

er So Well
Since Girlhood

J. Vanderburgh, of Eastern
avenue, St. Catharines, Ont.,
For twenty-one years I was
tormented with heart trouble, nerv-
ousness and cramps in the limbs, also
of the muscles and nervous
system. I became weak, debilitated
and emaciated. My condition
worsened, and I was made worse
by a hundred remedies in vain,
until about Dr. Chase's Nerve
Food I decided to try it. After having
a dozen boxes of this prepara-
tion I had entirely van-
ished. I was enjoying better health
and since girlhood. I am now
in perfect health and am
able to take work to-day and go
to my former state.

Acacia Villa School.

The annual closing exercises of
Acacia Villa School were held on Tues-
day, May 21st. The day was fine
and a large number of visitors were
in attendance throughout the whole
day. The hours from 9 to 12 and
from 1.30 to 3 were taken up with
examination of the various works of
the school year. Immediately after 3
the boys formed up in the gymnas-
ium and from there proceeded to the
campus. Here three quarters of an
hour were spent in a most interest-
ing dumb bell work. The boys did
their work almost perfectly. The work
of the afternoon was brought to a close
by a field and track meet among the
boys. The competition was very
close. Nine events were carried
through successfully.

At eight o'clock the evening con-
cert began. The program was a good
one and well rendered. Miss Nellie
DeWitt, Mrs. O. D. Harris and Mrs.
R. P. Gray, of Wolfville, rendered
valuable assistance. At the close of
the program the prizes for the meet
of the afternoon were given out. Miss
Jean Curry received also, as a reward
of diligent study, a nicely bound
book. The Rev. Mr. Wedall and Dr.
Chipman, of Grand Pre, and the Rev.
Mr. Moore, of Wolfville, gave short
but interesting addresses to the boys.
Mr. Moore announced, he had been
so pleased with the boys' performance
of the afternoon, that he had decided
to offer, for next year, a medal, to the
best all round athlete. The concert
brought to an end one of the most
successful closings of Acacia Villa.
During the past week, the Acacia
Villa boys played two games of base-
ball, both with the high school team
from Wolfville. The first game was
very close and ended in a victory for
Wolfville, 14-11. In the next, how-
ever, Acacia Villa more than turned
the tables, and at the end the score
stood 30-8 for Acacia Villa.—Cox.

The True Imperialism.

Here, while the tide of conquest rolls
Against the distant golden shore,
The starved and stunted brown souls
Are with its more and more.

Vain is your science, vain your art,
You triumph and your glories vain,
To feed the hunger of their heart
The famine of their brain.

Your savage decrees, your laws,
The foe that in our midst resides,
And holds within the midst of man
The Empire that abides!

Children who have worked hard
at school, looking forward to grad-
ing, are prevented from taking the ex-
amination. They are thus thrown
back for a whole year. To both chil-
dren and parents this is most dis-
couraging. Often the children re-
fuse to go back over the work which
they had faithfully done before, and
parents do not like to force them under
the circumstances. These children are
thus made the victims of a system.
The keeping back of some of these
children is a severe financial loss. We
are often told of the fact of our free
education. Do teachers and others real-
ize that owing to the fact of a change
in the method of conducting the
school the tax is very heavy, amount-
ing to several dollars per child. The
cost of scribbles, lead pencils, etc.,
would astonish some teachers, and
this because teachers don't like states
or that they are not healthy, etc.
Now what I suggest is, that when
through an accident, like the attack
of measles, or something else of like
nature, teachers should pass such a
child on his or her record, or give a
supplementary examination. Hoping
teachers or school commissioners
will take this matter into considera-
tion. A PARENT.

SCHOOL BOARD MEETING.
A special meeting of the Board was
held on Monday evening, at which
all the members were present.
The following appointments to the
teaching staff were made for the en-
suing year:
Mr. R. W. Ford was re-appointed
principal at a salary of \$700. Miss
Kaulback was re-appointed teacher of
Grade VIII at her former salary of
\$325.00. Miss Cochrane was re-ap-
pointed as teacher of Grades VI and
VII at a salary of \$250.00. Miss Vera
M. Smith was appointed as teacher of
Grades IV and V at a salary of \$250.00.
Miss Margaret Freeman was appoint-
ed to teach Grades II and III at a
salary of \$250.00. Miss Alice M.
Spurr was appointed teacher of the
primary department, Miss Eaton's
resignation as teacher of that depart-
ment having been received and ac-
cepted.

