More Timber For Platform

Leading Lights of Liberals Decide on Six More Articles of Faith.

Selection of a Local Moses to be Made After the Elections.

Other Items of News Gathered On the Lower Mainland Yesterday.

From Our Own Correspondent.

Vancouver, Aug. 23.—Six new planks have been added to the liberal platform as follows: Reform in the civil service; building of a number of new trunk roads; a system of irrigation for the unwatered lands of the interior; a short line to the Kootenai coast; a system of minimum tax, and a definite form of compulsory arbitration.

When he left he was assured by the members before the opening of the session of the House, and these members will choose a member, and this was why Lipton could not lift the cap.

Mr. High McLean has returned from Ottawa, where he has been in connection with concessions asked from the government by the V. V. & E. Company.

Mr. McLean says that he has been assured by members of the government that the V. V. & E. will be licensed, B-nuses, however, are the last thing taken up by the government.

When he left he was assured by the members of the government that the V. V. & E. proposals would receive favorable consideration.

Timber deals have been few and far between of late. In fact, there is little or nothing doing in this line.

Next week there will be held in Westminster between an American and an Irishman.

The Irishman will wrest the American's daily capacity of 2,100 tons.

Mr. James Slater, general ticket agent for the C. P. R., has returned from a holiday trip to San Francisco.

Mr. Slater says that he had had a quick rest from his arduous labors, but is quite satisfied with his work.

Mr. Slater's return home, which is considered an excellent authority on yachts, in speaking of the great yacht race, gives it as his opinion that the race in the crew more than the yacht.

That English crews are certainly not as competent as American crews, and this was why Lipton could not lift the cap.

RAILWAY OFFICIALS' ANNUAL INSPECTION

C. P. R. General Manager and Party Visit Granby Smelter Works.

Grand Forks, Aug. 21.—D. McNeill, general manager of the C. P. R.; R. Marpole, general superintendent Pacific division; E. H. McHenry, chief engineer; J. W. Leonard, assistant general manager of Western lines, and F. F. Busted, divisional engineer, arrived here this afternoon by special train from Roseland.

Mr. McNeill is making his annual tour over the Western lines paying special attention to the future requirements in the way of improvements owing to the rapid increase of traffic.

At a conference with A. C. Finner, vice-president of the Granby Smelter Company, H. N. Geller, assistant general manager, and Supt. A. B. W. Hodges in regard to the enlargement of the Granby smelter, Mr. McNeill gave assurances that all the additional spurs, sidetracks and engines for the enlarged service will be provided.

The smelter is now operating four furnaces and two new ones are being installed.

STILL DRAGGING ITS WEARY LENGTH

Debate on the Transcontinental Railway Continues at Ottawa.

From Our Own Correspondent.

Ottawa, Aug. 21.—The strike in Booth's mill is over, and operations are in full blast tonight, the men having resumed at the old rate of wages.

Most of the second-class clerks of the civil service at a meeting tonight protested against their exclusion from the bill increasing the salary of certain of the civil service.

They suggest an amendment to change this. The transcontinental railway problem is dragging its weary length along. It will not terminate before the end of the year.

L. P. Duff, of Victoria, was in Ottawa and with Hon. Mr. Sifton as counsel on the Alaska Boundary question.

FATHER AND SON KILLED.

Clinton, Ont., Aug. 23.—Thomas Webster and his little son were struck by a Grand Trunk train here this morning and instantly killed.

THE UPRISING IN TURKEY.

As the Italian embassy officials say no report of their departure as yet has been received.

This is taken to indicate that there have been developments making the step inadvisable at present.

The Turkish acceptance of the Russian demands has been confirmed at the Turkish embassy here.

The negotiations respecting Macedonia are conducted on the continent.

Foreign Secretary Lansdowne and most of the ambassadors are being away from London.

The scheme for a solution of the Macedonian question outlined by the independence league yesterday, could not be approved by the Powers, as it is evident Turkey would never submit to a peaceful occupation of the Bosphorus and the Dardanelles.

The Turkish officials say this could only be done after fighting.

RUSSIAN SQUADRON CAUSES UNREST

Fleet Ordered to Retire on Receipt of Turkey's Assurances.

Paris, Aug. 21.—Official advice state that the Russian squadron of India is likely to leave Turkish waters within the next few days, as the Turkish government has given adequate assurances that it will meet all the Russian demands.

The withdrawal of the warships, though due chiefly to Turkey's assurance, may also be attributed in some degree to Russia's desire to avoid a step which might appear to be antagonistic to Bulgaria.

London, Aug. 21.—The Turkish ambassador called at the Foreign Office this afternoon to make enquiries regarding the report that it was the intention of the Powers to make a joint naval demonstration in Turkish waters, and to enter a protest if anything of the kind was contemplated.

The officials made it clear to him that Great Britain has taken no action of the character indicated. It appears as if Italy would also refrain from despatching warships to Turkey.

Oil wells on fire.

Benham, Aug. 21.—Fire this afternoon destroyed 25 derricks in what is known as the shoe string district in "Our Lake Oily Fields."

STRENUOUS BANK CLERK.

Seattle, Aug. 21.—John W. Dryden, clerk of the Washington National Bank, is under arrest, suspected of holding up the San Juan lodging house in this city.

He denies the crime and the president of the bank believes him innocent. Dryden walked a gun when arrested. Officers afterwards said he believed the officers to be burglars.

PORTS WILL BE OPENED.

Chinese Minister at Washington Confirms Report Made to Congress.

Washington, D. C., Aug. 21.—Sir Liang Chenung, the Chinese minister, called at the State Department today. He informed the acting secretary that he had received a despatch from his government confirming the statement that Prince Ching had informed the United States Minister in Peking that the treaty to be signed on October 31st would open ports for opening two ports in Manchuria.

GAMEY ARRIVES.

Winipeg, Aug. 21.—(Special)—R. R. Gamay, of Gore Bay, Manitowish Island, Ont., arrived in Winipeg this morning on a business trip.

OVERHAULED ONCE MORE.

