

GREAT HAMILTON'S MOST RELIABLE NEWSPAPER

THE OPPOSITION AND OBSTRUCTION.

Threaten to Refuse Further Supplies.

Tory Member Gets Work Done For Nothing

By the Marine and Fisheries Department.

(Special Despatch to the Times.) Ottawa, June 3.—There was more obstruction to supply by the Opposition in the Commons this morning.

Sir Frederick Borden, in answer to Mr. Bristol, confirmed the report that the camp for the military district will be held at Goderich this year instead of in London. The Goderich grounds were, he said, larger than those in London, and the facilities were better.

On motion to go into supply, Mr. Taylor made a rather long speech in support of his contention that the order for papers respecting a breakwater at Pere-Rochers had not been brought down in complete form. Here Mr. Pugsley declared that the order of the House had been fully complied with. He would, however, be glad to bring down the further papers and documents which Mr. Taylor now said he wanted.

Dr. Sproule delayed business another five minutes by criticising the Minister under the impression that he had refused the further papers desired by Mr. Taylor. His error was pointed out by Hon. Mr. Pugsley, and the matter dropped.

Mr. Borden asked when it was likely that Mr. Justice Casels would resume his inquiry as commissioner into matters arising out of the Civil Service Commission's report. He considered that the Opposition would be justified in refusing any supplies to the Marine and Fisheries Department unless the investigation was resumed and pressed to a finish.

Dr. Reid's Snare.

Ottawa, Ont., June 3.—There were some revelations before the Public Accounts Committee which were not at all related by the members of the Opposition present. Some time ago Dr. Reid, Conservative member for Grenville, moved for an investigation into a certain payment made to George E. Merwin in connection with the rent of the tug Victor at Prescott, the allegation being that Merwin had been getting work done by officials or men on the staff of the Marine and Fisheries Department without paying for it. Evidence was brought out by the Minister of Marine and Fisheries today showing that Dr. Reid himself had got work done for himself at Prescott by men on the staff of the Department as a favor. Asked by Mr. Brodeur, Mr. W. H. Noble, Assistant Commissioner of Lights, who is in charge of the works at Prescott, stated that in the fall of 1904 Dr. Reid, M. P., had his yacht hauled into the Government yard for repairs. At the time Dr. Reid stated that he had obtained permission from the late Mr. Foran, who was then Minister of Marine and Fisheries, to have the work done. The witness did not know who carried out the repairs, but he understood they were performed by men of the Department. Asked whether these repairs had ever been paid for by Dr. Reid, Mr. Noble replied: "Not that I am aware of." The foreman had called his attention to an item of \$5 called by a caulder in connection with repairs to Dr. Reid's yacht, and the witness paid it out of his own pocket, and afterwards reimbursed Dr. Reid himself out of his staff.

Mr. Brodeur—So it was not very extraordinary that repairs should have been made to the tug Victor by the Government Department at Prescott.

Witness—No, I did not consider it was extraordinary.

Merwin had reimbursed the Department for the repairs made to the tug Victor, but Dr. Reid had not.

Mr. Noble also gave evidence to the effect that Dr. Reid had also obtained the use of an engine belonging to the Department, and that an acetylene tank had been put in a certain position for the purpose of supplying gas to the stanch works with which Dr. Reid is connected.

Mr. Northrop objected to evidence being given about engines or gas tanks when the question under consideration was repairs to a tug. The chairman sustained the objection.

BARREL NUISANCE.

One Placed Beneath New Letter Box on King Street.

"The City Improvement Society should get after the civic authorities in regard to the barrel nuisance," said a prominent citizen this morning. "There are two or three barrels at almost every corner on King street east. A waste paper barrel has been placed beside the new letter box at the corner of King and Mary streets. Persons who wish to post letters in it in the evenings often have to wait till two or three young fellows move off the barrel. If the collector happened to drop a letter while removing the contents of the box and it fell into the opening, the chances of its not being noticed are slim, and it would be gone for good."

It is stated that the ward foreman and the Mayor have been asked to have the barrel in question removed to another spot, but no notice has been taken of the request. A communication will likely be sent to the Board of Works on the matter.

No less than five barrels were on the corner of King street and West avenue one day this week. Two of them were for depositing street sweepings in

OLD LIBERALS VOTING RIGHT.

Will Support McClelland in East Hamilton.

Another Meeting to be Held Tomorrow Night.

Dan Reed Had Good Reception at Bartonville.

East Hamilton Liberals, judged by the canvass, which has been well done, are fully alive to the importance of standing by Liberal principles in the present contest. Wherever the canvassers went they found Liberals who had voted for Mr. Studholme when there was no straight Liberal in the field, but who are now supporting Mr. McClelland. The ranks of the McClelland supporters have been greatly increased in the past few days. Mr. McClelland's own clear utterances on the question of prison-made goods; upon the labor question and education, as well as upon other issues, have stamped him as the right man, and those who have been through the riding claim that his election is practically assured.

Mr. McClelland's Minister of Labor plank is winning approval not only among the Liberals of Hamilton, but in other parts of the Province, and promises to stamp him as a useful man for the workmen. And why should he not? His Labor opponent in the East has said on the platform that a lawyer could not properly represent the Labor interests. Mr. O'Donoghue, who spoke in Mr. Studholme's interests last night, is a lawyer. He was a college mate of Mr. McClelland, and is now a co-worker in the great labor profession. When elected Mr. McClelland will prove just the man to support the other Labor lawyer, his friend Mr. O'Donoghue.

There has not been much betting on the elections so far, the attention of the betting men being largely taken up with the horse races. In view of the frost at the Scott meeting last night, the betting money on tap to-day. A sporting barber from Barton street east was up town this morning, wanting to bet that Studholme would not win. He wanted odds, however. A Labor man offered to bet him that Studholme would win, and coupled with it a bet at even money that Scott would be the last man. The barber set sail at once.

Reed at Bartonville. Mr. Dan Reed, Liberal candidate for South Wentworth, held an excellent meeting last night at Bartonville. It was in the parish hall, and was presided over by Mr. Thomas S. Morris, the Teapower Voters' League of the riding, of which he is an officer, having endorsed Mr. Reed. Mr. E. J. Guest, Reeve of Amster, gave a splendid address, and was followed by Mr. W. A. Sealey, Liberal candidate for the Commons, in Wentworth. Mr. Reed was given an enthusiastic reception, and made a capital speech, reviewing all the questions of the day in a very able manner.

Illustrated Address. W. M. McClelland, Liberal candidate in East Hamilton, and others, will address an open air meeting of electors tomorrow, Thursday, night, at the west end of the T. H. & B. Railway freight sheds, corner of Ferguson avenue and Forest avenue. It will be an illustrated address, the illustrations being three-cent-an-hour prison-made Tory contraband goods. These illustrated addresses are very effective. Mr. McClelland will also explain his stand on labor and touch upon the other issues of the day.

PENNY POSTAGE.

Letters Two Cents an Ounce Between Britain and U. S.

Announcement Made at Washington and in the House of Commons.

Washington, June 3.—Postmaster General Meyer announced to-day that an agreement had been reached with the British Government providing for a letter postage of two cents an ounce between the United States and Great Britain and Ireland, to become operative October 1, 1908. He stated further that the British Postmaster-General, Sydney Buxton, was making a like announcement to the House of Commons to-day. The matter of a "penny postage," as it is called in England, has been under consideration for some time, and as far back as last July President Roosevelt approved Mr. Meyer's course in urging a "restricted union with England."

On October 1, 1907, the Universal Postal Union, which governs the international postal transactions of the various civilized countries, reduced the rate of letter postage from five cents a half ounce flat to five cents for the first ounce and three cents for each additional ounce, which is the present rate between the United States and Great Britain.

Postmaster-General Meyer believes that this reduction in the rate of postage to the United Kingdom will ultimately result in an increase in receipts, because it has always been found that a lower letter rate resulted in increasing the revenue. He is also of the opinion that a lower postage will lead to increased mercantile intercourse. Our manufacturers are increasing their sales in England, and must rely to a great extent on the mails for orders and increase in trade.

"Further," he stated, "this will be a great boon to our adopted English-speaking citizens and their connection here, particularly those of limited means, as it will enable them to keep up a correspondence with their relatives and friends in the old country at domestic rates."

HARRY SAYERS A DETECTIVE.

Gets a Vacancy That Has Existed For So Long.

Site for New Station in the West End.

City Gets 99-year Lease of Park Lands.

The Police Commissioners had a meeting at noon to-day, and appointed P. C. Sayers to the detective force to fill the vacancy created by John Miller, who resigned to accept a position in the Provincial Detective Department. Chief Smith and Magistrate Jells were strongly in favor of Sayers.

Judge Snider said Chief Smith had sent him a letter recommending Harry Sayers first, Arthur Robson second and so on. The commissioners took only a few minutes to make the appointment. Sayers was the unanimous choice.

Chief Smith and Magistrate Jells spoke highly of Sayers, and Judge Snider and Mayor Stewart said they had heard Sayers was about the best adapted to the job.

The matter of a police census was taken up but owing to the large number of people leaving the city action was deferred.

Constables Robson and Sayers were granted 25c a day extra pay for the time they were acting as detectives, the same amount granted to Constable Tuck.

At a private meeting held later in the Mayor's office the commissioners decided that the site they had in view at the corner of King and Queen streets for the new station, would not do. They were also reverse to putting it on Napier street again, finally deciding that a site, perhaps as far west as Queen street, and between Napier and Hunter street was what they wanted. The chief will pick out a spot.

City Solicitor Waddell to-day received from Thomas Mulvey, the Deputy Attorney-General, the document which gives Hamilton a ninety-nine year lease of the Asylum property along the mountain face, extending from the head of James street to west of Queen street. This will give the city a right of way underneath the mountain brow for that distance. The property will form part of the mountain drive and boulevard scheme. With the property purchased by the city west of Queen to Garth street, and the Platt property, west of Garth street, recently donated to the city, the Parks Board is now in possession of the properties which complete the drive from below Trolley street, on the east, to Chedoke, on the west.

Building permits were issued to-day as follows: Campbell Lubricating Company, brick warehouse building, corner of Hughson and Strachan streets, \$300.

H. B. Teeter, brick house on Eastbourne avenue, south of Main street, \$2,000.

Jones & Montrose, frame house on Birch avenue, between Cannon and Barton streets, \$500.

J. C. Springstead, frame house, corner of Cannon and Madison streets, \$1,500.

PIGOTT VS. FEDERAL LIFE. Bruce, Bruce & Counsel, acting for M. A. Pigott, have issued a writ against the Federal Life Assurance Co. for unpaid damages for trespass on his property. The Federal Life Co. has a projection of some six or eight feet over the roof of Mr. Pigott's building. Mr. Pigott claims that this projection interferes with his extending of the present building.

AFTER SLEMIN. This is going to be quite a different election from the last one. Then we were down and out. Now we have got our second wind, and are going strong.

Have you seen the Jolley Cat? Isn't that a nice mess, and nothing doing? If you have a rig, help our candidates on Monday.

The Dominion Government helps no man or woman or child to come to Canada. But it prevents immigrants from landing unless they are in good health and have \$25 in their inside pocket.

The statement was made in the County Council that the city finds its poor upon the county. Is that true?

Mr. McClelland is doing fine. Give him a hand.

Well, I wonder if Mayor Stewart and his fellow opponents of private ownership will hold a thanksgiving meeting because John Patterson was unsuccessful in financing the H. W. & G. Electric Railway. To be consistent they should.

There is a small grist of cases at the police court this morning. Sarkos Donegan, an Armenian, was fined \$9.85 for stealing a watch. William Austin was sentenced to 2 months in jail for theft of a carpet and will be shipped to the old country at the expiration of his term. A case of theft against Leo and Dolly Phillips was adjourned until Monday. Charles Davis, a colored race horse tout from Hamilton, was remanded until after circus day.

A garden party was held at Trinity Church last evening.

Word has been received in this city of the death of W. Sherwood, the brother of Mrs. Jones, 46 Grand street, who left here a short time ago for the old country. He died one day out of Liverpool, and was buried at sea.

Four Brantford Club rinks are bowling in Woodstock to-day.

TEAMSTER INJURED. Arthur Males, a teamster living on Niagara street, fell from his wagon yesterday afternoon on Malberry street, while making a sudden turn and lit on his head. He was picked up unconscious by Constable Cameron and taken to the City Hospital, where he regained consciousness some hours later. It was found he was suffering from a fracture of the skull, but merely from being stunned by the fall, and he will be around in a short time. Males was driving for Sones & Son, florists.

Easily the Best Bath sponge that can be obtained is the Manduca. This is the highest grade of sponge. To introduce this superior sponge we give 25 per cent discount off the regular price. If you want a good bath sponge, don't miss this snap. Parke & Parke, druggists.

Mr. Henry, of Sanford avenue north, is visiting at Beamsville.

There Is Nothing Like It. Pay any price you will, you can get no better pipe tobacco than the Extra Special smoking mixture. It is sold in large tins for 50 cents only at peace's cigar store, 107 King street east.

SAFETY DEPOSIT BOXES To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables. TRADES BANK OF CANADA.

FOR TRIAL AT HIGHER COURT.

JAMES MORRISON WAS COMMITTED THIS MORNING.

Several Wages Cases Settled—Truancy Cases Also Heard, But No Fines Imposed.

James Morrison, arrested yesterday morning on a charge of fraud was committed for trial this morning at the Police Court. He is the man who is alleged to have obtained \$250 from Edward Reiger on a team of horses and some harness and other goods without letting that worthy know that a chattel mortgage covered the whole outfit. The evidence was the same as the story published yesterday and as Morrison pleaded guilty and declined to elect through F. Morrison, he was sent up.

Joseph Airdecker, who was arrested while trying to ride the bumpers out of the city a week ago, was up this morning, but was allowed to go as he promised to get out of the city. He is a one armed man and that was responsible for him getting off as he admitted his right name was Stone and that he had been up here before.

Frank Mott, no address, said he could not get work, and the police said he would not get it. He was fined \$10 or seven days for vagrancy.

John Johnson, 125 street north, was fined \$3 for being drunk and disorderly on the property of John Long, Constable Sharp had a long chase after him when he was called in by Long to arrest the prisoner.

Two wages cases were settled out of court. E. Hughes vs. Frank Hall, for \$3.50; James Redwood vs. Rose Conaghan and \$10. Henry Birt vs. Joseph Schwartz for \$22.50, was dismissed as the suit was more than 30 days old.

John Markey, Margaret Hutton and Mrs. Silvert were all given further chances to send their children to school.

Toronto Race Track Bummers Heading This Way. (Special Despatch to the Times.) Toronto, June 3.—If the police at Hamilton are watching the proceedings in the Toronto courts they will prepare a welcome for a bunch of vagrants, who were allowed to go by Magistrate Denison this morning on the understanding that they would leave the city. They promised to do so and expressed the intention of going to Hamilton. The arrangement was very convenient for the men, as they came to Toronto from the United States to make a little money at the Woodbine, and they are getting away in time for the race week at Hamilton. Five of the men were arrested by P. C. Guthrie. He saw them playing card tricks with the crowds outside the race track, and concluded that they took care not to lose. They were dividing profits when he arrested them, but the men who had been banded would not give evidence in court. There was one charge of fraud. Geo. Tucker, who came from Chicago, was alleged to have secured \$250 from Norman Gould, a 12-year-old boy, on May 23d.

Gould said that he had bet on what the police described as a monte game. He tried to select the red card out of three, and thought that there were only two black ones. He discovered later that all the cards were either spades or clubs.

Tucker claimed that it was his brother who worked the games, but offered to pay back the amount, as the boy could not be certain about Tucker's identity the prisoner was given his liberty. He will also go to Hamilton.

TEAMSTER INJURED. Arthur Males, a teamster living on Niagara street, fell from his wagon yesterday afternoon on Malberry street, while making a sudden turn and lit on his head. He was picked up unconscious by Constable Cameron and taken to the City Hospital, where he regained consciousness some hours later. MARGUERITE'S SECRET

Meantime Marguerite, in her wild and lonely home on the wooded banks of the great Potomac, lived a strange and dreary life, taking long, solitary rides through the deep forests, and among the rocky hills and glens that rolled ruggedly westward of the river; or taking long walks up and down the lonely beach, waded away to some distant meadow, or explored some unfrequented creek—or pausing lazily, dreamily to watch the flash and dip of the fish in the water, the dusky flight of the water fowl, or the course of a distant sail; getting home late in the afternoon to meet a respectful remonstrance from the elderly gentleman who officiated as her housekeeper, and a downright motherly scolding from her old black nurse, Aunt Hapzibah, who never saw in the world's magnificent Marguerite any other than the beautiful, wayward child she had tended from babyhood; or giving an audience to her parents, who were spreading the farm book before her, would enter into long details of the purchase or sale of stock, crops, etc., not one word of which Marguerite heard or understood, yet which she would at the close of the interview indorse by saying, "All right, Mr. Hayhurst, you are an admirable manager," leaving her friends only to hope that he might be an honest man.

