## commercial summary,

The Quebec Oity Oouncil has read a first time the dralt of a by-law to grant $\$ 350,000$ to the Lake. St. Joha railvay.
P. H. Matre, a well-known tanner at Artha. baska Station, Que, has failed with liabilitios of about $\$ 48,000$, and is offering to compromiso with his creditors, chiefy in this city, at 25c on the dollar.

Pabliament will be asked at the forthcoming session to incorporate two new banks in Oanada, with a capital of $\$ 1,000,000$ each, viz: "The First National Bank of Canada," with head office in Hamilton, and "The Brant. County Bank of Canada," with beadquarters at Brantford, Ont.

Aby-LATY granting $\$ 2,500$, with exemption from taxes and free water privileges, to Campbell Brothers, of Chatham, for the erection of a steam flouring mill at St. Thomas, Ont., was submitted to a vote of the ratepayers in the latler place I'uesday last, and carried by a majority of 384.-A Toronto butcher named Hookings bas left the city, and several wholosnle butchers are reported out about $\$ 1,000$.
Some suprise has been expressed at the failure of Wm. Damer \& Co., wholesale boota \& shoe dealer, Toronto, as his banking credit is said to bave been good up to the last: Ho has been rated high for several sears, but it is thought he had too many branch stores; and extended his business too much for the attention he was able to give it. The liabilities are estimated at $\$ 60,000$, with assels amounting to about $\$ 95,000$; much of the stock, homever, is said to be unsaleable.
G. B. MoCothounir, the St. Thomas druggist Whose failure we noted last week, has left the town, and the businces has been wound up quietly by his creditors, principally in Hamilton. He commenced about two yours ngo with little if any capital, and has been supplied with goods by Messrs. Jobn Winer \& Co, of Hamilton, who secured a chattel mortgage on his stock, etc. for $\$ 1,600$. His liabilities foot up $\$ 3,000$, to pay which there is stocl-in-trade 'valued at $\$ 2,000$. Mr. McCullough's trouble is attributed to excessire competition.

A dividend of four per cent. is declared by the Montreal City and District Savings Bank for the half-yen ending 31st December last.

Tha statement which appeared in a French contemporary, published in this city, that a Quebee grocery and liquor firm were in dilficulties, is incorrect. The report has been authoritatively denied.

This return of combined traflic on the Northern and North Western Railway for the week ending 31 st ult. shows an inicrease of $\$ 4343.20$ as cumpared with the corresponding period of last year; for tho week ending loth inst. it was $\$ 5 .-$ 208.04 over and above the same period of 1882.

The underwriters have been meeting in solemn conclave for some days, endeavoring to form some definite'arrangement concerning what nay paradorically bo called Uniform Variations, to umet the altered state of affars in Ontario; consequent on the decision of the Privy Council of Great britain in the celebrnted test cases of the Queen Insturance and the Oitizens' Comfanies vs. Parsons, etc. Severaĺ numbers of the Jounnal of Commbion during January and Februnry, 1876, contained hints on the subject that might well be considered.

Mr. Thos. Tumble, for several yeurs connected with sume of our leading wholesale dry guods houses, and for the last ten years a partner in the firm of Melatyre, French \& Co., has retied from the latter firm, as may be seen by the announcoment elsewher. A man of Mr. Mrimble's well-known active ability and experi-

ence is not likely to remnin out of business lons.
At tue meeting of creditors, $n$ the 8 th inst of Wm. Colloton, tailor, Port Collorne, referred to at length in the issue of th inst., it was resolved to sell the sto $k$ by anction at so muel, on the dollar, as per inventory on the 18 th inst. The total liabilities, as per amended list, amount to $\$ 1,494.00$ with a small claim for rent ( $\$ 36.00$ ). The amount due for wages is only Fiss. 50 and not $\$+50$, as previously stated.
Tum real estate of the insolvent firm of Hajes \& Futroye, consisting of sawmill and timber limits in Bolton, was sold by the Sheriff at Knowlton on the 4 th inst, Mr. Charles Arpin, of St. Johns, bidding in the propery at $\$ 9,600$, subject to a hypothec in favor of Messes. Shaw, of Waterloo, for bark, of $\$ 1,500$. Mr. James Hayes, of Sheflington, held the first mortgage of $\$ 6,000$, and $M r$. Arpin was the sccond mortgagee for $\$ 7,000$. The list mortgare was executed buta few days before the failure, and there is some talk among the ereditors of contesting it.
A. M. Aldax \& Co., retail dry goods dealers; this city, are somewhat embarrased, having been sued by several creditors recently. Mr. Allan admits his inability to meet all his engagements but claims to bave a large surplus, and says with an extension of time be cau pay in full; be faled some eight or nine years ago, and compromised at about 60 c on the dollar. He attributes his present difficulty to loss of trade last summer during the protracted work of putting in a new front in his store. There are not many creditons, who are chiefly in this city and loronto. Pending the taking of stock this week no definite infommation can be obtained as to the state of his allairs.

Tes Metropolitan Matual Benefit Society of this city has thought it well to discontinue the striggle and re-insure with a some what similar concern recently started. One by one the mutuals fall-into etch other's clutches. The "Life and Adventures of a Mutual Benefit or Provident Associalion, if written out; wonld go far to prove that "truth is stranger than fiction."
3. Tue creditors of Hector Lemont \& Co., dry goods merchants, Chatham, whose assigrament was mentioned in last issue, have resolved to wind up the estate, At the recent meeting they agred to accept 40 c on the dollar secured, but Lamont laving failed to get security the stock has been advertised for sale on the 10 th inst. The linbilities foot up $\$ 21,303.92$ with total assets $\$ 12,030,-$ stock as per inventury; $\$ 10,621$, and book-debts, $\$ 1,418$; deliciency, $\$ 9,264$. There are sone thirty-five creditors, chiefly Montreal and 'Toronto whiulesale houses, and the balance in London, Hamilton, Detroit, Berlin and Merritton. This is not the first time Lamont has been in trouble; he got an extension in March last. The business was commenced by Hector and his brother Donald Lamont in 1866 , under the stjle of $D$. \& H. Lamont. A yearafterwards the name was changed to H. \& M. Lamont, who continued to increase their business until in 1870 it was clamed to liave amounted to $\$ 100,000$. The firm then carried a stock of about $\$ 40,000$. In 1873 they showed a surplus of $\$ 17,600$, and later in that year a chancery suit was decided ngainst them, for goods reccived from L. C. Lamont amounting to $\$ 5,000$; shortly afterwards they made an assigument, with liabilities amounting to the large sum of $\$ 68,000$, and assets of ouly abolit $\$ 36,000$. Hector cuntinued the business, with the results allendy stated.

