RUNAWAY HORSES TRAMPLED MAN IN WILD KING ST. MIXUP L. A. VANDERMADE WAS HURT

Team Standing in a Lane Suddenly Took Fright and Bolted—Coming Up Alley Was Another Rig Driven by Vandermade and a Fearful Collision Occurred—Only a Miracle Saved Man's Life.

How Leonard A. Vandermade, a well-known vinegar manufacturer, 44 Pipe Line Road, came out with his life of a runaway accident in the laneway next to Ald. Tancock's blacksmith shop on King street this morning shortly after 10 o'clock is a complete puzzle to the spectators who were witnesses of the affair.

He is suffering from a scalp wound at the base of the skull, a badly-swollen and discolored eye, several broken ribs on each side, a broken hip bone, and innumerable bruises. He will recover, however, according to Dr. Teasdail, his physician, unless untoward complications set in.

No internal injuries were noted. At 3 o'clock he was suffering considerable pain, but his condition was satisfactory.

Vandermade had turned up the laneway, intending to go to the warehouse of E. Adams & Co. At the warehouse a team attached to a lorry belonging to the Southwestern Traction Company were standing. When Vandermade had got about 50 feet up the lane the Traction team started to run. They came down the alley at a furious clip.

No Escape.

There was no escape, and the runaway team hit Vandermade's rig full tilt. The impact carried him and the horse and wagon a distant of 50 feet to the street. There the rig was overturned, and Vandermade was thrown on his face on the pavement, where he was struck on the back of the head by one of the horse's hoofs, and rendered unconscious.

FATHER FALLON BANQUETTED BY LEADING BUFFALO CITIZENS

London's Bishop-Elect Guest of Honor Last Night of Prominen Professional and Business Men—Will Go Into Retreat Before Consecration.

[Special to the Advertiser.]

Buffalo, N. Y., April 12.—Bishop-elect Fallon, of London, Ont., bade farewell to Buffalo last night at a big banquet given in his honor by the citizens of this city at the Hotel Lenox. There were one hundred or more of the city's best-known professional and business men at the dinner. This morning the bishop departed quietly for a retreat at Tewsbury, Mass., to prepare for the consecration.

At last night's farewell banquet, former Justice Daniel Kenrick, of the state supreme court, acted as toastmaster and the following were after-dinner speakers: Bishop Colton, of this diocese; Mgr. Nelson H. Baker, William H. Love, Oliver Caban, William J. Conners, Maurice C. Spratt, George J. Meyer, John J. Hynes and the Rev. William A. Kerwin. All of these at last night's banquet voted to attend the consecration. A special train will go from here on April 24.

FAMILY PARTY FROM STRATHROY TURNED BACK AT THE BORDER

Another Case of Officiousness by American Immigration Agents at Port Huron in Which They Greatly Exceed Their Authority.

Strathroy, April 11. — A queer case of American officiousness has just come to light, whereby the Government officials at Port Huron, Mich., exceeded their authority in no small degree. About a year and a half ago Arthur Wilton, of Caradoc, went to Pontiac, Mich., where he obtained employment in a factory and saved enough to purchase a house and lot. Mr. Wilton came back to Canada recently to take his wife and family to Pontiac. He took his household effects and part of his family with him, and crossed the border without any objections. Last Saturday his wife, accompanied by her three children and a lady friend, left to join her husband. They left here on the 2:18 p.m. train, and when they reached the American side they were stopped by the officials, and were subjected to no little inconvenience, so Mrs. Wilton stated. They were, according to her story, locked in a room and asked all kinds of impertinent questions, and finally sent back to Canada at midnight. The little band, of course, came back to Strathroy, where they had their first meal since leaving here. Mrs. Wilton has suffered greatly from nervous shock. The youngest child was a babe a year and a half old.

CHARGED WITH FRAUD.

[Special to The Advertiser.]

Sarnia, April 12.—Leonard Simpson, charged with defrauding Henry Rew, a boardinghouse-keeper, at 266 Christina street south, out of board to the extent of $3 04, appeared in this morning's police court, and was remanded in order that the magistrate could find out more of defendant's character. Simpson gave Rew an order on the oil refinery for $3 04, but went down and got the money before Rew had time to present the order.

POLICE WORKING ON NEW THEORY?

It Is Alleged That There Were Several People in Frank Shooting.

MISS FRANK'S CONDITION

Will Not Likely Be Able to Leave the House For Three Weeks at Least.

There is reason to believe that further developments are to be expected in connection with the Frank shooting case shortly.

It is stated that the detectives have information which involves other parties, and, it is alleged, that the man who shot Miss Frank was acting for these persons.

The detectives are working on information they have received along this line, and it is said important results will probably follow.

Magistrate Love stated to The Advertiser this afternoon that the preliminary hearing of John Prodger will not be gone on with on Thursday morning, unless Miss Frank is able to be present.

She is the most important witness in the whole case, and on her identification of Prodger, it is expected that he will be sent for trial.

Dr. George Wilson stated to The Advertiser this afternoon that Miss Frank is doing splendidly, but cannot be out of her room for at least three weeks yet.

MANY MEN ARE ANXIOUS TO BE HEAD ENGINEERS

Applications Are Received From All Parts of Canada and the United States.

There are 56 different varieties of engineers in the province.

At least there are that number of applications for the position of head engineer of the city of London.

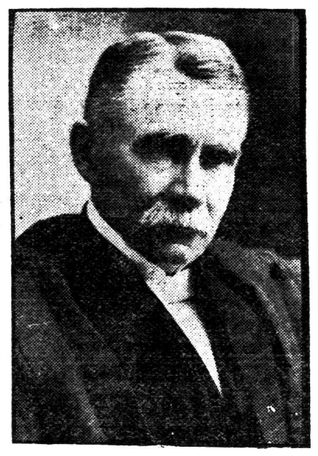

They come from Canso, in the east, and as far west as the coast, and practically every place in between. There are some from the United States.

The latest application was that of Engineer Barrow, formerly city engineer of Hamilton.

A number of the applicants, practically 90 per cent of them, are out of the question altogether, so far as London is concerned, being not qualified for the position.

A few of the others are considered of sufficient size for the place. No meeting has been called as yet to consider the applications, but it will be arranged for probably Saturday of this week.

"There are all sorts of applications," said Mayor Beattie. "It will be quite a task to sort them over."

CAPT. TATLOW DEAD

Former Member of B. C. Government Dies From Injuries.

Vancouver, B. C., April 12.—Hon. Robert G. Tatlow, formerly in the McBride cabinet, who was thrown from his rig on Friday afternoon, striking his head on the stone pavement, died early yesterday morning, not having regained consciousness.

He was an Irishman, 55 years of age. Educated in England, he came to the coast many years ago. In 1894, he was an unsuccessful candidate for the Legislature, but in 1900, was elected, and in subsequent contests. In 1903 he was appointed minister of finance and agriculture.

Prior to last election, he resigned from the Government, owing to differences over the C. N. R. deal.

WAR MEMORIAL AT SHREWSBURY, ENGLAND

A REMARKABLE COINCIDENCE.

Above is an engraving of a photograph of the South African Soldiers' Monument in Shrewsbury, England. It has some interest for citizens of London

A Londoner who was visiting Shrewsbury not long ago, was struck by the resemblance of the memorial to the design for the monument which it was proposed to erect in this city. There was a soldier's figure on top and —note this, ladies!—**A Medallion of Queen Victoria on the Pedestal.** The medallion is faintly indicated in the engraving on the right-hand side of the pedestal.

Apparently it had not occurred to the people of Shrewsbury that any disrespect of the Queen was implied in this recognition of her on the monument. The proposal to place a medallion of her late majesty on the pedestal of the monument in this city was denounced by certain ladies in Toronto as "disloyal," and they took steps to prevent it. The Shrewsbury statue is rather an effective reply.

A NEW BIRTH IS NECESSARY FOR THE CONSERVATIVE PARTY

The Kingston Standard, an Opposition Paper, Declares the Old Guard Must Go and New and Progressive Methods and Ideas Take Control.

The Kingston Standard (Conservative), publishes the following, the first of a series of articles on Federal politics:

It says in part of the demand for a reorganization of the Conservative party:

"There is to be a new birth; and truth and candor compel the statement that that new birth is necessary, for he who sees the situation at first hand and at close range and talks not alone with the leaders of the party, but with the rank and file at Ottawa, serves well neither himself nor his party by pretending that all is well at Ottawa. All is not well. There is need for a change, and it is a happy and fortunate condition of affairs that there is desire for a change. A new order of things is both imminent and inevitable * * * *.

Old Guard to Go.

"The so-called old guard at Ottawa has had its day. The day of the new guard is here—not a new guard possessed of the idea that it and it alone must rule the party, but a new guard possessed of this idea, namely, that with its strength and its courage, with its virility and its aggressiveness, with its keeness of intellect and its alertness of perception, with its recognition

OPPOSITION HELD A CAUCUS LEADER BORDEN WASN'T THERE

[Special to The Advertiser.]

Ottawa, April 12.—The Conservative members of Parliament held a caucus this morning, which lasted from 11 a.m. until 1.

It is regarded as significant of the conditions in the Opposition that the leader, Mr. R. L. Borden, did not attend the caucus.

Instead he remained in the House with Hon. John Haggart, Mr. Blain and Mr. Lennox, listening to Hon. Mackenzie King discussing trusts and combinations in his bill dealing with combinations in restraint of trade.

P. M. RY. WANTS TO RUN TRAINS TO PORT ON SUNDAY

Official Application Received From the Company at the City Hall.

A NICE POINT IS NOW RAISED

It Is Said the Company Thinks There Is Nothing in Lease to Prevent Sunday Cars.

The Pere Marquette Railway wants to run cars to Port Stanley on Sundays.

A request for this privilege has been received from Superintendent Tyeatt, of the Pere Marquette, and is now in Mayor Beattie's possession.

His worship has referred the communication to City Solicitor Meredith for his opinion as to the rights of the city in the case, and when that is received a meeting of the London and Port Stanley board will be called to consider the request.

The letter was not made public, but in substance it points out that the London and Lake Erie, by being granted the right to run Sunday cars has an advantage over the city's road, and makes it plain that the city should allow their lessees the same privilege as is accorded the London and Lake Erie.

Matter for the L. and P. S. R. Board.

"Of course, the council has not the right to grant Sunday cars, as it is a matter altogether for the directors of the London and Port Stanley," said his worship. "There are many legal points to be considered, and I decided to have City Solicitor Meredith give his opinion on these before calling a meeting of the board, rather than hold a meeting and then obtain his opinion.

"My own personal opinion is that the city has little or nothing to do with it—that it is altogether a question for the Dominion railway commission to settle. I fancy an appeal will have to be made to that body direct."

Interesting Problem.

The communication opens up a very interesting problem, and it will require some discussion to settle properly. At the present time no railway is allowed to run local trains on Sunday, all passenger trains on that day being limited or through cars.

Whether or not a service to Port Stanley would be considered local or otherwise is the question.

In the case of the Southwestern, or, more properly, the London and Lake Erie Company, the service was not considered local, and the right to run cars on Sunday was given.

Run Coal Trains.

It is quite possible that the request of the company will carry with it the right to run coal trains on Sunday to connect with steamers at Port. At the present time it is impossible for the P. M. to run trains out of the Port on Sunday, and the new Lord's Day act makes it practically impossible to handle freight from their boats at all. This, more than the desire to run passenger trains on Sunday, is said to be behind the action of the company.

Mayor Beattie could give no idea as to when the L. and P. S. R. board would be called together to take the question up, but it will be convened as soon as Mr. Meredith hands in his opinion.

Somewhat Complicated.

From opinions expressed at the city hall, the question is somewhat complicated.

In the lease, it states that the company having it must operate a certain schedule every day "Sunday excepted." The company, it is said, reads this to mean that it is optional with the railway whether or not a Sunday schedule is maintained.

It is said that the Dominion railway commission could give the company the right to run cars on Sunday in spite of the lease, even if there was a clause against Sunday cars, if it was thought to be in the best interests of the company and the city.

"The case is very complicated," said his worship. "There is a tangle as to leases and the like, as well as to the powers of the commission, so that is the reason I am obtaining Mr. Meredith's opinion. I cannot interest it."

Mr. W. J. Heed, the travelling passenger agent of the P. M., was out of the city today, and could not be seen regarding the company's position.

DORENWEND FINED $25 IN POLICE COURT

Sold Goods Without a License That He Did Not Manufacture.

Prof. S. J. Dorenwend, a Toronto hairdresser and vender of wigs and other goods, was fined $25 in the police court by Magistrate Love this morning on a charge of breaking the bylaw in regard to transient traders, by selling goods that he does not manufacture, without a license.

The authorities are very strict in this matter, as in the past a number of out-of-town people have been coming into the city and attempting to sell stuff here without paying any license fee, and take trade that would go to the city merchants.

In many of the surrounding towns, merchants are complaining bitterly that they are not given the protection that they should be, and many instances have been reported where merchants claim they have lost quite large amounts through the failure of the town authorities to enforce the transient traders' bylaw.

As Result a Brantford Ban Was Allowed To Go.

Robert McHenry, of Brantford, formerly of London, gathered in last night for being drunk, seemed real glad to see Magistrate Love this morning.

"I haven't seen you face for ten years, my lord," he called from the prisoner's cage.

The court intimated that he hoped he would not see it for ten years more if he had to see it from the prisoners' cage, for being drunk, and allowed McHenry to go.

Several citizens each paid two dollars for allowing their dogs to be at large without muzzles.

They Did Lively Stunt on Saturday Night—Material for Power House.

[Special to The Advertiser.]

St. Marys, April 12.—About 11:45 p. m. Saturday night fire was discovered amongst some packing boxes in the yard at the rear of the White & May Company's drygoods store. The alarm was sent in by Dr. Geo. H. Gibb, V. S., whose premises are near by. The firemen responded so quickly that hose was attached to the hydrant at the opposite corner from the fire in less than five minutes, and although the blaze looked fierce at the time, it was quickly quenched. The loss was confined to a few packing boxes. The origin of the fire is a mystery. St. Marys has one of the best fire brigades for a town of its size in the province.

M. J. Dewey was elected by Court St. Marys, No. 491, Canadian Order of Foresters, as a delegate to attend the high court meeting to be held at Montreal in June.

Mr. and Mrs. Ralph Muir and two daughters, of Stratford, were Friday to Sunday visitors with Mrs. Muir's parents, Mr. and Mrs. Jos. H. Forman, G. T. R. Junction.

Miss Lizzie Johnston and Miss Belle Richards, of Stratford, were Saturday to Monday visitors with Mrs. (Dr.) Geo. H. Gibb, Wellington street.

A carload of material has arrived for the St. Marys powerhouse, and three transformers for the sub-station, the latter weighing over nine tons each.

BRIGHT SARNIA BOY'S VERY SAD DEATH

Fatally Injured While Playing With Brother—Breach of Promise Case.

[Special to The Advertiser.]

Sarnia, April 12.—Dr. W. A. Henderson left on Sunday night for Chicago, where he will take a post-graduate course in medicine. Before returning to his extensive practice at Sarnia, he will take a special course in diseases of the stomach.

Owing to the relaying of the "diamond," where the street railway crosses the G. T. R. on Exmouth street, all passengers bound to or from Point Edward had to transfer from one car to the other.

The steamer J. H. Shrigley arrived from Alpena yesterday with a cargo of 500,000 feet of lumber for E. A. LeBel Lumber Company.

Miss Grace Matthews, of Winnipeg, is the guest of her aunt, Mrs. T. T Towers, College avenue.

