

HORRIBLE MURDER OF A NEW YORK NURSE

Beaten to Death With a Bottle and Torn By Human Teeth.

Plumber Arrested on Suspicion Admits Being With the Woman.

New York, Oct. 3.—A victim of a murder of almost unparalleled atrocity, in some respects resembling the "Jack the Ripper" crimes that stirred London and the world years ago, a young woman, believed to be Nellie Quinn, who had been a nurse in the City Hospital, on Randall's Island, was found dead in a room at 431 East 118th street, yesterday morning.

Mr. Elizabeth Schwartz, who rents furnished rooms there, told the police that on Friday afternoon a man and a woman, neither of whom seemed to be more than twenty-five years old, came to her house and engaged the second story front room. They had no baggage, but they were well dressed and the man paid \$3.75 for a week's rent.

Boyle, as Mrs. Schwartz then knew him, came in early yesterday morning, and for some time afterward Mrs. Schwartz heard him pacing the floor. He kept this up so long that she went to his room and asked him to be quiet, and in response he muttered some unintelligible words. She saw him leave the house at about half past ten o'clock, carrying a small parcel, but it was not until about an hour later that she went up to the room, from which no sound had come after his departure.

TRIENNIAL GENERAL MEETING OF EPISCOPAL CHURCH.

Body Got Down to Work in Richmond, Va.--Tribute to Archbishop Nuttall.

Richmond, Va., Oct. 3.—The actual business session of the various divisions or branches of the Triennial General Convention of the Protestant Episcopal Church in the United States began today, when all of the bodies received reports of committees and the presiding officers assigned work to the committees.

Dr. Randolph H. McKim, President of the House of Deputies, feelingly thanked the Archbishop for his visit, and the Archbishop responded briefly, complimenting the American Church on the progress it has made. He left Richmond at noon today.

NO WAR CLOUDS.

Former Jap Premier Assures Taft of Cordial Relations.

Tokio, Oct. 3.—Count Kassura, ex-Japanese Premier and a member of the military council of the empire, today said:

"I am delighted that Mr. Taft's brief visit has been made the occasion for an indisputable demonstration of the friendly relations between Japan and the United States. Attempts have been made to misrepresent the existing relations of both countries, but they must be attributed to the work of interested parties and are hardly deserving of serious consideration."

WORKERS' TRAINING CLASS.

One of the best classes for young men to attend at the Y. M. C. A. is the training class, held every Friday evening. Tea is served at 6.30, and from 7 to 7.45 courses of study are taken up, according to directions of the class, which have proven very helpful in every way.

The Police Committee of Montreal has refused to investigate charges of graft against the force, saying they were an insult.

WATERLOO LIBERALS

MacKenzie King or John Fischer May be Nominated.

Berlin, Oct. 3.—The Liberals of North Waterloo will meet at Elmira to-day to nominate candidates for both houses. It is expected that W. L. MacKenzie King, Deputy Minister of Labor, will be tendered the Dominion nomination.

LATE MR. WIGGIN.

International Harvester Works' Employees Attend the Funeral.

The works of the International Harvester Company, of this city, were closed this afternoon, in order to give all the employees an opportunity to attend the funeral of the late Superintendent, Mr. Wm. H. Wiggin, whose death is lamented by every man in the service.

HIS HAND CRUSHED.

Harry Little, a fourteen-year-old boy, residing at 333 Catharine street north, met with a painful accident this morning at the Canada Sewing Company's works, where he is employed.

LADY WARWICK, BRITISH BEAUTY AND SOCIALIST, AND HER VISIT TO AMERICA.

LADY WARWICK is one of the most beautiful women and one of the best known Socialists in England. When it was stated that she had sailed for America on a mysterious errand, there was much speculation as to her plans.

MISS VANDERBILT.

To Wed Count Laszlo Szechenyi of Budapest.

New York, Oct. 3.—Formal announcement of the engagement of Miss Gladys Vanderbilt, daughter of the late Cornelius Vanderbilt, to Count Laszlo Szechenyi, of Budapest, is made in the Herald today. The Herald states that the announcement is authorized. No date has been set for the wedding, but it is expected that it will take place at The Breakers, the Vanderbilt mansion in Newport, some time this autumn.

SCHOOL SPORTS.

Good Weather All That is Wanted to Make Them a Success.

With fine weather the games and sports of the Hamilton Public School children to-morrow afternoon should be an unqualified success and attract one of the largest crowds that ever passed through the gates of Britannia Park.

CAME IN CROWDS.

Dundas People at the Stanley Mills Managers' Sale.

Large crowds thronged through Stanley Mills & Co's. today, the cause of it being the annual Managers' sale. There was a special excursion in from Dundas this morning, and at 1 o'clock another big crowd of excursionists came in from the Valley City.

FOR A PIPE SMOKER.

A tobacco jar is the correct thing to keep your tobacco in at home.

SAFETY DEPOSIT BOXES.

PUPILS SUICIDE.

A Hundred and Fourteen Russian Scholars End Their Lives.

St. Petersburg, Oct. 2.—During 1906 there were 180 attempts to commit suicide among the pupils of the Russian high schools. Of this number 114 succeeded in taking their lives. The disturbed state of the country is given as being the main reason for this state of affairs.

IMPORTANT CHANGE.

Reduction of Foreign Postal Rates Now in Effect.

The local postal authorities send out this official intimation of the change in postal rates already announced in the Times, and which went into effect on Oct. 1.

BABIES' RALLY.

Cradle Roll of Barton Street Methodists Had a Day.

Yesterday was baby day in Barton Street Methodist Church, under the auspices of the cradle department of the vigorous W. M. S. of this church. The babes and their mothers were invited to a social gathering in the church between 3 and 5 p. m.

DRAWING ROOM MEETING.

Mrs. P. D. Crerar's beautiful home was the scene of a drawing room missionary meeting this afternoon. Rev. A. R. and Mrs. Chevalier, of the Zenana Mission, are in Toronto just now, the guests of Hon. S. H. Blake, and they came to Hamilton to address a meeting arranged by Mrs. Crerar, of those interested in mission work.

U. S. FOUNDRY MEN.

New York, Oct. 3.—The executive board of the American Foundrymen Association yesterday decided to hold the next convention of the organization at Toronto.

MINISTER DEAD.

Philadelphia, Oct. 3.—The Rev. James W. King, D.D., executive head of the mission and church extension of the Methodist Episcopal Church, and known throughout the world of Methodism, died at his home here today.

CHILDREN GOING TO SCHOOL.

Sometimes get more than knowledge in their heads. Skidoo cleans the head thoroughly and is cleanly to use. You do not have to worry; just purchase a 25-cent bottle of Skidoo and a few applications ensure a good ride. Sold by Parke & Clarke, druggists.

COTTON CONVENTION.

Washington, Oct. 3.—The National Association of Cotton Merchants convened today in semi-annual session for a two days' meeting. The convention here is preparatory to the international conference in Atlanta, Ga., October 7 to 9th.

The Man In Overalls

63,766. We're growing.

We are now heading for the 100,000.

Brigandage on the mountain will have to be suppressed.

An increased revenue of \$50,000 is looked for by the city next year. Will that mean \$50,000 extra for the Board of Works?

In the matter of population, however, one Hamilton man is worth a dozen of some other kind.

While we are all taking in our winter's coal we can indulge the pleasant reflection that we have Indian summer still to the good.

It is just possible that the "knockers" made life so miserable for the sandstruck that it took this way of passing in its checks.

Oil has been discovered in Beverly. Had it been gas, the irrevocable would have blamed the Grit majority up there for being a sort of spouting well.

Another matter that might be looked up, are there any colon bacilli in the Coal Oil Inlet?

The quarterly rally of the House of Refuge Committee is the next fashionable function on tapis, whatever that is.

Newsy, trustworthy, cleanly. Those features commend the Times to every man's family.

