THE LONG SESSION IS AT LAST BROUGHT TO A CLOSE

House Prorogued Today at Noon—Very Slim Attendance and Only a Small Number of Visitors Were Present—The Governor General at Quebec

OTTAWA, July 20.—The fourth and in all probability the last session of the tenth parliament of Canada was prorogued at noon today by Sir Charles Fitzpatrick, the deputy to the Governor General, the latter being absent in Quebec in connection with the Tercentenary celebration. The final passing of the long drawn out session of eight months, less one week, was marked by the absence of the members of parliament from the session, owing to the prorogation ceremonies, owing to the fact that most of the capital's citizens are out of town for the summer holiday season and the exodus of the great majority of the members of parliament on Saturday combined to

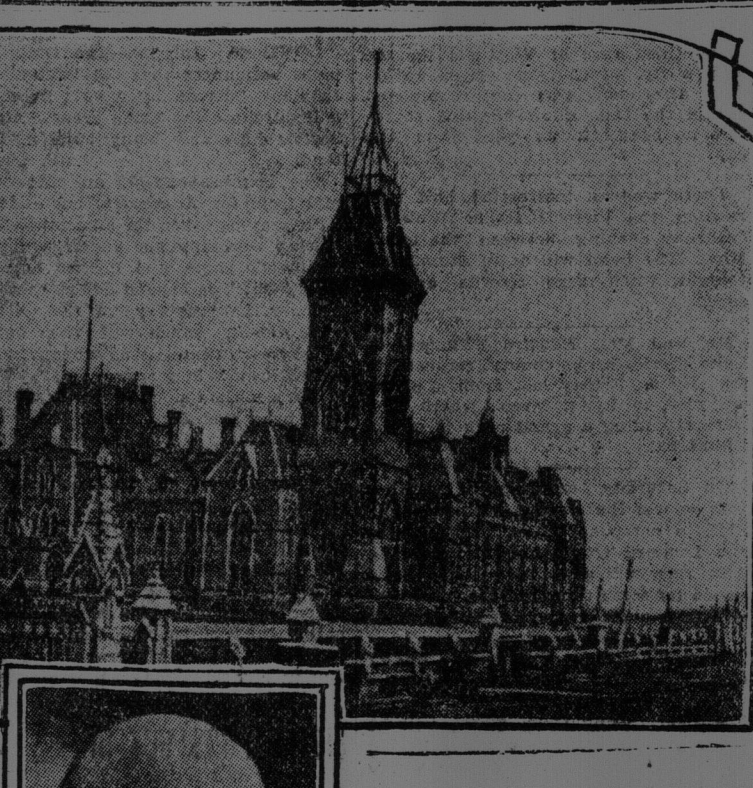

TABRIZ IN THE HANDS OF THE REVOLUTIONARY PARTY

Royalists are Being Butchered in the Streets—Shah is Rushing Reinforcements—Russian Minister's Efforts to Restore Peace Not Very Successful

LONDON, July 20.—A late despatch to the Times from Tabriz, dated July 19, says: "The town is now entirely in the hands of the revolutionaries with the exception of one quarter. The withdrawal of Ramin Khan's horsemen from the occupation of the town is heralded as the failure of the Shah's endeavor to assert Royalist supremacy, the Royal infantry regiment sent from Teheran to this place to restore order, left their rifles and uniforms here today and departed en-masse to their homes. Ramin Khan's chief executioner was done to death yesterday in the public streets.

The leaders of the people assembled Saturday in conclave in the Mosque and determined to attack the Alajitid and Royalist quarters and drive out the clerical influence by force, but the Russian consul intervened and promised to telegraph to the Shah and obtain amnesty and orders to disperse the Mullah's assembly. No answer being received the fighting ran high. The consul was charged with duplicity and proclamations were posted calling upon the people to act on their own initiative. Later in the day it was reported the Shah had replied to the Nationalists have been victorious in Tabriz and that Ramin Khan has fled from that city. The Shah is hurrying reinforcements with orders to destroy the Nationalists at all costs.

TWO MURDERERS WERE ELECTROCUTED

Double Execution in Sing Sing Today

Charles Rogers and Angelo Laudiero Went to the Chair in Expiation of Their Crimes.

OSWINGO, N. Y., July 20.—Charles H. Rogers and Angelo Laudiero were electrocuted in Sing Sing prison early today. Two contacts were given in each case before death resulted. Rogers was the first taken to the chair. His execution at 2:54 a. m. was without special incident. In the case of Laudiero a bright flame from the electrodes at his head was noticed after the first contact and an odor of burning hair pervaded the room immediately after Rogers' spiritual comforter was Chaplain Jones. Laudiero was accompanied by Fathers Mahoney and Benedict. Laudiero's execution occurred at 3:20 a. m. The crimes for which Rogers today paid the penalty were the killing of Willy and Frederick Olney, brothers, at their farm house near Middletown, N. Y., October 4, 1905, and soon after the murder of Alice Ingerick, daughter of Mrs. Georgian Ingerick, the house keeper, whom he also assaulted and left apparently dead. His object was robbery. Rogers escaped, but a year later was arrested in Los Angeles, Cal. Laudiero was electrocuted for the murder of Michael De Cimbro, New York, Dec. 10, 1908, following an old feud.

RUMOR OF SERIOUS DROWNING ACCIDENT

Min Says He Saw Three Girls and a Man Drown in a Squall—Boat Washed Ashore.

NEW BEDFORD, Mass., July 19.—A telephone message was received in this city tonight from a New Bedford business man, who is stopping near Wild Harbor on the opposite shore of Buzzards Bay, that three girls and a man were drowned by the upsetting of a boat in which the party were sailing to Wild Harbor. The names of the people drowned were not known. The man said he was sailing within a mile of the scene in his boat when he witnessed the accident. With half a dozen other boats in the vicinity, he tried to reach the scene, but a strong wind made it impossible to work the boats near enough to the upset boat to rescue any of the capsize party. The boat was later washed ashore near Nye's Neck, within a mile and a half of the upset boat.