incorporated) some two years ago, and creditors of the fomer concern were considerately and honorably dealt with by the father of Mr. Ohipman, who came to the rescue of his son, who was thus enabled to resume business with a clean record. The business is claimed to have been improving last year. Mr. Renaud has, bowever, not been attending very clos ly 10 business the last two months, and Mr. Chipman's official duties, bowever limited, do not appear to have given satisfaction to his absent and, as alleged, nrgligent partner. Creditors becoming impatient for their dues, suits were entered and one judgment obiained; but the landlord has just entered a seizure for rent, and the estite will probably be sold to the highest bidder Moral, in this case: "Paddle your orn canoe."

MONTREAL, JANUARY 19, 1883.
LUNCBER REVIEW.
We have as usual awaited the development of the lumbering season before giving our review for the past year and a glance at the prospects for 1883. The Spring drives were complete successes, and clean almost beyond comparison. The season opened at Quebec with a semblance of activity, but it soon became apparent that the Spring fleet would be a small one, and reports from the English markets pointed to another season of climinished exports. After the departure of the bulk of the Spring fleet, business dropped off and remained almost lifeless until the month of September, when reports from Great Britain indicated a revival in several lines of Quebec goods. One or two shipping houses on this sile began quietly purchasing on speculation large lines of the timber and deals still in the hands of manufacturers;
but no sooner was this move detected, than the other flims followed suit, and the result was that by the month of November nearly everything had passed from the hands of the manufacturers into possession of the shippers, and, considering the state of the English markets, at pretty stiff prices; and it is not too much to say that prices across the ocean must keep rather high to enable present holders to come out whole.
Those who bought pine deals at the be. ginning of the season at the prices they were compelled to pay must have been disappointed at the course of the English markets during the year, as these goods seemed slow of sale and prices weak; and this is doubtless the reason why large lines of the leading mill stocks still remain piled up at the different mills. The enforced high prices referred to were due to the increased demand for pine lumber in the United States markets and the consequent high rates prevailing there. Canadian manufacturers, notably the large Ottawa mills men, were in such a position that they could at any moment sell their season's produce at high prices to American buyers, and therefore when approached by Quebec deal buyers their stand was: "Our prices for deals are so "and so; if they do not suit you we shall "saw them into lumber and sell to United "States buyers, of whom there is no "scarcity." And those whe wanted dealshad to pay the prevailing stiff prices or go without.

Although the English markets show signs of considerable improvement, which it is to be hoped may continue, we cannot refrain from expressing the belief, the result of observations for the last few seasons,-that ere many years wood products will be more valuable at this side than in Europe. The enormous consumption going on, especially in the United States and Canada, cannot fail of this effect. The requirements for home consumption in the older Provinces are every year increasing, while Manitoba and the North West are only beginning to indicate their wants. The shipments to these new customers from Canada and the United States during the past year were over 100 million feet B. M., and these must go on increasing as the tervitory is colonized. It is probable that at no very distant date but very little of the products of our forests will be shipped to the European markets, excepting, per haps, those kinds for which other North of Europe goods cannot be substituted, such as first-class white pine timber and deals, white oak of large size, and probably hardwoods and pitch pinel from

United States ports. Lower grades of pine and sprace will find better prices in this side than English markets can affoid, as long as they possess cheaper subs itutes from Norway and Sweden. $T$ is change is now going on, as far at least is Quebec is concerned, as evidenced by ti:e gradual decrease in exports shown by tl e following clearances from Quelec for tl:e last nine years:

And the prospects are for a still further decrense in 1883. This may be clearly ascribed to the large supplies from Nort 1 Europe at low prices, while our American markets will absorb any probable or possible production at relatively higher prices than European markets will pay.
Wintering stocks are a trifle greater than last year, but yet considerably lower than in former seasons. Prices have ranged during the season about as follows:

Ist Qual. 2nd Qual. 3rd Qual.
White Pine
Deals..... $\$ 104$ to $\$ 112 \$ 68$ to $\$ 72 \$ 36$ to $\$ 39$
Spruce
Deals....: $\$ 38$ to $\$ 40 \$ 26$ to $\$ 28 \$ 23$ to $\$ 26$
All these are per Quebec Standard (2750 feet) ex quay, mill cutting and mill specification.

Sta ves, Pipes............................ $\$ 375$ to $\$ 390$
Freights ruled about as follows: L'imber. Deals.
Opening at......... 23 c to $25 \mathrm{c}, \quad 60 \mathrm{c}$ to 65 c .
Closing at.......... 30 c to $35 \mathrm{c} . \quad 70 \mathrm{c}$ to 50 c .
Operations in the woods for coming season in Canada are on an increased scale for the United States markets, and on à reduced scale for European markets. The weather thus far has been all that could be desired; there is at present, however, some appearance as though operations would be hampered by too much snow. This, however, is only one of the many ordinary incidents of lumbering; everything is high in price, pork unusually so; labor is also abnormally high; in fact in this districtit is not a question of wages at all, it being absolute: ly impossible to get a regular supply of workmen for the woods. Large numbers have been lured avay to the Michigan and Maine forests at high wages, through the efforts of hiring agents who have scoured the Province from one end to the other.

We hear of few or no sales of new mill cuttings for next season; manufacturers are Lolding for stiff prices, and exporters are waiting to see how the English markets may develop during the coming. months. Hut these last remarks refer to deals only; we understand that some contracts bave been made for Michigan and Ohio oals timber and waney and square pine at probably a slight trifle advance on the prices of last year. We can never expect to see the two latter classes of timber at old prices again, for while the supply is diminishing every year, the demand on the other hand is increasing.

