RUSSIANS WILL OPEN ANOTHER BIG OFFENSIVE

Seven Millions of Men Come to Grips for Mighty Conflict.

BIG FIGHTING BEGINS Next Three Weeks Will See Climax to Gigantic Operations.

By ARTHUR S. DRAPER. Special Cable to The Toronto World. London, Oct. 20.—The greatest battle in the world's history is about to be staged on the eastern front, in the opinion of high military officials here. After months of manoeuvring nearly seven millions of men have come to grips along the almost unbroken front from Riga to the Danube. Hand-to-hand fighting of the most violent character is going on the whole length of the 900-mile line. The next three weeks will probably see the climax of this extraordinary struggle.

So far there is no indication of a definite result, although the Russians unquestionably are slowly gaining ground. The chief Russian move at the moment seems to aim at the envelopment of Halex from the north and the cutting of the Teuton line of communications between that stronghold and Lemberg. That the attacks of the czar's troops are succeeding in smashing the army's defence at some points is indicated in no uncertain manner by the sudden and hurried transfer of the German 3rd guards division to the Halex sector from Lemberg, where they had hitherto been held in reserve.

Make Dent in Line. In Volhynia the Russians have made a great dent in the enemy's line near Czerniary, fifteen miles southeast of Kovel, which bids fair to bring about the defeat of the Teutons once a big Russian attack has got under way in this region. In the Carpathians the situation is extremely interesting and important. Once the czar's troops break thru the mountain passes they will obtain a vital success. Not only will the lines of the Russians and Rumanians be completely linked together, but the danger of Falkenhayn's drive will be eliminated. To the Rumanians the Russians will bring reinforcements that may result in the sweeping of the whole of Transylvania. Observers here lay emphasis on the value of the severe Russian winter to the czar's troops. Whatever new ground the Russians are able to win before the winter sets in, in earnest it is pointed out will remain in their possession until spring. Unlike the battle on the western front, the struggle cannot be continued in the east. This winter period will prove, as it has proved in the past, of immense value to the Russians and of little value to the Teutons.

Grenade Fighting in the Combles Region.

CONNAUGHTS TAKE UP RESIDENCE IN LONDON

Canadian Associated Press Cable. London, Oct. 20.—The Duke and Duchess of Connaught and the Princess Patricia reached London tonight. There was no public reception, but the royal travelers were respectfully greeted by a few who recognized them. It is expected that the duke will remain in London for some time, principally in Clarence House. Among those on the platform were: The Duke of Devonshire, Viscount French, Sir George and Lady Perley, A. Bonar Law and Col. Sir Henry Strickland, commanding the Grenadiers, which the Duke of Connaught is colonel. Sir Malcolm Murray, controller of the duke's household, met the royal highnesses at the port. The King, Queen, and Princess Mary welcomed the returning royal highnesses at Paddington, and later visited them at Clarence house.

BRITISH REPEL ENEMY IN ATTACK ON REDOUBT

Germans Fail to Reach Schwaben Work on Somme—French Fight Artillery Battle.

Special Cable to The Toronto World. London, Oct. 20.—Schwaben redoubt was the scene of a German attack on the British battle front south of the Ancre today, but the British repulsed the oncoming waves of Teutons before they reached the positions occupied by their infantry. A considerable number of casualties was inflicted on the foe. Unfavorable weather continues to hold up the offensive operations of the allies. Artillery fighting continues on the whole of the front. The French official communication of tonight notes the especial severity of the bombardment in the sectors of Sully-Saillisset, Belloy-en-Santerre and Ablaincourt. The British are continuing their raids north of Arras, two being successfully carried out in the vicinity of Loos.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

NEWS from the various theatres of the war has been colorless, scanty and dull as a rule in the immediate past few days, but what does come over the cables stamps the general situation as favorable to the allies. In great campaigns pauses must come after each intensive and extensive action to permit the making of preparations for the renewal of the struggle. The latest information received from the eastern front strongly hints that the present suspension of the Russian advance will soon give place to active forward movements. Russia, it is said, has about completed the bringing up of her forces to adequate strength for waging an offensive in conjunction with Roumania on the whole front between the Danube and the Baltic, like the offensive she waged between the Pripiet and the Roumanian frontier in June and July. That fighting, it appears, was only a warming up for the real struggle, now about to burst on eastern Europe.

The laconic despatches of the British and French headquarters in northwestern France concerning the fighting between the Somme and the Ancre, revealed yesterday that the British had repulsed a German attempt upon the Schwaben Redoubt, and that an artillery contest was the feature on the French side of the battlefield. In this gunners' competition the allies now have easily the first place, being able at last to fire five shells to the Germans' one. The turn the German propaganda is now taking in the United States may be seen from an address of Prof. Hugo Muensterberg. This leading agent of the German secret service predicts that before spring Russia will sign a separate peace with Germany. He gives his bluff away almost in the very next words when he says that if Great Britain does not sign a peace with Germany before Russia she will be destroyed. Japan, in his philosophy, and the professor has been called a poor psychologist, will join with Russia in making peace, and then a league between the unholy alliance and Slavs and Japanese will be formed. In talking this nonsense, for Russia has the best chance she has had for a century, and in food and men she is inexhaustible, and she is determined to win the war, the German are merely carrying out their avowed scheme of doing as Frederick the Great did. In the seven years' war, Prussia was attacked by France, Austria and Russia. Britain supported Frederick and she defeated France. Prussia was saved from destruction by the timely defection of...

RUSSIANS CAPTURE CARPATHIAN RIDGE

BATTLE STILL RAGES Slavs and Germans Engage in Bludgeon Fighting in Volhynia.

Special Cable to The Toronto World. London, Oct. 20.—Besides repulsing all attacks of the Germans in the region of Dorna Watra, near the borders of Roumania, Transylvania and Bukovina, the Russians have continued their attacks to the west of this battlefield, and they have captured a series of heights north of Lamuntelu, with four machine guns and a number of soldiers. The battle north of Kiselin and before Vladimir-Volynski, in Volhynia, continues with severe intensity. It is a soldiers' stand up battle with neither side making headway. In southeastern Galicia the Russians report that the Germans made fierce attacks without success north of Kuropatnika. The Germans claim that southwest of Sviatolinka on the western bank of the Narayuvka River some of their battalions stormed important positions on the heights with adjoining lines and they captured 14 Russian officers, 2050 men and eleven machine guns. The enemy also claims that in the southern part of the Carpathian forest, the Russians were driven from the summit of Mount Rusgulul.

C. P. R. CALLING ON CROTHERS TO ACT

Company and Employes Unable to Reach Settlement.

STRIKE ORDERS POSTED Men to Quit Wednesday Next Unless Agreement is Effected.

Winnipeg, Oct. 20.—Apparently negotiations between the C. P. R. and its conductors and trainmen reached such an impasse today that the men's executive pretty well arrived at the conclusion that a strike was inevitable, and it is said that strike orders are now posting through Canada, to take effect Wednesday next, unless in the meantime a way out is found. On the other hand, Grant Hall, vice-president and general manager of the C. P. R., could add nothing to his statement that so far as the company is concerned the door to negotiation is still open. The situation with regard to a board of conciliation clarified somewhat with a well defined report, late this evening, that the company would make a formal request of the department of labor for such a board. If this proves correct, as there is good reason to believe, it means that the centre of interest shifts from Winnipeg to Ottawa. Twenty-one brotherhood officials remain in city, with power to cancel the strike orders if the company agrees to the demands. They are not remaining, they assert, to carry on negotiations with railroad. They say that negotiations are at end, but that there is a possibility of a strike being prevented.

Citizens Make Great Response on Last Day of Campaign.

OFFICIALS DELIGHTED R. J. Copeland and Major Dinnick Say Result Beyond Greatest Expectations.

The call for financial aid from the British Red Cross Society has received such a response as is characteristic of the patriotism and liberality of the citizens. When the returns were totaled up at 6 o'clock last night Toronto had contributed the magnificent sum of \$636,050.10, and to this amount will be added further sums, with the likelihood that the total will approach \$700,000. It was this announcement made by R. J. Copeland at the workers' dinner at the Red Cross headquarters last night that aroused the wildest scenes of enthusiasm. All former records for voluntary giving have been broken and last year's total has been exceeded by over \$100,000, with the prospect that the excess will be much larger still.

R. J. Copeland, president of the campaign committee, in a short address paid tributes and expressed his appreciation for the services of the various members of the teams, personally mentioning Sir Edmund Walker, H. H. Williams, John Firstbrook, J. J. Gibbons, who was captain of the team which collected the largest sum, A. L. Whitlock, who ably officiated in the accounting department. He also expressed a word of thanks to the Great North-Western Telegraph Company, which had sent \$4,000 worth of messages free.

Thanks Workers. The president further announced that the total collections for yesterday amounted to \$276,224.10. He was also pleased to state that without the contributions of the churches, schools and the women's collections the sum of \$68,050.10 had been collected, which amount far overlapped the total of a year ago. Major W. S. Dinnick, organizer of the campaign, thanked the press, Norman Pearce, publicity agent, John Hay, the assistant organizer, and John Noland for the part that each had played and said that the assembly was

Canadian Associated Press Cable. London, Oct. 20.—The following honors were gazetted tonight: Distinguished Service Order—Major Arthur Morton Grenfell, Yeomanry, belonging to a well-known Canadian family, rallied a considerable number of men who were retreating. The wounded himself, he succeeded in getting another wounded officer to safety. Major William Grassett Hagarty, Canadian artillery, who after an excellent reconnaissance, succeeded in bringing a battery into position by night over a difficult ground under heavy fire, doing fine work also next morning. Military Cross—Lieut. Alan Duncan Bell-Irving, Gordon Highlanders, member of a family well-known in Canada, for gallantry in attacking a battery 1000 feet up under heavy fire, bringing it down in flames. Capt. Alfred Hayman, Welsh Regiment, originally with the Canadian Mounted Rifles, who was killed nine days after being recommended for this honor, commanded his company in the front trenches during several days' very heavy shelling and set a very fine example. The he himself was buried three times and was wounded the first day, he refused to be sent back. Lieut. Edwin Ketteringham, Norfolk, originally a sergeant in the Canadian Cyclists Corps, entered the enemy's trenches, gathered useful information, inflicted considerable loss and brought back a wounded man under fire.

ROUMANIANS DRIVE FOE OVER BORDER

MORE CANADIANS WIN DECORATIONS

Major Hagarty and Lieut. Cassels of Artillery Included in List. MANY FINE EXPLOITS

Spirit of Initiative and Contempt of Danger Gain Rewards.

