**TAMMANY VELECTS A MAYOR FOR GOTHENBURG**  
Gaynor's Plurality About 70,000—Results of Other Elections—Reform Victory in Philadelphia.

Elections were held yesterday in many of the United States and cities, with no national issue involved to bring about concerted party action.

In New York City Tammany Hall scored a triumph in the mayoralty election, Judge William J. Gaynor rolling up a plurality of upwards of 70,000, but lost the control of the board of estimates, a defeat.

In Philadelphia, another battleground on reform issues, Samuel P. Rotan, Republican, was elected district attorney over D. Clarence Gibson, representing the Law and Order Society and the reform elements. Rotan's majority exceeded that in a previous reform campaign, being estimated at upwards of 30,000.

The returns from San Francisco, where reform issues are uppermost, are meagre at a late hour, and give no indications of the outcome.

In Massachusetts, the picture was public, had been re-elected over Jas. H. Vahey, Democrat, by a greatly reduced majority, estimated at 10,000. Gov. Draper's majority last year was 60,000.

In Rhode Island, Gov. Potter, Republican, was re-elected over Oliver Arnold, Democrat, by a substantial majority.

In Virginia, returns indicate that the Democratic ticket, headed by Judge Mann for governor, has been elected by about the usual majority.

In Maryland, the constitutional amendment disfranchising the negro, is still in doubt, the Baltimore vote being strongly against the amendment, while returns from the interior indicate increasing strength for the amendment.

Pennsylvania state elections for treasurer, attorney-general and judge of the supreme court, resulted in the usual Republican majority.

In New York State the election for members of the assembly resulted in the choice of a lower branch of the legislature having a Republican majority of about 38, as compared with a Republican majority of 48 in the last assembly.

**TAMMANY GETS ONE JOLT**

Losses Control of the Expenditures of the Four Billion Dollars.

NEW YORK, Nov. 2.—Tammany elected another mayor of Greater New York to-day, but lost its grip on city finances.

Gaynor of Brooklyn swept the 5 boroughs to victory as mayor by at least 70,000 plurality, defeating Otto V. Bangs, Republican-Puritan, and Wm. E. Hearst, Independent. He failed, however, to carry his ticket with him and the Republican-Puritan forces were victorious absolutely of the board of estimates and appointment, which will disburse approximately a billion dollars during the administration. This is the first time since a defeat for Tammany, for the control of the board of estimates was one of the principal issues of the campaign.

In addition, the Republican-Puritans elected Chas. S. Whitman district attorney of New York County, who defeated George Gordon Brittle, the Democratic nominee, by a majority of 10,000 plurality, and John S. Shea, for sheriff, over Christopher D. Sullivan, Democrat, by approximately 10,000.

Former Justice Gaynor, now the mayor-elect, did not take the trouble to receive the returns showing his victory. After leaving his home in Brooklyn this afternoon to vote, he did not come back until 8.15 p.m., when his election was conceded.

"How do you do, Mr. Mayor?" was the greeting given him as he stepped into his drawing room.

Mr. Gaynor stroked his gloves deliberately and asked without a change of expression, "Am I elected then?"

On assurance that he was elected beyond doubt, Judge Gaynor said thoughtfully, "You will have to excuse me, while I eat a little supper, I've just come back from a twelve mile walk."

Later the following written statement was given out by the new mayor. It was all he had to say on his election.

"I have nothing to say, except that I present my compliments to newspaper proprietors and editors."  
Only three newspapers—one in Brooklyn and two in New York—supported Justice Gaynor.

"I shall not take a nomination to which is annexed any pledge, promise or condition, whatever, other than to be mayor in fact."  
Murphy's Regrets  
Charles F. Murphy, leader of Tammany Hall, issued the following statement: "I rejoice in coming with all good citizens in the magnificent triumph of the Democratic candidate for mayor, Judge Gaynor. The importance of his election to the people of New York cannot now be fully measured.

Of course I regret that any of the candidates on the ticket should be defeated. The responsibility for their defeat is in nowise to be attributed to my unfitness or unworthiness on their part. The people will understand with me."

**MRS. STETSON DECLARES FEALTY TO MRS. EDDY**

New York Christian Scientist Says She Had No Thought of Secession—Sensational Story.

NEW YORK, Nov. 2.—Miss Augusta E. Stetson in a letter to the press, announces her complete submission to the Boston officials of the Christian Science movement and denies she intended to secede from the Christian Science Church.

While Mrs. Stetson was preparing this statement her opponents in the First Church of Christ, Scientist, made public data they had gathered concerning her alleged infidelity practices.

Their statement included the charge that she had gathered twenty-six of her practitioners under discipline, is expected to have great effect at a meeting of the members of the First Church to be held Thursday, to receive a report from the trustees who have been investigating her teachings.

In her letter she says: "I shall never secede from Christian Science, and no student of mine, with my approval, will ever secede from Christian Science, or disrobe the constituted authorities of our denomination. I was never more devoted to the cause of Christian Science, to which I have given my whole life for twenty-five years. I was never more grateful, loving and obedient to my revered leader, Mary Baker Eddy, discoverer and founder of Christian Science and the leader for ever of all true Christian Scientists."

Opponents of Mrs. Stetson said they had discovered that one source of her great power is the receipt by her of the practitioners of a monthly list of the "diseases and sins" from which patients of these practitioners are suffering.

**GERMAN NOW DIRECTOR OF BANK OF MONTREAL**

Alfred Baumgarten Selected to Fill a Vacancy After a Good Deal of Opposition.

MONTREAL, Nov. 2.—(Special.)—The conflict which has been going on quietly over the vacant place on the board of directors of the Bank of Montreal, was brought to an issue to-day when Alfred Baumgarten, president of the St. Lawrence Sugar Refinery Company, was appointed in the place of the late A. T. Patterson.

It is understood that those opposed to the nomination of the wealthy German resident, who is a graduate of a famous university in his own land, claimed that he was not a British subject, but that was settled to-day when Mr. Baumgarten declared that he had been a British subject for many years past.

In fact, Sir Edward Clouston stated the other day, this charter only required a majority of the directors of the bank to be British subjects. Mr. Baumgarten is the possessor of twelve hundred shares.

**UNIFORM TEXT BOOKS**

Important Decision Affecting Catholic Schools in Montreal.

MONTREAL, Nov. 2.—(Special.)—That the Catholic school commissioners of Montreal must provide uniformity of books in all the schools under their control by September next is the result of a unanimous judgment rendered by the court of appeal to-day.

This was on a mandamus taken out by ex-Ald. A. J. H. St. Denis, to force the board to have uniformity of text books in the 54 schools alleged to be under their control, under 215 of the school code of Quebec. By judgment rendered on April 27, Justice Monod found that public schools out of the 54 really were under the control of the commission, and in nine of these schools the teaching was done by various religious orders, who made use of school-books published by themselves in virtue of a contract entered into in 1891, and since several times modified and tacitly renewed.

**A CRUSTY PAST WINDSORITES WHO HAD TO BUY NEW HEATING APPARATUS YEARS AGO LIKELY TO VOTE OTHER WAY.**

WINDSOR, Nov. 2.—(Special.)—Will Nemesis, in the form of his political record, follow W. J. McKee in the by-election contest which opened in North Essex yesterday? Is a question which if answered would unfold the secret which political fate hides in that constituency.

