

STILL ANOTHER BRITISH LOSS

Seven Killed, Nineteen Wounded,
Near Aliwal North.

Paris Shooting Affair a Brief Sensation—Magnanimous Japan—More Lawlessness at Peking.

London, July 18.—The South African casualty list issued last night, indicates that sharp fighting occurred July 14, near Zuurvlakte, 24 miles from Aliwal North. The British lost 7 killed and 2 officers and 17 men wounded.

A BRIEF SENSATION.

Paris, July 18.—The firing of a pistol shot at Pierre W. Baudin, minister of public works, while he was driving to a cabinet meeting on Tuesday by Madame Olzewska, has proved a "one-day sensation." Explanations made today at the foreign office tend to diminish the sympathy for Madame Olzewska and her husband, who say the act was committed in order to draw public attention to their poverty and misery. It appears the Olzewska exaggerated the injury to their means of livelihood resulting from the arrest of Mr. Olzewska in Italy, charged with being a spy, and for which Italy refused compensation, on the ground that the arrest took place under normal conditions. The foreign office treated Mr. Olzewska well, giving him a position worth 5,000 francs a year. Instead of attending to his work himself, Mr. Olzewska farmed it out to others, and thus reduced his income from it to 1,500 francs.

JAPAN'S MAGNANIMITY.

Washington, July 18.—In a special, which has aroused the keenest admiration of the state department, the Japanese Government has met the difficulty growing out of the preference of her request for an increase of her indemnity by withdrawing the request. The result is a substantial loss to Japan. She asked originally for \$23,000,000. It was fixed upon the idea that the money was to be made in cash by China. Confronted with the bond payment the Japanese Government asked that her allotment be increased to \$27,000,000 in bonds to make good the loss she would suffer through their sale. As soon as some of the other nations found that the allotment as originally fixed was in danger of being disturbed, they came forward with requests for special consideration. At least the United States commissioner at Peking has been instructed to give the assent of the United States to the decision of the proposition to increase the Chinese customs duties in order to provide means for the payment of the international indemnity. The American Government is still opposed to this project, and the instruction is sent only in deference to the universal wish for a speedy conclusion of the negotiations at Peking.

LAWLESSNESS AT PEKING.

Peking, July 18.—Disorder and lawlessness have greatly increased in Peking since the police of the city was restored to the Chinese authorities. There are nightly burglaries by large bands of depredators, while Chinamen in the employ of Europeans are continually beaten and robbed. The German military authorities here have arranged for the withdrawal of all German troops in Peking, except the permanent establishment early in August.

SCOTCHMEN WILL CROWD THE HILL

Everything Points to the Big Success of
Next Thursday's Picnic.

One week from today the hills of Fort Stanley will resound with the shriek of the bagpipes, and their music will quicken the blood of thousands of Scotchmen from London and St. Thomas, and all the country round about. The pipers of the 45th Highlanders will arouse the memories of Scotland's sons, and when they rest the men of London will take their place. The 7th Band also will be on the grounds, so there'll be no dearth of music. All that is needed for success is fair weather, the committee has done the rest. Its members reported last evening that their work was nearly finished, music arranged for, judges of dancing appointed, and a splendid programme of sports prepared. One judge will come from Ottawa and one from Toronto. A steep-chase and beach races will be unique features. For all the contests good

You Are Not Sick But Feel Miserable

Nearly everybody seems to complain more or less at this season of the year. You feel the need of some tonic to put new strength and energy into the system. You don't sleep well, and suffer more or less from headache and dyspepsia. It may be you are depressed and discouraged, and feel the affairs of everyday life a burden. Little things worry and irritate you. You are not sick, but lack the vitality that is necessary for health and happiness.

There is one preparation which is doing wonders these days as a restorative and nerve invigorator, and that is Dr. Chase's Nerve Food. It is different from any medicine you ever used, for instead of tearing down the tissues of the body it builds them up, and so thoroughly fills the system with new life and vigor as to overcome pains and aches, weaknesses and irregularities. It is surprising what a host of people are using this great food cure. A few weeks' trial will convince you of its singular merit.

Dr. Chase's Nerve Food

50c a box, 6 boxes for \$2.50 at all dealers, or Edmanson, Bates & Co., Toronto. Agents wanted for Dr. Chase's last and complete receipt book.

Penny wise
and pound foolish—the women who economize by using cheap washing powders.
Few cents saved in price; fifty times as much lost in damage to clothes. The chances are that cheap powders are useless or dangerous. Many proved so. None works like **PEARLINE**, which is more economical, does more, saves more, risks nothing. **laundry wisdom**
Pearline

prizes will be given. The society's dinner will be held at the Fraser House at 7:30 o'clock.

SUSSEX MAN LEADS

The Canadians in the Alexander Match at Bisley.

Bisley Camp, July 17.—The total scores made by the Canadians at 200 yards in the Alexander match, seven shots at each disc, were as follows: Pte. Armstrong, 10th Royal Grenadiers, Toronto, 62; Sergt. Bodely, 5th R. C. A., Victoria, 59; Staff-Sergt. Crowe, 1st B. A., Guelph, 58; Lieut. Davidson, Q. O. R., Toronto, 56; Gunner Fleming, 5th R. C. A., Victoria, 62; Lieut. Gilchrist, 1st B. A., Guelph, 58; Sergt. Mortimore, 10th Regt., Toronto, 45; Pte. Maslin, 63rd Regt., Ottawa, 59; Lieut. T. J. Murphy, 7th Fusiliers, 50; Pte. Masters, 1st P. W. R. Fusiliers, 54; Sergt. Major McDougall, 3th R. C., British Columbia, 62; Lieut. Ogg, 1st B. A., Guelph, 53; Col-Sergt. Richardson, 5th R. C. A., Victoria, 33; Pte. Spencer, 48th Regt., Toronto, 63; Sergt. Swaine, 14th Regt., Kingston, 63; Sergt. Wilson, 43rd Regt., Ottawa, 63; Capt. Wetmore, 54th, Sussex, N. B., 65.

Though they failed to qualify for the second stage, several Canadians won prizes in the first stage of the King's prize contest. In the big list of competitors, Pioneer R. Moodie, of Ottawa, stood 34th, and Sergt. W. Swaine, Kingston, 37, winning \$1 each. W. L. Mason, Ottawa, was 44th; Pte. R. A. Armstrong, Toronto, 45th; Sergt. G. Mortimore, 402nd; Capt. O. Wetmore, Sussex, N. B., 41st, winning \$1 each.

In the Martin's challenge cup, rapid firing competition, 200 yards, standing position, with seven shots, Gunner Fleming, of Victoria, B. C., made 31 points, and Sergt. Major McDougall, of Victoria, 23.

From Near-by Places

ARKONA. Mrs. Kells returned home after visiting the Pan-American.

Mrs. (Dr.) Crawford and daughter, Ottawa, of Wallaceburg, are visiting at J. G. Brown's.

A number of our citizens attended the Conservative convention at Watford on Tuesday.

Mrs. M. McIntyre, of Thedford, visited Arkona on Tuesday.

Mrs. Rounding returned home after spending a few weeks in New York.

Rev. Hannan preached in the Methodist Church on Sunday evening.

Montague Fuller and B. Calvert were in town one day last week.

T. Poole and W. Meldrum, of Thedford, were in town on Sunday.

Mrs. J. Martin, Michigan, is visiting in town.

Miss Clara Britton, of Watford, visited friends on Sunday.

Several "buss loads" of Orangemen went through to Stratford on the 12th.

Miss Dunlop, of Watford, visited M. Dunlop, on Tuesday.

Mr. Oliver, of B. C., is visiting at his home.

CREBITON. Rev. R. W. and Mrs. Knowles arrived on their new circuit on Wednesday last and were given a hearty reception at the parsonage, on the evening of their arrival. A very large congregation greeted the new pastor on Sunday evening, and were more than delighted with the interesting and powerful discourse delivered by the reverend gentleman, from John iii., 2.

Rev. Knowles is a young man, but is possessed of a pleasing manner, a fine appearance, and presents the truth with distinctness, eloquence and power. On the whole, he has made a most favorable impression on his congregation who wish him a pleasant and successful year in his midst.

Marshall, Mo., a town of 3,000 inhabitants, on the Chicago and Alton railroad, 30 miles east of Kansas City, is reported to be burned.

McTurk, Evangelina G. Cunningham. Theory Department—Musical form—First class honors—Maggie Fraser, Flossie Holmes. Honors—Beatrice Crawford. First year—First class honors—Mary Brown, J. Meekison; Lily Wilcox, Nellie Cawthorne (equal), Dorothy Yeates, Belle Peace. Primary—First class honors—Margaret S. McGregor, Mabel Darling, Evangelina G. Cunningham, Lizzie McGresor, Jessie F. Hunt, Lizzie L. Boyse. Honors—Clara E. Saunders, Mary Nichol, Lena Little, Margaret S. Lawson (equal), Ada M. Smart. Part II. Only—First class honors—Mrs. Elena B. McTurk.

MR. GEO. F. BURNS BADLY INJURED

Son of Collector of Customs Thrown in
Runaway Accident.

Mr. Geo. F. Burns, son of Mr. Geo. Burns, collector of customs, was seriously injured in an accident near Geneva Lake yesterday. Mr. Burns was formerly a well-known business man here and is now in business in Chicago. His father got a short note this morning from Beaver Lake district, which said that Mr. Burns' horse ran away and he was thrown from his carriage. Both arms were broken and his neck and head were injured. No further particulars were given. Mr. Burns has been spending his holidays at Beaver Lake.

PRACTICAL WORK IN TOPOGRAPHY.

R. M. C. Cadets Will Make Port Dover Their
Headquarters This Summer.

The cadets from the Royal Military College, Kingston, who have been drafted to continue topographical survey work, as part of the college course, went on Monday to Port Dover, which place they will make their headquarters. They will operate along the shores of Lake Erie, east and west from Port Dover. A section of the squad will spend a week at Owen Sound, completing at the work along the Georgian Bay. The squad numbers twelve, and is under command of Major Straubenzee, R. C. A., with Captain Bogart, of the 14th Regiment, second in command.

SHIRT WAIST MEN PUT OUT OF COURT.

Virginia Judge Considered Their Presence
Impaired Court's Dignity.

Suffolk, Va., July 18.—Feeling that the court's dignity was impaired by the presence of shirt-waist men, Sheriff Baker yesterday, in pursuance of orders, cleared the circuit court-room of all coatless men. Some of them protested at first, but retired when they saw the official meant business. The day being warm, many of them who wished to hear arguments for the motion for a new trial for Henry Copeland, sentenced to be hanged on Aug. 7 for killing J. D. Story, had attended in shirt waists. When the sheriff had driven them out one of the excluded wagged another shirt waist man, he could not attend court without a coat. The man who accepted the bet was of short stature, and he stayed inside long enough to win before being observed.

