The Drooping Cotton Market.

MANCHESTER, Sept. 19 .- The Guardian, in its commercial article, says the principal topic of interest now is the drooping cotton market and the question whether or not ploths will decline correspondingly. The prevailing opinion is that in view of the scantiness of margins the declines will be

Cholera in Europe.

BERLIN, Sept. 19 .- The health authorities of East Prussia report that during the week ending Sept. 17 there were 28 new cases and 9 deaths from cholera. In the Elbe district one new case is reported, and one in Hesse-Nassau. Two new cases and two deaths are reported in the Rhine district, and 54 new cases and 23 deaths in Prussian Silesia.

The Late Naval Fight. London, Sept. 19 .- A dispatch to the

Central News from Shanghai, dated Sept. 19, midnight, says; "A number of officers who were engaged in the naval battle on the Yalu River have arrived in Port Arthur with half a dozen warships, badly damaged and filled with wounded men.' A dispatch states that Admiral Ting's

fleet left port on Friday evening to convoy seven steam transports conveying a large force of troops. A number of Europeans in the service of the Chinese Admiralty accompanied the troops, which were to be landed near Wipi, from which point they were to be sent to the front. Nothing was seen of the enemy until the Chinese fleet reached the mouth of the Yalu River when a fleet of Japanese warships was sighted. Thereupon the transports were hurried forward and the warships were cleared for action. The efforts of the transports to land the troops were successful and most of them were gotten ashore before the naval battle began. The Chinese cruisers Chih Yuen and King Yuen were sunk and 600 officers and men on board of them were drowned. Only a few of the men struggling in the water were picked up. The Chao Yung and Yang Wei in maneuvering for more advantageous positions got into shallow water and ran aground. The stranded vessels were helpless under the fire of the kig guns of the Japanese ships and were finally set on fire

by the enemy's shells and became wrecks. It is feared some of the transport ships were sunk, including one whose troops had not yet been landed. The Chinese loss is estimated at 1,500 killed and wounded, and the Japanese loss is supposed to be 1,000, but none of the Chinese officers giving accounts of the battle know the names or size of the four vessels of the enemy which are alleged to have been taken.

Taking the Chinese best view of the battle it is plain that the encounter has reaulted in seriously crippling the naval strength of China.

Secretary Gresham at Washington, D.C., has received the following cablegram from Secretary of Legation Denby at Pekin under date of Sept. 19: "Naval engagement off North Corea, 17th-Five Chinese and three Japanese vessels reported destroyed. Fleet at Port Arthur."

Also this cablegram from Secretary Denby date Sept. 18: "Telegraphic communication between Pekin and the Chinese

army in Corea is cut off. A cablegram from Minister Dun at Yokohama says: "Sill telegraphs-l'lease cable State Department. Chinese army totally annihilated at Phong Yung Sept 16." Sill is the United States Minister to

Corea. The Daily News, in an article commenting on the naval battle off the mouth of the Yalu River, says: "We withhold our estimate of the consequences of the battle, owing to the fact that the accounts of the fighting are still too meager to enable us to determine the result of the fighting. It is our opinion, however, that if Gen. Yamagata captures Corea he will lose it again, unless the Japan fleet gains command of the sea. The war remains primarily a

The Post says the boast of Count Ito, Prime Minister of the Japanese, that the Japanese was the next strongest fleet to that of China in the Northern Pacific, and far more serviceable, has been amply justified, but there is no reason to suppose that China will not wips out the Yalu disaster in subsequent engagements.

The Standard speaks in high praise of the tactics of the Japanese admiral in securing a position of rare advantage, and expresses the opinion that it is exceedingly unlikely that China will recover her position in Corea for a long time to come if ever "Japan's arrangement of the campaign," the Standard says, "contrasts strikingly with the utter want of definite and decided preparations on the part of China. There is something almost childish in the latter's conduct." The article concludes by urging that the moment is propitious for the powers to intervene in spite of the failure of their previous efforts to prevent the outbreak.

IN THE COURTS.

Several Important Cares Disposed Of. BRANTFORD, Sept. 19.-The assizes opened there yesterday. The trial of Walker for the murder of Mrs. Williams will go over until the Spring Assizes. Walker was tried jointly with William Walter MacWherrell for the murder of James Williams, a victim, with his wife Eliza, in the horrible Middle road tragedy. At the court MacWherrell was found guilty and sentenced to death. Walker was found not guilty. The crown determined to hold Walker on the charge of

murdering Eliza Williams. John Ferguson was charged with seducing his second cousin under promise of marriage. The young man did not appear in court, and offered no defense. Verdict for \$1,000 and costs. This does not include keep, damages for which will follow later on, as the child grows.

Boston Workingmen Have No Use for the A. P. A. Agitatora

HARRISBURG, Pa., Sept. 19.-Frank P. Sargeant was today re-elected grand master of the Brotherhood of Locomotive

Firemen by acclamation.
Boston, Sept. 19 —The Central Labor Union of this city at a meeting Sunday afternoon denounced the A. P. A. as an organization unworthy of the indorsement of organized labor, and claimed that its aim was to start a religious war among organized labor in order that they might become an easy prey to the capitalists. With this end in view it was voted to withdraw its delegates from the Union of Practical Progress on account of some of its leading officers being affiliated with the organiz-

Destructive Fires at Tilsonburg. Cardinal and Other Points.

TILSONBURG, Ont., Sept. 19 .- Fire took place yesterday morning in a barn occupied by H. C. Bushner and consumed two horses, several rigs and some adjoining buildings. The cause is unknown, but is supposed to be the work of a firebug.

CARDINAL, Ont., Sept. 19.—The livery stables owned by S. Mahoney, and dwelling owned by Mrs. Carry of this village, were completely destroyed by fire last night. Loss about \$3,000; insurance \$600. JORDAN, Ont., Sept. 19.—Early this morning the residence of Solomon Over-

holt, Jordan station was totally destroyed by fire, members of the family escaping only with their lives. Quite a large sum of money was also burned, Mr. Overholt, after leaving his room, not being able to enter it again. Loss on building and contents. \$2,000; insured for \$1,000.

Narrow Escape of Three Men.

WINDSOR, Sept. 19 .- Three men in boat had a narrow escape from being killed or drowned at noon today. They were John Wasels, Thomas Ruthley and John Lawler, and it was while they were engaged in trying to recover the body of Phillip Powers, who was drowned last Sunday night. It appears that they had made you want a floral design of any kind it will nine discharges of dynamite and had pay you to get our prices. We can do

They managed to get out all right, but feel sure that if any more dynamite had remained in the boat it would have exploded.

BRECK'S FRIENDS OWN UP.

They Admit Finally That Owens is Winner.

LEXINGTON, Ky., Sept. 19.—There is absolutely no doubt that W. C. Owens has secured the nomination as democratic candidate for Congress from the Ashland district. Several strong Breckenridge men express themselves as opposed to any contest. A number of bets against Owens were

paid yesterday.
Mrs. F. K. Hunt, the venerable president of the Women's Anti-Breckenridge Association of Lexington, has received a letter from Miss Mary Dresha, sister-inlaw of Col. Breckenridge.

"I will," she says, "probably never see you again on this earth, and I want to tell you how much I thank you for what you have done in defeating the man who has disgraced the Ashland district. You at home can hardly realize how we have felt here. There was universal rejoicing this morning when the result was known.

ACTOR SCANLAN'S CONDITION.

His Insanity Passed Upon by a Sheriff's Jury-He Is Incurable.

