this effect at an inquest held today.

This was the first time that the hospital ship had struck a mine. It had been generally understood that the vessel got out of her course near Whitby and piled on the rocks.

Captain Wilson said that when the Rohilla struck the mine he knew she had been badly hurt and that had he not run her ashore she would have sunk with the loss of all hands on board.

Very Exciting A Home Story

COME PREPARED FOR A LITTLE CRY, for this is a softening picture truly. A dear old mother seeks her son in the wealthy class of New York. He is ashamed of her. She is heart-broken and wanders into the strange city rather than be a drawback to her boy. He advertises for her, sends detectives on the trail and finally locates her in a hospital. It is a picture with a great lesson. It will make a whole lot of boys and girls and grown-ups too think some. It will bring forcibly to mind the Bible injunction, "Honor thy father and thy mother," etc.

TURKEY HAS LARGE ARMY MASSES ALONG FRONTIER

Nearly Hundred Thousand lined up—Russia's sudden advance for purpose of overawing Kurd Tribe which are showing little interest in Turkey's success.

Petrograd, Nov. 5.—A Turkish army ninety thousand strong, consisting of the Ninth, Tenth and Eleventh Army Corps, is massed along the Caucasian frontier, according to the Novos Vremya. Many villages have been occupied by the outposts of this army.

This Turkish army, the Novos Vremya continues, would consist under normal conditions of eighty battalions of infantry, sixty battalions of artillery containing 230 guns, and forty squadrons of regular cavalry, but to it has been added fifty regiments of Kurd cavalry, amounting to twenty thousand men.

Russia's sudden and energetic advance into Turkey is believed in Petrograd to have been meant to disband and overawe the Kurd tribes, which are little interested in the success of Turkish arms and are more concerned in the safety of their own villages.

Among the towns occupied by the Russians is Akhty, an important junction of the highways to the upper Euphrates river.

It is rumored in Petrograd that General Sanders Pasha will assume command of the Turkish troops on the Caucasian front.

London, Nov. 5.—Major General Sir Robert George Kekewich, hero of Kimberley in the Boer war, and who had just been recalled to the colors for a high position in Earl Kitchener's new army, died suddenly today at his home in Devonshire.

FRENCH SOLDIER UNDER FIRE CREDIT TO NATION

Acquiring greater experience, and progress of war serving to bring out best phases of character—President Poincaré says army is worthy of the country.

Paris, Nov. 5.—President Poincaré has sent to War Minister Millerand a letter in which he declares that after a long series of violent engagements the Allies have repulsed the desperate attacks of the enemy. The text of the letter follows:

"My Dear Minister: After a long series of violent combats our armies, together with the Allied troops, have succeeded in repulsing the desperate attacks of the enemy. They have given proof, in this new phase of the war, of qualities as admirable as those shown by them in the victorious battle of the Marne. As the hostilities progress the French soldiers, without losing anything of their ardor and his courage, is acquiring greater experience, and adapting to better advantage his inherent virtues, to meet the exigencies of military operations. He is showing an incomparable reserve force and at the same time he is being trained in patience and in tenacity under the fire of the enemy. There is being established between the commanding officers and the men a confidential intimacy which is far from undermining discipline, enables it further by an enlightened consciousness of solidarity in devotion and in sacrifice.

Self-Forgotten in Glory of Nation. "Every time that one returns among our troops one is astounded by the absolute elimination of all personal interest, of the glorious impersonality of the courage displayed, and by the greatness of this collective soul in the midst of the struggle."

FOR THE DEFENCE OF COAST OF CANADA

Steps likely to be taken as result of conferences of Sir Richard McBride with Admiralty.

London, Nov. 5.—Sir Richard McBride, Premier of British Columbia, expects to sail on Saturday for Canada via New York, his visit having been extended for one week only. Although the premier's hurried trip was ostensibly taken in the interests of his own province, it has really been chiefly in the interest of the Dominion that Sir Richard was in Ottawa, and also conferred with Sir Robert Borden at Hot Springs, Va., before sailing for England.

During the past week it is understood that Premier McBride has been a daily caller at the war office, the admiralty and colonial office, where he has had, it is believed, important conferences on the subject of Canada's coast defence and other matters. As a result of the conferences it is expected that important steps will be taken as regards Canada's coast defence.

MUST REMAIN IN U. S. UNTIL WAR IS OVER

Officers and men of German cruiser cannot return to boat.

Washington, Nov. 5.—The German officers and two men of the crew of the German cruiser Geier, now at Honolulu, who have been held for some time at San Francisco, will be paroled, but must remain in the United States until the end of the war. The German embassy was so informed today by the State Department.

TURKEY'S DEATH SENTENCE, SAYS GENERAL PASHA

Paris, Nov. 5.—A despatch from Bordeaux to the Havas Agency says that General Mehmedcherif Pasha, the leader of the opposition in Turkey, whose sympathies with France are well known, has telegraphed to President Poincaré and the council of ministers his indignation at the step taken by Turkey which, he declares, is its death sentence.

London, Nov. 5.—A despatch from Sofia to the Times says: "The Bulgarian government has received formal assurance that the Greek government is determined to maintain neutrality and has refrained from ordering a mobilization. The Serbian minister here announces that Serbia will offer Bulgaria her moral support should Turkey attack Bulgaria. No friendly advance has been received from Roumania."

GABLE SERVICE TO AUSTRALIA RESUMED

Station at Fanning Island wrecked at beginning of war by German cruiser.

Vancouver, Nov. 5.—The Australian cable is up, and now working again. In the opening days of the war a German cruiser landed a party and wrecked the installation at the Fanning station in the Pacific, where the cable landed between Vancouver and the Andes. Much inconvenience was caused thereby, and the work of the allied fleets in sweeping the Pacific was hampered.

NEW FINANCE MINISTER IN ITALY

Rome, Nov. 5.—Luigi Rava, minister of finance, who held office in the new cabinet announced yesterday, was replaced today by Signor Danco, until now, minister of public instructions.

In the latter office Danco is succeeded by Signor Grippo. Alky—Mother, I may as well tell you the truth. I've married a chorus girl. Mother—Oh! Oh! How could you? Alky—I did it to save father. He was desperately in love with her. Life.

AUSTRIAN LEFT WING'S RESISTANCE BROKEN AT LAST IN EAST PRUSSIA

Advance of Czar's Army has become general in Eastern war zone—Active in Caucasia—Admiralty at Petrograd announces Turkish Black Sea fleet has taken refuge in Bosphorus.

London, Nov. 5.—Further details from the scene of the fighting in the east indicate that the forward movement of the Russians has become general. Even the Russian left wing, which has been held stubbornly by the Austrians for weeks past, has joined in the advance. This is admitted by a conservatively worded official report given out in Vienna, which declares that the Austrians, having maintained their position on the Lysa, where the Teutonic allies pivoted in order to let the rest of the army complete its wheeling movement to a new line, are now retiring. At the same time Austria sets forth certain minor successes along the line from the River San to Jaroslau.

Petrograd, Nov. 5.—The following official communication has been received from the Russian general staff: "In Caucasia, one of our columns suddenly attacked the enemy near Ardost (fifteen miles south of Kars, near the boundary of Turkish Armenia). The Turks fled, abandoning their wounded. "Having dislodged the Turks from the village of Id (about sixty miles west of Ardost, over the line into Turkish Armenia), we took a great quantity of food. After a violent combat our troops seized Khorasani (in Turkish Armenia), thirty miles south-

BRITAIN CAPTURES ANOTHER WAR PRIZE

Queenstown, Nov. 5, 6.17 p. m.—The German sailing ship Melpomene, which sailed from Tocopilla, Chile, July 8, laden with nitrates, was towed into Queenstown today by a British cruiser, which had captured her. Captain Ingelmann said neither he nor his crew had heard that a war was in progress.

GREAT BRITAIN DECLARES WAR ON TURKEY

London, Nov. 5.—All uncertainty regarding Turkey's position was ended today. The foreign office officially announced that England has declared war on Turkey, and it is expected that this action will immediately be followed by France, Russia, Serbia, Montenegro, and possibly by Belgium and Japan. The Turkish government yesterday withdrew all of her diplomatic representatives from Serbia, England, Russia and France, and Russian troops have already invaded Turkey, while the Anglo-French fleet is bombarding the Dardanelles. Great Britain's proclamation reads as follows: "Owing to hostile acts committed by Turkish forces under German officers a state of war exists between Great Britain and Turkey from today, and all proclamations and orders-in-council issued with reference to the state of war between Great Britain and Germany and Austria shall apply to the state of war between Great Britain and Turkey." A privy council was held in Buckingham Palace this morning, to discuss this question. At its conclusion King George signed the documents proclaiming the state of war, and the announcement was made. Tewfik Pasha, the Turkish ambassador, who was handed his passports by the foreign office yesterday, left the embassy this morning with his staff for the Charing Cross station, en route to Constantinople.

SORE DEFIED DOCTORS

Zam-Buk Worked a Marvellous Cure.

Mr. Earle G. Appleby, of Big River, Sask., writes: "Two years ago, while at work, I injured my left heel. The wound did not heal, but left an open sore about an inch and a half long. As you can imagine, this was extremely painful. I tried every salve that was mentioned to me, but could not get relief, and so I then tried several old-fashioned remedies, such as wax, dropped into the sore, hot tallow, etc., and finally went to a doctor who stitched the sore. This was fairly successful for a time, but last winter the wound opened up again, and was as bad as ever. To say I was discouraged would be putting it mildly. I started in again trying all kinds of remedies, and suffered hours of agony. My predicament was noticed by a fellow workman, who persuaded me to give Zam-Buk a trial. I did so, although I did not expect it would prove any better than the other remedies I had tried. In a short time after Zam-Buk had been applied the inflammation and pain were practically gone. Within a week the sore showed signs of healing. I continued with Zam-Buk and it finally closed the sore and healed it completely. I consider this cure so marvellous that I am sending this unqualified testimonial, hoping it will influence other sufferers to give this wonderful ointment a fair trial."