But one circumstance seemed to have power to arouse Miss De Lencie's interest—the arrival of the weekly mail at Sawney, the messenger bringing her from the moment the messenger departed in the morning until he came back at night, Marguerite lingered in the house, or mounted her horse and rode in the direction from which the messenger was expected—or returned if it were dark, and waited with ill-humored impatience his arrival. Upon one occasion, the mail seemed to have brought her news as terrible as it was mysterious. Upon opening a certain letter she grew deathly pale, struggled visibly to sustain herself against an inclination to swoon, read the contents to the close, then ordered her maid and a servant to attend her, and the same night set out from home, and never drew rein until she reached Bellevue, where sending her horses back by her servant, she took a packet for New York.

She was absent about six weeks, at the end of which time she returned home, looking worn and exhausted, yet relieved and cheerful. She found two letters from Cornelia awaiting her; the first one, after much preface, apology and explanation, announced the fact that a suit for divorce had been filed in Northumberland, in all respects very acceptable to her parents, had presented himself to Cornelia, and that, but for the mutual pledge existing between herself and Marguerite, she might be induced to please her parents by listening to his addresses, and to leave her father and had given offense to Marguerite. This last was a long, sentimental epistle, declaring firstly, that she, Cornelia, would not break her "rash" promise to Marguerite, but pleading the wishes of her parents, the approbation of her friends, the merits of her suit, and a short everything except the true and governing motive, her own inclinations.

Miss De Lencie read this second letter with impatience; at the close thereof it into the fire; drew her writing-desk toward her, took pen and paper, and answered both long epistles in one, a miracle of brevity, and dear Nellie! —Marguerite, and sealed and sent it off.

Apparently, Cornelia did not find this answer as clear as it was brief. She wrote in reply a long, heroic epistle of eight pages, announcing her willingness to sacrifice her parents' wishes, and her friends' approval, her lover's happiness, and her own peace of mind, all to fidelity and Marguerite, if the latter required the offering!

Marguerite read this letter with more impatience than the others, and drawing a sheet of paper before her, wrote, "Nellie! Do as you like, else I'll make you —Marguerite."

In two weeks back came the answer, a pleading, crying letter, of twelve pages, the pith of which was that Nellie would do only as Marguerite liked, and that she wanted more explicit directions. "Pish! tush! pshaw!" exclaimed Miss De Lencie, tapping her foot with impatience, as she read page after page of all this twaddle, and finally casting the whole into the fire, she took her pen and wrote, "Cornelia! marry Colonel Houston forthwith before I compel you —Marguerite."

before the little bride, with a mixture of childish petulance and envy and genuine admiration, raised her eyes to the beautiful brow of her partner, and said: "Ah! how stately, how radiant you are, Marguerite! But how shall I look, poor, insignificant, little, fady pigmy, my very bridegroom will be ashamed of his choice, seen by the side of the magnificent Miss De Lencie!" (To be continued.)

And sealed and despatched the letter. This brought Nellie down in person to Plover's Point, where by dint of caressing and coaxing, and weeping, she prevailed with Marguerite, who at last exclaimed: "Well, well! go home and prepare for your wedding, Nellie! I'll come and assist at the feast."

The bride of the only daughter of the Comptons was naturally an event of great importance, and consequently, of much parade. The bride-elect was in favor of being married in the most approved modern style, having in person gone to Europe, and seen the ceremony performed at ten in the morning, and starting immediately upon a wedding tour. But Colonel and Mrs. Compton had some strong, old-fashioned predilections, and decided to have the time-honored, old style of marriage party in the evening. And accordingly preparations were made upon the grandest scale to do honor to the nuptials of their only child.

Marguerite De Lencie arrived upon the evening previous to the wedding, and was most cordially welcomed by the family, she was carried off immediately by Cornelia to her chamber for a toilette. "Well, my little incapable!" Marguerite said, as soon as she was seated, "now tell me about your bridegroom! Long ago, you know, we divided the present generation of men into two classes—monsters and imbeciles; to which does your fiancee belong?"

"You shall see and judge for yourself, Marguerite! To neither, I think."

"Oh, of course, you think! Well, who are to be your bridesmaids?"

"The Misses Davidson and yourself, dear Marguerite, since you were so kind as to promise."

"So weak, you mean! And who are to be the groomsmen?"

Miss De Lencie took up the letter and re-read it, with comments as: "I jealous of her lover! truly! I preside over her marriage! Come, I must answer that!" And drawing writing materials before her, she wrote, briefly as first, "you little imbecile—Marguerite."

THE HAMILTON TIMES

WEDNESDAY, JUNE 3, 1908.

WHAT SAYS HIS RECORD?

It is a somewhat startling doctrine that the man elected as a Government supporter ceases to have a mind and will of his own from the day when he endorses the policy of the Government.

Hon. Mr. Hendrie has yielded slavish obedience to the Whitney machine even when manly self-respect and the welfare of his constituents had to be sacrificed in the yielding.

And Hon. Mr. Hendrie never squealed a squeal. Why should he court unpopularity with the giver of favors merely to protect the workman, assert a principle, or defend his own self-respect?

And the Spectator says Hon. Mr. Hendrie has no reason to be ashamed of that infamous prison labor contract!

IS IT TOO WET?

Mr. W. L. Mackenzie King has been appointed to inquire into the condition of the textile industry in Canada. This is consequent upon the recent strike at Valleyfield, caused by a reduction of 10 per cent. in the employees' wages.

A recent review of the subject, by a Montreal correspondent of Saturday Night, sheds some light upon the situation. It points out some things which inquiring commissioners would discover.

In the first place they would discover in the Dominion Textile Company a preferred stock and bond issue amounting to \$5,228,000, and that this sum equals within half a million the total stock issue of the four corporations which went to make up the merger.

Some of the apologists for that \$130,000 La Rose deal, by which Hon. Mr. Cochrane's brother-in-law was benefited, speak as if they thought the matter too trivial to be mentioned.

According to that statement, the gentlemen who operated this textile merger seem to have a pretty good thing of it. Compared with the average business man, not to mention the scantily paid workman, they are living in clover, and could well afford to forbear complaining of a little while's slackness.

In the year 1907 the Dominion Textile Company earned net \$898,400, after writing off upwards of \$200,000 for repairs and betterments, a grand total of a good deal over a million dollars.

Everybody will be willing to admit that the astute gentlemen who formed this big combine should receive generous returns for their investment. But they are not the only ones to be considered.

The Toronto News is determined not to allow any mere question of facts to stand in the way of its glorification of Whitney. It declares that Whitney has increased "by nearly one-half its grants to agricultural purposes."

speaks us just that way. If he will only not steal useful boards belonging to Mrs. Hoodless, Hon. Geo. W. Ross and others, he may splash about with our best wishes till Monday next.

A contemporary sneers at A. G. MacKay, the Liberal leader, as being "a country lawyer." That reminds us that, when the Toronto Telegram was giving its candid opinion of Hon. Mr. Whitney's ability, it said: "One can throw a brick through any country lawyer's office window and hit a more capable man for Premier than Mr. Whitney."

Mayor Stewart is quite sure that there is one capable and honest man in the Council, but he can't touch for any more. The one righteous one is covered by His Worship's plug. He thinks that as a 20 to 1 shot he is perfection, hence the people should get out and drive the aldermen into that tricky power deal. His Worship's estimation of Mayor Stewart is superb.

The Toronto News is determined not to allow any mere question of facts to stand in the way of its glorification of Whitney. It declares that Whitney has increased "by nearly one-half its grants to agricultural purposes."

speaking at Owen Sound, his own town—before four thousand people last evening, Hon. A. G. MacKay declared that "two-thirds of the Liberal candidates in the Province were hopeful of victory, and he thought if no unfair influences were brought to bear, over 50 per cent. of the Liberals would be victorious."

The Toronto World concedes East Hamilton to the Opposition. There is a surprise coming to the World on Monday evening next—Hamilton Spectator.

The World will make the bosses angry if it tells the truth too plainly. But it is not the only one that has come to that conclusion. Already the Tory workers are saying that there is not a ghost of a chance for Scott, without a "ful distribution of the 'influence.'" And the West Hamilton machine fears it will need more than the usual supply of grease, too.

The Liberals of Halton are meeting with great encouragement in this campaign. Mr. R. D. Warren is conducting a vigorous campaign, and has in the work the hearty co-operation of many Liberal stalwarts of the riding who have not in recent years taken such an active interest in political affairs.

Heralding John A. Cooper, editor of the Canadian Courier, as a practical printer, makes us laugh. Cooper doesn't know the difference between a ten point roller and a piec feed board.

But Mr. Cooper was regarded by Premier Whitney as amply qualified to be the practical man of the School Book Commission. Mr. Cooper's offence seems to have been that he would not use his knowledge of books to wilfully deceive the people, but has warned them that the prices of Whitney's new books will be as high, or higher, than the old.

The Tory rally at Britannia rink last evening was a rather depressing affair. There was a poor turnout out of the faithful, even if it was a fine evening. Free school books and a Technical College were trotted out by Mr. Scott and Mr. Hendrie, who evidently believe that the people can be bribed in some way to overlook that "last awful week" and vote for them.

The Toronto Telegram is exceedingly angry because Hamilton is not eager to contract with the Hydro-Electric Company to pay 10 per cent. more for power than the city needs to pay, just to help to cheapen power for Toronto. It declares: Hamilton has only to spend \$220,000 and make a contract for 1,500 horse-power from the Hydro-Electric Commission and secure all that Toronto gains in return for an expenditure of \$2,300,000 and a contract for 10,000 horse-power.

Hamilton has only to invest \$220,000 and make a contract for 1,500 horse-power to secure permanent protection against the exactions of private ownership.

But why should Hamilton invest even \$220,000 of the ratepayers' money in order to buy dearer power than it is guaranteed under "the exactions of private ownership"? Wouldn't the alderman who voted to put such a burden on the ratepayers be fairly regarded as a fool or a knave?

Buller and Cameron. (Toronto Telegram.) A Roberts or a Kitchener might be first in war, but Buller was first in the hearts of his countrymen. He must have had great qualities that appealed powerfully to the private soldier.

The senior local Tory organ affects to believe that the Liberals "are very much annoyed" because Scott has a "platform." Why, bless your soul, we're really tickled over it! Did the organ ever see a small boy in flood time fastening together scraps of driftwood and playing at "rafting"? Well, Scott

It seems "he must be paid by the purchaser," "a commission on every article of that kind disposed of for no other reason than that he is considered by the Conservative executive as entitled to "something of what is going."

Mr. Foster's Bad Taste. (Halifax Chronicle.) Mr. George Eulas Foster, paripatetic politician, presently representing North Toronto, says that he is bound to respect his position in the House of Commons. If Mr. Foster had a proper appreciation of his position as a member of the House he would have relieved himself of the burden of his presence after he was discovered utilizing his position as manager of the Union Trust Company, the custodian of the funds of widows and orphans, for his own personal benefit. That's just the trouble with Mr. Foster, he doesn't know how to respect his position as a member of Parliament.

FRASER TO STAND. Says New Election Law Makes Nomination Legal. (Special Despatch to the Times.) St. Catharines, June 3.—At the Conservative meeting held in Thorold last evening Evan K. Fraser, the Conservative candidate, claimed that his nomination on Monday was quite regular and legal. He said that the Liberals' protest was entered under the old Ontario Elections Act, and that evidently H. R. Morrison, the Liberal lawyer, who entered the protest, was not conversant with the amendment made at the last session of the Legislature, which requires that the nomination shall be open from 12 o'clock until 2 p. m., and provides that such technicalities as that under which the protest has been filed shall not void the nomination.

Geo. W. Sutherland, the Liberal candidate, will speak in Thorold to-night, and considerable interest attaches to what he will probably say in the matter.

BABY BOY HAD ITCHING HUMOR Which Broke Out in Different Places—Nothing Would Help Him—Mother Almost in Despair—Skin Quickly Healed Without a Scar and Trouble Has Never Returned

SINCE USING CUTICURA MOTHER GIVES IT PRAISE "Several months ago, my little boy, now two and a half years old, began to break out with itching sores. I tried to get a doctor for him, and as soon as I got them headed up in one place, another would break out in another. I was almost in despair. I could not get anything that would help him. One evening I read a testimonial from a lady who had cured her little boy with Cuticura. I began to use the Cuticura Soap and Cuticura Ointment, and after using them three times, the sores completely disappeared. Now well and not a scar is left on his body. They have never returned nor left him with bad blood, as one would think. Cuticura Remedies are the best I have ever tried, and they are surely great. I shall always have them in the house, when necessary, by mild doses of Cuticura to anyone who is suffering likewise. I cannot give them too much praise. Write to Wm. L. Cuticura, 109 Washington St., Attica, Ind., July 22, 1907."

ITCHING TORMENTS From little patches of eczema, better, more crust, psoriasis, etc., on the skin, scalp, or hands of infants, children, or adults are instantly relieved and speedily cured, in the majority of cases, by warm baths with Cuticura Soap and gentle anointments with Cuticura Ointment, the great Skin Cure, assisted, when necessary, by mild doses of Cuticura Resolvent, Cuticura Remedies are guaranteed absolutely pure.

Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Heal the Skin, Cuticura Resolvent in the form of Chocolate Casted Pills, in cases of itchy blood. Sent throughout the world. Foster Drug & Chem. Corp., Boston, U.S.A.

Morrison, the Liberal lawyer, who entered the protest, was not conversant with the amendment made at the last session of the Legislature, which requires that the nomination shall be open from 12 o'clock until 2 p. m., and provides that such technicalities as that under which the protest has been filed shall not void the nomination.

Geo. W. Sutherland, the Liberal candidate, will speak in Thorold to-night, and considerable interest attaches to what he will probably say in the matter.

BABY BOY HAD ITCHING HUMOR Which Broke Out in Different Places—Nothing Would Help Him—Mother Almost in Despair—Skin Quickly Healed Without a Scar and Trouble Has Never Returned

SINCE USING CUTICURA MOTHER GIVES IT PRAISE "Several months ago, my little boy, now two and a half years old, began to break out with itching sores. I tried to get a doctor for him, and as soon as I got them headed up in one place, another would break out in another. I was almost in despair. I could not get anything that would help him. One evening I read a testimonial from a lady who had cured her little boy with Cuticura. I began to use the Cuticura Soap and Cuticura Ointment, and after using them three times, the sores completely disappeared. Now well and not a scar is left on his body. They have never returned nor left him with bad blood, as one would think. Cuticura Remedies are the best I have ever tried, and they are surely great. I shall always have them in the house, when necessary, by mild doses of Cuticura to anyone who is suffering likewise. I cannot give them too much praise. Write to Wm. L. Cuticura, 109 Washington St., Attica, Ind., July 22, 1907."

ITCHING TORMENTS From little patches of eczema, better, more crust, psoriasis, etc., on the skin, scalp, or hands of infants, children, or adults are instantly relieved and speedily cured, in the majority of cases, by warm baths with Cuticura Soap and gentle anointments with Cuticura Ointment, the great Skin Cure, assisted, when necessary, by mild doses of Cuticura Resolvent, Cuticura Remedies are guaranteed absolutely pure.

Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Heal the Skin, Cuticura Resolvent in the form of Chocolate Casted Pills, in cases of itchy blood. Sent throughout the world. Foster Drug & Chem. Corp., Boston, U.S.A.

Washed Free. Cuticura Soap & Chem. Corp., Boston, U.S.A.

WILLIAM M'NAB NOW PRESIDENT.

IMPORTANT OFFICE COMES TO GRAND TRUNK MAN.

Elected to the Chief Office of the American Railway Engineering and Maintenance of Way Association.

Mr. William McNab, principal assistant engineer of the Grand Trunk Railway System, succeeds the late Mr. Walter G. Berg, as President of the American Railway Engineering and Maintenance of Way Association.

This organization, the most useful to railway engineers and the most representative of its kind in the world, was formed in 1898, its object being the advancement of knowledge pertaining to the scientific and economical location, construction, operation and maintenance of railways.

It has a membership of upwards of 700, representing approximately 200,000 miles of railway, and is nominally American, it has amongst its members, engineers resident in Canada, Great Britain, Continental Europe, Japan, Mexico, and the Central and South American Republics.

The membership embraces civil engineers, mechanical engineers, electrical engineers and architects, actively in charge of railway work, connected with construction and maintenance of way and structures; Professors of engineering in colleges; and in general railway officials responsible for and having supervision of railway construction and maintenance.

