Heavy Rain and Hail at Many Points

Tornado at Melville
MELVILLE, July 1. — A tornado visited the district between Melville and Saulteaux on Sunday evening and did considerable damage to trees and the crops. Near the Hilltop school thousands of trees were uprooted and blown across the highway for quite a distance. There was considerable hail throughout the district. Coming up from the southwest the hail seemed to sweep everything before it. Following the heavy hail, which measured from two to two and a half inches in diameter, heavy rain fell. The hail lasted nearly an hour and the streets were covered with hail stones. At the corner of Main and Second the street was all under water. The storm covered a strip from twenty to thirty miles wide. No hail fell at Fenwood but Duff district received some, mostly north of the G.T.P. lines. The damage at Duff is not considered very heavy. Reports to hand from Birmingham claim they are completely hailed out. This was the report of one farmer who stated his loss was 100 per cent.

This is the fifth severe storm this district has had in six nights. In Melville hundreds of window panes were smashed. Several plate glass windows were broken. Melville en route to Regina—the heavy rains and hail at most points along the line were most general. Little hail fell, but the rain from Melville to Gillespie must have been a cloudburst, for field after field of grain is under water, all sloughs are filled and roads impassable. Between Fort Qu'Appelle and Regina nearly 200 people were picked up at the stations along the line. Most of them left their autos along the roadside after becoming stuck.

Hail at Wolseley
WOLSELEY, July 2. — About eleven o'clock July 1, a terrific hail storm swept over the country immediately north of Wolseley, cleaning up some farms completely and others in part.

When the Storm Hit Portal
NORTH PORTAL, July 1. — A severe wind and rainstorm struck here at eleven o'clock Sunday night. The brick wall of the third story of the J. S. Upper residence was blown in, the roof of A. Glosner's barn carried away and part of the roof of E. Hanson's barn. Many chimneys were demolished and tops of several freight cars torn off. L. Welscher's barn and stable on the Dakota side of the line were scattered over the prairie for a mile. Rain fell for an hour and this will benefit the crops considerably, as they were in a critical state.

Windthorst Damaged
A young cyclone struck Windthorst on Sunday night, demolishing the skating rink and several stables. No houses were smashed, and no one was hurt. Much glass was put out of commission. The British American elevator and coal sheds at Dalzell were struck by lightning and burned down. Many families made for the cellar and found it discreet to remain there for an hour or two. North of Windthorst the wheat prospects are favorable, and rains of Saturday and Sunday nights will make them even better. South of the town, the farmers have not such good fortune this year.

Storms In North
GUERNSEY, July 2. — Buildings were wrecked and telephone lines torn down during a violent storm which raged in this district Friday night and Saturday morning. A large pool room, half a dozen garages, an implement shed and the curling rink were almost completely destroyed. Four elevators were damaged as well as various business houses and several residences. A shack was picked up by the wind and carried for some distance and finally landed upside down, but the occupants suffered only from bruises and shock.

Reports from Plunkett, Lanigan, Colonsay, Elstow, Drake and other adjoining towns, tell of similar damage.

Storm Hit Milestone
For three quarters of an hour, a storm that was almost a cyclone, struck here.

German Government Appeals to People for Their Loyalty

LONDON.—President Ebert, Herr Bauer and all the executives have issued a proclamation to the German people, according to a wireless message from Berlin, announcing the conclusion of the peace and urging as the first pressing need the bending of all efforts to its fulfillment.

"As far as it is possible to carry it out," says the proclamation, "it declares faithful loyalty to those threatened with separation from the empire and promises intercede in their behalf, as it would intercede for ourselves."

It concludes by exhorting the people to realize the need of work and faithfulness to duty for the redemption of the country.

Senat Insists on Prohibition Amendment

Conference With Commons Fails to Reach An Agreement on Duration of Dry Period

OTTAWA, July 6. — The Senate has voted today the motion of Sir James Lougheed, government leader, that they do not insist on their amendment on the prohibition bill, by a majority of seven, the vote standing 30 to 23.

In the senate Saturday afternoon, Sir James Lougheed stated that the members of the senate had met representatives of the commons in conference upon amendments to the prohibition bill, made by the senate, which the commons declined to accept.

He stated that the representatives of the two houses had failed to agree upon any of the three proposals which were made. One of these came from the senate representatives and two from the commons members.

Fighting not Altogether at an End

Polish Forces Claim Successes On Big Front

PARIS, July 2.—The Polish forces on Saturday started a counter-offensive along the whole Galician-Volhynian front. The Poles claim that they have everywhere broken through the Ukrainian forces and that the Lemberg-Halicz-Stanislaus railway line is again in Polish hands. The enemy suffered severe casualties, 3,000 prisoners, 30 machine-guns and huge stores being captured.