STATES SENDING MAN TO LOOK INTO CONDITIONS OF WAR PRISONERS

S-STOVES & HEATING
STOVES
The Gurney-Oxford is a Remarkable Stove
BUYING a stove is not something to be decided off-hand.
Cheapness is not the consideration. Quality is.
If a stove is extravagant in fuel it should not have a place in your house.
The Gurney-Oxford is a truly remarkable stove.
The Economizer, fitted to the stovepipe, gives you complete control of the fire always. One turn of the handle dampens the fire down to a spark that consumes practically no coal at night and between meals.
The fire is supported on grates that present a large surface to the air. This means perfect combustion and economy.
The heat from the fire box goes through a series of divided flues, over and around the oven, and not up the chimney.
Will you come in and allow us to show you the many good points of the Gurney-Oxford Stove?

THE MENACE TO GERMANY

Upon the continued progress of the Russians in the eastern war area, depends, to a greater or less extent, the success of the operations of the Allied armies in France and Flanders, is the opinion of London military experts at present. Paradoxical as this may appear, it is believed to most nearly represent the actual condition in the European war theatre. The German and Austrian forces, facing the Muscovite advance in the eastern country, are being maintained in strength only by an ever-increasing effort and it is pointed out that if the Russians can continue their steady advance into German and Austrian territory, the situation must become of such terrible seriousness to Germany that it will be necessary for the Kaiser's generals to weaken their lines in France and Flanders in order to avert a terrible disaster at the hands of the Russians.

Since the first abortive dash, culminating in the defeats of Osterode and Allenstein, the Russian advance has been as resistless as the tide. Once hurled back by the might of the armies of Germany and Austria, the Russian leaders simply selected their own ground, permitted their reinforcements to come up, strengthened the weak spots in their lines, and fortified with the knowledge that they possessed the necessary strength to pierce the armor of the German defence system, waited for the foe to come to them. Then was seen the first error of German strategy; under-estimating a foe which, though driven back in the earlier battles of the war, had merely gathered reserve energy for a continuous forward movement.

Flushed with the success of Osterode and Allenstein the Germans carried the fighting to their stolid enemy. But the Russian tide did not recede as was expected. Instead, day after day of terrible fighting saw the Muscovite lines apparently as steady as ever and finally the forces of the Kaiser were compelled to draw back before the men of the north. They are still retreating but the advance of their enemies is not hurried.

Attaches with the Russian army are impressed with the thoroughness of the campaign being carried on, if a railway is taken, it is at once related to the Russian gauge, and the line of communication kept absolutely free from danger of interruption. Supplies and reinforcements are sent as regularly as if the czar's soldiers were merely assembled for autumn manoeuvres instead of in the midst of a campaign of life and death, the greatest in the history of the world.

Thus it is that, after three months of war, the Russians are less than 200 miles from Berlin at the point of their nearest advance and still have an army estimated at 3,000,000 men which has not smelted powder. This second army equipped to the last button is waiting only the approach of the bitter Russian winter to carry the campaign forward into the heart of Germany with a stolid assurance, terrifying by reason of its very certainty. No wonder the Kaiser casts anxious eyes at the approach of the Great Bear from the Urals. It is a new and revived Russia, sober, earnest and menacing, that rings the death knell of the brand of German culture which burned Louvain, sacked Malines and destroyed at one blow the treasures which civilization spent centuries and millions in acquiring.

To meet the danger in the east the German war power must soon withdraw divisions and army corps from the French and Belgian field, while the power of the Allies grows with each body of reinforcements. To date the British, French and Belgian forces have withstood the most desperate attempts of the Germans to break through to the French coast towns. Today the Allied line is nearer the German frontier than was the case a week ago and a week hence will see it still farther advanced.

Even if Germany manages to escape drawing from her western battle line to meet the Muscovite onslaught and the effect of the Russian advance merely prevents the sending of more troops against the Allies, the result must be the same. Great Britain and France are in a position to strengthen their lines with fresh troops and if Germany is unable to similarly relieve her tired forces she is bound to retreat. The Germans now fighting in France and Flanders have suffered almost to the limit of human endurance. There must come a break and every day Russia continues her terrible pounding attack at the "back-gate" of Germany, hastens the time when the "front door" guard must be reduced. Then it will mean a speedy inroad into the German household and a dismantling of the household gods. That day will see the end of the power of Prussian militarism.

"MADE IN CANADA"

Cables from London indicate it as the opinion of well-informed newspaper men in the "heart of the Empire," that the Canadian contingent now on Salisbury Plains, will soon leave to take its place on the Empire's battle line in Belgium and Northern France. This is a distinct tribute to the quality of the Canadian force.

When the contingent reached England it was the expectation that it would be, for some time, under canvas at Salisbury seasoning out and putting the finishing touches to its military education. Even at that early day the bearing and equipment of the force won the admiration of the British military experts who saw it and at once, it won for itself the title of "the complete army."

At a dinner in London tendered to Major General the Hon. Sam Hughes, no less a personage than Earl Roberts, Field Marshal of the Empire's army, took occasion to publicly thank the Canadian Minister of Militia, and to compliment him upon the efficiency and quality of the contingent, and the remarkably quick time in which it had been organized and sent forward.

At the review by His Majesty the King and staff, during the present week, military authorities again expressed themselves in terms of the highest praise upon the contingent and its fitness. And now, as if to show that the many compliments showered upon the Canadians and Canada, were not the empty platitudes of politeness but really expressed Britain's testimony that the men of the Dominion had the quality to bear well their part in the Empire's struggle, comes the opinion, from a highly authoritative source, that the Canadians are to be speedily despatched to the fighting lines.

This will be good news to every officer and man with the contingent and will also arouse a feeling of pardonable pride that the complete army, "made in Canada," has so well stood the initial tests and established its quality. On the battlefields will come the supreme trial and every man, woman and child in the Dominion will pray that our boys will emerge from it safely. But whether they are spared to return to us or are destined to leave their bodies to mingle with the dust of conflict on a hard fought field, we will not forget that Canada's gift of men has "passed muster."

Opinion seems to be divided as to whether it will be the British Navy or the Monroe Doctrine, which will prevent the Germans from sending soldiers to Canada. We incline to the navy. The Monroe Doctrine, at best, is but a "scrap of paper," while the British Navy suggests another sort of a scrap.

A German writer expresses the opinion that never again will there be a kingdom of Belgium. But we are inclined to think the Allies will have the last word about that.

Judging from the activities of the local firefighters the thing to do when the Germans come to St. John will be to ring the fire alarm.

THE HOME DEFENCE MOVEMENT IN MONTREAL

Montreal, Nov. 5.—Machine gun sections are to be added to the strength of the Montreal Home Guard Regiment, which is now being organized. It was stated today at the headquarters offices in the Transportation Building that a number of volunteers for the Home Guard had desired to contribute to the purchase of Maxim guns and the establishment of sections for this work, in addition to their ordinary subscriptions for arms.

While the work of recruiting has so far been left largely in the hands of the members of the committee, already nearly 150 volunteers have come to the headquarters office and paid in their \$35 a piece to provide for their rifles, ammunition and equipment.

For Patriotic Fund.
Hon. A. T. Dunn, Collector of Customs, has forwarded the sum of \$182.61 to the Commissioner of Customs at Ottawa for the Canadian Patriotic Fund. This amount was raised by the voluntary contribution of one day's salary from each officer of the customs staff at this port, notwithstanding they had already contributed to the local fund, also in many cases to the Belgian and Red Cross funds. If the commissioner's appeal meets with the same hearty response in other places that it has here, the result should prove very gratifying to him, as well as adding a considerable amount to this very worthy fund.

Unemployed Aliens.
The Board of Trade received a letter from the secretary of the Montreal Board yesterday thanking the St. John Board for its co-operation in the matter of unemployed aliens, and stating that at an interview on Monday last with the federal cabinet it was found that the government was taking satisfactory steps to meet the situation.

War - To a Woman.

Night after night wide-eyed with fear
The tramping of marching feet I hear!
The white battalions of the dead
Advancing with a thudding tread
That chills my blood and robs my brain
Of power to think! When I would fain
Flee from the sound—no matter where
I go, that tramp, tramp, tramp is there!

Each night the sound grows louder
—
Shoulder to learn the reason why!
The ranks have swelled from sun to sun,
And fresh recruiting is begun
When every reddening dawn re-tells
The death-knell of ten thousand souls!

Up country lane and city street
The armies that know no retreat
Come marching with the rattle of drum,
With that strange thudding tread they come!

Hark! They are drawing nearer: See!
What have they come to ask of me?
Now they are halting at my door!
Death is demanding of me—more!
Merciful God! Must I too give
All that I have? Why should I live
And love and heart is it to feed
Just an insatiate monarch's greed?

They've gone! And down that bleeding track
Of women's hearts—none looking back—
That ceaseless tramp, tramp, tramp
goes on,
And I am kneeling here—alone!

Before the War.

