Situation at Archangel Serious for Allies

Bolsheviki Want Stores of Food and Materials.

More than Defeat of the Allies. (Special to The Record). Paris, April 10. (By William Phillip Simms)—That the Bolsheviki have 600,000 troops concentrated in Archangel region and are determined to capture that port, was the belief expressed today by a French major, who just returned to Paris after being exiled in Russia since 1914. The Bolsheviki, according to this French officer, want the large stores in Archangel and the fate of the defenders is only of secondary importance to them. He considers the situation serious and insists that the Allies must either reinforce their armies or withdraw immediately. The Allies forces on the Archangel front, the officer said, are humbled in on one side by the Bolsheviki and on the other by a frozen sea. Realizing the extent of the Allies' position, the Bolsheviki have concentrated fifty or sixty per cent of all their available troops in this region for the purpose of capturing supplies in Archangel.

## RESOLUTION FOR SUNDAY CARS ON G.R. ENDORSED.

The resolution endorsing Sunday cars on the Grand River Railway has been endorsed by the town Council and a copy has been sent to the Dominion Govt. In conversation with Mayor Kutt it was learned that at a previous meeting the Council endorsed the proposition unanimously and he did not deem it necessary to call a special meeting for this purpose alone. Over the phone he got in touch with the members and the outcome was the resolution was heartily endorsed and the Clerk was instructed to forward same forthwith.

The general opinion in town is that Sunday Cars on this line will be a move in the right direction and the sooner it comes the better the public will be pleased.

It is rumored that unless a settlement is effected today between the Employees of the Canadian Express Co. and the Company the local staff will go out with the rest of the members of the brotherhood.

## Will Urge Dominion Government in Good Roads Matter

"Getting wind that there was some opposition to the good roads bill in the Dominion House at Ottawa, the Executive of the Central Ontario Provincial Highway Association wired to the local member, H. B. Morphy, M. P., to find out if this was the case." a Stratford report says. Yesterday Mr. Morphy wired back

that there was a faction in the House that was opposed to the passing of such a bill, chiefly members from the Western Provinces. On receipt of the telegram the local Executive met and decided to get in touch at once with all municipalities concerned, not only with the Toronto-Stratford-Sarnia highway, but on the Toronto-Windsor highway, and the promoters of the Good Roads Movement in Eastern Ontario. These municipalities will be asked either to pass a resolution requesting the Dominion Government to pass a bill or else appoint delegates to go to Ottawa on a deputation to urge on the Government the necessity of having these trunk roads built.

## Evidence at Guelph of Damaging Kind

### WITNESS SWEARS GIOVANZZO FIRED FATAL SHOTS.

GUELPH, April 9.—Further evidence in the Dutkie inquest was taken at the second session held at the police court on night and all of it was of a most damaging character against John Nasodick, the Austrian, and Jimmy Giovanzzo, the little Italian. John Jebara, who with Dutkie when a w s murdered, swore positively that Giovanzzo fired three shots at Dutkie at a distance of about four feet and then ran away. Evidence was also produced to show that the robbery of Mike Hondy-bura was carefully planned during the afternoon and that he had been lured to Tom Mallot's house for that purpose. Nasodick went into the witness box and corroborated what Jebara had told. It also came out that plans had been laid to rob several other people who might have money, as Nasodick was out of work and had no money. The inquest was still in progress at midnight, with not much chance of a verdict at this session.

## St. Thomas Tax and Assessment.

St. Thomas tax rate is 29 mills on the dollar, an increase of one and one-half mills over last year's rate. The increase in the estimates this year amounts to \$42,728.66. Of this amount \$7,922.94 will go to make up the deficit in the operations at Amasa Wood Hospital last year. The assessments have been increased this year by \$461,398, of which \$385,063 arises from the increases in the income tax assessments. The total assessment figures for 1918 were \$11,124,975, and this year they are \$11,586,373. Land assessments have been increased \$22,220, and buildings \$33,580. There is a slight increase in population, the total in 1918 being 17,143, and in 1919, 17,308.

## ABLE VIOLINIST AGAIN IN CITY

### MISS ISOLDE MENGES DELIGHTS BIG AUDIENCE.

The citizens who were at the Roma theater last evening witnessed a musical program which was well worth going many miles to hear. There was special reason for the artist was that renowned violinist, Isolde Menges. Those who had heard Miss Menges on previous occasions when she played in this city had not forgotten her excellent playing and they had been longing for the day when she would again come here to give a program and those who on these occasions had not been able to present then had since been looking forward to the next event of Miss Menges in this city. The concert last evening therefore afforded particular satisfaction to the attendants who were many and after hearing the strains from the stringed instrument played by Miss Menges assisted by Miss Eileen Beattie, pianist, were loud in their praise of the entertainers. Miss Menges is a superior violinist and in her playing of selections, masterpieces by the renowned composers, she was the case at her previous programs, gave a remarkable interpretation of the same. As to the rendering of the various numbers there was little choice between the same, the audience being highly pleased to an equal degree in every case, the execution and playing besides the interpretation of each being superb. Besides the numbers scheduled on the program several others were given in response to encores by the appreciative audience.

## Laudatory U. S. Films Are to be Barred

### MOVIES SOON TO BE MADE IN DOMINION

Toronto April 9.—Canadian-made motion pictures are likely to be placed on the market very shortly in competition with American films. Hon. T.W. McCarry stated to the Legislature this afternoon in moving the second reading of his bill amending the Theatres and Cinematograph Act. At least one company is already actively operating, while two other producing exchanges have been opened and are likely to commence picture-making at an early date as a result of the showing of American war films in Ontario theaters. Will Stop It.

Mr. McCarry explained that a number of theaters had persisted in showing films which glorified the feats of the American forces in the war. As a result a clause was inserted in the bill now under discussion giving the board of censors power to ban any such pictures.

Another clause provides for the appointment of temporary censors to review the existing board of some of its duties which have become very heavy. It is proposed, Mr. McCarry stated to appoint women who are particularly fitted to pass judgment on certain classes of films.

Mr. McCarry also explained the clause providing for the appointment of a matron to be in attendance on days when children are admitted unattended to theaters, thus relieving parents and guardians of the necessity of accompanying their children.

Many Foreigners. With reference to the clause enforcing the playing of the National Anthem at the close of every performance, Mr. McCarry reminded the House that many theater owners in the province are of foreign birth and some have not even been naturalized.

"Take away their licenses" suggested a Government member.

Sam Carter member for South Wellington expressed pleasure at the bill, which he regarded as a step in the right direction. He declared war on the brands of pictures technically known as "western" and "vampire" dramas.

Allan Strohmeier considered that a movement to obtain Canadian films should be set on foot. Mr. McCarry replied that such a move had already been made. In the past the Canadian climate had been regarded as a handicap, but in view of recent improvements to motion picture cameras, it was now believed that Canadian climatic conditions might be even more favorable than those prevailing in California where the majority of American pictures are made.