NEW YORK, Sept. 19 .- Actor William J. Scanlan, who has been confined at Bloomingdale Asylum since Jan. 7, 1892, has been declared insane by a sheriff's jury. The proceedings were brought by his partner and friend, Augustus J. Pitou, with the approval of Mrs. Maggie Scanlan, the actor's wife. Superintendent Samuel B. Lyon, of the asylum, testified that the actor was incurably insane. He could call his wife by name, but could not converse with anybody. He has been violent at

times. Mrs. Scanlan testified that she first became aware of her husband's condition about three years ago, when they were on the road. He said one night that he heard someone talking in the next room who wanted to kill him, and he jumped out of bed and flourished a sword cane he used on the stage. She had difficulty in getting the cane from him and in inducing him to return to bed. His only property, she said, consisted of nine lots at Leavenworth, Kan., which he bought for \$3,000 from some boomers, and which are now worth about \$100 apiece. He has some plays and a wardrobe, his personal property being worth about \$3,000. He assigned the royalties on his songs to her before he

became insane. Mr. Pitou said Scanlan had been his partner for eight years before he became insane. Scanlan owes the firm \$3,000, and has a half interest in all their plays.

Capture of an Alleged Murderer.

CORNWALL, Sept. 17 .- Green, who is alleged to have murdered Cosgrove on the night of Monday, Aug. 18, and who made his escape and was afterwards squealed on by his pals, Carney and Henderson, who were captured at Morrisburg, was arrested by Detective Greer, of the Provincial detective force, and Policeman Smith, of this town, at 7:30 p.m.

Pleads Self-Defense.

CMATHAM, Sept. 19 .- John Warnock. charged with the murder of John Radcliffe at Tilbury on the 10th inst., appeared before P. Forhan, J. P., yesterday. Only two witness were examined. One witness said that Warnock appeared to have been teased by the four men with whom he had the altercation. Warnock was in good spirits, and said he believed he would be acquitted. His plea is self-defense.

A Cow's Course Dinner.

Кокомо, Ind., Sept. 19.-А week ago Col. William Pollock, of Deer Creek, while cutting corn hung his vest on the fence, the weather being warm. A cow in an adjoining field came along and deliberately eat up the garment. In the pockets were two lead pencils, a tooth brush, two pairs of spectacles, an ounce of quinine, some silver change and a bottle of blood medicine, all of which went into the voracious maw of the bovine. The cow is still alive.

Preacher Jailed for Breaking Up a

Dance. WASHINGTON, Ind., Sept. 19 .- The other night while an impromptu dance was in progress at a residence in West Washington an unbidden guest appeared in the person of the Rev. Mr. Grayville, of the Wess End M. E. Church. He occupied a residence close by and demanded that the dance should cease, as it created a disturbance in the neighborhood. He seized the fiddler roughly to illustrate that he was in carnest, and then extinguished the lights. This afternoon he was brought before Squire McCafferty, charged with assault and battery, and was fined \$1 and costs, which he refused to pay. He was then taken to jail, where he was visited by members of his congregation, who promised

him their earnest support. A Horrible Death.

MONTREAL, Sept. 19 .- Henry Debeau, employed in the St. Lawrence sugar refinery, fell into the centrifugal dryer this morning and died a horrible death. The machine, which turns at a terrific rate of speed, mangled him fearfully. Eustace Quellette, a brother employe, was standing near the machine, and was struck by one of Debeau's feet as the latter was being whirled round. He had to be taken to the hospital.

The verdict of the coroner's jury on the body of Major Bossford, Royal Engineers, who fell from the roof of the Halifax Hotel on Wednesday was "Accidental death." The major had been in poor health for some time, suffering from nervous prostration.

Characterize the Sessions of Conference.

Compensation of Missionaries in Japan Discussed.

Close Voting and Talk of Appeal to the Civil Courts.

Wednesday Afternoon.

The continuation of the debate upon the mission committee's report proved the most serious, exciting and eventful of the conference. The discussion began with a good-humored interchange of views for and against Rev. J. R. Gundy's amendment to the clause of the report for a new general board composed of territorial representa-

Rev. J. R. Gundy's amendment was: That the board shall be composed as formerly of the officers of the society, and one minister and one layman from each annual conference, elected by the ministers and laymen voting separately in the annual conferences, also tweive members at large from the General Conference,

Rev. J. R. Gundy, Rev. Dr. Stone, Rev. Dr. Milligan, Principal Shepherd and Rev. F. S. Heustis supported the amendment on the ground that the proposed territorial representation would be as costly and less satisfactory to the membership at large than that prescribed by the amendment. On the vote being reached Rev. J. R. Gundy's amendment was adopted by a

large majority. The foregoing was but preliminary to the forensic battle of the conterence, so far as sensational feelings were concerned. It was launched by an amendment by Rev. F. A. Cassidy, of Japan, requiring the mission board to draw up a scale of stipends for missionaries in the foreign field, the same not to be changed without the consent of the missionary concerned, or the option VETERINARY SURGEONS. being given to any such missionary to re-

Dr. Sutherland, mission secretary, bagan a speech which culminated in a climax, with

Rev. Dr. Burns, of Hamilton, imploring Dr. Sutherland not to proceed in the vein which he was speaking. Dr. Sutherland, in replying to Dr. Eby, declared that if the feelings of the missionaries of the denomination in Japan had been accurately described the time had come for a change in the personnel. The change there only took place after a year's notice and evoked one of the most remarkable protests ever received by any board, almost sufficient to cause the board to consider the relinquishing of the work there. If such things were to be repeated, in the name of decency, he said, let us give up our foreign missions and keep our men at home. The missionaries in Japan lived in comfort as compared with

those on the distant missions of our far west. Dr. Burns, rising excitedly: "Cannot this thing cease. Let it not go out that the missionaries in Japan and the board are in conflict." Before Dr. Burns could proceed theconference was a scene of uproar. Shouts of "order," "chair," "sit down," were inintermingled with Dr. Carman's loud rapor Bleeding; Fistula in Ano; Itching or Bleeding of the Rectum. The relief is ping on the table and a stern order to Dr. Burns to sit down and allow Dr. Sutherland to give an account of his department.

Dr. Sutherland explained that all his letters to missionaries in Japan had been written by instruction of the mission board, and had been unanimously indorsed by the board. The board was simply the guardian of the mission fund. If the amendment carried it would hamper the operations of the board and its necessary prerogatives. There was now nothing to be done but to draw a clear scratch at our heels and go on.

The next surprise for the conference was that Dr. Sutherland had replied too soon under the misapprehension that he was closing the debate. The vote, howhad not been ordered, and ever. the debate was continued by several other speakers, including Judge Chesley, who strongly supported Mr. Cassidy's amendment as equitable, and in the interests of the missionary cause.

The show of hands left the fate of the amendment in doubt. A rising vote being ordered the vote was 90 for and 73 against, the amendment being carried.

LICORICE Lengthy debate occurred over an amendment to the report made by Rev. T. G. Williams, D.D., to strike out the "French' The London West Coal and Wood Yard which takes the appointment of French The undersigned, having opened a yard for Canadian missionaries and agents out of the the undersigned, having opened a yard for the sale of coal and wood, solicits the patron-age of the residents of the Village and vicinity. was: 72 for 73 against. The ayes and navs

being demanded, the vote was: 84 for, 93 against.

After the 6 o'clock adjournment the conflict was renewed, the Montreal delegates being greatly aroused and talk of an appeal to the civil courts being publicly made, Judge Deacon attacked the legality of the vote, charging that it was a change in the constitution, needing a two-thirds vote. Dr. Carman declared the conference competent to pass upon the constitutionality of its vote. The legality of the bare majority vote upon the transfer of the power of appointment was sustained by a large majority. A few clauses of the super-

annuation report were adopted. The conference will hold three sessions daily until its close.

Thursday Morning.