Special Cable to The Toronto World. London, Oct. 20.—Extending their counter-offensives from the Otuz valley and the region of the Gyimes Pass, where they drove the Germans back, the Rumanians have fallen upon the Teutons in Oituz valley and they have driven the foe back to the frontier. It is in this region that the Germans had gained a footing inside of the Roumanian border. It is considered here that by taking merely ascertains the Rumanians have checked any planing invasion thru the passes on the northwestern front. On the northern front the Rumanians have retaken Mount Curul, and the fighting has been desperate, and they have repulsed five German attacks in the region of Mount Robul on the left bank of the Alt River. At Orsova in the Jiu valley a heavy artillery bombardment is proceeding. In the Dobruja, Von Mackensen has opened heavy attacks on the Russians and Rumanians. Before these assaults the Roumanian centre has been bent, but not broken. The Russians also report that the enemy has opened a fierce fire and assumed the offensive, but they have repulsed his attacks with great losses to him. The battle is continuing with great violence. The Germans have no claims to make in regard to Roumania. They merely assert that on the frontier in Transylvania the fighting progresses. Von Falkenhayn, who was commanding the German armies sent against Roumania, has been wounded in the thigh, and it is reported that he has been superseded in his command in consequence of the wound. Concerning the Dobruja operations, the Germans assert that the fighting has become livelier.

Announcement of Figures Stirs Great Audience in Massey Hall.

ONTARIO LEADS CANADA Gives Million and Quarter With Seven Hundred Places to Hear From.

Before an enthusiastic meeting that taxed the capacity of Massey Hall last night the grand total of \$701,546.11 was announced to be Toronto's contribution to the British Red Cross appeal. The province gave over one and a quarter millions, with 700 places still to be heard from. The total amount from Toronto was unknown to anyone until the president of the women's committee, Mrs. Plumtree, announced the results. When she stated that the women had raised \$579,910.34, making a grand total of \$701,546.11, the audience went wild with enthusiasm. A curtain at the rear of the platform was pulled aside revealing a large portrait of Lord Kitchener, and the band played "Rifle Britannia" and the singing of which all joined.

From then on the throng that packed the hall gave voice to their enthusiasm in repeated cheers, and when the reports from many other centres throughout the province were read by Major Dinnick, there was fresh cause for enthusiasm as it was announced that place after place had contributed more this year than last. At the conclusion of the meeting Lieut.-Gov. Sir John Hendrie sent the following cable to the British Red Cross Society: "Ontario Our Day contribution reaches over one and a quarter million dollars with 700 places to hear from. Toronto gave 200,000 dollars of this amount, confidently expect two millions."

While going east on his way to St. Lawrence market with produce, Robert Handley, market gardener, of Humber Bay, was struck by motor car No. 597 at the corner of King and Niagara streets about 1:40 this morning. He sustained a broken ankle and serious internal injuries. Three men who were in the car at the time were detained by the police, who, however, refused to give their names.

ANOTHER GERMAN UNDERSEA BOAT ON THE WAY OUT FOR NICKEL

Another German undersea boat, said to be like the Deutschland, the merchant class, as against the torpedo-boat or war class, is making across the Atlantic for an American port, for a cargo of rubber, nickel and other "vitally necessary metals, of which there is a serious shortage in Germany for munition purposes."

WHERE OUR NICKEL GOES.

(Victoria, B.C., Times, Oct. 18.) In an interview given to the Associated Press, Lord Robert Cecil, minister of war trade, said: "When I tell you that the Deutschland took on board in America certain vitally necessary metals, of which there is a serious shortage in Germany for munition purposes, and that these are the metals which we are so anxious to prevent from going to the enemy, it is important that we should take precautions to prevent allied property getting into the hands of the enemy."

Lord Cecil's reference must be to the Canadian nickel, which, it is reported, formed part of the cargo loaded on the Deutschland at Baltimore. The ship, however, was not an isolated instance since the war began of the shipment of Canadian nickel to Germany. During the recent election campaign in Toronto, Harry Dewar, the successful candidate, presented statistics showing that a quantity of the metal must have been procured by our chief enemy, the United States, since it embarked upon its enterprise of wholesale murder and pillage.

Attempts have been made by government apologists to show that none of the nickel mined in Canada has found its way to Germany. Statements have been issued from Ottawa to the party press insisting that the system of checking at the refinery of the International Nickel Trust in New Jersey has been an adequate safeguard in this respect. Lord Robert Cecil evidently takes no stock in these assurances, which were aimed on the face of them. Once the metal leaves the refinery there is no means of determining its final destination. This is something over which the Canadian authorities have absolutely no control. It is purely a matter of American trade.

the Ontario Government, other than that of Hon. Mr. Ferguson, (Ontario's minister of mines) that Lord Cecil did not mean Ontario nickel. We will stick to the statement that that is exactly what he did mean until we hear that he meant something else. Mr. Ferguson suggests that it was New Caledonia (French) nickel to that we say, "brought it into the United States if it was not the International Nickel Co. or one of its metal associates?"

GERMANY AND CANADIAN NICKEL.

(St. Thomas Times, Oct. 17.) Lord Robert Cecil's recent declaration that the German submarine freighter Deutschland shipped in a United States port certain vitally necessary metals of which there is a serious shortage in Germany for munition purposes, again raises the issue of Canadian nickel. The British minister of war trade, it is reported, specifically named nickel, but there can be no possible doubt that this particular metal was what he had in mind, and the context makes this sufficiently plain for us to go on to say that these metals to which he referred were a part of the small stock mined in allied territory. This remark identifies nickel with certainty, for nickel is comparatively rare in the world, and all but a small fraction of our own supply comes from the greater part of the mines of Ontario, and in lesser measure from those of the French penal settlement of New Caledonia, an island in the southern Pacific, several hundred miles east of Australia.

In an interview published in The Toronto Star, Hon. G. H. Ferguson, minister of mines for Ontario, is reported as observing that Lord Robert Cecil's words could not refer to nickel mined in this province. "Ontario mines and markets," he is quoted as saying, "85 per cent. of the nickel of the world, therefore the words 'a small stock mine' can have no reference to this province." This is an ingenious explanation, but it is not a fact. It is plain that the minister of war trade was not speaking of where the actual supply of the scarce metals of which he spoke came from, but of their relative scarcity and rarity. That, of course, is exactly true of nickel. Mr. Ferguson makes a point that Lord Robert Cecil would have used the term, "British territory, and not 'allied territory,'" had he been referring to nickel. But here, again, Lord Robert pursued the same train of thought, and was exactly right when he included New Caledonia with Ontario as sources of the world supply of nickel.

The Ontario output of nickel is controlled by the International Nickel Company, a United States organization, possessing a practical monopoly of the nickel output of Ontario. It is alleged to itself a German organization, but whether that be the case or not is of no importance in the present controversy. What the people of Canada are deeply concerned with is whether any part of the nickel output of Ontario has found its way into the hands of a country with which the empire is at war, and engaged in a conflict threatening the foundations of British liberties. The Dominion Government, no longer content with the International Nickel Co., and professing ability under its terms to control nickel exports from Canada, and also the distribution of the refined product in the United States. But the Dominion authority cannot follow the course of the nickel, since the latter is sold to the United States or to other countries by immediate purchasers, and even the supporters of the efficiency of the nickel refinery are constrained to admit that it is impossible to prevent Canadian nickel from getting into the hands of German agents in the United States or of United States firms ready and willing to sell to these agents. This is an intolerable position for Canada, here and now, as she is, in this crucial war. Plans are being considered, and are being done quickly and effectively, to stop German imports of nickel, even if nothing else will suffice but actual prohibition of nickel exports, except to concerns of good standing in the United States, and under regulations that will absolutely prevent Ontario nickel from being used for other than entirely friendly purposes.

WOODBRIDGE BEDFORD PARK REV. M. MACKINNON RESIGNS HIS POST

Moved Solely by Inability to Attend to Pastorate Work. WAS IN ILL-HEALTH

Union Meeting Appoint Four Members to Represent Them Before Presbytery.

Thursday evening a largely-attended union meeting of the congregations of Woodbridge and Knox Church, Vaughan, was held here at the residence of Dr. McMillan, Toronto, representing the presbytery, presided.

The object of the meeting was to consider the resignation of the Rev. Malcolm Mackinnon, the pastor, who, on account of ill-health, has found it necessary to take a rest. At the opening of the meeting, Mr. Mackinnon said that the step which he was taking was altogether a personal initiative; that no suggestions, much less requests, had been made by anyone in the congregation. He was moved solely by a sense of his own inability to attend to the pastoral work of a church involving traveling thru the country, on account of the present condition of his health.

SCARBORO Supply Hydro Power to the Scarborough Township Residents

The men in Scarborough Township, who have been obtaining signatures for the hydro electric, have completed their canvass and forwarded it to the Ontario Hydro Commission, where the signatures are being examined and approved. Mr. F. G. Gandy, chief engineer hydro-electric, said that there was little doubt but that the petition would be granted, and that he would recommend the prosecution of the work. DAVISVILLE Metropolitan Cars Collide Motorman is Seriously Hurt

A slippery rail coupled with the fog of the early morning on Friday, was responsible for a most serious collision on the Metropolitan Railway. Thomas Ryan, one of the oldest motormen, was the driver of a car which collided with a passenger car. Ryan was seriously injured and had to be removed to his home. About 10 o'clock a south-bound Newmarket car, which was carrying a heavy load of coal, was derailed by the collision. The car was badly smashed and several ribs broken. Some of the passengers were injured. Another collision occurred at Farmington. The lines will run along the Danforth road from the city limit east, and up the Kennedy road as far as Agnew in any event. It will supply power and light, but not a railway service.

BEDFORD PARK WOMEN EXHIBIT HOME BAKING

Products Shown in Sons of England Hall—Controller Cameron on Presents Prizes.

The efforts of the women of Bedford Park to reduce the cost of living by baking their own bread and edibles have resulted in a fine exhibition of home-made products, which were shown in Sons of England Hall, Bedford park, on Saturday afternoon. The fine array of exhibits were judged by Miss Davidson of the technical school, Mrs. Pugsley and Mrs. Reddick of Rotherham ave. and Mrs. Reddick of Rotherham ave. Testimony as to the fine quality of the bread was given by Miss Davidson, who said she had never seen anything finer in the line. In addition to the bread, there were also, tea biscuits, layer cakes and scones.

A concert was also held in the evening, at which Controller Cameron was performed by J. A. Galbraith, the controller, presiding. The prizes distributed to the successful competitors. The people of the neighborhood were invited to the exhibition. Mrs. J. D. Cassie, who is in charge of the exhibition, wishes to express her appreciation for the interest shown by Controller and Mrs. Cameron in the exhibition.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

Russia from the alliance, owing to the accession of a czar who was an admirer of Frederick the Great.

The Rumanian situation continues to improve, but the fighting and no signs of ceasing. In the Oltuz Valley, south of the region of the Cymes man lands, the allies have at last brought up reinforcements, have attacked the Germans, and have driven them back over the frontier. In most gallant style Rumania is responding to the German menace. But she will have to further on her reserves of defensive valor, for the hard straits to which the German probably been responsible for humiliating Von Mackensen to action in the Dobruja have resumed his violent bombardments and attacks. The Rumanian have repulsed these, but the Rumanian centre has been slightly bent, but it has not been broken by any means.