WILL ESTABLISH NEW STEAMSHIP LINES

Prince Hohenlohe to Work up Company Which Will Compete with the Hamburg-American.

BERLIN, July 20.—Prince Christian Ernst zu Hohenlohe-Oehringen, who has a large interest in the Deutch-Lavante Steamship Co., of Hamburg, is preparing, according to the Kielner Journal, to found a system of great shipping lines in opposition to the Hamburg American Line. Prince Egon Fürstenberg, who may properly be described as the emperor's most intimate friend since the downfall of Prince zu Eulenburg from favor, has prepared the Journal affirms, to become a heavy stockholder in the new enterprise.

In a four column article written in a spirit of opposition to the project, Herr Ballin, director general of the Hamburg American Line, affirms that Prince zu Hohenlohe-Oehringen will presently announce the company's plan for competing with Lloyds and the Hamburg-American Line for American and other trade.

Prince zu Hohenlohe-Oehringen at a meeting of the Lavante Company stockholders, June 30 last, defeated Herr Ballin for re-election to the chairmanship of the company, which it was reported at the time needed a loan of \$150,000. Herr Ballin had arranged the loan, but the arrangements fell through on his being defeated for the chairmanship and Prince Hohenlohe thereupon advanced \$250,000 to the company on the same rate of interest granted by the German Imperial Bank.

The amount thus hazarded was variously estimated. A cable to one very prominent insurance firm placed the aggregate at \$250,000. This was the minimum estimate. The maximum, including offers not yet accepted, was \$1,500,000.

PEKIN, July 20.—The Chinese government has decided to appoint Lang-Shan-Yi governor of Manchou province and former president of the Board of Foreign Affairs as high commissioner to visit Washington for the purpose of thinking the United States government for remitting a portion of what is known as "Chinese Boxer" indemnity.

LLOYDS NOW INSURES MERCHANTS AGAINST ELECTION OF BRYAN

Issues Policies for Business Men; Betters Take Many

NEW YORK, July 20.—British Lloyds is insuring against the election of Bryan. Under the new anti-betting law in this state betting on an election may be visited with dire punishment, but London Lloyds will write policies against the election of Bryan. Just as in many cases these vapour-room brokers have written policies against the birth of twins, and in at least one recent case, have insured against a man's molesting his mother-in-law. The policy in the form sometimes loosely described as a "bribe" or "home" policy, and while it may not be entirely legal at law, the standing of the Lloyds brokers gives the bettor, or "insured," ample protection against any wakening on the part of the broker.

Taking of such policies in large numbers today virtually opened the betting on the presidential election of this year. In the morning the premium, or odds, was 8-12 to 1 against Bryan. At the close the odds went down to 5-1 to 1 against.

The new method of election betting over its origin to a manufacturer who felt very confident of a sharp revival of business following the election of Bryan. He was anxious to run his plant at full capacity in the months preceding the election if only he could protect himself against the contingency of Bryan's success.

In this predicament the manufacturer went to a prominent firm of insurance brokers in this city and asked them for a policy insuring his business against Bryan's election. They called Lloyds for terms, and received off-hand a quotation of 20 per cent, which is equal to odds of about 4 to 1 against Bryan's election.

The manufacturer considered the rate too high, and today, after reflection, Lloyds' brokers offered to write the policy at 10-12 per cent. The offer was accepted, and insurance to the amount of more than \$100,000 taken at the quotation named. The manufacturer will put all hands to work immediately.

Wall street brokers and stock market operators, hearing of the policy taken by the manufacturer, applied for policies in large numbers this afternoon. Some of them wanted the policies as a hedge on purchases of stock, fearing a break in the stock market in the event of Bryan's election.

Others considered the odds inviting at this uncertain stage of the campaign and took policies as a pure wager, either for the reason that it was a good long-shance speculation, or in the expectation of holding profitably on later campaign betting.

The ten-year-old son of Patrick J. Floyd, 26 Carmarthen street, fell from the wharf at Reed's Point on Saturday afternoon and would have been drowned but for the heroic rescue of Frank O'Leary, who reached the boy when he had disappeared the third time. On Saturday afternoon Benjamin Flah, who resides at 46 Erin street, was suddenly seized with convulsions at the corner of King and Canterbury streets. Louis Watson, fireman at the gas house, was standing on the roof of one of the buildings in the works at two o'clock this morning watching the fire on the Westmorland road, when he fell off the roof to the ground, breaking his leg. The ambulance responded to a call and conveyed the injured man to his home on Durham street, where Dr. McIntyre attended him.

About 8:30 last evening a tie-up of the street car took place at the foot of King street. While car 41 was coming down Dock street to the foot of King street the fuse blew out, which stopped the hind motor. The car could not be moved and soon seven were blocked. The tie-up continued for some time. Several fuses were put in, but to no effect. Finally the car was moved in order to allow the others to pass. Afterwards it was towed back to the shed on Main street.

A fire was discovered shortly before two o'clock this morning in a barn owned by Rev. James Ross, on the Westmorland road. The origin of the fire is unknown, but it is thought it may have been set or that some person dropped a match and thus kindled a flame. The fire burned with great fury, and the barn was soon a total loss. In the barn were many tons of hay, which Mr. Ross had sold to George Anthony of Red Head. The latter has been removing the hay to his own place. It is understood that insurance is carried. The fire caused a big reflection and some thought the pottery was ablaze. Mr. Ross has been greatly troubled of late by persons lying in the barn.

BRITAIN TO GET BRAZIL'S THREE DREADNAUGHTS London Daily Express Announces That England Will Buy Ships

LONDON, July 20.—The Daily Express announces that the British Government has taken a certain step which will purchase the three great Brazilian battle ships now being built in England. The Express expects an official denial from the Admiralty, but adds: "It may be taken for a certainty that neither Germany nor Japan will have the battle ships, and if they are sold at all, which is beyond doubt, they will become the property of the British government, which will thus be enabled to maintain its naval supremacy, which is now in jeopardy. "Two million pounds per head is a long price even for ships of the Dreadnaught class, but the government is in a very short time we shall see it looking 'pound foolish'."

