### KLAN CEREMONIES

#### SEEN IN TORONTO

Toronto, Nov. 24.—In the burning of  
a "fiery cross" by white robed figures  
in the northern section of Trinity Col-  
lege grounds and simultaneously an-  
other in North Toronto Saturday  
night, Toronto experienced its first  
contact with the Ku Klux Klan.

Eye witnesses report that about  
8.30 p. m. either eight or nine white-  
robed figures came into view from  
the west side of the college building.  
The men forming the strange group  
were walking in twos and carried  
with them a wooden cross. On arriv-  
ing at the edge of the ravine the  
cross was fastened to an iron pipe  
stuck in the ground and set afire.  
There was no trouble in making it  
burn for straw was fastened to it.

The cross burned in the northern  
part of the city was much larger be-  
ing eight or ten feet in height. Before  
lighting the cross had been soaked in  
oil and bound with oil waste.

### AVONDALE.

John DeWitt and family have, re-  
cently moved into their new residence  
here, formerly occupied by E. H.  
Tompkins.

Mrs. E. H. Tompkins and daughter  
Ethel are guests of Mrs. Hutchinson,  
Houlton.

During the last week the younger  
set enjoyed an evening skating on this  
mill pond.

Mr. and Mrs. C. M. Dickinson and  
daughter, Doris, Lakeville, spent Sun-  
day afternoon with Mrs. Harry Carter.

mire.

### GRAND FALLS

The Ladies' Aid met at the home  
of Mrs. Errol Wilson on Thursday  
evening. There were 22 present, a  
good evening's work was accomplish-  
ed and a very nice lunch served. The  
ladies will hold a sale and serve sup-  
per on Thursday, the 27th in Glenn's  
Hall.

The W. A. held a food sale and  
also a fancy sale on Saturday the  
22nd. About 76 dollars was realized.

Word was received here yesterday  
(Monday) of the burning of T. D.  
Parent's lovely home at Fort Fair-  
field. Practically everything was lost.  
Eight horses and 21 cows were burn-  
ed. There was no insurance. This is  
the second time Mr. Parent has been  
burned out within a year.

who have been in the west the past  
three months, are home again.

Rev. R. J. Miller returned from De-  
bec Friday.

### FLORENCEVILLE

Report of Parent-Teachers' Associa-  
tion—Rev. K. M. Vallis and Ger-  
ald Boyer had narrow escape.

The Parent-Teacher Association of  
East Florenceville met in the school-  
house last Thursday evening at sev-  
en-thirty. A very good attendance  
made the meeting a success. The  
proceedings opened with "O Canada,"  
Miss Laura McIsaac at the piano. Af-  
ter the regular business had been  
attended to, Mr. Gilmore addressed  
the teachers and parents on the  
school situation as shown by the  
averages made on first two months'  
examination. He stressed home study  
and home influence. The effect of  
attendance at movies & reading such  
books as "Nick Carter" series was  
seen in the preparation of school  
work and in the character of the  
youth. This lecture was favorably  
commented upon.

The advisability of adopting voca-  
tional evening schools was discussed  
and it was decided that no action  
should be taken until a committee  
appointed for the purpose should re-  
port on the need for evening classes.  
Mr. William Stone and Mrs. Richard  
Smith were appointed as a committee  
to receive applications for the work  
and to consider the need for such  
classes.

Mrs. R. Semple and Mrs. P. R. Sem-  
ple entertained by rendering a vocal  
duet and Miss Laura MacIsaac and  
Miss Hazel Hunter gave a pleasant  
piano duet.

The meeting closed with God Save  
the King.

Rev. Mr. K. M. Vallis had a narrow  
escape from injury Sunday evening  
when he attempted to dislodge a radio  
aerial from the high tension electric  
light wire with which the wind had  
entangled it. The aerial had been  
caught by a cedar tree and drawn  
over the high tension wires and after  
a short time the motion of the tree  
caused it to wear the insulation thus  
causing a short circuit. Mr. Vallis  
with Mr. Gerald Boyer succeeded in  
getting a ladder against the tree and  
he then climbed up with a butcher  
knife to cut the aerial. It seems that  
just as he cut it, the current from  
the main line traveled over the aer-  
ial, giving Mr. Vallis such a shock as  
to throw him from the ladder and the  
current reaching Mr. Boyer, threw  
him down the bank to the main road.  
Luckily neither were seriously injur-  
ed.

Mr. and Mrs. Gilmore, Mr. and  
Mrs. William Stone and Mr. and Mrs.  
Richard Smith were calling on Mr.  
and Mrs. Franklyn Lovely on Friday  
last.

Mrs. Elizabeth Stone has returned  
from Stanley where she was visiting  
her son-in-law, Thomas Buchanan.  
With her returning to her son's home  
were Mr. Clifton Stone and Mr. Mc-  
Intyre.

Preparations are under way for  
Christmas programmes in the schools  
and churches.

### WOODSTOCK'S NEW MILL FIRM.

The Flemming-Melville Company,  
successors to the Smith Lumber Com-  
pany of Woodstock, have organized  
with the following officers: Hon. J. K.  
Flemming, president and manager;  
H. J. Flemming, secretary, and G. E.  
Melville, manager and treasurer. The  
company has men in the woods get-  
ting ready for the spring operations.  
They intend cutting about 1,000,000  
feet of lumber and will employ 35 or  
40 men. Since organization, the firm  
has sent away ten carloads of lum-  
ber. It will manufacture barrels, long lum-  
ber, laths, shingles and telephone  
poles, as well as hardwood in the  
rough state. Having connections with  
the big firm at Juniper, with its well-  
developed market, this firm will go  
into the wholesale business and can  
buy and sell to better advantage than  
can smaller firms. Among other things  
it will buy and sell pulpwood. It is  
one of the best equipped mills in the  
province.—The Press.

