D. R. DILL, from Ireland, a LICENTIATE of the *Senatus Academicus* of the UNIVERSITY OF GLASGOW, has commenced practice in this city as
Physician, Surgeon & Accoucheur.
Residence, No. 12, Notre-Dame Street, Lower Town, Market Place.
5th July.

D. R. BRANDETH requests a perusal of the following article:—

LIFE AND DEATH,
Every thing has two distinct principles to its nature; one
THE PRINCIPLE OF LIFE
THE OTHER
THE PRINCIPLE OF DEATH.

So long as the principle of Life predominates, Health is enjoyed. When the principle of Death, Sickness takes place. How is this accounted for?

By the principle of Death, I mean the principle of decomposition or decay, which is each hour going on in the human frame from the hour of birth, to that of our final exit. While in an unobscured state, the pores—the bowels—and all other directories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the disease.

When, from breathing an impure atmosphere, living in a vicinity of swamps, or when we are in the constant habit of coming in contact with bad smells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being affected from a living body under the influence of disease in a malignant state; or sedentary occupations; or, in short, any cause which promotes decomposition faster than the stomach and bowels and the other excretories can remove, naturally; we are then in a state of disease. And should the cause which produces this state of the body remain, and nothing be done to drive the accumulated and accumulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life depart from the once animated clay.

How then, shall we counteract these death-depending influences? How?

PURGE!—Yes!—I say Purge! The motto is that word shall yet be understood, if this hand or brain can accomplish so mighty an explanation. Yes, purged be that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause, I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposit of decomposed particles upon the organ or part where the pain is seated. And purging discharges this impurity by the bowels and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed; even when in constant contact with the most malignant fevers which cannot by possibility seriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. *Hippocrates* says, "Purgation expels what must be expelled, and patients find relief; if on the contrary, they are contented by purgation, it is a proof there are yet matters which must be expelled."

The subscriber of this has resided in every variety of climate, and by always purging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may call such the state of him who is never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandfather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, in doses of from 16 pills per day, to satisfy myself as to their innocency. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so prostrated by disease, provided he is capable of taking exercise at all, may lengthen his life to 60 years, by continuing to assist the natural functions with the **BRANDETH VEGETABLE PILLS.** Death never can take place until the Principle of decomposition puts out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of sickness.

In the hope that these remarks may be of some service, I am the public's obedient servant,

D. BRANDETH, M. D.

Great caution is required to procure the genuine Brandeth Pills.

Druggists and Chemists are never in any place appointed Agents by Dr. B. All his authorized Agents have an engraved certificate of authority, signed by himself; unless this certificate can be shown, do not purchase. This caution is absolutely necessary to guard the public against spurious Pills.

DR. BRANDETH'S PILLS

CAN BE OBTAINED GENUINE OF

FREDERICK WYSE,

No. 3, Palace Street, Upper Town,

Foot of Mountain Street, Lower Town.

Poetry.

AUTUMN.

Sweet Sabbath of the year
When evening lights decay,
The parting steps, no thins I hear
Steal from the world away.

Along thy sunset skies
Their glories melt in shade;
And like the things we fondly prize,
Seem lovelier as they fade.

A deep and crimson streak,
The dying leaves disclose;
As on Consumption's waning cheek,
'Mid ruin blooms the rose.

Thy rear each vision brings,
Of beauty in decay;
Of fair and early faded things,
Too exquisite to stay;

Of joys that come no more;
Of flowers whose bloom is fled;
Of farewells wept upon the shore;
Of friends estranged, or dead;

Of all that now may seem,
To memory's tearful eye;
The vanished beauty of a dream,
O'er which I gaze and sigh.

Miscellaneous.

QUEEN VICTORIA AND HER LOVERS.

At Bow street office, Edward Hayward, who was charged with seizing the bride of the Queen's horse in Hyde Park, for the purpose of presenting a letter to Her Majesty, was brought up for further examination.

Colonel Clithero, to whom the defendant it appeared had written several letters, was present.

The defendant entered into a long narrative of the events of his life, from which it appeared that he was born on the Island of St. Helena, in the year 1807, and remained there until 1820, when he came to England, and having nothing to do, addressed letters lately to Lords Melbourne and John Russell, praying for relief.

Colonel Clithero asked him if it was not his wish to marry the Queen.

The defendant smiled and said he had some thought of that sort at one time, but he had no wish to be troublesome now if he could get any thing to do.

