At the latter place a number of Placentis Pay and St. Mary's Bay boats have fair catches which they sold to the Gordon Pew Co's, schooner which is buying fish salted in Trepassey Bay She has now equal to between 70 and 800 otis, dry after a wee's stay i the bay. Along the Southern Sho the boats are doing as well as, or i fact beter than they did at any time during the summer. Monday night Fermuse presented a spectacle which would charm the heart of any true Newfoundland fisherman. All the stages were aglow with light while the big catches taken that afternoon were being split, headed, and put away in the sait bulks and the prospects for a good voyage there are very bright indeed as the Gordon Pew Co's, vessel in Trepassey the agent is buying \$5.00 for 112 lbs. green, which is equal to \$5.70 tal qual er in effect \$5.30 buying prices plus making and shipping 40 cents, while large merchantable in St. John's brings \$5.50 per quintal.