Lambton Assizes.

The Lambton County assizes will be held in the court house here, beginning April 26. Chancellor Boyd will be the presiding judge.

Mr. and Mrs. Kenneth G. Johnston will have the deep sympathy of the community in the loss of their infant daughter, Ruth Isabel, whose death occurred on Sunday afternoon.

Very Sad Accident.

Particularly sad indeed were the circumstances connected with the death of little Alfred Patterson, the 7-year-old son of Mr. and Mrs. Dan. Patterson, Point Edward, which occurred about noon yesterday. The little fellow and a younger brother were playing about their father's yard on Saturday afternoon, April 2, and (as children will do), the younger boy got hold of an axe and unfortunately let it fall on Alfred's left hand nearly severing one of the fingers. A doctor was at once summoned, who dressed the wound, and the little fellow was getting along splendidly until Sunday last, when symptoms of spinal meningitis and lockjaw developed, and despite the best efforts of the physicians death resulted on Monday morning. Alfred was a bright and cheerful little fellow, and his death will cause profound grief among his little playmates, as well as to his near relatives. The funeral will be held from his family residence, Alexander avenue, Point Edward, on Wednesday afternoon at 4 o'clock to Lakeview Cemetery.

Loss of Will Power

A PROOF OF NERVOUS DEBILITY.

"Until I had a long siege of nervousness, I could not comprehend how people could show such indecision and uncertainty in the doing of small things. I didn't know that little fears and small dreads, caused by loss of nerve tone, would force people to abandon their friends and the real pleasures of life. Too much work and worry, perhaps too little regard for healthful habits, made me nervous. I couldn't bear to be alone. I grew cross, fretful, and fearful that some ill would befall me or my family. After using Ferrozone all was changed—the old-time fears and sense of oppression left me—I was braced up, given vigor, ambition and robust good health. I look ruddy and strong, have a good appetite, sleep well and am getting fat. I know lots of women who need Ferrozone—and they would use it, too, if they only knew what a difference it makes in the way you feel."

Let your wife or daughter try Ferrozone for a month, and watch the result. It's a health-winner—a strength-bringer—a vitalizing tonic equaled by none. Just one or two Ferrozone tablets to take at meals—surely an easy way to regain and maintain perfect health. At all dealers, 50c per box, six for $2 50, or the Catarrhozone Company, Kingston, Canada.

Notes From the Receiving Room

The following have just passed the customs:

Satin Foulard Dress Silks
Black Silk Marquisette
Black Silk Voile
Black Wool Voile
Priestley's Black Resildas
Black French Wool Taffeta

We mention a few of the recent arrivals, as many numbers in these lines are being inquired for. All should have been received weeks ago, but, you must remember, we have had an exceptionally early season, and we are yet in the early part of April, as a rule the commencement of spring weather.

These new arrivals will be appreciated. The Satin Foulards were no sooner on the counter than many of the pieces were half gone. The designs and colorings are so charming—they are Paris styles.

MARQUISETTE is one of the season's most popular materials, as well as being used for the entire dress over silk. The latest idea is overdresses for figured satin foulards.

BLACK VOILES, in both wool and silk, are as popular as ever, and the recent arrivals give us again a complete range from 50¢ to $1.50

BLACK "RESILDA," an ideal fabric for summer wear, in medium and light weight, for dresses, skirts or coat suits, bright in finish and non-crushable, and best of all, the greatest dust-shedding wool fabric we know of. A new stock of "Priestley's" plain resildas, also stripes and cords. Per yard ..... $1.00 and $1.25

Cleveland, Ohio, April 11.—The outlook at the opening is not as good as expected, and cargoes for outside vessels will not be very plentiful at either end of the route for the first few weeks. A number of wild cargoes are being sent out. The steamers J. S. Upson, Carnegie and Oliver, of the Wilson fleet, left Milwaukee for Fort William Sunday night to load grain for Buffalo. The steamer Sullivan left Ashland today, with the first cargo of ore, and several other boats of the Hutchinson fleet have been placed in commission.

The steamer Thomas Lynch will be the first of the Steel Trust boats to sail. She will leave here tomorrow with coal for Milwaukee. A number of other steamers took out clearances today, but some of them will not sail until after midnight on Friday.

Sarnia, Ont., April 11. — The steamer Scottish Hero left here this afternoon bound for Collingwood, but had to return for shelter again on account of the heavy northeast gale. She is going into drydock at Collingwood for repairs. The vessel had storage grain at Point Edward all winter.

The steamer Spokane has been completely overhauled by the Reid Drydock Company and the Neepewah will go in the dock for repairs.

The steamer Robert Holland, upbound, light, to Bay City, broke down yesterday when out in Lake Huron about three miles. She returned here under her own steam, and will make repairs.

Teeft on Ellicott street early today, and when ordered out by the woman and her daughter, he is alleged to have fired three shots. Mrs. Teeft was killed. Le Marre escaped, but was arrested an hour later. Le Marre lived at the Teeft place for years. He left several weeks ago after a quarrel

LONDONERS ATTEND SARNIA INITIATION

Royal Arcanum Council Took in a Large Class of Candidates.

At the regular meeting of Primus Council, Royal Arcanum, Sarnia, held last evening, a large class of candidates were initiated by Supreme Representative J. B. McKillop, London, Grand Vice Regent Bro. J. A. Cottam, Deputy Grand Regent Bro. W. R. Vantassel, London, Past Regent Bro. Dr. McLean, Sarnia, and Bros. E. Phelps, R. Glynn and T. Gilbert, Sarnia.

The work of initiation was well done, and Bro. Vantassel was congratulated on the large class.

After the ceremonial a banquet was held, at which addresses were given by Bros. J. B. McKillop, J. A. Cottam, J. P. Bucke (Sarnia), W. R. Vantassed, Dr. McLean, E. Phelps and others.

A high compliment was paid Bro. McKillop for his untiring efforts on behalf of the Royal Arcanum by all the speakers.

Bro. Vantassel has a class of 14 candidates for the next meeting and will remain another week in Sarnia.

WOMEN IN THE HUNTING FIELD.

Some generations ago there was a strong prejudice against women riding to hounds at all. The appearance of a habit in the hunting field at one time would have caused almost as much sensation as an up-to-date suffragette in the ballot box today.

Addison loathed the idea of "Diana pacing to the meet," and Thompson, the poet, earnestly besought "the British fair" to remain unsullied by "such horrid joy," which in his view made them "roughen to the sense, and all the winning softness lose." Yet the day has long since passed when it was really considered outre for a woman to hunt.—Black and White.

REVOLUTION OVER.

Constantinople, April 11.—The Albania insurgents have settled their differences with the Turkish Government, and dispersed to their homes, according to an official dispatch received today from Priestina. The Government has promised to consider their grievances, and to comply with any reasonable demands if the rebels remain peaceful.

LONDON, TUESDAY, APRIL 12.

A LEADER WHO FOLLOWS.

A Jacobin chieftain, walking at the tail of a procession during the revolutionary ferment, said apologetically to bystanding friends: "I am their leader; I must follow them." Mr. Borden appears to be in a similar position. Admirers say that he has strength of will, but that his kindness has been mistaken for weakness. His subordinates have imposed upon his amiability. He has been flouted by Mr. Monk, and defied by Mr. Foster. Even the understrappers frequently stultify him in the House. The Opposition has been a soldiers' army, but we are assured that while the titular commander has all the qualities of generalship, he has been reluctant to enforce discipline. This excellent leader has been too considerate to lead, but through an excess of courtesy has preferred to follow his followers.

This is a portrait of Mr. Borden drawn by friendly hands. One may be forgiven for doubting whether in every case his failing has leaned to virtue's side. Take the naval question. For a time it looked as though Mr. Borden would give his party genuine leadership. He indicated the direction in which it ought to go, and valiantly headed that way. Then he discovered that some of his army were inclined to march in the opposite direction. He obligingly right-about-faced and fell in behind. Even the plea of party harmony could not excuse such "kindness." The matter was too great and far-reaching.

Mr. Borden may be made of sterner stuff than he has yet given the public reason to think. So far this impression seems to be confined to the editor of the Toronto News. On the naval question Mr. Borden missed a grand opportunity to exhibit his hitherto concealed backbone. He has another opportunity in the necessity of doing some party cleaning. He need not wait until he reaches the Premier's chair.

POLLUTING THE LAKES AND RIVERS.

The question of the protection of navigable waters from pollution has recently engaged the attention of the Dominion Senate. A bill was introduced providing that no person shall throw or deposit or cause to be thrown or deposited any sewage offal or refuse animal or vegetable matter of any kind into any river, stream or other water any part of which flows into any navigable water.

The health committee of parliament reports that the public health of Canada is being imperilled by the present custom of disposing of sewage, garbage, etc., in the lakes, rivers and streams of the country. The opinion is expressed that the only safeguard lies in the passage of legislation to control it, and that such legislation must be uniform throughout the whole Dominion, and can only be brought about by co-operation between the Dominion and provincial governments.

In a return recently presented to Parliament, Dr. Bryce, chief medical officer of the interior department, points out that apart from the great lakes there are twenty-three rivers which flow from Canada into the United States, or the other way from the United States into Canada, or are boundaries between them. These, he says, are yearly, through the rapid increase of population along them, creating an international health problem much more important and far-reaching than any of the navigation and fisheries' problems existing between the two countries. The doctor cites as an example Port Huron, where the current carrying the town sewage flows close to the Canadian shore within a few miles below Sarnia.

During the discussion of the bill the fact was brought out that though the federal authority has had the power under the British North America act to legislate in matters affecting the public health, that power has been exercised by the provinces since the passage of the Ontario health act in 1882, and the provinces, if so disposed, might insist on standing by precedent. But in view of the international as well as the inter-provincial aspect of the question, it has been decided to refer it to the conservation commission, a non-political body, representing both the Dominion and provincial governments, and working in sympathy with a similar commission in the United States. It is for just such purposes that the commission was created, and with the matter in its hands there is not likely to be any friction.

A BRITISH VOTING SCANDAL.

The practice in Great Britain of spreading a general election over a fortnight appears to Canadians to be an antiquated absurdity, for which no plausible defence can be offered. Yet a bill introduced in the British House of Commons three weeks ago, providing for the holding of all elections on the same day, was denounced by the Unionist press and talked to death by Unionist members of Parliament.

In Great Britain a man may vote in every riding in which he owns or occupies property, so that the longer the period over which the elections are spread, the greater the opportunity for the plural voter to travel from constituency to constituency and poll all his votes. Mr. Sherwell, the member for Huddersfield, author of the bill for simultaneous voting, cited some scandalous instances of the abuses of the present system. He named four brothers, who had cast 120 votes in the late election. To limit polling to one day would greatly restrict plural voting, but would not abolish it. One man, with the aid of a motor car, succeeded in casting votes in eight separate constituencies in Hampstead, Surrey, and Sussex, on the same day. Mr. Sherwell's bill therefore provided for the principle of "one man, one vote," as well as simultaneous polling. It was appropriate that it should have been talked out by Sir Frederick Banbury, the member for the city of London, where there are only 3,865 inhabited houses, but 23,500 non-resident voters who vote on office premises. There are 69 county divisions in England where the non-resident vote was larger than the Unionist majority in the last election. It is estimated that every one of these seats would be lost to the Unionists but for the plural voters.

While Mr. Sherwell's bill was a private one, it was indorsed by the Government. It would have been made a Government measure but for the fact that the Government is pledged to deal only with the veto and the budget until the veto question is settled. In 1906 a similar bill, drafted by Hon. Mr. Harcourt, was carried in the House of Commons by a great majority, and thrown out by the House of Lords. The action of the peers was dictated by party motives, and the desire to protect the privileges of wealth. The existing system is inequitable and anti-democratic, and its retention is one more argument against the present status of the British upper chamber.

The suffragettes have decided to bury the hatchet. In whom?

The Liberal party is still relying upon Mr. Borden's great potentialities of leadership.

The split in the Irish party widens, and as usual Erin's hopes fall into the chasm.

Mr. MacKay calls him Paul Kruger Whitney. Even his supporters complain that there is something very Oom Paulish in Sir James' demeanor.

The interstate commerce commission has ordered a reduction in the price of Pullman berths. It is high time this rapacious monopoly was taken down a peg.

The Minister of Agriculture ridicules the contention that horse racing is essential to horse breeding. He is a better authority on such a point than the Minister of Justice.

"Speaking of courage, it is to be remembered that our contemporary is on the Government's patronage list, and that departures from servile support are apt to be severely punished."—London Free Press.

Our contemporary is on the Ontario Government's patronage list, but we do it the justice of thinking that the circumstance has no influence upon its attitude toward the Ontario Government. It ought to be thoroughly ashamed of aspersing its own calling. It is a foul fowl that fouls its own nest.

AN APPALLING RECORD.

[Reuter Dispatch.]

Statistics published today regarding suicides in St. Petersburg in 1909 show that 1,432 persons took their own lives. Of these 932 were made and 500 females. They include 58 boys and 77 girls of ages varying from 11 to 17.

100 MINERS FOR CANADA.

[London Daily News, March 28.]

Among the passengers sailing yesterday from Liverpool for Canada were 100 miners from Cornwall and the North of England, who left in the Allan liner Virginian. They are the first of a large number who will leave this month.

THE UNLUCKY CURLS.

[London News.]

An amazing spectacle was witnessed on a fashionable west end promenade in Berlin, Germany, on March 27.

A pretty woman, wearing a huge hat, decorated with artificial flowers, stopped to look at a shop window in which Easter millinery was displayed. A spark from an arc lamp above the window fell on to the hat and immediately it and the false curls which supported it took fire.

The lady tore the hat and the curls from her head, stamped them under her foot, and then, to the rising delight of the crowd of passers-by, dashed into the shop and demanded immediate compensation from the proprietor for the defects of this arc lamp.

The proprietor refused, and the lady, amid the roars of the crowd, hailed a motor and drove off to consult her solicitor.

SURE THING THEN.

[Toronto Star.]

We may get an occasional shower in April, but everybody knows our real rainy season does not arrive until they begin to dope out the Sunday school picnics.

SAFE SPECULATION.

[Detroit Free Press.]

"And to what do you attribute your wonderful success?" asked the reporter.

"Well," replied the multi-millionaire, "I'll tell you. I speculate in the necessities of life, and they always go up."

FEMININE INCONSISTENCY.

[Toronto News.]

In winter, when the nights were chill,
The women, going to the play,
Wore filmy lace upon their heads
And looked supremely gay.

Now, when the balmy southern airs
Come creeping o'er the placid lake,
The women wear their new spring hats.
Great guns! Are we awake?

NO BREAKFAST.

[London Leader.]

Dr. Furnivall, sculler and scholar, apparently agrees to some extent with Mr. Upton Sinclair's belief in the virtues of fasting. He writes in an American paper: "Often, especially after a refreshing sleep, I have gone without breakfast, it being my opinion that breakfast is a barbarous, unnecessary meal, and that two meals a day are quite enough for anyone. On my 85th birthday, despite our sculling thirteen miles in an hour and ten minutes, I ate but two meals."

"This may be all very well for Dr. Furnivall and other people who enjoy using their brains. The ordinary man, however, who only uses his brains when he has to, and sometimes not even then, would get bored to death were his day not broken up into paragraphs by frequent meals.

SYNONYMS FOR "HEAD."

[London Daily News.]

