A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 2. No 49.

MONTREAL, MONDAY, JULY 31 1899.

Published Daily at 4:30 p.m. Price 3 cent

## Montreal Stock Market.

**BROAD, BUT DULL MARKET—BANK OF MONTREAL AND C.P.R. HIGHER—JACQUES CARTIER LOWER, RUN ON THIS BANK.**

Montreal, July 31.

Business to-day was dull but steady. A good many of the most vigorous stocks sold lower than their Friday's prices, and so the general expression about the market was as given above. Canadian Pacific, Toronto Ry., Republic, Bell Telephone, Bank of Toronto, Montreal Cotton, and Bank of Montreal, were higher, the others were at the same price or lower than Friday's price. London quotations, all higher this morning except in Bank rates, gave indication how the market would likely go, and as an advance occurred only in the prices of some and not of all the securities, as might have been expected, the phrase which cannot be withheld from it as broad and somewhat active, is modified by its dullness. As mentioned elsewhere, the mining stocks were sold ex div. to-day. The sale of Jacques Cartier Bank shares at 110 as compared with the closing demand 95, and closing offer 85, was a very noticeable feature to-day. A great run on this bank, following the Ville Marie failure, has caused this depreciation in its market value.

Canadian Pacific, at prices from 93 to 98½, five parcels of shares sold to-day. This is ½ higher than the lowest of Friday's prices. 98½ was asked and 98 offered.

Richelieu & Ont. dropped 1 point in selling at 108½, and ½ in selling at 109. 75 shares were sold and at closing 110 was asked and 108½ offered.

Halifax Ry.—Of two lots the larger, 50 shares, sold at 106, 2 lower than Friday's price. Closing transactions did not look like higher prices for this stock, the demand being 105 and offer 100.

Toronto Ry. sold at ½ to ¼ better values. 525 shares were sold closing with 116½ wanted and 116½ offered.

Royal Electric—No advance in this stock took place to-day and the demand was for 181, 180 being the offer.

Montreal St Ry. fell 2½ to-day on a small deal. 323 was wanted and 320 offered.

War Eagle sold at from 1 to 4 lower than last sale. 3000 shares were sold, the closing demand being 365 and offer 360.

Republic advanced 1 point and was, with Payne and Montreal-London, selling ex d. Closing demand 129, offer 119.

Bell Telephone was 3 higher to-day on a small sale. 205 and 189 were the closing demand and offer.

Payne, at 140, was at the same price. 135 was offered at close.

Bank of Montreal gained another 2½ to-day. 260 was the final offer with no shares for sale. Bank of Toronto was 1½ higher; Bank of Commerce was at the same price; Montreal Cotton sold at 3 higher than before; Montreal-London sold ½ lower.

### MORNING SALES.

- Canadian Pacific—375, 98½. 225, 98. 25, 98½. 175, 98. 25, 98½.
- Richelieu—25, 109. 25, 108½. 25, 108½.
- Halifax Ry.—25, 107. 50, 105.
- Toronto Ry.—200, 116½. 150, 116½. 75, 116½. 100, 116½.
- Royal Electric—25, 181.
- Mont. Street—25, 323.
- War Eagle—1000, 363. 1000, 363. 1000, 361.
- Republic—1000, 120.

### JACQUES CARTIER BANK.

There was a run on the Jacques Cartier Bank on Saturday which was continued to a limited extent to-day. The failure of the Ville Marie causes a nervous feeling; in some quarters. This is one of the misfortunes of the downfall of any banking institution be it ever so weak. With Ville Marie the hope Mr. Weir had of ever bringing it to any good must have been father to the thought. With the Jacques Cartier the quick assets are good and are sufficient, if borrowed on, to satisfy calls of over one million dollars. The quick assets of the Ville Marie were about one hundred thousand. Much will depend on the press generally, and the French press in particular, whether the run of the past few days will be continued or not.

### STRAWS.

The Merchants Bank of Halifax is arranging to open a branch bank at Republic Camp, Wash. There has been no bank here up to this time, and the Merchants Bank is to be complimented on its enterprise. This camp will be much benefited by this new departure.

Lloy register of shipping gives the tonnage of the world's merchant fleet as 27,673,528, of which the half is controlled by British and Americans.

It is rumored that General Weyler is conspiring against the Spanish Government.

Montreal London, Payne, War Eagle and Republic were selling ex div. to-day.

