Central heating plants are coming more and more into use as they are found to be a saving of time and fuel. Such a plant for the business section of Watford has often been discussed. Would it not be a good move for the town council to appoint a committee of practical men to make careful investigation of the proposal?

The new Billie Burke Dresses at Swift's.

Every man should recognize him self as a factor in his home town and become a worker for the common good. Why not? We are mutually dependent, everyone of us, from the sunrise to the sunset of life, for no man lives for himself alone. The utterly selfish man is a misfit in the scheme of human existence and of no help nor value to his community.

A spirit of reverence and thankfulness marked the observance of the fifth anniversary of Armistice Day, in the service at Trinity church last Sunday evening, which was one of solemnity and joyfulness. Special prayers, psalms and scripture selections were read and the choir rendered very acceptably the anthem "The Lord Is Good," Mr. T.A. Adams singing the baritone solo in good voice. The rector, Rev. J.H. Hosford M.A., in his sermon referred to the significance of the day, taking for his text the words "Seek peace and ensue it" Ps. 34:14. The sermon was a particularly forceful discourse on peace problems. After the offertory Reeve Connolly sang a tenor solo ac-

WATFORD NOMINATIONS NOVEMBER 26th

Although the date for election of reeve and councillors of Watford is only seventen days off there seems to be no stirring up of the municipal pot nor mention of new names desiring the honor of belonging to the governing bodies of the town,

The nomination for public offices will be held in the Music Hall on Monday, Nov. 26th, at 7.30 o'clock when candidates will be required for reeve, four councillors, four members of the Board of Education and one member of the public utilities board. The election will take place the first Monday in December.

Now that the date of election has been changed from the busy season it is to be hoped that the public will more interest in the matter than has been done recently.

WOMEN'S MISSIONARY CONVENTION

The sixteenth annual convention of the Women's Missionary Society Strathroy District, was held in the Watford Methodist church, afternoon and evening, Nov. 7th. The convention was successful in every particular. A large number of delegates and visitors were present. Mrs. W. B. Simth, Petrolea, District Supt presided in her usual happy and gracious manner. The Bethesda and The 29th annual convention of the Kerwood Auxiliaries had charge of the devotional exercises which showed preparation and thought. The reports from the different societies were gratifying and spoke of progress. The drill on the "Blue Book" was ably and profitably conducted by Mrs. (Rev.) Couch, Strathroy. The exercise given by the S.S. children showed careful training and was splendidly given. Worthy of special mention was the "Missionary Story Contest" in which five young ladies had a part, each giving in a pleasing and graphic manner, her story. The first prize was awarded Miss Germain, Petrolea; 2nd, Miss Nebb, Mt.Brydges. A short and pithy address was then given by Mrs. Childs, which brought the afternoon session to a close. Tea was served in the S.S. room. In the absence of the pastor, though illness, the Rev. Mr. O'Kell presided at the tea hour.

Mrs. (Rev.) Hager gave a hearty welcome in a few well chosen words. Mrs. (Rev.) Stuart, Petrolea, responded in which she expressed the appreciation of the delegates and visitors in the warm and hospitable reception they received. words of greeting were given by the local societies. Rev. Mr. Rutherford spoke a few words on the relation of the General Society to the work of the Women's Missionary Society. Rev. O'Kell presided at the evening session. The principal features of the evening session were the addresses given by Mrs. Childs, London, president of Circles, who presented her subject in a bright and happy manner, full of thought and feeling, also Miss Sparling, Crungking, who has spent a number of years in that country, spoke most encouragingly of the work and wonderful change in the heart and life of very many, relating many happy experiences. The solos by Mrs. Brush, Mrs. Martin, Rev. J.L. Foster and the selection by the choir were much

appreciated by the convention.

