McLaughlin

Canada's Standard Car

McLaughlin Builders have won today's undisputed leadership on a Big Idea — a right principle, rightly applied, the famous McLAUGHLIN VALVE IN HEAD MOTOR.

The McLaughlin Car was designed primarily for use and for plenty of it. The material used are the very best. Nothing has been skimped or slighted. The workmanship is as fine as can be found in the Motor Car industry.

In principle, of design and construction, in standards of manufacture, and in actual performance, it measures up to highest expectations.

Another Big Night on Wednesday, Feb. 7

Do you remember the swell time you had last Wednesday night at the Country People's Country Store. Everyone in the big audience was happy and twenty prizes were distributed amongst the good natured crowd by Mayor Pelton, and although the show ran for two solid hours it seemed short and everyone was sorry when it ended because it was so good. We are having another such night on Wednesday next when the prizes will be just as many and the pictures and special features are just as good.

WHAT SIR ROBERT BORDEN HAS DONE

With that spirit of national depreciation which is getting to be characteristic of Opposition journalism, the Toronto Star concludes an editorial disparagement of Canada's war effort by asking:

"What Has Sir Robert Done?"

Party politics have reached a low level in Canada when a decent newspaper is unashamed to ask such a stupid, un-Canadian question. Nevertheless, we are going to try to forget the spirit that prompted it and to answer to the best of our knowledge and ability. Here are a few things that Canada has achieved under Sir Robert Borden:

- 1—Raised, trained, equipped and contributed to the Allied cause 435,000 men.
- 2—Voted \$900,000,000 for war purposes.
- 3—Established a munitions industry that employs 350,000 persons, engages 650 factories, has sent \$500,000,000 worth of munitions to Britain and has contracted for \$700,000,000 more.
- 4—Loaned the British Government \$250,000,000 to finance munition purchases.
- 5—Supplied Australia, New Zealand and Allied Governments with war orders totalling more than \$150,000,000.
- 6—Supplied Great Britain's armies with \$60,000,000 of hay, oats and flour.
- 7—Successfully raised three loans, and is preparing to raise a fourth in Canada, thus relieving the financial strain upon the Motherland and, in addition, placing \$75,000,000 of the money obtained at Britain's disposal.
- 8—Transformed herself from a country that was borrowing abroad before the war at the rate of \$1,000,000 a day, to a country that is financing her own war expenditure to extent of \$1,000,000 a day, and extend-

CHAPPED HANDS AND COLD SORES

Are your hands chapped, cracked, or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, or chilblain, which at times makes it agony for you to go about your duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin.

Miss B. Stojas, of East Hantsford, N.S., writes: "My hands were so badly chapped I was unable to put them in water. All remedies failed to heal until I tried Zam-Buk. Perseverance with this balm completely healed the sores."

Zam-Buk heals cuts, burns, bruises, cures eczema, piles, chapped hands, cold sores, frost bites, and all skin diseases and injuries. Refuse substitutes. At all druggists and stores, 5c box.

Austria is Puffing Off Submarine Reply

Vienna, Feb. 23.—It was stated at the foreign office today that the inquiry of the American government respecting Austria's submarine warfare policy was receiving all possible attention, but that the date on which the reply might be expected was still unknown. It was said that authorities on international law and navel affairs are investigating the question raised in the aide memoire presented by Ambassador Penfield and their bearing on the notes exchanged in the cases of the steamship Ancona and Persia. The reply will be made as soon as the officials entrusted with this matter have reported. There is no indication at this time of what recommendations will be raised by the investigating authorities. The Austrian

and Hungarian press has entirely discontinued discussion of the American inquiry.

THE COUNTRY SCHOOL AS A COMMUNITY CENTRE

NATIONS are built in the public schools. The ideals set up by the school teacher remain very largely the ideals of the pupil throughout life, and his conception of patriotism will be what he has been taught during his school years. It is not too much to say that the present world war is due to a difference of ideals fostered by different systems of education.

