The last issue of the Good Templar, the official organ in Canada of the Independent Order of Good Templars, has this piece of Order of Good Templars, has this piece of sound advice for temperance people: "The amendments to the License Act, introduced into the Ontario Legislature by the Mowat Government, passed its third reading without any material change, although earnest efforts were made by the Opposition to impair its usefulness by useless amendments, contrary to the well-known wishes of the temperance people." The act however, is temperance people. The act, however, is now law, and it remains with the Governnow law, and it remains with the Government to look to the enforcement of the same. A general election is expected in June, and it will become the duty of the temperance people to see that the Government which made the act is sustained, in order that it may be properly enforced. No time should be lost by Good Templars and the friends of temperance in attending conventions, etc., so that only reliable candidates may be nominated.

At the last meeting of the Scottish Antiquarian Society in Edinburgh, the Rev. CAPITAL NOTES.

A Big Pail of Whitewash for Eykert-Gen. Middleten's Conduct Condemned by the "Furs" Committee.

OTTAWA, April 24. - The Rykert committee has been sitting with closed doors all the morning in preparation of a report. The Government were ready with a deliver-ance that beautifully whitewashes their ance that beautifully whitewasses their faithful follower. It is understood that they refuse to deal with his acceptance of the money from Sands, as that was an event subsequent to the granting of the limit, and hence one with which the Government have nothing to do. They conveniently overlook the fact that Rykert was then and is now a member of Parliament and that his conduct mber of Parliament and that his conduct amendable to that tribunal. The only member of Parliament and that his conducts is amendable to that tribunal. The only unkind remarks in the whole document are that his boasts in the published correspondence that he possessed great influence with the Government were untruthful and reprehensible. Not a word is said of the way in which he euchered Shortreed & Laidlaw out of the very limit they applied for and shunted them out into the prairie. The report declares nothing practically but that Rykert's claim that he had "Bowell working for him," that he "brought Tupper and Macdonald from Winnipeg to induce their fathers to do the right thing" and similar boasts, were untruthful, and this was admitted by Rykert in the House before Sir John Thompson's famous speech in which he declared that Rykert had not explained as yet to his satisfaction

in which he declared that Rykert had not explained as yet to his satisfaction his remarkable correspondence. It is not known at the hour of writing what course the Liberals will take, but it is likely they will not present a minority report but rather move an amendment to the report in the House and divide the members on it. They are utterly dissatisfied with the report and denounce it as a whitewashing measure.

Two Montreal deputations are here, one composed of Messrs. Childs and Herbert, from the Wholesale Grocers' Association in opposition to the Wallace Combines Bill as it is proposed to amend it, and the other from the Women's Protective Association in reference to the protection of females in the Thompson Criminal Bill.

The "Furs" Committee, as it is called, has concluded the investigation of the charges against Gen. Middleton of appropriating Charles Bremner's furs during the Northwest rebellion in the spring of 1885. The report, after summarizing the evidence produced, concludes as follows:

Your committee consider the confiscation of the furs unwarrantable and illegal, and in his evidence Gen. Middleton admits that he has recently become satisfied it was not legally justifiable. Your committee are further of opinion that if the confiscation had been legal the confiscated property vested in the Crown, and while your committee believe that Gen. Middleton acted under an unfortunate misconception as to his power, they are of opinion that the appropriation of any portion of the property by Gen. Middleton to his own use and to that of members of his staff was highly improper.

Mr. Blake—That reminds us of the Intercolonial.

Mr. Lister inquired—Is it the intention of the Militia Department to continue the system of asking a few firms, by circular, for prices for militia clothing and giving three years' contracts, with virtually no competition; or do they intend to ask for tenders annually by public compete in a fair opportunity to tender for such supplies?

Sir Adolphe Caron—The Government will adhere to the previous contract. As to the latter question, it is now under the consideration of the Government.