Farmer and Henley's "Dictionary of Slang," by the way, gives us an interesting list of English synonyms for the head. It runs as follows: "Brainpan, nut, chump, jazey, steeple, tib or tibby, weathercock, turnip, upper extremity, top end, two penny, upper story, canister, attic, garret, costard, sconce, bonce, nob, lolly, lobb, knowledge-box, top-knot, crust, chimney-pot, onion, chevy, cockloft, top-flat, gable, pumpkin, hatpeg, billard-ball, upper crust, mazzard, cabaza, dome, cocoanut, crown office, calabash." To these we might add our old friend "noddle," which, though it is not so picturesque as "turnip," or "two-penny," has the merit of being more usable in polite society.

NOTHING PECULIAR.

[Toronto Star.]

The terrible shooting affair at London resembles the Kinrade case, in that the victim was shot at several times after she had fallen to the floor. Much doubt was expressed at the time as to whether an ordinary marauder would do this, yet it seems to have been done in London by an ordinary marauder.

MAKING HERSELF CLEAR.

[Argonaut.]

A clerk in Belgrade, Servia, named Velislaw Simonovitch, on the strength of an increase of salary, recently telegraphed to a young woman of Losnitsa and asked her to share his fortunes. The regulation tax allows ten words for the minimum fee, and her answer ran: "Yes, gladly, willingly, joyfully, delightedly, gratefully, lovingly, yes, yes, yes."

"WORSE THAN SLAVES."

[London Daily News.]

A report which has been issued by Miss Jones, a well-known Yorkshire factory inspector, throws an unpleasant light upon the evils which attend the employment of married women in the textile factories.

"Married women in the west riding of Yorkshire," says Miss Jones, "in addition to bearing the children and caring for the home, are often expected partially, and sometimes wholly, to support their family. In a number of cases which come under our notice the wives work all day in the mill, and on their return tidy the house, baking and washing for the family. Many do not retire until midnight, rising again early in order to make some preparation for a midday meal before going to work. In the dinner hour they quickly return, prepare the meal, serve husband and children, swallowing their own food too hurriedly, and again hasten back to their duties. Their lives often appear to be little better than those of slaves, and many at forty-five are broken-down women, prematurely aged.

"If a community is to be judged by the status of its women, certainly the condition of the working women here reminds one of coolie women in India or those of many of the African tribes, where women are more or less beasts of burden. The moral effect upon the men is very disastrous. It encourages them in selfishness and idleness, and many of them become exceedingly lazy."

SOFT PEDAL ON EQUALITY.

[Philadelphia Record.]

Blobbs—The suffragettes believe in the equality of woman, don't they?

Slobbs—Not at all. They believe in the superiority of woman.

CONUNDRUM.

[Boston Record.]

The latest conundrum is: "What can you fill a barrel weighing ten pounds with and yet make it lighter?"

The answer is "Holes," of course.

LED ON BY THE MINISTER.

[Ladies' Home Journal.]

"Then you don't think I practice what I preach, eh?" queried the minister in talking with one of the deacons at a meeting.

"No, sir, I don't," replied the deacon. "You've been preachin' on the subject of resignation for two years, an' ye haven't resigned yet."

THE BAN ON MEAT

New York, April 12.—Bands of determined women today marched through the East Side and other sections of the city where the kosher meat strike is on, to prevent the opening of the retail butcher shops, which closed yesterday as a protest against the high meat prices. Over one hundred thousand families, it is figured, have put a ban on meat, and the housewives are insistent that the retailers remain closed until the wholesalers drop the prices. Kosher clubs proved an effective armament of the women in closing up these shops, which tried to defy them.

HOUSE OF LORDS AN ANACHRONISM

Asquith Says It's His Business to Get Rid of It.

"PARNELLISM AND CRIME"

British Premier Strongly Condemns Man Who Claims to Have Written Famous Letters.

London, April 12.—During the consideration in the House of Commons yesterday of the Government's second resolution in regard to the veto power of the House of Lords (the resolution which limits the power of the Lords in regard to the general legislation), Prime Minister Asquith said that the continued existence of the House of Lords as a second chamber on the present basis was an anachronism, and it was an integral part of the Government's policy to get rid of that anachronism. But, he added, the changes were to be put forward without prejudice to, and in contemplation of, alteration in the composition of the House of Lords.

The Premier went on to say that while the present resolutions were not put forward as a final or adequate solution of the problem, they were, in the opinion of the Government, the first and necessary step if they were to emancipate the House of Commons from the thraldom of the House of Lords.

"Parnellism and Crime."

During the day Mr. Asquith made his reply to a number of questions of which notice had been given in the House in regard to the admission of Sir Robert Anderson, for many years adviser to the home office, in matters relating to political crimes, that he was the author of the notorious articles in The Times, in 1887, entitled "Parnellism and Crime." These articles were credited to Richard Piggott at the time and accused Charles Stewart Parnell and other Irish leaders with agrarian crime in Ireland.

Mr. Asquith, in his speech, commented strongly on Sir Robert's admission of authorship of the articles referred to. He said he could not use language sufficiently strong to express his condemnation of the admitted breach of official duty of which Sir Robert had been guilty; but he added he did not think that any useful purpose could be served by instituting an inquiry into the matter after a lapse of more than 20 years.

WILL RATES BE REDUCED?

Those Who Desire To Travel by Sleeping Cars May Profit.

Toronto, April 12.—"What effect will the order of the inter-state commerce commission regarding the reduction in Pullman rates have in Canada?"

This question was asked of several local railway passenger men, who declined to be quoted, but who said the order had no official bearing in Canada, though it was likely that if a reduction was made by the Pullman Company it would apply allke in Canada and the United States.

The matter has been discussed before the Canadian Railway Commissioners on two occasions, at which representatives of the Pullman Company and C. P. R. sleeping car department were present, but nothing has been done so far.

The local men did not favor charging two prices, making it cheaper to use an upper berth. It would create two classes, which they thought would not be in the interest of the best travel. Some would not object to a reduction in price, but maintain it should be the same for the upper and lower sections.

They could give no official opinion, however, because such matters would be disposed of at the head offices. Until they received notice otherwise they would continue to collect the old rate.

"Of course," said one official of the Pullman people, "we're compelled, say, to give a cheaper rate for trains leaving Chicago for Toronto. I don't think they would charge a higher rate from Toronto to Chicago."

There is no gainsaying the importance of this play and this company. There promises to be a record-breaking attendance. A large number have already taken advantage of reserving by mail. The seat sale opens Thursday morning.

DON'T SPRAY TREES WHEN IN FULL BLOOM

Ontario Bee Keepers' Association Send Out a Warning.

The Ontario Bee Keepers' Association desire to draw the attention of the public to the fact that a number of members suffer from persons spraying fruit trees in full bloom, their bees being killed from the poison in the spraying mixture. This practice is prohibited by an act of parliament assented to in 1892, the provisions of which are as follows:

(1) No person in spraying or sprinkling fruit trees during the period within which such trees are in full bloom, shall use or cause to be used any mixture containing Paris Green or any other poisonous substance injurious to bees. (2) Any person contravening the provisions of this act shall, on summary conviction thereof before a justice of the peace, be subject to a penalty of not less than $1 or more than $5, with or without costs of prosecution, and in case of a fine or a fine and costs being awarded, and of the same not being, upon conviction, forthwith paid, the justice may commit the offender to the common jail, there to be imprisoned for any term not exceeding thirty days, unless the fine and costs are sooner paid.

The best fruit growers consider spraying, during the period of full bloom, as a useless waste of material, and harmful to the setting of the fruit. It is universally condemned by entomologists in every part of America. The recommended formulas as sent out by both the Federal and Provincial Departments of Agriculture state distinctly to spray apple orchards with bordeaux and arsenites: (1) Just as leaf buds are expanding; (2) Just before blossoms open; (3) Just after blossoms fall; (4) Every ten days later if required.

Bee keepers and fruit growers are both urged to see that this harmful practice is stopped.

It is hoped that the law will not have to be applied, as most persons are unaware of the harm that they do themselves as well as the bee keepers.

SIN TO WED EPILEPTICS

Dr. J. J. Williams Advocates Passing of Prohibitory Law.

Toronto, April 12.—"A law should be passed prohibiting epileptics to marry until at least ten years had elapsed since the last attack," suggests Dr. J. J. Williams, medical superintendent of the Hospital for Epileptics at Woodstock, in his annual report. Dr. Williams recalls that while he referred to this in a previous report, he does so again, "because circumstances demand it."

"There is a very prevalent belief among the laity, and also, sorry to say, among a few medical men, that the married state will improve the trouble."

Asexualization of epileptics is advocated by Dr. Williams just as earnestly as did Dr. Forbes Godfrey, M. P. P., in the Legislature when Sir James Whitney took such strong exception to the West York member's bill. Dr. Williams declares that there would be good justification in rendering the patients sterile.

"The time has arrived in our province when the public must be protected from the ravages of this disease in every legitimate way, and in order to do so it is necessary to take vigorous methods."

A LIFE'S DEVOTION

BY

FRANK H. SHAW.

Author of "A Daughter of the Storm," "First at the Pole," etc. (Copyright in U. S. America. All Rights Reserved).

"He was dead, m'lady, sure enough. I see'd his face," stammered the stableman, relapsing into the speech of his class. "Men's faces don't look that stony and set when they's living."

"Very well. Saddle a horse at once. Ride straight to the village and tell Dr. Gibbus to come here without delay. Call at the police office on your way—they must be informed without loss of time. And say no word about the affair at all to a single soul beyond those I've told you to tell."

The man touched his cap and slipped away, evidently glad to be removed from Marion's white face and glowing eyes. Left alone Marion made speedy preparations. The foundations of her being were toppling to ruin about her, but the old fighting blood of her race was asserting itself, and not until the very last thing had been done would she relinquish her grasp on the situation. She rang a bell and a servant appeared.

"Get some men together," she ordered. "Let them bring lanterns. If there is anything in the house that will serve as a stretcher, let them take that also. There has been an accident at the old arbor. Be quick."

It was now quite dark, and when, a minute later, Marion joined the little party that had gathered outside the door, she was glad of her forethought in providing lights. Without unnecessary words she set off along the narrow path from the rose garden, the men following. As she went she thought over many things. She remembered the shot she had heard during tea, and she could have cursed herself for her indifference. In all likelihood that shot had been the one that had taken her father's life, and she had named it for the gamekeeper's gun.

The night dropped blackly as the little party drew near to the arbor. One or two of the men hung back at the last moment, but Marion walked swiftly forward, and entered the place with her head held high, though her heart was beating thickly, threatening to choke her.

"Bring those lanterns here," she said, and they were brought. Lord Greatheart would never move in life again. He was lying on the floor of the abor, his legs twisted beneath him, one arm flung out sideways and above his head, the other on his breast. It needed but a single glance to tell that he had been dead for some time, and the saturated edges of the rent in the breast of his waistcoat were unnecessary evidence. But Marion stared at the mark in a curiously fascinated manner. Through that trivial opening had sped his life; it was very small to give passage to such a mighty thing as a human soul. The blood had ceased to well from the wound and was drying on the vest; a thick pool lay under the nobleman's body, but beyond the murdered corpse there was nothing to be seen.

No single scrap of paper that might act as a clue, no weapon; nothing but the lifeless clay and the thick black pool in which it rested.

"He has been murdered," said Marion numbly. "No, don't touch anything at all—yet. Wait until the doctor arrives, and the police." So they waited, because there was nothing else to be done. They waited whilst the last dull glow of gray faded from the wintry sky, and until the heavy purple pall shut down completely. No stars came out that night to shed a wan and unsympathetic light on the tragedy; but as they stood, talking in whispers, staring curiously at the girl's white face, a few flakes of snow began to fall softly, as if nature were anxious to hide the unsightly thing from human view. The flakes thickened; soon a driving squall lashed the fleecy whiteness into the arbor, and a white shroud began to form about the body. Marion shivered, and drew the thick cloak she had donned more closely about her. Would the doctor never come?

There was a dull thudding of hoofs; faces turned expectantly towards the outer world. Through the whirling snow showed a dark shape, which resolved itself into that of a mounted man.

light there, some of you," cried a "Now, then, where am I? Show a hearty voice; and Marion gave a little gasp of relief. No one would ever know what that tense waiting in the presence of death had been to her.

"This is a bad business, if it's true," said Dr. Gibbus cheerfully. He entered the arbor stamping his feet hard, and rubbing his benumbed hands. He was a typical doctor of the old school, a very Aesculapius in skill, a good friend, and a lenient creditor. His ruddy face shone in the lamp light; he shook the snow from the shoulders of his great-coat as he entered, and then, catching sight of Marion's face, he removed his hat with rough grace.

"You shouldn't be here, my child," he said gently. "They ought not to have let you come. Come, now, let one of the men take you home. Perhaps the case isn't as bad as it might appear. I've known a whole village call a man dead when he was only—well, slightly unwell." An inveterate optimist despite his melancholy calling, Gibbus would have found it hard to restrain a jest on the scaffold.

"There was no one else to come," said Marion frozenly. "And my father is dead, Dr. Gibbus—I have made sure of that."

"Dear me! Dear me! What a terrible thing to happen. Yes, I can give you no hope." He was kneeling beside the body by this, his hand on Lord Greatheart's motionless breast. "Quite dead; must have been this way for over an hour. Yes, yes; notice the coagulation of the blood and the general collapsed appearance of the chest. No signs of rigor mortis yet, of course, that will come later, my dear young lady—I beg your pardon. Professional instincts, and so forth. Lady Marion, I much regret to inform you that your father is quite dead."

"Yes, I know. Will you please tell me what is to be done, Dr. Gibbus. I—I have had no experience of a similar case. But I remembered that the police prefer to have everything left as it was found; they resent any attempt at interference. In a case of murder like this——" She paused here and looked humbly into Gibbus' face.

"Yes, my dear—in a case of murder like this——"

"Of course, it must be murder?" said Marion. "It could not be an accident."

"Did you find any trace of the weapon with which the—the work was done?" Of course, if a gun or pistol had been found by the—the body, the evidence would point to an accident, or——" He looked at her and did not conclude his sentence. It would have needed a very brave man to mention suicide to Lady Marion Seymour at that moment.

"There was no sign of any weapon of any kind," she told him. "It was that which made me realize that it was murder. Had it been an accident the weapon must have been present, of course."

"Yes, of course. Well, my dear, I cannot do much at present. There will have to be an inquest, naturally; there must be in all cases of sudden death, and I shall give my evidence there, but the police are the main people in a case like this. It will depend on the coroner's verdict as to what further steps are taken. Ah, here is Malachi. Good evening, Malachi—this is a bad case." The policeman who had appeared was rather different from the usual country policemen. He was smart and alert in appearance; he seemed to possess more than the average intellect. Instead of dominating the situation in a palpably official manner he came in quietly, touched his helmet to Lady Marion, and took a long look at the body on the ground.

"Anything been touched since the body was discovered?" he asked curtly. "No one tampered with anything?"

"I understand that this is exactly as my father was found," said Marion. "The man who summoned you discovered the tragedy. He will be able to give you any further evidence."

"He'll be here presently. I took his horse," said P. C. Malachi, who was known on the books of the Smoothshire constabulary as Malachi Jones, and was referred to as a promising officer. Jones had his own hopes of entering the detective service at no very distant date, and was inwardly congratulating himself on this tragedy. In it he saw a stepping-stone towards the desired haven of New Scotland Yard. The world's greatest tragedies affect people differently. Marion saw in this happening the sudden stoppage of her very existence; Malachi Jones read in it mainly a chance for distinguishing himself such as had never come his way before.

"I'll just take a few measurements, if you don't mind," he said, drawing out a comfortable-looking notebook and a tape. "Has any trace been found of a pistol or a gun?" He was told that no weapon of any sort whatever had been discovered, and nodded gravely.