KILLED TWENTY NATIVES.
Manila, July 18.—Patrick A. Connolly, of the 21st Regiment, was sent with 20 men to recapture the American taken prisoners in Milono, and made his first landing on the island Tuesday. He attacked the town of Calapan, and a score of natives were killed and the town was partly burned before the place was taken. Private Kidder, of the 28th Regiment, and Private Blake, of the 28th Regiment, were recaptured.

ANOTHER COMBINE.
Philadelphia, July 18.—The manufacturers of upholstery fabrics have formed a preliminary organization with a view to merging their interests in one corporation. Practically the entire upholstery fabric industry is confined to Philadelphia, and 20 concerns, which it is now proposed to bring together, represent about 2,000 broad looms. The declared object in uniting the interests is to bring about economies in the conduct of the business, to broaden the scope of the industry, and to prevent ruinous competition.

JUST WHY

Dr. Pitcher's Backache Kidney Tablet Has a Record of Cures Unparalleled.

Because it is not an experiment, not a "cure-all," but a modern, up-to-date formula, thoroughly tried and tested on many hundreds of cases in private practice, hospital and outdoor clinics.

A medicine that has kept pace with the times, and the advancement of medical science. A medicine confined to a particular range. One that does not promise more than it can do. A backache, kidney, bladder tablet, pure and simple, the same yesterday, today and tomorrow. This great kidney medicine is a boon alike to the young, the middle-aged and the aged. It was the people who successfully used Dr. Pitcher's Kidney Tablet that applied to it the term, "The Great Kidney Medicine," because it removed symptoms like the following that were starting them in the face every day, all the results of disordered kidneys—Backache.

Pain in the back.
Weak, sluggish circulation.
Purty or dark circles under the eyes.
Urine cloudy, milk-like or stringy, dark in color or offensive.
Painful, scalding sensation in passing it.
Dull, heavy headaches, tired, dizzy feeling, faint spells, irregular heart beats.

Urinary weakness, compelling frequent attention during the day, and to get up many times during the night. Restless, sleepless nights. Fagged out, run down and irritable.

These are some of the danger signals nature sets to show that the health is not clear, but kidneys clogged and Bright's disease stealing in.

If you are convinced Pitcher's Tablets are what you want, you can purchase them at your druggist's for 50 cents a bottle. If not obtainable at druggists, mailed free of postage on receipt of price.

The Dr. Zina Pitcher Co., Toronto.

BLOOD POISON

If you ever contracted any blood disease you never saw unless the virus or poison has been eradicated from your system. At times you get alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sores on throat, Ulcers on the tongue or in the mouth, Ringing Out, Aching Pains, Itchiness of the Skin, Sores or Blotches on the Body, Eyes Red and Smart, Dyspeptic Stomach, Sexual Weakness—indications of the disease. Don't trust to luck. Don't ruin your system with the old fogey treatment, mercury and potash—which only suppress the symptoms for a time, only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank heads, bank disbursements, and thousands of cases will never return. Thousands of patients have been already cured by our New Method Treatment for over twenty years. No experiment, no risk. A "patch-up," but a positive cure. The worst cases solicited. We treat and cure Nervous Debility, Sexual Weakness, Gleet, Blood Poison, Stricture, Varicose, Kidney and Bladder Diseases, and all diseases peculiar to men and women.

CURES GUARANTEED.
Consultation Free. Books Free. If unable to call, write for question blank for home treatment.

GRAND LODGE AT HAMILTON.

Governing Body of Ontario Masons in Session.

Annual Address of Grand Master Hungerford—Harmony and Good Feeling Among Craft.

Hamilton, July 18.—The annual meeting of the Grand Lodge of Canada Masons in the Province of Ontario was convened in the afternoon here yesterday forenoon in the presence of a large and representative gathering of the fraternity from all sections of the province, among others no fewer than eleven past grand masters. The eastern section of the jurisdiction is very numerous represented by the masters and past masters of lodges. After the routine ceremonies had been disposed of, M. W. Bro. R. B. Hungerford of London, England, delivered his annual address. The address was a very lengthy document, in which the grand master went very exhaustively into the work of the fraternity during the year. In the course of it he said: "I am pleased to be able to report that during my term of office the utmost harmony and good feeling have prevailed throughout the jurisdiction. At all events, not a single complaint of grievance has come under my official notice in the year just closed. While this condition of affairs is in keeping with the well-known tenets of amity and good fellowship inculcated by the craft, it is, nevertheless, an indication that the thirty thousand members of the craft in the Province of Ontario are at peace with themselves and the world, and that contentions and dissensions are exceptions rather than the rule."

RULINGS.
The following rulings were given during the year: That it is illegal to forfeit the deposit with the application for initiation, if the candidate fails to present himself; that voting in a lodge by proxy and proxy in a lodge is illegal; that grand lodge alone can confer the honorary past rank; that a district meeting cannot by resolution impose a tax on the lodges in the district to provide a regular grand master; that grand master. The grand representatives have been appointed during the year are named, among others that for the Grand Lodge of Ohio of R. W. Bro. David Burleigh, and for the Grand Lodge of R. W. Bro. L. G. Jarvis, who has left jurisdiction.

MASONIC RELIEF ASSOCIATION.
"I am pleased," said the grand master, "to place on record the continued prosperity and usefulness of this admirable association. Since its organization in 1885, it has been the means of detecting about 2,000 impostors. It has established lodges and Masonic boards of relief to contribute more generously to deserving members of the craft. As its president and grand master, I strongly recommend our continued affiliation with it."

After the grand master's report the grand lodge resumed business, with the following past grand masters on the dais: M. W. Bro. Stevenson (Montreal), J. K. Kerr, J. R. Robertson, and E. T. Malone (Toronto), J. M. Gibson, W. Gibson, J. J. Mason, Hugh Murray (Hamilton), W. L. King (Kingston), H. Robertson (Collingwood), R. White (Pembroke), and W. A. Sutherland (Rochester, N. Y.). Between 500 and 600 representatives were in attendance.

FRATERNAL WELCOMES.
His worship, the mayor, Bro. John A. Hendrie read a kindly and friendly address of fraternal good-fellowship, to which the grand master made a happy response.

The worshipful masters of the six Hamilton lodges were then presented to the grand lodge, and offered on behalf of the craft an address of welcome, which was especially fraternal and pointed throughout. Bro. Hungerford again replied in suitable terms to the visiting brethren's welcome.

M. W. Bro. Gilbert, of Bay City, grand master of the Grand Lodge of Michigan, and R. W. Bro. Neil Macdonald, of the Grand Lodge of Ontario, together with seven other members of that grand lodge, were then received with the most cordial of Masonic welcomes from the Canadian Grand Lodge. The grand lodge was then welcomed with the grand honors at the hands of P. G. Master Hugh Murray. Grand Master Hungerford delivered an address of welcome, which was exceedingly timely and appropriate on the occasion.

The report of the committee on printing and supplies, which recommended the payment of sundry accounts amounting to \$1,566.02, was adopted. The report was presented by R. W. Bro. J. S. Dewar, of London.

GRAND LODGE FINANCES.

R. W. Bro. George S. May, Ottawa, submitted the report of the finance committee, which gave a statement of the financial condition of grand lodge for the year. The receipts were \$23,459.88; the expenditures, \$21,638.15. Receipts over expenditures, \$1,821.73. The receipts last year were \$22,413.77, being an increase for the present year of \$946.11. The expenditures last year were \$22,229.11. The debentures held by grand lodge amount to \$55,000. The balance at the credit of current account in bank on June 3, 1901, was \$13,348.61, making a total of \$68,348.61. The debentures are as follows: General fund, \$31,856.88, and asylum fund, \$16,491.75. The grants to benevolence aggregated \$1,608. The report was adopted.

On motion of Bro. Brodick and Dewar, the amounts paid by the London lodges for new warrants to replace those destroyed by fire were remitted, as had been the intention of M. W. Bro. Malone at the time they were issued.

WARRANTS.

R. W. Bro. L. Secord, of Brantford, offered the report on warrants, which recommended that a warrant be issued to Zenophon Lodge, No. 448, Wheatley, Erie district; that the dispensations granted to Dundalk Lodge, Dundalk, George district; to the Peninsular Lodge, Kincardine Ontario district; Hawkesbury Lodge, Prescott, Ottawa district, be continued during the ensuing year; that a dispensation be granted to Avonmore Lodge, county of Stormont, St. Lawrence district, and that the following petitions for new lodges be not entertained: Century Lodge, Merlin; Russell Lodge, Russell, and Stormont Lodge, French, both of St. Lawrence district; and Royal Lodge, Fort William in Algoma district. Adopted.

R. W. Bro. R. L. Gunn, of Hamilton, reported from the board of benevolence that 137 lodges had been granted \$6,400, four lodges being refused; that 121 applications (2 refused) from local boards had been granted \$4,500 and that \$875 had been made as special grants—the total amount being \$11,975 for this year. During the past year \$340 had been granted by order of the grand master and board for

special reasons. Returns had been received from all the local boards.
M. W. Bro. Hugh Murray, chairman of committee on condition of Masonry presented a lengthy, concise, and able report reviewing the status of craft Masonry in the jurisdiction. Out of the 382 lodges on the roll, 351 had been officially visited, some of them several times.
A special excursion train for the Masonic fraternity is to run to the Pan-American at Buffalo this afternoon.
The Hamilton brethren entertained the delegates to a boat ride on Lake Ontario last evening.

CHAMBERLAIN BECAME ANGRY.

Harcourt's Pessimistic Criticisms Roused His Ire.

A Magnificent Masonic Ceremony—Drouth in Great Britain is Cause of Distress.

London, July 18.—In the course of a debate on the finance bill in the House of Commons yesterday afternoon, Sir William Vernon Harcourt (Liberal) trenchantly criticised the government's financial policy, and said those persons believing the statement that the general expenditure would fall after the termination of the war were living in a fool's paradise.
Sir William's speech, which was throughout undilutedly pessimistic, drew angry interruptions from Joseph Chamberlain, the colonial secretary.

The latter, in the course of his reply to Sir William, took a sanguine view of the situation in South Africa, said nobody doubted the war would soon be over, and that the Boers, beaten and returned to peaceful occupations, interest on the Transvaal debt and sinking fund would be easily payable out of the future revenue derived from the new colonies.

A MASONIC EVENT.

