## Montreal Stock Market.

A WEAKER MARKET EXCEPT IN SPE-CIAL CASES — BAD BANK STATE-MENT OUTBALANCES MORE PEACE FUL REPORTS.

#### Montreal, Sept. 11.

Making for advances were the highest cables, Consols being 9.16 higher and C.P.R. being advanced, but the general influences on the market tended toward declines unless in special cases. The bank statement was about as bad as was thought and has told adversely on the general list, though there are not wanting signs that this bank statement is not a full representation of the money situation at the present time. Bank statements certainly include Trust companies funds, but the decrease in all but circulation points to scarce money and stringent rates for it, whereas there is abundant money on the Street, and if the rate at noon today at New York was 5 p. c. rising later to 6, 7, and 8, this was perhaps exceptionally high for that city though it is not so here. True, however, so far as they go, the bank statements, representing a less favorable condition of business finance, had this depressing influence that they induced the trading element to take the short side, with the result that except in some special cases the market tone showed less buoyancy and values generally fell off alittle. Can Pac. Republic, Duluth pfd., War Eagle, Montreal Street New were all somewhat lower, while Royal Electric, as chief of the special cases, gained another two points, selling at 190. Toronto Railway at 1164 was also a better than it was on Friday because though carnings during the exhibition weeks showed decreases they were still large earnings. Montreal-London sold at 55, an advance of two points on reports probably of good ore; the banks traded in brought good prices, most of them being on higher basis. In the forenoon session there were traded 11,264 shares.

#### MORNING SALES.

#### WATESON'S BANK, STRATFORD, ONT., FAILS.

The assignment of the private banking firm of Wm. N. Wateson, Stratford, Ont., to one of its principal depositors, John Brown, M.L.A., on a writ for \$2,289.39, is not one apparently where any one is to blame. The assets of \$115,976 give a surplus of \$45,700 over liabilities, so that there is a positive certainty that depositors will get all the money due them. The reason for the closing of the private Ontario Bank is not so much that it was really in a bad state, but that rumors to that effect got up and caused a run on the bank funds for months.

#### STRAWS.

Coal prices have advanced in the West, owing to the lake rates which have now reached 90 cents, as compared with 25 cents of one year ago.

#### TRANSVAAL GOLD.

The report of the State Mining Engineer of the Transvaal for the year 1898 says the 1d production of the district for the year was \$81,203,150, compared with \$57,000,000 the previous year. The number of companies paying dividends was 45 in 1898 against 27 in 1897. The dividends paid were 25.08 p.c. on the capital invested. In 1898 there were 52 companies producing but not paying dividends, against 64 in 1897. The production for the first seven months of 1899 was 3,042,339 ounces, and as one oz. of gold is worth \$18.40, the total in dollars is for this year up to date \$55,979,437.

#### MONTREAL MINING EXCHANGE.

BUSINESS SATISFACTORY, THOUGH RATHER DULL - SLOCAN STOCKS IN THE LEAD - BIG THREE NE-GLECTED - DEER TRAIL AND CA-LIFORNIA FIRM.

Montreal, Sept. 11.

Thing were quieter on the Exchange this morning. In the first half hour business was practically at a standstill, but towards the close there was a better feeling and hids were more high.

wards the close there was a better feeling and blds were more brisk.

The Slocan stocks enjoyed the greater part of the attention and showed distinct signs of strength, of these Rambler Cariboo was the most prominent, selling at 44 and 43½, one thousand five hundred shares being sold; 43½ was bid for more at the close with none offering under 45. On last Friday 3,000 shares of this stock sold at 41 and 41½, this was a gain of 2½ points this morning.

at 41 and 41½, this was a gain of 2½ points this morning.

Noble Five was also another of the Slocan stocks for which there was more demand, there were, however, no sales made in this security. The quotations on Payne were 128 and 121½; no sales were transacted Deer Trail No. 2 was fairly heavily dealt in 14,000 shares changing hands, the price was steady round 24 and 23½.

California was traded in to the amount of 18,500 shares; it was quiet and firm round 11½, one large block of 15,000 shares selling at 10½ Big Three was almost entirely neglected, 200 shares being the full amount of the business done, it sold at 24½.

The dividend payers were dull. No sales being recorded on either of the leaders. When compressor plant, which was

being recorded on either of the leaders. When the steam compressor plant, which was recently taken from the Crown Point mine on the Centre. Star. property, is fully intalled in the War Eagle mine, development work will progress at a still greater rate, the need of this plant has long been felt. The mine has now 30 drills at work with the main shaft down 750 feet.