Mr. Poster, in moving the second reading of the Banking Bill, said the principal change proposed was with tespect to the guarantee redemption fund. The proposition in the bill as it now stood, was to have a fund equivalent to 5 per cent. of the average circulation of the hanks, 2½ per cent. to be deposited with the Government at the time of the passage of the act, and the other 2½ per cent. one year afterwards. That made the banks mutual insurers of each other's circulation, the deficiency would be made up out of this guarantee fund. To meet the objections raised to this, it was now proposed to alter clause No. 55 so that 2½ per cent. of this 5 per cent. of this 5 per cent. of this 6 per cent. one year afterwards. That made the banks mutual insurers of each other's circulation, the deficiency would be made up out of the judge of the deficiency would be made up out of the judge of the proposed to alter clause No. 55 so that 2½ per cent. of this 5 per cent. one year afterwards. In the meantime they engineered yesterday's convention, with the result that Alexander Shaw, Q.C., one of the most slavish supporters of Sir John Macdonald, received the nomination. He was not present, but it is believed that he will accept the nomination and the farce will be made complete by his renomination by the regular Tory Convention next Wednesday. Mr. Shaw was the Tory member for South Bruce for 1878 to 1882 in the Commons. Mr. W. Y. Brunton, of this city, writes to the editor of the ADVERTISER as follows: "I find the following in the New York Herald of a recent date:

infuriated animal.

At last, with one supreme effort, the man plunged his trusty knife up to the hilt in the heart of his foe and the bear dropped dead. As this brave hunter fought with his enemy, so do many fight with disease. In the peaceful contentment of their homes they do not dread that disorder of the nerves which is so near. Suddenly an aching head or a pain in the back or a sleepless night shows that the nerves are weakened. Then or a pain in the back or a sleepless night shows that the nerves are weakened. Then begins a terrible struggle; health and happiness—often life itself—are at stake. Now its the time to use Paine's Celery Compound. Quickly the nervous weakness will lessen its grip and be conquered. This remedy has a power in brain and nerve disorders possessed by no other. Neuralgia, headache, dyspepsia, prostration, debility and all nervous diseases are surely cured by this scientific preparation.

Mr. Wood, of Westmoreland, indorsed Mr. White's views. He thought the 5 per zent, fund was entirely insufficient to prove the larger banks. There was an element of injustice in the proposition, and there was also the danger of fraud in the over issue of notes.

Sir John Thompson, in referring to the argument presented by Mr. Blake regarding Provincial rights, contended that it had been decided on high authority that this Parliament had power to deal with matters of civil right on subjects within its power. For instance, in regard to bills of exchange, this Parliament had power to even establish the civil procedure in the courts in relation to these matters.

OFFICE OF THE PUBLIC ANALYST:

MONTREAL, Sept. 9, 1887.

To the Canada Sngar Refining Co., Montreal,
GENTLEMEN,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be a near to absolute purity as can be obtained by any process of Sugar Refining.
The test by the Polariscope showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTEAU PURE, SIGGAR. which may be considered commercially as ABSOLUTELY PURE SUGAR.

THE Ontario elections may be held on a Friday. If so, it will be a very unlucky day for the Opposition in the Legislature.

EMMA JUCH, the prima donna, when performing at Indianapolis recently, was disappointed in her reception, and stabbed the drop scene. That is a better way to work off superfluous bad temper than the tweaking of a scene shifter's nose.

THE Hamilton girl who got married for fun will have to be a wife for fun all the rest of her days unless she follows the example of distinguished society in Ottawa and goes to Chicago for a divorce. The Canadian Parliament refuses to grant divorces on any ground but that of adul-

THERE is a Dominion election in progress in Ottawa, and we take notice that the Tory organs and orators are busy opposing the Equal Rights candidate. It is only in ridings where it is hoped to damage the Hon. Oliver Mowat that the Tory managers are "Equal Righters." They care for no "equal rights" that do not help them to

THE Tory papers which published reflec-tions on the manner in which Mr. Geo. M. Wells, Q.C., of Simcoe, conducted the late Assizes at Sarnia, have been compelled to take back all their allegations. They now say that Mr. Wells is a gentleman and a lawyer eminently fitted to perform his duties. Thus one more fling at Hon. Mr. Mowat, who is asible for the selection of Crown coun sel, has turned out to be a boomerang.