YOUNG MAN SUICIDED

W. J. Plumridge, of Dorchester, Ended His Life—Inquest Today.

W. J. Plumridge, a young Englishman, employed by Mr. William Moore, a farmer living near Dorchester, committed suicide yesterday by taking laudanum. A note was left disposing of his possessions.

Early yesterday morning Plumridge was found unconscious in bed by his employer, who went to his room to investigate when the man did not get up. Dr. Banghart was notified, and for two hours worked over the man, but to no avail.

Dr. Doan, of Harrietsville, the coroner, was in turn notified, and an inquest will be held in Dorchester today.

ST. LAWRENCE BILL PASSES COMMITTEE

Mr. Graham Says Would Advise Company to Drop It, But Brockville Needs Power.

Ottawa, April 11.—"Only that I want to see the city of Brockville get cheap power I would advise this company to drop their bill," said Hon. Geo. P. Graham, minister of railways and canals, when the St. Lawrence power transmission bill came up in the House today. "I do not think the franchise which this House intends to grant will be of much value."

Mr. Pardee, sponsor of the bill, was of the opinion that never had such a clipped-wing bird of legislation flopped its way through the Commons. But the Opposition wanted to cripple it further, and soon the House was deeply engaged in one of those strenuous debates which have made the bill historical.

Fear was expressed lest the company would secure undue powers of expropriation by virtue of a clause of the railway act.

"This Government had no more right to incorporate a company with rights to expropriate provincial property than the Province of Ontario would have to incorporate a company to expropriate Dominion property," said Mr. Borden.

This Amendment Lost.

The following amendment, moved by Mr. Reid (Grenville) was lost by a vote of 40 to 30. Only one Liberal, Mr. Martin, of Montreal, voted for it: "Nothing in this act contained shall be construed to authorize the company to enter on, take or use any land or water, the property of any province, without having first obtained by order in council of the Lieutenant-Governor, the consent of the province to such entry, taking or using."

Mr. Sam Sharpe moved an amendment, that no right granted the St. Lawrence Power Company in 1901, and now null and void, should be revived by the passing of the bill.

Mr. Pardee and Mr. James Conmee opposed this so strenuously that it was withdrawn.

The bill passed committee, and will come up again for the third reading later in the week.

Then the House adjourned.

PREMIER TAKES HOLD OF THE POWER BILL

Ottawa, April 11.—In the Commons today Mr. Claude Macdonnell asked if the Government intended to go on with the insurance bill this session. Sir Wilfrid Laurier replied in the affirmative.

Private bills were called, and the St. Lawrence Power Transmission Company bill came up. Sir Wilfrid Laurier took the conduct of affairs into his own hands and accepted a couple of amendments. One of these was the one binding the Government to submit to Parliament plans for damming the Long Sault before approving them. The other gives the railway commission control of the rates to be charged.

PRETTY DOUBLE WEDDING.

On Wednesday, a pretty double wedding took place at the home of Mr. Andrew Broadbent, Middle road, Raleigh, when his daughter, Agnes May, was united in marriage to Franklin James Miller, of Sarnia Township, and another daughter, Ella Louise, became the wife of Ernest Stanley Nobelen, of South Harwich. The double ceremony was performed by Rev. Rural Dean Dobson, of Tilbury, before about 150 guests. The brides were attended by their sisters, Miss Lottie and Edith Broadbent. Little Misses Neal and Broadbent made charming flower girls, and S. M. Miller and Roy Huffman were the groomsmen.

CANADIAN GROCERS ARE WELL SATISFIED

Tariff Agreement Made With the U. S. Is Very Highly Spoken of in All Quarters.

The Canadian Grocer, in its last issue, deals with the tariff agreement, and quotes wholesale grocers all over Canada. In practically every instance, the wholesaler declares the settlement of Hon. Mr. Fielding to be a good one, and will lead to an increase in trade in the articles upon which the duty was lowered. Whatever benefit there is in the agreement will favor Canada.

Mr. John Garvey is the only Londoner whose opinion is quoted, and he thinks the settlement a good one. He says:

Not a Liberal, Either.

"It seems to me that the Canadian consumer will get his dried fruits, etc., at one-third of a cent per pound cheaper than he formerly paid.

"If by making this reduction, which does not amount to very much, Mr. Fielding has averted a tariff war with the United States, I think he has done a good stroke of business for this country. I say this notwithstanding that I have not been a supporter of Mr. Fielding's Government."

A BIG FALLING OFF IN FREE PATIENTS

New Rule in Vogue at Victoria Hospital Has Desired Result.

It is stated that free patients at Victoria Hospital have fallen off nearly 50 per cent since the new rule to close the wards to all but the staff went into effect.

The trustees anticipate a saving of $3,500 in hospital maintenance by the operation of the rule, and their estimates will be reduced somewhat this year.

When the question was first mooted the trustees thought that the saving would be in the neighborhood of $2,000, but so far it has proved beyond question that the saving will be greater than first anticipated, and some of the trustees would not be surprised if the amount saved would run to twice that.

ITALIAN IS ON TRIAL AT COBOURG ASSIZES

On a Charge of Killing Two of His Fellow-Countrymen and Wounding Another.

Cobourg, April 12.—The spring assizes opened here yesterday before Mr. Justice Teetzel. The crown counsel is Mr. E. A. DuVernet, K. C., of Toronto. Much interest centres around this court, as the Italian, George Mancaro, is to be tried for the murder of his countrymen, Frank Morano and Guiseppa Cianflone, and for wounding Nicola Lombardi, another Italian. The shooting occurred last January at the Italian construction camp near Grafton. Conditions were not favorable for working, and the men were passing the time at the camp. The prisoner, Mancaro, and Morano, are said to have been drinking together. A dispute arose, and Mancaro, in his frenzied state, rushed for his gun. A shot fired from within the shack ripped open the arm of Lombardi, who was holding the door. The ball struck Cianflone, who stood behind him, in the abdomen, and he died at the hospital here the following day. Mancaro escaped, but was arrested at Colborne, about eight miles away, as he was preparing to board a train, and was charged with the shooting. He has a wife and family in Italy. Charged with a terrible crime in a strange land, his condition is a pitiable one. He has proved a tractable prisoner during his confinement in the jail here. Besides this case there are three other criminal cases and six civil cases on the docket. The court will be a long and important one.

A true bill was brought in against Mancaro.

Typhoid Fever

More of It Here Than in Any Other Civilized Land.

When the digestive process is perfect and the general system is strong and vigorous, no fear need be entertained of germs, typhoid, tubercular or otherwise, as it is only when the system is run down and in a weakened state that these germs or bacilli find favorable lodgment and multiply. We are daily taking into our bodies, by way of the mouth, the nostrils and the skin many disease germs of a destructive nature, but as the conditions within the body are not favorable to their propagation they are rendered inert, destroyed or thrown off without injury. In localities where typhoid and other low forms of fever prevail because of contaminated water or other cause the importance of sustaining the system at a high standard of health, in order to resist the germ influence upon the bodily functions, cannot be overestimated. Sunshine, fresh air, proper nourishment and sufficient rest are essential to good health, and whatever contributes to the peace and luxury of perfect digestion must not be neglected. A remedy that excites the flow of the salivary fluid for the digestion of starches and stimulates the mucous surfaces and little glands of the stomach in the digestion of all other foods, and, at the same time, as a simple food, contributes heat and energy to the body, must be of priceless value in sustaining and building up the system and rendering it immune to the despoilation of germs or other evil agents of health. Duffy's Pure Malt Whiskey is indisputably this remedy. It not only serves to keep the bodily health at the highest notch of excellence, but in typhoid fever, especially, when the bodily functions are at their lowest ebb and death seems imminent, it is retained by the stomach when other agents are rejected, and as a food and stimulant sustains life until the crisis is passed. While convalescing after fever it is the greatest strength-giver and body builder known to science.

Duffy's Pure Malt Whiskey has to its credit 50 years of success. It is the result of years of careful work and is an absolutely pure distillation of carefully-malted grain. Overworked men, delicate women and sickly children will find in Duffy's Pure Malt Whiskey the health and strength-giving properties that are so necessary to them. You should have it in your home. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting and weakening conditions if taken as directed.

All druggists, grocers, and dealers, or direct, $1 25 a large bottle. Refuse substitutes and imitations; they are impure and dangerous. Send for medical booklet and doctor's advice, both sent free.

HERE'S NEW SCHEME TO REFORM LORDS

The Cleverest and Not the Eldest Born Should Succeed to the Title.

London, April 12.—Sir Francis Galton, founder of the science of eugenics or racial improvement, has written a letter to the London Time in which he suggests that the House of Lords might gain in strength if primogeniture, the exclusive right of inheritance to a peerage vested in the eldest son, were abolished.

In the case of the House of Lords, says Sir Francis, the claims of heredity would be best satisfied if all the sons of peers were equally eligible to the peerage and a selection made among them, late researches having shown "that the eldest born are as a rule inferior in natural gifts to the younger born in a small but significant degree."

These views were fully indorsed by Dr. David Heron, of the Galton Laboratory for National Eugenics at University College, London, who was appealed to for an ampler statement of the facts. It was pointed out to him that the teaching of eugenics as to the inferiority as a rule of the first born was directly opposed to the popular idea that the "best come first."

"Popular opinion is always wrong," said Dr. Heron. "The first born in a family is more likely to be insane, tuberculous or criminal than the others. It follows therefore that the tendency to diminish the size of families increases the average number of such individuals in the community."

Dr. Heron referred to the conclusions arrived at on this subject by Prof. Karl Pearson, and expressed by him in a recent lecture at the Eugenics Laboratory.

"If our observations are correct, and I believe them to be so," said Dr. Pearson, "then the mental and physical condition of the first and second born members of a family is differentiated from that of later members. They are of more nervous, less stable constitution.

"We find that the neurotic, the insane, the tuberculous and the albinotic are more frequent among the elder born. Dr. Goring's results for criminality show the same law.

"The result of this law is remarkable. It means that if you reduce the size of the family you will tend to decrease the relative proportion of the mentally and physically sound in the community. You will not upset this conclusion in the least if, as I suspect, the extraordinarily able man, the genius, is also among the early born. For you will not lose him if you have a larger family, although you will lose the sounder members if you curtail it."

PIUS PINES FOR THE SEA

Would Like to See Venice Once More Before He Dies.

London, April 12.—When Pius X. was patrician of Venice he made no attempt at hiding his sympathies with the reigning house of Italy, and he once told a friend that he regretted that a reconciliation between Italy and the Vatican was impossible. The Vatican, he said could not be reconciled to the occupation of Rome, and a reconciliation would benefit neither the kingdom of Italy, which would lose the support of many loyal but anti-clerical supporters, nor the Holy See, which would lose its prestige among foreign Catholics.

The patriarch added that although a reconciliation was impossible there was no reason why the relations between the Vatican and the Quirinal should not be improved. Some time ago the Pope received in audience the Venetian friend to whom he had talked about a reconciliation many years before, and referring to the same subject said:

"What seemed possible in Venice is quite impossible under altered circumstances here in Rome."

Then the Pope with a sad smile explained to his old friend what he meant.

"Do you think that the Pope is free to do what he likes? Of course everybody thinks so, but it is a mistake. There are influences that cannot be overcome."

The Pope spoke of Venice and his great wish to see the city before he died.

"I am willing to go to Venice," he said, "even if I had to walk there, but I realize that I am destined to die inside the Vatican and that I shall never see Venice again."

The friend then remarked that the Vatican with its art treasures was a residence which afforded great compensations to the spirit and almost reconciled its occupant to voluntary imprisonment.

"Yes," answered the Pope, "but it lacks the sea, and the sea of Venice is always in my heart."

Stomach Troubles

OFTEN COME FROM WEAK, EXHAUSTED NERVES—GREAT RESULTS FROM USING

Dr. Chase's Nerve Food

When the nerves become exhausted the first sign of trouble often comes from the stomach. The nerves which control the flow of digestive fluids fail and the result is loss of appetite, indigestion, nervous headache and sleeplessness.

Opiates and narcotics cannot possibly do more than afford temporary relief, and aids to digestion are merely make-shifts. To get well you must get the nervous system back into condition by such treatment as Dr. A. W. Chase's Nerve Food. Here is a letter which illustrates the point:

Mr. John McLean, 316 Hunter street west, Hamilton, states: "My trouble was principally with my stomach. As a result of weak nerves my appetite was poor and I had severe attacks of indigestion. I found that Dr. Chase's Nerve Food relieved me, and since using it regularly for some time my digestion is excellent, my appetite is good, my nerves strong and vigorous, and I feel an altogether different person. I feel very grateful for the benefit I have derived from this medicine."

If you are in earnest about a cure why not make it thorough by using Dr. A. W. Chase's Nerve Food regularly and persistently until the whole nervous system is restored and you can know again the joys of living.

Dr. A. W. Chase's Nerve Food, 50 cents a box, six for $2.50, all dealers; or Edmanson, Bates & Co., Toronto.

SIGNS OF INCENDIARY IN M'LAUGHLIN HOME

Carpenters Find Evidence That House, in Which Three Perished Was Set Afire.

Uxbridge, April 12.—The carpenters, who are busy rebuilding the McLaughlin home, where Mrs. McLaughlin and her children were burned to death, and for which her husband is awaiting trial for murder, discovered, while tearing down part of the building, a couple of pillows that were oil soaked.

The discovery adds much to the theory that the house was set on fire, and will no doubt form another link in the chain of evidence that will be presented by the crown during the trial next month at Whitby.

The workmen also are of the opinion that the house was fired in more places than one, namely under the staircase. From examination it is surmised that there was a fire kindled in the south bedroom, in the closet going down cellar and in the south end of the little hall upstairs.

CENTRAL SEEKS WAY TO AVERT STRIKE

New York, April 12.—The New York Central will submit a new proposal to its conductors and trainmen in a final effort to avert a strike. At the conclusion of a conference it was said that the men had informed the company that its former offer had been rejected by an almost unanimous vote. Ninety-seven per cent of the men were willing to strike unless more concessions were made, and the company indicated that it would submit a new proposal.

GIANT FIGHTER MOBBED BY WOMEN

Kosher Meat Riots in Gotham Assume Serious Proportions.

New York, April 11.—The boycott against Kosher butcher shops leaped the East River today, and spread from Harlem and the Bronx, where it originated, to Williamsburg, Brownsville and East New York. All meats advanced one cent a pound wholesale.

The protest against high prices is spreading more rapidly than any similar movement remembered in New York City.

Already 95 per cent of the Kosher butcher shops in the city, supplying a population of 750,000, have either been forcibly closed or have shut in sympathy with the movement. In turn, the butchers, who say they cannot sell lower and live, descended 200 strong on the United Dressed Beef Company today in such a threatening mood that the company telephoned for the police, and the crowd was dispersed.

Agitators went through the newly-affected districts last night, and their success was seen when the butchers tried to open this morning. There was the wildest disorder, and much meat was spoiled with kerosene. Morris Posner, a giant fighter, hired by a butcher for emergency, was mobbed by women and beaten until unconscious. The police saved his life.

THAW ON STAND

Appears Pale and Nervous, and His Testimony Disconnected.

New York, April 12.—Harry K. Thaw, looking pale and nervous, took the witness stand yesterday in the trial of the suit brought by Clifford W. Hartridge against Mrs. Mary Copely Thaw for $93,000, which Mr. Hartridge claims is due him for services as counsel in Thaw's first trial for the murder of Stanford White.

Thaw gave testimony in an indistinct and disconnected manner. He said he never had authorized Mr. Hartridge to spend money on women in order to silence them. Up to December, 1906, he said he paid $57,000 to Mr. Hartridge.

