From the northern mouth of the tunnel the grade of the road is a regular and easy descent to Harlaem creek; enormous structures, almost Roman in their proportions and extent, are in progress as viaducts and bridges-the latter particularly are light and graceful, combining at the same time great strength .--The span of one of the openings-for erches they are not---is, we believe, 170 feet. THE PRÉSIDENT'S MESSAGE.

The gradual change in the public sentiment of this country towards the United States of North America has been one which it is impossible for the statesman of the present age to behold without solid approbation, or the philosopher and philanthropist without the most benevolent delight * *

* * While the growth and multiplication of ties, both commercial and personal between the two branches of the old British stock move steadily, though silently on wards, year after year, we discover periodically the fruits of that complex, continuous. and strengthening re-action, in the reception now given every six or eight months by Englishmen to the expositions made by the President to Congress of the general affairs of the Republic. It is not too much to say that each successive address of General Jackson and his predecessor to the Legislature of the United States, intended as are these documents for the whole civilized world, have not merely created a respectful sensation throughout the British Islands, but have met with a cordial and brotherly hearing, and have excited sympathies in the breasts of the people of England nearly, if not completely akin to the feelings with which considerate and upright Americans themselves are disposed to view the several topics treated of by the message of the President, where those topics embraced the inter-national commerce between the United public documents and treasures at Washing-States and other independent Powers. As ton from the torch of the incendiary in concerns England, the only question remain- these dangerous times. The President reing unadjusted between her and the Repub- commends fireproof buildings. To SMITHS .- It is said that a strong current of cold air is found to be much more valuable in hardening steel than water. which is commonly used. The manufacture of the celebrated Damascus blades is carried on only when the north wind occurs .-The colder the air and the stronger the blast, the more effectual the process of tempering, but these are proportionate to the thickness of the article to be hardened.

CURIOUS RELIC-The tomb of Offa has lately been discovered in digging a vault in the church-yard of Hemel. The coffin was al Governor, Colonel Bell, viz., that struck about four feet beneath the surface, and taken up entire. An inscription was discovered on the coffin, proving the remains to be those of Offs, the celebrated King of the Mercians, who built the Abliev of St. Albans, and who died in the eighth century. The present Queen Christina, of Spain, is one of the most remarkable of royal personages for her extreme beauty and the fascination of her manners. It is a singular fact that one of her Premiers has successively become enamoured of his Queen and Sovereign. Martinez de la Rosa, the first, wrote exquisite sonnets upon her. Mendizabal could not conceal his desperate passion; and Munoz her present major domo, reigns triumphant in her affections.

There has been much to compl in of in the conduct of two or three of the Special Magistrates, in putting employers and apprentices in a state of irritation against each other, which has, in many instances, provoked more severity towards | perienced on Friday and Saturday last, the the labourers than ever existed in slavery .--I am doing all I can to correct this evil; amongst other measures, I have set on foot enquiries towards a careful establishment of scales of labour." Having further alluded to the disputes between proprietors and labourers, and to the abolition of slavery, he made some sound and judicious observations on the necessity for a religious and moral education of the negroes. The House of Assembly, in its answer to the speech of the Governor-General, heartily responded to these beautiful septiments, expressing their peculiar anxiety that the Clergy of the Established Church might be augmented. hopes that were entertained of at least a fair catch of Seals, have been sadly blighted by the tempestuous weather with which our coast has been visited within the last ten days: our oldest and hardiest fishermen do not remember a more heavy sea than we exwind at North-east. On Saturday morning, some vessels belonging to this place, the Amy Ann of Greenspond, and a small Schooner belonging to Tilton Harbour entered our Port, which at that time was full of heavy drift ice, and from the compactness in which it was thrown together, persons were enabled to walk from the shore to the vessels, although the sea on the outer margin ran mountains high. Some of the Vessels were slightly damaged, but they have all sailed again, (one excepted.) with a fair wind and moderate weather. Early on Saturday morning the schooner Harriet. The Sentinelle des Pyrenees speaks of the preparations made by both parties for a contest, which the Queen's generals are resolved to render decisive. Espartero is causing all his troops to advance, in order to make an attempt on Duraugo, and the Iniant Don Sebastian had divided his army into two corps of 12 battalions each.

After detailing the corps which are going to act under the orders of Espartero, the Sentinelle adds-"Such a mass of effort cannot fail to change the face of affairs, if the commanders act with the resolution which animates the soldiers. The superiority of numbers is on the side of the Queen's troops, and the eyes of all Europe are fixed on the operations which are announced."

The same paper also informs that the Carlist chief, Gomez, is appointed Count of Almaden, and Lieut.-General of the armies of Don Carlos.

Vessels have sailed from Santander for Portugalette with 40,000 pair of shoes, and 12,000 uniforms, for the troops of Espartero.

The Phare de Bayonne of the 14th inst., gives no news from the environs of Bilboa. It appears that the unfavourable state of the weather has compelled both Carlists and Christinos to preserve a sort of armistice .--Brigadier Courad, who signs himself Commandant of the French auxiliary division, had issued an order of the day, in which he announces to the troops under his command, that the Spanish Government had confirmed all the appointments made by him on the 1st December. It was also stated to him that he might daily expect the arrival of funds. In order to support the claims of the Legion at Madrid, he had that morning despatched Commandant Dumesnili to the capital .-The Phare has the following :- " The mail which left madrid on the 1st inst. for Andalusia, was stopped between Madridejos and Port Lapiche, by fourteen mounted robbers. All the letters for La Mencha and the despatches of Ecija were carried off." A letter of the 9th from Callioure, in Catalonia, says says-" A peasant has brought an account that the Governor of Manresa has been shot by one of his own soldiers, and that his body was dragged through the streets."