### LONDON CABLE.

O. Meredith & Co.'s Cable gives the following London quotations:

Grand Trunk, guaranteed 4 p.c.	.....91½
" 1st preference	.....83½
" 2nd "	.....55½
" 3rd "	.....23
G. T.R. Com	.....
O. P. E	.....100½

**MONTREAL MINING EXCHANGE.**

**GOLDEN STAR SELLS AT 51½ IN TORONTO—SELLS UP TO 52 HERE —MARKET OTHERWISE NEGLECTED.**

Until noon business was practically dead. The strength of Star in Toronto was reflected here by sales at 45 to 52. There are few sellers, except for a turn, as most stock here averages much over present prices. The report on which this advance was established has been known for a week at least, but not fully appreciated till an attempt was made to buy shares. On quick advances such as this it is generally wise to accept profits on a portion at least of holdings bought lower down. There was scattered selling over the list as seen from sales below. The feeling in stock mining circles is improving and we still think that rises will be established when activity in business is resumed.

**MORNING SALES.**

Golden Star—500, 45, 1000, 500, 45½, 500, 46½, 500, 50, 500, 51, 500, 52.  
California—1000, 11½.  
Ballion—500, 50.  
Iron Colt—1000, 9½.  
Republic—500, 119½.  
Big Three—500, 16½.

# NEW YORK EXCHANGE.

**RIISING PRICES IN MANY LINES—  
BEARS QUIESCENT BUT INTEND  
USING YELLOW FEVER SCARE  
TO HAMMER PRICES WITH.**

New York, July 31.

Cables from abroad this morning report market for Americans as strong and buoyant. The features of the market are said to be the S. R. shares and Pacific issues.

Some hesitancy, however, manifested itself upon the receipt of advices of yellow fever at Norfolk, Va., but this will doubtless give place to renewed confidence as soon as the situation is fully understood.

Advices from the West with regard to the recent rainfall in Nebraska and Kansas, re-iterate statement that the rain has been general and heavy, and practically insures a record-breaking crop of corn and excellent business for the corn-carrying roads.

As to the outbreak of yellow fever above referred to, while there are 30 cases reported the disease is confined, so far as at present known, to a little community consisting of old soldiers near Hampton, Va., and as prompt measures have been taken, the disease will doubtless be stamped out. It will, perhaps, be used by the bears as a club with which to hammer prices, but in view of the generally excellent outlook, but little more than temporary alarm may be given to this factor.

Saturday's market was temporarily weak on account of the Bank Statement, but the inclination of prices to advance was shown by the ease with which the market rallied, and the strong closing.

Fears of tight money are becoming daily less and less a factor, and the alarm in London appears to have subsided as rapidly as it developed.

New York, Noon, July 31.

Cables from London in giving official quotations, indicate that there were few changes as compared with our close Saturday, but private cables received just before opening, indicate an upward tendency abroad, and resulted in considerable purchases by Arbitrage Houses. As to the extent of these purchases, they excite considerable difference of opinion, one news agency stating that as a matter of fact the balance was on the selling side to the extent of 20,000 shares.

A representative of perhaps the most important Arbitrage Houses on the floor, says that for every 100 shares he has sold, he has bought 1,000.

The rains which have fallen in the West during the last three days, caused considerable buying of Grangers, although a certain section of the Western bureau of information continue to assert that the corn crop of Kansas has been badly damaged by heat and hot winds. Reliable advices indicate that such is not the case, but that, on the contrary, the outlook for the corn crop, both in Neb. and Kansas was never more favorable.

Considerable interest is taken in the June Statement of Atchison preferred. It is rumored that it may show an increase of half a million net.

A new feature in to-day's market is the activity in the Industrials. A.M.T. led at the opening with rather large transactions at substantial advances over Saturday's prices. Around 107½ a good deal of stock came out.

There was more doing in the Plate Nat. Steel and A. S. W. than for some weeks. Both in Tin Plate and Nat Steel it was difficult to execute a buying order of any size, owing to the paucity of the offerings. Generally, the market is more active than for some time. Commission House business shows a marked improvement, and there are indications that some of the larger interests which have held aloof from the market for some time, are again active in it, and are manipulating with a view to establishing a higher range of prices.

## U. S. EXPORTS.

For year ending June 30.

Products of—			
Agriculture .....	784,999,099	Dec.	68,684,471
Manufactures .....	335,667,794	Inc.	47,970,440

Miscellaneous .....	5,281,134	"	116,508
Total domestic exports .....			\$1,204,123,134

## ST. PAUL.

The real earnings of St. Paul are considered by sound critics to be nearly 15 p.c. on the common stock. Improvements, maintenance, and betterments, are charged up to earnings. The stock is likely to remain in the 5 p.c. list for some time to come but this year will see St. Paul sell at 150. The following table is a rough estimate of figures, which will be made public:

	1898	1899
Net income .....	13,120,000	14,500,000
Charges .....	7,200,000	7,000,000
Surplus for com....	3,825,000	5,200,000

### MINING NEWS.

Vancouver, July 30.—When the record of B. C. mining in 1898, comes to be written the Coast mines will take prominent place therein.