W. J. McKee was chief Liberal whip of the Ontario Liberals in the last session but one of Liberal rule in Ontario. W. J. McKee, shrewd politician Windsor is, one of our leading opinion on the natural gas question. It wrought his defeat. The Ontario Natural Gas Co., which was then exploiting the fields of South Essex, was exporting gas to Detroit, selling to an American distributing company at 15 cents per thousand cubic feet, while the Canadian consumers were charged 30 cents per thousand cubic feet. When the supply threatened to be soon depleted, if the then existing demands were continued, the Windsor consumers asked the Ontario Government to prevent the exportation. This could have been effected by the canceling of the lease for the land at the water's edge, thru which the mains ran. The McKee-proposal to the voters at Toronto, people felt, was fair, if he made any at all, for the government's majority was an uncertain one even on those days. His success in this regard depended upon the natural gas question. It wrought his defeat. McKee, when he came up for re-election, went down to an ignominious defeat, some Liberals refusing to vote altogether, while others voted for him, holding their noses the while. Hon. J. O. Rheaume, minister of public works, defeating him by an overwhelming majority.

A Queer Coincidence.

Those were cold days in January when the gas supply became depleted, and every family in Windsor was put to the expense of purchasing heating and cooking stoves. And just as W. J. McKee endeavored to break into the game again, as by coincidences, Windsor is once more depending upon natural gas for its fuel supply.

The question of its exportation to Detroit is also again to the fore. Just how the political situation at Windsor will come out, it is difficult to say. McKee now is a considerable one. O. J. Wilcox, the opposition candidate, does not enjoy the acquaintance in the city of his rival. He has no political party to apologize for, however.

Wilcox, who is a farmer, is the first candidate from the plow who has come to the polls in Windsor. He has a record in the game of politics that Mr. Wilcox, in the Township of Malden and Rochester, which are always considered strongly Liberal, he is known as a very successful business man. In the French and Irish townships of Windsor, where he has the added advantage over Wintemute, the present county candidate, of a position in the P. A. movement—a charge which was trumped up against him and which proved a veritable millstone about his neck. In fact, he has never been left for organization. Wilcox's candidacy is blessed with certain advantages over the Wintemute candidacy.

McKee After Labor Vote.

McKee, on the other hand, has been cultivating the labor people for some months, hopeful that the contingency which has just come, would occur. Moreover, he has the added advantage of the labor party machine, which wields great influence.

Wilcox is generally considered a good platform speaker; McKee, on the other hand, while a clever business man, as a public speaker holds the local record for cleaning out a hall by creating ennuis.

Wilcox, the fairly well-to-do, an Essex County farmer, has no money to spend on a campaign. McKee, while worth a million, has never been a susceptible patient in the bloodless political clinics, vulgarly defined as "pulling the candidate's leg." If money is to be spent the party will have to do it.

**CANADIANS PAY HIGH**

For Fish Caught in Own Waters—Chicago Reaps Benefit.

WINNIPEG, Nov. 2.—(Special.)—A special from Chicago to-day says that Manitoba whitefish is selling on that market at seven cents a pound wholesale, and nine retail, pickerel, wholesale 7 1/2-10 retail nine. The whitefish are taken largely by hotels and restaurants because cheaper than Lake Superior fish. Chicago consumes about six carloads of Manitoba whitefish per week.

"The point is that yesterday Manitoba whitefish sold for ten cents per pound wholesale in Winnipeg. The facts are interesting in view of the prospective trip of the federal fish commission, which has been looking into northern fisheries, to Chicago. The Lake people practically control the Lake Manitoba output and the price.

Evidence was given before the commission here to-day that the Manitoba lakes were being rapidly depleted of fish.

The action grew out of certain statements made by Grant, acting counsel for the municipality of Coquitlam, at a conference held with the Hon. Frank Oliver on Oct. 15.

**BROTHERS ARE GUILTY ON REDUCED CHARGE**

Trial for Manslaughter Ends in Conviction for Inflicting Harm and Prospect of Light Sentence.

BARRIE, Nov. 2.—(Special.)—Guilty of unlawfully inflicting grievous bodily harm on the late Michael Kelly was the verdict returned by a jury after three hours deliberation in the case of William and James Smith, who were tried on charge of manslaughter before Sir Wm. Mulock in the criminal assizes here to-day.

The brothers gave evidence to-day. William and James Smith, who were tried on charge of manslaughter before Sir Wm. Mulock in the criminal assizes here to-day.

On Sunday, June 27 last, Michael Kelly, an aged man, stopped the Smith Bros. as they were driving past his house and began a quarrel over an imputed cow which ended in the Smiths striking him. He died during the night.

James said Kelly had struck William twice with a stick, and he (witness) had tackled Kelly when he tried to hit William with a stick on the face, and on May 24 last, had hit him with a large stone. Witness had also heard of Kelly throwing axes at other men, and saying in wait for another with a rattan.

William Smith said he was grieved when he struck Kelly. He only hit him once and his brother administered but one kick. Kelly had threatened to kill him, and two days before the fatal affair, had said "Jim Smith's cows have been bothering me. I'll kill them before we are a week."

Other witnesses gave corroborative evidence and agreed that the brothers were peaceful and quiet. His lordship's charge to the jury was quite favorable to the prisoners.

He had found Canadians to be strong, healthy, cheery and energetic, but the best specimen of the British race had never been seen. Canadians' loyalty was unbounded.

Having alluded to the excellent feeling between Canada and the United States, he declared we should not talk of having a fleet that could win a battle, but should rather aim at having such an empire fleet that nobody dared attack at all.

**THE ROYAL CANADIAN MOUNTAIN POLICE**

Directors Decide to Reduce Dividends to Eight Per Cent. and Set Aside Funds for Development of Properties.

D. Lorne McGibbon, president of the La Rose Consolidated Mines, Alexander Prince and Victor E. Mitchell, directors, of Montreal, were in the city yesterday conferring with prominent Cobalters relative to new business methods to be put into effect in the development of the La Rose Consolidated Mines.

It has been decided by the directors that it is the part of good business, and with this all Cobalters thoroughly informed regarding mining operations in New Ontario will agree, to put aside a largely increased amount for the development of the claims other than the La Rose Mine, the property of this company, in order to place them as rapidly as possible on a shipping basis.

It would appear as if the forces formerly at the helm of the La Rose Consolidated Mines devoted most of their time and money to the rapid production of ore on the La Rose property proper, and ignored the rich possibilities of the many other claims owned by this company.

To this end it is the intention of the new directors to reduce the dividend to 8 per cent. per annum, payable quarterly, that is, to 2 per cent. quarterly. The dividend at present is 10 per cent., with a bonus of 1 per cent. quarterly, making 16 per cent. per annum dividend. The money that is withheld in the treasury owing to this reduction of dividend will be devoted to the purpose of scientifically mining all the claims in the possession of the company.

The business ability and integrity of Mr. McGibbon and his business associates in Montreal and Toronto promise that the La Rose Consolidated Mines will be put on a business basis second to none in the Cobalt camp, and that everything promised by the new order will be carried out to the letter, and to the profitable benefit of the shareholders.

It requires no little courage to investigate, face the facts as they are, and when the long run will mean greatly increased revenue to everyone who is financially interested in these valuable properties.

The official statement given out by the La Rose Consolidated Mines, elaborating the facts stated above, is as follows:

Company's Statement.

Mr. D. Lorne McGibbon, president of the La Rose Consolidated Mines; Shirley Oglivie, Alex. Pringle and Victor E. Mitchell, directors, have returned from Cobalt and the following official statement of the result of their inspection of the various properties of the company has been issued.

The directors of the Consolidated Company and have inspected their veins on the surface, and the underground workings which they discussed fully with the company's general manager, Mr. R. B. Watson, the future development of the various properties of the La Rose Consolidated Mines consist of La Rose, Fisher, Epilet, Silver Hill, Violet and over 90 per cent. interest in the University Mine.

The original La Rose claim, consisting of 600 acres, was systematically developed since it was taken over by the company, and the results have been so satisfactory that the directors are confident of the future of the property during the next year of the consolidated company's existence, it still showed our reserves equal to the reserves at the time the company was taken over. This claim is the only one of the properties which can be said to have been fairly well developed, and has been earning almost exclusively the money necessary for the development of the other properties of the consolidation, as well as providing the dividends.