"He told me (Thaw) that he was spending money for counsel fees. In October, 1906, I heard that Hartridge was gambling with my money and had lost $11,000 at roulette."

The next month, he said, the case virtually was taken out of Hartridge's hands, although he was allowed to remain on the counsel.

BUSY LEGISLATORS

Good Progress Made in Commons Yesterday With a Number of Bills.

Ottawa, April 12.—The Commons yesterday made good progress with private legislation. A number of contentious and non-contentious bills being cleared off the order paper or advanced to such a stage that there is no likelihood of them causing much more discussion.

These bills included the act respecting the Hamilton, Waterloo and Guelph Railway, which caused a nine-days' fight in the railway committee, and the bill to incorporate the Toronto and Eastern Railway. It looked for a time as though there would be an all-night sitting over the last-named bill, which was strenuously opposed by Toronto and other Conservative members on the ground that the proposed railway would be entirely within the boundaries of Ontario, and that it should be operated under a provincial charter.

During question time which did not come till in the evening, Mr. Girard asked if the Government was aware that since the retirement of Col. Wurtele, of the Eighteenth Regiment, the pay lists of the various camps which have been held, it is alleged, have been covered with false names of persons that were never at the camps. The Minister of Militia said that the department had no knowledge of any such condition of affairs.

Mr. Crosby asked if it was true that Mr. Justice Britton had acted as a director of the National Trust Company of Toronto.

Mr. Aylesworth said that the department of justice had not been so informed, but Justice Britton's attention would be called to the fact that a question had been asked in the House.

PATCHED UP.

Los Angeles, Cal., April 11.—John P. Cudahy, millionaire packer, who slashed Banker Jere S. Lillis, in the Cudahy home in Kansas City, March 6, today is on his way to Kansas City to meet his wife and bring about a reconciliation. The estrangement has been patched up by the young man's father.

PINE BLUFF SUBURB SWEPT BY CYCLONE

Arkansas City Hit by a Terrific Windstorm That Does Much Damage.

Pine Bluff, Ark., April 11.—A cyclone swept the southwestern suburbs of Pine Bluff this afternoon. Homes of mechanics, stores, outhouses and other buildings were demolished, trees uprooted, fences blown away and much other damage done to property of telephone and telegraph companies.

A woman living on Missouri street was blown from her home and carried into the air. She was caught in telephone wires, and her screams attracted several men, who let her down with a rope. She was uninjured.

Up to a late hour no lives are reported lost, although reports are here that the cyclone did considerable damage east of the city, as it could be seen twisting its way southeastward. The storm was preceded by a rainfall and hail. Clouds formed into a funnel as they moved over the eastern suburbs.

More than 50 small cottages along Missouri street, occupied by negroes, were unroofed and otherwise damaged.

Telegraph and telephone traffic is about paralyzed.

LITERARY NOTES

The Orient Today.

"China and the Far East" is the title of a book of 450 pages, from the press of Thomas Y. Crowell & Co., New York. It consists of a series of addresses delivered during the second decennial celebration, held recently, of the founding of Clark University. Under the direction of the president, Dr. G. Stanley Hall, each department of the university arranged for a gathering of specialists to deal with topics of present interest in its special field, and it was under the auspices of the department of history that the lectures contained in this volume were given. The aim was, first, to emphasize the importance of presenting in school and college work the leading features of the development of the eastern world, and, second, to do something tending to further a more general and accurate knowledge of far eastern conditions. During the sessions of the conference the lectures and papers of the forty-five authorities who took part in the meeting covered nearly every aspect of the situation in the Orient—political, social, economic, military, educational, and religious. Each chapter deals with a distinct topic, and together they cover progressively the field of what is both most interesting and most vital in the situation of China and Korea, at least.

Among the topics discussed are the position of China in world politics; her relations with the western world, and especially with the United States; the need of a distinctive American policy in China; the history and economics of that country's foreign trades; monetary conditions there; the present situation in Manchuria; the opium problem; the development and present strength of the Chinese army; conditions favorable and otherwise in China's development; the new learning of China; its status and outlook; the history of Christian missions, and the progress of religious education in the Flowery Kingdom; Japan's relation to China, and the United States; the strength and efficiency of the Japanese army; the awakening of Korea under Japanese administration, etc.

Nearly every one of the writers has spent time in the Orient in an official or other capacity, and fact and argument are presented in a manner that cannot but prove attractive to the student of far eastern affairs.

BEST PLAYS FOR SLUM

Repertory Theatre Promised in Poor Districts if Building Is Provided.

London, April 11.—Dull is the week when Charles Frohman does not put forth a new theatrical idea. This time it is high class theatre in the slums; just think of that for Frohman. His idea is to give the plays of his Repertory Theatre for a week in some new and up-to-date theatre either in the east or south of London. Somebody must, however, build a theatre to suit the play. When that is done then Mr. Frohman will come to the front and centre and supply the plays and actors just as they appear in the West End at cheap prices.

This is supposedly another attempt to elevate the stage. Certainly it needs elevating, either around Whitechapel or at the Elephant and Castle. I suspect that the theatre-goers of those localities would much prefer to see "The Bad Girl of the Family" or "Her Road to Ruin" than all the Barrie or Shaw or Pinero comedies that were ever written. But that's up to Mr. Frohman.

In this week's Referee occurs this: "It was Sydney Grundy, I think, who remarked some time ago that it would be a good thing for the drama and the stage and the actors and the actresses, and even for the theatre-goers, if writing about them and talking about them could be prohibited for two or three years. True it is that a huge quantity of piffle is written about things theatrical and there is encouragement for an ever-growing familiarity that threatens to breed contempt."

Miss Ellen Terry goes to America in October, where she has arranged to give a series of "conferences," taking as her subject the heroines of Shakespeare.

"I am looking forward to my visit," she said, "with the greatest delight, for I have many friends on the other side of the Atlantic. I am just going to talk about some of Shakespeare's characters for an hour and a quarter, and, if you will forgive my presumption, I think I have one or two new things to say about them. For instance, you have doubtless noted that the poet's heroines are usually spoken of as being so essentially feminine. Well, they weren't. Take Rosalind, take Portia, take Viola for example. Consider how ready they all were to adopt the manner and the costume of men, and how they contrived to deceive even their own lovers by their masculine bearing. And please will you kindly make it known that this is to be my last tour? I sincerely hope it will be nothing of the sort."—Daily Telegram.

In the famous Sporting Times, better known as "The Pink 'Un," occurs this:

"By some accident an extra slip got pasted too high on the placard announcing Granville Barker's new play at the Repertory Theatre, and the top line read, 'The Mad—House.' A man who saw both the placard and the play tells us that he didn't notice anything wrong."

REBELS AT "VARSITY" TOGS

London Tailor Is Sharp Critic of Trousers Students Wear.

London, April 11.—Oxford men have not escaped the lynx eye of the "Tailor and Cutter" expert who goes about seeking metaphorical holes in the clothing of the nation's gentlemen. In a recent issue of that paper it is stated that many of the Oxford students show a lamentable lack of common sense in their dress, or, at any rate, certain parts of it. Their gray flannel trousers are turned up to show about three inches of bright-ly-colored socks, and the belted jacket is all the rage. Fancy vests are worn which have a decidedly ready-made atmosphere about them.

The trousers are marked out for special condemnation. The knees are baggy, they are innocent of any creases and they have long ago lost any claim they may have had to shape. Even the students' hair is mentioned as being almost long enough for curls, and there is a veiled sarcasm in the remark that "it is possible some of these eccentricities are adopted to label themselves 'varsity' men, and, if that be the case, they succeed."

"The scholars' gown is a dignified garment," says the expert in clothes, "but when it hangs down from the wrists when the wearer's hands are in his trousers pockets and the neck is located at the waist, then it is neither dignified nor graceful, and yet this seems to be the way they are mostly worn."

The period of deepest sleep varies from three o'clock to five. An hour or two after going to bed you sleep very soundly; then your slumber grows gradually lighter, and it is easy enough to waken you at one or two o'clock. But when four o'clock comes you are in such a state of somnolence that it would take a great deal to rouse you.

COLDS Quickly Cured

Everybody has a cold. Some resort to tablets and powders that contain dangerous drugs, and death from heart-depressing remedies is not infrequent.

It's poor policy to neglect a cold—especially when it can be cured so quickly without medicine.

You can send the soothing vapor of the pine woods, the richest balsams and healing essences, right to the cause of your cold by inhaling Catarrhozone.

Little drops of wonderful curative power are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhozone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its oily, fragrant vapor, and every trace of congestion and disease flees as before fire.

Catarrhozone Cure

No trace of the disease remains after Catarrhozone is used—no more matter to clog up the nose and cause you to cough and spit—no more headache and buzzing ears.

Cure is absolute.

Because Catarrhozone contains such healing balsams and soothing antiseptics, it can's help curing every kind of catarrh, throat, lung and bronchial trouble.

Don't experiment longer—Catarrhozone means sure cure. Two months' treatment, guaranteed, price $1 00; smaller size, 50 cents at all dealers, or the Catarrhozone Company, Kingston, Ont.

BEAUTY DOCTOR'S NEW SHAMPOO

A professional hairdresser recently told about the new shampoo which is now so much in vogue in smart hairdressing establishments. Turkish towels are heated so hot that they can scarcely be borne in the hand. The head is rubbed with these, and a frequent change of towels should be kept up until the hair is entirely free from superfluous oil. With these shampoos once a week the hair soon takes on its natural brilliancy and in the course of time may even appear more brilliant than Nature intended. There are women who, notwithstanding any care they give their hair in the way of regular brushing and shampooing, still are troubled with grey hairs coming in long before the natural time. This is probably owing to wrong diet or a fretful disposition, or both. The surest way to overcome this and to restore the hair to its natural color is to use that old standard preparation HAY'S HAIR HEALTH, which is safe to apply and furnishes the necessary nourishment to the roots of the hair, causing a healthy, brilliant and natural sheen. DETROIT SLINGERS HOLD THE RED LEGS

Clarke Griffith's Crew Unable to Find Mullin and Willett.

BESCHER'S HOME RUN

Counted the Only Tally Made by Cincinnati in First of the Prep. Series.

[Special to the Advertiser.]

Cincinnati, O., April 11.—Apart from the fact that they scored several runs less than should have come their way, the showing of the Tigers in the starting number of the big prep series, in which they trimmed Cincinnati, outbatted and outfielded the Reds, and also had a little on them on the bases, though some of the most costly slips came in this line of effort, was encouraging.

This has been one of the team's main weaknesses this spring, due in part to the lack of opportunity for team practice.

Tigers Held the Reds.

But they held the Reds safe all the way, the only tally scored by the home Lopes being on a home run by Bescher. So they could afford to indulge in a few frolics, though they were futile of result.

Mullin and Willett divided the work, the first-named giving his arm the final limbering up before Thursday's serious business.

He was good, and is ready for flag flinging. The only Cincinnati run of the game came off him, and was on Bescher's line drive between Crawford and Cobb, on which he made the circuit. Willett went five rounds and allowed only one hit, striking out five men.

BALTIMORE ORIOLES HAVE STRONG OUTFIELD

Walsh Has Been Secured From Athletics by Manager Jack Dunn — Team Looks Good This Year.

[Associated Press.]

Baltimore, April 11. — With the purchase by the Baltimore Eastern League club of Outfielder Walsh, from the Philadelphia Americans today, the prospects of Jack Dunn's 1910 aggregation loom up brighter than at any time since he became owner.

His outfield has been worrying him considerably, but with Walsh in left, Slagle, the ex-National Leaguer, in centre, and Goode, of last season's Clevelands, in right, the managerial mind is relieved on this score.

Manager Dunn will leave for New York tonight, and it is thought he will probably get an infielder from George Stallings, of the New York Americans. The new man would be used at second base according to present plans.

KLING HAS NOT PAID $700 TO COMMISSION

So Says Secretary Bruce — Johnny Won't Be Allowed to Pay Until the Cash Is Forthcoming.

[Special to The Advertiser.]

Cincinnati, April 11.—John Bruce, secretary of the National baseball commission, said today that Johnny Kling, catcher of the Chicago Cubs, has not paid the fine of $700 imposed on him by the commission, for violating the terms of the contract he entered into with the Chicago club two years ago. He will not be permitted to play until the money has been received by the commission.

May Not Play.

Kansas City Mo., April 12.—John Kling may not play with the Cubs this year after all. He is taking an active part in the reorganization of the inter-city league, of which he was playing manager last year. He announced that he would run the team again this season, and said if he could not get more money than $4,500 for the season he did not want to play for the Cubs.

He further asserted he has asked for a series of fourteen games with semi-professionals in New York city.

Londoner Will Again Be Behind Bat for the Pirates—Canning Will Be Box Mainstay.

[Special to The Advertiser.]

Pittsburg, April 11.—But two uncertainties remain to clear up the initial line-up of the world's champions of 1909.

These are first base and the box. Camnitz will be a box mainstay again this season, and Adams will likely come in for a good deal of work.

George Gibson will be the catcher, and Wagner and Miller are sure to be in their regular infield positions, with Clarke, Leach and Wilson in the outer field. With the exception of Byrne, who is slightly ill, all the players are fit for the pennant race.

Chicago National Twirler, Ill With Diphtheria, Has Relapse.

St. Louis, April 12.—The condition of E. J. Reulbach, pitcher for the Chicago Nationals, who is ill with diphtheria at his home in this city, took a turn for the worse today, and his condition is considered serious by his physicians. He was given a second anti-toxin treatment this afternoon, the first treatment, given on Saturday, failing to act satisfactorily.

Reulbach's baby daughter, from whom he contracted the disease, also had a relapse last night, but now is thought to be out of danger.

The contest, which is for a $5,000 gold challenge cup, is to be run on Long Island, over a distance of 278.08 miles on a circuit requiring 22 laps. The date set is Oct. 15, 1910, but Mr. Vanderbilt reserves the right to declare the race off if less than fifteen entries are received by Aug. 1.

FROM SMOKE TOWN AMATEURS TO THE MAJORS AT ONE BOUND

From the sand lots of Pittsburg to Cleveland's new half-million dollar ball park, from obscurity to fame, all in the brief period of two months, seems to be the leap Harry Kirsch, a 20-year-old pitching phenom, is about to complete.

In this day of highly-developed baseball it is a rarity for a kid to break into the big show without first gleaning the elementals of the game from at least one year's service with a minor league club. Yet it looks as though Kirsch was going to take a short cut straight to the top of the heap.

He wasn't given a look in for a regular job when he was taken south on Feb. 19. His work from the start created a good impression, however, and now he has been picked as one of the seven twirlers who will take regular turns in the box for the Naps when the season opens.

Kirsch is a well-made lad. He's about 6 feet, weighs 175, has speed, control, fast-breaking curves and a cool head. The latter is a surprising asset for a youngster. He beat the St. Louis Cardinals 3 to 2 on March 23, letting Bresnahan's regulars down with four hits. He fanned six.

ED REULBACH SHOWS SLIGHT IMPROVEMENT

Is Given Third Anti-Toxin Treatment —Crisis Expected Today.

St. Louis, Mo., April 11.—Following a third anti-toxin treatment today, E. J. Reulbach, pitcher for the Chicago Nationals, who is seriously ill with diphtheria at his home, was said to be resting more comfortably. The crisis is expected tomorrow. His physician declares it will be at least a month, if Reulbach recovers, before he will be able to don a uniform again.

YOUNG TIGERS HAD EASY TIME

Wild William's Men Defeated Indianapolis as Easily as Did the Veterans.