Hamilton is doing very well, thank you, in these good Grit times.

A course at the Art School would be money in your pocket, young man.

To be sure, for aught we know, the sandstruck may just have been engaged in boiling the water.

They now say that the Spencerian system of penmanship makes sissies of the schoolboys.

Wouldn't it be a judgment or something, if the new fire engine was to be burned to the water's edge, too?

The brigand who is snatching women's purses on the mountain side would confer a favor if he would call at the police station any time during business hours.

Now that the Fire and Water Committee is laid up for repairs, the Board of Trade might make a few remarks, without committing itself.

No, Maude; License Commissioner Fanning is not a baseball fan.

Well, Harry Orchard did not do it this time. Some people will be more apt to believe his story.

Gasoline and a naked lamp are more dangerous than dynamite.

Who was the boy that stood on the burning deck of the sandstruck?

Men are wise who advertise.

A NEW SCHOOL

Will Be Built Near the East End Incline.

School Section No. 3, Barton, which is that section immediately to the south of the city, on the mountain, is to have a new school, and it is to be erected in the east end of the section, somewhere in the vicinity of the East End Incline. The trustees met last night in the present school, which is about three-quarters of a mile south from the city quarry. Mr. Harry Bryant presided. There were two propositions—one to enlarge the present school and the other to build a new school for the accommodation of the rapidly growing settlement at Mount Hamilton. The latter idea met with favor, and a new school will be built there in the near future.

DISTRICT MEETING

Of the Independent Foresters Committee Here.

The regular monthly meeting of the Hamilton District Committee of the Independent Order of Foresters was held last evening in chambers over Traders' Bank, Bro. Wm. McAndrew in the chair. About fifty delegates were present. The principal business transacted was the election of officers for the incoming year, the result being as follows:

J. M. Paterson, Court Pride of Barton, Chairman.

George Clark, Court Pinehurst, Windsor, Vice-Chairman.

H. T. Drope, Secretary.

Horace E. Elmer, Treasurer.

Walter Randall and E. S. Hogarth, Auditors.

Much enthusiasm was manifested in the work of the committee in this district and special efforts will be put forth to make the big I. O. F. week at the Bennett Theatre, commencing Nov. 4th, a success.

MINISTER DEAD.

Philadelphia, Oct. 3.—The Rev. James W. King, D.D., executive head of the mission and church extension of the Methodist Episcopal Church, and known throughout the world of Methodism, died at his home here today.

MONEY FOR DEFENCE OF JAKE SUNFIELD.

His Mother, Mrs. Tamillo, Comes From Chicago and Will Aid Financially.

Eminent Lawyers to be Engaged to Assist Mr. J. L. Counsell.

Relatives and friends of Jake Sunfield, alias Jake Tamillo, who is in jail awaiting trial for the murder of Andrew Radzyk, have come to his aid financially, and he will make a hard fight for his life. His mother, Mrs. Tamillo, has come here from Chicago, and has arranged for a conference with J. L. Counsell, the prisoner's lawyer, this afternoon. She wants Mr. Counsell to get the best legal assistance possible and it is not improbable that Mr. E. F. H. Johnson, or Mr. Louis Heyl, will be retained as pleader. Mrs. Tamillo is staying with her daughter, Mrs. Binker, Sherman avenue. She has visited her son in the jail. To her Sunfield laid the blame for the unfortunate death of Radzyk on Mrs. Radzyk. The accused continues to be surly and the jail officials don't seem to have the same sympathy with him that they usually have for prisoners charged with the taking of the life of a fellow. Mrs. Radzyk takes life easy in the jail and the confinement does not seem to bother her much.

FOUR MURDERERS HANGED; KILLED MAN FOR HIS MONEY

Robbed Italian Laborers and Slew One of Them Who Resisted.

Lancaster, Pa., Oct. 3.—Anthony DeLero, Stephen Carli, Sivero Rodelli and Joseph Celione were hanged here today. All died from strangulation. The crime for which they paid the penalty was the murder of Plato Albamase, and was the culmination of a daring robbery. On the night of Aug. 30th, 1906, they entered a shanty near Gap, Pa., occupied by fifteen Italian laborers, who were asleep. One of the quartette was stationed as a guard at the door, while the other three awakened the sleepers, and with drawn revolvers and

knives, demanded their savings. The amount secured was small, because the men had only a few days before sent away their money. Plato Albamase, one of the laborers, had \$30 on his person, which it seemed was known to the robbers, and they demanded it. He denied he had the money, whereupon they proceeded to search his clothes by force. He seized a razor and fought desperately. In the melee Albamase was shot and stabbed more than twenty times. The four made their escape and fled towards Philadelphia. The wounds about their heads and faces were the means of their arrest soon after.

OLD CASE SETTLED.

Terminal Alley Dispute Is Practically at an End.

Before Judge Snider this morning, the alley dispute between Messrs. H. R. Whipple, J. Finlayson and H. Grierson and the Terminal Station was practically decided. The company will take the present alley and will build a new alley to conform with the wishes of those interested. It was adjourned till tomorrow morning to see if Mr. Finlayson and Mr. Grierson will agree with the proposition. Mr. Whipple has signified his willingness. Mr. G. H. Levy appeared for the Terminal Station Company, Mr. F. S. Morrison for Mr. Mr. Whipple, and W. S. McBrayne for Messrs. Finlayson and Grierson.

TEMPERANCE WORK.

Arrangements for Sunday Meetings in Bennett's Theatre.

The Hamilton and Wentworth District Council, R. T. of T., held its monthly meeting last evening, and discussed plans for the fall and winter. As to aggressive temperance work in the community generally, it was thought best to cooperate in every possible way with the Central Temperance Executive in the holding of Sunday evening mass meetings in the Bennett Theatre during the month of November, and perhaps longer. As to internal activity, it was decided to recommend that each select council in the district hold a reunion meeting as early as possible in October, to mark the beginning of a campaign for new members, culminating in a large ingathering on rally night, in November.

Mr. W. J. Armstrong, Ontario Grand Councilor, was present, and gave a stirring address on the prospects of the order in this Province. Personally a resident and town councillor in Toronto Junction, he told of the success of prohibition in that municipality.

FAIR ON MOUNTAIN.

A First Class Show With Many Good Features.

South Wentworth Agricultural Society's annual fair opened to-day at Wentworth Park at the head of the East End Incline and to-morrow will see the event in full swing. The management has provided a first class fair and excellent special attractions and are deserving of the patronage of Hamilton people in large numbers, as well as those from all the surrounding country. The entry list is the largest the society has ever had, especially in horses and ladies' work—features that are always attractive. The live stock will all be shown on the grounds to-morrow.

There will be speed events, hurdle jumping, ladies' saddle horse competitions, and other features to-morrow, which will afford an afternoon of first class sport.

ARMORY CARNIVAL TO-NIGHT.

A large number of fancy dress skaters will compete for the four prizes in gold to-night at the Armory Roller rink.

A BAD FIRE IN ANCASTER.

A. S. TURNER LOST BARN AND ALL THEIR CONTENTS.

Two Valuable Horses, Some Cattle and \$1,000 Worth of Hay Went Up in Flames.

A mysterious fire took place last night in the barns of A. S. Turner, just over the dividing line of Barton and Ancaster, in the latter township. The men stopped work about 10.30, and it was on the stroke of 11 when the blaze was noticed. Three or four barns were totally destroyed with all this year's crops in addition to which a number of new implements, two horses and a number of cattle, were all burned to death. The barns were pretty well insured, but the crops were not insured. One of the barns was a fine new one, built only this past summer. Mr. Turner is a well known horseman, and the horses which he lost were valuable trotters. He also lost 50 tons of hay—worth \$1,000 or more on the ground.

CANADIAN CLUB

Will Discuss Asiatic Immigration at Season's Opening.

