MR. C. SPRUAT THE CHOICE (19) which was struck out in committee of the whole:

FOURTH YEAR,

HIS APPOINTMENT TO THE VACANT CITY ENGINEE HIP.

Only Two Ballots Taken—The Outside Residents and the Water Supply—Ex-emptions and the Local Improvement

The city council held a special meeting yesterday afternoon, Mayor Beswell presiding. In fact it was a continuation of the meeting which was so abruptly ended a week ago last night by a couple of aldermen withdrawing and breaking up the quorum. The only members absent were Ald. Evans, Downey, Irwin and Moore, Ald, Irwin was absent owing to illness. The event of yesterday's meeting was the appointment of Brough. The battle was short and sweet. and there was very little excitement. Mr. Chas. Sproat of Regina was appointed on

Gentlemen of the Council: The county attorney. Mr. Fenton, has prepared an indictment against the corporation of the eity of Toronto for permitting No. 1 police court and station on Court street to remain in its present "foul, noxious, "anwholesome, uncomfortable and inconvenient" etate, tetally unfit to confine prisone; therein. The grand jury at the quarter sessions found a true bill on the indictment and the case was coming on for trial, when I was waited at the police of the police commissioners, and the case was coming on for trial, when I was waited at the post of the police commissioners, and having, with them, visited and inspected the premises, I came to the conclusion that it would be fully to defend the case, and therefore consented to have some plumbing attended to forth with, and squeed that henceforth no prisoners shruid be consended in the cells in the basement of the building. I confess that the state of the bridging seemed to be somewhat exagerated by the county attorney, and other officials, for I found nothing on the two days I inspected the premises; to be so very offensive; but I was informed, and I have no reason to doubt the statement. Vast when damp or cold weather sets in and the windows (the only ventilators in existence in the building) are closed the stench it almost unbearable. Our own medical health officer by a made a report upon the sanitary or rather uns nitary state of the building, and I think his of mind at the tist present state alone would warrant in jury in finding the city corporation guilty of the nuisance complained of.

The chief of police has as far back as 1877 and warrant _ jury in finding the city corporation guilty of the nuisance complained of.

Te chief of police has as far back as 1877 and many times since complained of this police station and in his report set forth not only the unhealthy state of the building, but also claimed that it is a

state of the building, but also claimed that it is a most inconvenient structure for the purposes intended in many ways. He also states that there is not sufficient room in the building for the police requirements. I would suggest therefore the erection of another fire hall and hand over to the police the whole of the building in court street.

In consequence of the order given by the palice commissioners that no more prisoners are to be placed in the sells in this building extra expense and time will be entailed on the force to take persons arrested in Ne. I division to some oth ristation. I commend this subject for your immediate attention, for fisteps are not taken by the co-mill to thoroughly remove the nulsance the case will doubtless be brought on at the next marter sessions.

A return was laid on the table from the city treasurer stating that up to date, including the second instalment, \$729,078 in saves had been paid in, this was a full two-thirds of the whole amount. By wards this sum is made up: St. Lawrence \$117,719, St. Davids \$37,926, St. Thomas \$64,858, St. James \$125,000, St. George \$112,316, St. Andrewa, \$70,221, St. Johns \$55,344, St. Patricks \$80,586, St. Stephens \$32,650, St. Paricks \$32,453. The total amount of tunnyld taxes is \$362,542. unpaid taxes is \$362,542.

During the past month a great many thousand dol lars' worth of goods have been smuggled by women. Turner and Crocker moved that the following clause of the works' committee's report (29): In view of the repeated complaints that have been made for the last ten years against the sanitary condition of university creek, it is recommended that a sewer be put down on the line of said creek, Dynamiters at Work in Hayti. on sanitary grounds," struck out in com-mittee of the whole at the last meeting be PHILADELPHIA, Sept. 24 -The gunboa Dessalines expects to leave for Hayti this re-inserted. This motion brought cut Ald. Baxter in all his oratorical glory. He reweek, for use by that government against peaked his attack on the construction of such works on the local improvement plan, and deplored the fact that a wealthy corporation like the university of Toronto should have such works executed without contributing a cent towards it. The worthy alderman made a gallant attack on the excemption humbug. He was followed by Ald. Turner, who said that it was a living disgrace to the city of Toronto to have two such disease-breeding places in the city as University and Garrison creeks. As far as exemptions were concerned he had long held the opinion that they should be abolished altogether. If the government saw fit to have their seat of government in Toronto it was a provincial matter and not one of the city. The government should contribute its share of taxes. Ald. Turner's motion was then carried as follows: Yeas—Ald. Carlyle, Clarke, Crocker, Hall, Hastings, Leslie, Love, Murray, Pape, Ryan, Saunders, Szeiner, Turner, Walker—14. Naye—Ald. George Holgate, a maker of dynamite machines, says a Haytian in surgent named Sentar had a powerful infernal machine made, resembling a lump of coal, and had it placed on board the Dessalines, intending to blow up the ship. The discovery that she was to sail with an American crew broke up the plan, and the machine was removed. It is said the boat will be blown up before it reaches Hayti.