It seems that the Ukrainians were everywhere taken by surprise and gave way at all points. The Poles captured Brody, Pluehow, Pomorzany and Brzezany, taking 1,000 additional prisoners and much booty. Crowds of Ukrainian prisoners are arriving at Lemberg and the population of the evacuated regions are returning. Bolshevick forces began an attack on the Polish front Sunday, but were everywhere repulsed.

LONDON, July 3. — The Ukrainians, after a sanguinary battle, have occupied Odessa, according to a Berlin wireless message.

Two Children Burned To Death

MINNIE IVY BOLLAND, aged two years, and Walter Arthur Bolland, aged four months, the children of Mr. and Mrs. Bolland of the Riverhurst district were burned to death last week when a coal oil stove set fire to the house. A lengthy report of the tragedy has been received by the provincial police here which states that after an exhaustive enquiry, the coroner decided that an inquest would be unnecessary. The statement of Mrs. Bolland, however, contains some information which may result in ascertaining what she alleges to have been a murder committed in 1912.

Boy Drowns in Effort to Save His Father's Life

EDWIN UTTER CRUISE, a 13-year old lad of Milder, Sask., died Saturday, in a heroic effort to save the life of his father. The father, with Edwin and Herbert, a young brother, aged ten years, had gone to a swimming pool for a bath. The father and Herbert went out in a boat and when a short distance from shore but in deep water, the father jumped from the boat. He went down and on coming up yelled to Edwin who was on shore to get a rope as he was drowning. Herbert, with the boat had drifted away in the meantime and the father thought it would be impossible to get to the boat. Edwin got the rope and went into the water, reaching a point about ten feet from his father when he sank. Herbert in the meantime managed to bring the boat near his father who grabbed it and upset, throwing Herbert into the water. The father and Herbert managed to grab the boat and reached shore about three minutes later. In the meantime Edwin had gone down for the third time, and all efforts to locate him were fruitless. Neighbors came within twenty minutes and three hours later brought up the body of the boy.

WASHINGTON. — Without a vote, the senate has adopted committee amendments to the army appropriation providing for an army of 400,000 men for the year beginning July 1.

The bill passed by the house provides for an army of 300,000 and Secretary Baker had recommended that the total be placed at 500,000 officers and men.

French And U. S. Marines Clash

BREST, France. — As a result of a brawl between American and French marines, in which several Frenchmen were wounded, the streets of Brest were placed under military control. French civilians joined in the fight and stoned and hit many Americans. Hotels inhabited by Americans were besieged. Military police fired their revolvers into the air as a means of clearing up the streets.

Charged With Murder

As a result of the inquest into the death of Paul Hocharek at Blaine Lake, and the evidence adduced during the inquest, a warrant charging a man named Hollet with the murder of Hocharek has been taken out. Hollet arrested and he will face a preliminary hearing this week.

Hocharek, a prosperous farmer of the Petrofka district, was found dead last November on the highway about eighteen miles south of Blaine Lake. Investigations at the time led the authorities to believe that an accident had caused Hocharek's death.

More Protection For Girlhood By New Bill Passed

Government Measure Makes Offences Against Women More Costly to All

OTTAWA.—The government measure from the commons, amending the criminal code, in respect to sexual offences, was endorsed by the senate.

Senator Robertson stated that the amendments to the criminal code raised the age of consent from 14 to 16 years in the case of all girls; that in the case of girls previously chaste, the age of consent is raised to 18 years, and to 21 years in the case of a woman employee and her employer, the penalty being two years. Six months' imprisonment or five hundred dollars fine is provided for unmarried persons, registering as man and wife at hotels.

Divorce Rights Are Affirmed To Provinces

LONDON, July 3. — The privy council this morning dismissed the three appeals in the cases of Walker vs. Walker and Board vs. Board.

The imperial privy council thus affirmed the rights of Manitoba, Alberta and Saskatchewan to establish divorce courts and make decisions. Alberta joined with Manitoba in testing the constitutionality of this claim and the privy council gave the same judgment in the western case of Board vs. Board as in the Walker case. Saskatchewan did not participate in the privy council proceedings, but is affected by the judgment owing to similarity of constitution with the other prairie provinces.