New York, Aug. 21.—The International Mercantile Marine coast steamer St. Paul left this port today for Philadelphia to be overhauled.

Prosecuting Humberts Here Ahead

Public Interest Grows More Intense as the Trial Proceeds.

Probable That a Verdict in the Case Will Be Given Today.

Labori Reflects Severely on Officials of Administration of Justice.

From Our Own Correspondent.

Paris, Aug. 21.—Public interest is growing more intense as the Humbert trial is nearing its close.

Although the general expectation is that a verdict will be rendered tonight, the court officials believe that the advocate-general will reply to Maitre Labori, leading counsel for the defense, thus postponing the verdict until tomorrow.

Among those who had reserved places near the judges today was Maitre Labori, the editor of the "Journal de Paris," who was at the time living here and quite ill, and died a few months later.

His first venture as theatrical agent was in 1870, when the editor of the "Journal de Paris," who was at the time living here and quite ill, and died a few months later.

Maitre Labori caused a considerable sensation by a bitter denunciation of A. Cattani, the money-lender, for prosecuting the Humberts. Incidentally mentioning M. Waldeck-Rousseau and M. Vallee's name in the prosecution, he declared the political party leaders had become degenerate, while M. Vallee, he pointed out, was a man of letters.

Against the Humberts and afterwards, as Minister of Justice, supervised their prosecution. The charges of Maitre Labori, although avoiding specific accusations, reflected severely on the chief persons in the system of the administration of justice. The trial was adjourned till tomorrow.

Oil wells on fire.

Benham, Aug. 21.—Fire this afternoon destroyed 25 derricks in what is known as the shoe string district in "Our Lake Oily Fields."

Load Salisbury's Condition

London, Aug. 21.—10 p.m.—A bulletin issued at 9:45 p.m. says: "There is a slight improvement in Lord Salisbury's condition, which, however, is still very serious."

GERMAN SOCIALISTS.

Berlin, Aug. 21.—The Socialists are entitled to have appointed from their party one of the three vice-presidents of the Reichstag on account of their increased representation, and other party members want to coincide this.

Mr. E. J. Coyne and Mrs. Coyne have returned to the city after spending some time in Winnipeg.

Mr. Robert Halliday, member of Mr. John Halliday, M. P., and a prominent member of the Ontario, is in the province on pleasure.

Mr. Halliday said he came here to see the country, and is very much impressed, particularly with Vancouver. Mr. Halliday left yesterday by the Charming to visit Victoria.

Mr. Fred. Grant, a nephew of A. J. Grant, and an accountant in the Bank of Hamilton, who has been

additional furnaces will be blown in a month hence. This will give the Granby smelter a daily capacity of 2,100 tons.

Mr. McNeill made a thorough examination of the smelter, which he characterized as one of the most modern reduction plants he had ever inspected.

The visitors then proceeded to Midway, Greenwood and Phoenix. At the latter point they will be shown through the Granby mines.

Fugitives Tell Painful Tale

Defenceless Villages Burnt and Inhabitants Tortured and Killed.

Bulgarians Advised to Start war at Once to Head Off Turkey.

Sofia, Aug. 21.—Fugitive families from Krushevo, who have arrived at Monastir, gave terrible details of the situation which prevailed in the town of Krushevo after its capture by the Bulgarians.

The latter, they said, acted like demons, running from house to house and street to street, slaughtering everybody they met.

The town is now a heap of ruins.

The Sofia Post prints a strong article urging the Bulgarians to prepare for the worst, inasmuch as they can depend only Turkey.

A despatch from Burgas to the Antantone news agency says that the villages of Urunkov and Potarnakovo are in flames, and the sound of cannon can plainly be heard from the Bulgarian frontier.

The Greek patriarch asked the Bulgarian archbishop to address a circular note to the Bulgarian ministers and school teachers in Macedonia, urging them to remain quiet and not to fight against the Sultan.

The archbishop replied that he was sorry that he was not in a position to do so.

TEXT OF CONTRACT HOTEL CONTRACT

Document Upon Which By-Law Giving The Ratepayers' Sanction For Concessions is Based.

Following is the full text of the contract entered into by the corporation of the city of Victoria and the Canadian Pacific Railway Company for the construction of a large tourist hotel on the James Bay flats.

This agreement made this 17th day of August, 1903, between the corporation of the city of Victoria, British Columbia, hereinafter called "the corporation" and the Canadian Pacific Railway Company hereinafter called "the company" of the other part.

Whereas the corporation has expressed its willingness to grant to the company a site for an hotel in the city of Victoria, British Columbia, together with certain other privileges as hereinafter set forth, in consideration of the company agreeing to build and operate such hotel on the site so to be granted, and in consideration of the corporation agreeing to set forth the true agreement between the corporation and the company in reference to the aforesaid matters; now therefore this agreement witnesses:

1. The corporation will forthwith fill up or cause to be filled up the piece of land hereinafter described and intended to be granted to the company to the average levels of the surrounding streets to be hereinafter described, and shall also cause to be filled up the lands now known as "the James Bay mud flats" and shown on the plan now marked exhibit "A" filed in the office of the city engineer of the corporation and signed by the president of the corporation, the said plan being for the purposes of identification, such filling up, save as to the nature of the material used, to be to the reasonable satisfaction of the architect employed by the company, and the corporation shall, in respect of the said hotel, the corporation shall not, however, be required to fill up space where in the construction of the hotel, and but for such space, excavations would have been necessary, and it will be left to the company's architect to determine what filling up may be dispensed with.

2. The corporation will before the said hotel shall have been completed, construct and thereafter maintain and keep in good repair and repair the sidewalk and sidewalks (as shown upon the said plan) surrounding the land to be granted and conveyed hereunder. Such sidewalks shall, if of macadam, be equal to the best macadam roadways in the city. The sidewalks on Government and Hotel streets abutting on the land to be conveyed by the corporation to the company shall be of concrete and equal to the best concrete sidewalks of the city.