ONE block on Eigin street has furnished the Province with two Deputy Ministers—Messrs. A. Blue, Deputy Minister of Agriculture, and J. Millar, Deputy Minister of Education. The other residents in the block are becoming a little nervous, for there is no telling where the lightning will strike next.—[St. Thomas

It is difficult for Opposition contemporaries nowadays to be unanimous in anything, except it be trying to misrepresent the record of the Government. Bye and bye Premier Mowat will give the usual legal notice of the diswill give the usual legal notice of solution of the Legislature. Then look out for a Tory scream! The prophesies indulged in will be forgotten, and the Premier will be denounced for "springing" the elections on the country! They are amusing fellows, these Tory editors.

BINDING TWINE.

As finally disposed of, the binding twine tax has been increased by the pliant Tory majority in the House of Commons. The opolists who have secured control of the few factories in Canada, and who, according to the Toronto Empire, are about to curtail production and increase the price to the farmer, demanded an additional tax, and the Government complied with the demand. Instead of a tax of 25 cents on every dollar's worth of twine purchased by him, the farmer will now have to pay 30 nim, the larmer will now have to pay 30 cents on every dollar's worth. Messrs. Rcome, Moncrieff, Coughlin and other Western Tory M. P.'s voted for the imposition of the additional tax.

WEST HURON.

Hon. A. M. Ross, who has represented West Huron in the Ontario Legislature since 1875, has informed his supporters that he will not be a candidate at the en-suing campaign. Whether this retirement from the constituency which has for so long a period honored the Treasurer of Ontario with its suffrages can be taken as an intimation that the honorable But the elector gentleman also meditates retiring from the Ministry remains to be seen; but there doubt that the severance of the ties which have bound Mr. Ross to the peo-ple of West Huron will be regretted by the ple of West Huron will be regretted by the large majority of the electors. For many years prior to his being called to take office in the Government of Ontario, Mr. Ross was held in high esteem by his fellow-citizens, both as a banker and as the treasury in decreed the selection made by Premier Mowat. THE DEADLY PARALLEL.

The London Free Press is about as hard to follow, in its twistings and twinings, as is the Opposition leader in the Legislature. Hon. Thomas White was wont to justify such sharp curves as excusable if justi-fied by "political exigency." In other words, that the bosses must be supported no matter what their actions. Let us look at the views which the Free Press has expressed on the duties on early fruit within the past three months. We place the diametrically opposite contentions in parallel columns, for the better exemplification

of the point:

Free Press, January, 1890:
The idea of raising the duties on such articles as fruits is one that does not now runce increase with public opinion. The fact is the private of transit have made it possible for us to avail ourselves of the early fruits that are grown to the south of us at a period of the year when our own fields are in a frozen could tion. The use of those articles is not only pleasant but valuable and it seems to deprive the general consumer of the privilege of using the "fruits of the can unnecessary increase of the can unnecessary increase of the privilege of using the "fruits of the earth"—no matter whence they may come—to his own

In January, it may be remarked, there appeared to be grounds for the belief that the very sensible views which the Free Press then set forth would prevail, as they had prevailed for years, with positive benefit to a large section of the people. During April the Dominion Government, very im prudently, we think, went back on the principles then espoused by the Free Press and by the Liberals generally, including Sir Richard Cartwright, whose good judg. ment our contemporary now calls in ques tion, and the Carling organ jumps to the defense of the tax. As a contortionist, our contemporary takes first rank.