The shareholders of the Republic mine will be pleased to hear of the satisfactory progress being made in that locality, an entirely new level has now been reached 50 feet below the lowest level previously attained, and the ore proves to be among the richest and most promising yet brought to light. The importance of this cannot be overestimated. Major R. G. E. Leckie, who is at present manager of the mine, deserves the gratitude of all interested parties.

#### MORNING SALES.

Deer Trail-7000, 24, 2000, 231, 5000 241,

## NEW YORK EXCHANGE

HIGHER QUOTATIONS HAVE LESS IN-FLUENCE THAN HIGHER RATES -VALUES, LIQUIDATEON LOWERS PRICES IMPROVE AT NOON.

#### New York, Sept. 11.

New York, Sent. 11.

The more pacific outlook of the Transvaal, a quieter condition of affairs in France are reflected in stronger market for securities in London this morning. Consols show an advance of file to for money and account respectively. The active American prices are from to file p.c. higher where there is any advance. A few of them showing fractional declines, none of them, however being more than file. below our close. The fortnightly settlement begins on Wednesday and is expected to show a fair sized short interest in Americans, and this is having a counteracting effect on the expectation that there will be dear money in New York.

The anticipation of a somewhat tighter money market here is said to be acting as a deterrent on speculators in London, who

deterrent on speculators in London, who are otherwise bellish on American securi-

ties.

Nothing of paramount importance has come out over Sunday bearing on values in the local market and the immediate future, of the money market will for the next few days at least be the dominating factor in when in writes. shaping prices.

The market on Saturday held very well in

The market on Saturday held very well in the face of a statement as bad as any one expected. The people who are bullish on stocks argue that if the market did not go down on Saturday it would take a great deal to break it.

It seems to us, however, that outside interest in the market is confined to a comparatively few stocks, but that the principal supporting factor just now is a well scattered and growing short interest, which takes advantage of fractional recessions and covers its outstanding contracts.

takes advantage of fractional recessions and covers its outstanding contracts.

The Street is full of bull tips on Manhattan and all sorts of stories are going around. One of them is that the road is to be leased by the Metropolitan and that they are to guarantee 6 p.c. on the Manhattan

Of the specialtics which continue to absorb speculative attraction, T. C. I. and Colo. fuel are the chief, both of them were strong on Saturday, closing at the top fig-

New York, (noon), Sept. 11.

New York, (noon), Sept. 11.

The dominating factor in this morning's market has been the financial outlook meaning particularly the money market. Not much attention was paid to the higher quotations from London, the opening in our market being rather irregular.

Saturday's bank statement, however, and the generally bearish utterances of the press over Sunday, brought in a large volume of commission house busiaess which was apparently liquidation, although the bears seized the opportunity to mark down values. The fears of tight money seem to have greater weight in the minds of the smaller fry than does the general unexampled prosperity of the country at large.

T. C. I. was a feature of the opening, on the bull side, but the manipulation of the stock causes but little interest now, as it is believed that the short interest in it is almost entirely eliminated.

most entirely eliminated.

The local traction shares and People's Gas were the conspicuously weak stocks at opening, and although rallies in the prices of these securities followed the first declines, the tone was heavy until some confidence was imparted by rumors that a

prominent banking house had said that there would be certainly ample funds with which would be certainly ample things with which to conduct the business of the Street without any great squeeze in rates, whereupon support developed all around the Room, and at this time of writing, while values are lower than at the opening, they are considerably better than the lowest of the day.

The market is dull but not oppressively so, and with assurances of money at reasonable

and with assurances of money at reasonable rates, fresh activity and better prices should

follow.

#### MINING NEWS.

Golden Star is showing much richer ore than ever in the course of its development work.

Rambler Cariboo has 3 feet of solid ore in sight and several hundred feet of stoping ground from which no ore has yet been

Silver Bell in its New York claim has come on a strike similar to the lode of the Waterloo.

Evening Star has opened on its main vein a large pay shute, the entire face of the lower drift tunnel being in ore.

Princess Maud is valuable and has besides become a speculative issue on the Spokane board where 40,000 shares having been sold short must be delivered by the 15 September. These scares were sold under 5 cents and have since become worth 13 cents, so that the sellers are not in a very comfortable position. ble position.

Lone Pine on unofficial report of \$100 ore has gained in market value, the 20 cent price having become 25.

