LUMBER MERCHANT WAS SHOT AFTER DESPERATE STRUGGLE WITH BURGLAR WHO ESCAPED

Allan McPherson of Longford, Near Orillia, Attacked in His Home—Marauder Was Masked and Escaped Thru Window—Provincial Police and a Doctor Sent to Assistance of Wounded Man.

ORILLIA, March 23.—(Special.)—In a desperate struggle with a masked burglar shortly before 11 o'clock to-night, Allan McPherson, one of the best known lumber men in the country, was shot in the thigh and so badly wounded that he may not recover.

The burglar escaped. Mr. McPherson lives at Longford Mills, across the lake from Orillia, with his two adopted children. His is a handsome residence, and as he is a man of considerable wealth it is thought that the burglar surmised that he would make a rich haul.

Word of the shooting was sent to Mayor Goffatt of this town, who at once sent Provincial Constables Wright and Holmes with Dr. Harvie to the scene of the attack, which is several miles from Orillia by road. The mayor also notified Superintendent Rogers of the provincial police by telephone, but was informed that the superintendent had no man to send to Orillia on Monday morning.

Details of the shooting are not all to hand. It is thought that Mr. McPherson heard the burglar in his house, and upon going downstairs to investigate was met by the crackman, who was a short man with a red handkerchief tied over his face, concealing everything but his eyes. The man carried a large rifle, which he pointed at Mr. McPherson, and threatened to shoot if he was not given money.

Mr. McPherson struggled with the burglar, and after being shot managed to wrench the rifle out of his hands. Before he could get a shot at the marauder, however, the man jumped thru a window and escaped. Mr. McPherson, who is 55 years old, is very well known and very popular in this district. He is the head of the McPherson Lumber Company, is connected with the Longford foundry, the Spanish River Pulp and Paper Company and other large corporations. If it is found that he is suffering too much to be moved he will be attended at his home, otherwise he will be brought back to Orillia in the morning.

Dineen's Millinery Department. After the winter is over and furs are no longer in popular demand the millinery department at Dineen's is brought into prominence. A special effort is made each spring season to import exclusive and tasty designs from Paris, London and New York. Dineen's millinery display of hats for ladies, misses and children is always unique and deserving of the attention of the most particular lady shopper. W. and D. KILLED BY FALL DOWN FLIGHT OF STAIRS

George M. Bullen Was Fatally Hurt and Wm. Margetts So Badly Injured That He May Die When the Two Men Fell Down Stairs at Margetts' Apartments.

Falling down the stairs at 559 West Bloor street, shortly before 2 o'clock yesterday morning, George M. Bullen, 21 Grenadier row, was almost instantly killed and Wm. Margetts so seriously injured that his recovery is doubtful. Constable Gardner (147) heard the men fall and summoned Drs. Shier and Hoidege.

The two men were artists. Mr. Bullen worked at Rolph, Clark Co., while Mr. Margetts was employed by the Stone Lithographing Company. Being old friends they met accidentally on Saturday night and went to the theatre, and later to Mr. Margetts' apartments, 559 West Bloor street.

When near the landing at the top of the first flight of stairs, Mr. Bullen slipped on the edge of the stairs. In an attempt to save him from falling, Margetts clutched his companion by the arm. The two men fell. At the bottom of the stairs they struck a radiator with sufficient force to fracture Bullen's skull and crush Margetts' head.

Within a few minutes of the doctors' arrival, Bullen died. The body was taken to the morgue, but an inquest is unnecessary. Mr. Bullen was 48 years of age. A son attends Toronto University.

SHACKLETON'S NEW EXPEDITION.

LONDON, March 23.—(Can. Press.)—Just before his departure for New York on the steamer Mauretania, Sir Ernest Shackleton announced that he intended to head a scientific expedition to the Antarctic. The Mauretania sailed from Southampton today. Sir Ernest said he would visit several points in the United States and go to Ottawa.

A Clever Manager.

Very few managers would expend the necessary money to pay two such exorbitant salaries as Richard Carle and Estelle Williams and place them together in one comedy, but when success is to be achieved Manager Charles Frohman does not seem to stop at any expense, however great.

APPEAL BY PARLIAMENT'S PRISONER TO BE MADE IN COURT TOMORROW

MONTREAL, March 23.—(Can. Press.)—The hearing of Mr. R. C. Miller's appeal against the judgment of the superior court, ordering him to give an accounting to the Diamond Lighting & Heating Co. of the expenditure of certain moneys, has been set for Tuesday morning. The case was listed for hearing early in the lists of the present term of the court of King's Bench, and it was expected that it would have been called last week.

Mr. Miller is now a prisoner of parliament as a result of his refusal to account to that body for the expenditure of the money involved in the action. His position may be affected to the extent of his liberty being granted should a judgment be given reversing that of the superior court. On the other hand, as the litigation involves a large sum of money, the matter may be carried to the privy council, in which case no decision would be obtainable for many months.

