### WANT SALMON FISH- ING LAW CHANGED

River Fisherman Want Netting  
Season Extended to Sept. 21

Fredericton, July 21—The officials of the department of fisheries on the St. John river, including Inspector H. E. Harrison of this city, have recommended to the department that the salmon fishing season for net fishermen be extended until Sept. 1, instead of ending on August 15 as provided by law. This recommendation is made as an alternative to making the season continuous until August 15 as has been asked by the fishermen and by the York county council.

The latter proposal met with determined opposition on the part of the Tobique Salmon Club and Donald Fraser of Plaster Rock, objection being made that the fishing on the Tobique had been very poor so far and that continuous net fishing until August 15 would prevent almost all the fish from reaching Tobique waters.

The fact that weather conditions and high water kept the salmon from running early in the summer was what prompted the net fishermen to ask for continuous fishing for the balance of the season. In marked contrast to the season of 1916 very few salmon have entered the St. John river this year. On the other hand the Miramichi river has had and is now having a remarkably good salmon season.

The department of fisheries has not yet announced its decision. Under ordinary conditions a period of two weeks during which netting is prohibited in the river would begin with next Monday.

E. H. Allen who was stricken by a severe attack of pneumonia last winter during the provincial election campaign was able to be out on Wednesday for the first time since his illness.

W. R. Reek, secretary for agriculture this week was in Carleton county on departmental business. He says that the crops in the district through which he passed were looking excellent and that reports from all sections show the conditions are similar over the province. Grain, potatoes and root crops all give good promise.

### Medals for Mothers Losing Son in War

Medals, for mothers who have suffered as much on the maternal battle fields of their hearts as the lads whom they have given to the cause, have been decided upon by the Kith & Kin Association of Kitchener, Ont.

Announcement has been made in a recent press despatch that the association has decided to issue medals to the mothers of all those who have been killed at the front and these will be decorated with a specially designed medal. This will not be confined within the pale of the Kitchener association but will include all parts of Canada from the Atlantic to the Pacific.

### CENTREVILLE NEWS

Further Heavy Damage by Lightning  
—Showers Prevent Picnic

Showers almost every day and some accompanied by severe lightning and heavy thunder. Saturday afternoon two barns and two sheds belonging to Wesley Harris were struck by lightning and burned to the ground. Mr. Harris had just put in his team to feed for supper. He just had time to get them out and only lost the bridles of the harness. A calf was burned, also about 30 tons of pressed hay. His dog apparently was frightened by the storm was seen to run under the barn and has not been seen since.

There was a small insurance—about \$100. The loss is a serious one for young Mr. Harris as he only started on his own account this spring and has lately been married.

The esteem for this young man was manifested at once by liberal subscription by his neighbors and friends.

Miss Margaret Henderson of St. John is visiting the Misses Faye and Damey Burt.

Miss Robin Wilson returned Saturday after a week's pleasant visit in St. John.

Herschel Shaw and an auto party of Houlton were visiting relatives here Sunday afternoon.

Mrs. Jude and little son of Bee-ton are visiting her father, H. T. Scholey.

Conductor Crookshank is having his holidays and the Valley train is in charge of H. R. Logan.

Irvine Jones, formerly teller in the Bank here has been appointed assistant inspector at a good salary.

Sam Shing, our popular laundryman, made a trip to Woodstock Monday by the Valley train.

Morris London visited his wife and new baby girl on Sunday.

Charles Cliff and John Gillard were very successful last week fishing on the Miramichi capturing seven salmon besides lots of trout. The reliable Charles knows where to go to get them.

About 30 from our village motored to Bath to attend the Catholic picnic.

Carl Brown is home for some holidays.

Mrs. Leland Clark and daughter Phyllis are visiting relatives at Presque Isle.

Showers prevented the Methodists from holding their ice cream and straw-berry festival on the parsonage grounds on Saturday evening. However quite a crowd collected and were served in the parsonage.

Geo. Burpee and wife, of Avondale, were in the village Sunday evening, making the trip in his new Chalmers.

