Lunenburg Board of Trade.

The Annual Meeting, of the Lunenburg Board of Trade, was held in the Town Council Chamber at 9.30 a. m. on Thursday 12th inst.—D. M. Owen Esq. President in the chair—and the minutes of the previous meeting having been read and approved, the President, presented his Annual Report, reviewing in part the work of the past year, and containing valuable suggestions for the future. It was on motion, and the unanimous vote of the Board, received and adopted and by a subsequent resolution, ordered to be printed in the local papers.

Following is the Report.
To the Lunenburg Board of Trade, Gentlemen

The flight of time, which each year as we grow older seems more rapid than ever before, has again ushered us into a new year, with all its opportunities and possibilities and brought us to the date of yet another annual meeting to which it is a great pleasure to bid you all welcome.

That we have many causes for thankfulness in looking back upon the year that is gone, cannot be gainsaid and it is a significant fact, speaking well for the favored land in which we dwell, that the congratulations extended to you in last year's Report respecting the healthy and peaceful conditions which had for the year therefore prevailed in this Town and County, can with equal good cause be offered to you on the present occasion.

Except in occasional cases the fisheries during the past season have not proven a success, the phenomenally high prices have however helped out well, and strange to say, the merchants and Banks, report quite favorably as to general financial conditions.

It is said by some who profess to have made a study of the matter, that with the new and rapidly extending markets for fish, prices in the future are bound to keep well up. Let us hope this may be so, and for a few good years of better catches.

The changed conditions which now attend the trade between this Port and the West Indies, and other markets, and the fact that a large proportion of our shipments, is made by steamers starting from the Port of Halifax involving the expense and inconvenience to our merchants of first forwarding the same to Halifax, and having them there reloaded, and the additional fact that in consequence of this inconvenience, many of our fish are sold out and out to Halifax parties, who thus reap the profits of the foreign sale, make it highly desirable that this state of affairs be changed.

This remedy appears within easy view. The importance of the Lunenburg fish trade calls for the touching here of a steamer subsidized for the West India Service, and incidentally for the dredging of this harbor. The subsidy of the Pickford & Black Line, expires during the coming summer, and I would respectfully suggest, that the strongest possible appeal be made to the Federal Govt. backed

up, if possible by a delegation of our Lunenburg, Malbone Bay, Getson's Cove, and Riverport Fish Merchants, and others, urging that the resubsidation of the W. I. Service be conditioned for the recognition of Lunenburg as a Port of regular call, a proposition rendered easily feasible by the present competition of several substantial Companies of the subsidy.

With this object attained, and the fish now sold in Halifax, disposed of, direct to West India Dealers, we should also enjoy the benefits of the employment involved in putting them up here, including the manufacture of the requisite packages and then besides, with cold storage here, and on board steamers, a fresh fish business could also be opened up, and no doubt other enterprises in same connection would follow.

I trust the Board will give the subject the enthusiastic attention it appears to me to so plainly call for.

It is pleasing to again advert to the fact that the Board's resolution approving of the Hon. Joseph Chamberlain's Fiscal Policy, for the encouragement of preferential trade arrangements throughout the British Empire, and forwarded to him, met with a most hearty acknowledgement, and response, over his own autograph signature.

With respect to the Railway connection with the settlements on lower parts of LaHave River—Riverport etc. the Board is already aware of the work done, and efforts made in that direction, and that we have assurances from Governmental quarters, that the claims of these sections will not be overlooked.

Following upon the Board's Resolution regarding the objectionable condition of the Halifax & South Western Railway Station here, and the forwarding of same to the manager at Bridgewater, came his courteous reply, and desirable improvements have since been made

with others to follow.

It is a matter for congratulation that, that portion of the Railway between Halifax and Liverpool is practically finished, and will soon be in active operation, with the reasonable prospect of the early accomplishment of its western extension.

The improved Fire Alarm System for the Town, for which we have so long been agitating, has been fully endorsed by the Corporation, and what appears to be a desirable and efficient Electric Alarm System, settled upon and contracted for.