(New York Times.)
Following are samples from speeches of the Kaiser delivered in the years preceding the war:
"We are the salt of the earth; we must show ourselves worthy of our great destiny."
"There is only one law—my law; the law which I myself lay down."
"The best word is a blow—the Army and the Navy are the pillars of that State."
"A ruler may be very disagreeable, and I will be disagreeable if I think it necessary."
"The soldier must not have a will of his own—they must all have only one will, and that will mine."
"Only one is master of this country. That is I. Who opposes me, I shall crush to pieces."
"We Hohenzollerns take our crown from God alone, and to God alone we are responsible in the fulfillment of duty."
"The mighty German Army is the mainstay of the peace of Europe."
"The ocean is indispensable to Germany across it must any great decision be again consummated without Germany and the German Emperor."
"Our German people will be the granite block on which the good God may complete His work of civilizing the world."
"Any opposition on the part of Prussian noblemen to their King is a monstrous thing."
"God liveth as of old. Our great Ally still reigneth."
"My course is the right one, and in it I shall continue to steer."
"Neptune with his trident is a symbol for us that we have new tasks to fulfil. That trident must be in our hands."
"Furrah for the dry powder and the sharp sword, for the end we have in sight and the forces we are bending towards it, for the German Army and the General Staff!"

The German Brand of News.

(Winnipeg Free Press.)
One thing which the Ottawa government should at once do, and which it should have done weeks ago, is to exclude the Lincoln Pette Presse of Lincoln, Nebraska, from the Canadian mails. Over a month ago the Free Press drew attention to the fact that this rabidly pro-German weekly was coming into the Canadian West in large numbers. In an issue which at that time came under notice the Lincoln Pette Presse hinted that another Sam Houston was to be found to repeat in Western Canada the history of Mexico.
Several copies of the issue of the Lincoln Pette Presse dated Oct. 29 have been sent to The Free Press by readers of this paper. This issue bears on its front page, across three columns, the heading "German Successes," and some of the sub-headings read as follows being translated:
"The Allies are Pushed Back in the East and West Along the Whole Line."
"The Forts of Verdun Fall One After the Other."
"Preparations for an Attack on England Proceed."
"England, France and Russia Lack New Recruits."
"The Prussian Parliament Unanimously Approves Huge Sums for the War."
"Germany, the Richest Country in Europe."

Prince Louis of Battenburg

(Ottawa Journal)
A cruel fate has fallen upon Prince Louis of Battenburg. Those who started criticism of him did a rotten thing. A man who had become a British subject at the age of fourteen, who had spent forty-six years in British naval service, who had worked his way up by merit from midshipman to Sea Lord, a man of honor by every standard, whose brothers were in the fighting line where one had just met a brave man's death, has been driven from his post by somebody's vile mind and vile ability to start dirty gossip. The thing isn't British. Once the attack started, the tremendous nature of the present crisis was bound to suppose to lend such weight to insinuations that neither the government nor Prince Louis could disregard them; but probably one memory of the war which will be regarded with least pride by the British people of the future will be this sacrifice of a brave and able man to contemptible suspicions.

A New Scotch Reel.

(From the London Times.)
Dance, since ye're dancing, William,
Dance up and down,
Set to your partners, William,
We'll play the tune!
See, make a bow to Paris,
Here's Antwerp too;
Off to the Gulf of Riga,
Back to Verdun—
Ay, but I'm thinking laddie,
Ye'll use your shoos!

Dance, since ye're dancing, William,
Dance up and down!
Set to your partners, William,
We'll play the tune!
What! Wad ye stop the pipers?
Nay, 'tis over soon!
Dance, since ye're dancing,
William,
Dance ye purr loon!
Dance till ye're dizzy, William,
Dance till ye swoon!
Dance till ye're dead, my laddie!
We play the tune!

Who's For the War?

Who's for the war, who's ready to go
To help France and England over-throw,
That boastful braggart of Teuton race,
Who destroys sacred churches and
show no grace
To work of art, be they ever so rare,
But applies the torch with its lurid glare
To ancient cathedrals and cities sublime
In his wild, mad rush up the ladder to climb
Of fame and power and might.

Who's for the war, who'll go to the front
Every man in his place in the ranks will count
With the thousands that wanted to drive back the hordes
Of Germans and Prussians all marching westward
Their object is Britain the land of the free
But we've bottled their feet up in the North Sea.
Their armies we'll shatter their boasting shall cease
They never again shall disturb Europe's peace
And spread death and destruction around.

Perfect Glasses Guaranteed

When eyes are examined a prescription for glasses is made out by the optometrist or oculist. If he is a competent eye specialist, the prescription is a mathematical correct specification for lenses exactly suited for your eyes, and the lens maker must follow those specifications with equally as exact mathematical correctness.

Our facilities for manufacturing lenses are unequalled in the Maritime Provinces. We guarantee the perfection of every lens we make. Moreover we guarantee that the frames holding the lenses will be properly fitted to your face, and further guarantee that examination by our optometrist will reveal the true condition of the eye and their prescription be correct.

Another important advantage is that Sharpe's prices are always fair and reasonable.

WIRELESS STATION AT TUCKERTON, N. J., HAS NOT BEEN CLOSED

Washington, Nov. 5.—Navy department officials said tonight that the Tuckerton wireless station had not been closed, and that there would be no interference with official messages. They explained that the reason for the Western Union Telegraph Company's announcement was that the station was so congested with messages that a temporary suspension of business had been determined upon. The suspension of that business would last only three or four days, it was said, while messages on hand were being disposed of and some repairs made to the station.

FOUR HOME DEFENCE.

Mayor Frink is still taking names for the proposed guard of middle-aged men which he has suggested, and a considerable number have intimated their willingness to serve. The chief difficulty in the way of the project is that of securing arms and accommodations for the men to drill. The date for the men to drill, the troops are requiring all the rifles, the drill sheds will all be in use this winter and the ranks will be flooded. His Warship stated yesterday that another difficulty would be that of maintaining control and discipline in such a corps. He is at present endeavoring to ascertain what arrangements can be made for the formation of the corps.

Bibles For Soldiers

The executive of the N. B. Auxiliary of the Canadian Bible Society met in their rooms on Canterbury street on Wednesday afternoon, with His Honor Judge Forbes, provincial president, in the chair. Those present were Rev. Dean Schofield, Messrs. R. T. Hayes, George A. Henderson, James Myles, J. S. Armstrong and District Secretary H. R. Boyer. The business relating to the purchase of the new Bible house on Gorman street, opposite Trinity church, was considered. It is hoped to have the new quarters ready to move into by the first of May. The question of presenting Testaments to the soldiers employed in home defence was also discussed, and it was agreed to distribute Bibles to them. It was also decided to give Bibles to every soldier going to the front from New Brunswick, this work to be independent of the work being done by the Canadian Bible Society.

Three cars loaded with provisions, clothing, etc. for the Belgians left here yesterday by C. P. R. for St. John. There are now a crew of men at work packing barrels for two more cars which are expected to be loaded tomorrow. Two carloads are expected to arrive here from Stanley today, and these will be sent to St. John probably on Saturday.

MORE FERTILIZER FOR THE FARMERS OF NEW BRUNSWICK

The New Brunswick agricultural societies have secured 100 tons of muriate potash, which will be landed in St. John about the last of the month. The potash will be supplied to the agricultural societies in different parts of the province. Several years ago the farmers took up the matter of mixing their own fertilizers and the different agricultural societies took the matter up and through the aid of the Provincial Department of Agriculture were enabled to have sufficient united organization to purchase the different chemicals in large quantities and thus saving the labor cost in connection with mixing them. The experiment has proved successful and this year more farmers than ever entered the societies for the purpose of securing their fertilizers.

What is the life of the big guns that are playing so great a part in this war? A big battleship gun is used up after firing a hundred rounds. If each shell started the moment the one before had left the muzzle the gun would only last three seconds! After a hundred rounds the rifling of the core or lining of the gun is destroyed by the hot gases from the explosive, not as one might suppose, by the friction of the shell.

There can be little doubt today that the Kaiser's third son, Prince Adolf, was mortally wounded in action, as the "News of the World" reported a fortnight ago. We are informed that surgeons were hastily summoned from Berlin, but his condition was too serious for an operation. A post-mortem revealed the fact that the bullet was a German bullet. The body was embalmed and sent back to Germany.

TO ORGANIZE FOUR REGIMENTS OF MOUNTED RIFLES IN CANADA

Men being enlisted and drilled - Non-commissioned Officers' Classes.

Lieutenant Colonel B. R. Armstrong, recruiting officer for the New Brunswick Infantry Regiment for foreign service, was quite busy last evening enrolling men. About a dozen men were added to the list last evening, and it is expected that many more will present themselves today. Each man as he is taken on is placed on the payroll, and he also receives seventy-five cents a day subsistence allowance. The men are allowed for the present to remain at their homes.

It was reported that twenty more men had been sworn in yesterday in places outside the city, and that these would be brought in as soon as accommodations for the men could be fitted up. At the armory last evening many of the units had men in training and the scene inside the building was an animated one. In one part a large company of recruits was being drilled in marching. Another group was made up of non-commissioned officers who were receiving instructions in matters pertaining to their duty. Upstairs the officers were engaged in talking over plans and the arrangements of matters connected with the different departments of the militia here.

Groups of soldiers were seen everywhere and it was evident that the business of enrolling was being taken seriously by everyone. The formalities were in no way disregarded and when the men passed one another the proper salutes were exchanged.