Great as is the importance of the public school in old and well established countries, this importance is even greater in the new lands which are being called upon to assimilate populations from the more congested countries. It is worthy of note that in Western Canada, which may be cited as a case in point of a country which is called upon to assimilate a population of many races. Some of the most strenuous political and constitutional fights have hinged upon the systems of public education. These fights, however, were not without their purpose, and it is out of them has arisen a public school policy well calculated to meet the needs of a new and rapidly growing country. In such a country the public school has to take on functions not usually associated with it in the older and more densely settled communities. The prairie schoolhouse is not merely a centre of education; it is also the religious and social centre of the district. During the week days the school teacher furnishes education to

the children of the neighborhood, but on Sunday the missionary holds his services, which all attend regardless of creed or nationality, and on week nights the building is used for meetings of farmers, for the various community societies; for the Red Cross or Patriotic Club, and for purely social events such as debates, concerts and dances. To facilitate the latter, it may be noted that many country schoolhouses use removable desks which the willing hands of the farmers' boys quickly dispose of whenever there is a dance in prospect.

Another phase of community work associated with the rural school which has been coming into prominence during the last few years is the supply of books to settlers in the district. This work is encouraged and assisted by the central Department of Education, which provides catalogues of books suitable for such purposes, the actual selection being left to the teacher. The number of books allotted to a school district is based on

the report of the inspector of schools. In the Province of Alberta, although this school library movement is only in its infancy, no less than 110,000 books were supplied for this purpose last year, at a cost of some \$30,000.00. Educationists of the province look forward to the time when every school district will be a library centre, giving to the settlers the facilities now afforded to residents of cities and towns through their public libraries. The prosperity which has almost overwhelmed rural Alberta in the last two years, when farmers have been reaping enormous crops and selling them at the highest figures in history, promises to contribute still further to the importance of the rural school as a social centre. With every farmer driving his own automobile the opportunities for social gatherings are greatly increased, and the country school is the "natural meeting place."

A PLEA FOR THE RED CROSS FUND
Our Boys in France

For two whole long years the tramp, tramp, tramp, of our Canadian boys has been heard in France. On they still march, the happy, merry, splendid fellows, in a ceaseless army. At the call of duty, wherever there is a work to be done, the boys are always ready and they have achieved such splendid results that the term "Canadian" is a passport in all military quarters.

In the fearful discomfit of the trenches, with water waist deep, with mud surrounding them, and living creatures all about them; there they stand, and guard the trenches, and watch for the appearance of the enemy, and woe to the Boche who puts his head over the parapet, for a sure marksman is our Canadian boy. Letters from the front tell us of difficult positions assailed and taken by our Canadian Boys with a courage and daring unsurpassed.

Their's not to reason why Their's but to do or die."

The Canadian Boys are found in all departments of military work, from the digging of trenches to the young lieutenant, "flying in the air" taking his part in the newest art of warfare, "a charge of aeroplanes" of which it is said, "that no man living can possibly describe." Very often these boys don't come back, these brave boys who are dancing with death a thousand feet in the air, not all glide back to earth again alive, maimed bodies are tenderly lifted from the broken machine; many others, still and dead, with tense hands still grasping the lever, are reverently removed from their machines and so the grim work goes on and the Canadian boy, seems to be saying:

"What though I die, if when the strife is over, Men may agree, to study war no more."

Other positions are filled, equally dangerous, but all showing the same invincible courage. Staff officers are represented, skilled surgeons saving precious lives; chaplains cheering the wounded and dying. Ambulance drivers, stretcher-bearers, rendering first aid, and bravely daring shot and shell to bring in safely the wounded comrade. Bomb throwers, machine gunners, swift riding messengers, and many other positions, have all been taken part in by our Canadian boys.

Distinguished conduct medals and several V.C.'s are proudly worn by our boys.

Many Canadian homes have been saddened and many of our soldier boys will never come home again, Heaven has opened for them, they are wearing the immortal crown, and French peasant cover these lowly graves "Somewhere in France," with fair bright flowers. The memory of these boys will be cherished as part of the nation's history and their names will be preserved on enduring monuments, and the history of this brave sacrifice, will inspire many to follow their example, and do their share in this terrible strife.

