

LARGE INFLATION INCREASE

CANADIAN SOLDIERS' PENSIONS INCREASED 25 TO 40 PER CENT; CLASSIFICATIONS ARE CHANGED

All Pensioners from Privates to Lieutenants Will Benefit by Increased Allowance; Change in Classification Adds to Pensions of Partially Disabled Soldiers

Ottawa, Oct. 22.—Sir Thomas White, minister of finance, today gave out the following statement:
"Upon the recommendation of the minister of finance, the pension regulations applying to members of the Canadian expeditionary forces have been amended by order-in-council, approved by his excellency the governor-general.
"The amendments made are far-reaching in their effect. They provide for an increase in pensions and allowances to, and in respect of, soldiers and sailors holding the lower ranks, up to and including the rank of sub-lieutenant in the Canadian navy, and lieutenant in the Canadian expeditionary force.
"The most important changes provide for increases in pensions and allowances. These changes will be considered as having come into force on April 1, 1917, and in this way all pensioners will be entitled to an extra cheque covering the difference between the pension paid since April 1 and the date on which the adjustment is made. The changes will affect the pensions of soldiers and sailors and their children, their orphan children, their widows and children, their dependent parents and their younger brothers and sisters. The total increase in the amount payable by Canada for pensions and allowances will be approximately 40 per cent. At the present time the annual expenditure involved is about five million dollars. With the increases now authorized, Canada's outlay for pensions will be over seven million dollars during the fiscal year.
"Changed to 20 Classes
"A second change made is only slightly less important. It provides that disabilities shall be divided into 20 classes instead of six classes. In the future disabled men will be certain to receive a pension based on the number of months of the disability which they suffer.
"A third important change is the authorization of an annual allowance for a married disabled pensioner. Up to the present time the unmarried man received the same pension for disability as the married man.
"Those holding the rank of sub-lieutenant in the Canadian navy and lieutenant in the Canadian expeditionary force, or a lower rank, will be entitled in all cases to a 25 per cent increase in pension. This 25 per cent increase in pension in a large number of cases will be again increased by the fact that disabilities in the future will be classified in 20 classes instead of six classes. This will result in a difference of 20 per cent in disability allowances between classes. For instance, a private disabled 75 per cent has been receiving a pension of \$10 per month. This is to say, a class-3 pension, which class includes all those disabled below 75 per cent in disability."

FRENCH CABINET RESIGNS
Paris, Oct. 22.—The cabinet resigned today. President Poincaré, however, refused to accept the resignation on the ground that the cabinet Friday had voted confidence in the ministry.

CADET KILLED
Belleville, Ont., Oct. 22.—Flight Cadet Rosok, of Chicago, a member of the Belleville aviation club, was killed yesterday when the airplane he was operating fell 500 feet.

BOMBARD OSTEND AGAIN
London, Oct. 22.—British forces carried out a bombardment of the naval works at Ostend yesterday. It was announced today. Photographs taken show the results of the bombardment to have been satisfactory.

REFUSES RESIGNATION
Amsterdam, Oct. 22.—The Vossische Zeitung says that in well informed circles it is understood that the German emperor has refused to accept Vice-Admiral von Capelle's resignation as minister of marine.

WILL TRAIN AT FORT WORTH
Victoria, Oct. 22.—Military authorities here were advised today that during the winter all Canadian members of the aviation corps will be trained near Fort Worth, Texas, although a number of them are now in Toronto for six weeks' theoretical work. Already Camp Borden is being denuded of its occupants as training there will be impossible during winter.

ARE ALL UNIONISTS
Winnipeg, Oct. 22.—So far as the Conservative party in Winnipeg is concerned, said W. J. Bulman, president of the Winnipeg Conservative association, today, "it is now a unionist party. The old Conservative party exists. We are all unionists."

MAGLEAN ENTERS UNION CABINET AS N.S. REPRESENTATIVE

Will Head One of the Cabinet Committees in the New Government
Winnipeg, Oct. 22.—In a dispatch tonight from Ottawa corresponding to the Free Press says:
"A. K. Maclean, M.P. for Halifax, will be sworn in as minister without portfolio in the new union government tomorrow morning. Thus will Nova Scotia Liberalism be represented in the cabinet. Mr. Maclean will not have the care of a department, but will be made chairman of one of the committees of cabinet, forewarned in the manifesto recently issued by Sir Robert Borden. One committee is to consider straight war problems and the other domestic to problems arising out of the war. It is of the latter that Mr. Maclean will probably be made the head. There is no nearly attached to a minister without portfolio, but it is believed an emolument will be attached to the chairmanship in question."

