Education Chairman Sees No. Reason Why Plans Should Not Be Kept.

WORD AWAITED

Vice-Chairman Cairncross Would Build Wings to Central High.

The three-hour debate on the collegiate problem at the special meeting of the board of education last Tuesday has not changed the opinion of Chairman S. F. Lawrason in the slightest with regard to the board's building plans.

"I see no reason why the board should not go ahead with its plans," declared Mr. Lawrason this morn-ing, "including the erection of an east collegiate unit and on the actual site of the Rectory street public

school."
The chairman added that owing to the absence of Dr. F. W. Merchant, director of education for the province, from the department offices at Toronto, no reply has as yet been received by the board to its communication in which the department was informed of the action of the Western Fair board in permitting the board to use a portion of the exhibition grounds for playground purposes.

Dr. MacGregor's subject, "The New Outlook," is significant in view of the consummation of church union next month.

Vice-Chairman A. R. Cairncross intends to give notice of motion at the regular June meeting of the board to rescind its previous motions in connection with the east collegiate to have two pines.

In connection with the east collegiate scheme and move to have two nineroom wings added to the central unit to accommodate the students now attending the central and east units.

Mr. Cairneross does not purpose doing any lobbying amongst the members of the board prior to the regular meeting. It is quite possible that the col-

HENRY POCOCK HEADS LAITY IN METHODIST CONFERENCE

Londoner Succeeds I. Waterworth of Wardsville As President.

SUPPORT UNION

Fusion By District Lay Workers.

Henry Pocock, of this city, was elected president of the lay association of the London Methodist conference at the opening session held yesterday afternoon in the King Street Presbyterian church.

The first meeting of the 47th conference goes down on record as the largest in the history of the Western Ontario body. The growth of the past year was attributed to the wide spread interest in church union, and the major discussions of the after noon revolve about that topic.

The decision to carry the lay as sociation in its entirety into th United Church of Canada was outstanding in Wednesday's business The move won unanimous approval and all speakers for the continuance of the present body saw in church union a richer field for the endeavors of the lay association.

Isaac Waterworth, of Wardsville the retiring president, was named honorary president, while the viceto L. W. Allison, of Essex, the en- Lo ergetic secretary of the past year, and urged him to take the post for the next term. New York, May 20.—For years women have been complaining because the fine serges for suits grew shiny. The newest fabric of this type does not grow shiny-it is shiny. For it is glycerined serge and the process gives it a sheen which is almost as pronounced as that imparted to the gold and silver lames. This material is frequently designed by French designers with kasha and georgette.

Fusilier, Sask.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything—could not even lie quietly in bed, and my head ached, too. I was this way about three years, but was worse after I was married. I was on a farm with not a house nearer than five miles and there was not a person to advise me, as my folks lived in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. Uncle Billy Is Full and Content After He Finds Mrs. Snapper's Eggs

Unc' Billy Possum actually was becoming excited. Yes, sir he was. It just popped into his funny head that the trail he was following through the grass not far from the Smiling Pool might, just might, lead to eggs. The trail had been left by Mrs. Snapper, the Snapping Turtle. Unc' Billy had started to follow it just out of idle curiosity to learn where Mrs. Snapper had been. He hadn't thought of eggs then. In fact, he and quite forgotten that Mrs. Snapper had quite forgotten that Mrs. Snapper. like other members of the Turtle family lays eggs. Then without warning it had popped into his head that Mrs. Snapper lays eggs and buries them in the earth. Could it be, could it possibly be, that that was what she had been doing and that this trail would lead to those eggs? Right away Unc' Billy began to hurry. In fact he hurried so that he lost the trail. You know it wasn't a very plain trail. You know, it wasn't a very plain trail. Then you should have seen Unc' Billy. The longer it took him to find the trail again the more excited he became, and of course the more excited he became the longer it took him to find that trail. Finally he went back find that trail. Finally he went back to the top of the bank where he had first found it and started over again.

This time he succeeded in keeping to the trail, and so at last he came to a Billy smacked his lips over the first the trail, and so at last he came to a been laid only a very little while. Unc'

There were queer little trees cut in strange shapes, with red roses looped over them. The paths were paved with wonderful tiles brought in the eighteenth century from Persia by a John Hidden, a great traveller. Also there was the pool designed and made by him, one of the last Hiddens who had reigned at the Ccurt It was longer than square, this pool, and at each end was a curious flowerbed, always kept precisely as it had been planned two centuries ago. These and at each end was a curious flowerbed, always kept precisely as it had

from the windows overlooking the
garden, the effect was extremely
beautiful; and the marvellous tiles
which lined the sides of the pool

Dagon looked out from his window

pale, mysterious glimmer.