Mr. and Mrs. Edward Fillmore of Lake Umbagog, returned to the city on Friday last from a pleasant visit to Lynn, Mass., where they were attending a grand reunion of the Fillmores. POWER BOAT RACE. NEW ROCHELLE, N. Y., July 19.—S. W. Granbery's power yacht Irene II, the boat that won second prize in the ocean race to Bermuda, was the first to cross the finish line today in the 270 mile race from Marblehead to New Rochelle. She completed the course in 32 hours, 33 minutes, having started from Marblehead at 10 minutes past ten on Saturday morning with eleven other boats. Her allowance is 2 hours, 33 minutes, 49 seconds, thus making her corrected time thirty hours, thirty minutes, twenty seconds. The Picaron, owned by T. Bayliss, the winner of last year's race, finished 32 minutes after the Irene II, and she is the probable winner, for she has an allowance of 4 hours, 31 minutes, 10 seconds, making her corrected time 28 hours, 43 minutes, 40 seconds. This would defeat the Irene II by one hour, 19 minutes, 30 seconds. STRAYED AND DIED. BANGOR, Me., July 19.—The dead body of C. L. Cole, an aged resident of Stetson, was found in the woods in that town Saturday afternoon. Mr. Cole has been missing from home ten days. He was totally blind and it is supposed that he started out to take a short walk without his accustomed attendant. He served in the Civil War as a private in Company B, 18th Maine Infantry, and for some years was a constable in the town of Newport. FALSITY. A white lie is seldom as immaculate as it sounds.

ST. JOHN SOLDIER KILLED EN ROUTE TO QUEBEC

MONCTON, July 19.—From the special train bearing the New Brunswick soldiers for Quebec, a private soldier, St. John, was killed on a stretcher on the train, and his body was taken to Moncton on a special train, until he quietly passed away this evening. On a neighboring cot lay Sgt. Murray of St. John of a company of the same regiment, who in a muffled fall from the train, but although on a stretcher and with a severe cut on the forehead and a general shaking up.

Injuries attended to by the medical corps surgeon. They were then brought to Moncton, five members of the bear corps attending them, and taken to the hospital. So far as could be learned there was a good deal of boisterousness on the train, but it is said that Urquhart was not drinking. The soldiers are very reticent in speaking about the matter, and Sgt. Murray, still dazed from the fall and his close call with death, has but a hazy recollection of the incidents surrounding it. Urquhart's body will be taken to St. John.

Through A Cut The train was speeding through a cut near Harcourt at thirty miles an hour when the ill-fated Urquhart fell from the train. The circumstances surrounding the accident are not altogether clear. When seen in the hospital by a Sun reporter, Sgt. Murray said, "I don't want to be disturbed at that hour, so some of our boys got up and went to Alward's assistance. There was a little scuffle in the doorway of the car, and after that I don't know what happened except that I felt myself falling and took hold of the rail and then slipped off. A PERSONAL STUDY OF THE KHEDIVÉ.

From the personal as well as the political point of view the Khedive is an interesting study. A man of medium height and solid build, with a handsome, intelligent face, a bright eye, and a manner capable of reserve, and vivacity - this is the modern Pharaoh who rules Egypt nominally as the representative of the Sultan and practically as the greatest of Great Britain.

Abbas II. is endowed by nature to fit this delicate position. His talents are great and his country from bankruptcy, and his country from bankruptcy, and his country from bankruptcy.

CONFLICT WITH LORD CROMER. To his credit be it said, Abbas II. did not hesitate to attack strong men. Having tried a fall with Lord Cromer, he next tackled Lord Kitchener, and spread amazement and consternation through Lower and Upper Egypt by publicly repudiating the ultimatum of the "inefficiency" of the Egyptian government.

Abbas II. may not rule Egypt, but he is a man of considerable influence. In the day of his father's very official - however humble - claims the right of audience in the palace, he determined to abate this privilege.

A DIFFICULT POSITION. Having regard to his youth and inexperience, to his natural eagerness to rule, and to the difficulty he must have had in understanding the real position in Egypt, the wonder is that these early years were free from diplomatic accidents.

AN INTERESTING ACTION.

A most interesting action for criminal libel is now before the courts in Philadelphia. The North American, an enterprising newspaper of that city, has for some time past been criticising the policy and conduct of Mayor Reubyn. There are a number of very clever cartoon artists on the staff of the paper, and these along with certain special writers have frequently intimated that Mr. Reubyn is cognizant of, but allows to pass without interference, illegal acts in departments directly under his control. He has been charged by the paper with negligence and with permitting graft in the police and public works departments of the city government. Mayor Reubyn had warrants issued, charging criminal libel against three writers and four artists of the North American. That paper promptly responded by repeating in very distinct type the worst of all those things which it had previously said about him and by reproducing all the cartoons upon which he bases his charge. Not only that, but nearly every day since the writs were issued two pages of the North American have been devoted to these cartoons, and accompanying them are particulars of all that, in the opinion of the paper, the mayor has failed to do, together with a running account of the proceedings of the day in the libel suit. Mayor Reubyn objects to newspaper criticism, but since commencing this action, all his shortcomings have been more prominently placed before the public than if he had permitted the ordinary criticism to pass unnoted during the whole of his term of office. The truth or otherwise of the statements made must be left for proof before the courts, but the North American, although slightly inclined to sensationalism, is on the whole, reliable in its news. This was the paper which single handedly denounced the grafters and forced the State Government of Pennsylvania to take action against those contractors and officials who, during the construction of the new Capitol building, had robbed the treasury of many millions of dollars. Libel actions which were started against the paper at that time, by the persons involved, were very quickly dropped, and instead of the artists and writers being punished, the complainants in this case were sentenced to terms of imprisonment. Mayor Reubyn may find that he has made a mistake in attacking the North American.