3. The corporation will, within four months from the final passing of the by-law hereinafter mentioned, grant and convey to the company (and the company will accept when so desired) by a good and lawful deed, for the site of the said hotel, and which is described as follows: Commencing at the southerly corner point of the extension of Government street, where it joins Belleville street, on the south side of the said former James Bay mud flats, and running in a northerly direction along the line of the said extended Government street, four hundred and forty (440) feet to the corner point of a street intended to be made to run easterly and to be called Hotel avenue; thence running easterly along the southerly line of said intended new street at an angle parallel to the bolt street five hundred and fifty-five (555) feet, more or less, to the southerly corner of the said new street at its intersection with a street intended to be made as an extension of Douglas street; thence running southerly three hundred and thirty (330) feet to the southerly line of the said intended extension of Douglas street to Belleville street; thence westerly along the northerly line of Belleville street five hundred and fifty-five (555) feet to the point of intersection with the said which said piece or parcel of land will contain five (5) acres more or less, and is more particularly delineated and described in the plan marked exhibit "A" mentioned in paragraph 1 hereof, and in the plan marked exhibit "B" mentioned in paragraph 2 hereof.

4. In dealing with the remainder of the said James Bay flats the corporation will not at any time hereafter permit buildings to be erected thereon which shall be a detriment to, or which shall lower the value of the property hereinafter conveyed to the said hotel, and will cause to be inserted an apt clause (running with the land) to this effect in every conveyance from the corporation of any portion of the remainder of said flats.

5. The corporation will supply to the company or its successors or assigns for use in connection with the hotel so to be erected as aforesaid from its present water works, or from such other water works as may be hereinafter constructed and in operation for the purpose of supplying water in Victoria, a good and sufficient supply of fresh water for hotel and domestic purposes without cost or expense to the company, its successors or assigns for a period of ten years from the completion and opening of the said hotel.

6. The corporation shall grant immunity to the company, its successors or assigns, from the payment of all municipal taxes (including local improvement, school taxes and sewer rates), levied upon land and improvements, and from the payment of any other taxes, levied upon the company or by the owners or occupants of the same in respect of the land hereinafter described, and which is to be conveyed by the corporation to the company, and of all improvements, levied upon the land, rates and assessments, which but for this agreement the said corporation or any subsidiary body now has or may during such period have power to levy or assess in respect of the said lands and improvements or any part thereof.

7. The corporation undertakes as a condition of this agreement that from the time the said hotel is ready for operation and during such operation the company or its successors or assigns in operation for the company as the case may be, will receive an hotel and liquor license, subject to such restrictions, and to the payment of such fees, and the execution of such preliminaries as shall be imposed upon or required from other holders or applicants for similar licenses in the said city of Victoria.

8. In consideration of the foregoing the company covenants and agrees with the corporation that it will within one month from date, when said land so to be conveyed to the company, has been granted and conveyed to the company, and will, with due diligence (provided the said filling up is duly proceeded with to the satisfaction of said architect, as aforesaid) proceed with the erection of a modern and first-class hotel, and that such hotel shall be maintained and kept open by the company at all times and for the purposes of an hotel, and that no part of the land so granted and conveyed to the company and that no part of the land so granted and conveyed for the said hotel and buildings appurtenant thereto.

9. In the event of the hotel being wholly or partially destroyed by fire or other cause the company shall, within a reasonable time repair or replace the building so destroyed with a building of the value of three hundred thousand dollars (\$300,000.00) at the least, and from the time of the completion of the same shall thereupon and thereafter continue to maintain the same as an hotel as aforesaid provided.

10. This agreement, after the same has been duly executed by the company, shall be embodied in a by-law having for its object the adoption of the same by the corporation, and the corporation shall, after having received the assent of the ratepayers of the city of Victoria in accordance with the provisions of the Municipal Clauses Act the same shall be executed by the corporation.

11. The said lands shall be filled in as aforesaid within one year from the date hereof, otherwise this agreement shall, at the option of the company, be null and void of no effect, and the corporation, if then conveyed to the company, shall be conveyed to the corporation.

In witness whereof the corporate seal of the corporation of the city of Victoria, and of the Canadian Pacific Railway Company have been hereunto affixed, and the corporate seal of the corporation of the city of Victoria is hereunto affixed in the presence of:

The corporate seal of the Canadian Pacific Railway Company is hereunto affixed in the presence of:

EIGHTEEN ANNUAL CONFERENCE.
Cleveland, Ohio, Aug. 18.—Two hundred delegates are in attendance at the eighteenth annual conference of the International Metal Polishers, Buffers, Brass Workers and Brass Moulders' Union of North America, which began here today. The convention devoted the morning session to the examination of credentials.

WESTWARD, HO!
Toronto, Aug. 18.—The second of the harvesters' excursions to the West to-day carried about 2,000 people. All the excursionists centre in Toronto. Yesterday's complete figures show that 1,512 people were taken to the West. There will be more special trains tomorrow.

Her Father—What do you do for a living?
Her Mother—Pick winners, sah?
Her Father—But you feel that shore you got a steady job?—Puck.

H. T. CRAWFORD DEAD.
Prominent Barrister of Winnipeg Passed Away at Owen Sound.

Winnipeg, Aug. 18.—(Special.)—Winnipeg people were deeply grieved today upon learning the news of the sudden death of Horace T. Crawford, barrister, of this city. Mr. Crawford was today Attorney-General Campbell, legal partner of Mr. Crawford, and Dr. Crawford's brother, left today for Owen Sound.

PRINCESS DOING WELL.
Munich, Bavaria, Aug. 18.—Princess Rupprecht of Bavaria, who returned with Prince Rupprecht from Japan by way of the C. P. R. and New York, has been operated upon for appendicitis by Dr. Killian of New York. The Princess became ill in Japan and Dr. Killian, who was in Japan at the time, accompanied her to Munich. The Princess is doing well.

SCENES OF THE INSURRECTION IN TURKEY

A BAND OF REVOLUTIONISTS IN THE WOODS NEAR ERZURUM WHO ARE FIGURING IS REPORTED TO HAVE TAKEN PLACE LAST WEEK.