The usefulness and work of the Association is carried on through a series of standing committees who report to the Association in annual convention. These reports, after having been passed by the committees respectively are subjected to a most minute and critical, but enthusiastic discussion by the membership generally, the outcome of which is invaluable. The completeness with which railway construction and maintenance matters are covered and under the consideration of this Association will be realized when it is understood that there is a standing committee for each of the following subjects: Economics of railway location; roadway; iron and steel structure; wooden bridges and trestles; rail; wood preservation, water service; signaling and interlocking; masonry; buildings; yards and terminals; ties; track; ballasting; signs; fences; crossings and cattleguards; uniform rules; uniform general contract forms; records; reports and accounts.

The recommendations of the Association, brought about through discussion of the reports of these various committees, have now been accepted as standards on many roads; and its annual publications are used as works of reference, not only in almost every railway engineering office, but as text books in many colleges and universities; The "Manual of Recommended Practice," is

used annually by the Association as the result of the combined study, researches, interchange of views and experience of men eminent in the several departments of railway engineering, and is unquestionably looked upon as the standard for guidance in a sense that no work prepared by engineers in private practice can be.

Mr. McNab has the honor of being the first member resident outside of the United States to hold the office of President. He is a charter member and was vice-chairman of the first committee on graduation (since called roadway), of which he afterwards became chairman. It was during Mr. McNab's direction of this committee that the particular specifications for construction of roadway were adopted, which are now standard on many of the principal railways. In 1904 the Board of Direction recognizing the eminent service Mr. McNab had rendered, appointed him chairman of a new committee, to be known as the Economics of Railway Location. In March, 1905, he was elected a member of the Board of Directors; in March, 1907, Second Vice-President; in March, 1908, he became First Vice-President; and on May 11th last, through Mr. Berg's death, he became President.

The Presidency of the American Railway Engineering and Maintenance of Way Association carries with it a high and influential standing among the railway engineers of this continent, and the Grand Trunk Railway System is honored by the fact of one of its officers being the chief executive of an organization of such universal import. In this connection it is noteworthy that another Grand Trunk official, Mr. Howard G. Kelley, its chief engineer, to whom Mr. McNab is principal assistant, held this office for two years, viz., in 1905 and 1906. Mr. Kelley at that time was chief engineer of the Minneapolis & St. Louis Railway, as well as of the Iowa Central Railway, and had been and is still an enthusiastic member and worker in the association. Last year Mr. Kelley accepted the chief engineering of the Grand Trunk Railway System, and it is somewhat remarkable coincidence now, that as both he and Mr. McNab are Grand Trunk men, only little over a year has elapsed between Mr. Kelley's term as president and that of Mr. McNab.

BOYS' HOME DONATIONS. The Managing Committee of the Boys' Home acknowledge with thanks donations from the following kind friends: Mr. Thos. Upton, pair of jam; Miss James, jam, 5 bottles; Miss Rennie, \$5; Mrs. H. B. Witton, Sunday dinner; Mrs. Aussem, quantity of cakes; Mrs. D. Semi-Annual Meeting Was Held Yesterday Afternoon.

The half yearly meeting of the Young Women's Christian Association was held on Tuesday afternoon in the lecture hall of the Centenary Church. A short business meeting of the Board of Directors was held before the meeting, at which it was decided to use the large room at the north end branch for a gymnasium class next winter. The president, Mrs. Wolfkill, occupied the chair. Miss Cartmill opened the meeting with devotional exercises. The report of the treasurer was read, also that of the general secretary, touching on the good work done in all branches, especially the shirtwaist class. The Fancy Work and Glee Club reports were very satisfactory.

The association entertained the young girls of many of the factories and hoped in the coming winter, if the accommodation was given, to extend that work until each factory in the city had been brought in touch with the work of the Y. W. C. A. The report from the Sunday afternoon meetings showed that a very pleasant and profitable hour was spent by those who attend. The report from the Stuart street branch showed good work done there through the winter. Dr. Bagshaw read the gymnasium report which showed satisfactory results.

Mrs. Wolfkill spoke on the new building. Through the untiring efforts of the ladies \$7,000 had been collected this spring. Only \$1,200 more is needed which the association is anxious to collect before the holiday season.

Mrs. S. H. Alexander spoke about the kind way in which the collectors had been working. Mrs. J. J. Jordan and Mrs. R. E. Gallagher also spoke a few words about the new building.

Miss G. Marshall contributed to the musical portion of the programme.

KILLED BY ENGINE. (Special Despatch to the Times.) Ottawa, June 3.—William Ryan, of Almonte, is dead there from injuries received through being struck by a locomotive. He had resided there many years.

CONGO TREATY. Brussels, June 3.—It is reported here that the Congo annexation treaty will be accepted by France, provided that certain modifications are made relative to the Franco-Belgium Congo frontier, and a reduction is made in railroad freights for goods entering and leaving the French Congo.

THE KIND OF IMMIGRANTS CANADA NEEDS AT PRESENT.

The illustrated London weekly, Canada, in the first of a series of articles on "Canada for Englishmen," says: It is true—and it cannot be too widely known—that the demand for skilled mechanics, except in certain lines, is strictly limited in the more settled parts.

For clerks, stenographers, bookkeepers, and some professional occupations, there is practically no demand. The market is overstocked. It would be wise for such to have definite offers of employment before leaving. In the Western provinces, on the other hand, there is an almost boundless extent of most fertile land waiting to be settled, into which the Americans—i. e., the inhabitants of the United States, generally dubbed "Yankees," as opposed to "Britishers"—are pouring all the time.

These, however, are principally, if not entirely, of the farming class. Here there are homes for all. Immigrants can always find work on the land for a year or two, learn the habits and methods of the country, and finally take up a lot of their own and become prosperous landowners; which is the most sensible course for all prospective farmers to pursue.

Mr. and Mrs. Martin leave on the evening train for points east. On their return they will reside at 31 Markland. They carry with them the best wishes of their many friends.

Mrs. Pascoe, wife of Rev. W. S. Pascoe, D. D., died yesterday after a lingering illness of over two and a half years. The funeral will be strictly private, interment taking place on Friday at St. Thomas.

The funeral of Mrs. Margaret Davis took place yesterday afternoon at 2:30 o'clock from her late residence, Stoney Creek, to Stoney Creek Cemetery, and was very largely attended. Rev. Dr. Clark officiated at the house and grave. The pallbearers were three sons, John Arthur, Joseph H., and Robert R., three sons-in-law, James A. Grainger, H. J. Martineau, and Robert A. Ingles. The floral offerings were: Pillow, family, Mr. Piott and employees at the basket works; nieces, Mr. and Mrs. Dunham, Dr. Thompson and family, Mr. and Mrs. J. H. Lottridge, Mr. and Mrs. W. Bates, Dr. and Mrs. Jones, Mount Hope, Mrs. Jones and daughter Emma, and Mrs. H. Smith.

Following is a list of the floral offerings at the funeral of Fred J. Hurley, who was buried yesterday: Pillow, family; wreaths, wife, Mrs. Fee and family, employees of Brown, Boggs Co.; pillow, Charles Cox, Toronto; sprays, Miss Eva Coveny, Miss Buchanan, J. Hannah, Fred J. Staunton, Misses McDermott, Miss Burke (the late Mrs. K. Landers, Mr. and Mrs. Herb. Soper, J. Michael & Co.; cross, Mr. and Mrs. McDermott; sprig bouquets, Misses Minnie and Gussie Mooney, Mrs. Edgar Dean, Miss Katie Lane, W. H. Mullens, Mr. and Mrs. John Hunt.

The funeral of George Patterson took place this morning at 8:30 o'clock, from the residence of his sister, Mrs. Oliver Beatty, 501 James street north, to St. Lawrence Church, where requiem mass was chanted by Rev. Father Brady, who also officiated at the grave in Holy Sepulchre Cemetery. The pallbearers were Oliver Beatty, J. R. Walton, John Patterson, Arthur Walton, William Dunn and J. Dowling. The floral tributes were: Pillow, family; cross, Mr. and Mrs. William Dunn; harp, Sophie Hanley and George Patterson; crescent, Mrs. E. J. Dunn; sheaves of wheat, Mrs. Ainsborough, Mr. Jobborn; sprays, nieces and nephews, Mr. and Mrs. Hanley, Mr. and Mrs. Soden, Mr. and Mrs. John Anderson; sprig bouquet, Mr. and Mrs. A. Walton, and Irene Dunn.

The remains of William Balmer were laid to rest this afternoon at 3:30 o'clock, the funeral taking place from the residence of his brother-in-law, Thos. Lees, 231 Main street west. Rev. Dr. Lytle, assisted by Rev. S. B. Russell, conducted the services at the house and grave. The pallbearers were George Stephen, Thomas and William Lees, William White and W. McLaughlin.

Mrs. Marion Mabel Chapman, wife of Walter P. Chapman, resident engineer, Canadian Northern Railway, Toronto, passed away this morning at Burlington after a very short illness. Deceased was the second daughter of Hugh C. Baker, of this city. The funeral, which will be private, will take place to-morrow at Burlington.

ZAM-BUK ALWAYS ATTRACTS. The splendid window display of Zam-Buk made by Mr. J. W. Gerrie, the drugist, at his store, 32 James street north, during the last week, has attracted the attention of hundreds of passers by. The exhibit was well arranged and quite a number of boxes of this excellent remedy for cuts, bruises, burns, skin diseases and eczema were given a trial.

The curative qualities of this wonderful remedy have made it a household necessity. Have you tried it? See the pretty boxes still in the north window.

SENATORIAL RACE. Des Moines, Ia., June 3.—Returns early this morning from over 800 precincts show that Senator Allison has a lead over Governor Cummins in the contest for the Republican Senatorial nomination. The returns indicate that the result will be close.

JUNE WEDDINGS.

Pretty House Event at Home of Mrs. Cunningham.

A very dainty house wedding took place this afternoon at the residence of Mrs. A. Cunningham, when Miss Cassie Victoria, eldest daughter of Mrs. Cunningham, was united in marriage to Mr. Francis Martin, of the firm of Baby & Ecclestone. The ceremony was performed at the residence of the bride's mother, 150 Jackson street west, and was attended by about 30 guests. The bride entered the drawing room on the arm of her brother, C. J. Cunningham, to the strains of Mendelssohn's Wedding March played by Mrs. Vera Wilson Cunningham. The ceremony was performed by Rev. J. C. Sycamore, and immediately following it a solo was sung by Miss Cunningham, "Perfect Love," by Burleigh.

The drawing room was tastefully decorated with flowers and the bridal party stood under a large floral bell of pink and green. The color scheme was carried throughout the whole room. The bride was attended by her sister, Miss Cassie Cunningham, and the groom by his brother, Mr. Silas Martin. Master Gordon Cunningham, a nephew of the bride, was the ring boy.

The bride wore a rich gown of white lace over white silk trimmed with Duchesse satin, and carried a bridal bouquet. The bridesmaid wore a glistening gown of a princess costume of blue silk, trimmed with point d'esprit, and tan velvet.

The groom's gift to the bride was a diamond pendant, to the bridesmaid a gold locket, engraved, and to the bridesman a pair of cuff links.

A dainty wedding breakfast was served in the dining room, where the usual toasts to the bride and groom were responded to.

Mr. and Mrs. Martin leave on the evening train for points east. On their return they will reside at 31 Markland. They carry with them the best wishes of their many friends.

MATHEWS-BARCHARD. Owing to illness in the bride's family the marriage of Mr. Joseph Bickford Mathews, son of Mr. and Mrs. George Mathews, formerly of this city, and Edith, second daughter to Mr. and Mrs. W. J. Barchard, was a very quiet one. The ceremony took place at eleven o'clock at St. John's Church, Norway.

The bridegroom has attended for some years, and the bridal party drove down from Parkdale. The pastor, the Rev. Baynes Reed, officiated, and Mr. Barchard gave his daughter away. The bride's sister, Miss Florence Barchard, was bridesmaid, and her brother, Mr. Frank Lloyd Barchard, the groomsmen. The bride wore her traveling suit of tan tulle and shaded corn flowers, with a touch of sapphire blue velvet on the crown. She carried white carnations, while the bride's bouquet was a shower of white roses and lilies of the valley. There was no reception. Mr. and Mrs. Mathews were married in the East.

M'DERMOTT-MARKS. A very pleasant event took place this afternoon at the parsonage of Rev. Rev. E. Ketchen, when Mr. John McDermott was united in marriage to Miss M. Marks, of Stratford. The bride's gown was a blue travelling suit, and white pillow hat, and she carried a bouquet of lilies of the valley. She was assisted by the groom's sister, Mrs. W. March, who carried pink carnations. Mr. W. McDonald acted as the ring boy.

After a short sojourn at the home of the groom, 86 Park street north, the happy couple will leave for a trip west, with the best wishes of their many friends.

RAPLEY-HULME. Belleville, Ont., June 3.—(Special)—A very fashionable wedding occurred here at 11 o'clock this morning in St. Thomas' Church, when Sydney Cannon Rapley, accountant of the Merchants Bank, Hamilton, was united in marriage with Eileen E. Hulme, only daughter of the late Col. R. C. Hulme. Rev. Mr. Madill, Toronto, performed the ceremony. The bride was given away by her brother, Stanley, of the Bank of Montreal, Montreal. Mrs. Rapley, the mother of the groom, was dressed in a beautiful lace gown. The presents were most numerous, the Rapley family sending a cabinet of sterling silver. Mr. Magee, manager of the bank at Hamilton, sent a beautiful reading lamp, while the staff sent numerous presents. The bridal party left on the noon train for their future home in Hamilton.

A very pretty wedding took place at Ottawa yesterday, when Miss Margaret Malloch, youngest daughter of the late Dr. E. Malloch, was married to Mr. Charles Kenneth Graham, youngest son of Dr. Graham, of Hull, at the residence of Mrs. E. Elery Lord, of Hull, aunt of the bride. The ceremony was performed by the Rev. Dr. Herridge. The bridesmaid, Miss Daisy Chrysler, wore a pretty gown of green hat, and carried a bouquet of green and white. Mr. Harry Christie, and the ushers were Mr. Montague Bate, Mr. Herbert Chambers, Mr. Ormond Haycock and Mr. Lyman Ray. After the ceremony a reception was held. Mr. and Mrs. Graham have left for Montreal and Quebec, en route for the Lower St. Lawrence.

KILLED TWO. Vigneux, June 3.—Twelve gendarmes while attempting to arrest a striker here were surrounded by 200 workmen.

Believing that they were in danger of their lives, the gendarmes used their weapons. Reinforcements to both parties soon reached the scene, and in the fight with revolvers which ensued two of the workmen were killed and six wounded. Four gendarmes were wounded.

Stock Broker Arrested. Montreal, June 2.—A. W. Boschen, stock broker, has been arrested this morning he appeared before the Sheriff on a capias issued at the instance of Seattle & Company, who claim the sum of \$25,000 damages for summary dismissal as his correspondents. The debtor holds, on the other hand, that the dealings between him and Seattle & Co., to the extent of about \$30,000, have all been closed, and that, anyhow, he can establish a counterclaim. Boschen was bailed.

Big Claim for Land. Montreal, June 2.—In the Superior Court this morning Mr. Justice Charbonneau gave judgment in the case of the Poirier family, in which they claimed from the city of Montreal that portion of Mount Royal Park known as "Fletcher's Field." The action of the Poirier family was dismissed. The land at stake was valued at \$600,000.

THE CENTRAL PRISON LABOR Something For Hamilton Workingmen to Read and Ponder Over.

(Brookville Recorder). The Central Prison contracts made by the Whitney Government are the subject of a considerable amount of discussion at the present time.

Let it be borne in mind, to begin with that these contracts were made without tender, that no action of the kind was obligatory on the part of the Government, which was departing from the policy announced by the late Government, and that their duration is for five years.

One contract, that for woodenware, expires on the first of September, 1910, and the other contract, that for binder twine, on the first of November, in the same year. Consequently they have both considerably more than two years yet to run, and this amount of time must expire before they can be done away with, and a different system put into operation.