In the close of the first year's operations, June 1, 1909, the estimated ore reserves in La Rose Mine were close to 5,000,000 ounces, not taking into consideration the large amount of milling ore on the dumps of the property.

The La Rose Extension adjoins the original La Rose claim on the north and consists of 40 acres lying on the conglomerate. This claim has been partially treasured on the surface, but no underground work whatever has been so far done on it. Considering its location and the fact that the La Rose veins strike towards this ground, it is reasonable to expect that this claim will develop well.

**HUDSON SEAL.**

Unique for Good Garments.

Sometimes a thing that starts out as an imitation ends by making a place for itself on that merits. Such a fate has come to that new and excellent fur known as Hudson Seal. It is made of the skin of the muskox of Alaska, which has been tanned in such a way that it is as soft and pliable as a fur that must sell on its own merits. Hudson Seal, though at a short distance it cannot be told from Alaska Seal, is somewhat sticky in coating but does not crackle or wear in its heavy and heavier in weight. It is very excellent for wear in a Canadian winter. The Dineen Company has some splendid designs in jackets and coats of Hudson Seal. Call at the showroom, corner of Yonge and Temperance-sts.

A HORSE IN A LAUNDRY

New York.—A horse, attached to a laundry wagon, became frightened and made a wild dash up Broadway. Spurred by a sign with a shirt on it, the horse plunged into the laundry, and, riding the wheel of the wagon, handed with all four feet upon the linens that a dozen laundresses were sorting.

When the horse went through the door, the laundresses went out the windows and showed up on the roof starch and bluing bottles. When the excitement was over, the horse was found calmly munching a bundle of laundry.

It is "a horse of another color" when there is pain in the back, when the legs ache, when the stomach is upset and there is a feeling of kidney trouble.

Slow Digestion

A Frequent Form of Stomach Trouble Readily Cured by Stuart's Dyspepsia Tablets.

This complaint constitutes one of the most common forms of dyspepsia. It is the result of a variety of causes, and the healthy action of the stomach is dependent on the condition of both body and mind.

There is also a deficiency of the gastric juices, and an insufficiency of the motor power of the stomach.

Stuart's Dyspepsia Tablets compel the stomach to perform its functions properly and assist it very materially in the digestion of food.

Purchase a package of these wonderful digestors from your druggist today for 25 cents, and cure yourself of your dyspepsia.

LADIES' COLLEGES WIN ON BUSINESS TAX ISSUE

Court of Revision Decides Institutions Are Exempt—Result of Third Ward Appeals.

That educational institutions, even the colleges, for-profit, are not subject to business tax, was the pronouncement made by the court of revision yesterday.

The colleges were represented by their solicitors, while Arthur Frankland, assistant assessment commissioner, argued for the city that the fact that real property was exempted did not entitle them to exemption from business tax.

The day was saved by R. G. McLaughlin, K.C., of Lindsay, acting for St. Margaret's, who raised the point that when buildings and land were exempted from taxation, as in this case, no assessment was levied on the property.

A small net reduction of \$71,000 is the result of the third ward assessment appeals, which were wound up yesterday.

At the morning session results were: Manning Chambers, at Queen and Toronto-street, land assessed at \$1100 a foot for 34,765 feet and \$100 a foot for 26,136 feet.

MME. MARCELLA SEMBRICH

THE GREAT METROPOLITAN PRIMA DONNA Will Appear at Massey Hall This Evening at 8.15 AND WILL USE "The New Scale Williams" PIANO

This is another great tribute to the makers of this wonderful instrument, as Mme. Sembrich is considered the most brilliant singer on the concert stage to-day, and insists on having the best instrument it is possible to obtain.

Mme. Sembrich asked her manager to request the Williams Piano Co. to furnish a "New Scale Williams" for her appearance in Toronto and Montreal, and they were only too glad to comply with her request, as it proves conclusively that the piano is known as well abroad as it is at home.

When such great artists as Sembrich, Marchesi, Damosch, Jomelli, Germaine, Schmitt, Langendorf and others of world-wide reputation, select this instrument for their use while touring Canada, don't you think it time to investigate and find out more about the "New Scale Williams" if you are thinking of buying a piano?

# Horse Shows Canadians For N. Y. Rugby Games Bowling Scores

### Note and Comment

Canadian will take an active part in the New York Horse Show that opens next week. Three well-known men from this side will act as judges, viz., Hobbs, Graham of Claremont, Dr. McEwen of Montreal and Dr. Andrew Smith of Toronto.

### HORSES FOR NEW YORK SHOW OPENS NEXT WEEK

English Army Officers Arrive For The Event.

### Buffalo Ball Club May Again Be Sold

Diamond Jottings

### Varsity Fans Wait All Night Long For Rugby Tickets

### ST. CLAIR AVE. WHEELING FAVORED AT CITY HALL

### FROM FOUL LINE TO HEAD PIN

Toronto will be well represented in the show that is following, owned by being shown to the following owners: Murray, George Pepper, Graham Bros., Redden and F. H. Dale, and last but not least, Alex. Minn, and his peerless light-weight jumper, Foxglove. Miss L. Wilkes of Galt, near Adam Beck of London are also taking their horses down for the show.

It will be good news to the owners of show horses to know that the annual spring event in our own armories, discontinued this year for some reason or other, is likely to be resumed next April.

Baltimore is the latest Eastern League Club reported on the farm list with Boston Americans holding the mortgage. With Buffalo turning out to be a profitable line and Montreal, Rochester, and Jersey City in the same row, there is about only James J. McCann as the real live owner left in the circuit.

Of the five English army officers who are to participate in the military riding at the National Horse Show next week, Lieutenant C. J. Wolwyn, Royal Field Artillery, and Lieutenant Colonel G. M. M. Harris, of London, and in his charge were the six horses that will be seen at the Garden.

Lieutenant Wolwyn was met at quarantine by a reporter, and said that the horses had been in the show for two days of the English Channel were rougher than the horses we had more time to fit them for the show, but they were very good, and he hoped they will make a good showing.

John I. Taylor, president of the Boston (American League) team, is after a financial interest in the Baltimore Club of the Eastern League, according to a story printed in Baltimore. That Mr. Taylor is trying to get some of the local hold, was admitted by Edward Stanton, president of the Baltimore Club, who added that Mr. Taylor wanted the interest as an investment, and he (Stanton) scouted the idea that Baltimore would be made a farm for the Boston American League. President John I. Taylor of the Boston (American League) Club, when asked concerning the possibility of his becoming interested in the Baltimore Club, admitted that he and Mr. Stanton had a talk about the club some time ago. "That matter was left in the air," he asserted, "and I have no more to say on the subject. Stanton and I have had a deal of correspondence, but Stanton has not made any definite proposals. Stanton has a proposition concerning the sale of certain stock in the club but that has not been settled."

The Rugby game here on Saturday between Queens and Varsity is arousing a lot of interest, especially among the students, and a record crowd is promised when the teams meet as early as 5 o'clock yesterday afternoon a few stragglers lined up at 10 Young-street, waiting for the season ticket holders. It is to open this morning, and by midnight nearly fifty were in line, prepared to leave the battle and the breeze of a cold and wet night for the sake of getting a good game this season. The reserve seat plan for the public goes on sale tomorrow morning at 129 Young-street.

The Rugby game was strengthened by Hume Graham, who was playing last season, fully recovered from his injuries, received a week ago, and this change will give the blue and white their strongest team, and the one that is likely to play off for Dominion honors. This will be the last game in the Intercollegiate here this season, and incidentally the last chance to get a line on Varsity before they go after the Dominion championship. No officials have been selected as yet, but the two clubs will likely agree to-day.