REAL AND BOGUS TEMPERANCE. Mr. W. Y. Brunton, of this city, who generally takes an intelligent view of the ocial questions which come up for public consideration, has addressed to the ADVER-TISER a letter on the subject of the treat ment of drunkards. The question is not a new one, but Mr. Brunton treats it in most interesting way, and makes a novel proposition, which is worthy at least of the earnest consideration of our legislators, of all who are engaged in combatting drunken-ness, and indeed of every man or woman, who is taxed to repair the injury caused by the prevalence of the vice. Mr. Brunton says it is a disease as well, and he has good ground for that conclusion. It seems to be in accordance with justice that the revenue from alcoholic liquors should go towards a fund for reclaiming the drunkard in the most effective manner possible, and that the customs and excise duties on liquors should be increased, if need be, to meet the expense of the experiment. Mr. Brunton, at least, provides something practical to work upon, and we trust that his suggestions will be discussed and laid to heart by the members of Parliament, who make our laws. What a contrast there is between his proposition and that fathered by the ersthwhile temper and he has stood the test; and Mr. Millar goes to his duties equipped with every quality necessary to success.

For weeks past, the Tory newspapers have been telling us that the Provincial elections are at hand. They have even the constant of the constan facturers are favored by an arrangement of the tariff that Mr. Foster dare not deny is intended to encourage whisky manufacture in Canada, and as a matter of course the increased consumption of the liquor. Mr. roster is a queer specimen of a temperance advocate. We need hardly expect that he will fall in with the views set forth in Mr. Brunton's letter, but they seem to be far

more reasonable and fair, to the drunkard

and to the taxpayer, than the Foster idea of giving every encouragement possible to the "infant industry" of whisky making in

The Toronto Empire continues from day to day its charges that the Government of to day its charges that the Government of Ontario is squandering the surplus hoarded up in the early days of Confederation, and this is urged as a strong reason why the Liberals should be turned out and the Tories put in their places. Mr. David Creighton, the editor of that journal and expectant successor to Treasurer Ross, has said over and over again that the whole of the surplus has been spent, in spite of the fact that large sums continue to be received year after year in the shape of interest upon investments, and no evidence can satisfy him that what he says is not

It is a hard task to convince a man against his will, and if Mr. Creighton should ever by any stroke of ill-fortune for the country get his hand upon the strong box of the treasury he might be expected to try and verify his own view of the question by some legerdemain trick, which would dispose of the surplus to the advantage of his

But the electors of Ontario are not perverse like David Creighton; they can be reasoned with, and when facts are presented to them they know what conclusions

to draw. Now, one fact concerning the Govern-ment of John Sandfield Macdonald is this, that for four years it had no policy on

to office, perfected and extended the scheme, making the total appropriation \$7,500,000. With the aid of the money thus granted many hundreds of miles o railway have been built in various sections of the Province, until almost every town and township has a railway of its own, and nearly the whole of the money so voted has been paid. In 1873 a further dis position was made of the surplus, whereby some \$3,500,000 were divided among the municipalities as part of the scheme for wiping out the municipal loan fund debt. But the surplus did not disappear. On the contrary, it continued to grov almost continuously, as shown by following statement of revenue and expenditure:

..\$47,202,968 These figures show that in the sixteen years—from 1873 to 1889—the Government was able to add to the surplus the sum of \$2,220,460, which, with the amount remaining available in 1873, makes a total urplus at the end of the last fiscal year of \$6,427,252. And if it had not been sary during recent years to expend large sums of money for the Parliament buildings and other necessary objects, the sum would no doubt be much larger than it is. How the money is expended will appear by the following statement of amounts paid

Total Expenditure .... Under many of these heads the money is given for local objects which otherwise yould require to be raised by local taxation, and under the heads of Education, Agriculture, Hospitals and Charities, Asylums, Administration of Justice and Colonizati toads the amount in 1889 was very nearly three times what was paid in 1871, the last year of John Sandfield Macdonald's administration. At the rate paid for those services in 1871 the total for the eighteen years since would have been only \$14,379,084, but in eality it has been \$27,429,370. This shows an increase of moneys paid by Government o reduce the cost of local taxation amounting to \$13,050,286, so that had the former policy of hoarding money in the Treasury been followed the surplus saved up under hose six heads alone would reach, with the surplus then in hand, the large aggregate of \$20,000,000. Which policy does the people orefer? And does anybody believe David Creighton would practice the economy of John Sandfield Macdonald?