London, July 18.—In the Royal Albert Hall yesterday, His Royal Highness the Duke of Connaught, was installed as Grand Master of the Masonic Grand Lodge of England. In the presence of a great throng of brethren who occupied seats in the auditorium and the galleries of the celebrated building. It was a magnificent sight, and one that is rarely witnessed, for it is only the fifth ceremony of the kind that has taken place in England since the beginning of last century. Thousands of Masons, and none below the rank of past master, master or senior warden were allowed to attend. The hall was filled every seat in the vast hall, and the sight was one that will never be forgotten by those who enjoyed the honor of being present.

The office of grand master has been held by the Prince of Wales since 1874. When he ascended the throne of England, then his brother, the Duke of Connaught was chosen for this most exalted position. The Grand Lodge, held in session at Hamilton, sent greetings, and when the cable was read this morning, the fraternal enthusiasm was unbounded, and the sentiments of the brethren across the Atlantic were cordially received. The Earl of Amherst, pro-grand master, received R. W. Bro. G. W. Bennett, representative from the Grand Lodge of Canada, and presented him to the assembly. He was given a distinctive seat on the stage along with the officers of the grand lodge and the distinguished representatives, and he was also honored with a special line in the programme of the proceedings. The hall was placed with Ireland and Scotland in the royal procession. Every mention of Canada by the speakers brought forth repeated cheers, and the premier colony of the empire occupied a foremost place in the ceremony.

DROUGHT IN BRITAIN.

London, July 18.—Although Scotland and Ireland have recently enjoyed local thunderstorms, there is no prospect of rain in the middle and southern parts of England, and a steady increase of heat for several days to come is predicted. There are general complaints from the country that the sun is burning up the crops. The sunshine is everywhere greatly in excess of the average. London is a great sufferer from the heat, as the city has not been rain-washed in weeks. Sunstrokes, apoplexy and heat prostration are frequent, and the hospitals are busy. The live stock market is unusually crowded, as, owing to the absence of pastured farmers are forced to sell their cattle.

HARD TO BREAK

But the Coffee Habit Can Be Put Off

"I was a coffee user from early childhood but it finally made me so nervous that I spent a great many sleepless nights, starting at every sound I heard and suffering with a continual dull headache. My nerves trembled and I was also troubled with shortness of breath and palpitation of the heart. The whole system showed a poisoned condition and I was told to leave off coffee, for that was the cause of it. I was unable to break myself of the habit until I resorted to the first trial, the Food Coffee. The first trial, the Food Coffee was flat and tasteless and I thought it was horrid stuff, but my friend urged me to try again and let it boil longer. This time I had a very delightful beverage and have been enjoying it ever since, and am now in a very greatly improved condition of health."

My brother is also using Postum instead of coffee and a friend of mine, Mr. J. who was a great coffee user, found himself growing more and more nervous and was troubled at times with dizzy spells. His wife suffered with nausea and indigestion, also from coffee. They left it off and have been using Postum Food Coffee for some time and are now in a perfect condition of health." Grace C. M., Cuyahoga Falls, Ohio.

Put a piece of butter in the pot, the size of two peas to prevent boiling over.

There are 40 counties in Texas which have to seek legal advice outside their limits, as they have not a single attorney of their own.

Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly colored urine, and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure.

The Forth bridge is constantly being repaired. So vast is the structure that it takes 50 tons of paint to give it one cent, and therea deal with is something like 120 acres.

RADWAY'S PILLS

Always Reliable. Purely Vegetable.

Perfectly tasteless, elegantly coated, purge, regulate, purify, cleanse and strengthen. RADWAY'S PILLS for the cure of disorders of the Stomach, Bowels, Kidneys, Bladder, Nervous Diseases, Dizziness, Vertigo, Costiveness, Piles.

Sick Headache, Female Complaints, Biliousness, Indigestion, Dyspepsia, Constipation and All Disorders of the Liver.

Dr. Radway & Co.—As an introduction, I must make the following remarks: Had each one of the lawmakers of our country the virtues and powers of your pills before me, I would soon become a parasite. That your pills would conquer the obstinacy of my complaint is more than I could believe. The movement of my bowels is as regular as the works of a good watch. I began with four pills and decreased to two, and for a time took one two hours before dinner, and have a free movement of the bowels every morning. It is seven weeks since I have taken any other pills, but still have regular movements every morning.

Kind gentlemen, I wish further to tell you a poor washerwoman that suffered from a tumor and would have paid \$150 for an operation. I dissuaded her from doing so. Owing to her tumor she was obliged to stay in bed, but now she has gone to Pennsylvania, cured through taking your Pills and Resolvent as you direct in your treatise on tumor. Respectfully,
A. WITMER,
542 East 134th street, New York.

Messrs. Dr. Radway & Co., New York: Gentlemen—Please send me by return mail one box of your pills, for which you will find 25 cents enclosed. Having had them, I would not be without them. They are something every family should have. Yours truly,
T. A. PETERS.

ONE TO THREE OF RADWAY'S PILLS, once in twenty-four hours, will secure regular evacuations from the bowels. Persons who for twenty years have not enjoyed a natural stool, and have been compelled to use injections, have been cured by a few doses of Radway's Pills.

True Comfort for the Aged and Others Afflicted with Costiveness and Paralysis of the Bowels.

Persons advanced in life often suffer from indigestion, and from paralysis or inability to evacuate the bowels. We have the evidence of a large number of aged persons from 80 to 90 years of age who had daily been compelled to resort to injections to empty the bowels, have been cured by the use of Radway's Pills. These pills every night in all cases insure a natural evacuation from the bowels, and the regular flow of urine. Persons where there is irritation of the bladder, Radway's Resolvent should be used with the Pills. If these organs are kept regular, life may be extended to the measure of time. Another great end is secured by nourishing the body with these remedies—the faculties will remain in a healthy condition for a week, feeling and decaying body entitles the intellect and clouds the brain.

Price 25c Per Box Sold by Druggists or Sent by Mail.

Radway & Co., No. 7, St. Helen St., Montreal.

Be sure you get "Radway's" and see that the name is on what you buy.

Sweet Home Soap

is the top notch of economical effectiveness. It does its work, and does it well. There is the safety of certainty about it.

ARCHITECTS.

MOORE & HENRY—ARCHITECTS, LAND SURVEYORS, CIVIL ENGINEERS. John M. Moore. Frederick Henry.

DRESSMAKING.

DRESS CUTTING SCHOOL—MRS. K. PHANKE, 233 1/2 Dundas street. Instructions in art of cutting and fitting ladies' costumes. Hours, 2:30 to 9:30 p.m.

EDUCATIONAL.

BOOK-KEEPING, SHORTHAND, TYPE-WRITING, penmanship, etc.—A complete business or shorthand course at the Western Ontario Shorthand and Business Academy, 76 Dundas street. Every graduate guaranteed a situation. For terms apply W. C. Coe, C.S.R., 76 Dundas street. ywt

London, Thursday, July 18.

Mining in Ontario.

The tenth annual report of the Provincial Bureau of Mines for the year 1900 has just been published, and owing to recent developments in the mining industry is of more than usual value and interest. In addition to the details showing the production and status of the different branches of mining, it records the investigations steadily pursued under the direction of the bureau as to the geological formation and economic value of mineral lands in New Ontario, where the indications are such as to encourage prospecting, rendering it a useful guide to those practically concerned in the development of our mineral resources.

The very copious statistics compiled by Mr. T. W. Gibson, by whom the position recently resigned by Mr. Archibald Blue as director of mines is ably filled, give the aggregate value of the mineral products of the year at \$9,293,624; an increase, notwithstanding the decline in the gold output, of ten per cent over the output of 1899, valued at \$8,416,083. This rate of increase has been more than maintained during the first three months of the present year, as shown by figures dealing with the metal production only of that period. The number of men employed was 10,934, who drew in wages \$2,366,601, both being largely in excess of the figures for the previous year.

Gold production has fallen off owing to the closing down of mines, some of which were ill-considered ventures, while others will resume operations. The output for 1900 was 18,767 ounces, of the value of \$297,861, as against 27,594 ounces, valued at \$424,568 the year previous. Silver, on the other hand, shows an increasing yield. While the production of 1899 was 105,467 ounces, value \$65,575, that of last year was 160,612 ounces, value \$96,367.

The increase in iron mining operations is the most hopeful and satisfactory feature of the year's progress. This important industry, upon which the future prosperity of Ontario as a manufacturing country is largely dependent, has taken a forward stride owing to the development of the Helen mine, which affords the blast furnaces a good supply of native hematite ore. The total amount of iron ore taken out during the year was 90,302 tons, valued at \$111,805, being an increase of 73,391 tons and \$80,854 over the product of 1899. Iron mining gave employment to 438 workmen, as against 100 for the previous year, and the wages bill went up from \$26,700 to \$107,583.

The value of the pig iron product was \$396,066, being \$127,909 over the value of the previous year's output. A most satisfactory development in connection with this industry is the large and increasing production of the raw material of home production. The number of tons of native ore smelted in Ontario furnaces in 1900 was 22,887, being 23 per cent of the total amount of ore treated. With the opening up of the Michipicoten mines, however, this proportion is largely increasing. Statistics with regard to metal production during the first three months of the current year show that the percentage of Ontario ore worked up into pig iron had risen to 43 per cent, so that it is altogether likely that in a short time the demand for hematite may be wholly supplied from Ontario mines. The men employed at the blast furnaces numbered 439, or more than double the staff at work in 1899, and they received \$97,915 in wages.

There has been a substantial augmentation in the output of nickel and copper in the form of matte, the quantities being respectively 3,540 tons nickel and 3,364 tons of copper. The value of the yield of nickel was \$756,626, as compared with \$526,104 for 1899; of copper \$319,681, as against \$176,236. The workmen employed in the nickel and copper mines numbered 1,444, and their receipts for wages were \$443,879.

Steel figures for the first time on the list of metallic products—the output being 2,319 tons, valued at \$46,380. Two other substances, corundum and felspar, have also been added to the list. The former of these is likely to figure as a prominent factor in Ontario's mineral products in the near future, as mining operations for its production are being undertaken at several points. Mica is another mineral which is assuming prominence, several large deposits having been recently found in Frontenac and Lanark counties, which are being extensively exploited. The production is stated at 643 tons, valued at \$91,750. The value of the product for 1899 was \$98,000. The output of cement is valued at \$698,015, or an increase of \$136,749.

While petroleum products show a gain in value, natural gas is diminishing in output, although eleven new wells were sunk during the year.

There is much other interesting mat-

ter in the report, particular attention having been given by the specialists representing the bureau to the iron-bearing regions of New Ontario. Prof. A. P. Coleman treats the subject in a comprehensive manner, pointing out the similarity of formation and geological conditions existing between our iron-bearing districts and those of the American shore of Lake Superior. There is also a paper by Frank N. Speller on the Metallurgical Industries of Sault Ste. Marie, giving a detailed description of the steel-making plant installed there.