### H. D. ACRES COMING TO ST. JOHN

H. D. Acres, hydro electric expert  
is coming here from Ontario on  
Thursday to meet the members of the  
New Brunswick Electrical Power  
Commission for a final conference  
before New Brunswick's application  
for permission to proceed with the  
development of Grand Falls on the St.  
John River is filed with the Interna-  
tional Waterways Commission. Chief  
Engineer S. R. Weston, of the com-  
mission, said yesterday that it was  
now expected that the formal appli-  
cation would be presented to the In-  
ternational Waterways Commission  
by Dec. 1, but that as the regulations  
called for 60 days to elapse from the  
filing of the application until the hear-  
ing could be held, it would therefore  
be early in February before action  
could be expected. In the meanwhile  
Chief Engineer Weston said, plans  
for the extensive works to be con-  
structed at Grand Falls were being  
completed by hydro construction ex-  
perts.—Telegraph-Journal.

### CHARLESTON

Thrashing grain seems to be the  
special note for this week. Everyone  
seems to have a good turn-out with  
an ample amount of dust.

Mr. and Mrs. Stanley Wilson spent  
Sunday at the home of the latter's  
parents, Mr. and Mrs. W. C. Nelson.

Mr. and Mrs. William Gillard at-  
tended the wedding of Mr. William  
Poyser in Bloomfield last Wednesday.

Mr. and Mrs. William White were  
calling at Mr. Ernest Gardiners on  
Sunday afternoon.

Mrs. Ernest Fewer and family, of  
Deerville, returned home Monday af-  
ter spending a few days with her moth-  
er, Mrs. Michael White.

Mr. Drake, salesman for Watkin's  
goods passed through here last Thurs-  
day.

Mr. William Greene motored to  
Deersville Monday.

Mr. and Mrs. Charles Gardiner  
spent Sunday with their son, Ernest  
Gardiner.

Mrs. Fred Rowland and little son  
Arthur, who have been spending the  
past week here with her father, Mr.  
Thomas Ketch, has returned to her  
home in Montreal.

Edward McAuley, Bloomfield is  
working for Mr. William Gillard.

The hunting party that left here  
last Monday, returned Saturday night  
with both moose and deer.

### COLDSTREAM.

Mr. and Mrs. Samuel Estabrooks  
have moved in with Mr. A. A. Belyea  
for the winter.

A hunting party consisting of Fred  
Nevers, Edmund Estabrooks, George  
Bubar and Will Bubar left for the  
Miramichi this morning.

Last week the Becaquimac was  
frozen over so solid that the young  
folks enjoyed skating for several ev-  
enings.

Rev. A. L. Tedford of St. John  
preached a very impressive sermon in  
the United Baptist Church here Sun-  
day afternoon.

Mae Estabrooks was visiting the  
Misses Hazel and Alberta Graham in  
Ashland a few days last week.

The C. G. I. T. met at the home of  
Mrs. Hatfield Shaw last Tuesday ev-  
ening.

The Canadian Girls in Training  
are giving a concert in the Baptist  
church of this place on December 4.  
All are cordially invited. A collection  
will be taken.

James Colwell, Enoch Estabrooks,  
and Claude Estabrooks motored to  
Centreville Sunday morning.

Glad to see Mrs. S. S. Page out  
again after having been confined to  
her home for several days.

Rudd Craig and son, William, are  
home again after an absence of sev-  
eral weeks at Coverdale where they  
have been engaged in yarding pulp-  
wood.

Wife: "Is my hat on straight, dear?" Husband (in a hurry): "Oh, yes, quite straight."

Wife: "Are you sure?" Husband: "Yes, do come along."

Wife: "Oh, dear, I must go back. You see, it is not fashionable to wear this kind of a hat straight."

## DEATH OF AGED LADY AT GREENFIELD

On Saturday evening at 6 o'clock Mrs. Mary Ann Wakem, widow of the late Robert Wakem, passed peacefully away. Mrs. Wakem was Greenfield's oldest resident, being eighty-five years of age. Mr. Wakem predeceased her about a year and a half ago.

Mrs. Wakem leaves to mourn four daughters, Mrs. B. McCain, Florenceville; Mrs. Wm. Peterson, Tracy Mills; Mrs. Warren Kinney, Brunswick; Mrs. John McLean, Washburn, Me.; also four sons, John of this place; Robert of Presque Isle, Me.; Jerry of Boston, Mass.; Malcolm of Norrington, Me.

Much sympathy is extended to the bereaved family.

## 717 POUND PORKER.

What might be described perhaps as the biggest pig in the world, was on Oct. 27th, converted into a porker by Mr. A. Shaw Lunn of Falmouth. When fully dressed and after hanging for three days the animal weighed 717 pounds. Before the butcher, Michael Warden operated on him, this elephantine pig weighed easily 750 lbs. His head alone tipped the scales at 113 pounds and his carcass contributed to the doughnut department of Mrs. Lunn's kitchen 4½ buckets of lard.—Windsor Tribune.

## TALKLESS PHONE FOR DEAF.

One of the most recent devices for use in communication between deaf mutes is a talkless phone that conveys messages by means of an alphabet printed on electric bulbs, says Popular Science Monthly. As the operator presses the keys of a special typewriter, wired electrically, the corresponding letters are lighted, spelling out the message. The invention is the work of William E. Shaw of Cambridge who was stricken deaf and dumb by sickness at an early age.

## CORN

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

## ANIMALS IN THE COURT

IN MIDDLE AGES EVEN WILD ANIMALS WERE TRIED.

Dog Was Brought Before Judge Morson in Ontario—Monkey Broke the Law—Chimpanzee Was Fined for Smoking—Doves Tried in Canada.