Owing to the necessity of devoting the armory to the housing and preparing of men for the second contingent of the 28th Dragoons, now engaged at the remount depot, will be obliged to move into the new wing of the exhibition building, the use of which has been granted by the Exhibition Association. A considerable amount of fitting will be required to accommodate the men, the chief needs being beds. It has been suggested that these be supplied by the city. The men are employed by the British government in connection with the shipment of cavalry regiments in hand they will be obliged to deal with it. It is felt that the city could, by preparing accommodation for the men in the exhibition building, assist the British government materially, and with this end in view Mayor Frink proposes to introduce a resolution at council today for the city to provide beds and other fittings.

WHILE DRUNK STOLE WATCH.

James Odell, a young man was before the court on the charge of stealing a watch and chain from William Fudge on October 21st. Urban Sweeney appeared for the defendant. James Hamm, a bartender in Peter Mahoney's saloon, Main street, gave evidence that on the night in question Odell was under the influence of liquor when he entered the bar and witness refused to serve him. Odell then went out of the bar in company with Fudge.

Sergeant Kilpatrick gave evidence that Fudge reported having had his watch stolen from him on the 21st. Odell was suspected and was taken to the North End station where he was identified by Fudge as the man who stole the watch. Later the prisoner informed the officer that the watch was at his home on Fairview. The prisoner when asked if he had anything to say in court, said that he had been previously in the time that he had not remembered that he took the watch. He pleaded guilty and was committed for trial.

AN ASSAULT CASE.

John McCarthy was charged by John Carlin with assault. Mrs. Emma Carlin, wife of the complainant, testified that on the evening of the assault she heard the defendant call her husband bad names and accused him of cutting his boat lines. Witness went for the police. Witness saw McCarthy about her premises again about twelve o'clock the same night and she heard her husband tell defendant that he did not cut the lines.

Willie Carlin, grandson of the complainant, testified that he heard McCarthy accuse his grandfather of cutting the lines to which Carlin said he had not. McCarthy then called him some bad names. Later on while Carlin was on the wharf near their home witness saw McCarthy with a stick of wood which fell Carlin to the ground. The prisoner was committed for trial.

Dr. Chase is No Stranger

In This Home—Receipt Book and Medicine Kept at Hand All the Time.

There is no better safeguard against disease and suffering than the great majority of homes Dr. Chase's Kidney-Liver Pills are constantly kept at hand, because they quickly awaken the action of the kidneys, liver, bowels, and cure the most common ills of life.

Mrs. Thos. Smith, Jamestown, Ont., writes: "Dr. Chase is no stranger to our home, for we have two of his Receipt Books in the house. My father and my husband's father each had one, and I have been familiar with it ever since I can remember. It was only natural that we should use the Kidney-Liver Pills, and we found them so satisfactory in regulating the digestive system and curing the common ills of life that we always keep them on hand. Many a time these pills have saved me much suffering and prevented serious disease. We also keep the Ointment in the house all the time."

To be ready in case call comes—Tactical peculiarities of fighting in France and Belgium probably reason why War Office did not ask for Cavalry in Second Contingent.

Special To The Standard.

Ottawa, Nov. 5.—The government has decided to be ready for eventualities and without further delay to mobilize four regiments of Canadian mounted rifles, one in Ontario, probably at Toronto, one in Manitoba and Saskatchewan, one in Alberta and one in British Columbia.

There has been much debate over the fact that when the suggestions of the War Office were received, as to the composition of the second Canadian contingent, no mention was made of cavalry, but it has been observed that a curious development of the light horse units in France is the suspension of the role normally assigned to mounted troops. The fact is beginning to leak out that the cavalry armed with rifle and bayonet are in the front, fighting side by side with the infantry; their horses, it seems, have been withdrawn from the zone fire and the work of reconnaissance has been entrusted to the flying corps. No official explanation has been vouchsafed, says the militia department, on enquiry, but there can be little doubt that the reason why the British army council did not ask for the inclusion of cavalry, or mounted rifles in the second overseas contingent is to be found in the tactical peculiarities of the situation which has arisen in Europe in the western theatre of operations.

Will Be Needed Later.

But sooner or later the situation will change and mounted troops will resume the role which temporarily they have abandoned and elsewhere than in Europe, in Egypt for instance, where in the immediate future they may be called upon to play an important part.

The four regiments of Canadian mounted rifles which the government has decided to organize will probably be of 600 men each, a total of about 2,400. Three detachments of cavalry went with the first contingent, 600 Royal Canadian Dragoons, 600 Strathcona Horse, and 200 divisional cavalry, the 19th Alberta Dragoons. The two former were sent as units. Besides these there were two full battalions, 2,000 men of the 5th and 6th, which were made up entirely of western horsemen who preferred to go as infantry rather than not go to the front. There were also some small detachments of Ontario cavalrymen who adopted the same course. In all there were 2,300 cavalrymen who went as infantry, and it is anticipated that they will be regarded as mounted rifles who will later on when it is found advisable, be supplied with horses and take part in the subsequent fighting as cavalry battalions.

A SUICIDE ON STEAMER

Cook used Revolver to End His Own Life.

The crew of the steamship Anglo-Columbian, lying at the Ballast wharf, were startled about four o'clock yesterday morning to hear a revolver shot in the room of the chief cook, Louis Denzaro, an Italian. The chief officer and the second officer rushed into the room and were horrified to find the cook on the floor with a hole through his right eye and a 38 calibre revolver clutched in his right hand when he was discovered, the bullet having gone straight to the brain, instantly killing the unfortunate man. The officers carried him to the smoking room and laid him on a couch. The undertaker and coroner were summoned after the body of the body Coroner Roberts gave permission for his removal to Chamberlain's undertaking rooms. The police were also communicated with and Officer Armstrong kept watch over the body till 7 o'clock when he was relieved by Officer McLeese. The body was taken from the ship about 7.30 o'clock.

The reasons for the suicide are not definitely known, although his shipmates seem to think that he became dependent over not receiving any reply from letters to his wife. What ever his reasons were they will never be known as he left no note explaining them, nor did he ever talk about contemplating such a terrible end. He was a quiet man of about 55 years of age, somewhat morose but generally liked by his comrades, although he took none of them into his confidence, preferring solitude to conversation. He had been writing to lived no since last he was heard of.

TORONTO'S FIRE LOSS 18 MILLIONS IN 10 YEARS

Toronto, Nov. 5.—That more than \$18,000,000 has been lost through fire in Toronto during the past decade was stated by Mr. J. G. The speaker declared that 75 per cent of the fire are from common causes and are preventable.

Call to Rev. E. E. Mowatt

At a meeting of the Presbyterian congregation of Chipman on Monday, it was decided to extend a call to Rev. E. E. Mowatt, of Logville, a son of the late Rev. Put Out of Commission.

The clock on Trinity Church spire was crippled in the electrical storm of Wednesday evening, both the master clock and the spire clock being disabled. The batteries were damaged by the lightning and the clock will be silent while repairs are being made. It is expected that the clock will be again in commission in a few days time.

CABLE SERVICE CUT OFF.

New York, Nov. 5.—The Western Union Telegraph and Cable Company announced tonight that communication with Germany and Austria by way of the wireless station at Tucker, N. J., has been suspended until further notice.

EXPECT DROP IN SUGAR SOON

Local Sugar Expert Talks Interestingly On Situation Admitted to be without Precedent.

Although a situation almost unparalleled in the history of the sugar markets of the world has prevailed of late, a local man who has made a study of the movements of sugar expressed the opinion yesterday that it would not be long before conditions returned to the normal. For some time prices in England where the war situation might be supposed to have had a greater effect on prices than in Canada. One reason given for the high prices here as compared with England was that the British government had pre-empted the supply of raw cane sugar in the West Indies and other British colonies and dependencies, and that the refiners in Canada would have difficulty in securing raw material. This explanation was taken by wholesalers with a grain of salt, although refiners in the United States had manifested a considerable disposition to quote panic prices.

What has made the situation recently of unusual interest is that refiners seem to have been influenced by panicky fears. After the outbreak of the war sugar was selling in England at 12 cents, and in New York at 7 1/2 cents, while at the same time the price in Canada quoted by refiners was 5 cents. Since then there have been decided fluctuations in prices. The British government in order to relieve the situation bought up 100,000 tons of sugar, and prices soon sagged in the Mother Country. Various speculators have taken place in the market. Before the war American refiners were charging much higher prices than Canadian refiners, but more recently while the American price has fallen the Canadian price has advanced, with the result that Canadian prices recently have been unprecedented, and much higher than in the United States.

Germany and Russia have big surpluses of beet sugar this year. Germany will probably not be able to get rid of its surplus unless the United States takes it, but Russia will be able to supply Great Britain with a large quantity of beet root sugar. As regards cane sugar the total stocks in the United States are at present 457,255 tons, which is an increase of 180,000 tons over the same time last year.

INTERESTING CASES BEFORE POLICE COURT

Allen Beyea Committed For Trial on Charge of Assault - A Property Dispute - Other Cases.

In the police court yesterday afternoon preliminary hearing was concluded in the case against Allan Beyea charged with striking William Gully on the head with a milk can. The evidence had all been given a couple of weeks ago and the case adjourned to see if the two young men could not make arrangements to allow the matter to drop. When asked how he felt about the matter yesterday Gully said that he was not in favor of coming to any settlement. Beyea was then sent up for trial, but was allowed out on bail, himself for \$100 and his father, James A. Beyea, and E. P. Raymond at \$50 each.

A Property Dispute.