An evangelist, Mr. Kenyon, at present holding service at Monticello, occupied the pulpit of the Baptist church Monday evening, the 16th inst., and was much appreciated by the audience. He was accompanied by a professional singer and he certainly could sing some.

Albert Field and wife of Woodstock autoed up on Saturday afternoon and on their return Sunday were accompanied by Mr. and Mrs. James O'Hara.

When F. G. Scott of Montreal was here last week he purchased of Hagerman & Hatfield a beautiful McLaughlin car of 60 horse power, six cylinders, and accommodating seven passengers. The price was well over \$2000. Mr. Scott rode home in the car, taking Scott Sipprell as chauffeur. Mr. and Mrs. Hatfield accompanied them part of the way.

### COMPARING CARVELL AND CLARKE

There has been considerable talk of late about a legislative union of the Maritime Provinces. In the Legislature of New Brunswick a progressive Conservative, Baxter, the ex-Attorney-General, proposed a resolution to that effect not long ago. The House passed it without any signs of a party vote. Whatever does or does not come of it, this resolution endured by New Brunswick is along the right line of organization. If the West is going to organize as a unit, why should the East fail to do so? There are benefits to be got from a closer organization. There are progressives in the far East; plenty of them in both parties. Party politics run high on the Atlantic. We believe they do not run so high as patriotic regard for the welfare of Canada. The speech of Carvell, of Carleton, on conscription, was as Canadian and as courageous as that of Michael Clark, from Red Deer. Carleton Co. is 3,000 miles from Red Deer. The sentiment was the same. Both men are Liberals. Both are of the new order of things. We believe there are plenty of men of both parties in the East as radical as Carvell or Michael Clark. And a closer organization of the forces along the Atlantic that make for the welfare of new Canada is just as necessary in the East as in the Convention in the West. This country is marching along. Sometime after the war is over we may find that its pace will be much swifter than it was even in the decade 1903-13. And the Maritime Provinces have as much to do with that pace as the provinces west of the great lakes.—Canadian Courier.

Frame your soldier boy's picture. We have pictures hand painted, with the British and Canadian flags and maple leaves, with opening for soldier's photos. Just what you want. H. J. Seeley, Somerville.

### Bath News

The new minister, Rev. Mr. Whitman, occupied the pulpit of the Methodist here on Sunday.

Miss Edna Giberson, principal of the Charlotte County Grammar School, is spending her vacation at her home here.

Mr. and Mrs. J. R. H. Simms are receiving congratulations on the arrival of a baby girl in their home. Mrs. W. H. Bramley is in charge.

G. A. Shaw, wife and sons, of Presque Isle spent Sunday with friends here.

Mrs. Mills, nee Miss Alma Shaw, of this place is spending a few weeks here at the home of her parents, Mr. and Mrs. J. L. Shaw. Mrs. Mills resides at Haverhill, Mass.

The farmers are waiting the advent of fine weather to harvest the abundant hay crop.

Extensive improvements are being made to the highways, especially on the ferry hill on the Wicklow side of the river.

Dr. A. P. Wyman made friends a call last week and is looking very well for a man of his years.

Mrs. M. A. Tompkins of Boston is visiting her daughter, Mrs. W. P. Stapleford and family. Mrs. Tompkins was a resident here with her husband, the late Melburn A. Tompkins, for many years.

Miss Cassiah Barker of Lewiston is spending a few days at the home of her brother, J. S. Barker and that of her mother, Mrs. Samuel Barker.

### The Dunphy-Kyle Case

A case in York County Court last week held considerable interest for people in this vicinity inasmuch as a Hartland man was defendant. One Dunphy brought action against A. W. Kyle, damage to a horse which the defendant's automobile struck in Fredericton last year. The claim for damages was \$200.

The defense claimed that the horse, attached to a milk wagon, was standing without a driver on the street and that as the car was about to pass it, the horse turned suddenly directly in the way of the car. The plaintiff sought to show that the accident was due to carelessness and to his being on the wrong side of the street. The jury brought in a verdict for the plaintiff of \$67, but their verdict was so peculiar that the judge would not pronounce judgment either way. While nothing decisive has been arrived at, it looks as though the case would finally end by each paying his own costs.