The chairman reported an inter-
view with Inspector Roscoe with re-
ference to securing the superior grant
for Miss Kaulback, who holds a Grade
A license. The Inspector thought
this could be obtained if certain con-
ditions were complied with, such as
ornamenting the grounds, installing
the school library and providing a
better equipment of maps, etc. The
Board passed a resolution requesting
the Council to take the matter of the
improvement of school grounds into
consideration.

Drugging Children.
All so-called "soothing" syrups and
most of the powders advertised to
cure childhood ailments contain poi-
sonous opiates and an overdose may
kill the child. When the mother
uses Baby's Own Tablets she has the
guarantee of a government analyst
that this medicine contains no opiate
or narcotic. They can be given with
absolute safety to a new born baby.
They cure indigestion, constipation,
colic, diarrhoea and the other minor
ailments of children. Mrs. G. Col-
lins, Hirkella, Man., says:—"Baby's
Own Tablets are the most satisfac-
tory medicine I have ever used for
the minor ailments of children. I al-
ways keep the Tablets in the house."

THE ACADIAN.

WOLFVILLE, N. S., JULY 12, 1907.

Sanctum Selections.

The Baptist convention of the Maritime Provinces is to be held in Wolfville next month. There will no doubt be a large number of people in attendance, and furnishing of accommodation for these will be quite a serious problem for a town of this size. It will therefore be necessary for all to do what they can to help. Wolfville people are not lacking in hospitality, and will prove equal to the emergency in this case.

The latest report concerning Sir Frederick Borden is that he has reconsidered his former decision and will again be a candidate at the next Federal election when the time comes. It is said that a recent turn in affairs in this country has caused him to make this change in his plans. It is also rumored that the vacant senatorship will be given to a gentleman in this valley prominent in social and business circles.

Preparations are already being made for the approaching Municipal elections, which take place next November. Many matters are now being considered by the various ward committees. In some wards candidates are already in the field. Ward 8 has been fortunate in being represented for a number of years by a man who perhaps has a better acquaintance with the affairs of the county than almost any other man in the county. Councilor Reid has sat in the Council for a goodly term of years, and his actions have given few causes for criticism. It is hoped that he may consent to assume the responsibilities of the position for another term in which case it is not likely there would be serious opposition.

THE ACADIAN has been criticized by the Acadia Orchardist, of Kentville, because of the statement in our last issue, in the report of the meeting of the Wolfville town council, which said that the balance-sheet submitted by the auditors for the half-year which ended June 30th, showed a balance to the credit of the town in the bank of \$90.33. We would advise the editor of the Kentville paper to either come to Wolfville himself or send a representative to the office of the town clerk to examine the report and see if we did not correctly report it. We are sure he has not done this, but must have had his information second-hand, and from an unreliable source. It is always better when possible to get such information at first-hand.

The Western Chronicle of yesterday devoted considerable of its editorial space to another vicious attack upon Professor Sawyer. It is extremely bold and characteristic of that paper and its writers to carry on this kind of a campaign. It is therefore not in a position to reply to the calumnies hurled at him with such unerring aim. However, from such an attack Mr. Sawyer requires no defence by the people of this county. His record and the record of the Chronicle editor are too well known. By the way, we wonder why the writer of the Chronicle's editorial is not in Hants county aiding in the campaign being carried on there. Is it because he has nothing to say, or because he is not wanted by the leaders of his party there?

THE ACADIAN is always gratified to learn of the establishment of any new industry in our town, which gives promise of success. Such an enterprise, we understand, is about being launched by Messrs. A. J. Woodman and R. E. Burgess. The wood-working factory of Mr. D. A. Munro is to be leased by these gentlemen for the manufacture of such articles as wash-boards, pastry-boards, mangle-rollers, etc. Already contracts have been made for an unlimited number of these articles to be shipped to a firm in Great Britain, which agrees to take all the output of the factory. Messrs. Woodman and Burgess have the plans all made and are now contracting for material to be supplied as soon as possible, when the work will be begun. We wish the new enterprise every success and have little doubt as to its ultimate prosperity.