At a meeting of the Trustees of the Canadian Club last Monday night in the Conservatory of Music, it was decided to have a general open meeting for all club members on Monday evening, Oct. 14th, at 8 o'clock. The question will be discussed "To what extent shall the Asiatics be admitted into Canada," and representatives of the political parties and the Trades and Labor Council will be invited to express their views. The meeting will take place in the lecture room of the Conservatory of Music. This will be the first of a series of such meetings, which promise to be very interesting.

FROM HONOLULU.

Spoke on Oddfellowship at Unity Lodge Meeting.

Unity Lodge, I. O. O. F., had a distinguished visitor last night in the person of Bro. Crosse, of Columbia Lodge, Honolulu. He was accompanied by his brother, Charles Crosse, of Oakville Lodge, and Bro. Brooks, of Baltimore, Md., was also a visitor. Mr. Crosse, of Honolulu gave an interesting account of Oddfellowship in Hawaii and congratulated Capt. G. O. Luke and his team upon the excellent work of the first degree. Speeches were also made by the other visitors and a pleasant evening was spent.

THE USUPPER

It is, retorted Lavarick coolly. "And although you think it's a lie, it's the truth. That's where Providence comes in. I tell you..."

in the place that will amuse me till then. Don't trouble to come down to the front door, Sir Jordan," he added, with a grin.

CHAPTER XXIII

The Right Hon. Sir Jordan Lynne, Bart., M. P., sank into a chair as the evil face of Lavarick, alias Jim Banks, disappeared below the window sill and covered his eyes with his hands.

What he had feared for so long, ever since that awful night when the old man had died, had come to pass at last.

For years he had expected Banks, the man who had witnessed the deathbed scene, to turn up and levy blackmail upon him, and the man had turned up.

If he had only kept away a few weeks longer, until Jordan had secured Audrey and her large fortune, he might have set the ruffian at defiance.

But now—just on the eve, so to speak of the marriage which had painted the door to the edifice of fortune which he had built with so much care and toil and cunning cleverness—he dared not defy the man.

He did not show himself to any one but his valet the next day; he was too ill and unwell.

"Certainly," said Jordan, and went softly out of the room. Lavarick followed him to the door and looked round the handsome corridor, with its costly carpets and hangings, pictures and statuary.

At dusk the valet lit the candles and brought a cup of beer, which Jordan had ordered. He was making an attempt to dispose of it when the man reappeared and announced that a gentleman wished to see him.

Jordan nodded, as he bent over his letters. "Ah, yes, the messenger from London," he said. "Let him come up, please."

The valet ushered in an elderly, white-haired man, dressed in the dark-colored clothes favored by clerks and lawyers, and wearing a grey beard and a pair of spectacles, who bowed respectfully to Sir Jordan as he motioned him to take a chair.

Both waited until the valet had had time to get out of hearing, when Lavarick rose, and, gently opening the door, listened for a moment.

"Lock it," said Jordan, in a constrained voice; but Lavarick shook his head. "No, no, the flunky will be coming upon some business of other, perhaps, and would wonder why the doors were locked. This is better," and he set a chair against it; "he can't come in now without giving us warning."

"What are you doing? What is the matter?" "Matter!" hissed Lavarick. "You've drugged the liquor!"

"Not a bit of it," retorted Lavarick, airily. "I'd fed even Trald to see through this get-up. Good, ain't it?"

"Enough," he said. "My patience is exhausted. I'd rather give up anything than spend another quarter of an hour breathing the same air with you. The will—you have come to sell it; name your price. I will buy it here and now, or never!"

Jordan leaned back in his chair, his eyes downcast. "I have decided on my course of action in the matter," he said, slowly. "I will give you the money you ask."

"What's that to do with it?" "Merely this," retorted Jordan, almost sweetly. "that I think it highly proper that in exchange for my money you should give me a forged copy of the will and retain a genuine one for another occasion."

A gleam of real admiration lit up Lavarick's face. "Pon my soul, you're cute," he exclaimed, under his breath. "That's what you'd have done, isn't it?"

THE HAMILTON TIMES

WEDNESDAY, OCT. 3, 1907.

BUILD RAILWAY NOW.

The Council last night passed the H. W. & G. R. by-law as sent up from the Finance Committee...

As far as the city is concerned, all obstacles to the immediate work of construction of the road have now been removed...

ASSESSMENT FEATURES.

A good many people express disappointment at the result of the population count of the assessors...

But an astonishing feature of the returns, and one for which the Assessment Department cannot offer any satisfactory explanation...

Assuming the correctness of the count—and we confess to a doubt in this case—the only explanation seems to be that the people of those wards use more house room per family than formerly...

The total increase in assessment is \$2,653,134, of which \$2,376,059 is increase in realty assessment...

The business tax assessment shows an increase of over 63 per cent., mostly in Wards 2, 6 and 7.

In Wards 1, 2 and 6 there have been decreases in income assessment, that of \$33,580 in Ward 2 being the only important one...

Ward 7 leads with an increase of 1,204 in population. It likewise leads in increase in realty assessment, with \$656,299, a gain of over 14 per cent. over last year...

On the whole, the result indicates steady and encouraging growth. There has evidently been no effort made to inflate assessment values...

The Toronto World presents the charge that the C. P. R. Telegraph Co. is holding up the press in the west for excessive rates as "an argument for public ownership."

A commission is off, on its travels, to find out what states of the union do with prison labor. How does that affect the promise of Mr. Whitney—that when he got into office there would be no sale of prison labor?

Rev. J. G. Shearer, the "morality man" of the Presbyterian Church in Canada, addressed the Labor Congress at Winnipeg on the Sunday labor question...

Guelph is already facing the difficulty of controlling its public utilities, and is discussing means to make the commission more amenable to the people.

NO CRIMINALS WANTED.

The determined opposition of the Dominion Government to the shipping of police court offenders and other criminals to Canada has evidently not been without its effect on the British authorities...

The Canadian Gazette editorially says: "Mr. Gladstone, as Home Secretary, has not seen his way to go the full length of Lord Strathcona's request..."

We have heard a good deal about the Canadian railways overworking their men to the point of exhaustion, and they have been severely censured therefore...

EDITORIAL NOTES.

There is nothing to prevent Whitney from refusing to sell pulpwood to be shipped to Yankee mills.

Has anybody observed anything in the way of civil service reform in Premier Whitney's methods? Don't all speak at once.

The C. P. R. has had a good year, its income having increased \$11,000,000. There is nothing small about figures like that.

A contract for flags for all the rural schools in Ontario has been awarded to J. J. Turner & Son, Peterboro. The Legislature voted \$5,000 for the purpose.

Hon. Mr. Lemieux may be the special envoy to Japan on the immigration matter. He is the very man for the work, and we have no doubt of his ability to secure a reasonable arrangement.

The New York Commissioner wants \$8,435,420 for purposes of street cleaning. It is a large sum, larger by \$2,000,000 than even New York has yet paid. But it is said that "cleanliness is next to godliness."

R. L. Borden told the Vancouver Oranger that the Alberta and Saskatchewan school question could not be made an issue in the next Dominion campaign, and that if the people of the new Provinces wanted any amendments to the constitution conferred upon them they could apply to the Imperial Parliament.

It is said that one-fifth or more of the people of Canada derive their income from the C. P. R.

WEDDINGS OF AN OCTOBER DAY.

MISS REVELL BECOMES THE BRIDE OF MR. H. H. COWING. Kemp-Day Nuptials Yesterday—Marriage at Willow Grove Attended by Hamilton People.

A very pretty wedding took place at the residence of the bride's parents, Frank H. and Mrs. Revell, 153 James street south, at 3 o'clock yesterday afternoon, when their eldest daughter, Miss Kate Fanny, was united in marriage to Henry Harold Cowing, the bride being given away by her father, Rev. Canon Wade was the officiating clergyman.