What is worrying the Germans is the certainty of having a greatly extended front in the east to defend in the near future. General Ruzsky's if they are not already prepared to take the field before the new year. In Galicia and Volhynia the Russian forces are aizzling with suppressed energy and their restlessness has drawn them into many stubborn combats, each a soldier's battle like Inkermann. They are holding firm the junction of their own and the Rumanian lines south of Dorna Watra and they have captured some more Carpathian ridges to the west. They have also attracted to their front as many men as Germany can spare and they have completely overshadowed the Austrians. The Germans claim that they have stormed heights in the Halez region and made 2000 prisoners, but German reports, ever since the battle of Verdun, have been studiously falsified and they cannot be depended on to give any true version of an action.

At Salonica the allies continue to disembark troops for the campaign in the Balkans. Another strong contingent of infantry was landed yesterday, besides detachments of Greek troops from Crete. By this time General Sarrail has a great army under his command. The question is for the employment of so great a force in that restricted theatre. The signs point not only to the subjugation of Bulgaria and Constantinople, but to an invasion of Austria-Hungary from the south, forcing the enemy to find another million troops that he does not have, to protect his southern flank. The allies plan to make the Germans good and sorry that they ever attacked Serbia.

On the front before Salonica the Serbians are making progress in their attacks on the third Bulgarian line of defence. By carrying the first and the second lines and seizing the line of the Gerna bend, they have gained an ascendancy over the Bulgarians in the field. This establishment of their ability to master Bulgarians in combat will make it more and more difficult for the German officers to goad the Bulgarians to battle. Finally, they will lose their powers of cohesion altogether. The ill-success attending attacks in mass formation against repeating rifles and machine guns is bound to destroy the confidence of an army. It is unable to send reinforcements to the Monastir plain to assist the Bulgarians to stem the Serbian advance. Russia and Roumania, it seems, are keeping the enemy too much preoccupied to spare troops from their front, and he dare not weaken his lines in France and Belgium, lest their allies should break thru them and create another and larger Sedan or Waterloo.

DAVISVILLE Metropolitan Cars Collide Motorman is Seriously Hurt

A slippery rail coupled with the fog of the early morning on Friday, was responsible for a most serious collision on the Metropolitan Railway. Thomas Ryan, one of the oldest motormen, was the driver of a car which collided with a passenger car. Ryan was seriously injured and had to be removed to his home. About 10 o'clock a south-bound Newmarket car, which was carrying a heavy load of coal, was derailed by the collision. The car was badly smashed and several ribs broken. Some of the passengers were injured. Another collision occurred at Farmington. The lines will run along the Danforth road from the city limit east, and up the Kennedy road as far as Agnew in any event. It will supply power and light, but not a railway service.

FAIRBANK RAIN HURT CAMPAIGN.

The collection on behalf of the British Red Cross Fund in School Section 15, Fairbank, up to last evening amounted to \$29.85.

FAIRBANK PASTOR IS WELCOMED.

A meeting of the parishioners of Fairbank Methodist Church, was held last evening for the purpose of tendering a welcome to the new student pastor, Rev. J. R. Bealey, who has been recently appointed.

CALEDONIA Caledonia Residents Discuss Delay in Building Civil Line

The prolonged delay in completing the Lansdowne avenue civil car line will be the first matter for discussion at the next meeting of the Caledonia Ratepayers' Association.

IN BAD CONDITION Streets in North Toronto Said to be

The condition of Yonge street, north of the C. P. R. tracks to the York Mills hill, is very bad, the space between the Metropolitan car tracks and the sidewalk being a sea of mud, with a little attention being paid to the street. The old town of North Toronto, Extension, is reported to be almost impassable. On Victoria avenue the road bed has been taken up to a depth of about two feet and will be relaid with concrete.

CONFLICTING STORIES ARE TOLD AT INQUEST

Jury Probing Death of Mrs. Horn Asks That Motor Laws Be Strictly Enforced. After hearing the evidence of twelve witnesses regarding the death of Mrs. Sarah Horn, the jury at the morgue last night was divided as to whether Mrs. Horn came to her death by being run over by a motor car in charge of Charles Short, and driven by Bertha Moseau, Mrs. Horn was 72 years of age and was badly injured on the evening of Oct. 19 on Carlaw avenue, near Danforth avenue, that she died a few hours later.

DIFFERENCE WORTH NOTING.

No other tire has the anti-skid quick-stop feature which Dunlop Traction Tires give for so long a time. Notice how quickly the non-skid features of other types disappear. With "Traction" the corrugations remain until the tire is practically worn out. Have you considered "Traction" from this standpoint?

## Warm and Serviceable Apparel for the Working Man

Illustrating Some Splendid Values in Durable Winter Coats for Workmen

### Heavy and Medium Weight Socks For the Workingman

**B**EING MADE of heavy wool and cotton yarns, these socks are certainly warm; being in most cases seamless throughout, they are comfortable; and being firmly sewn and double-ply where necessary, and made of strong yarns, they will surely give long service and withstand many washings. Note how low are the prices of the following:

**Men's Heavy-weight Grey Wool Working Socks**, made without a seam to hurt the foot. Have close-fitting ribbed cuff, and knitted from selected wool yarns, with three-ply yarns in heel, toe and sole, 45c per pair, or 3 pairs for \$1.25.

**Men's 4-1 Ribbed Dark Grey Socks**, made of wool mixed yarns, with double-ply white heel, toe and greater top. Suitable to wear with overshoes or moccasins. 35c per pair, or 3 pairs for \$1.00.

**Another 4-1 Ribbed line**, similar to the preceding line, is in medium-weight and lighter shade of grey. Per pair . . . 29

**Men's Dark Grey Wool Working Socks**, made in 3-1 rib, with 1-1 ribbed close-fitting cuff. Heel and toe are of double-ply yarns, extra serviceable. Per pair . . . 25

**Men's Medium-weight Union Wool Working Socks**, with white reinforced heel and toe and neat-fitting ribbed cuff. Per pair, 18c, 3 pairs for 50c.

**Men's Light or Dark Grey Worsted Socks**, plain or ribbed, made from double-ply yarns, spliced at heel and toe, and elastic-ribbed cuff. Also in black worsted. Sizes 10, 10½ or 11. Per pair, 35c; 3 pairs for \$1.00.

—Main Floor, Yonge St.

### Here and There in the Store

The "Language of the Flowers" is a bright, pretty waltz, replete with rich melody and beautiful rhythm. A universal favorite for dancing. Hear it played at Music Section in the Basement. Price . . . . . 33

Now is the time to have weather stripping put on all your windows and doors, so that when the real cold weather comes, it will not lower the moderate temperature of your home. Estimates given Second Floor, Furniture Building.

EATON'S Overseas Chocolate Cakes—a highly concentrated chocolate, prepared specially for sending overseas. This chocolate is greatly appreciated by the men on active service, as it is not only a delicious confection, but a sustaining food; wrapped in tinfoil, will keep indefinitely. Done up in half-pound cakes. Per cake, 25c. Basement, Main and Fifth Floors.

"Adventures of a Dispatch Rider," by Capt. H. L. Watson, is a new book you should read.

It is a most stirring and moving narrative that must rank with Ian Hay's "The First Hundred Thousand." Like Ian Hay's great war book, its chapters first appeared in Blackwood's Magazine. They ran in the same numbers of the magazine, and each number was an event. Captain Watson has added somewhat to his work, which came to England originally in the shape of letters to his mother. He has written a preface, better, almost, than any other preface one has ever read. Let no one venture to say he hates war until he has read what these youths write who know what war is, and yet are paying the price willingly. Price, \$1.25. Main Floor, James Street.

### Boots That Can Be Soled Without Injury

They Are Distinctly Workingmen's Boots and Are the Acme of Strength and Comfort

**H**ERE IS FOOTWEAR specially designed for men who work outside the whole year round in every kind of weather. Boots that we recommend to policemen, postmen, builders, drivers, railroaders, etc., because they are models that are built for hard, rough usage and to keep the feet dry on wet stormy days.

Realizing how much the outdoor man is on his feet, these boots have been carefully made to give the greatest comfort possible, and it is important to note also how low are the prices despite the advance in the cost of leather.

A particularly comfortable outdoor boot is called the "Walleasy." It is made of rather light weight box kip, in Blucher style, and has sewed soles. Exceptionally low priced at 2.00

Another serviceable and comfortable boot is oil tanned, in Blucher style, without lining, and has double soles sewn and nailed. Sizes 6 to 12 . . . . . 2.95

A wide easy-fitting Boot, made of box kip, in Blucher style, has Goodyear welted double weight soles. Sizes 5½ to 11. Price . . . 3.25

Tan Grain Blucher Boot, high cut 10" top and bellows tongued, closed to the top. Has double viscolized soles and shanks, which means they are waterproof. Sizes 6 to 11 3.95

In black is a similar boot at . . . . . 3.95

Specially Made Plough Boot, made with heavy oil tanned belt hide; shoe pack style; solid leather soles. Price . . . . . 2.50

Extra Heavy Plain Toe Working Boot, with double pegged soles and large eyelets. Priced at . . . . . 2.95

—Second Floor.

### Of Interest To Motorists—The Electric Spotlight

**V**ERY useful and convenient on any automobile are these electric spotlights that fasten to the top of the windshield. They have a special lens that throws a strong spotlight a surprising distance. Being adjustable to any angle, they are exceedingly useful for finding street numbers, road signs, and for discerning the nature of the new road before turning the corner is their special advantage. Each lamp has sight mirror on back:

No. 401, with 4 in. diameter door 3.50

### TORONTO AVIATOR REPORTED KILLED

Flight Lieut. H. M. Corbold Meets Death Flying Over Enemy Lines.

### HEAVY CASUALTY LIST

Twenty-One Citizens Make Supreme Sacrifice—Eighty-Two Wounded.

One hundred and thirteen names of men from Toronto units are in the casualty list issued at Ottawa yesterday. Fifteen have been killed in action, 6 have died of wounds, 2 are reported to have died, 7 are missing and 32 are wounded. Four officers are mentioned.

Reported missing since August 27, Flight Lieutenant H. M. Corbold was killed while flying over the German lines. Corbold was but 19 years of age, and his home is at 82 Wells Hill road. The news of his death was received by his parents yesterday from the American embassy at Berlin. He left Canada for England last December and was attached to the 19th Scout Squadron of the Royal Flying Corps.

Suffering from influenza-pneumonia, Lieut. C. C. Thompson is in a critical condition at Cambridge Hospital, Aldershot. He went overseas with the 124th Battalion about the first of August. He was a student of architecture at the University of Toronto and is a son of C. W. Thompson, 24 Crescent road.

Conflicting reports are still circulated as to whether or not Capt. H. Kingstone has died of wounds. He is reported in a Montreal paper to have died, but the records office gives him as being seriously ill in a hospital suffering from gunshot wounds.

Lieut. Gordon Cockburn has been wounded and is also suffering from shell shock. He enlisted with the 84th Battery, Royal Horse Artillery, at Kingston, and after receiving his appointment went overseas. His parents are at 324 Spadina street.