Mothers and sisters, wives and sweethearts, all do your share to keep the "boys" in the comforts you have brought them up to be necessary to their existence. The "Red Cross" army grows. Socks, mufflers, woollen clothing, cakes, sweets, and tobacco, all go to help ease the soldiers' life, let us do our share, so that when the Canadian boys come marching home, from the victorious strife, we may with a good conscience "Have the home fires burning. The bells ringing. The flags waving. The bon-fires blazing."

All in honor of the brave Canadian boys who left home and friends to do their splendid bit for King and Country.

ALICE E. WEBSTER.

Be sure to go to Clark's Drug Store as other stores cannot supply you.

An Interesting Relic

A missal, or altar book, printed in 1720 and in use in Annapolis at the time of and for many years before the expulsion of the Acadians (the book from which Mass was said for the Acadians) is now to be seen on one of the tables of St. Thomas' library. It is still in a very good state of preservation and its print is as clear as the day it came from the press. The book was lost for a time after the expulsion, but was recovered by the first Archbishop of Halifax who wrote his name in it, and it has now found its way back to the community in which it was originally owned and used, to be treasured as a relic of the past.—Spectator.

OUR WOMEN DESERVE THE FRANCHISE

The women of Nova Scotia, who are doing such a noble work in prosecuting the war have for a time dropped their agitation for the franchise.

The Local Council of Women at a recent meeting at Halifax resolved that, whereas, Nova Scotia had formerly been among the pioneers in this movement in Canada the quietest because of the multiplicity of war work and needs, be again substantiated and afforded all former resolutions in favor of the subject.

NEW LOT OF CIVIL SERVICE YOUNG MEN NEEDED

It is stated that Ottawa has seventeen hundred unmarried men in the Civil Service of fighting age and they have never made a move to serve their country in any other way than to fill an office and draw good Government pay.

Such persons should immediately be given the opportunity to enlist or quit the service and their places should be filled by the heroic young men who have done their bit in service for the Empire and have returned to Canada, on account of sickness or disablement in war.

Canada's affairs at Ottawa in the Civil Service could not be trusted in better hands than with those of our own who have made the sacrifice, and have been spared to return to their native land.

SOUND THE SLOGAN FOR GOOD ROADS

Everyone is interested in good roads and therefore everyone who can should attend the meeting to be held this week in the interests of same, and also see a fine program of moving pictures which will illustrate road making and show free to the public.

Moving pictures will no doubt be a most effective medium in the agitation for better roads. The films to be exhibited show the work of roadmaking from the land which is but little removed from virgin soil to the finished highway.

In addition to the showing of the pictures, at every exhibition there will be in attendance an expert who will answer

questions as to the applicability of the machines shown, in the country in which the pictures are exhibited.

On Wednesday the three reels were displayed in Halifax and during the remainder of the time available, they will be exhibited in the following centres:

Thursday, March 1—Hantsport, 1.30 p.m.; Bridgetown, 8 p.m.

Friday, March 2—Wolfville, 3 p.m.; Kentville, evening, Bear River, 11 a.m.; Weymouth, 8 p.m.; Digby, 3 p.m.

Monday, March 5—Middleton, 8 p.m.

A COLD, COLD WINTER

February though a short month has contributed about all kinds of weather mixed with a good deal more zero weather than any ordinary month could give. There were nine days in which we had below zero weather the coldest being 10 below zero on the 3rd and 24th of the month.

The greatest variation in one day was on the 26th when the thermometer went from zero in the morning to 39 above, and on the 23rd when it moved up in the 24 hours from 10 degrees below to 28 above or 38 degrees variation. On Feb. 11th the glass only changed 6 degrees all day and on the 3rd was our coldest day when the thermometer hovered between 10 below to 1 below zero all day.

RECITAL, UPPER CANAD

We are pleased to chronicle the success of the Red Cross dinner and recital held February 27th, in the 1st Baptist Church of Cornwallis, under the able management of Mrs. Chas. Eaton, Mrs. Prosser and other officials of the Red Cross Society.

The sumptuous repast prepared by the ladies of the community was heartily enjoyed, as was also the recital following:

An excellent program was rendered by Miss Ethel Miller, contralto, Mr. R. Sennett, baritone, both of Canning and the Peerless Quartette, Messrs. MacGowan, Crocker, Burbidge and Clarke, with Mr. R. Arthur Harris, B. A., District officer C. B. S. A., for Pictou County at the organ.