In reply to Mr. Carter's appeal for better pictures, Mr. McCarry stated that no efforts were being spared to obtain these.

## Municipal Board Will Come Here

### PURPOSE IS TO CONSIDER PROPOSED CITY PLAN.

The Ontario Railway and Municipal Board will sit in this city on May 7th. The purpose is to consider the proposed plan of the city, recently completed by the City Engineer for the City Planning Commission.

Chairman W.H. Breithaupt of the Commission received notification today from Secretary H.C. Small of the Board. The notification also instructs the Commission to inform the adjoining municipalities of Waterloo and Bridgeport of the fact and also to give repeated notices of the session.

The City Planning Commission was scheduled to meet this afternoon to take the necessary action.

## Ontario is to Issue \$10,000,000 in Bonds

### MONEY FOR HYDRO, T. & N. O. AND OTHER PURPOSES.

TORONTO, April 9.—In committee of the whole this afternoon the Legislature considered Hon. T.W. McCarry's resolution, asking for authority to borrow \$10,000,000 for capital expenditure on Hydro, T. & N. O. and other Government undertakings.

Mr. MacGarry said he expected the provincial revenue this year would be between 17 and 19 billions. He asked, however, for authority for borrowings to the extent of \$10,000,000 for capital expenditures in connection with the Hydro-Electric Commission, new building and possibly in connection with road work.

Mr. Proudfoot objected to the bond being assessable for municipal and provincial revenue. Mr. McCarry replied that they would be taxable and the resolution carried.

## Prominent Divine Called

The Methodist Church of Canada lost one of its outstanding figures in the sudden death yesterday of Rev. James H. Hazlewood, D. D., Toronto, who succumbed to an attack of heart failure, at his home, 50 Sumnerhill gardens, following an illness which had kept him from active work for about a month.

His field of work covered the Dominion from coast to coast, and many fine tributes were paid to his earnestness, and the indomitable spirit which he displayed in his labors for the moral uplift of the people, by all those who were associated with him in the Department.

He was born in Brockville in 1857, educated for the ministry at Wesley College, Montreal, and was ordained in 1877. Before going to Toronto in 1905 he occupied many pulpits throughout the Province, leaving Hamilton to accept a call to Central Methodist Church, Toronto, and later became pastor of High Park Avenue Church, which pastorate he gave up to accept the position of Field Secretary to the Social Service Department in July 1913.

The annual statement of the Beaver Mines, Limited, showed a splendid year in face of handicaps.

## HENRY DEICHERT'S DEATH

Henry Deichert, of New Hamburg aged fifty-two, single was found dead at 8 o'clock Tuesday in his bedroom. Coroner Marty considered an inquest unnecessary. The deceased lived in the town with his mother and sister. He succeeded his father as a harness maker. He was of a retiring disposition, taking no active part in public matters. About a year ago he surprised the village by becoming very active outside his usual business. He bought two very valuable farms adjacent to the village and began cutting down 25 acres of hardwood bush. He began sawing planks last week. He was a member of Trinity Lutheran Church New Hamburg.

'The Phonograph With a Soul'

After hearing a noted singer and Edison's RE-CREATION of her voice side by side, a famous musician called The New Edison, "The Phonograph with a Soul." Glen Ellison the Famous Baritone made this same test at the Star Theatre last Thursday night. 700 music lovers heard the test, and not one of them could distinguish his actual voice from Edison's RECREATION of it. Wouldn't it be a delight for you to have Glen Ellison and other great artists sing and play for you any time you chose—right in your own home—just as they do on the operatic and concert stage? In only two ways is this possible, one by having the artist appear at your home in person or by possessing

The NEW EDISON

which will bring to you all that the artist can bring, excepting only his physical presence. May we soon have an opportunity to explain to you how you can make Edison RE-CREATIONS a constant source of mental refreshment for you?

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force. Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved line of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by A. J. Roos in Kitchener and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the appearance, the increase in weight frequently being astonishing. This increase in weight also carries with it a general improvement in the feeling. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health. CAUTION—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Mother! Your Child Is Cross, Feverish, From Constipation

If tongue is coated, breath bad, stomach sour, clean liver and bowels. Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow. If your little one is out-of sorts, half-sick, isn't resting, eating and acting naturally—look Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Mothers can rest easy after giving this harmless "fruit laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs" then see that it is made by the "California Fig Syrup Company".

Darken Gray Hair, Look Young, Pretty

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell. Hair that loses its color and lustre, when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but which delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

## A PLEA FOR GOOD COUNTY ROADS

Reports reach this office that teams and motorcars are frequently "stuck" fast on the Breslau road, which is the leading artery between here and Guelph. Vehicles pulling each other out of the mud are common occurrences. What a commentary on the present way of building county and township roads!

Mention has been made of the fact that Waterloo county expended last year \$48,857 on county roads, of which sum \$11,000 represented repairs on gravel and macadam roads. This larger amount named does not take into account the sum raised by the Statute Labor tax. In earlier times, every farmer performed a certain number of days' work on the roads. Now he pays cash. The average sized farm is called upon to give the equivalent of 15 days' labor, which will represent, say, \$30. The total number of statute labor days could not to-day be ascertained. Obviously it will represent a large sum. County and township road expenditures thus make a large cost. The taxpayers of the county may well ask themselves, What do we get for it?

It should be recalled that the statute labor device is an age-old device. It will be granted, that under it, enough labor and its equivalent, money, has been frittered to have concreted every road in Waterloo County. Had each township laid only a mile of concrete a year this could have been accomplished.

In agriculture, as in manufacturing, Waterloo County is termed one of the banner counties of Canada. It has a rich soil and excellent farmers. Their well-tilled fields, fine homes and good barns denote prosperity.

They are enterprising to a degree. They use modern machinery; are introducing the Hydro service, with which to grind feed, cut fodder, pump water, milk the cows and churn butter. They have telephones and are buying motorcars. They have begun the use of tractors and will soon set up motor presses to carry their products to market and bring home store supplies. Yet they have heretofore backed away from permanent roads.

It may be that they have considered that every dollar the individual farmer contributed towards good roads would be for the public's benefit as well as their own, forgetting that their shares were small and that their neighbors' contributions were also included. The roadways are free to all. Everyone may use any road in any part of the county. Experience in Canada and the States where permanent roads have been constructed, attest that the value of farm lands abutting them have increased to a greater extent than the sum expended by the farmers.

Did this not invariably follow, the saving in wear and tear and in time would warrant the cost of good roads. Note the saving of being able to haul a full load at all seasons of the year instead of from June to October.