Mrs. O'Kell, Strathroy, was elected District Superindent for the ensuing

NOTE AND COMMENT

Presbytrian opponents of organic church union, as proposed under the act accepted at last general assembly are preparing to enter upon an aggressive campaign against the union They purpose spending \$30,000 in disseminating information among the church membership.

Kingston Standard: There is, however, an historical and a pleasing as-sociation with poplars which is prob-ably well known to many of our readers. For some time Empire Loyalists used to plant a poplar on each side of their gateways as an indication that other British Loyalists soming to Canada would find a welcome and help in the houses to which those gateways led.

Brantford Expositor: Few people who are competent judges of literature will see any sense in the pro-posal to bar extracts from "Evangefrom Canada schools on the ground that they are historically inaccurate. There are some people posing as inteructors of literature who apparently have not enough imagination to distinguish between a scientific analysis of salt water and Byron's poem on the "Ocean."

Guelph Herald: It is most desirable that the names of places should be displayed so that those passing through can know "where they are st." Nothing gives one a more "lost" at." Nothing gives one a more feeling than to pass through ham-let after hamlet and not know the names of the places. Sometimes it is to the detriment of the particular hamlet, because it might have attractions which appeal to the motorist, and he would come back if he knew the name of the village that had attracted him had attracted him.

Fort William Times-Journal: "The veriest fool can keep warm in a cold country, but the wisest man cannot keep cool in a hot country." answer was given by a Cree Indian, many miles out of their way if they who had left his home in northern Canada and had gone to Mexico, but business centre. The convenience had come back to Canada, when he was asked how he came to leave a nice southern climate to return the rigors of a Canadian winter. There is much good common sense in the answer, and the more one thinks over it the more one can see that the Indian has a great deal of right on his side.

The Dominion Government is preparing to father a system of agricul-tural credits. Dr. Tory, president of the University of Alberta, has been encounted to conduct an enquiry into the question, and the announcement conveying this news says that an at least partial report may be expected during the next session of parliament. It is believed that the Government has been converted to the necessity of introducing a policy on this matter, and that what is ex-pected of Dr. Tory is a recommenda-tion as to the best way to go about

Motorists who fail to dim their lights on meeting another car at night are a source of much danger. So are those who neglect to signal when about to turn a corner or to slacken speed. The driver who invariably insists on his right of way is another potential author of accidents. The motorist who refuses to treat others with courtesy, at a cost of only a few seconds time, never stops to think that he may need the same courtesy himself some day. Courtesy of deeds as well as of words is the need of the hour.— Kingston Whig.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that besides being an effective vermifuge, they are tonical and healthgiving in their effects.

Kingston Whig: Newspapers don't try to punish people through the columns of the paper half as often as the public thinks. There are news-papermen who have their enemies. In fact it is the rule that they do have enemies, for it's hard to keep from making them if you work around a newspaper, but there are only a few newspapers that use their organ to settle a private grudge. Often when things go wrong in a newspaper office it is laid to_someone on the staff. It was done purposely. It was to help one and injure another. That's what is said, but it isn't often so. Newspapers don't often try to ex-plain away mistakes of that kind. Another comes up right away, any-

Blenheim Tribune: We heard the remarkable statement made other day on the authority of a dis-trict Bell telephone superintendent that there are more telephones per head of population in the Blenheim district than in any other place in the world, and we believe it to be true. Almost this same record can be claimed for the number of automobiles, theatres and other places of amusement, and, be it added, farm mortgages. We all enjoy the liveliness some of these things produce. Let's give the matter thought and may our conclusions be that they do not come in the order named. We may have to admit we are living at a pretty fast clip, faster than some of us are going to be able to endure; but we do believe the unusually large number of farm mortgages in Kent county is caused primarily by land being higher priced than elsewhere, and requiring underdrainage and other improvements.

MODERN ROADS AS ADVERTIS-ING

The cost of building and maintaining good roads seems so great that many taxpayers are inclined to lie down and say they simply can't be afforded. Yet before taking that attitude, it is well to reflect on the returns that a good road brings.

