No. 43

Clarke & Co.

The idea prevailing at this store, a policy that we consider sound and good, is that it is better to sell goods at reduced prices, even at a loss, rather than carry over to another season, goods that should be sold this season. Following out this plan in many departments, in nearly every department in fact, the price cutter has been at work. Prices have been trimmed here and there, in some cases cut half, and still as the days go by other lines are being added to those already reduced.

We have this season the largest and most elegant variety of mercerised waistings to be found in the town, our stock is still quite large although many patterns have been sold out, to make a complete clearance and provide room for new goods we will give a discount of 20 per cent off all white mercerised goods.

SIR WILFRID HAS RETURNED.

Magnificent Reception Tendered Him in Quebec by 20,000 People.

HEALTH IMPROVED.

The Premier Hopes to See Completion of Quebec Bridge and New Transcontinental.

Quebec, July 19.—Sir Wilfrid Laurier arrived back to Canada last night on the Empress of Britain at half past ten and was accorded a reception that quite put in the shade all previous demonstrations to welcome a returning premier.

He was met at Grosse Isle by six boat loads of members of parliament and representatives from all over Eastern Canada. At the Quebec breakwater an immense crowd had gathered, when the reception committee, ministers and members of parliament, boarded the Empress and welcomed Sir Wilfrid home.

It was very evident that the trip to England had greatly improved the Premier's health, and he was warmly welcomed and congratulated by all on his improved looks.

Princely was the reception tendered this evening to Sir Wilfrid Laurier, the premier of the Dominion, by the people of the ancient capital.

Accompanied by seven bands of music, fully 20,000 people welcomed the premier in St. Peter's market. From a stand in that market, the speeches were made by Sir Wilfrid, Hon. A. B. Aylesworth, Hon. Mr. Lamiey and others.

Sir Wilfrid spoke of his trip to England, and felt that the "All-red" line was not yet abandoned. The conference had been a success. The colonies had met on equal terms with the mother country. Referring to Canadian matters, he said he hoped to remain in politics until the Quebec bridge and the Grand Trunk Pacific were completed. The latter would create a new Quebec north of the Laurentide Hills.

SHOT BY HER SON.

Shot by a revolver in the hands of her five year old son, Mrs. Sanford Anderson, of Edgett's Landing, near Hillsboro, was on Wednesday so seriously injured that she may die. She was operated on but her condition is serious. Mrs. Anderson who is in a delicate state of health, was sitting at a desk in which her husband kept a loaded revolver. In securing the writing materials, she left the drawer containing the revolver open, and her little son took the weapon out. His mother did not notice him at first, but turned and saw him and quickly asked for the revolver. As she reached to take it, the little fellow pulled the trigger, and the bullet entered his mother's abdomen. A Moncton physician was summoned and there are now hopes of Mrs. Anderson's recovery.

Post Cards.

It is some time since we devoted any space to this line, but our goods have been talking, nevertheless. That we lead is hardly necessary for us to say—Our customers say it. A day or two ago the remark was passed in our store "All along the line we hear about your fine assortment of post cards." That's what we want, people to talk about us. It saves printer's ink.

SEVERAL CASES DISPOSED OF.

Busy Day in Police Court Friday.—Peace Restored at Bridgetown.

In the Police Court last Friday, the case of Albert Hickey versus Policeman T. C. Hill for alleged assault committed upon plaintiff in the early morning of June 23rd was finally disposed of. T. W. Butler appeared for defence and A. A. Davidson for prosecution. The magistrate decided that Officer Hill was justified in acting as he did. Policeman had the right to challenge anyone at night and enquire as to their destination and purpose. He exonerated Mr. Hill from all blame and condemned the plaintiff to pay the costs of the suit.

Argument in the case of C. E. Fish versus Adam Hill, for alleged abusive language tending to incite a breach of the peace, was finished and decision postponed till next Thursday afternoon. R. Murray, M. P. P., appeared for the prosecution and A. A. Davidson for defence.

On the complaint of John Tardy against Parker MacLean for assault upon one of the plaintiff's boys, arising out of a series of family quarrels, Mr. MacLean pleaded guilty to expedite settlement, and agreed to pay plaintiff's lawyer's fees and costs. He was fined \$5.00, which was allowed to stand.

On complaint of Mrs. John Tardy against Bernard McCafferty, for abusive language which frightened her, the defendant pleaded guilty, wishing to settle, and was fined \$3.00 and \$5.00 costs.

THE TRIAL OF DAVID.

Preliminary Examination held last Week and Postponed.—J. D. Hazen Defends Prisoner.

Fredericton, N. B., July 18.—The preliminary examination of T. David charged with shooting his wife at McAdam on July 8th, was commenced at the police court this morning before Col. Marsh. J. H. Barry, K. C., appeared for the crown and J. D. Hazen for the accused.

Miss Sadie Porter, captain of the Salvation Army at Woodstock was the first witness examined. She was in the railway station at McAdam on July 8th, and saw David shoot his wife. He fired two shots from one revolver. The injured woman was carried upstairs, and the witness, after removing her clothing, found a bullet wound in the groin. The witness remained until Dr. Butler arrived and dressed the wound. She did not see the injured woman afterwards.

Ensign Ethel Martin, of the Salvation Army, Woodstock, confirmed the previous witness, having been with her at McAdam when the shooting occurred.

Dr. Percy E. Butler, of McAdam, who attended Mrs. David after the shooting, described the wound and expressed the opinion that it was caused by a bullet.

James F. Gardener, C. P. R. policeman at McAdam, told about hearing shots fired in the railway station, and the subsequent arrest of the prisoner.

In reply to a question by the police magistrate Gardener said Jack Power had hit the prisoner a light tap on the side of the head after the shooting, but not knocking him down.

The witness then had the prisoner in custody, and told Mr. Power it was not necessary to hit him as he was not resisting arrest. Witness produced the revolver, which he took from the prisoner. It is a Harrington and Richardson self-cocking weapon of 32 calibre. Four of the chambers were loaded and there were two empty shells.

The further hearing was postponed till Tuesday morning, 23rd inst., at 11 o'clock.

ARE CHARGED WITH MURDER.

Mrs. Fontaine Lays Capital Charge Against Officer Seeley and Gallop.

NO NEW EVIDENCE.

Trial Postponed Till Thirty-First Instant—Important Evidence Coming.

Policeman George Seeley and Constable William Gallop, having been arrested recently at the instance of Mrs. Peter Fontaine, charging them with the murder of her husband, the preliminary examination began on Saturday morning before Police Magistrate Windsor. W. A. Mott is acting for the defence and R. A. Lawlor, K. C., on behalf of Mrs. Fontaine.

The witnesses heard, so far, are Andrew Fontaine, Geo. Jalbert, Mrs. Andrew Fontaine, Mrs. Geo. Jalbert and Mrs. Peter Fontaine. The evidence given by the first four witnesses is practically the same as that given at the coroner's inquest.