At the opening of the conference this morning, Principal Shaw read the following communication, which indicates that the misapprehension as to the effect of the action of the General Conference in the

matter in question has been dispelled: "At the regular meeting of the Epworth League of Christian Endeavor of the Dunnville Methodist Church, held this evening (Sept. 18), when nearly 100 members were present, we discussed the action of the General Conference concerning young people's societies, and the following resolution was unanimously carried: Resolved, that the Dunnvillle Epworth League of Christian Endeavor has read with the greatest pleasure the action of the General Conference regarding the name of the young people's societies in our church, and we rejoice that while we retain the official name of Epworth League, there has been given such hearty permission for affiliation with the Christian Endeavor Society, and and we sincerely trust this wise action will allay all agitation on this question throughout our Methodism; also, that this resolution be forwarded to the General Conference with our heartiest assurance of unanimous accord with this action of the confer-

The report of the finance committee contained these, among other clauses: That the treasurer of the sup rannuated ministers'

fund, be the treasurer of the General Conference fund, at a salary of \$150 a year. That the advisory committee in the General Conference fund consist of Messrs. Richard Brown, J. B. Willmott, M.D., and Rev. James Allan, all of Toronto. That the billeting committee of this

conference be appropriated the sum of That the annual salary of the general superintendent be \$2,500 and \$500 per

annum for expenses. That the General Conference fund treasurer be authorized to borrow moneys necessary for paying claims during the

quadrennium. The finance report was submitted by Mr. R. W. Clarke, secretary. The continuation of the consideration of

the superannuation fund debate was resumed in this clause: The missionary society shall contribute, on behalf of each foreign missionary, in lieu of circuit contributions, the sum of \$70 per annum; and on behalf of each toreign Indian or other ordained missionary (except domestic) the sum of \$50 per

annum. Rev. Dr. Sutherland made a vigorous protest, claiming that the basis of such contributions should be membership, the minimum that of the smallest home con-

That remarkable figure in the foreign | ference, the assessment to be 22 cents per Rev. W. Kettlewell, clerical secretary of the committee, said: "I am surprised at the ingratitude of the missionary secretary." Mr. Kettlewell proceeded to show that the committee might have called upon the missionary society to contribute more heavily on behalf of the missionaries to the

superannuation fund. Dr. Sutherland: "It's the same principle that a man should be grateful to a man who takes his purse because he does not take his

Rev. A. C. Courtice pointed out that this clause should be made to apply exclusively ing at Winnipeg, voted that the children's to missionaries belonging to the superannuation fund. Dr. Maclaren, Q.C., suggested that this

wise provision should be met by the addi-

tion of the necessary words in the clause, which as so amended was adopted. The next clause gave rise to considerable debate: "There shall be contributed annually, on behalf of each ordained minister in the active service of the church who is appointed to a position outside the regular pastorate by the society, department, institution or conference he serves, in lieu of circuit contribution, the sum of \$50. This law shall apply to the officers of the General Conterence, the missionary society, the educational society and the superannuation fund; to the principals, professors, teachers and agents of our educational institutions; to conference evangelists, and to all min-

isters appointed to service outside the pastorate. Rev. Dr. Burns opposed the clause as discriminating unfairly against those engaged at proprietory institutes who paid for their advertisements in the Guardian, instead of having them inserted d. h. (Laughter.) The clause he described as a

premium on beggary. Dr. Burwash considered the vote so important that the yeas and nays should be called. He waived this, however, and the clause was adopted by a large majority.

NOTES. The temperance committee have adopted a very strong resolution which opens with the declaration that the liquor traffic cannot be licensed without sin. If adopted it is to be published as an address by the temperance committee to the membership of the Methodist Church.

The education committee have completed their report. Rev. S. D. Chown, pastor of the Carlton Street Methodist Church, Toronto, who has been visiting the conference, returns

home today. Principal Shaw is due at Quebec on Thursday next to attend a most important meeting of the Council of Public Instruction. Speaking of the date of adjournment this morning he said: "It is still a little uncertain.'

The dicipline provides that all changes of General Conference officers date from their next conference year so that the change of editors of the Guardian will not take place until June next.

The conference to-morrow entered on its third week. A Kingston dispatch says: "Many regrets were expressed here when it was announced that Rev. A. C. Courtice, pastor

of the Sydenham Street Methodist Church,

was to leave the city to become editor of the Christian Guardian." Thousands of new patrons have taken Hood's Sarsaparilla this season and realized its benefit in blood purified and strength restored. Manager-Why do you look so gloomy?

REGULATORS REGULATED.

Characteristic Incident of Life in the

Sunny South. NEW ORLEANS, La., Sept. 19 .- A shooting affray is reported from Abbeville, in which two regulators lost their lives. For some time past a party of regulators, headed by a man named Dahomine, has been terrorizing negroes who were considered noxious. Sheriff Leblanc, hearing of a contemplated raid on a negro named Newton Jones, lay in wait with a posse, and when Dahomine and his gang came in sight all armed and masked, the deputies pounced upon them suddenly and captured the tralian trade with exhibiting and local entire party-nine in number. It was "Farmers' Day" and the often burlesqued country consin put "citizen" to the new conditions and are striving to shame and completely swamped "Germania." They came by rail, by wagon and on foot; they filled every seat on the stands and caused the stand ticket agents to stop the sale of tickets; they came 35,000 strong and naturally saw and easily conquered. They brought their fathers and their mothers, their sisters and their brothers, their cousins and their aunts, their uncles and their grandparents, the baby and the little dog, a lunch, an umbrella and an overcoat, and cash in their pockets. They spent their money with a carefulness born of the low price of wheat, yet with a liberality inseparable from the presence of the peanut stand, the side show, the merry-go-round, the baseball chance and the cane-ring. They crowded and jostled in the main building, were good-natured and jolly and saw it all. They smacked their lips over a taste of tea in this corner and a sample of chewing tobacco in another. They sat for a profile sketch of their features and they took all the chances of enjoying themselves. And they were by far the most welcome of any of the crowds that have attended the Fair so far. It was rumored yesterday that each day of the Fair would be called "Farmers' Day" next year to insure a good attendance, but of Avon, is a grand animal, and secured this could not be verified. They were driven around the city by the mayor and then conveyed to the grounds, where they were taken in hand by President Porte and other officials. They were shown through the various departments, and afterwards enjoyed the ring attractions from the judges' stand. The attendance exceeded their expectations, and they praised the Fair without stint. Messrs. Bowell and Larke will remain a couple of days and talk Ausmanufacturers. They will also visit a few

The other attractions received more applause than on former days, which doubtless went to prove that there was a more appreciative audience on the stands. They shouted "more" when Major Hendershott played the drum, they held their breath at Calverley's performance and applauded with their hands, they keenly enjoyed the chariot and standing races and were intensely interested with the anonymous contortionist, with Rajan, the clever tumbler, and the De Comas. Mlle. de Vean ascended on high, although a stiff breeze was blowing. In coming down | them. she met with an accident such as balloonists leave themselves open to in their perilous calling. The wind rapidly carried the balloon south, and the daring woman cut loose when at a considerable height. In landing she struck and partially demolished the chimney of a Rectory street cottage one-quarter of a mile from the starting point. Then she tell twelve feet and sustained painful injuries. A hack was procured and Dr. English summoned. He found marks of a severe blow on the lower part of the spine and a thigh badly bruised. She was otherwise

The fireworks display was very nice, but a strong wind carried the smoke into the stands. All the special attractions were repeated.

The Horses.