A dog once gave evidence in the Toronto Division Court and his testimony quickly decided a case. 'Twas a dispute between two men over the ownership of a collie. At length Judge Morson adopted the Solomon mode of justice and called for the animal to see if he would choose his rightful master. With a bark and a bound which quite scandalized the court attendants the canine romped into the room, instantly identifying by his show of affection, the man to whom he belonged. This episode at the Toronto City Hall ten years ago or more is brought to mind because in an American court in this year of grace, 1924, two human witnesses were called to give evidence concerning the good character or otherwise, of a dog. Under British law, a dog or horse is entitled to one bite or one kick without penalty. Should they transgress again the former fence counts against their masters and may in the case of the dog mean that animal's death.

During the Middle Ages and later, not their masters, but the animals themselves, were tried for any misbehavior with teeth, hoofs and claws or horns. Between 824 A.D. and 1906, says E. P. Evans, in his "The Criminal Prosecution and Punishment of Animals," 191 animals were tried. And this list does not include the trained chimpanzee which, on a one-night stand in Indiana, smoked a cigarette, thereby infracting a local law and incurring a fine of \$5 which its owner had to pay. But Evans' list does include the case, in 1306, of two Swiss robbers who, with a gigantic dog, set upon, robbed and killed a traveller. Under Swiss non-capital punishment law, the robbers went to jail, but the dog which did the slaying was sentenced to death.

Turtle doves were brought to trial in French Canada two centuries or more ago, which sounds even more ridiculous than the case in old France when a sow and piglets were found guilty of killing a child; the sow was solemnly hanged by the neck, and the piglets let off on account of their youth. Cotton Mather tells of a trial which took place in New Haven in 1662 when feeling about witches was running high. The defendants included a cow, two heifers, three sheep and two sows. Back in 1452 in Europe sixteen cows and a goat were haled into court.

Then there was the ass at Nismes in 1768, which, wandering into a church and drinking holy water was hanged and burned for sacrilege. There was the Russian he-goat banished to Siberia. Dolphins were tried at Marseilles, caterpillars in Italy. Eels, gaddies, snails and serpents have appeared in court.

"If an ox gore a man or a woman that they die; then the ox shall be surely stoned and his flesh shall not be eaten," declared a medieval statute which stated further that if the owner knew beforehand that his man-killing animal was vicious then both he and the beast should perish. As early as the ninth century it was customary to try domestic animals in the criminal courts and wild creatures in the ecclesiastical courts, the latter court frequently decreeing banishment or exorcism. The summons was read three times at a place frequented by the accused when they were to defend themselves, the judgment went by default.

Often the courts showed no haste, and it has been suggested that they did not relish being shown up as unable to enforce their decrees. They had the undeniable right of another, however. It was established, for example, in the proceedings against the vineyards of Mount Cenis in the sixteenth century. The case dragged for 42 years and filled 29 books of proceedings, and in the end a plot of ground was set aside in perpetuity for the beetles, for it had been proved that they had the right to live.

Many an ingenious plea came from the counsel for such defendants. One such is still admirably spoken of in legal works. The lawyer was Bartholomew Chassance, and his argument made him a reputation which carried him to the presidency of the Parliament of Province. The trial was in August, 1552. The accused were rats. They did not appear at the first citation. Clearly they had not been properly summoned, said Bartholomew. They would have to be summoned in every parish.

Granted, but still they failed to come to court. But, said counsel, to obey meant for the rats virtually a migration. They would need time. Granted, but still no defendants frisked into court. Thereupon Bartholomew addressed the court: "Your Lordships, many of my clients are aged and infirm, and many are sick; they need more time." The learned judge in their furred gowns gravely consented. When again the trial day arrived and no rats, he pleaded: "My clients have heard the order and are eager to come, but fear the cats, which have also heard and lie in wait. The rats are entitled to the protection of the court in obeying the summons."

So the court ordered bonds put up for all the cats. But the cats were owned by the plaintiffs in the action, and the owners would give no bonds. So the case went to the defendants by default—and Chassance was a made man.

Where the Pinch Comes. Customer in Shoe Store—This shoe pinches my joint. Salesman—Sorry, madam, but all the joints in town are pinched.—American Legion Weekly.

Three Rivers, Quebec, Has New Station

Citizens of Three Rivers, Quebec, regard the recent inauguration of the new Canadian Pacific Railway Station as marking a new epoch in the life of their city inasmuch as it affords proof of the status already attained by Trois-Rivieres as an industrial centre and of the greater prominence it is expected to occupy in the future. The new station building is the most up-to-date and magnificent of its kind in eastern Canada. Of its construction cost, not less than \$200,000 represents the amount of money spent in Three Rivers. Some idea as to the way Three Rivers has developed may be gathered from a few remarks made by E. J. Hebert, first assistant general passenger agent, Canadian Pacific Railway, in proposing a toast at the banquet that marked the official opening. "Until 1875 navigation was the only transportation facility," he said. "Then the Northern Railway was built between Quebec, Three Rivers and Montreal, but it was not until 1905 that industries began to appear. With the opening of the St. Maurice Valley Railway trade developed rapidly. The towns of Shawinigan Falls, Grand Mere, Cap-de-la-Madeleine, La Gabelle, small hamlets in 1905, have become important industrial centres, with populations respectively of 12,000, 7,500 and 3,000 people, while Three Rivers itself has over 30,000 population now and is still growing."

### HALIFAX CATTLE SHIPMENTS.

Cattle shipments to England from  
the port of Halifax, N. S., during the  
fall and winter months promise to be  
heavy, the first large shipment of thirty-  
five cars having recently left on the  
Devonian for Liverpool, England.

Live stock exporters announce that  
this is the first of ten thousand head  
which they propose shipping via Halifax,  
once the St. Lawrence route is closed.  
A steady feeling prevails in the  
Birkenhead market at Liverpool for  
Canadian fat steers and cows, but  
bulls are weaker and the market declined  
in price a little. Recent reports by  
cable from Glasgow stated that there  
were no Canadian cattle on the market  
there for sale but the supply of Irish cattle was fair.