UNION MEMBERS OPEN CAMPAIGN; GOOD RECEPTION

FIRST SHOT FIRED FOR THE UNION GOVERNMENT AT WINNIPEG; MESSRS. CALDER, CRERAR AND MEIGHEN ADDRESS TREMENDOUS GATHERING
Winnipeg, Oct. 22.—Five thousand people filled the convention hall of the Industrial Bureau tonight and cheered to the echo the exposition of the aims of the union government made by the three members, Hon. J. A. Calder, minister of immigration; Hon. T. A. Crerar, minister of agriculture, and Hon. Arthur Meighen, minister of the interior.
Mr. Crerar, included in the cabinet as representative of the great western grain growers' associations, spoke first, declaring that although he had felt his duty to enter a union government, he sacrificed none of his principles, particularly in regard to the tariff. But he realized that these matters must be subordinated to the supreme task before them.
Next Mr. Meighen, secretary of state in the Borden government, and well known to Winnipeg audiences, struck a high and impressive note. "The government," he said amid tumultuous applause, "the government on whose behalf we speak tonight is built on the rock of compulsory service, and on that rock we stand or fall." Mr. Meighen made a stirring appeal for support in the coming contest, such a verdict of the electorate as would strengthen the hand of the union government in the heavy task that lay before it.
Shows Contrast
Mr. Calder, who spoke last, through his long and honorable association with the government of the sister province of Saskatchewan, had many warm friends in the audience, and he struck a responsive note at once when he spoke of the strange circumstances under which he should be on that platform in Mr. Meighen's quintessence of Toryism, and in himself, of Gritism. While in Mr. Crerar they had the leader of independent western thought. The war was a strange fact that brought these things about. There was said Mr. Calder, only one thing before them—the winning of the war. And that end the majority of the people of Canada were pledged.
For his old leader, Sir Wilfrid Laurier, he had the greatest respect and admiration, but on this cause they were united. (Great applause.)
In making an earnest appeal for a parting of the patronage evil, Mr. Calder stated specifically that only the union government remained.
Sir Augustus Nanton, President of the party government apparently was favorable during times of peace, but this was not a time of peace, and he was sure the feeling of the country was at least during the war, that the union government was best. (Applause.) Canada could not do better than follow the form of government

GERMANS TO BE PAID IN FULL AND RUNNING OVER

Two Retaliating Raids Already Made and Many More to Come; Home Secretary Makes Statement
London, Oct. 22.—In the house of commons today Sir George Cave, home secretary, said that Friday night's air raid would be paid in full and the British anti-aircraft service, it should be remembered that when these Zeppelins were over France they were flying by daylight and at a lower altitude than that at which they kept while over England.
Paid in Full and Over
The government had already announced its intention of bombing German towns until an end was put to such cold-blooded attempts by the Germans in the British zone of occupation. Two such attacks had already been made and the house could rest assured that the process would be continued until this purpose was attained.
The home secretary stated that the government had arranged to hold a naval inquiry into all the circumstances in connection with the successful German attack recently made on neutral ships protected by two destroyers. He refused to entertain a suggestion that the matter should be the subject of an inquiry.

GERMANY ADMITS LOSS OF 4 ZEPPELS

Claims Raiding Squadron Had Special Success in England
Amsterdam, Oct. 22.—The loss of four Zeppelins in an air raid on London, which was received here from Berlin. An airship squadron, the statement says, attacked London, Manchester, Birmingham, Nottingham, Derby, Lowestoft, Hull, Grimsby and Norwich. On the return journey owing to an adverse wind and dense mist, four ships under Captains Stubbart, Cooke, Hansmer and Schwander passed over the French battle zones where, according to French news, they were shot down or forced to land. No details regarding the fate of the vessels or their crews are available at present."

BEATING OFF GERMAN AIR RAIDERS FROM THE ENGLISH COAST
There is waiting for the Hun aviator who comes within range of this British gun an exceedingly warm welcome. The gun and its crew are stationed somewhere along the east coast of England, and they are on the lookout for manifestations of ruthlessness from the air. This anti-aircraft piece is evidently a naval gun for it is manned by a gun crew of sailors. It is mounted on a railway truck, and is mobile, so that it can be brought into action wherever danger from the air threatens. The photo shows the crew loading it for use against the German airmen.

JOINT ATTACK BY FRENCH AND BRITISH GAINS MUCH TERRITORY

ADVANCE WAS MADE NORTHEAST OF YPRES; BRITISH GO BEYOND OBJECTIVES; RUSSIAN FLEET GAINS STRONG POSITION
The British and French forces in Belgium have delivered another attack against the German front northeast of Ypres and have captured all their objectives, consisting of many strong positions. The offensive was launched southeast of Poecapelle and northward along the southern border of the Houtholst forest. The fighting front covered a distance of about a mile and a half, with the French operating on the northern and the British on the southern end. Near Poecapelle the British drove on beyond their objectives and gained important positions. The French troops took the south defenses of the Houtholst forest, and in addition a series of fortified farms.