Colonel Clithero—You wrote some very strong letters to me on the subject, did you not?

Defendant—I know I did, Sir.

The Colonel then drew a letter from his pocket, and read a passage from it, the substance of which was as follows.—

"Do you think her Majesty would have any objection to bestow her hand on one of her subjects who would pledge himself to maintain the Protestant religion in Ireland, which at this period requires some person vested with kingly power and possessing a strong and vigorous mind. To defend, under circumstances similar to those which occurred in the reign of William and Mary in 1688, when the Protestant religion was established in England."

The defendant admitted that he had written a letter to the Colonel, containing a passage similar to that which had just been read. He did not appear by his manner to consider the letter in question in any other but a serious light.

Colonel Clithero said that in consequence of his having received several communications from the prisoner of a similar nature, he was very anxious to discover where he could be found, in order that he might be taken care of. He had given a description of him to the police, and he had made a communication respecting him at the Home Office, and he must add, that if proper means had been taken the man would not have been at large so long.

Mr. Minshull, who had left the office, before the conversation took place between the Colonel and the defendant, returned to the bench, and informed the latter that he would be sent back to the prison infirmary, where he would be taken care of and in the course of a week he would be brought before him again.

The defendant, who appeared perfectly harmless, said he had not the least objection to the course which the Magistrate had suggested.

Mr. Waddington the bill sticker and Chartist leader, appeared at Bow-street office yesterday, and said—"Your worship, I am directed to apply to you to swear in 5,000 democrats as special constables for the purpose of preserving the peace on Monday next when the great national holiday will commence." Mr. Twyford said "I cannot accede to such a request, and I have no wish to hold any communication with you upon such a subject." "Our only object," replied Waddington "is to keep the peace, and that we are determined to do against policemen in coloured clothes or any one else." "I advise you," rejoined Mr. Witham, "and those who act with you to be cautious." Waddington asked, "Am I to have the sword and pike, your worship, that I applied for some time ago? They are mine by purchase." Mr. Twyford answered, "They are in the hands of the police, and I can make no order respecting them."

POWERS OF MACHINERY.—In one branch alone (the cotton trade) some spindles which before the new improvements were projected, used to revolve fifty times in a minute, now perform six, seven, and in some cases 8,000 revolutions, in the same short space of time. In one establishment at Manchester there are 136,000 spindles kept in incessant motion by steam power, by which they are enabled to spin 1,000,000 miles (not yards) of cotton thread per week. The weekly produce of this article, when the machines are in full work, is about 400,000,000 of miles or enough to encompass the earth 160 times.

FUNNY MISTAKE.—A Western editor seeing it published that the British Queen was to leave England on the 1st July for New-York, took for granted, the simple soul, that Miss Victoria herself was coming, and therefore announced it as follows:—

IMPORTANT.—Queen Victoria was to embark on a visit to the United States about the 1st of July, and was expected to arrive in New-York about the 15th.

UNITED STATES.

The dying and printing factory, consumed yesterday on Staten Island, was the most extensive dying establishment in the United States.—N. Y. Post.

Except the New Orleans Hospital.

MOORE SEIZURES.—We learn from the Cincinnati News, that the seizure of goods, on suspicion of defrauding the revenue, has extended to that city. It is stated that about \$50,000 worth of merchandise had been levied on by the custom house office, on Friday last.

A correspondent of the Philadelphia Gazette enquires what are the names indicated by the initials of M. M. Noah, of New York. Whereupon the classical editor at once enlightens his correspondent by informing him that they stand for *Maurus Multicaulis*.

The New Orleans Courier estimates the loss on this year's exportation of Cotton from that port at two millions of dollars, according to the most moderate calculations.

The Washington, N. C. Republican of the 4th instant, gives further details of the late storm, and adds, that at least 1000 head of horses, cows, sheep, &c., perished on Potomac beach. Many vessels were also lost or injured.

An American who writes from "The Summit of Cheops, the highest of the Pyramids of Egypt," on the 31st of January, died with nine Americans at Cairo, on the 30th, the largest number that ever assembled in that place at one time.

A forged check for an amount exceeding 2000 dollars, was passed on one of our banks on Sunday last. The adroitness of the knave was only equalled by his boldness, as he drew the check to order, and was thus compelled to forge two signatures, when one would have answered his purpose.—*Philad. paper.*

THE QUEBEC TRANSCRIPT.