### DEATH OF AGED LADY AT GLASSVILLE

The death occurred at her home in  
West Glassville of Emma Laing, wife  
of the late John Laing after an illness  
of three weeks. She was born in  
Spring Gardens, Halifax, N. S.,  
eighty-five years ago. The early part  
of her married life was spent in Boston  
while her husband served in the  
U. S. army as corporal in Co. F., 11th  
Massachusetts Regiment, Volunteer  
Infantry. After his discharge from  
the army, they came to West Glassville,  
taking up a farm in the unbroken  
wilderness, where a family of one  
daughter and seven sons were born.

The body of the deceased was laid  
to rest beside that of her husband in  
the Glassville Presbyterian Churchyard.  
Rev. Gordon Pringle of Kincardine  
conducted the service, taking his  
text from Rom. 5: 7, 8. There is left  
to mourn the loss of a kind and loving  
mother, four sons, Andrew and  
Gordon of West Glassville; David of  
Mars Hill Me., and James of Millinocket.

"I was a great sufferer from enlargement of the liver for ten  
months, and finally I had to quit work. I would wake up in the  
mornings with a bitter taste in my mouth, had frequent headaches,  
aches, yellow complexion, and pain in my right side, and between  
the shoulder blades. It was almost unbearable, and terribly  
weakening. I could not sleep at night and my heart also bothered  
me. But the whole trouble has now left me, thanks to that  
wonderful medicine, Dr. Chase's Kidney-Liver Pills."

## LOCAL AND PERSONAL ITEMS

"The Sunshine Trail," a scintillating comedy featuring Douglas McLean was the principal picture on the programme on Wednesday evening of last week. In this film young Sonny McTavish labored hard at all times to spread a little sunshine all along the way, and some of the terrible predicaments, his efforts got him into, were most ludicrous. Certainly no touch of tragedy entered into the making of this film. Two scenic reels and a Larry Semon comedy made a full bill. On Saturday evening Helene Chadwick was shown in "Of Her Own Free Will," which might well have been named "The Taming of the Shrew." After a good falling had been administered to the third party by the long-suffering husband, the little madcap became much saner. A good two reel comedy was shown. Read page two for this week's attractions.

On Thursday evening last, Mrs. B. W. Campbell and Miss Bertie West, gave a party to a number of friends at their home on Main street. The affair was staged as a sort of a thimble party, and the evening was most cordially spent by the guests in a flurry of talk and incidental fancy work. About eleven, daintily arranged tables were produced Aladdin-like whereat all present partook of most delicious refreshments. The guests present included, Mesdames James Crone; R. J. Lee, G. A. Jameson, A. R. Lee, J. B. Lee, B. E. Cliff, E. R.

McClintock, W. M. Bruce, C. H. Sullivan, B. R. Field, J. C. Stevens, Beecher Clark, and Misses Marion White, Faye Burt, Damey Burt, Laura Burpee, Laura Wilkinson, Winnie Clark, Addie Irvine, Annie McKay, Rovene Downey, Helen Ritchie.

Miss Addie Irvine, David Irvine and Miss Annie McKay left for their new home in the west on Tuesday. They have spent the past few years in Centreville, where their many friends will miss them. The two former will locate in Nelson, B. C., while the latter will go to Moose Jaw.

E. R. Stiles returned from St John where he has spent the two past months, on Thursday.

W. R. Alexander of Houlton spent Sunday with his mother, Mrs. J. E. Alexander.

A. B. Annis, D. C., has decided to locate in Fredericton and will open an office there forthwith.

Wood Tompkins has his lath mill below town on the river road ready for operation.

Mr. and Mrs. C. F. West of Presque Isle were in town on Saturday evening.

The Rev. E. Bridgewater will preach on Nov. 30th as follows: St. Barnabas, Greenfield, matins, 11 a. m.; Church of Good Shepherd, Florenceville, evensong, 3 p. m.; St. James, Centreville, evensong, 7.30 p. m. Rev. H. R. Bell will preach on Sunday, November 30, as follows: Centreville, 11 a. m.; Lakeville, 3 p. m.; Good Corner, 7.30 p. m.

### THE FARMER'S AUTOMOBILE.

November's snowfalls remind the farmer that the time has come for him to put into dead-storage that time-saving and comfort-giving friend his automobile, says the Montreal Family Herald and Weekly Star.

For the next four or five months, the normal condition of country roads will prevent the using of his car. In the cities, where travel is heavier and streets are cleared of snow, automobiles are now used the whole winter through.

Provincial Governments charge the same license fees for city and country owners, although the former take advantage of the license for almost double the length of time of the latter.

The farmer, that is to say, who uses his licensed vehicle for only seven or eight months of the year, pays the same price for the privilege as does the city man who runs his licensed car for the full twelve months.

No doubt the Provinces need, or at least can find a use for, all the money they can get; that their licensing of motors is on anything like a fair basis is they certainly cannot claim!

What is needed is a frank recognition of the fact that the farmer ought not to be expected to pay the same license fee for the automobile he uses for only six or seven months of the year, as does the city man, who is so favored by circumstances as to be able to use his automobile for the full twelve months.

And the Provinces may fairly expect to lose that proportion of the income from such licenses, as they now collect from farmers, for the months when their cars are laid by in dead storage!

### EVANGELISTIC MEETINGS.

Evangelistic meetings in the Tabernacle Baptist Church were opened yesterday when great inspiration was derived from the stirring messages of Rev. George F. Bolster of Hartland N. B., who will conduct the services throughout this week and for the first part of next week. Rev. D. C. Kane of South Devon, will follow Mr. Bolster and will conduct the meetings at the end of next week. Rev. A. L. Telford, pastor of the Church, was in Hartland, occupying Mr. Bolster's pulpit and will return to the city to assist with the services in his own church.—Telegraph-Journal.