The attack began, as has been customary, in the early hours of the morning, following a heavy bombardment of the German positions, and apparently the allies met with only slight resistance. The gains of ground were quickly made and afterward there was only a feeble reaction by the Germans. The violent artillery duels between the French and the Germans along the Aisne sector and on the Verdun front continues, but the infantry of neither side has done anything more than carry out small raiding operations.
Likewise, in the Austro-Italian area and in Macedonia bombardments prevail almost exclusively, although in the latter region the British and French troops daily are carrying out successful raids into enemy territory.

SLAV FLEET IS NOW SAFE

The Russian Gulf of Riga fleet, which last week apparently was bottled up in Moon sound by the German naval forces, has made its way out of the sound and is now guarding the northern entrance to the sound off Worms island. The Russian vessels made their escape without further losses than the battleship Slava, which was sunk in a naval engagement last Wednesday, and two other vessels, presumably transports, which went ashore. From its new position the fleet is so situated so that it may make a dash for the Gulf of Finland around the western Estonian coast, or, if menaced by attack from the greatly superior German units, take refuge again in the waters of Moon sound and play hide-and-seek with the enemy.

Meanwhile, the Germans have landed forces on the Estonia coast, pressed back the Russian right wing slightly and occupied the western portion of the Werder peninsula. That a larger landing along this coast is anticipated is indicated by the statement in the Russian official communication that Russian patrol boats have been in the vicinity of the Gulf of Riga large enemy naval forces conveying transports. More than 1,200 additional prisoners were taken by the Germans in the conquest of Dago island, where also large numbers of guns and quantities of war stores also fell into their hands.

REGINA LIBERALS WILL SUPPORT UNION GOVERNMENT

Express Their Confidence in Hon. J. A. Calder and Will Tender Him Nomination
Regina, Oct. 22.—"We as an executive of the Regina City Liberal association declare our intention of supporting the union government."
In the above terms the executive of the Regina City Liberal association at a meeting this evening unanimously passed a resolution presented expressing its intention of supporting union government.
A second resolution was likewise unanimously adopted in the following terms:
"This executive expresses its confidence in Hon. J. A. Calder, minister of immigration and colonization, and trusts that he will allow his name to be placed in nomination as a candidate for the federal constituency of Regina, and should he do so we pledge our hearty support."
A representative committee was appointed to wait on Mr. Calder and present this resolution and urge him to allow his name to be placed in nomination for the Regina, federal seat.

FOOD CONTROLLER ABOLISHES ALL PACKAGE CEREALS

Order-in-Council Prohibits Sale of Any Cereal in Package of Less Than 20 Pounds; Effective Dec. 1

STOCKS ON HAND

Wholesalers and Retailers Given Limited Time to Dispose of All Stocks of Package Cereals; Food to Be Sold Net Weight to Consumer
Ottawa, Oct. 22.—In order to eliminate the waste in packages and the increase in cost to the consumer involved in the trade in small packages of breakfast foods, cereals and cereal products, an order-in-council has been passed, upon the recommendation of the food controller, prohibiting the sale, after a specified date, unless necessary in the interest of the public, of any food in original packages of less weight than 20 pounds. In special cases the food controller may license the sale in smaller packages if necessary in the interest of the public.
Manufacturers and wholesale dealers are given until Nov. 1 to dispose of their stocks, but on and after that date they must not offer for sale in Canada "any foods known as breakfast foods, or cereals or flour or other foods which are the product of wheat, oats, barley, rye, rice, peas, beans, buckwheat, Italian corn (maize) or lentils in original packages of less weight than 20 lbs." In the case of retail dealers, the prohibition of sale is effective on and after Dec. 1.
The order-in-council requires that all the food enumerated "shall be sold by the pound or ton and shall be net weight to the purchaser."
Violation of the regulation is made an offense, and the penalty provided is a fine of not less than \$10, and not exceeding \$50, or imprisonment for any term not exceeding six months, or both fine and imprisonment.

BRITISH LAUNCH CAMPAIGN FOR NATIONAL ECONOMY

Lloyd George and Bonar Law Address Large Gathering in Albert Hall; Determined to Win
London, Oct. 22.—(Via Reuters' Ottawa Agency).—David Lloyd George, prime minister, and Andrew Bonar Law, chancellor of the exchequer, today launched a great campaign for national economy at a meeting in the Albert Hall, London, which was an enormous gathering, which, moreover, was representative of the empire and included the agents-general of the overseas dominions.
The prime minister said: "The magnitude and enthusiasm of this great meeting, held in the fourth year of the war, is the best proof of the determination of the country to prosecute the war until victory rests on the banners of our land. (Cheers.) The success of the last war loan, the most successful war loan of its source, is very largely attributable to the work of our saving committees and their 100,000 workers, and the state and country and the allies owe them a deep debt of gratitude for the work they have done. We had anxious moments during the spring owing to the failure of one or two of the harvests and the apprehensions we felt in regard to the submarine menace. At that moment the further services rendered by these committees and throughout the country had the effect of saving our food supplies by something between five and seven per cent. That in itself represents a saving of hundreds of thousands of tons, an important matter in this campaign. (Cheers.)"
"We propose to ask all the workers associated with these committees to"