Two weeks ago Pte. J. Devlin was wounded so badly that he died a few days later. Devlin's home is at Sheridan, Ontario. He came to Toronto to enlist and died in winter in the Riverdale barracks.

After fighting at the front for 20 months Pte. Lewis Luck has been killed in action. He enlisted with the first Highland battalion to leave Toronto. His relatives live at 369 South avenue, North Toronto.

Another member of the 92nd Battalion has made the supreme sacrifice. Pte. D. M. Miller, 1058 East Queen street, resigned his position in a munition factory, and was killed on September 27.

On September 24th Pte. Albert E. Smith, 195 Holland avenue, was killed in action. He enlisted with the 13th Battalion when the 92nd was split up in England.

Corp. Walter A. Carliely died of wounds in a French hospital, where he had been confined since August, suffering from gunshot wounds. The corporal was recognized as the champion quoit thrower of Canada, and lived at 141 Hamilton street.

Drafted from the 74th Battalion to a second contingent unit Pte. R. Grimley, 74 Clarence street, is reported killed in action. Grimley was 44 years of age and went overseas last March. He leaves a widow.

During the fighting of the Somme on September 30 Pte. J. F. Torrey was killed in action. Torrey was a Scotchman and boarded at 168 Wilton avenue, and was employed as a steam-fitter before signing up with the 74th Battalion.

After lying in a French hospital for a month with wounds in his head and shoulder, Pte. C. Peak has succumbed. He went to England last year and was sent to the trenches early in 1916.

With gunshot wounds in the shoulder Pte. J. Steele is in No. 2 Australian General Hospital, Boulogne. Steele was on guard duty for two years at Niagara, and went to the front with the 98th Battalion. His wife lives at 283 Wilton avenue and her husband worked at St. Catharines before donning khaki.

Only a few weeks in the trenches, Pte. J. W. Rollinson has been wounded the second time. He was drafted from the 74th Battalion to the Mounted Rifles in France. Rollinson has a wife and 3 children living at 2059 Dufferin street.

Pte. Robert Grainger wrote his parents at 717 Carlaw avenue from a hospital, stating that he had been wounded by shrapnel in the head and neck. He was a member of the 35th Battalion.

Another first contingent man from Toronto has been wounded for the first time. Pte. J. B. Conroy went over with the 10th Battalion and has been wounded in the thigh. His home is at 34 Coxwell avenue.

Pte. Ernest Kean has been admitted to No. 1 Australian General Hospital with gunshot wounds in the hand. Kean was transferred from the 95th Battalion and was at the firing line three weeks.

Going from the 83rd Battalion to reinforce an earlier unit, Pte. J. Pollock has been wounded twice since he entered the trenches. Pollock is 19 years old. He is suffering from concussion of the back. His father is with the Red Cross in England and his mother resides at 1 Dartford road.

### NOTED MUSICIAN OF MONTREAL

Advices the Use of "Fruit-a-tives," the Famous Fruit Medicine.

MR. ROSENBERG, 559 Casgrain St., Montreal.

April 20th, 1915. "In my opinion no other medicine in the world is so curative for constipation and indigestion as 'Fruit-a-tives.' I was a sufferer from these complaints for five years, and my sedentary occupation, music, brought about a kind of intestinal paralysis with many headaches, belching gas, drowsiness after eating and pain in the back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives,' and now for six months I have been entirely well."

"I advise anyone who suffers from that horrible trouble—chronic constipation—with the resultant indigestion, to try 'Fruit-a-tives,' and you will be agreeably surprised at the great benefit you will receive."

THAT QUICK STOP MEANS SAFETY. Can the numerous auto accidents be minimized? They can be by using the only real quick-stop anti-skid tire—Dunlop "traction tread." Is your car equipped with tires which help your brakes to answer quickly and surely?

Law Regulating Catching of Salmon and Trout Amended. The Dominion regulation making a closed season for salmon-trout between Oct. 5 and Nov. 5 in inland lakes, where netting is prohibited, has been amended to permit anglers to catch not more than five in all other waters than the big and little Rideau lakes, where three is the limit. A number of protests against the regulation which went into effect late last fall were received by the provincial department of game and fisheries, which forwarded representations to Ottawa.

### INFANTILE PARALYSIS IS LOSING ITS GRIP

Fewer Cases This Month Than in September, Says Dr. J. W. S. McCullough.

### DEATH PERCENTAGE HIGHER

Advices Parents to Keep Small Children Away From Possible Contagion.

Dr. J. W. S. McCullough, provincial medical officer of health, received word from the medical health officer in Montreal yesterday, that there are 15 cases of infantile paralysis in West-mont. All those who have come in contact with the cases are being kept under strict quarantine. Still the medical officer of health gives it as his advice that "people with small children had better stay away" from possible contagion.

The disease is apparently losing its grip on Ontario. There are fewer cases this month than last, but the percentage of fatality is higher. To the 19th of this month, 19 cases and six deaths have been reported. Last month there were 75 cases but only seven deaths.

### NORTHERN ONTARIO

The Land of Clover, Opens a Permanent Exhibit in Toronto.

"Show your wares" is the slogan that has been adopted by the colonization branch of the Ontario Government in promoting settlement in Northern Ontario. "Show your wares," they believe, is to see and be convinced. And with this thought in mind a permanent exhibit—small but representative—of the field products of Northern Ontario has been arranged in the government immigration office, 172 Front street west, Toronto, opposite the Union Station.

The exhibit, while it conveys to newcomers at once some of the possibilities of the "Land of Promise," is worthy of the attention of those who have heard but never ascertained for themselves what Northern Ontario means to the province as a whole.

The richness of the soil is emphasized on every hand, first by a collection of samples of fodder crops, such as clover, alfalfa and alsike, and then by a number of native grasses (also good for fodder) that grow in profusion in Timiskaming, Nipissing, Algoma, Thunder Bay, Rainy River and Kenora districts. These, with sheaves of fall wheat and oats with large heads and ears, and in length, is declared proof that Northern Ontario will not yield to any other part of Canada first place in grain production. The cultivation of flax for seed and for fibre is being encouraged by the Dominion flax commissioner, with results which, he states, are exceeding his hopes.

The office breathes the free and optimistic spirit of the north. Information of every conceivable nature concerning the country is available. Enthusiasm is characteristic of the staff, which is trained to understand the needs of newcomers. The reception room is cheery and comfortable, with proper facilities to accommodate women and children.

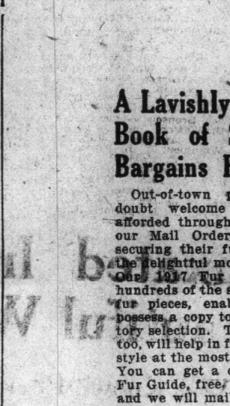

Few people are perhaps aware that in the midst of this city is maintained by the government an institution that is something more than a turnstile through which settlers pass to their new heritage. It is a school where many things are taught to the profit of settler and citizen.

The department extends an invitation to every person to take advantage of the innovation and know more about Northern Ontario.

WANTS LEASE CANCELED. H. H. McCall, London House, London, Ont., has applied for cancellation of his lease from J. M. Humphreys. The rent was \$2600 and taxes. The license board will hear the case next Friday.

ST. CLAIR'S SUBSCRIPTION. The amount credited to St. Clair School in The World yesterday morning as its subscription to the Red Cross campaign was \$85 but should have read \$52.40.

THE FALL WEATHER HARD ON LITTLE ONES. Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### McKitterick Properties Now Before the Railway Board

The City of Hamilton presented argument before the Ontario Railway and Municipal Board yesterday, contending that the board has no jurisdiction to arbitrate in the appeal of the McKitterick Properties Limited, against their assessment. Appeal had previously been made to the court of revision, and the county judge. Now the holders desire to appeal to the railway board. The city denies their right on a point of law. The board asked for written argument.

## Neutrality in the Republic

It is fitting that the French Republican Journal des Debats should reply to American newspapers, which are condemning the entente allies for their policy in Greece. The United States would appear to have forgotten to judge from many incidents of the war, that the original profession of the American republic was against all tyranny, despotism, autocracy, and class government. Yet a large section of the American press has lost no opportunity of condemning the entente allies who have fought the fight of human freedom and sought to liberate Europe from such tyranny as the Kaiser of Germany and his relatives would impose.

France, says The Journal des Debats, gave with enthusiasm its armed co-operation to Washington that he might found a free state. Now that France and Britain have tried to assist Venizelos to free Greece, the United States might have extended sympathy at least. And to a large extent the United States does, but not officially, and a large section of her press constantly carps and criticizes and finds fault with the action of France and Britain.

It might almost be supposed from the attitude of the Washington Government that it had less sympathy at present with republics and constitutional governments than with autocratic and imperial thrones. Presumably neutral, President Wilson loses no opportunity of writing embarrassing notes to the entente allies, and setting in motion obstructive diplomatic measures. At the same time the autocratic German Government is favored to the extreme limit.

The recent action in receiving the submarine U-53 on her way to the torpedoing of vessels engaged in United States commerce, while British and French ships have been requested not even to hover in the neighborhood of United States ports, has created a bad impression in Great Britain, and has deeply irritated the great mass of the citizens of the United States, two-thirds of whom at least are heartily with the entente allies in the great fight for human freedom.

There can no longer be any doubt that the Washington Government concedes the right of German submarines to destroy commerce at will, and apparently President Wilson also concedes the right of Germany to sink the Lusitania, provided that monetary compensation be given for the lives that were lost. This cold-blooded and academic position may do for people who have lost no friends. It reminds one of the public advocates of an eternal hell of fire in the recent discussion, of whom it is stated that none of them have any children. Fathers and mothers have a different conception of theology from that of childless or celibate parsons.

Perhaps, President Wilson and Mr. Bryan would have had a different opinion about the Lusitania had they possessed relatives on the list of those who lost their lives when the Germans remorselessly sank her to the depths and left the ocean dotted with infant bodies. Neutrality is a fine academic virtue in such circumstances. We are glad to think that the majority of the people of the United States do not possess it.

## Has Done Good Work

Commenting upon Mr. S. O. Dunn's articles on the future of government ownership of railways in Canada, The Montreal Gazette, the no friend to public ownership, feels constrained to say that many of the abuses in the management of the Intercolonial Railway upon which Mr. Dunn harps so persistently have been largely done away with or altogether corrected since Hon. Frank Cochrane assumed control of the Dominion Railway Department. The Gazette says that Mr.

Gutelius, a practical railway man, has been given a free hand as general manager, that many economies have been effected, that political interference has been largely eliminated, and that the road shows a gratifying increase in its earnings since 1911.

We are inclined to agree with The Gazette that Mr. Cochrane has rendered real public service in the way he has handled the Intercolonial Railway. He has stood by his general manager often against the bitter protest of his political friends and supporters, and we believe the road is managed today with more economy than formerly and without any loss in efficiency.