The ceremony took place in the drawing room, which was tastefully decorated with ferns. The bride looked very sweet in a dainty gown of white dotted mull, with wreath of orange blossoms, and carried a shower bouquet of bride's roses. The bridesmaid, Miss Marjory Revell, sister of the bride, was prettily gowned in white organdie, and carried pink carnations.

The groom, who was some handsome pieces of furniture, also a cheque from the bride's father, Rev. Canon Wade presented the bride with a very pretty prayer book bound in white kid.

The happy couple left on the 5 o'clock T. H. & B. train for eastern cities for a honeymoon trip, and on their return will reside in this city.

The dresses worn were much admired, some of which were: Mrs. F. H. Revell, mother of the bride, handsomely gowned in white net over white silk.

Mrs. Cowing, mother of the groom, black silk costume. Mrs. Tracy Holness, of Montreal, brown silk costume, champagne colored chapeau with plumes.

Mrs. Fletcher, Toronto, black silk, chapeau to match. Mrs. Dawson, helicopter organdie, hat to match.

Mrs. Fisher, black silk. Mrs. Robinson, blue silk, blue hat. Mrs. Warrington, aunt of the groom, black silk, hat to match.

Mrs. Fish, aunt of the groom, rose brocade silk and black velvet chapeau, feather boa. Miss Ruby Cowing, sister of the groom, white costume with black velvet trimmings.

Miss Olive Cowing, sister of the groom, white silk dress. Miss Esther White, costume of white serge and white felt hat.

KEMP-DAY. The wedding of Alexander Park Kemp and Miss Jessie Day was celebrated on Wednesday afternoon, Oct. 2, at the residence of the bride's mother, 426 Catharine street north. The affair was quiet and homelike, only the immediate relatives being present.

The wedding of Alexander Park Kemp and Miss Jessie Day was celebrated on Wednesday afternoon, Oct. 2, at the residence of the bride's mother, 426 Catharine street north. The affair was quiet and homelike, only the immediate relatives being present.

The officiating clergyman was Rev. Herbert B. Christie.

CREIGHTON-GIBSON. "Forfar Farm," Willow Grove, the residence of Mr. and Mrs. James Gibson, was the scene of a very pretty wedding on Wednesday, Sept. 25, when their second daughter, Mary Sinclair, was united in marriage to Mr. James A. Creighton, by Rev. Dr. Wallis, Caledonia. The bride entered the drawing-room on the arm of her father to the strains of the "Lohengrin" wedding march, played by Miss Minnie Gibson, Hamilton. The bride was becomingly attired in a dress of ivory embroidered taffeta en print.

# COLORS THAT PREDOMINATE IN PARIS

## The Art of Basting

**P**LAIN colors are offered in all materials, from velvets and silks to serges and broadcloths.

The range of colors comprises all the rich, warm tones the dyer's art can create. Strong blues, wine-reds, pansy tones, castor, olive, the dark greens, grays and the bronze browns may be said to predominate.

At present moment there is considerable talk of plum and violet shades. These may have an untoward success, but it seems more probable that they will be launched with such a glowing success at the beginning of the season that they will be short-lived.

In other words, the colors will turn themselves out by their own intensity. Already these colors are so widespread that they will become common before they become fashionable.

The blues and browns are the colors on which the most assurance can be placed. The special feature marked in the new fabrics is the prevalence of stripes. These are shown not alone in the practical materials, but also in the dressier grades.

They present many wholly new effects, both in the diversity of striping offered and in the results secured by combining the different weaves. Importers and modistes appear to be very confident that velvet is to have a great vogue. The colorings shown are exquisite, and reveal many new and lovely tones.

Checked and striped velvets are popular. They are light in weight, supple in quality and show both close and open designs.

Some of the cloths show chevron stripes of color, alternating with straight ones. Frequently these chevron stripes are built up of fine stripes simulating soutache.

They may be of a darker tone than that of the material, or they may show lines of old pink, Sevres blue or green, or pure citron between the regular stripes.

The long shoulder seam remains with the new blouses, and the sleeve with the long mitten-like cuffs.

The belt line has dropped down into its natural lines in front and raised the tiniest bit in the back, not more than one-half an inch.

One sees a great deal of colored embroidery on plain net and tulle, both in white and the dyed laces.

Skirts are rather full and very little trimmed, except in flat embroidery or lace insets with bands of the material.

In the illustrations given the first frock is in embroidered silk voile in white, trimmed with bands of tucked silk net and Irish lace.

The tiny cravat is of the new shade of delft blue, with a hat of white corded silk faced with blue. The blue plumes are the only trimming.

The second gown is worked out in bronze green cloth, very supple, with bands of coarse net dyed to match the gown. The lace yoke gives a smart touch. The hat is of black velvet.

The third illustration shows a brown broadcloth worked out with net; the tiny cravat is of pink. The hat is of brown felt, with pale pink roses.

The fourth model would be charming carried out in velvet, voile or tulle. It is trimmed with hand embroidery in gold and Oriental colors.

None of these models will present any great difficulty to the home dressmaker.

Their style depends entirely on the combination of colors and the new Fesitan touches on the net and lace embroidered bands.

## The Home Dressmaker's Problems

**W**HEN cutting out sleeves, to avoid the disaster of cutting both for the same arm, fold the material either face to face or back to back. Place the pattern on it and cut them together.

A proper pair of sleeves is bound to be the result.

So many home dressmakers overlook the fact when sewing on a collar that the neck of the bodice or blouse should be slightly smaller than the base of the collar band and the bodice notched here and there while putting the collar on.

By doing this wrinkles are avoided.

Always shrink a new braid before sewing it to a skirt. In shortening a skirt pattern always fold a pleat across the middle of the pleat. Never shorten from the top or the bottom of a skirt, or you will have a wretchedly hanging skirt.

Never hold a skirt in your lap while basting it. It is most important that it be kept flat. It should be placed on a table and basted from top to bottom with small, even stitches. The seams should be kept perfectly level and straight.

In making up any material with a nap, remember that the nap should always run downward. This

fact should not be forgotten when sponging and pressing, otherwise there will be a shiny streak on the surface of the material.

For the elderly woman, and also for the woman whose back is not perfectly flat and straight, the shoulder seams should have more of a tendency toward the back of the armholes. A young, straight figure may have the shoulder seams on perfectly straight lines.

All shirtwaist seams should be fitted with the arms crossed behind the back of the head, as well as in some of the reaching positions.

A sleeve that is not the necessary length from the armhole to the elbow can never be a comfortable one. It will drag and in many cases make the back of the blouse draw and wrinkle between the shoulders.

Dressmakers who find it difficult to press curved seams will find a rolling pin a good pressing board, if a soft, clean cloth be wrapped around it.

When putting a steel or whalebone into a bodice, bend them slightly at the points where they will touch the waist line before putting them in the casing. You will find that the bodice will fit very much better.

## Smart Tailored Suits

**T**HE smart girl wears with her tailored skirt sleeve-ties and stickpin to match. They may be bought in set, and are really very pretty. They are shown in jade, amethyst, coral and in all sorts of settings.

Another requisite is the French handkerchief to carry in the pocket of the tailored shirts. They are made in linen and silk and come in many clever plaid effects.

There is a decided novelty in belts known as a shaped linen belt. They are made of a good quality of linen, closely stitched, embroidered in Oriental colors and shaped so as to fit the waist closely.

Long mannish looking stocks of white linen, pique or duck are extremely popular and smart for wear with the tailored shirt.

## Colored Nets

**C**OLORED nets will take the place to a considerable extent of chiffon for the construction of the separate waist.

They are more satisfactory than chiffon because the costume idea of making the waist of a different fabric, but of the same color as the skirt and coat, can thus be carried out at a price which will appeal to women of moderate means.

## For Elderly Women

**T**HE dressing of the neck is a point for the most serious woman. To the elderly woman it is a crucial test, and needs careful treatment. In the majority of cases something softening is required immediately next to the face, and something light in color. A severe line is unbecoming, except to the freshest of faces.