Civil officials are unanimous as to the advisability of widening St. Clair-avenue from Young-street westward, and there is little doubt out that this improvement will be carried thru.

Assessment Commissioner Forman says he has received many letters with reference to the matter since the city council asked for a report on widening the thoroughfare from 66 feet to 100 feet, and that, while there are some objectors, the consensus of opinion is in favor of the widening. He is highly optimistic. Mr. Forman thinks the proposal as far as it applies to St. Clair-avenue east of Young-street, should be allowed to stand for the present as the expense would be considerably greater than for the western section owing to the former being built upon a street deal more.

City Engineer Russell, who strongly favors the movement, thinks the strip should be taken off yesterday's street, which would mean a saving of money as there are comparatively few houses on that side.

### AMERICANS WIN TWO

Featherweights, made it a contest with the Americans last night in the T. H. C. League race, grabbing the second game, and by the big majority of 35 to 19, but that left them out on the margin of scoring, as the Yankee just romped home with the big majority.

For the Americans, Bob Elliott and Fred Wilkes tied for first honors for the first time. The scores:

Robinson	183	151	178	152
Brown	150	179	165	148

The New York State League is to have several new managers next season, Billy Cymmer, the former Columbus leader, is one. He will succeed Kittredge at Wilkes-Barre, and it is said that Kittredge will be given the job of leading the Syracuse team.

Some fellow has suggested that a way to increase hitting in baseball would be to make the outfield stand in a certain spot, not after the ball, but in the rear, so that the outfielders could not play for the batter any more, which would rob the batter of one of his best points. The usual winter crop of ideas about changing the game, however, probably contain many just as foolish as this.

Joannette's signal victory over Kubiak, who was knocked out in the tenth round in Paris Saturday night, has sent up the latter's stock in France, and has opened a talk of a fight with Langford. If there is no chance for a meeting between Langford and Johnson in this country during the coming winter it is probable that the Boston pugilist will go to Paris for a titanic with his old rival, Jeanette. Kubiak fight drew an immense crowd and a tremendous rain high. Paris is surely lighting mad.

John L. Sullivan in Pittsburgh yesterday was asked about the likelihood of his being chosen referee of the Jeffries-Johnson fight, which is expected to start at a candidate for referee, but if I am satisfied to both principals and the club that sets the price, I will give each man a square deal and see that both fight all the time. I will not accept a penny. I don't believe in paying a man for a job, in glove contests remuneration is all right. There is no glory in the referee job for me. I will remember the money that Jeffries and Johnson are forgotten. Even if I had an opinion, you could scarcely expect me to express it when I may be the chief referee. The thing, but I will tell you something that you may not know. In my opinion, it is no more detrimental to one fighter than to the other. In my opinion, it is no more detrimental to this game while still in harness, or pretended to be in harness, the public would chase him out of town."

### OPPOSE WARD 7 FOUNDRY

The right of Robert Macdonald to establish an iron foundry at the corner of Mallock-avenue and Junction-road in Ward seven was vigorously disputed by Ald. Anderson yesterday. The city council of the city and light committee.

Chief Thompson and the city architect were in favor, and the permit had been approved by the committee when Ald. Anderson appeared with the statement that he had presented the mayor with a duly signed petition from owners of adjoining property in opposition. He asked for time.

A representative of the foundry claimed that the permit secured from the city architect was equal to a permit to carry on the business. The matter was allowed to stand.

Robert Macdonald suggested that a bonus be granted Assistant City Architect G. F. W. Price in consideration of his having performed the duty of a city architect for six months during the illness of City Architect McCallum. The committee will recommend to the board of control to make a special grant.

### ORR LEAGUE

The Indians won three from Thistles in Orr League last night, while Builders' club checked out two from Imps.

Chief of Police Grasset reported to the board of control to-day that it would mean adding \$73,000 to the city's cost of maintaining \$1,000,000 worth of street repairs.

Manager Fleming of the street railway has notified the city engineer that the company will lay down heavy trolley rails in West Toronto from Hummer-avenue to Keele-street, on certain streets. The city must make a satisfactory agreement with the Suburban Railway Co. as to payment for the rails now upon Dundas-street, these being owned by the latter railway. The city must lay down a first-class pavement. The company must also be exempted from mileage tax.

### GLADSTONE LEAGUE

In the Gladstone League last night, the Pastimes won three games from the Brockton Goats. Scores:

That little sideshow, Tommy Payne, was successful in his duck shooting trip, and we have proof of it. Thanks, Tommy.

Secretary Harry Davy of the City Association has had a note other than Dan Patch in disguise.

What a score we would have if we could change the course of the ball after it has left our hands.

The inmates of the Toronto League were in a row from last night; and if you don't believe it, read the scores, which are at the top. Nuff said, but then he was ever thus.

Yes, you may be mad, but you will find somebody worse than yourself.

Opening night was too strenuous for the Alca Beaches, so Dominions were left alone in their glory last night.

Local bowlers will be given a chance to see many of the outside teams roll over this year, if negotiations, which are now under way reach a head.

Harry and Pat Phelan and Ernie Howells will be the Dominion Alley representatives in the new two-man City Association.

Bowlers will learn with regret that Sam McBride is dangerously ill with typhoid.

Manager Percy Grimfield of the Parkdale Allys expects to have all his alley in shape for the public a week from tomorrow.

A match game has been arranged with teams in Cobalt; but why go so far from home to walk a block at home?

You often would help a man out of the gutter if the seven or ten pin was beside him.

The ton of coal contract scheduled at the Brunswick Allys to-night has been postponed.

A meeting of the executive of the City Association, two-men League is called for Thursday afternoon at the Alhambra Club, at 2 o'clock.

### GET OFF THE BEATEN TRACK

"We are too often contented to move on in the beaten track." These are the words of Lord Macaulay, the greatest historian of modern times.

The man who buys "imported" cigars is on the beaten path, and is paying double price for his smoking.

Because you can buy 2 "Noblemen" cigars for the price of 1 "Imported."

The Davis "Noblemen" is a revelation in cigar production—only the pick of Cuba's best leaf is used in its manufacture.

"Imported" cigars are much more heavily taxed than imported Cuban leaf. This is why the "Noblemen" cigar can be sold at 2 for a quarter.

Once you try a "Noblemen" you will stop paying absurd prices. You will LEAVE THE BEATEN TRACK and save yourself 50 per cent.

### FITZHERBERT EASILY WINS ELECTION DAY HANDICAP

Favorite, Pulled Up, Beats Olambala by Two Lengths—Impudent's Belidame.

AQUEDUCT, Nov. 2.—Amid the cheers of 500 persons, Fitzherbert, the 4 to 5 favorite, easily won the Election Day handicap of \$2000 here to-day. He was ridden by Dugan. Fitzherbert carried 125 pounds, but despite this fact he was installed favorite. Olambala was the one played to beat him. Dugan beat Fitzherbert by two lengths, and sent him right along to make the pace, and the favorite soon had a lead of two lengths. At the far turn Dugan took him a half length. As the field swung into the stretch Fitzherbert drew away and won about a half length. Impudent, with Dugan up, won the Belidame handicap for yearlings filling a two-length race. Results:

**FIRST RACE**, selling, 6 furlongs, \$400 added: 1. Seymour Butler, 10 (Garner), 2 to 1, 1; 2. Intervale, 10 (Butwell), 3 to 1, 2; 3. Black Sheep, 13 (Glass), 5 to 1, 3; 4. #### HAMILTON'S PLIGHT.