## THE BANK STATEMENTS.

The usual summary comparative statement of the aggregate liabilities and assets of the chartered banks on 31st De ceinber will be found below. The decrease in circulation is less than might have been expected. The total reduction of liabilities is about two millions. The available assels are less by nearly three millions, chielly by the withdrawal of funds from London and New York. The Dominion note reserve is less by $\$ 561,453$, but it is not unworthy of notice that, while the aggregate reserve has been reduced, there has been an increase in the notes held under $\$ 50$. As thero has been a decrease in the issues of ones and twos, it is beyond doubt that the $\$ 4$ bills which have been issued to the amount of $\$ 267,724$ are held chietly by the Banks as reserves. This is just what might have been anticipated, and the result will be that the issue - of fours al a considerable expense will be of no beneft. It will be found that as the issue of fours is increased, that of the large. notes will decrense to a corresponding extent:

## THE FISHERY QUESTION.

We bave noliced in our American exchanges that notice has been given in the United States Senate of a resolution to terminate the fishery clauses of the Treaty of Washington. If it be true, as stated by the mover of the resolution, Seuator Frye, that the fishery privileges enjoyed by Canada are very valuable, while those obtained by the United States are worthless, then it is not surprising that our neighbors should be anxious to terminate the treaty. It is alleged that in the year 1881 the Canadians caught 191,000 barrels of mackerel in American waters, while the Americans only caught 400 barrels in Canadian waters. This statement must have caused much sur: prise, and is entirely at variance with the evidence obtained by the commissioners who sat at Halifax. The duties, it is said, on the fish imported from Cauada duty free would have amounted to $\$ 300,000$. It is said that, owing to gross mismanagement on the part of the United States and to the skilful diplomacy of the Canadians, the Americans have had to pay $\$ 5,500,-$ 000. We presume that the arard was made in accordance with the evidence, and we scarcely think there was any neglect on the part of our friends in the

United Slates to bring forward all the evidence in their power. Certainly none was alduced that would sustain such assertions as those made by Senator Frye. It is high time that the suhject should engage : he atlention of our Government, as the period has nearly expired for which the money payment was made, and it certainly will not be willingly renewed for another period.

## HOMEC HORROKS.

As this is the season of the year when the voices of the debating schools are heard throughout the land, we would suggest that, instead of the old standard subject, "Which is the mother of the chicken, the hen which lays the egg or the one which hatches it?" there may be stibstituted "who killed the game, the one who prepared the pitfall or the one who accidentally startled the animal." In the accounts of the Milwaukee holocaust we read that "a closet for firewood was situate near the wood-lined eleyator;" that the fire started in this closet, and, by means of the elevator, was immediately carried to every storey of the building. The fire which destroyed three human lives in the hotel at Pembroke, Ont., a few weeks ago was stated to have "started in the oil-room." The fire which a fow years ago destroyed several hunan lives in a hotel near Montreal commenced in a room containing a benzine tank. We further note that the fire in the Newhall House at Milwaukee is supposed to have been the work of an incendiary. We therefore suggest as an additional subject for discussion: Granting, for argument's sake, that these and similar fires were the deliberate acts of incendiaries, which is the greater criminal, the one who deliberately prepares the means of destroying life and property in such manuer that such destruction must inevitably ensue, or he who finally puts the means in active operation?

Foresight is one of the attributes of a man; hindsight is the peculiar quality of a mule, so the action which substitutes any remedial measure for a precautionary one partakes rather of the characteristics of the mule, and may be depended upon to kick most treacherously-even as fireescapes are asinine substitutes for brick walls, deadened floors, self-closing elevators working in brick shafts, and the elimination from the main building of the benzines, coal oils; cooking ranges, fternaces, lindling-rooms, and such like probable causes of fires.

No form of "premeditated murder machine" is more conmon than that of the hoistway or elevator way open from
basement to roof, nor is any nore frequent in its fatal action; to no other mechanical device can be attributed so many broken limbs, the loss of so many lives, or such rapid progress of fires destroying valuable property. Where these are suffered to exist neither anybody nor anything is safe, and it is idle to blame those by whom a catastrophe is finally consummated, if we continue to permit such things as must inevitably produce these horrible consequences.

## DISALLOWANCE.

We read with much surprise in a recent issue of the Globe the following statement: "The Imperial Government had just as "much reason for disallowing the Cana"dian Act as the Dominion had for dis. "allowing the South Eastern Charter." The Act referred to is the "Deceased Wife's Sister Marriage Act," and there is not the slightest analogy between the two cases. The Manitoba Charter referred to had for its object the construction of a Railway which was to be built with the view of diverting the traffic from the Canadian Pacific Railway, which is being constructed under a special agreement, ratified by the Dominion Parliament, and which it is hoped will secure the Canadian traffic through our own territory. The question, on which we admit there is a wide difference of opinion, is one in which other Provinces than Manitoba have an interest. On the other hand, it is a matter of perfect indifference to the people resident in the United Kingdom, whether marriage with a deceased wife's sister be permitted in Canada. Moreover, a similar Act has already been passed in one or more of the Australian colonies without disallowance on the part of the Crown. It is likewise not irrelevant to notice that the House of Commons has more than once passed a bill substantially the same as the Canadian Act. While on the subject of disallowance we may remark that when instances are given it would be very desirable that they should be accompanied by the reasous given by the Minister of Justice, on whose report the orders in Council are passed. The Globe has certainly been most unfortunate in the comparison which he has drawn between the Acts passed by the Dominion Parliament and the Manitoba Legislature.

## THE FRENCH TREATY.

Mr. C. O. Perrault, Vice Consul of France, who has recently returned from Puris, is, credited with a statement that Sir A. T. Galt has been asked to postpone further negotiations as to the commercial treaty between France and Canada
because a treaty must be first made between France and England. This is a most extraordinary statement. We can scarcely believe that Sir Alexander Galt will allow himself to be any longer duped by the French Government. Canada wants no treaty with France or with any other country. What she wants, and has a right to claim, is that France will admit her exports as she does those of Great Britain on the same terms as the most favored nations, as Canada does all French exports. There is no longer any probability that there will be a revival of the commercial treaty between France and Great Britain. The latter country being committed to Free Trade is not in a position to retaliate, otherwise she could compel France to reduce her duties. Canada has no object in demanding any change in the French duties, and even if she had, would not have the most remole chance of obtaining such $a$ concession. Her policy should have been to give a plain intimation to France that, unless she is placed on the same footing as the most favored nations, it will be impossible for her to continue to place France on that footing, and that an extra duty of 10 or 20 per cent. will be exacted on French imports. Unless Sir Alexander Galt has received authority to make such a demand, all his negotiations will prove a farce. The treatment of Canada by the French Government has been simply outrageous.