ROBERTS IN CANADA.

Fortunately, Earl Roberts has never been called to Canada in his official capacity, as a general of the Imperial forces. In his long career as an army officer he has visited many other portions of the Empire and has conducted successful campaigns against the enemies of the throne. In the present age when there are so many able men in the world, an individual must be possessed of very exceptional qualifications in order that he may be regarded as a great man. One hundred years ago Wellington was hailed as a martial wonder. By a combination of circumstances he defeated the greatest general of modern times. Yet Wellington with all his ability would not be a match for two weeks against Lord Roberts. Wellington is held up as one of Britain's most renowned heroes, and his name will live long after that of Roberts has been forgotten. It will not be because of his superior ability but rather because he lived in a time when great men through disadvantages of environment, were not quite so plentiful as they are today. It takes distance to lend enchantment in a good many cases, and Lord Roberts' march from Kabul to Kandahar is even now regarded as a wonderful feat, whereas it was a trifling occurrence when compared with his more recent expedition from Bloemfontein to Pretoria. However it may be that in another hundred years Earl Roberts will be given his proper place among the great ones of the Empire, and meanwhile Canada, during the next few days, will endeavor to do all in her power to impress upon him that his services for the Empire are formally welcomed. He has already been formally welcomed to the Dominion. During his stay in Quebec he will be received by all in a manner which cannot fail to deeply impress upon him the loyalty of Canadians to the Empire, and the personal esteem of the people towards himself. Since the South African War, Earl Roberts has become, in a sense, a personal friend of Canada, due to the fact that he commanded the army in which were enlisted several thousands of men belonging to this nation. The recollection of the thoughtful treatment accorded the Canadians by "Bobs" will have some effect in increasing the heartiness of his reception.

MYSTERIOUS MURDER IN NEW JERSEY

Daughter of Murdered Woman Tells of Fearful Grime.

Austrian Woman Shot, Robbed of \$2,200 and Body Placed on Track Where Train Cut it in Two—Daughter Shot Also—Suspect Girl's Fiancée.

NEW YORK, July 19.—A strange murder case developed today when officers of Hackensack, N. J., examined the body of Mrs. Otella Eberhard, which was found early today lying on the tracks of the New York, Susquehanna & Western R. R. near Cosberg, N. J., discovered bullet wounds. A passing train had cut the body in two. Otella Eberhard, a daughter of the dead woman, was wounded three times by bullets and dragged herself a few feet to an isolated farm-house. The police are hunting for August Eberhard, a nephew of the murdered woman, believing that he may know something of the crime. Mrs. Eberhard and her daughter arrived from Vienna last Thursday on the invitation of August Eberhard. The Eberhard girl stated that there was an understanding that August was to marry her. Yesterday, Miss Eberhard says she and her mother were invited by August to go to Rochelle Park, in New Jersey, and that they wandered around there until evening. At the Cosberg coal pockets, the girl says, she saw a flash, however, caused serious wounds. She started to run and felt that she was hit by a bullet. She says she heard her mother utter a cry and saw her fall. She saw her mother fall, she says, when the first shot was fired. Recovering consciousness, shortly afterward, she found her way to a farm-house, whose inmates bound up her wounds and escorted her into Hackensack today. By that time the coroner was working on her mother's case. Miss Eberhard says her mother had \$2,200 in United States currency and \$300 in German notes when they left for their excursion. The \$2,200 was missing when the body was found. The police say that Eberhard, too, may have been murdered, and his body disposed of. Meanwhile, however, they are making every effort to locate him if he is alive.

THRILLING RESCUE FROM WRECKED STEAMER

Camping Party Make Fourteen Mile Dash in Autos and Assist in Saving Lives of Crew by Breeches Buoy.

NEW YORK, July 19.—While the Chippewa, of the Clyde Line, was pounding gales in her hull off Montank Point Life Saving Station, early today, 24 men were taken from her by a camping party, the members of which had made fourteen miles dash in automobiles to aid in the rescue. Three weeks ago the Chippewa, bound from Charleston to Boston, with a cargo of lumber and animals, went on the rocks in a heavy blow. Ordinary means failed to dislodge her, and pumps and other appliances were installed to float her. All the preliminary work had been done, and it had been planned to haul the Chippewa from the rocks yesterday, when a heavy sea began to run and by the middle of the afternoon the ship was pounding on the sharp rocks in an alarming way. The twenty-four men aboard, some of the crew, and some of the wrecking crew, believing their lives were in danger, sent up signals of distress. Jumping into three automobiles, a camping party which had seen the signals, made a fast run to the life saving station, fourteen miles distant. They found Captain Hodges and placed themselves under his command. The life gun line was brought into action and four lines shot seaward before one caught on the rigging. Over this line the men on the pounding vessel were brought ashore, one by one, in the breeches buoy. It is feared the Chippewa will be a total loss. She was valued at about \$500,000. The animals aboard, including alligators and ostriches, were not taken off.

GOAL STEAMER AGROUND.

VINEYARD HAVEN, Mass., July 19.—The six-masted schooner William D. Douglas, Captain McLean, of the Crowley Transportation Company from Baltimore to Boston, with a cargo of 5,360 tons of coal, is hard and fast ashore in Vineyard Sound on the extreme west end of Lucas Shoal in 23 feet of water. The schooner entered Vineyard Sound last night in a fresh southwest wind and a dense fog setting in, prepared to anchor off the channel, when she grounded. She sustained no damage but lacks four feet of water to clear herself. Arrangements have been made to have lighters sent from Boston to lighter her.

LONDON, July 20.—Waldorf Astor has donated \$5,000 to the Children's Fresh Air Fund.

WARM WELCOME FOR AMERICAN FLEET

New Zealand and Australia to Give Them Good Time.

British and American Sailors Will Mingle in Festivities—Balls and Other Social Events for Officers—Horse Race and Prize Fight.