The appreciation of the public is expressed by the generous sum realized, \$58.00. The program was an excellent one throughout. Proceeds are to be used to buy supplies for Red Cross Work.

NO MORE RECRUITS

Cape Breton has practically decided she has done her share for the Dominion up to the present and has prohibited all recruiting for the present at least.

Lieut. Neil, who has been working at recruiting on the island for the past few weeks, returned to the city a few days ago, and was instructed that there were no more men to be recruited in the neighborhood of the Sydney.—Echo.

A RECRUITING APPEAL WHAT ABOUT YOU?

In a little churchyard back of the line, Yet one more to rest we've laid, And soon another widow will pine For one who the price has paid.

The price of freedom for those you love, His duty to them and you, His duty to King and God above Has been done—then what about you?

Aren't you coming to help fill up the space He's left in the long, long line: To do your bit and take his place In the struggle to reach the Rhine?

Or do you say—if the country needs Me, let it call? Thou Cain!— It calls as every hour speeds With the new-spilled blood of its slain.

Ask of yourself—and clench your fist; Ask—and go, get you a gun, Would you like to see your sister kissed By a dirty, drunken Hun?

Would you like to-morrow to see your home Burning, 'mid many more? Would you like to see your mother roam Homeless, forlorn, heartsore?

It's happened already too often, alas! And if all were the same as you, 'Twould have happened in England—but let that pass. Say—What are you going to do?

O Man! Man! Man! What will you say? When the boys who have done their share Come back from the front again one day And ask of you—Were you there? —W. Oswald Neesham, 2nd South Lancs. Regt., Belgium, April, 1915.

EMBARGO HITS SOME NOVA SCOTIA PRODUCTS

(Halifax Herald)

Halifax, Feb. 26—The embargo on certain goods entering Great Britain will not have very serious results as far as Nova Scotia is concerned. Lumber, lobsters and apples are the 3 principal items affecting this province. For some weeks there has been an embargo prohibiting the selling of lumber to private concerns in Great Britain but the demands of the admiralty have been taking all the supplies so the new ruling will not change the situation.

The lobster embargo is more serious. It affects not only the small quantity of last year's pack left, but makes it difficult for the packers to decide what to do for the coming season which is so soon to open. A meeting of those interested in the lobster industry has been called to discuss the matter and to come to some decision as to what is the wisest thing to do under the circumstances.

The fruit growers of the Valley are too accustomed to sudden and important changes to become panic stricken over anything. They take the present situation quite coolly and point out that what applies they have on hand are good keepers. W. H. Chase, one of the foremost exporters of apples in Nova Scotia, has made shipments from this port for Great Britain as late as May 10th and had the apples arrive on the other side in good condition. The United Fruit companies, which centralizes the operations of forty co-operative companies, and which still has a considerable quantity of the later varieties on hand, is finding quite an extending market in Montreal, Toronto and even farther west. The general manager of the company, A. F. McMahon, is at present in Halifax and says the news of the embargo did not come as a surprise and will not have any harmful results so far as the valley is concerned with this season's crop.

He says that all the growers are confident regarding the coming season and because of the embargo there will be very few who will slacken in the least the care of their orchards. In the first place they are supremely confident that the war is progressing favorably. Secondly, they know that they have the advantage of all competitors in the English markets, and lastly the steady improvement of local and western markets provides a profitable outlet for a vast quantity of the fruit.

Another very interesting feature of conditions in the valley is the fact that all records in the production of wheat will be broken the coming season if the harvest is in keeping with the sowing. Large quantities of seed wheat has been secured. In 1916 there was a much larger acreage of wheat than was ever before raised in the valley and on the mountains and the flour mill established at Berwick by the Woodworth mills, subsidized by the government, cannot keep up with the demand on its capacity even by running night and day.

ST. VITUS DANCE AFFECTS MANY CHILDREN

This Trouble Can be Cured Through the Use of Dr. Williams' Pink Pills.