Another objection on the part of rural Waterloo has been that permanent roads, when constructed, are mostly used by motorists. These are not exclusively used by motorists. Everyone needing them uses good roads. Following this somewhat selfish course, it will be found that motorcars soon make poor roads worse, ending in greater outlays for repairs of gravel and macadam roads than concrete roads would cost.

When Robert Stevenson invented the steam locomotive, the agriculturists of his country bewailed the probability of their killing the cows along the railway. The steam railway was not halted by this fear. It was too good a thing to bar and as a matter of fact that ancient fear proved groundless. The multiplication of motorcars can no more be checked than was the spread of railway transportation. To-day every district in Canada welcomes a railway.

Instead of bucking the motorcar, wise men in the rural districts are utilizing them. As a matter of fact more farmers own automobiles than do any other class in Ontario. They are getting the habit and profiting by it. They may soon become the leading owners of motorcars.

Motorcars are admittedly hard on oldtime roads. The proper thing is not to exclude or hamper their use but to tax them, as is being done to the extent of more than \$1,250,000 per annum, and use the money thus secured to build a class of roads that will withstand motor traffic. Wise old Waterloo, leader in so many directions, should get a quarter section of this pie, while the pie is being handed around.

All the county and township roads cannot be reconstructed in one year nor in ten. But a given number of miles can be laid each year, working toward the goal of good roads for every section of the county.

Taxpayers recognize that gravel and macadam are as out of date as last year's birdsnests and that to continue spending about \$50,000 in making and repairing them is a sheer waste, which might be likened to carrying milk in a paper bag.

Since the obtaining of good roads is a matter of many years, the sidewalks and even some of the county roads will continue to be dressed with gravel. Better construction is here urgently needed. Roads should be crowned and properly drained. Dumping fresh gravel on saucer like roadways and letting the wagons iron it out is a poor way of doing things. When it rains pools of water gather and the horses' feet and wagon tires, along with motorcars, grind the gravel into mud and slush. Helping each other out of mud holes then becomes a necessity in bad weather.

It seems to us that the best way to eliminate poor roads is first to build good ones in much-travelled sections. Concrete roads are good missionaries. Motorists, who at bottom may be said to be paying for new roadways would be within their rights in insisting that no further money should be wasted, through the building of county or provincial highways of gravel and macadam. Let the problem be tackled by degrees. A concrete roadway from here to Preston would be a good thing to undertake as an example this year.

## WANTED: A SHELTER AT GALT

It is pleasing to note that Manager Kirkwood of the Grand Valley Railway appreciates the patronage given the G. P. & H. by our citizens and its increase of late, through placing a car in service to make connection with the early eastbound C. P. R. train at Galt.

In view of his enterprise in this matter, it is desired to draw his attention to a provision, which if made, would please many patrons of the road. It is

to provide a shelter for passengers, while waiting at the C. P. R. bridge for a G. P. & H. car to convey them northward.

Frequently it is necessary to wait ten or fifteen minutes for the car to arrive. In the cold winter months and wet spring and autumn months, this is always disagreeable and is often dangerous for persons in indifferently good health.

A reply might be made that passenger can take to the C. P. R. station, some fifty or seventy-five yards distant. This would delay the departure of the car, particularly since it runs through a cut and arriving passengers have to descend a stairway.

It would not be a difficult nor costly matter to provide a shelter, convenient to the G. P. & H. track. That patrons of the road would appreciate it, goes without saying.

## BY THE WAY

"Well I'll be trucked!" said the Watermelon.

Before you again dust off your lawnmower, this city will have received another industry.

On Tuesday evening 300 English people left Toronto for England. After several years of residence in Canada, their spokesman said they longed for the old English ways, habits and personal freedom.

## Extracts of Exchange

### HOW THE STATES FOSTER EXPORT TRADE

Industrial group organization for the development of foreign trade is proceeding rapidly in the United States. Already over eighty export associations have been formed under the Webb-Pomene law. Among the principle commodities represented by these organizations are: Steel, copper, lumber, textiles, automobiles, machinery, raw cotton, sugar, magnesia, paper, tanning materials, phosphates, oils. One association will limit its foreign trade to clothes-pins. The Government's billion dollar fund for financing foreign trade will be available soon to exporters through loans from the War Finance Corporation. Regulations now being prepared by the Corporation to cover advances will provide for the lending of sums up to \$50,000,000 to any individual firm, corporation, or export association, probably at 5 1/2 per cent. interest for a maximum of 5 years on adequate collateral. Scores of informal applications for information or for advances have been received from individual exporting firms or representatives of the export associations organized under the Webb law.

### PREDICTS A FEDERAL ELECTION

Farmers' Sun: The Canadian Council of Agriculture, which has just been in session in Winnipeg, had under consideration the question of the best mode or political action to enforce the farmers' demands. It acknowledged an insistent demand of the provincial members for definite political action and in response it recommended the provincial associations to take immediate and energetic action to secure the election to parliament of representatives of the farmers' cause. That is a decision prompted, it may be assumed, by the influence of the farmers in the present parliament, which delays the budget from day to day, while Mr. White bargains concessions to secure the support of his government. The Council is apparently convinced that in the matter of the tariff these concessions will be material. To strengthen the resolution of the farm representatives, the Council urges the Dominion Government, during the present session, to remove the seven and a half per cent. war tariff and to make a substantial reduction of the general tariff in the manner suggested in the farmers' platform. There is no sign of a weakening of the farmers' demands, and it is understood that nothing will be accepted in the stead of tariff reform. That is, the demand made in some quarters for a fixed price of wheat is not supported. All the indications are to the effect that Mr. White will concede as little as he can, and that as soon as practicable there will be a general election on issues raised to elect a parliament in which the protectionist influence will be supreme.

### FROM LANDS FAR AWAY

For the first time a Methodist Episcopal district conference was held recently in Baluchistan. Chinese merchants in Tahiti have subscribed a fund for establishing an orphan asylum for the children whose parents were influenza victims.

Nearly the whole of Korea has been prostrated by the epidemic of influenza. As in America, schools have been closed and business houses have found it difficult to keep open.

One of the encouraging signs of the times in Mexico today is the interest in physical education, as manifested in the promotion of football, baseball, and tennis clubs throughout the country.

During the middle ages the Venetians controlled the sugar trade, bringing the product from Egypt Syria and India. So important was the industry, considered that when in 1429 a Venetian invented a new process of refining sugar he was presented by the government with a sum of money representing an enormous fortune in those days.

San Jose principal city of Costa Rica possesses one of the finest opera houses in the western world, a structure which cost \$1,500,000 to build and equip. The exterior is of white marble, while the interior is furnished in Italian marble and mahogany with a grand stairway modeled after that of the Paris Opera house.