Though on the whole the show of horses was not as good as in some former years, there was a number of magnificent animals in all the classes. The brood mares and foals, and many of the colts, showed the effects of scant pasturage during the past very dry summer. The departure which was made a few years ago in breeding. using thoroughbred sires in place of the heavier classes, was plainly seen in the great predominance of roadster and saddle colts over the heavy draft. The day of the general purpose horse passed with the coming of electricity as a motive power for street railways and necessitated a change in breeding. Farmers have generally met produce an animal which will bring a good price either for saddle or carriage purposes. Heavy horses are still saleable, but they must have weight enough for heavy city drays. Some farmers are still breeding the latter class, and a few fine 1,700 pound horses were seen on the grounds, for which their owners refused what would be considered high prices at the present time. There were many grand Clydesdale stallion competitors for prizes, and they are still prime favorites in some localities. Mr. S. J. Prouse, of North Oxford, showed a 2-year-old stallion and filly of the Darnley strain,

which are superior specimens of the breed. Gold Cup, a stallion owned by Mr. Park, of Burgessville, was a prize winner at Toronto, and is sure to capture a prize at the Western, Mr. Holmes, of Beechville, has another fine stallion. There are a few imported mares with colts by their sides that are fine samples of the breed. THOROUGHBREDS

The show of thoroughbred stallions was better than that of any other class. The finest animals in the Dominion faced the judges in competition. Most of them were imported, and the pick of the English stables. Norwegian, owned by Roe Bros., first place, as he generally does at the leading fairs of the country. Ranleigh II., owned by Martin, of Masonville, was a close competitor, and in the opinion of the judges was a good second. They are both grand horses and each has scores of admirers. Mr. Hodgens and Mr. Fitzgerald, of day crowd, a crowd that came early, stayed bred sires, no doubt with an eye to business in the future, when they will be avail-

There were a few good trotting bred stallions, and the late performances of Robert J and Alix are making that breed more popular than ever just Mackenzie Bowell, Minister of Trade and | now. Some of them were muscular and of sufficient weight to make their get useful commissioner for Ontario at the World's for other purposes than the trotting course. A German carriage stallion, Graf Bremer, imported by a syndicate of farmers around Thamesford and in charge of Mr. McCartney, is a grand specimen of horse flesh, and will no doubt be a profitable speculation. He is of fine form and action,

The poultry show was a big success. Those in charge of that department decorated the hall in a very pleasing manner. As large as the building is it had not the capacity to accommodate the large number by far the best poultry exhibition ever held in London. Every class was well represented, but the business Leghern, who keeps right on laying whether the eggs are low or high in price, was the most numerous. The Rocks, which present such a fine appearance cooked on a platter, were next in order. Every species of fowl was well represented, and it was a difficult matter to pick out the winners. The well-known poultry breeders of the Province all put in an appearance. Messrs. McNeil, Bogue, Oak, McCurdy, Bartlett, Flawn, Marshall, Stewart and Scott, all of London, were exhibitors. Toronto was represented by T. A. Duff & Co., and Barber and Wayner. Among other exhibitors were John Fletch, Shakespeare; Bradley, Milton, O'Brien and Caldwell, Paris; Rev. Mr. Scott, Ridgetown; Scott, Oxford and Graham, of St. Thomas, and W. H. Beattie, Wilton Grove. The judges were L. G. Jarvis, Sharp Butterfield and T. Smelt. SOME OF THE BEST EXHIBITS.

Cuivert and Sewer Pipes.

Mr. E. North is on hand as usual at the southwest corner of the carriage building with some of his famous manufactures. Mr. North makes a specialty of concrete tiles, plain single and double traps for taking water off streets in cities and towns. These articles are rapidly growing in popular favor, being now in use throughout the county of Middlesex, and have been introduced into Oxford, Perth and Elgin. A practical illustration of the value of North's tiles is found at Carling's Creek on William street, where the city engineer, by the aid of these tiles, has been able to do away with three wooden bridges and effect quite a transformation. This work, which is of a permanent character, has been inspected by many citizens, who unite in their praises. Not only are the municipalities "catching on" to these tiles, but the big railway companies are using them quite extensively, and their general adoption all over the country is bound to came, and that very quickly.

Washing Machines. There is no utensil more appreciated by

the good housewife than a washing machine which will do satisfactory work. It lightens the labor of washing day and saves a vast amount of disagreeable labor. of good seasoned lumber. Doherty Organs. The Doherty Organ Company, of Clinton, are represented at the Fair by a number of their instruments in newest designs. The display is a beautiful one, and was not long in the main building before it was sold outright to Mr. B. J. Walker, of Windsor. Mr. Walker knows a good thing when he sees it, and made the purchase for the purpose of displaying the goods at Leamington and Windsor. A big proportion of the organ trade is going to the Doherty firm, which shows that their instruments are giving satisfaction wherever sold. They are perhaps the largest manufacturers in the organ line in the country. The hard times which passed over Canada during the year did not affect the Doherty business

A Great Meat Cutter.

It has roller bearings, a circular draw, and the cutters revolve, which enables it to do good work. It will cut as much meat in five minutes, it is claimed, as other machines will cut in twenty. It can be operated by one man, whereas most other machines require two. They are in use in the city, and those having them say that they will do all that the makers claim for them. This firm also manufactures an improved engine that has only three wearing points, which is seven less than are found in other makes. The one running in the hall does its work well, and is all that can be desired in an engine of its class. The firm also make steamfitters' supplies, hand, hydraulic and power elevators. In fact, they are prepared to do anything in the machinist's

Tetloy's Ten. One of the most tastefully arranged exhibits in the main building is the Tetley tea display, situated near the western entrance. This popular brand of tea is rapidly winning its way to fame and into the estimation of housekeepers. They know a good ten when they taste it, and so they readily become acquainted with Tetley's. Thousands have availed themselves of the opportunity afforded at the exhibit to test the flavor of this tea, and all who taste it are loud in its praise. This company has been awarded the bronze medal for the best tea exhibit at the Western Fair, and they have also won medals in competition with the world at the Columbian and other international expositions. The headquarters of the firm are in London, England, and they control plantations in India and Ceylon. They have opened agencies in all parts of the world-in Toronto, Montreal, Chicago, New York, Winnipeg, Australia, Russia and other European countries. Truly the sun never sets on Tetley's. The exhibit is in charge of Mr. Boon, and he and his lady assistants are always prepared to demonstrate the deliciousness of Tetley's by a good practical cup of the brew. Controlling their own plantations, this company is able to produce its own blends. To the fact that the tea is the best and the prices most reasonable this company owes its ever increasing popularity.

B. J. Nash & Co.'s Display. In the carriage building Messrs. B. J. Nash & Co., the well-known manufacturers of this city, make a grand display of their justly celebrated vehicles. Included in the lot is one of their handsome landaus, the only vehicle of the kind in the building, gotten up in the latest style and beautifully finished. A magnificent hearse, elegantly trimmed, is also shown. The reputation of Nash & Co.'s hearses extends throughout the Dominion. They also show a superb lady's phaeton, several top buggles, a light democrat wagon, of which they turn out a large number annually, and last, but far from least, the celebrated Ideal cert. This cart is by long odds the most popular in the market, and is entirely free from horse of birds which were entered for prizes. In motion. Already this season they have point of number and quality of birds this is | made 1,000 of them, and orders continue to pour in. To give an idea of the popularity of Nash & Co.'s vehicles it may be truthfully said that in every city, town and village from Halifax to Vancouver they are to be found in use. None but the very best material is introduced in their manufacture

and only skilled workmen are employed. so it is not to be wondered at that Nash's carriages, hearses, carts, etc., lead all competitors. The Bell Pianos. Yesterday was the farmers' turn at the Fair and the attendance surpassed any previous day. As the numbers rapidly run up, the crowd in the main building became

so large that the aisles were almost blocked. Especially was this the case at the southeast corner downstairs, where the exhibit of the Bell Organ and Piano Company (Limited) of Guelph is to be seen. The display is a most attractive one, comprising thirteen instruments. There are seven pianos of exquisite finish and design, which give but a slight idea of what the company can turn out of their factory in the Royal City. The interior fittings are up to date. and include, among other improvements, a tone softener, which meets with the general approval of musicians. As the firm embellish their output with the latest ideas. their popularity has so increased that now 75,000 instruments are in use. Mr. A. Burness, the London manager for this old established firm, is in charge, and has an efficient staff giving daily recitals. Look for the piano exhibit with the electric far. An Exhibiting Rack.

Merchants in general are naturally giving great deal of attention to the show of exhibiting racks for store windows. The general utility, durability, beauty and cheapness of the rack are marvels, and a merchant having a continually varied stock can ill afford to be without one. On it can be displayed to the best advantage clothing, hats, collars, cuffs, shirts, ties, shoes, drygoods, millinery, etc. Mr. D. L. Taylor is in charge, and will explain the properties of this novel rack.

A Deserving Testimonial.