Amherst, the birthplace of Sir Charles Tupper, is planning a monster banquet in his honor, to be held during the month of August. The plan is to hold an "Old Home Week," when all the sons and daughters of the town who have left it to seek fortune in other places will be asked to come back and spend a few days. By far the most prominent of these is Sir Charles Tupper, and the Board of Trade of Amherst has taken the question of the banquet up, and every thing points to it being a certainty. It is planned to raise some four thousand dollars for the purpose. From present plans the affair will be one of the largest ever held in Canada, and the committee having the matter in charge are sparing no pains in their efforts to make the banquet a certainty. Mr. D. W. Robb, of the Robb Engineering Company, of Amherst, leaves in a day or two for England, and while there will interview Sir Charles and arrange dates.

The Hants Election.

Kings county people naturally are somewhat interested in the election contest now going on in our neighborly county of Hants. The fight is an energetic and determined one, and both sides appear to be confident of victory. Both the candidates are good, clean men, such as would be creditable representatives for any county. The chief point at issue is the Prohibition question which is more and more becoming a vital issue in political affairs in this country. Mr. James O'Brien, the liberal candidate, appears to be satisfied, if elected, to support in all things the Murray government, which has placed itself on record as being opposed to prohibition. Mr. E. A. O'Brien, the conservative candidate, on the other hand, comes out straight as a prohibitionist, promising to put prohibition first even if it means the sacrifice of party affiliation. The advantage would naturally appear to be with the government candidate. From the character of the campaign it would of course be expected that the liquor dealers of Halifax, who now feel that they are fighting for their business existence, will take a hand. It is therefore pretty certain that there will be no lack of money and rum to support their friends and interests.

He had strayed into the wrong county of a host of political speakers and workers, who are able to proselytize anything in the power of two governments; it would be supposed that the chances of an opposition candidate at a bye-election at the beginning of a legislative term would be slight. Premier Murray, however, evidently considers the contest as an important one, as is evidenced by his going to Windsor on nomination day to address the electors. Mr. C. E. Tanner, the leader of the opposition, was also on the ground and gave an address at the opera house, while the liberal meeting was held at the drill shed. Next Wednesday will be election day.

The Windsor Tribune in commenting on the worried looks of the school children during the "grading" period, concludes with the following highly sensible advice to parents: "Now this sets us thinking about the subject of Education. What is it? Drawing out the power, that is latent in a person. You may pour in as much as you like, until the mind is nothing but a receptacle of facts, but that is not education. Then there is other than mere book-learning, and many a boy who cannot do much at his books can be educated along the line for which he has a talent, and will become a happy and useful man. Some parents and guardians make life miserable to children by forcing them to study, and to try to keep up with those of their school-mates, who are better endowed mentally. It is like harnessing together a cart horse and a thoroughbred, bad for both.

Trades are calling out for supple fingers and brains adapted to that age; and west of Kentville it would be quite feasible to drain five or six hundred acres more of interval, thereby increasing its value two or three times. Last—An abattoir at said Town Plot might be made the means of introducing McKenzie & Mann to extend their railroad from Middleton to Canning and Kentville. The boon this would be to the farmers of the northern section of the county, one of the most fertile of all, cannot be calculated. To sum up—Advantage to the Grand Pre and Wickwire dykes, and to Government Pier; to the whole eastern part of the county in providing a round trip; to the Township of Cornwallis in affording better access to the town of Wolfville; to the farmers of this section in the removal of dyke-rates and increasing property values; to the rate-payers, and especially traders, who will benefit by the increase in wealth; to the Port Williams dyke road, in protection; to the town of Kentville, in better drainage, and to the extension and its consequent prosperity. In short, there is scarcely a taxpayer or business of any kind that would not be directly or indirectly benefited.

As to the cost of construction, a later article will give some figures to show that the scheme is entirely practicable.

Worth makes the man! not wealth, not dress, not politeness, not parade. You will find more real manliness, more sound sense, more loveliness of character in the humble walks of life than ever was dreamed of in the circles of fashion, of pride, of wealth, of Chesterfieldian "rules of politeness. When a man of sense—no matter how humble his origin, or degrading his occupation—may be in the eyes of our vain and foolish—is treated with contempt he will not soon forget it; but will put forth all the energies of his mind to rise above those who thus look down in scorn upon him.

By shunning the mechanic we exert an influence derogatory to honest labor and make it unfashionable for young men to learn trades, or labor for support. Did our young women realize that for all their parents possess they are indebted to the mechanic, it would be their desire to elevate him and encourage his visits to their society, while they would treat with scorn the indolent, the fashionable, the sponger, and the well-dressed pauper. On looking back a few years our most fastidious ladies can trace their genealogy from some humble mechanics who, perhaps, in their day, were sneered at by the proud and foolish while their grandmothers gladly received them to their bosoms.