### Premier Gouin of Quebec Visits N. B.

"A general election is coming and I am glad of it. I always believed that there should be an election. It is just what is needed to clear the atmosphere." These were the words of Sir Lomer Gouin, premier of Quebec, who was in St. John Monday. He was accompanied by Lady Gouin, who came by motor from St. Andrews to St. John.

Asked regarding the political situation in Quebec arising out of the conscription issue, Sir Lomer stated that there was no division of the population. Asked regarding the outcome of a general election in Quebec, he replied:

"The people will not vote right." He had no doubt as to the outcome.

With reference to the feeling raised over conscription the premier said he would not like to make a pronouncement on the question just yet. The bill, he recalled, has not passed its third reading yet, and besides, a general election intervenes before its enforcement. When asked why it was the people were apparently so antagonistic to Hon. Mr. Blondin, postmaster-general, he replied: "Was it ever otherwise?"

Sir Lomer felt elated over the Liberal victory in New Brunswick at the last election. He had intended to call upon Premier Foster and extend his congratulations and felicitations but he did not connect with him.

Asked regarding local conditions in the Quebec province, Premier Gouin was very reticent.

He stated that he had not been there for ten days or more and he was consequently not positively up-to-date in his acquaintance with conditions.

He stated, in conclusion, that the approach of a general election pleased him very much. It was what has been needed all along, he asserted, and he felt quite sure that the people of Quebec would give a proper verdict.

### Lightning's Ravages

On Thursday lightning struck and burned a barn owned by Stanley White of Wicklow, another barn was destroyed in like manner a little further up the river on Saturday afternoon, while in the storm of early Sunday morning a barn of J. W. Southan's, on the J. A. Parker place at Chester was similarly destroyed, as was the large new barn of Thomas McCrea at Peel. Mr. McCrea lost his barns only years ago and he feels the calamity severely.

Woodstock, July 24.—At half past six o'clock last evening a terrific electrical storm swept over the town, followed by torrents of rain. The lightning struck the spire of the Baptist church, almost totally destroying it. It remains standing but will have to come down.

John McKinnon's house was badly damaged, a hole being torn through the roof. Mrs. McKinnon was unconscious from the shock and Mr. McKinnon was badly burned on the arms.

A church in Jacksonville and several houses in the vicinity of the town were hit. It is reported that the farm buildings of Mr. Gartley were burned to the ground. Rivers of rain have caused considerable damage to crops where the storm visited. A high wind accompanying the rain damaged crops in several sections.

### War Souvenirs

Mr. and Miss Benj. Wilson of Hartford has received some very interesting war souvenirs from their son, Lieut. Robert B. E. Wilson, M. C. who recently won the military cross for gallant services on the field. In the collection there is a German helmet, a piece of an aeroplane shot down at Vimy Ridge by a machine gun; the ammunition belt and other parts of the machine gun that he captured when he won the military cross, and a part of the ribbon he wears until such time as he is able to go to England and receive the military cross from King George.

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

## PROCLAMATION

BY HIS HONOUR, GILBERT W. GANONG, LIEUTENANT-GOVERNOR OF THE PROVINCE OF NEW BRUNSWICK

WHEREAS, the Fourth day of August, 1917, is the third anniversary of the declaration of war by Great Britain, AND WHEREAS it has been proposed by the Central Committee for National Patriotic Organizations that public meetings be held throughout the Empire on that date at which the following resolution should be passed:

"That on this the third anniversary of the declaration of a righteous war, this records its inflexible determination to continue to a victorious end the struggle in maintenance of those ideals of Liberty and Justice which are the common and sacred cause of the Allies." AND WHEREAS the Executive Council of this Province has passed an Order-in-Council authorizing a Proclamation to issue requiring the assembling of the people together on that day for said purpose: WE THEREFORE hereby request and enjoin that all loyal citizens throughout the Province do meet on said 4th day of August and pass the said Resolution and in view of the gravity of the situation and the solemnity of the occasion the day be also observed by holding meetings of a religious intercessory, as well as Patriotic Character.