The Gerhard Heintzman piano has increased in popularity since the exhibition opened, and the fruit of the display is the sale of many instruments. In the past Mr. Gerhard Heintzman has had honors showered upon his instruments by musicians and journals, but one appearing in the Music Trade Review of New York is especially worthy of note: "One of the best known piano manufacturing establishments rubber boards. The one moves downwards, in Canada is the Toronto house of Gerhard the other upwards, while the lever is Heintzman & Co. The building is

Tuckett's Cigars and Tobaccos.

The George E. Tuckett & Son Tobacco Manufacturing Company, Hamilton, have a first-class display of cigars and tobaccos in the main building near the eastern end. The company has lately engaged in the manufacture of cigars, and they are commencing early to make as good a reputation in the cigar line as they have in the celebrated "T, and B." tobaccos. Their "Bouquet," a 5-cent cigar, has no superior on the market. and the "Marguerite" at 10 cents (three for a quarter) is equal to many cigars that sell for more money. Union labor is employed throughout. Mr. Lind, the agent for Western Canada, is in charge of the exhibit. For 40 years this company has maintained a reputation in T. & B. tobaccos, and today Myrtle Navy is in use throughout the civilized world. The latest and best thing in chewing tobacco is Tuckett's Mahogany. Although on the market only a year, it is now universally used throughout the Dominion by all lovers of

Dennis Wire and Iron Works. "Steel and Iron, Symbols of Civilization." is a motto that adorns the display of the Dennis Wire and Iron Company in the main building near the southwest corner. The exhibit is a fair indication of the work that this enterprising firm can turn out. It contains samples of iron roof cresting, vanes and tower ornaments, wire and iron fences, wire flower stands, lawn vases, settees, grave guards and arches, iron bedsteads, wire cots, bank and office railings, iron stairs, fire escapes, iron stable fittings, wire work in all its branches, art brass and metal work and architectural iron work. The finish of these goods is excellent and the prices low. Mr. Dennis' enterprise is a In the Machinery Hall.

There is no firm exhibiting in Machinery Hall, or in fact anywhere on the grounds, that is more widely and favorably known than E. Leonard & Sons. Established befor the present generation was born, it has grown with the growth of the country and kept pace with the advancing spirit of the times. Great improvements have been made in the construction of engines since Hon, Elijah Loonard built the first one made in Upper Canada in 1834. This can be realized by anyone who will view the splendid automatic engines on exhibition in the machinery hall, and then Bank of Commerce Building, first door north go down to their big establishment on York street and take a look at the one made in the pioneer days. They now employ 100 men but their usual force is about 140. Their automatic engines embody the results of recent scientific discoveries and the best mechanical skill. They are built in all sizes, from three up to 250 horse power. These improved engines save at least 20 per cent in fuel and a greater per centage in wear and tear. In the dairy hall are samples of the engines and boilers the firm supply to cheese factories, and which are giving the best of satisfaction, The large engine which supplies the power for the machinery hall is the make of this establishment.

-Canadian bacon is in far greater demand in Great Britain than that produced in the United States. There is a great future for the Canadian pig if our farmers continue to feed him according to the hints supplied by the packers. We have a reat climate for raising good animals as well as substantial men and women.

-Alex. McNabb, for many years police magistrate of Toronto, but now a resident of Texas, is on a visit to his old Canadian home. In a recent speech, he warned Canadians to avoid election of county officers. He had, he said, seen the elected county judge in his section on the night of the election so drunk that he could not stand up to the bar. The elected sheriff owned a saloon and ran a faro table.

-Tomorrow will be the last day of the Western Fair. The attendance will not be His mantels are both useful and ornaso large as on previous days, and an admirable opportunity will be afforded for citizens to visit and inspect the many very excellent exhibits. The exhibition is an education in itself, and no one can carefully scan its many departments without feeling that his time has been well spent, and that the unselfish management of the Western Fair deserve the support of everyone interested in the progress of London and the

-From Calcutta we have news of further remarkable instances of the success of Prof. Haffkine's system of anticholera inoculation. In the first case four out of six members of a family were inoculated last March. -It is due to the public, as well as to themselves, that exhibitors at the Fair, whether in the main building or out of it, should carefully read the regulations governing the placing of exhibits, and endeavor to act up to them. When, as is sometimes the case, a prospective exhibitor speaks for space in the main building, and fails to send his product forward in time -waiting, as was the case in one instance, till three show days had elapsed-it is not to be supposed that the space originally allotted will be kept vacant. The directors of the Western Fair have to finance the institution. They have to pay large sums to provide a prize list and to secure special attractions, and floriculture there displayed. they would be derelict in their duty if they failed to look after their sources of revenue. The directors make mistakes like the rest of us, but their faithful endeavor to get the exhibits in good shape at the earliest hour possible is not one of them.

CHINA INVADED. Never has nation rejoiced over victory more than have the Japanese over their land and naval triumphs in combat with their big neighbor. The crushing defeat sustained by China in Corea has had a most important result, inasmuch as it has practically freed Corea of Chinese invaders, but the Farmers' Institutes, which But it has done more. Two weeks ago Field Marshal Yamagata, of Japan, a noted military strategist, landed an army of 45,000 at the mouth o the everything connected with farm life and Yaloo River, which forms the boundary between Corea and China. As a result of the recent victory, the Japanese field marshal is now enabled to command the August make is soit and off-quality. The only serviceable road from China, which enters Corea at the mouth of the Yaloo River. He was thus able to cut off the retreat of the Chinese and to prevent the sending of reinforcements. This army is now free to invade the Chinese province of Shin King or Leao Tong, and by our dispatches today is stated to be marching on the large city of Monkden, situated not far from the border, which is none too well fortified, and is likely to fall into the hands of the invaders. As Monkden is the northern terminus of the one Chinese railway which runs thence to Tien Tain, the port of Pekin, our readers can readily conceive the onormous advantage which the Japanese by their masterful strategy, energy and

A Great Pump. No hotel-keeper or plumber should leave the grounds without first seeing the exhibit of the Parker pump. With it eleven glasses of beer may be pumped in one minute. It has a ball valve, a great saver of exertion. It can be attached to either side if required. There is a great demand for this pump, and it has been placed in all the leading hotels in the city, besides being introduced into the best in the west.

Grand Mogul Tea. Messrs. T. B. Escott & Co., the wholesale grocers, have got their exhibit in the center of the main building, downstairs. The display is very tastily arranged, and is much admired by the visitors. Messrs. Escott & Co. have taken hold of the Grand Mogul Tea, and intend to bring it prominently before the public. The tea is of a particularly fine flavor, and to make its many good qualities known, several pretty girls are engaged supplying callers with samples of the beverage. A draught of it causes no wry faces, but makes the consumer smile and generally remark that "it beats them The Lion Brand is the finest Mocha coffee, and receives high recommendations from leading medical authorities as an assistant to digestion and a great blood purifier. general favor and prominence. Bland's Beauti ul Mantels. As the visitor enters the main building from the west and turns to the left his attention is at once riveted by the magnificent mantels shown by Mr. R. R. Bland. They would adorn a queen's drawing-room. The illuminated gas and coal grates are pretty pictures of home comfort and parlor embellishment. The wood mantels with parquetry flooring are simply exquisite in design and finish, while the workmanship is perfect. Mr. Bland is a practical man himself, and has thoroughly established his reputation in this part of Ontario. Nearly all the best residences in London are supplied with these splendid products of his artistic skill.

Clare Bros.' Furnaces. A furnace, and a good one at that, is something which every housekeeper has not got. With some there is no end of trouble, but this is not the case with the furnaces made by Clare Bros. & Co., of Preston, Ont., who are displaying their goods on the south side of the main building. The Marvel coal and wood and the Hilborn wood furnaces are made by Clare Bros., and so is the hot air and hot water combination heater which has been tested, and gives splendid results. For economy and convenience it is unqualed. The highest award (a bronze medal) has been given this firm. A display of stoves was intended for the Fair, but space could not be secured. Mr. J. Brockest, 66 Craig street, South London, handles Clare's furnaces.