Another case, stood over pending a settlement was where John Galbreath and James Burke were charged by Mrs. Stewart with malicious destruction of property. There had been a dispute between Mrs. Stewart and Mr. Galbreath as to whose property was infringing on the other, and both sides thought they were right. Mrs. Stewart had a man build a barricade on the side of her house, and Mr. Galbreath claimed this was overlapping on his property and shut out the light from the windows in his house, so he employed Burke to tear down the barricade which resulted in the case being brought to court.

The complainant was not in court yesterday and J. A. Barry for the defendant, stated he had learned that the complainant would not be present and he asked for a dismissal of the case. Magistrate Ritchie would not consent to a dismissal, so Mr. Galbreath was put on the stand and testified that the barricade erected by Mrs. Stewart infringed on his property and it was to protect his rights that he tore it down. The case was adjourned for one week when other witnesses for the defence will be called.

PANIC STRICKEN GERMANS SEEK REFUGE IN AMERICAN CONSULATE

Washington, Nov. 3.—The German consul at Tabriz, Persia, was assaulted and took refuge in the American consulate, with other panic stricken German subjects, according to a message late today from the United States Minister Teheran.

United States Consul Paddock at Tabriz is extending temporary refuge and protection to the German subjects, but the Russians in Persia are threatening to arrest and expel all Germans.

The Persia authorities have gathered up the archives of the Turkish consulate at Tabriz and sent them to Petrograd.

THE MONEY MARKET IN NEW YORK

Distinct easing which will go further upon advent of the new banking system.

New York, Nov. 5.—There is much doing in monetary affairs and with the advent of the Federal Reserve banks within a fortnight the desired result is expected to have been accomplished.

So great and so rapid has been the recovery of our export trade with Europe that the gold pool formed by the banks has found itself in possession of more money than it can use in its attempt to put foreign exchange on a normal basis.

This month will be a period of readjustment to changed banking and currency conditions, in which the cotton and other problems will be presented for solution.

ONE OF TRANSPORTS WHICH TOOK CANADIANS ACROSS IS AT NEW YORK

New York, Nov. 5.—The steamship Bermudian, one of the fleet of thirty thousand troops from Canada to England early in October, arrived here today from Liverpool. One of the Bermudian's officers said that a cavalry regiment, known as Lord Strathcona's Horse of 800 men, was conveyed from Quebec to Plymouth on board that steamer.

During the voyage, the officer said, the fleet of transports was conveyed by four to ten warships, and the men were drilled from morning to night all the way across.

The greatest enthusiasm existed among the cavalrymen, who sang war songs whenever they were not drilling.

They were given a stirring send-off at Quebec, where the heights of the city were black with cheering people, and received a most enthusiastic welcome on arriving in England.

EXPERTS BELIEVE MR. DANIELS HAS WEAKENED EFFICIENCY OF THE NAVY

Administrative weakness, it is declared by naval experts, is the reason that the American navy has retrograded. They declare this will be proved if the investigation of the United States sea defence force, as is demanded by Representative Augustus P. Gardner, of Massachusetts, is made. The experts assert that it is not a question of lack of money which has caused this, for in a year Congress has provided appropriations for building three battle ships, and Mr. Josephus Daniels, Secretary of the Navy, has proved his ability to get money for increasing naval armament.

NEWS FROM GARLETON CO.

Hartland, N. B., Nov. 4.—On Saturday afternoon there was held in Burt's Hall the most successful meeting of Agricultural Society No. 132, in its history. The word had gone out that this meeting would decide whether the society should live or die, and as a result there was a good attendance of farmers from the districts contiguous to Hartland.

The entertainment for the benefit of the Belgian fund, to be given by the Knights of Pythias and the Philathea Society of the Baptist church from its own worth, will probably result in a generous sum toward this fund.

BROTHER OF ONTARIO MAN KILLED IN ACTION

London, Ont., Nov. 5.—R. L. Stoddart of sixty Lyle street this city was notified by cable today that his brother, Captain Fred W. Stoddart of the Seventh Infantry Brigade, Wilshire Regiment, had been killed in action in France.

Capt. Stoddart, who served in the Boer uprising, visited his brother in Canada not long ago.

OVER 1,500 STUDENTS ENROLLED ALREADY

Toronto, Nov. 5.—Recruiting for the university battalion is still progressing. Fully 1,500 have now enrolled. The officials are well satisfied with the way in which the students are entering into the spirit of the movement.

Paris After Two Months Of Warfare

"How Paris has changed in two months!" regretfully exclaims Francis Reichel, in the Figaro. "After the evenings of excitement and enthusiasm during the mobilization period, and after days of feverish waiting, when each succeeding piece of news reported the approach of the Germans, came the state of siege, and with it came the closing of restaurants and cafes in the early hours of the evening, and all the palpitating life of Paris ceased. At one blow, all the gaiety, all the glitter, and the tumult of Paris became extinct."

"Paris feels that she is cut off from the north by a fearful living wall, and she lives in a horrible, fiery vapor of blood and flame, which seems to rise threateningly from the nearby battlefields. After two weeks of complete immobility and silence there is, perhaps, a slight improvement noticeable. But there are still entire quarters of the city wrapped in darkness and silence, and streets formerly full of animation and traffic are barely light enough to walk in. No one likes to leave his home. Only here and there hurry past a few pedestrians, whose appearance causes surprise, as though one were in a small provincial town, where people go to bed with the sun."

"A few moving-picture shows have dared to open their doors again; the blaze of the illuminated entrances lights up the streets as if by a large fire; in a couple of kiosks there is even music. But there is no orchestra, and there are no singers; a phonograph has taken their places. The films are all war-like, many of them falsifications, for the pictures taken in times of peace must now be adapted to the new spirit. There are pictures of the favorite sovereigns, of the favorite generals, of passing Belgian and French soldiers, of our own 75-millimetre guns. Enthusiastic applause greets their appearance. If there is singing at all, it is only of national hymns and war-songs. Once in a while there rises in the audience a French soldier or a Belgian refugee. They create a sensation, every one stares at them, and there is enthusiastic singing in their honor. But if the excitement becomes too uproarious, some one calls out, reproachfully: 'Silence! Down there they are fighting for us!' And the singing ceases, and even in the darkness one feels that the singers are blushing."

"Paris, Nov. 6.—Schooner Bobs from Parrsboro for Cheville in ballast and caught on the light house bar few days ago, was badly strained on Tuesday night. She was towed off into deep water but filled and rolled over, breaking bilboom and topmast, and becoming unmanageable. She now lies in the river below the new pier and is a dangerous obstruction to navigation. She is owned and commanded by Capt. Medley Blenkhorn, who is awaiting the arrival of the Government Steamer Aberdeen, which, he thinks, may be able to float the Bobs out of the track of vessels, as the local tugs are not powerful enough for the job. The vessel is likely to be a total loss.

THIS WILL REMOVE Hairy or Fuzzy Growth

(Toilet Tips.) A safe, certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some powdered dactloae and water, apply to hairy surface about 2 minutes, then rub off, wash the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment it is advisable to see that you get genuine dactloae.

PILE

Do not suffer another day with itching, bleeding, protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and certainly cure you. Get a box; all dealers or Edmondson, Bates & Co., Limited, Toronto. Send them five cents in postage and enclose 10c stamp to pay postage.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial? Especially if you could try it for fifty cents!

Peps is the discovery! Pepsarettle tablets, neatly wrapped in air and gum-proof silver foil. They contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, and finally enter and carry relief and healing to the capillaries and tiny air sacs in the lungs.

In a word, while no liquid or solid can go to the lungs, Pepsarettle tablets, these Peps fumes get there direct, and at once commence their work of healing. Peps are entirely distinct from the old-fashioned liquid cough cures, which are merely swallowed into the stomach, and never reach the lungs. Peps treatment of coughs and colds is direct treatment.

If you have not yet tried Peps, cut out this article, write across it the name and address of this paper, and mail it (with 10c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will be sent you. All druggists and stores sell Peps at 50c. box.

MAY BE TOTAL LOSS.

As You Listen to the Band. In your own home, you realize that the NEW EDISON PHONOGRAPH is giving you music more perfect than can be heard in opera house, theatre or concert hall. Remember that all EDISON RECORDS are made under ideal conditions—in a specially constructed concert room—far from the noises of the street, where there are no late comers and the inevitable chatter of the concert audience. And such Bands as you may enjoy, too! Highlanders Baggio Band, United States Marine Band, Artillery Band of Mexico, Garde Republicaine Band, Sousa's Band, National Military Band, Police Band of Mexico, New York Military Band, and Johann Strauss' Orchestra. The new Edison Phonograph has the diamond reproducing point, unbreakable and long playing records, superior motors and construction, concealed horns, and the Cabinets are made in true Period style, in perfect harmony with the finest furniture. As usual, Edison owners have everything worth while in the new melodies, the old favorites, selections from the classics, and the popular dance and song hits of the day. Come in and listen to the bands. Get the complete list of Edison Records and tell us just what you want to hear. We'll gladly play all your selections—and thank you for the opportunity of letting us demonstrate the manifold superiority of the Edison. W. H. THORNE & CO., Limited, 42-46 Prince William Street, ST. ST. JOHN MARKETS

The wholesale prices of commodities remain steady, but the business transacted again shows that the consumer, although he buys rather more, than less, of those staples that may be regarded as necessities is not inclined to expend so much money on articles that, in normal circumstances, might be classed as luxuries.

TREASURY BILL ISSUE OF 15 MILLIONS WAS WELL RECEIVED IN LONDON

London, Nov. 4.—During the past week the feature of the London money market has been the issue of £15,000,000 six months treasury bills, the applications to which amounted to £43,162,000.