The Proposed Abattoir Over the Cornwallis.

For nearly two years the question of an abattoir over the Cornwallis River at Town Plot has been before the people of Kings county. Some time ago a plan for building away the old Hants abattoir was presented to the Municipal Council, with the request that they recommend it to the Government of the Province. This was done, and as a result a meeting of the Executive Council, together with representatives of the Wolfville Board of Trade, was held in the Provincial Building at Halifax. The matter was there discussed, and its assistant engineer given to those interested. Later, the Government sent with the idea of making plans estimates, etc. I have been told by those in a position to know that plans have been made but no estimates of cost of construction. The purpose of this article is to point out some of the advantages of the abattoir, in order that an intelligent interest may be aroused in the people of this county, and that through their efforts the assistance of the Government may be secured to forward the undertaking, in which every rate-payer in the county, with a few cases of personal interest excepted, cannot help but be concerned. Some of the facts connected with the scheme may help the general public to a better understanding of the question.

First.—There are several thousand persons whose interests and pleasure would be furthered by a crossing at Town Plot.

Second.—An abattoir there would cut off some 40 or 50 miles of water-flow past the Grand Pre and Wickwire dykes, and also past the Government Pier. Any one can readily understand that, as each tide comes in, it would bring up against the abattoir and rise higher than the incoming tide, thus causing "dead water," and thereby preventing the wear to the said dykes and Pier to a great extent.

Third.—It would increase the possibilities of the farms lying East of the present road to Canning, for these could be cut into smaller properties, and thus induce people of means to come into that most desirable and beautiful locality, to erect homes and make improvements. The schools, churches, and other advantages of the town of Wolfville could then be enjoyed.

Fourth.—There are some 600 acres of river-bed and banks to be reclaimed, which would be worth at least \$40,000 or \$50,000. Also, between three and four hundred acres of salt marsh land, worth at present about \$50 an acre on the average, to be converted into dyke equal to the best of the renowned Canard dyke,—an advantage to the county equal to the reclaimed river bed and bank.

Fifth.—The 1200 acres of dyke land lying between Wolfville and Kentville at present, as will appear by reference to the various rate-books of the different dykes, directly and indirectly mortgaged in rates to the sum of at least \$50,000 or \$60,000, all of which would be removed by the abattoir.

Sixth.—The public road from Greenwich to Port Williams will otherwise be a heavy public charge. Many thousands were spent there not many years since, and the expense will have to be repeated, unless wise councils prevail.

Seventh.—The town of Kentville would be benefited by having the sewage; and west of Kentville it would be quite feasible to drain five or six hundred acres more of interval, thereby increasing its value two or three times.

Last—An abattoir at said Town Plot might be made the means of introducing McKenzie & Mann to extend their railroad from Middleton to Canning and Kentville. The boon this would be to the farmers of the northern section of the county, one of the most fertile of all, cannot be calculated.

To sum up—Advantage to the Grand Pre and Wickwire dykes, and to Government Pier; to the whole eastern part of the county in providing a round trip; to the Township of Cornwallis in affording better access to the town of Wolfville; to the farmers of this section in the removal of dyke-rates and increasing property values; to the rate-payers, and especially traders, who will benefit by the increase in wealth; to the Port Williams dyke road, in protection; to the town of Kentville, in better drainage, and to the extension and its consequent prosperity. In short, there is scarcely a taxpayer or business of any kind that would not be directly or indirectly benefited.

As to the cost of construction, a later article will give some figures to show that the scheme is entirely practicable.

Dinner to Prof. Sears.

The dinner given by the fruit-growers and friends of Prof. F. C. Sears to that gentleman on Friday evening of last week proved to be a very successful and satisfactory function. The dinner was given under the auspices of the Nova Scotia Fruit Growers' Association, at the Acadia Seminary Hotel, and was an excellent one and well served. About 125 persons were present, including a number of ladies. At the close of the dinner an address to Prof. Sears was read by Mr. E. E. Archibald. This address, which will be found in full on the next page of THE ACADIAN this week, was heartily supported by a number of the veteran fruit-growers present, such as Mr. J. W. Bigelow, Colonel Sparr, Dr. Henry Chipman, Messrs. T. H. Parker, R. W. Starr, C. R. H. Starr and others.