The Ross Government had been operating the woodenware department on the "public account" system; that is, by the Government, and was disposing of the product in a manner to satisfy both capital and labor outside the prison. This system was changed by Mr. Hanna, who made a contract with Ellen Charlotte Taylor, trading under the name of Taylor, Scott & Company, by which she was given the use of the prison premises, railway facilities, steam plant, existing machinery, etc., and was to pay the Government the following prices:

- 1. For the making of zinc, glass, and enamel washboards, eight cents per dozen.
2. Wood washboards, known as the 17-inch dovetail, made all wood, six cents per dozen.
3. Double washboards, i. e. with rubbing surface on both sides, eleven cents per dozen.
4. Step-ladders at the rate of half a cent per foot.
5. Broom handles, any length up to 50 inches, at one dollar per thousand.
6. Flooring, 50 cents per thousand feet lumber measure.
7. Window screens, small, four cents per dozen.
8. Window screens, medium, five cents per dozen.
9. Window screens, large, six cents per dozen.
10. Butter moulds, one inch square, eleven cents per dozen.
11. Clothes pins, ever ready, 7 1/2 cents per gross box.
12. Clothes pins, best, five cents per gross box.
13. Toy and handy washboards, six cents per dozen.
14. Self-wringing mops, ten cents per dozen.
15. Diamond nops, one cent per dozen.
16. Ash sifters, six cents per dozen.
17. Broom racks, 75 cents per dozen.
18. Egg carriers, one dozen size, 20 cents per dozen.
19. Egg carriers, ten dozen size, 30 cents per dozen.
20. Brush blocks, 35 cents per thousand.

The contractor guarantees that the above prices will bring a revenue to the Government of three cents per hour of each prisoner employed thereon.

It is further agreed that should the work done amount to more than four cents per hour, the excess over the said four cents is to be refunded to the company by the Government. Adjustments of the account between the Government and the company are to be made every six months on the average of such periods.

It is to be borne in mind that the above contract was made in a rising labor market, when wages had greatly advanced, and men were hard to get. But thirty cents a day was not by any means all the advantages which the contractor received.

In addition to Charlotte Taylor getting convict labor at 30 cents per day, the Government gives the private contractor the free use of the buildings and plant; it agrees to pay \$450 a year toward the salary of a machinist, to pay the salaries of the guards and janitors to run the shops; to give free lighting and heating, as well as the use of storage warehouses, two-storey factory with hoist, boilers, engines, dry kilns, machinery, lathes, planers, saws, etc., lumber yard to store 500,000 feet of lumber, tracks, sidings, switches, belt-line shafting, etc.

The late Government, it will be remembered, had done away with the woodenware contract, and was doing the manufacturing itself, but when it did do this work on the contract plan the contractor paid 50 cents per day for the labor of the convict and contributed an additional \$6,500 toward the general expenses.

A comparison of the two contracts is thus easily made.

The cordage contract gives similar advantages to the contractor that the one for woodenware does, but the price of prison labor is fixed at 50 cents per diem. Why 50 cents in the one case and 30 cents in the other, seeing that the hands employed in binder twine manufacturing usually receive smaller pay than those employed in the manufacture of woodenware?

The workmen of Brookville are greatly interested in these contracts because they come in competition with lines of industry carried on in this town, and it is not surprising that they have met with a storm of indignation.

The Government, in response to public clamor, has been compelled to announce a change of policy, but this change cannot take place for more than two years, and in any event for five years a great injustice must be done free capital and free labor.

A Government which contracts prison labor at 30 cents per diem well deserves defeat.

While much is heard of what the Whitney Government has accomplished, there is failure to mention many things promised which have not been carried out. The broken pledges would include the abolition of the offices of Minister of Public Works, and Superintendent of Forestry, the labelling of prison-made goods, and the following:

The use in the public schools, and the churches if need be, of the public accounts, in order that the masses may be informed on financial affairs. The public accounts is just now the last document the Government could wish the people to peruse.

The imposition of an equitable tax upon the railway, telephone, and telegraph companies. The Petypiece bill was approved in principle, if not in detail, but the Government has decided to continue the policy of the old Government.

A bonus or bounty to the farmers engaged in the cultivation of sugar beets. The proposal was made in the House by the Conservative party in 1891, but it has not yet been acted upon.

The adaptation of a two-cent passenger fare on railways which may be subsidized by the province. If the Government favors such a policy, it has had a splendid chance to apply it on the Temiskaming & Northern Ontario Railway, but it has failed to do so.

A series of agricultural schools in the province. "The Conservative party," said Mr. Whitney at a great meeting in Toronto, "will never rest satisfied till there is more than one and more than four or five agricultural schools in Ontario." Since office was assumed this pledge has been conveniently forgotten.

A change in the law by which clergymen moving from one appointment to another after the voters' list has been revised may not be disfranchised. "I say," Mr. Whitney asserted on one occasion, "if this matter can be remedied." He? By the change of government. And since this has taken place the subject has been dropped.

The public schools, where 95 per cent of the children get their education, were to be remodelled and very much improved. Along these lines how much has been done?

The succession duties were excessive and should be cut down by at least one-half. This promise has gone with the others, and the "robbery of the dead" and "confiscation" continue.

There was to be a measure of law reform in the interest of the poor man. Has it become sidetracked?

The honor license laws were to be taken out of politics. Have they been? Has the investigation in the city of Toronto been the conclusive answer?

The doing away of the taxes on corporations. So far from this being the case, the taxation has been increased.

The list might be largely added, but sufficient has been shown to indicate the readiness with which some people can forget in office pledges made while in opposition.

Mr. John Leadham, of New Toronto, spent the holidays with friends here.

Mr. and Mrs. C. Smith, of Brantford, were in town on the 25th, attending the ball tournament and the supper in the evening.

Mr. and Mrs. C. Riddle, of Hamilton, have moved into the village.

Mr. J. Berry, of Hamilton, spent Sunday with his family here.

Mrs. B. J. Shaver, of Brantford, spent the holidays with friends here.

Mrs. F. Gage, of Bartonville, spent a few days this week the guest of her parents here.

Mr. and Mrs. C. Vrooman, of Brantford, were in the village on Thursday.

The death occurred on last Wednesday of an old and very highly respected resident of this community in the person of Mr. Daniel Manning, who passed peacefully away after a short illness at his late home. The deceased, who

was widely known, having lived on the farm where he died all his life, was in his 68th year. He will be greatly missed by all. He bequeathed family have the sympathy of the whole community in the sad loss they have sustained. The funeral took place on Friday to the Baptist Cemetery, where a large concourse of friends and relatives had gathered to show their last respects to the departed. Rev. Mr. Hawkins conducted the funeral service at the house and grave.

Victoria Day was a red letter day for the village. Large crowds began to gather early in the afternoon for the football tournament and other games, which were a success. In the evening a social was held, and was largely attended.

The marriage of Mr. Carl Hunter and Miss Ethelwyn Hunter, daughter of Mr. Byron E. Walker, General Manager of the Canadian Bank of Commerce, and Mrs. Walker, 99 St. George street, was very quietly solemnized at St. Andrew's Church yesterday afternoon. The Rev. Crawford Brown, pastor, officiated.

Thursday Bargains

The Thursday bargains for this week will be of an unusually interesting nature. The season has been a backward one all over the country, and, although this store's sales for the past month show an immense business, still we find ourselves overstocked in many lines, consequently these clearing prices for to-morrow—Thursday Bargain Day.

# RIVALS SPEAK IN THE EAST.

Small Crowd to Hear Scott and Matheson.

Labor Party Gathering in the Ball Park.

McClellent Has the Respect of All.

The "grand Conservative rally" in Britannia Park last night was a pretty tame affair. Less than two hundred people were present when John Hoodless mounted the platform and got things under way. A few stragglers wandered in later on, but considering that Colonel Matheson, the Provincial Treasurer, was billed as one of the big attractions, and both the candidates were to speak, the audience was not what one would expect and with election day within hailing distance. Nor did the crowd bubble with enthusiasm. It was not until after J. J. Scott, the candidate in East Hamilton had spoken that the audience thawed out.

John Hoodless, his face beaming like the noon-day sun, presided. He started the ball rolling with a humorous story, worked in another a minute later and tried a third before his auditors permitted their features to wrinkle. "Men of high ideals, splendid character, sacrificing, noble men." This was the manner in which Mr. Hoodless gushed over the entire Whitney Government, and he expected no one, not even the man from Manitoulin.

Chairman Hoodless and Candidate Scott occupied front seats. Johnnie Milne and some of the other "big noises" were in the rear row.

Mr. Scott was mildly applauded as he stepped up to the firing line. If Mr. Scott is one thing, he is an optimist. "If this meeting is any augury," he said, "I am perfectly sure that we are going to have successful results on Monday next."

He defended the three-fifths clause because, he said, other English-speaking countries had it. The technical college skeleton, which Mr. Scott always rattled with the greatest regularity, when the opportunity presents itself, was trotted out again. The Times charged him with bribing the electors in this matter. If advocating the college was bribery he would continue advocating.

The province's finances were in such good shape that it was only a matter of a short time before the schools would have free books, and then there would be no necessity of collecting school fees. "It seems to me it is rather a small matter." This was the way Mr. Scott referred to the prison labor contract. Not many men could be kept out of work because of the prison labor contract, making prison-made goods. Mr. Scott doubted if the washboards and step-ladders exhibited by the Liberal candidates ever saw the inside of Central Prison. In any event, when the present contract was at an end there would be no more.

Mr. Scott is an awful wag; to wit, his little joke about his unpopularity which he sprang on his home-coming. The Times' prediction that he would be snowed under on Monday next tickled him, so he said, "The Times says I will be elected. That is a sure sign I will be."

Replying to the attack on him over his silence on the power question, Mr. Scott said he was behind the Premier and would vote with the Government on every measure.

Although Premier Whitney when he spoke here assured that the Government was merely looking on in the power question, the local Tory bosses persist in bucking over the traces and making it a political issue. Mr. Hoodless took a whirl at it last night.

Colonel Hendrie, when he began speaking, succeeded in drawing the first cheer heard during the evening. His address was a repetition of the speech he addressed at the nominations on Monday. He repeated his statement that the Normal College deal was not a matter to make such a noise about, and defended the Government's action in this matter, making the same explanations as he did on Monday.

The chairman got the crowd to give three cheers for Col. Matheson, who spoke for an hour in defence of the C. N. R. deal, the famous La Rose mine case, and other matters on which the Government had been attacked. It was the same old material, which has done duty throughout the campaign, hashed over.

Col. Matheson tried to square the Government on the Normal College deal, making the same defence as Col. Hendrie, and telling the audience he must better the Normal School was for Hamilton. The explanation was received with rather significant silence.

Before he closed Mr. Matheson jollied the crowd about making any promise or committing himself in any way. George Lynch-Staunton took a shot at the Technical College question, but was held by Col. Matheson. Premier Whitney, he said, was an honest man, a man of his word. So was Col. Matheson. "They have not told us plainly that we can have the college," said Mr. Staunton, "but a man with one eye can see that it is ours."

The rest of the time he devoted to an attack on Hon. A. G. MacKay.

ing against Hon. J. J. Foy in Toronto, gave an interesting address on the faults of the gerrymander, referring particularly to Toronto.

Mr. Studholme spoke for an hour, dealing with various measures that had been passed by the Government during the time he had been in the House. He spoke of Mr. Scott as "the meanest man he knew," and a few other epithets that were not at all complimentary. He reviewed the course of the Government in regard to the immigration policy, the finances and the Hydro-electric policy. Very little was said about the Liberal candidate, Mr. McClellent, it being held by the speakers that there was nothing against him.

The meeting closed with a few words by John Heavey, another labor candidate from Toronto.

## ART SCHOOL

Will Receive Consideration If Technical Coll. is Built.

The regular monthly meeting of the Art School Board was held yesterday afternoon in the board room. Dr. Lyle, one of the members of the deputation which was appointed to interview Dr. Pyne on how the Art School would stand if the Technical College was brought here, reported that Dr. Pyne promised that the Art School would receive every consideration.

Regrets from Inspector Leske and Hon. Dr. Pyne at their enforced absence from the art exhibition were read. Mr. Neyland reported that there were 304 students registered at present—164 day and 140 night. Mr. Neyland advocated prizes for the work, and \$10 was given for best catalogue cover. Adam Brown and J. F. Leishman were appointed a committee to raise \$60 for prizes.

J. S. Gordon and Gordon Hutton received raises of \$10 and \$5 a month, respectively, in their salaries. Several others applied for advances, but no other increases were passed upon yesterday.

## JEWESS TURNED BACK.

Official Border Immigration Men to the Front Again.

Toronto, June 3.—The American immigration officials at Niagara Falls have angered the Jewish community in Toronto by another example of unwarranted zeal. Yesterday they turned back Mrs. Ida Fried, of Brooklyn, who has been living in Toronto for the past four months, and refused to allow her to cross the border without paying \$16 as head tax for herself and her three children. As Mrs. Fried had not that amount with her, and could not secure it till she arrived at her home, she was forced to return to the city.

Mrs. Ida Fried has been the victim of a series of misfortunes. She came from Europe with her husband, Louis Fried, about six years ago, settling in Brooklyn, and they became American citizens. During the hard times last winter, Fried decided to try to get work in Canada. He committed suicide a short while ago.

Mrs. Fried possessed a small sum of money, which her husband had saved from his earnings. She went to Mr. Jacob Cohen and explained to him the position she was in. She had \$150 in Jarmulowsky's Bank in Brooklyn, but could not draw it out, as she left her bank book packed with her furniture in the United States. She said that she did not bring the things to Canada, as they were too heavy to take back to Brooklyn again. Mr. Cohen wrote to the bank, but could not secure any of the money deposited there for her, so the Jewish Benevolent Society advanced the cash necessary to take her home.

The action of the American officials placed Mrs. Fried in an awkward position. She is now in debt for the price of the railway tickets, which have been wasted, and cannot secure either her money or her property unless she can get back into the United States.

## A LARGE BIT OF CORAL.

Two-ton Specimen Brought to New York by Capt. Slocum.

New York, June 2.—What is believed to be the largest and most valuable piece of coral reef ever gathered for any institution in the world was brought here to-day by Captain Joshua Slocum, in the little ten-ton yacht Spray, in which he formerly sailed alone around the world. The piece of coral, which weighs nearly two tons, is the property of the American Museum of Natural History.

It was found by Dr. B. E. Dahlgren, who expected several months off the coast of Andros Island exploring reefs, gathering coral and getting photographs for the museum. Dr. Dahlgren arranged with Captain Slocum to bring the specimen to New York.

"Come, hurry up!" said his employer. "If you have anything to say, say it. Don't take half a day."

"But that's just what I was going to ask you if I could take," said Willie.

Respect for the Cloth.

(Manchester Guardian.)

Winston Churchill tells a story of a chaplain who quarrelled with the captain of a ship on the way to South Africa because the captain refused to let him hold a service in the saloon.

The captain regarded himself as the priest of his own ship. Mr. Churchill found the chaplain tramping the deck in anger.

"And what did you say to him?" asked Mr. Churchill, sympathetically, when he had heard the story.

"Oh, I said nothing at all," answered the chaplain, with a splendid show of self-command, "but I may tell you that any other clergyman in the Church of England would have told him to go to!"

CAUGHT ON CROSSING.

London Man Loses His Foot Under Car Wheels.

London, Ont., June 2.—William Deacon, a stage carpenter at the Grand Opera House, had a narrow escape from being killed at the Richmond street crossing of the C. P. R. at 10 o'clock to-night. He was struck by a freight train backing down. His right foot was cut off a few inches above the ankle. His arm was also broken. When picked up he was in an unconscious condition. He is expected to recover.

## A NATTY SUIT FOR THE SMALL BOY.

No. 5835.—No better style for the little man who has just been promoted from dresses into trousers can be found than this simple little suit. The pattern consists of full knickerbockers and a long blouse that may be worn with or without the removable shield. Tan colored serge was used with good effect for the development, a strapped band of broadcloth in a lighter shade outlining the neck and front edges. A belt of leather or of the material may be worn about the waist. The design is excellent for the washable fabrics such as linen, gingham and pique. For a boy of 4 years 1 1/2 yards of 54-inch material will be required.

Boys' Dress with Knickerbockers. No. 5835. Sizes for 2, 3, 4, 5 and 6 years.

A pattern of the above illustration will be mailed to any address on receipt of 10 cents in silver or stamps.

## THREW ACID.

JEALOUS WOMAN NEARLY BLINDS A TORONTO MAN.

His Assailant is Well Known to the Injured Man, But He Will Not Disclose Name or Prosecute—Is Badly Disfigured.

Toronto, June 3.—A woman whose name has not been disclosed threw the contents of a bottle of carbolic acid full in the face of Edward Chandler, 216 Lee avenue, on Monday night, as he was going home from work at J. B. Smith & Company's. Chandler, who is physical instructor at the St. Charles Athletic Club, said that when he first saw his assailant she was sitting on the grass on Lee avenue, evidently waiting for him as he came home from work. She got up when he approached and saluted him familiarly, and as the old acquaintance she was.

Not another word did he hear, but was struck in the face across the eyes, forehead and nose with the biting acid, and he went down writhing with the great pain. The woman left him screaming, and boarding a car on Queen street, proceeded on it to her home in the west of the city. She is quite well known to Chandler, but he is not willing to give her name publicly.