RIOT IN OHIO.—A violent outrage was recently perpetrated in Marion county, Ohio, by the re-claimants of an alleged runaway slave. The alleged slave was taken up as a fugitive from Virginia and lodged in the Marion county jail for trial. On the day of the trial an unusual number of persons assembled at the court house to learn the result. The witnesses were examined, and counsel heard, but the judge reserved his decision till the next morning. In the morning the judge decided in favor of the prisoner. We copy an account of what followed from the Marion Visitor:

As soon as the decision was ended, the pretended owners seized the prisoner—the bystanders resisted and endeavored to rescue him, declaring him to be free, and desiring them to let him run at large, but the Virginians still maintained their possession by force, and presented pistols, bowie knives, dirks, &c., threatening the lives of all them who would lay hands on them or the negro, and all this in open court.—Our citizens and friends from the country stood out in defence of their trampled and insulted laws which were thus set at defiance.

In the scene of confusion the negro was taken down stairs, and dragged by his captors through the streets. Those who forced him onward were armed with pistols, bowie knives, and daggers. At this unusual and horrible sight, the populace became enraged, and attacked them with stones and whatever missiles they could get hold of—they at length succeeded in getting him into one of our Justice's office, and there guarded him, (as is stated for a new trial.) Before the door of the office the excited multitude assembled, demanding justice and the negro, but all of no avail, the entrance was guarded with pistols and bowie knives.

The editor of the Canajoharie, who is a mute pro-cess publishing a Mute's Almanac, which is to be ready for sale in about two weeks.

The Aurora Borealis was beautifully brilliant at New Orleans on the evening of the 3d. It resembled the reflection of a great fire that the bells were rung.

SECOND THOUGHTS ARE BEST.—The Columbus, Ohio, state Journal of Friday states that a man attempted to drown himself on the preceding evening by jumping off the bridge, into the river. The plunge brought him to his senses, and he swam to the shore—wisely resolving to endure the present ills, rather than fly to others that he knows not of.

THE TRANSCRIPT.

QUEBEC, FRIDAY, 20th SEPT. 1839.

By the steamer *British America* which arrived yesterday at noon, we received the Montreal papers of Wednesday; the following from the *Herald* is the only paragraph of interest that we find in them:—

In answer to numerous enquiries regarding the disposal of the political prisoners, we are happy at having it in our power to state positively that they will be shipped from the goal on Saturday morning early, provided the prisoners from Upper Canada who are to join them have arrived, as arrangements have been made that they will, previous to that time.—The steamer in which they will be conveyed to Quebec will go alongside the Buffalo, and the prisoners will be transhipped in as private a manner as possible, as it is the desire of the authorities that there should be as little excitement as possible either here or at Quebec on the occasion. The Buffalo is under orders to sail as soon as the convicts are safe on board.

Private letters from Montreal state that the lucrative office of Sheriff of the District of Montreal is to be for the future held by two incumbents and that the Executive have offered it to Andrew Stuart, Esq., Solicitor General, and the Honble. Toussaint Pothier.

In the event of Mr. Solicitor General Stuart accepting the appointment, Chs. D. Day, Esq. Advocate of Montreal will, it is said, be appointed to the office vacated by the former gentleman.

New York papers to Sunday last inclusive contain little of interest. The packetships United States and South America, 2d and 9th August from Liverpool, arrived on Saturday. Papers by them, received here yesterday fill a blank in the English files, the Great Western having only brought papers from the 8th August. We have extracted some items of ship news, from these papers, which will be found under the proper head.

"THE NEW GOVERNOR."

The Montreal *Gazette*, which is generally well informed on such matters, and which, from being published near head-quarters, ought to know, says with respect to the reported appointment of Mr. C. P. Thompson:—

"Many reports have obtained circulation both here and in England, with respect to the removal of His Excellency Sir John Colborne from the administration of the Government of this Province; and that His Excellency was to be replaced by Mr. Poulett Thompson. We have not, however, been able to trace the report to any good authority whatever."

Until the arrival of the news by the *British Queen*, which will probably take place on Sunday or Tuesday next, we shall content the above as conclusive in refutation of a rumour to which we should never have attached the slightest credence, but for its frequent reiteration by the Lower Canada newspapers.

UPPER CANADA.

From Upper Canada we have Toronto papers of the 13th, Kingston of the 13th and 14th, and Niagara of the 6th instant, from which we compile a short summary of such of their contents as are of interest.