Suddenly, as he gazed—scarcely

"Say. I hope I'm not going off my chump!" Dagon mumbled, half aloud. But he did not cease to stare at the pool. He stared very hard, and withpool. He stared very hard, and with-out winking. He was afraid that he

The members have decided something more than the something more than the spirit seen through the water proved that in order to let in light from above, and the pool had completed the plan. All this was easy enough to deduce now, Dagon thought. But—how account for the light of the signals? The water was deep and it would something more than the spirit at the same time herself. As for Mrs. Gillett, however, the detective could not help believing more or less in her sincerity. He took it that she honestly thought she had seen account for the light of the signals? FLINT COMES BACK

One Walk, Two Hits, One Error Defeat Baker

Special to The Advertiser.

Flint, May 20.—London lost a heart-breaking ball game to the Vehics today 8 to 7, after Cross had given the Baker crew a lead in the ninth by pounding a homer over the left field fence with three mates on the paths. Flint then stepped out and collected a brace of runs off Coogan before an out was made and grabbed the series.

Consecutive hitting carried the Vehics along in fine style, home runs by Orr with one on, Jahn and Trefry, and a brace of doubles by Orr and Dunn helping to pile up a 6 to 3 margin when the ninth opened. Vermilyea, who joined London during the day, opened by beating out a bunt. Coogan fanned. Baker forced Johnny, but Klein beat out a hit to third, and Orr's shot on Stimpson's choice was late to catch Klein. Then came Cross's homer and a new game was on the books.

Loepp's error on Sandquist. Kernan's single and a pair of infield outs gave London a run in the second. Kernan hit a homer over the left well in the seventh. That was the best the visitors could do until Busler weakened in the ninth.

They were lambs after all, tho' strong and tall, who caught far pastures' sheen, But came home with a bleat (having met a cheat), instead of the long green.

A PARALLEL.

It may seem rather a far-fetched parallel but Mike Baker's Tecs resemble Bucky Harris' world champions in a lot of ways as a ball team and Baker appears to bear a resemblance to the Senators' youthful manager in his characteristics, if not physically. It's a coincidence that the little London manager might have been teamed up with Harris had he not been spiked by the ruthless base-running of Ty Cobb when he joined the Senators three years ago.

Where the parallel lays in the teams is that Baker has plenty of youth, ambition and hustle on his ball club and good steady pitching in the background. That's about all Washington had last year when they upset the experts and came through with a rush on end.

The fact that every game lost until yesterday went by one-run margins indicates two things. First of all that the Tecs never let up and in the latter games against left-hand hurling, that their pitching and fighting defensive play could offset their own lack of hitting. Baker himself here last Saturday against Bay City showed that

he could transmit a fighting spirit to his team. Plenty of managers can get their teams all steamed up, but they are as likely to fight each other as they are anybody else. Baker seems to have the faculty of instilling fighting spirit and confidence along with it. Instead of losing their heads, they play "heads-up" ball.

. THE UBIQUITOUS STICKS.

Big league clubs travelling north from training camps complain of the diamonds in the sticks. Tecumseh Park made big leagues' teams who have appeared there in the past immediately think of accident policies. London teams sneaking out of the city for the odd game on Saturday come back with awful tales of awful diamonds, especially if

And the boys from the villages find the diamonds on the concessions and sideroads pretty poor affairs. And yet despite all the care taken of big league parks, a small pebble

had its due share in winning the world's series for Washington last

It seems there should be some lifting of cinders from the old optics all the way down and into the deepest and gloomiest of the sticks before alibis are plucked off the neighbors' diamonds. * * * *

THE POOR AMATEUR.

The life of an amateur athlete is not a bed of roses, as the boys would say. A pathetic story to demonstrate this comes from Boston, where, it seems, they treat their amateur athletes with little or no consideration. The amateur in question is a hockey player and has been forced to sue for salary earned as an amateur hockey player. In the suit the injured amateur says that all of the amateurs on his

team were to be paid salaries as high as \$2,200 for the season. The methods of payment was strictly amateurish. The money was to be left in a cigar tin at the box office of the place where the amateur hockey games were played. Every time this particular amateur hockey went to the cigar tin he found it as empty as Mother Hubbard's celebrated cupboard. Certainly, this is no way to treat an amateur athlete. No doubt

there are many amateur athletes with families dependent upon them. They might have aged parents or young children dependent upon them for support. That is neither here nor there. Even an orphaned and unmarried amateur athlete should not be deprived of his stipend, emolument, salary, or whatever it is that an amateur athlete is supposed to receive for his work.