MELBOURNE, Australia, July 20.—The Stars and Stripes have witnessed sights and achievements in bygone years on that wide and lonely ocean, the South Pacific. The fleet reviewed in the general mind by the cruise to the Antipodes of the American battleship fleet. American ships are growing more and more frequent in the southern ocean, but something of the old nautical prestige remains and this decadent render the big men of war will doubtless re-animate. Admiral Sperry's command has been at Auckland August 10 and is to spend four days with the New Zealanders. It is due at Sydney August 20, where it will stay a week; on August 29 it will reach here for another week's sojourn, and on September 5 will leave for Manila, stopping at Albany only long enough to coal. Vice-Admiral Sir Richard Poore, commander-in-chief of the Australian fleet, will leave Sydney for Suva, capital of the Fiji Islands, which lie close to the route of the Americans and thence he will intercept them with two British warships and officially greet them prior to their reaching New Zealand. The New Zealanders have made elaborate preparations for entertaining the Americans. Auckland will be decorated with flags from every city in the dominion and illuminated at night. The parliament sittings at the capital, Wellington, will adjourn for ten days so the members can participate in the festivities. The government has arranged for the enjoyment of 15,000 officers and sailors, including the crews of the three British warships. Six hundred and fifty American and British officers will be the guests at an official banquet and there will be a state ball which will be attended by upwards of 2,000 persons. At Auckland, Admiral Sperry will meet Thomas E. Ewing, minister of defense of the Australian commonwealth, who will consult with him about the commonwealth's reception of the fleet. Alfred Deakin, Premier of the Commonwealth, members of the federal cabinet and representatives of all parties in the federal parliament make up the federal committee of arrangements. The programme at Sydney includes a federal and state reception to Admiral Sperry and his brother officers; a big review of the fleet; a state ball; Australian troops and British blue-jackets and probably American sailors will take part in the entertainment. At the visiting fleet; a federal ball; extensive entertainment of the fleet; an athletic meet. By special invitation Admiral Sperry and his flag officers will stop while at Sydney, at a beautiful residence of the successive governors-general. Here at Melbourne the round of entertainment will be as big as that at Sydney. The American fleet will be met down the bay by ministers, members of parliament and leading citizens. The week's programme will comprise a dinner to the fleet's senior officers by the Governor-General; a dinner at Parliament House by the commonwealth government; and a reception to the officers by the state government. There will be 7,000 guests at this last which will be held in the exhibition building. At the Fiedling race course, where 25,000 people are wont to gather on Melbourne cup day, a special meet will be held and the cars will carry the fleet's officers and their families. The Roosevelt handicap, etc., in honor of the visitors. Another sporting event to mark the week will be the fight between "Tommy" Burns, the Canadian heavy-weight, and Lang, Australia's best man in the same class.

SUICIDE STATISTICS.

Childless Marriages a Cause—Rate High Among German Nationals.

Among 1,000,000 suicides of all classes it has been found that 205 married men with children destroyed their lives, 470 married men without children, 528 widowers with, and 1,004 widows without children. With respect to the women, 45 married women with, and 158 without children committed suicide, while 104 widows with, and 238 without offspring, completed the list. On the face of things, it would appear that in childless marriages the number of men suicides is doubled and in women trebled. Leaving the case of actually insane persons out of the count, it would also appear that in males suicide is more frequent than in females.

WOMAN SUFFRAGE IN PRACTICE.

Prof. Harry E. Kelly, now practicing in Denver, put forth some of the objections to woman suffrage put in by him for answer. This is the way he handles them:

1. Woman suffrage would create disorder in the family. "Colorado has never heard of a case of family discord that was even alleged to have originated in woman suffrage. The members of a family are inclined to stand together upon political questions much as they are upon religious questions; but this fact broadens the family interest in public affairs, because women, disregarding the family scramble for office, direct the family interest along the line of social questions, in addition to the interest in partisan politics. While woman suffrage increases the number of votes, it gives us an increased breadth of public interest in social welfare. Neither has woman suffrage rendered politics attractive to women as a vocation, nor has it rendered any other effect on the character than to multiply their social interests and widen their intellectual horizon. The right to vote has not made them less dutiful as mothers and wives." 2. Women do not wish to vote. "The women of Colorado are not office-seekers, but they vote solidly when there is anything in a campaign that appeals to their interest; and in all elections their vote is large. Among them of course there are some bad women, just as among men there are some bad men. But I apprehend that nobody has any scheme by which the suffrage can be so restricted as to exclude persons who are evil-minded. There is not a city in the world where the vote of evil women could be of enough consequence to be worthy of serious consideration in a controversy like this." 3. The surroundings of the polls are such that a refined woman cannot well go to them. "This is moonshine; for under woman suffrage, as we have seen in Colorado, the voting booths are placed in most respectable quarters, largely in private houses, with surroundings that offer no opportunity for criticism."

OFF TO THE SOUTH POLE.

Explorer to be Away from Civilization for Three Years. PARIS, July 20.—Dr. Jean Charcot, the well-known explorer, will set sail in a few days in the ship Pourquoi Pas (Why Not) on a voyage of discovery to the South Pole. "The twentieth century cannot," says the doctor, "allow the great white void to remain on this map. Scientists await from us, the explorers of the Antarctic, the solution of problems that we alone can solve. It is on the discoveries in the Antarctic that one may depend to solve the great problem of the origin of life."

THE DEMOCRATIC SPIRIT IN JAPAN

"With two cases in the army of men deserting in a body, and a bold protest against a barracks wall by a Socialist bluejacket, within the last two months, an essay by Mr. Tokutomi, chief editor of the Kokumin, on the growth of the democratic spirit in Japan calls for special attention," says the Japan Chronicle. "His opinion the apparent abatement of democratic demonstrations and Socialist agitation is no indication that democracy is losing ground in Japan. On the contrary," he says, "democracy is gaining ground daily, and the future of the nation will do well to take this into consideration, and try to be in touch with the democratic movement. The only way open for the future politician is to represent and guide the commoners, and with their backing to develop the welfare of the country."