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."

Notwithstanding the combined efforts of jealous rivals to put as under, we are out on top as usual. Look at the record for 1889. Policies issued for nearly \$3.500,000. Not had for a young company, you will say. True, it took some of the old fogies 10 years to write up the same amount. Why, we declined more applications last year than some of the other companies wrote up altogether. How do we account for it, you say. Well, we have plans to suit everybody. Our premium rates are as low as any other company. Our policy is the most liberal, being nearly unconditional; almost a simple promise to pay at death or maturity, as the case may be. The policy-holders are entirely free from all liability; but are, nevertheless, allowed to participate in the control of the Company's affairs and to monopolize nine-tenths (9-10) of the profits of the business. Each policy-holder has one vote for every \$1,000 of insurance held by him in this Company. These privileges are secured by the act of incorporation. It you are not insured, or want more insurance, take a policy in the MANU-FACTURERS'.

An excellent opportunity was afforded the spectators at the opening championship game of the Boston National League club Saturday to judge of the playing abilities of the new men whom the triumvirs secured to take the place of the players who joined the Brotherhood. It can truly be said that the nine as at present constituted, is not strong enough to play pennant ball every day. [Boston Globe.

Boston Globe.

The Boston Herald of Sunday last, in speaking of the several new players of the National League on their appearance on the opening day, picks out Patsy Donovan as the most promising player, and in its praises of him says that no such base-stealing has ever been seen on the Boston grounds as was shown by Donovan on Saturday. Besides his base-stealing they comment very highly on his batting and coaching.

CRICKET.

The Australian cricketers must look to their laurels when visiting our shores this season, for we are promised a strong rival attraction, likely to draw large fields and heavy gate money. Two elevens of ladies—the "Blues" and "Reds"—have been training in Surrey since last September, under the able tuition of Maurice Read and George Hearne, and have proved such apt pupils that they are said to be almost up to county form. The ladies intend to make a long provincial tour, and expect to appear at six matches in London. It is understood that the fair cricketers will only play against representatives of their own sex.—[Pall Mail Gazette.

The \$300 required to be subscribed for the cricket club has now been provided, and practice will soon commence. The first cleven will probably visit Hamilton, Chatham and Windsor on Queen's birthday, while some kind of a game may be arranged on the Asylum grounds for the same day.

THE TRIGGER.

The pursuit of "the grand sport" in India has brought to the front a lady tiger-killer of great skill and prowess, in the person of Mrs. Evans Gordon. This fearless lady, as a member of a recent Cooch-Behar hunting expedition, shot an angry tigress who was rushing viciously upon the party, and was actually within a few yards of her elephant's trunk. Her shot was as well-timed as it was well-aimed, for the other guns engaged, including that of the lady's husband, Major Evans Gordon, had failed to stop the furious brute.

A New Catchword.

Mr. Balfour threatens to give us a new Parliamentary catchword. A hundred times he must have said on Tuesday night, "Very well, sir." He marked his divisions of subjects by it, his sub-divisions and the progress of his oratorical paragraphs. I hope I have made it clear to the House. "Very well, sir," was said over and over again. The St. George Accident—A Verdict,

At Toronto, the jury on the St. George accident case passed all day yesterday considering the questions submitted to them. Shortly after 5 o'clock in the afterncom Mr. Justice Rose adjourned the court till 10 this morning. The jury spent several hours after teal last night on the case, and slept under guard at the Palmer House. To-day they brought in their verdict. Of the 41 questions submitted to them by the Judge they answered two-thirds. Counsel for both plaintiffs and deferdants made motions for a verdict for their clients on these findings. Judge Rose stated he would hear argument in the case on May 16.