The soft mull ties, with the attractive embroidered or lace ends, should have a prominent part in the elderly woman's neckwear. Besides, they are unusually smart this season, and are worn by the young as well as the elderly.

The bonnet and hat are much-discussed questions for the elderly woman. The bonnet tied under the chin is entirely out of fashion. In its place is the bonnet toque, which is not only becoming, but entirely suitable as well.

Stitching is an important factor in the trimming of these suits. In some cases it is quite as elaborate as braiding. A great deal of soutache braid is used.

Broadcloth always makes a handsome tailor suit, especially for one that must serve the purpose of best frock, homespun, serge and chevot make the nicest possible materials for suits for every-day wear.

## Neckwear for Winter Wear

**T**HE white coat sets will not have very much favor for wear with the tailored suit. They are too cold looking, except for the early weeks of winter.

The high standing collars and the stiffly searched collars with bow wings, worn with tail red ties, will be favorite collars for the business girl.

A form of lingerie neckwear that undoubtedly will be popular is the jabot, and more particularly the Marie Antoinette plastron.

Every woman in Paris is wearing this favorite type. They are made with Irish lace, pleated lingerie frills edged with Val, or any dainty, flattery, frilly combination.

Silk scarfs are unusually smart, and there are a number of new ideas in printed silk scarfs both in coloring and designs, which are found to appeal to all women who love artistic, effective touches.

Some of the latest designs are in the border effects, printed upon chiffon or voile grounds.

Feather boas will come in for a fair share of consideration. In these the fashionable idea is best contained in the marabout idea, frequently combined with curled ostrich.

The marabout boa will be used both for the street and evening purposes. The flat stole, or shawl-like effects, will receive the most consideration for dress purposes.

## Separate Waists

**F**ANCY and plain silks.

Linen, figured and plain.

The lightweight and non-shrinkable woolsens and flannels.

Lace and net, in white, cream and dyed.

Sheer cottons, elaborate with embroidery, in combination of eyelets and solid effects.

There is a sentiment that the colored waist is to gain more prominence than it has ever had. This is because of the favor of the one costume idea, meaning the one colored scheme from the shoulder to the toes.

## Braids Fashionable

**M**ANY braids are used.

They take the form of soutache, wide and heavy effects in fancy braids of monotone and combination colors.

Wide braids of heavy silk construction are used as band trimmings upon many of the new cloth skirts, particularly those of a solid color.

## The Newest Effects in Lace

**H**EAVY laces are particularly good this season. Fashion tendencies are accenting the use of filet, soutache, cluny and Irish laces, used in combination effect.

Both wide bands and separate motifs are used. The motifs are frequently divisible into six parts, and can be applied to the fancy of the individual designer.

The reason that the lace bands will be so prominent this season is that they are particularly adapted to the ornamentation of the latest styles in costumes and wraps.

Metal thread idea promises to be the leading one in the band laces. They are shown in gold, silver and aluminum.

The metal is used as a foundation for white, black and colored embroidery.

## Fashion's Latest Fancies

**A** PRETTY way to trim a child's buttoned frock is to add a decoration across the breast consisting of rosettes of inch-wide white satin ribbon and of black velvet ribbon on each bretelle, with a straight band of ribbons across.

The "halo" evening head dress is the latest fashion to be accepted by the feminine sex. It is merely a large thin ring fastened to a comb in the back. The hair must be dressed high in front and with the Grecian knot in the back, and the comb is fastened in this knot, the ring hovering lightly above the hair at the sides and front.

Yellow and ochre shades, which are still popular, are by far the hardest color to wear, for most women. A person having a clear, dark complexion, would look charming in a pale lemon chiffon or nylon gown, embroidered and trimmed with silver and fine valenciennes lace.

The motor hats are prettier than ever, and are vastly becoming. They fit closely to the head, and have strings to pin firmly in the back. A soft hat which can be bent down is just as serviceable and prettier than the motor hat. Many such hats are worn, and also sailors, with a veil tied over them and pinned at the nape of the neck.

A metal belt shows interlocking rings with tiny enameled flower in the center of each. The clasp is formed by the stem and foliage of a single flower.

Laces dyed to match the costume is a fad that will undoubtedly remain in favor for a time. All the

heavy varieties of lace are used, but the valenciennes is now taking the lead.

All the new fall suits are trimmed with buttons. The coats are fastened double or single breasted with them, and many have side slits in the back, decorated with half a dozen rows of buttons. These buttons are of the same material as the suit, or of velvet, and sometimes are set in a ring of metal.

A dress of pale blue mull, made with a yoke and undersleeves of white handkerchief lawn and valenciennes, has a girle of deep rose pink liberty satin. The hat to be worn with this gown is leghorn, draped with brown tulle, and trimmed in front with two deep pink roses. A pink parasol to match is carried.

## The Season's Shoulders

**D**ROOPING shoulders are not likely to obtain much success in the garments intended for street wear.

The Paris models so far shown in this cut give too contracted an appearance in the back to appeal to the American taste.

They are likely to obtain in evening wraps, because a looser and broader effect can be secured in such a garment, which this season must be of a nature to slip on and off easily, as well as not to crush the large sleeves worn beneath.

Broad shoulders are the proper thing for the tailored garment, in both suits and separate coats intended for day wear.

It is in these styles of garments that the restrictions of the American taste are likely to prevail over the French fashion indications.

## Petticoat Prettiness

**I**N PLAIDS the brilliant Scotch colors will dominate.

Stripes will be more of the nature of Pekin stripes.

Black and white effects are shown in narrow as well as two-inch widths.

Moreen of not too heavy a construction is to be revived, and will be shown in fancy effects and color combinations.

The Spanish flounce is made this season almost knee-depth. The style, while good for moreens, is hardly practical for silk models, the objection being that the friction caused by walking would very soon wear the flounce out.

Fancy moreens are shown in three-color combinations, and are generally self-trimmed. Satin stripes alternate with moire stripes in the designs.

Velvet ribbon is a prominent feature in the trimming of silk petticoats. In the more elaborate styles it alternates with the laces.

Mohair skirts are ornamented in like fashion, though a heavier weave of lace is used in trimming them.

The adjustable flounce is the favorite way of making the new mohair skirts.

## New Lace Coats

**O**NE of the prettiest of the new lace coats so generally worn this season was of Irish lace. Applied around the edge of the coat-skirt were crotone roses, cut from an all-over pattern of crotone.

In each corner was a pompadour crotone basket overflowing with roses and tied with ribbons.

This would be an effective treatment for a net instead of a lace coat, with the crotone motifs outlined in soutache.

**C**ARELESS and inaccurate basting will ruin any gown. The pattern is often blamed for an ill-fitting waist or bad-setting skirt when the fault is all in the basting.

The proper removal of the threads is as important as their proper putting in.

Have you ever watched a novice catch the end of a thread, and, pulling the seam in a tight bunch, use all her strength to break the thread? Have you noticed the seam afterward?

If it were silk, lawn or other thin materials there were probably holes all the way up, or the threads pulled all across the breadth.

If velvet, the nap was hopelessly matted, or the materials were so matted and crossed that only a damp cloth and strenuous pressing would remove the defects.

Basting threads should be clipped at intervals of three or four inches, and each length carefully removed without wrinkling or crossing the goods in the slightest degree.

Clipped in this way, the thread will yield to the least pulling. An ivory or bone stiletto is a good implement for this work, and should always be kept in the workbasket.

Where straight and bias edges are brought together great care must be taken not to stretch the bias edge or hold it too much, causing it to pucker in an unsightly way.

The breadths should be straightened by smoothing down and across the threads of the fabric. This will bring the bias edge in correct position. It should then be pinned at intervals of three or four inches, and afterward basted in a three-eighth-inch seam.

The stitches should be quite short, as when long bastings are used the goods are apt to slip out of position in stitching on the machine.