REVISION OF THE CONSTITUTION. REVISION OF THE CONSTITUTION.

This dispute, by betraying the absence of any satisfactory an hority for the decision of questions between provinces, has helped to ripen opinion in favor of a revision of the constitution. Never, we repeat, was there a political arrangement which, whether we look to the circumstances under which it was framed or to the men who framed it, could more justly be regarded as an experiment, open to reconsideration after feasonable trial, than the constitution of the Canadian confederation.

THE OLD WOBLD IN BRIEF.

Justific, editor of an Irridentist paper armended at Tricete Austria on a control of the power of prorogation such as took place in 1873.

A regular mode of trial for political corruption and other political offences is not povided in the constitution, and the blank, as Mr. Shields is showing us, requires to be

ture and contending for their interests as an adverse party.

The reason why men alone have made the law, and apparently must continue to make it, is that they alone can execute it. Suppose the women by their vote passed, as they threaten to pass, extreme measures about temperance, or the rate of wages for female work, or any other subject which appeals to their feelings, would the men execute these laws against themselves? Diversity of function is always a mpatible with perfect equality. If women, as is invidiously said, are classed in point of disability to vote with minors and idiots, so in this very bill are the judges of the land. It is said that women will refine politics; but women are themselves refined because they have been kept out of the political fray. When they are thrown into at their they have been kept out of the political fray. When they are thrown into it their emotional nature makes them more violent than men. Could female representatives and office-holders be made accountable for their sonduct like men? Would they not plead their sex and secure processial impunity? These are points to be seriously considered before society is committed to the most radical of all revolutions. Women in general do not seem much to feel the deprivation (of the franchise), for this movement is plainly artificial and kept up by a small number of persons so exceptional in character as almost to constitute a third sex. At all events woman must make her

INFLUX OF IRISH.

We were told with a voice of authority that a large immigration of Irish had been decreed, and that our only reasonable course was to bow with grace to the inevitable. has been put to the increase of a great social peril; for such, however great our pity for Irish suffering, immigration from disturbed Ireland must be said to be. accepted and that the necessary measures, whatever they might be, would have been readily taken to cure any technical flaw in it and to give it effect, if party had not intervened. Quebec rules at Ottawa, and Quebec regards with jealousy any extension of Ontario. Justice Ontario must have, and she must support her government in their legal proceedings till she obtains it. If the disputed territory was an acre of bare fock it would be treason to the confederation to let the question be settled against the province by the domineering jealousy of the bleus. That no member of the confederacy shell be allowed to outstrip the growth or rise above the domineering jealousy for the promotion of its own ascendency, and the furtherace of its own designs.

THE COMMERCIAL SITUATION.

The time, however, is not far distant when the leaders of a liberal opposition, if they wish to keep their places, will find themselves constrained to take a stronger ground still, and to embrace a policy bolder and better than even the reduction of the tariff. Commercial union is the dictate of nature, reason and justice to the Canadian people. It will dome, and its coming will not be very long delayed. We will venture to recommend Mr. Blake to give his early and serious attention to this subject. Of late has not been gaining ground as a leader. Power will come to him when he takes up the question which has a substantial inthe question which has a substantial in-terest for the people, and that question is

Another nobleman, Lord Stafford, in these times, and it is nothing to wonder at that he has been called home for serious consultation with the government. But a making up between Russia and Turkey is a menace to Austria as well as to England; nay, it threatens the former more immediately than the latter. For, supposing Russia to have a good understanding with the porte, she is then so much the better situated for devoting herself to the working up of Slavonic aspirations and sympathies among some of her subjects, too. The fact that Roumania appears now to be seeking an alliance with Austria and the supposed supernatural power which is eligious of unterance and gesture to that supreme estate of his the name of Dunraven park. He got it cheap, at government prices, and now nobody can buy from him at any price. Another nobleman, Lord Stafford, has his hundred thousand acres along the line of the North Pacific railway, which he is gradually colonizing. Lord Dunmore has a hundred thousand acres in Colorado, near to the Dunraven estate. The duke of Beaufort, Sir John Rae Reed, and two sons of wealthy bankers, are joint owners of a valuable four hundred thousand acres in the west and southwest, they are already to numerous to be kept track of, and every year more of them are coming. The bare statement of the facts above mentioned is enough to set people thinking on the possition of the supposed supernatural power which is believed to rule out life here and our destinces hereafter. This, I submit, is religion of these attributes what we call religion of these attributes which I have just summarized and you strip it of everything by which it is known as religion. After this it is refreshing to learn that Premier Norquay delivered himself of an "able speech;" and this no doubt enabled the audience to bear up under the infliction of Mr. Greenway (opposition) whose "doubtful and traitorous remarks fell very flat on the intelligent audience." The doubtful and traitorous Greenway was replied to by Mr. Norquay, and then the audience were called upon to endure a speech from Mr. Killam (opposition) who, we are not surprised to learn, spoke in his "usual namby-pamby style." Mr. Killam, by the way, is the most logical speaker in the Manitoba legislature, but he is certainly inferior in stomachie girth to both the premier and ex-judge and therefore the correspondent does right to snub him. After Mr. Killam's namby-pamby speech the audience deserved to listen to something good, and accordingly they were regaled with a "rousing ly they were regaled with a "rousing speech" from ex Judge Miller, which closed speech" from ex Judge Miller, which closed the performance.