STROUD SHOWED CLASS

Had the Browns on the Hip All the Time — Hardin Twirled Well at the Finish.

[Special to The Advertiser.]

Indianapolis, Ind., April 11.—Wild Bill Donovan's little Tigers did not have any more trouble with the Browns today than Jennings' champion Tigers had in the two games they played here, for the youngsters made enough hits to win almost any game, although they got only four runs—two more than the Browns could muster.

Stroud's fast ball looked easy, but he had the Browns on his hip and he fanned six of Carr's sluggers, including the boss himself. He had Sammy Mack's goat, striking the big third baseman out the three times he faced the pitcher. Hardin, who pitched the last three innings, held Indianapolis safe, a fast double play cutting down Chadbourne, the only Indianapolis player to get on base.

JEFFRIES AN EXPERT WITH AXE, SAY WOODMEN

James J. Mows Down Trees Daily, Going Through the Four-Foot Kind With Ease.

[Associated Press.]

Ben Lomond, Cal., April 12.—Woodsmen say Jim Jeffries is an expert with the axe. During the day the lighter felled three trees, and not only did he cut them down, but with a saw he converted them into firewood.

Rain had prevented the usual morning road work, and Jeffries was strolling toward the gymnasium, when he caught sight of a woodsman felling a big tree. He offered to finish the job, and the axe was handed him. Stripping off his coat, Jeffries swung the axe until the tree, whose trunk was four feet round, lay on the ground.

The big pugilist is now in clover wood-cutting. "It's great pleasure," he said, "and I intend to do a great deal of it."

[By Associated Press.]

Boston, Mass., April 11.—Knockouts predominated at the preliminary bouts of the National A. A. U. boxing championship, held here tonight under the auspices of the Boston A. A. BETTER TIME MADE IN RUNS AT Y. M. C. A.

Hexathalon Events Held Again Last Night and Local Percentages Boosted.

BUT LONDON IS OUT OF IT

As Other Western Ontario Towns Have Higher Totals in the Race for the Championship.

The running events in the hexathalon championship, senior and junior, were held at the Y. M. C. A. last evening. At the last meet the stop-watches were incorrect, and permission was received to run these events over again.

Much better time was made in last night's contests, swelling the total considerably.

However, there appears to be but little chance of landing the silverware in either series, as Stratford and Galt are away ahead in the senior, and Orillia and Stratford in the junior.

London's seniors made a total of 1,155, while Stratford ran up a figure of almost 1,300, and Galt over 1,200. The juniors are even more distanced by outside teams.

Last night's events are as follows:

Senior Events.

60 yards, potato race—1 Mulvin, 16 seconds, 54 points; 2 Eckert, 16 15 seconds, 49 points; 3 Kitchen, 16 3-5 seconds, 39 points.

440 yards, potato race—1 Mulvin, 1:44 3-5, 82 points; 2 Kitchen, 1:48, 69 points; George, 1:48 4-5, 65 points.

Junior Events.

60 yards, potato race—1 Thompson, 16 2-5 seconds, 69 points; 2 McKay, 17 2-5 seconds, 44 points.

220 yards, potato race—1 Thompson, 47 3-5 seconds, 128 points; 2 McKay, 49 seconds, 121 points.

GIANTS TAKE POOR GAME

Better Base-Running Would Have Given Jersey City a Victory.

New York, April 11.—The New York Nationals took a poorly played game from Jersey City today by a score of 10 to 8. The contest, however, was marked by heavy hitting. But for poor work on the bases the Eastern Leaguers probably would have defeated their major league opponents. Score by innings:

HORSEMEN MAKE APPEAL.

[By Associated Press.]

Lexington, Ky., April 11.—Writing a "round robin," urging the New York legislature to defeat the bill prohibiting oral betting on horse races, many breeders of thoroughbred horses in Kentucky today sent a telegram to State Senator E. T. Brackett, chairman of the codes committee. The breeders declare that a law against oral betting would strike a vital blow at the horse breeding industry, already crippled by antagonistic legislation.

GOING NORTH AGAIN

Whitney May Bring Back the Instruments of Dr. Cook.

New York, April 12.—Another expedition to the Arctic, during which he expects to stop at Etah to recover the instruments of Dr. Frederick A. Cook, is being planned for this summer by Harry Whitney, of New Haven, the first white man encountered by Cook on his return from the north, and who first heard Cook's assertion that he had reached the North Pole. Paul Rainey, known as a horseman, polo player and yachtsman, will accompany Whitney.

Negotiations, commenced today, are now being made to charter a suitable vessel and it is expected the expedition will leave St. Johns, Nfld., in July.

Overtures are said to have been made to Capt. Samuel Bartlett, master of the schooner Jeannie, sent to the Arctic last year to carry relief to Commander Peary, to command the vessel.

The principal object of the trip will be to obtain specimens of big game for museums and zoological parks.

Mr. Andrew Carnegie hailed Commander Robert E. Peary as the first discoverer of the North Pole in a brief address on Saturday before the Pennsylvania Society of New York, of which Peary was made an honorary member.

Paris, April 11.—The Prix des Villas, run at Saint Cloud today, was won by W. K. Vanderbilt's Sir Peter. Mr. Vanderbilt's Ramesseum finished second in the Prix Simonian.

Some Notes of the Boxers

Hugo Kelly says he means to go right down the line in the middleweight class this time, and hopes to make a good start against Tommy Sullivan at New Orleans next Sunday afternoon in a twenty-round battle. Kelly has been knocking at the door long enough to get to the top and says he intends to fight his way to the front ranks of the middleweight class.

If the alleged alliance between Billy Papke and Tommy Ryan does materialize it should be a winner. However, Ryan has been a man hard to get along with, and if he insists upon too big a split, Papke may chase him in a hurry.

Cyclone Johnny Thompson has been responsible for Jeff O'Connell's appearance on the Pacific coast. Johnny thinks the little Englishman is a sure comer in the 122-pound division, and has arranged some good battles for the little fellow in the far west.

Someone has suggested that Gleason and Rickard have an understudy on hand in case of accident to Jeffries on the eve of the July 4 fight. Tommy Burns, Sam Langford and Sandy Ferguson all say they would accept a training-expense fee to be on hand if called.

Joe Walcott, who took them all on irrespective of size, has joined the camp of Jack Johnson, and will stick with Jack until after the Jeffries battle on the coast, July 4. Walcott is firm in his opinion that Johnson is the best man in the world, and thinks it will be a sure victory for Jack when he tackles Jeffries on the coast.

LEAPS FOR HIS LIFE AND DROWNS IN RUSCOMB RIVER

Harry West, Bridgeworker, Jumps When Train Backs Down on Him—Caboose and Freight Car Fall in Stream.

Ruscomb, Ont., April 12.—With a train of freight cars backing down upon him, as he stood against a reavy crane upon a partially completed bridge which crossed the Ruscomb River, Harry West, believed to be a resident of Windsor, leaped into the stream late yesterday afternoon and was drowned in his desperate effort to save his life.

The caboose and a freight car attached to the train toppled off the bridge into the river, when they struck the crane which lay across the bridge. According to Wabash railroad officials in the vicinity, no employees were in the caboose.

The Canadian Bridge Company, of Walkerville, is erecting the bridge over the river. The train left St. Thomas bound westward early in the evening. It had crossed the bridge, and the crane was again swinging over the span to continue its work, when, it is said, the train suddenly halted and began to run back.

Before the crane could be moved the cars had collided with it, and West had jumped into the creek. His body was not recovered.

The train was in charge of Conductor Charles Cudmore, living on Goyeau avenue, Windsor. It was known as the "mixed" train, owing to the fact that it carried a few passenger coaches with the freight cars.

The Windsor city directory contains the name of Harry West, laborer, residing on Gladstone avenue, near Walkerville. West was employed by the bridge company. Investigation last night failed to determine if he is the man who died at Ruscomb.

NO SERIOUS RESULTS MISS FRANK RECOVERING

Spent Another Good Night Last Night—Defense Will Put Up a Fight.

Miss Elizabeth E. Frank had another quiet night last night, and her condition continues to improve steadily. No serious results are now anticipated. It is just one week ago this afternoon that the shooting occurred.

Mr. Ed. Meredith, K.C., stated to The Advertiser today that he had not yet made final arrangements for defending John Prodger.

It is understood, however, that the arrangements will be completed shortly, and that Mr. Meredith will appear for Prodger when he comes up for his hearing on Thursday morning before Magistrate Love.

A Strong Fight.

Messrs. George and William Prodger, of this city, both of whom are C. P. R. engineers, and stand high in the estimation of the company, worked themselves up in the employ of the railway. They are sober, honest and industrious, and are regarded as first-class, reliable men all around.

It is said that a strong fight will be put up by the family of John Prodger, who will see that the crown will be compelled to prove all the alleged identifications which have been made of the suspect.

LIVERY BARN BURNED AT PORT STANLEY

Port Stanley, April 12.—Fire in Pollock's livery stables and barn last night did close to $1,000 damage, the buildings being destroyed.

NO CLEMENCY FOR HIM

Oxford Township Farmer Must Serve Term for Assault.

Brockville, Ont., April 12. — Sheriff Dana has received a communication from the under-secretary of state, notifying him that the governor-general has not seen it to exercise his prerogative for clemency in favor of Patrick J. Forsythe, an Oxford Township farmer, serving five months for an assault on an hotelkeeper. A largely-signed petition from residents of the northern portion of Grenville County, asking that Forsythe and his brother Thomas, now in the Central Prison serving nine months for the same offence, be released from custody was filed with the minister of justice.

EXPIRED MAKING A CALL

Mount Elgin Man Was Stricken in Home of a Friend.

Ingersoll, Ont., April 12. — Death came with startling suddenness Sunday to James Robinson, a Mount Elgin young man. While calling at the home of Mr. Alex. Butcher, a few miles distant, he was stricken down and expired immediately. Heart failure was the cause of death. The young man, who was between 25 and 30 years of age, appeared to be in his usual health up to the time he was stricken.

Was Weak and Nervous.

Heart Would Stop Beating.

Mr. Paul Poull, Caseapedia, Que., writes:—"About five years ago I gave up all hope of getting better of heart trouble. I would nearly choke, and then my heart would stop beating. I could not lie on my left side, and became so nervous and weak I could not work. A friend told me to try Milburn's Heart and Nerve Pills, and before the first box was taken I was almost well, and the second box completed the cure. I have advised many others to try them, and they have all been cured of the same trouble. I have offered to pay for a box for anybody they do not cure."

Milburn's Heart and Nerve Pills are a specific for all diseases or disorders arising from the heart or nerve system. They make the weak heart strong and the shaky nerves firm by imparting a strengthening and restorative influence to every organ, and tissue of the body and curing palpitation of the heart, dizziness, sleeplessness, anæmia, twitching of the muscles, sensation of "pins and needles," general debility, lack of vitality, etc.

CAR-CHECKER FACES EMBEZZLEMENT CHARGE

Sarnia Man Arrested by Grand Trunk on a Serious Accusation.

[Special to The Advertiser.]

Sarnia, April 12. — William Alexander, a car checker of the Grand Trunk Railway, was arrested here last night charged with embezzling the sum of two hundred dollars from the company. The arrest was made by Police Chief Crawford, following an investigation made by Grand Trunk Detective Bay, of Toronto.

Alexander was bailed in $600 and he will appear in court this morning to answer to the charge. Auditors are now at work on the books of the company.

NO DISALLOWANCE OF POWER LEGISLATION

Federal Government Considers It Affecting the Province of Ontario Only.

Ottawa, April 11. — The Federal Government decided today not to disallow the hydro-electric power legislation passed by the Ontario Government last year. The matter has been under consideration since an application was made last summer for a disallowance of the act by representatives of the private power companies at Niagara, and of private individuals in Western Ontario who objected to the conditions under which the hydro-electric commission was allowed to run power lines through their lands.

The chief objections taken to the act were in brief that it was an unconstitutional infringement of vested rights, in which millions of dollars of private funds had been invested on the understanding that there would be no competition from the Government owned and operated power lines; that injury was thereby done to the credit of the whole Dominion as a field for investment in similar projects by foreign capitalists, who would henceforth hesitate to invest money in Canadian undertakings through fear of subsequent Government competition, and that the conditions imposed with regard to the usurpation of private rights were generally arbitrary and unconstitutional, especially in view of the fact that the right of appeal to the courts had not been granted.

A copy of the act was received by the state department here on April 20 last and under the provisions of the British North America act the Federal Government had a year from that date in which to disallow it.

In recommending that the act be not disallowed, the Minister of Justice took practically the same ground as was taken in the case of the Cobalt Lake legislation of the Ontario Government two years ago. It is pointed out that whatever may be the view as to the wisdom or unwisdom of the legislation, the question is one affecting primarily the Province alone, and is one which the voters of the Province should be left to decide for themselves. It is further stated that there does not seem to be any valid case made out showing that the legislation complained of has per se injuriously affected the credit of the Dominion as a field for foreign investment. Any complaint in this respect would more properly lie against the Provincial Government's power scheme as a whole in respect to its competition with private enterprises already established.

BARONESS ROQUES DEAD

Mother of Mrs. Maybrick Dies in Poverty at the French Capital.

New York., April 12. — A cable dispatch received here today states that Baroness De Roques, mother of Mrs. Maybrick, who spent many years in a British prison under a life sentence, died in Paris a few days ago in the utmost poverty, and was buried at the expense of non-relatives.

United States Consul-General Mason, at Paris, has been endeavoring to communicate with Mrs. Maybrick, supposing her to be in America, but has not yet received any response.

A certain degree of secrecy has been maintained regarding the death of the baroness. Some Americans in Paris knew of her presence there.

TONG ON WARPATH

Boston, April 12. — To prevent a recurrence of the Chinese Tong war of Aug. 1, 1907, when four Chinamen were killed a large squad of police inspectors and plain-clothes men invaded Boston's Chinatown today and others were stationed at the railroad terminal for the coming of thirty-five Chinamen who are said to have left New York yesterday. The Chinamen, who are all members of one of the Tongs, left New York for an unknown destination today. Boston was warned to be on the lookout for them.

A BAD BLAZE AT TILLSONBURG

Business Building Destroyed in Early Morning Conflagration.

LOSS WILL BE $10.000

Fire of Mysterious Origin Wiped Out Several Retail Shops and Agencies.

[Special to The Advertiser.]

Tillsonburg, April 12. — The large two-story frame building owned by E. J. House and occupied by several shops and implement agencies, was almost completely destroyed by fire, which broke out shortly after midnight this morning. The loss will be in the vicinity of $10,000, pretty well covered by insurance.

The origin of the blaze is a mystery, but it is thought to have started in the back portion of the building. The building is a two-story frame one, the upper portion being used for a dwelling and the lower for mercantile purposes. The upper part has not been occupied for some time. On the ground floor were W. C. Burns, butcher shop, and George Bentley, bicycles, in the front, while the back was taken up by Frank McDonald and William Lillie, implement agents.

The flames had made great headway before the fire department was notified, and it was impossible to do more than prevent the conflagration from spreading. It is understood that the ruins will be razed and a fine new brick building erected in its place.

SHORT OF FOOD IN FROZEN WILDS

Member of Geological Survey Describes Privations of the Arctic.

Ottawa, April 12.—"For five months we had to live on 100 pounds of flour, 40 pounds of hard bread, 60 pounds of tea, 4 pounds of salt and 18 pounds of tobacco. This was the result of our having struck a bad game country."