LUSITANIA WILL BE TIED UP MONTHS

Full Extent of Damage to the Vessel Now Is Realized and Will Amount to Three Hundred Thousand Dollars—Loss of Earnings Will Be Half a Million.

Special Cable to The World.

LIVERPOOL, March 23.—(Copyright.)—Inquiry tonight afforded no confirmation of the widely circulated rumor that the steamship Lusitania of the Cunard Line was wrecked as a result of sagging amidships when suspended on two waves last January. The great vessel at present is in dock undergoing repairs to her turbines, which were seriously damaged when entering the Mersey on Jan. 2. At best, however, it will be August before the vessel will be in service again. On her last trip from New York, the Lusitania had reached the mouth of the River Mersey on Jan. 2, when she suddenly reversed engines to avoid a collision with a South liner. It is supposed the strain in reversing quickly was so great that the blades of four turbines were stripped away. When after avoiding the South liner, she attempted to proceed up river, it was found that the propelling turbines would not work. In fact, that the vessel was helpless. Tugs were signaled for and towed her up the river. Passengers were disembarked by tender in mid-river and the vessel was hurried into dock. The company gave out a statement that owing to slight derangements of the machinery, the vessel would be unable to take her place the following Saturday, according to schedule. Closer examination revealed that the repairs to be made were very numerous, but then it was announced that the ship would be in drydock only a few days. Now the extent of the damage is realized in full and it is believed it will be August before the Lusitania will be able to resume her sailings. Actual repairs will cost \$300,000, while the loss of earnings is estimated at half a million dollars.

EASTER SERMONS OBSERVED WITH REVERENCE

Appropriate Sermons and Music in All Toronto Churches Heard by Large Congregations—A Wave of Infidelity Sweeping the Country, Says Archbishop McNeil.

Yest morning the sun shone like a benediction upon the new spring suits and the pretty Easter hats, but a biting wind came around the corner of the street to meet them as they came home from church. But the gay hats and the spring clothes showed that winter's rage is about to end, if the weather was discouraging. In churches green and white spotted with Easter lilies and decorative foliage many thousands of brightly-dressed people listened yesterday to eloquence that sprung from Easter texts. At Easter time the resurrection mood predominates, and the preaching is predominantly from the texts that are yet new, it at any time the thought of death can cease to be a background to the thoughts of life. It is at this period of the year, many city streets that lead to church doors bloomed yesterday morning with brilliant millinery and garments fresh from the tailor. On fifty thousand Toronto breakfast tables eggs were featured according to the custom which has wandered from the centuries from some remote occasion when the early Christians introduced it. There is no doubt that the custom gained popularity and made a hit immediately among the children. Few people have forgotten the egg-eating competitions which took place at the Easter Sunday breakfast tables of their younger days when eggs were abundant and children were encouraged to eat as many as they could. Healthy boys on the Ontario farms have been seen to consume as many as eight, but now the custom is not so freely observed. Eggs are now articles of great commercial value. Still there were a few who ate eggs shells emptied in Toronto yesterday.

Gifts Exchanged.

Among the fingerboards that mark the passing of the year and celebrate great events, Easter is third in importance. As at Christmas and New Year, gifts are exchanged. Continued on Page 8, Column 4.

CHINESE LEADER KILLED AT SHANGHAI

Sung Chiaojen, a Patriot and Scholar Universally Esteemed, Assassinated by Order of His Political Opponents—Plan Also to Kill Two Generals.

Special Cable to The World.

LONDON, March 24.—(Copyright.)—(Monday)—A Peking cable to The Morning Telegraph says: No more fatal and far reaching thing for China, dashing the fair hopes just raised by President Wilson's message, could have occurred than the cruel assassination at Shanghai of Sung Chiaojen, leader of the Kuomintang party. He was a patriot and scholar universally esteemed. There is not the slightest doubt he was shot by order of his political opponents. "Probably there was also a plan to kill General Fungshing and General Chenkel, who represent the military element of the Radical south, and control the Kuomintang, or United Nationalists, who have 288 members out of a total of 545 in the coming parliament. They are devoted to the two leading ideas, namely, a party cabinet and provincial rights, as opposed to Yuanshihki's ideal of a Peking dictatorship. "In all diplomatic quarters the blackest pessimism reigns, for the days when the government of China by the assassin's dagger was possible are now long past, and a resumption of such methods must inevitably precipitate civil strife."

CLOSURE FIGHT TO BE DELAYED

Interim Supplies Will First Command Attention—Real Struggle to Start Next Week.

OTTAWA, March 23.—(Special.)—Parliament Hill is well-nigh deserted, and there will likely be only a slim house here on Tuesday. Notice of the proposed change in the rules making closure possible, will, no doubt, appear on the order paper at an early date, but the amendments may not be pressed immediately. There is every reason to believe that an interim supply vote will be passed this week, thus enabling the government to carry on the business of the country until May 1. This vote of course cannot become effective until the return of the senate on Thursday.