The news that a certain town or district has good roads spreads for many miles around. Motorists drive that way when out for pleasure, or will go in that direction when seek-This ing a trade center. They will go dian, many miles out of their way if they magnet that draws trade and business, that spreads prosperity into the surrounding country. It makes a town seem a live one. The streets in its business centre are well with visitors while a town with poor outlying roads finds visitors going elsewhere. It costs something solve the good roads problem, but it costs more not to.

WORK-WORN WOMEN

Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare! It is reported that the influence of exact heavy tolls, while hurried the big coal dealers in the cities premeals, broken rest and much indoor vailed in keeping Alberta coal out of trials living tend to weaken her. No wonder the woman at home is often indisposed through weakness, head-aches and nervousness. Too many part of the lot of motherhood. Rut many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the women's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman needs rich blood and plenty There is one way to get this good blood so necessary to health, and that is through the use of Dr. Williams' Pink Pills. These enrich the blood, and through their use many weak, ailing wives and mothers have been benefitted. If you are ailing, easily tired or depressed, it is

Although the Premier did not promise to give all that the inspectors were asking, he intimated that he sympathized with their situation and would make some concession.

In establishing a philatelic agency for the sale of unused postage stamps direct to collectors, the Canadian government becomes the second important government to officially recognize philately. Similar action was taken by the United States government 15 months ago. The stamps will be sold at their face value by the Canadian agency, and, as many of them will never be used by the collectors for postal purposes the sales will represent much clear profit to the department.

Alleging that they represented farmers who had been made the vic-tims of frauds totalling hundreds of thousands of dollars, a deputation from Huron county waited upon Premier Ferguson and urged that the Ontario Government should launch criminal prosecution against interests which have during the past several years marketed the county's output of flax. According to the deputation, Huron County flax has been purchased, exported and marketed without any return being made to its growers. It was further claimed that court judgments secured against the parties responsible had not made it possible to secure money owing.

MAKE OUT GIFT LIST EARLY

Thoughtful Shoppers Start Task Several Weeks Before Rush Begins in Busy Stores.

HE buyer who really puts some atruism into her Christmas gifts makes out her list several weeks in advance. If she be a canny

somebody she has kept her list of the year before and is able to see what were her gifts the preceding season, and thus avoid the risk of repeating herself. Still more canny is she if she has made mental or written notes from time to time of various articles for which she has heard a desire expressed by friends. Such note taking will greatly lessen her labors.

For it is no light thing to choose Christmas gifts judiciously. The whole secret of their acceptability lies in their appropriateness. Not only must they be appropriate to the person from whom they come and to whom they go, but to the circumstances in which the latter is placed. For an instance, there are few housekeepers who do not welcome an addition of fine linen to their store. But if to a housekeper who lives plainly in simple surroundings one sends a superb lace-trimmed tea cloth or doilies that throw all her other possessions into the shade, there is an unsuitability about the gift that robs it of much of its charm.—Harper's Bazar.

Playthings for the Kiddies Necessary to the Proper Conduct of Their Society.

WHILE the making of toys is an art that is probably practically as old as the world itself, it has been only within recent years that science has bothered itself about them. Less than half a century ago they were re garded merely as playthings—amus ing diversions for children that were by no means necessary to their wellbeing. Today, however, science insists that there is a well-defined philosophy underlying the use of toys; that they are the tools with which the little ones ply their trade; the paraphernalia necessary to the proper conduct of their society; that dolls, for example, are more to them than the associates that help to entertain them in that they aid them in the attainment of their mental growth by stimulating the natural emotions which must be experienced in later life.

Whether this theory of the scientists is correct or not, the fact remains that children have always had the playthings requisite for their imitations of the domestic life and business affairs of older people; that they have always required their elders to provide them with such inventions, and that, when they could not obtain these toys by any other means they themselves have sought and found objects that might be made to suit their purposes. Even the somnolent middle Ages did not put an end to their pastimes. The toys in which they found diversion may have been more simple, but, as they met the demands of nature, they played their allotted part in the scheme of human development.-Public Opinion.