FAVORS WINNING THE WAR, OPPOSES CONSCRIPTION ACT

Lemieux Holds Meeting at Longueuil; Candidate Selected Is Tired of War, But Refuses to Fight
Montreal, Oct. 22.—Hon. Rudolph Lemieux, speaking at a Liberal convention at the town hall of Longueuil this afternoon, when Joseph Archambault, K.C., a well-known lawyer of this city, was chosen as the party candidate for parliament in the federal county of Chambly-Vercheres, said he believed conscription to be a camouflage, under which "Rule Britannia" should be sung, and Quebec insulted as a province of strikers and slackers, while the government would point to Toronto, Hamilton and other places as having given many men. This would be a libel on Quebec, he declared. He was told that there were 25,000 French-Canadian troops abroad, and each day French-Canadian figures in the casualty list. While he was pleased to see his only son take up arms to fight for ideals of justice, he would have regretted to have seen the hand of a sergeant laid on his boy to compel him to fight. "That is my idea of the service that Canadians could render in this war," he said, and he claimed that conscription was unnecessary.
Hon. Mr. Lemieux summed up with a tribute to Sir Wilfrid Laurier as follows: "Laurier is a Liberal, a Canadian patriot; above all, he is Laurier."
He urged the most of class "A" to go before the examining boards so as not to lose their votes, as they might be disfranchised if they did not go, and he said he had brought a message from Sir Wilfrid, which was: "Obey the military service act."

The torpedo struck the ship at a quarter to 7 on Wednesday morning. Many of those on board were killed in their deaths and others while dressing. The explosion killed the engineer, officers and mechanics and those of the crew who were in the dining below.

Wholesale Fruit Dealers Register
All Wholesale Firms Must Register by November 1
Ottawa, Oct. 22.—Announcement was made today that all wholesale dealers in fruit and vegetables must register with the office of the food controller by November 1. By order-in-council of October 11, the food controller was given authority to require such registration. Dealers failing to register make themselves liable to a fine of \$1,000, or imprisonment for three months, or both fine and imprisonment. The term "wholesale dealer" includes all persons handling fruit and vegetables between the bona fide grower and the bona fide retail dealer.

Shows Contrast
The mother country had thought necessary to adopt. A great thing had been done by sacrificing political feeling in forming this union government, and he hoped it would continue, even after the war. At any rate, he considered they should give union government a fair trial. "Conscription, in my opinion, is wrong in time of peace," said the speaker. "In time of war, such as the present, it should be promptly and vigorously enforced."
(Applause.)

RUBY BOB GOES DOWN AND OUT; FITZSIMMONS DEAD

Greatest Pugilist the World Ever Saw Is Counted Out in Chicago Hospital After Hard Battle

Chicago, Oct. 22.—Robert Fitzsimmons, former champion heavyweight pugilist, died early today of pneumonia after an illness of five days. The former champion was taken sick last Tuesday, while appearing in a vaudeville theater, and his illness was at first diagnosed as pneumonia poisoning. Later it was discovered that he was suffering from lobal pneumonia, and physicians declared that he could not live. His remarkable vitality sustained him until Saturday, when he lapsed into unconsciousness from which he did not rally except at rare intervals.

Robert Fitzsimmons was born in Helston, Cornwall, England, June 4, 1862. His parents shortly afterward moved to New Zealand. Fitz started work in his father's blacksmith shop and at the age of 18 gained fame for his dexterity in swinging a heavy hammer and fashioning of horse shoes. It was said he could shape two while two others made one.

Never Refused a Fight

Naturally athletic, Fitzsimmons engaged in all kinds of sport. Before taking up boxing he was a hammer thrower and long distance runner. His speed and endurance were so marvellous that he was given to hunting kangaroos about. The former champion's rig career began as the winner of a light-weight competition promoted by Jim Macleod, at Timaru, New Zealand, in 1880. He defeated four men, knocking out three of them, and thus became the amateur champion of the country. The next year he defeated his heaviest weight champion, by a rare feat, defeating five opponents in one night.

Fitzsimmons continued at the forge for the next six or seven years, but was always ready to fight. After fighting three battles with Jim Hall, then regarded as the middleweight champion of Australia, Fitzsimmons came to America in 1890. He was one of the lightest men to win the heavy-weight championship. He rarely weighed more than 165 pounds when in condition and gave away as much as 50 pounds to some opponents.