Table showing the details of the treasury bill issue, including dates, amounts, and rates.

It is considered satisfactory that the British government can borrow at such a low rate in the existing circumstances, France is expected to pay 4 1/2 per cent. for her bond de treas.

There is little change in the situation in Throgmorton street. Dealings continue on a greatly restricted scale, but a more confident feeling was manifested consequent upon the improved situation on the continent.

Among the various members gathering daily "in the Street" there seems little hope of an early opening of the "House." The expectation that mid-November might witness a resumption of the Stock Exchange now appears to have few supporters.

INTERESTING CASE IN DORCHESTER

No personal dishonesty imputed by defendants in letter.

A rather interesting law suit has been before Mr. Justice Barry and a special jury at Dorchester this week. James Friel, of Dorchester, barrister, liberal, sued Messrs. F. B. Black, P. G. Mahoney and O. M. Melanson, M. L. A.'s, and A. W. Chapman for damages for libel. The alleged libel was contained in the following letter:

Sackville, N. B., March 9, 1908.
Hon. J. D. Hazen, Fredericton, N. B.

Dear Sir,—It is the unanimous wish of our party friends that Mr. James Friel be dismissed from the position of Registrar of Probates and the same given to Allan W. Chapman of Dorchester. That Mr. Friel be dismissed from the position of Clerk of the Peace and the same given to Arthur N. Charters, M. L. A. That Mr. Chapman be removed from the position of Clerk of the Courts and the same given to Arthur N. Charters. Mr. Friel has been a most ardent partisan and our most bitter opponent in this county, doing everything within his power to secure his party's ends and resorting to any means, honest or otherwise, in order to secure votes. Mr. Chapman the Clerk of the Courts, while not as active as Mr. Friel, has been as active as Mr. Friel would permit in the interest of our party.

Yours very truly,
(Signed) F. W. SUMNER,
P. G. MAHONEY,
O. M. MELANSON,
F. B. BLACK,
per F. B. Black.

Mr. Friel's statement of claims contains these statements:

The said Defendants Black, Melanson and Mahoney in or about the month of December, 1911, engaged the defendant Allan W. Chapman, then clerk of the Circuit Courts in and for the County of Westmorland, to procure or provide evidence in support of the plaintiff's political partisanship for the purpose of having the plaintiff dismissed from his said offices of Clerk of the Peace and Registrar of Probates. The defendant Allan W. Chapman, subsequently in or about the month of January, 1912, falsely and maliciously provided and furnished the said Defendants, Black, Melanson and Mahoney, with five written statements hereinafter set out, purporting to be solemn declarations made respectively by Antoine D. LeBlanc, Anthony D. LeBlanc, William Alexander, Walter P. Crossman and John S. Dickie, and the said defendants, Black, Melanson and Mahoney, though warned and notified by the plaintiff and others, that the said written statements so provided and furnished by the defendant, Chapman, concerning the plaintiff, were fabricated and false, and that the signatures thereto were forgeries, or procured by misrepresentation of the contents of the said statements by the said Allan W. Chapman, falsely and maliciously published and circulated by the plaintiff in the said written statements.

Mr. Friel was removed from office. On the trial Friel called M. L. A. A. as called to the witness stand by the plaintiff's counsel and admitted writing the letter with the authority of his colleagues. He stated that he was acting as secretary for the signers. His examination was not concluded when the court arose at six o'clock. When court opened next day it was announced that a settlement had been agreed on.

Mr. Teed, K. C. counsel for the defendants, Melanson, Black and Mahoney, stated in open court and not in private to the plaintiff, that the plaintiff's dishonesty in the letter addressed to the Attorney General, dated May 9, 1908, or by any other communication to the government, and that the plaintiff accepted this assurance. He stated further that the defendants, Melanson, Black and Mahoney, had never intended to impute personal dishonesty to the plaintiff, in the letter addressed to the Attorney General, dated May 9, 1908, or by any other communication to the government, and that the plaintiff accepted this assurance. He stated further that the defendants, Melanson, Black and Mahoney, had never intended to impute personal dishonesty to the plaintiff, in the letter addressed to the Attorney General, dated May 9, 1908, or by any other communication to the government, and that the plaintiff accepted this assurance.

Particulars of the settlement made in behalf of the defendant, Chapman, were not stated in court.

BELGIAN FUND BENEFIT.

A bridge and dance, in aid of the Belgian relief fund, given at the residence of Mr. and Mrs. John Keefe, Leinster street on Wednesday evening, was largely attended and was a great success in every particular. The house, which was prettily decorated, was well adapted for an affair of this kind.

The function was under the management of a committee composed of Mrs. H. H. Donnelly, Misses McInerney, Gertrude Phillips, Marguerite Gannon, Eunice Macaulay and Mitchell McQuarrie, Kathleen Magee, Dorothy Brown, Jessie Likely, Marion Macaulay, Edna Logan and Ellen Keefe. The guests were received by Mrs. Keefe and Mrs. Donnelly. While some enjoyed themselves at auction bridge (Mrs. B. R. Macaulay and Ralph Fowler being the prize winners) others had a pleasant time dancing to the music of Jones's orchestra. At midnight refreshments were served. The committee returns thanks to Messrs. E. Clinton Brown and Geo. W. Blocker for the prizes; to Mrs. W. Pedersen, K. Pedersen and McLean & Charlton for flowers; Messrs. M. and H. Gallagher & Co. for candy; W. Steen for tickets, etc.; Messrs. W. H. Golding, F. W. Kelly and Macaulay Bros. & Co. for flags and the W. H. Hayward Co. for the loan of dishes.

LOCH LOMOND NEWS.

The harvest thanksgiving service was held at All Saints' Church, Loch Lomond on Wednesday, November 4th. The church was suitably decorated. The offerings will be sent to the Protestant Orphan's Home. Unfortunately it was a wet evening and there was a heavy thunderstorm during the service, and that affected the attendance.

COMEAU CASE TO BE APPEALED

Questions to be answered in Supreme Court on Tuesday next.

The case of the King vs. Comeau will be appealed. The accused was tried before His Honor Judge Forbes and a jury on Wednesday, and acquitted on a charge of breaking and entering the dwelling house of Halver Hanson in Milford, but was found guilty of stealing a sewing machine from Hanson. Comeau was fined five dollars. Yesterday G. Earle Logan, counsel for Comeau, applied to his honor to reserve the following questions to be argued before the Supreme Court on appeal, which meets in Fredericton on Tuesday next.

1. Whether or not the facts proved are sufficient to sustain a conviction.
2. Whether the charge in the indictment could be sustained without proof of mens rea.
3. Whether the prisoner could be properly convicted unless it was shown that he took the property without color of right.
4. Whether or not my charge as set out is correct in law.
5. Whether the charge in my charge to the jury I unfairly expressed an opinion upon the evidence.
6. Whether or not I directed a conviction instead of leaving the question to the jury.
7. Whether or not, under the circumstances above set forth, I should have imposed a penalty.

His honor granted the application and these questions will be argued before the Supreme Court.

George H. V. Belyea appeared for the Crown.

FINE SHOWING OF PUPILS AT HAMPTON CONSOLIDATED SCHOOL

Hampton, Kings Co., Nov. 5.—The following school statistics of the Hampton Consolidated School for the month of October are so excellent as to be of interest in every school district in the province, and if it is not a record, the principal and teaching staff would like to know what it is. It must be remembered that the district is large and that only one van is employed and that for the few children in what has been known as "Hampton districts," away up the river. The figures are suggestive of many things, but it certainly shows that the children like being at school and being there the assurance is given that they will make the most of their opportunities.

Nervous Prostration and Heart Troubles.

Nervous Prostration, or Neurasthenia, is one of the worst forms of nerve trouble and brings about a general weakness of the whole nervous system. The symptoms presenting themselves are headache, a feeling of depression, irritability and restlessness, unrefreshing sleep, often troubled with dreams, fright when in crowded places, dread of being alone, terror of society, fright at travelling, muscular weakness, sense of fatigue upon effort, etc.

When the nerves become affected in this way the heart generally becomes affected too. All are curable if taken in time. Milburn's Heart and Nerve Pills are just what you require at this time. They strengthen the nerves and build up the whole system. Mrs. John Hewson, Caledonia, Ont., writes: "I feel it my duty to let you know the great benefit your Milburn's Heart and Nerve Pills did for me. I suffered for four years with heart trouble and nervous prostration. It was so bad I could not go up stairs without sitting down at the top before I could get to my room. I could not sleep nor could I lie on my left side, for it would seem as if my heart would stop. I thought my time had come. I was doctoring with the doctor, but didn't get any benefit. I took eight boxes of Milburn's Heart and Nerve Pills and am enjoying good health." Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

POLICE COURT.

One drunk was allowed to go, while another was remanded. Harry McLean was charged with begging on Mount Pleasant. The man, who has a crippled arm and said he hailed from Fredericton, was sent below, but it is likely he will be given a ticket and allowed to return to Fredericton. George Stackhouse, reported for riding a bicycle on the sidewalk, was allowed to go with the penalty standing against him.

MOTHER! THE CHILD IS COSTIVE, BILIOUS

If tongue is coated, breath bad, stomach sour, don't hesitate. Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," when see that it is made by the California Fig Syrup Company. Don't be fooled!

Fund Fair
Chicago, Nov. 4—A \$100,000 was raised at a meeting of the Fund owners for "emerging President Gilmore and return, and it is believed will be used in efforts to help players now with baseball to join the adjourned meeting of the held here on Nov. 6.