The widow Fontaine was the only new witness heard. She testified that she was the wife of the late Peter Fontaine. She married him five years ago and had known him one year previous to their marriage. Her only child was dead. Their married life had been happy.

The court adjourned on Saturday afternoon till Wednesday, 31st inst., when the evidence of Dr. Disbrow, who performed the post mortem, will be heard and Savoy who drove Seeley and Gallop to Balmoral the morning of Fontaine's death.

ORANGE PARADE.

AT REDBANK. The Orangemen of Miramichi Lodge, Redbank; No Surrender and Empire Lodges, Newcastle; and Elm Tree, Lodge, Indian Town, gathered in Redbank Sunday morning and marched in procession from the Hall to the Presbyterian church, headed by the Newcastle Band. In St. Stephen's church they listened to an excellent address from Joshua IV. 6, delivered by Rev. George S. Mitchell. There was a large number of brethren in line, and the ceremonies were very impressive. The members of Miramichi Lodge wish through the columns of the Advocate to express their thanks to the visiting brethren who came so far to join with them, and especially to the bandsmen, whose music was so important a feature of the day's proceedings.

EDMUNDSTON MAN

IN TROUBLE. For breaking into J. W. Hall's store, at Edmundston, on the 1st of June last and stealing money and goods, and breaking into the Temiscouata Railway station at Clair on the following day and stealing about \$21 there, and for attempting to break gaol. H. R. Forsythe was sentenced on Friday to six years and six months imprisonment.

OVER 100 DROWNED.

San Francisco, July 22.—More than one hundred lives were lost on Saturday night, when the steamer Columbia, bound north from this port for Portland, collided with the lumber steamer San Pedro, off Shelter Cove, Mendocino county. Eighty other persons on the Columbia were rescued after being in the water several hours. There was a heavy fog at the time, and the San Pedro, heavily laden with lumber, struck the Columbia on the port bow with such terrific force that she was cut down to the water's edge and sank in about five minutes.

MONEY-TIGHT.

Seventy thousand dollars worth of Fredericton city debentures bearing interest at five per cent, fell due Saturday. The city has been trying to sell at a per cent to redeem them, but the prices offered are hardly satisfactory.

FREE MASONRY OF METHODISM.

London, July 19.—At the annual conference of the Wesleyan adherents sitting in Wesley Chapel Robert W. Perks, M. P. for Lincoln county, presented the important proposition that the time had arrived when the Wesleyan forces throughout the world should bind themselves with a mighty band and grapple with the great economic and social questions of the day. He suggested the estimate of Methodist bureaus in all parts of the world to deal with the questions of immigration and unemployed labor and to build up a practical loan society and savings bank and other kindred institutions for mutual aid. Mr. Perks declared that Methodism is a vast religious form of Free Masonry, with world-wide riches and resources, only waiting the proper machinery. No action was taken on the proposition thus presented but the conference was greatly impressed with the possibilities.

The wedding was quiet, only a few friends witnessing the ceremony. The young people will reside at Nordin.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wavering nerve centers. It builds it up; it gives it real, genuine heart help. If you would have strong hearts, strong digestion, strong nerves—these nerves—restoration from as needed, with

IN FAVOR OF "BABY'S OWN SOAP."

The Albert Soap Company recently brought an action against Drysalter Ltd., manufacturers of "Mother's Favorite Soap" for infringement of their trade-marks. Judge Burbridge, gave the following decision:

"The action is brought by the plaintiffs, who are manufacturers of soap, to restrain the defendants who are in the same business, from infringing certain registered trade-marks that the plaintiffs own and use in connection with their business."

"The plaintiffs manufacture a soap known as 'Baby's Own Soap,' the defendants a soap known as 'Mother's Favorite Soap.'"

"The plaintiffs ask for a declaration that the acts of the defendants in placing their soap on the market with the labels at present used and in a manner as infringing, constitute an infringement of their trade-marks, and for an injunction to restrain the defendants from continuing the use of such labels in the manner mentioned."

"There will be, in respect to the specific trade-mark hereinbefore mentioned, judgement for the plaintiffs, with costs, and the injunction asked for will be granted."

WHITE SLAVERY IN CANADA.

A Young Englishman Arrested Without Warrant and Chained to Bed.

LEFT WORK.

One Who Knows Says that New Ontario is no Better Than Russia.

Englehart, Ont., July 18.—Chained to the bed in a small upstairs room in Wilson's restaurant here John Kay has been a close prisoner since Sunday afternoon. His crime is the same as that of thirty Russians who were arrested three weeks ago, namely, that of deserting employment of Chandler & McRae, railway contractors, at McDougall's Chute, some seventy odd miles north on the T & O Railway. When seen last evening, he was lying on the bed, his right hand locked close to his side by means of a pair of handcuffs. He could not stand upright nor take a single step in any direction. Constable McDonald, who had him in charge, adopted this method of securing his prisoner and at the same time relieving himself of the necessity of keeping his eye on him all the time. With tears in his eyes, the boy, who is only twenty years of age, told his story. He said between sobs: "I am a Lancashire lad, and came to Canada two years ago. I worked with the Montreal Steel Company for a time, but quit, to engage in railroad work, as I was told that I could make more money. I signed a contract with an employment agent in Montreal to go to work at McDougall's Chute. 'Did you agree to stay for any stipulated time?' He was asked. 'No,' he replied, but I was to pay my railway fare out of my wages. I was to have thirty-five dollars a month and my board. 'How long did you work?' 'Two weeks. The foreman seemed to have the knife in me and one day told me not to come back to work with him any more. I took this for my discharge, and so left camp and made my way down to Swanson's camp and went to work there. 'How long did you work?' 'Only a day; then I was arrested. 'Did the constable show his warrant or tell you he had one for your arrest?' 'No, he just arrested me for quitting work. The men are leaving all the time. It is hard to fill their places. He is going to take me back, he says, but I don't want to go. I have worked long enough now to pay my railway fare, but I suppose they want to take me back to work, whether or not, and to frighten others from quitting. 'Would you be willing to go back to work if all proceedings against you were dropped?' 'I don't want to work there any longer,' he answered, 'besides, surely they cannot make me, for you see I was discharged.' A prominent Hebrew, here, said last night when discussing the affair, 'you talk about Russia, I have lived there and know something of the doings of the authorities.' They call this a free country, but the longer I live here, the less difference I see between Russia and this part of Canada. Contractors and the police appear to run things here to suit themselves. It is just the same in my country."

Gentlemen.—Last August my horse was badly cut in eleven places by a barbed wire fence. Three of the cuts, (small ones) healed soon, but the other ones became foul and rotten, and though I tried many kinds of medicines they had no beneficial result. At last a doctor advised me to use MINARD'S LINIMENT and in four weeks' time every sore was healed and the hair has grown over each one in fine condition. The Liniment is certainly wonderful in its working.