St. Vitus Dance is much more common than is generally imagined. The trouble is often mistaken for mere nervousness, or awkwardness. It usually attacks young children, most often between the ages of six and fourteen—though older persons may be affected with it. The most common symptom is twitching of the muscles of the face and limbs. As the disease progresses this twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hands or walk steadily, and in severe cases the speech may be affected. The disease is due to impoverished nerves, owing to the blood being out of condition and can be cured by the use of Dr. Williams' Pink Pills, which enrich the blood, strengthen the nerves, and in this way restore the sufferer to good health. Any symptom of nerve trouble in young children should be promptly treated as it is almost sure to lead to St. Vitus Dance. The following is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Miss Hattie Cummings, R. R. No. 3, Peterboro, Ont., says:—"I was attacked with St. Vitus Dance. Both my hands trembled so as to be practically useless. Then the trouble went to my left side, and from that to my right leg, and left me in such a condition that I was not able to go out of the house. I took the doctor's medicine without getting any benefit. Then I tried another remedy with the same poor results. At this stage I was advised to try Dr. Williams' Pink Pills and did so, with the result that they fully restored me to health, and I have not had the slightest symptom of nervous trouble since. I can recommend these pills to anyone who is suffering from nervous trouble, and hope they will profit by my experience."

You can get Dr. Williams' Pink Pills from any drug dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The death of Mrs. Paul Yates has occurred at Digby. She left her husband who is an artist and photographer well known throughout the Province and two children, William and Paul. The funeral took place on Tuesday afternoon.

Mrs. George T. McClearn died at Liverpool on Monday, aged 38 years, leaving her husband, one daughter and two sons to mourn the loss of a loving wife and mother. A. F. Davison and F. H. Davison of Bridgewater are brothers of the late Mrs. McClearn.

Leon D'Eon an aged and estimable resident of West Pubnico, passed away on Wednesday last week. He leaves a son, who is a railway mail clerk in the Nova Scotia Division, and three daughters. His wife predeceased him about a year ago.

Restriction in Canada is also the Proper Thing

Ottawa, Feb. 25—Warmly endorsing the speech of the British premier, the Right Hon. Lloyd George, and commending the restrictive measures which are to be enforced on the other side, Sir George Foster, acting premier, has issued a noteworthy statement in which he brings home to Canada the lessons the war is teaching to the Mother Country and intimates that it may be necessary, by means of similar restriction, to follow the example of Britain. Referring to the need of Canadians sacrificing pleasures and indulgence and expensive unnecessary and modes of living Sir George says that "Later—and perhaps not very much later—it may become compulsory here, or it surely is not right for us to diminish by extravagant and wasteful methods of living, and by declining to submit ourselves to restrictions which touch no essential point of health or real comfort, the precious and essential supply of food and other materials that are becoming so necessary for the success of the war."

Sir George voices the opinions that the high cost of living might be essentially reduced if Canadians consumed 75 per cent less of luxury and 25 per cent less than the essentials of living. Discussing the general effect of the restrictions Sir George says they will affect exports of timber, fruits, fish and agricultural implements, but on the other hand all Canadian staple food supplies will be required to the maximum of production.

Intense Feeling Has Been Provoked in Holland

London, February 26—News disatches from Holland to the London newspapers emphasize the continued indignation aroused among the Dutch by the recent destruction of Dutch ships by German submarines. The despatches say that there is a complete absence of noisy protest, the gravity of the situation having "a marked silence, amounting to a sense of solemnity." All reports agree that nothing which has happened hitherto in the war has provoked such an intense feeling.

"Shipping interests are extremely concerned and talk of the stoppage of all Dutch shipping is general. It is suggested here that one way of bringing Germany to a sense of her misdeed would be to seal the Dutch frontier so that Holland could be utilized no longer as a purveyor of foodstuffs for Germany. The expulsion of thousands of German spies and an embargo on the scanty resources of grain would also be wholesome measures. The Dutch, however, are a long-suffering people, where Germany is concerned and extremely cautious."

Blockade Lifted When Cnstantine Carries Out Compact

Paris, Feb. 25—Definite announcement was made here today that the blockade of Greece will be lifted when King Constantine gives complete satisfaction to the demands of the Entente Allies.