Fighting the Underwriters

Ottawa Board to be Indicted for Combining to Raise the Rates.

Action Taken Under Criminal Code and Interesting Time Expected.

High Compliment Paid to Three Canadian Commanding Officers.

From Our Own Correspondent.

Ottawa, Aug. 17.—There is going to be an interesting time in insurance circles in Canada. Recently, in view of getting even with Ottawa for the heavy losses which have sustained since 1900, the insurance companies ordered the imposition of from 25 to 50 cents on each hundred dollars of insurance premium taken in Ottawa. This was done through the medium of the Canadian Fire Underwriters' Association, the secretary of which, A. H. Hadriell, has admitted that certain companies had conspired and discussed the rates for fire insurance, and had decided upon the imposition of the above mentioned rates. He pressed the opinion that every company constituting the Canadian Fire Underwriters' Association is guilty of an infraction of the criminal code, and to-morrow the Price Press will lay all the companies and their officers to rest. Action will be taken under section 429 of the criminal code, which makes any corporation liable to a penalty ranging from \$1,000 to \$10,000 for combining to prevent or lessen competition in the price of insurance upon person or property.

The Militia Department publishes a notice that applications for commanding officers by July 31st next.

Major E. H. Hills, M. E. Engineers, Deputy Assistant Adjutant at the War Office, has been appointed to examine the candidates for the position of adjutant to have them strictly up to date. He will be here within a month, when his report will be made to the War Office.

The British War Office has paid a high compliment to three Canadian officers by inviting Colonel Otter, Toronto; Colonel O'Neil Drury, of Kingston, and Colonel Evans, of Winnipeg, to attend the autumn manoeuvres in England. In the event of their acceptance, they must be ready to depart for England in a few days.

Military operations this year are to be on a very large scale, involving the movement of 200,000 men.

The debate on the railway question was continued today by Messrs. Leanos, Morrison and Durrain. The latter spoke exclusively about British Columbia. He pointed out the great importance of the railway to the development of the province, and prophesied that within ten years the bulk of the wheat crop of the Northwest will be shipped to the markets of the world via Port Simpson.

The match race between Charlie Gaudin and Durran for \$500 a side and \$500 presented by the town, resulted in a win for Durran by three lengths.

A letter from Canadian Commercial Agent Jardine in South Africa, says eleven South African colonies have adopted the Bloemfontein tariff, which provides, among its other features, preference for British goods.

South Africa preference in their markets, they will have to pay the maximum rates on entering the South African colonies. He says Canadian goods are finding a market in South Africa, but suggests that Canadian firms combine and send travellers through the country. He says there is commercial depression at present owing to the British government slaughtering twenty million dollars' worth of supplies on the market at forty cents on the dollar, and also to scarcity of black labor.

Bashi Bazouk's Murderous Work

The River Filled With Mutilated Bodies of Women and Children.

Turkish Authorities Aided the Vandals in Their Work of Butchery.

Berlin, Aug. 17.—According to a despatch received by the Frankfort Zeitung, the river near Mosul, Mesopotamia, is filled with the mutilated bodies of women and children who have been massacred by Bashi-Bazouk.

A despatch which reached here from Usukab says that 600 Bashi-Bazouks, under the command of Colonel H. H. Hills, M. E. Engineers, pillaged and destroyed a number of Christian villages in the districts of Deh and Okir in the Turkish coast, and that the Turkish authorities, it is added, connived at the outrages and furnished the Bashi-Bazouks with arms and uniforms so that they might appear to be regular soldiers.

Sebastopol, Aug. 17.—The squadron of the Russian Black sea fleet which has been ordered to the Turkish coast, sailed today. It is under the command of Rear-Admiral Krueger.

London, Aug. 17.—According to information in the possession of diplomats in London, there is no reason at this moment to fear danger because of the difference between the Powers in regard to Macedonia, or that the trouble will spread beyond the confines of Turkey.

One of those who is participating in the exchange of notes regarding the situation in Macedonia, is the British ambassador in Constantinople. Nothing has developed to indicate any suspicion, or to give rise to the suspicion of any conspiracy on the part of Russia upon the demand made by Russia upon the Porte. A full exchange of views has occurred between the powers concerned. War between Turkey and Bulgaria might lead to a general conflagration. It is to prevent complication of affairs of this character that every effort is being made by the Powers to maintain peace between these countries. I have no information regarding the exact destination of the Russian squadron which is being ordered to the Turkish coast, but within forty-eight hours it will reach whatever point has been selected. There is no doubt that the sole object is to make Turkey understand that Russia is in earnest, and that her demands must be complied with without delay. I have confirmed advice as to the general character of the revolution. Turkey has a free hand so far as the military operations within her own territory are concerned, but the suppression of the revolt is not a matter of a week, and the longer it drags on the greater is the danger of international complications, which all the Powers are zealously laboring to prevent.

Vienne, Aug. 17.—In connection with Russia's action in sending a squadron of Lord Salisbury, the Associated Press is officially informed that Austria has agreed to accept the Russian proposal. Russia does not intend to violate the spirit of the Russo-Austrian-Balkan agreement. Austria's ambassador at St. Petersburg, it is understood, however, is making efforts to induce Russia not to carry out the proposed demonstration.

THE GERMAN WAR LOAN.
Aids for Thirty-Nine Thousand More Men and Nine Million to Pay Them.

Berlin, Aug. 18.—There seems to be no doubt that the sole object is to make the Reichstag for an increase in the permanent military establishment by about 33,000 men, to be organized into two army corps, thus raising the standing army to about 845,000 officers and men. The increased annual charge is estimated at \$3,000,000, exclusive of equipment. It is affirmed that the proposed increase has nothing to do with the present position of foreign questions.

Canal Treaty Rejected.

Bogota, Colomb' Aug. 12, via Buenaventura, Aug. 18.—The Panama Canal Treaty has been rejected unanimously by the Colombia Congress.

Prince Ching the Nigger in Woodpile

Mongolian's Stubborn Resistance Reason For Russia's Slow Movements.