REGULAR SESSION TOWN COUNCIL.

Coal Ordered.—New Sidewalk.—New Sewer.—Reduction Promised to Heavy Light Consumers.

NEW BYE-LAWS.

License for Billiard and Pool.—Scott Act Convictions.—Police Magistrate's Report.

The Town Council met on Thursday night in regular session, all present but Ald. Russell.

A communication was read from the Board of Health calling attention to present state of the sewer situated on Castle street between Ellen and Pleasant sts. The Board had held a meeting that day and decided that the said sewer was a nuisance and a menace to the public health. The defects in said sewer must be remedied at once, otherwise the Board would take action.

The communication was, by a vote of 4 to 3, laid on the table and afterwards discussed. Ald. McMurdo, Belyea and John Clark wished to have it merely filed.

Communication from Laurie Engine and Machine Co., Montreal, re catalog of Electric lighting machinery, received and filed.

The Canadian Union of Municipalities asked for payment of annual fee of \$10 from this Council. Received and placed on file. Provincial fee of \$10 had already been paid, and several of the aldermen did not want to pay second fee if avoidable. More information is to be sought.

A communication was received from the Edward Sinclair Lumber Co., complaining of the number of cattle with bells straying round Bridgetown, at all hours, but especially at night, causing great annoyance and inconvenience, the noise being so bad as to often render sleep impossible. Damage was also being done to trees and gardens. The Council was asked to help put down the nuisance, either by extending the limits covered by bye-laws in respect to cattle or in some other way.

Communication was laid over till next meeting and the Mayor instructed to enquire into the jurisdiction of the Council in the matter of bye-law and appointment of an officer for the upper part of the town.

Mr. Joseph Egan asked to be relieved of \$4.55 of 1903 taxes. Referred to committee on Petitions.

Ald. Morrissey read a communication from Mr. Thomas Foley of the Miramichi hotel, asking that he be granted a flat rate of \$400 a year for all light consumed, otherwise he would put in an electrolyte plant of his own. Last year Mr. Foley had paid \$503 net for light.

The council seemed unfavorable to a flat rate, but felt that some discount should be given heavy consumers.

On motion, Mr. Foley's communication was referred to committee of the whole, which will hold a meeting soon.

The committee on finance recommended payment of the following bills:—John Cassidy, for searching records, \$1.00. They also recommended that \$35 be offered A. Melvin Fraser for the typewriter now on trial in the town clerk's office. Their report was adopted.

The Public Works committee recommended the following bills which were ordered paid:—Stothart Mercantile Co., \$16.47; Daniel Hogan, 70c; Canadian Portland Cement Co., \$224.37; Clement Ryan, \$28.05; Ennis Nevin, \$11.10, total \$280.69.

Council accepted offer of Intercolonial Co., of Westville, N. S., to deliver by rail 800 tons slack coal at \$2.85.

It was decided to run a sewer from Adams School down School Street to connect with Pleasant Street sewer.

The Light and Water Committee recommended the payment of the following bills:—Canada General Electric Company, \$3.65; Colonial Lubricating Co., \$60.75; Stothart Mercantile Co., \$17.89; Canada Gen. Elec. Co., \$145.60; Matthew Russell, \$2.66; Free Finance Pub. Co., \$1.00; Sydney Post, \$2.10; T. McAvity & Son, 94c; M. Russell, \$8.73. Bills were ordered paid.

On recommendation of Park and Fire Committee accounts of John Sobey, \$3.25, and Wm. A. McMaster, \$3.00, were ordered paid.

It was brought out in the discussion that several chairmen of

committees had failed to consult other members of their committees. In future this will be remedied.

Police and Appointment to office committee (1) recommended payment of T. W. Butler, \$24 for prosecuting Scott Act cases, and \$10 for services as counsel for Police-mans' Hill; the Stothart Mercantile Co., \$7.96; and Matthew Russell, \$5.63; (1) They reported that the Police Magistrate had up to June 30th tried thirty-five cases (exclusive of Scott Act offenses). Court had collected in fines \$213. Expenses were \$95.50. Difference of \$117.50 had been paid over to the Town Treasurer; and that during June there had been three Scott Act convictions against two parties; (3) The committee recommended that arrangements be made whereby the surplus water from the square shall be directed under the closets of the lockup, as it is impossible to keep that place sanitary under present conditions; and (4) that the platform in the police magistrate's office be extended both ways to meet the wall and have a railing in front.

The report was received and adopted section by section.

Ald. Morrissey called attention of the Ferry Committee to the dangerous condition of the Ferry Slip on the opposite side of the river, and it was decided to urge upon the Public Works Department the necessity of having it repaired.

Pursuant to notice, Ald. Belyea moved the following bye-law:—

Be it enacted by the Mayor and Aldermen of the Town of New Brunswick:

(1) No person shall be permitted to establish, or keep in any way whatever, a Bowling Alley, Billiard or Pool Table within the limits of the town of New Brunswick, at which fees for playing are charged, without first obtaining a license for that purpose from the Town Clerk, under a penalty of not less than \$5 or more than \$20 for each and every day he shall so open and keep such Bowling-alley, Billiard or Pool Table without license; and no such license shall be issued until a license fee of \$20 for each Bowling Alley, Billiard or Pool Table, be first paid to the Town Treasurer for use of said town.

(2) The proprietor or keeper of any such Bowling Alley, Billiard or Pool Room shall at all times give free admission to his entire premises to the police or other peace officers of the town and assist them in the maintenance of peace and in the lawful discharge of their duties, under a penalty of not exceeding \$20.

(3) No minor under the age of fifteen years shall be permitted or allowed to frequent or play at any game in any such licensed Bowling Alley or Pool or Billiard Room; and any proprietor or keeper knowingly permitting any person under the age of fifteen to frequent or play at any game in his Bowling Alley or Pool Room shall be liable to a penalty of \$5 for the first offense and for each subsequent offense to a penalty not exceeding \$20.

(4) All licenses granted shall end on July 31st in any year.

The Bye-law was taken up section by section. In section 1 the license fees were in each case reduced to \$10. All the other sections carried as read.

In the discussion on above bye-law, Ald. Falconer opposed fixing any license whatever, as there was no other place in town for young people to spend their evenings. Ald. John Clark wanted first to know if such games were right. If they were not, shut them down; if right, put no license. Mayor Miller thought license was a protection to the keepers; there was no reason why livery stables and carriages should not also be taxed. Nobody suggested any hours of closing.

Ald. Morrissey gave notice that at next regular meeting he would submit a by-law governing a reduction on Electric Light bills to large consumers.

Ald. Belyea gave notice that a draft of all the town bye-laws would be submitted at next regular meeting.