Ancient Christmas Custom.

Many quaint customs are observed at Christmas time in various English country parishes. In that of Cumnor, in Berkshire, of which the living is a vicarage and the church a beautiful specimen of an old English parochial edifice, all who pay tithes repair, after evening service on Christmas day. to the vicarage where the vicar is held in duty bound, by a usage cen-turies old, to regale them with four bushels of malt brewed into ale or beer, two bushels of wheat baked into bread, and half a hundred weight of cheese. Any remnants of this feast are distributed among the poor of the parish after morning prayer the next

Traditions of Christmas Festival. In the records of every nation we find traditions of the Christmas festival. traditions which have been handed down from generation to generation in oft-told tales which thrilled the hearts of the listeners with alternate fear and delight. Sir Walter Scott tells us that they who are born upon Christmas or Good Friday will ee spirits, and will have the power

commanding them. He also adds that the Spaniards imputed the down-cast looks of their monarch, Philip II, to the disagreeable visions to which this privilege subjected him.

Bring Smiles of Gladness.

It is not so much the shought of receiving the customary holiday gifts which most pleases the fancy, but rather that pleasure the heart derives from dwelling upon joyful surprises it may bestow upon others. To bring a smile of gladness upon another's face is indeed a hoop more precipies face is, indeed, a boon more precious than a Christmas gift, and the joy of bestowing can never be equaled by DO'S AND DONT'S AT THE P. O.

Thoughtfulness on the Part of Patrons Will Assist Clerks and Carriers.

Don't plaster Red Cross stamps on the face of packages or letters; take care not to "seal" parcel post packages with them. It raises the rate. Don't forget that a little thoughtful-

ness on your part can help to make the Christmas happier for our postmen, his horses and his automobiles. Do mail early, preferably before December 20th, writing on your packages: "Not to be opened until Christ-

Do your best to use the post offices in the forenoon, the earlier the better, Do write legibly, both the address to which you are sending the gift and your own return address.

Do be courteous and "Christmassy" to the post office men who serve you. They are handling thousands of pieces of mail matter.

Youngsters Prefer Toys or Contrivances to Test Their Muscular Skill or Endurance.

HAT shall be said of that blundering kindness of home folk that considers giving the boy only presents of such things as he actually needs? It is an outrage upon the spirit of Christmas to present him with new shoes, ties, handkerchiefssomething that he knows he will get anyway-when his sleeping and waking dreams for weeks before have been filled with visions of tops, balls, guns and magic lanterns, says Maud Souders in the Woman's Home Compan-The most beautiful knitted muffler woman's fingers ever constructed cannot compare with a jack-knife with four blades and a cork-screw attachment, when exhibited over the back fence to a neighbor boy on Christmas morning. Very soon after the days of kilts a boy reaches the age when he yearns with his whole soul after any toy or contrivance that will test his muscular skill or endurance. At this age an appropriate present would he a rawhide or rope lariat, such as is used by the Buffalo Bill riders. A pair of hand or arm stilts will be received with equal favor, and in the same category comes a new fishing rod, snow shoes, tennis racket, golf clubs, a good ball, lamp or cyclometer for his wheel, or even a live pet, a new dog, a pair of rabbits or guinea something that he can pet and train for his own.

There is not a drug store, cigar shop or barroom in the larger cities which has not been made the storage room for Christmas presents bought before the rush sets in. The strange part of it is that every man who utilizes the friendship of his favorite place round the corner thinks he is the only one thought of the plan. Realizing that the stores will be crowded, many far-sighted heads of families bought their presents a week in advance, and then, fearing the nature of the mysterious package would be discovered at the office or at home, they hit upon the device of making a cache in some resort near home.