## THE RIVERS AND STREAMS BILL.

It must, we think, be generally admitted that it is most unfortunate that the Dominion and Ontario Governments should be in antagonism on such a ques. tion as that which will be the subject of these remarks, on which we may observe that we have obtained a good deal of additional information since our last issue. We see no reason to doubt that the Ontario Legislature has acted in perfect good faith in legislating in regard to the rights of riparian proprietors on all rivers, creeks and streams, and in providing that persons who shall improve the floatability of any river, creek or stream shall not have the exclusive righto the use of such river, creek or stream, but that, subject to the payment of reasonable tolls, all other persons shall have the right to use such improvements. There seems to be a variety of opinions among those who are hostile to the Ontario Act. We have seen it argued that the Act is entirely ultra vires because the Dominion Parliament alone has the control of all rivers and streams. This pretension is entirely destitule of force, and was not conlended
for by the Dominion Government itself. It is admitted that the Government might expropriate the property of a riparian proprietor and then exact tolls, as the Dominion Government has done for the use of the slides constructed by means of public funds. This is an unsatisfactory solution of the difficulty. It would be unreasonable that the Provincial Governments should be compelled to acquire the property of all who might choose to nake improvements on non-uavigable streams chiefly for their own benefit. The only other course is that contemplated by the Ontario Act, which is to permit the public generally to use the improvements on the payment of fair compensation. We may remark here that the opponents of the Ontario Act have constantly alleged that the object of the Act was to deprive Mr. McLaren of his property without compensation. We find nothing in the Act to lead to such an inference. The intention seems to us to have been to put riparian proprietors, who thave made improvements, on the same footing as joint stock companies incorporated under a general act for making similar improvements.

In examining the point atissue between the litigants we find in the protest against the Ontario Act that Messrs. Caldwell \& Son "were asserting a right to use these improvements without paying for them," a claim which is certainly not countenanced in the Act. We further find that these "parties (Caldwell $\&$ Son) were offered "the use of the improvementsata reason"sonable toll if they would acknowledge "Mr. McLaren's proprietary rights, which "offer they rejected." It seems therefore that Mr. McLaren was willing to yield all that the Act really requires him now to concede. It is deeply to be regretted that personal and political feeling should have had so much influence on public opinion in regard to this question. It cannot be denied that the disallowance of the Act and the course taken by opposing parties has been governed entirely by the case of McLaren vs. Caldwell, whereas the Act is of a general character, and it is important that its pro. visions should be framed without reference to the special case. We hold that the Province of Ontario should not be compelled to expropriate in every case in which improvements are made on rivers and streams by a riparian proprietor. It seems only reasonable, and if we read the Act right, it would so rule, that the proprietor should have the control of his improvements just as a joint stock company has. The question of compensation is the one of greatest difficulty. Mr McLaren in his protest only claims "rea.
sonable toll, " but Mr. Caldwell would doubtless maintain that he demanded unreasonable tolls, and, of course, if the proprietor is allowed to levy toll at his sole discretion, he would be enabled virtually to preclude the public from using his improvements. It might possibly be found that the highest court in the Province should be empowered to sanction all the regulations made by a riparian proprietor in regard to the use of his improvements. It is clear that where party feeling exists it will be imagined, no matter how slight may be the foundation, that a Government will favor its own supporters. We therefore incline to the opinion that a judicial decision would be more satisfactory than one by the Governor in Council. As we have already remarked, it is unfortunate that from first to last the question of providing for the use of improvements on rivers and streams has been complicated by a personal dispute, which ought long since to have been adjusted by the aid of common funds. Mr. Caldwell ought never to have asserted a right to use Mr. McLaren's improvements without paying for them, and on the other hand Mr. McLaren should abandon his pretension to exclude Mr. Caldwell from the use of his slides. Mr. Caldwell must have acted under advice, and, as he got one decision in his favor, it cannot be denied that he had ground for contesting a point on which he believed himself to be in the right.

On reading the Act passed by the Ontario Legislature, which we had not had an opportunity of doing when we wrote last on the subject, we found the follow. ing clause :
"If any suit is now pending, the result "of which will be changed by the passage "of this Act, the Court, or any judge of "such Court, having authority over such "suit, or over the costs, may order the "costs of the suit, or any pari thereof, "to be paid by the party who would have "been required to pay such costs if this "Act had not been passed."
The foregoing clause fully meets the objection that we raised, that the effect of the Act might have been to inflict the costs on a litigant who might haveibeen defeated owing to the new Act. On looking over the debales on the bill, we do not find that Mr. Meredith, the Opposition leader, was at all unreasonable. He"said: "A provision should at least be made "that these slides should be subject to " the control of the owner. Under the "bill a man might make a large outlay on "stream improvements, and when he
"desired to use them find himself pre. "vented by others. As the Hon, member
"for Muskoka (Mr. Miller) pointed out, " the owner should have the priorily in "using his improvements.". There was nothing unreasonable in this, and Mr. Pardee merely observed that Mr. Meredith was "conjuring up imaginary difficulties," to which Mr. Meredith replied that "he "suggested that the matter of general "regulation should be submitted to the "Governor-in-Council." In point of fact the Opposition seemed anxious at the time to give great power to the Governor-in-Council, and Mr. Morris drew attention to the bill for the incorporation of timber slide companies, and the power given to them to make by-laws and to alter and amend the same, and claimed that $\mathrm{Mr} . \mathrm{Mc}$ Laren should have an equal right. We desire merely to show that all parties seemed willing, when the bill was under discussion, to leave the power to the riparian proprietor to make by-laws, subject to the Governor-in Council. Since the disallowance the same parties have rather changed their views, and are now for expropriation.