The rickshaw, it is said, was invented by a missionary in Japan, some forty or fifty years ago. From Japan the idea spread to India, China, the Straits Settlements and South Africa, and has had important consequences, since it is estimated there are now more than a million men employed in making, repairing or pulling rickshaws.

The Spanish Government's troubles at Barcelona have been renewed, as a result of the delay in conceding the demand of Catalonia for autonomy. Barcelona began displaying these little bursts of anger early in her history. In 1640 she rose against the tyranny of King Philip and threw herself into the arms of France. Spain recaptured her in 1652; in 1657 she again fell into the possession of France, but was restored to Spain in the same year. In 1842 she revolted against the Queen. She was whipped into subjection by Espartero, rebelled again in 1843, and was again subdued. After Madrid Barcelona is the most populous and important city of Spain. According to tradition, the city was founded by Hercules 400 years before the building of Rome. It was re-established, or, according to more trustworthy accounts, founded by Hamilcar Barca, the father of Hannibal who called it Barcoo. Barcelona is a great port of commerce and also the chief manufacturing centre of Spain.

## Under Currents

By The Duchess

And that last speech of the old man—that crowned all. It was in keeping with the sorry scene. "My son is willing. Willing to make this hateful sacrifice. Willing to marry even her to please his father, to curry favour with him lest he fall out of his good graces and lose the money that the old man must leave behind him when death strikes.

Oh the distard! The poor pitiful wretch, thus to sell his manhood, his honour, his whole life, for the sake of paltry gold. He had pled when he saw her he knew his father had been deceived. Some remnant of grace made his colour fade, and she wondered how he had the courage the hardihood to stand there to face her, knowing that she knew all.

Rising she began to pace the room with rapid footsteps.

That it should come to this! That she should be openly insulted brought so low that man should dare to think of her as won before even her consent was asked! She had lingered many a time in fancy over some vague hour in the future, when some vague somebody should be glad, even proud to win her love—may more, should count that love the one great good, the earth could give him. And now she is to be delivered up into the hands of a man who has, with many sighs doubtless and many a frown and deep regret declared himself willing to burden himself with her for life! What a touch of resignation lies in the world!

Her lip eers. After all they had misadventured. They should have chosen some other woman to that meek part. She pauses suddenly in her rapid walk, as though some new strange thought has come to her. Why had she been chosen? Why should a man so miserably as Gregory Dysart elect to wed his son to a girl whom he himself had in choicest language dubbed a "pauper"? Surely there must be something in this. And why should the younger man lend himself to such a scheme? Surely some weighty meaning was attached to it. There had been little love lost between her father the elder brother and Gregory therefore no sentimental nonsense could have suggested the idea of a marriage between the cousins to the latter. Sentiment and Gregory Dysart. She almost laughs alone at the strange combination she has formed.

Yet, think as she will, no light comes to her. Backwards, and forwards, she beats her brains, trying to work out the troubles one problem presented to her, coming always to a mental wall on one that drives her back upon herself bewildered.

### CHAPTER XVIII.

How do I love thee? Let me count the ways. I love thee to the depth, the breadth, and height My soul can reach, when feeling out of sight For the ends of Being and ideal Grace.

It is now close upon noon, and Griselda, walking briskly yet with a carefully different air upon her (because he is a wonderfully ubiquitous person, and it is almost impossible to know round that corner he may not spring himself upon you at a moment's notice) is endeavoring to get what good she can out of the glorious afternoon. It is indeed exceptionally lovely. The soft shower that fell an hour ago is now half forgotten, living only in the hearts of the tiny myriad raindrops that nestle in the flowers and hang here and there in secluded branches. The sun, assuming forth again with a redoubtable brilliance, and the great hanging clusters of the honey-suckle bursting from bud to blossom, emitting perfumes richer than those of Araby fill all the air with sweets. Daisies pied, and violets blue. And cuckoo-buds of yellow hue—all, all are here with a thousand other gems of Nature's rearing. The sky faded into a world of fleecy whiteness and against it stand out some giant firs growing upwards from a rocky hill whilst through all these comes a rushing tremulous sound, mingling with them yet distinct that tells of the cool tumbling of waters over stones unseen, and that yet is half silenced by the glorious peen that the birds are giving forth from their leafy home.

Griselda in her big white sunbonnet that suits so charmingly her mignonette face and from out of which her soft eyes glance so coquettishly looks as if Nature had appropriated her and making her one with her surroundings. Happily unconscious of all that has taken place at Greycourt she walks merrily onward drinking in sweet draughts with every step.

Not that her mind is so free from care either as she would have you believe. There was that quarrel with Peyton the day before yesterday, in which she cannot think she was altogether blameless try as she will. An uncomfortable feeling that, if she should chance to meet him to-day she will hardly be able to present as innocent a front as she would desire, is sending her nervous and even as she so thinks she turns a corner and comes upon that young man standing knee deep in the stream, which here almost rises to the dignity of a river, minus boots and stockings and with his trousers well-tucked up.

"Well, really," says Griselda stopping short and striking a shocked attitude. She could not have argued it out, but it instantly dawns upon her that this is an excellent opportunity of pretending to be offended, and so placing him in the wrong. If she had hoped to abash him, however by this mode of address she is decidedly out of it.

Both these sterling remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa. "Fruit-a-tives" is also put up in a trial size which sells for 25c.

## SAYS HOT WATER WASHES POISONS FROM THE LIVER

### Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Bellow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the—such abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not irritate the bowels like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound which is sufficient for a demonstration of how hot water and limestone phosphate cleanse, stimulate and freshen the liver, keeping you feeling fit day in and day out.

WOMEN AS BRAVE AS THE MEN  
Their Struggle Shows a Remarkable Spirit.

Talk of the bravery of men, but where can you find a finer spirit than among the half-sick women who are fighting and struggling to do their duty against the terrible odds of ill-health and who will not give up.

One woman in every three is struggling against weakness. Most of them are not exactly sick, but, oh, how miserable.

The burden and misery of it all has its foundation in the blood which is thin and watery. The red cells are too few. The very stream of life is reduced in vitality. Weakness and inevitable ill-health are the certain result.

Every ailing or weak woman can quickly regain her health in this very simple way. By filling the system with the nutrition that comes from rich red blood, a quick change for the better will result. To accomplish this, take two chocolate-coated Ferrozone Tablets after each meal. You'll feel better immediately for the simple reason that Ferrozone renews the blood. It gives you vim, vigor, endurance, restores a tired, worn-out system very quickly.

You'll feel like new all over once you get Ferrozone working through your blood. It puts color into faded cheeks, brightens the eye, quickens the step, brings back that wonderful feeling of youth.

One of the finest things Ferrozone does is to make you eat lots and digest it as well. With keen appetite, sound sleep, strong nerves and lots of nourishing blood you're bound to regain robust health. Any sickly girl or ailing woman that Ferrozone won't make well must be incurable. There is a secret power in Ferrozone and it is worth a trial at all events. Fifty cents per box, six for \$2.50. At all dealers in medicine or by mail from The Catarhozone Co., Kingston, Ont.