### POTATO PRICES IN MAINE.

From 75 to 80 cents has been paid for potatoes in Fort Fairfield and vicinity during the past week. The offerings are rather moderate, mostly Green Mountains. There is a quite general feeling that soon after New Year's potatoes may sell in this region for between \$1.00 and \$1.50, although probably much nearer the former figure than the latter. Potatoes have recently been selling at near-by New Brunswick points for from \$1.00 to \$1.10.—Fort Fairfield Review.

### HAVE THE BEST ALWAYS.

When buying a newspaper the same rule should apply as when buying goods. You want the best for your money. There is one "best" in Canada and it should be in every home. You should have your own local paper without doubt, but you should also have the Family Herald and Weekly Star of Montreal. It is undoubtedly the greatest family and farm paper on the continent and at the low price of Two Dollars it is a wonderful bargain. This year the Family Herald is giving to each subscriber a chance to win as much as Five Thousand Dollars cash, and each subscriber receives a large calendar with a fascinating picture that would adorn any home. For those who secure new subscribers there are some very handsome rewards, which are described in a catalogue obtainable free.

### MOTOR FEES TOTAL EXCEEDS ESTIMATE

The motor Vehicles Branch of the Provincial Department of Public Works has announced that Collections of Motor Vehicle Fees resulted in a total of \$452,000 in the fiscal year which closed Friday. What slight additions may be made will not make any great difference in the total.

The estimate for the collections of Motor Vehicle fees for the year was \$405,000. The amount has been exceeded in collections by \$47,000 which is about 12 p. c. in excess of estimate. In 1923 the amount collected from the same source was \$376,901.57 which was considerably in excess of the estimated amount.

During the present year there has been a substantial increase in the number of motor vehicles in New Brunswick, the increase taking place in both trucks and cars. At the present time there is every indication that the purchase of 1925 models will be at a similar rate of increase.

## REPLY TO RATEPAYER.

Under the heading of "Unnecessary Expenditure" and over the signature of "Ratepayer," there appears in your issue of November 12, an article that can hardly be construed other than a criticism of the town council, and while constructive criticism is appreciated, and we would like to believe that this contribution has the redeeming feature of being well-intended, certain statements contained therein not in accordance with facts, renders this idea rather difficult to believe. No less than three incorrect statements were made in this article, viz. That the land cost \$300.00. 2. That the council proposed building the lock-up this year and the total cost would be \$2,000.00.

Firstly, we might point out that this block of land just cost \$175.00.

2. Secondly it has never been the intention of the council or any members thereof to have the building erected this year, but rather to get ready plans, specifications and estimates of cost to place in the hands of the 1925 council to deal with.

3. Thirdly we have received one estimate of cost in which we were informed that including land and plumbing, the total cost would be \$1,000.00.

Regarding the proposition of putting a basement under the Town Hall this has been considered by the police committee, council and prominent citizens and has been considered absurd as a location for a lock-up, but admirable as a cess-pool.

Also we might say the purpose of this reply is not to begin or prolong a newspaper controversy but rather in justice to ourselves and the ratepayers the facts should be made known as it is unfair to the ratepayers to be misled by misstatements published in a newspaper having the large circulation The Observer enjoys.

In conclusion we might say that it is no fault of the council if the ratepayers do not keep in touch with the general business of the town, as all should have interest enough in their own business to attend the meetings and get acquainted with the facts which would be the proper time and place, to offer constructive criticism and in passing, re second article of November 19, might say that we do not wish to criticize the men who gave us the splendid water system which most of us enjoy today. However, that is ancient history and would seem more fitting to say "well done good and faithful servants."

## THE RESULTS OF THE WEMBLEY EXHIBITION

By HERBERT N. CASSON  
(Written for the Boston News Bureau from London.)

In spite of a rainy summer, the big Wembley Exhibition, several miles north of London, has been visited by 17,400,000 people, among whom have been about 200,000 Americans.

After a run of 166 days, it has just been closed by the Prince of Wales. It has very nearly paid its way. There will be a small deficit that will be taken up by the government.

The general opinion is that it has been a success, but against heavy odds. It has had bad luck, as the English say. It has had bad weather for the last half of the summer, and it has had to contend against the hostility of a Labor government.

The Wembley Exhibition was, in its beginning, an attempt on the part of Britain to appreciate her Dominions and Colonies, for the help which they gave her during the war.

These Dominions and Colonies sent 1,250,000 soldiers to the aid of Great Britain. This generous response surprised and gratified the British people; and as a sign of appreciation, they conceived of a vast British Empire Exhibition, in which would be represented all the products, resources and peoples of the Empire.

The economic purpose of Wembley was to foster inter-imperial trade—to keep British money, as far as possible, at home. And the political purpose of Wembley was to make the different races of the Empire better known to each other.

To Be Held Again Next Year.  
Unfortunately, just before Wembley opened, a Labor government came into power, by a political accident. This government was much more interested in Russia than Canada and Australia; and it almost entirely ignored Wembley.

Two days before Wembley closed, the Labor Government was thrown out of office by a Conservative landslide, and the founders of the Exhibition are once more in power.

This means that the Exhibition will be held again next year, so as to give it a fair chance for a more complete success. Already Canada, Australia and Newfoundland have agreed to come in again in 1925.

The Wembley exhibition was strictly British, with two exceptions. There were two international conventions one on power and one on advertising. These were held at Wembley for the reason that the British people are vitally interested in cheaper power and better salesmanship.

Wembley was not all a mere exhibition. It was a masterly attempt to weld the different parts of the British Empire together.

The war shook England out of her complacent insularity. It made her realize, to a certain extent, the immense resources and possibilities of her scattered colonies.