Peking, Aug. 17.—The arrangements made by the United States Minister Conger for the signing of the treaty between China and the United States, providing for the opening of Mukden and Tientsin on the date of Russia's promised evacuation of Manchuria, ends this stubborn resistance by China which, for some time past, has been opposing the opening of these ports.

St. Louis, Aug. 18.—Beverly S. Warden, who was arrested Saturday night because he wanted to board a street car and none would stop for him, and who finally drew a revolver and forced a policeman to come to a halt, was acquitted in the police court today.

The accident which occurred on the night of the street car strike, in which a man was killed and several others injured, is being investigated by the police.

St. Louis, Aug. 18.—Beverly S. Warden, who was arrested Saturday night because he wanted to board a street car and none would stop for him, and who finally drew a revolver and forced a policeman to come to a halt, was acquitted in the police court today.

Shamrock Gets Time Allowance

Reliance's Larger Spread of Sail Gives Challenger 1 3-4 Minutes.

St. Louis Man Forces Reentrant Motorman to Obey Signal.

St. Louis, Aug. 18.—The official measurements of the Reliance and Shamrock III, which were announced tonight at the New York Yacht Club, show that the Reliance will have to allow Shamrock III one minute and forty-five seconds over a thirty mile course.

The Reliance and Shamrock III, were measured today in the Res by C. E. Mower, the official measurer of the New York Yacht Club. It was found that Shamrock III was slightly longer on the water line than the American boat, but the latter proved to have nearly 2,000 square feet of sail more than the challenger, and it was this sail spread that taxed the American boat.

The announcement of the time allowance in favor of the challenger caused but little surprise. The boats are now ready for the international contest for the America's cup, the first of which will be on Thursday.

AMERICANS INVADE EUROPE.
London, Aug. 19.—The Hague correspondent of the Daily Telegraph reports that negotiations have been opened by an American combine with a view of acquiring the great steel and iron factories recently built at Terenure, near the Belgian frontier.

EARLY BLAZE.
At an early hour this morning the fire department was called to North Park street, where two empty barns formerly occupied by Alexander, in connection with his milk ranch, were on fire. The two barns were entirely consumed, and although several of the residences in the vicinity were in great danger, the efficient work of the chemical engine saved them from destruction. The loss was but slight.

TOURISTS' MIRACULOUS ESCAPE.
Slide Into an Abyss on Mont Blanc, But Are Rescued.
Shamrock, France, Aug. 18.—The seven tourists who were reported yesterday to have been killed while climbing the Aiguilles Grises of Mont Blanc, it was learned today, had miraculously escaped. They were seen to fall into a cove, and it was ascertained that they had been rescued by a party of the army. They were seen to fall into a cove, and it was ascertained that they had been rescued by a party of the army.

ASK FOR PROTECTION.
Educated Chinese Fear for Their Lives.
London, Aug. 18.—The Standard correspondent at Tientsin reports that there is always something new in the way of medical treatment and you are constantly invited to try new-fangled, unapproved remedies. Let others experiment and so risk health and loss of time. Dr. Chase's Kidney-Liver Pills have been tried in the cruelest times, and the approval of the public opinion and demonstrated their right to a place in every home as a family medicine.

Mainland Happenings

New Registration at Vancouver Discloses a Strange State of Affairs.

Terminal City's Base Ball Ambition Gratified For a Brief Time.

Perpetrator of Cloverdale Outrage Identified and Arrested in Seattle.

From Our Own Correspondent.

Vancouver, Aug. 17.—Mr. Donaldson, collector of vessels for the district of Vancouver, states that there are only 3,800 vessels down on the old list, that are recorded on the new list. This would indicate that there were a large number yet to register or that many of the old list was composed of deceased persons and absentees, and would also indicate that according to the last report, a good many people that were here must have voted by proxy.

It is generally accepted as a fact that there were some 1,400 names on the old list that should not have been there. In other words, it was believed that the list contained about 5,000 legitimate vessels. It is true, however, that it contained but 3,800, and fully 3,200 should not have been on it. It is believed that at least 600 persons that were entitled to be placed on the new list were not registered. He did not see any applicant, but read him the law and informed the applicant that it was his place to interpret the law, and he had accordingly avoided all comment or criticism. At the same time all possible precaution was taken to see that no applicant committed fraud or swore falsely.

Miss Annie Johnston, of Toronto, was united in marriage on Saturday to J. J. Mylands, of Kitwendo, N.V.I. Mr. and Mrs. Johnston are now in Vancouver. A boy in a wagon was being the driver, who jumped the wagon to attack the boy. A young man named Crosby jumped into the wagon to assist the driver, and the latter stabbed him in the hand.

Dugale, of the Seattle ball team, on Sunday offered to purchase the franchise of the Helena franchise for the Pacific National League. J. H. Conn, manager of the Vancouver team, raised the necessary guarantee and accepted. During the night, however, a wire was received from Helena, stating that the franchise had been sold to another party. The wire was taken here as meaning the dissolution of the league. Thus the great undertaking of the Pacific National League was frustrated, but only for a few hours.

Very successful gun shoot took place on Saturday. Mr. Hillis, captain of the Victoria Gun Club, was the winner, and carried off the 27 rifle offered for the event by Messrs. McLellan & Co.

Four generations were present at the christening of a child in Christ church on Sunday. The child's name was given as Marie Dolores Canon. The mother was present, Mrs. Anderson, of Esquimalt, and the grandmother, Mrs. S. G. McNeil, of the Victoria. The christening was held at Mission City hall, and was presided over by the Rev. J. G. Brown, D.D., of Victoria. The Pacific Steamship Company is to put on the steamer Niemora to leave for Seattle.

The British Columbia Electric Light and Power Company's net earnings for July were \$27,000, and for August \$28,215. On Thursday next the following members of the rifle team to represent the province at the Olympic games in London: Toronto to take part in the military rifle, Captain T. J. McNeil, of Esquimalt, and Corporal Grant, of Esquimalt. Private Perry left for the east immediately after the Victoria rifle team's departure for Esquimalt, and J.M. Sergt. Kennedy will leave later, going direct to Ottawa.