GIVEN under my hand and seal at Fredericton, the Thirtieth day of July in the year of our Lord one thousand nine hundred and seventeen, and in the Eighth year of His Majesty's Reign.

ROBERT MURRAY.

## NERVOUSNESS AND BLUES

Symptoms of More Serious  
Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, headache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROSE STOTTEL, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

### Two Workmen Killed on N. T. R.

Moncton, N. B., July 11—Two men named Cyr and Lajoie are dead as the result of an accident in the Davis gravel pit along the N. T. R., about twenty miles east of Edmundston.

The men were at work in the pit when an overhang of earth fell on them. Cyr was killed instantly. Lajoie was dug out and taken to the hospital at Edmundston, but died of injuries.

Both were married men, with families.

## AUGUST COSMOPOLITAN

One of the most striking features in August Cosmopolitan is the beginning of a new three-part story, "Blue Aloes," by Cynthia Stockley. The scene is laid on a Karoo farm in South Africa, a part of the world with which Miss Stockley is familiar. Levers of a weird and mysterious story will read "Blue Aloes" with unusual interest.

The second instalment of "The Restless Sex," by Robert W. Chambers, also appears in August Cosmopolitan. If you did not start this new novel with the July number, start it now. It is the greatest novel of the year.

Elizabeth Robin's "The Tortoise-shell Cat" is this famous writer's debut in Cosmopolitan. Her unusual story is a real treat. Samuel Merwin is there with a delightful Henry the Ninth story, entitled "Salvage." It is another episode of Henry's puppy loves.

Lilly Langtry continues her reminiscences. In August she writes of her experiences with English royalty, particularly of the late King Edward, who was noted for his patronage of the stage.

Arthur Reeve has written a great mystery story for August Cosmopolitan, entitled "The Nitrate King," in which Craig Kennedy puts all his energy and intellect into the fathoming of a great mystery.

George Ade is there with a great Fable in Slang.

Jack London's "Michael," one of the greatest stories ever written, is continued.

Herbert Kaufman writes of Thomas Edison.

C. N. and A. M. Williamson's wonderful motor car romance, "The Adventure of Jose," is continued.

Mary Roberts Rinehart's trip through the Northwestern Rockies takes the reader of this issue on a pack train through the Cascade Mountains.

John Galsworthy's "Beyond" is continued.

Ella Wheeler Wilcox has written a wonderful poem called "The Hour."

These are only a few of the big features in August Cosmopolitan, America's Greatest Magazine.

## STUMPAGE

The Provincial government has shown good business judgment in grappling promptly and courageously with the stumpage problem by increasing rates and making regulations which, honestly enforced, should give the province a substantial revenue increase. The extent of this increase depends in a very large measure on the government attitude toward the enforcement of the regulations promulgated. Heretofore the lumber interest has not been without means of securing concessions of one kind and another.

The new surveyor-General and his colleagues will not find it easy to enforce all their regulations and to collect the full amount of the stumpage due the province.

They are making a good beginning by ending an arrangement inimical to the best interests of the province and establishing more equitable stumpage rates and better cutting regulations. The announcement from Fredericton suggests a government decision to abandon the election-policy of crown land management by commission. That is as gratifying as the announcement of better business arrangement.—St. John Globe.

### For Baby's Tender Skin

A child's skin is tender as well as beautiful and eczema may be caused by chafing of clothing, the use of poor soap, exposure to cold or sudden change of temperature. Probably no treatment for eczema has ever proven so successful as Dr. Chase's Ointment, and this applies particularly to baby eczema. This ointment is delightfully soothing, stops the itching and consequently prevents scratching. Gradually the sores are healed up and the skin is left soft and velvety.

### Centre ville Red Cross

Last week The Observer in perfectly good faith printed a report of the Centreville Red Cross as it appeared in the Fredericton Gleaner. Since then the following letter has been sent to the Gleaner:

Centreville, July 17.  
Editor of The Gleaner:  
Sir—Would you kindly give space in your columns for a few lines in contradiction to an article that came out in the Red Cross report from Centreville in your last issue of July 12. A clause of this malicious insinuation relative to the disposal of certain moneys received as the proceeds of a play given by the Young People's Dramatic Club and from the sale of a Red Cross doll.