The coming week will therefore be devoted to the supply bill and concurrence and to a general discussion of the proper interpretation of the rules of the house as they now exist. The fight over closure, which will be a long drawn out and bitter contest, will hardly commence before Monday or Tuesday of next week. It is still anticipated, however, that many members upon their return after the Easter recess, will be urged to advocate some reasonable compromise which may postpone the question of closure to another session and permit Canada contributing to imperial defence to be presented as a free-will offering of the entire nation.

WOMEN DAUNTED BY A HOSTILE GATHERING

Disorderly Mob in Hyde Park Threatened Serious Disturbance if Suffragettes Appeared and Latter Wisely Held Aloof—Windsor Castle Under Guard of Detectives.

LONDON, March 23.—(Can. Press.)—A great crowd of youths armed with various kinds of missiles, tin whistles, mouth organs and bells, gathered in Hyde Park today, prepared to repeat the rowdy scenes of last Sunday should the suffragettes attempt to hold their regular Sunday meeting.

The women, however, wisely refrained, but the crowd, who were out for trouble in any event, spent the afternoon in hustling men who declared themselves to be sympathizers with the suffrage movement. The police had been advised that the meeting would be held, and a strong force patrolled the park and the adjoining streets. The crowd finally became weary of waiting and dispersed toward evening. An officer who has long experience in handling mobs, said that it was a good thing the women did not appear, as the men were in an angry mood because of the burning of the country home of Lady Amy White, widow of Field Marshal Sir George White, the hero of Lady's Smith.

Altho Lady White's house fortunately was empty, this act of incendiarism has caused a more bitter feeling against the militant suffragettes than any of their previous crimes. Windsor Castle Guarded. Windsor Castle, where the court has gone into residence, is being closely guarded and special precautions have been taken to prevent women from making any demonstrations or committing any outrages. A special staff of detectives has been sent to Windsor, and the north terrace of the castle, which has always heretofore been open to the public, has been closed. Hampton Court Palace has also been closed. James Keir Hardie, the socialist and independent labor member, who is one of the strongest supporters of the women's cause, had a peculiar experience at Manchester today. He addressed a suffrage meeting in the afternoon and was interrupted by men with cries of "traitor" in the evening when he addressed a meeting in connection with the annual conference of the labor party, suffragettes persisted in interrupting him, and several women had to be forcibly ejected.

Coercive Measures Will Follow Persistence by Little State in Refusing to Allow Civil Population to Leave Scutari—Italy Also Makes Demand, But Omits Threat.

LONDON, March 23.—(Can. Press.)—Austria today delivered at Cetinje a thinly veiled ultimatum to Montenegro, threatening that if the civil population of Scutari were not allowed to leave the city the dual monarchy would take coercive measures for compliance with its wishes.

Italy took similar action, but without expressing any threat, and Russia, the friend of Montenegro, advised the Montenegrin government to accede to Austria's demand. Austria is sending a steamer to Scutari, evidently expecting that this, her second request for the release of the civilians, will not be refused, and has also made clear what she requires in connection with the other incidents of the dispute between the two countries.

Powers Are Busy. In the meantime the representatives of the powers at the Balkan capitals are busy submitting to the governments of the allies a note suggesting terms as a basis for peace. The note has not yet been presented to Turkey, as one of the ambassadors has failed to receive his instructions. The allies have been consulting with regard to the note, and the public and press of the Balkan States do not receive the suggestions with any favor. News from Montenegro quarters indicate that King Nicholas believes that the fall of Scutari is imminent. He is in command of the combined Serbian and Montenegrin army, numbering 52,000. From the same source it is reported that the city has already been partly destroyed and the large buildings having been damaged. Famine prevails, and it is reported that many Austrians and Italians have been killed.

MUST COMPLY OR FIGHT.

CETTINJE, March 23.—(Can. Press.)—It is semi-officially announced that Austria presented an ultimatum to Montenegro today, demanding a suspension of the military operations around Scutari until the entire civil population leaves the town. In the event of a refusal, Austria will resort to arms against Montenegro. In a note which is couched in threatening terms, Austria also demanded that all Catholics and Mohammedans in Jakova and the surrounding district, who have been converted since the Montenegrin occupation, must be restored to their former faith. With a view to proving that the conversions in question were not attended by any compulsion, Austria replied that she proposed to appoint a commission, on which, besides the Montenegrin members, there should also be one representative of Austria and another of Italy or some other great power.

Montenegro at the same time stated that she could not allow the government of Austria to be exercised in territory occupied by Montenegro. Answer Not Satisfactory. Austria refused to accept the answer to this note, on the ground that its wording was not seemly. In government circles here the conviction is expressed that Austria refused, not on account of the form of the reply, but because of its contents. The official journal publishes a communication, in which it is stated that the Catholics and Mohammedans of Ipek and Jakova expressed the wish to join the orthodox church, but were dissuaded by the Montenegrins, who advised them to exercise patience. The movement spread, however, as the people were unable to understand why they should not return to the old faith of which they had preserved usages. When they repeated the demand, their wish was granted. The priest Patic, the communication explains, was arrested for inciting the Albanians against Montenegro. He was being taken to Ipek for trial when he attempted to escape and was shot.