Prof. Sears made a most effective reply in which he spoke of the pleasure he had taken in his work and of the intelligent co-operation of the members of this Association and of orchardists generally throughout the Province. He hoped to see fruit culture advance here and become more and more a source of profit to all connected with it. In the success of the N. S. F. G. A. he should always take a deep interest. At the close of his address Prof. Sears was heartily applauded.

Addresses were also given by Mr. I. B. Oakes, Dr. Tutin, Prof. Cunningham, Dr. Geo. Johnson, Mr. A. McN. Patterson and others.

The proceedings were enlivened by excellent vocal music by Misses Agnes Johnson and Nellie DeWitt, and a charming selection by Miss Evelyn Starr, on the violin and Mr. Roderick Dwyer, on the cornet.

Mr. John Donaldson, the president of the F. G. A., presided and conducted the affair most ably.

The singing of the National Anthem brought to a close a very enjoyable evening.

Just Two Teaspoonfuls of Sovereign Lime Juice with water and sugar will make a delicious healthy drink.

Sovereign Lime Juice is different from other brands, because it is pure juice—and takes less. Some who are accustomed to using more of other brands and using the same quantity of Sovereign find it too strong. Remember two teaspoonfuls of Sovereign contains more Lime Juice than double the quantity of some others.

Little Elizabeth, the two and-a-half years old daughter of Principal and Mrs. R. W. Ford, had a very fortunate escape from serious injury last Saturday afternoon. While playing in an upper room in their residence she is supposed to have climbed upon a window-seat and unlocked and raised the window, in doing which she lost her balance, falling through the window to the ground, a distance of sixteen feet. Her parents were in the room below and Mrs. Ford, who rushed at once to the assistance of her little daughter, followed by Mr. Ford. They found the child lying on the ground apparently unconscious, but in a few seconds a tremor passed through the little body and she began to cry. A doctor was at once summoned and after careful examination pronounced her uninjured save for a slight bruise on the face. She soon recovered her spirits and by evening was running about as active as ever. How the child escaped being killed, or at least seriously injured, seems marvellous.

An exchange says:—Ralph Connor is now working on a biographical volume that will be published early in the fall. The Life of James Robertson, D. D. Dr. Robertson was the inspirer, director and backer of all the sturdy sky pilots who went out into the Canadian northwest and fought for the morals of the men who were subduing the resources of the mines and forests of that new country. Needless to say that with his power of portrayal and his long personal acquaintance Ralph Connor will produce a biography of exceptional interest.

T. L. HARVEY, WOLFVILLE.

Death of Herbert N. Harris.

News was received here Friday of the death of Herbert N. Harris, who died at Lyon. The remains were taken charge of by the Lynn Commandery, K. T., until the arrival of his father, and were brought to Orange Saturday.

Mr. Harris was born in Lawrence 33 years ago last May but he spent most of his life in Orange where, after leaving school, he went to work in the machine shop of the Rodney Hunt company, later taking a course and graduating from the Eastman Business college of Poughkeepsie, N. Y. He was a mechanic by trade and had secured a position with the U. S. Shoe Machinery Co. to give him a wider field of mechanical knowledge, ultimately intending to return to Orange to make his home.

The deceased was a director of the Rodney Hunt Machine company, a member of Orange Lodge, F. and A. M., Crescent Chapter, R. A. M., and Orange Commandery, K. T. He leaves a wife, (formerly Miss Greta Bishop, of Wolfville,) father and mother, Mr. and Mrs. Nelson E. Harris, two brothers, Carl and Philip, and a sister, Miss Daisy Harris, all of Orange.

Funeral services were held at his father's home Monday afternoon, Rev. J. K. Moore officiating, Orange commandery attended in a body and performed its burial services at the grave. The bearers were Dr. F. E. Waters, W. H. Barrs, Fred H. Train, A. S. Albee, W. A. Clark, C. L. Gray. There was a large offering of floral tributes. The interment was in Central cemetery—Orange (Mass.) paper.

Buenos Ayres, the capital of the Argentine, is the largest city in the world south of the Equator, and the second Latin city, ranking after Paris, in all the world. Its population is 1,700,000, and it is growing faster than any city in the United States, excepting New York and Chicago. That structure in the world, used extensively by one newspaper, the most magnificent open house in the world, costing more than \$10,000,000, the largest and largest clubhouse in the world and the most expensive system of docks in all America, costing \$50,000,000.