It is a very distressing picture shown by this amateur hockey player in his suit. The earnest amateur worked hard at his hockey game. It is Saturday night, pay night for the hands. The amateur hockey player picks up his dinner pall and walks into the office. He approaches the cigar tin with joyful anticipation. Eagerly he opens it. Then the tears come to his eyes. It is empty. It is pay night for the rest of the hands, but for the down-trodden amateur hockey player it is merely Saturday night.

Bakermen All Set to Start in Making Up Lost Time Today.

VISITORS COLORFUL

Buck Boyle and Lefty Carmen, Old Friends, Back Again.

Mike Baker's men arrived in the city last night from Flint, rather glad to shake the dust of Southpaw Town off their feet, but determined to make up for lost time against Les Nunamaker's Saginaw Aces whom they bested in the opening action of the league season by a 2-1 count of

The series, which lasts until Sat-urday with the Aces, promises to be an interesting one. First of all Nuna-maker himself, the Ace leader, is but lately out of the big show, which he adorned as a Cleveland Indian for quite a spell. The big Ace leader is full of chatter and color.

The Aces are a gathering of old friends. Buck Boyle, former London first sacker, is on first. The excitable Irishman had a good year in 1924 and seems doomed to have an-other right on top of it. Johnny Carlin's high-pitched falsetto will again be heard from the vicinity of short field. Unfortunately, London seems to be a lucky place for Carlin.
In the old Hamilton days, Carlin
might have a batting slump everywhere else, but here he'd nit like a where else, but here here he had not a fool and make hair-raising plays that would smear rallies all over the lot. Dick Dodson, much traveled out-fielder of the Mint since it started, is with the Aces.

Lefty Carmen, who occupied a niche of his own here, is still with the Aces and will probably work one of the games here. That's more tears in the left eye for the Bakermen unless they tune up their optics for this sort of flinging before the choice falls

It is something far higher that leads him to strive
With all his ingenuous heart
To keep the historic pastime alive—
It's the soul-stirring urge of the art.

Scouts of the major league clubs probably will begin to wend their way into Michigan-Ontario league territory shortly, if good pitching in the Halligan circuit keeps up. Only last Friday there was a no-nit, no-run game hurled by Lefty Webb of Hamilton against the Flint club. It was the first of the season in this loop. Webb is a youngster with a corking fast ball and sound curve.

Unquestionably the absence of Ruth has played a prominent part in the early season failure of the Yanks. The general all-round excellent play of Ruth has been missing. It is the outstanding feature of the club. Ruth is more than a mere home run hitter; he is a great player. No doubt the morale of the club has suffered because of Ruth's absence. Not only has his timely punch been missing, but his presence as a threat was also lost when illness sent him to the hospital. As a three-time pennant winner and the runner-up last season, pitching has always featured the Yanks play. Good pitching has for years been the rule rather than the exception with the daily performance of the New York club. So far this season consistency has been lacking in the pitching. Games in which the Yanks had a three-run or better lead, going into the late innings, have gone into the defeat column.

Orient Seconds Are Beaten 5 to 2 **By Strathroy Nine**

Dick Christopher, Sunshine Park Product, Stars For Local Team.

Strathroy intermediates got away to a good start in the eastern half of the new Western Ontario intermediate O. B. A. A league when they defeated London Orients by a 5 to 2 score at Queen's park last night. It was just another case of seasoned veterans taking things cooly to nose out a younger team more or less imbued with stagefright. It was the first time the present Orient team has played together, while the visitors were practically the same outfit as appeared as seniors in the Southern last summer. The pitching of Elliott for the winners was the big factor in their victory. The big boy whiffed fifteen Orients, and always appeared to still have something in reserve.

whifted fifteen Orients, and always apson in this loop. Webb is a youngster with a corking fast ball and sound curve.

On Sunday, at Flint, Alvin Montgomery of Flint pitched ten no-hit, no-run innings, and was returned victor in the twelfth against London. He had been combed for two runs in the first inning, then settled down and pitched 10 2-3 innings before another safe hit was made. The feat is all the more creditable in view of the fact that his club was in a crippled state, that he was pitching against the league leaders, and that the day was bitter cold.

Here, then, we have two southpaws in one league who have done as well as the greatest stars in the majors, and have as a matter of fact, eclipsed ail marks of the majors to date. Webb narrowly missed a pegretet game by uncertain hurling on two occasions.