Heinie Green
There is one man with the proper temper to be every whit as great as Cobb, according to S. isn't a member of the name is Zimmerman.

"If Heinie could out the Brave leader," of the greatest ball player in the league. He is 100 per cent most people give him. He is not only a grand fielder—and of men in the league. The trouble is he worked up to such a big part of his position team can put in two jumps. But merit is concerned in all odds the best ball player on league.

"In one game," says "I saw Heinie make one else in the game. He was up at bat five times. James whipped that started for Heinie then suddenly broke Zimmerman started then, all out of position on top him, swung with such a keen eye to right field, I was thing all the way that how he followed that wonderful quickness with his hands."

LIVE NEWS OF SPORTING WORLD

THE BIG LEAGUE GOSSIP

Fund Raised
Chicago, Nov. 4.—A fund of about \$100,000 was raised at the New York meeting of the Federal league club owners for "emergency purposes." President Gilmore announced on his return, and it is believed the money will be used in efforts to persuade players now with teams in organized baseball to join the new league. An adjourned meeting of the league will be held here on November 23.

Heinie Great Man
There is one man in baseball who, with the proper temperament, would be every bit as great a ballplayer as Cobb, according to Stallings. No, he isn't a member of the Braves. His name is Zimmerman.

"If Heinie could curb himself," says the Braves leader, "he would be one of the greatest ballplayers that ever lived. He is 100 per cent greater than most people give him credit for being. He is not only a grand hitter, but a grand fielder—and one of the fastest men in the league."

"The trouble is that Heinie gets worked up to such a pitch that he loses a big part of his value. An opposing team can put him in the clouds in two jumps. But so far as actual merit is concerned I consider him by all odds the best ballplayer in the National league."

"In one game," continued Stallings, "I saw Heinie make a play that no one else in the game could have made. He was up at bat with James pitching. James whipped over a fast one that started for Heinie's head and then suddenly broke over the plate. Zimmerman started to dodge, and then, all out of position, with the ball on top him, swung so quickly and with such a keen eye that he tripped to right field. It was a remarkable thing all the way through. It showed how he followed the ball and what wonderful quickness he possessed with his hands."

Wants Release
Philadelphia, Nov. 4.—"I'll get my release or I'll quit baseball." That is the ultimatum Charlie Doolin, ex-manager of the Phillies, delivered to President William F. Baker, who announced the appointment of Pat Moran to succeed Doolin.

Doolin wasn't forced out of the managerial role, either, but gave up in absolute disgust because of the failure of the owners to give him the necessary financial support to build up a winner.

"I was thirteen years with the Phillies and five years as manager," said Doolin today, "and yet when it came to the matter of my release Baker wouldn't come across and allow me to go. I tried twice to quit, but there was nothing doing. Don't think for a minute that I was forced from my position. I wasn't. I quit."

"The main reason why I did not care any longer to continue as manager was the failure of the club owners to support me. They have never given me a cent to buy a ball player with."

"The Boston Braves have made me an offer, but I cannot accept it because I am not a free agent. The Philadelphia club evidently wants to make some money out of my sale and I would have to go to the club they sent me to or quit baseball."

"But I am not situated so that I have to play unless I care to, therefore I won't have to accept any proposition that doesn't look good to me."

BOXING FANS OFTEN ERR IN DISAPPROVAL OF RING ENCOUNTER

The energy wasted by the majority of spectators in the local clubs in expressing disapproval of perfectly legitimate tactics of the ring is at times amusing. Otherwise directed it might be used to build another Panama Canal or to construct a skyscraper in record time. For the most part, the noisy protests are sad reflections on their knowledge of boxing rules. Nevertheless, they take the greatest pleasure in hooding, inflicting, breaking out of clinches and lunging back with quick leads, and a dozen and one other recognized tactics of the roped arena.

Perhaps the most abused fighter is the one who, either by accident or design, lands a blow on his opponent's back. The "kidney punch" is barred in this State, in Wisconsin and Australia.

But that decree was issued to prevent an opponent going into a clinch and standing there, pounding his rival's kidneys. Such tactics robbed a bout of interest. The self-appointed referees have placed the ban on any punch, whether it lands on the kidneys, the middle of the back or on the shoulder blades.

There is nothing in the rules which prohibits landing any fair punch on any part of an opponent's body. It is just as legitimate for a man to land a clean, free punch on the kidneys as it is to land a jab on the head.

In a majority of cases, the spectators fail to distinguish the difference between the man who fights himself out of clinches, the man who hits on the break and the man who hits immediately after he has been broken from a clinch by the referee. Only when a boxer hits on the break is he guilty of fouling.

Of course, there are cities where the men protect themselves at all times. As long as a boxer has his hands free he is at liberty to hit. He may hit when his opponent is holding him, but may not hold and hit at the same time. To hold and hit is a violation of the rules and is punishable by disqualification.

A case in point may be taken from the bout between Jim Coffey and Terry Keller, still fresh in the minds of those who saw it. A dozen times Coffey was clinched by his smaller opponent, but shook himself clear and continued his assault. He was well within his rights, but the crowd, its sympathy aroused by Keller's heroic resistance, booed.

Battling Levinsky, Dan Morgan's promising little heavyweight boxer, has the knack of hitting as soon as he is clear. The rules specify that the fighter must break and step back without a hit, but they do not insist that a man walk around the ring and assume a new attitude of attack before renewing the conflict. When Levinsky boxed "Gunboat" Smith he was howled at for landing as soon as the referee had stepped clear after breaking the men. He was absolutely within his rights.

Billy Madden, one of the best authorities on boxing, has said: "A boxer must not clinch, but once he works in close he may fight as fast as he is able and as long as he is clear. He may fight himself clear when his opponent is clinching, but may not hold and hit. Any man who holds with one hand and fights with his free hand should be warned on his first offence and disqualified on a repetition."

In many instances the referees in this city have been censured for stopping bouts in which a man was being badly beaten. It was argued in some cases that the beaten man "could have stayed the limit" and been saved the distance, hood.

ANOTHER PROOF THAT SULTAN'S HAND FORGED BY GERMAN EMISSARIES

Petrograd, Nov. 3, via London, 2.15 p. m.—The Turkish ambassador to Russia, before he left the capital today on his return to Constantinople, made the following statement:

"I tried with all the force at my command to convince the Russian minister of foreign affairs that Turkey was not actuated by hostile feelings against Russia and that if untoward events had taken place, we were not at fault."

"I am firmly convinced that the war will be of extremely short duration and that Turkey will assume the position maintained before German influence became paramount at Constantinople."

It was learned in Petrograd today that the Turkish consul at Batum, on the Black Sea, suddenly disappeared a week before the bombardment of the Crimean city. The Petrograd authorities, acting on instructions already received, have begun the registration and arrest of all Turkish subjects. This measure is taken previous to their expulsion, which will occur in a week.

GERMAN AIR SCOUTS DROP BOMBS ON TOWN OF FURNESS IN BELGIUM

London, Nov. 3, 4.04 p. m.—A Central News despatch from Northern France under date of Monday, says a German airman, skimming five thousand feet above the Belgian town of Furness, apparently with the knowledge that King Albert and President Poincaré were going to review the cavalry drawn up before the Hotel De Ville, dropped several bombs which, however, missed the square and did but slight damage a short distance away.

Thereafter French and Belgian aeroplanes kept the sky clear of the enemy.

BANQUET IN HONOR OF VISITORS

Fredericton, Nov. 5.—The U. N. B. football team will elect their captain for 1915 at a dinner to be held on Saturday evening, when they will be the guests of the University Athletic Association. This decision was reached at a meeting of the students at U. N. B. which was held at noon today.

It was also decided to hold a dance in honor of the Acadia football team and coach "Hump" Campbell at the U. N. B. gymnasium on Friday evening. Coach Campbell will leave on Saturday to resume his studies at Dalhousie law school on Saturday evening. Tomorrow lectures will close early because of the intercollegiate football championship game and Chancellor Jones and other members of the faculty will make football speeches to the students.

There will also be half holiday in high school and normal school.

AMERICAN ANNUAL MEETING

Chicago, Nov. 5.—Club owners of the American League in their annual meeting here today, put themselves on record in favor of peace, but except for expressing their sentiments individually and informally they brought no nearer the end of the baseball war. Rumors that overtures had been made to the Federal League were denied. The only discussion by the meeting on the Federal situation lasted but half an hour.

"There is no room for a third league," they agreed, and the elimination of the competing clubs in Chicago, St. Louis and Brooklyn must be included in any terms of truce.

A short meeting tomorrow is expected to wind up the session.

THE VICTROLA AND THE FAMILY—No. 4

Mother

says she likes the Victrola because the children are so fond of it.

"I always play it for them evenings before bedtime, so now I never have any trouble in getting them home."

"Then the Victrola is such a splendid help to the children's education. Through its teaching they have become familiar with the best works of all the great composers, as interpreted by the best singers and musicians. One of their favorites is Dvorak's beautiful 'Humoresque,' played by Mischa Elman."

"Besides, I have a really selfish reason for liking it. Some of the ladies of my acquaintance used to delight in inviting me to teas and receptions where they played their fine Victor Records, but now that we have a Victrola, I can have just as good music as theirs."

Victrola IV \$20
With 15 ten-inch, double-sided Victor Records \$33.50

Other Victrolas from \$32.50 to \$300 (on easy payments, if desired), and ten-inch, double-sided Victor Records at 90c for the two selections at any "His Master's Voice" dealer in any town or city in Canada.

THE WEATHER.

Maritime—Fresh northwesterly winds, mostly fair and cooler; a few local showers or snow flurries.