At eleven o'clock the council immediately reassembled and discussed the Castle street sewer, deciding to continue it from the break in front of John Morrissey's to connect with the Post office sewer if possible.

The Communication of the Board of Health was then taken from the table and placed on file. Council adjourned.

PREMIER ROBINSON INTERVIEWED.

He Says There Will be Another Session of the Present Legislature.

MONEY MARKET TIGHT.

Finding It Hard to Borrow Money for Provincial Purposes.

Montreal, July 17.—"You can say that there is no immediate likelihood of a dissolution of the New Brunswick legislature. There is another session to run before the general elections are due and so far as I can say at present that session will be held."

The above statement was made at the Windsor hotel, last night by Hon. C. W. Robinson, Premier of New Brunswick. Mr. Robinson said that he thought he might well be allowed to take advantage of the remaining session. "That is only natural, isn't it?" he asked smilingly.

The New Brunswick premier is in the city accompanied by Mr. G. N. Babbitt, the deputy receiver general, for the purpose of raising money for provincial purposes. Mr. Robinson admits frankly that this is very hard to do in the present state of the money market, and that it is quite possible that he will have to return to Fredericton without the necessary funds.

"It has been a standing practice in the past," said the premier, "to carefully withhold the crown timber lands and not to sell them. Of course we might easily raise the money we need, by selling some of the lands in question but I now this course has been avoided."

Mr. Robinson was asked if this course might not be found necessary in the present stringency of the money market, but he declined to commit himself further.

Returning to affairs political, Premier Robinson said there had, so far, been little activity, as far as he was aware, in the federal arena in New Brunswick. In both the federal and provincial arenas, there was a calmness equally apparent. This might presage a coming storm, but at all events, Premier Robinson expects to be in Quebec when Sir Wilfrid Laurier arrives.

Wedding Bells.

NEAGLES-MANN.

In the St. Paul's Episcopal church at Chatham Head, Thursday morning, Rev. Mr. Forsythe officiating, Mr. Nathan Neagles of Ludlow, Northumberland Co. was married to Mrs. Catherine P. Mann. The bride looked charming in a suit of blue chiffon broadcloth with white lace over white silk waist and picture hat to match. The couple were unattended. A wedding breakfast was served at the home of the bride's mother, Mrs. Wm. Jackson, Chatham Head. The happy couple left that day for a wedding tour through the province. On their return they will reside at Chatham Head. The bride, who taught school at Chatham Head for several years is a very popular young lady. We extend congratulations.

DIXON-GILLISS.

At the home of the bride's father, Mr. Wm. P. Gillis, on the evening of the 16th, Mr. Walter L. Dixon of Sackville was married to Miss Jane G. Gilliss of Lower Nappan, Rev. A. J. W. Myers officiating. The bride was handsomely dressed in white organdie with lace trimmings. Carmel Presbyterian church, of which the bride was a popular member, presented her with a silver cake basket and butter dish. Mr. and Mrs. Dixon left the same evening for Sackville via Chatham.

THE MEDICINAL VALUE OF FRESH FRUIT JUICES

One of the Greatest Wonders of the Age.

Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve Bilioousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion.

An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then pressed one more atom of the bitter principle from the discarded orange peels, into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and

in a highly intensified degree. These valuable tonics and internal antiseptics were added and the whole pressed into tablets.

These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. "Fruit-a-tives" cure the most obstinate cases of non-action of the bowels, biliousness, headaches, sleeplessness, nervousness, kidney trouble, rheumatism, sciatica and neuralgia. They are the greatest blood purifying medicine in the world, while their action on the skin, in clearing and beautifying the complexion, is nothing short of marvelous. Ask your druggist for "Fruit-a-tives" and see that you get them. 50c a box, 6 for \$2.50. By mail, postpaid, from Fruit-a-tives Limited, Ottawa.

MAY COME TO CHATHAM.

Canada Wooden Ware Company Will Locate in Chatham If Sufficient Inducements are Offered.

At an informal meeting of the Town Councillors and members of the Board of Trade at Chatham Friday evening, Mr. Brown, manager of the Canada Wooden Ware Company, whose factory was recently burned at Hampton, endeavored to arrange for the company starting up in Chatham.

There are only three other such companies in Canada. This company had employed 45 persons, who had received from \$300 to \$350 a week in wages—an average of about \$6.00 a week. The directors would not move unless their moving expenses were paid. And they would not promise to move to Chatham until Fredericton, Sackville and other sites were inspected.

Mr. W. B. Snowball moved, seconded by Ald. Mersereau, that it is advisable to give the Canada Wooden Ware Co., a bonus of \$4,000, a loan of \$20,000 (repayable in \$1000 instalments in from five to twenty-five years), extend the water system to the site of the factory, and agree to assess the company for only \$10,000 for fifteen years, and the resolution was declared carried unanimously. In case the company accept this offer, the terms will have to be submitted to the citizens.

I will mail you free to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart or the Kidney troubles of the stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't make a common error of treating symptoms only. Symptom treatment, the result of your ailment, and not the cause. Weak stomach nerves mean the inside nerves—mean stomach weakness, always. And the Heart, and as the Kidneys are well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by THOS. J. DURICK.

HEAVY JUDGEMENT.

London, July 17.—An unprecedented judgement for £887,000, or over four million dollars, has just been given by a London law court in favor of Senora de Beistegui, a Spanish lady, against Frank Lacroix Gardner, the Australian gold-mining millionaire. The action was brought to cause money loaned to be repaid. The lady loaned the money between 1895 and 1903. It was advanced in the form of cash securities, and through her secretary, Mr. Soberano, who is charged with conspiring with Mr. Gardner to defraud her. Of this money the lady through her counsel, asserted that she had never received a cent.

THE LOCK UP.

The minutes of the last meeting of our Town Council contain the pleasing information that at last something is to be done towards bringing the Lock-up to a more satisfactory condition from a sanitary standpoint. Better late than never.

LET US MANUFACTURE OUR OWN LUMBER.

The forests of the United States becoming rapidly exhausted, the paper used by the countries of North America and even by parts of Europe and Asia, must henceforth be manufactured from the product of Canadian woods. The demand for our pulp wood increases by leaps and bounds. But is it wise for us to export the raw material? The Americans buy our logs and manufacture the latter into paper, quadrupling their value. Or, if they buy our pulp, the greater part of the work of transforming the raw material into the finished product is still done in a foreign country. This is not a wise procedure. There is every facility for manufacturing paper in Canada. We have all the coal and iron, all the water and electric power necessary for the establishment and maintenance of vast industrial enterprises. There is no need for us to leave so much of our manufacturing to outsiders who contribute nothing to the social and industrial life of our nation. Let all the paper produced from our forests be made in this country. Let the foreigners who are now making it come over here and settle, and become Canadian. We have room for them, and are ready and willing to receive them. They will find Canada as good a place to live as any under the sun. As soon as an export duty is put upon unmanufactured wood, all parties concerned will quickly adjust themselves to the new conditions.