Fitzsimmons won the world's heavy-weight title in 1897, when he defeated James J. Corbett in the fourteenth round of their memorable battle at Carson City, Nevada. He stopped Corbett with his famous "flat" right, which he used as his main weapon. For two years he held the honor, losing it to James J. Jeffries, when he was knocked out in the eleventh round, June 9, 1899, at Coney Island, New York. In 1902 he met Jeffries again, hoping to regain the crown, but after having the better of the California giant on points, Fitzsimmons went down to defeat in the eighth round. Funeral services for the dead fighter will be held at the Moody Tabernacle, Wednesday. Burial will be at Grace-land cemetery.

PRESENT DAY CHAMPS COMPARED TO FITZ; A GAME FIGHTER

Met 'Em All, Fought for the Love of the Game; as an Old Man Gave Lang 12 Hard Rounds in Australia

The passing of Bob Fitzsimmons over the great divide—Fitz going down for the count of ten against the resilient foe—will bring back to many Calgary fight fans memories of the days of real sport. Real sport, when well-trained men fought the fight for the title, without the assistance of a \$100,000 movie plant; when the fight was not one of the greatest lines of commercialism, and when men fought because they liked the game and the purses were a mere grubstake as compared with the money being up for a battle of second rate snappers in the present period.

WAITING FOR YOUR CALL

(Maj.-Gen. T. W. Bliss of the American Army, in Association Men.)
What shall the conscripted man do between now and his going to the cantonments to fit himself mentally for the war? He has no time now to study books and learn the theory of what he will soon be learning by practice. But it is the mental and moral attitude in which he approaches his new duty that will constitute his best preparation for it. Let him read and do whatever will strengthen his devotion to the ideals of his country; that will make him realize that in his individual hands has been placed the honor of his family and his people and that he must bring it back unstained except perhaps, it is reddened by his blood in defense of it. Let him read what will make him resolve that, in fighting to the end a war for justice and humanity, he shall not come back with the knowledge that he has wantonly done anything to add to the brutality and savagery of it. More than all, let him read those things that were read to him at his mother's knees, that will help him to keep a clean spirit in a clean body, so that if the time should come when he has to pay the last full measure of devotion it will be a sacrifice without stain or blemish that he will lay on his country's altar.

THE LIBERAL MINISTERS
Liberals in Alberta seem less ready
to accept the union government than
the Conservatives, probably because
they have less confidence in the leader
of it. A large percentage of the Lib-

careful and honest examination
of the new members of the cabinet
should lead to a different conclusion.
Premier Murray declines to become
a member of the new administration.

Mr. Fielding made one of the
strongest men in that administration
and was always a Liberal. He was
the creator of the British preference
act, which the Liberal party, to its
credit, accepted even though it led to
its defeat.

There is one exponent of Liberalism
in the province of Ontario who has
stood closer to the true principles
of the party than any other it is N.
W. Rowell. He has made many
speeches for the party and for his
country. He is making a personal sacrifice
without doubt, in going to the
Dominion government.

Mr. Calder, in Saskatchewan, has
been a successful administrator and
of the sort of a man who is going
to sacrifice principles for any office
he might get.

same people see the trail of the big
interests. They are too critical.
Whatever may be the fault of the
union government, this much is cer-
tain, that it is really a union govern-
ment as far as the two old parties are
concerned. The Liberals have no
serious complaint to offer, and they
have no good reason for suspecting
the motives of the newly-appointed
members of the cabinet.

FORFEITED GERMAN
APPROVAL

Germans, must have had a moment
of satisfaction when they read—if
they were allowed to read—the
report of the speeches delivered at the
National Socialist congress in session
at Bordeaux. For, early in the
proceedings, one of the orators an-
nounced, with the apparent approval
of all his hearers, that it would be
useless at this time to raise or dis-
cuss the question of starting the war.

As the truth of that assertion
seemed self-evident to the delegates
who heard it, the whole German case,
in effect, was thrown out of court by
these French Socialists. Therein
they agree with the whole non-Teu-
tonic world, or with so much of it
that the remainder is undeserving of
consideration from anybody except
professional mathematicians. The
facts with regard to the starting of
the war are indeed on record, and
the record can never be changed.

THE GERMANS can say, accurately
enough, that they are fighting in self-
defense now, but their contention that
the war was forced on them is ver-
aciously only if they mean that there
would have been no war had there
been no opposition to their advance
against their neighbors. And that,
really, is what they do mean—that
it is this man whose public life has been
pure and above reproach, no person
can say a word. Surely he will not
surrender to an opponent merely to
get into a cabinet and assume the re-
sponsibilities of office.

Frank Carvell is a stalwart Liberal,
a fighting Liberal, one of the strong-
est forces in the opposition, since the
party went into opposition. He is a
supporter of his party and a stronger
supporter of Liberal principles. He
is a true representative of the Liberal
party.