Plants for Christmas

Other things being equal, it is better to buy plants near one's home than to travel afar. Do not be tempted, even by cheap offers, to go miles away, for counting car fares, packing, expressage and lost time, the untimate cost is very likely to be more than if you paid a good deal higher price at home. Of course it may happen that one grower or florist has a large stock of some one thing and can sell at a low rate, but dealers usually have an understanding with one another especially regarding holiday prices, and for weeks before the holiday season they have been balancing stock with each other, so that the better quality plants are of an almost fixed value.

Christmas in Days of Yore. There are many old and stately ceremonies and many historical events connected with Christmas that are well worth perusing, and that give us glimpses of ye ancient times when our fathers and our fathers' forefathers celebrated and revelled and gave of their abundance to those for whom nothing was prepared.

SHOULD MAKE OTHERS HAPPY

Best Way to Celebrate Christmas Is to Do Something in Memory of Childhood Days.

T SEEMS that when one has grown a little old, the best and the happiest way to celebrate Christmas is to to do something for remembrance-in remembrance of one's own childhood, for Christmas is really for

the children, after all. It is for children more than for others because it is a day that commemorates the birth of a child-that wondrous Christ child that was born in a manger of a stable in the little town of Bethlehem 2,000 years ago.

Now, there will be scarcely a child in all the world who will not await the dawn of Christmas morning with wondering soul. It is the dawn of that day when the morning stars sang together, and when peace on earth and good will toward men were proclaimed from the high heavens. But, there will be many a child to whom Christmas will not bring its dearly ged-for happi

The children of the rich will not be disappointed, nor will the children of the very poor be disappointed. It is the child who has not rich or wellto-do folks, but who, at the same time, is not subject for charity, who will be unhappy when Christmas comes.

And it is this child that you should seek out and make happy-for remembrances.

You see it is a fact that we can make a happy Christmas for ourselves only by making some one else happy. Do not think that you can make a happy Christmas for yourself any other way, because you cannot do so.

Try the way here pointed out. The child is easily found, and when you have found that one and have made it happy, the very angels of God will envy you the gladness Wat you will

Devil's Food Cake.

Bent to a cream five level tablespoonfuls of butter and one cupful and a quarter of sugar. Add 31/2 squares of unmelted chocolate, three unbeaten eggs and one teaspoonful of vanilla and beat together until smooth. Sift 31/2 level tenspoonfuls of baking powder with one-half cupful of flour and stir in with the butter, sugar and egg mixture. Then add alternately milk and flour until you have used threequarters of a cupful of milk and one cupful of sifted pastry flour. Beat smooth and bake in a loaf in a moderate oven. Pastry flour is always better for cake than bread flour.

AT WALLACEBURG

Wallaceburg, Nov. 11 .- A shooting fatality occurred here Saturday morning, when Wilfred Christian, aged 18, was accidentally shot dead by his younger brother, William, aged 15, while the younger lad was peing given a lesson in firearms.

The boys had been playing with two guns in the kitchen of their home at West Wallaceburg behind the Dominion Glass Works. A boy friend, their mother and Mrs. J. King were in the room at the time.

After pulling the trigger of one gun several times the older lad passed it to his younger brother, who thinking it was not loaded, raised it and pulled the trigger, the bullet entering the other lad's mouth, kililng

him instantly.
Coroner Dr. Richardson was called, but found life extinct, and has ordered an inquiry.

CRUELTY TO CATTLE

Kingsville, Nov. 11-Following investigations by Constable Barr, of the Ontario provincial police station-ed at Amherstburg; Inspector Tustin Humane Society, London, arrested George Buchanan, fifth concession, Colchester South on charges of gross

cruelty to farm animals.

Three horses were found chained to the roof of the barn, because they were in such condition that when they fell they could not arise again, owing to starvation. Fourteen pigs were found in an advanced stage of starvation. Five cows were found with one of their forefeet chained to their horns and in an emaciated condition due to starvation.