The fact is that, before the war,

## THE FIGHTING BLADE.

The museums of New York City and the priceless collections of antiques of many multi-millionaire collectors of the metropolis were combed for art treasures used in giving historical authenticity to "The Fighting Blade," a massive production of a romance of the Cromwellian era, starring Richard Barthelmess, and released by First National Pictures, Inc. Many genuine antiques, including swords, cuirasses, furniture and saddles, were actually used, while others were copied. Students of that significant period in English history agree that John S. Robertson, producer of the picture, has achieved a production which is beyond criticism in the matter of investiture. This picture will be shown at the Neighborhood Theatre Saturday night.

## CHANGE IN SERVICE ON THE VALLEY RAILWAY

Canadian National Railways announce that effective December 1st, will run tri-weekly instead of every two weeks. Between Fredericton and Centreville time table as at present. There is no week day, operating on Tuesdays, Thursdays and Saturdays on same Passenger trains Nos. 47 and 48, be change in the schedule of the mixed train Nos. 243 and 244.

the average untraveled Englishmen knew as little about the outer parts of the British Empire as the average American knows about Alaska and the Philippines.

## Britain Getting Acquainted.

The word "Imperial" has never been very popular in England; and there are probably several million Englishmen who regard the Empire as a good deal of a nuisance. The English papers and reviews are constantly printing articles on "Do We need India?" and "Why Do We Keep Mesopotamia?"

So, Wembley was planned as an answer to the "Little Englanders," as they are called. It was originated to give the people of Britain a chance to become acquainted with the people and products of its own Empire.

Wembley amazed Britain by making known the fact that Canada is now one of the leading industrial nations of the world. Canadian exports have risen to \$113 per capita. They are now one-quarter as much as the exports of the United States. This, to England, is an almost incredible fact.

In a word, the trade of the Empire, outside of Great Britain, is larger than the trade of Britain herself. The big end of the British Empire is now the outside end. This fact was proved by Wembley, but is not yet realized by the British people.

Another result of Wembley has been an increase in co-operation between the Dominions and Colonies. Canada and Australia have for the first time, become acquainted. Already they have signed a trade agreement to give preference to certain products.

As one Australian said—"It's a pity we have to close this exhibition, just when we were beginning to like each other."

## The Spiritual Results.

Another result, too, that must not be forgotten is the spiritual effect. This is intangible, but it has been, perhaps, the most important of all the results of Wembley.

The outstanding event of the Exhibition was the Military Tattoo—a semi-patriotic, semi-religious pageant, which was repeated night after night to an audience of 100,000. At the conclusion of every performance, the vast host rose to their feet and sang that old British hymn—"Abide With Me." It was unforgettable.

In short Wembley was started in Britain as an after-clap of the war; but it has given a new meaning to the British Empire. It has created a finer and more practical spirit of patriotism which will lead to a greater development of the material, financial and spiritual resources of the English-speaking races of the world.

## Appointed Director Canadian Pacific

Ross Huntington McMaster  
The recent election of Mr. Ross Huntington McMaster to be a director of the Canadian Pacific, filling the vacancy created on the board by the death of the late Lord Shaughnessy, is a recognition on the Company's part of his long-proved ability. Mr. McMaster is already vice-president and director of the Steel Company of Canada and director of the Northern Electric Company, as well as the Canadian Explosives Company. Born in Montreal in 1880, he has lived practically all his life in that city. He was educated at the Montreal High School and Collegiate Institute. His business career began with the Sherwin Williams Co., of which he became assistant to the vice-president and general manager in 1897, a post he held until 1903. In the latter year he was made assistant to the vice-president and general manager of the Montreal Rolling Mills Company. On the formation of the Steel Company of Canada he was appointed manager at Montreal.

Married at Bath, by Rev. G. O. Giberson, Arnold Dyer of Bristol, to Miss Louis Stone of Lickford, Victoria County.

The death occurred on Wednesday November 12, of Mr. Archie Clark at his home in Holmesville, following an attack of heart trouble. He was 49 years old and is survived by his wife, one daughter, two sons and two adopted daughters. Mr. Clark was of a kindly and genial disposition and formed and retained very many friends who will hear of his death with regret. The funeral was held on Friday, November 14, from his home to the Primitive Baptist Church, Rev. G. A. Giberson attending, assisted by Rev. J. P. Quigg.

### CATTLE AND HORSES

#### PERISH IN BLAZE

Andover, N. B., Nov. 24—Fire early Sunday morning completely destroyed the fine property of Thaddeus Parent at the boundary line, together with all the pure-bred cattle and nine horses, one of which was a valuable trotting horse. The wind was blowing a gale and as the fire was well under way when discovered, it was impossible to save any of the buildings, the inmates barely escaping with their lives. Early in the summer Mr. Parent's buildings were burned and he had only just completed a fine new bungalow. There was no insurance.

Sam, while walking in the woods late one afternoon, was surprised by a wild-cat which proceeded to chase him to the top limits of a large oak tree on the edge of a deep canyon. The wildcat was climbing as fast as Sam and soon had forced him perilously near the decaying end of a long limb extending beyond the edge of the precipice. Sam decided it was time to remonstrate.

"Wildcat," he said impressively, "wildcat, does yo' make me go one inch furdah and yo' is gwine to have to jump a long ways fo' you' suppah."

### This Lizzie Has Her Colds "Rubbed Away"

The mother of this attractive little girl, Mrs. E. E. Emmans, of 215 Seventh Ave., N. E., Portage La Prairie, Man., is one of the many Canadian mothers who are enthusiastic about the vaporizing salve, Vicks VapoRub, for treating children's colds. Mrs. Emmans writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds."

Vicks is just "rubbed on" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so applied, Vicks has a double direct action: *internally* medicated vapors are inhaled while, at the same time, *externally*, it is absorbed through and stimulates the skin.

### HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could not do my own housework and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound."