Well, it doesn't matter very much who represents Varennes in the Manitoba legislature, so we can efford to smile at the eccentricity of this kind of reporting. The fun of it is that the writer very often hon-

obeyed the law of liquids and found its level on the street, now the bed of a yellow river, in which the grocer stood aghast kneedeep. Consternation, however, gave place to action. An empty cask was got, and into this with shovel, basin and bucket, assisted by his man, his maid and his mother, he poured the golden flood. The women and bairs also got to work with great activity; but, to their dismay, a detachment of police come upon the ground — beat back the rebels before the juvenile portion of them were half-sick-and formed a 'cordon be represented by men invested with the blue' round the grocer's treasure, that he might pick it all up himself. But the urchins were not to be baffled. They held a conference, and laid a plot by which through the instrumentality of the simplest of their number, they should secure a share of the spoil. Tommy was to be taken to the out-side of the ring, and, in a favorable moment, thrown in among the treacle; his 'frier ds' pledging themselves to lick him clean, and assuring him his 'class wad be nee warser the last general assembly held at Toronto awak ened at the time considerable interest his mither wad niver knaw ony difference.' Tommy required no per-suasion; he sneaked close to the heels ject Poles as well as their Austrian masters in the public mind with regard to the matof a policeman; his companions rushed upon him, and in a moment he was immersed. Being still in petticoats he presented a vast surface, compared with what any of his breeched brethren would have done, to the sweet substance on which he rolled; and a burst of triumph, loud, long and laughable, bailed him as he emerglong and laughable, bailed him as he emerged, exclaiming to keep up the trick 'Bau gum! who did it?' The invocent police, never dreaming of deceit, instead of arresting him for felony, helped him out of the mess, and scolded the wicked rogues who had pitched him into it. These, seizing their prize, hurried him into a convenient corner, where his worshippers were as numerous as queen bee's. Swearing eternal friendship to Tommy, they licked him inside and out, and they sent him home all clammy, to be 'licked' again by his mother."

Marrying a Lunatic's Hu-band. At the Peel assizes on Thursday, Elizabeth Ireland was tried for bigamy, The facts are these: Thomas Ryan of Chinguacousy, many years ago married Bridget Keough. After four children had been born the wife became insane, and was sent to the Toronto asylum, where she has been for the last four years. For the past few years the prisoner, Elizabeth Ireland,, has been liv-ing in Ryan's house, acting as his house-keeper and taking care of his children. A gentleman in Paris, who was in the habit of bestowing five sous daily upon a blind beggar, by mistake one day gave him a Napolean. Afterward discovering the error, he hunted up the beggar's residence, and celled to recover his gold piece. A tidy maid opened the door of a comfortably furnished suite of apartments. Monsieur was requested to take a seat, and in a minute of two the baggar made his atmarance, neatly requested to take a seat, and in a minute of two the beggar made his appearance, neatly dressed, and with faultless shirt-front. The object of the visit was stated. "My clerk is just making up the day's accounts," he observed: "if a Napoleon has been found in the box, it shall be restored to you." The piece of gold was found, and the beggar handed it back to his visitor. As the latter was retiring, the beggar called out to him: "I beg your pardon sir, but you have forgotten to give me the half-penny out of it."

ASSOCIATION.

PRESIDENT-SIR W. P. HOWLAND, C.B. VICE-PRESIDENTS-HON. WM. MCMASTER. WM ELLIOT, ESQ.

Referring to the advertisement of this association in The World of Tu-sday last, it may be explained that the much larger sum called for by the valuation made by Professor Cherriman, under the government standard for Canada, than is required by the valuation made by Mr. Homms on the standard for the STATE OF NEW YORK, arises solely from the greater severity of the Mortality Table of the Institute of Actuaries of Great Britain as compared with the "American Experience" Table of Mortality, as the same rate of interest+ was used in each case.