The members of the Society were fully aware that the concert money was held in trust in the local bank pending decision as to what branch of Red Cross work it should be devoted and also the money from the doll had been sent to the St. John branch and had been acknowledged in the local press. Suffice it, that after the small talk made by two or three members, they had small chance of getting the doll money and have absolutely none of getting the concert proceeds. We would ask you therefore,

to print the accompanying letter along with the foregoing lines to allay any doubt which they evidently wished to spread regarding the disposal of the funds.

Yours truly,  
Miss DAMEY C. BURTT.

### Printing Prices Go Up

The increase in the cost of printing has been so great since the beginning of war that an average increase in prices of 25 per cent. has followed. This has been agreed to by the printing firms in Toronto. The cost of material has jumped all the way from 25 to 300 per cent. in advance of what it was a few years ago, and the 1917 wage schedule has brought up the cost of labor from 24 to 35 per cent.

On the different kinds of book paper increases range from 64 per cent. on news-print to 123 per cent. on Egg-shell book. Manillas have gone up 150 per cent. on Kraft wrapping, and coated enamel, from 61 to 69 per cent. Bond papers have increased from 50 to 140 per cent., and flat papers from 50 to 150 per cent. The greatest increase on the cost of materials has been on ink of all grades, which has gone from 25 to 300 per cent. over former prices.

### Burpee-Long

The home of Mr. and Mrs. Charles A. Long, Centreville, was the scene of a most interesting event on Wednesday, July 4, when their eldest daughter, Gaynell, was united in marriage to E. Elmer Burpee, only son of Mr. and Mrs. David Burpee, of Jacksonsville.

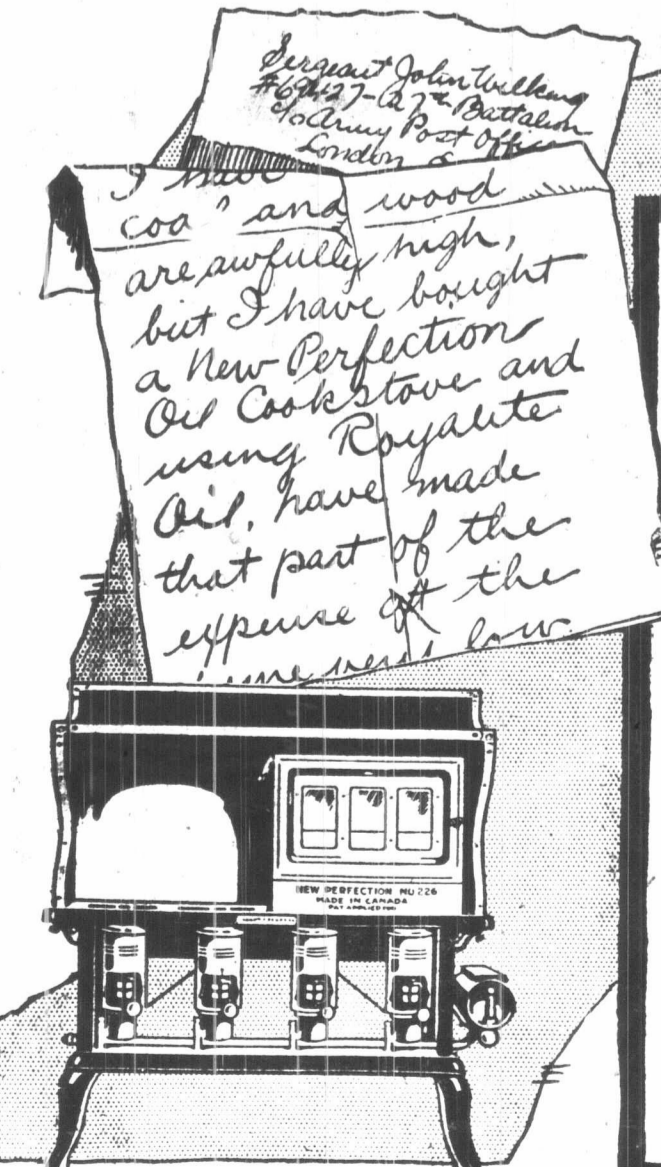

The bride, who was given away by her father and was unattended, was prettily gowned in white duchess satin and georgette crepe, with bridal veil, and carried a bouquet of roses—her only ornament being a handsome pearl necklace, the gift of the groom.