There are some tall yellow flowers, very
much like mustard, and the reddish
brown seed of the dock plant adds to
the effect. Here and there are large
pools of water, caused by the shell
holes. The trees, too, that were blown
to bits have thrown out shoots to cover
up the ugly stumps. The uneven na-
ture of the ground adds a great deal
to the beauty of the scene; truly a
most lovely wild garden. Last year it
was a horrible inferno; this year a
veritable paradise. It proves what the
Great Gardener can do.

LETTERS TO
THE EDITOR

THE "WIN-THE-WAR" MEETING
Editor Albertan—No intelligent person
will doubt Dr. Lafferty's patriotism, his
liberalism, or his honest endeavor to
forward what he believes to be the best
interests of the country. It is to be re-
gretted, however, that, by implication, he
places everyone who does not agree with
him as being against winning the war,
or having wrong ideas of winning the
war. The fault is not his. The phrase,
"and those who profess to serve us,"
discredited government, which, knowing
full well that the country would do it if
it had an opportunity, to make a show
of patriotism. I take every opportunity
to say that the common people of Canada
are opposed to the war. Everywhere I
find the utmost determination to do
everything that will help to defeat tru-
sianism in Flanders and in Canada.

THE GERMANS can say, accurately
enough, that they are fighting in self-
defense now, but their contention that
the war was forced on them is ver-
aciously only if they mean that there
would have been no war had there
been no opposition to their advance
against their neighbors. And that,
really, is what they do mean—that
it is this man whose public life has been
pure and above reproach, no person

sponsibilities of office.

HEALTHY ADVICE
FOR BACON KNIGHT
BY TORONTO PRESS

Editorial Comment of News
and Globe Advises Sir Joseph
Where to Head In;
Flavelle Hit by Boomer-
ang
Toronto, Oct. 22.—Discussing Sir
Joseph Flavelle's statement in the wit-
ness box admitting responsibility for
the operations of William Davies Com-
pany, resulting in huge profits, the
Globe editorially says:
"Abnormal profits can be made in
war time without violating the estab-
lished code of business ethics, but it
is wise to do so with a view to the
welfare of many, and of the effect upon
the public mind? After the war, too, when
colossal debts must be paid out of the
labor of millions as a ransom for deliv-
erance from the Hun, the making
of large fortunes may be regarded as
distinctly anti-social, and every man
held to account for his wealth. Per-
haps one of the duties of the war will
be to see that the code of the world of business
and a new social dispensation in which
the rule of conduct will approximate
to that so picturesquely advocated by
Sir Joseph Flavelle himself when he
admitted munition makers to con-
sign their profits to a warmer region."

PROFITS TO PATRIOTIC FUNDS
Toronto, Oct. 22.—The News says editorially
in regard to the "Flavelle case":
"Let the nation concede that the Wil-
liam Davies Company has made its
large war profits out of a small profit
on a huge turnover. Let it be granted
that if the company had been content
with no profits the Canadian consumer
would have got his bacon no cheaper.
But if the public goes this far would
it not be good business for the com-
pany and Sir Joseph Flavelle to trans-
fer to the state all or most of their war
profits after deducting their expendi-
ture on war plant, the war taxes they
have paid and the contributions they
have made to the patriotic and other
relief funds. The adoption of such a
course and the pensions board
and that official action is likely to be
taken at any time. Members of the pen-
sions board today would neither deny nor
confirm the statement that there is to be
a general increase in pensions of 25 per
cent, but they indicated that steps would
soon be taken to implement the promise
made by Sir Robert Borden that at an
early date an increase in pensions would
be authorized upon a percentage basis.
According to the prime minister's state-
ment the percentage increase would be a
temporary solution of the problem which
would be finally dealt with by the new
parliament to be elected.

TORONTO'S MOST UNIQUE WEDDING

The BRIDE and GROOM.

An "ANTI-AIRCRAFT" BATTERY

The BRIDE'S V.A.D. ASSOCIATES

COMING OUT of the CHURCH.

When Miss Margaret Burden became the bride of Major W. A. Bishop, V.C., last Wednesday in the Eaton Memorial church, Toronto, unprecedented crowds were there to witness the event. An interesting feature was the presence of a corps of V.A.D. nurses under Dr. Margaret Paterson from the Spadina military hospital, where Miss Burden had served with them. An interesting sidelight on the wedding is that the maid of honor, Miss Greta Burden, sister of the bride, is to wed the best man, Sergt.-Major Errol Smith.

WILLIAMS AND BULL ENDORSED BY RATEPAYERS

Calgary Ratepayers' Ass'n Endorses Slate for School Board and City Council

At the meeting of the South Calgary Ratepayers' association held last night, it was decided to widen its borders to include Bankview, Royal Sunnata, Sunnata, West Calgary and Knob Hill subdivisions.

The Women's Ratepayers' association having expressed its willingness to unite with the association, a joint meeting of the two will be held Monday, November 5, for the purpose of reorganization.