The facts embodied in this well-prepared and valuable document bear conclusive testimony to the success of the forward policy inaugurated by the Administration of Hon. George W. Ross in giving an impetus to the development of our long unutilized natural resources. The judicious encouragement afforded to mining is bearing fruit in increased activity and the establishment of many new lines of industry. A continuance of the present rate of progress, will before long place the mining industry in the position it ought to occupy as one of the leading factors in the prosperity of the Province.

Respecting Discriminatory Freight Rates.

For a number of years Canadian shippers and manufacturers have felt the burden of an unfair discrimination by railway companies in the matter of excessive freight rates. Manufacturers outside of Canada have received more favorable rates to consuming points within the Dominion than have been allowed to our local manufacturers. The citation of a few examples of excessive charges will make plain to those not directly engaged as shippers the extent of the grievances. The rate on calicoes and cambrics is less than car lots, from Liverpool to Vancouver is \$1 74 per hundredweight, while from Toronto to Vancouver the rate is \$1 73. On drygoods not otherwise specified, the rate from Liverpool to Vancouver, a distance of about six thousand miles, is \$2 60, while from Toronto to Vancouver, considerably less than half the distance, the rate is \$2 85, or 25 cents per hundredweight more. Our own producers have been subject to similar treatment when competing with rival firms in the United States. The rate on paper from Holyoke, Mass., to Vancouver, by the Canadian Pacific dispatch, is \$1 05 per hundredweight, while from East Angus, Que., it is \$1 33 and from Toronto \$1 20. The rate on corrugated iron from Pittsburgh, Pa., to Vancouver is 50 cents per hundredweight, as compared with \$1 25 from Toronto to the same place.

The Dominion Government has appointed a special commissioner in the person of Professor S. J. MacLean, of the University of Arkansas, to inquire into the alleged grievances. Professor MacLean, who is a Canadian and a graduate of Toronto University, has won for himself a reputation in the domain of such investigation as will be required in the present instance. His report should be of great value, embodying as it will, the pros and cons, together with a mature opinion as to the proper way of remedying the grievances.

Professor MacLean will hold an investigation in the Board of Trade rooms here in London on Monday, the 22nd inst., at ten o'clock in the forenoon, to investigate the rate grievances of this district. It will be necessary for those interested to submit a formulated statement containing detailed information of any objection they have to the present charges.

It is quite probable that the Government will not content itself with mere investigation. This should, and doubtless will, be followed up by some means of redress. As soon as possible such legislation should be enacted that will protect our local manufacturers and shippers against extortionate freight charges.

Each season sees a great increase in the number of electric fans.

The public will be glad to hear there will be plenty of music at the Old Boys' reunion. That will please more people than any funny business.

The Boston Transcript says: Socially and politically, anything that aids education helps to solve the great problem of keeping a democracy democratic, which is always present in a community in which final authority rests on the masses. Anything that helps to keep the diffusion of knowledge among the people continuous, unbroken, abundant, helps to perpetuate the republic. These gifts will go to organize no other aristocracy than that of intellect and worth that is essential to the well-being of a democracy.

Strike troubles are not the only ones which the big Steel Trust faces. There is the trouble of new competition or the investment of independent capital stimulated by the present high prices and profits of the trust and the possibility of forcing the great monopoly to buy up dangerous competitors at extravagant prices. The Iron Age notes that throughout the iron and steel industry old concerns not taken into the trust are strengthening their positions and increasing their capital, and new concerns are daily appearing whose aggregate capacity in particular lines of production will be large and very threatening to the monopoly project. In the matter of wire mills for example, it is said that outside mills are already in a position to supply one-third of the trade demand, and other independent mills are being built which will greatly increase the total independent pro-

duction. All along the line, it is said, "a very large amount of new money is flowing into the industry." It was to stop an extension of the Carnegie works that the old steel trusts were united in the present combination to take up the Carnegie company also; and yet here is actually under way an extension of independent production and competition in the aggregate far more formidable than the contemplated Carnegie extension which the big steel trust was organized to prevent.

Uses for a Pipe.

[Pick-Me-Up.]
The Juvenile Brain—Mamma—And what have you brought grandpa for his birthday? Tommy—A beautiful pipe, Mamma—But you silly boy, you know he doesn't smoke. Tommy (after a disconsolate pause, triumphantly)—Ah, but he can use it for blowing bubbles!

Telling Tales of Oneself.

[Dr. Samuel Johnson.]
A man should be careful never to tell tales of himself to his own disadvantage. People may be amused and laugh at the time, but they will be remembered and brought out against him upon some subsequent occasion.

A Handsome Return.

[Cleveland Plaindealer.]
An 1894 dollar has just been sold in Chicago for \$2,900. That is probably one of the handsomest returns on a modest investment of which the financial record makes mention.

Expediency.

[Washington Star.]
"On what platform will you stand in your next campaign?" asked the friend.
"I won't be any platform," answered the candidate. "I'll merely be a rough scaffolding, thrown together to meet the necessities of the occasion."

OUR TRADE WITH SOUTH AFRICA

Government Agent Tells How It May Be Developed.

The Smallpox Situation Shows Improvement—Trackmen's Strike Discussed—Other New Canadian News.

Ottawa, July 18.—A valuable report to Sir Richard Cartwright was received yesterday morning at the trade and commerce department from James Cumming, Canadian agent in Natal. Mr. Cumming says he has visited all the business towns in the colony and found a general demand for goods that Canada could supply at a profit better than can be done from any other source. He has also discovered that many of the smaller towns in Natal, and an agency in Durban, the only port of the colony. The large increase in the imports from the United States, Germany, France and Belgium are due to the efforts of these representatives and the easy modes of direct transportation. Durban is favorably situated for the Johannesburg trade, when peace is restored. If one of the two commission houses in Montreal or Quebec, says Mr. Cumming, would open agencies in Durban and keep travelers in the interior a profitable Canadian trade would be developed in lumber, timber, furniture, agricultural implements, carriages, boots and shoes, canned meats, fish and fruits, and at certain seasons butter, cheese, eggs, apples and vegetables. The country will not be able to feed itself for years, and with the wondrous gold developments that are at hand, now is the time for Canadians to obtain a share of the valuable trade awaiting them. The mercantile classes will give Canadian, as they now do Australian, goods the preference over those of any foreign country. In his intercourse with many of the legislators, Mr. Cumming says he found a strong desire expressed publicly and privately that when a new customs arrangement is made for South Africa the example of Canada should be followed, and Great Britain and the sister colonies be given the preferential trade advantage over the foreigner, and thus gradually bring about imperial federation.

THE SMALLPOX SITUATION.

Toronto, July 18.—The provincial health board issued a bulletin yesterday showing that the smallpox situation is greatly improved. There are in the province 51 cases scattered over eight counties and in the districts of Algoma and Thunder Bay. A new case was reported today from Wawa, Thunder Bay.

THE TRACKMEN'S STRIKE.

Orangeville, Ont., July 18.—The meeting called by the striking trackmen here last night was turned into a joint meeting in order that both sides should have an opportunity of presenting the facts of the case. It was somewhat of a disappointment that all eight foremen and six laborers, but two employees of the company, put in an appearance. The meeting was presided over by the mayor, and a few interested citizens were present.

SCHOONER SUNK.

St. John, N. B., July 18.—The steamer *Palawan* arrived here yesterday from New York and reports having run down and sunk the schooner *Roland* off St. John Harbor. The schooner was bound from Parrsboro for the Fog Island station, at Partridge Island. The *Palawan* took off the schooner's crew. The *Roland* was owned by Captain Roberts. She was valued at \$2,000 and is insured for \$500.

SUSPECTED MURDER OF A STRA-FORD LADY.

Ottawa, July 18.—The murder theory in connection with the finding of a young woman's body in the river here, is becoming more widely accepted, and efforts are being made to trace the identity of the woman. The body was found in the Ottawa River yes-

terday, and owing to the advanced decomposition it had to be buried last night. It is suggested that the body is that of Miss Marie Hoinyer, a correspondent, whose home is in Stratford. Miss Hoinyer was last seen a week ago, and the description tallies closely with that of the dead body. She is supposed to have left the city ostensibly to visit friends in Chelsea, near Ottawa, but she also intended going to Cobourg and to Winnipeg. No trace has been found of Miss Hoinyer since Tuesday. The head of the dead woman bore a large wound, surrounded by several smaller wounds. It is thought that the woman must have been pushed over an embankment on Parliament Hill, and struck stones several times in falling from the steep bank into the river near where the body was found. From the condition of the body, it is not believed that the woman was drowned. The inquest begins tonight, and in the meantime efforts are being made to find Miss Hoinyer.

THE NICARAGUA CANAL MATTER

Vexed Question May Be Settled Very Soon.

What Lord Pauncefoot Has to Say on the Subject—The Joint Commission.

London, July 18.—Lord Pauncefoot, British ambassador to the United States, made the following statement last night to a press representative: "I am having a conference with the Marquis of Lansdowne, not only about the Nicaragua, but also with regard to half a dozen treaties pending between Great Britain and the United States. These are chiefly concerned with West Indian reciprocity arrangements."

When asked if he thought there was any possibility of arriving at an agreement regarding the Nicaragua Canal before congress reconvened, he replied: "Yes, I sincerely hope so. We are now in the middle of the negotiations, which, although they have not yet reached any tangible result, show good promise. Naturally, I may not disclose the details, but I may say that when I return to the United States at the end of October I hope to take with me a Nicaragua treaty that will meet with both the views of President McKinley and the British cabinet. There is no more wasting time over treaties which the Senate is likely to refuse. I really believe the differences of opinion between the two nations are capable of settlement in an agreement fair to both. If I thought anything could be done before October I would return prior to that date, but I do not believe that anything would be gained."

Reverting to the report that a majority of the senate favored a neutral canal Lord Pauncefoot said: "It would be good news if true. I happen to know that Mr. Hay consulted the senate, both the section credited with other motives. You may be sure that whatever is agreed upon between the two governments will meet with the approval of the senate."

was likely to sit again in Washington, he replied: "Yes, I think it will, although this will not occur until after my return. The joint commission has thrashed out many points of difference between Canada and the United States, although the inability to agree as to the Alaska boundary and the sad death of Lord Herschel appeared, perhaps, when the Nicaragua matter has been justly and amicably settled, and the West Indian treaties between Great Britain and the United States even to a better basis of common understanding than exists today."

MINE STRIKE WIDESPREAD

For the Present Overshadows Steel Workers' Strike.