It is a curious fact that notwithstanding its thickness the elephant's skin is very sensitive.

## APRIL FISH!

**GRACE**, quick! The way is clear!"

The Duke of Lorraine sprang from his couch and looked wild about, for he had been awakened out of a heavy sleep fraught with disturbing dreams. His eyes fell on the figure of Henri, his faithful follower, standing in the gloom. It was he that had spoken.

"Here is the disguise, your Grace," whispered the clever follower. "Come! It was a good thing that the Duke of Lorraine had a follower whose eyes did not leave him in a crisis, for what with his hands trembling and his fingers fumbling and his not knowing just how to put on his disguise, the Duke never could have escaped without help. Henri was cool and steady though and soon the Duke disappeared in peasant's attire cropt noiselessly out of the castle in his stocking feet. Hiding in the courtyard was the Duchess.

"They slipped on their wooden shoes," the Duke shouldered a hod which Henri handed him, while the Duchess balanced a basket of rubbish on her proud head.

Dawn was painting the sky with pink tints as the huddle-looking pair hurried through the streets of Nantes.

"Pray, sir!" called a shrill, little voice. "Thou hast dropped something!"

The Duke of Lorraine turned his head anxiously and his eyes fell upon a grinning youngster.

"Ha, ha!" cried the boy. "Thou art the first April fish caught this first day of April in my net! Ha, ha, ha! April fish! April fish!"

In France they have April fish, instead of April fools, and there is great

rivalry to see who can catch the most "fish," at the same time everyone must watch out for baited hooks himself. And although all this happened a great long time ago April fishing was very popular even then.

"Alas!" sighed the Duke to his lady. "It is indeed a day for fools. Let us hope our journey be not a sleeveless errand." By which he meant "a wild goose chase."

The Duke, poor fellow, always got very blue and down-in-the-mouth when things went wrong.

They soon reached the city gates but already the dawn had deepened in the east and it was almost day.

"Keep thy head turned away," said the Duke to his companion. "Else thy fair face will give us away."

At the city gate stood two guards looking rather sleepy after their long vigil. Would they suspect the shabby pair hurrying out at that early hour?

nibble today or caught you shall bet!"

The shabby couple made no reply but shuffled on in their clumsy wooden shoes.

"Horses await us in your wood," murmured the Duke. "Oh that we were there!"

The wood seemed far away indeed to the anxious eyes turned toward it. The Duchess, unused to walking, or to any exercise, for that matter, especially while carrying a basket of rubbish on her head, could scarcely shuffle along in her great heavy shoes. She sighed and set her lips in a firm line.

Just then they met a peasant woman and a child on the road. As the little one looked up the Duchess smiled at him. Was there ever a peasant woman with such a smile! The child stared a moment then he pointed and cried:

"Oh, see the pretty lady!"

His mother gave the Duchess a

hope, the Duke muttering bitterly: "A sleeveless errand, a sleeveless errand. Like Noah's dove we fly on a sleeveless errand."

Meanwhile the good peasant woman and her son reached the city gates. They were both plump and very much out of breath, especially the little boy who had never been run so fast before in his life.

"What ho!" cried the guard.

"Oh, sir!" panted the woman. "We have seen the Duke of Lorraine and his lady upon the road disguised as poor, honest folk."

"Indeed!" roared the guard. "Ha, ha, ha! Very good indeed! I saw them also and bade them good-speed."

Ha, ha, ha! April fish! April fish! Nay, thou canst not hope to catch such an old fish as me."

"But no!" cried the peasant. "This is no idle tale, and I advise thee to begone fast upon thy track."

"Ay!" scoffed the guard, wiping his eyes, for he had laughed himself almost into a crying fit. "Then I am an April fish!"

"I never would have dreamt that a silly creature like this could be so witty!" roared the other guard, his sides shaking with mirth. "It is the best joke I have heard in many a day."

"Good enough for the Governor's ears," the first guard chuckled.

Finally the story did get to the Governor's ears, but his ears being dignified, titled ears, were far removed from plain guardmen and it was well after noon when the news reached them. The Governor laughed at first, then he grew very red in the face and thoughtful, then he called his favorite gopher and executioner.

"To be on the safe side, mayhap I'd well to look in on his Grace and the Duchess."

The executioner went and looked in. No Duke, no Duchess did he see. The Duke and the Duchess were at home by that time. What the angry Governor did to the poor sentries it is quite beyond me to say but I do hope the children, "but the day has long been observed in all countries. The first idea of April Fool was to send some unsuspecting person upon a fruitless errand or meaningless quest."

"Just as Tom sent me calling Lizzie Bear," laughed Betty beginning to enjoy the joke on herself.

Why, we have lots of fun, and lots of spare time, and we have regular playgrounds in open places in the woods, where we gather on moonlight nights and frolic and play, like so many children. We play leap-frog, we run races, and play hide-and-seek, but when it is dark under the bushes. Then we have a funny kind of a dance, when we jump up as high as we can, and as we come down we

## APRIL SHOWERS

I KNOW why we have showers now. When April days are here and flowers grow, and birds come back. To fill the world with cheer.

'Tis Spring time now, the gladdest time of all, and that is why, When all the earth is glad and gay The happy angels cry.

They cry for joy that spring has come Upon the earth again; Their tear drops fall from out the sky And we think they are rain.

And mother says, "Wear over-shoes, Beware of April showers." But I know it's the angels' tears That make the sweet May flowers.

mother coming into the room, "what is all this confusion?"

"Nothing," said Tom. "I just April Fooled her, that's all."

"Who ever started April Fooling, anyhow, mother?" asked Betty, "all things must have a beginning, what was the beginning of All Fool's Day?"

"There is really no very good explanation for the origin of this merry custom," began mother seating herself near the chair. "But the day has long been observed in all countries. The first idea of April Fool was to send some unsuspecting person upon a fruitless errand or meaningless quest."

"Just as Tom sent me calling Lizzie Bear," laughed Betty beginning to enjoy the joke on herself.

## TOYS AND USEFUL ARTICLES THAT A BOY CAN MAKE. BY FRANK I. SOLAR. INSTRUCTOR, DEPT. OF PHYSICAL TRAINING, PUBLIC SCHOOLS OF DETROIT.

the picture or the picture is tucked in where you wish it to be. That is the part of which we are concerned. The picture is placed in the frame because the place where they are inserted into the bottom. Lay out and cut the mortises very accurately. Inasmuch as the mortises will not show if they extend through the pieces, they are shown out clear through. This will enable you to lay out and cut from both sides of the piece, which will insure greater accuracy.