The steamer Niemora, a three-year-old boat of David Law has proved faulty. A bay net was tied by a piece of wire, and a fence to keep the net from being drawn under the wire and the rack took over, striking the three-year-old boat, and the assignment was cancelled. The injury was proved fatal.

The Permanent Loan & Savings Company has purchased the large opposite Woodward's department store building, for \$27,000, and will build.

Mr. Alfred James Barker and Miss Jessie Carter were married on Sunday at St. James' church.

Mr. O'Reilly has again won the great championship in Vancouver. He is the second time this crack Victoria player has defeated all comers in the Victoria championship. He defeated Mr. Mahoney in the final game straight for the championship.

The ladies' handicap singles was won by Miss Twigg. The handicap doubles was won by Miss Twigg and Miss J. J. O'Reilly. The open doubles were captured by Mr. Drake and Mr. O'Reilly, of Victoria.

In Westminister protests, it is still being held against the proposed amalgamation of the Southern Pacific Company with the United States Great Northern. At this writing no protests have been entered against Vancouver names. The protest in Westminister was made by W. I. Briggs, solicitor for the Liberal Association.

On Wednesday evening the Westminister Liberals will choose their candidates for the forthcoming provincial election. J. C. Brown, W. W. Forsyth, and John Reid are the names mentioned as possible nominees.

John Ball has been arrested at Seattle as the person who tied, gagged and brutally assaulted Miss Helen Marshall near her home near Cloverdale. When arrested he had on a Bowler hat, one of the pieces of jewelry seen on Miss Marshall.

UNION PACIFIC MERGER.
Cincinnati, Ohio, Aug. 18.—Recent reports that the suit of Talbot J. Taylor and others to prevent the Union Pacific Company from voting at the annual meeting of the Southern Pacific Company would be withdrawn and that the latter would be merged with the Union Pacific and the Keene interests were set aside today when it was announced that the proposed merger was approved by the board of the United States Circuit Court of Appeals next month, and that the assignment was approved by the court.

As the location of this salve is so important, it is more than likely that it will be made in the United States. The salve is more than likely to be made in the United States. The salve is more than likely to be made in the United States.

THE SUNKEN CRUISER.
Was a Tender to Naval Base at Nankin.
The steamer Niemora, a three-year-old boat of David Law has proved faulty. A bay net was tied by a piece of wire, and a fence to keep the net from being drawn under the wire and the rack took over, striking the three-year-old boat, and the assignment was cancelled. The injury was proved fatal.

Turkish Officials Believe Clash Coming and Eager For the Fray.

London, Aug. 19.—A Constantinople despatch to the Daily Chronicle, dated August 14, describes the Turkish officers as in despair at the rising in Macedonia. The railways were busy all night conveying troops and stores to the affected area.

War with Bulgaria was believed to be imminent, and the military men were impatiently awaiting the opening of hostilities.

Rome, Aug. 18.—Private advice from the Italian peninsula received here states that Bulgaria has practically mobilized its army, and that the army now amounts to more than 70,000 men.

It is reported that an Italian squadron has been ordered to the Mediterranean in readiness to sail for the Turkish coast.

According to a report from Ushak, Michailovskii, the Bulgarian leader, while he is fighting at Krashovo, while Boris Strouff, the noted insurgent, has been surrounded at Prass Bralkan, in the southern part of the Monastir.

The night train service between Sarnia and the Servian frontier has been suspended.

HAAPPENINGS IN POLICE CIRCLES

The Adventures of the Police Posse Which Captured the Reformatory Escapes.

It was up on Green street. Eleven o'clock had struck—and the neighborhood slept. With stentorian tread a little expedition made up of Constable J. K. Harper, with two assistants from the reformatory bringing up the rear, was approaching a barn on the corner of Green street.

The officers trembled, for they were approaching the hiding place of many fugitives. They knew that the escapees were there, and so they were prepared for emergencies.

It was earlier in the evening that some passer-by had heard the outlaws talking in the barn. Hansen was telling "Chimes" that it wasn't no blooming C. P. R. hotel, but it was better than the other look-alikes.

The officers hurried themselves against the door of the barn, and the outlaws were caught. They had neglected to post a sentinel. Where there the light shone into the cells, and the outlaws were seen to be in the act of escaping.

Every effort was made by the crew of the liner to save the Chinese crew of the Empress of India, but it was in vain.

THE SINEWS OF WAR

London, Aug. 20.—The Daily Mail reports that Great Britain and Turkey are buying in enormous quantities of wheat from the United States.

They would stand almost solid for the free admission of wheat and lumber, and other raw products might be added to the list.

Of late years diversified farming in these States has been profitable, and our mills of Minnesota have found it extremely difficult to get enough of the exact grade of wheat which our mills require.

I have spoken of the desirability of a meeting to be held in the middle of the Northwest States, and the same meeting, I am sure, will be held in the Northwest States, and the same meeting, I am sure, will be held in the Northwest States.

I am an American citizen and I yield to no one in loyalty and love to the land of my adoption, but I am not a Canadian citizen, and I yield to no one in loyalty and love to the land of my adoption.

Geographically, we are a unit, any diversity of climate should only tend to stimulate trade, and the same language, and the same government in townships and cities, and they have adopted our system of government, and they have adopted our system of government.

Western Canada has been rightly called

Beaumont, Texas, Aug. 19.—The Citizens National Bank of this city was closed this afternoon by National Bank Examiner Logan. The failure promises to be an important one.

Beaumont, Texas, Aug. 19.—The Citizens National Bank of this city was closed this afternoon by National Bank Examiner Logan. The failure promises to be an important one.

THE EMPRESS OF INDIA, WHICH RAMMED THE CHINESE CRUISER.

Remeasurement Of Shamrock III

Lowering of Throat Halyards Made a Difference in Sail Area.

In Spite of the Great Allowance Bets Two to One on Reliance.