He was picked up by two men, and taken to Lambly's drug store, where Dr. Coates bandaged his eyes and relieved his sufferings as much as possible. He thinks that his eyesight will be saved to Chandler, but that he has had a very close call. The woman is described as being about 28, tall, and dressed in dark clothes. She is married and has two children. Chandler once lived on Buryfield avenue, but left the west to escape the importunities of the woman who assaulted him on Monday. No report of the occurrence has been made to the police, and Chandler himself says that he will not prosecute. He says that he has received letters from her since, and she has begged him to see her at J. B. Smith & Company's factory, at J. B. Smith's, telling him to leave his wife, but that he has paid no heed to the jealous appeals.

## PURE RED BLOOD

Is Necessary to Health, Strength and Happiness.

Pure, rich, red blood is what is needed by every woman, young or old. Thin, weak, watery blood is the cause of all the headaches, and backaches, and sideaches—all the weakness and weariness, all the nervousness and fainting spells that afflict girls and women. The only thing that can help you is Dr. Williams' Pink Pills. These pills make new, rich, red blood, that gives new life and strength to every organ of the body. In this way they make pale, feeble girls develop into healthy, happy women, and for the same reason bring ease and comfort, and regularity to women at all ages of life. Miss J. Dietrich, St. Clements, Que., is one of the many thousands made well because Dr. Williams' Pink Pills. "I was very weak and discouraged when I began the use of Dr. Williams' Pink Pills. Six boxes of these have made me feel like an altogether different person, and have given me new health and strength."

Rich, red blood is the true secret of health and strength, and it is simply because Dr. Williams' Pink Pills make new, pure blood, that they cure such troubles as anaemia, loss of appetite, indigestion, neuralgia, rheumatism, St. Vitus dance, partial paralysis, kidney troubles, and the special ailments that only women-folks know. But you must get the genuine, the full name, "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. If in doubt, send to The Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be mailed at 50 cents a box, or six boxes for \$2.50.

SECRET BALLOT DEFEATED.

Toronto Separate School Board Eight to Four Against It.

Toronto, June 3.—The Separate School Board met last night at De la Salle Institute, when a lively, but good-natured, discussion took place on a resolution introduced by Trustee Loftus, that the open system of voting for members of the Board of Trustees should be changed to a secret ballot. The motion was seconded by Trustee Darrac. The arguments urged against it were that the open ballot was the established order of things, and, secondly, that the clergy favored that system.

Trustee Carey said that he had supported seven resolutions in the past in favor of the closed or secret ballot, but he was now convinced that the people did not favor it, and, therefore, voted against it. The motion was lost by a vote of 8 to 4.

DUTY ON PEARL NECKLACE.

Mrs. W. B. Leeds Must Pay the Sum of \$204,000.

New York, June 2.—Customs duties of sixty per cent. must be paid on the \$340,000 pearl necklace imported from France by Mrs. William B. Leeds, under a decision rendered by Judge LaCombe in the United States Court today. After the necklace was purchased in Paris, the pearls were separated and brought to the United States as individual gems in the belief that they would be admitted upon the payment of ten per cent. duty, which the law provides for individual pearls. The collector of the port ruled, however, that the sixty per cent. must be paid, and his ruling is now upheld.

HEAD BLOWN OFF.

Contractor Shorey Hayden Killed at Cobalt.

Cobalt, June 2.—Shorey Hayden, contractor, engaged on the Patterson property shaft-sinking, met with a fatal accident on Monday morning. Contractor Codd held an inquest this morning. The verdict was accidental death. Mr. Hayden was working with his partner, Mr. Falkenham, and they were about to fire a round of holes. It appears Mr. Hayden had just lit the first fuse when the blast went off, blowing Hayden's head from his body. His partner was uninjured.

Hayden's parents reside in Cape Breton. Deceased, who was about thirty years of age, was single. He came here last year from British Columbia and was an experienced and practical mining man.

HOW DUC DE CHAULNES DIED.

Papa Shontz Has Another Story Denying the Opiates Yarn.

New York, June 2.—On his return from Paris to-day Theodore P. Shontz, President of the Interborough Metropolitan Company, declared that the reports of the death of his son-in-law, the Duc de Chaulnes, was due to indulgence in opiates, were infamous libels. Mr. Shontz said that the Duke's death was caused by heart disease, and that the Duke was not addicted to the use of drugs.

"The Duke and my daughter were kneeling at their bedside in prayer," said Mr. Shontz, "when the stroke came upon him that carried him off before medical aid could be summoned."

## SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS.

ANY EVEN-NUMBERED SECTION OF Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 36, not reserved, may be homesteaded by any person who is sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less. Applicant for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet with this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

W. W. COREY, Deputy of the Minister of the Interior.

# PARK SYSTEM IS GROWING

And Becoming More Important Every Season. Some Improvements Promised the North End People. Tally-ho-ride Through the System by the Board.

The fact that Hamilton will have one of the finest systems of parks and drives on the continent when the land behind the reversion wall is reclaimed and the mountain boulevard scheme completed impressed itself upon the parks commissioners and aldermen when the board made its annual inspection yesterday afternoon. The members found the parks in splendid shape, the work on the mountain drive under way, and everything as satisfactory as could be desired.

From the City Hall the party went in a tally-ho through Victoria to Dundurn Park, visited the castle, drove through Harvey Park, down to North End Park, over to Woodland Park and then up along the mountain top to look over the new boulevard.

It is not improbable that one of the results of the inspection will be an effort later on to get a bridge built from Dundurn Park over the Grand Trunk tracks to the water's edge. The aldermen and members of the Parks Board were a unit in agreeing that this was needed. It was suggested that a bridge could easily be built off the point just north of the castle and the sand-sucker used to make a shore outside the tracks.

At the North End Park a deputation of northerners, including the officers of the Improvement Society, met the party and explained their wants. It would cost over \$30,000, it is said, to do what is asked, and while the board cannot afford to spend that much, it promised to do its best.

At Woodland Park everything was found in good shape. Although the mountain drive scheme is in its infancy, the party was greatly impressed with the possibilities there. The road has been graded, young trees planted, and George Wild, chairman of the Works Committee of the board, is satisfied that in a very short time Hamilton will have something to boast of in the way of a boulevard.

Harry Marshall, the new parks superintendent, was congratulated on the splendid shape he has the parks in.

## APPEAL DISMISSED.

### Company Not Responsible for Bichanich's Death.

The following were among the cases of local interest at Osgoode Hall yesterday:

Bichanich vs. Michigan Central Railroad Co.—J. L. Counsell (Hamilton), for plaintiff, appealed from the judgment of Teetzel, J., dated 15th February, 1908.

E. C. Cattanch, for the defendants, contra. The plaintiff, Luka Bichanich, administrator of the estate of Ivan Bichanich, who was an employee of the defendants, and was killed by an express train of the defendants while engaged in his employment of repairing the roadbed of defendants' railway, sued on behalf of the wife and nine children and claimed \$10,000 damages for the death. At the trial, on the answer of the jury that the defendants had not been guilty of any negligence causing the death, the action was dismissed with costs. Appeal allowed, dismissed with costs.

McShepard and Bank of Hamilton, J. D. Montgomery, for Sheppard, moved for interpleader order. John Jennings for Bank of Hamilton. Strachan Johnston for other claimant. Order on consent of all parties directing payment of \$15 for applicant's costs, of \$120 to bank, and the balance to the other claimant. No other order as to costs.

## ON THE DUNELM.

### Toronto Soldiers May Go to the Tercentenary.

The steamer Dunelm, of the Inland Navigation Company, recently out from Scotland, arrived at Hamilton last night. This fine vessel may be chartered to carry the Queen's Own Rifles from Toronto to Quebec. When en route from Montreal to Fort William, she arrived at Toronto yesterday, and was inspected by a committee of the Queen's Own, comprising Lieut. Col. Mason, Major Peuchen and Major Thorn, with a view to ascertaining what arrangements could be made to accommodate the troops. The Dunelm is a new steamer, and has only made two trips between Montreal and Fort William since her arrival in Canada.

## ATTACK JUDGE.

### Two Women Leap From Ambush and Attempt to Use Knife.

New York, June 3.—Two women Anarchists leaped from ambush upon Judge James Carroll, of the police headquarters court of Paterson, N. J., as he was on his way home in that city last night and tried to stab him to death. But for the fact that he is an active and powerful man, the women would have succeeded in their attempt at assassination, but he overpowered them, and to-day they were arraigned before him in court and sentenced to long terms in jail.

They gave the names of Mary Caminita and Gaiessipai Carrovia. Neither would reveal the animus of the attack, but it was undoubtedly inspired by the rigor with which the police and judges of Paterson have been dealing with the Anarchists of the city of late.

Mary Caminita is said to be a sister of Joseph Caminita, the editor of La Question Sociale, an Anarchistic publication which was recently suppressed by the United States Government. Caminita disappeared and is said to have gone to Italy.

## VETS. ORGANIZE.

### Soldiers Who Served in South Africa Hold Meeting.

A gathering of the veterans who saw service in South Africa was held in the Y. M. C. A. building last evening, to form a South African Association. There were thirty-eight present. Captain W. R. Marshall, of the 13th Regiment, occupied the chair. After much discussion a committee of six was appointed to draw up the constitution and by-laws. The committee will meet next week and post cards will be sent to the members, naming the time when the next meeting of the association will take place. The organization is to be a purely social affair. Sergt.-Major Sloan, of the Army Service Corps, was elected temporary secretary.

## DAY NURSERY.

### Annual Meeting Held at the Institution on Monday.

The annual meeting of the Day Nursery was held at the home, 209 Rebecca street, on Monday afternoon. The ladies rejoiced on their 14th birthday, because of continued prosperity.

No serious accident has ever taken place at the home. This month also brings enough money to pay all bills, and just a little over. During the year children have been kept and fed at 5c per day, many of them babies on the bottle, 1,326; beds to adults, 1,153; meals to adults, 3,220.

The financial report showed cash received from home, \$480.95; city grant, \$20.48; grocers' picnic, \$10; Victoria Avenue Baptist Church, \$10; Wm. Hendrie estate, \$400; balance from sale of Bethel Mission Furniture, \$15; moneys collected, \$141.55; balance from 1907, \$38.25; interest, \$1.45; total received, \$1,145.18.

Mrs. Balfour, the treasurer, reported how all moneys had been spent and showed a balance in the bank for the building fund, \$400; balance to meet next month's bills, \$20.76.

The officers elected for next year: Mrs. Arthur Boyle, President. Mrs. Martin, Vice-President. Mrs. Henderson, Secretary. Mrs. Balfour, Treasurer.

The Central W. C. T. U. brought another half dozen feeding bottles, and a large box of cotton slips very nicely made for the little ones to wear while in the nursery.

Money collected from Mrs. Brown 50c, Mr. Middleton \$1, Mr. Mills 50c, Mrs. Lovejoy 50c, Mrs. Lees 50c, Mrs. Boyd 50c, Mrs. Coats 50c, Thomas Nipion \$1; small sums, \$5.25; Mrs. Charles, beans and 2 rugs; Mrs. (Dr.) Wickert, carpet; First Congregational Church oranges, meat, Mr. Torrance, apples, friends, children's clothing and books.

## WILD FLOWERS.

### Dr. Fletcher of Ottawa Before Horticultural Society.

Last night in Association Hall Dr. Fletcher, of the Ottawa Experimental College, gave an interesting and instructive lecture under the auspices of the Hamilton Horticultural Society to a large audience. Limelight views were shown of a number of places and a large number from the Experimental College grounds, illustrating the many phases of plant life. The views were very good and the lecture was a descriptive one of the different views. Dr. Fletcher dealt particularly with wild flowers, and cautioned the people against their indiscriminate destruction.

The Horticultural Society will have more good lectures during the season, and a great deal of interest is being taken, and the teachers of the city making quite a showing in the gathering last night.

## A NEW EMPIRE ORGAN.

"The Standard of Empire" is the name of a new English weekly which aims to be an Empire organ of British sentiment throughout what it will go good taste terms "the sister states of the Empire." It contains large and varied budgets of United Kingdom news, besides cable despatches from the British countries throughout the world, and much interesting special matter. An idea of its tone may be gathered from this editorial reference to the Quebec Tercentenary:

"Within a week's journey from Westminster we have some two millions of loyal French-Canadian subjects. They are their forebears, are playing an honorable part in the building up of a great nation, and leader among nations: the Elder Son of the Empire. During the next few weeks many of these good Canadian kinsmen of ours will meet us in the halls and courts of the magnificent exhibition they have played so notable a part in creating. In July, in the ancient capital of Quebec, they will join heartily in welcoming to their own shores the Heir to the British Throne, who goes to do honor to the memory of their great general and ours. Nothing that our statesmen do or say in England can be said to be without possible influence in Canada. Ottawa is not free from the responsibility of influencing the people of England. During this week millions of his Majesty's subjects in every part of the world will unite in the celebration of Empire Day, an Imperial institution of growing importance, the original conception of which we owe to our brethren in Canada. There is food for much helpful thought in these matters; for thought which should make for a wider, truer comprehension of the grave responsibilities which attach to the privileges of Imperial British citizenship."

The spirit breathed by that reference is one that promises well for the newspaper's success. The Canadian office of the Standard of Empire is situated in the Stair Building, Toronto.

## AMUSEMENTS

### Mrs. Leslie Carter, the foremost actress of the American stage, will present David Belasco's play, "Du Barry," at the Grand on Monday. Fault cannot be found in placing Mrs. Carter in the front rank of the players of our time. The only artist that can be compared to her as an emotional actress is Sarah Bernhardt, to whom Mrs. Carter has been repeatedly compared. The occasion for this comparison is apparent to all those who are acquainted with the art of temperament, and of its sway over audiences. Without it, acting is mere make-believe—never real, and vital, and convincing. An actress may know every trick of the trade, may be conversant with every little technical nicety of the art, and be totally unable to give reality to her impersonations. Such an actress may be admired for the care she may take in her work; may even satisfy some who are pleased by her personality; but she can never produce the heart throbs in the spectator; can never transport him on the wings of imagination, for she is lacking in temperament, which is God-given and cannot be taught and cannot be acquired by study. Mrs. Carter has temperament. It was discovered in her the first time she set her foot on the stage, at the Broadway Theatre on Nov. 10, 1890. Every critic next morning recognized this blessed possession. When therefore she is referred to as "the American Bernhardt," there is fact and reality behind it. Seats will be on sale on Friday.

### A Pleasing Comedy.

Given a clever presentation by the Summers Stock Company, "The Little Minister," J. M. Barrie's great Scotch comedy-drama, should draw good business to the Savoy during the balance of the week. The difficult Scotch characters are well handled by Mr. Summers and his company, and the piece is staged with special scenery and electrical effects. At popular prices it is an exceptionally strong play, one of the best Hamilton theatregoers have been offered yet. Lou Atwell, in popular illustrated songs between the acts, is scoring a hit again this week.

### Colored Minstrels Coming.

Richards & Pringle's Minstrels will be the attraction at the Grand on Tuesday next week. The organization is well spoken of, and is said to give an excellent performance at the prices.

### About Mr. Jepson.

Eugene Jepson, whose sudden death in a Cleveland theatre was reported in yesterday's paper, was for four years associated with Ada Rehan, the late Mrs. Gilbert, John Drew, James Lewis, Clara Fisher and other players under the Daly management, and assisted in performances given by that organization in London and Paris, as well as in New York. During his connection with it he earned an abundant share of laurels in Shakespearean and other roles. He possessed a fine tenor voice, and his earliest professional successes were made in light opera, after which he coached Margaret Mather and played Friar Lawrence and Capulet for her Juliet under the management of J. H. Hill. After this came an engagement with Charles Frohman to support Maude Adams in her first starring venture. The impersonation for which he will be longest remembered is that of Lord Rintoul in Barrie's comedy, "The Little Minister," which is being presented this week at the Savoy by Summers' Stock Company.

### "Pickwick Tree" Cut Down.

London, June 2.—Owing to its having become very decayed and dangerous, the old sycamore standing near Dulwich College, known as "Mr. Pickwick's Tree," had to be cut down, much to the regret of the residents of Dulwich village, amongst whom the tradition prevails that Dickens' immortal hero was in the habit of a fine evening of resting in the shade beneath its branches towards the close of his career.

## SHOOTS HUSBAND.

### Abused Wife Uses Revolver With Deadly Effect.

Wilkesbarre, Pa., June 3.—Adam Strach, a giant in size and strength, was this morning shot and killed by his little and much abused wife at their home in Pringle Hill, near here, because he tried to beat her.

This morning when he came home drunk and in a nasty temper he rebelled for the first time and refused to let him in the house.

Strach battered down the door and swore that he would break every bone in her body. She stood at the top of the steps waiting for him with a revolver in her hand.

She told him that if he came up the steps she would shoot him. He laughed at her, repeated his threats and sprang up the steps. She took deliberate aim and sent a bullet through his body, hurling him down the steps.