#### THE MINING REVIEW.

(From the Rossland Miner.)

(From the Rossland Miner.)

The most important happening of the week among the mines of the camp is the finding of a rich ore shoot, in the Mascot. The shoot is from six to seven feet in width and assays of a carefully made sample shows that it runs \$264.61 to the ton. A remarkable feature of the find is the fact that the ore carries over 200 ounces in silver. This is something out of the ordinary as no ore that carried such a large percentage of silver has yet been met in the north belt. Then the fact that it carried over six ounces of gold is larger than the ordinary. The shoot carries considerable arsenical from and the gold values are especially associated with this. There is considerable quartz in the vein matter, but the ore is ordinary looking and no one would suspect that it carries such high values. The samples assayed were taken from the face of the tunnel. The ore body has been drifted on for a distance of about 12 feet and there is good reason for the presumption that the ledge at the depth found will be of equal richness and like permanency for the full length of the property. This will be determined as speedily as possible by drifting. It certainly looks as though this find in the Mascot is as important a one as has been made in the camp for the past year. This is se because it is in a portion of the north belt, where it was claimed by some critics that there were no valuable ore bodies. The company operating this property and the manager, Mr. W. Y. Williams, have from the first believed in the Mascot and it must be gratifying to them to find that their opinion was right.

(From the Rossland Miner.)

The prediction made a week since by the manager of the Mascot that the property would before long join the list of shippers, judging the matter in the light of the recent find of a shoot of rich ore, it would seem, will soon be verified. The strike seems to be an important one, and was made on a property which has been turned down by a number of mining men for the reason that they presumed it was in a belt where there were no productive ore bodies. The find was not made easily, and it was only after a long period of patient toil and the expenditure of a considerable sum that it was made. The effect of a find of this kind is far reaching. It will add a new shipper to the list, which will yield dividends to the shareholders and furnish employment for a number of men for years to come. In addition to this, it will show adjoining properties where their productive ledges are located, and lead to their development and, in turn, make them producers of ore. It is evident that the words of a prominent mining engineer will come true. He said a few years ago that there were boys in school then who would, in course of time. The prediction made a week since by the mining engineer will come true. He said a few years ago that there were boys in school then who would, in course of time, pass through school and graduate as mining engineers, and that these boys would come to this camp and find bodies of ore in sections which are now thought to be barren. They will think, too, when they make these discoveries, how blind the generation which preceded them must have been; in other words, he held that discoveries would continue to be made in this camp and vicinity for many years to come. The E. M. E. was right, for the ore bodies of this camp are just beginning to be located and many more will be found before it is finally worked out.

## CHICAGO MARKET.

## UNLOADING BY SCALPERS MAKES LOWER OPENINGS — LARGE PRI-MARY RECEIPTS — MARKET MOVE-MENTS NARROW.

Chicago, Sept. 11.

Chicago, Sept. 11.

Scalpers expecting higher cable quotations for wheat and also more warlike news than came to hand this morning threw over their holdings for the most part, causing a continued pressure on the market. Bears also were finding little opposition and much material for aggressiveness in what news was reported. There were large Argentine shipments and corrected statistics from the Northwest showed probable increase in weekly stocks as amounting to something like three quarter million bushels. Over a million bushels a day or eight million weekly of primary receipts ensure bearish efforts at least, if not their success, and the flour trade report tends to lower wheat values. Foreign markets continue to be apathetic and furnish no stimulus. The contracted limits of over night puts and calls suggests little hope of immediate activity, and are in line with the narrow fluctuation of grain values for some time.

Liverpool cable reported wheat } lower, corn | lower, both being dull and with very little doing. Following suit the opening sales at Chicago today were in all lines lower, wheat from | to | lower, corn | lower, both being dull and with very little doing. Following suit the opening sales at Chicago today were in all lines lower, oats | lower, while in provisions the recessions from Saturday's close were from 2 to 5 cents. So far as could be gathered from the forenoon sales there did not seem likely a higher level within sight today. Wheat, in fact, seemed to be working lower.

Government report winter and spring

working lower.
Government report winter and spring wheat 70.9 p.c.

Spring corn 85.2. Snow figures wheat crop on government figures at 495 millions against 512 million last month.

Wheat in sight and on passage. Vis'b'e s'p- 1899. 1899. 1898. ply U.S. Sept. 11, Sept. 4, Sept. 12, & Ca'da.36,129,000 34,871,000 8,840,000 1898. 1899.