Boy Drowned in Hole in a Ditch

The death of John Calvin Tallon, of Gravelbourg, occurred last week under very sad circumstances. The little fellow, aged three years, had accompanied his father, who was filling a deep hole in a ditch south of Twelve Mile Creek. The father had approached the hole with a load of stone rocks when the bank gave away, throwing the father and boy into the water. After a desperate struggle, the father managed to crawl out and began to look for his little son. He was nowhere to be seen and the father called on a farmer for assistance. They went back to the ditch and dragged the ditch finally bringing up the boy.

Crown Prince Defiant

AMSTERDAM, July 6. — "The allies can only have my dead body; I will myself decide on my life or death," the former German crown prince is quoted as having said Friday, in discussing a possible demand for his extradition.

This statement, reported by the British intelligence office, is said to have been made by him to a Dutch official who talks daily with the former crown prince.

It is stated that the death penalty is not sought for the Hohenzollerns but that it is the intention to bring them to London for trial and if found guilty to banish them for life to a remote island.

Heavy Earthquake in Italy

BORGOSAN LORENZO, Italy, July 4. — This city, wrecked by earthquake on Sunday, resembles a town in the devastated districts of France after an artillery bombardment. The cathedral is in ruins. Hundreds of homes and shops have been shaken down. Some of these, still habitable, after the major shocks, fell down during later earth tremors.

Many of the population are living in tents. Military authorities have been unable to induce the bakers and the shopkeepers to return to their places. In the baker shops many of the ovens were cracked by the earthquake. Hardly a house was undamaged. There appears to be little acute suffering but there is a great demand for clothing and food which are in charge of the military authorities. The local administration and businesses are disorganized and the inhabitants are giving free reign to the military authorities who are distributing relief. The United States supply truck reached here Monday morning.

Riots of Revolutionary Character in Italy

ROME, Italy. — Serious disorders marked anti-government demonstrations in Rome one evening of last week. The demonstrators attempted to reach the residence of Premier Nitfi, but were driven back by large forces of military police. Order finally was restored after midnight. Prior to the demonstration a largely attended mass meeting was held at the Augusteum. Patriotic and inflammatory addresses were delivered. Gabriel d'Annunzio was present and made a speech, apparently adding to the excitement of the audience which left the hall and began the demonstrations.

FORTI Italy, July 2. — After a great meeting here yesterday, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices. Soon the fury of the mob made no distinction and had no limits. All the principal shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the Chamber of Labor.

On the walls of the chamber, they wrote: "These goods are at the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property.

The value of the goods stored by the municipality was estimated at 8,000,000 lire.

The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of Socialists and Republicans, and they ordered that the shops be reopened and the goods sold for half price under the supervision of representatives of the demonstrating masses.

ROME, Italy, July 4. — Four persons were killed today when troops fired on a crowd at Imola, twenty-two miles from Bologna, as a result of demonstrations against the high cost of living.

Newspaper dispatches received here report the agitation to be particularly strong at Bologna, Ravenna, Florence and Forl.

FLORENCE, Italy, July 4. Noise of fighting in the outskirts of the city have increased the alarm caused by cost of living disorders here. The red flag has been hoisted in many places here and elsewhere in the Romagna district by what are termed local soviets.

FLORENCE, Italy, July 5. — One person was killed and seven were injured late today in a renewal of yesterday's rioting over the high cost of living. There has been much firing by the carabinieri detailed to keep order.

Mobs again have become violent and the ransacking of shops has been resumed. All workers are idle under a general strike order. During the day arms of all kinds have been distributed to people under the supervision of the mayor and the military command.

All commodities have been reduced from 50 to 70 per cent.

ROME, July 5. — Shopkeepers here, learning that the riots in the Romagna district were spreading, decided to lower their prices fifty per cent. without waiting to be forced to do so by mob violence.

Despite this apparent return to order in the riotous moment, the losses are enormous, owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

BERLIN, July 2.—Field-Marshal von Hindenburg, who resigned as chief of the general staff June 20, is reported to have told students from Göttingen who called on him that "if our foes want to stand on an old man like me, who has but alone his duty, up against a wall, they may have me. They would only load another disgrace upon themselves." This incident occurred at military headquarters at Kolberg, Pomerania.
 General von Seecki, it is announced, has been appointed the new chief of the general staff. Major-General B. von Winterfeldt, former member of the armistice commission, and Major-General von Weisberg, who represented the war ministry in the old reichstag, have resigned from the general staff.