Dr. Sampson has been unanimously chosen Mayor of Kingston in the room and place of the late lamented Henry Cassidy, Esq. Dr. Sampson has, on all occasions of danger and difficulty, proved himself a zealous and effective member of the community, and his election is hailed with great satisfaction in the flourishing town of Kingston.

The Rev. Mr. Machar, lady and child, arrived at Kingston on the 12th, after an absence of a twelvemonth in England, on business connected with the Church of Scotland.

ANOTHER INSTANCE OF THE VIGILANCE OF THE AMERICAN AUTHORITIES.—Ell Johnston, who was brought with so much parade from New York to Westtown, and from whom so large a bail bond was required, has taken possession of Grindstone Island again. We suppose we shall soon see another war manifesto from Fort Wallace. We have been told from what we consider good authority, that on Saturday last there were landed on the island three cases of muskets, several kegs of gunpowder, and other munitions of war, under a personal superintendance of Johnson. What a farce the American authorities are daily enacting with the frontier sympathizers; let but a blank cartridge be fired by a British cruiser, to ascertain the character of an American steamer, and we have Col. Worth, on the very first echo of it reaching him, sending for an explanation; but if pirates and mail robbers are liberated from confinement by their keepers, it is announced in the papers, and they are allowed to go at large, without an attempt made to arrest them, because they have only murdered and robbed Canadians, which we apprehend is almost considered a praiseworthy action by the frontier inhabitants generally.—*Kingston Chron.*

THE CROPS.—We have taken a good deal of trouble to ascertain the quantity and quality of the wheat crops in this Province. We think we are able to say with certainty that there is a much larger quantity of wheat gathered in than there ever has been in any previous year, and that it is of a fair quality. The Spring crops could not be better. Oats have been sold in our market at 1s. 1d. and potatoes at 1s. per bushel. Butter is 11d. per lb. Cattle are in good demand, and our Meat market has seldom been so badly supplied and so high as it is at present.—*Ibid.*

The agents of the British Queen at New-York, have made application to the governors of Columbia College for the crown which adorned, previous to the revolution, the dome of that institution, for the purpose of placing it on the head of Victoria which graces the bow of the noble ship. The idea originated with the New York *Commercial Advertiser*, and that paper trusts that the request will be granted.

A correspondent of the *Gazette de Quebec*, writing from Three Rivers, says:—"The crops in this district are nearly housed. The wheat only has failed. Oats, though abundant, are bought up by speculators at 1s. 8d. per minut. Peas are worth 4s., wheat, 7s. 6d. to 10s., rye, 5s., potatoes, 1s. 6d., Indian corn, 6s., buck wheat, 2s. 6d. I am of opinion, that if the district had to depend upon its own harvest only, many would perish of hunger."

SULLY'S PAINTING OF THE QUEEN.

The full length portrait of Her Majesty the Queen, painted by Sully for the St. George's Society of Philadelphia, has arrived in Quebec, and is now in course of exhibition at the Picture Gallery opposite the Upper Town Market Place. Much interest has been created in this painting in the United States, from the circumstance of its being the production of an American Artist, and from the controversy with respect to the exclusive proprietorship of it, which arose between Mr. Sully and the Society. The particulars of that controversy having already appeared in the Transcript, it is unnecessary to repeat them, further than stating that Mr. Sully gained his point, and is now exhibiting, in the United States, a copy of the picture, for his own benefit.

Of the merits of the picture, we are not competent to give an opinion of our own, but we have been favoured with a critique on it by a talented artist in Quebec, which will be found below. From this it would appear that the talents of the American painter are somewhat overrated by his countrymen, as usual with them; but a sight of the picture is well worth the price of an admission ticket, notwithstanding the defects that are apparent to professional eyes, and, were it even a mere daub, the British inhabitants of Quebec would with great pleasure, we are sure, contribute towards the prosperity of a charitable society of Englishmen in the neighbouring republic, founded with views similar to those of the three national societies in this city.

The position of the figure is the old hackneyed one of Titian's Daughter looking over her shoulder, and which has been made use of by Sir Thomas Lawrence in his portrait of Miss Chester, and by Landseer in (we believe) the Duchess of Bedford, and travestied by every other portrait painter from the time of Titian to the present day. Her Majesty is looking over her right shoulder, and at the same time ascending a flight of steps towards what looks like a large arm-chair. The colouring is nothing of consequence, being of a warm crimson tone, except the white part of the dress and the neckerchief, which might lead us to suppose that the Artist might take his stand in Europe as a second or third rate.