Germany is Satisfied With Submarine Results

Amsterdam, Feb. 26—In an interview in the Taeglsche Bunschau, Albert Ballin, director-general of the Hamburg-American line, says that Germany can be most satisfied with the success so far of unrestricted submarine warfare. Herr Ballin says that the object of the campaign was not to sink ships, but to stop commerce with England, and that this had been fully attained, as neutral traffic was stagnating.

Referring to the German ships lying in United States harbors, Herr Ballin said that a treaty existed between Germany and America which did not allow confiscation; and that he had no ground to assume that the United States would not observe this treaty. President Wilson, he added, had based the rupture of diplomatic relations of international law, and therefore he considered it quite impossible that the president would himself disregard international agreements.

"Germany's aim," he continued, "is to issue from the war victorious. With victory she will have won all with it she will have lost all."

Boston paper: That Baltimore girl scarcely 12 years old who is all ready more than 6 feet tall, weighing 117 pounds and still growing with wonderful rapidity, is puzzling the scientists of the medical staff of Johns Hopkins University, who are all looking up to her and wondering when she is going to stop. Baltimore girls by the way, are noted for their beauty.

OBITUARY

Mr. Ward Bennett

Mr. Ward Bennett died on February 13th at the residence of his niece, Mrs. Warren Parker, Canning. The funeral service was held from the residence on Thursday, Feb. 15th conducted by Rev. F. H. Bone, burial at Pereaux.

Mr. Bennett was unmarried and leaves one brother Mr. Amos Bennett and several nephews and nieces. He was ill only about five days and was a man of very quiet habits and held in esteem by all who knew him.

STEPHEN E. BURGESS

The death occurred at Canning, on February 23rd, of Mr. Stephen E. Burgess, aged 77 yrs, and 7 months. The funeral service was held on Sunday afternoon from the Methodist Church conducted by Rev. R. U. Bell, assisted by Rev. Dr. A. C. Borden. There was a large attendance, burial at Upper Canard.

Mr. Burgess had been sick about two years and gradually failed until the end came. He was born at West Cornwallis and moved to Sheffield Mills with his father, John Burgess sr., and farmed there for many years. He married Caroline Stevens who died in 1903. About 15 years ago Mr. Burgess moved to Canning and built a fine residence there. He was a member of the Canard Presbyterian Church, a man widely known and held in the highest esteem by all. He leaves the following children: Mrs. H. M. Jacques wife of Col. Jacques, now in France; Fred E. Burgess, of Sheffield Mills; A. S. Burgess, a leading merchant in Canning, and Dr. Harry C. Burgess, now a captain in overseas service.

The High Cost of Living

Food Riots in Boston Cause Alarming Conditions.

With cries of "We must have food," "We want potatoes," a crowd of 300 men, women and children Thursday night stormed the grocery and provision store of J. Lipsky at 1 Spring Street, West End Boston, and, after upsetting barrels of sugar and fish carried away the contents. The hasty arrival of reserves from the Joy street station prevented a riot. The demonstration followed an open-air mass meeting to protest against the high cost of living. About 500 persons attended the meeting, which was held under the auspices of the West End Mothers' Club, and the women voted to bar social workers from their homes in the future.

Speakers at the meeting declared that even in Russia, in the midst of a war, the people were far better treated than in America, and declared that the Russian government, in contrast to the American government, took care to see that children were well nourished.

The women of the West End are planning to join with the women from all sections of Greater Boston for a mammoth demonstration in front of the State House.

Plans are being made to have 10,000 housewives in Greater Boston enter the parade to the State House.

Captain John B. Smith of the schooner Carrie L. Hirtle, which arrived Thursday from Nova Scotia with 5500 barrels of "spuds" as her cargo, immediately armed his crew to frustrate any attempt to take away the precious tubers. When these potatoes were loaded two weeks ago they were worth \$1.60 but their present value in Boston is \$3.75 a bushel. Captain Smith's profit on the cargo of potatoes will be approximately \$11,524.

If the lady who contributed to the Annapolis Royal Spectator, will kindly wait until she has permission to mention my name in connection with knitting socks for soldiers, she will greatly oblige Mrs. J. W. Beckwith, Wolfville.