In basting a waist, the seams should be put together with the greatest of care.

Notches should be brought together and pinned, so that there is no possibility of holding in one side more than the other, thus keeping the parts in their true position.

In basting, it is always best to use as fine a thread and needle as possible, especially for silks, velvet or fine sheer materials. A coarse basting will leave a mark of tiny holes in the fabric after the stitches are removed.

Velvet garments are easily ruined by coarse basting.

In basting seams of any sort never use the running stitch, as in so doing one will invariably pucker the goods.

Take one stitch at a time, and that a short one.

It is not at all uncommon to see a novice in sewing baste up a seam, and finding a difference of an inch or two on one side, recklessly take the scissors and cut off the extra length.

The pattern is then blamed for an ill-fitting garment when the fault lies entirely with the unskilled basting.

Many persons in putting on braid are tempted to stitch it on the machine without basting.

This is a great mistake, as the machine is almost sure to hold the braid too tightly, causing the goods to draw and spilling the effect.

Nothing is more ugly than trimming not properly applied, nothing will give a garment a more home-made appearance.

The success of any gown depends more upon the detail of its construction than on costly materials.

## Shapes in Millinery

**L**ARGE hats of the Rembrandt shapes are ultra fashionable.

They are worn off the face, and so form a becoming setting for it.

In order to meet the proportions of some of these hats, which are huge, the hairdressers are making the effects of the head as large as possible, not high, but wide.

Curis and braids play an important part in the new coiffures.

Nowadays, when trying on hats, one very often receives certain bunches of false hair, puffs or even coronet braids.

These are adjusted to fill in the sides and back, and not only make the hat becoming, but the woman more attractive.

## For Mourning Wear

**U**NDER the best of circumstances the wearing of it requires knowledge and judicious handling.

Appropriate jewelry made of gunmetal and black enamel only should be worn.

There is a decided line between the wearing of mourning and the wearing of black.

The latter is so universally worn nowadays by women that it is rather confusing to know just where and how the line is drawn. For example, uncut velvets are mourning, other varieties are not.

FULLER DETAILS OF NEW CITY ASSESSMENT.

Mayor Stewart is one of those who are not satisfied with the 1908 assessment, although it shows an increase of \$2,633,134 over last year. The Mayor was quite sanguine that a much larger increase than this would be shown when the rolls were completed, and frequently predicted that the advance would be a general surprise. He said last night that he expected it would have been at least \$3,000,000. The increase as shown, however, is generally regarded as one to be content with, especially so in view

of the increases made last year, particularly in Ward 5. The Mayor contends that with the natural growth, as indicated by the great building operations that have gone on all over the city this year should have caused a larger increase. The comparison of population by wards is as follows: 1908. 1907. Ward. 1. 5,731. 5,609. 2. 6,497. 6,922. 3. 9,288. 9,227. 4. 9,293. 8,884. 5. 7,805. 8,283. 6. 11,430. 10,782.

What Joy to Be Freed From Piles. It is not only the intense itching and stinging that causes such suffering from piles, not only the dread of a surgical operation, with its pain, expense and danger, but the whole system seems to be undermined, and as the ailment drags on from day to day and year to year one becomes discouraged, despondent, and in despair gives up all hope of cure.

TWO WIVES.

PECULIAR BIGAMY CASE REPORTED FROM OWEN SOUND.

Frank D. Wilson Weds Miss Margaret Weir While His Wife Was Living in a House Near the Weir Residence—Warrant Issued. Owen Sound, Oct. 2.—On September 2nd last Rev. Mr. Frank, Methodist minister in Brooke, married Frank D. Wilson to Miss Margaret Weir, both of this town. Wilson was 35 years old and the girl about 19. It turns out that Wilson is really Thomas A. Richardson and a married man, with a wife and three children. About a year ago he became acquainted with Miss Weir, and became a frequent visitor at her home. He said he was a C. P. engineer, and his irregular visits were explained as being due to his runs on the road. In reality he was a foreman for James Findlay, at his sawmill. The girl's parents objected to his attentions to their daughter, but he succeeded in marrying her. They left for London on their honeymoon trip on September 3rd last. His absence he explained to his wife as being due to his going to the west. On Sunday Miss Weir's parents became anxious through not hearing from her for two weeks. Inquiries were made and it was discovered that Wilson had a wife living here, only a short distance from the home of his second wife. A warrant was issued for his arrest and placed in the hands of County Constable Pearce. Richardson is well connected, while his wife belongs to one of the best families in the district. Much sympathy with her is expressed, as he left her in anything but good circumstances.

ON THEIR WAY TO KENORA. Doukhobors, Arrested at Whitewater, Again on the March. Winnipeg, Man., Oct. 2.—The forty Doukhobors who were in Whitewater a few days ago, and who were put under arrest for walking on the tracks of the Canadian Pacific, are now on the way to Kenora, where they are expected to arrive to-morrow morning. The Canadian Pacific found it impossible without violence to keep them off the tracks, and it has apparently decided to allow them to proceed as far as Kenora.

SETTLING THE CLAIMS. Michigan Central Making Progress in Essex Explosion Tragedy. Windsor, Ont., Oct. 2.—Crown Attorney Rodd has been notified that the Michigan Central Railway is making excellent progress in settling the dynamic claims resulting from the dynamite explosion at Essex. The company has already settled a considerable number of the smaller claims, while an agreement has practically been reached in regard to the larger ones. The claims for personal damages from relatives of those killed or injured are still to be settled, and on these the company will probably make a fight in the courts.

CLAIM HE AIDED ESCAPE. Uxbridge Man Tried in Whittby on Charge of Helping Son. Whittby, Ont., Oct. 2.—Wallace Keown was put on trial here yesterday afternoon, charged with aiding escaped prisoners from Whittby jail to escape capture. McKeown's son, Albert, was one of the men who got away from custody on July 9 last. They went to Uxbridge, where McKeown lived, and on the night of July 12 visited the McKeown home in the absence of the father. Albert went to his own room, secured a change of clothes, and Ryan, his companion, secured a coat in the yard. They also procured something to eat. While the men were making themselves comfortable, Wallace McKeown returned, and after a time told the men to leave. In a short time he was arrested, charged as above. On promising to try to induce his son to surrender he was allowed out on bail. He failed to get the boy to come back, and so faced Judge McIntyre yesterday afternoon. The evidence brought out, in his Honor held, was insufficient to convict.

Scarcity of Men Teachers. St. Catharines, Oct. 2.—The Collegiate Institute Board to-night considered the appointment of a junior English teacher. Forty-four applications were received, only three being from men, and of these only one was properly qualified. Miss Dora Odium, a former resident, now teaching in theergus high school, was engaged at a salary of \$900 per annum.

ROSY CHEEKS. The Ambition of Every Woman. Hollow cheeks with dark lines, sallow complexion—how a woman hates them. But rosy cheeks, clear skin, bright eyes—give them to a woman and she is happy.

In the blood is found the first sign of trouble. It grows thin and watery, its color fades, and increasing pallor and sallowness give the outward evidence of the change within. Soon the nerves weaken, the heart easily tires and palpitates, strength declines.

The delicate mechanism of the womanly functions is interfered with, and pleasures, activities and even duties are loaded down with the burden of declining health.

Why is it that women neglect the first warnings? Usually she waits till she is ready to drop—and it's too late. These conditions, if early checked, easily cured at the beginning—but when long established Ferrozine will remove the cause and cure the trouble.

Ferrozine's action aids the three principal functions of the body—digestion, assimilation, elimination. By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferrozine supplies nutrition—this gives strength, vim, stability. Elimination is assured because Ferrozine quickens the action of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferrozine puts you on the right road—the one that leads to health. Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrozine.