AT \& recent meeting of the creditors of the bankrupt Bank of Prince Edward Island, at Charlottetown, pursuant to the order of Judge Peters, is stateluent of the present assets, as estimated by the liquidators, was submitted. It is as follows : Shipping, valued at $\$ 70,1500$; mortgages and judgments, $\$ 29,010$; book accounts, $\$ 100,000$; cash on hand, $\$ 61,170$; cash yet 10 be paid by contributories, $800, n 00 ; 10$ In,$\$ 350$, 170. It is calculated that the Bank will pay at least one-half of its liabilities. The liquidiators hope soon to be able to pay another dividend of 10 cents on the dollar. In order to effect an amicable arrangement between the directors and liquidators, it has been proposed that the directore, in addition to the pryment on their shares, shall pay out of their own pockets $\$ 63,000$. A committee of three creditors was appointed to confer with the dierectors in relation to the offer of cumpromise suggested, so as to arrive, if possible, at a definito settlement of all claims against them.

## MONTREAL WHOLESALE MARKETS.

Teursday, 18th Jan., 1883.
The weekly volume of wholesale trade is naturally small as yet, but as the year advances there is a perceptible increase noticeable in several departments. Dry goods are slowly becoming more active, but importers and the trade generally coungel caution on the part $o_{t}$ customers under present circumstances. If this be ubserved there is every prospect of a good season's trade being done, as $a$ finer winter thus far bas not been experienced for some years. . The ice-rail way and other ronds across the $S t$. Lawrence have been in use for some days, and yesterday's storm will have improred the sleighing in country sections. A large influx of visitors to the city is expected next week to attend the Grand Winter Carnival provided by the citizens on a colossal scale. Business at the banks remains steady at unchanged rates of interest and discount. Sterling Exchange firm, but in the absence of offerings business between banks is limited; mates for sixty daty bills are $108 \frac{?}{8}$ to 109, and 1093 to 109 F over the counter. Drafts on New York firner, at $\frac{1}{2}$ to $\frac{5}{8}$ prem. Busiuess in the stock market bas been steadily increasing this week, wilh considerable firmness aud an upward tendency in values. The cause is said to be the rumored successful negotiation in London, Amsterdam and New York, of 8 million pounds sterling of Pacific Railway stock. Again, the existence of a considerable "sliort" interest crented last month lias been industriously used by the "bulls" as a lever to enlance prices. The market, however, is still mainly a brokers' one, not much increased confidence being manifested by the outside public. Today the market was firm all round, and compared wilh a week ago Montreal Bunk shows an advance of 32 per cent., Ontario has advanced $2 \frac{1}{2}$ per cent., Molsons 2, Toronto 6, Merchants' $2 \frac{1}{2}$, Conmmerce 2, City Passenger and Uity Gas each $3 \frac{1}{2}$ per cent, and Richelieut has advanced about 1 per cent. St. Paul M. \& M. Railway has gone up 6 per cent., while Ganada North West Land C 0 . is nuoted 3 s lower than a week ago, at 42s 6 d bid, 43 s asked.
Boovs and Shoes.- Orders for Spring goods per travellers are coming forward freely, almost too freely for the ability of some of the manuacturers in their present ponition. The majority
of the faclories, however, are in full blast again, getting along well with their new lasters, and expect soon to be quite indcpendent of the old lasters, who, as a body, do not seem ready yet to sign an ugreement promising not to interfere with their employers in the management of their business, and who seem totally blind to their ova best interests. The result is almost certain to be disustrous, to a number of the lasters, at lenst. Shipping goods has not yet commenced. Payments coutinue fuir, no cumplaints being reported.

Cattre, eto.-Tbe offerings of butebers' cattle at the local markets last Monday comprised about 300 head. Choice grades were firm at from 5 c to 5 l c per lb ., live weight; medium to fair were somewhat easier, with an advantage in buyers' favor. Sales were reported at from 3 ac $104 \frac{12}{} \mathrm{e}$, and corrse stock realized 3 c to 3hc. The oficrings of Sheep and Lambs were smull, the former selling ant from $\$ 1.00$ to $\$ 7$, and the latter at from $\$ 3$ io $\$ 4.25$ ench.
Hides and Skins.- In consequence of failures of Quebec tanners, the hide market is in a somewhat unsettled condition, but last week's prices still rule under a comparatively light demand. Western States hides are steady and in moderate request, with snles reported of 150 sides No. 1 Buff at 92 c per 1 b . ; No. 2 is quoted at sc to stc., second 'Steers at. 10c. to 10te, and Bulls at. 8 c to da c . Dry salted Western bides are worth 17 c for No 1 and 15 C for No. 2. Sheepskins unchanged, at $\$ 1.00$ to $\$ 1.10$ each, as to size and quantity of wool.
Leather.-The maket has continued quiet, withan improved demad, however, experienced for some descriptions. There is an rasier feeling for Sole leather, slaughter being quoted ic lower than last weck, and ordinary Spmish Sole is also easier, a lot of 200 sides No. 3 Spruish having been sold at 18fic. In black leathers there has been a fair morement, the principal demand being for Buf and Pebble. Sales reported include 350 sides Waxed Uppar at 35c. Other kinds quiet and unchanged.
Sebds.-There has leen no business done in this market yet this seasonf no offerings here, and dealers are unwilling to operate, except on positive orders at present extravagantly ligh prices, which are nominally quoted at $\$ 7.25$ to \$7.50; Clover Seed, however; conld not be laid down here at those figures from the seed districis of Ontario. Timothy is quiet, and nominally quoted at $\$ 2$ 10 $\$ 2.50$ yer bushel. Several lots are expected shortly, when prices will be established. The recripts of Clover Seed in Cannda continue light, notwithstanding that prices are rapidly advancing having reached $\$ 1$ to $\$ 1.20$ per bushel within the past fers weeks, and ure now considered dangerously high. Sales of round lots have been made weat of 'loronto at $\$ 7.45$ and $\$ 7.60$. The Chicago market has becn quite excited, with transnctions as high as $\$ 8$ per bishel. New York is also firm, with a strong upward tendency: Latest English adviees state: "Rerl Clover Sed is searce and held for a further advance. America and Canada report very short supplies and a daily advancé in prices, is the Germans aid Frencl are competing with us there for the small quantity oftered. Very little Englisll Red has yet been threshed, owiag to the damp weather."