Next lay out and cut the tenons on the uprights. Unless they are cut to make an exact fit with the mortises, your work will not be a success. The fit should not be one that will make it necessary to drive the tenon into the mortise with a mallet or other tool, but it should fit snugly—without any play. When you are satisfied with this part of the work, lay out and bore holes for the screws.

The making of the frame will be the hardest part. The joint at the corners is a mitre-joint, the two pieces meeting at an angle of 45 degrees. It is also necessary to remove some stock for the picture and glass. About the best way to do this, considering the size of the stock we have to work with, will be to lay out the part to be removed with a sharp marking gauge. Cut this out with a good sharp chisel. This isn't as hard as it may appear to be and no trouble should be experienced in getting a good job.

About making the joint. Some say that this cut with a good sharp chisel. But if you haven't one, it is easy to lay out the joint by following the detail shown on the drawing.

When all the parts are fitted to your satisfaction, sand well and assemble. Glue uprights into the bottom, being careful to see that they are at right angles to it. Fasten the frame together with glue and brads. This fast operation will test your skill and perhaps your patience.

## April Fool Your Friends

MAKE an ordinary lead pencil and paint it in three sections, red, yellow and green, so that it will be dry and ready for you to take to school on the first of April.

You can tell your friends that you have a wonderful pencil and that it will write any one of the colors which they see painted on the outside of it. Of course, they will scoff and tell you that it can't be done. Perhaps they will ask you to show them. Tell them to name the color. Blow on the pencil as though you were going to perform a wonderful trick, say "Abracadabra ho ho ho," and write very carefully, if the color chosen is red, the word RED and shout as you finish it: APRIL FOOL.

Then beware, for someone will try to play a trick on you to get even for your April Fool.

## Former Kaiser Will Be Brought to Trial

PROBABLY BELGIUM TO INSTITUTE PROCEEDINGS AGAINST THE FORMER WAR LORD AND HE WILL BE TRIED BY THE COURTS OF THAT COUNTRY.

Paris April 9.—The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments probably Belgium have been definitely determined upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an international commission assess the remaining damages for a period of 30 years, beginning May 1, 1921. Thus two of the great obstacles, which stood in the path of the rapid attainment of peace have been removed within the last 24 hours, and the period of extreme tension over the madman and the failure to secure tangible result is succeeded by revised confidence over the great advance towards a permanent settlement.

More Knotty problems. While the tension has been greatly reduced it is not entirely removed, as much depends on the continuation of progress with respect to the remaining obstacle notably the Saar Valley, the Rhine frontier, the Adriatic issue and a number of lesser issues, which are still short of final agreement.

The agreement on responsibilities for the war is understood to have been a compromise between divided reports

submitted by the commission of which Secretary Lansing is chairman. There was practical agreement on the general responsibility of the former German emperor bringing on the war, but division occurred on whether it was feasible to bring him to justice before an international tribunal.

The British and French view favored a tribunal but the American view it is understood, favored moral indictment without recourse to prosecution, owing to the lack of an international law as a basis for trial before an international court.

Belgium's View. Belgium on which the war fell first and heaviest is reported to have taken a view much similar to that of the United States while Japan and Italy were partially in accord with the American view.

It was owing to these divergent views that the council revised a new plan whereby one of the allied nations probably Belgium would initiate prosecution against the ex-emperor and others responsible for the breach of treaties, the invasion of territory and the destruction directed against this country and leading to a more general spread of the war. The exact nature of the agreement is not disclosed, but the foregoing is believed to cover the main lines.

The text as finally approved on reparations specifies that the enemy countries must admit responsibility for all loss and damage to allied nations and their citizens caused by the unjustifiable aggression. But in view of the inability of the enemy countries fully to recompense these losses the clause states an international commission will assess the losses on a just basis for 30 years, beginning May 1, 1921 with an initial payment of \$5,000,000,000.

electric railways in Ontario, which for many reasons, should remain under the jurisdiction of the province.

Mr. Kilmer pointed out that the G.T.R. has running right over Teniskaming and Northern Ontario. Mr. Boys observed that although the Quebec Central Railway has been leased by the C.P.R. for 99 years, the railway boards has no jurisdiction over the road. He thought that such cases should be dealt with by special legislation, but not by a general clause covering all such railways.

The clause was allowed to stand over until next week.

## Canada Exports Butter and Also Imports it

REASON FOR THIS ONE OF POINTS TO BE PROBED IN CONNECTION WITH HIGH PRICE

Toronto April 9.—With butter round 70 cents a pound, Torontonians are naturally on the qui vive over the arrival of a Government official to investigate the cause of this abnormal price.

There are two things which are puzzling consumers in connection with the butter situation. The first is of course the high price obtaining. The second is why Ontario which produced 26,300,000 pounds of creamery butter a year, plus the large quantity made upon the farms of the province should find it necessary to bring butter from New Zealand 8,000 miles away, in order to supply the demand.

"There's a rigger in the fence somewhere" remarked a consumer to The Free Press.

Much imported. There are no figures available to show the quantity of New Zealand butter being imported into Ontario but during the ten months ending January, no less than 902,552 pounds were brought into the Dominion from that

SMOOTH AS BABY'S FACE

THAT'S the result of the shave you get with an AutoStrop Razor. Its clean, sure stroke, adjustable for light or close shaving, removes the beard quickly and thoroughly, leaving the face soft and smooth.

Such comfort is possible only with an AutoStrop Razor. Why the AutoStrop Razor in particular? Because with its stropping feature there's always a sharp blade ready for use. A few turns on the strop re-aligns the saw-like edge that results from shaving; it keeps the blade free from rust; and gives you for each day's shave a keen-edged blade. You do not need to take the blade out to sharpen it, nor do you have to take the AutoStrop Razor apart to clean it.

Self-stropping, shaving and cleaning are all done without removing the blade from the razor.

colonies while the total from all countries was 1,096,045 pounds. Just exactly the quantity of butter of all kinds that is at present being made in Canada is not possible to say. The latest available figures for the creamery description show the quantity in 1917 to have been 75,122,678 pounds. The home made in 1910 when the last census was taken, was 137,110,200 pounds. Granting for sake of argument that the quantity being produced on the farms is no larger than it was nine years ago although there was an increase of over 30 per cent between 1900 and 1910 it would mean that of creamery and dairy butter combined the Dominion is producing something like 212,232,000

pounds a year or approximately 24 pounds per capita. Add to this the quantity imported 1,215,000 pounds and we have 213,447,000. To get at the quantity available for home consumption we must of course deduct that exported. During the ten months ending January it was 11,202,730 pounds or at the rate of 13.5 lbs. 275 for the 12 months. But this is only about 6 per cent of the total produced and imported thus leaving approximately 94 per cent available for home consumption for their share of which consumers in Toronto are at present paying 70 per cents a pound and in some instances even more.