Montgomery never issued a base on balls in all twelve innings. He made two slips, one in the seventh, when he failed to step on first base after taking a toss from Kubel who had fielded

A Father and His Sons.

Dr. Charles E. Saunders, the Londoner who gave to the Canadian West its Marquis wheat, is coming in for recognition that has been long that was strong enough to make many an otherdelayed. A few months ago the government granted him an annuity and on Monday at Ottawa he will be the recipient of a gold medal from the Royal Society of Canada, a token of outstanding scientific achievement.

The pity of it is that Dr. Saunders should ever have found it possible or necessary to leave the service of the dominion. There were possibilities in the mind that selected and developed Marquis wheat that might have gone a great distance in other directions, and it is such minds that Canada needs.

It is all the more remarkable that such success should have attended Dr. Saunders' efforts when one considers the crude methods he had to employ in his work. When he had before him certain specimens of wheat he chewed them to determine their glutinous qualities; he baked his own bread to prove the constituent elements In the flour of these wheats, and yet he sucteeded to a remarkable degree.

It is interesting to note the bent of this entire family toward science, research and music. to blow for him again. The father, the late William Saunders, was a chemist and an experimenter. A city directory of London in the year 1866 gives "W. Saunders, chemist, north side of Dundas street," and some years before that he had started the business not lost. that has developed into the present W. E. Saunders, sickroom supplies. For some years he had a 75-acre farm just east of the present hospital for the insane, afterward securing a six-acre plot, recently taken over for the enlargement of Mount Pleasant cemetery, and his hobby was experimenting in plant life. His five sons seem to have inherited the paternal trait, and it gave direction to their future careers. A glance at the vocations of the sons shows:

Dr. Charles E. Saunders, the student of research who perfected Marquis wheat, admittedly the most valuable contribution anyone has made toward the development of Canada.

The Public Has Been Warned.

Two stock breeders were in Guelph a few days ago, and one of them had \$400 in his pocket, the result of some cattle sales. Apparently there was some sort of a circus on in town, and the stockmen met three strangers who volunteered to show them the sights.

The sequel was an assault and robbery on a road a short distance from the city that same night. The strangers had the \$400 and have not since been sighted in the district.

The wonder is that with the wide and general circulation of newspapers such a thing could take place in 1925. There have been protests made quite often that papers should not where it seems necessary in the public interest hound of the deputy speaker has no more standto keep on printing them.

Similar events have been recorded for years, stories of how confidence men operate. Many times their methods have been described in detail, telling how they approached their victims, Ottawa. No one wants to pare cheese on such a profession. They appear to think that it is how they knew they had money, and all the rest of it. An Idea Worth a Fair Trial.

existence against a force that must always be regarded as an enemy. That idea has taken its full toll of both capital and labor, and it has

spoken in terms of strikes and lockouts. Fortunately there have been men on both sides who have been able to see that there was better way, that the theory of the pound of flesh was after all one that drove the employer and employees into two distinct and hostile camps. Then came the experimenter with his profit-sharing plan, the industrial council, and other measures.

The motive behind these is that contented labor means efficiency, and efficiency in turn means profits. But in many of them there was a fly in the ointment—the new arrangements were to be made conditional upon there being no union in the premises. The aim was to deny to the men the right to organize as they saw fit, and naturally there arose the suspicion that it was a means to break down and root out the labor union. This in itself created a suspicion wise good scheme inoperative.

The plan being adopted in the Canadian National shops does not seek to break up the unions. It has been formulated by Capt. Beyer, consulting engineer of the railway employees department of the American Federation of Labor. The Baltimore & Ohio was the first railway to go the whole distance with its men; it has tried co-operation plus organization and has found that it works. The first shop to try it was at Greenwood, Pa. There was something very practical and pointed in the company's attitude It wanted more output, cheaper repairs, more and better ideas and greater shop efficiency. The men wanted better working conditions, regular hours and steady employment. Bi-monthly meetings discussed the progress, and the plan worked. The men, by good work during rush periods, saved enough on the shop budget to warrant their employment during slack times. It put an end to the most miserable time a man can face, when he is laid off and spends his days wondering when the shop whistle is going

The gains from the plan may not be spec tacular because many of them are negative, and must be measured in terms of strikes and lock outs that do not take place and in days that are

The Hon, J. A. Murdock, minister of labor, who has made some study of the question, and had advised the House concerning it on previous occasions, challenged some of Mr. Arthur's figures. He also went to the United States for figures and the the United States for figures, and they were far from conforming to some of those advanced by the Parry Sound member. For example, he quoted a United States report to the effect that during each of the last two years, 43,000 Canadians had secured from the United States refunds on their head tax on returning to this

Continuing Presbyterians Vote Against Five-Year

ELECT MACKAY

Discussion of resolutions to be forwarded to the general assembly o the continuing Presbyterian church occupied the major portion of the session of the advisory council of the non-concurring congregations in Lonto expatriated Canadians to return to don presbytery held in New St. James' church yesterday afternoon.