Washington, Nov. 5.—Forecast: Northern New England—Fair Friday and Saturday.

Toronto, Nov. 5.—The disturbance which was over Quebec last night has passed off to the Atlantic, and colder weather is now setting in over the eastern half of the country. It has been quite cool today in the western provinces, and snow has fallen in many parts of Alberta.

Around the City

Trades and Labor Council

The regular meeting of the Trades and Labor Council was held last evening. Most of the matters before the delegates were of a routine nature. It was reported that progress was being made in the matter of organizing a building trades council.

Canadian Patriotic Rifle Club

The first drill of No. 1 Company, Canadian Patriotic Rifle Club was held last evening in the Y. M. C. A. gymnasium. Practically the full strength of the company was available and the drill was carried out successfully. Drill will be resumed in every Thursday evening in the Y. M. C. A. gymnasium beginning at nine o'clock.

Had a Special Train.

Hon. N. M. Jones, general manager of the Partridge Pulp and Paper Co., H. W. Schickel agent, treasurer, and Thomas McAulay, president, went over the National Transcontinental Railway in a special train, with an I. C. R. crew Wednesday. The trip was for an inspection of some of the company's land at Nappadagan and along the Transcontinental.

The New Infirmary.

The new infirmary recently erected by the Sisters of Charity was opened yesterday and many visitors were shown through. There was no formal opening exercises. The new infirmary is a fine institution, and will no doubt prove of great value to the city. Descriptions of the building and the equipment have been given in the public press from time to time.

Pit Props.

A. Henderson, of South Musquash, called at the Board of Trade office yesterday to present the advantages of Musquash as a shipping port for pit wood. He stated that he could cut off his property at Musquash about 500 cords of pit wood this winter if he had the orders, and that the material could be loaded most cheaply and conveniently at Five Fathom Hole.

Broken Water Main.

A bad break occurred in the twenty-four inch water main near Silver Falls early yesterday morning. By eight o'clock Commissioner Wigmore had a crew of men on the scene and the work of repairing the pipe was immediately started. The water was turned into the pipe again about six o'clock last evening. Commissioner Wigmore spent practically the whole day at the place where the break occurred. The pipe that sprang a leak was of cast iron, twenty-four inches in diameter, and was only recently put into position.

Major Barker.

Sir Frederic Barker has received a letter from his son, Major Barker, with the Imperial forces in France, announcing that he is safe and well. From his letter it may be gathered that the artillery, with which he is connected, is being kept hard at work. They have been in the trenches much of the time since August. The major said that he had but one opportunity to take off his clothes for a night's sleep. When a letter was written the weather was fairly mild and this made it easier for the men living in the open with little protection from the elements.

Municipalities Convention.

Arrangements have been about completed for the annual convention of the Union of New Brunswick Municipalities here on Wednesday and Thursday, November 25 and 26. Subjects of importance to every municipality will be discussed and articles prepared by some of the leading men of the province will be read. Roads, taxation, town planning, municipal government and immigration will be among the subjects treated. The meetings will take place in the Court House and arrangements are being made for the delegates visiting the different industries and public institutions about the city.

Married This Week.

A pretty wedding was solemnized at the residence of Captain and Mrs. Frank Day, Brunswick street, this week, when their daughter Miss Florence Gilmore was united in marriage to William H. Estabrooks, son of the late Charles Estabrooks, of Upper Gaspetown. Rev. Thomas Marshall performed the ceremony, and after a wedding luncheon had been served Mr. and Mrs. Estabrooks left for St. John, where they will reside. Mr. Estabrooks being a member of the crew on the government dredge No. 12. Among the many presents received by the bride and groom was a beautiful bed, from the crew of the dredge. Frederick Gleaner.

THE CITY FIRE FIGHTERS MAY BECOME HOME GUARDS

Plans for Military Drill and Organization for Men discussed at special meeting last evening—Council to be asked today for equipment.

The members of the fire department turned out in large numbers last evening to a regular meeting of the Firemen's Relief Association, held in the rooms of No. 1 Ladder Company, King street east. Only routine business of the association was dealt with, and when the meeting adjourned Chief Blake requested the men to remain in the room for another meeting, which turned out to be a rather important one.

Commissioner McLellan was present at this meeting, as were the captains and other officers of the Salvage Corps and Fire Police. Chief Blake explained to the men that the meeting was called for the purpose of getting their ideas on forming themselves into a company for military drill so as to be ready for home defence if needed. Commissioner McLellan also spoke on the project and thought it would be a

WILL CHANGE CONSTITUTION TO AID THE RELIEF FUNDS

St. Andrew's Society to Seek Legislation to Permit of \$500. Gift to Patriotic and Belgian Funds—Alexander Macaulay Re-elected President—Reports of the Year.

The principal matter brought before the annual meeting of St. Andrew's Society last evening was that of making contributions in the name of the society to the Patriotic Fund and the Belgian Relief Fund. All the members were in favor of doing something towards these funds, and appeared to be much disappointed when it was pointed out to them that, under the constitution of the society, the general fund could only be devoted to particular purposes.

There was a lively discussion about the matter, chiefly in the nature of complaints about this feature of the constitution, which it was felt did not contemplate the exceptional situation existing today. It was finally decided to petition the legislature for an act amending the constitution, to permit the diversion of \$500 to the Patriotic and Belgian Relief Funds, the contribution to be made in the name of the society.

Alexander Macaulay was re-elected president of the society for the ensuing year, and the election for the other officers resulted as follows: 1st vice-president—Alex. McMillan. 2nd vice-president—H. C. Rankine. Chaplain—J. J. McCaskill. Historian—Alex. Wilson. Treasurer—John White. Secretary—F. W. Fraser. Marshalls—C. W. Bell and E. A. Inches. Committee on Charity—Dr. P. R. Inches, S. R. Jack and E. F. Burpee. Auditors—R. G. Wallace and A. G. Leavitt.

A communication was read from the Edinburgh sister society, suggesting that the local society make a contribution towards the maintenance of a Scottish hospital for wounded soldiers in France, and the suggestion was approved, and referred to the new officers.

Another communication from the Edinburgh society suggested the making of subscriptions towards the celebration of the 600th anniversary of the battle of Bannockburn.

In view of the situation which the Empire is facing it was decided not to celebrate St. Andrew's day this year in the usual form, and a committee consisting of the retiring and new officers was appointed to arrange for the observance of the day in some new manner.

Opinion expressed by members was that the society should observe St. Andrew's Day by holding a concert or entertainment, the proceeds of which should be devoted to the patriotic fund. It was decided that on the Sunday preceding St. Andrew's Day the members of the society should attend service in St. Matthew's church at four o'clock in the afternoon.

Resolutions of condolences with the families of Andrew Malcolm, Robert Thomson and James Masson, members who have recently passed away, were passed. Another resolution expressed the sympathy of the members towards James Knox now seriously ill. Mr. Knox is the oldest member

SHIPPING LAMBS TO ONTARIO AND WEST

Local Firm Finds Big Demand in Toronto and Winnipeg—Shipping at Rate of 600 Per Week.

Messrs. Kane and McDonald, the local meat merchants, are being kept very busy at the present time supplying lambs for consumption in Toronto and Winnipeg. This firm have received contracts from dealers in these two cities to provide all the lambs they can obtain and for the past couple of weeks the Kane and McDonald slaughter houses have been working almost overtime.

The lambs are being received from Carleton county and Prince Edward Island at the rate of from four to six hundred a week and are killed and

NO SCARCITY OF STEAMERS FOR FREIGHT

While passenger traffic may be light during the winter, there will be plenty of freight.

By the time the first steamship arrives to commence the winter season everything will be ready at West St. John for about all the trans-Atlantic business that will offer. The new warehouse has been finished on the latest berth at the point and this will give nine berths on the West Side, while there are five on the eastern side of the harbor. The local steamship agents have not as yet received a complete schedule of sailings from this port, and with the exception of the Manchester Line, many ships have been taken over by the Imperial Government as transports. It may be some days before the agents will know just what will be on the routes to England and Scotland. The large new C. F. R. steamship Messambie will come to St. John on the Liverpool route and will prove a big assistance to that company, while a number of the other ships are elsewhere engaged.

The first Manchester liner to sail direct between St. John and Manchester on the winter schedule will be the Manchester Sparrow which sails from Manchester tomorrow and on return will sail from this port November 28th. The Manchester Exchange arrived from Manchester yesterday after discharging part of its cargo here and taking in cargo will sail for Philadelphia with a large consignment of freight, she will then continue to Manchester. The Manchester Mariner sailed from Manchester on October 31st for this port and Philadelphia and should be due here next week.

While the freight is expected to be good this season and a great amount of grain will be carried, the passenger business will likely be very light owing to the war. Nothing much in the passenger line is expected until the spring, when it may perhaps be large. By that time the steamship men expect their large passenger boats will be released by the Imperial Government and they will be quite capable of looking after all the passenger business offered. There are plenty of ships to look after the freight business and a good season is anticipated.

Conditions Better Here.

A St. John citizen who returned from Montreal and other points west, yesterday said business here in St. John had reason to congratulate themselves on conditions here, for while business here is moving about as much as usual in cities far west are complaining of dull times. So far the depression which prevails in the western provinces and in the United States generally does not appear to have had much effect here, for business men in nearly all lines say they have no reason to complain of trade conditions. With the opening of the winter shipping season it is believed there will be a considerable export business done here, and this combined with the use of this port for the shipment of remounts and other Imperial government supplies will it is expected mean a considerable demand for labor.
