Rumor That President Rumball Has Been in Toronto on Most Important Mission-London To Be the Storm Center of the Niagara Power Battle—The London Electric Co. Is Awake to Its Interests.

centre of the Niagara power fight. Already many evidences to that effect have been noticed, and the end is not yet.

The story was current today that MacKenzie & Mann had purchased the Southwestern Traction Company, intending to use that road as one of the implements of the warfare.

Retiring German Chancellor Genial and Frank, But Not Great.

London, July 15 .- The retirement of Chancellor Von Buelow is the chief topic of editorials of London newspapers this morning. The writers pay tribute to the ex-chancellor's ability, frankness and geniality.

While offering a tribute to the diplomatic achievements of Prince Von 10-Buelow, the Standard says: "We have never quite succeeded to forget that he uttered a slander against our soldiers in South Africa."

The Daily Graphic says: "The situation is not without its disquieting features, a weak or rather undistinguished chancellor, a jingo majority in Parliament and an unmuzzled emperor-elements which easily make for disagreeable surprises. Frankly, we should have preferred Von Buelow with all his faults."

SWAYNE FIELD, FINEST PARK IN MINOR LEAGUES.

Toledo, July 14.—"The finest minor league baseball park in the world." That's what they say about Swayne field, the new American Association park here. President Armour, of the Toledo club, did not start construction until he looked over the finest parks in the country; then he instructed his architect to go ahead. The park, while not boasting of the seating capacity of the Pittsburg, Philadelphia and New York grounds, is every bit as handsome and comfortable as the best. The big ground, a block square, is surrounded by a 10-foot concrete fence, and the grandstand and bleachers are of reinforced concrete throughout. Everything possible has been done to make the place safe and comfortable. On opening day 12,000 fans were seated without crowding, and many more could have been taken care of.