DREW GASOLINE FOR WATER IN WASH BOILER

A conflagration ensued which burned down the house and inflicted such terrible burns on Miss Mason that she died within 24 hours.  The man's confession which was received by Inspector C. M. Smith at provincial police headquarters, is brief. NORTH ONTARIO MENACED BY SERIOUS BUSH FIRES

ENGLEHART, Ont.—In the continued absence of rain, a serious situation is fast developing from bush fires throughout the territory north from this place to Godfrane and along the Transcontinental railway.
 The bush is burning vigorously in many places and a heavy pall of smoke hangs in the sky.
 The most serious damage, according to reports received here, has been done in the district from Port-Judith, north and west, and at Porter, some seventeen miles out of Godfrane, the section house, other buildings, and 10,000 cords of pulpywood having been destroyed.
 Settlers are being urged to leave their homes in some parts, and there are conflicting reports of serious damage along the T. C. R. east from Godfrane. No lives have been lost so far as is known here.

QUEBEC JAILS CROWDED WITH DRIFT EVADERS

QUÉBEC.—One hundred drift evaders are now crowding Quebec jails because the cannot afford to meet the fine of \$250 imposed on them by law. Only a bareh of eleven young men from Portneuf County, who had not reported for service when their draft number was called appeared in the police court here before Magistrate (Senator) Champette on one day who fined them \$250 or one month in jail. All went to jail, being unable to pay the fine.
 The result, according to Farming Centre officials, is that farm hands are getting scarce in a number of communities and that crops are in real danger.

NEW YORK.—Fire at the south ferry terminal of the city's elevated structure destroyed one train and part of another. Both trains were carrying passengers. OUR ORGANISED GRAIN GROWERS

MUSSELMAN ON POLICIES OF OLD FEDERAL PARTIES

PRINCE ALBERT.—"One of the two so-called grand old political parties has been a high protectionist party and the other a higher protectionist party," said General Secretary J. B. Musselman, of the Saskatchewan Grain Growers, in his opening address at the convention of supporters of the farmers' platform in Prince Albert constituency. Mr. Musselman went on to say that even if the convention of the Dominion Liberals' party produced a party platform, with low tariff planks in it, the people of the West might not unreasonably be somewhat doubtful about the reliability of such planks as things to be trusted and hopefully relied upon. This remark by Mr. Musselman, brought on the first demonstration from the convention in favor of independent political action in support of the principles and policies of the farmers' platform. Mr. Musselman said that there could be no justification of a class party. The only political party for which there could be any justification, was one which based itself solidly on the principle of justice and equal rights for all and special privilege to none.
 The convention adopted the following resolution by a unanimous vote: "Resolved, that this convention expresses hereby its appreciation of the action of our present member, Mr. Andrew Knox, M. P., in endeavoring to secure a greater reduction in the import tariff than that provided for in the budget as adopted."

TERRIBLE SUFFERING OF LABRADOR ESQUIMAUX

ST. JOHN'S, Nfld., July 8.—Details of the horrors made by influenza among inhabitants of Esquimaux settlements in Labrador last winter, and the difficulty of disposing of the dead, are furnished in reports from northern missionaries received by the colonial secretary. They tell a story of depopulation referred to as "another step toward the end of Labrador Esquimaux," and of terrible conditions in the wake of the plague.
 Bishop Martin, of the Moravian missions, writing from Heberton, said that all of the 100 Esquimaux in that settlement became ill; and in a week eighty-six died, leaving only eight children, five women and one man.
 "In the mission house," he continued, "we all have been sick, too, but not so severely as the Esquimaux. At the beginning of the epidemic, the bodies were put in our small dead house, but that was soon filled up, and as there was nobody strong enough to remove the dead from the houses, most of the Esquimaux huts were filled with bodies. The fourteen survivors found refuge together in our house.
 "For five or six weeks, we were unable to do anything in regard to the bodies, we were so few, and too weak to do any hard work. Our situation was awful. Some men who survived came from Saglik to help us clean the houses and the station.
 "After all the inhabitants of some huts died, dogs broke into the huts and ate some of the bodies. When they had done so, they got very vicious and dangerous. We killed the dogs at the station (about one hundred) but could not destroy them all. Therefore, the dogs and the graves had to be watched day and night.
 "After much deliberation, we decided to bury the bodies in the sea. By sledge we carried the bodies on the ice to very deep water, made a hole in the ice and buried them there."
 Reporting that seventy of the 329 inhabitants of the district of Sandwich Bay were victims of the plague, Rev. Henry Gordon gave a similar account of sufferings. He said the orphans had been distributed among the different settlements.

FREED PRISONERS ATTACK GOVERNMENT

WEIMAR.—Fifty Spartans and communist prisoners, recently released from the Weimar jail, shortly after midnight on June 18 attacked the castle where the members of the government live. They were repulsed by a lone guard, who stood by a machine gun until he had driven off the mob.