CONSCRIPTION SYSTEM.

"When the conscription system was enacted, the privileges of the Samurai class was abolished, and as soldiers all classes of people are treated alike. Rich men, peers and scholars lose their distinction before the system, and only the efficiency of soldiers opens a prosperous career to him. From this viewpoint the rise of the democratic spirit in Japan owes much to the conscription system."

POWER OF EDUCATION.

"And though there are peers in Japan, they are commoners are, before the eyes of the Emperor, alike his children, and the more the Emperor is exalted the more are social differences levelled. Therefore, Mr. Tokutomi affirms that 'the spirit of loyalty to the Emperor is the mother of democracy.' This is rather poor argument, and will scarcely satisfy democrats. His other reasons, however, are more interesting, as they are more pertinent. The population of education, according to this author, is the second cause for the growth of a democratic spirit. More than 50 per cent of Japanese children receive the advantage of education, and this is the strongest possible instigator of democracy. Whether the Mombusho can regard democrats as human beings, yet as the organ of public education, the Mombusho is the greatest propagator of democracy in Japan."

"Mr. Tokutomi continues: 'Some people may see no relation between democracy and the army, but the compulsory imposition of military duty on the whole people is the third cause for the rise of democracy. It has been found in Switzerland that in building a railway laborers could work only one-third as long at a height of ten thousand feet as a mile lower.'

### AN UNPRECEDENTED HARVEST.

All reports from Manitoba and the other Western Provinces indicate that this year's grain crop will surpass that of any previous year. The increased acreage under cultivation and the ideal climatic conditions which have this season prevailed have brought about this result. All eyes are upon Western Canada, the "breadbasket of the world." The benefits of this beautiful harvest are numerous and far-reaching, and in a great measure will serve to offset the financial stringency which has been felt throughout the country for some months past, and with two or three weeks more of continued good weather the "granary of the Empire" will be the great factor in bringing Canada's affairs back to their normal state.

The work of cutting, threshing and garnering this immense crop will give months of employment to a vast army of laborers and it is estimated that between twenty-five and thirty thousand helpers will be required for this year's harvesting. The farmers of the east are as much interested in this

### BIBLICAL STORIES ARE REVISED

Dr. Gaster, Chief Rabbi of the Spanish and Portuguese Jews in England, described to the members of the Royal Asiatic Society the other day how he discovered a new Samaritan Book of Joshua during his travels in Samaria last year. This remarkable volume agrees with and yet differs materially from the story in the Bible, and among other things furnishes a new version of the fall of the Walls of Jericho.

Dr. Gaster has been closely connected with the Samaritans for many years, and was allowed free access to their libraries. While on a visit to Nubus last year he received from the High Priest a manuscript which proved to be a chronicle or brief history of the Samaritans from the entry of the Children of Israel into Palestine under Joshua up to the present time. What was equally remarkable was that the version he received, another MS. which was almost identical with it!

#### AT FIRST HE DID NOT ATTACH MUCH IMPORTANCE TO IT, BUT A CAREFUL EXAMINATION HAD CONVINCED HIM THAT IT WAS AN AUTHENTIC COPY OF THE OLD HEBREW ORIGINAL.

For centuries there was a vague idea that such a book in the Hebrew language had existed among the Samaritans, but nothing was known of it, and to his surprise and delight he had concluded that this was the lost book. It must have been considered by the Samaritans as a book of authority. Dr. Gaster observed, for the calendar started from the indications of it. It could not have been translated from the Greek because it agreed entirely with the Hebrew, while the knowledge of the Hebrew language among modern Samaritans was very limited.

#### JOSHUA TAKES A CENSUS.

The new book starts with a definite date of the era of creation, the year 2794 from the creation being given as the date of the death of Moses, and from the year starts the new calculation of the jubilee. That, Dr. Gaster explained, was omitted from the Bible. It then describes how Joshua was appointed over them. Joshua was attacked by King Shobach, and his army trapped or encircled by seven walls of iron, made by the wizards and enchanters in the service of Shobach.

#### YEARS BEFORE CHRIST.

Joshua prayed to God. A dove came to him; he laid a letter to its wings, and it bore a message to King Shobach, who, with his tribes, came to Joshua's rescue. The Priest, Phineas, was a trumpeter once, the walls fell down, and Joshua defeated Shobach.

When Joshua assembled his people in Shechem and took leave of them, he did not refer in his address, according to the new book, to the fact that "the foreigners served other gods."

Many of the points wherein the Samaritan text differed from the Bible were found also in Josephus. Dr. Gaster went on, and also in other Jewish Rabbinical writings. This showed that Josephus did not invent any of the legends, as he was supposed to have done. The original of the newly-recovered Hebrew version, Dr. Gaster said, must have been composed at least 200 years before Christ, and the book, which threw some light on the history of

these times, together with other Samaritan writings, might elucidate some of the problems which centered around the Bible.—The London Daily Chronicle.

### Y.M.C.A. BOYS TEN HOURS AHEAD OF SCHEDULE

Expect Last Runner to Deliver Message to Mayor Bussie at Chicago City Hall at Noon Tomorrow.

CLEVELAND, Ohio, July 20—With the trip nearly two-thirds completed and the running schedule pushed far to the rear, the Y. M. C. A. boys resumed at 2 o'clock this morning their task of carrying, on foot, by relays, a message from Mayor McClelland, New York, to Mayor Bussie, Chicago. The message, enclosed in a silver tube, which was started from the New York City Hall at 10 o'clock last Wednesday morning, was stopped at Fremont, Ohio, at 10:12 o'clock Saturday night. It was arranged that no part of the run would be made on Sunday. The relay was resumed at 2 a. m. this morning by the boys ten hours ahead of schedule.

It now is expected that the message will be handed to Mayor Bussie at the Chicago City Hall, about noon tomorrow, thereby making the 1,000 miles trip in about 118 hours, at a grand average of approximately eight and two-thirds miles an hour.