A GREAT CRIME.

The end of the great trial in Boise City, Idaho, is approaching, and will, in all probability, result exactly as the Mine Owners' Association desire. The trial has been evidently a farce from the start. Had the government of Idaho had any case to begin with, they would not have been compelled to conspire with the government of Colorado to kidnap Haywood, Moyer and Pettibone and carry them into Idaho in direct violation of the rights guaranteed all citizens of the United States by the Constitution of that country. Had the government of Idaho been right, it would not have been reduced to the necessity of trying the accused in a district where the people were prejudiced against trades unions, and by a jury made up entirely of men politically opposed to the defendants. Were the prosecution now

sure of the justice of its cause it would not be necessary for the court, which has admitted all evidence, direct and indirect, that might in any way be construed to the disadvantage of Haywood and the Western Federation of Miners, to rule that no evidence offered by the defence to show that there was a conspiracy on the part of the Mine-owners' Association, the Pinkerton Detective Agency and the governments of Idaho and Colorado to destroy the Federation by convicting and doing away with its leaders should be considered by the jury. The manner in which the trial has been conducted shows clearly that there is a base conspiracy to railroad innocent men to the gallows.

When Haywood has been pronounced guilty, then comes Moyer's turn, then Pettibone's, then the execution of all three—if the government dare.

As Roosevelt has denounced Haywood, Moyer and Pettibone as "undesirable citizens," the majority of the American people may for the moment tolerate such a high-handed piece of injustice as their conviction and hanging; but the reaction may be quicker and more deadly than the recent overturn in France that brought Alfred Dreyfus back from Devil's Island and forever palsied the arms and silenced the tongues of his betrayers and would-be murderers.

BATHURST.

Bathurst, July 22.—In the equity court here today the case of Alex. C. Brown against the Bathurst Electric and Water Power Company, Ltd., was begun. This is the action to recover damages for alleged injury done the plaintiff by the stoppage of water power in the Teteagouche River on which the plaintiff has two mills, a carding mill and a grist mill. The Bathurst Electric Light Company, Ltd., the plaintiff alleges, built nearer the mill than their act of incorporation allows and their plans were not passed by the Lieutenant governor-in-council and further before undertaking the said work, the defendants did not file a plan of their proposed work as provided by statute.

The plaintiff further complains that when the machinery of the defendants is shut down and the sluiceway closed, which always is the case during the day time, the water of the run is prevented from flowing on its usual way and the plaintiff is hereby prevented from using and operating his mills for long space of time.

The plaintiff further complains that the Teteagouche is a river frequented by salmon. The plaintiff has a good salmon pool just below the dam in which is a fish-way to permit the salmon to go up stream for spawning but there is no fish-way under the dam of the defendants.

The defendants deny that they hold the water by their dam to the injury of the plaintiff or they are making an unreasonable use of the stream.

J. Wilton Price and Geo. Gilbert, of Bathurst are appearing for the plaintiff and M. G. Teed, K. C., and N. A. Landry, of Bathurst for the defendants.

Resolution of Condolence From Northumberland Lodge, No. 17, A. E. and A. M.

Whereas it has pleased the Great Architect of the Universe, in His inscrutable Wisdom, to call from labor in this terrestrial sphere, our late Brother, P. M. John S. Benson, who for a great number of years was a faithful and zealous member of our Fraternity, punctual in attendance at Lodge meetings and ever willing to carry out the grand principles of Freemasonry;

And Whereas the members of Northumberland Lodge are desirous of recording the great loss they have sustained, and expressing their deep sympathy with the bereaved family of our deceased Brother, in their present affliction;

Therefore resolved, that while we bow in humble submission to the Will of Divine Providence, we deeply mourn the death of a Brother who endeared himself to all by his kind and courteous manner, and whose removal is a distinct loss to the Fraternity;

Further resolved, that a copy of this Resolution be forwarded to the family of the deceased, and handed to the Union Advocate for publication.

OBITUARY

ALEXANDER DAVIDSON.

Mr. Alexander Davidson of Upper Derby, who some time ago made an extensive lumber cruise in Newfoundland, died at his home Monday morning. Mr. Davidson was about sixty-five years old. For the last year he had suffered from paralysis. He leaves a grown-up family.

Mr. Robert Copeland of Eureka, Humboldt Co., California, is visiting his aged brother, Mr. Gavin Copeland here. While coming, Mr. Copeland visited some of his brother's children—Mrs. Oliver Williamson, in Chicago; David Copeland, in Boston; and Fred Copeland in Moncton. On his way back, after a month or two vacation here, he will visit another nephew, Mr. James Copeland at Silver Beach, Wash. Mr. Copeland has been absent twenty-five years and sees many changes especially in the shipbuilding industry.

Wedding Bells

WILLIAMSON - WARNOCK.

On Wednesday evening, July 17, a very quiet wedding was solemnized by Rev. D. Dack, in Regina, Sask., when J. Stafford Williamson, formerly of Newcastle, and Miss Bertha J. Warnock, of St. John, were united in marriage.

The wedding took place at the groom's new home in the presence of a few intimate friends of the contracting parties, including Miss Olive Williamson, sister of the groom. Mr. and Mrs. Williamson received many useful and valuable presents. After spending a short honeymoon in Victoria (B. C.), and other western cities, the happy couple will reside in Regina, where Mr. Williamson holds a very responsible position.

ELLENSTOWN.

Ellenstown, July 22.—Miss Isabelle Hill spent Sunday at her home here. Sunday evening she was the guest of Mr. and Mrs. Joseph McLean.

Miss Bertha Bovard of Newcastle visited Mr. and Mrs. Jos. McLean last Sunday.

Master Perley Quail sustained a bad accident a few days ago by cutting his leg with an axe. He will be laid up quite a while.

Mr. Newton Tweedie, who has been visiting his sister, Mrs. John Hill, returned to Houlton, Maine, on Wednesday.

Mr. Watson Hill spent Sunday at his home here.

Miss Mamie Shaddick is spending her vacation at Trout Brook. Mrs. Chas. Hamilton of Houlton, Maine, is the guest of her mother, Mrs. John Hill.

As none of the members attended the closing meeting of Castle Northumberland, K. O. K. A., which was to have been of much importance, especially to the boys who are spending the most of their holidays in town, the club will now be considered closed until Autumn.

On the complaint of Policeman Ashford, Mr. James Murphy was recently fined heavily for furious driving and cruelty to his horse.

An Englishman named Ashley was drowned at Campbellton, Sunday afternoon, by the capsizing of a canoe. His two companions managed to clasp the boat to which they clung till rescued by an Indian name Lababe. Ashley failed to catch the boat and sank.