W. A. Geddes, president of the association, was asked to run for the council, but on his expressing a preference for the school board, it was decided to nominate him for that position. The association also endorsed the nomination of F. G. Bull and Geo. E. Williams for the aldermanic board.

NORTH SEA ATTACK HARSHLY CRITICIZED

British Press Comment on the Lack of Naval Control

London, Oct. 22.—The newspapers take two divergent lines of criticism regarding the attack on the convoyed merchantmen in the North sea. According to one view the incident was one that no foresight or vigilance could avert, and although regrettable in every way, cannot exercise any decisive effect.

On the other hand some newspapers ask what has become of the British command of the North sea. One newspaper comments as follows:

"The occurrence is extremely disquieting. With the whole American navy working in conjunction with ours and with our patrol relieved completely of the task of searching vessels coming from America, we ought to have an ample margin of security against such mischances."

INCIDENTS OF SEA AND AIR CRAFT IN FIGHTING U-BOATS

The Air Vessels Accomplish Much in Spotting Under-Sea Pirates and in Dropping Bombs; Heroic Deed of Patrol Officer

TOWED MINE

Officer Went Overboard, Swam to a Mine and Attached Rope; Mine Was Then Brought to Smooth Water and Exploded

London, Oct. 22.—The following incidents surrounding the anti-U-boat warfare have been taken from recent admiralty records:

"One of our coastal airships sighted a German submarine. It was found that the submarine had been torpedoed but that she was towable. The airship summoned tugs by wireless and accompanied them toward the vessel. While thus proceeding the airship sighted a U-boat about ten miles southeast of the airship. The airship instantly wirelessed the position of the submarine to all the warships in the vicinity and then swooped down to attack. The submarine dived, but it was too late. Two bombs were dropped simultaneously in front of the U-boat's descent and violent explosions were followed by oil and air bubbles in large quantities. A destroyer with sweeps located a large dereliction on the bottom.

"The airship then conveyed a large towed mine to the track of a submarine aimed at one of the merchantmen. The submarine, relying on the airship for concealment, had dived beneath the armed escort and torpedoed its victim. The weather was very bad, but the airship, at a speed of 90 miles an hour, followed the residual track of the torpedo until it sighted the outline of the submarine proceeding westward.

"The airship turned and released bombs along the sinister shadow. The explosion was followed by a vast emission of air bubbles. A calcium flare was dropped to mark the spot, and patrol boats made a search for the submarine by depth charges.

"A British officer was torpedoed at dawn in very thick weather. A patrol ship circled round at high speed, endeavoring to sight the enemy. After a quarter of an hour an object was sighted through the thick mist on the starboard. The patrol promptly altered its course and rammed a large submarine about the conning tower. The U-boat rolled completely over with a violent explosion and vanished. Two men were seen struggling in the water, one of whom was made prisoner.

"The British officer commanding a motor launch sighted a drifting mine while a heavy sea was running. Attempts to sink the mine by gunfire failed. Darkness was approaching after which the mine would have been lost to sight and would have drifted away, menacing navigation. The officer lowered a boat and pulled toward the mine, which now and then was visible as a wave broke in over its round top and sinister horns. Having pulled as close as he dared, the officer jumped overboard and swam to the mine with a line, which he passed through the ring bolt on top, enabling him to draw the mine into smooth water, where it was destroyed.

"The officer's act was one of great daring as the ring bolt could only be reached with the greatest difficulty and a mistake or an inadvertent touch of one of the horns would have brought the episode to a swift conclusion."

SUCH A COUNTRY

Vancouver, Oct. 22.—The disabled Camouon of the Union Steamship Company arrived here in tow from Bella Coola and brings news of the serious floods in that locality. Houses, bridges and settlers' stock were washed away. One settler who had recently imported twenty pigs had thirty of them carried away by the water. The remaining forty were destroyed in the floods. The Camouon's propeller was stripped through striking wreckage carried down by floods.

SENATOR'S SON INDICTED

Madison, Wis., Oct. 22.—A federal grand jury indictment has been returned against Byron Nelson, son of Congressman John M. Nelson, charging him with an attempt to evade the draft law. He is now in Springfield, Canada. Nelson is charged with going to Canada last May to evade registration for the national army. Since that time he has been at work here on his father's farm.

FIRST CHAPTER OF "The Great Secret" LIBERTY THEATER, TODAY

CIVIC CONTROLLER'S REPORT

In a report to the special committee on finance, City Comptroller W. C. Wood, in dealing with revenues, expenditures and estimates of the city, states that in the case of schools and hospitals, if they were under the control of the city council, it is probable, by consolidation with other departments and reorganization, large savings could be effected. In the fire department it is expected that a slight increase may be made, and in the police department, as compared with the expenditures of 1914, there has been a decrease of over one-half. In 1918 a small increase may be expected.