#### WORLD'S FASTEST MOTOR BOATS AT NICKEL.

Anatic sporting enthusiasts will be delighted with the Nickel's list of pictures for Monday and Tuesday, the distinguishing feature of which is a long film depicting the racing most of Europe's fastest motor boats at Monaco, France. The arrival of the famous flyers on flat cars, the weighing, handicapping and starting proceedings, give the onlooker a complete idea of the details of such a great sporting event. Then come the races, and with the speed of railway trains the low rakish craft plunge through the water. Not secondary in interest is the picture of that French motor boating break known as a "rice-bait"—a low flat square-ended craft with gasoline engines of tremendous power. The picture performance of the "rice-bait" in the Nickel's picture—taken on the Seine—will astound everybody. Aside from the two motor-boating films, which are fresh from Paris, the programme will include a gorgeously dramatic performance of "The Specter," and two comic comedies, "Unsuccessful Fillets and a Husband Wanted." Every picture five in all—five of recent production, and the songs are new too, viz., When Sweet Marie was Sweet Sixteen, sung by Miss Poley, and Tipperary, the newest Irish song, by Jack Gurney.

#### HAPPY HALF HOUR.

The Merry Widow at Happy Half Hour. The new programme at the Happy Half Hour today will prove a surprise. Patrons will be delighted to know arrangements have been made for Holmes and Buchanan to remain another week, and a bigger musical treat than last week is promised. For today and tomorrow Miss Holmes will sing "Dreaming from The Boatman's Serenade," and Mr. Buchanan will sing "Vella," the big vocal hit from The Merry Widow. As this is the first time any message from Mayor McClelland, New York, to Mayor Bussie, Chicago, will be heard here, both afternoon and evening. The new pictures are certain to make a hit. The French President Landing at Dover, England, is a splendid subject. It shows the French Men-of-War, the President being received by the officials at Dover, the English soldiers drawn up to receive him, his arrival at London, and his visit to White City in company with King Edward. A general view of the grounds and buildings are shown, and their visit to the Irish Village. This subject is over 1000 feet long and should be seen by everyone. Other pictures are The Little Motorist, a comedy, and The Triumph of Love, dramatic. Prof. Titus will sing "I'll Love You Just the Same. As It is S. R. O. from 5 p. m. those who can should attend the afternoon performance, or the first evening show.

#### NO TRUST CONTRIBUTIONS FOR REPUBLICAN PARTY

Taft Declares He Will Not Accept Money From Corporations—Bryan Suggests Publishing Largest Contributions

FAIRVIEW, Lincoln, July 19—The statement of W. H. Taft, at Hot Springs, Va., yesterday, that the Republican National Committee would not accept any contributions from corporations in his campaign, was viewed here with more than ordinary interest. Mr. Bryan gave it his special attention. In fact, so impressed was he with the announcement that he broke his usual silence and dictated the following statement: "We welcome him to this advanced ground and beg him to go further and announce that all individual contributions above a reasonable minimum will be made known before the election."

#### MONCTON RACES POSTPONED UNTIL NEXT MONTH

MONCTON, N. B., July 19—A down-pour of rain and a muddy track made imperative yesterday the postponement of the second day's programme of the Moncton race meet, including the free for all, in which there was great interest. After consultation between the horse owners and track officials, on Saturday afternoon, it was decided to call the events off until next month when they will be given with a meet to be held here on the twenty-first and twenty-second of August.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

No other medicine for Woman's ills in the world has received such endorsement as has Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

No other medicine has such a record of success for women's diseases, or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been the standard remedy for feminine ills, inflammation, ulceration, and consequent Spinal Weakness.

It has relieved more cases of Backache and Local Weakness than any other one remedy. It dissolves and expels tumors in an early stage of development.

Irregularities and periodic pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility, quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system.

It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy, or the "blues". These are indications of feminine disorders, which this medicine overcomes as well as slight derangement of the kidneys of either sex.

Women who are sick and want to get well should refuse to accept any substitute for Lydia E. Pinkham's Vegetable Compound.

tions end in a flood of tears?" cried Elizabeth despairingly. "Can't you see it is providential? It is the only thing the very only thing that I can do. Even you can see that I am cut out for it. Listen, dear," she put her hands on her sister's shoulders and laughed down in the tear-stained faces. "It isn't as though it were here in Lexington, and I am known. No one need be the wiser. If I am to earn our bread and butter, I must do it honestly, and this is the one thing that I believe I can do. You know you always said I could do your hair better than Naton herself, and I am a genius where clothes are concerned; you know I am. I have always had the most unbounded curiosity to see this barber, and the family purple and plate. No one will ever know, and it will mean daily bread for us both; for I shall be able to save nearly all my salary, and—"

"I don't see why," said Anna, "if only you would not give way so! Oh, don't you suppose that I suffer too? It isn't easy to laugh when one's heart is breaking, but it is better and easier to laugh than to cry."

"Well, it won't be very luxurious indeed, I'm afraid; but I think it will be enough. And as for supporting you, for how many years have I been dependent on your bounty, I wonder? You must let me do it, Anna."

"Elizabeth, I'd rather sell all the furniture and the portraits."

"Elizabeth's lips trembled, and she drew her hand on her sister's, pleading helplessly. "Help me to be strong, Anna," she said.

"You are so pretty, Elizabeth. I don't see why—"

"You don't see why I don't captivate Colonel Hempstead or some other eligible old or young man. Together we know a little of everything under the sun. But we neither of us could earn a penny with any of our numerous accomplishments."

MONCTON, July 19.—With a fortnight remaining before it shall have reached its height, and having already provided rest and recreation for thousands of the earlier vacationists, the New England summer season of 1908 promises to be as great as in previous years during the opening month, but additional facilities provided by the transportation companies have lessened the congestion and crowded conditions of previous years, and given the impression to many that the season had started as successfully as usual.