A Great Health Builder

Mrs. J. Hatcher, 234 Sherbrooke Street, Montreal, Ont., writes: "I had an attack of inflammatory rheumatism which left me in a very run-down state of health, and in fact my whole nervous system seemed exhausted and worn out. I could not sleep and at times the pains in my head were almost unbearable. As a result of these symptoms I was unable to attend to my household duties, and I felt miserable most of the time. On the advice of a friend I began using Dr. Chase's Nerve Food, and can say that it has proven of very great benefit to me. I am able to do my own work now, and feel stronger and healthier than I have for years. I can truthfully state that this is due to the use of Dr. Chase's Nerve Food, which I consider a great health builder."

Note your increase in weight while using Dr. Chase's Nerve Food, 50 cents, 6 boxes for \$2.50, at all druggists, or Dr. Hanson, Bates & Co., Toronto.

Well, she broke her looking glass and something was bound to happen.

Why Beauty Fades.
Real beauty is rare. It belongs to perfect health. Just as soon as the blood gets thin and watery, the nerves become exhausted, the body wrinkles, shows themselves, the glow of health disappears and beauty curves give place to wrinkles and angles. Dr. Chase's Nerve Food, the great blood builder and nerve restorative, is woman's greatest blessing from youth to old age. A few weeks use of this treatment will do more for any woman who is pale, thin, weak and nervous.

Pat—What be yer charges for a funeral notice in your paper?

How can you ask me that, dear? She reproachfully answered, "I would marry you even if you hadn't more than \$750,000."

III Temper from a Bad Liver.
Carefully justifies the ill-temper, which made him a monster in the eyes of the world to his liver. Nothing makes one feel more miserable or more gloomy and discouraged than liver complaint and consequent biliousness and dyspepsia and nothing so promptly and thoroughly sets the liver right and overcomes these ailments as Dr. Chase's Kidney-Liver Pills, the great family medicine.

A young mother in Spokane, said Senator Borah, had engaged a new nurse for her baby. The nurse came to her and said: "I don't know what the matter, madam, but the little one cries and cries. I can do nothing for it to quiet it." The mother thought a moment. Then, brightening up, she said: "I remember now. Baby's last nurse was a southern mammy. You will find the stove polish on the third shelf of the kitchen closet."

One Sunday, John Wanamaker visited the Sunday school classes in which he was greatly interested, and after talking the lesson over told the pupils he would try to answer any questions the boys or girls wanted to ask him.
One little girl raised her hand and spoke out timidly: "Will you please tell me, Mr. Wanamaker, how much those large French dolls are that you have in your show-window?"

MINERAL LIMENT CO. LIMITED.
GENTS—A valuable heating oil of the same size MIXED OILS, LINTIMENTS after several centuries had treated him without giving him any permanent good.

WOLFVILLE, PA.
Prop. of Grand Central Hotel, Drummondville, Aug. 2nd, '04.

As Englishman, an Irishman and a Scotchman were one day arguing as to which of the three countries possessed the fastest train.
"Well, said the Englishman, 'I've been in one of our trains, and the telegraph poles have been like a hedge.'
"I have seen the milestones appear like tombstones," said the Scot.
"Ho," said Pat, "I was one day in a train in my country, and we passed a field of turnips and a field of carrots, also a field of cabbage and parsnips, also a pond of water, and we were going that quick I thought it was hock!"

Keep Mineral Liment in the house.

Low Down Wagon.
There is nothing on the farm that I find more handy than my low down wagon, says a writer in New England Homestead. I use it for all my road and farm work and cannot say anything but words of praise. For loading grain, straw, manure, coal, wood, or, in fact, anything, it far exceeds the old-fashioned high-wagon. I use four-inch tires, with a brake, and instead of tearing up the field it rolls it and causes lighter draft and little damage—in fact, none to a growing crop.

On the road it runs lighter than the high wheels, in my estimation. The sun and rains have no effect on a steel wheel, thus saving binding of tires and oftentimes a breakdown through dried wheels and loose tires.

All who have seen it admire it and think, as I do, it excels the high wooden wheels by far. It will only be a short time until the old wooden high wheel wagon will be done away with.