PRISONERS OF WAR TO BE LOOKED AFTER AT CHRISTMAS

Red Cross Society Will Provide Compensation for Lack of Parcels

Many inquiries are being received by the Red Cross with reference to Christmas parcels for prisoners of war. For the information of the public, a cable has been sent by Mrs. Rivers Bulkeley of prisoners-of-war department, London, Eng., stating what is being done for them. No additional parcels are allowed to be sent to prisoners of war, but the cable reads as follows: "Substituting parcel with special contents, Christmas pudding, etc., costing 13s. 6d., for one of our usual ones."

GARBAGE TAX

Montreal, Oct. 22.—Mayor Mercur Martin proposes to levy a special tax of 1% per cent on the rental paid by the occupants of houses in Montreal for the removal of garbage. The new tax, the mayor says, would wipe out the cost of maintaining the incineration department, about \$400,000 a year. Churches and hospitals would have to pay, he says.

MINERS RETURN TO WORK

Springfield, Ill., Oct. 22.—Illinois coal miners went back to work today with the exception of those in Franklin county, after a strike last week in an attempt to force an increase in wages.

WAITING FOR THE GERMANS

BRITISH LAUNCH CAMPAIGN FOR NATIONAL ECONOMY

(Continued from page one)
assist us once more in this new scheme for raising funds for financing our magnificent army and navy in the field and on the sea. The cost of this war is gigantic, its burden is heavy today and will be tomorrow, but there are two or three comforting thoughts which it is worth our while to dwell upon even in that respect.

"Great Britain will be a more valuable asset than ever, not because it has extended its territory, but because it has increased the efficiency of its people and the security of its shores. The next sobering fact is this: That most of this gigantic debt will be a debt we owe to ourselves. Great Britain is borrowing the main part from her own citizens. The debt is in the family. (Laughter.) And although that does not always make a difference (laughter) on the whole, I think it is better. But the extent to which it remains in the family depends on the efforts put forth. The more we save the more we can lend, and the more we lend the less will Great Britain owe to others. And that is the most important factor in our national security and national wealth.

Artificial Prosperity.

"One of the greatest perils of war is that it always creates a kind of artificial prosperity, and that incidental prosperity leads to extravagance. Individuals are too apt to forget that there is a fundamental difference between the prosperity of war and the prosperity of peace. The prosperity of peace comes in the creation of wealth—the prosperity of war comes from the dissipation of wealth.

"It ought to be brought home to every man and woman that they must not be deluded by the enormous expenditure now going on into an extravagance that will burden our estates for ourselves and for posterity. Individual opportunity for real and lasting peace. First of all, it absorbs financial resources essential to the progress of new war; it absorbs the labor, material and energy which also ought to be devoted to the same purpose. And whether the war is to be long or whether it is to be short, the way to shorten it is to prepare as if it were going to be a long war.

"I am not going to predict when the war will end. No man in his senses would prolong it one hour if there was opportunity for real and lasting peace. (Loud applause.) But it must be a lasting peace. (Loud applause.) I cannot see any terms in sight which would lead to an enduring peace. I feel that the only terms which would enable her to win this contest now. (Cheers.) I cannot see any terms in sight which would lead to an enduring peace. I feel that the only terms which would enable her to win this contest now. (Cheers.) I cannot see any terms in sight which would lead to an enduring peace. I feel that the only terms which would enable her to win this contest now. (Cheers.)

"That is why we are putting all our strength into getting the right issue into this contest now. (Cheers.) But I may be asked the question: Is such a settlement within immediate reach? I have already told you that in my judgment frankly it is not. Germany, in my judgment, would only make peace on terms which would enable her to benefit by the war in which she has wantonly plunged the world. That would mean that Germany would profit by her own wicked venture, and it would be an encouragement for any business enterprise of the future to repeat the experiment.

"The failure of Napoleon taught France a lesson she never forgot, and a similar lesson—it took twenty years or more to learn, it will not take that now—but a similar lesson must be burnt into the hearts and memories of every Frenchman before this war is done with.

"The power of the air is in its initial stages, and it is in its initial stages that the deep fairly developed, all these chemical elements which have been utilized for the first time—if this is going to be repeated after thirty years of scientific work and application, believe me, there are men and women in this hall, now who may live to see the death of civilization. It must be the end of conflict of this kind now."

TRAGEDY OF AIR RAID

London, Oct. 22.—While vain search was made for any military advantage gained by Friday night's air raid, several tragic stories came to light. Perhaps the most pitiful was the killing of a widow and her seven children, in addition to a lodger in the house. It appears that the mother went to the front door and inquired of a neighbor whether the "all clear" signal had been given, and turned to go back

when the bomb dropped. A few minutes later the neighbor found the mother unconscious in the street, her home wrecked and her children buried in the debris. The mother regained consciousness long enough to ask for her children.