Once more Mayor McLaren of Hamilton has played the Cataract Power Co.'s game by his obstructive tactics in connection with the proposed contract with the hydro-electric power commission. The people have three times voted to make a contract with the hydro-electric commission, and the city council led by the mayor has refused to comply with the popular demand. This is all the more deplorable conduct on the part of a public man like Mayor McLaren, when it is remembered that he was elected upon this very issue. He assured The World's representative last December of his loyalty to the people and the hydro-power policy, and gained the endorsement of The World as a public ownership candidate by that means. His unscrupulous repudiation of those pledges is unfortunately not a solitary instance of the influence exerted by the Cataract Power Company in Hamilton. Nor are descriptions of duty of this kind confined to Hamilton when, as at North Toronto, elected representatives audaciously seek the popular will for reasons of their own.

But whatever the influences to which elected representatives may succumb the people know what they want, and will continue to demand it. Hamilton's is a particularly flagrant case. After three expressions of opinion and the election of a mayor who represented himself as willing to carry out the people's policy, only to turn round and betray it, Hamilton finds itself under the necessity of beginning all over again its search for a trustworthy mayor and council.

#### GROWING DEMOCRATIC SPIRIT.

Senator Ross dwelt with apparent satisfaction at the Canadian Club on Monday evening on the more democratic tendency of the Australian constitution as compared with that of Canada. He especially emphasized the sovereignty of the province. "No court should be allowed to veto the legislation of a province," was an assertion which met with applause. It was a shot on Canadian legislation that the federal government had anything to do with education, was another applauded sentiment, and the fact that men and women vote on a parity in Australia and New Zealand, said the senator, also showed a disposition to trust the common people. This recognition of the approach of woman's suffrage is duly significant, and the colonial editor of the London Times, who heard the senator's address, will no doubt communicate the overseas sentiment to the homeland.

When the suffrage bill comes up in the legislature next session, the government will have less excuse than formerly for postponing its consideration. It is possible, if Senator Ross' remarks may be accepted as a token, that the Liberal party will adopt adult suffrage as a plank in its platform. It must at any rate receive consideration at both of the forthcoming conventions.

#### SOME HAMILTON COLOGNES.

Colonel the Honourable John Hendrie, M.L.A., of Hamilton, doesn't seem to get much support in the municipal council of that city for the Whitney-Hendrie hydro-electric power proposition. The gallant colonel has been peevish in his advocacy of the policy; notwithstanding these strenuous efforts of his, however, Colonel McLaren, the Liberal and pro-Gibson-Cataract mayor of the city, has unhorsed him several times. Senator Jaffray will be putting Colonel Hendrie's picture in The Globe as a slight mark of appreciation.

Colonel John Morrison Gibson, late of Hamilton, is watching these proceedings in Hamilton from the end of a wire in Toronto.

Colonel Sir James Pliny Whitney is also looking on, but not at the end of a Cataract wire.

#### FALSE ECONOMY.

It is announced that Mr. Arthur H. Frankland is leaving the city hall to accept a position with a prominent real estate firm. Mr. Frankland was recommended some time ago by Assessment Commissioner Forman for the post of assessment commissioner at a salary of \$2100. In accordance with the long-standing traditions of the city hall, the recommendation was turned down, and Mr. Frankland, with his twelve years' experience and intimacy with city hall affairs, is set free to use his knowledge against the city instead of for it. A lot of bright men have served the city until service became too great a sacrifice, and their talents were properly recognized elsewhere. R. J. Fleming, W. T. White, Cecil B. Smith, H. L. Drayton, W. C. Chisholm, are a few names that occur at once in this connection. Mr. Frankland joins this list, and no doubt has a fine career ahead of him.

The city council that sits in judgment on such men and rejects their services for something cheaper, sets a standard by which the voters ought to be able to measure it.

#### TAMMANY WINS AGAIN.

New York by a large majority, has again bent itself to the yoke of Tammany. This, too, notwithstanding full exposure of the methods that have

made Tammany the synonym for wholesale political fraud and corruption, and of the heavy toll levied upon the people both directly and indirectly. Tammany, if it has not the harmlessness of the dove, has certainly more than its full share of the wisdom of the serpent. When threatening clouds become too ominous it can always go outside its charmed circle and prevail upon some prominent man of reputed independence and integrity to carry its standard and revive the hope in alienated Democrats that the city's administration will take a turn.

Divided counsels among its opponents have helped Tammany to maintain its grip on New York. Otto T. Barnard, the Fusion candidate, had a good record as a successful business man of principle and ability and conscious for the public welfare. Had it been a straight battle between Tammany and the Fusionists, Barnard might have won. But the appearance of William Randolph Hearst introduced a disturbing element which went far to weaken the hands of those who wanted to break the city's chains. Judge Gaynor professed that, the Tammany's nominee, he was in no way Tammany's man. This is not the first time a candidate of reputed ability has professed himself unable to touch pitch without defilement. The profession has come to nothing hitherto, and it is unlikely that Judge Gaynor will better previous experience.

#### MUSICAL EXAMINATIONS.

Editor World: In reply to Enquirer's search for light on this subject, it may be said that while the Conservatory and the College of Music claim to be affiliated with the University of Toronto, in real fact they are as much affiliated with the university as we of this globe are affiliated with the ring of Saturn. The university allows them to use this reference as to standing, but gains nothing from these institutions, not even loyalty to its own examinations. The university holds its examinations in music, both theoretical and practical, but neither of the affiliated institutions officially send their pupils, only a few going at the instance of, here and there, one of its teachers. They hold their own examinations, and their own teachers do most of the examining. The standards are not the same, and here a funny thing comes to light. The board of music studies of the university or whatever the body may be called, that sets the curricula, determines the standard and chooses the examiners, is largely composed of teachers in one of these two institutions, who may be expected to retain their loyalty to the concern which engages them, yet the "high-brows" in the park sit complacently by and let the university musical policy be outlined by the teachers in schools which send no pupils—or at best, only a few—to the university exams.

Enquirer asks where does the university come in? Ans.—It don't come in. Musicus.

#### Enlarging Priest's Residence.

Very extensive alterations are to be made to the R. C. Priest's Presbytery at Trenton, Ont., for which Architects Ellis and Conner, Toronto, are preparing plans.

The priest's present residence is a six-roomed brick structure, and this is to be enlarged more than double, displaying a very elaborate exterior and interior.

Before Falconbridge, C.J.

Burch v. Plummer—A. C. King, for plaintiffs, M. J. McCarron contra. Judgment: I allowed the declaration of Johnson Burch to be filed as part of the history of the making of the conveyance relied upon by defendant, but it is not evidence of the facts therein stated and I entirely disregard it. It is quite clear that the money paid for the land was the money bequeathed to Johnson Burch by his mother's will. Johnson's habits were such that his mother provided that all legacies to him should be invested or applied to the purchase of land, to be held in trust by her executors during his natural life, and to be equally divided among his children. The means adopted to carry out the wishes of the testatrix consisted in taking a deed from the vendor of the lot in question to the "lawful children of heirs of Johnson Burch." The introduction of the word "children" renders unnecessary the consideration of whether there is any infirmity in the particular reason of the absence of a grant by estate. The statute R.S.C., c. 119, sec. 2 would, no doubt, suffice, to cure the objection in any event. Then as to the contention that J. B. had acquired a title by length of possession, the answer to this contention is that J. B. knew of the will and must be assumed to have taken the lands under trusts of same, and his possession ought not under the circumstances, to be treated as adverse. The case is a pretty hard one on defendant, who has no doubt expended a good deal of money for and on behalf of J. B. under the expectation of getting the property. The plaintiffs offered in open court to pay the defendant the funeral expense, amounting to \$50 (including the minister's fee) paid by her, and this offer I shall expect them to carry out. There will be judgment for plaintiffs for possession of the lands and setting aside the conveyance from J. B. to the defendant, and \$1 for the defendant without costs. Thirty days' stay.

Before Haddell, J.