Prof. J. E. Layton who is spending a short time here will be pleased to receive a few pupils in Piano or Organ. Any wishing to avail themselves of his instruction can make the necessary arrangements by calling at the residence of I. R. Leighton, or address P. O. Box 183, Newcastle, N. B.—43 iwp.

A SAMPLE.

We have received from an advertiser this week, the following letter, which is self-explanatory:—Anslow Bros., Dear Sirs—We are very thankful for your advertisement in your paper, as we have already secured a teacher, Yours etc.

A meeting of the ratepayers of Dalhousie was held Saturday night to consider the advisability of giving concessions to a new company of American capitalists on the consideration of building a plant for a long lumber mill, shingle mill and pulp mill. The company is the Cascapedia Trading Company, formed by leading capitalists of the United States owning seven hundred and eighty miles of lumber lands in Bonaventure. The plant will cost one million dollars and employ about three thousand men. The company wants a free site and will pay all county and school taxes and town taxes to eight hundred dollars. A vote on the question will be taken to-day.

Would Not Let Him Explain.

A detachment of soldiers was engaged in clearing a certain district in the Orange River Colony of supplies, and during the operations Colonel Shredlong's staff officer came up to a Boer farmer sitting at the door of his cottage with a large stack of oat straw in the background. "I have orders either to buy or destroy all forage and food in this district," said the officer. "I therefore give you notice that I am about to set fire to that pile of oat straw."

"I told you," began the stolid Boer as he removed his pipe from his mouth. "Oh, you may as well know straight off," interrupted the officer, "that resistance and objection are alike futile."

"But, would you please," once more began the farmer. "I have neither time nor inclination," was the impatient rejoinder of the officer as he hurried away. "Well, my dear," said the Boer to his wife, as the stack of straw burst into flame, and the officer went on his way rejoicing, "those Khakis are strange people. I wanted to tell him that I was de ot straw I had sold to de Colonel half an hour ago."

Thus saying, he meditatively flung the British sovereigns in his pocket. London Tit-Bits.

In the Police Court Saturday Scott Act Inspector Ashford, who is doing the best he can to destroy the liquor traffic in Newcastle, had a well-known party up for third offense. If convicted the defendant will have to go to prison this time. The case has been postponed a few days. Whatever may be the case in other towns, the Scott Act here is not now run as a kind of high license, but every case in which the witnesses can be depended upon is prosecuted vigorously.

By Henry Seton Merriman.

Copyright, 1904, by HARPER & BROTHERS

"No," said Meredith in his quiet, re-
fined voice—"no, no one can get it out.
Come, let us turn in. Tomorrow I will
go down the river with you. I will
turn back, and we can talk it over as
we go downstream."

CHAPTER VIII.

WHAT Meredith proposed to do
was to enter into a partner-
ship with Victor Durnovo,
and when the purpose of it
was accomplished to let each man go
his way. A month later Victor Durnovo
was in London. He left behind him
in Africa Jack Meredith, whose ca-
pacities for organization were develop-
ing very quickly.

There was plenty of work for each to
do. In Africa Meredith had under-
taken to get together men and boats,
while Durnovo went home to Europe
for a threefold purpose. First, a visit
to Europe was absolutely necessary
for his health, shattered as it was by
too long a sojourn in the fever ridden
river beds of the west coast. Second-
ly, there were rifles, ammunition and
stores to be purchased and packed in
suitable cases. And, lastly, he was to
find and enlist the third man, "the
soldierly fellow, full of fight," who
knew the natives and the country.

This, indeed, was his first care on
reaching London, and before his eyes
and brain were accustomed to the
roar of the street life he took a cab to
Russell square, giving the number ad-
dressed to the door of a gloomy house
in the least frequented corner of the
stately quadrangle.

"Is Mr. Guy Oscar at home?" he
inquired of the grave manservant.

"He is, sir," replied the butler, step-
ping aside.

Oscar came forward and shook
hands. His manner was not exactly
effusive. The truth was that their ac-
quaintance in Africa had been of the
slightest, dating from some trivial
services which Durnovo had been able
and very eager to render to the sports-
man.

"I'm all right, thanks," replied Dur-
novov. "I only landed at Liverpool yes-
terday. I'm home on business. I'm
buying rifles and stores."

Guy Oscar's honest face lighted up
at once—the curse of Ishmael was on
him in its full force. He was destined
to be a wanderer on God's earth, and
all things appertaining to the wild life
of the forests were music in his ears.

Durnovo was no mean diplomatist.
He had learned to know man within a
white or colored skin. The effect of
his words was patent to him.

"You remember the simlacine?" he
said abruptly.

"Yes."

"I've found it."

"The deuce you have! Sit down."

Durnovo took the chair indicated.

"Yes, sir," he said, "I've got it. I've
laid my hand on it at last. I've always
been on its track. That has been my
little game all the time. I did not tell
you when we met out there, because
I was afraid I should never find it
and because I wanted to keep quiet
about it."

Guy Oscar was looking out of the
window across to the dull houses and
chimneys that formed his horizon, and
in his eyes there was the longing for
a vaster horizon, a larger life.

"I have got a partner," continued
Durnovo, "a good man, Jack Meredith,
son of Sir Guy Meredith. You have,
perhaps, met him."

"No," answered Oscar, "but I have
heard his name, and I have met Sir
John, the father, once or twice."

"He is out there," went on Durnovo,
"getting things together quietly. I
have come home to buy rifles, ammu-
nition and stores."

He paused, watching the eager,
simple face.

"We want to know," he said quietly,
"if you will organize and lead the
fighting men."

Guy Oscar drew a deep breath.

"Then there is to be fighting?"

"Yes," said Durnovo; "there will be
fighting. We must fight our way there
and we must hold it when we get
there. But so far as the world is con-
cerned, we are only a private expedi-
tion exploring the source of the
Ogowee."

"The Ogowee?" and again Guy Os-
car's eyes lighted up.

"Yes. I do not mind telling you that
much. To begin with, I trust you.
Secondly, no one could get there with-
out me to lead the way."

"How long will it take?" asked Guy.
Durnovo tapped at his strange, cur-
tain-like mustache. His mouth was
hidden. It was quite impossible to di-
vine his thoughts.

"Three months to get there," he an-
swered at length, "one month to pick
the leaf, and then you can bring the
first crop down to the coast and home,
while Meredith and I stay on at the
plateau."

"I could be home again in eight
months?"

"Certainly. We thought that you
might work the sale of the stuff in
London, and in a couple of years or so,
when the thing is in swing, Meredith
will come home. We can safely leave
the cultivation in native hands when
once we have established ourselves up
there and made ourselves respected
among the tribes."

"Yes," said the Englishman, "yes, go
on."

"I suppose," Guy said after a pause,
"that there is the question of money?"