One resolution, that the term of eldership be limited to five years, the elders to be eligible for re-election at the close of such term, provoked quite a prolonged and rather warm debate. Finally a compromise resolution was adopted to the effect that the continuing assembly reconsider, in the matter of disciplining elders, the reasons (unbelief and immorality) for which an elder can be removed

Rev. James MacKay, B.D., pastor of New St. James' church, London was elected chairman of the coun at the meeting which was attended by about 130 men and women representing 29 non-concurring congregations in the London Presbytery, in addition to a number of groups c stituting anti-union minorities charges which voted union.

Committees Named. The following committees were appointed at the meeting: Women's work—Mrs. W. E. Kelly, London; Mrs. A. Robertson, St. Thomas; Mrs. Mc-Leod, London; Mrs. F. G. MacDiarmid, New Glasgow; Mrs. R. B. McKellar, New Glasgow; Mrs. R. B. McKellar, McClastown of information of information of information of information. New Glasgow; Mrs. R. B. McKellar, Wallacetown: Preparation of information for provincial church union commission—Rev. John MacNair, D.D., London; nev. Peter Jamieson, Port Stanley; Donald McAlpine, London; John MacVicar, North Caradoc; Dr. Saunders, Dutton; J. A. McLandress, St. Thomas: adjustment of fields—Rev. J. M. McGillivray, Knox church, St. Thomas; Rev. J. M. Urie, St. Thomas; William Wikke, Ivan: Wesley Weir, Ivan; Oliver Gidley, London.

Four resolutions introduced by the Four resolutions introduced by the resolutions committee were adopted without discussion, as follows: First, "That the name of the continuing Presbyterian church be "The Presbyterian Church in Canada'" (this is identically the same name as the present Presbyterian church): second, "That Rev. Ephraim Scott, D.D., of Montreal, be moderator of the first continuing assembly; third, "That the continuing assembly urge upon all its continuing assembly urge upon all its congregations in the church and Sunday schools the study of the history of the home church (Scotland), the standards of Presbyterianism (confession of faith, etc.) and the shorter establism particularly in the shorter catechism, particularly in the Sunday schools and in the home; ourth, "That the continuing assembly inaugurate for a term of years a three-year preparatory course for students for the ministry in theology, similar to the literary course formerly in vogue at Knox college, Toronto, and still in effect in the Presbyter an college.

congregations and courts of the

Nair, D.D., clerk of the council, de-clared "that the present church union scheme had distinctly failed because the general assembly had not taken

any pains to educate the people or take them into its confidence." Rev. John Crawford urged that "the impossible 75 per cent majority" in the second clause should be lowered to "the reasonable two-thirds vote,"

this resolution to the effect "that on matters pertaining to the purchase or disposing of church property only communicants over 18 years of age have the right to vote."

Rev. John Hosie, St. George's church, London; and George Webster, Knollwood Park, as well as several others, spoke strongly against "such a disfranchisement of the younger communicants of the church," and accordingly Mr. Campbell's clause was almost unanimously turned down.

Since Mr. Crawford failed to get a seconder for his amendment regarding the lowering of the percentage on the vote to consummate union, the resolution as introduced by the committee received the endorsation of the meeting.

Fundamentally Wrong.

"The resolution is fundamentally wrong," emphatically asserted Andrew Robson, recently inducted as an elder in New St. James' church and formerly an elder in St. Andrew's church, "and should not appear to any full-blooded Presbyterian, Elders are ordained men and to have the charge against Charles G. A fifth resolution proposed, "That the continuing assembly place in its regulations the clause: 'that before proceeding to union with any other church or churches the question must first be simply placed before the congregations, two-thirds of whom must vote in favor of the union before negotiations can be undertaken, and that before consummating the union 75 per cent of the membership of the congregations and courts of the six months' hoist, and you all know what that means."

"This is a Methodist resolution," affirmed Mr. Crawford, "and is like falling from grace every five years. One of the grand things of the Presbyterian church has been our good old elders. There is a dignity about the leadership of the elders that we should seek to preserve and if it is tossed up every five years or so this can not be done. The continuity of eldership through the years constitutes a stabilizing influence in the the six months' hoist, and you all tutes a stabilizing influence in the

scheme."