With the controversy over the raising of rates, we are not inclined to take sides beyond saying that we do not think the government railway should charge more between non-competitive points than between competitive points. Mr. Gutelius, as a railway man, thinks differently, and Mr. Cochrane has not interfered with his policy to any great extent in this regard, notwithstanding vigorous protests from the maritime provinces.

The Montreal Gazette, however, praises Mr. Cochrane at the expense of public ownership. He is contrasted with a long line of predecessors, and the inference is drawn that public ownership has inherent weaknesses which cannot be overcome by the average minister or government. We think it is just the other way around, and that public ownership in the case of the Intercolonial has vindicated itself in spite of the fact that few of the men who had charge of the road were real friends of public ownership.

## Blacklisting the Bad Book

The military censor is so much in evidence that we hear little just now in Canada of the morality censor who keeps a watchful eye on art and literature. In New York it is different. The society for the suppression of vice, which for years has rendered conspicuous public service, is now being bitterly denounced for placing a recent novel under the ban as "obscene and profane." The profanity is found in the dialog of certain characters, and the author claims that the characters cannot be realistically depicted in any other way. The passages in the book considered "immoral" do not teach or defend immorality, but are said to offend by using plainer speech than that usually intended for ears polite.

The literary people who criticize the censor say that his standard, if adhered to, would banish many classical works from library shelves. This is an old argument, and we think as a rule it is unsound. The author who in a plain-speaking age writes as people about him talk does so without offence, for no offence is intended. On the other hand, the writer who a century or two later uses substantially the same language violates the decencies of life just as he would if he indulged in the same plain-speaking in ordinary conversation.

Nearly every person feels that he can tell at a glance whether a book, picture or play is immoral. If the primary object of the artist be to appeal to the prurient instinct, that fact will be so patent as to inspire disgust. If the primary object be purely artistic, some incidental coarseness of expression will produce no such effect. Anthony Comstock in his day was subjected to much abuse and ridicule, but he pretty well stamped out filthy books and indecent pictures, and his influence still lives for good. In dealing with such productions the police may well bring down a heavy hand, even tho at times it be a trifle clumsy. It is not quite so easy to deal with productions of admittedly artistic value that seem to be suggestive. We are not altogether ready to say that our Ontario censors erred in forbidding the production of a dramatization of "The Heart of Midlothian" as they were mistaken in thinking that the man who wrote the story was still alive and doing business in the City of New York. While no one could object to adult persons reading Sir Walter Scott's beautiful and touching story, its presentation as a drama, and a moving picture show largely attended by children might not be desirable.

A more subtle danger to the community is the fiction with which many of the best American magazines are filled. It is neither obscene nor profane, but it defenda and excuses, idealizes and usually glorifies, the unrepentant Magdalene. One heroine of this type drinks whiskey, smokes opium and lives an openly immoral life, without losing for the author at least her girlish charm. One is really unable to understand why he did not teach her to "chaw terbacker" like "Little Breeches," just to keep her milk-teeth white.

## CHARGED WITH CONSPIRING AGAINST TORONTO BANK

Former Clerk in Bank of Commerce Arraigned in Police Court.

"That he did, during 1915-16, conspire and confederate with two others to defraud the Toronto branch of the Canadian Bank of Commerce out of \$1,000," was the serious charge read out to J. A. M. Kirkland, employed by the bank as a clerk, in the police court yesterday. Prisoner's counsel reserved plea and election, and the case was adjourned for a week. Bail was fixed at \$1,500.

The charge against Kirkland is a sequel to what seems from the bank's report to the crown, to have been one of the most elaborate schemes of fraud. The "two others" referred to in the charge are J. W. Swenson, and E. H. Malone, both of whom are now out of the country. The charges are divided as follows: Kirkland, \$145.50; Swenson, \$1,000; Malone, \$538. These amounts are subject to revision, however.

## SAYS HE WAS FORCED TO MAKE SETTLEMENT

Hyman Sherman Tells Court Defendants Took Advantage of His Ignorance.

In the non-jury court before Judge Denton yesterday, Hyman Sherman, in suing to recover \$200 from Harry Gold and Max Goldfarb, owners of two horses which were harnessed with a stable on Elizabeth street on July last. He alleges that the defendants represented that his partner, Zydmann, was the person who used the vehicle. Sherman declares he was threatened with prosecution unless he agreed to arbitrate to settle the amount of the damage. He claims his ignorance of English was taken advantage of to get his consent and induce him to post \$200 to await the outcome of the arbitration. He later found that Zydmann, one of the arbitrators, was an interested party, but Weiner and the other arbitrator had paid over the money to Joseph Prager. He denied injuring the horses and asked for an order setting aside the agreement to arbitrate and for the return of his money. Weiner and Rotstein allege that Sherman asked them to arbitrate and that the money was paid over to Prager at his request. Gold and Goldfarb claim that Sherman approached them and tried to settle for the damage alleged to have been done by his partner Zydmann. They counterclaim for \$185 of the money paid Prager, to cover damage done their horses.

## BOYS SEE WAR FILMS.

A novel and instructive entertainment was provided for the choir boys of Christ Church, Deer Park, when the organist, Frederick Ballard, took 20 of them to the Regent Theatre on Wednesday to see the "Battle of the Somme" pictures. The boys were greatly impressed.

## Holy Angels' Sodality Dinner

Feature of St. Mary's Bazaar

One of the many enjoyable features of the bazaar held at St. Mary's Club during the week was the banquet tendered the Holy Angels Sodality. The banquet was splendidly decorated for the happy occasion and Very Reverend Dean Moyna presided. During his address he made many pleasing references to the members of the society and appealed to them to be true to the objects and purpose of their organization. Rev. Staley and Rev. Dutton also delivered pleasing addresses.

## Business Assessment on Two More Hotels Canceled

The business assessment on the Teck and the Queen's Hotels were canceled by the court of revision yesterday, but the property valuations were allowed to stand. The Queen's building was assessed at \$90,000 and the land at \$27,967. The profits of the business, said A. T. Hunter, had dropped from \$109,000 in 1914 to \$18,000 in 1915.

James Hawkins appealed against the assessment of the Manning Arcade building, valued at \$480,000. Judgment was reserved.

## GO BACK TO ST. CATHARINES

Nick Kazaris and John Polanski, of St. Catharines, were arrested in Toronto yesterday by Detectives Nursey and Young on a charge of stealing \$39 and a lady's gold watch. The chief of police of St. Catharines took the two men back last night.

## HONOR ROLL IS LARGE

Lieut.-Governor and Lady Hendrie Present Prizes—Prominent Men Present.

References to the war and the fine part that the students have played since the opening of belligerent conditions colored many of the addresses given at the distribution of prizes at Upper Canada College yesterday afternoon. In his opening address, Principal Auden stated that 747 boys from the school were now at the front, three times more than at this time last year. The honor roll showed 53 names of those who had died for King and country.

His honor the Lieutenant-governor was present and presented the medal given by the governor-general, and given by A. M. Kinney, in passing Sir John Hendrie stated that a cable had been received announcing the safe arrival of the Duke and Duchess of Connaught in England. He also referred to the great value the duke had been to Canada, and his usefulness in doing all he could in the interests of the soldier, he himself having been a soldier all his life. Lady Hendrie presented many of the prizes and afterwards was presented with a bouquet of roses tied with the school colors, the presentation being made by a "little Burns Junior."

## Read it in The Sunday World

Seldom is there to be found a weekend paper containing a more interesting selection of timely articles and short stories than will be seen in The Sunday World tonight. Contributors, with a number of new ones, have made it possible to submit an entirely attractive and highly pleasing number. In addition to the regular features which have helped to make The Sunday World the popular weekly there will be found the following:

"Description of and work accomplished by the finest military dental clinic in the world and located at Camp Borden."  
W. H. Stewart's story on inventions that the war has brought, showing the great scope inventive genius has had since the conflict began.  
The taking of Fort George, showing that the spirit of the British soldier was as excellent then as it is now.  
An account of Corp. King from an incident in a front line funk-hole. This is one of the most interesting stories that have appeared in the World.

War's effect upon the fur trade in the wilderness.  
Moring and good roads. Latest happenings in motor and motorcycle circles.  
Gossip, theatre news, programs for the coming week and notes of current interest.

In the women's section—a delightful "intimate" story of R. H. the Duke and Duchess of Connaught, and the Princess Patricia. The womanliness of the latter may be judged after reading this contribution.  
It is worth noting, more capable now than before the war? It is contended that the mettle of women is being proved as never before. Read the story.

Stunning wraps of rough velours, gaily lined and smartly trimmed for autumn, says fashion.  
Ellnor Murra writes this week about colds and coughs, pointing out the necessity of preparing the children for the change in seasons.  
The boys and girls will be pleased to know that Aunt June has a story for them, and has something to tell about the scrap books.  
The openway instalment is about the Kingdom of Wild Things, and is just as interesting as its predecessors.

Civic officials emphatically stated yesterday that if Eplandus vladuct is proceeded with, the city will be able to finance its share of the cost estimated at about \$7000.

## CITY WINS APPEAL AT OSGOODE HALL

Decision Allowing Mrs. Ella Palmer Damages, Has Been Reversed.

## WINDING UP ORDERS

Urban Securities, Ltd., Toronto, and Fox Chain Co., Hamilton, in Liquidation.

The appellate division, at Osgoode Hall yesterday, allowed the appeal of the city from the judgment of Mr. Justice Clute allowing Mrs. Ella Palmer \$1,000 and her husband \$100 for injuries received by Mrs. Palmer when she fell on the slippery steps of the Wallace avenue foot bridge over the railway tracks at Dundas street. It was held that the city had done all it could to keep the steps free of snow and ice when it had a man, whose sole duty it was to sweep this bridge.

Mr. Justice Riddell said it was impossible for the city to have a man sweeping all the time at any one particular point and there was nothing to show that the city had done all it could to keep the steps free of snow and ice when it had a man, whose sole duty it was to sweep this bridge.

## Now in Liquidation.

An order was granted for the winding-up of the Urban Securities Limited, of Toronto, incorporated in 1913 with a nominal capital of \$100,000, by Chancellor Boyd. It was stated that 100 shares had been subscribed and paid up.

The petitioner is Ernest Lorne McLean, creditor for \$10241. money advanced by him, and he alleges that the company is indebted to the extent of \$2,500 for money advanced by others. J. P. Langley was appointed interim liquidator, and there is a reference directed to the master in ordinary. The company debt is lands.

Chancellor Boyd granted an order for the winding-up of the Fox Chain Company, of Hamilton, W. H. Coff, of Hamilton, was appointed interim liquidator and a reference was directed to the local master at Hamilton.

With a nominal capital of \$200,000, of which 4,745 of preferred and 30,000 common stock is alleged to have been subscribed and paid up, the company was incorporated in January, 1914, to deal in motor tire chains. The petitioner creditor is Robert Weeks, the secretary-treasurer, who claims \$1,200. The assets are placed at \$10,827.67 and the liabilities at \$20,446.64.