TORNADO HITS MIDDLE WEST

CHICAGO, March 23.—(Can. Press.)—It is reported that a tornado has struck Omaha, prostrating wires and unroofing houses. All telegraph lines are down, and communication with the city is cut off. The storm is said to be headed east.

KANSAS CITY, Mo., March 23.—(Can. Press.)—At the Union Pacific office here it was said tonight that Yutan, Neb., had been partly destroyed by a tornado tonight and that the town was burning. Five persons were dead and many injured, the report said.

MAN'S TROUBLES JUST STARTING

One Man in Every Forty-Seven Who Voted For President Wilson Wants a Government Job.

WASHINGTON, March 23.—One man in every 47 who voted for Woodrow Wilson for president is a candidate for office under the Democratic administration. In other words, there are on file at the ten executive departments of the government 121,530 applications for jobs. There are just 10,384 jobs available for office seekers. President Wilson, the members of his cabinet, senators and representatives are now engaged in the difficult task of parceling out 80,000 applications. Presidential postmasters are appointed for a four-year period.

NO DISSOLUTION SAYS PELLETIER

Election Rumors Scoffed at by Minister—Opposition Seeks to Paralyze Canada, He Asserts.

QUEBEC, March 23.—(Can. Press.)—That there will be no election this year nor until the time fixed by the constitution, was the emphatic statement made today by Hon. L. P. Pelletier, postmaster-general, who has proffered by the Easter vacation to visit his aged father at Trois Pistoles, whose health is somewhat discouraging. Mr. Pelletier has also spent a couple of days at Quebec. He characterized the attitude of the opposition as being infantile and handled Sir Wilfrid's latest manifesto without gloves. Mr. Pelletier accused the opposition of trying to paralyze everything in an effort to impose its views on the country and to commit the country to an expense of \$150,000,000.

TURKISH LINES ARE RESTORED

Tchatalja Columns Now Are Vastly Different From Those of a Few Months Ago.

Special Cable to The World.

LONDON, March 23.—(Copyright.)—H. M. Donohue, who, with other war correspondents, was allowed by the Turkish officers to visit the army at Tchatalja, says in a cable to The Daily Chronicle: "The Tchatalja army today is a vastly different force from those terrible columns composed of starving and emaciated human wrecks, survivors of Abdullah Pasha's terrible retreat, which I saw falling back on those lines towards the end of the first phase of the war. Some one has worked wonders in the interval. Order and organization have been evolved out of almost hopeless chaos. Food is no longer a rare luxury, for the Turkish soldier is now well fed, well clad, well housed, and his long overdue pay has evidently been forthcoming in full around Hademkeul has been rebuilt, the former execrable roads have been remade, permitting motor traction. A light railway has also been put down for re-equipping the army and carrying ammunition to the forts. These are only a few of the administrative miracles which some Turkish general Kitchener has worked on the Tchatalja lines."

MONTREAL OFFICERS PLAY BALL LOSE TWO GAMES IN ARMORIES

Cavalry Beat Royal Scots 29 to 15—Queen's Own Win From Victoria Rifles by 25 to 5.

Toronto officers vanquished Montreal officers in their games at the armories Saturday night. Queen's Own defeating Victoria Rifles and Cavalry defeating Royal Scots. Both Toronto teams showed superiority in all branches of the game and won on their merits. In the first game, Victoria Rifles could not hit Muntz and were fortunate to score at all. Some noise falling on Queen's Own's part gave them some runs. Gunn's pitching seemed to just suit the Q.O.R. batters, for they hit the ball to all corners of the armories.

The second game was more even. Altho Victoria Rifles are champions of Montreal on Saturday night's play Royal Scots Cavalry a battle all the way. They hit and ran the bases well, but were not quite as strong in the field as Cavalry. Both teams hit the ball hard. Peck of Royal Scots looks like a cracking good man. Molson and Ross hit well, while for Cavalry, Winters, Hendry, Yellowlegs and Meredith all shone with the stick, Hendry having two homers to his credit.

Brewed to Perfection

Cosgrave's famous products are literally brewed to perfection. Purest ingredients—the finest selected malt and hops—with tested spring water—combined in the most approved way by expert brewers. Properly aged and bottled by an up-to-date process that keeps air away from the product until ready to serve. There may be other brews as good as Cosgrave's, but it would take a long time to find them.

TEN-ROUND BOUTS IN NEVADA.

CARSON CITY, Nevada, March 22.—Governor Oddie yesterday signed the act repealing the law permitting finish fights in this state. The measure allows ten-round boxing matches on payment of a license.

The governor also signed the new anti-gambling act, which amends the old law by making poker playing a misdemeanor instead of a felony. Percentage games are made a felony. Gambling with cards, formerly permitted, is made a misdemeanor.

INDOOR GOLF.

CHICAGO, March 22.—Charles Evans, Jr., of the Edgewater Golf Club, Western amateur champion, today wrestled the indoor golf title from Warren Wood, runner-up in the western tournament at Denver last summer, defeating him 2 to 1 in the final match. The match was played over distances representing the Homewood County Club course.