Whicher v. Holt Trust Co.—J. H. Moss, K.C., and C. A. Moss, for plaintiff. A. W. Anglin, K.C., and E. C. H. Cassels, for defendant. Judgment: The Dominion Copper Co., a mining company operating in British Columbia, issued, June 1, 1905, to the face value of \$1,000,000. These were secured by mortgage to defendants of same date, and the plaintiff became the holder of \$1,000,000 thereof. In May, 1907, defendant company advertised for offerings of such bonds for redemption. Plaintiff offered his at \$2. Defendants refused to buy other bonds, but not those of the plaintiff. On Nov. 5, 1908, plaintiff sued, claiming in the first instance breach of trust by the defendants as trustees, and by an amendment, specific performance of the contract, which he says had been made, or for damages in lieu thereof. No charge of collusion, fraud or other impropriety is made against the defendants, but any such charge, if it is claimed that they have misinterpreted their deed of trust, and are liable as for a breach of their trust, I think the plaintiff fails in his contract. If he be held entitled to recover in contract at all, I find that the market price of the bonds at the time of the breach was 75—his damages will then be \$750. The same consideration will also prevent him from recovering as a trustee. The defendants have not offered to buy plaintiff's bonds, and have not bought them and ought fairly to be held liable for the breach of trust, if there was one. I am also of opinion that the other provisions in the trust deed preclude the plaintiff, but I do not consider it necessary to pass upon the question. The action will be dismissed with costs—30 days' stay.

Young v. Flaherty—I. F. Hellmuth, K.C., for defendant, on appeal from judgment of Latchford, J., dated June 1, 1909. H. McKay, for plaintiff, contra. Appeal argued yesterday. Judgment: Appeal dismissed with costs.

Re Cartwright and Napane—G. Bell, K.C., for Sir R. Cartwright, on appeal from judgment of Clute, J., dated June 23, 1909, and on motion to advance further evidence to be used on appeal. C. A. Masten, K.C., and W. S. Herrington, K.C., for the town, contra. Judgment (V.V.). Motion allowed; applicant permitted to put in further evidence. Examination of the master, clerk and treasurer only in mesne time, to be before the county judge, and others may afterwards be examined if necessary by leave of a judge of this court. Examination not to go back of the business of 1906. All questions of costs reserved.

Township of Hay v. Bissonette—W. Proudfoot, K.C., for defendant, appealed from the judgment of Clute, J., dated June 22, 1909. M. G. Cameron, K.C., for plaintiff, contra. The action is to have it declared that Bissonette-avenue and Archambault-street, opened and established as a highway by a by-law of plaintiffs, are public highways in the Township of Hay, and to have the defendant, Bissonette, restrained from occupying or obstructing the same, and that he may be ordered to go out of possession and occupation of same, and to remove all obstructions therefrom. At the trial judgment was given for plaintiffs as asked and \$10 along the line in the past. The road is for damage, with costs of action. Defendant's appeal therefrom argued and judgment reserved.

Forest v. Turnbull—G. G. McPherson, K.C., for plaintiff, appealed from the judgment of MacMahon, J., dated July 12, 1909. R. S. Robertson (Stratford), for defendant, contra. This was an action by a brother against a sister, to recover 50 acres of land. At the trial the action was dismissed on the ground that where persons have agreed to a divisional line between lands and have lived up to it for 10 years, even without a fence, such division would be conclusive evidence of ownership.

Toronto Architects Design School Building Involving New Features.

Work of excavating for the basement of the new Brantford Collegiate Institute has just begun, and it is intended that the immense building will be completed for occupation by October of next year.

The design of the building is quite a departure in institutional buildings for Ontario. It was evolved in an architect's competition open to the province, in which Chapman and McMillin, Toronto, carried away the prize. The distinctive features were inspired from data compiled from the report of a commission of experts employed by the States of Massachusetts, Missouri and New York to improve school buildings. In addition, the requirements of the Ontario department of education have been fully lined up. Special attention has been given to chemical, physical and biological laboratories, a large art room, domestic science room, music room, gymnasium and assembly room. All the most modern approved methods of lighting, heating and ventilating have been adopted. The building has been arranged so that the light comes from the left side of each room.

The building covers an area of 20 feet by 75 feet in the form of an E. It will cost about \$85,000.

The good fortune of the Temiskaming and Northern Ontario Railway in building into a wilderness and discovering Cobalt has been repeated in a way by the Grand Trunk Pacific. In holding the Melville-Regina line they succeeded in reaching a point some 20 miles south of Melville, where they tapped one farm which shipped an even 100,000 bushels of wheat. The line was continued and completed to the Saskatchewan capital in 1910.

Mr. W. Stewart of Foley, Welch & Stewart, contractors on the Grand Trunk Pacific Railway returned by Edmonton from Yellowhead Pass. Mr. Stewart reports no snow in the pass, with Indian summer weather, instead of a narrow canyon. Yellowhead Pass proper is an open valley, some two miles wide, and the railway builders predict that in the near future there will be a narrow canyon. The settlement failed in heavy daylight Saturday to scope with a fire that was discovered in its incipient stages.

#### Winnipeg Fire Department Criticized.

WINNIPEG, Nov. 2.—(Special.)—The Free Press editorially demands a searching investigation into the work of the fire department, and the reasons why, in the face of the vast outlay for a high pressure system and new and up-to-date apparatus, the department failed in heavy daylight Saturday to scope with a fire that was discovered in its incipient stages.

## MR. MURRAY'S REPORT PRACTICALLY THE SAME

### Big General Scheme is Unaltered Happenings.

**NORTH TORONTO, Nov. 2.—(Special.)**—While on the surface there is little more than the ordinary interest which attaches to a by-election, it is conceded on all hands that the vote cast on Saturday next will be one of the largest ever recorded in the Town of North Toronto.

Both Mr. Brownlow and Mr. Pears, the principals in the struggle, are out of town, the former on a business trip, and the latter with a holiday party in the north. But in the absence of these gentlemen is detracting little if any from the interest in the contest.

Friends of Mr. Pears (and Councillor Murphy) are credited with being largely instrumental in inducing the former to enter the field, as he is sparing no pains in trying to discredit the report of Mr. Ard Murray, C.E., which was first submitted to the council, and charge that a report submitted later embodied radical changes in the general principles of the scheme as fully maintained by Councillor Murphy.

As a matter of fact, the general principles of the scheme are fully maintained in every respect, and Councillor Murphy, in his dramatic action at the nomination proceedings on Friday night last, in which he threatened to resign, was fully aware that Engineer Murray had practically only confirmed his first report.

The alterations to the North Toronto scheme which the engineer submitted to the council are not alterations which have any bearing upon the general outline and principles in his original report. The engineer appears to submit for the consideration of the council a short length of sewer on Yonge street increased from 12 to 15 inches in order to meet a possible population represented by six houses to the acre, instead of four, in watered five, the further recommendation to the council simply refers to the depth of the sewer in Yonge-street. The engineer has expressed an opinion that the minimum depth of seven feet, as allowed for the sewer by the engineer is not sufficient for business streets, and he has simply submitted to the council that if a minimum depth of 10 feet instead of seven be adopted the extra cost would be \$400.

The extra cost of enlarging the length of sewer, before mentioned, from 12 in. to 15 in. is estimated at \$400. These are the only alterations which the engineer has submitted, which would cause any extra expense to the scheme, and of course these items are entirely subject to the vote and decision of the council, as was the case with the original report in the first instance.

Mr. Pears, avowed supporter of Councillor Murphy and Grieg's action in breaking up the quorum, instead of recording their votes against the by-law, were invited to do, and allowing the mayor to support the by-law would have done, has not been endorsed by the ratepayers and business men of North Toronto. Many of those who were opposed to the sewerage by-law will not support Mr. Pears, and the action of the two councillors who broke up the quorum.