The reason why the valuation made by this Association's own actuary of LLE FOR A STILL LARGER RESERVE than even that required by Professor Cherriman's valuation arises from the fact that the directors consider THAT SECURITY TO THE POLICY-HOLDERS is the FURST thing, and, therefore, not content to provide simply as in other companies, they add an additional TEN per cent, to the liability under all SONINS ADDITIONS and PAID UP ASSURANCES as well as

The hounds will meet to-day at Ben Lamond at 8.30 sharp. The famous Runnymede is likely to appear on the race course again.

Dwyer Brothers have purchased Hartford from their jockey, James McLaughlin. Dwyer Brothers' great filly, Miss Woodford, is looked upon as the probable winner of the richest stakes of the year, some \$20,-200, at Louisville, on Sept. 29.

The old favorite Parole may appear again this year. He is recovering from what appeared like a quarter-orack after his race for the champion stakes, in which he ran 2d to Monitor, leading Eole.

The father of Dan Woodmansee, 77 years old, lately drove Von Arnim in a trot at the Minresota state fair on a half mile track. He won in 2.244. Trotting seems to impart atrength and longevity to drivers; The famous California fillies Hinda Rose, 3 year-old, record 2.23, and Bonita, 2-year-old, record 2.24½, are expected to beat the present records for 3 and 4 year olds at the national association of trotting horse breed-ers' meeting at Hartford Oct. 2, 3 and 4.

The Chicago driving park has added another race to its fall meeting program, viz., a purse of \$1000 open to all stallions, to be trotted the firsa or second day of the meeting; entries to close Oct. 1. The meeting is to be held from Oct. 6 to 13. Purses aggregating \$17,000 are offered.

Next Saturday, Sept. 29, wil' be a great day in the racing calendar. The trot between St. Judien and Jay Eye-See, the opening of the American jockey club's fall meeting, and the cace for the Champion Stallion Stakes, worth about \$20,000, at Louisville, are among the announced events.

Catarh—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 24.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarh. Out of two thousand patients treated during the past six months fully innety per cent have been cured of this stubborn malady. This is none the less starting when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and pernament cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on Catarrh.

temperance association waited upon their worthy guardian, Mr. Joseph McKenzie, at his residence at College and Robert streets Saturday night, and presented him with an address, a silver cruet stand and fruit epergue on the occasion of his marriage. Last evening at St. Michael's cathedral Miss Lizzie Mitchell, daughter of Mr. John Mitchell, the well-known livery keeper, and Mr. Henry Baker of St. Paul, Minn, were joined in wedlock by Rev. Father Laurent. After the eremony a pleasant time was spent at the home of the bride at George and Duke streets.

—The exhibit of Dixon's patent show cards, made by Mr. A. G. McMichael, at the late exhibition was much admired. The lettering on these cards is very ingeni done, being cut from calico, silks, velvets, tartans, cashmeres and other fabrics of bright colors and striking patterns; they are ornamented and placed on a white or tinted ground making the most unique and attractive show card now in the market.
Mr. McMichael has the sole right to manufacture and sell these cards in the dominion and is prepared to turn out orders in any quantity from one to one thousand. Samples and prices may be had at 29 King street

A Block Payement on a Float.

Just as our city fathers who live westyesterday afternoon's meeting of the council they were treated to an interesting spectacle. About 100 yards of the new block pavement in King street, opposite St. James' cathedral began to float around in all directions. The heavy rains of yesterday played havoc with the blocks, more particularly that portion between the northern cartracks. The water formed in pols under the blocks, which becoming loss under the blocks, which becoming loose were gently floated on either side. List night the street car company was compelled to clean the north car track out and place the blocks on the pavement. Lanterns had to be placed near by and it was with difficulty that travel was continued. The work has evidently been very poorly done.

Beath of London's Ex-Post Mr. Lawrence Lawless, late postmaste of London, died in this city on Friday. For a length of time Mr. Lawless has been suffering from ill-health and general debility. About a week ago symptoms of heart sease were noticeable, and it was to this disease were noticeable, and it was to this his rather unexpected death was attributed. He was in the 68th year of his age, and leaves his wife, three sons and two daughters Mr. Lawless was appointed postmaster of London. This was nearly thirty years ago. He kept that position until he was superanuated, a little over two years ago. Shortly after he removed to Toronto, where he has been till the day of his death.

The Wind Tolled the Beil. For several hours last night and this orning there was an incessant tolling of a bell in the central part of the city. Several ecple called at The World office to know what important personage had gone over to the majority. They all imagined that it was the St. James' cathedral bell. On in-vestigation it turned out that it was caused by the wires attached to the fire alarm bell in St. Lawrence hall dome getting out of gear, owing to the high wind. This caused the occasional stroke of the bell.