Action was entered to recover \$2,900 damages for the death of Leopold Injuria, claimed to have been caused by injuries received from a motor car owned by George Bean and driven by Charles Bean. The action was entered by the parents, Samuel Isaac and Katie Ann Lyon.

First divisional court, appellate division, list for Monday: Caldwell v. C. P. R. Cotton v. Ont. Motor Co. Hoek-Lumber Co. v. Dudley, re Clarke & Town of Leamington, re Willoughby, Peplitt v. Reasor.

## WILLS PROBATED

Mrs. Mary McKenzie, widow of John McKenzie, farmer, late of Toronto, who died at the Township of Trafalgar without leaving a will, has made application for administration of the estate, which is valued at \$6,975. His widow, two daughters, Christina Isabella, and Martha Isabella, all residing at 661 Annetta street, divide the estate between them.

## LT. HOWARD WEBSTER IS REPORTED WOUNDED

Son of General Steamship Agent Enlisted as Private.

Lieut. Howard Webster, reported wounded this week, is a son of Mr. A. F. Webster, general steamship agent. He enlisted as a private from the Toronto University in March, 1915, and was attached to the 26th Battery at Kingston. In a few months he had advanced to highest non-commissioned office, namely, sergeant-major. He then qualified for a commission, was attached to the 84th Battery under Major Massie. Before leaving England he was transferred to the 33rd Battery, and was with this battery when wounded. He has been prominent in rugby and hockey, principally in connection with Varsity. Three years ago he played in All-British Hockey Team when British won the championship of Europe.

## Order in Council Allows Indians to Trap Beaver

By orders in council gazetted yesterday, machinery has been formed for the authorities may take the beaver and other, ten of either. The regulations provide for issuers of royalties who, if they are licensed persons, may affix the tags to the skins, thus saving the Indian from the necessity of putting up his money beforehand. White men may only take the beaver or five other or a number of mixed in the same ratio.

# High School League Results

## HARBORD AND TECH WIN THEIR GAMES

### No Surprises in the High School Rugby League—Stoddy Gridirons.

The High School Rugby fixtures were pulled off on muddy fields yesterday, and no surprises resulted. Technical, leaders in the eastern section of the senior series, and Harbord, leaders of the western group, came thru with wins.

Technical downed Jarvis, 10 to 0, and some beautiful work was shown by the winning backs. Batstone, Tech's centre half, pulled off three or four sixty-yard runs, and Acheson and Shute, at outside, were up on every man. Their tackling was superb, and they had a lot to do with Tech's victory.

Beverly (captain) and Beatty were easily the best for Jarvis. The ground was a sea of mud and it was impossible to pull any trick plays. It was the old three backs and a kick.

Harbord Collegiate kept up its victorious career, maintaining the lead in the western section of the league. In wretched weather, the orange and black aggregation took Oakwood, 24 to 2. The superiority of the Harbord boys was evident from the beginning. In the first five in the period that Oakwood scored, Harbord counted eight in the first, five in the second and eleven in the third. Neither side tallied in the fourth period.

Perkville Juniors won from Humberdale, 9 to 0.

The scores:

Senior.	Technical.....10 Jarvis.....0
Junior.	Riversdale v. Commerce.....0
Western.	Harbord.....20 Oakwood.....2
Eastern.	Parkdale v. Humberdale-Postponed
Junior.	Technical.....8 Jarvis.....1
Western.	Parkdale.....3 Humberdale.....0
Eastern.	Harbord v. Oakwood-Postponed

The Ottawa Soldiers' team to play Queens in Kingston today has been chosen, as follows: Backs, Johnston, Carling, Breen, Paisley and Wiser; Flywing, Joe Smith; scrummen, Adams, Matthews, Westman, Trott and McCaffrey; outside wings, Kirby, Allen, Taylor and Robbins; middles, Seaton, Davies and Roberts; sides, Pritchard, McGillott and Hartley.

## Eastern Amateur Hockey Teams Ready For the Blacklist

Ottawa, Oct. 20.—Tommy Ross, manager of the Pittsburgh Amateur Athletic Association's Hockey Club, was here last night on his way home to the Smoky City. He came up from Montreal, where he had conferred with a number of the hockey magnates for the purpose of arranging games at Pittsburgh. He left at 11 o'clock last night for the States.

Before going Mr. Ross announced that the Ductum Gardens would be opened on Nov. 24, when the Ottawa Hockey Club team will appear there. They play team will likely consist of an aggregation of City League stars. The Ottawa Athletics have also been invited to appear there, and it is likely that the Royal Canadian Mounted Police will also appear.

Mr. Ross claims to have contracted with the following clubs for their appearance at Pittsburgh: St. Louis University and Loyola, one or two Ottawa clubs may also go.

Manager Ross said that he had no trouble in booking teams, notwithstanding the threat of the O.H.A. to blacklist anyone who played across the line. He says the Ottawa team will be the National League drawing cards, Pittsburgh, he says, will not be represented in the proposed new National Hockey League in the States.

## SKATING AND HOCKEY POPULAR IN STATES

St. Louis will open the ice-skating season with a new rink, containing 23,000 square feet of skating alone will cost \$85,000. The company known as the Winter Garden, has purchased the old Hal Alai building, originally erected for the World's Fair in 1903, and a new syndicate at a cost of \$215,000. Hockey will be one of the leading amusements at the rink.

Cincinnati's new rink is expected to be ready for business about Nov. 1. The rink will be one of the syndicates chain operating in Chicago, St. Louis and Cincinnati. The building is to be a store and a half in front, and one storey in rear, 210 feet long by 82 feet wide, 35,000 square feet of skating surface, accommodating 1500 people on the ice at once.

Several Brooklyn capitalists are investing according to report \$50,000 in covering the Bedford and Kingsway into an ice skating rink. The opening is set for Nov. 1. The rink will have a seating capacity of 3000 for hockey patrons.

Ice skating is now possible in New York. The St. Nicholas rink and the ice skating police having opened their doors for the 1916-17 season last Saturday night. Three thousand people enjoyed the favorite pastime at the St. Nick and 1500 whirled about on the steel blades at the ice palace. Artificial ice is used in both arenas.

## HAD IT ARRANGED TOLD THE PLAYERS

### McGraw's Act Now Looks Worse Than Ever—Arranged With President.

New York, Oct. 20.—A statement bearing out that of President Hempstead of the Giants, and proving the correctness of President Tener's refusal to take action, in regard to John McGraw's action in leaving the bench during the last series of the National League season in Brooklyn was made today. The statement came from a source close to John McGraw and undoubtedly is correct. Apparently every one has taken Manager McGraw's action as a wrong way. The press informant declares the leader's refusal to direct the play of his men from the bench throws so bad light on their action, and any resentment they may feel must come from statements attributed to McGraw.

McGraw, it is developed, took course which already had been agreed upon between himself and President Hempstead, as Hempstead said in a statement he made for the press, but it further developed that McGraw had taken several players into his confidence and they knew what was to be done. The basis of the action was McGraw's friendship with Wilbert Robinson, manager of the Dodgers. McGraw was aware that Robinson would prevent him from managing his team thru at their best efforts.

He wanted to keep his skirts clean, said the informant. He knew that he and Robble were considered far too good friends for the good of the game and he made an agreement with Hempstead that if things didn't pass off just right in the series at Brooklyn, he would leave the bench and turn the management of the club over to one of the players.

The first game played at Brooklyn, was a poorly played game from a New York standpoint, considering that the Giants just then were flourishing the sensation of the league, and they lost.

The next day they played a wretched game and McGraw, sensing things that might have been said, immediately took the action that had been agreed upon. The players were not playing the kind of baseball McGraw wanted them to, and he immediately left the bench.

That wasn't the first time players had done things in opposition to McGraw's wishes, but it was the first time such a thing had happened at such a crucial period. So every one got excited. McGraw put an end to the play. Fred Perry and Fletcher what was about to be done, then went back to the bench and they finally agreeing to the appointment of Charley Herzog as temporary manager.

## This Brooklyn's Third

This is the fifth time Brooklyn has won a pennant in a major league in the twenty-six years it has been playing big time, but only the third time it has taken part in a world's series.

In 1899 Brooklyn was in the American Association, won the championship of that circuit, and played the New York Giants, champions of the National League. The Giants showed more ambition against the Brooklyn team than they did just recently in a series not soon to be forgotten, and won the world's honor, six games to three.

In 1890 Brooklyn entered the National League, and signed its debut by straightway capturing the flag. At the end of the season the present series of the American Association, in the world's series of those days, and the present series of the American Association, in the world's series of those days, and the present series of the American Association, in the world's series of those days.

In 1899 and 1900 Brooklyn was the National League champion; but, as the Temple Cup series had been abandoned, and the present series not yet established, the Superbas were unable to find an opponent for a similar contest.

While Brooklyn was deprived of the opportunity to compete for the championship in past years, the present series offered the club a chance to bring the National League back on an equal footing with the American League in the matter of world's series won.

## F. WELSH TO FIGHT IN OTTAWA

Ottawa, Oct. 20.—Announcement was made last night that Freddie Welsh, lightweight champion of the world, would appear in Ottawa next week and box at the Arena under the auspices of the 20th Battalion. His opponent will be Eddie Condon. It will be a ten-round bout.

## BASEBALL GOSSIP

The 1916 season of the Western League has been one of the most disastrous financially, that the league has experienced in the seventeen years of its existence. One team—Wichita—was forced to give up its franchise to the league because of financial difficulties, and all club-owners, with the possible exception of William A. Rourke, owner of the Omaha team, report that this season has not been a huge success financially. The pennant went to the Omaha club, besides being owner of the pennant-winners this season, Owner Rourke of the Omaha Club holds the distinction of being the oldest owner in the league. He started with the league seventeen years ago as head of the Omaha team, and has been at the head of that team since.

George Slater, first-baseman of the St. Louis Browns, will be married in Detroit on Saturday, Oct. 21, to Miss Kathleen Holzmaier of 2670 Woodward avenue. The affair is the culmination of a romance begun when the "party of the first part" and the party of the second part were both students at the University of Michigan, at Ann Arbor.

Manager Mike O'Neill of the pennant-winning Syracuse team has gone to his home without signing for next season. It is said that he wanted a salary increase of \$500.

The Jacksonville franchise of the South Atlantic League has been taken over by Randolph Rose, a popular business man of Chattanooga, Tenn., who is an ardent baseball fan and devotee of boxing. Rose is president of the Randolph Rose Athletic Club of Chattanooga, one of the leading boxing organizations in the south.

Mordecai Brown hasn't done any pitching since the day he hooked up with Matty for their memorable battle at Chicago. Apparently that direful fray was enough for Brown, as he has not pitched since, and was the swan song for both of them.

In Chicago it is rumored that both managers of the Chicago major league clubs—Joe Tinker and Clarence Rowland—are slated for the discard pile before another season opens. Of course, the customary denials have been made by the club-owners, but records are records. The die is cast, it is said to be slated for Rowland's job, and Art Wilson is reported to step into Tinker's shoes.