## A Mother's Tribute

THIS letter from Mrs. Roberts gives such a fine idea of the value of Dr. Chase's medicines for use in the home that we shall publish it without further comment.

Mrs. Everett Roberts, 44 Endicott Ave., Halifax, N.S., writes: "I feel it a pleasure as well as my duty to recommend Dr. Chase's Nerve Food and Ointment. After the shock of the Halifax explosion my system was all run down, and I was so weak that I could not walk. Night after night I lay awake unable to sleep. Nothing did me any good until one of my neighbors recommended Dr. Chase's Nerve Food. After a treatment of this medicine I can positively say that my health and strength have been restored, and I can now sleep well and do my work as well as ever.

"I used Dr. Chase's Ointment for my baby, who had ringworms all over his face. I tried almost everything I knew of without success until I used Dr. Chase's Ointment. This cured him in a short time. I would not be without either of these medicines in the house, and trust this may induce others to give them a trial and be convinced of their merits."

You can scarcely ask for a stronger guarantee of the value of a medicine than the trait and signature of A. W. Chase, M.D., on the box. This is for your protection against imitations and substitutes. Edmanon, Bates & Co. Ltd., Toronto.

## Ten Entries In The Elocution Contest

The Literary Executive decided to hold the annual Elocution Contest on the evening of Friday, April 11, in order that the event might be thrown open to all friends of the contestants, as well as to all friends of the school. Another reason for making an evening affair of it is the fact that there is an unusually large number of presents each year a handsome gold medal to the winner, and a silver medal to the second, a very interesting contest is looked for.

The programme for the evening will be as follows—(1) Helen Benson—Pro Patria—Wm. Henry Drummond; (2) Laura B. Turrel—John W. Jones—Holman F. Day; (3) Katharine Ross—The Road to Heaven—Geo. K. Simms; (4) Wilhelmine McKellar—As the Moon Rose—Pauline Phelps; (5) Robert Schaar—The Tar Baby—Joel Chandler Harris; (6) Winnie Sherk—The Cattle Thief—Pauline Johnson; (7) McKinley Perrin—The Ballad of the Clampherdon—Rudyard Kipling; (8) Leslie Harding—The Cremation of Sankar—Robert Service; (9) Arthur Dreger—De Stove-Pipe Hob—Wm. ## Ontario Objects to Dominion Proposal To Place Provincial Railways Under Federal Charter.

CLAUSE IN BILL OBJECTED TO BY ATTORNEY-GENERAL BEFORE COMMONS' COMMITTEE.

OTTAWA, April 9.—When consideration of the consolidated railway bill was resumed by the special committee of the Commons to-day, Hon. J.D. Reid, minister of railways, urged that the clause, providing that railways holding provincial charters operated by companies holding Dominion charters should come under the control of the Dominion Government and the railway board, which was struck out by the Senate, should not be reinserted in the bill. He was afraid that if it were it might mean that the bill would again fail to pass this year. Dr. Reid suggested that the matter be allowed to stand.

Workers Want It. The reinsertion of the clause is strongly favored by the Brotherhood of Railway Employees, who claim that control by the railway board would be much better for them, more particularly because of the board's authority over railway equipment and appliances. Mr. Kilmer, on behalf of the attorney-general of Ontario, opposed the reinsertion of the clause in the bill of the ground that it would constitute an encroachment on provincial rights. The provision, he said, would affect a number

A Successful Cattle Sale. The Public Sale of high grade Jersey cattle belonging to Mr. John Gilder, which was held yesterday was a success. Good prices were realized. Cows brought from \$160 to \$200 each one short horn bull twelve months old brought nearly \$200. Mr. E.J. Shantz of Kitchener wielded the hammer in his usual effective style.

Women Teachers Organize. The first formal meeting of the Kitchener Women Teachers Association was held in the Y. W. C. A. After the routine business and a solo by Miss Hay, Mr. Grigg, of Waterloo, delighted the audience with a most genial and inspiring talk on New England writers. In his pleasing manner with glints of humour, Mr. Grigg told of the home, home life, local history, interesting personal stories, and literary genius of Longfellow, Whittier, Hawthorne, Emerson and Holmes, interspersed with a few well selected readings from their works. At future meetings the Association plans to study these and other American writers, and much pleasure is anticipated.

Died Within Twenty-four Hours. Within twelve hours of each other the death occurred yesterday from pneumonia of Mr. and Mrs. Angus Fraser of Woodstock. Mrs. Fraser was in her 67th year, and was formerly a Mrs. Manly. She is survived by one daughter, Miss Manly, of Woodstock. Mr. Fraser was 79 years of age, and is survived by one daughter and two sons, Mrs. Roy Brown, of Ingersoll, Dr. C. B. Fraser, of Minnesota, and George Fraser, of Assiniboia. They had been living in Woodstock for eight years, and prior to that resided on a farm in the township of Blandford. For the past thirty years Mr. Fraser was a familiar figure in the Court House, where he acted as constable at the various sittings of the County Court and the High Court. Both he and his wife were very highly esteemed.

Regular Quarterly Conference. The quarterly conference of shoe manufacturers of Ontario was held in the city yesterday afternoon in the offices of Employers' association. Manufacturers were here from the following places among others: Toronto, Perth, Peterboro, Brampton, Georgetown, London, Waterloo, Preston, Galt and the city. The business transacted consisted of matters appertaining to the business. One of the questions that was taken up was the consideration of means and ways of standardization in manufacture which would be a benefit not only for the manufacturer but also for the buying public and the retailer. The hours of labor also occupied the meeting's attention.

The President and Secretary are ex-officio members of both Committees.

In Loving Memory. Of our dear mother, the beloved wife of Mr. Geo. Painter, who passed away April 10th, 1918: Short and sudden was the call that one so dearly loved by all. The loss was great, the shock severe. We little thought her death so near. And only those who loved can tell. The pain of not saying a last farewell. But her memory is as dear today as in the hour she passed away. Husband, Son and Daughters.

Guelph Moulders Withdraw from From T. & L. Because the Guelph Iron Moulders' Union disapproved of the action of the Trades and Labor Council in becoming connected with Guelph's new organization, the Chamber of Commerce, the Guelph moulders have separated from the central Labor body and will paddle their own canoe. A letter to this effect having been received by Secretary Thomas Hall of the Trades and Labor Council, and action having been taken. The moulders, but a special committee will explain the Labor Council's reasons for joining the Chamber of Commerce.

Big Industry at Windsor to Resume Operations. Anticipative information was obtained at Detroit yesterday to the effect that the Maxwell Motor Car Company, which only last year completed a fine new manufacturing plant on Tecumseh road, Detroit, intends to conduct its entire export business from Windsor. Owing to war conditions and restrictions, active operations at the Windsor plant were ordered stopped last fall. Since that time the plant has been practically idle. The resumption of work will mean the employment of at least one thousand high-class mechanics. This, together with announcements a few days ago that the General Motors will spend six million dollars in Walkerville within the next eighteen months in extensions and new construction work, promises a great stimulus to the border locality.