Close of Second Day Saw 65,000 Men Idle—Coal Company Officials Are Complacent.

Seranton, Pa., July 18.—There was an almost complete cessation of mining operations yesterday in the Lackawanna Valley because of the strike of stationary firemen. Less than a half-dozen mines, managed by individual owners and the group of Delaware, Lackawanna and Western Railroad mines in the West Scranton district, were the only ones in satisfactory shape for running when the whistles blew in the morning. The small operators had granted the eight-hour demand, and the firemen at the Lackawanna mines refused to quit, being affiliated with the United Mine Workers of America, and not with the Stationary Firemen's Association, General Superintendent Loomis, of the Lackawanna, reports all the company's mines in operation excepting the Cayuga, the Bliss and Auchincloss at Nanticoke, and the Woodward and Pettibone at Kimsford. Only six Delaware and Hudson collieries are in operation. Those idle involve 8,000 workmen. The Erie Railroad Company's mines, employing 12,000 men, located about Pittston, Avoca, Dunmore, Jermyn and Forest City, are shut down tight at present. With the pumps idle, the flooding of most of the mines is threatened, involving a destruction of property that will be enormous.

65,000 MEN IDLE.

Wilkesbarre Pa., July 18.—The close of the second day of the stationary firemen's strike found fully 33,000 miners idle in the Wyoming district of the anthracite coal region, which extends from Dursey to Nanticoke. The number of idle men was increased yes-

terday by the suspension of railroad crews on nearly all coal branches. No coal being mined, there is none to haul to the breakers consequently there is no work for the railroaders. The total number of men idle now in the whole anthracite region is estimated at 65,000. There are 40,000 mine workers in the Lackawanna region, but they are not all out. If the strike extends to the Hazelton, Schuylkill and Shamokin regions, 13,000 men may be idle before long. The tie-up in this region is complete, and the strikers are much encouraged. The holding engineers held a meeting in this city yesterday afternoon and discussed the situation from their point of view. Although the meeting was secret, it is learned from a pretty reliable source that the striking firemen received the moral support of those present. It is almost certain that none of the engineers will consent to take the places of the striking firemen. The strike leaders believe that before this can take place the strikers will become uneasy and insist on going to work. President Mullaly and State Secretary Gerpity went to Lackawanna county in the afternoon to address meetings there. Other officers of the association have gone to the Hazelton district.

COMPANIES NOT WORRYING.

New York, July 18.—President William H. Truesdale, of the Delaware, Lackawanna and Western Railroad, made the following statement yesterday with reference to the situation in the mines under the control of his road: "There is no change in the situation since yesterday. Up to the present the strikers have succeeded in closing only six of the mines, and we are not at all worried about that for we can fill the places of those who have struck at all times. However, as the strike is not causing us any inconvenience, we shall take no steps at present, but when we are ready, we shall fill the vacant places and go ahead as usual."

A QUEBEC LADY SATISFIED

Her Trial of Dodd's Kidney Pills Was Grand Success.

Boivin, Que., July 15.—(Special.)—It is becoming more and more certain every day that a trial of Dodd's Kidney Pills is sufficient to convince anybody of their worth. They are such an excellent remedy, so well calculated to relieve promptly and cure permanently in the end, that people once they try them cannot help but admit their wonderful power.

Mrs. Fanelle, of Boivin, only had to take one box, but she is a well woman today. Here is her own letter about it: "I am well satisfied with Dodd's Kidney Pills. They cured my backache. I suffered with kidney disease, which compelled me to take to bed; I suffered misery if I tried to get up. I thought I'd try Dodd's Kidney Pills, and did so. I have only had to take one box, but I am cured."

A RUNAWAY HORSE IN DENVER

The animal finished his flight by landing in the interior of a rapidly moving trolley car, where he rode for nearly a block before the vehicle could be stopped.

TO MAKE MONEY it is necessary to have a clear, bright brain, a cool head and strong nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

THE MARKETS.

THE LOCAL MARKET.

A. M. HAMILTON & SON'S REPORT.
London, Thursday, July 18.

Wheat, white, per bu.	66c to 67c
Wheat, red, per bu.	66c to 67c
Oats, per bu.	32c to 33c
Peas, per bu.	54c to 55c
Corn, per bu.	44c to 45c
Barley, per bu.	42c to 43c
Beans, per bu.	\$1.15 to \$1.40

Oats were firm again today, selling at \$1.10; supply light and demand good. Wheat was quiet, at \$1.10 to \$1.12; very little came in and the demand was light. No other kind of grain came in.

Hay was a little slow at \$7 to \$7.50. Live and dressed hogs were steady and unchanged.

GRAIN.

Wheat, white, per 100 lbs.	1.10	1.12
Wheat, red, per 100 lbs.	1.10	1.12
Wheat, spring, per 100 lbs.	1.08	1.10
Oats, per 100 lbs.	1.00	1.02
Corn, per 100 lbs.	.80	.85
Barley, per 100 lbs.	.80	.85

Dressed, heavy, per 100 lbs.	9.00	9.00

HAY AND SEEDS.

Hay, per load.	7.00	7.50
Straw, per load.	4.00	4.00
Straw, per ton.	6.00	6.00

For Housekeepers

There was a large attendance of farmers on the market this morning than on any previous Thursday for a long time. Berries and small fruits were the principal items of the offerings. The demand for the various kinds of fruits was good, and sales were speedily made at prices quoted.

Hay—Twelve loads sold at \$7 to \$7.50 per ton; sales are only fair.

Butter and Eggs—Butter is scarce. It is quite a task for the grocers to secure enough of first class butter to supply the present wants. Butter in crocks sold at 15c to 18c per lb; butter in pound rolls sold at 15c to 20c; inferior grades sold at prices quoted. Eggs are in good demand at prices quoted.

Potatoes and Vegetables—Old potatoes are in excellent demand, owing to the small deliveries of new stock. Two loads of old potatoes sold higher at 40c per bag by the load; new potatoes sold at \$1.40 to \$1.50 per bushel. Green peas, 10c to 15c. Tomatoes sold at 10c to 12c per lb by the basket. Other vegetables as quoted.

Fruits—Were well represented particularly raspberries, which sold at 8c to 9c per red and 7c to 8c per box for black raspberries. Cherries were in good supply, selling at 8c to 9c per quart by the pail, and 10c per quart retail. Other fruits are unchanged.

Dressed Hogs—More offered. Dealers are willing to pay \$5.50 per cwt for suitable hogs.

Poultry—Is scarce; none offered except by dealers.

PROVISIONS.

Cheese, per lb.	9 1/2	12
Eggs, single dozen.	11	12
Butter, large rolls.	17	19
Butter, small rolls.	17	19
Butter, creamery.	20	21

WHOLESALE DEALERS' PRICES.

Eggs, store lots, dozen.	10	11
Butter, lb. rolls, baskets.	18	20
Butter, creamery.	17	19
Butter, store lots, dozen.	10	11
Butter, creamery, per lb.	20	21

POULTRY.

Spinach, per doz.	15	20
Radishes, per doz bunches.	15	20
Green peas, per quart.	10	15

POWLEY'S LIQUIFIED OZONE.

Before very long you will find Powley's Liquified Ozone an established stand-by in every household; the best and most perfect antiseptic, cleansing, healing, useful in a hundred little ways; a preventive of disease and a cure for it. For example:

For a burn, cut or bruise, wet the part thoroughly in Ozone, clear, takes the sore away like magic, heals by "first intention" promptly and perfectly.

For a canker sore in the mouth, touch it with a bit of absorbent cotton wet in Ozone; that's the last of your canker.

For a sore throat, gargle with dilute Ozone at bedtime; sore throat gone in the morning.

For a stinging or poisonous insect's bite, wet it with Ozone, clear; you will be surprised at the quick relief.

For croup, diphtheritic sore throat, and the like, use Ozone as a spray or on a swab; apply it a compress; take it internally. It will cure like magic.

For catarrh and catarrhal colds, the effect is equally prompt and decisive. A bad headache will usually yield quickly to a few doses of Powley's Liquified Ozone taken twenty minutes apart.

Powley's Liquified Ozone is oxygen in a stable form; liquid; it does what you would naturally expect oxygen to do; antiseptic, stimulating, healing.

This letter evidences the many uses it has:

I must congratulate you in being so fortunate as to possess such a wonderful remedy for humanity's ills. I think it is the acme of perfection. Your remedy seems to cure every disease in the body. It goes directly to the weak place and fixes it up. I was used up generally—felt exhausted on the least exertion. Ozone has removed every vestige of the trouble. I now feel splendid and give Ozone the praise of it all. I trust you will have success as your reward for such a fine medicine. (Signed) JOHN N. GILLION, Markham, Ont.

50c and \$1.00 at bottle, at the druggists. Booklet and all out free.

PLYMOUTH GOLD MEDAL BINDER TWINE.

A. M. Hamilton & Son, Phone 663. 273 Talbot Street.

AMERICAN MARKETS.

CHICAGO, July 17.—Export sales and foreign news were influential in advancing wheat prices today. September contracts closed 1/2c to 1/4c, and September oats 1/2c. Provisions closed 1/2c to 1/4c improved. Seafood clearances were quiet. At 5:00, 100 bu. while primary receipts aggregated 1,116,000 bu. compared with 751,000 bu. last week. Local receipts were: wheat, 99 of contract grade. Northwest receipts were 156 cars, against 199 last week and 181 a year ago. Estimated receipts tomorrow: Wheat, 270 cars; corn, 220 cars; oats, 15 cars; hogs, 20,000 head.

The leading futures closed: Wheat, July, 67c; Sept., 68c; Dec., 70c. Corn, July, 40c; Sept., 41c; Dec., 42c. Oats, July, 30c; Sept., 31c; May, 32c. Pork, Sept., \$14.20; Lard, Sept., \$8.75; Oct., \$8.75; Jan., \$8.25. Short ribs—Sept., \$7.90; Oct., \$7.90; Jan., \$7.50.

Cash quotations: Flour firm. No. 3 spring wheat, 62c to 65c; No. 2 red, 67c to 68c. No. 2 white, 68c to 70c. No. 1 flaxseed, \$1.85. No. 1 northwestern, \$1.85. Prime timothy, \$8.00. Moss pork, per barrel, \$14.10. Lard, per 100 lbs., \$8.50 to \$8.55; short ribs sides, \$7.75 to \$8.50; dry salted shoulders, \$10.00 to \$10.50; short clear, \$8.50 to \$9.00. Clover, contract grade, \$9.50. Eggs steady, fresh, 12c.