Mining men declare that within sight of Vancouver almost, there are the makings of better camps than Rossland. The coast only wants money, capital wisely spent, and Vancouver will become the centre of as rich a producing district as any part of British Columbia.

Beyond the Rockies little is known of the possibilities of the coast. Eastern capitalists may with advantage, study the coast mining situation as it exists to-day. And what is seen, activity far up the coast from Vancouver to Alaska. From Mount Sicker, Comox, Texada Islands, Jarvis Inlet, Melaspine Inlet, Power Lake, Clayoquot, Nitinat and Quatsino, come encouraging reports of assessment work done, promising indications and new strikes. But as yet the prospecting has really only been reached the coast mines are in the making. Capital is making mines out of the Dorothy Morton, The Blue Bells, The Copper Queen and Cornell, the Douglas Pine and others. The Dorothy Morton ships its cyanide gold bricks each month. English money will make the Blue Bells, and the Vananda smelter is already treating ore from the other named properties. The smelter has caused, what one writer describes as a regular bustle of business on Texada Island.

Victoria, B.C., July 30.—Steamer *Tees* arrived from North last night brought 105 passengers including Lieut. Governor McInnes. Many of the passengers brought Klondike gold, though none had it in large quantity. Captain Pearse, of the Canadian Military force in Yukon, was on board.

Victoria, B.C., July 30.—Lieut. Governor McInnes, who has just returned from an extended visit to Atlin, speaks with the greatest enthusiasm of prospects of that country. This year's output of placer gold he places at a million dollars, while he is convinced that it will prove a hydraulic field of remarkable extent and richness and also yield well in quartz. After describing his progress by steamer from here to Skagway and the trip thence by rail and water to Bennett, the Governor proceeds:—

"The sail from Bennett to Atlin is indescribably lovely. Atlin city is almost ideally situated and you can go almost anywhere in the country on horseback, as it is so open and park-like.

"I visited four of the Creeks, Pine, Spruce, McKee and Golden, saw gold wash-

ed from all of them. On McKee, I went on the claim that is being worked by McKee, the Discoverer, and Capt. Langley, of this city. McKee showed me a sack of gold worth a little over \$72 which he said he had washed from one pan of earth taken out of a crevice. When the water was drained off so that there was about two feet left in the hole, McKee took a shovel and lifted up some of earth from the bottom. A nugget about half as long as my thumb fell off the point of shovel. He then took a pan and about half filled it with earth from the hole which was not an easy task, on account of there being so much water. I washed the pan myself, and here is what I got," and with this the Governor produced several small nuggets which when placed on a \$5 gold piece, covered it with the little mound, the value being about \$6.

McKee then dug up another pan of dirt which he washed himself taking out about \$12 worth of gold. On all the creeks that I visited, I saw gold taken out, on Dr. Miller's claim at Discovery, on Pine, the gold was lying thick in the sluice beach. Dr. Miller told me that they were averaging 65 ounces of gold every 22 hours.

I made a trip across the country, accompanied by Mr. Berthume and a mining engineer from Australia, my object being to look at the great hydraulic deposits, I saw in one place a bank of gold bearing gravel 150 feet high, the gold being distributed from top to bottom. This bank appears to extend for a distance. By tapping the water of Pine river a fall of 650 feet can be got. Pine river carries during the hydraulic season about 10,000 inches of water.

"There are numerous other deposits of this gold bearing gravel, and a great thing in their favor is the existence on all hands of natural reservoirs of water in the form of lakes at latitudes above them of from 500 to 800 feet. All the experts agree that the country is an ideal one for hydraulic mining."

"I saw some excellent quartz specimens, too, but did not have time to examine the quartz in place, but those who have given attention to this matter are very hopeful of the future of the country as a seat of lode mining."

"I saw some of the largest nuggets. The finest weighed 16½ ounces, contained no quartz and was worth about \$17 an ounce. It is the most beautiful specimen of gold that I have ever seen. This was from Pine Creek. Another weighing 13½ ounces from Pine Creek contained some quartz, another from the same creek weighed 9½ ounces and one from McKee Creek 8½ ounces. I also saw a better from Spruce Creek, weighing 7 pounds, consisting of gold and quartz intermingled and worth about \$700. I recommended to the bankers in Atlin that these nugget should be brought to Victoria and Vancouver, photographed and described in the newspapers. I would give a certificate showing that they were the product of Atlin if this were thought desirable, and if they were sent for exhibition in Eastern cities they would prove the best possible advertisement for the country."