A Re reshing Drink. On entering the main building from the that it is fully a sixth of the entire consumption of tea, has only within a few months past been introduced in London,

Greenway, the Florist. Crowds on Dundas street this week have turned longing eyes on the beautiful display made by Greenway, the florist, in his handsome new quarters at 248 Dundas street. The store is radiant and the air fragrant with a lovely array of the choicest products of the greenhouse. The exhibit of cut flowers is exquisite; the firm makes a specialty of this line. The greatest attention is given to designs for funerals or festive occasions, and they are prepared on the shortest notice. Greenway's green. houses in London West, opposite the public school, are among the largest and best equipped in the Province. Here flowers of every variety are cultivated in bewildering profusion by experienced hands in order to supply a continually increasing trade. Greenway's new store is decidedly fine and makes an attractive setting for the gems of

A Big Purchase, Messrs. Ferguson & Co. have purchased the entire stock in Messrs. Gowans, Kent & Co.'s show rooms, 353 Richmond street. Citizens desirous of securing bargains before the goods are removed will do well to call on Thursday evening and Friday. In the Dairy Building.

Several of the creameries which were wont to exhibit and capture the greater portion of the prizes, failed to put in an appearance this year. Yet the show of butter, as to quantity, is fair, and the quality is good. More farmers' wives than usual are exhibitors, and their butter shows the improvement that is taking place in the farm dairies. The Jersey cow must be credited with a due percentage in this, have been held throughout the Province for several years past, has done much for the butter-making interests of the Province, as they have, indeed, with farming methods. The cheese is not up to the usual standard, which may be attributed to the severe drought which prevailed in the Province during the summer. The June and July is better and contains some good samples. It is noticeable that several makers who used to secure first place are this year relegated to the second or bowled out of the competition altogether. NOTES

CRICKET. LORD HAWKE'S TEAM. New York, Sept. 19.—The match be-tween Lord Hawke's team and the New York team has been declared off for the present. Lord Hawke's team was not communicated to Staten Island club until late this morning, and caused general disappointment. The English team will leave New York for Philadelphia tomorrow, where a match has been arranged.

THE INTERNATIONAL CRICKET MATCH A PHILADELPHIA, Pa., Sept. 19.—Rain prevented the continuation of the Canadian-United States cricket match, and the game has been declared a draw. When stumps were drawn yesterday the Americans had scored 177 nine wickets, against 155 by the visitors, full score. This is the first time in several years that the annual match has not been

ALIX BEATS THE 2:04 TROTTING RECORD. GALESBURG, Ill., Sept. 19 .- The Galesburg track now holds the world's record for trotting, Alix elipping a quarter of a second off her record here this afternoon, going the mile in 2:033. To witness the trial of Alix and the other events no less than 20,000 people were on the grounds. At 5:10 o'clock Mr. Williams announced the special event of the day, the attempt of Alix to beat the world's record of 2:04. With the runner by her side she went the quarter in 301 and the half in 1:013. As she neared the three-quarters the watches marked her at 1:323. When the mare turned into the stretch she tairly flew, and without a skip came under the wire in 2:033. Tomorrow Robert J will go to beat his record of 2:011; Directly to heat his record of 2:10, Flying Jib to beat his record of 2:04, and Online to beat the 4-year-old record of 2:07.

A Common Trouble, With many people in this climate there is a large portion of poisonous, purulent discharge which drops into the throat during sleep, and is swallowed. This disturbs the functions of the stomach, causing weakness of that organ, and producing indigestion, dyspepsia, nausea, and loss of appetite. There is no better remedy for these troubles than Eseljay's Liver Lozenges. They are the best system cleanser there is. They can be had at all drug stores at 25 cents a box or five boxes

Walls of Some German Public Institutions Constructed of that Material. "While I was in Germany last year." said W. L. Burgess, of New Haven, to a St. Louis Globe-Democrat man, "I came across several walls surrounding some of the public institutions that were constructed out of cast-iron bricks. These bricks certainly have many advantages over the old fashioned clay bricks, though they may not prove to be superior in all respects. In form and size these bricks resemble our ordinary bricks, but they are composed of cast iron, and hollow. The shell is so thin that the brick weighs less than one made of clay 5-Cent Cigar. A wall is built of such material with out the use of mortar, and no skilled labor is required in laying them. The upper and lower sides of the bricks are provided with grooves and projecting ribs, which fit into each other easily and perfectly, and form a wall of great strength. There are also two large circular openings in the upper side of each brick, arranged so as to receive projections on the lower side of the brick that is to be placed above it. One of the projections is hook shaped, which secures a id hold. A wall of these bricks is put together very quickly. After the wall is built it is covered with paint. This closes all the cracks, rendering the wall air-tight, and prevents the bricks from rusting. The brick are very durable, and a building constructed of them would be practically fire-

BANG AWAY.

The ladies as a rule bang or tong their locks for the purpose of improving their appearance. This is the purpose we have in view when we bang away at our big stock of beautiful Mantles. We desire that the ladies should look their best, and the lady who wears one of our Manties will find her appearance greatly improved. Already this season we have sold a large quantity, especially the tailor-made styles, which are the principal ones asked for now. Those desiring fancy styles, such as the Eton Front and Coat and Vest, can be supplied.

An electrical storm in St. Louis recently deprived many aquariums, both in residences and show windows, of their silver and gold fish. Thunder and lightning are judged by old fishermen and proprietors of animal stores to be the cause of the death of fish which are found floating on their backs for several mornings after an electric sterm A St. Louis electrician gives it as his opinion that the concussion of the thunder breaks the air chambers which by compression cause the fish to sink and by expansion to rise to the sulface.

Is our clothing, and so it should. There is STYLE, FIT and FINISH about our Suits and Overcoats as well as great wearing qualities. The bulk of our clothing is manufactured by the TWO LARGEST and BEST and a large part of it is made specially to our order. This is why clothing sold by us fits so much nicer and looks so much better than ordinary readymades. There is an individuality about our garments that strikes the customer favorably the moment he puts them on. Then the linings and trammings are all of the best possible description, thus securing real agood wearing qualities, besides the comfort of wearing clothes that fit a person properly. All these things along with a very moderate price go a long way in making large sales. Our new hill stock is now complete, and we ask you in your own interest to come and look through our great assortment, feeling certain a thorough examination of OUR CLOTHING and OUR PRICES will lead to business.

TORONTO. TORONTO, Sept. 19 .- Receipts of stuff at the western cattle yards were heavy yesterday and the market was duil. Altoge her there were 83 carloads on the market, which included 1.228 sheep and lambs, 1,579 hogs and about 75 calves. During the afterneon 14 carloa is of Manitoba cattle arrived. Buyers were only moderate in attendance. Export cattle—Cables to dealers were poor, only 54d, so that the market here was correst ondingly dull. Only one or two of the choicest cattle touched 4c per lh, most of the best sales being at 35c per lb. The range of prices may be put at 3c to 3|c per lb, prices being off from 1c to 1c per lb. Dealers reported that the cattle are not fat enough, most of them being just in nice condition to class as feeders. Quite a quantity of cattle were left in the pens at the close of the day. Although the feeling ta butchers cattle was perhaps slightly weaker, prices were fairly well held for good cattle. Choice butchers' cattle sold readily enough, but common and poor were hard to dispose of. There were a few carloads picked up for Montreal. About the best sale of the day was a lot at 3% per lb., only one or two touching 3% per ib. The range is put at from 2½c to 2½c per lb. for poor to common, up to 3c to 3½c per lb. for medium to good, and from 3½c to 3½c for fancy. A few good calves are wanted, choice veal calves being scarce. These weighing from 130 to 140 pounds will bring \$6 per head. Inferior weak; sales included No. 2 red. TOUCHS IN TOWN.

A Big Docket at the Police Court.

Drunks, Trespassers, Fighters, Vagrants, Etc.- Youths Who Wanted to See the Fair Free.