Notwithstanding the severity of this critique, we must confess that if we were allowed to speak of the Portrait from the impression made on our own unpractised eye, we should say that it is a splendid and masterly production; and that those who have recently seen Her Majesty, say that the resemblance is strikingly faithful.

REPUBLICAN FRUGALITY, AND PURITY OF ELECTION.
In the United States papers we have lately met with two examples of the way in which our republican neighbours manage their affairs, which are deserving of record. One relates to elective affairs, and shows most conclusively that the ballot box and universal suffrage are very far from tending to promote purity of election; the other exposes a waste of money, unequalled—in the other items of expense be proportionate—in the history of corporate bodies of any description. It appears that the enormous sum of \$75,839 53 is due by the Government of the State of Maine to nine collecting districts, and it is more than suspected that this affords a clue to the source from which so much electioneering money has come. So much for purity of election in the "only country where a man can be a man in the true sense of the word." Now for a specimen of the frugality of a Republican Corporation:—Since the press: "Loco Foco" Common Council has been in existence in New-York, the expense of cigars used by the Councilors in the tea and committee rooms, has increased to the rate of three thousand four hundred dollars per annum, equal to one hundred dollars a member! This certainly does exceed every thing in its way that we ever heard of. The members of our late House of Assembly, who frequented the *Comité de la Pipe*, were considerable consumers of the "weed," but thirty-four hundred dollars would suffice them for two centuries in the purchase of their short pipes and cut tobacco. We do not know if the admirers of the "largest liberty" approve of the large liberties that the Councilmen have taken with the city funds. The latter, however, never reckon upon retaining their honors for more than one year, and make the most of the sweets of office while they can; their labours generally ending in smoke.

The body of a man much disfigured by fire, and in an advanced state of decomposition,

was found, some time ago, on the beach opposite the Church of the parish of Ange Gardien. It was impossible to distinguish who or what the man was when lying, but it is supposed he was one of the unfortunate individuals who perished at the burning of the steamer *John Bull*.

The hired schooner *Culvare* employed on the surveying service, under Capt. Bayfield, R. N. arrived on Tuesday evening from Bay of Chaleurs, where she has been during the summer. The *Culvare* proceeds at once to Montreal to complete some parts of the survey of the river, in that neighbourhood, which remained unfinished from the last season of navigation.—*Mercury.*

We are sorry to hear that in the townships near the Province line and thence in a easterly direction to Boston, the wheat crops have suffered seriously from rust; and other crops are said to be abundant and of good quality.

The harvest in this neighbourhood has been greatly retarded by the rainy weather of the last four or five days. To-day it has cleared up with a fresh breeze from the West, and there is every probability, if rain hold off, that a very large quantity of grain will be housed in the course of to-morrow.—*Id.*

The *Bathurst Courier* contains a report of the proceedings of the assizes for that District, opened at Perth, on the 10th instant, by Mr. Justice McLean. The only case of importance tried before his Lordship, was that of John Dean, for the murder of his son in law, John Leslie. It was proved, in evidence, that, on the day of the murder, the parties had some dispute, about a quarrel which the deceased had with his wife the previous evening, that, in consequence of some angry words which had passed between the parties, some reconciliation took place, during which Dean stabbed his deceased twice with a knife, once in the side of his arms, and the second time in the left side the latter wound proving mortal. On receiving the fatal stroke, the deceased fell into the arms of his wife, exclaiming, "O Betty, Betty, they have done for you and me!" Several witnesses having been examined in regard to these facts, the Jury returned a verdict of guilty, and the prisoner was condemned to be executed on the 28th instant.—*Montreal.*

BY THIS MORNING'S MAIL.

From the *Niagara (U. C.) Reporter*, 13th. We regret to learn that the Episcopal Church at Chippawa, was last night destroyed by fire. As no fires have been lately used therein, of course it has been the work of an incendiary. Such an event suggests to us that a regular patrol ought to be established along the whole line of the Niagara river. We have two Troops of the Light Dragoons, two Regiments of Infantry, and forces which we think might be more actively employed than at present. The Dragoons are particularly calculated for this duty, and some should be lost in adopting some plan. This occurrence shews to what extent men are prepared to go, and that the perpetrators of this act, however dark, are ready for any deed.

EIGHT O'CLOCK.

The Eastern Mail, due yesterday afternoon, has not yet arrived.

Quebec, 11th Aug. 1839.

R. C. TODD,
HERALD PAINTER,
No. 16, St. Nicholas Street,

BALDNESS.