Receipts: Flour, 45,000 bbls.; wheat, 47,000 bu.; corn, 230,000 bu.; oats, 235,000 bu.; rye, 10,000 bu.; barley, 5,000 bu. Shipments: Flour, 31,000 bbls.; wheat, 34,000 bu.; corn, 117,000 bu.; oats, 232,000 bu.; rye, 1,000 bu.

DETROIT BEAN MARKET.

Detroit, July 17.—Cash, \$1.85; October, \$1.70; November, \$1.60.

HIDES, SKINS AND TALLOW.

Toronto, July 17.—Hides.—The receipts are not heavy, the demand, which was good a week or ten days ago, now appears to be less active, and it is claimed that the high prices have checked the demand, and that the tanners are now inclined to await developments before buying large quantities. Prices are unchanged; green hides are quoted at 7 1/2c for cows and 8 1/2c for steers; cured hides are quoted at 8c to 10c. Sheepskins—Nominally unchanged, at 50c to \$1; lambskins are quoted at 30c. Calveskins.—The supplies are falling off now; there is a fair demand. Market is steady, at 8c for No. 1, and 8c for No. 2. Tallow.—There is a moderate demand, and the market is unchanged; dealers are offering 5c and asking 5 1/2c to 6c.

WOOL MARKET.

Toronto, July 17.—The offerings are liberal, but dealers are still indifferent in the absence of any improvement in the situation for Canadian fleece; there is no inquiry for export, and very little wool of country grades. Fleece—Local dealers are not getting any demand for export, and the market shows no improvement in prices. Washed is quoted at 12c and unwashed at 8c. Pulled wools—Quiet; there is very little inquiry from the home mills; suppliers are quoted at 15c to 16c, and extras at 17c to 18c.

OIL MARKETS.

PITTSBURGH, Pa., July 17.—Oil opened and closed at \$1.00.

OIL CITY, Pa., July 17.—Credit balances, \$1.07; certificates, no bid.

THE DAIRY MARKETS.

CHICAGO, July 17.—Butter firm; creameries, 16c to 18c; dairies, 13c to 16c. Cheese strong, 9 1/2c to 10c.

MADOC, Ont., July 17.—At the Madoc cheese board tonight 1,115 boxes were boarded; Vankin bought 250, Brenton 275, Alexander 125, Bird 300, Magrath 50, all at 9 1/2c; balance unsold; six buyers were present.

RUSSELL, Ont., July 17.—At the Russell cheese board, held tonight, 400 white cheese were boarded; 3c offered; no sales.

STIRLING, Ont., July 17.—At the Stirling cheese board today 829 boxes white cheese were boarded; sales, Vankin, 225 at 9 1/2c; Magrath, 270 at 9 1/2c; Kerr, 165 at 9 1/2c; Brenton, 120 at 9 1/2c; board adjourned for one week.

WOOL STOCK, Ont., July 17.—Today's cheese board offered 2,129 boxes; 299 boxes were sold at 9 1/2c; several sales at 10c; 1,340 boxes were reported to have been made on the curb.

NAPANEE, Ont., July 17.—At the cheese board here today 15 factories boarded 385 colored and 1,300 white; 9c was bid, but no sales.

PICTON, Ont., July 17.—At the cheese board today 15 factories boarded 1,233 colored and 215 white; total, 1,448; highest bid, 9 1/2c; 1,345 sold.

LIVE STOCK MARKETS.

CHICAGO, July 17.—Cattle.—Receipts, 16,500; good to prime steers, \$5.25 to \$6.10; poor to medium, \$3.75 to \$5.25; stockers and feeders, \$3.75 to \$5.25; cows, \$2.75 to \$4.75; heifers, \$2.40 to \$4.90; canners, \$3.75 to \$5.25; bulls, \$2 to \$4.25; calves, \$3.75 to \$5.25. Texas steers, \$2.75 to \$4.75; grass steers, bulk around \$3.50 to \$3.60.

Hogs.—Receipts, 33,000; mixed and butcher, \$4.50 to \$6.00; good to choice, \$5.25 to \$6.00; rough heavy, \$3.50 to \$4.50; light, \$3.50 to \$5.00; bulk of sales at \$5.75 to \$5.90. Sheep.—Receipts, 20,000; good to choice, \$3.75 to \$4.40; to trade, \$3.75 to \$4.75; yearlings, \$4 to \$4.75; native lambs, \$3.50 to \$5.25; wethers, \$3.50 to \$5.25. Official receipts and shipments for July 16: Receipts—Cattle, 6,238; hogs, 20,625; sheep, 20,821. Shipments—Cattle, 3,793; hogs, 3,774; sheep, 32.

EAST BUFFALO, July 17.—Cattle.—There were no sale cattle, but moderate inquiry at lower prices; calves were in good supply, to 35c lower; sheep, \$2.25 to 3c lower; outside of a bunch or two at \$7, the market was at \$5.75 to \$6.35. Sheep and lambs including 2 loads left over; there was a moderate demand, but the basis was lower on spring lambs, \$5.50 to \$6.75; choice, \$2.25 to \$3.50; sheep, choice to extra, \$4.25 to \$4.50; good to choice, \$4 to \$4.25; the close was steady.

The offerings of hogs were light, the demand light and the market 10c lower; heavy, \$6.15 to \$6.25; mixed, \$5.75 to \$6.15; Yearlings, \$6.25 to \$6.50; pigs, \$3.75 to \$4.50; culls, \$2.50 to \$3.50; lambs, \$4.50 to \$5.50, mainly \$5 to \$5.25; culls, \$4.50. Hogs.—Receipts, 3,454; market lower; state hogs, \$9.40 to \$9.50.

OLD COUNTRY PRICES.

London, July 17.—Prices here and in Liverpool, steady and unchanged at from 11c to 12 1/2c per lb. dressed weight; tops sold at 12 1/2c per lb. refrigerator beef is higher at 9c per lb.

At a meeting of the shareholders of the Cape Breton Railway Extension Company, a resolution was passed authorizing the issue of 5 per cent gold bonds to the amount of \$2,400,000, secured by a first mortgage on the company's property and franchise.

WORKING SOME OF ITS MILLS

Wellsville Plant Is Being Partially Operated.

Independent Mills Will Give Strikers Employment.

Pittsburg Tin Workers Go Back to Work Under Certain Conditions—German Comment.

Pittsburg, Pa., July 18.—There are no features visible upon the horizon of the steel situation this morning which are in any way indicative as to when the climax between the two contending forces will be reached. While there is no doubt that the Amalgamated people are making strenuous efforts towards organizing those mills that are acknowledged to be non-union, and are meeting with some success, the other side is not resting, and is endeavoring to frustrate these efforts at every point.

WELLSVILLE MILLS WORKING.

The Amalgamated people denied yesterday that the mills at Wellsville were started up, but in spite of this assertion dispatches from that place report at least a partial resumption. The Amalgamated Association will hold a mass meeting at Wellsville today, by which means they hope to bring all the wavering forces over to their side.

President Shaffer and three other members of the committee said they would leave for Wellsville after dinner. The strike situation about Pittsburg today remained practically the same as yesterday. No attempt was made to start the Foster mill, and no one could be seen around the premises save a number of men who were placed on duty yesterday to guard the mill property. Notices were posted during the night at the mill, warning the strikers that all the men could get their pay due them Saturday afternoon at 2 o'clock.

SITUATION UNCHANGED.

The Clarks' Sons' plant at Lawrenceville is about the same today as it was yesterday. About the same number of men are at work, but the strikers claim that they will come out just as soon as they finish their turns, which is some time today. Trustee Gibson was circulating among the strikers at the different plants during the day. He stated that there were six independent mills in and about the city that would give employment to all the strikers.

At Monessen the steel hoops mill men who came out on Monday are holding a meeting today, and making efforts to get the tin workers to join the strike. These latter met last night and the meeting was participated in largely by the tin workers who do not take part in the strike if the management would secure them proper protection in case of necessity. The plants at Apollo, Scottdale, Saltsburg, Dunsmuir and Monessen are still running as usual.

SLIGHT VICTORY FOR COMPANY.

Manager Stone, of the Pittsburg tin plate works, Kensington, Pa., gained a slight victory, when, after several conferences, he succeeded in getting the striking cold roll workers to rejoin the company. The workers of block plate on hand. The men had asked for an increase in wages. The mill manager claimed he was powerless to grant their demands, but promised to have a definite answer by Saturday, July 20. The men then agreed to work until that date, pending a settlement. They are not members of the Amalgamated Association.

GERMAN COMMENT.

Berlin, July 18.—The steel strike in the United States has attracted the entire world. Foreign countries can only rejoice that the gentlemen of the steel trust, who presume to conquer the whole world, have been reminded in this manner that they also are mortal.

The National Zeitung says: "The strike exhibits at one blow the weakness to which the United States are continually exposed. It might easily become a home-break, producing a most dangerous flood."

POLICE STOP "PICKETING."

Chicago, July 18.—Striking employees of the United States Steel Corporation have been made to feel the full force of recent decisions of the courts in regard to picketing. Acting under the power given them by recent decisions, the South Chicago police are now prohibiting the congregating of striking molders near the gates of the Illinois Steel Company, one of the concerns comprised in the big organization.

BUFFALO MACHINISTS GIVE IN.

Buffalo, July 18.—More than 350 machinists who were formerly employed at the Lehigh Valley shops in East Buffalo, met last night and voted to declare off the strike, which has lasted since last May. No concessions were asked for by the men and none given.

Terrible Explosion.

Toronto, Ohio, July 17.—A terrible explosion, which shook this place at 8 o'clock tonight, proved to be a boat-load of nitro-glycerine that exploded in Minerva, about a mile below this

place. The owner of the boat had just returned to it after a visit to a fishing camp on Brown's Island, when the explosion occurred, leaving no trace of the boat or man. A number of men in the fishing camp were badly stunned.

The cargo of 240 quarts of nitro-glycerine was en route from some upper river point to the oil fields below. The detonation was plainly heard ten or twelve miles distant. It is thought the boat struck a rock in shooting the rapids.

BALDWIN STARTS FOR NORTH POLE.

Last Words Were He Had Little Doubt of Reaching His Goal.

Tromsø, Norway, July 18.—Shortly before midnight Tuesday night, the ships of the Baldwin-Ziegler Arctic expedition weighed anchor and, with the Stars and Stripes and Norwegian flags at their masts, steamed off to the north. As they left the harbor the crews of the vessels there gave the expedition a hearty cheer.

B. Baldwin, chief of the expedition, was in excellent spirits. His last words to a representative of the Associated Press were that he had little doubt of reaching the north pole. The America will proceed first to Archangel in Russia, and then return to the Island of Valde, off the coast of Norway, from whence the final departure for Franz Josef Land will be made. Touching at Houningsvåg, the America and Belgica will pick up the Frithjof and all three vessels will proceed northward together.