When Children Are Sick.
They eat something that disagrees, catch cold, have cramps or colic. If there is pain, just apply Nerviline. It's good to rub on, and for the inside it's most comforting. Effective and pleasant, you can't find a household panacea to equal Poison's Nerviline. Used with satisfaction for half a century and in better demand every day because it does stop-pain, ease suffering and cure the thousand and one ills that constantly arise in the family. Large bottles at all dealers for 25c.

Seaside 'Dont's' for Holiday Makers.
The Royal Life-Saving Society has issued the usual warning to people who are spending their holidays by the sea-side. They take the curious form of 'Dont's.'

Don't bathe in quiet secluded spots.
Don't swim out from shore in the sea and other tidal waters unattended by a boat.
Don't bathe shortly after a hearty meal.
Don't bathe alone if subject to giddiness or faintness.
Don't take fright because you happen to fall into the water in your clothes. Clothes will float.
Don't take fright because taken with cramp. Keep calm and turn on the back; then rub and stretch the affected limb. If seized in the leg turn up the toes, straighten the leg to stretch the muscles and apply friction by kicking the surface of the water. Leave the water as soon as possible.

An extraordinary instance of the affection of a horse for his home has occurred at Turvey. A farmer at that place recently sold a horse he had had for several years to a farmer from Hanslope. The horse was taken to Hanslope and was placed in a field for the night, but after darkness had set in he broke bounds and made the cross-country journey of a dozen miles to his former owner found him on Sunday morning quietly grazing in his pad-dock.

Piles get quick and certain relief from Dr. Shoop's Magic-Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by A. V. Rand.

To destroy the red ant, which is in summer months a great trouble to the gardener, place fresh meat bones where ants are found. They will soon collect in vast numbers on the bones and may easily be destroyed by dipping the bones in hot water, suggests R. R. in American Agriculture. OPERATION AVOIDED
EXPERIENCE OF MISS MERKLEY
She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suffering with serious female trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and the hospitals are full of women coming for just such operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of menacing female troubles cured by Lydia E. Pinkham's Vegetable Compound, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free. Miss Margaret Merkley, of 275 Third Street, Milwaukee, Wis., writes:

"Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing-down pains, and various complaints, after making an examination said I had a female trouble and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The operation quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Female troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive if you have pain or swelling low down in the loins, or bearing-down pains, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

Blankets and bedding in summer should frequently be taken into the open air, if the situation of the house permits it, and well shaken and beat. If there is a grass plot they might be laid out upon it on a sheet for an hour or two in the middle of the day. The best means to preserve blankets from moths is to fold and lay them in a chest wrapped in newspaper. Lay pieces of camphor in the chest. The blanket chest should always stand in a dry but cool part of the house.

Tired, Off Color, Lacking in Strength.
You feel real seedy.
No snap, ambition or spirit.
You've noticed your color is miserable.
Noticed that your blood is thin, that you feel the cold, that trifles bother and worry you.
You've noticed that, sleep hardly well, but still that restless feeling hangs right on.
To overcome this condition all the vital functions must be stimulated. You accomplish this by taking Ferrozone.
How it makes the appetite jump. There follows as a natural consequence an abundant supply of rich, red blood.
Vitality and strength you'll soon find throbbing within you, because your food is digested so thoroughly that it's readily assimilated.
You soon notice that your color is coming back, and endurance, ton, and soon the joy of life, health, vigor, strength—and with these come the old-time zest for everything that makes life worth living.
Ferrozone is a marvelous body-builder, blood-former and strength-giver.
Ferrozone, by supplying the aid the body needs to build up, gives the recuperative power that will enable you to do your work easily, and to maintain strength.
Try it for a month.
See if you don't find it just the thing you need to make you strong.
Not a man, woman or child who needs more strength, better nerves and surer health who won't find it in Ferrozone. This nourishing tonic makes you feel like new—brings back the feeling of spirit and ambition you had years ago. Try Ferrozone, sold everywhere in 50c boxes.
Some people are going to be mighty surprised when they find out that there is a difference between real goodness and a receipt for pew rent.

Weak Kidneys
Weak kidneys make you feel tired, nervous, and irritable. They also cause backache, headache, and other ailments. Dr. Shoop's Restorative is the best remedy for weak kidneys. The regular business meeting will be held in the Board of Trade rooms the first Tuesday evening of each month.