Joe Villa says that it is admitted by insiders that the Washingtons and Athletics have lost money this season. The other American League clubs are on velvet in the National League, the big money-makers are the Giants, Phillies and Brooklyn. Some of the others will be lucky to break even.

## NATIONAL LEAGUE TO INCREASE THE LIMIT

Twenty-One Player Rule Has Worked Against League, Says Tener.

New York, Oct. 20.—The National League must be strengthened, in the opinion of John K. Tener, its president. Mr. Tener says he believes the 21-player limit has worked against the league in world's series games and that the limit will be increased next year.

There is no use in the National League mulling any excuses or giving any alibis," said Mr. Tener. "We have played poor ball, very poor ball, in the past few series. Our pitchers held up, but that was all. I appreciate that something must be done. I am not pretending to see it. In my annual message to the club presidents I have called attention to the fact that the National League does not get its prestige in the executive office, but on the ball field. That is where the public judge us.

"Every effort must be made all around to strengthen the league. Those recent defeats have stung, and we are all the more eager to turn the tide. I want everyone in the league, presidents, managers and players, to aim for a National League victory next fall.

"Personally, I believe the 21-player limit is wrong against the National League, and I think by next season the player limit in our league will be increased to 25.

It was reported today that President Tener, Harry Hempstead, the president of the New York National League Club, and John J. McGraw, the club's manager, will meet here today or tomorrow to talk over McGraw's criticism of the Giants in their final series with Brooklyn.

George Slater, first-baseman of the St. Louis Browns, will be married in Detroit on Saturday, Oct. 21, to Miss Kathleen Holzmaier of 2670 Woodward avenue. The affair is the culmination of a romance begun when the "party of the first part" and the party of the second part were both students at the University of Michigan, at Ann Arbor.

Manager Mike O'Neill of the pennant-winning Syracuse team has gone to his home without signing for next season. It is said that he wanted a salary increase of \$500.

The Jacksonville franchise of the South Atlantic League has been taken over by Randolph Rose, a popular business man of Chattanooga, Tenn., who is an ardent baseball fan and devotee of boxing. Rose is president of the Randolph Rose Athletic Club of Chattanooga, one of the leading boxing organizations in the south.

Mordecai Brown hasn't done any pitching since the day he hooked up with Matty for their memorable battle at Chicago. Apparently that direful fray was enough for Brown, as he has not pitched since, and was the swan song for both of them.

In Chicago it is rumored that both managers of the Chicago major league clubs—Joe Tinker and Clarence Rowland—are slated for the discard pile before another season opens. Of course, the customary denials have been made by the club-owners, but records are records. The die is cast, it is said to be slated for Rowland's job, and Art Wilson is reported to step into Tinker's shoes.

Joe Villa says that it is admitted by insiders that the Washingtons and Athletics have lost money this season. The other American League clubs are on velvet in the National League, the big money-makers are the Giants, Phillies and Brooklyn. Some of the others will be lucky to break even.

PATSY DONOVAN IS TO STAY AT BUFFALO Says He Will Not Manage a Big League Club Again—Likes Youngsters.

Buffalo, Oct. 20.—A prominent member of the Hot Stove League, who was all season pretty well acquainted with Manager Pat Donovan of the Buffalo Indians, a national, declares that statements to the effect that Pat Donovan will manage the Boston Red Sox next year, if Lammie still owns the team, are away off the track and running wild in the woods.

"Pat Donovan told me and other well-known baseball fans this season, and often repeated the remark that he would like to stay in Buffalo, and that under no circumstances would he ever take the managerial reins of a major league club again," he said.

Frank Patrick to Build New Rink With Largest Surface in World in Los Angeles.

Vancouver, B.C., Oct. 20.—The mystery which enshrouded the movements of President Frank Patrick of the Pacific Coast Hockey League during the past two weeks was disentangled last evening when the chief executive of the western circuit arrived back in the city from sunny California. On his arrival Mr. Patrick announced that he had completed arrangements in Los Angeles for the construction of an ice palace there which will have a skating surface just about the largest of its kind in the world.

BURLESQUE BULL FIGHTING IN SPAIN AND JACK JOHNSON IN COMEDY ROLE

Former Champion Does Chaplin Stunt, But is Not Popular—Mistaken for an Ex-Sultan.

Paris, Oct. 20.—Jack Johnson has become a burlesque bull-fighter in Barcelona. "You will understand," said the man who told the story, "that he is not a regular bull-fighter. He just picks on the bulls that are easy to kill."

They say that they were accustomed to suffer as they are too light on their feet their horns are cut off. That makes it sure that no Chaplin will be killed by a bull.

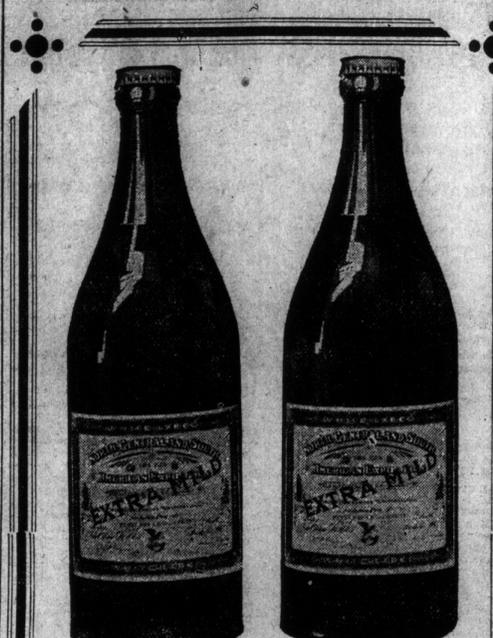

Popular Burlesque. These burlesque bull fights come cheap. Admission may be had for ten cents, whereas the regular bull fights are for a dollar or more. The poor little bull has been sufficiently stumped in front of by the Charlie Chaplin he killed in regular style, just as the he had horns and a chance for his life, or rather a chance to ring up a few maces for the rescue of a matador's soul. That added the last touch of beauty to the afternoon. Barcelona and other cities in Spain where Chaplin is tolerated have gone properly mad over these spectacles. Some of the Chaplinists and matadors are making regulations and fortunes. So, by degrees, we turn to Jack Johnson and his bull fighting.

SPEED OF THE TWO-YEAR-OLDS CAUSES GENUINE AMAZEMENT AT LEXINGTON

Baby Trotters Go Faster Than Aged Nags; Direct Challenge to Thoroughbred Breeders.

Lexington, Ky., Oct. 19.—The real sensation of the 1916 which closed here on Thursday has been the two-year-old trotters. Of course, Volge, Lee, Lexington and some of the fast pacers staged some sensational stunts, but they only went where prediction said they would; the two-year-olds performed in a manner undreamed of, even by the most optimistic. Volge, Lee and Lexington where the baby trotters race faster heads than the aged trotters in the fastest class events it would appear that the harness horse breed is throwing down a challenge to the thoroughbred in the matter of early speed, the average runner reaching top form at three or four years of age.

Any Number of Them. In addition to The Real Lady, Tom Murphy has in his stable the little individual, Kelly De Forest, 2 1/2 years, who is one of considerable class. He is a full brother to Miss De Forest (2,064), former world's champion of several pacing events, and a quarter of a sister to the Lexington Stakes winner, Emma Magowan, and after setting the pace all the way was a close second, in 2:07 1/2, being timed but a quarter of a second slower.

Real Lady Sensitive. The mile by The Real Lady in 2:04 1/2 in the Breeder's Stakes was the biggest sensation of the season. After she had trotted in 2:07 and 2:07 1/2 in winning the greatest two-year-old trot that she was ever appeared and some even ventured to predict that she would be the best in the breeders' event, distance having been waived, which meant that Murphy would be riding for a big mark. But when she responded with a mile in 2:04 1/2, being the world's two-year-old record, any Peter Volo at 2:04 1/2, all of the prophets were silenced.

Harvest Gale Fast. Another fast record two-year-old is Harvest Gale, a daughter of the ex-champion, Volge, who was the first early in the season by Lon McDonald, the famous trainer, who later, in the Indianapolis trainer having the youngster, Worthy Volo, to race in the Lexington Stakes. Harvest Gale was second to The Real Lady in her record and was timed separately in 2:07. On Wednesday she was the best of the second heat of a purse event for two-year-olds in 2:07, which gives her the credit of being the fastest of the season. The Harvest and also the fastest record in the world ever driven by Cox.

Worthy Volo. In Worthy Volo, who is a real youngster which is able to be a real contender for the title, is the son of Lexington and Volge. He is a full brother to the pair of champions, Peter Volo and Worthy Volo, which have succeeded in winning both the two and three-year-old divisions of the Kentucky stakes in 1915 and 1916. In the season it looked that the investment was a bad one for the youngster, but he showed in his late races, however, he has torn the breaking habit, and a prettier heat never was raced than a head in which Harvest Gale beat him a head in 2:07 on Wednesday. That he is a thor-

oly game colt was demonstrated in the third round, in which he came back and trotted the full mile in 2:10 1/2, the day not being at all favorable for fast time.

HERRMANN WOULD HAVE ALL THE PLAYERS IN

Chairman of Commission Has Novel World Series Plan—Nine Games.

Cincinnati, O., Oct. 20.—A new deal in connection with world's series, one that is favored by Garry Herrmann, head of baseball's supreme body, the National Baseball Commission, was outlined in a statement made by him today.

"I don't know what will be done about the series; the next one is too far away," Mr. Herrmann stated.

"If I had my way about it," he continued, "I would fix it so that every ball player in each major league would share in the winning of the series. Instead of giving all the money to the pennant-winning team, I would increase the series from seven to nine games and allow the players to share in the receipts of the first five games."

efficient reward for the few games they play. believe that we then would have enough money left in the players' pool to give each player on the second place team.

"Grading down, we could give each player a minimum of \$400 each fourth place man \$300, fifth place \$250, sixth place \$200, seventh place \$150 and eighth place \$100. This schedule might be subject to revision, but I believe the various acts would approximate about these amounts."

"By distributing this amount we create an incentive for all players to try to finish as high as possible, as each position attained would mean extra money."

"I also believe that by stretching the series out to nine games we could reduce the admission price."

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and lazy.

When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, rheumatism, dizziness, spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from you pharmacist about four ounces of Jod Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jod Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delicious, effervescent lithia water drink.

### FORTY MINUTES TO DO THE BUSINESS

Lieut. Percy Brocklebank's Graphic Description of Victorious Charge.

#### CASUALTIES WERE HEAVY

Of Sixteen Officers Who Went Into the Advance, Only Two Escaped.