Damy Produce.-A very quiet week has been experienced. Under liglit stocks and small receipts of Butter last week's prices lave been firmly maintained, especinally for funcy goods, of which the light offerings are pretly much exhausted by the local demind There have been no quotahle transuctions transpiring during the week, outside markets being quite unfavorable for slippers. The local Cheese market remaius inaninuatc. Buyers are holding
off, but holders are firm, nsking 132 c for the finest. A further alvance of od per civet in Liverpool was reported yesterday, quoted at 6 is. fid. In the resence of business values here remain unaltered.
Flour and Grain.-Business in the local market has continued quiet, but there have been gales in the. West this week on Montreal acconnt, and holders are firmer in their views, asking higher prices. Some 16,000 bush Uanada Red Winter Whent was sold at a point West of 'Toronto at 48 c per 100 lbs : through rate to Liverpool. Oanada Red Winter Wheat is held firm at Bl 1.11 to $\$ 1.12$, White Wiater at $\$ 1.06$ to $\$ 1.07$, and Spring at $\$ 1.07$ to $\$ 1.08$. The local four market is also firmer, under au incrensed enquiry both on local and export account ; there is also some demand for future delivery, but no quotable trangactions reported. English and American matkets are reported elsewhere under the respective hendings.
Dry Goops.-The travellers are all out and doing failly well, but, in addition to, this being the usual stock-taking period with retailers, stocks of winter goods in the country are large, and several western customers write that they will delay stock-taking till a fortuight later than usurl, if the snow-ronds continue good, so as to derive the full benetit of the winter season. House sales hore are reported few and small, and the regular activity of Spring trade has not yet commenced. Gomplains come from some sections that farmers are still holding back their grain nud not paying their bills; and sone complaints are also heard of some houses slauglucring goods; it is stated that Canadian staples are being sold in the west at or near cost prices. If this be continued; the old experience of a harge volmme of business and no protiss will likely be repented. New goods are atriving freely from Europe, and in a few weeks stocks will be complete; but it is rather expected that country merchants will be later than usual in coming to market this senson. Dealers in ready-made clothing are doing agood trilde, and agents for Canadian woolens report business splendid. Remittances on the whole fuir, some honses not.. reporting so favorably as others.
Drugs and Chemicals.- Business is improving, but is still very light. Cream Thertar scarce on the spot, and Orystals held frim at 32 ge . Powder, 35 c to 37 c . Acid Tart. is also higher. Quinine and Opium slighty easier. The English Chemical market is moderately active in supplying the hone demind, and prices are fiems.
Funs.-The season is pretty well over; the catch of raw furs this year in Canada has been smaller than for some years past, and in consequence it is thought that prices on the other side of the Athantic may advance somewhat. The next Condon sales open on the 22 nd inst., when the offerings will consist of Beaver and Muskrat. The quantity of riav furs coming to this market now is very stuall, but all offering are freely taken at our quotations, Mink, $\$ 1$; Red Fox, $\$ 1.25$; Marten, $\$ 1$; Otter, $\$ 8$ to \$10; Beaver, $\$ 2.00$ to $\$ 3$ per' ib.;'Skunk, 60 c to $\$ 1$; Bear, \$8 to \$10 for large, and \$4 to \$5 for small; Lyns, $\$ 2$ to $\$ 3$, as the size and color.

TORON'TO WHOLESALE MARKETS.<br>(By Special Telegruph.)<br>'Iononto, Jun. 18, 1883.

'There is very litile change to notice during the werk in trade, the wholesule houses are all in the full swing of business, with varying reports of progress. Dry goods men do not say much of the extent of the trade beyond that it is as good as usual. It is thought, hoverer, that dilatory customers will not be treated with great forbearate. Prices of goods are generally not high. Groceries are duing better than whs hoped for at the close of the year; with prices generally stendy.' Boots and shoes are variously reported. Where the agents were out early. they report a good tride; and even where the agent was later on the road, the rejort is satisfactory. Manufacturers are not yet in full swing, however. Hardware is still quiet, for light goods. The wentler is aulverse to building operations. Provisions are not moving yet in any large qumutities, as a pule. Payments are said to be mending a little, but the finct remains that farmers are not bringing their produce to marker. However, it is an assurance of solvency to know that the produce is in the comntry, and the farmers can pay if they must pay. The money market bus been ensy with only a moderate demand. Commercial paper is discounted at 7 per cent; lomss on stocks at $7 \frac{1}{2}$; brokers pay $7 \frac{1}{2}$ to 8 per cent, and are more readily supphied than in the recent past. Sterling exchange is denter; 60 day bills between banks lo8a, over the connter 109 ; demand bills 1083 to 110. The charge is for New York drafts, $\frac{1}{2}$ premium between banks and $\frac{5}{8}$ to customers. Bunk gtocks and other secutities lave been slow in sale for the past week, and prices hare been steady till Monday, when several of the banks were adranced sharply. Montreal was slighty. improved, but with tev sules. (Intario lus been quiet, within narow range. Toronto showed the grentest improvement, reaching 150 on Monday. Federal also was advanced. Merchants: wis irregular without being active. Oommerce continues quiet and stendy atrecent quotations. lmperial reported firm on light siles. Dominion steady with few sales. Standard more active than any bank; was also pretty steady in price." Fminilton was not suld, and the price was entirely nominal. Molsons was not sold here, but sales in Montreal were in the neighbortiood of 126. Loan shares were quiet but lirm, and in sereral instances sales were at improved figures. It is observed that ats money is becoming someWhat easier, these securities may be more sought
after for investment. Miscellaneous stocks were very quiet, and prices irregulur with lower bids.

The following table shows the closing bids on the Stock Exchange compured with last Thursday.

Furs.-There has been a slight improvement in the receipts, but the quantity coming to hamd is not equal to what it was last year. It is thought the hunters are holding the skins back for a chance of better prices in the spring. There is not moch hope of this as the American market is well supplied, aud raw skins are cheaper there than bere. Quutations are:Muk, $\$ 1 ;$ Muskrat, $10 \mathrm{c} ; \mathrm{O}_{\mathrm{tter}, \mathrm{S}} \$ 10$ to $\$ 12$; Beaver, $\$ 2.25$ to $\$ 2.50$ per 10 ; Raccoon, 70 c ; Fisher, $\$ 7$ Fox, Red, \$1.40; Silver, $\$ 25$ to \$50; Bear, \$8 to \$10; Martin, \$1.

Pemoleva,-The market is salll further declined this week. The depressed market in the United States has had an effect on Camadian produce. Trade bere bas been pretty good, lowever; and there are no complaints. American prine is still quoted at 26 c ; water white has declined from 32 c to 30 c ; Canadinn refined sells now at. 19 c for single barrels, and 18.te for larger luts.