"Yes; Meredith and I have talked
that over. The plan we fixed upon
was that you and he each put a thou-
sand pounds into it; I put five hundred.
For the first two years we share the
profits equally. After that we must
come to some fresh arrangement should
you or Meredith wish to give up an
active part in the affair. I presume
you would not object to coming up at
the end of the year with a handy
squad of men to bring down the crop
under escort?"

"No," responded Oscar after a mo-
ment's reflection. "I should be able to
do that."

"I reckon," continued the other, "that
the journey down could be accomplish-
ed in two months, and each time you
do the trip you will reduce your time."

"Yes."

"Of course," Durnovo went on, with
the details which the knew were music
in Oscar's ears—"of course we shall
be a clumsy party going up. We shall
have heavy loads of provisions, ammu-
nition and seeds for cultivating the
land up there."

"Yes," replied Guy Oscar absently.
In his ears there rang already the
steady plash of the paddle, the weird
melancholy song of the boatman, the
music of the wind amid the forest
trees.

Durnovo rose briskly.

"Then," he said, "you will join us?
I may telegraph out to Meredith that
you will join us?"

"Yes," replied Oscar simply. "You
may do that."

"There is no time to be lost," Dur-
novov went on. "Every moment wasted
adds to the risk of our being super-
seded. I sail for Loango in a fortnight.
Will you come with me?"

"Yes."

When Durnovo had gone Guy sat
down and wrote to Lady Cantourne
accepting her invitation to spend a few
days at Cantourne Place, on the Solent.

He explained that his visit would be
in the nature of a farewell, as he was
about to leave for Africa for a little big
game hunting.

Miss Millicent Chyne was walking on
the sea wall at the end of the garden
with Guy Oscar. One of the neces-
sary requirements of a modern educa-
tional outfit is the power of looking
perfectly at home in a score of differ-
ent costumes during the year, and
needless to say, Miss Chyne was per-
fectly finished in this art. The manner
in which she wore her sailor hat, her
blue serge and her neat brown shoes
conveyed to the onlooker, and especial-
ly the male of that species (we cannot
in conscience call them observers), the
impression that she was a yacht-
woman born and bred. Her delicate
complexion was enhanced by the faint-
est suspicion of sunburn and a few ex-
ceedingly becoming freckles. There
was a freedom in her movements which
had not been observed in London draw-
ing rooms. This was Diana-like and in
perfect keeping with the dainty sailor
outfit; moreover, nine men out of ten
would fall to attribute the difference to
sundry cunning strings within the (Lon-
don) skirt.

"It is sad," Millicent was saying, "to
think that we shall have no more
chances of sailing. The wind has quite
dropped, that horrid tide is running,
and this is your last day."

She ended with a little laugh, know-
ing full well that there was little senti-
ment in the big man by her side.

"Really," she went on, "I think I
should be able to manage a boat in
time, don't you think so? Please en-
courage me. I am sure I have tried to
learn."

"I do not know if you have learned
much," he answered; "but I have."

(To be continued.)

RESTIGOUCHE

COUNTY COURT.

The July term of the Resti-
gouche County Court opened at
Dalhousie on the 16th, Judge Mc-
Lachy presiding.

The following criminal matters
were placed before the grand jury:
The King against James Fitz-
Gerald, for larceny.

The King against Frederick W.
McLean, for larceny.

The King against Alexander
Cook, for shooting at patrol boat
No 1, a vessel in the employ of
Canada.

After being advised by Judge
McLachy that there was suffi-
cient evidence to place Fitzgerald,
McLean and Cook on trial the
jury retired and in less than an
hour returned with the announce-
ment that no bills had been found.
The defendants in the three cases
were discharged from custody.

SAYS THIS IS BEST

A leading health journal in answer-
ing the question, "What is the best
prescription to clean and purify the
blood?" prints in a recent issue the
following:

Fluid Extract Dandelion one ounce;
Compound Salsolone, one ounce;
Compound Syrup Sarsaparilla, four
ounces.

Shake well and use in teaspoonful
doses after each meal and at bedtime.

A well-known physician states that
these are harmless vegetable ingre-
dients, which can be obtained from
any good prescription pharmacy.

This mixture will clean the blood
of all impurities. In just a few days
the skin begins to clear of sores, boils
and pimples. It puts vigor and
energy into run-down debilitated
men and women. For many years
Sarsaparilla alone has been considered
a good blood medicine. But while
it built up and made new blood, the
impurities remained within and the
good accomplished was only tempo-
rary. Sarsaparilla, however, when
used in combination with Compound
Salsolone and Extract Dandelion,
works wonders. This combination
puts the kidneys to work to filter
and sift out the waste matter, uric
acid, and other impurities that cause
disease. It makes new blood and
relieves rheumatism and lame back
and bladder troubles.

Ontario Capitalists May Build
Mills in Dalhousie or
Bathurst.

Dalhousie, July 17.—Senator
Edwards, of Ontario, and several other
wealthy capitalists, arrived here last
night to investigate the possibilities of
establishing large mills in the Bay
Chaleur country. These parties own
sixteen miles of timber limits in the
Bonaventure county, and they
are anxious to manufacture some-
where in close proximity to the
I. C. R. Inducements have been
offered at Dalhousie and Bath-
urst. New Mills is also mentioned as
offering many advantages.

Nature has done a great deal to
make Dalhousie an advantageous
location for establishing manufactures
of any kind, and the citizens would,
no doubt, encourage any large enter-
prise. The party will take several
days in looking over the different
Quebec points and the sites men-
tioned above. They will be accompanied
by Mayor Montgomery.

ORDINATION AT

MILLERTON.

Rev. J. F. Rowley Received Into
Methodist Ministry.

On Tuesday the 16th inst. a large
congregation was present in the
Methodist church at Derby, to
witness the ordination of the Rev.
J. F. Rowley to the ministry.

The Rev. J. Crisp, president of
the N. B. & P. E. I. Conference
presided.

After the usual questions had
been satisfactorily answered by the
Rev. Mr. Rowley, he briefly stated
the facts leading to his conversion
and call to the ministry.

The Rev. Mr. Crisp delivered an
impressive charge to the newly
ordained minister, and the Rev. M.
R. Knight, secretary of the Confer-
ence addressed the people, outlining
their duties to their pastor.

The following ministers assisted
in the service of the laying on of
hands: The Revs. M. R. Knight,
of Elgin, H. E. Thomas, pastor of
Wesley Memorial church Moncton,
A. D. McCully, of Bathurst, presi-
dent of the district, G. A. Sellar, of
Chatham, and H. C. Rice, of New-
castle.

The choir rendered music suitable
to the occasion. The services were
very interesting and impressive.
This is the first time a Methodist
minister has been ordained in this
district.

The Rev. Mr. Rowley, who now
assumes charge of the Derby circuit,
is a native of England. He is a
man of good ability. His labors
for the past two years at Chatham,
near Woodstock, have been very
highly spoken of, and he
enters upon his pastorate at Derby
under the most auspicious circum-
stances.