In explaining this resolution, Rev. T. D. McCullough, chairman of the committee, stated "that such a clause would make it impossible for a few men or a large number of men to legislate the church out of existence."

Dr. MacNair counseled the church made in the continuing church whereby the rules of discipline would make possible the removal of an elder from office without laying and proving a serious charge against him of either unbelief or immorality.

The steady advance in Smelters' shares into new high ground almost daily is one of the most notable developments in the Canadian market for some time. The explanation for this apparent anomally is that the company, which actually earned 54 per cent on the stock last year, will do even better in 1925. Operating and market conditions are such that all in good time Smelters will return something exceptional for shareholders. It is sufficient that were a division of 20 per cent per annum paid, the yield at the present price would be only 6 per cent. Smelters is demonstrating the axiom that earning power is everything.

TRACTION ISSUES.

Traders are again showing interest in the traction stocks. At one time the securities of traction companies were the favorites and could be depended upon to supply the market leadership on numerous occasions. High operating costs and keen competition by motor cars made itself feit and the companies operating street car services found it hard to keep their heads above water. Application for the collection of higher fares was usually accompanied by a long delay, owing to the fact that the properties had to be revalued by the state railway commission and the rate which the company would be permitted to earn decided upon. CHICAGO

Associated aress Despatch.
Chicago, May 21.—Wheat turned downward in price today after initial gains. Reports were current that all through the western part of Kansas the wheat crop shows decided improvement, and present conditions indicate a yield above the average. Opening prices, unchanged to ½c higher were followed by moderate further gains and then by a setback to below yesterday's finish. Persistent selling weakened the corn market. Country offerings to arrive were reported to have enlarged. After opening at ½c lower to ¼c higher, corn prices underwent a decided general sag. Oats were easy, sympathizing with corn. Starting ½c off to ½c up, the market kept near to opening figures.

FLOUR

Canadian Press Despatch.

Montreal, May 20.—The inquiry from foreign buyers for spring wheat flour was moderate, and a fair volume of business was transacted.

The slight improvement in the winter wheat flour trade noted recently was well maintained today, there being an increased demand from some sources, and the movement was larger. The tone of the market was steady.

A very fair feeling continues to prevail in the market for all lines of millifeed, and prices were well maintained. Prices for Standard grades of rolled oats were firm, with a small trade passing.

montreal. May 20.—The foreign demand for Canadian grain on the Montreal market today was better than it has been of late, and as some of the prices bid for oats and barley were in line with exporters' views, sales of a few loads were made for May-June shipment, but the volume of business was small. The demand for ocean grain room here was somewhat limited, and only engagements of odd loads were made at steady rates.

There was no improvement in the demand for cash grain in the local market, but a stronger feeling prevailed in oats, in symnathy with the future markets, and prices were marked down to per bushel.

UNIVERSITY PLAY

Shaw's Pygmalion J. Wesley Bean, B.A. Caistorville, F. Part of Convocation Week Activities.

five-act play, Pygmalion, will be an Western Ontario. This play, which will be presented under the auspices of the literary society of the college on Wednesday and Thursday, May A. R. E. Belwood, to be supplied. 27 and May 28, will be directed by Orton, to be supplied. Mies Jean Walker in convocation

In presenting such a play the university is taking its part in the Little Theatre movement, which is sweeping the country. Bernard Shaw's dramas are always brilliant and and Pygmalion promises to provide

more amusement than most. Miss Helen Berdan is taking the leading role as Eliza Doolittle, a Cockney flower girl. In the play Shaw make a professor of phonetics undertake to turn the Cockney girl into a polished lady within six months and to pass her off as a duchess at the ambassador's garden party. This gives the writer plenty of scope for his ever ready satire, and provides a most amusing play. The role of the professor will be played by Sydney Kingsmill, while J. MacKenzie Dobvill take the part of Col. Pickering, who supplies the funds for the transformation

Shaw's Galetea. Shaw's play is built up on the old Greek Myth, which tells how the culptor. Pygmalion, carved a beautiful woman in ivory and then proceeded to fall in love with her. At his prayer the stature was granted life, and he called her Galetea. Shaw takes the little flower girl as his Galetea, and so proceeds with the

Gerald Jordan also plays an important role in the play as an old Cockney dustman, Eliza's father Here he has excellent scope for character work. Prof. Higgin's mother is played by Miss Helen Hughes, while Miss Florence McDonagh takes the role of a landlady. Miss Grace Sabine plays the part of Mrs. Eynsford-Hills. from a gentile but poor family, with Miss Marion Stark playing the role of Miss Eynsford-Hills, and Jack Wilkie, Freddie Eynsford-Hills, a Wilkie, Freddie Eynsford-Hills, a typical English ass. STRATFORD NORMAL TO TAKE MANY FROM LONDON SCHOOL

Principal Prendergast Declares Classic City Arrangement Will Affect Attendance.