Mr. R. W. Brock, of the geological survey, received the above letter this morning from Mr. V. Stefansson and Dr. Anderson, who have been on a scientific expedition into the Arctic regions for nearly two years. The expedition is being conducted under the united auspices of the Geological Survey and the American Museum of Natural History.

The letter that Mr. Brock received this morning was given to the captain of a steam whaler near Cape Bathurst, in the Arctic regions, last August, and only arrived in civilization after a journey of more than nine months.

The letter goes on to say that the 100 pounds of flour was all consumed in the first five days after the party, which consisted of five men, arrived in the barren and gameless waste of Victoria Land. Mr. Stefansson continues the narrative by describing the privations they had to endure, with little else than tobacco, salt and hard bread to live on.

"Finally, however," he concludes, "we came out safe, with our ten dogs fat and well."

Mr. Stefansson, who comes from Manitoba, will remain in the far north through the coming summer and the winter of 1910 and 1911. He will winter with the Eskimos, whose mode of living he is studying at the Coppermine. He will return in the autumn of 1911. Dr. Anderson, who is an American, will return this summer.

MINERS' CONVENTION

No Action as to Strike Until After Joint Conference.

Pittsburg, April 12.—The annual convention of district five, United Mine Workers of America, is in session here today. Announcement will be made of the vote for district officers, but action on the present strike in the Pittsburg district hardly will be taken until after the adjournment of the joint conference between the miners and operators, which is set for Wednesday.

Another effort will be made by the district union officials and the operators in Western Pennsylvania to reach an agreement on the wage question for the next two years at the meeting tomorrow. Some compromise may be reached on the powder question, but any action taken at wage conference will be placed before the miners' convention for ratification.

JAMES MORROW'S SUDDEN DEATH

Early on Sunday, the 10th inst., Mr. James Morrow, an old and highly esteemed resident of Oxford County, pased away at his home, 15 Sydenham street, Woodstock. On Saturday he was apparently in his usual good health, and did not complain of being at all unwell. During the early hours of Sunday morning, however, he was taken suddenly ill, and before medical aid could be summoned he had passed away. The late Mr. Morrow was born in London Township seventy-two years ago. Twenty-eight years ago he moved to the third concession of Blandford, where he resided until three years ago when he went to Woodstock. He was a faithful attendant at the College Avenue Methodist Church. Besides a loving wife, one daughter, Miss Hattie Morrow, of Toronto, and two sons, Percy, of Chester, Mass., and Chauncey, of Francis, Sask., are left to mourn his loss. The funeral will take place this afternoon to the Methodist Cemetery. Rev. G. W. Barker will conduct the service.

AUXILIARY OPENS IN ST. PAUL'S

His Lordship Bishop Williams Delivered an Impressive Sermon.

PROGRAMME FOR WEEK

Interesting Subjects Will Be Taken Up —Delegates Present From All Parts of Diocese.

The sessions of the twenty-third annual meeting of the Huron Diocesan branch of the Woman's Auxiliary continued this morning, opening in St. Paul's Cathedral at 11 o'clock with holy communion and a sermon by the Lord Bishop of Huron, Bishop Williams.

The convention opened last night with a meeting of the educational committee at Bishopstowe.

The church was comfortably filled with delegates from all over Western Ontario. Keen interest and enthusiasm is being shown, and everything points to a most successful convention. A most comprehensive programme has been prepared, and the meetings will continue until Thursday evening.

Bishop's Sermon.

Bishop Williams this morning preached on the parable of the Pharisee and the Publican. It was a strong portrayal of the story, and the application was made most personal. The Pharisee and the Publican represented the opposite poles of Jewish society —the Pharisee all that was good, and the Publican all that was bad. It was a case of true religion against idolatry, good life against immorality.

Some of the outstanding features of Bishop Williams' sermon were:

"Too often people are like the nine lepers that return and do not give thanks to God for all the blessings they have received."

"We would do well if we gave good heed to these moral virtues which are conspicuous in the Pharisee."

"We might, with profit, follow the example of the Pharisee and do a little more fasting, and we would do well to follow him rather than condemn him in giving tithes of all he possessed."

Thought of Self.

"But it was for none of these qualities that he was condemned, but for the one central feature of the Pharisee's religion and thoughts, that of 'self.' Religion implies a certain relation of dependence between the creature and God, but the Pharisee felt no such relation. His all-absorbing thought was self."

"If we are to think of other men's faults, no good will come, unless we think of them in the spirit of helping them, and praying for them, otherwise it is simply pride, presumption and folly in comparing ourselves with others."

"A good work which is done should not be mentioned. A good work from another to yourself ceases to become a pleasure if the one that performs it takes pride in it, and boasts of it."

"Although the Pharisees have long since passed away, Pharisaism still survives; it wears Christian garments, uses Christian words, is found in Christian temples, and it is the best Christians it seeks to assail, and it is in our best things that we are most liable to come under the dominance of that spirit."

Bishop Williams' peroration was an arraignment of the spirit of self-righteousness.

"As we look at others who do not take part in church work to any great extent, there is no greater temptation which can assail us than this spirit of self-righteousness. There is no greater temptation which the clergy have to contend with.

The Prevention.

"One thing and one thing only will prevent us from assuming this self-righteous attitude, and that is clinging to the vision of God. If you must compare yourself, don't compare yourself with any brother man or sister, but with Jesus Christ, and when you do this there will be no room for boasts or self-righteousness."

The sessions are being continued this afternoon with a meeting of the board of management.

A NEW BIRTH NECESSARY

Continued From Page One.

of changed conditions and the necessity of changed policies — that this new guard shall not be relegated to the rear by the fiction that seniority alone should count and that brains and talent and purpose and resourcefulness must wait upon old age—must bow to submission to the old order of things.

Hell or Well.

"To be sure we are glibly told by the Toronto Mail and Empire that all is well with the party, while on the other hand we are as glibly told by the Toronto News in one or other of its numerous fits of political insanity, that all is hell with the party. The truth is, all is not well with the party, nor is all hell with the party. The further truth is—and the Standard though it dislikes to say it, nevertheless feels for the sake of the party that it should be said—neither the Mail and Empire nor the Toronto World today can speak or in respect is speaking officially for the Conservative party.

No Official Organ.

"As things stand today there is no so-called official organ, as we can see it, in the Conservative party, and perhaps it is well under the circumstances that it is so. Indeed we question if it may not be better to continue so, to the end that all the Conservative newspapers, instead of as in the old days, following the so-called party organs, shall speak out their own minds and of their own knowledge. The Mail as things stand now is rather the representative of the old-time Conservatism —the Conservatism, that is, that abides rather than progresses—than of the party of today or the party ideas.

"So far as the Toronto News is concerned—and the Standard when it is speaking of the Mail and of the News is speaking, be it understood, not officially for any of the party, but rather voicing what the party itself unofficially says—and by that we mean the Conservatives at Ottawa whatever their rank—the policy of the News today in its anti-French campaign and in its stirring up of racial prejudices, is a policy which practically to a man the Conservatves at Ottawa will tell you has been a damnable policy."

RUNAWAY HORSES

then plunged madly around the prostrate man.

Fire Chief Aitken, Ald. Tancock and others, who happened to be near, rushed in, and, at considerable risk to themselves, pulled Vandermade from under the rig.

He was carried into Tancock's blacksmith shop, and several doctors were called. Dr. William Partridge happened to be passing, and attended to the man's injuries.

Badly Injured.

At first it was thought he was dead. Blood was pouring from a deep gash at the base of the skull, and another cut and large bruise over his left eye looked like a dangerous wound. However, after twenty minutes' work, he was restored to consciousness.

Dr. Partridge made a hasty examination of the injured man. It was found that his hips were bruised from blows from the horses' hoofs.

The flow of blood from his head was stopped, and it was discovered that the wound, while jagged and long, was not deep. The left eye was closed completely.

In the meantime, a number of farmers grabbed the frightened horses and untangled the mixup.

Wagon Smashed.

Vandermade's wagon was smashed to pieces. His horse was bruised somewhat, but not seriously. The Traction Company's horses were cut considerably also, but it is not thought they are badly hurt. The driver was in the warehouse when his team bolted. One of the animals is a fine colt, and has been in the service but a short time.

"How the man ever came out alive from under the horses' hoofs beats me," said Fire Chief Aitken. "There seemed to be hoofs flying all about him, and one horse must have struck him half a dozen times. The blows on the head were glancing blows, or they certainly would have killed him."

A Miraculous Escape.

"We got him out as quickly as possible, but it seemed as if he would be battered to pieces by the horses," said Ald. Tancock. "It was really a miraculous escape."

Vandermade was removed to his home. Dr. Partridge stated that he would recover unless complications set in.

On his removal to his residence, Dr. Teasdall, the family physician, was called, and took charge of the case. His examination discovered the injuries referred to.

"He is badly bruised and is suffering considerable pain, but I look for him to recover," said Dr. Teasdall. "I found no trace of internal injuries, and do not anticipate any trouble from that source. From what I have learned it is really wonderful that he was not instantly killed."

Mr. Vandermade was down town making arrangements for the funeral of his sister, Mrs. Thomas, when he met with the accident. She died last evening at 19 Becher street.

His pipe was found in the wreckage after the accident, with the stem broken off. He was smoking when the team struck him.

'QUAKES RECORDED.

Lawrence, Kansas, April 12.—Two earthquake shocks were recorded last night by the seismograph of the Kansas University. The first began at 6:40 p.m., and reached its full force at 6:47. The second shock began at 9:02 p.m., and lasted five minutes.

The source of the disturbance was between 1,500 and 1,600 miles southwest.

Wholesale Price Was $8.50 to $10 Per Hundred.

HAY STILL UNCHANGED

Oats Sold at From $1 20 to $1 25 Per Cwt.—Straw Was a Drug on the Market.

Very little change was noticeable in market prices this morning.

Dressed beef was up just a trifle, and is reported very scarce. The wholesale butchers were selling at $8.50 to $10 per cwt. Prices on other meats were practically unchanged, dressed hogs still selling at $12.25. Several farmers asked $12.50, but they did not get it.

About sixteen loads of hay were offered at unchanged prices. From $10 to $12 is still the prevailing figure.

Several loads of oats were brought in and sold at $1 20 to $1 25, while one especially good load brought the fancy figure of $1 28.

There were about five loads of straw offered, but they did not seem to sell very well, and up until late in the forenoon not a load had been sold. The ruling price was from $7 to $8 a ton.

Small quantities of garden produce found ready buyers. Rhubarb sold at 50 cents a dozen and green onions from 20 to 25 cents.

GOVT. TO CONTROL TRUSTS, COMBINES

Second Reading of Bill to Provide Investigation Moved.

PRESENT COST OF LIVING

Object of Measure Is To Place Some Restraint on Large Aggregations of Capital.

[Special to The Advertiser.]

Ottawa, April 12. — In the House of Commons today Mr. Allard, the new member for Ottawa, was introduced by Sir Wilfrid Laurier and H. S. McGiverin, and took his seat.

Hon. Mr. Mackenzie King moved the second reading of a bill providing for the investigaton of combines, monopolies, trusts and mergers. In doing so he called attention to the increased cost of living, and cited figures prepared by the department of labor showing the extent of increases since 1896. It was the question of the cost of living, he said, that had helped to make the question of combines, monopolies and trusts, with their possible effects upon prices, such an important question.

Trusts and Prices.

In the popular mind there had been a gradual association between these two phenomena, but his view was that while combines and trusts in some cases might have had the effect of enhancing prices, they had not always had that effect. No attempt was being made in the bill to legislate upon mergers and trusts as such. The whole intention of the bill was to place some form of restraint upon those large aggregations of capital, so that advantages which might come from large combinations of wealth might in some part be conserved to the public who had helped to make possible these large combinations. Statistical tables prepared by the labor department had increased from 30 to 40 per cent in most of the commodities, in the nature of the products of the farm. Manufacturing articles had not increased to the same extent, but there had been a very perceptible uplift during the past ten years over what was the average rate between 1890 and 1900.

Prices were at their lowest ebb in 1896-7. In some cases prices had increased 70 to 80 per cent. Thirteen commodities had risen 50 per cent, compared with prices from 1890 to 1900, and 76 per cent compared with 1896. In animals and meats, fourteen different commodities there had been an increase of 48.6 per cent over ruling prices during the decade, 1890 to 1900, and of 80 per cent compared with figures of 1896. Taking five groups of commodities classed under the head of dairy products, there had been an increase of 33.6 per cent over previous decade, and of 48 per cent compared with 1896. Nine classes of fish grouped together showed an increase of 34 per cent, respectively, implements 2.4 and of 31 per cent compared with 1896. Thirty-seven other foods showed an increase of 7.6 over prices of previous decade, and 33 per cent over those of 1896. Hides, tallow, leather, boots and shoes had increased 35.4 and, 45 per cent, respectivel, implements 2.4 per cent and 4 per cent, building materials 54.6 per cent and 60 per cent, housefurnishings 10.4 per cent and 11 per cent, liquors and tobacco 17.5 and 20 per cent. Taking an average of 173 commodities there appeared to have been an increase over the prices for decade 1890-1900 of 26 per cent, and as compared with 1896 an increase of 40 per cent. In certain classes of commodities increase had been much higher than average, and ranged anywhere from 30 to 50 per cent.

These figures, said Mr. King, were borne out by investigations in other countries. In Great Britain, United States and Canada, prices had followed a similar trend, but the rise had been greater in the United States than in Canada, and more considerable in Canada than in Great Britain. Figures generally indicated that the cost of living during the past decade had increased from 30 to 40 per cent. Simultaneously with the rise in prices had gone on the organization of capital on a large scale, and the minister of labor cited statistics showing the growth of trusts and mergers in the United States. Since 1909 there had been a marked growth of mergers and combines in Canada, and necessity of some measure of Government control was necessary.

EXCELLENT CONCERT IN KNOX CHURCH

Miss Alexander and Other Artists Delighted Large Audience.

An excellent entertainment was given last night in Knox Church, in connection with the anniversary, in which Miss Jessie Alexander, reader, of Toronto; Miss MacDonald, contralto, and the choir took part.

The readings of Miss Alexander were most delightful, and she was compelled to respond to many encores. Miss MacDonald sang well, and was quite popular. The choir did excellent work. The solo work in connection with the anthems was taken by Miss M. M. Kemp and Miss Martin, and both did well. Miss Edna Weston gave several numbers, and the mixed quartette, composed of Misses Weston and Kemp and Messrs. Walker and J. Irwin, sang pleasingly.

After the programme, the choir and those taking part were entertained at lunch by the Bible Class.

DENBY WOULD RUSH RECIPROCITY TREATY

Detroit, April 12.—A Washington dispatch says:

Representative Edwin Denby, of Detroit, is working with Representative Butler Ames, of Massachusetts, in the effort to have Congress enact a reciprocity treaty with Canada during the present session. Mr. Denby says: "I believe that a reciprocity treaty with Canada would settle the question of a trade war between the two countries for good, and for all. President Taft has done his part in adjusting the difficulty, and it now rests with the members of Congress to perform their duty and negotiate a treaty that will be satisfactory to all parties concerned. The foreign affairs committee will hold a meeting today (Tuesday), when the question of a reciprocity treaty with Canada will come up for consideration.

It is believed the concensus of opinion among the members favors such negotiations. Mr. Denby, being a member of this committee, will do all in his power to secure favorable action.

MAY BE $5,000 FROM THE SHOW!

All the Booths Made Money by the Barrel at the Armories.

BOOTH RAKED IN $1,800

Another One Received $1,300—Receipts Are Far in Excess of the Expectations.

The receipts from the "Made-in-London" exhibition will run between $4,000 and $5,000, it is expected.