New York, Aug. 19.—It was announced at the New York Yacht Club late tonight that C. D. Mower, the official measurer, had re-measured Sir Thomas Lipton's cup challenger, Shamrock III, and that as a consequence, this challenger will be in receipt of a line allowance of one minute and forty seconds.

The political campaign was opened locally by the Liberals last night. Though the real running battle has been far from quiet, the Liberals have been busy for some time past in their efforts to secure the support of the various provincial governments up to the present time.

THE CHINESE CRUISER HUANG TAI, SUNK BY THE EMPRESS.

Can Boat. The friends of the British boat also profess the greatest faith in the ability of the Empress.

The friends of the British boat also profess the greatest faith in the ability of the Empress. The incident is of special interest because of the fact that the Empress was a British ship.

PLANS OF RUSSIAN SQUADRON.

Vienna, Aug. 19.—A curious suggestion has been made in some political circles to the effect that the Russian squadron bound for Turkish waters is not intended so much as a menace to Turkey as to protect the Sultan in the event of a serious outbreak at the Yildiz palace, resulting in the dissatisfaction of the Albanians and Arabian Syrian clique.

BANK FAILURE.

Beaumont, Texas, Aug. 19.—The Citizens National Bank of this city was closed this afternoon by National Bank Examiner Logan. The failure promises to be an important one.

BURNING OF CAR SHOPS.

Quebec, Aug. 19.—(Special.)—The Great Northern car shops here headed off last night by a fire which destroyed a large number of cars.

RUSSIAN WAR PARTY.

Pekin, Aug. 18.—The promotion of Vice-Admiral Alexieff to the viceregalship of Amur territory in Kwantung province is regarded here as a success for the so-called Russian War party.

YOU TAKE NO CHANCES.

Beaumont, Texas, Aug. 19.—The Citizens National Bank of this city was closed this afternoon by National Bank Examiner Logan. The failure promises to be an important one.

Beaumont, Texas, Aug. 19.—The Citizens National Bank of this city was closed this afternoon by National Bank Examiner Logan. The failure promises to be an important one.

Mercantile Affairs Of the Empire

Prolonged Discussion on the Fiscal Scheme at Montreal Yesterday.

Resolution Passed Favoring a Fast Atlantic Steamship Service.

Montreal, Aug. 19.—Outside of one hour today devoted to the fast Atlantic steamer, the entire time of the Congress of British Chambers of Commerce was devoted to the discussion of the preferential trade question.

The political campaign was opened locally by the Liberals last night. Though the real running battle has been far from quiet, the Liberals have been busy for some time past in their efforts to secure the support of the various provincial governments up to the present time.

THE GRIEVANCE At Nanaimo

Regret That There Should Be Misunderstanding Between the Two Cities.

The Nanaimo Herald of yesterday contains a more extensive report of the meeting of the Board of Trade at the Coal City, at which a vigorous protest was made at alleged unfair treatment on the part of Victoria.

The political campaign was opened locally by the Liberals last night. Though the real running battle has been far from quiet, the Liberals have been busy for some time past in their efforts to secure the support of the various provincial governments up to the present time.

TOBACCO PIPES OF THE INDIANS
Smoking Apparatus of the "Original Indian"

Preserved in Peabody Museum of Harvard University—Europeans Probably Taught Indians the "Tobacco Habit," Although Pipe Smoking Antedates Discovery of America.

Except the bow and arrow, tomahawk and scalping knife, nothing is more closely associated with the Indian than the tobacco pipe. In fact, one of the earlier chroniclers has described the Indian household staff as consisting of a tobacco pipe, a wooden dish, and a hatchet made of broad flint. The statement, which respects many other things which the Indians actually possessed, shows how very prominent was the pipe among the many objects with which this particular observer was describing. But it is only during recent years, in such institutions as the Peabody Museum of Harvard University and the National Museum at Washington, that there has been an opportunity to study the different kinds of pipes in which the aboriginal Indian smoked tobacco, but which were consumed not only by the Indians, but also by the whites as an arm for their Indian allies. This was the famous tomahawk pipe, with its keen graven blade on one side and its little bowl connected with the perforated stalk on the other. During the revolutionary war, it was used by the British and the Indians for the purpose of smoking. The French also made use of the same kind of pipe, and the Indians found a third use for these ingenious and terrible weapons. Not only could they be used for ceremonial purposes, and that no Indian could have a pipe in his possession, like the civilized smoker, with his pipe in his mouth, specimens of which have been found from time to time in practically all parts of the country, but they were also used for the purpose of smoking. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth.

The earliest known specimens of the pipe have been found from time to time in practically all parts of the country, but they were also used for the purpose of smoking. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth. The pipe was usually smoked with the head thrown back and the tobacco smoke collected in the mouth.

From this ancient pipe, however, it was a natural step for human ingenuity to evolve another that could be smoked comfortably without being kept perpendicular to the smoker. The different kinds of pipes that succeeded were practically infinite in their variations, although the archaeologist has succeeded in classifying them into one or another of about a dozen different types, recognizable by the interior dimensions of the bowl and the stem and their proportions to one another. Of these later varieties, the most widely distributed consists of a bowl, hollowed out in many cases by a drill working in fine sand, with a small hole for the insertion of a stem. The exterior shape of Indian pipes of this type varies from the simplest cube to the most complex animal form, and the stems were probably held in place by lashings of wet leather which the Indian bound around both bowl and stem and then left to the contraction of the leather holding the parts firmly together. In some of these pipes there are also perforations at the bases through which the owner passed a leather thong to save his lips from being lost if he happened to drop it in a deep snow drift. These pipes, it is now believed, became more and more ornamented in proportion as the Indians became familiar with the use of European tools for cutting and polishing.

Another pipe that has been found over a wide area is the "hook" pipe, the reference is made in early colonial writings, in the cantilever or Sionan type of red Indian pipe. The origin of the pipe is traced to the old Indian quarries at Pipestone, Minnesota. Even within recent years, the pipe has been visited by the Sioux Indians, traveling from their pipe material. The color of the pipe varies from dark red to a light pink. In the old Indian traditions

Exploiting Spruce Land

Scotch Millionaire Directing His Attention to Resources of Princess Royal Island.