Rev. J. W. Hurlow, of Tracey Mills, performed the ceremony and Miss Molly Cody played the wedding march.

Following the ceremony a sumptuous luncheon was served, after which the bride and groom left for a motor trip of several weeks through the New England States. The bride's going away dress was navy blue, with hat to match.

Both the young people are very popular. The bride has for some time most capably filled the position of Principal in different schools of the province, while the groom is one of the most popular farmers of Carleton county.

## KEEPS BABY'S SKIN HEALTHY

WHAT is so beautiful as the soft, rosy, delicate skin of the baby. And yet baby's skin is so tender and so easily chafed and irritated that it must have care and consideration.

It is a fine habit for mothers to have Dr. Chase's Ointment at hand for use after the bath. By its soothing, healing influence it soon allays the inflammation, brings relief and comfort, and prevents the development of eczema, for eczema is the natural result of neglected skin irritation.

Mrs. W. L. Barnes, Timmins, Ont., writes: "I want to tell you about the case of my little boy who had baby eczema when he was three months old. It started on the top of his head, on his forehead and around his ears. The doctors failed to do him any good, so I tried Dr. Chase's Ointment on the recommendation of a friend, and in a month's time the child was entirely free of this disagreeable skin disease. He is now four years old, and has never had any further trouble from ailments of this kind."

## RESPONSIBILITY FOR BAD ROADS

(St. John Times)

The Standard says: Residents of Queens county openly state that the roads there were never in a worse condition than at the present time.

The condition to which the Standard refers is due to the fact that a government supported by that paper was in power for some nine years, and spent on its friends, the grafters, the money that should have been spent on the roads.

The Foster government has only been in power for a few months. It found every department disorganized. Not only were the roads suffering from nine years of neglect, but this spring and early summer season was the wettest for many years, making satisfactory road work

more difficult than usual.

Having found an empty treasury, the new government has not the necessary funds to immediately repair all the roads of the province, for all the roads are bad. They are without proper drainage and cannot be made good in a few months. Systematic and honest work for a number of years will be necessary. Meanwhile, with the funds available, the department is making repairs as fast as possible. That demands for large expenditures come from every quarter is due to the neglect of the roads by the old government, which went into power in 1908 with a good roads policy but utterly failed to carry it out. Hon. Mr. Veniot has no magic wand. He cannot call good roads into being in a moment. He can, however, go to work in a business way, and get results for whatever money is expended. This he is doing and will continue to do.

## WHY DOES IT RAIN SO MUCH?

Why does it rain so much here in the Maritime Provinces? We have rain overmuch, but in southwestern Saskatchewan the crops are fairly being sunburned and destroyed. The same condition which prevails in the Maritime Provinces seems to prevail over the greater part of Southern and Southwestern Ontario. There, with the exception of an inland stretch running through the centre of Ontario towards the Ottawa River, the rain conditions this summer very much resemble those of the Maritime Provinces. What is the explanation? A Weather Prophet has ventured in Toronto Telegram an explanation, which out of many current he seems to favor. It blames the meteorological condition upon the continued presence of the ice in the north. He says:

"Last winter was very, very cold and the spring was very late in coming. As a result, the northern half of North America is still cold, and, in fact, ice can still be found up at James Bay. Down in the Southern States it has been unusually hot for several months, and tons of water have been evaporated by the sun from the Gulf of California and off the Mexican coast. These warm clouds, laden with moisture, have been wafted north and all the way up pass over hot, dry states which give added heat to the clouds and take none of their moisture.

"Here in the north it is cold, both the land and the lakes are still in winter's embrace, or possibly at a temperature of 60 or so. The warm clouds are light and naturally ride high over the cold lower current. In the sky we see what are commonly called 'mares' tails'—that is, fleecy, fan-like patches of cloud—which is caused by the warm and cold air meeting. Naturally the cold of the north causes the warm expanded clouds to contract quickly and all their moisture is condensed and falls as rain.