The police magistrate had an immense grist for his mill today. There were so many prisoners at the bar that they had to be brought in by relays-the cage would not hold all at once. Most of the arrests were in connection with the Fair. There are always a lot of people who, not

to land him in durance vile. He paid \$3 for the fun.

While Sterrel was giving evidence he recognized in the dock four young Hamilton toughs-John Smith (alias Young), John Wood, John Miller and Edward White (alias Cusick). They had been nabbed on account of their suspicious actions on the Fair grounds. One acknowledged that he had been arrested before on a charge of burglary and another on one of assault. Smith and White gave wrong names. They were remanded for a week so that they would have no chance of getting in their work at the Fair.

John Grant had come in from the con cessions to have a high old time. Though somewhat depleted he had \$60 still in his exchequer. The magistrate lightened it by \$4. Joseph Woodman, a redman, brought in under the influence of firewater, said he had had nothing but cider at the Fair grounds. He was allowed to go.

Alf. Christian harkened to the seductive tale of an itinerant jewelry dealer and paid a tidy sum for a watch which he bought under the impression that it was gold, Now he claims it is mostly brass and he values it at \$5. He had H. Hyam, from whom he bought it, in court. The case was enlarged for a week. Christian had a scrap with the man at the store door who induced him to step inside.

Dan Woodward and Elizabeth Leathern, the latter a notorious character, were misbehaving themselves and were remanded for a week. John Morrison, a poor old chap who left the Aged People's Home was sent to jail for a week. He may be re-admitted to the home if he promises to conform to regula-

The Victorious Japs Marching on Moukden.

Enormous Amount of Treasure Captured in the Last Big Battle.

SHANGHAI, China, Sept. 20. - Field Marshal Yamagata, commanding the forces in Corea, is marching with 45,000 Japanese troops on Moukden from the southeast. The Chinese troops that were landed at the mouth of the Yalu River before Monday's sea fight have been captured. No Japanese ships were sunk. The treasure

captured at Ping Yang amounted to \$3,000,-

The Central News says a private dispatch has been received here which states that nine Japanese and twelve Chinese warships were engaged in the battle at the mouth of the Yalu River on the 17th, This dispatch says also that while the Chinese lost four ships the Japanese lost none, though their fleet sustained considerable

injury. Advices from Yokohama state that the Japanese army which defeated the Chinese troops at Ping Yang and captured that city are marching to Wi Ju from that city,

and will proceed to Moukden. London, Sept. 20 .- The Times commenting on the conduct of the war between China and Japan, says: The admiral of the Chinese fleet, by an entire absence of activity, has handed over Corea to Japan and occasioned the loss of the only trained forced at Li Hung Chang's disposal. The inaction was probably due to the fact that the fleet consists of four provincial squadrons, raised, equipped and maintained by the viceroys of the maritime previnces to which they are attached. to help their country. London, Sept. 20. - A cablegram received at Japanese legation here says the Japanese fleet met eleven Chinese warships and three torpedo boats northeast of Hai Yong Tao at 1 o'clock in the afternooon of Sept. 16 and that four of the Chinese vessels were sunk and one was burned. The Japanese sustained no damage.

Paris says that the Chinese ships fared hadly, one being burned in addition to four sunk. The Japs sustained no loss.

School Children Poisoned. HAZELTON, Pa., Sept. 20.-Tremendous excitement prevails here on account of the poisoning of 21 school children. One of the scholars brought two or three pounds of cheap candy, part of which was colored green, and distributed to the children. The doctors think the candy poisoned the children while others claim it was caused by drinking water. Nearly all the victims will recover.

MADAM JARRE, "Advertiser" Office,

Correspondence strictly private.

"I will not receive you in that hot, bustting London; it is becoming a penance to myself to stay there. You shall come to my place in Kent, and be as quiet as you please. You've never seen Peveril; it connot boast the charming flowers that you show here, but it is worth seeing. Promise to come."
"If I can. Later. Thank you, Sir Nash;
and I beg you and Mr. Bohun to pardon me for all my seeming discourtesy. It has not been meant so."

They walked through the hall to the door, where Mr. North's carriage waited. The large shut up carriage. Some dim idea was pervading those concerned that to drive to he station in an open dog cart would be hardly the right thing for these mourners

after the recent funeral. Sir Nash and his son stepped in, followed by Captain Bohun and Richard North, who would accompany them to the station. As Mr. North turned indoors again after watching the carriage away, he ran against his daughter Matilda, resplendent in glittering

black silk and jet. They have invited you to visit them, have they not, papa?"
"They have invited me—yes. But I shall the none the nearer going there, Matilda."
"Then I wish you would, for I want to

she returned, speaking imperiously. Uncle Nash asked me. He asked mamma, and said would I accompany her; and I should like to go. Do you hear, papa? I should like to go."

It was all very well for Miss Matilda North to say "Uncle Nash." Sir Nash was no relation to her whatever; but that he was a baronet, she might have remembered it. 'You and your mamma can go," said Mr. North with animation, as the seductive vision of the house, relieved of madam's presence for an indefinite period, rose mentally before him.

"But mamma says she shall not go. "Oh, does she?" he cried, his spirits and the vision sinking together. "She'll change her mind perhaps, Matilda. I can't do any-

thing in it, you know." As if to avoid further colloquy, he passed on to his parlor and shut the door sharply. Matilda North turned into the dining room, her handsome black silk train following her, her discontentedlook preceding her. Just then Mrs. North came down stairs, a coquettish, fascinating sort of black lace hood upon her head, one she was in the habit of wearing in the grounds. Matilda

looked out again.
"Are you going to walk, mamma?" "I am. Have you anything to say against

"It would be all the same if I had," was the pert answer. Not very often did Matilda North gratuitously retort upon her mother; but she was in an ill humor; the guests had gone away much sooner than she had wished or expected, and madam had vexed her.

"That lace hood is not mourning," resumed Miss Matilda North, defiantly viewing madam from top to toe.

Madam turned the hood and the haughty face it encircled on her presuming daughter The look was enough in itself; and what she might have said was interrupted by the

"Have you any particular orders to give this morning, madam?" Bessy asked of her stepmother — whom she as often called madam as mammathe latter word never meeting with fond response from Mrs. North to her.

"If I have I'll give them later," im-periously replied madam, sweeping out at

the hall door. "What has angered her now?" thought essy. "I hope and trust it is nothing con-Bessy. "I hope and trust it is nothing connected with papa. He has enough trouble

without having to bear ill temper. Bessy North was housekeeper. And a troublescene time she had of it! Between madam's capricious orders, issued at all sorts of inconvenient hours, and the natural resentment of the servants, a less meek and patient spirit would have been worried beyond endurance. Bessy made herself the scapegoat; laboring, both by substantial help and by soothing words, to keep peace in the household. None knew now much Bessy did, or the care that was upon her. Miss Matilda North had never soiled her fingers in her life, never done more than ring the bell, and issue her imperious orders after the fashion of madam, her mother. The two half sisters were a perfect contrast. Certainly they presented such outwardly, as witness this morning; the one not unlike a peacock, her ornamented head thrown up, her extended train trailing, and her odds and ends of jet gleaming; the other a meek little woman in a black gown of some soft material with some quiet crape upon it, and her smooth hair banded back-for she wore

it plain today.
On her way to the kitchens, Bessy halted ther father's sitting room, and opened the door quietly. Mr. North was standing against the window frame, half inside the

room and half out of it. "Can I do anything for you, papa?" "There's nothing to be done for me, child. What time do we dine today, Bessy?" he asked, after a pause.
"I suppose at six. Mrs. North has not

given orders to the contrary."
"Very well. I'll have my luncheon in here, child."