HYDRO-ELECTRIC EXTENSIONS

Hon. Adam Beck's announcement that tenders are to be asked for immediately for the construction of the new hydro-electric transmission line to Windsor, marks in really extraordinary fashion the success of the provincial power policy, it also discloses the essential difference between the private corporation policy and the public ownership theory.

It is one of the peculiar things of the situation in Ontario that places like Aurora and Newmarket, much nearer the source of electric energy than Windsor, can be prevented by their sort-sighted officials from entering into such an advantageous agreement as the Ontario power union offers to its members.

Let Sir Thomas and his co-directors get seized of this idea: the most substantial development in all Canada for the next few years is to be in this province. There will be more manufacturing, more mining, more business, more good farming and more hustling than in any other province.

BLOOR STREET VIADUCT.

A good deal of credit is due to the commissioner of works for his decisive stand on the awkward situation that had arisen over the erection of the Bloor street viaduct. A large body of opinion was decidedly in favor of a concrete structure. The cost and the expense of maintenance were decided elements on the side of cement.

CAR LINES AS LOCAL IMPROVEMENTS.

Editorial articles in other papers indicate that The World was not alone in its understanding of the proposal to lay street car lines on the local improvement system. In practically every case the danger of adopting such a principle is clearly recognized.

UNITED STATES TARIFF REVISION.

President Wilson is not having any regarding precedent, but is establishing new precedents. He is maintaining the course he has initiated, future prospects of the United States will

keep far more closely in touch with the course of congressional action than their predecessors have done. Mr. Wilson is known not only to regard himself as the head of the republic, but as the official leader of the party to which he belongs and he intends to maintain, as he did when governor of New Jersey, the same close personal touch with the planks of the platform on which he was elected.

In the matter of tariff revision the president has placed himself immediately in touch with his supporters in the senate and in the house of representatives and has imbued them with the same spirit of conference and agreement. In this as in other important lines of policy he is going to work in support of a common cause and in the way that will unite all sections of the Democratic party.

WHAT THE C. P. OUGHT TO DO. Sir Thomas Shaughnessy and his co-directors ought to thank their stars that they've had a mild winter in Ontario and have pulled thru as they have done. Their equipment was at the straining point all the time; marked, most of all, in the way of motive power and some classes of cars.

NEW CUNARD STEAMER FOR CANADIAN TRADE

LONDON, March 23.—(C.A.P.)—The first of two liners which have been commissioned by the Cunard Company for Canadian passengers this summer, was launched Saturday at Greenock.

The "Andania" is a handsome vessel of 13,000 tons, with accommodations for over two thousand second and third-class passengers. There is no first-class.

The comfort of the passengers has been especially studied in designing the staterooms. There is an unusual number of two berth rooms. The ship is fitted with Marconi wireless apparatus, submarine signaling, bilge keels and watertight doors.

Lady Inverclyde performed the naming ceremony. Speaking at the luncheon which followed, M. H. Maxwell, a Cunard official, indicated that the Cunard Company were still on the move and intended to keep their place in the shipping world. They had gone into the Canadian trade realizing the growing needs of that country and the very large number of people to be carried there. The new vessel is expected to make her maiden voyage about May 1.

SERMONS OBSERVED WITH REVERENCE

Continued From Page 1.

Year's, Easter is marked everywhere by the presentation of gifts, and many of these take the form of the egg, the symbol of life and resurrection. Toronto's foreign citizens who are of the Catholic religion, and those who are of the Greek Church, salute each other with kisses when they meet in Easter Day, eat eggs profusely, also cakes and confections molded in the shapes of eggs, also they drink wine from huge Easter eggs of glass and china, they visit each other's houses freely and are abundantly entertained. There is a truce in all feuds and quarrels, and old enemies meet and converse amicably on the day. Usually among the men the outward and visible symbol of Easter takes the form of a new and gorgeous necktie and women wear new hats ornamented with bright ribbons. When they meet they say to each other in greeting: "On this day Christ rose." In the Christian churches yesterday the worshippers, arrayed in new attire, with the spirit of spring in their hearts, listened to the special Easter music and in two or three churches, to Easter cantatas. Most of the sermons were filled with Easter thoughts.

Easter Services.

In the Metropolitan Church Easter anthems and selections from the oratorio "Elijah" were sung by the choir. Rev. W. L. Armstrong preached appropriate sermons. The magnificent cantata "Moses" by the choir, which attracted a large congregation to the Trinity Methodist Church, at the Broadway Baptist Church an Easter cantata, "Death in the Spring" was given. At the College Street Presbyterian Church, Rev. Dr. Ferguson of British Columbia preached a sermon entitled "God Doing Our Things" in the morning. At the evening service, Rev. H. R. Pickup delivered a special sermon which he called "Easter Lilies."