Buchanan was remanded to the Essex County jail by Magistrate Smith of Kingsville.

The financial report of the three day show at Alvinston shows of \$100.

MILITARY ORDERS REGARDING CANADIAN FLAG

Downing street has at last spoken authoritatively on the question of whether Canada has a flag of its own in addition to the imperial standard common to all parts and possessions of the British Empire. And Downing street says that the flag which nine people out of ten suppose to be Canada's own peculiar national emblem is banned for exhibition purposes throughout the land area of Canada to the vessels of the Canadian merchant marine.

The right honorable, the secretary of state for the overseas dominions is quoted to-day in district orders issued from the office of Lieut.-Col.

Gillespie, as follows:
"The flag of the Dominion of Canada is the Union Flag (not Jack), which may be flown by any citizen on land at any time.

The red ensign, with the arms of the Dominion of Canada in the fly,

found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

Our Poets' Corner

THANKSGIVING, 1923

God's wondrous loving kindness Can penetrate our blindness And change our native heart With all our human rudeness His love and care and goodness His nature will impart.

If we but try to find it And go to work and mind it It will transform our heart For He will not conceal it But, clearly will reveal it It is His finest art.

His spirit in us dwelling All other things excelling A truth, mysterious, strange The lower nature banish The animal will vanish Before the holy change.

A nobler true ambition And a kinder disposition That nothing can destroy In all our daily living. And consecrated giving Will thrill our hearts with joy.

God's kindness is conducing We must be reproducing His nature must be ours Then gratitude, is swelling And all of us is smelling A bunch of Eden's flowers.

An odor efficacious A life so very precious Thanksgiving we bestow A little bit of heaven The one day out of seven Sets all the rest aglow.

about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, coids, chest and throat troubles.

Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry

relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

Restored to Health By Taking "Fruit-a-tives"

Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

(5)—With his daughter Miss Megan, J. J. Seully, General Manager of Canadian Pacific Eastern Lines, and other members of his party, Lloyd George admires the passing scenery.

Dicture a little clearing at the side of the railway track in the heart of North Ontario. All about are the hilly forests of Jack-pine, hemlock and flaming yellow poplar. A brilliant autumn sun falls on lake and forest and rocky cliff and in the centre is a little personal, as now and then it might be. But the question was removed and forest and rocky cliff and in the centre is a little personal, as now and then it might be. But the question were mostly relevant to the great issues of the day. The twenty odd newspaper people from Great Britain, United States and Canada were the pick of "the game." They and the moving picture men, the newspaper reporters of the camera, were a "star" crowd, and millions of people had from them a daily report of what Lloyd George said, did and looked like during his flying trip over the Canadian Pacific line.

The day of the camera, were a "star" crowd, and millions of people had from them a daily report of what Lloyd George said, did and looked like during his flying trip over the Canadian Pacific line.

The baggage car, like all the rest, was of steel. The dining car was in command of "Jimmie" Watson, the made his first trip across Canada. There was an all steel standard sleeper and two of the ten-compartment cars that are becoming more and more popular as they are better known. Behind—them rode Lloyd George's private car. Both American and British correspondents had seen nothing better than this train. In some respects they had not seen their equal and they were loud in their praises. When they were told they were loud in their praises. When they were told to Winnipeg and all along the railroad the people come.

"What a country, what a wonderful country!!" It was Lloyd George who spoke. Seated in the drawing room of the private car at the end of the train he gazed over the countless lakes and endless forests that flew past. About him were one or two officials of the railway that carried him on his way, and a large number of newspaper representatives for whom accommodation was provided on the train. It was the time of the morning interview, when the press men gathered to ask him questions bearing on the news of the day which had come to the train bear of the world, but mostly from Europe, and to every of the world, but mostly from Europe, and to every of the world, but mostly from Europe, and to every of the world.