A young son of Martin Dolan was slightly injured on Main street this morning. He slipped so that his foot caught between the trace and shaft of his father's wagon and was dragged along for some distance before being extricated from his perilous position. His injuries are fortunately reported slight, but for a short time the accident caused considerable excitement.

Cyril T. Hanson, of Fairville, informed the Star that he is quite willing to accept J. C. Redd's challenge to a second mile race. The race is to start from Barnhill's Corner, Fairville, at 6 o'clock Thursday evening, and the route will be to Councillor's Dean's at Musquash and return. ### BAIL WAS DEMANDED FOR HARDY'S RELEASE

Hearing in Case Against Telegraph Employee Was Continued on Saturday.

The case against Henry J. Hardy who is charged with importing labor into Canada contrary to the Alien Labor Act, was resumed on Saturday in the police court.

A. C. L. Tapley produced the Telegraph and Times pay sheets and cash books and showed that on the 18th of April Hardy had been paid \$60 for his week's work. His name did not appear on the following week's sheet but did on the next for \$90, being two weeks' pay. The witness could not tell from the books if Hardy had been paid any money for transportation between St. John and Fairville.

Rupert E. Walker, a reporter, gave evidence of meeting Hardy and some men on the boatload and of conducting seven men from the train at Fairville to the Times office.

A. H. Tapley, a former named Bunk, who was engaged by Hardy in Philadelphia, gave evidence that he did not know of any reduction from his salary being made for his transportation to St. John. He identified his signature on the Clifton Hotel register as having been made by Hardy and he wrote it.

Daniel Mullin, K. C., who represented the prosecution, called on Russell, Jr., and E. W. McCready, but as neither of these gentlemen appeared in court the case was adjourned until Friday next. Before adjournment, however, Mr. Mullin requested that the defendant be not given his liberty unless he made a deposit or gave bail for his appearance. The magistrate decided that this was proper and the defendant was allowed to go on \$1000, entering into \$1000 of his own, and J. B. M. Baxter, his counsel, entering into the other \$500.

### SHEFFIELD STREET CROWD IN THE POLICE COURT

Liquor Selling Case, Fight Between Women, and Several Drunks Formed Today's Programme.

In the police court this morning two drunks pleaded guilty and were fined \$4 each.

Frank M. Burns, who was arrested in Halifax, charged with converting \$3 of the Collier Company's funds to his own use, was remanded.

David McManaster was charged by Policeman Silas Perry with being drunk on Main street, Saturday night. The defendant pleaded not guilty, and said he could get witnesses to prove that he was not drunk. The policeman swore that the defendant was drunk, so the case was adjourned until tomorrow morning.

Albert Fox said he knew nothing about breaking Mrs. Margaret Cosman's windows on Erin street. Mrs. Cosman testified that the breaking of the windows was wilful. The prisoner was fined \$25. Mrs. Cosman also laid complaint against another man named Fox, whom she claims called her bad names and threatened her life.

Mary Runley, a white woman, and Mary Whalen, a colored dame, both residents of Sheffield street, got into a row yesterday with the result that the white woman was badly cut up with rocks and other things thrown at her. When she was arrested her face and clothing were covered with blood.

Both pleaded guilty to being drunk, and were sent to jail for two months in default of paying fines of \$20 each.

Rose Youngburg, a white woman, well dressed, pleaded not guilty to selling liquor in her house on Sheffield street. Mary Runley, a prisoner, was called, and said she purchased three drinks of whiskey from the Youngburg house Sunday and paid ten cents a drink for it, also that other women bought whiskey there. Rose was fined \$100 and in default of payment was committed to jail for three months.

The young proprietress of the Sheffield street house broke down weeping when she heard the sentence and only found comfort in some assuring remarks from Lottie Hornet and Amelia Francis, who were in court with her.

Rose Youngburg is also reported to the court for being the keeper of a disorderly house on Sheffield street, as it stated that the Sunday fight between Mary Whalen and Mary Runley started in this house.

Mary Whalen and Fred Secord are reported for being inmates of the house and the case will be taken up later.

### NOVA SCOTIA'S GIFT.

Nova Scotia's gift to the Prince of Wales is a milk coat with buttons of Nova Scotia gold, intended for the Princess of Wales. The coat was made in Halifax. The far is the finest in the world. It will give some idea of the enormous amount of work on the coat when it is stated that 150 miles of gold wire were used in making it. The coat is 50 inches long. The stripes which are about an inch and one half apart, are turned at the bottom to form a deep border, with perfect unbroken continuity in the stripes. There are deep reversible cuffs on the sleeves, finished with the pretty heads of the coat. The lining is of elaborately brocaded gold colored satin. The effect is added to by the buttons of Nova Scotia gold. The design of the bottom is the crest of Prince of Wales, with the motto in quotations, "Ich dien" (I serve my master), while the rim of each is designed to show to advantage six native amethysts from Blomidon.

In the centre are native pearls, the back of each button together with the three feathers, being of fine yellow gold, and Mayflower design of red gold. On the back of each is engraved the words "Nova Scotia gold."

The cedar box which is to contain the coat, is finished in burnished steel, the product of the Dominion Iron & Steel Co. and the Nova Scotia Steel Co., and embellished with nuggets of Nova Scotia quartz and gold, which are perfect specimens. On an inlaid gold plate the inscription is beautifully engraved.

### MACQUEEN'S SAD FATE

The following despatch was received by the Star today. Readers may guess for themselves in what condition MacQueen now is. If the razor did not kill him in several places the report of his act is likely to do so, if he reads it, unless he recovers.

SYDNEY, N. S., July 20. — Donald MacQueen, aged about 55 years, of Carleton Place, a few miles from this city, endeavored to end his life on Saturday afternoon by cutting his throat with a razor. He succeeded in cutting his neck in several places, some of which are likely to prove fatal. Dr. MacDonald was summoned and dressed the wounds. The case was the result of temporary insanity. The patient will recover.

The Artillery Band will meet tonight at eight o'clock sharp. This is an important meeting and all members must attend.