Fbicirs-Rates from Toronto Enst are nominally unchanged. Oceau freight rates are said to be easier, but as the Grand Trunk does not publish an open rate for grain, it is impossible to gire sufficiently correct figures on which to base shipping transactions. The rales on flout to Liverpool are 78 c per barrel, 44 c por bag; beef and pork, buls 50 c ; ments 50 c c tallow 68 c ; butter nad cheese 85 c ; poultry and dressel meats \$1.03.
Fuel.-Prices are still moderate. Best hard. rood $\$ 5.50$ to $\$ 6$; and $\$ 4.50$ in car lots in railwy yard. Coal is unchanged. T'here was a thrent made by some parties here that conl would be dearer, as they had got a contract with American agencies that no coal would be sold to thronto denlers nuless thes engaged to sell at a certain pice. This scheme fell throngh, and now the Toronto syndicate is selling down to the fighres asked by the non-contorming dealers. Prices are still $\$ 0.50$ to $\$ 6.75$ per ton delirercd. Small nut, heating for small stoves, \$5.50.
Hides and Skiss.-The market is now overstocked with hides. Home deliveries continue to be large. There are also said to be quite large receipts from Olicago. A sale of some car lots was made on Friday last at $8 \frac{3}{8} \mathrm{c}$; aud afterwards a car lot at sic, cow-hides cured. Green hides are about a cent lower. There are miore hides now in the market than can be sold at present prices. Sheepskins, tre dull of sale also at $\$ 1.20$; dried lots trom countrystores at 70 c to $\$ 1$, according to quality.

Floun ayd Meal. - There has been another turn in the thour market. Sales are again very limited, and prices are less firm. Thé demand is so variable in the course of one week that reports are nlmost contradictory, but the sales have been gencrally willin a range of 5 cents. Superior Extra has sold here generally at $\$ 4.25$. and that is the accepted value; but sales bave been made outside at equal to $\$ 4.20$. A sale
of a car of bags yesterday at $\$ 2$, and the price stendy. Extra is quoled at $\$ 4.10$ to $\$ 4.15$, according to brand. The flour in store now is 655 barrels. Oatmeal is in light demand. Sellers ask $\$ 4.65$ to $\$ 4.75$, with buyers 10 cents lower; and for lots of a few barrels. Cormmeal is also only sold in jobbing lots and single barrels at $\$ 3.50$. Shorts sell at $\$ 18$ to $\$ 20 \mathrm{a}$ ton, according to quality. Bran is sold at $\$ 12.50$ to $\$ 12.75$ on the track.
Wheat.-The market has not been netive during the past week. Prices lave not improved. Sales were intermittent and of ordinary car lots. On Monday a small lot of No. 2 Fall sold at 94c f.oc., and again yesterday a larger lot at 94 c f.o.c. No. 1 Fall was repórted sold yesterday at 95 c ; and sales of No. 3 were made at 92 c fo.c. Spring whent was about a cent higher ; No. 1 selling at 97 e f.oc., with a car yesterdny of No. 2 at 95 c fo.e ; and 92 c oftered for No. 3. Goose wheat is adranced, and sells at 89c and 9 ac on the Street, and quoted at $89 c^{\circ}$ on Change. Stocks here on Mondnay were 223,148 bushels, against 233,565 bushels a year ago, and 136,977 same date 1881 .
Coanse Grains and Seeds.-Barley is steady, but sales are not large. No. 1 sold yesterday. at 77c ; No. 2 at 72 c ; Extra No. 3 nt 63 c ; and No. 3 is quoted 50 c - 1052 c . The stock here on Monday wis 176,650 bushels against 280,953 bushels a year ago, and 411,293 bushels same date 1881. Peas are not moring, but prices are steady at 74c for good No. 2. Stocks 7,052 bushels on Monday against 14,641 last year, fand in, 0fis srme date 1881. Onts stendy at tuc for Western sold yesterday; Enstern 382 and 39 c . Rye nominal at 59 c to 60. Corn 6le on the track for Onmadian. Seeds have adranced agsin. Red Clover sold yesteriay at $\$ 7.50$ to $\$ 8$ : Alsike at $\$ 10$ to \$11, with very litule coming in. Itimothy is steady, willi light receipts, at $\$ 2$ to $\$ 2.25$.
Live Stook Trade- There is a good deal of interest shomb in the cattle markets at present. The demand here is brisk as there is a pretty heavy trade being done in dressed beef for shipment to points east and west. The receipts are not equal to the demand. Last week the receipts reached aboit 600 in the last days of the week; and so far this week the reseints linve been probably 400 . Ai the market on Tuesday 300 head of cattle sold at from 3 c to 4 c for inferior to common, and from $4 \frac{1}{2} \mathrm{c}$ to 5 c for good to choice. There were a few cars of good catule shipped to Montreal. Sheep, a few sold at 4de to ne; jumbs, if few also sold at the same prices. Fat hogs sold at $\$ 6$ per 100 - lbs. live weight, which was also puid for feeders. It is now said that dealers in cattle have been purchasing catule in the country at $\overline{5} 2 \mathrm{c}$ to 6 de for good bensts averaging 1,400 Ibs, to be delivered for shipping in May or June. The market for cattle is likely to be stendy during the cold weather; or while shipping dressed meat is possible.
Provisioss.-Merchants say there is still very little doing beyond a jobbing trade. They do not look now for an immediate improvement. Butter is unchanged; good to best dairy 19c to $20 \mathrm{c} ;$ gilt edge 21 c ; large rolls ordinary 10 c to 17 c ; shipping selections 16 c ; inferior 12 c to 14 c . Mess Porte nominial, $\$ 21$ for car lots, $\$ 22$ for single barrels. Mess Beef seems to be artracting attention, and enquirics and small orders are receiyed, quoted at $\$ 14$ for prime, $\$ 15$ for mess and $\$ 18$ for plate. Bacon is stendy, long clear 11 c to 11 lc ; C.O. 10e to 104 c ; breaktast bacon 14 c to 14 fc 1olls 13 c to 134 c , If ams; smoked unichanged at 13म c to 14 c ; pickled 12 a c to 12 za c . Lard is selling better, a car lot sold on Snturday nt 13 e for tubs, but the price is below the market. Jobbing lots sell at 14 e for tubs and 14 de for pails. Cheese is lield firmly; sellers expecting that the market will improve. Fine goods are held at 13 c , medium at 12 c to 12 t c . Dried Apples are not in active demand but values are advancing, buying at 82 c to 9 c , and selling at 9 de to 100 ,