WOULD RE-ESTABLISH MONARCHY
LONDON, July 5. — The German Conservative party have issued a proclamation signed by Ernst Von Heydebrand, the party's leader in the reichstag, stating that the party declares war on the government and intends to use its whole strength to re-establish the monarchy, according to a Copenhagen despatch to the Exchange Telegraph company.

(41. Instalment.)
Mr. Deane paused and looked hard at Tom, who certainly felt some inward struggle before he could reply—
"I would rather do what will be best for me in the end, sir: I would put up with what was disagreeable."
"That's well, if you can carry it out." But you must remember it isn't only laying hold of a rope—you must go on pulling. It's the mistake you had made that have got nothing either in your brains or your pocket, to think you've got a better start in the world if you stick yourself in a place where you can keep your coats clean, and have the shop-witches take you for fine gentlemen. That wasn't the way I started, young man: when I was sixteen; my jacket smelt of tar, and I wasn't afraid of handling cheese. That's the reason I can wear good broadcloth now, and have my legs under the same table with the heads of the firms in St. Ogg's."

the present was very hard. It seemed a wrong towards him that his uncle Deane had no confidence in him—did not see at once that he should acquit himself well, which Tom himself was as certain of as of the daylight. Apparently he, Tom Tulliver, was likely to be held of small account in the world, and for the first time he felt a sinking of heart under the sense that he really was very ignorant, and could do very little. Who was that enviable young man that could tell the cubic contents of things in no time, and make suggestions about Swedish bark? Swedish bark! Swedish bark! Tom had been used to be so entirely satisfied with himself in spite of his breaking down in a demonstration, and constraining *sine illas pro-mite vires*, as "now pronounce those men"; but now he suddenly felt at a disadvantage, because he knew less than someone else knew. There must be a world of things connected with that Swedish bark, which, if he only knew them, might have helped him to get on. It would have been much easier to make a figure with a spirited horse and a new saddle.

Two hours ago, as Tom was walking to St. Ogg's, he saw the distant future before him, as he might have seen a tempting stretch of smooth, sandy beach beyond a belt of flinty shingles; he was on the grassy bank then, and thought the shingles might soon be passed. But now his feet were on the sharp stones, the belt of shingles had widened, and the stretch of sand had dwindled into narrowness.

"What did my uncle Deane say, Tom?" said Maggie, putting her arm through Tom's, as he might have seen a tempting stretch of smooth, sandy beach beyond a belt of flinty shingles; he was on the grassy bank then, and thought the shingles might soon be passed. But now his feet were on the sharp stones, the belt of shingles had widened, and the stretch of sand had dwindled into narrowness.

"No, he didn't say that. He didn't quite promise me anything. He seemed to think I couldn't have a very good situation. I'm too young."

"But didn't he speak kindly, Tom?"

"Kindly? Poo! what's the use of talking about that? I wouldn't care about his speaking kindly, if I could get a situation. But it's such a nuisance and bother—I've been at school all this while learning Latin and things—not a bit of good to me—and now my uncle says, I must set about learning book-keeping and calculation, and those things. He seems to make out I'm good for nothing."

Tom's mouth twitched with a bitter expression as he looked at the fire.

"Oh, what a pity we haven't got Dominie Sampson!" said Maggie, who couldn't help mingling some gaiety with their sadness. "If he had taught me book-keeping by double entry and after the Italian method, as he did Luca Bertram, I could teach you, Tom."

The highway bill, which many members of the house thought would go over till the autumn session, was put through committee stage and given third reading on Wednesday.

The bill did not go through without a fight, two of the chief opponents of the measure being Dr. Michael Clark, Red Deer, and A. L. Davidson, of Annapolis, assistant chief government whip.

Discussions of the bill to create a board of commerce occupied the house during the greater part of the evening session on July 3.

The bill was given a first reading on the 21st, and a second on the 22nd.

The naturalized aliens it would seem, will be given back the vote nominally—but, whereas other women would be allowed to vote, the son, wife or daughter of a naturalized subject is prevented from doing so.

Sir Robert Borden, in moving the second reading of the bill, made the statement that the War Time Elections act will cease to be operative after August 1.

There was considerable opposition to the bill, more particularly to a clause limiting the franchise of women, it being proposed to exclude women who claimed naturalization other than personal naturalization.

Dr. Clark, Red Deer, and J. A. Maharg, Maple Creek, were among the members who objected to this proposal, the former describing it as "paltry."

Sir Robert Borden explained that the clause was designed to cover cases where alien women came to Canada and within a few

weeks acquired nationalization by marriage. At the evening sitting he moved an amendment, making naturalization permissible if, in the opinion of a judge, a certificate should be issued.