At the Western Congregational, the newly reorganized choir were surprised for the first time. A churchful of Easter worshippers listened to the fine music. The Anglican churches in the city were decorated with white lilies and Easter blossoms. The beautiful service of the English Church, which music forms the greater part, was conducted by the choirman in charge.

At St. Michael's Cathedral Archbishop McNeil offered pontifical mass and extended Easter greetings to all men of good heart. His grace, regarding the general procession of the resurrection, said in part: "In consequence of our faith in the crowning proof of Christ's divinity, we are assured of a certain life beyond the grave. We rejoice with Him on this triumphant Easter day and our joy is like to those who board a ship in momentary danger of engulfment, see the rescue vessel approaching. Their fear has been turned into great joy.

The consideration of the resurrection produces fear and joy. Fear is the thought of death, joy in the fact that our Saviour's resurrection is a pledge of our own. Humanity walking in a continuous procession to the grave, the narrow gate to the other life, is filled with fear and uncertainty; the great procession views the number constantly increasing of those of whom return to tell what lies beyond. But one member of this procession passed through this narrow strait in victory. He entered with the peace be to you on His lips and the marks of the crown and nails on His head and hands. For 40 days He gave us the words which strengthened the faith in His young church. This "divine society," too, has had its periods of depression and activity, and its grace thinks it is one of its most vigorous epochs. In fact, he said, one can see it: just as one standing on the shore can see the waves before it is felt. The little ripple and then the wave indicates its coming. So, today a wave of infidelity is sweeping over the church. We cannot see it advancing. We know its presence by the oft repeated expressions, "I have no religion." This wave will wipe out many a landmark. But the Catholic Church, with its inherent vitality, will remain to preach "Christ crucified." The resurrection of the body and life everlasting.

The archbishop asked what the world would be without this religious hope.

The certainty of this hope is the foundation of the joy which we experience on this Easter day. It gives us the greatest pleasure to join with our best friend in His day of triumph, and I wish you the joys and blessings of Easter tide," he said.

Social Problems.

Yesterday afternoon at the Metropolitan Church, Mr. A. Wesley Martin addressed the society service organization of the church at the last meeting of its second season. His subject was "Social Problems of the Twentieth Century." He spoke of the "Church." It was a very clear and definite presentation of the various problems confronting society and demanding the attention of the Chris-

WONDERFUL BOY ACTOR SPENDS HIS SPARE TIME IN Y. M. C. A.

Burford Hampden, Who Plays Tytyl in "The Blue Bird," Likes to Swim and Sleep Almost as Well as He Likes Being on the Stage.

BURFORD HAMPDEN.

The English boy who plays the role of Tytyl in "The Blue Bird." He will return to the Royal Alexandra next week, where he is a great favorite.

Master Burford Hampden, who has endeared himself to the theatregoers, Gees, I'm late!" and as Burford looked at his watch, Maeterlinck was promptly banished by the thought of the postponed Y.M.C.A. "date."

All you saw was a pair of very healthy heels disappearing in the direction of the "gym," with a corner of a bathing shirt and one "sneaker" protruding from the partly unbuttoned coat of athletic dress.

And Tytyl was just a little boy again.

NEARING THE END OF THE FREE BREAKFAST SEASON.

They came, they ate and went away satisfied, as they had done for 12 Sundays this winter. The Sunday morning free breakfasts given every week at the Yonge street mission are drawing to a close, just one more to be held this year. There was a turnout of 267 men yesterday morning, and they showed their musical ability as usual by the bright way in which they sang. An earnest address was given by Rev. C. H. Schutt of Central Baptist Church. The last breakfast of the season will be given next Sunday morning.

Presently the boy confided to "his new-found friend that the "date" was an appointment at the Young Men's Christian Association.

"You see," he explained, "I have an international membership card that admits me to any Y.M.C.A. gymnasium in the world. Up in the gym they don't know I'm an actor. It's great. Nobody asks me to recite a piece, and when we box, they buff me as hard as anybody else. I was cheating a bit today, trying to get up there ahead of the usual time, when you stopped me."

"What is your favorite sport?"

"Swimming and sleeping. The finest time I ever had in my life was at Monte Carlo last summer. The water's great there. Every day I slept fourteen hours, and when I was awake, I was in the sea, or in a boat, every day now. I'm a pretty busy little fellow, if you could sleep as long something. You see there are three hours of sleep in a day, and an hour for my meals, which is a lot of fun. Then, of course, there's a performance of Tytyl every evening and two on matinee days. As I don't get up until eleven, you see it keeps me hustling."

"How long did it take you to learn the part of Tytyl?"

"Three weeks. I may not look it, but I'm an actor of experience. I played Puck in 'A Midsummer Night's Dream' for Sir Herbert Tree, and before that I played the Herald in 'Pinks and the Fairies.' But the proudest moment in my life was when I had but a line or two to say. It was at a special performance for King George in London.

"They were giving Sheridan's 'The Critic,' because of the many parts, afforded an opportunity for all the great actors of London to speak at least a line. It was funny to hear such great men merely passing the time of day with another character and then walking off the stage, never to appear again.