The Sentinelle of Bayonne of the 14th inst. says-"Five Carlist officers, four of whom are English, and one Frenchman (M de Lande of Bayonne) all mounted, have just arrived at Behobia, and will be sent tomorrow to Bayonne under an escort. The reason of their desertion from the Pretenders standard is not stated."

The Brig CARCLINE, from Hamburg, (last from Dartmouth) and the Brig ELIZABETH, from Cadiz, both bound for this port, were driven by the ice on Thursday last, into Pouch Cove, where they let go their anchors, and brought up close to the rocks When their perilous situation was reported, several of the pilots and other sea-faring men were despatched from this to render, them assisthem off a little from the shore, but with the loss of their rudders. On Monday, however, it came on to blow very heavily, and both vessels were riding, bows under, with two anchors ahead, when the greater number of the crews abandoned them. On Tuesday, as there appeared to be no prospect of saving them, the Captains and remaining hands left, and had great difficulty in reaching the shore in safety. About 7 o'clock, the ELI-ZABETH parted her anchors, and drove on shore on Shoe Cove Island, where she has, in all probability, gone to pieces. The CA-ROLINE, by the last information, still held on at anchor, at some distance from the shore, present state of the market will be much felt. The Rrig MARY, from Caliz, also for this port, was in company with the above unfortunate vessels about a week ago, but having weathered Cape St. Francis, she succeeded in reaching Carbonear, with some damage.-Newfoundlander, Masch 30.

POETRY

The following graphic piece and written in 1821, but never before published.-We now present it for the amusement of our readers.

THE BOAT-RACE OF HARBOR-GRACE BETWEEN THE KNIGHTS OF THE QUILL AND KNIGHTS OF THE TAR, 4th. SEPT., 1821.

Awake my Muse, and sing the race, This day was ran in Harbor Grace :-The wind was South-the sca was still, 'The boats were fitted to their will, The match was made, the money paid, And on the Oscar's capstain laid. The Sheriff, Umpire of the race, And all the Nobs of Harbor Grace. Assembled were to see them run, (For Nobs are always fond of fan ;) And I, poor Devil, 'mongst the rest, Bet half a gallon of the best, And gain'd it too, which gives me pride To think I'm on the winning side. Come now, and see them all afloat; Five Captains in a jolly-boat, -Drysdale there was and Ford, Rivett, Curyear and Dench, all fair and fat, O. such a sight ne'er seen before, All Neptune's sons, bred to the oar : T'other, a whale-boat, mann'd with Clerks, All light, but lively hearty sparks,-First, Lampen, Challenger and Oke, And Gillam, pulling a mighty stroke, While Penny did the rudder guide As they row'd up and down the tide. All's ready now-pop, went the gun. And now begins the pleasing fun; Pull, De'il !-- pull, Dutchman !-- pull your best.

And let it be a warm contest.-"A guinea on the Clerks !" was cried ; " Done, for the Captains !" was replied : " A bottle, that the Cierks will beat !" " Done-that the Captains gain the feat !" " Upon the Tars I'll bet a crown !" "Done, for the Quills !-- come, lay it down." The Tars are even with them still, Oh! they can never beat the Quill : Such long looks and anxious faces, Are but seen at Misers' Graces-Nor did I ever see before Such sulky looks have at the oar ; And even, if I dare truth tell, It interes.ed Parson Bell. The lovely Nymphs, fair as the Morn, Sneer'd at our honest Tars with scorn : Oh, charming creatures ! be not rude, You know our Captains too, are good. And now, my boys, they're drawing near-The whale-boat's first, prepare to cheer ! The Sheriff fires another gun, The Clerks have gain'd ! the race is donc. New stakes are lifted, bets are paid, The hand is shook, and wagers led The Tars will beat the self-same Crew, If they can get a whale-boat too! To Jonathan they then applied, Who never yet a friend denied : They gave her then a coat of grease That she may row with greater ease ; The boats were ready-all was well Just as they rang the dinner-bell.-Oh, Captains ! now why did ye dine? Why did ye guzzle so much wine? No doubt, the beef was very good. And pudding also is choice food ;-But mind-the belly, when too full, Was never fit for a long pull. I must now renew my story; Clerks and Tars contend for glory, And such dispute ne'er was before; All eager waiting on the oar, To hear the Sheriff's signal gun, When up comes Downs, resolv's to run ! The signal's fic'd, and off they start; Then pitty pat goes many a heart; But Down's scarce pull'd his thirteenth stroke, When, lo! his midship oar was broke! And now the crowd begin to shout ; Downs, in a rage, turns round about-And stamps his foot-scratches his head-Cursing his fate, rows home with speed. The other two are cheek by jow, De'il take the hindmost in the row; The crystal stream, their oars divide, Hard, hord they pull, still side by side. Fresh bets are made, and doubled too. The race is doubtful to our view : At length the Clerks now shoot a-head, And now the Captains' fate we dread; The losers now begin to curse, . . The gainer's sneers still makes them worse The Clerks are thirty yards a-head, The Tars are shameful beat indeed.

This is indeed fine, noble fup. Now Jamie Fox, you're fairly caught, Come hand me out your one pound note ; And Rogerson, you need not frown, The bet is lost-so pay the crown ; Oh Bayly, ope your purse with ease, And put in three pr unds if you please; Come Lee, no more of Captains boast, For by them you've a dollar lost; A certain lady in this town, Has also gain'd a new silk gown. All bets with honor now are paid, And bets again I hear are laid. Downs, pray don't again have such conceit To think you could so easy beat; And Captains, mind ye my remaks, And have no more to do with Clerks, For they you find can pull an oar, Altho' a Quill they're used to more.

"Well done, our Clerks! my boys, well

done!