A Large Increase in the Assessment on Personal Property in Vancouver.

Improvement in the Salmon Run—Distinguished Masons in Session.

Vancouver, Aug. 18.—Twenty thousand acres of spruce land on Princess Royal Island, in the Gulf of Georgia, is being bought by a Scotch millionaire, Mr. J. J. F. Murray, of Glasgow. The land is being bought for the purpose of establishing a large spruce plantation. The land is being bought for the purpose of establishing a large spruce plantation. The land is being bought for the purpose of establishing a large spruce plantation.

The charge of theft has been laid by Detective Mulhern against A. M. McKay, a young Scotman living in the Waverley hotel. A trunk found in McKay's room is alleged to have been stolen from the room of a servant girl of the hotel. The charge of theft has been laid by Detective Mulhern against A. M. McKay, a young Scotman living in the Waverley hotel. A trunk found in McKay's room is alleged to have been stolen from the room of a servant girl of the hotel.

Mr. Vaughan Rysh writes that he thinks the strike in the Van Anda mines will soon be over, and says that he does not expect any more trouble. As a result of the amendment to the personal and income taxes introduced by the Premier in the close of the last session, the assessment on personal

property in Vancouver will be increased from \$4,000,000 to \$6,000,000, and income tax will be increased from 10 to 15 per cent. The improvement in the salmon run is reported to be very good. The distinguished masons were in session last night, and the meeting was a very successful one.

Calling Out the Reserves

Twenty-Four Battalions of Turkish Troops Summoned to the Colors.

Reported That on Recapture of Krushevo Entire Population Was Massacred.

A Fierce Battle Said to Have Occurred in the Vicinity of Monastir.

Constantinople, Aug. 18.—Twenty-four battalions of reserves in the vicinity of Anatalia have been summoned to the colors. The reported attacks made by the insurgents on the railroads and the inadequate protection afforded by the Turkish authorities, have compelled the command officials to order a suspension of traffic on the Salonica, Monastir and Uskub lines. Despatches received here from Belgrade, Serbia, say that the Turkish minister there has secured the detention of a quantity of arms and ammunition destined for Bulgaria.

London, Aug. 18.—Forty-four strikers were killed and 100 to 150 injured in a military onslaught which occurred in the vicinity of Kief, late in August, according to a Russian correspondent of the Times. The troops fired several volleys into the strikers' close quarters. The correspondent regards this occurrence as a significant comment on the official Russian reports that matters had resumed their normal aspect in the disturbed districts of South Russia.

Paris, Aug. 18.—The Humbert trial is approaching its close. The last witness was heard today and the addresses of counsel were begun. Advocate-General Blondin, for the prosecution, and Maître Labori follows tomorrow. It is expected that the case will reach the jury Thursday. The preliminary investigations of Mme. Humbert cause delay. Maître Blondin's address was a severe arraignment of the Humberts and his analysis of their transactions, his conclusion being that the entire "Crawford" story was a tissue of falsehood and an invention of Madame Dauriac (daughter of Mme. Humbert) getting his name from an English schoolmaster named Crawford, whom Madame Humbert met in Argentina. Later, the Humberts elaborated the fabric of fraud, Madame and Emil Dauriac impersonating the two "Crawfords". Mme. Humbert today continued her interrogations and renewed her declaration that she would speak after counsel had closed their addresses.

Spokane, Aug. 18.—A great forest fire raging near Elk, about 25 miles north of this city. The loss will be very heavy. A hundred men have been fighting the fire since Sunday night, but they are powerless to control it. It is estimated that from 12 to 15 million feet of timber have been destroyed. Several ranches are in danger.

REIGN OF TERROR IN VENEZUELA

President Castro's Demand on Cuidad Bolivar Causes Consternation.

Complains of Unfair Treatment By Victoria And Threatens Retaliation.

NANAIMO HAS A GREAT GRIEVANCE

Port of Spain, Trinidad, Aug. 18.—Authentic information has been received by the British government of the reign of terror prevailing in the district of Cuidad Bolivar, Venezuela, for refusing President Castro's demand for the payment of taxes paid during the occupation of Cuidad Bolivar by the revolutionists. A reign of terror prevails throughout the district, owing to the extortion, threats and barbarities of the party in power. The entire region is in a more primitive condition. After the discovery of America, however, the white trader spread his field of operations so rapidly that signs of his influence are practically universal, and pipes are often found in the same region that are entirely Indian, either in form or shape, very evidently made by the Indians under European supervision. Many of the pipes smoked by the warlike Indians, for example, suggest that they were modeled after the pipes of the French soldier; and the "monitor" pipes, found in many of the Indian mounds and so-called "petroglyphs," resemble to the shape of that famous single-tubed vessel, whose evidence is everywhere to be seen and polished in the European fashion.

Another pipe that has been found over a wide area is the "hook" pipe, the reference is made in early colonial writings, in the cantilever or Sionan type of red Indian pipe. The origin of the pipe is traced to the old Indian quarries at Pipestone, Minnesota. Even within recent years, the pipe has been visited by the Sioux Indians, traveling from their pipe material. The color of the pipe varies from dark red to a light pink. In the old Indian traditions

Victoria, Aug. 18.—(Special.)—The great feeling of dissatisfaction held against Victoria for a long time by Nanaimo business men, came to a head tonight. At a red-hot public meeting held under the auspices of the Board of Trade, it was charged that Nanaimo was being systematically neglected by Victoria. The arrangements were being made for the entertainment of parties such as the British journalists.

London, Aug. 19.—The Times' correspondent Belgrade telegraphs that in the result of the recent ministerial crisis has shown how completely King Peter II. is in the hands of the military camorra which entrusted him. The coming elections will undoubtedly result in an overwhelming radical victory. The contest between the radicals and the army will then become acute. The outlook, concludes the correspondent, is dark, and the country seems to be drifting into anarchy.