A BEAUTIFUL HEAD OF HAIR is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintances; the remainder of their lives consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair.—To avert all these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

Read the following:
ROBERT WHARTON, Esquire, late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentleman:

The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative.
Wm. Thatcher, sen. Methodist Minister in St. George charge, No. 88 North Fifth st.
JOHN P. INGLISH, 334 Arch st.
JOHN D. THOMAS, M. D. 163 Race st.
JOHN S. FURRY, 101 Spruce st.
HUGH MCCURRY, 243 South 7th st.
JOHN GARD, Jr., 123 Arch st.

It will certainly miss its virtues in the estimation of the public, when it is known that three of the above signers are more than 50 years of age, and the others not less than 30.

From the Mayor, Commonwealth of Pennsylvania, City of Philadelphia.
CAUTION.—Observe that each bottle of the genuine Balm has a splendid engraved wrapper, on which is represented the Falls of Niagara, the agent's name, &c.
Sold wholesale and retail by
J. J. SIMS,
MUSSON & SAVAGE,
BEGG & URQUHART.

PILES, &c.

HEMORRHOIDS—NO CURE NO PAY!
Price \$1—Hays Liment—No Fiction.

THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals and the private practice in our country, first and most certainly for the cure of the Piles, and also so extensively and effectually as to baffle credulity, unless where its effects are witnessed externally in the following complaints:—
For Dropsy—Creating extraordinary absorption at once.

All Swellings—Reducing them in a few hours.
Rheumatism—Acute or Chronic, giving quick ease.

Sore Throat—By cancers, ulcers or colds.
Croup and Whooping Cough—Externally, and over the chest.

All Bruises, Sprains and Burns—Curing in a few hours.
Sores and Ulcers—Whether fresh or long standing, and fever sores.

Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs, and tightness of the chest by relaxation of the parts has been surprising beyond conception. The common remark of those who have used it in the Piles, is "it acts like a charm."

THE PILES.—The price \$1 is refunded to any one who will use a bottle of Hays's Liment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents, and out of the many thousands sold, not one has been unsuccessful.

CAUTION—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of the Agents.
I. I. SIMS,
MUSSON & SAVAGE,
BEGG & URQUHART.

ISS HILL,

Opposite of the West Patrick's Church in this city,
DEGS to intimate to her friends and the public, that she is prepared to receive Pupils on the

FRANC, HARP, GUTTAE,
THOROUGH BASS,
and Italian and English Singing.

As it is the intention of Miss Hill to become a permanent resident in Quebec, those pupils entrusted to her will be afforded an opportunity of being thoroughly instructed in either or all of the above branches; and from having received instruction under the first masters in the profession, she feels confident in being able to give entire satisfaction.—Terms known by application at her residence, No. 14, Saint George's Street, Grand Battery.

ALSO, English and American Cheese, Scotch Congou, Twankay and Hyson Tea, Fresh Pickles & Sauces, Salad & Castor Oil, Lemon Syrup, Win's and Wardle's Mustard in 1 lb. and 1/2 lb. bottles, Spermacity Olive and Palm Seal Oil, Indian Meal and Oatmeal, &c.

THOS. BICKELL,
Corner of St. John & Stanislaus Street,
10th July.

NOTICE.

THE business heretofore carried on by GEORGE HOWARD will from the 1st May be continued by the Subscribers, under the firm of GEORGE HOWARD & SON, Shoemakers and Saddlers, St. Paul Street, Quebec.
1st May.

THE subscribers will commence in the new establishment as well as the old in a few days, where they will have on hand all sorts of ready-made Implements of Husbandry, such as Forks, Hoes, Axes, Spades, Ploughs, Harrows, &c., &c. Horses shod in the best styles—Good Stabling for Sick Horses. They flatter themselves that they shall be able to give every satisfaction; and as they wish to do business on as short credit as possible, to those who have been in the habit of putting payment from time to time, will have to pay cash on the spot,—as times and prices will be allowed more than three months credit.

GEO. HOWARD & SON,
Foot Hope Street.
18th May.

CALEDONIA SPRINGS.

THE favorable opinion I formerly entertained of the waters of the Caledonia Springs is now fully confirmed, as well from the benefits personally derived, from their use, as from what I observed of their effects on others. The water should be drank in moderate quantities before breakfast, and persevered in for some weeks at least.
(Signed) WILLIAM ROBINSON, M.D.
