For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine -Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:-

North Crandon, Wis. - "When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what'to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.-"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

Usefulness Prolonged!

Before the Dry Cleaning Process was introduced, when wearing apparel had become soiled, It had to be cast aside as useless; household Draperies, Laces and a thousand and one items of personal, wear and domestic use were similarly treated; but to-day with the vastly improved method of Cleaning and Renovating, they can be restored from time to time to their pristine freshness, and their beauty and usefulness thereby prolonged threefold.

[For The Evening Telegram.] After a long silence we wish to say to our friends in the city that everybody is not yet dead in Clarenville. It is true that some are gone to the war and are nobly standing by the interests of the Empire in the great fight for supremacy now raging. We think there must be involved in the fight an intense desire for supremacy a desire for victory over opponents ut that is the subordinate side of the uestion—the great predominant dea is to ward off ambitious designs and iniquitions towards the Empire, and bind the nations together, the vicorious nations, in a bond of brother good and establish truth and rightcousness in the earth. I think I ought to say that Mr. Snow, of the Reid Company's Office and has proved himself a valuable and also a prominent participant of the Muhere and Mr. Blandford, the Customs' tual and also a prominent participant officer, gave good service and were very highly appreciated at the meet-ing. Revolvers are making this country very unhealthy, and they will continue to do so until a law is passed forbidding their sale to fools, criminals, quick-tempered men, nervous men and cowards. LIGHT, HEAT, COMFORT!

The proprietor of one of the best known multiple shopping systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them, I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is—well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable air of welcome and invitation as one stands for a moment on the pathway and lets one's gaze travel inside it. The subdued, restful fighting effect that so charms because of its very unobtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experiencing a delicious sense of warmth and comfort and cheerfulness—all these are part of its appeal. Truly a shop with an individuality.

We cordially invite all progressive business men to visit our showroom and see our latest Lighting and Heating Appliances, by the adoption of which the ideal outline in the above extract from a London paper may be easily secured. Our new RADIO X. Lamp and, GASTEAM Radiators fill all light and heat re-quirements.