## OFFICERS OF INTERNATIONAL.

### HARVESTER COMPANY'S ASSISTANT GENERAL MANAGER HERE.

Inspection of the Hamilton Plant, and Banquet Last Evening at the Royal Hotel.

Assistant General Manager Alex. Legge, who is closely identified with the interests of the International Harvester Company throughout the world, visited Hamilton yesterday.

A part of the day was spent in looking over the Hamilton works of the company. He was able to see a great improvement in the plant which has taken place since his last visit, and it was evident to Mr. Legge that the company must now employ all its facilities to keep pace with the growth of its business, and the exceptional demand for International machines.

The Hamilton plant is rapidly becoming one of the most important properties of this great corporation.

A pleasant feature of the visit was a dinner given in the cafe of the Royal Hotel last evening, when Mr. Legge met the heads of originating and productive departments. In addition to Mr. Legge there were present: Mr. S. V. Kennedy, of Auburn, New York, manager of eastern factories, and Mr. G. A. Ranny, of Chicago. From the local and city offices were: A. L. Johnson, S. G. McAllister, H. R. Thurber, W. J. Berkeley, A. Koeppe, F. J. Germandi, W. A. Corbett, J. A. Publow, W. R. Dunn, R. J. Hughes, W. H. Smith, W. F. Armour, R. Gleason, G. A. Kates, A. E. Allen, C. W. Robinson, H. H. Bigger, E. C. Duffy, C. B. Munger, H. A. Knapp, W. R. Rowlands, J. Linklater, N. Nilson.

After the covers were removed, Superintendent A. E. McKinstry extended a welcome to the visiting guests.

Mr. Legge and Mr. Kennedy spoke at length and encouragingly of the progress made by the Hamilton organization. Mr. Legge spoke of the general policy of the company in reference to the manufacture and distribution of its products, and also of its relation to its army of employees.

An interesting feature of the evening was the showing of about 125 stereoscopic slides illustrating the vast properties and manufacturing interests of the company. These pictured the forests owned by the company, the railroad lines necessary to its timber operations, mines of coal and iron ore possessed, its smelters and steel

## FOOLISH TRICK.

### Cuts Fingers Off to Spite His Wife.

Wilkesbarre, Pa., June 3.—Scolded by his wife for returning home very drunk and told that he was of no use to the family, Alex. Rebek, in a fit of spitefulness, tried to destroy his money-earning power by cutting off the fingers of his right hand, to show what a loss he would really be to the family. Before his wife could prevent him he had seized a sharp carving knife and slashed his fingers so severely that two of them hung by strips of flesh and may have to be amputated. The others are badly slashed, but can be saved.

## MURDER CLUE.

### Barber Thinks He Shaved Steinheil Murderers.

Paris, June 3.—The police have received what is believed to be a most promising clue in the Steinheil murder case. A barber of Menimontant, one of the lowest quarters in Paris, has given information that two men with full beards and long hair, the color of the hair of one of the men being looked for, came into the shop on Monday morning and had their beards shaved and their hair cropped, completely changing their appearance. The barber declared that the men looked like models and that his attention was first attracted by their peculiar behavior. He came to the conclusion that they were criminals, recently released from prison, and later when he saw the description of the murderers in the papers his suspicions were aroused, and he communicated with the police.

There is a complaint from Carlyle, Sask., that seed grain sent there by the Government Commissioner has failed to germinate.

By the opening of 48 ballot boxes used in the Hearst-McClellan Majority contest in New York in 1905 Hearst has gained 107 votes.

## MISSOURI FLOODS.

### Hundreds of Homes Destroyed—Rescuing Families.

Hannibal, Mo., June 3.—Hundreds of homes along the Mississippi River in this vicinity have been abandoned and citizens' protective associations are being formed throughout the bottom lands. To prevent looting, it is estimated that 500 persons have been compelled to abandon their homes and seek shelter on the highlands.

In many cases they have been unable to remove their valuables and thieves have been busy.

The Alexandria bottoms, a rich cucumber country, are under two feet of water, and the damage is estimated at \$1,000,000. Ten thousand acres of corn and wheat have been destroyed by the high water.

Rescue Families in Boats. St. Louis, Mo., June 3.—At West Quincy, Ill., the Mississippi River is reported to be 3 miles wide and great damage has been done by the floods. A special police patrol has been sent from Quincy to protect property. Every available boat has been pressed into service to carry families from the flooded lands. So far as known no lives have been lost.

## SERIES OF MISHAPS.

A Scalded Boy Upset on His Way to Hospital. Lindsay, June 2.—A son of Mr. and Mrs. Thomas Waldon, of South Ops, was brought to the Ross Hospital last night in a badly scalded condition. The little fellow backed into a tub of hot water and was scalded from his head down to his knees. The parents hurried to town with their child, but they did not arrive without a mishap. When they reached the cemetery the horse shied, and tipped the three occupants into the ditch, bruising all of them very severely, but especially the little fellow, already suffering a great deal.

The buggy was wrecked too badly to be of any further use, and so they were forced to borrow one from the caretaker of the Riverside Cemetery. With this they were able to get to the hospital, and have the little lad's wounds attended to. His injuries are so severe that little hope is held out for his recovery.

CHARGES OF MR. PRINGLE.

Mr. Oliver Visited the Yukon and Heard No Complaint.

Sir Wilfrid Laurier's View of Mr. Pringle's Course.

Obstructionists Yield and Supplies For Interior Dept. Passed.

Ottawa, June 2.—The onus of blocking business and delaying the pay of the civil servants was to-night once more clearly placed where it properly belongs, namely, upon the Opposition.

Hon. Mr. Foster, who for many days past has played the role of leading obstructionist, making interminable speeches on a variety of questions, with delay as the paramount object, brought up this morning matters relative to the administration of the Yukon.

On motion to go into supply, Hon. Mr. Foster proposed to discuss for a short time certain matters relative to the Yukon. He was actuated, he declared, by the public interests only, and proceeding, he read from correspondence, commencing in 1902, between Rev. John Pringle and members of the Government in which the former protested against alleged conditions in the Yukon coming under his observation.

Further correspondence was read up to last fall, when the matters reached a stage where Mr. Henderson, Commissioner of the Yukon, was instructed to conduct an investigation into the charges which Pringle had repeated. These referred to moral conditions, particularly in reference to certain officials.

Mr. Foster, resuming at 3 o'clock, said Rev. Dr. Pringle declined to go before the Commissioner unless the witnesses were to be examined under oath and given protection, because he knew "the crowd he was up against."

He argued that the Minister of the Interior should have given such powers, and quoted from an editorial in the Globe urging the same view.

Hon. Frank Oliver thought Mr. Foster had given ample evidence in his declaration of yesterday that, while the House might sit an additional two hours a day, business would not be advanced. However, the House would not be inclined to deprive the hon. member of the pleasure of listening to the sound of his own voice.

Mr. Pringle had not taken advantage of the opportunity to have his charges thoroughly investigated instead of having sought refuge behind a mere quibble. Even clerjymen were not absolutely infallible. As a proof of this, he quoted from Mr. Pringle's earlier letter in respect to the Klondike gold concession, and alluded to Mr. Foster's comments thereon. The Klondike River was not, as Mr. Pringle had said, in the grasp of corporations. Mr. Treadgold had forfeited his water concession on that river because it was of no use and never would be.

He, however, pointed out that both Messrs. Congdon and Henderson, as Yukon Commissioners at their respective periods, had made reports on the allegations contained in Mr. Pringle's letters, in which they had not incidentally added here that he was himself in the Yukon in the latter part of 1905 to gain personal information of the conditions. Neither Mr. Pringle nor any other person had given him any indication of the charges such as contained in the letter, and the conditions were as bad as had been represented it would be reasonable to assume that some one would have informed him at the time.

Mr. Oliver on the matter being brought to his attention through the later letter of Mr. Pringle, asked him to go before the Commissioner and make specific charges instead of the general statements to which he had confined himself, he felt that he could not take further proceedings until Mr. Pringle had made the specific charges. If Mr. Pringle had come forward and made a specific charge the question of examining witnesses on oath would have been considered, but he (Mr. Oliver) refused to be a party to slander without anybody being responsible for the circulation of the slander.

There was a wrong point of view in regard to the prevalence of crime and vice in the Yukon. The fact was that there was less crime in the Yukon, man for man, than there was possibly in Ottawa, and as for vice, he believed that Ottawa, Montreal and Toronto were not free from it. "I hold myself responsible to the House," said Mr. Oliver, "for the private conduct of officials of the department, so far as that private conduct can be considered to come into collision with the public interest or his public duties. I do not need a Royal Commission to tell me what to do in the case of an official whose private conduct will reflect discredit on the department or the Government."

puted, either that under the present commissioner the Yukon was being well administered. Another letter came from Mr. Pringle in 1905, in which statements were made against two parties. The Minister of the Interior himself had gone to the Yukon in that year, and as a result of his observations some abuses that had crept in had been corrected, to the lasting benefit of that part of the country; but there had been no complaints of any kind from anybody of the matter mentioned in Mr. Pringle's letter.

The Accused Officials. In 1907 Mr. Pringle had made positive accusations against two officials, Messrs. Lithgow and Girouard. The former Sir Wilfrid Laurier did not know personally, but he desired to state that all reports and communications concerning that officer's work were to the effect that there was not in the whole Yukon a more painstaking officer or one who commanded more generally the respect of the community. The accusations against Mr. Girouard had been of such a nature that he had resigned, and had instituted a suit for libel, which Sir Wilfrid Laurier understood would come on this summer, that being the time the courts were held in the Yukon. Sir Wilfrid Laurier laid stress on the fact that Mr. Pringle, in his accusations, declared the conduct of the officials was a public scandal; but when called upon to go before the commissioner and make out his case he declined on the ground, as already stated, that the commissioner had no power to examine witnesses under oath or give them protection. If, however, his contention that the conduct of the officials was a public scandal had been well founded, there should have been no difficulty in showing that before the commissioner, because many people would have been cognizant of it. Then, had there been any refusal to give evidence or any trouble likely to block the investigation, the commissioner could have reported to the Minister of the Interior and asked for the powers he deemed necessary to continue it. Mr. Pringle was not fair to himself or to others in the course he had taken. It was open to him, nay, it was his duty, as the Prime Minister declared, to appear before the commissioner.

Mr. Knowles visited the Opposition on the manner in which they always referred to the speeches of the Ministers as "remarkable" or "extraordinary." Only the other day, however, a member on their own side had uttered a fitting commentary on his colleagues, when he had told of Sir Charles Tupper criticising them for having made the grievous mistake of failing to support the Liberals in securing an all-Canadian railway to the Yukon.

Hon. Geo. E. Foster—Has my hon. friend not seen Sir Charles Tupper's explicit denial of that? It has been published in the press. Mr. Knowles replied that he had not seen it. "Nor, I fancy," he added, "has it been read by the hon. member for Victoria and Halliburton (Col. Sam Hughes) otherwise he would be rising to another question of privilege." (Liberal laughter.)

Hon. W. S. Fielding. Mr. Bristol, who briefly supported in the main the views of his colleagues, was followed by Hon. Mr. Fielding. Mr. Lithgow, he said, had been given the office of controller in the Yukon on his recommendation. Mr. Lithgow, who, like his father before him, and all the family, so far as Hon. Mr. Fielding knew them, were strong Conservatives, had been 28 years in the Government employ, having been appointed by the Tory Government. His transfer to the important post mentioned had been made because Mr. Fielding, in spite of his knowledge of Mr. Lithgow's political activities, had great confidence in his integrity and ability. The first statement derogatory to him had been made by Mr. Pringle. Mr. Lithgow had his faults. On one occasion, he believed, he had strayed from the paths of sobriety, but as an official he would be held to a higher standard and gain warm praise. The fact that the member for the Yukon had not seen fit to make any accusations of the nature uttered in the House to-day was taken by Mr. Fielding as an indication that he believed, as others did, that the best interest of the public would be served by retaining Mr. Lithgow in his position.

House in Supply. At 10:35 the discussion dropped and the House went into supply, taking up the salaries of the Department of the Interior.

Mr. Monk's Sympathy. After raising objection after objection to an item of \$190,000 for salaries in the Interior Department, Mr. Monk took occasion to sympathize with the plight in which the civil servants had been placed as to their salaries, saying he regretted the delay.

Hon. Mr. Fielding—Why, then, has the hon. gentleman been opposing them for the last half hour? Mr. Foster—What foolishness. Hon. Mr. Fielding—I have a perfect right to say that, when the hon. gentleman has been spending so much time in opposing the passing of this one item.

Mr. Foster (excitedly)—Does the Finance Minister think he can come here and induce the country to believe that we should pass any estimates without a fair and reasonable questioning of them? Hon. Mr. Fielding—I am responsible for what I said, not what the hon. gentleman attributed to me. The hon. member for Jacques Cartier has indulged in some pious sympathy with the civil servants because they have not their salaries, and I simply pointed out that the reason was that the hon. gentleman opposite has been delaying the passing of these salaries, not for to-night alone, but for weeks and months.

Mr. Foster—I pleaded with you to take up these civil service estimates three weeks ago. The Minister of Finance has been playing to the gallery all along. It is played out. Small boys in small debating societies play that sort of a game. The Minister of Finance ought to have wisdom enough not to do it.

Hon. Mr. Fielding—I cannot speak as to what passed between the hon. gentleman and the Prime Minister; I can only speak for myself, and when the hon. gentleman says that he offered to pass the civil government estimates I venture to say he is entirely mistaken.

Mr. Foster (warmly)—I venture to say he is absolutely right, and the words are on Hansard to prove it. Hon. Mr. Fielding—The hon. gentleman can prove nothing in view of the constant obstruction of these estimates. If hon. gentlemen want to give the civil government estimates, why not give them? Why spend all day, as the hon. member for Toronto has done, in discussing what was not legitimate business?

Mr. Foster—If the Prime Minister and his first lieutenant had exercised ordinary diligence they would have had their large measures down before six

or seven months of the session had elapsed. I see the Finance Minister is getting excited. Hon. Mr. Fielding—I am not excited, but I have an observation to make about that. Mr. Foster—Oh, well, we will say carried to this item. Hon. Mr. Fielding—On that condition I will say no more.

GIFT OF \$10,000.

NEW YORK'S CONTRIBUTION TO CANADIAN BATTLEFIELDS FUND.

Earl Grey Thinks Necessary Half Million Can be Raised by July 22—Generous Anonymous Donor—Consolidation of Races.

His Excellency Earl Grey recently received the following anonymous communication, dated from the Hotel St. Regis, New York: Sir—As a British subject I admire the pluck and patriotism of the Canadians in the work of consecrating the battlefields of their country in a way to emphasize the genuineness of the entire enterprise, as perhaps better established between the two powerful races resident in the Dominion.

It is now universally admitted that harmony and good-will amongst its different races, especially in a new country, constitute one of the greatest of national assets. If the spirit of unity, typified as it will be in the course of celebration at Quebec, is perpetuated, Canadians must become a great and powerful people—a lusty nation.

About this, it seems to me, there can scarcely be two opinions, and of this observant outsider, as perhaps better able to judge than Canadians themselves. Your patriotic efforts, sir, in connection with Canada's tercentenary celebration, well deserve to be crowned with the success that is attending them, for every such effort exerts a powerful influence in the building of the national foundation.

I believe it is a mistake to suppose that intelligent Americans are envious of Canada's prosperity and prospects. Americans look on at the preparations for your coming celebration with deep interest and good-will, and they will be with you in thousands in July. It is not an exaggeration to say that the eyes of a great part of the world are turned towards Canada at this time. If it will serve any good purpose to publish this letter, you are at liberty, Earl Grey, to do so.

With profound respect and the best of good-will and wishes I enclose my card and a cheque for \$10,000 as a subscription to aid you in your battlefields plan, from (Signed) A Believer in Canada's Destiny. In turning over the cheque to the Dominion Central Committee for the Quebec Battlefields Association, Earl Grey says he is confident that the necessary \$500,000 for the purchase of the Plains of Abraham can be raised by July 22, when the Prince of Wales will arrive. He suggests that subscriptions be sent to Hon. R. P. Sutherland, Speaker of the House of Commons, by July 1.

IS YOUR STOMACH SOUR? Just notice if you belch gas and have sour risings. Ten drops of Nervine in sweetened water will instantly give relief. Nervine sweetens the stomach, aids digestion, dispels gas, makes you fit and fine in a few minutes. No treatment for stomach and bowel troubles to compare with Nervine. Thousands have proved it.

MORE TROUBLE. Paris, June 2.—A special despatch from Casa Blanca to the Matin says that another unpleasant incident has occurred between the Spanish and French soldiers there, the Spaniards placing a Frenchman under arrest despite the protests of French officers.