"Well, there was one part none of these distinguished actors could take. It was the little Black Page. They were too big for it. Imagine how I felt when the director told me that Burford Hampden should have it. I didn't have much to say, but I said it, and it was more than several veteran actors had. Why, I just barely commented to speak to father and mother when I got home. As you say in America, 'Some class, eh?'"

"Have you studied 'The Blue Bird' symbolism?" asked the interviewer, it is to be feared, somewhat waggishly.

"There isn't any," replied Burford, in matter-of-fact tones. "It is just a fairy story. Why, in Boston, Mass., he added, "all those highbrows out in front were like so many Pages. They discovered a symbol in 'his story' a symbol in that, until their symbols clashed and nobody knew what they were talking about. I don't believe Maeterlinck was writing in symbols; but if he was, I don't believe he knew

GAY COLORS SEEN ON FIFTH AVENUE

NEW YORK, Mar. 23.—(Can. Press.) Fifth avenue's annual Easter dress parade was favored today by bright sunshine, but with a decided nip in the brisk wind that blew. In the afternoon hours the fashionable throngs were thronged as of olden before, but the display of the season's styles was perhaps somewhat less effective than some times because of the frequent resort to furs and wraps of various sorts in the chilly air. Extremes in design were rare in the gowns worn, the striking note of the exhibit being the generally high color scheme. Bright hues were the rule rather than the exception, in both clothing and head covering of the feminine element.

Churches all over the city were well filled at the morning services with elaborate musical programs the rule. The throngs were so great at St. Patrick's Cathedral on Fifth avenue and the new Cathedral of St. John the Divine uptown that thousands were unable to gain admission.

Wash your dishes with GOLD DUST

Ordinary dish-water only cleans the surface. Put a dash of Gold Dust into the water and it will go to the bottom of things, drive out every bit of dirt, every germ, every hidden particle. Gold Dust cleanses as well as cleans.

We promise you this if you use Gold Dust: Your dishes will be sweeter and cleaner than ever before and you will save at least half the time ordinarily consumed in washing them.

Gold Dust does better work than soap or any other dish-washing product—and saves half the time.

Gold Dust is sold in 50 size and large packages. The large package means greater economy.

Let the GOLD DUST TWINS do your work!

Why, I just barely commented to speak to father and mother when I got home. As you say in America, 'Some class, eh?'"

"Have you studied 'The Blue Bird' symbolism?" asked the interviewer, it is to be feared, somewhat waggishly.

"There isn't any," replied Burford, in matter-of-fact tones. "It is just a fairy story. Why, in Boston, Mass., he added, "all those highbrows out in front were like so many Pages. They discovered a symbol in 'his story' a symbol in that, until their symbols clashed and nobody knew what they were talking about. They came, they ate and went away satisfied, as they had done for 12 Sundays this winter. The Sunday morning free breakfasts given every week at the Yonge street mission are drawing to a close, just one more to be held this year. There was a turnout of 267 men yesterday morning, and they showed their musical ability as usual by the bright way in which they sang. An earnest address was given by Rev. C. H. Schutt of Central Baptist Church. The last breakfast of the season will be given next Sunday morning.

Presently the boy confided to "his new-found friend that the "date" was an appointment at the Young Men's Christian Association.

"You see," he explained, "I have an international membership card that admits me to any Y.M.C.A. gymnasium in the world. Up in the gym they don't know I'm an actor. It's great. Nobody asks me to recite a piece, and when we box, they buff me as hard as anybody else. I was cheating a bit today, trying to get up there ahead of the usual time, when you stopped me."

"What is your favorite sport?"

"Swimming and sleeping. The finest time I ever had in my life was at Monte Carlo last summer. The water's great there. Every day I slept fourteen hours, and when I was awake, I was in the sea, or in a boat, every day now. I'm a pretty busy little fellow, if you could sleep as long something. You see there are three hours of sleep in a day, and an hour for my meals, which is a lot of fun. Then

WOMEN'S DEPARTMENT OF THE TORONTO WORLD

"RED PETTICOAT" HERE THIS WEEK

Richard Carle and Hattie Williams Also on the Boards.

TALKING MOVIES, SHEA'S

"In Old Kentucky" at the Grand and Good Burlesques.

One of the rarest sights on the stage is a woman who can act a broad farce, or who can act any of the work that is called "character" acting. This is the case in "The Red Petticoat," a new play with music by Rida Johnson Snibert will present Henry Lowell and the original New York company at the Alexandra Theatre this week.

The Red Petticoat deals with the adventures of a lady barber who fashions the woolly beards of the wild miners at Lost River, Nevada, and her destinies with theatrical touch such as only Miss Lowell could give. Of course, there is a hero who is accused of theft, and who comes out triumphant in the end. The cast includes: Helen Lowell, Louise Mink, Grace Field, Frances Kennedy, Katherine Belkap, James B. Carson, William Prunrose, Henry Norman, Joseph Phillips, Donald McDonald, E. L. Fernandez, Wallace Owen, A. Wilder, Allen Kearns, Thomas Fulton, and others.