Special to The Toronto World. Cornwall, Oct. 20.—Thomas Williams of the Carleton Hotel has received a letter from Lieut. Percy Brocklebank, who went overseas in March last with the 50th Battalion. The letter was dated "Somewhere in France," Sept. 27. Lieut. Brocklebank says:

I won't forget the 15th, 16th, and 17th of September in a hurry. It was just twelve months to the day of my joining up with the 50th that we were ordered to attack, and I was in the first wave. We assembled in "No Man's Land," or rather, stashed to assemble, at about 4.15 a.m., pitched camp, of course. The attack started at 6.20, and we had to stick on our stomachs for three solid hours with the German machine guns and rifles sniping at all their strength. The place was nothing but a shell hole, and we had great trouble in getting our men placed. As soon as our artillery opened, it was just as if hell had been let loose. The noise was terrific. One who has never been thru it can have no idea of what it was like. Up we got and away we went. The first German trench was about 50 yards away and over the top of this we went with the Fritzies down below throwing up their hands. It wasn't my duty to stay here, as the first wave had to go right over all the trenches until we got to our final objective. The second wave had to take the prisoners.

We were met by terrific frontal and flanking fire from the German rifles, machine guns and shrapnel, and our poor fellows were dropping right and left, but they went forward laughing and joking, and some of them snoking. We got to the second German trench and some of our men managed to bayonet a few of them. I saw one poor Fritz running forward with his hands up to give himself up. We still had another trench to go over, and then storm the strong point, but the Germans had almost quit. It took just 40 minutes to do the whole business, and then we had to dig trenches to make our position secure. By the time dinner time came there were only two officers left out of sixteen, who went into the charge. One was Lieut. Frank Hunter, of Cornwall, and the other myself.

Next morning they sent us four extra officers and ordered us to take another position about 500 yards to our front. In the next charge three of the extra officers were killed leaving only three of us, Hunter and I being two of the lucky three. Next morning another battalion relieved us, after we had been without food or water for thirty hours or more.

I tell you candidly I hope I ain't never in a charge like this again. Just a handful of us came out without a scratch, and I don't know yet how a single man came out. The ground was covered with dead and dying. The trenches, too, were filled up with dead Germans, killed by our artillery fire. In some places you would see a bunch of feet sticking thru the earth and underneath were the number of the enemy covered with the earth thrown up by our shell fire. In other places hands would be protruding. We routed out quite a lot of prisoners from their dugouts and they were a frightened lot. One Hun had his leg all smashed to pieces, and I gave him enough rum to send him to sleep, and I believe he was asleep when he was taken to the dressing station. He offered me his hand to shake and I shook it. I felt sorry for the poor beggar.

After describing the morning in which they were sent out for a seven day rest, Lieut. Brocklebank says the colonel has given both Hunter and myself command of companies. And that in time they will no doubt advance to be captains.

### ST. VITUS' DANCE CAN BE EASILY CURED

A Tonic for the Blood and Nerves With Rest All That Is Needed.

Many a child has been called awkward, has been punished in school for not keeping still, and for doing things, when the trouble was really St. Vitus' dance. This trouble may appear at any age, but is most often met between the ages of five and fourteen. The most frequent cause of the disease is poor blood, aggravated by indolent confinement, or mental strain at school. Under these conditions the blood fails to carry nourishment to the nerves and the child begins to show listlessness and inattention. Then it becomes restless and twitching of the muscles and jerking of the limbs and body follow. A remedy that cures St. Vitus' dance and cures it so thoroughly that no trace of the disease remains is Dr. Williams' Pink Pills, which renew the blood, thus feeding and strengthening the starved nerves. This is the only way to cure the trouble, and parents should lose no time in giving this treatment if their child becomes nervous or irritable. As Dr. Squires, Cannington, Ont., says: "My only daughter, now fourteen years of age, was troubled for several years with St. Vitus' dance. At one time she was so bad that she would lose control of her limbs, and her face and eyes would be contorted. We had medical advice and medicine, but it did not help her. In fact we thought the trouble growing worse, and finally we had to take her from school. About a year ago we began giving her Dr. Williams' Pink Pills and by the time she had taken five boxes she was completely cured, and is now a fine, healthy girl. I firmly believe that it was Dr. Williams' Pink Pills and are very grateful for her restoration to perfect health."

You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

#### Hundred and Fifty-Third Welcomed to St. Thomas

St. Thomas, Oct. 20.—A royal welcome was given the 153rd Battalion under the command of Lieut. Critchard, by the citizens of St. Thomas this morning on their arrival here. Owing to inclement weather the men did not march over from London as first intended, but came by special train and were met at the station by Mayor Troit, members of the city council and other members of the committee formed headed by the 26th Regiment band, which escorted the 153rd on a route march through the city to the barracks. Hundreds of citizens turned out to welcome the soldiers.

#### DISEASES BAFLE DOCTORS.

Infantile Paralysis Suspected to Be a Mystery. Milwaukee, Wis., Oct. 20.—Infantile paralysis still remains a mysterious disease to the medical profession, particularly as to its origin, and to a great degree in its transmission, according to a meeting of the American Association for Study and Prevention of Infantile Mortality.

#### OXFORD TEACHERS MEET.

Woodstock, Oct. 20.—At the closing session of the Oxford Teachers' Institute the following officers were elected: President, T. M. Caley, Norwich; Vice-President, R. Fleming, Wainwright; Sec.-Treas., Wm. Munro, Woodstock; Management Committee, George McKenzie, Bright; J. H. Wilson, Tillsonburg; Messrs. Hinchey, Miller and Young, Woodstock.

#### TORSO DAMAGED BY FIRE.

#### FRENCH ALSO TRIUMPH

Hostile Trenches West of Verdun Have Been Carried by Assault.

London, Oct. 19.—Despite the notably unsettled conditions in Greece, which apparently have militated against a determined pushing of the operations in the Macedonian front, fresh and successful attacks by French and Serbian troops are reported.

Paris announces a Serbian victory in the Cerna River region, southeast of Monastir, where the Town of Brod, within the bend of the Cerna, is declared again to have been wrested from the Bulgarians, who recently captured it. A delayed report from Sofia announced that Serbian attacks in the Cerna sector had failed of success.

Interest attaches to further possible developments in the Vardar region in the centre of the Macedonian front, where little but artillery activity has been reported during the rigorous operations on either flank. Last night's announcement from Paris that hostile trenches west of the Vardar had been penetrated to a depth of a quarter of a mile in the front, indicates the possibility that the entente offensive in force is to be extended to this important section of the front. The line of advance here lies along the railway line toward Uskub.

#### BELGIANS GAIN FRESH SUCCESSES IN AFRICA

Forces Operating Near Tabora Complete Rout of Germans.

#### FOE IN POISON BELT

Enemy Forced to Take Refuge in Fever-Ridden Area.

London, Oct. 19.—In a review of recent operations in German East Africa, issued here today, the war office announces that the Belgians operating near Tabora, in the northern central part of the colony, have inflicted a further defeat on the Germans. In the fighting from September 18 to 22 the surviving portion of the German forces which had been defeated at Tabora were routed.

Along the coast the British forces under General Smuts are engaged in clearing the country. A number of small columns are carrying on this work southeast of Dar-es-Salaam and northwest of Kilwa. Gen. Smuts says his troops have been attempting to drive into the Rufiji Valley. The German position is held north and south of that region.

The remainder of the force defeated by the Belgians was driven eastward and southward, the Germans making an attempt to effect a junction with the main German body concentrated in the Rufiji Valley. The bulk of the remaining German forces, says the announcement, are now confined in a limited area in the southeastern portion of the colony, of which all the ports on the coast and the main lines of approach are held by the entente forces. The entire Rufiji Valley and the Delta are unhealthy and malarious to the highest degree, and are declared likely to become untenable after the advent of the "leaser rains" during October.

#### MANY RETURNED SOLDIERS

Eight Hundred Men Have Landed at Halifax. Halifax, N.S., Oct. 20.—From the steamship that brought them safely thru the war zone these were landed here yesterday about 800 of all ranks from the battlefronts, from hospitals and discharging stations on the other side. About six hundred of them were wounded and non-eligible, a great many having turned out physically unfit after reaching the other side.

#### STEAMER SINKS IN LAKE ERIE

Crew Believed to Be Safe. Cleveland, O., Oct. 20.—The steamer Marshall Butters, laden with lumber, foundered in Lake Erie this afternoon during a heavy gale off Southeast Shoals, near the mouth of the Detroit River. Three members of the crew were rescued by the steamer Billings and brought here. The other twelve members of the crew are believed to have been rescued by the steamer Hartwell, which is bound for Ashtabula.

#### TEN THOUSAND DOLLARS' LOSS

When Connolly Farm Burns. Special to The Toronto World. Cornwall, Oct. 20.—Fire today destroyed the large barn on the Connolly farm, between Hogansburg and Innes, with all its contents including one hundred tons of hay, five horses, twenty pigs and a lot of new and modern farm machinery. The loss is estimated at nearly \$10,000 with insurance of \$3,000. Arthur Preshaw was the tenant of the farm.

### SERBIAN VICTORY IN CERNIA RIVER REGION

Town of Brod Has Again Been Wrested From the Enemy.

#### Hundred and Twenty-Second Royally Welcomed in Galt

Galt, Oct. 20.—Under command of Col. D. M. Grant the 122nd Battalion arrived here this afternoon from Camp Borden. Winter quarters will be provided for the men in the armories and soldiers' barracks. At the station the Queen's were met by Mayor Edwards and members of the city council, and the collegiate institute cadets formed a guard of honor. A large number of citizens were out to welcome them.

This evening at Queen's barracks the whole battalion was given a supper by the women of Galt, after which addresses were made by F. S. Scott, M.L.A., Mayor A. M. Edwards, Ald. F. S. Jarvis, Dr. Adam Thompson and D. M. Grant, O.C. 122nd.

#### Defunct Chatham Shoe Co. Invokes Moratorium Act

Chatham, Oct. 20.—Day, Ferguson & McDonald, solicitors for the liquidators of the defunct Chatham Shoe Company, it is understood, will enter an action against the city at the November sitting to have an order issued permitting the court to take certain fixtures in the building which the liquidator claims are chattels and not fixtures as embodied in a mortgage which the City of Chatham holds on the property. The court will also be asked for an order to proceed with a sale of the building under the Moratorium Act.

#### Chatham Hopes to Raise Ten Thousand for Red Cross

Chatham, Oct. 20.—There is every indication that Chatham's objective of a \$10,000 contribution to the British Red Cross will be reached. It was announced this morning that the result of the first day's canvass showed that \$900 had been contributed, which includes the \$200 donated by the city council. To be added to this were the contributions which have been made thru the local schools and also amounts collected by two committees which have been set up for the purpose. It is expected that these will be received tomorrow, when the official figures of the contributions will be made known.

#### DOMINION IRON AGAIN IS IN HEAVY DEMAND

Holders of Nova Scotia Stock Appear to Be Buying. Special to The Toronto World. Montreal, Oct. 20.—Iron today worked up to 67, which is only half a point under the high created a few weeks ago, when tremendous buying took both for local and New York accounts. The rise is that the interests in Scotia which have been talking and apparently working for a merger of the two companies, would need to buy considerable stock in the open market, in order to get a sufficient standing in the stock to warrant others joining the proposition.