J. M. Whaley continues to show good recovery, and will, it is thought, soon be on the street again.

There will be a general practice of the North Toronto band in the town hall on Thursday evening.

The Mount Pleasant authorities are growing anxious regarding the proposed expropriation proceedings and a letter from Solicitor Davidson submitted at Monday's meeting of the council urged more expedition on the part of North Toronto and York Township with respect to a joint meeting.

The solicitor for the Mount Pleasant authorities charges that the necessary plans and profiles have never been submitted. There has evidently been a lot

## THE WEATHER

**OBSERVATORY, Toronto, Nov. 2—8 p.m.**—Showery weather has prevailed to-day in the lower lake region and the Ottawa and St. Lawrence Valley, attending the easterly movements of a disturbance which was last night centered over Lake Michigan. ## W.C.T.C. WON'T CONDEMN BRIDGE WHIST AS EVIL

### One Delegate Moved a Resolution, But It Wasn't Endorsed—Next Meeting in Ubec

**ST. JOHN, N. B., Nov. 2.—(Special.)**—The Dominion W. C. T. U. decided to-day to meet in Quebec next year. Quite a breeze was caused by the reading of a resolution submitted by Miss Archibald, asking the convention to go on record as condemning bridge whist. A Quebec delegate objected. The W. C. T. U. she contended, was to fight the liquor traffic, and had no right to give opinions on social questions like that. She did not play cards, nor did she approve of it, but she knew many good people who were. The convention should declare itself on any question of social reform, else why pass the resolutions condemning the white slave and opium traffic? Mrs. Currie protested against classing bridge or cards with those evils, and Miss Archibald retorted, "Well, one leads on to the other." "Their congregations will not go to such a length," said the convention. "They would get intoxicated and neglect their homes. The convention finally declined to condemn bridge whist."

## CHURCHES TOO TONY TO GET INTO THE SLUMS

### Singing "Rescue the Perishing" Does Starving No Good, Says Epworth League.

The large Methodist churches of Toronto received numerous hard knocks at the evening meeting of the Epworth League Biennial Convention in Carlton-street Methodist church to-day. "The trouble is that they are too aristocratic," said J. H. Gundy, speaking of the unchurched districts in the city. "Their congregations will not go into the slums and work. Consequently they will never know the true conditions. They sing 'Rescue the Perishing' in the church parlors, but that does the starving no good. The Epworth League is not in need of money. Instead we want good earnest workers, who are not afraid of going down into the poor districts and laboring for the good cause among the dirt and filth. If we organize along those lines we can wipe out the slums in no time."

At the close of the meeting a committee was appointed for this purpose and the proposition was given to the league to work out. At a later meeting an address was delivered by Rev. D. K. Kilgour, a returned missionary from West China.

In these workings several high grade veins have been found and identified as to their composition and have been prospected to a very small extent on the surface and developed through one shaft to a depth of 125 feet during the last year. The results of this work have been highly satisfactory.

This claim was acquired last April and surface trenching was at once started. The results of the trenching have been that seven new veins in addition to the five known to exist at the time it was taken over, have been uncovered. Several of these veins show high grades of ore and have a considerable amount of power being spent upon it.

Lawson.  
The Cobalt Hydraulic Power Company originally promised to deliver air at the level of the water table, and have since been making promises to deliver high grade ore and have since been making promises to deliver high grade ore and have since been making promises to deliver high grade ore.

This mine is at present closed down for lack of power. The original owners extracted a considerable amount of high grade ore from the mine and the new company has sunk one shaft to a depth of 100 feet.

This claim adjoins the O'Brien on the east. The former owners extracted about \$30,000 from a shaft next to the Cobalt property. The claim is an underground work that has been done. The Consolidated Company has done some trenching, but otherwise the property is undeveloped. The claim is a somewhat surprising fact that 50 LITTLE MONEY HAD BEEN SPENT UP TO DATE ON THE DEVELOPMENT OF THE OTHER PROPERTIES OF THIS CORPORATION.

After full consideration the directors have decided to pursue at once a conservative yet vigorous and aggressive policy in the simultaneous development of the properties of the company.

Repeaters Foiled.  
The professional repeater and the gullible were chiefly notable by their absence. Credit for this state of affairs was given largely to the new signature of the law every voter, after receiving his ballot and being urged to write his name and have it compared with the signature which he made at the time of registration.

Every polling place had its full quota of watchers, including nearly 500 police in New York city. The Tammany machine has a reputation for its ability to control the vote, and it was expected that it would do so in this election.

Robert A. Taft, the president's son, who was among the earliest college men to volunteer as a watcher, was stationed early in the morning at a polling place in New York. His presence, however, proved such an attraction to the east side crowd that the polls were closed upon to disperse the spectators, and young Taft was transferred to work as a Republican scout.

Says There Was Crookedness.  
"Herbert Parsons, the Republican county chairman, said tonight that the election had been the hardest-fought municipal contest ever held in New York."

William J. Gaynor, lawyer, fifty-eight years old, educated in White-stone (N. Y.), Sedgwick in Boston, and for a brief time under the Christian Brothers, taught school in Boston, was elected mayor of New York in 1909.

Dr. W. A. Young, was the coroner; Louis Monahan appeared for the crown; and J. E. Jones acted for Mr. Parker.

## Sleeping Car Comfort.

The palace sleeping cars of the Canadian Pacific Railway, leaving Toronto daily for Ottawa, Montreal, Detroit, Chicago, Winnipeg and the Pacific Coast, are built in the company's own shops at Angus and are built higher, with berths a little wider (giving increased comfort and better ventilation) than the usual sleeping cars. Passengers' comfort is studied in every way: soft beds and dainty bedding for the weary body; harmonious decorations for the eye; perfect cleanliness and plenty of air for health's sake. The service maintained by the C.P.R. porters needs no mention and is conducive to that "fresh" morning-after feeling.

## Bench Warrant Issued.

**MONTREAL, Nov. 2.—(Peter Patterson, the United Mine Workers' official, now in Cape Breton, did not turn up as a witness in the trial of Dan McDougal, for criminal libel to-day, and a bench warrant was issued for his arrest.**

## Some New York State Mayors

Balance of Democratic ticket defeated with exception of W. P. Brennan, elected chief judge of city court.  
Rochester—Hiram J. Robertson, (Rep.) re-elected with entire ticket.  
Syracuse—Ed. Schoemaker, (Rep.) re-elected.  
Albany—James B. McEwan, (Rep.) post-master and ex-state senator.  
Rome—A. R. Keestinger, (Dem.) re-elected.  
Troy—Elias P. Mann, (Rep.), re-elected.  
Johnstown—Abram Johnson, (Dem.) re-elected.  
Binghamton—John J. Irving, (Dem.) re-elected.  
Oswego—John Fitzgibbons, (Dem.) re-elected.  
Elmira—Dan Sheehan, (Dem.) re-elected.  
Indianapolis (Indiana)—S. L. Shank, (Rep.) re-elected.

## Egypt Under Lord Cromer.

In Egypt, where the tobacco plant reaches its highest state of perfection by reason of the uniform climate and the irrigative effects of the Nile dam, they use the selected leaf for the famous Yahiya cigarettes. They have a finer flavor than the Turkish cigarettes and do not have the heavy celestial odor which some find objectionable. They are the cigarettes of the court circles. Lord Cromer's regime in Egypt has had much to do with the development of the cotton and tobacco industries in that far-off land.

## The New Mayor.

William J. Gaynor, lawyer, fifty-eight years old, educated in White-stone (N. Y.), Sedgwick in Boston, and for a brief time under the Christian Brothers, taught school in Boston, was elected mayor of New York in 1909.