ODD DEMANDS OF ENGLISH PEERS

Privy Council Considers Their Hereditary Rights and Privileges.

London, July 18.—The members of the Privy Council sat at a court of claims yesterday to consider various hereditary rights and privileges claimed in connection with the forthcoming coronation of the King. A long list of quaint demands was presented. After the registrar had commanded all persons to keep silence on penalty of imprisonment, he read 30 or 40 demands, including the following:

The Duke of Norfolk—To act as chief butler of England.

The Duke of Newcastle—To provide a glove to support the King's arms.

The Duke of Somerset—To carry the orb.

The Earl of Erroll—To have the silver baton tipped with gold.

The Dean of Westminster—To instruct the King and Queen in the rights and ceremonies and to have the cloth, etc., for fees.

Lord Grey de Ruthyn—To carry the golden spurs.

Col. Brown—To bear the canopy over the King and Queen.

The Earl of Shrewsbury—To provide the glove for the King's right hand and to support the hand whilst holding the orb.

Sir Wyndham Anstruther—Grand Carver for Scotland.

The Duke of Buccleuch—To ride by his Majesty's carriage.

The Marquis of Winchester—To carry the Cap of Maintenance.

The lord chancellor announced that all claims must be presented by October 31, and the court then adjourned.

place. The owner of the boat had

just returned to it after a visit to a fishing camp on Brown's Island, when the explosion occurred, leaving no trace of the boat or man. A number of men in the fishing camp were badly stunned.

The cargo of 240 quarts of nitro-glycerine was en route from some upper river point to the oil fields below. The detonation was plainly heard ten or twelve miles distant. It is thought the boat struck a rock in shooting the rapids.

A SHOT IN THE PARK.

CHAPTER X.

Mrs. Clarence had married young, a man whose son was as old as herself; but she had given her spouse so much happiness and satisfaction that he had left her well dowered and perfectly free. She lived in the lower house on the estate, and her relations with her step-son and his young wife were perfectly friendly. She had been a most exemplary daughter-in-law, and she enjoyed her love of flirtation to the utmost, being quite young enough and charming enough to receive attention anywhere. She was a warm-hearted woman, clever and well-read, had traveled greatly, and was intelligent enough to have made good use of her eyes on her travels.

Poor little Kathleen felt her own inferiority besides the more brilliant and matured charms of her hostess, and sank into silence and dullness in a corner, until Mrs. Clarence, wearying of the amusement, set down to her piano, and while she played gay French romances, and sang in her sweet soprano the pretty, tender words of some of them, Hugh strolled back to his old seat by Miss Lancaster, and soon won the pretty smiles back by half a dozen whispered words and a tender lowered tone.

Hugh was in no haste to return to Marchmont House. The impulse which had moved him to put in an appearance at his sister's wedding had been a generous one. He was fully aware that if it came to Sir Edward's ears he would incur his sister's severe displeasure; but he was too fond of his sister not to yield to the impulse which he felt would make her happy. Still, he was by no means in a hurry to face his father's displeasure, and he thought it wiser to allow his wrath to cool before venturing into his presence; so he sat before Kathleen Lancaster, in Mrs. Clarence's pretty drawing room, with its shaded light and scented flowers, and amused himself by bringing the pretty red color to the soft, rounded cheeks and making the girlish bosom rise and swell with suppressed emotion, never suspecting that the play to him might be death to the innocent, unsuspecting girl.

We will not blame him too harshly. Already, as Sir Edward's son and heir, he had been the object of much tender interest, not only to match-making mamma, but to the young ladies, his innocent and coquettish daughters, and his past experience of garrison "hacks" and ball room belles may have made him wary. Suffice it to say that when the next day Kathleen Lancaster left for Paris with Mrs. Ainslie and the much-enduring but not very fond father, he was left with the recollection of a pair of gay brown eyes, a tender, smiling mouth, and a voice which had lowered its melody-deep tones when it spoke her name, "Kathleen."

When Hugh rode through the quiet lanes that night his thoughts were not with Kathleen. He was thinking tenderly of the sister he had lost that day, and while he did so that sister was undergoing the greatest misery and suffering she could have known.

"Sir Edward started for town this morning, sir," was the answer. "He left by the express, and will be absent some days, he said."

Wondering at this unexpected departure, but attributing it to the restlessness proceeding from the excitement of the night before—perhaps coupled with remorse—Hugh went up to his room and read his letters.

One was from a brother officer, and it contained news concerning the health of a favorite horse, which was to run in the Grand Military the following week, and which made Hugh give his valet orders to have everything ready for an early departure by the morning express.

It was late in the afternoon when Douglas and Andrea arrived at the quaint little roadside village of Beldy, and when the former asked a porter if he knew where the Maisonnette was, the man gave him a surprised look and replied:

"Quite three miles from here, sir."

"Is there no vehicle to be had?" said Douglas, in dismay.

"Fraid not, sir," the porter said. "The 'Pea Hen' has a fly, but 'tis out for the day."

Almost in despair Douglas turned to his wife, who was inclined to laugh at the odd advice given in her long gray cloak, her large hat shading her fair face, she looked distinguished enough to command attention anywhere, and strangely out of place at a little country station.

"Let us walk it, Douglas," she said, lightly. "Three miles are nothing. I have often done ten in the mountains."

But Douglas went to look for the station master, to see if he could help him out of his dilemma. He found him talking to a tall, fair-haired young man, who looked like a gentleman, and asked of the man's name.

"If you will allow me to suggest," he said, "I shall be very happy to put you down."

I pass within half a mile of the Maisonnette on my way home, and it will be a pleasure to have company on the long, lonely drive. It is a most selfish offer," he went on, interrupting Douglas in a thank; "a most interesting one."

The carriage which was waiting for him was a mail phaeton, and before he got in he apologized to Douglas for being obliged to transform him into a groom for the nonce.

"Get a horse at the 'Pea Hen' and ride after us, John," he added to the servant, who was left behind, and when the latter touched his cap with a "Yes, Sir Kenneth," Andrea knew that the gentleman was Sir Kenneth Donaldson, of whom Mrs. Clarence had spoken as the owner of large estates in the country.

"It is rather a wild, lonely place," he said to Andrea, as they drove rapidly on, "but if you are fond of shooting from nature you will find many a lovely bit to add to your sketch-book. I am going alone and quite in the rough at the 'Pea Hen,' but if you will come up some afternoon and see the pictures, I dare say my old housekeeper can give you some tea, and it will give me great pleasure to hear of you."

Andrea, who was not a very talkative man, but a most interesting one, heard so much about poachers and encouraging tales, he added, with comic effect, "that I really was provoked to come back. I fear it was not exaggerated; either, but the Continent is so very exciting that I shall never be content to settle down in England."

The three-mile drive was quickly got over in a phaeton drawn by a pair of light-stepping chestnuts, and very soon Sir Kenneth pulled up at a pretty little white house standing in a wilderness of garden.

"This is the Maisonnette," he said. "If Mrs. Clarence is as lively as I saw her at Venice four years ago I don't wonder at her seldom visiting here; but it is a lovely spot," he added, smiling at Andrea's rapturous delight at the abundance of late flowers and the luxuriant vegetation.

An old man, with a countenance more expressive of cunning than of any other feeling, came out to open the gate, and although he tried to put some cheerfulness into his manner, the alacrity was evidently forced, and Andrea could not help feeling that they were not very welcome guests. Nor did she fail to observe the start which Amos Kennel, the old man's son, made at the sight of the two strangers, and the strange composure which he assumed when he returned his careless nod.

"Promise me that you will honor me with a visit," Mrs. Lancaster, pleaded the young baronet said. "The sight of a lady is like coming upon an oasis in the desert. I give you my word I had not seen one for three months when I caught sight of you at the station. You will come, will you not?"

"With me, please," replied Andrea, returning his cordial hand-clasp. "We must ever look upon you as a friend in need, Sir Kenneth."

"If you know how glad I am at the 'need' which allowed me to be the 'friend,' he said, smiling, as he drove off, glancing back once for a last look at her as she stood watching him drive away, with her hand through her husband's arm.

THE WORLD OF SPORTS.

Wolsley Barracks Cricket Team Defeats Forest.

A Record Broken on the Detroit Track—Canadian Oarsmen Are Off for Philadelphia.

BASEBALL.

WOODSTOCK'S TEAM.

The greatest of the many difficulties which prevent themselves is that of getting suitable teams to come here to play. London and the teams of the Hamilton City League are about the only teams available, unless an occasional game is arranged with Canadian League teams. There are plenty of ball teams in the country, but they are at such a distance and their expenses would consequently be so heavy that the limited patronage with which the locals have been favored would scarcely warrant their being brought here. The situation is unsettled as yet, but favorable developments are hoped for, fully looked forward to.—Woodstock Sentinel-Review.

THE GODERICH MEETING.

Goderich, Ont., July 18.—The first day's events of the annual meeting of the Goderich Turf Association came off yesterday in the presence of about 1,200 people. The racing was very good, but a cool breeze made the heat bearable, and exciting heats and good music made it a short time, and since I got up have not had one sick day. I have not had any trouble since I got up. I was not only surprised myself but all my friends here are surprised to see me so well.

Mrs. Orrin Stiles, of Downing, Dunn Co., Wis., writes: "I have been intending to write to you ever since my baby was born in regard to what your 'Favorite Prescription' has done for me. I stand praise it enough, for I have not been as well for five years as I am now. In July last I had a baby boy, weight 12 pounds, and I was only sick a short time, and since I got up have not had one sick day. I have not had any trouble since I got up. I was not only surprised myself but all my friends here are surprised to see me so well."

Dr. Pierce's Pellets cure biliousness.

My RHEUMATISM CURE is just as certain to cure rheumatism as water is to quench thirst. No matter what part of the body the pain may be in, if it is acute or chronic, MYNUN'S RHEUMATISM CURE will drive it out in a few hours, and fully cure in a few days.—MYNUN.

Mynun's Dyspepsia Cure will cure any case of indigestion or stomach trouble. Ninety per cent of kidney complaints, including the earliest stages of Bright's Disease, can be cured with Mynun's Kidney Cure.

Mynun's Catarrh Cure cures catarrh of the head, throat and stomach, no matter of how long standing. Nervous affections and diseases of the heart are controlled and cured by Mynun's Nerve and Heart Cure.

Mynun's Cold Cure will break up any form of cold. Mynun's Vializer restores lost powers to weak men. Price 50c.

The Guide to Health (free) tells about diseases and their cure. Get it at any drug store. The cure is all on sale this month at 25 cents a value. Mynun, New York and Philadelphia.