"June and the first part of July have been cool, and so we could expect nothing else, but when these warm winds came up they would be chilled and we would have copious showers. Now, however, pressure is becoming more distributed, the north is warming up, and though showers for the last few days have been more generally distributed throughout the whole Dominion that in itself is a proof that the north and south are becoming more graduated and the rain is petering out.

"Of course there will still be showers" the Weather Man hastened to add. "There is no doubt that some showers will fall both to-day and Saturday in some localities, but there is a tendency for warmer weather."

## THE POLITICAL SITUATION

The interesting news comes from Ottawa that Dr. Michael Clark has been for some time under the wing of Hon. Robert Rogers, with whom he has had frequent conferences, and that it was decided weeks ago not to invite him to the caucus of the Liberal party. Last May he declined to assist the Liberals in the Alberta elections; and it is said he had come to an agreement with the Conservatives of Alberta that he would not himself be opposed in his constituency in the next election. Dr. Clark may therefore be classed as a Conservative and a supporter of the Hon. Robert Rogers. Then there is Mr. Champagne of Saskatchewan, who has been classed as a Liberal. We are now told that he broke with the Liberals of Saskatchewan four years ago, and that at a nominating convention two years ago another candidate was chosen in his place. Moreover, he worked against the Liberal Martin government in the recent elections, and has been closely associated with Hon. Robert Rogers in regard to Saskatchewan politics.

The St. John Standard today alleges that Hon. Mr. Graham's amendment to the Borden resolution for an extension of the term parliament was moved without the knowledge of many of the conscriptionist Liberals. The truth is that this amendment had been agreed to by every member of the Liberal party, and even Dr. Michael Clark, who voted against it, had previously endorsed the principal and wording of it. It is well to keep the record straight.

Sir Robert Borden announced yesterday that he would not proceed with the parliamentary extension bill. The elections will therefore take place within the next three months. The Standard's Ottawa correspondent informs its readers that Sir Robert is still hoping to form a union government, and the olive branch today takes the place of the knotted club of yesterday. The prime minister is in a very uncomfortable position. In trying to crowd Sir Wilfrid Laurier to the wall he has got himself into a situation so perilous that he is looking to the Liberals for help to escape from the consequences of his own acts.

It is clear that the Liberals are united in support of the Graham amendment. The conscription

bill is to be further considered today. On both sides of the house the certainty that the elections are at hand will stimulate a new interest in the probable attitude of the people in regard to matters now under discussion. There will be a framing up of policies, a canvassing of prospects, and general preparation for the contest which cannot long be delayed, and which will undoubtedly be marked by appeals to prejudice and passion.

As the people of Canada are to go on living together after the elections, and after the war, this is a very good time for the average citizen to keep his mind clear and his prejudices well in hand. —St. John Times of July 19.

## Hurrah! How's This

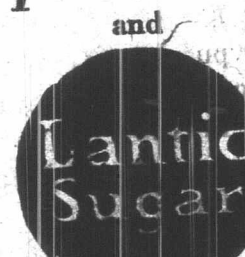

Cincinnati authority says borne dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezease can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus. You simply apply a few drops of freezease on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain. This drug is sticky but dries at once and is claimed to just shrivel up any corn without irritating or inflaming the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

## TAPLEY HELD ON MURDER CHARGE

Further Evidence in Alleged Poisoning Plot Leads Magistrate to Order Commitment.

The adjourned hearing in the alleged attempted poisoning of Robert and Jonathan Shannon by James Tapley was held at Woodstock on Wednesday when the council chamber was crowded and many out-of-town friends of the accused were present, including Tapley's wife, who sat beside him for a short time, was deeply affected and cried bitterly when the accused was returned to jail on being committed for trial.

John Lafrencias, who is the principal witness against Tapley and who exposed the alleged plot, is a rather bright looking young Frenchman and has evidently traveled considerably. He claims to belong to Providence, (R. I.) and says he was in Maine looking for work when he met Tapley. His evidence is so important that Magistrate Noble held him in \$2,500 bail for the superior court in October.