The spring booth will have a net surplus of $1,800, while the orange booth will show a net gain of $1,300. The paid admissions will yield a revenue of $1,300.

This is a total of $4,400, with many booths to hear from. Of course, there is considerable expense in connection with the affair, and if the committee in charge make the receipts from the other booths pay the expenses, the profits will be considerable.

SAD PLIGHT OF CONSUMPTIVE PATIENT

Physician Says the Incurables Should Have the Benefit of Fresh Air Treatment.

A London woman, who is at present in Gravenhurst suffering from incurable tuberculosis, has written Dr. John D. Wilson asking to be brought to this city.

She is without funds, and it will be impossible to maintain her in the north country for any length of time longer.

Dr. Wilson applied for her admission to the new sanatorium erected by the London Health Association, but was informed that incurable cases would not be taken.

"At Victoria Hospital, the incurable patients are confined to one ward, with no possible chance for moving about or obtaining fresh air," said Dr. Wilson. "Arrangements should be made whereby a cottage should be set apart down the river for just such cases. They could get plenty of fresh air there, and would be well provided for. This should be done. Lives could be prolonged for years."

A number of citizens are interesting themselves in the case.

Ladies Give Thanks.

Mrs. J. W. Scandrett and the ladies of the orange booth committee of the "Made-in-London" Exhibition, desire to thank all those who so kindly assisted them in any manner whatever. The great success of this feature was largely due, they say, to the kindness and assistance of their friends.

Mr. W. A. Chivers, Belmont, writes: "I noticed in Saturday's Advertiser an egg record from a South Londoner for March. He has ten pullets and five old hens, Brown Leghorns, which laid 263 eggs. I have ten pullets and five old hens, Black Orpingtons, which laid during March, 272 eggs. I set one of the same hens on March 22."

Messrs. W. Robson, of York street, and Frank Gibson, of Ottaway avenue, had a great day's fishing at Byron recently, and among their trophies was and eight and a half-pound pike captured by Mr. Gibson. Mr. Robson was successful in landing a razor-back pike, a fish very uncommon in this vicinity.

Monteith—Scott.

On Wednesday, April 6, at 4 p.m., a quiet but very pretty wedding took place at the home of Mr. and Mrs. Hugh Scott, Lambeth, when their daughter, Helen Sophia, was united in marriage to Mr. Henry Tyler Monteith, a prosperous young farmer of the Gore of Westminster. Only the immediate relatives of the contracting parties were present to witness the ceremony, which was performed by Rev. A. C. Tiffin, of Lambeth. The wedding presents were expensive, among them being a handsome gold watch and chain, the gift of the groom to the bride. The supper was excellent and was very daintily served. The best wishes of a large circle of friends go out to the happy couple as they assume their new relationship of life.

An Artistic Concert.

The annual concert of New St. James' Presbyterian Church choir took place last night and was well attended. The sacred cantata, "Ruth" was rendered by the choir in a manner creditable to themselves and to their leader, Mr. J. Lamont Galbraith. The cantata was preceded by an excellent miscellaneous programme given by the following well known artists: Mrs. Edward Wyatt, Miss Alma Grigg and Messrs. W. A. McCutcheon, Douglas Featherstone and W. J. Lawrence, of Toronto. The solos in the cantata were sung most acceptably by Misses Clara Decker, Elsie McCrimmon, A. McKenzie and Mr. Cal. Hodgins.

See the Comet ?

A large number of citizens are rising unusually early in the morning to view Halley's comet, which just before sunrise is to be seen in the eastern sky, low down. The appearance of the comet varies greatly as a result of atmospheric conditions. Yesterday morning it appeared small and bright. On Sunday morning it looked much larger and had a reddish appearance.

LADIES OF LONDON FORM CANADIAN CLUB

Largely Attended and Enthusiastic Gathering Decides Upon New Association for City.

A meeting was held at the Public Library building yesterday afternoon for the purpose of organizing a London Women's Club. The meeting was well attended and much interest and enthusiasm was exhibited.

Mrs. A. T. Edwards called the meeting to order, and Mrs. Yates was elected to take charge. Miss Kate McIntosh was elected secretary pro tem.

After a few remarks regarding the purpose of calling such a meeting, Miss Isabelle Armstrong gave a stirring address on her visit to the west last summer, and the different Canadian clubs she had attended, instilling enthusiasml in the hearts of the London ladies.

A lively discussion followed as to the object of the club, and it was unanimously decided that it should be educational, loyal to Canada and uplifting. It was unanimously decided that such a club should be formed, and everyone present expressed an intention of joining together with a number who were not privileged to be present.

A nominating committee was formed of the following ladies: Mrs. Donald McLean, Mrs. A. T. Edwards, Mrs. Bapty, Mrs. (Rev.) Waller, Mrs. Arthur White, Mrs. Ross and Misses Campbell and Holmes.

The meeting for the election of officers takes place on Friday, April 22, above the free library.

UNIVERSITY MAY GO TO OTTAWAY AVENUE

It Is Said Block Between Waterloo and Wellington Is Being Considered for Western.

The proposition of the board of governors of the Western University to select a new site for the university is attracting not a little attention.

Some time ago it was suggested that the university be situated on Ottaway avenue west of Waterloo street.

The block between Waterloo and Wellington streets was thought to be an ideal spot for the university, as there was plenty of room there, and it was a specially good location owing to its proximity to the hospital.

The Medical School authorities at the time were greatly taken up with the idea, and went so far as to bond property close at hand for the erection of their school building, it is said.

Reasonable Price.

There were no large buildings to be torn down on the block, and it was figured that the property could be purchased at a reasonable figure.

However, nothing came of the proposition, and the options on certain properties were allowed to lapse.

Now that the matter has again come up the attention of some of the governors has been called to this property.

Some of the members of the board were spoken to today, but they had nothing to add to what has already been mentioned.

The question of sites will be thoroughly gone into and a report made very shortly.

ANGLICAN CHURCH VESTRY MEETINGS

The Adjourned Sessions Were Brought to a Conclusion Last Night.

REPORTS SATISFACTORY

Progress and Stability Are Shown All Along the Line—The Statements Presented.

The adjourned vestry meetings of all the Anglican churches of the city were held last night, and the financial statements, which were not completed when the first meetings were held were presented, and were found to be most encouraging.

St. Paul's Cathedral.

There was a large attendance at St. Paul's vestry meeting, held in Cronyn Hall, and the reports received indicate steady progress. The total receipts during the year just past amounted to $12,505 68, while the total expenditures were $12,166 94, leaving a balance on hand in the bank of $338 74. It was reported that during the year the mortgage on the church was reduced by $1,000.

The money received from the Sunday school totalled $573 22, with total disbursements of $470 83, leaving a balance on hand of $102 39.

The report of the board of missions presented by S. W. Raymond showed that since last Easter $677 06 had been handed over to the synod treasurer. Of this amount $43 was given towards Jewish missions, $30 to Huron College, leaving only $614 06 with which to meet liabilities amounting to $803 20.

The report of the Church Workers' Association presented by Miss Colerick, showed that after meeting all expenditures, amounting to $106 92, there still remains a balance in the treasury of $56 31.

The allotment to the parish for the M. S. C. C. was $903 60, and it was reported that it had been fully paid.

Memorial Church.

The financial report presented at the vestry meeting in the Memorial Church by the treasurer, Dr. A. E. Santo, showed that the church receipts totalled $5,653 94, and the disbursements $5,570 30, leaving a balance on hand of $83 64. The missionary and other offerings added to the church receipts make a total of $8,028 63.

Major Hume Cronyn, who at the last meeting was elected representative to the synod, resigned, and Mr. A. F. Nash was appointed in his place.

Christ Church.

The church wardens' report presented at the adjourned vestry meeting in Christ Church showed total receipts of $3,881 04, with an expenditure of $3,725 04, leaving a balance in the bank of $156. The report showed the following receipts and balances; Church organ fund, $682 32, balance $18 07; mission fund, $447 35, balance $34 83; Sunday school $213 78, balance $78 38; special account $327 34 balance $89 76; Sunday school library balance $10 98; Women's Guild balance from last year $370 91, making this year's receipts $567 29, balance $58 79; Woman's Auxiliary $19 38, balance $3 38; King's Daughters $78 61, balance $15 79.

There was an informal discussion on the advisability of having a surpliced choir, and a number of those who spoke favored the idea strongly. Before the meeting concluded hearty votes of thanks were passed to the various church organizations for the efficient work they have done, and also to the rector, Rev. R. S. W. Howard, and his wife.

St. John the Evangelist.

At the vestry meeting in the Church of St. John the Evangelist, the pastor, Rev. W. T. T. Hill was called forward and on behalf of the congregation Mr. O. Ellwood presented him with a handsome check, and spoke of the appreciation the members of the church feel of his services. Rev. Mr. Hill replied suitably. The financial statement was presented at the former meeting, and the auditors, Ross Clark and Claude Browne, complimented the wardens on its accuracy and the fine showing made.

St. George's Church.

It was reported that the duplex envelope system is working most satisfactorily.

BIG RUBBER DEAL

Detroit Concern Gives Option to English Company For $3,750,000.

Detroit, Mich., April 12. — Control of the Mexican Crude Rubber Company, a company formed in 1906 by prominent Detroit men, soon will pass into the hands of an English syndicate, if a deal now in progress is completed, as those interested have every reason to believe will be the case. An option has been given and representatives of the English company now are here to examine the situation at close range.

Totaly capitalization of the Mexican Crude Rubber Company is $1,500,000 shares, being par value at $10. The option is for the sale of the shares at $25 each, or a total of $3,750,000 to holders of the company's stock.

General Manager Walter E. Parker, of the rubber company, has returned from England, where he went as the representative of a majority of the stockholders. He brought the information that an opportunity had presented itself for selling control of the stock, and he recommended that such a course be taken. At the same time the representatives of the English syndicate arrived in the city.

WASN'T DRUNK AND HE WASN'T SOBER

But Angus McFie, of Caradoc, Could Not Find the Depot.

"I wasn't drunk, and I wasn't sober, but I couldn't find the station, do what I would," Angus McFie, of Caradoc, told Magistrate Love at the police court this morning, when he was arrested for being drunk.

The court thought McFie must have been drunk, and, as he has been up on several other occasions, imposed a fine of $5.

McFie wanted to go right home and get the money, but the court thought 10 days' rest would do him good, and he was remanded to jail.

George Roberts, found guilty of not taking out a building permit when he should have, was fined $2.

Fred Black, a drunk, was fined $2, and William Brennan, for the same offence, was remanded for a week.

HARMONY WAS THE KEYNOTE

St. James' Vestry Meeting Last Night Proved a Quiet and Profitable One.

NOT A HARSH WORD SAID

Dean Davis and His Congregation Are Again Working Smoothly on the Straight and Narrow Path.

Harmony was the keynote of last night's adjourned vestry meeting of St. James' Church. Although trouble was expected as a continuation of the meeting of two weeks ago not a harsh word was spoken, and the meeting passed off smoothly without a ruffle.

About fifty members of the congregation were present.

The meeting was opened with prayer by the dean, who presided, following which he exploded somewhat of a bomb by producing a letter from Bishop Williams, dated April 9, requesting that reporters be excluded from the meeting. It ran in part:

Letter From the Bishop.

"My Dear Dean Davis—Knowing that you are to hold your adjourned vestry meeting on Monday evening, I would suggest that you have reporters excluded from it. The proceedings of the vestry are not of interest to the general public of London or Western Ontario, and the newspapers always see the ugliest side of things—David Huron."

At the request of the dean, representatives of the press then withdrew.

The report of the auditors, Messrs. Arthur White and Frank Lawson, was then presented. This showed the finances of the church to be in a healthy condition, the deficit being on account of unlooked for expenditure in repairs on the church and rectory. As the deficit had been voluntarily subscribed at the previous meeting, the new year is commenced with good prospects. The report was received and adopted.

Reports Received.

The report of the finance committee was then presented.

It showed that the committee had worked very faithfully.

They recommended, on what they thought was the popular sentiment of the parishioners, that a competent assistant be procured for the dean.

It was recommended that the rector's salary be allowed to remain at $1,800, as at present, but in a subsequent clause it was recommended that "if the increases to church revenue do not then justify them in employing an assistant, the salary of the dean be fixed at $1,600 per annum, together with a free house, and that the balance of estimated expenditures be arranged for in the form of a guarantee by those who may volunteer such guarantee."

A Previous Offer.

It should be stated that at the previous meeting, and at times previous to that occasion, the dean had suggested that his salary be reduced even to the extent of $300 per annum, in order that an assistant might be secured for the church.

The motion was seconded by George F. Emerson, and carried unanimously.

The recommendation that Organist Percy's salary be increased to $600 was concurred in, and a high compliment paid to the ability displayed in bringing the music up to its present standard. The sexton will receive an increase of $25 per annum.

The next matter was the selection of wardens. It was moved by Mr. J. C. Judd, and seconded by Mr. F. Lawson, that the rector be requested to appoint both wardens, and he immediately reappointed Messrs. John Weld and John Dillon.

In connection with the appointment of sidesmen, Mr. Webb moved that conveners for the east, west and centre aisles only be elected, and that they might select their own assistants. His opinion was that it was wise to make changes of this nature, as one of the great sources of trouble in the Episcopal Church was in the retention of its officers for too long a period. Mr. May seconded the motion, which was carried, and the conveners, J. H. Black, A. O. Hunt and Bert Thompson, were elected.

Select Vestry.

The following were appointed members of the select vestry: G. P. Collyer, G. Winslow, J. A. Thomas, W. Peacock, W. B. Richardson, J. F. May, J. C. Judd, Arthur White, G. M. Nugent, E. J. Dawson, G. F. Emerson and Albert White.

Messrs. Arthur White and Frank Lawson were re-elected auditors.

It was decided to hold a meeting of the select vestry the first Monday in each month.

Votes of thanks were tendered the rector, the choir, the auditors, and the churchwardens, and a unanimous standing vote of sympathy was ordered to be tendered J. A. Thomas on the occasion of the death of his wife.

One Sunday was set aside to take up a collection for the Sunday school, and any sum short of $30 will be made up by the churchwardens.

Bible Class Meeting.

The Monday Evening Bible Class in connection with the Y. M. C. A. held their closing meeting for the season last night, and a large number were present. At the conclusion of the usual supper held previous to the class gathering the president, Mr. F. B. Gidley, took the opportunity of expressing to the popular leader, Mr. C. E. German, the appreciation and thanks of the members for his valuable services, and presented him with a large group photo of the 33 members of the organization. Mr. Robert Gray and Mr. Ed. Parker followed with short speeches, and the class disbanded for the present season.

REDEMPTION OF SCROOGE

Professor Duxbury's Recital in First Methodist Church Won Approval.

Prof. John Duxbury, of Manchester, thoroughly delighted a large audience in the First Methodist Church last night by a dramatic recital, entitled "The Redemption of Scrooge," the famous character in Dickens' "Christmas Carol." The recital was so well received that even at the end of an hour and a half Prof. Duxbury was accorded enthusiastic encores.

Upon being recalled he gave Edgar Allan Poe's "The Bells," a sketch entitled "Farmer Grain," a recitation on "Jack Horner," and, in conclusion a humorous skit of his own, entitled, "A Waiter for One Night Only." The last was one of the best of the evening, and the audience repeatedly demanded more, but owing to the lateness of the house Prof. Duxbury asked to be excused, and thanked them most cordially for their kind appreciation of his efforts.

During the evening a solo was rendered most acceptably by Miss May Mason, who was accompanied by Miss Edythe Cox. Dr. Eccles presided.