## DOMINION RAYNSTERS

"Made-in-Canada" Raincoats ARE THOROUGHLY RELIABLE

This great organization would never have reached its present size and importance had it been content to make ordinary products in the ordinary way. The Dominion Rubber System is a monument to betterment; to improved manufacturing methods; to thoroughly dependable quality; to products that are second to none in the world.

Dominion Raynsters are worthy examples of this high business standard.

They are attractive garments; made in an excellent variety of styles for men, women and children.

They are carefully made in every detail, reliable in quality, and are absolutely waterproof.

The best stores that carry clothing also carry Dominion Raynsters. Ask to see them, and look for the guarantee label of Dominion Rubber System.

### A Survey of The Leafs Team

Men are reporting to manager Gibson. The Toronto baseball players started to dribble in yesterday morning. Six had reported to Manager George Gibson at noon, but in view of the weather conditions nothing in the line of work was attempted. The players grouped around their manager at the hotel and imbibed words of wisdom.

They were introduced to the Island in the afternoon though no attempt to workout was made. Trainer Daly was on the job at the Island making the quarters comfortable.

Manager Gibson hopes to do the bulk of the catching himself. He has had considerable trouble with his legs this winter, but in working out down south found them all right. If they stand up under him he will be a great asset behind the plate. The players reporting yesterday morning were: Westlake (Toronto), Harmon (London), Hanson (St. John), Anderson (Buffalo) and Gee (Toronto). Harmon hails originally from Philadelphia and Florida and played in the south, but came to London in 1915 to don khaki. He served with the 7th Battalion (British Columbia) and was wounded in 1916.

Eusebio Gonzales will sail from Havana and is due here on April 15. Pitcher Justin wires that he will leave for Toronto Sunday.

Players on List. The players listed for tryouts are: Pitchers—Heck, Aichele, Peterson, and Justin, last year with Toronto, Harmon (St. John), Quinn (Bygonne, N.J.), a left-hander.

Catchers—Gibson, Snyder (Brooklyn National) and Gee. Infielders—Onslow, Wagner, Gonzales and Purcell of last year's Leafs and Gadsby (St. Thomas) and Busse (Cleveland).

Outfielders—Westlake, Anderson, Whiteman, Holden, Breckenridge, Morton, Harmon. Of these Morton is from Montreal, Harmon from South Atlantic League and Breckenridge from Balmist Wis.

Official confirmation of the transfer of Catcher Snyder from Brooklyn to Toronto came through this morning.

League Meeting. President McCallery left for New York to attend meeting of the league there Friday, when among other things the schedule will be finally adopted.

It is expected that a Buffalo colored team will play in Toronto Good Friday.

### Will Soon Legalize Sunday N.Y. Ball

BILL TO BE SIGNED BY GOVERNOR

New York April 9—Just as soon as Governor Smith signs the local option Sunday baseball bill at Albany the board of aldermen in this city will take up an ordinance permitting Sunday games here. The ordinance has already been prepared and will be offered by Alderman J.J. O'Rourke of Staten Island probably at next week's meeting.

President Charles A. Stoneham of the Giants who is the only baseball official connected with any of the local clubs now in the city is highly pleased over the prospect of Sunday baseball.

### EASTER SHOE TALK

Before you buy your New Easter Shoes we would like you to come in and see our assortment of the latest styles for Men, Women and Children. You will find that our low prices will save you money. See our windows for samples.

## Weseloh's Shoe Stores

41 E. King St. and 10 Frederick St. (J. H. Weseloh, the new owner in charge.)

Mr. Stoneham was one of the club owners who were opposed to the adoption of the short 140 games schedule. He said yesterday that it was now too late to make any change in the schedule but nevertheless the weekly schedules of the local clubs will be rearranged so as to provide for games on all the Sunday dates.

The probable procedure will be to move all the games scheduled here on Monday forward one day and play them on Sunday. According to this plan the Giants would have 10 Sunday dates at the Polo Grounds the Yankees 12 Sunday, and at Eber's Field the Brooklyn would have 12 Sunday dates.

O.B.A. RETIRES. W.J. Smith Toronto president of the Ontario Baseball Association announced yesterday that he would not be a candidate for re-election at the annual meeting of the association which will be held shortly.

JOHNSON WILL STAY WITH BRANTFORD TEAM. "Ack" Johnson denies the report from Hamilton that he would play in that city this summer. "Ack" states that he is with the Watrous club for the season and although he was not yet signed up with anyone, the report was calculated to get him "in wrong" with the Watrous people.

In the last of amendments to come before the Toronto Amateur Baseball Association annual gathering is one that proposes barring from office in the association any person connected with a league or club. There is a feeling that the move is a right one in part, but is too strict. There are many who quite agree that persons connected with clubs should be barred, but that those with leagues should not be. There are few—if perhaps any—men who, if interested enough to give their time to the work of the F. A. B. A., are not connected with some league. The elimination of the word "league" from the amended word "club" meet with the approval of all.

HAG TO GET SURPLUS. Hamilton Manager to be Helped by Toronto. Manager Frank Scaughnessy, of the Hamilton Baseball Club, will manage the surplus men from the Toronto Baseball Club. He has the confidence of the powers here, and, though farming and optional agreements are things of the past, it is recognized here that Sbag has the ability to lead and develop, and he will be given all that are not needed here and he can handle.

### Defaulters May Be Long Disfranchised

OPINION AT OTTAWA. OTTAWA, April 9.—That the Government benches are overwhelmingly in favor of disfranchising all defaulters was made evident in the course of a debate to-day on a resolution moved by Gen. Sir Sam Hughes, which expressed the opinion that there should be a uniform system of administering the law with uniform penalties in regard to defaulters, deserters and evaders. Two Cabinet ministers, Gen. Mewburn and Hon. Martin Burrell, expressed themselves as strongly in favor of such action and they were backed up by nearly every Government speaker.

### New Assessment Act Is Not Approved

GALT BOARD OF TRADE ENERS A PROTEST. GALT, April 9.—Disapproving the new assessment act proposed by the Ontario Government the Galt Board of Trade passed a resolution to-night, urging that the act be amended to provide for assessment to full value on land and 50 per cent. on improvements and that the law be uniform throughout the province. On the motion of J.H. Hancock and J.M. Irwin a resolution was passed to the effect that the Minister of Public Works, the acting prime minister and F.S. Scott, M.P., be memorialized, urging that the sum of \$350,000 be placed in the supplementary estimates for the improvement of Port Dover harbor.