Otmer Produce.-Poultry is almost out of the market and prices queted high; fowls 90 ; grese 80 to 9 c ; ducks 10 c ; and turkeys 12 e to lite pe: lb. Hogs had an advance on Friday aud Saturday, when sales were made of heavy weighis at $\$ 8.35$. On Monday and T'uesday the receipis were large, aud offers from outside of car lots were numerous. Prices fell to $\$ 8.15$ to S8.25. Buyers here are not anxious for many more logs us the accumalation of meats is now quite large. The receints in the past five days sill probably reach to $2,0 \mathrm{co}$ hogs. I'otatoes are not scarce, and recent sales were at 65 c per bito by car load here. Apples sell on the street at $\$ 2$ to $\$ 3$; packed $\$ 3.50$ to $\$ 4$, for choice, and in smill lots. Onions slow of sale at $\$ 2$ to $\$ 2.25$ a barrel. Hops have been selling in single bales 10 small brewers at $\$ 1$ to $\$ 1,10$. The city bremers are not buying just now. Cranberries gnoted $\$ 9$ to $\$ 9.50$ a burcel. Pot Barley at SS5 for single barrels. T'allow buying at $8 \frac{1}{2} \mathrm{c}$ and gelling for 9 c ; rough tallow 42 c . IIay, pressed in car lots $\$ 12.50$; on the street $\$ 12$ to $\$ 15.50$. Strare bundles, $\$ 8$ to $\$ 9$.
Ladther:-Trade is very dull; the principal morement is in moderate consignments from here to Montreal. There is very small demund here. Prices are unchanged: Span ish sole all weights 26 c to 2 ic ; Slanghter, henvy, 28 c to 30 c ; light, 27 c to 20 c ; Spanisb, middle weights, 29e to 30 c ; Buttalo sole, 2 le to 23e; Hemlock hrueness, 28c to 33c; Oak harnese, $45 \mathrm{c} 10 \mathrm{b0c}$; Kip, Preuch, 75 c to 9 se ; Euglish, 70 c to 75 c ; Chicago Slanghter Kip, 60 c 1075 c ; Native Sianghter, 50 e to 65 c ; New York Veal Kips, 70 c to ràe Splits, large, 28 c to 33 c ; Buff 16 e to $1 \mathrm{Se} ;$ Pebble, 14 c to 18 c ; Russets, Shoe, 40 c to 50 c ; Saddlers, $\$ 8.50$ to $\$ 9$; Ualf ( 36 to 40 . lbs. per doz.), Tise to 90 c ; light, 60e to 70 c ; French calf, $\$ 1.10$ to $\$ 1.40$. Cor Oil, 70c; Shorts Oil, 60c ; Gambier, 7 c ; Sunnch, 5c; degras, $6 u$.
Habdank. - There are no clanges of consegquence in prices, but they are well maintrined. Stocks here tre woll assorted, nud business is not delayed in filliog orders: All mantufactures of iron, Beitisla, American and Oanadian, are strongly maintainedat present prices, which is justified by the ruling prices of raw material. Antimony lue to $16 \mathrm{c} ;$ Barbed fencing wire, galranized 88 c, painted 7 e ; copper, ingot, 20 c to alc : sheet, 25 c to 26 c ; brr, 30 c to 33 c ; white lead per keg $\$ 1.50$ to $\$ 2$; glass, 25 and under $\$ 2$ to $\$ 2.10 ; 26 \times 40 ; \$ 2.10$ to $\$ 2.20 ; 41 \times 50, \$ 2.40$ $10 \$ 2.50 ; 52 \times 60, \$ 2,60$ to $\$ 2.70$, Janill Ropel3c to 14 c ; Russian ! 4 c to 16 c ; lend, pig, 4 fe to 4 c ; bar 5 e to 5 f ; sheet 5 c to 5 fe ; shot Da; glue 8 c to 20 c per 1 b ; brass kettes 35 c to 36 e ; cut ninils per $\mathrm{keg}, 100 \mathrm{lbs}, 10 \mathrm{ll}$ to $60 \mathrm{~d}, \$ 3$. . 05 to $\$ 3.10 ; 8 d$ and $9 \mathrm{~d}, \$ 3.35$ to $\$ 3.40$; 61 and id, $\$ 3.55$ to $\$ 3.65$; 4d and $5 \mathrm{~d}, \$ 3.75$ to $\$ 3.83$; 30, 84.10 to $\$ 4.20$. Zinc $5 \frac{1}{2} \mathrm{c}$ to Gc ; Borax 15 c to 17 c per 1 b . Tin 27 c to 28 c ; Ingot 25 c to 27 c .
Groceries.-Trade is dult, Prices are unchanged; except in fruit. Some 2,000 lots of Valencins sold last week at $7 \frac{1}{2}$, but sellers afterwatds asked 73 c , which stopped trading, horever. Tecos are steady. Sugars quiet. Fish are dear and not in demand. Quotations are: Raisins-Loose Muscntels, $\$ 2.65$ to $\$ 2.80$; Layers, boxes, $\$ 2.90$ to $\$ 3$; Sultanas, $10 \frac{1}{2} \mathrm{c}$ to 11 c ; Seedless, 11 c to 12 c c ; Valeatias, 732 c to 84 c . ## EATS for me remlicN!

 Foo Choo's Balasan of Slaial's oilPositively Restores the Hoaring, and is the Oniry Absolute Care for Deafness Known,
This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as Caldcharodon Rondelyen. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410 . Its eures were so numerous and many so seemingly miraoulous that the remedy was many so seemingly miraoulous uhat the rempdy Nas officially proclamed over the entire Empire. Its
use beemme so universal that for over 300 years' no use became so universal that for over 300 years no Drepaid, to any addrese at $\$ 1.00$ per bottle.

## Hear What the Deaf Say!

It has performed a miracle in my case.
I have no thearthly noises in my luad and hoar much better.
I have been groatly benefitod.
My deafness helped a great deal-think another bottle will cure me.