There is one thing about Atlin which makes it different from the Klondike. In the latter there is one clean up a year. In Atlin there is a clean up every few days on

all the claims, consequently there is a steady stream of gold going into the banks. From what I have been able to observe, I believe that the gold bearing area will be found to extend a great distance in all directions and that Atlin, will be one of greatest gold producing districts on the continent for years to come. It can hardly fail to become the favorite tourist resort of North America, for the beautiful and wonderful nights, which are as light as day, make it unequal in its attractiveness.

### ROSSLAND MINES.

Rossland, B.C., July 29.

The following is a detailed statement of the ore shipments approximated for week ending July 29th, and year to date from Rossland Camp.

	Tons for week	Tons for year.
Le Roi.....	1,824	47,030
War Eagle.....	1,590	25,215
Iron Mask.....	270	1,785
Evening Star.....	90	268
Deer Park.....	.....	18
Centre Star.....	840	4,027
Total.....	4,614	78,343

Vancouver, B. C., July 30.—The hotels are full, the lime kiln is working, the saw-mill machinery is being placed in position. But the rest of the province shows equal progress. It is far away from Vancouver to Moyie, but there is development all the way. Never has there been such activity around Moyie as there is now. Mr. J. C. Drewry, managing director of the Canadian Gold Fields syndicate, has let the contract for the erection of the compressor building at the Lake Shore mine. Building will be 30 by 40 feet in size. A carload of machinery arrived last week for the air compressor. The C.P.R. has built an 800-foot side at the mine.

In the St. Eugene there are 18 men at work on eight-hour shifts, 30 men are engaged in building the concentrator and 15 on the flume. It is expected that the concentrator will be ready to run by September 15th. The new mill at the St. Eugene will, it is stated, be one of the most substantial of its kind in the province, and it will, at any rate, be the first concentrating plant in East Kootenay.

Returns show that the total ore shipments from Ymir camp for the first half of 1899 was about 9,100 tons made-up as follows: Ymir 6,450, Porto Rico 1,700, Dundee 750, Black Creek 108, Tamarac 6, New Victor 6. The very latest Rossland report is that a deal is pending for the sale of the Trail smelter to the War Eagle people, who supply a large portion of the ore treated in the smelter. The plant at present belongs to the C.P.R.

It is reported from Erie that the Goddard-Blackstock syndicate, who acquired the War Eagle and other mines, has purchased or bonded the Second Relief. This property is situated 13 miles east of Erie, with which it is connected by a wagon road. It belongs to Messrs. Finch and Campbell, of Spokane.

# CHICAGO MARKET.

**GREAT BREAK IN ALL PRICES AND ESPECIALLY IN THOSE OF PORK—CHICAGO AND NEW YORK VISIBLES SHOW INCREASES.**

Chicago, July 31.

There was a uniform break in opening prices this morning, and in provisions it was a big break, the barrel of Sept. pork being 42 lower; Oct. pork 30 lower. In Lard the drop was from 8 to 10 cents, and in Short Ribs from 15 to 18 cents. The Wheats were  $\frac{3}{8}$ ,  $\frac{7}{8}$ ,  $\frac{3}{8}$  lower; the Corns  $\frac{1}{2}$ ,  $\frac{3}{8}$ ,  $\frac{1}{2}$  lower, and the Oats 1,  $\frac{1}{2}$ ,  $\frac{3}{8}$  lower.

There were received to-day 28,000 hogs, 17,000 cattle, and 15,000 sheep.

Wheat, carlots 102, shipments 13,508; corn, car lots 681, shipments 421,212; oats, car lots 894, shipments 5,030.

Last week's primary receipts, 997,000; shipments, 631,708.

Last year's primary receipts, 709,650; shipments, 744,430.

Four ports' primary receipts, 383,422; shipments, 193,912.

Wheat on the Curb, 70 $\frac{1}{2}$ ; corn, 31.

Shipments at Liverpool, 6,800,000, with wheat selling 13-8 lower. The price was fluctuating, but has a downward tendency. Corn was also  $\frac{1}{2}$  lower, market being dull and with very little demand. Wheat reports are very favorable still, the late rains in Kansas having secured the safety of the harvest there. India is shipping large supplies to Europe.

## CHICAGO VISIBLE.

## REPUBLIC.

The Republic Miner of July 22nd says:—  
The Republic mine never before had so much rich ore in sight as it has now and was never before able to produce so much ore of high class. It could deliver to the mill 100 tons a day as easily as it does 30 tons a day as at present. Instead of paying \$35,000 a month as at present it could pay \$90,000 or \$100,000 a month with adequate milling facilities. This would mean over \$1,000,000 a year. This we expect to see done in less than an other year. Do the people of Republic camp, do the people of the state of Washington, realize what a source of wealth there is in this mine? And yet it is but one out of many here and in other camps of the reservation. Watch us grow. Keep your eye on this marvelous region and see grow up here another Colorado of wealth and industry.