Dr. W. A. Young, was the coroner; Louis Monahan appeared for the crown; and J. E. Jones acted for Mr. Parker.

**STOCK ABSORPTION IS GOOD.**  
World Office,  
Tuesday Evening, Nov. 2.  
The New York stock market was closed to-day but despite this fact Canadian exchanges were strong. The main factor in the local market seemed to be the responsible buying of the Latin American stocks for London account. Both Sao Paulo and Mexican Light and Power were picked up at advances on yesterday's quotations. The Steel and Coal shares were also firmer, with the buying, as formerly, coming from Montreal. No trouble is being met locally in regard to the money situation, and it was even stated to-day that funds were already being offered more freely than they were ten days ago. Most stock, and with a continuance of this class of buying higher prices are of the purchases to-day would be considered excellent absorption of inevitable.

**First Public Offering of Taxicab Stock**  
WE have secured and are now offering \$100,000 of the Capital Stock of **Berna Motors & Taxicabs, Limited,**  
At \$6.00 Per Share  
Capital Authorized \$500,000 - - Issued \$368,150  
This is the first opportunity the public have had of participating in Toronto's Taxicabs, which have been operating since April, 1909, with such good results that their success is now assured.

**Popularity of Taxicabs**  
The introduction of the Taxicab with its promptness of action, neatness of appearance, and moderation in charge, considering speed, time saved, distance covered, and number of passengers carried, has been accepted so readily by the Toronto public that a steady increase of equipment has been necessary, and more cabs are yet needed to supply the demand.

**Comfort and Privacy**  
The discomforts caused by the incessant crowding of the street cars, and the delays and annoyance of waiting for a private conveyance with no waiting and no crowding as provided by the Taxicabs give another reason for its popularity.

**In Other Cities**  
This also explains the large number of Taxicabs now in use in London, Eng., New York, Paris, and all the cities of civilization, until now there is not a city of any importance that has not installed or is not about to install a Taxicab service, and gives a tangible reason why Toronto, which is growing rapidly, will have an increased demand for the Taxicab which will compare with that of other live cities.

**Exclusive Contracts**  
Exclusive Taxicab service contracts with this Company covering a term of years have been closed with twelve of Toronto's leading hotels, and other plans are maturing which will materially increase the public demand.

The following Directors are the Executive Committee of the Company:  
**Hon. Richard Harcourt, Toronto, Ont., President.**

**Motor Truck Rights**  
Berna Motors and Taxicabs, Ltd., also own and control the selling rights of the famous Berna Commercial Motor in Canada, United States and Mexico, and with the constant increase in the use of commercial motor vehicles, these rights are a great commercial asset.

**A Great Asset**  
The unexcelled workmanship and proven qualities of Berna Motors, made in Switzerland, have made them the leading commercial vehicles of the day, and their control by this Company for the entire North American Continent is a matter of utmost importance to those who desire a distinctly commercial and tangible basis for every investment.

**Lorries for All Uses**  
The Company is now in a position to sell Lorries having a capacity of 1, 2 1/2, 3 1/2, and 5 tons, and is ready to demonstrate their superiority by actual service of a Berna five-ton Lorry. Motor Trucks are fast displacing horses and will soon be handling all merchandise, doing the work quicker, better and cheaper to the extreme satisfaction of both buyer and seller.

**Dividends**  
The actual earnings to date and the very promising outlook of the Company warrant the payment of a dividend of 2 1/2% quarterly, or 10% per annum, by the Directors, commencing January 1st, 1910.

FEDERAL GRANT FOR OTTAWA  
\$115,000 a Year for Ten Years for City Improvement.  
OTTAWA, Nov. 2.—Negotiations are practically completed between the City of Ottawa and the Dominion Government whereby an annual grant of \$115,000 is to be made for a period of ten years, \$100,000 to go to the Ottawa Improvement Commission and \$15,000 to the city direct. In consideration of this the government will get a free water supply, be relieved of snow cleaning and street sprinkling rates which he said, would put the province of its employees exempted from taxation.

**A Special Offer**  
No Charge for Making Portieres on Orders Placed To-morrow.

### Portiere Curtain Time

A "FREE circulation of air" in the Summer means a "cold draught" in Winter. Bare floors and bare doors and windows in Summer time look cool. In the Winter they look more than that—they look cold.

The time has come for cosiness indoors as contrast to the forbidding dreariness of November rains and cold raw winds. You need portiere curtains in your doorways to check the draughts and give your eye a sensation of comfort.

We would like to show you a few new shades in Portiere Velours, Monk's Cloth, Hop Sack, Tapestry and Silks.

As a special inducement for you to come on Thursday we will charge only for materials on any order placed that day for Portiere Curtains.

English Hop-sack, Monk's Cloth, and Repps, 52-in. wide, all wool, in shades of green, red, blue, tawn and tan, per yard \$1.50.

French Linen Velours with a specially close and silky pile, all the desirable colorings, including new shades of brown, 50-in. wide, per yard \$1.50.

Silk Velours, in the same colorings and width, per yard \$3.00.

Scotch, English, and French Tapestries, in gothic, verdure, Indian, and other designs. A particularly good assortment of coloring, 52-in. wide, per yard \$1.00 to \$3.50.

French Damasks and Kent Silks, 52-in. wide, in more than a score shades of blue, rose, cream and green, per yard \$2.00.

Portiere Corda, Edgings, Galoons, Gimps and Appliques, in all the new designs to suit the above fabric, Per yard 12¢ to \$3.00.

### New Boudoir Comforts

CHILLY mornings require something warmer than filmy silk kimonos or light airy creations of next to nothing at all. We show the warm wadded kind of gowns that Japanese ladies wear when autumn comes, imported direct from Japan, so if you want a real kimono you may have a warm one right from Kimono-land.

**Ladies' Wadded Silk Gowns—Special \$5.95**

Ladies' Lounging Robes or Gowns, of extra quality Japanese silk, stitched and warmly wadded; trimmed with silk, frog fasteners and cord girdle; navy with navy, cardinal or white, cardinal with cardinal, navy or white, and black with helio. Sizes 36 to 44. Special \$5.95.

Same style as above, only handsomely embroidered in contrasting shades, \$7.50.

**New Crepe Kimonos \$2.50**

Ladies' Kimono Gowns of serpentine cotton crepe, in plain colors, sky, cardinal, helio and black; made with fancy ¾ sleeves; square yoke, fronts and sleeves trimmed with band of satin in self shades. Sizes 34 to 42. Special value Thursday \$2.50.

**\$7.50 Silk Underskirts \$4.95**

Women's Underskirts of extra quality taffeta silk, navy, brown and moss green; made with deep circular flounce of alternate panels of accordion pleating and ruching, finished with pin tucked frill; under-plee full depth of flounce, trimmed with frill of taffeta. Lengths 38, 40 and 42 inches. Regular value \$7.50. Thursday \$4.95.

### Special Display of Priestley's English Tussah Royal

"Registered."

The newest and most popular fabric for evening wear, house gowns and street wear dresses. A beautiful uncrushable material, with a rich, shimmering effect, which is absolutely unharmed by water. It is particularly well adapted to the present graceful modes, being of a soft, draping finish. The color range is exceptionally wide, and includes all the newest and most exclusive shades, ashes of roses, ashes of violets, mauve, amethyst, vieux rose, shell pink, Nile, pale blue, Russian blue, also in black and cream. 46 inches wide. "This quality and make is strictly confined by the manufacturers to this store." See special display, Yonge st. windows. Thursday, per yard, \$1.00.

### 300 Ostrich Feathers

All are black; fresh, new goods; good silky fibres; 17, 18 and 19 inches long. Regular prices \$3.00, \$3.50 and \$4.00 each. Wednesday \$2.25, \$2.50 and \$3.00.

### November Gloves and Hosiery