As a tonic and restorative, Ferrozine is unrivalled. It cures because it feeds and nourishes, because it contains the elements that build up and strengthen. Try it yourself—sold everywhere in 50c. boxes.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS. ANY even numbered section of Dominion Land in the North-West, except in provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of the family, or male over 21 years of age, to the extent of one-quarter section, of 160 acres, more or less. Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader. An application for entry or inspection made personally at any Sub-agent's office may be wired to the homesteader by the Sub-agent at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by the Agent. In case of "persecution" the entry will be summarily cancelled and the applicant will forfeit priority of claim. An application for inspection must be made in person. The applicant must be eligible for homestead purposes under the conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader. An application for entry or inspection made personally at any Sub-agent's office may be wired to the homesteader by the Sub-agent at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by the Agent. In case of "persecution" the entry will be summarily cancelled and the applicant will forfeit priority of claim.

COAL—Coal rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined. QUARTZ—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,000 x 1,000 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or the claim will be forfeited. If the locator has expended \$500 on his claim, he may, upon having a survey made and upon complying with other requirements, purchase the land at \$1 per acre. The patent provides for the payment of a royalty of 2 1/2 per cent. on the sales. PILES—Mining claims generally are 100 feet square; entry fee \$5, renewable yearly. An applicant may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000. W. W. COBY, Deputy of the Minister of the Interior. COUNCIL APPROVES H., W. & G. BY-LAW.

Effort to Have it Submitted to Electors Defeated on a Vote of 14-5.

English Capitalists Behind Road Which Will Cost Over \$2,225,000.

The Hamilton, Waterloo & Guelph Railway by-law was given its third reading and passed by the City Council last night after an effort to have it submitted to the electors at the municipal elections for their verdict was swamped on a vote of 14-5.

Only two other members, Ald. Peebles and Lewis, voted in favor of this. Ald. Farrar wanted that portion of the clause saying that the city should join with the company in going to the Legislature and asking it to ratify an arrangement to tax the company for only \$25,000 as a fixed assessment struck out.

Charges Made in It. Two and a half hours, a considerable portion of which, as usual, was wasted in useless talk on matters not pertaining to the by-law, was spent considering it. No changes of any great importance were made although several amendments, supported chiefly by Ald. Peebles, Ald. Kennedy and Lewis, were made and voted down.

More Talk of "Grease." The old talk of grease which has been introduced so often by aldermen in discussing matters in the Council this year was heard again. It was Ald. Kennedy who threw the bomb. He expressed himself as considerably surprised at the Mayor's stand.

English Capitalists Behind It. There was a long discussion over the estimate given to build the road, Ald. Kennedy and Lewis protesting that until 1911 was much too long. Ald. Kennedy presented an estimate of what the road was going to cost.

The clause saying that unless the company spends \$100,000 within two years it forfeits the franchise. Ald. Kennedy wanted amended to read \$500,000.

MORELAND'S BAD LOOKING RIDE.

Jockey Sobel's Sensational Stunt On Merrymaker Yesterday.

Edgely Won First Race at 10 to 1—Lester L. Hayman Beaten in the Steeplechase by Steve Lane—Marylebone Cricket Club at Ottawa.

Yesterday's crowd at the Hamilton Jockey Club track was the largest of the week, and the racing was good, although it was marred by one bad looking race—the first on the card. Over 1,000 persons came up on the G. T. R. special from Toronto, and the speculation was brisk. It was a bad day for the public, as the favorites were knocked down one after the other till the seventh race. Good old Paul Clifford was the first and last public choice to bring home the bacon. Five second choices finished in front, and one long shot.

The track was in good condition, although not fast, and the work of Starter Dade was satisfactory. Seven horses faced the flag in the first race, which was a great betting event. Cloten was installed favorite and although a barrel of money was put in on him by the Toronto contingent, his price went up to 9 to 5, and some books quoted him at 2 to 1. There was a good play on Lee Harrison, and Bonnie Reg, and a few played Edgely for place and show, the Gallagher horse being 10, 3 and even. When the barrier went up the favorite was flat-footed, and when Moreland got him under way he was four lengths back of his nearest attendant. The outsider Edgely was off in front, and made every post a winning one, landing the long end of the purse in a hard drive by half a length from an other outsider, Bonnie Reg, who beat the third horse, Lee Harrison, handsly. Moreland's ride was freely criticised, and the stewards really noticed it. The sheets were called in and the stewards will investigate. This was not Moreland's first poor ride during the meeting, his work on Perfector some days ago having caused considerable talk.

The most sensational riding of the meet was done by Jockey Sobel, who was brought here from New York yesterday morning by Charlie Murray to ride his jumper Merrymaker, who has shown an inclination to run out in previous races here. Sobel kept Merrymaker straight for the first turn of the field, and had him in second place when the water jump was reached. Here Sobel

SHRUBB BEAT BILL DAVIS.

Handicap Foot Race Last Night Drew Big Crowd.

Tom Clancy Will Coach New Rough Riders' Team—Tigers Are Eager for the Fray—Detroit Won Twice Yesterday.

The ten-mile handicap foot race at Britannia Park last night was a rather tame affair. The only interesting thing about it was the appearance of Alfred Shrubbs, the English running champion, in action. Shrubbs undertook to give Bill Davis, the long distance Indian runner, and discoverer of Tom Longboat, 250 yards start in ten miles. If he had given him a mile the race would have been more interesting and closer. As it was, Shrubbs did not have to extend himself, and consequently his time for the distance was poor—not much better than Adams or some of the Y. M. C. A. amateur cracker could have made. Shrubbs overtook the Indian on the first lap of the ninth mile, and then slowly gained on him and when the fifth mile was covered he had gained another lap—a quarter of a mile—on him. The men ran together till the last lap of the tenth mile, when Shrubbs let out a link and galloped in 50 yards in front. His time for the ten miles was 55 minutes 40 seconds.

Following is the time by miles: First..... 4.51 Sixth..... 32.47 Second..... 10.25 Seventh..... 38.41 Third..... 15.35 Eighth..... 44.23 Fourth..... 22.30 Ninth..... 50.13 Fifth..... 27.16 Tenth..... 55.46 There was a large crowd at the park, hundreds of Englishmen being present to cheer their fellow-countryman. Shrubbs was given a cheer every time he passed the stand, and he sprang when passing the stand and eased up when on the back stretch, where he could not be seen. The timers were: Don, Cameron, Billy Daniels and Geo. Austin.

BIG FOUR LEAGUE.

Tigers Will Not Go to Ottawa Next Saturday.

Toronto, Oct. 3.—The affairs of the International Rugby Union advanced another stage last night, when a meeting was held at the King Edward Hotel, which was attended by the representatives of the three of the clubs, Mr. Baskerville was on the telephone for Ottawa. President Ballard, of Hamilton, occupied the chair, and the Argonauts were represented by W. A. Hewitt, Messrs. W. C. Hagar and T. L. Paton were present in the interests of Montreal. A re-arrangement of the schedule was made, under which only one game will be played on the coming Saturday, and Hamilton will not go to Ottawa unless the schedule is: Oct. 5—Argonauts at Montreal. Oct. 12—Ottawa at Argonauts, Montreal at Hamilton. Oct. 19—Argonauts at Hamilton, Montreal at Ottawa. Nov. 2—Hamilton at Ottawa. Nov. 9—Ottawa at Montreal. Nov. 16—Hamilton at Argonauts.

Some Snap Shots at Sport and Sportsmen

Some of the officers of the Hamilton Rugby Club are surprised and displeased at the action of Secretary Hay, of the O. R. F. U. in regard to the Tigers and the senior Ontario series. The Hamiltons have always understood that in case of a senior team dropping out in the intermediate champions of the previous year or the runners-up in the series would move up, and it may also be said that they were not always consulted by the secretary. With four well-matched teams in the Inter-Provincial League, and the same number in the O. R. F. U. senior series, the public will be treated to the best brand of football it has ever paid to see, and the O. R. F. U. instead of being weakened, will be strengthened thereby, and bigger gates will be the result.