REASON FOR CHANGE

Students Will Be Better Apportioned in Province, Thinks Department.

The fact that first-class public school teachers' certificates can now be obtained at the Stratford norma school will mean that between 2 and 35 fewer students will attend the London normal school this fall. Such was the estimate made by

Principal William Prendergast of the local normal school, this morning in pointing out that students from Stratford, Mitchell. Seaforth. Clinton, Goderich, Listowel, Mount For-est, etc., could in future attend the Stratford normal school and secure their first-class certificates there.

Mr. Prendergast explained that ever since the training for first-class

ertificates was taken away from the faculty of education at Toronto years ago, and placed in the norma schools, the training along this par-ticular line has been, until the pres-ent, confined to the schools at London. Toronto, Hamilton and Ottawa having the largest first-class enrol-

"There is a marked increase throughout the province of first-class normal students." stated Mr. Prena similar falling off in the enrolment of second-class students. We have 398 students enrolled at the normal school here this year, of whom 153 are first-class students. This means R. A. Finn, of the department of an increase with us of practically 50 Mr. Finn and H. C. Duff of the students over last year.

"The move made by the department of agriculture, pent yesterday in London and Bidment of education in raising the ment of education in raising the stratford normal school per cent in the number of first-class townships, interesting farmers status of the Stratford normal school

and buyers in the system that will to enable it to teach first-class work." mean more money to the farmers for concluded Mr. Prendergast. "is just the department's way of apportioning dents for the London normal school.

STRING QUARTEI

Introduces Miss Edith James, Youthful Violinist, in Private Recital.

Miss Edith James, daughter of Prof. N. C. James of the University of Western Ontario, talented young violinst, made her bow to the music lovers of London last night at a delightful musicale arranged by Mrs. Charles Ivey at her home on St. James street. The occasion was the season's last apeparance of the Beethoven String Quartet and it was this brilliant little musical organization which furnished major portion of the program. Mrs. Ivey's spacious rooms which furnished the been transformed into a miniature concert hall for the evening. About 90 guests, all present by invitation were comfortably seated, while the

Makes Debut.

Miss James, who made her debut night is an artist pupil of Mrs. Charles Ivey. Everyone was impressed with the beauty of her tone pressed with the beauty of her tone and the grace of her playing. Possessing a marvellous knowledge of technique for so young an artist, Miss James amazed her listeners with the intricacies of her bowing. She played through the difficult Handel sonata in A major with perfect ages charming, her audience by Kreisler, a Hungarian dance by Drdla, and as encores a Grieg Berceuse and the Rimski-Korsakow-Hindu chant Mrs. Harris Elliott

Brilliant Pianist. Mrs. S. V. Cooke, who is an ex-ceptionally fine pianist, was heard in the difficult Rubenstein number, Kamennoi-Ostrow, and the Chopin Scherzo in B flat minor. Mrs. Cooke plays with animation and her tone is rilliant and true.

The quartet itself, responsible for the evening's program, never played better. A year's work together has produced an ensemble which will rank with the finest in Canada. OTTAWA LIKES IT

Canadian Press Despatch. Ottawa, May 21.—"Four-point-four" beer made its debut here this morning, strictly on schedule, due to the enterprise of some half-dozen of the smaller saloon-keepers.

A tip from Toronto warned them that their permits had been mailed yesterday. From 9 o'clock in the evening until midnight they haunted

the postoffice and harried postal clerks. But they got their permits. At one hotel in the west end, located on a side street, a queue of some fifty thirsty was in line by 7 o'clock sharp. At two minutes after 7 every table was filled and glasses clinking as merrily as in the days before the O. T. A. era. There is considerable criticism of the manner in which the permits have reached the city, the larger places having been entirely overlooked while the smaller ones are able to operate The new brew was greeted without

demonstration and comments were as their premises pre-varied as the brands of beer itself.

There is plenty of the beverage here—six carloads—but no permits have yet arrived for the seven stand-ard hotels or the restaurants for which application was made. Few Americans have yet slipped over the border here for a sample of their neighbors' new brew, but it is expected that some will saunter over tonight in the hope that the permits are forthcoming on a late mail today.