CASTORIA. The Kind You Have Always Bought Bears the Signature of Chas. H. Fletcher RIOT AT BANK. Cleveland, O., June 2.—Five hundred infuriated Italians stormed the closed doors of the private banking house of Gaetano Liotta, on Orange street to-day, and had it not been for the police interference would have forced an entrance. A squad of police soon arrived and drove back the excited Italians. Liotta, it is said, cannot be found. The total deposits do not amount to more than \$20,000.

Shock Kills Actor. Cleveland, O., June 1.—Eugene Jepson, aged 39, of New York, leading man in a vaudeville sketch in Keith's Theatre, dropped dead of heart disease in his dressing room this afternoon, when an alarm of fire was sounded.

London, June 2.—The Minister of Labor for New Zealand, speaking at Dunedin to-day, declared that the Government had no intention of adopting the Socialists' demand that the State should nationalize all land and means of production.

COLONIZATION AND LABOR

Hon. A. G. McKay's Fifteenth Letter to the People of Ontario.

COLONIZATION—The Liberal party has ever shown an intelligent conception of the possibilities of our own great northland. Against determined opposition, in years past, sufficient sums of money were from time to time voted to equip and provide for exploring and surveying parties. From the reports of such surveying and exploring parties we gain a general idea of the immense natural wealth of New Ontario. Its great timber, mine and agricultural wealth, coupled with the fact that the G. T. P. will traverse easterly and westerly over the whole hinterland, suggests the necessity of a more vigorous colonization policy. No intelligent observer can place before him the map of Old Ontario, particularly that of southern and western Ontario, taking at the same time into consideration the effect upon trade and commerce of the operation of the G. T. P., without coming irresistibly to the conclusion that the ever-increasing trade that will result from the further peopling of the West and the far West will almost entirely pass us by, following the G. T. P., and thus Old Ontario will fail to participate in her full share of such trade unless a more vigorous colonization and railway policy is adopted, and by the carrying out of such railway policy our lake ports are connected by rail with the G. T. P. and other transcontinental lines. This is a question calling for immediate consideration and action, and one which the Opposition pressed upon the attention of the Government last session. Every city, every town, every village, every township in Old Ontario, and more particularly in southern and western Ontario, is vitally interested in this large question.

THE PEOPLE'S RAILWAY—The construction and operation of the T. & N. O. Railway was a splendid step in the right direction, and it should be continued to James Bay, where there is abundant fishery wealth. The Liberal candidates in Algoma, Manitoulin, Sault Ste. Marie and other northern constituencies show by the maps and addresses they have issued that they have a keen and intelligent understanding of the importance of this great question. Southern and western Old Ontario would be tremendously benefited by the immediate construction and operation of several such lines of railway, connecting the leading northern ports and towns with the through railway systems, and thus by a lake and rail route facilitating and increasing the trade of Old Ontario.

LABOR—But, someone asks, why couple Labor with Colonization? For the simple reason that there should be one controlling mind dealing with the two questions of immigration and labor. Liberals were right in 1904 when they placed as a plank in their platform the creation of a Department of Colonization and Labor, to be presided over by a Minister called the Minister of Colonization and Labor. While such Minister would have one eye on immigration, his other would be on the field of labor, and thus he would not bring into this Province a class of immigrants that would injuriously affect our own laboring classes, and thus disturb the balance between the supply and demand of labor, skilled or unskilled; nor would he allow immigrants to be brought in under promise of obtaining work, skilled or unskilled, in a market that is already full. Had the Liberals been continued in power, the Department of Colonization and Labor would have been established in 1905, and a Minister of Colonization and Labor would have been appointed.

NIAGARA BAPTISTS. GENERAL ASSEMBLY.

Eighty-ninth Convention at St. Catharines. St. Catharines, June 2.—The eighty-ninth annual convention of the Niagara Baptist Association opened in Queen Street Baptist Church this afternoon. Charles E. Higgins, Beausville, acted as Moderator. Rev. W. L. Patterson, Queenston, as Clerk. Proceedings began by Bible reading and prayer by Mrs. D. M. Walker, this city. Reports from circles and bands were then submitted, and showed excellent growth since the last convention. Papers were read as follows: "Canadian Indians," Mrs. A. Canelford, Dunnville; "Methods of Conducting Mission Work," (illustrated), Mrs. John Crawford, Niagara Falls; "Our North-West Missions," Mrs. Daniels; "Work with Him," Mrs. H. Copp; "Our Foreign Work," Mrs. John Firstbrook, Toronto; "Our Home Work," Mrs. J. J. Ross, Toronto.

The election of officers resulted as follows: President, Mrs. Walton, James street (Utah, Hamilton); Director, Mrs. (Dr.) Mulock (re-elected), St. Catharines; Assistant Director, Mrs. Silecks, Hamilton; Association Secretary, Mrs. R. Cruickshank, St. Catharines. Over a hundred delegates are in attendance. The convention will continue to-morrow and Thursday.

CONFERENCE WITH COMMONS. Senator McMullen's Resolution Adopted by Senate.

Ottawa, June 2.—In the Senate this afternoon the following bills were given third reading:

To amend the Canada shipping act. Respecting signal flags at Halifax. Respecting Meaford harbor. Granting a divorce to Hattie Spratt.

A resolution, offered by Senator McMullen, was carried 23 to 19. It declares that the Senate deems it expedient to invite the House of Commons to co-operate with it by means of a joint committee to consider the advisability of devising methods whereby a more equal division of the initiation of private and public legislation may be secured between the two branches of Parliament, and adopting rules governing debate, which will limit the time of discussion so as to better expedite business. The resolution will be forwarded to the Commons.

BODY BURIED UNDER SAND. Second Victim of Cloudburst in Mono Recovered.

Orangeville, Ont., June 2.—After a five days' search for the body, the remains of William Wisdom, who, with his wife, was drowned in a gully on the 7th line of Mono, as the result of a cloudburst, was found this afternoon, about 4 o'clock, within a few yards of the spot where Mrs. Wisdom's body was discovered. The reason the body was not found before was that it was buried about two inches in the sand, under a log, which it took a team of horses to remove.

Do You Have Rheumatism?

If so, try the following prescription, from a prominent physician: Fluid Extract Dandelion, one ounce. Compound Salts, one ounce. Compound Syrup Sarsaparilla, four ounces. Mix, shake well, and take teaspoonful doses after meals and at bedtime. This mixture, the doctor says, assists the kidneys to filter from the blood all uric acid and poisonous waste matter, which, if not eliminated, settles in and around the joints and muscles, causing great agony. Your druggist can supply you with the ingredients at very little cost, and it can be mixed at home, being composed of purely vegetable and harmless extracts. We feel that a great many readers will be interested in this simple formula.

Deal Gently with the Bowels—Don't be Harsh

Some people say, "Cascarets are too gentle. I need a strong physic." The trouble is this: They have taken harsh physic until their bowels are calloused. Nature has caused the bowel linings to harden—to resist the attacks of harsh pills. In such cases, take Cascarets often—one tablet night and morning. Cascarets won't irritate. They are as gentle and natural as a laxative food. Soon the bowel lining grows soft again, and begins to resume its functions.

## LONDON WON A POOR GAME.

### Pitcher Long Had An Off Day on Local Diamond.

#### Buffalo Won From Toronto Yesterday—Seagram Won Two Races at Woodbine—Tom Longboat Is In Condition Again.

The Hamiltons yesterday got what they were looking for on Monday. They got theirs at the hands of the London Beavers, at the Barton street ball yard. Not many persons saw the trick turned, the attendance being about 225 only. Most of these were real fans, and they made more noise than the circus calliope. They were greatly put out by the way the Londoners pounded Long, the star twirler of the Tigers, and they took leave on the umpire—Ostermoe Smith. Poor Mr. Smith was roasted unmercifully by the peanut eaters in the bleachers, and some of the grand standers made very personal remarks to him. He was off in two or three decisions, but the volleys that were fired at him were strong enough to rattle a Highland regiment.

Yesterday's game was a one-sided slugging match, London being on the right side. The Beavers made thirteen hits off the Tigers' white-haired boy, one of them being a three-bagger and another a two-bagger. The Hamiltons did a little work with the willow at semi-occasional periods, making six hits. The Hamiltons attempted their ninth inning rally, but their stretch run was a failure. Bradford, the first man up in the last spasm, made a two-bagger, and Muir, who was coaching for the third base line, called to him to run on a hit just out of the infield. He started in and was caught at the plate. The Tigers' balloon then went up and the last hope was gone, the next two going out in short order.

In the sixth inning DeRohn took a hot foul tip on his bare hand and as a result his finger was broken. Dr. Roberts put a splint on the broken digit and Maxey came in from right guard, Gleason taking Maxey's place. Maxey caught a good game. Following is the score:

Muir will do the twirling against London this afternoon. As Manager Paige has been out of the city since Monday night, the letter sent to him by the W. E. P. C. line has not been answered.

More improvements are being made at the Barton street ball yard. A toilet room, with a shingled roof, is being erected at the east end of the bleachers. The press box has been enlarged, also, to accommodate the telegraph operators.

#### GUELPH GOT EVEN.

Guelph, June 3.—Guelph turned the tables on the Niagara Falls Internationals here yesterday in a fireworks game, when they defeated the visitors 12 to 6. Hits, errors and wild throws were profuse on both sides, and the visitors used three pitchers in the first three innings. Maxwell worked the first inning, allowing three runs, and in the second he allowed four before being taken out, while Doremus, who followed, gave three more before the inning closer. In the third Dawson was put in and finished the game. Sterling pitched for the locals with good effect. Score:

The Hamilton team will visit Ferguson one day next week. Fred Hubert, when he paid the players on Monday, gave them a little parental advice on rough playing. He told them that they were not paid to be spectators of the game from the bench, and must keep in the game all the time it is on. He intimated that a few fines will be imposed on men in the future who show a tendency to get riled off when their services are most required.

The Toronto N. L. U. team also wants a game with Hamilton, and tried to fix it up for one day this week. The locals could not see eye to eye with them, and suggested that the teams meet next week some time. The Torontos are now considering the matter.

The executive of the association will meet to-day, when the abolition of field captains and the substitution of a judge of play and several other important innovations will be considered.

Regan has been put on the pay roll of the Hamilton team.

#### INDIAN BETTER.

#### Longboat Made a Good Trial Yesterday at Toronto.

Toronto, June 3.—Those boils and ear-bunches have been a great thing for Tommy Longboat. Yesterday he galloped over the fifteen-mile Marathon course, and although there was an air of mystery about the work-out, it is said that the Indian beat the time made by Lawson, Saturday's winner, by a minute all but a few seconds. At that, the longboat ran about half a mile out of the course, which was new to him.

Two Hamilton runners, Woods and Adams, went out to the course, presumably to look it over, but when they got there they ran with the Indian. At the turn he was 50 yards to the good, and he finished the jaunt like a locomotive. Just how well Longboat would go 25 miles remains to be seen, but on the form he

The Hamilton Lacrosse Club management is hot foot after "Tackey" Laderonte, of Blind River, the great Franco-Canadian player, who was with the Montreal Nationals last season. He is one of the best inside home players in the country, and has been made a good offer by Manager Hubert.

The Hamilton Club is trying to arrange a game in this city with the Montreal Shamrocks, the champions of Can-

He intimated that a few fines will be imposed on men in the future who show a tendency to get riled off when their services are most required.

The Toronto N. L. U. team also wants a game with Hamilton, and tried to fix it up for one day this week. The locals could not see eye to eye with them, and suggested that the teams meet next week some time. The Torontos are now considering the matter.

The executive of the association will meet to-day, when the abolition of field captains and the substitution of a judge of play and several other important innovations will be considered.

Regan has been put on the pay roll of the Hamilton team.

#### INDIAN BETTER.

#### Longboat Made a Good Trial Yesterday at Toronto.

Toronto, June 3.—Those boils and ear-bunches have been a great thing for Tommy Longboat. Yesterday he galloped over the fifteen-mile Marathon course, and although there was an air of mystery about the work-out, it is said that the Indian beat the time made by Lawson, Saturday's winner, by a minute all but a few seconds. At that, the longboat ran about half a mile out of the course, which was new to him.

Two Hamilton runners, Woods and Adams, went out to the course, presumably to look it over, but when they got there they ran with the Indian. At the turn he was 50 yards to the good, and he finished the jaunt like a locomotive. Just how well Longboat would go 25 miles remains to be seen, but on the form he

#### Lieut.-Governor to Attend H. J. C. Opening.

The Hamilton Jockey Club meeting which is to be opened next Tuesday by the Lieutenant-Governor promises to be a huge success in every respect. More horses than ever before will try for Hamilton prizes.

Already many thoroughbreds are on the grounds. Yesterday, the stables of N. K. Beal, A. B. Stensbury, P. Gallagher, W. Keating, and E. Uterback arrived from Baltimore, while the stables

#### HOW BASEBALL HAS GROWN IN FAVOR.

Few of those closely identified with the pastime realize the great strides which baseball has made in popularity in the last decade, and few of the club owners themselves have yet grasped the possibilities of the next ten years. Middle-aged fans of to-day can recall when crowds of 10,000 were unusual and 15,000 monster turn-outs. Now those figures are of almost weekly occurrence, even in the "losing" cities of a major league.

A dozen years ago the ball player whose salary amounted to \$2,400 a year was not only a veteran but a star. To-day the major league player who does not get an annual stipend larger than that is either a recruit, substitute, or of less than mediocre ability on a second division team. Ten years ago when players had gained the upper hand of umpires and few indulging in rowdy, unneeded few women were seen at the ordinary games. To-day the up-to-date woman's hat has become a nuisance at ball games, already a source of complaint and a problem for the promoters.

There are boys of 10 years to-day who can tell their fathers more about baseball than the latter can know. When this rising generation attains the age of real fandom the ranks of patrons will be greatly augmented, if the men in authority keep baseball a clean and wholesome sport. But it will be necessary to rebuild nearly every major league plant in the country to provide accommodations for the growing army of patrons. Now is the time for all good club owners to come to the conclusion that they must build for the future. But, above all, the game must be kept free from the elements which offend the real sportsman and the fair sportsman, as distinguished from the other sex. And it must be kept free from the taint of suspicion which attaches to anything in which gambling gets a foothold. Keep a firm grip on the rowdy player, a firmer one on the rascal who bets, and a death grip on the bookmaker who is looking toward the great sport as the field of horse racing is curtailed.—Chicago Tribune.

#### Siler Says Burns Is the Champion.

George Siler, the veteran ring referee, writes as follows in a Detroit paper: Jack Johnson, in the eyes of the English sporting men, is the heavyweight champion of the world, because Jack's challenge 15 fight Burns for the title and a side bet of \$15,000 was not accepted. In this country, however, Tommy still holds the title and will be considered the champion until defeated.

In the days of London prize ring rule fighting a champion lost his title if at the end of six months he refused to accept challenges backed up by substantial torments. That system, if such it can be termed, was not effective after John L. Sullivan defeated Paddy Ryan, if it had been Sullivan would have lost his title by default, long before he fought his second championship battle. The first man to challenge John after he beat Ryan was Jimmy Elliott, but John ducked, stating he would only battle four rounds under the Marquis of Queensbury rules. Charley Mitchell was his second challenger and \$5,000 was the amount of money he wanted to fight for, but Sullivan dodged that challenge and would only consider a four round bout. Alf Greenfield was champion heavyweight of England at the time and he also challenged to fight with bare knuckles for a good sized side bet, but four rounds with gloves was all John would agree to. These were all bona fide challenges, backed up with solid forfaits, but ring history does not state that Sullivan was his title because he did not accept them.

Jim Corbett did not relinquish his title when challenged by Peter Jackson and Joe Goddard, nor did Fitzsimmons lose his championship toga when repeat-

showed yesterday he ought to be better than ever at that distance. It is not deemed wise to run him in the final, however, but he will be sent to England on the strength of his brilliant record of victories against all comers.

#### OTSI KETA WON.

Hendrie Stable Won the Maiden Race Yesterday.

Toronto, June 3.—Another day of delightful weather brought a great crowd to Woodbine yesterday for the ninth day's racing of the Ontario Jockey Club's spring meeting. The racing was keen and interesting, and well-backed horses were generally successful. This has not been a profitable meeting for the ring, and exhorters who prate of the "certain gains of the bookmakers" as a reason why people should not speculate would find some, with the knowledge of experience, to laugh at the phrase. Mr. Seagram won two races yesterday, with bathrick and Half a Crown, the former at 20 to 1, which is decidedly not the normal price against any started from the Waterloo stable. As a rule, when the President runs one, it is about 3 to 5, as was Half a Crown.