"To be sure. Dear papa, you are not looking well," she added, advancing to him. "No? Looks don't matter much, Bessy, when folk get to be as old as I am. A thought comes over me at odd moments that it is good to grow ugly, and yellow, and wrinkled. It makes us wish to become young and fair and pleasant to the sight again; and we can only do that through im-

mortality. Through immortality, child."
Mr. North lifted his hand, the fingers of which had always now a trembling sort of buying call at Trafford's and you will find movement in them, to his shriveled face, as them. 95 and 97 King street. he repeated the concluding words, passing it twice over the weak scanty brown hair that time and care had left him. Bessy

through her mind.

"How sadly papa is brooding!"
Mrs. North swept down the broad gravel came to a path on the left, which led to the covered portion of the grounds; where the trees in places grew so thick and close that shade might be had at mid day. This part of the grounds was near the dark portion of the Dallery highway already mentioned (where Jelly had surprised her mistress and Oliver Rane in the moonlight the past night), only the boundary nedges being be-tween them. It was a sweet spot, affording retirement from the world and shelter from the fierce rays of the sun. Madam was fond of frequenting this spot; and all the more so because sundry loop holes gave her the op-portunity of peering out beyond. She could see all who passed to and from the Hall, without being herself seen. One high enclosed wall was especially liked by her; concealed within its shade, quietly resting on one of its rustic sests, she could hear as well as see. Before she had quite gained this walk, however, her son Sidney crossed her path. A young man of 20 now, undersized, insufferably vain, fast and conceited. His face might be called a pretty face; his auburn curls were arranged after the modles in a hairdresser's window, his very blue un-meaning eyes had no true look in them. North was like neither father nor Sidney mother: like no one but his own contemptible self; madam looked upon him as next door to an angel; he was her well-beloved. There can be no blindness equal to that of a doting mother.

A Wonderful Cure. -Mr. David Smith, Coe Hill, Ont., writes: "For the benefit of others I wish to say a few words about Northrop & Lyman's Vege-TABLE DISCOVERY. About a year ago I took a very severe cough, had a virulent sore on my lips, was bad with dyspepsia, constipation and general debility. I tried almost every conceivable remedy, outwardly and inwardly, to cure the sore but all to no purpose. I had often thought of trying Northrop & Lyman's VEGETABLE DIS-COVERY, so I got a bottle and when I had used about one half the sore showed evident signs of healing. By the time that bottle was done it had about disappeared and my general health was improving fast. I was always of a very bilious habit and had used quinine and lemon juice with very little affect. But since using three bottles of the VEGETABLE DISCOVERY the biliousness is entirely gone and my general health is excellent. I am 60 years old. Parties using it should continue it for some time after they think they are cured. It is by far the best health restorer I know." 3

> Very Katural Interences Regarding Reciprocal Trade.

TORONTO, Sept. 19 .- At the Deep Water. ways Convention this morning John Brown, of Toronto, read a paper on organization. He urged the foundation of branch organi-

zations in every state and province. Mr. E. V. Smalley, of Minneapolis, said it would be desirable to have another convention in the American Northwest-Duluth or Minnes polis. The impetus of the movement must be secured by a permanent organization made primarily in America. An organization to make any impression at Ottawa must be made in the American Northwest.

R. C. Steele, of Toronto, said prosperous agriculture had nitherto enabled the people of North America to live up to a higher plane than other people. This prosperity could not now be maintained unless improved transportation could be obtained for agricultural products. He could understand the opposition of Buffalo and one or two other points, but why Montreal and New York should stand back and refuse to aid the movement for deeper waterways he could not understand.

D. B. Smith, secretary of the Board of Trade of Toledo, said of the relations of the two countries: "If we are not brethren we ought to be. A common interest, unrestricted trade, a common destiny, ought to mark and control our politics, and as the nearest and most fraternal approach to such relations between the two countries I do not know why Ohio should not trade with Canada, and Canada with Ohio, as we do with Pennsylvania and New York. I have steadily maintained this position since the commercial convention at Detroit in the sixties." He predicted a great flow of prosperity from the accomplishment of the obect aimed at by this convention, and hoped the work of deepening the canals would be undertaken by the United States Govern-

-In the High Court of Justice yesterday: Joyce vs. Armitage .- Hoyles, Q.C., for the plaintiffs, appealed from the report of the master at London in an administration action on the ground that the master should have charged the defendant (an executor) with certain moneys which have been lost to the estate; also on the ground that the master should have declared the plaintiffs entitled to the estate; and also on the ground that the defendant should not have been allowed compensation for his services, or, at all events, not so much as has been allowed. Counsel also moved for judgement on further directions. Swabey, for the defendant, contra. Reserved.

Tonight's Play. "The Ivy Leaf," which will be the attraction at the Grand tonight, is an Irish play, yet it does not belong to the class of pieces made popular by Dion Boucicault and one or two other Irish comedians. There are no red coated English soldiers to bring sorrow and trouble to the poor sons of the Emerald Isle, neither are there any cases of eviction by heartless landlords. On the contrary nearly everything is all sunshine, a few tears that are shed are soon swept away like the dew before the morning sun. "The Ivy Leaf" has a well-defined plot which is developed in an intelligent and natural manner. During the action of the play a number of pleasing songs and dances and other specialties are introduced, and add, in no small degree, to the evening's entertainment. Binns-Gray.

Mr. A. S. Binns, the well-known representative of R. J. Whitta & Co., Winnipeg, was married to Miss Margaret M. Gray, at the residence of her mother, 416 Simcoe street, yesterday morning, by Rev. J. A. Murray, assisted by Rev. Dr. Sparling, of Winnipeg. Miss Ritta Anderson, of Toronto, acted as bridesmaid, and Mr. Alex. Murray as groomsman. Among the guests were Mr. and Mrs. Walter Thompson, of Mitchell; Miss Whyte, of Dundas, and T. Harry Slater, of Winnipeg. The happy Speaking from over twenty years' ex-perience, I can sum up in a few words some of the results of the indiscriminate use of the results of the indiscriminate use of glasses. In the case of odd eyes-gradual peal from the chimes of St. Paul's Catheloss of sight in the weaker eye, ending in blindness of that eye, strabismus (or squint), diplopia (or double vision), and a gradual diplopia (or double vision). The goom is well known throughout Western much more susceptible to disease, glau- Ontario, having traveled west of Montreal for years before going to Winnipeg. A Pioneer's Reminiscences.

Mr. John Montague, one of the pioneers of London, now resident in Iowa, is in the city on a visit. Mr. Montague lived in London with his parents over 65 years ago, and he knows no one but the veteran James Williams now living who was in this place then. The Montague home was on Ridout street, just below where the court house now stands. All around was woods then, and there was plenty of game to hunt and a big river full of fish. Mr. Montague well recollects when the first newspaper printed in London came out. He was the pioneer subscribers of the village the first issue. There were no bridges over the Thames in kept a cance for the accommodation of himself and his friends. Well does he recollect the first families here-the Williams, the Goodhues, the Lawrasons, the Daniels, Col. Askin, Wm. McBride and old Mr. Meredith. Nearly all are gone,

Shubal Hill Tells of Lack of Ambition

He writes from Hamilton, Dec. 9, 1890, as He writes from Hamilton, Dec. 9. 1890, as follows:

Isaac Williams Company, London, Ont.:

Dear Sirs,—After suffering for a long time with pains in my back, extending to my lower parts, also no ambition to do my daily work. I was induced by Mr. Bickell to try Royal Crown Remedy. After taking two bottles, and Pills, as directed, I consider myself entirely cured, and can highly recommend your medicine, R. C. R. and Pills, to do all you claim them to do. Should be in every home. It saves hundreds of dollars in doctors' bills. Yours truly,

A Pretty Wedding. The many lovers of the beautiful in this city are charmed with the recently consummated wedding of Art and Nature on Dundas street in the store of Gammage & Sons. Not in London is there a more pleasing or artistic interior finish than that shown by ceiling and walls, the work; being of an entirely new line of fine art decoration. This, combined with the exquisite electrical lighting arrangements, makes a most attractive setting for the floral glories on view. Messrs. Gammage have issued a tasty invitation to their many friends and customers to visit them today at their fall floral exhibit, and it will be a decided treat to those who attend.