CRICKET.

A HOTLY CONTESTED MATCH.

One of the most interesting games of cricket ever played in London took place yesterday on the Forest Cricket Club and the Wolsley Barracks Cricket Club. The Forest club made 72 in the first inning to the Barracks 50, and Lieut. Meredith's 16 and 11 were welcome additions to the military score; and Quartermaster-Sergt. Dunlevy's 31, not out, and 10, was a splendid exhibition of cricket, and he was loudly applauded at the close of the first inning. Sergt. Buckle, run out, and Lieut. Meredith's 16 and 11 were welcome additions to the military score; and Quartermaster-Sergt. Dunlevy's 31, not out, and 10, was a splendid exhibition of cricket, and he was loudly applauded at the close of the first inning.

The Forest Cricket Club is composed of a splendid lot of thorough gentlemen, who play cricket with a vim; like Aymer, they are sports in the main game of cricket. The members of Wolsley Barracks Cricket Club were praised for the splendid manner in which the tournament has, up to this, been conducted, and hopes were expressed that it would be an annual affair. The score was:

A RECORD AT DETROIT.

Detroit, Mich., July 18.—In the free-for-all pace yesterday afternoon at the Grosse Point track, Coney was the favorite, went the fastest mile ever traveled in a contest on the track, going the distance in 2:02, which is three-quarters of a second faster than the holding's previous record.

It was the third day's racing of the Detroit Driving Club's annual summer meeting. In the free-for-all pace Indiana had the pole in the first heat. The four horses were sent off to a perfect start. As they rounded the first turn Coney took the pole and led with Anaconda next. When they flashed by the quarter pole everyone realized that it was a fast quarter and enthusiastic cheers greeted the figures that were hung out by the timers—29, 59, 2.

Coney still in the lead they passed the half-mile post in 1:00 flat, and the three-quarter pole in 1:31, and Coney whizzed under the wire in 2:02 flat, winner by three lengths. In the second heat Coney was favorite in the prediction of \$50 to \$25 for the field. It was a fair start, and Coney and Anaconda were in front, racing together to the quarter, which was done in 29 seconds flat. Just as the figures were hung out, Coney broke, and Anaconda shot ahead alone. With the others five lengths behind he paced the half in 59, one of the best performances ever seen, and duplicated Coney's time to the quarter, 1:31. The mile, however, was three-quarters of a second slower, 2:02, Coney made up a great deal of the ground lost by his break, but was several lengths behind at finish. His record performance used Coney up, and in the last heat Anaconda won all the way, with Connor second at the wire. Metallas, the black stallion purchased yesterday by Hinkley, who was a heavy favorite in the 2:17 trot, was taken sick in the second heat, and was drawn after having won the first heat in impressive style. Dan Patch, the favorite in the 2:14 pace, and won in straight heats. The 2:10 trot was a two-horse race between Dolly Dillon and Satin Slippers, which Dillon won by a scant margin. Summary:

Racing House purse, \$2,500; 2:17 trot: Charles Mac, blk. g. (Durane), 2 1 1 1
Sylv H. ch. m. (Colby), 5 3 2 3

Meteorological.

Toronto, July 17, 3 p.m.—Toronto re-
corded 83 today, but in Ontario and
Quebec generally the temperature has
been a few degrees lower than for
the past few days. The Maritime
Provinces have been warmer again
and Manitoba about the same. A few
scattered thunderstorms have occurred
chiefly in New Brunswick.

Minimum and maximum tempera-
tures: Victoria, 54—66; Kamloops,
54—84; Calgary, 46—78; Qu'Appelle, 56
—82; Winnipeg, 58—80; Port Arthur,
58—80; Parry Sound, 70—84; South-
ampton, 64—78; Toronto, 70—83; Ot-
tawa, 70—80; Montreal, 70—86; Quebec,
64—82; Halifax, 58—82.

Local temperature—The highest and
lowest readings of the thermometer at
the observatory on Wednesday, July
17, were 90 and 67.

Today (Thursday) the sun rises at
4:52 a.m. and sets at 7:55 p.m. The
moon rose at 8 a.m. and sets at 9:14
p.m.

Notice to Advertisers.

Advertisers will please take notice
that all changes for Saturday's issue
must be handed into the counting-
room before 4 p.m. Friday evening.
This action is necessary on account of
issuing both editions at 1 p.m. Satur-
days during July and August. We
cannot accept copy for changes on
Saturday morning.

A LOCAL BUDGET.

—Mr. Ezra Russell has left for the
Soo, where he has secured a position
on the Algoma Central Railway.

—An unattended engine ran off a
switch near the Grand Trunk round-
house yesterday.

—The drillers will probably begin
work at Springbank in a day or two.
Their machinery has arrived in the
city.

ANOTHER TRAMP TRESPASSER.

Frank Malone was brought to jail
last night from Ailsa Craig, where he
was caught trespassing on the G. T.
R. Squire, E. B. Smith sentenced him
to six months in the Central Prison,
and he will be removed to that insti-
tution.

THE EAST AS IT IS.

Mr. Barsoun, the converted Moham-
medan, who is lecturing throughout
America upon the condition of affairs
that exist in the eastern countries
which he has visited, spoke
last night before a large audience in
the Memorial Church. His story was
graphically told and was extremely
interesting.

DEATH OF MRS. BEDDOME.

Mrs. Beddome, mother of Mr. A. H.
Beddome, manager of the Bank of
Montreal, died Tuesday night. She
was a daughter of the late Wm. Fen-
nelly, Q.C., of London, England, and
reared for the life of Lord's. Mrs.
Beddome had lived in London since
1848, five years after coming to Can-
ada, and was highly esteemed by
many friends.

YOUNG WOOD'S EXPERIENCE.

Dr. Fred Wood's oldest son stepped
to a skiff from a tug upon which the
family were taking a trip at Port
Rowan last Sunday and was thrown
into the water. He caught hold of
the skiff and held on until nearly ex-
hausted before his position was dis-
covered. Both his shoes were torn off
by the tug's propeller.

THE GROCERS' PICNIC.

Not many more than 300 excursion-
ists went with the grocers to Sarnia
yesterday. A fast run was made, and
when the party arrived at Sarnia most
of the number went on to Stag Island,
where the day was spent very enjoy-
ably. The city travelers for the whole
sale houses entertained the retail
men at the Harrington House in Port
Huron in the afternoon. After taking
in the sights of Sarnia and Port Huron
for an hour in the evening, the excur-
sionists returned to London, arriving
here at 11 o'clock.

MEDICAL MEN WERE HUMBLLED

Druggists Put Up Runs as Easily
as Prices.

Twirlers for the Meds Handed Out
Easy Ones and Pharmacists
Circled the Eases.

Suffering humanity had surcease
from sorrow and pain for a few brief
hours yesterday, for the twin enemies
of human life, the doctors and the
druggists, closed up offices and stores,
and went to Springbank on the drug-
gists' annual picnic. They there locked
horns in a struggle for supremacy on
the baseball diamond, which for a while
threatened to leave London forever
without the presence of a single repre-
sentative of either calling, and had they
done so, every inhabitant of the Forest
City would have rejoiced in the chance
of living to a remarkable age, limited
only by the extreme span of human
life. However, it was not to be. The
energy of the antagonistic forces spent
itself, and there were no casualties to
report. The druggists put up runs as
easily as they put up prescriptions and
prices, and however much they use
scruples in their business, they seemed
to display none in landing on the easy
ones handed them by the twirlers for
the meds. Each of the doctors tried
manfully to lay open the sphere when
it came his way, probably with the
laudable intention of removing its
verminous appendix. These operations
were in vain and the only operations
conducted during the afternoon were
the removal of the bumps of self-
esteem from several medical men who
thought they were star baseballists—
good enough to play with Gueph, in
fact. The score tells the whole ghastly
tale:

Druggists.	Doctors.
Cole, 2	Recher, 2
Vining, 2	G. Clarke, 2

A THIRST, AND SOME BURSTED BOTTLES

The McKenzie's Request for a Drink Brings
Black Eyes to His Chum.

Tuesday night, when a man named
Jack McKenzie went to Ward's liquor
store, on Maitland street, and asked
for a drink, he was refused. So he
went outside and shivered the win-
dows and several bottles of ale with
stones. In the opinion of Jakey Butts,
who was in the store at the time,
such a waste of good bottles of ale
was something grievous. He there-
upon made himself Ward's knight and
went forth to battle with the burster
of bottles. Alf Progers was just
outside the door. Jakey's desire to
punish the window-wrecker outran
his discretion, and he pitched into poor
Progers, and the two men went down
at the thirty Mac. Twin black eyes
soon closed on either side of the un-
offending Alfred's nose. While Jake
pummelled Progers, McKenzie sidled
off toward the Port Stanley bridge.
The policemen went down and beat
about for a long, long time, but latest
dispatches state that the man with the
Celtic name and Develian tactics is
still uncaptured.

This Day in London Thirty-Three Years Ago.

[From The Advertiser files of July 18,
1883.]

The players in today's cricket match
with Hamilton are F. Cronyn, R. Mere-
dith, Lieut. Aitchison, 6th, A. Mc-
Hattie, G. French, R. W. Johnstone,
Pte. Scott, 6th, E. T. Paul, H. Becker,
W. P. R. Street.

The Excelsior Baseball club of
Strathroy and the Tecumseh played a
game of ball today. The former club
won a decided victory, the score at the
close standing 58 to 16.

In compliance with a numerously-
signed requisition his worship the
mayor has named Wednesday, 29th inst.,
as the annual city picnic day.

"Yorker" Curtis was shooting at
some pigeons today from the back
yard common to the premises facing
Talbot street and the market square,
south of Dundas street, when one shot
went wide of the mark and lodged in
the body of Miss Kate Delaney, who
was ironing at an open window on the
third flat of a building on Dundas
street. She is doing as well as can be
expected.

The Asthmatic's Agony.

Wakeful night, suffocating sensations,
difficult breathing. Who can describe it?
This disease, partly nervous, partly con-
gestive, partly the result of microbe irri-
tation, is no longer treated by nausea-
stomach destroying drugs, but by Ca-
tarhazone, that destroys the microbe, re-
lieves congestion, and relaxes the nervous
fruit. That renders breathing so dif-
ficult. The medication is carried by the
air you breathe to the very seat of the
disease, and removes at once the cause.
The great discovery is known as Catarrh-
azone. Its influence upon Asthma is
simply marvellous. Catarrhazone prevents
as well as cures, and is the only remedy
guaranteed to cure. Your money back if
it fails. Two sizes, at all dealers, 25c
and 50c.

Bicycles,
Fishing Tackle,