Do This After **Severe Illness**

How to Speedily Gain Strength and Put On Needed Weight.

Nothing like the wonderful vitaliz-ing vitamines in Cod Liver Oil to help convalescing people to quickly get strong and well—everybody knows

But nobody wants to take the illsmelling, horrible tasting, stomach upsetting oil itself, so nowadays, up to date medical men are ordering a tablet of Cod Liver Oil, and it surely has proved a blessing to thousand of people who have been sapped of their natural strength after a severe illness, and especially after the Grippe or a stubborn cough or cold

Ask Standard Drug or any regular druggist for a box of McCoy's Cod Liver Oil Compound Tablets. They cost but little, are sugar-coated and

as pleasant to take as candy.
Skinny men and women take them to speedily put on plenty of good healthy, solid flesh, and for this purpose they are so extremely good that thin men and women often take on pounds or more in 30 days. As a matter of fact, your druggist will return your money if you don't take on 5 pounds in 30 days. Great for weak, ekinny, backward

rundown children, too, and gives them a hearty appetite.

Be sure and ask for McCoy's, the original and genuine Cod Liver Oil original and genuine Cod Liver (Compound Tablets, 60 Tablets, cents.—Advt.

Cured His Rupture

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me. Eugene M. Pallen, Carpenter, 486L Marcellus Ave., Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

WINDSOR COLLEGIATE CADETS ARE INSPECTED WKS.

Windsor, May 20 .- Windsor collegiate cadets, 300 strong, paraded here this afternoon in Wigle park for their annual inspection by Lieut. G. H. Gillespie, of headquarters staff, Was Widow of John Morrow, Military district, No. 1, London. The cadets were commanded by Maurice Greenberg.

ACIDS IN STOMACH CAUSE INDIGESTION Create Gas, Sourness and Pain How to Treat.

Medical authorities states that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain, Bisurated Magnesia (in powder or tablet form never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.

Event Will Take Place at Port Stanley on June

Special to The Advertiser. Middlemarch, May 20.-Representatives appointed by the various granges met last night in the rooms of the agricultural representative, St. Thomas, to make arrangements for the picnic of all the Eigin lodges.

It was decided to hold it at Port Stanley, June 23, in the form of a basket picnic. A special invitation was extended to the Middlemarch women's institute and the River road. Corbett and Svend Rassmussen will be in charge of test flights.

The "jumping balloon" is designed to carry only one man, who will ride on a kind of saddle suspended beneath tiny bag.

The propeller will be used to comtrol the up and down movements of the balloon, and is expected to make unnecessary the carrying of ballast and expenditure of gas for purpose of control. WORK IN AFRICA

Church Has Gained Foothold in Portuguese Colony.

Interesting sessions were held yes terday in the Southern Congregaterday in the Southern Congregational church, yesterday afternoon and evening, when the annual conveniton of the London branch of the women's board of missions took place. Miss Helen Melville, who has spent the past 30 years in Africa, and Miss Jamieson, general secretary of the board in Toronto, were the speakers, and both gave intensely interesting addresses on their work.

and both gave intensely interesting addresses on their work.

Last evening Miss Jamieson gave an illustrated lecture on the work being done by the missionaries in Africa. Her slides were very picturesque of the country, and her talk paved the way for Miss Melville.

Great progress had been made in the country during the past years and Miss Jamieson's pictures showed the schools and churches of Portuguese East Africa, where the missionaries have gained a foothold. The teaching of industry and medical work was outstanding as the promotion of education, and in every line of work the missionaries were going forward.

She told of Donie, where electricity

of the W. M. S. of the Congregational church, when encouraging reports were given by the various members of the executive, and two short talks were given by the visitors to the convention, Miss Helen Melville of Africa, and Miss Effie Jamieson of Toronto.

Miss Jamieson spoke briefly on the future of the church as it concerned the women, and stated that for the present the auxiliaries would continue their work without any change. She brought much encouragement to the women and urged both the non-concurrents and those entering union to stand together. She also pointed out that there was no desire on the part of the unionists to part with friends. "There are great and glorious day

Perth Worker Notes Discord

Much has been said about the Presbyterian churches that are not entering union and of the opposi-tion shown by the non-concurring women, yet it was shown at yes-terday's session of the London branch of the Congregational church W. M. S. that there have been a few non-concurring Con-gregational churches in Canada. The non-concurrent feeling was The non-concurrent feeling was emphasized by Miss B. Kemp of Stratford, who resigned from office because she did not feel that she could put her heart into the work of the union church. The Strat-ford church was one of the few Congregational churches not to