Two Houlton men, witnesses, were examined. Mr. French, a druggist, produced his book, showing a sale of a quarter ounce of strychnine on July 6 to John Tapley. He could not identify the accused as the man who bought the poison. In answer to his question when the sale was made the purchaser said the poison was to be used for poisoning foxes. He said the bottle in court strongly resembled the one sold.

A boarding house keeper, John Radigan, identified Tapley as the man who engaged a room at his house for Lafrencias and came in the morning and paid for it.

Another witness named Wheeler met the Frenchman and another man on the road, although he would not positively identify Tapley as the other man.

The evidence given by Robert Shannon was truly of the dime novel variety.

His testimony was: "I live in Greenfield and I know the accused, James Tapley. I also know John Lafrencias, who I first saw Sunday night, July 8. I was away with my brother and when we returned George Hanson who was sitting under the trees with another man, said here is a man to see you. Lafrencias said I have come here to save your lives. Tapley has sent me over here to poison you. I took the small bottle and said, Where is the label that was on this bottle? He replied: Mr. Tapley scraped it off. Tapley told me to get you both but in case I could not get the one with the glasses on sure. If you don't get either we will buy six sticks of dynamite and throw it in the window and blow them up."

No other witnesses were called and Magistrate Noble, after an able review of the evidence, committed Tapley for trial at the supreme court to be held the second Tuesday in October.

Mrs. Jas. McClary is failing quite fast.

### Lightning Rods a Sure Protection

Statistics gathered by insurance companies prove that when buildings are properly protected by lightning rods they are absolutely safeguarded from lightning. Poor rods, improperly attached, may be a source of danger rather than safety. The one best lightning rod is the Dodd & Struthers which is sold by H. N. Boyer and J. W. Adams. They will properly rod your buildings any day you say so. Take heed from the great number of fires lately caused by lightning and give your buildings the absolute protection afforded by Dodd & Struthers lightning rods. Interview Boyer or Adams without delay.

### Got Rid of Bronchitis

Mr. W. H. Walker, Calmar, Alta., writes:—"I am pleased to say that Dr. Chase's Syrup of Linseed and Turpentine has done much good to myself, wife and children. My eldest girl, 7 years, had bronchitis and the doctor who attended her did not seem to do much good. We got Chase's Syrup of Linseed and Turpentine for her and she soon got well. We always keep this medicine in the house now ready for use and finds that it soon cures coughs and colds."

## A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. Try it.

### Precautions in New Brunswick Because of Small Pox in Maine

Fredericton, July 21—No further developments in the small-pox situation at the St. Croix border have been reported. Dr. R. H. McGrath, secretary of the provincial board of health, this morning said that the authorities are waiting for a sufficient length of time after the "last contact" of Canadian suspects with persons in the State of Maine. A woman at McAdam, who was suspected of having the disease, proved to have only a bilious attack. Two soldiers from Valcartier came home on leave were exposed to the disease and are being held pending signs of developing small-pox. It is not thought they have it. Compulsory vaccination has been adopted at McAdam.

Dr. McGrath says that the disease in Maine is of a nasty type, although no deaths have occurred. It first was observed in the lumber camps last winter. Since that time it has broken out at various times, gradually working near the New Brunswick border. It is epidemic. Cases which crossed the border into York county some weeks ago were isolated at once.

There are some cases at Vanceboro, Me., which is under quarantine.

### That Troublesome If

A certain English foreman in one of the Kensington textile factories is in the habit of having an apprentice heat his luncheon for him. The other day he called a new apprentice.

"Go down stairs and get up my lunch for me," ordered the foreman.

The boy—a typical young American, with no knowledge of cockney English—obeyed with alacrity. He was hungry.

Ten minutes later the foreman came down. He also was hungry.

"Where's my lunch?" he demanded.

The boy gazed at him in amazement.

"You told me to eat it up—and I ate it," he stated.

"I didn't tell you to heat it up!" roared the irate foreman. "I told you to 'eat it up.'"

"Well, I didn't heat it up," maintained the youngster, stoutly. "I ate it cold."