—Mrs. CHARLES CARSON, 27 Forsythe Street, Chatham, Ontario.

Mrs. Carson is willing to write to any girl or woman suffering from female troubles.

### WHAT THE COUNTRY NEEDS.

What this country needs is not a new birth of freedom, but the old fashioned \$2 lower berth.

What this country needs isn't liberty, but less people who take liberty with our liberty.

What this country needs is not a job for every man, but a real man for every job.

What this country needs isn't to get more taxes from the people but for the people to get more from the taxes.

What this country needs is not more miles of territory, but more miles to the gallon.

What this country needs is more paint on the old place and less paint on the young face.

What this country needs isn't a lower rate of interest on money, but a higher interest in work.—St. Paul Crescent.

### THE POSSIBLE CAUSE.

A farmer in the Fredericton market on Wednesday last was discussing dry weather and said that it has been only in the last few years we have had so much dry weather. "Maybe he said, 'it is because there has been so much talk about Prohibition that even nature has gone dry.'"—Fredericton Mail.

### HARD ON DEER.

The snow-fall of this week has been eagerly waited for by big game hunters and there has been a big exodus to the woods during the past few days. It is said a foot of snow fell in the woods of the Miramichi, and in other sections the fall was considerably heavier than in the city. A number of deer carcasses came in yesterday and more are expected before the end of the week. Last year it will be remembered, there was no snow during the month of November and few deer were killed during the latter part of the month.—Fredericton Mail.

### WILLARD S. LEWIN SEEKS STATE PARDON

A pardon petition was received at the department of State Thursday from Willard S. Lewin, a prominent Houlton attorney, who, with Sheriff Edmund W. Grant of Aroostook county, is serving a year in Atlanta federal penitentiary for receiving "protection money from liquor law violators. A hearing will be held by the governor and council on Nov. 25.

Lewin and County Attorney Herschel Shaw of Houlton were convicted at the April term of the Aroostook supreme court on a similar charge and sentenced to one year in Thomaston state prison. Shaw began serving his sentence, but Lewin appealed to the law court which appeal was denied, and he is now serving his term for the federal offense, and the State sentence would follow his release from Atlanta.

"I am now in federal prison," he added, "serving my sentence and if I should be forced to serve in the state of Maine, I would be serving two terms for the same offense which seems to me unfair, unjust and improper."

"I wish to state in passing that until this unfortunate affair, my record as a citizen and as a member of the bar had been clean and unspotted.—Houlton Times.

### HOUSEHOLD SUGGESTIONS.

- Keep Hooks Low.**  
See that hooks are placed low enough in the clothes closet that children may hang up their own coats and wraps.
- Letters Handy.**  
Have all your kitchen containers lettered so that you do not have to handle more than the one wanted when you go for anything. And keep the covers on them when they are not in use.
- Be Careful.**  
Never buy second-class canned goods. Use those you have tested and know are reliable.
- A Shoe Tree.**  
A corset steel makes a good substitute for a shoe-tree.
- Use Cheap Spoons.**  
Never use silver spoons for scraping a kettle. Have cheap ware that will not be scratched and is used only in the kitchen.
- Select Potatoes.**  
When baking potatoes select those of uniform size, so that they will all be done at the same time.
- Use Potatoes.**  
Use the little bits of potatoes that are too small for the table by boiling, mashing and adding to the dough for bread or doughnuts. The proportion is two-fifths as much potato as flour.
- Green Peppers.**  
Sliced green peppers make a pleasant change from onions or mushrooms for cooking with beefsteak.

### THE MAN WHO FRET AT WORLDLY STRIFE.

The man who frets at worldly strife  
Grows sallow, sour and thin;  
Give us the lad whose happy life  
Is one perpetual grin:  
He Midas-like, turns all to gold—  
He smiles when others sigh,  
Enjoys alike the hot and cold,  
And laughs though wet or dry.

There's fun in everything we meet—  
The greatest, worst and best;  
Existence is a merry jest:  
And every speech a treat:

So, come what may, the man's in luck  
Who turns it all to glee,  
And laughingly cries, with honest  
Puck,  
"Good Lord; what fools you be!"  
—JOSEPH RODMAN DRAKE.

### PLANTING 6,000 VINES A DAY.

One of the most ingenious uses for the portable electric drill was demonstrated recently in the fruit growing territory of California, where a pair of automatic augers operating from one motor mounted on a small truck, bored holes for 60,000 grape vines in 10 days, says Popular Science Monthly. This resulted in a saving of \$400 a day over hand labor. Six thousand holes, three inches in diameter and eighteen inches deep were dug each day.

### A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother Selig's Syrup will correct faulty digestion and afford relief.

**NEW LAMP BURNS 94 PER CENT AIR**

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the money, and without experience or money make \$250 to \$500 per month. 11-13.

# NEW BRUNSWICK LEADS ALL PROVINCES IN THE YIELD OF POTATOES PER ACRE AND SETS NEW RECORD, SAY ESTIMATES

**Average Production of 155.8 Hundred-Weight Per Acre Highest Ever Recorded—Total Value of Canadian Crop in 1924 Placed at \$52,600,000 As Compared with \$56,397,000 Last Year—Estimates of Yield and Acreage for other Crops in Canada Given.**

Ottawa, Nov. 22.—The Dominion Bureau of Statistics has just issued a bulletin giving (1) a preliminary estimate of the area, yield and value of the potato, root and fodder crops of Canada for 1924, (2) an estimate of the areas sown in fall wheat and fall rye for the season of 1925, and (3) the percentage of land intended for next year's crops that was fall ploughed before the end of October. The estimates are based upon the returns of crop correspondents on Oct. 31. The areas of the potato, root and fodder crops are obtained through the rural schools in June last for all the provinces except Prince Edward Island, Quebec and British Columbia. For Quebec and British Columbia the areas are as estimated from the returns of crop correspondents at the end of June; for Prince Edward Island they are as estimated from the returns of farmers through the mails. The areas given for British Columbia will shortly be revised according to the returns received from farmers through the mails last June.