The only difficulty now appears to be the coming to terms with the Nova Scotia Telegraphic and Lunenburg Gas Co., which beside other conditions, are I understand holding out for a certain annual rental for use of their posts etc. which the Corporation has not yet seen its way clear, to arrange to pay.

It is hoped, in view of the addition

A Good Complexion

Is a joy to every woman's heart and man is vain enough not to despise it. Beautiful complexion means pure blood, or in other words a healthy body. Tens of thousands of women take Ferrazone because it's a splendid blood builder, keeps the system in perfect order and adds a splendid complexion wonderfully. I consider Ferrazone the best remedy to give you a clear ruddy complexion I know of. writes Miss Ada E. Brandon of Pembroke. "My skin used to be sallow but after taking a few boxes of Ferrazone a rosy tint was noticeable on my cheeks. I can recommend Ferrazone as a tonic also. For good health and beauty use only Ferrazone. Price 50c. at druggists.

a big attendance and can assure any

one attending more than value for

their money. This team is brought

here at a great expense and it

requires two hundred admissions to

pay expenses. Reports of games

in other towns no larger than ours

this year show an attendance of from

twenty to fifteen hundred. The

attendance at our games have hardly

ever exceeded one fifth of that

number. We have a splendid team

well deserving of the towns favor and

patronage and we think that the least

all lovers of good, clean sport can do,

is to show their appreciation by

attending the games. You will not

be giving something for nothing, for

everyone must admit that the pleasure

The matter of steam subsidization for the West India Service, and the inclusion therein of Lunenburg as a regular port of call, together with that of the dredging of the Harbor referred to in the Presidents report, was vigorously discussed, and arrangements made for an early presentation to the Federal Government, of Lunenburg's claims in these connections.

It was arranged in connection with the above, also that an effort will be made for extension of the D. A. R.'s New York Steamship service to this port, for the purposes of direct fish shipments to New York, and of affording Annapolis Valley, and other producers via Lunenburg, a shorter rail route for their shipments abroad, than that to Halifax.

The utter injustices to Lunenburg appearing in the arrangement of the Halifax & S. Shore Ry. time table whereby passengers to the town from Halifax, are to be kept waiting at Mahone for a couple of hours and often for a much longer time, pending the often times tardy arrival there of the Middleton train, was freely discussed and commented upon, along with other objectionable features of the present service.

An indignation meeting of the Ratepayers of the Town was decided upon as the best position for action, and the following Resolution passed unanimously.

A copy of which Resolutions are thereupon placed in the Mayor's hands.

If You Have a Bad Cold

If you are sneezing and snuffing from a "stuffed-up" head and running eyes the best plan is to get fragrant, healing Catarrhazone, the quickest and surest cure for cold in the head, coughs and catarrh ever discovered. This great healing agent is carried by the air you breathe all through the passages of the nose, throat and lungs. It soothes the irritated membranes, kills catarrhal germs, instantly stops the cough and sneezing, and the antiseptic vapor of catarrhazone that does the curing. A trial proves that a cold can be killed in a few minutes by Catarrhazone. Money back if it fails. Complete outfit \$1.00; small size 25c.

Acknowledgments of contributions, notices of private entertainments and presentations of lists of wedding presents and all announcements of personal interest and of private advantage are charged for at advertisement rates. If Linnamung papers adopt a similar rule and receive as many paragraphs of the class referred to as they do now, they might then make some money.

From statistics it appears that more than \$230,000,000 worth of property in the United States was destroyed by fire in 1904, making the largest annual cash heap in the history of the country. While the Baltimore fire of last February was to be compared in magnitude only with the great Chicago fire in 1871, the record of 1904 without that conflagration would have been the most disastrous of all recent years, save 1900, and would have nearly equaled that year.

War Cost

London, Jan. 13.—A news agency despatch from St. Petersburg says: "The Budget, which was issued to night, estimated the total expenditure for 1905, not inclusive of the cost of the war \$97,317,128 and the cost of the war in 1904 at \$310,500,000."