Bathrick captured the maiden race at a mile, which opened the programme. There was some crowding going around the first turn, in which Gold Nuts, Alta McDonald and other well-supported horses suffered. Trackless made the pace, but did not stay, and finished just outside of the money. Bathrick overtook her in the stretch, and old Pearson and the long-shot, Ena, also passed him.

The other win for the Hendrie stable was in the Ontario Purse for Canadian-bred maidens, at a mile and a sixteenth. Half a Crown, who needs vigorous riding before he will make his best effort, was hustled along by Nicol, after Table Bay brought his usual stretch run, and Half a Crown had to be sent along again to stand him off. Archie Whyte would not respond to Bergen's calls, and came home undisturbed, apparently having decided that if he did not want to run his ride could not make him.

The Valley Farm filly, Otsi Keta won the maiden two-year-old race in a field of fourteen starters, going to the front when asked. She had to be ridden, though, at the end, where she was pressed by Southern Bride, a 100 to 1 chance. From the Newcastle stable, who was all ways prominent and saved ground in the

stretch. Flat Creek was third, and London, from Woods Girth's stable, fourth, after being hopelessly out of it a quarter of a mile out.

The winners: Bathrick 10-1, Otsi Keta 20-1, Half a Crown 11-20, Firefly 1-3, Sandal 5-2, Serville 11-5.

#### SADDLE AND SULKY.

Mrs. Mars Cassidy, wife of the Jockey Club starter, died on Sunday, and the starting at Brooklyn is being done by Judge Pettengill, who was a very successful starter before he went into the judges' stand.

A St. Thomas despatch says: The Elgin Driving Association has been organized for the purpose of holding manes and race meetings at the track east of the city. The following are the officers: Hon. President, Judge Ermainger; Jacob Fowler; President, Joseph Griffin; First Vice-President, Dr. F. O. Lawrence; Second Vice-President, Dr. C. E. B. Dancombe; Secretary-Treasurer, Dr. D. L. Ewin; Executive Committee, Geo. S. McCall, A. S. Smith, Frank Donley, Geo. A. Pomsford, Dr. C. K. Geary; Auditors, H. T. Gough and J. R. Green.

A Berlin correspondent says: The Union Club, or Jockey Club, of Berlin, has formally withdrawn the license of Harry Lewis, the Canadian jockey attached to the stable of H. E. Ewin, jockey, granted at the request of Baron Oppenheim, for whom he had contracted to ride. Lewis went to America to spend his holidays promising to return for the season in Germany. He failed to keep his promise, and the matter being brought before the stewards of the club by Messrs. Haniel and Baron Oppenheim, for whom he had been engaged to ride, they withdrew his license, so that he will be debarré, says the Deutscher Sport, from riding at all race meetings in America where the societies have entered into a mutual understanding with the European authorities.

Royal Tourist won the feature at Gravesend yesterday at 1 to 2.

#### ENLARGING INTERNATIONAL.

The London Free Press says to-day: Ten days will in all probability see the International League a six-club organization contemplated for the last couple of weeks by the promoters, and correspondence is now being carried on with baseball men in Erie, while yesterday afternoon President Long and Fred Paige, the original promoter of the present highly successful league, went over from this city to St. Thomas and secured an option on the new athletic grounds in that city.

For some time past Dr. Hill Nivers, of Lawrence, Mass., has been writing for a franchise in the present league, and he will be communicated with at once to come up and take hold of St. Thomas, and a team will be put up as soon as possible.

The Railroad City is ripe for the project, and for some time past the public has been seeking admission to the new league.

#### JUNE SNOWFALLS IN N. B.

Unseasonable Weather in Northern Part of Province.

Moncton, N. B., June 2.—Snowfalls in the northern portion of the province, and the mercury hovering around the freezing point in this vicinity, have marked the opening of the month of June in New Brunswick.

Passengers arriving from Campbellton on this morning's train reported that at that place last night there was a slight snowfall. At Newcastle the station platform was covered with frost.

In Moncton last night the thermometer got down to within three points of the freezing mark.

#### INJURED ON THE RAILWAY.

Young Englishman Crushed by Engine at Orangeville.

Orangeville, June 1.—Yesterday afternoon Frank Cougrip, an Englishman, aged about 28, and working for Mr. W. H. Gillespie, a farmer near here, was terribly hurt by a yard engine of the C. P. R. The injured man was unable to say anything about how the accident happened, but from railway officials it is said the man was walking on the tracks and took no notice of the shunting engine.

He was struck about a mile and a half north of here, his legs broken and other severe injuries received. He was brought to the town and is being attended to by the doctors. It is said he was quite sober and had a bottle of whiskey in his pocket.

#### NURSE SHOOTS HERSELF.

Accidental Death of Jennie Powers, of St. John, N. B.

St. John, N. B., June 2.—The remains of Jennie Powers, aged eighteen, daughter of Michael Powers, of this city, arrived last night from Newington, Mass., where she was accidentally killed on Friday night. She was employed as nurse in the home of Thomas Chappin. While assisting the family in moving Miss Powers was in an upper room packing furniture, she found a revolver in a bureau drawer and when removing it accidentally discharged the bullet, which struck her neck, killing her instantly.

#### SUICIDE AT WINNIPEG.

Body of a Section Foreman Found in River Park.

Winnipeg, June 2.—The body of an unknown man was found near River Park today in so badly decomposed a condition that all hope of identification has been abandoned. He had committed suicide by cutting his throat and swallowing carbolic acid. In his pocket was found a clipping from a newspaper of the obituary of Harold M. Hyde, of Prince Edward Island. The dead man may have been a relative of the person referred to. The dead man has been identified as Douglall McNeill, a C. P. R. section foreman.

#### A RUNAWAY AIRSHIP.

Machine Descended in Field Near Union Hill, N. J.

Union Hill, N. J., June 2.—The North Bergen police are looking for an owner for an airship that landed on the Hackensack Meadows and has been removed to the police station. It was seen to fall in the meadow by a negro last Sunday, but as it did not report to the police until last night. When an officer went to the meadow he found a cigar-shaped bag about fifty feet long with four ropes attached. There is nothing on the bag but

\*Apprentice allowance claimed.

Track fast; weather fine and clear.

London, Eng., June 3.—Lured by the fact that at least half the horses are to run at Epsom Downs in the historic Derby to-day are considered possible winners, the largest crowd that has been seen in many years has found its way to Epsom Downs. Special trains from different points in the province landed scores of thousands of persons at the Downs early in the day, while over one hundred special trains left the various terminals in London, crammed to suffocation, for the famous race course.

The Derby was won by E. Ginstrell's Signorietta, by Chateaux, out of Signorina. The Duke of Portland's Primer was second, and Llangunn, owned by Barclay Walker, was third. Eighteen horses ran.

The betting on Signorietta was 100 to 1 against; on Primer 40 to 1 against, and on Llangunn 100 to 8 against.

It was a rank outsider, Signorietta, owned by E. Ginstrell and quoted in the betting at 100 to 1, that to-day defeated all the British, American and French crack colts and captured the Derby stakes, valued at £20,000, and the greatest prize of the turf world. The Italian horse simply cantered home from the hot favorites by two lengths.

A neck only divided the second horse, the Duke of Portland's Primer and the third, Barclay Walker's Llangunn.

Mercent led to the mile post, when August Belmont's Norman III. drew to the front. The American horse, however, going down the hill, was overhauled by Mountain Apple, Mountain Apple held the lead with Signorietta, Primer and Llangunn in close attendance until a quarter mile from home when Signorietta, the only filly in the race, came on with a dash and romped home the easiest of winners. Mountain Apple was fourth.

Walter Elliott, manager of the Britannia Baseball Club, has promised to give Manager Bradley, of the West End Pleasure Club, every assistance in picking City League stars if Manager Paige, of the Hamilton Tigers, accepts the challenge of the W. K. P. C.

Guelph, Ont., June 3.—(Special.)—With regard to the many stories that Guelph's International baseball franchise is to be shifted to Berlin, Manager Murray to-day states that at the present time there is little definite in these stories. He acknowledges, however, that the support here is not as good as looked for, and that unless there is an improvement the team may be moved. A meeting will probably be held next week to endeavor to form a local stock company and to create more local interest.

Early Closing. It has been our custom in past years to close our stores at one o'clock on Wednesdays during the months of June, July and August.

We find the mid-week holiday a pleasant rest during the warm weather, and our clerks appreciate it. On Wednesday we begin our early closing for this season, and our patrons can materially assist us by heeding this in mind and doing their shopping earlier in the day.—Peebles, Hobson Co., Limited.

They Go to Extremes. Your head and your feet are equally well treated at Hennessey's beauty parlor. Shampooing, hair dressing and scalp massage; corns and callouses painlessly removed, and that miserable tenderness overcome. Over Hennessey's drug store, 7 King street east. Phone 2581.

TEA TABLE GOSSIP.

The dates of the Dominion Exhibition, to be held at Calgary, are from June 29 to July 9.

Mr. William Drury, of the Station Hotel, has disposed of his business in this city and bought the Taylor House at Watford, Ont., where he will reside in future.

The Hamilton Jockey Club's permanent office, room 14, Court House building, is now open, where all business pertaining to the spring meeting can be transacted. Phone 1466.

Mrs. Innes, Hughson street north, left to-day for Scotland, to visit her parents, Mr. and Mrs. Cruekshank, of Aberdeen, who this month celebrate their golden wedding.

All friends of the Children's Aid Society should keep Friday afternoon free, so as to be at the annual meeting in the Y. M. C. A. lecture room. The meeting begins at 3.30 and will be short.

Mr. M. J. McGarvin, of the Collegiate Institute staff here, has been recommended by the management committee of the Toronto Board of Education for appointment as teacher of English history on the Toronto Collegiate staff.

Mrs. Catherine Cormack, widow of the late Mr. John Cormack, and a former resident of this city, died yesterday suddenly, in Toronto. The remains will be brought to this city for interment, the funeral taking place on the arrival of the 4.40 C. P. R. train at Hunter street station.

As usual, the letter carriers made a success of their moonlight excursion last night. The moon was not full, but the crescent in the western sky and the clear, pure air made the trip a delightful one. A band of the Thirtieth Regiment supplied music. About 800 enjoyed the outing.

The Times has received a copy of the "Proceedings of the jubilee celebration of the Hamilton Scientific Association, held at the Conservatory of Music, Nov. 8th, 1907." It is a handsome pamphlet, and contains many life-like portraits of the past presidents and one or two charter members. The papers of a reminiscence nature read by Mr. A. T. Freed, Mr. Witton and others and the remarks by Mr. Adam Brown are all highly interesting and worthy of preservation.

WINLOW

The farmers in this section are feeling very grateful over the outlook for an abundant harvest this season. Owing to the feeling of the electors at a public meeting which Mr. Jas. A. Ross, Conservative candidate for Monck, claimed as his meeting, he surely must have arrived at the conclusion that there were not many votes in Calistoga for him. The Liberal convention at St. Catharines on Saturday last was not very largely represented from this place, as St. Catharines is a very inconvenient place to get at from this part of the county.

Mr. Thomas Marshall, Liberal candidate for Monck, reports that his tour all over the county is one of the most pleasant and gratifying trips that he has ever experienced. Mr. Marshall will be the member for Monck instead of Hon. H. Harcourt.

The largest and most encouraging Liberal convention ever held in the county of Lincoln was held in the Grand Opera House at St. Catharines on Saturday last, when Mr. W. E. Woodruff was the unanimous choice of the convention as their standard bearer for the coming Dominion election. Mr. Woodruff is a fine young man, living in the city of St. Catharines, and owning large real estate in the county.

Mr. Wm. Griffin, of this place, attended the regular monthly meeting of the Bismarck Store Company on Saturday evening last.

Mr. and Mrs. J. A. Sarge visited at Dunville on Saturday last.

Hughrao Tom Marshall, who will succeed Hon. R. Harcourt in the Legislature.

A WONDERFUL SUCCESS.

Big White Sale at the Right House Attracts Thousands of People.

Thousands of people visited The Right House to-day, on the occasion of the opening of their great June white sale. The store was decorated with white goods and hundreds of price tickets on every floor told a saving story that was most interesting to every lover of economy.

And everywhere could be heard complimentary comments on the vast assortment and the remarkable values offered. Every woman in Hamilton and vicinity should visit these big white sales, at The Thomas C. Watkins store, to-morrow or following days.

Among the biggest and best of the sale displays were household linens, white muslin underwear, white blouses, wash shirts, monogram, and children's wash suits, embroideries, white muslins, laces, etc., etc.

SIR ROBERT REID DEAD.

Montreal, June 3.—The death took place at an early hour this morning of Sir Robert Gillespie Reid, one of Canada's wealthiest citizens, and a man who has been ranked with Strathearn, Mount Stephen, Angus McIntyre and others famous in the work of construction, which was essential to the present progress of the country's commerce. His Newfoundland operations probably made him better known. He was born in Scotland 66 years ago.

TORONTO'S ENGINEER.

Toronto, June 3.—Toronto wants its engineering department reorganized, and a sub-committee appointed by the City Council will take up the matter. The present proposition is to appoint the present engineer, Mr. C. H. Rust, a commissioner of works, and have a chief engineer under him. This would make Mr. Rust exclusive head of all the public works of the city.

Fralick & Co. Have Just Placed

In stock some of the noblest young men's suits seen this season, and for value they would be sold in most stores at \$25. For quick sale we've priced them at \$16. Take our word, these are great suits. We'll be pleased to have you see these nice suits.—Fralick & Co., 13 and 15 Jan 24 north.

THE DOMINION BANK

HAMILTON, ONT. 39 MacNab Street, Two Doors North of York St.

We solicit the accounts of manufacturers, business men and individuals, and shall be pleased to meet or correspond with those who contemplate making changes or opening new accounts. W. K. PEARCE, Manager.

THE WEATHER.

FORECASTS.—Light variable winds; fine, Thursday, easterly winds; fair and moderately warm.

Table with columns for location (Calgary, Winnipeg, Toronto, etc.) and weather conditions (Cloudy, Fair, etc.).

WEATHER NOTES.

Since yesterday the high area has spread toward the southeastward, and is now centered in the Middle States. The western low area has remained stationary, and is still to the westward of the Missouri. Local showers have occurred in the western provinces and in the Maritime Provinces. Elsewhere the weather has been fine. There is now a general tendency towards somewhat higher temperature.

Washington, June 3.—Forecasts: Eastern States and Northern New York: Partly cloudy to night; Thursday showers; light to fresh variable winds, becoming east.

Western New York: Showers to-night and Thursday. Lakes Erie and Ontario: Light to fresh east to southeast winds to-night and Thursday, with showers, except generally fair to-night on Ontario.

The following is the temperature as registered at Parke & Parke's drug store: 9 a. m., 70; 12 noon, 75; 2 p. m., 78. Lowest in 24 hours, 49; highest, 78.

THIS DATE LAST YEAR.

Moderate variable winds; fair.

JERSEYVILLE

Mrs. J. L. Swartz and Mrs. (Dr.) McAlister were in Brantford last week as delegates to the missionary convention. An enthusiastic meeting is reported.

Mr. and Mrs. J. M. Swartz have gone to Leithridge, Alta., via Toronto. Mr. Swartz is on the C. P. R. bridge building staff.

The Ladies' Aid of the Methodist Church have added a new cistern to the many church conveniences.

Mr. A. Stapleton's saw mill is about ready for business again.

Mr. Harry Haines has lost another horse. This is the third.

Mr. Kennedy, agent for a Colalt mining Co., has secured several subscribers for stock here.

Mr. Scott Watt has disposed of his fancy matched black team for a good figure.

The Dymont Bros., who are extensive potato growers, having had some forty acres under crop, shipped a car from the T. H. & B. station.

Tenders for Fog Alarm Machinery

TENDERS addressed to the undersigned at Ottawa and endorsed on the envelope "Tender for Fog Alarm Machinery" will be received up to noon of the FIRST DAY OF JULY, 1908, for supplying the machinery required by the Department of Marine and Fisheries, for fog alarm purposes during a period of one or three years, at the option of the Minister of Marine and Fisheries. Specifications of the machinery can be procured at the Department here; at the Agents of the Department at Montreal, Quebec, St. John, N. B., Halifax, N. S., Charlottetown, P. E. I., Victoria, B. C., at the Government Shipyards at Sorel, and the Prescott Lighthouse Dept.

Each tender must be accompanied by an accepted bank cheque for the sum of five hundred dollars, payable to the order of the Minister of Marine and Fisheries. The cheque will be forfeited if the party whose tender is accepted declines to enter into a contract to furnish the machinery, or fails to carry out the contract. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender. Newspapers copying this advertisement without authority from the Department will not be paid. G. J. DESBARATS, Acting Deputy Minister of Marine and Fisheries, Department of Marine and Fisheries, Ottawa, Canada, 28th May, 1908.