SHELBURNE, Ont., April 24.-A terrible

SHELBURNE, Ont., April 24.—A terrible tragedy occurred this morning a mile and a half north of here at the residence of Thomas Morrison. Mrs. Morrison had gone away from home for a couple of days to visit a sick sister, leaving her husband with five children, the eldest a girl of 13 years of age, and the others ranging in age down to a bright little lad of 2 years.

The youngest slept with his eldest sister. When the latter awoke this morning she was surprised to find that he was not by her side. She went in search of him, and to her horror found the little boy stiff in death laid out upon a quilt on the kitchen floor. Beside him lay the bodies of his sister, aged 5, and his brother, aged 7. A barrel half full of water stood in one corner of the room. By the dripping of the water on the floor the tale was told of their death by drowing.

"Well, Quest," said the latter, "have you told the old man?"

"Oh, yes; I told him."

"How did he take it?"

"Oh, talked it of, and said that of course other arrangements must be made. I spoke to Miss de la Molle, too."

"Well," answered the lawyer, putting on an air of deep concern (and as a matter of fact he really did feel sorry for her), "I think it was the most painful professional experience that I ever had. The poor woman was utterly crushed. She said that it would kill her father."

"Poor girl!" said Mr. Cossey, in a voice that showed his sympathy was of a very active order, "and how pluckly jshe is carrying it off too—look at her," and he pointed to where Ida was standing, a lawn tennis bat in her hand, and laughingly arranging a "set" of married vs. single.

"Yes, she is a good, plucky girl," answered Mr. Quest, "and what a splendid woman she looks, doesn't she? I never saw anyone who was quite such a lady—there is nobody to touch her round here, unless," he added meditatively, "perhaps it is Belle."

"They are different types of beauty," answered Edward Cossey, flinching.

The crop bulletin of the Michigan Weather Service says: The weather conditions of the past week have been favorable to the growing crops and wheat and grass have made rapid growth. Trees are budding and leaves coming out, and the fruit prospects in most sections are promising. The conditions in the northern sections are favorable for wheat and grass. The snowjhas all disappeared, and although the ground is in a wet condition, some plowing for spring seeding is being done in Kaikaska county. The ground in most sections of the State is at present in soo wet condition to do much spring work, and but little plowing is reported done during the past week. The general opinion prevails that wheat and grass have improved materially during the past week.

# GREAT DAY

GREAT KID GLOVE HOUSE,

When Powell, Allen & Brickenden will offer some extraordinary drives in Canadian and English goods which have just been received.

Customers, citizens and others will please observe that the goods that are offered are not only this season's productions, but fresh and new in pattern and design.

We make no apology for offering these goods so early in the season, but having purhased them at very close prices, we are determined to give our customers the benefits of deep having.

chased them at very close prices, we are determined to give our customers the benefits of close buying.

1st.—The first great drive is an extraordinary one, as it is seldom you find so early in the season wholesale houses prepared to sacrifice the prices of ladies' jackets. However, we have got them, and now offer them at the following extraordinary prices, which will be found on an inspection of the jackets a little over half value, viz., \$2, \$2 50, \$3, \$3 50, \$3 75, \$4 50 and \$6 50. Fit perfect and mostly black.

2nd.—Tremendous drives in Black Royal Silk, which is the newest make of any silk in the market. Every yard will be sold for the extraordinary price of 93 cents. We challenge any silk like this line to be found at any other store under \$125.

3rd.—One case of Fast Colored Ginghams in this big lot of goods, every yard of which will be sold for 5½ cents per yard.

4th.—Also contained in the piles of goods just received, Prints and Dress Goods, every yard of which will be sold at startling prices.

N. B.—This special lot of goods which we are offering, combined with the special novelties of this spring's importations, we think gives us the most attractive drygoods stock in London. We ask for an inspection of these great drives on Thursday and ollowing days, which means the saving of money to every purchaser.