**Potato Harvest of 1924.**

The area planted in potatoes this year is provisionally estimated at 563,899 acres, as compared with 560,942 acres last year. The average yield per acre is estimated for the whole of Canada at 103 cwt., as against 99 cwt. last year, and the total yield is placed therefore at 58,069,000 cwt. as compared with 55,497,000 cwt. in 1923. The total value of the crop is estimated at \$52,600,000, as compared with \$56,397,000 last year, the average price per cwt., being 91 cents this year as against \$1.02 last year.

By provinces, the average yield per acre is highest in New Brunswick, 155.8 cwt., the yields of the remaining provinces averaging in cwt. as follows: Prince Edward Island, 155; British Columbia, 108; Nova Scotia, 107; Quebec, 105; Alberta, 94; Ontario, 93; Manitoba, 83; and Saskatchewan, 48. The yield in New Brunswick is the highest yet recorded, comparing with the previous record of 146.61 cwt. to 1918.

**Other Root and Fodder Crops, 1924.**

The area under turnips, mangolds, etc., is placed provisionally at 198,555 acres, as compared with 194,512 acres in 1923. The yield per acre is estimated at 20.3 cwt., as compared with 19 cwt. in 1923 and the total yield 39,967,000 cwt., as compared with 38,116,500 cwt. in 1923. The value is estimated at \$29,699,000, as compared with \$22,483,100, the average per cwt. being 52 cents for 1924 and 59 cents for 1923.

The estimated yield of hay and clover is 14,591,800 tons from 9,754,000 acres, as compared with 14,844,900 tons from 9,755,602 acres in 1923. For 1924 the average yield per acre is 1.49 ton and for 1923 it was 1.55 ton. The total value of the hay and clover crop is estimated at \$161,721,000, as compared with \$162,882,000 in 1923. The average values per ton being \$11.08 for 1924 and \$10.97 for 1923.

Alfalfa yields 1,055,000 tons from 474,204 acres, as compared with 1,028,600 tons from 391,116 acres last year, averages of 2.22 and 2.65 tons per acre, respectively. The total value is \$12,412,000 or \$11.76 per ton for 1924 and \$11,914,000, or \$11.58 per ton for 1923. The yield of fodder corn is 5,363,500 tons from 718,535 acres, as against 5,320,800 tons from 659,070 acres in 1923.

## HOCKEY PICTORIAL

### A "MASTERPIECE"

The editor has received a copy of the Hockey Pictorial which has just been published, and which is at once the handsomest and most complete publication ever produced in the world for any single sport. It is a marvel of good taste in artistry and industry of achievement. It is impossible to speak too highly of it.

The book represents years of effort typographical and pictorially, it is a "masterpiece." From cover to cover it is embellished with group pictures of championship teams from 1888 to 1924. In fact, the history of Canada's Great National Winter Sport is told in pictures.

Old-timers will be interested in the handsome halftone of the teams who were prominent a generation ago, while the younger enthusiasts will enjoy the reproductions of the more recent winners.

The book is not only lavishly illustrated, but is literally crammed with much interesting information regarding individuals, clubs, and leagues throughout the country.

Local hockey fans will find a very interesting group picture of the Canadian Olympic Hockey Champions of 1924 on the front cover and also a complete history of the players and records right to the finals.

The book sells for \$2.00 and can be secured by writing to the Hockey Pictorial, 84 Victoria St., Toronto.

## Here and There

During the past season the Canadian Pacific Railway used on all its lines approximately 6,500,000 ties, according to a report just issued. The woods used include British Columbia fir, hemlock, tamarac, jack pine, spruce, maple and birch.

Tourist traffic in New Brunswick during the past summer left nearly \$3,000,000 in the province, an amount almost equal to the total provincial revenue, according to an estimate of the New Brunswick Tourist Association. Approximately 70,000 tourists visited the province.

One thousand British Columbia rose bushes are being shipped to Portland, Ore., "the Rose City." Portland, famous all over the continent for its roses, buys the varieties produced in British Columbia because they are the hardiest and best suited for growing in North America.

Silver production in Ontario for 1924 will not vary materially from that of 1923, judging by figures available for the first nine months of the year from the reports of several operating companies, though some increases will be shown. Production to date has amounted to about \$19,500 a day.

Caribou have been seen in very large numbers this season in the northern part of Yukon territory. Old-timers say that the main herd must have numbered tens of thousands, while in some of the smaller herds that had broken temporarily from the main herd there were hundreds and sometimes thousands.

The very first aerial stowaway ever known was discovered recently aboard a plane in the Laurentide Air Service, Limited, operating on its Rouyn gold fields service in association with the Canadian Pacific Railway. The serious effect of the extra weight on the flying powers of the machine was so noticeable that it led to the man's discovery. As he had hidden himself with a desire to see his sick wife and child, he was not punished.

The enormous contribution to the wealth of Canada made by the Canadian Pacific Railway was alluded to by E. W. Beatty, K.C., Chairman and President of the Company, when, speaking at Welland, Ont., on November 7th, at the celebration of the 100th anniversary of the building of the first Welland Canal, he stated that the company in 1923 dispersed in the Dominion \$202,000,000 in wages and materials, and \$7,000,000 in taxes of all kinds.

November 7th was the 39th anniversary of the driving of the last spike in the main line of the Canadian Pacific Railway, an event which completed the Dominion's first transcontinental railroad, fulfilled the terms of Confederation and made Canada a nation. A stone monument now marks the spot at Craigellachie, in the Rocky Mountains, where Lord Strathcona (then Sir Donald A. Smith) wielded the hammer which united East and West.