Next Sunday Mr. Rowley's
services will be as follows: In the
morning at English Settlement;
afternoon at Ellenstown; and night
at Derby.

PROSPEROUS YEAR FOR FREE MASONS.

Fifty-Second Annual Commu-
nication at Ottawa Last
Week.

GAIN OF 2,060.

Most Satisfactory Annual Address.
—One Thousand
Delegates.

Ottawa, July 17.—The 52nd an-
nual communication of the Mason-
ic Grand Lodge of Canada, opened
here this morning, with 1,000 dele-
gates in attendance.

The features of the first session
were the civic address, read by
Mayor Scott and the presentation
of the annual address, by Most
Worshipful brother J. H. Burritt,
of Pembroke, Ont., the Translator
of the Grand Lodge. In his ad-
dress, the Grand Master noted
the total membership now stand-
ing over 40,000. The capital ac-
count stands at \$114,852, after an
expenditure of \$34,351 for all pur-
poses, including benevolence. Finan-
cially the year has been the
most prosperous in the history of
the Grand Lodge. The Grand Mas-
ter asked approval of his action in
forwarding a cheque for \$1,000 for
the Masonic sufferers at Kingston,
Jamaica. Six warrants for new
lodges had been granted during the
year, and 13 lodges were dedica-
ted.

The Grand Master adverted to
the effort at the last session of
the Dominion Parliament to incor-
porate an Insurance society to be
known as the Masonic Protective
Association, of Canada, and de-
scribed the action taken by the
lodge to prevent the use of the
name of the order.

The report on the condition of
Masonry presented by Bro. Aubrey
White of Toronto, showed a total
of 388 lodges, six of which are un-
der dispensation. At the beginning
of the year there were 37,666 mem-
bers, and since then there has
been 2,888 initiations, 512 affilia-
tions, 153 restorations, or a gross
gain of 3,467. There were 592 re-
signations, 346 suspensions for
non-payment of dues, and 219
deaths, showing a net gain of 2,060.
The amount spent for bene-
volence by the Grand Lodge was
\$25,655, and by private lodges,
\$14,500.

WRECK ON CANADA EASTERN.

Three Cars Left Track and Badly
Damaged, But Nobody
Hurt.

There was another bad wreck on
the Canada Eastern branch of the
Intercolonial Railway on Tuesday
the 16th inst.

The mixed train which left
Fredericton in the morning only
got as far as two miles west of
Boiestown when three of the cars
left the rails. Two of the cars
turned turtle and were quite badly
damaged while the third did not
turn over.

District Superintendent Evan
Price and Assistant Superintendent
Thos. A. Hoben were passengers
on the train, and while they were
pretty badly shaken up they were
not injured; neither were the mem-
bers of the train crew.

The train was in charge of Con-
ductor Andrew Cruikshank and
Engineer Bedford Cummings, and
it is not known what caused the
accident, although it is thought to
have been brought on either by a
broken rail or a broken wheel.

The road bed was badly torn up
and the passengers of the express
from Chatham to Fredericton with
their baggage had to be transferred
at the scene of the trouble from
their train to one which had been
sent out from Gibson.

An auxiliary train was also sent
out from Gibson in charge of Con-
ductor Peter Keenan, and shortly
after six o'clock Tuesday evening
the line was cleared. The freight
passed over it that evening and the
trains have been running since as
usual.

THE GENERAL

MANAGER WED.

Nuptials of Mr. D. Pottinger and
Mrs. F. P. Reid Celebrated
on Wednesday.

Moncton, July 18.—At Barberley
Lodge, the beautiful home of Mr.
and Mrs. J. W. Y. Smith, High-
field street, last evening at half
past seven o'clock the nuptials of
Mr. D. Pottinger, General Manager
of the Government railway, and
Mrs. Fred P. Reid were celebrated.
The wedding is one of the most
interesting provincial events of
recent years and was a very quiet
affair, attended by only very im-
mediate friends of Mr. Pottinger and
Mrs. Reid. It took place in the
hall at Barberley Lodge, the room
being tastefully decorated for the
occasion. Rev. W. A. Sisan,
rector of St. George's church,
Moncton, performed the ceremony,
assisted by the Rev. E. B. Hooper,
former rector of St. George's church,
and now of St. John.

The bride wore a gown of pale
blue chiffon broadcloth, with biscuit
colored coat and hat. There were
no bridesmaid or groomsmen, the
wedding arrangements throughout
being characterized by the utmost
simplicity. After the ceremony
the wedding party partook of
supper.

They left on the Maritime Ex-
press for a wedding trip north.
There was a magnificent array of
wedding gifts costly and beautiful.

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced
by Scientists as Extremely
Dangerous—How the Dange-
r Can be Removed.

A keen discussion is being carried
on by some of the best scientists as to
the danger and "crime" of kissing, led
by Dr. Somers, Health Officer of At-
lantic City, and Dr. Nalpas, of the
Medical Faculty of Paris. They charge
the kiss with spreading grippe, scarlet
fever, measles, mumps, whooping
cough, typhoid fever, diphtheria, ery-
sipelas, meningitis, tuberculosis, and
many infectious skin diseases. They
suggest legislation on the subject, and
the posting of notices in railway sta-
tions, street cars and other public
places, but they say it would be use-
less to post them on verandas, in
cozy corners, porches, shady nooks,
or moonlit lawns. They also propose
compulsory legislation for methods of
disinfection of the mouth and purify-
ing the breath, especially with a view
to the protection of the innocent babies
who are particularly subject to infec-
tion. The greatest and most effective
purifier and germ destroyer known to
medical science for the mouth, throat
and breath, as well as for the blood,
stomach and lungs, is Psychine, that
triumph of the medical world that is
attracting almost universal attention
because of the wonderful results at-
tending its use. One of its recent tri-
umphs is told as a matter of experi-
ence in the following brief statement:

Dr. Slocum Co.
I am sending you photo and testimonial bear-
ing witness to your great remedy PSYCHINE. Your
remedy did wonders for me. I was about 28 or
30 years of age when I took PSYCHINE. The
doctor had given me up as an incurable case.
My lungs and every organ of the body were
terribly diseased and wasted. Friends and neigh-
bors thought I'd never get better. But PSYCHINE
saved me. My lungs have never bothered me
since, and Psychine is a permanent cure.
MRS. LIZZIE GARDNER,
519 Bathurst St., London, Ont.

Psychine, pronounced Si-keen, is ad-
mitted to be the most wonderful of all
disease and germ-destroying agencies.
For building up the run-down system
and curing all forms of stomach
troubles and diseases of the chest,
throat and lungs or head, it is simply
unapproachable. It is a reliable home
treatment. For sale at all druggists,