The saloon business is not like any other business. It is certainly not a business which stands well in comparison with other occupations. The liquor traffic tends to produce criminality and law-breaking—to debauch not only the body social, but the body politic also.—Theodore Roosevelt, in a magazine article several years ago.

A great prelate of the Church is reported to have once said that he would rather see the British people free their sober, and this saying is treasured up and constantly repeated by those who champion the vested interests of brewers and publicans. But it is certain that no man who is habitually drunken can be in any real sense free; it is slave of his own passion for drink, says Sir John Gorst in "The Children of the Nation."

"Mother."
(Robert J. Burdette, in the "S. Times.")
I have known many women who have brought the picture of the Christ into my thought as I noted their daily work. Smiling over the humblest service. That mother, cheerfully doing the things of which the rest of us have said, "You catch me!" That mother. After the long, day's work,—five or six to seven hours over un-ion time—grinding herself and kneeling to wash the feet of guests that were unworthy to cross the threshold of her sweet home. That mother. Sinking into a chair weary and faint, only to rise from it with the unalloyed smile on her dear, tired face, to wait on some man who has worked eight hours that day; or to mend a jacket or catcher's mitt for a boy who has played all day; or to sew on a bit of lace or adjust a ribbon or change something about a gown for a girl who she can't stop, but must go out for a better time in the evening. That mother, sacrificing this hope, that comfort, and that rest, for people who forget to say "thank you." That mother. Laying off her wraps and staying home from prayer-meeting or church, to care for the sick, or to herself or played himself into a headache. That mother. Getting accustomed to hear the rest of the family say, as they get ready for the evening's entertainment; "Oh, no, mother doesn't care to go. Church and prayer-meeting are mother's only dispositions." Well, those are about all some families allow her. They don't cost anything, and the rest of the family don't want to go.

A Wife's Discipline.
Charged with whipping her husband, a New Jersey woman not only frankly acknowledged that in eighteen years of married life she had frequently applied the chastening rod to him, but claimed that she was quite justified in doing so for his good and that of his family. She is described as a handsome woman of about forty, a nurse by profession, intelligent and capable, not given to outbursts of temper, and having an air of ladylike refinement. In her plea she said: "It is not that I believe in women bossing their husbands, but if a husband cannot look after himself, his wife had better do it for him. A little beating does a world of good, and if I had not kept my husband well in hand, I don't know where we should all have been by now, for we have six children." Like many other women, she claims equality for her sex. She said: "No-body ever blames a man for correcting his wife well in hand and correcting her when she gets flighty, but they don't think it right for a woman to have the whip hand over her husband—why, I don't know, for some of them need it badly enough." The newspapers having stated that she locked her wayward husband out in the yard all night, she explained that she had not done that. All she did, she said, was sometimes to lock him in the passage until his drunken temper had worn off a bit, for when he had too much he smashed up things terribly. She said that she found the plan gave very good results for he soon cooled down when "on the wrong side of the door." Drink has been the cause of all her trouble, and made necessary her occasional discipline of the wretched fellow, with whom her life is linked, for she says, "If the saloons were abolished it would be better than all the rods in the world." Tens of thousands of suffering wives have the same complaint to make against the cruel drink traffic, which makes beasts of their husbands. If the rods were really applied to the consciences of men, and who traffic in the weaknesses of men, but put crushing burdens on women, there would be a speedy brightening of the home life of thousands. The judge before whom the New Jersey woman appeared, evidently thought she had done about right in convicting her drunken husband, for

Most Dreaded Form of Kidney Disease
Dr. Daniel Brown, English River, Ontario, writes:—"For three years I suffered from urinary trouble, partaking of the nature of stone in the bladder, or gravel, and the pain which I endured was scarcely to be described. I was unable to do any work, and frequently discharged blood. Though I spent hundreds of dollars in doctors' bills I received no relief, and at last decided that I would never be able to work again.
"While in this condition I was advised to try Dr. Chase's Kidney-Liver Pills, and, though I had no faith in them I decided to give them a fair trial. After taking one box I felt a decided change for the better, and after taking five boxes I feel like a new man. I am entirely out of doctors' bills I received no relief, and I can honestly recommend Dr. Chase's Kidney-Liver Pills to any fellow sufferer, and will cheerfully verify this statement to anyone writing me."

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. The Restorative has made its name, its remedy is a simple one to treat the "inside nerves." Also, for blotting biliousness, the inside nerves—mean Stomach weakness, as well. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its name.