Toronto Telegram: The year of our Lord 1907 will probably live in sporting history as the year of muddles. In lacrosse the C. L. A. had a most unsatisfactory year, championships being won on the swearing powers rather than the playing abilities of the teams, while the close of the N. L. U. season brought tales of buying and selling which, unfortunately, that body did not see fit to investigate.

In track athletics the war between rival governing bodies has been many-sided, and the end is not yet. For the Y.M.C.A.'s are still sore over Longboat's reinstatement by the C. A. A. U. The American Union still treats the Canadian body with lofty contempt, and the Federation is not yet too dead to take an occasional kick at its western enemy.

Nor is football anywhere near the outside of the trouble zone. Look at the O.R.F.U. It does not know where it is at till the Big Four take another bearing to discover their exact latitude and longitude. And where are the latter? Who can tell. Tigers don't know whether they are to play in Ottawa or Montreal Saturday, and Argos don't know whether they are going to play at all, while the eastern clubs can only make a rough guess at what players they will or will not be allowed to play.

The Hamilton Jockey Club stewards have modified the ruling in the case of G. W. Forman to make it cover the present meeting only. There are worse owners than "Buck" Foreman racing on the Canadian circuit.

More than twenty millions have been spent by American and English yachtsmen and by those who have taken a personal interest in such sport over the de-

NEW CONDITIONS IN SELLING MEAT.

FARMERS WILL DO WELL TO TAKE NOTE OF THE INSPECTION ACT.

Ottawa, Sept. 28.—The custom prevailing among farmers throughout Canada of slaughtering animals, particularly swine, upon their own premises and selling the dressed carcasses on the local market, is one which entails more or less loss to the producer. Before the advent of packing establishments, the domestic trade was supplied by the local butcher who were necessarily compelled to provide for future supplies, and, as a result, the local markets were created. Conditions have changed, however, the local dealer no longer supplying the domestic trade, which has passed into the hands of the packing houses, which are now the distributing centres for meats. Packers can afford to, and actually do, pay higher prices and sell at lower values than the local butchers for reasons which are obvious when one considers that the profits are represented by the by-product, which is sold at a price far above the cost of the meat. They represent smaller profits in by-products. Again, dressed carcasses are imperfectly handled by the farmer, the meat in many cases being bruised and unhealthful, this as well as the improper chilling, being deterrent to good prices. Animals, especially hogs, require scientific chilling, otherwise those parts which enter into the process of curing become sour and unfit for market. Packers prefer to buy their meats on the hoof, and for the reasons set forth above, are able to pay higher prices for the same.

In view, however, of the large trade carried on in some parts of Canada, more particularly during the fall and winter, in dressed pork, as well as in other dressed meats, attention may be directed to one of the regulations made under the new Meat Inspection Act, which is likely to have a considerable effect on the business above referred to. The Department of Agriculture at Ottawa having assumed the responsibility of inspecting and practically guaranteeing the healthfulness of all meats and meat products sent out by the packing houses, must, of necessity, protect itself by making sure that no diseased carcasses are permitted to enter these establishments. The most effective way of preventing the entry of such diseased meat is, of course, the careful ante-mortem inspection provided for by the regulations, but in view of the large trade carried on in dressed carcasses and of the fact that both farmers and packers have been in the habit of handling meats in this way, the officials in charge of the enforcement of the act have decided to inspect dressed carcasses under inspection dressed carcasses under such conditions as will enable them to judge with reasonable certainty as to whether the animal, prior to slaughter, was free from disease. Provision has therefore been made for the admission of inspectors to dresser houses to look at the head, horns and liver held by their natural attachments, such carcasses to be inspected before entering the establishment, and if found fit for food to be so marked and admitted for packing purposes, while if found to be diseased, to be condemned and tanked.

This being the case, it is incumbent on every farmer bringing dressed hogs or other animals to market to remember that unless the carcasses are dressed in accordance with the regulation mentioned above, namely, with these organs left in their proper positions, it will not be possible to get the carcasses packed, attempts by local combinations of butchers and others to depress the price of dressed meats, and it will be well for producers to bear in mind the new conditions and when, for any reason, unable to market their stock on the hoof as they should undoubtedly do whenever possible, dress their hogs, as well as meet the requirements of the new act.

LIPTON ENDORSED.

His Action in Regard to Cup Race Approved.

London, Oct. 2.—Nothing further has yet transpired concerning the suggested new international yachting trophy, but inquiry in various yachting circles reveals the conviction that a new international contest will be arranged to take place in British waters in 1908 for yachts built under the new international rule, and that competitors are expected from America, France, Germany and Sweden. The strongest approval is expressed on all sides at the course followed by Sir Thomas Lipton in the matter of his challenge to the America's Cup, and is evident that any departure from the lines of the Royal Yacht Club challenge would offend the sentiment of the British and Irish yachting world.

CRICKET AT OTTAWA.

The Marylebone Retired Yesterday Afternoon for 119.

Ottawa, Oct. 3.—The cricket match of the season at the capital opened yesterday, when the Marylebone Cricket Club of England opened their match against the Canadian eleven on Rideau Hall grounds. The visitors, winning the toss, went to bat first, and were retired for 119 runs, a very creditable score for the Canadian bowlers. The wicket was slow, but both sides played first-class cricket. One of the largest crowds is present at a cricket match in Ottawa saw the first day's play. Only three of the Marylebone batsmen reached double figures—W. H. Stammers, 29 and Brantford 12, the others "ailing easy" to the bowling of Montgomery, McGovern and Brewster. Montgomery had the best average of the Canadian bowlers, getting three wickets for 28. Brantford got four for 46, and McGovern two for 12. The Canadian fielding was another feature of the afternoon play.

ADVICE TO ATHLETES.

An old trainer, who now makes a good income by putting athletes in good condition, impresses upon his pupils the necessity of keeping the bowels regular, particularly when not in active training. Irregularity in this function will offset the good done by months of training. He objects to the use of drugs, generally, and recommends the following simple vegetable mixture, which he claims is all that is necessary: 1 ounce Fluid Extract Senna Leaves, 1 ounce Fluid Extract Burdock Root, 1 ounce Fluid Extract Dandelion Root, 1 ounce Carriana Compound, 4 ounces Simple Syrup. Dose: 1 dessertspoonful 2 or 3 times a day, or after meals. This will keep the system in a healthy condition, and has not the weakening effect of many cathartic pills. This information is valuable to any young men interested in athletics.

THE UNWORLDLY CHURCH

The Only One That Can Dominate the Future.

Richmond, Va., Oct. 2.—In a sermon in Holy Trinity Church during the celebration of the 300th anniversary of the founding of Anglican Christianity in America the Lord Bishop of London, gave his idea of the characteristics which the Church that shall dominate the future must possess. The most evangelistic, the most catholic, the most orthodox Church, he said, will produce no effect upon the world if it is not clearly and unmistakably, and before all the world, unworshipful. Bear with me, then, when I say, as my last word, that the greatest danger of the church on both sides of the Atlantic is worldliness. In one sense it is impossible for the church to mix too freely with the world. Into the slums of East London, into the business of Wall street, into the mining camps at the Klondike, the church must go, and no human interest in the world is outside the interest of the church.

LOOKS LIKE DETROIT.

Border City's American League Team Won Twice Yesterday.

Washington, Oct. 2.—Two victories over the Washingtons yesterday, and the defeat of Philadelphia by the Clevealands, brings Detroit within only a fraction of a point of being the American League champions of 1907. Indeed, Manager Jennings and his men are already hailed as the victors, and tonight they are being overwhelmed with congratulations from all points in the league circuit, and elsewhere. Their going into the enemy's country and bringing a close and unbrokenly-fought contest to a successful issue compels admiration in every quarter, and it is felt here, in Washington, at least, that the team which will compete for the world's championship this year measures up fully to that which favored the colors of the Na-