The appearance at the Princess Theatre this evening of Richard Carle and Hattie Williams as co-stars in "The Girl From Montmartre" will be a novelty, for it will be the first time that these two popular entertainers share stellar honors.

The week's matinee will be on Wednesday and Saturday. "Return of the Blue Bird." The Royal Alexandra management announces the return of the western of the week, "The Blue Bird," with the original company and all the spectacular, torch-bearing and musical features that made the previous visit so enjoyable to thousands of Toronto adults and children.

As a special extra attraction on the week's bill Manager Shea has booked Robert Haines and his company. Robert Haines is too well known to the theatregoers to need an introduction. This is his first appearance here in a long time. He will be heard in many of his best known and most popular songs. Another added attraction is the work of the old admirers to applaud his great work in "The Commanding Officer," and as leading man with Olga Netherole, Blanche Sloan, and Harry Stepp.

As an added attraction Manager Shea has secured Albert Von Tilzer, the American song writer and entertainer, who will be heard in many of his best known and most popular songs. Another added attraction is the work of the old admirers to applaud his great work in "The Commanding Officer," and as leading man with Olga Netherole, Blanche Sloan, and Harry Stepp.

Mary Elizabeth, the dainty vocalist and story teller, makes her first appearance at Shea's, and is sure to be warmly welcomed for her dainty personality and splendid talents. The Kaufman Brothers are blackface comedians who are new to Shea's; they have new and original material, and are favorites everywhere. Blanche Sloan, "The Girl of the Air," is a sister of the famous Jockey, Tod Sloan, and she is also a new face at Shea's. Her aerial act is a sensation.

strel man, who, with his former partner, Lew Dockstader, and their reunited minstrels, comes to the Alexandra Theatre soon, and recently celebrated his 60th birthday anniversary, but he is said to be as nimble as ever, and justly entitled to continue to be known as America's most successful dancer. He is to minister to much what Madame Sarah Bernhardt is to the legitimate theatre, or, this season, to vaudeville. Mr. Prunrose says, however, that he doesn't have to eat eggs and shrimps to keep young, as does the Divine Sarah. He says the chief reason for his agility and his character one, and her rendering of low comedy role tempts the spectator, who laughs at her humor, to take her more seriously.

As there have been so many enquiries regarding seats for the John McCormack concert, to be given in Massey Hall on April 17 and 18, the management has deemed it advisable to announce that mail orders, accompanied by remittance, will be received now. All requests for tickets and sections should be sent to Mr. Withrow, manager of Massey Hall, or to Mr. Fasker, manager Bell Telephone Bureau, 147 Yonge street. Mr. McCormack's program has just come to hand. Each concert will be different, and that the tenor is not "stings" with his voice and singing, and that he will sing twelve numbers at each recital. When Mr. McCormack sang in New York this week The Times said: "He sang beautifully, sweetly, with freedom and spontaneity of utterance, with pure and limpid tone and finished phrasing. It was an admirable achievement. Later he contributed a series of ancient Irish songs, with piano accompaniment, a kind of music that he delivers with special zest, and naturally, with an Irishman's love and understanding of his native folk song."

Few plays on the boards today can parallel the record of success achieved by "In Old Kentucky," scheduled for appearance at the Grand Opera House beginning with a special Easter Monday matinee. Its popularity is widespread and its fame is enduring. It is a play of the highest quality, and its authors to write upon themes of immediate current interest does not always result in the sort of play that appeals to the masses. "In Old Kentucky," seemingly, was written for all time and to fit all changes in public taste. When its dramatic merits are considered, it is not difficult to account for its continued popularity. It tells a delightful story, simply and appealingly, and depicts stirring incidents in a forceful way, and it abounds in a simple, wholesome philosophy of true living that rings true through the years. It has thrills and heart throbs, it has refreshing humor and sparkling comedy, and it strikes the keynote of human happiness in its message to the masses. It is a play of the highest quality, and its authors to write upon themes of immediate current interest does not always result in the sort of play that appeals to the masses.

Manager Shea is giving to the patrons of Shea's Theatre this week the first view of the new A. Edison talking moving pictures. For years the wizard has been at work on this invention, and since the first picture was produced, the perfected instrument, called the kinetophone, has been the aim of the inventor. Talking moving pictures are now being shown in New York City for the first time a few weeks ago and thousands were turned away from the B. F. Keith theatres there by the crowds.

The first picture is a descriptive lecture on the kinetophone. This picture appears in the picture, and as he gestures and as his lips move, his words are distinctly heard. He explains the invention and examples are given. A man is seated at the piano and plays; a vocalist approaches and sings "The Last Rose of Summer," and a violinist plays a solo. Barking dogs are seen and heard. A second reel is shown, called the Edison Minstrels. A complete first part is given. The kinetophone, as it is called, is a simple, one-act melodrama full of human interest, and has a pretty love story. This is Mr. Broadhurst's first sketch, and the successful writer of "The Man of the Hour," and "Bought and Paid For," has another hit in "The Coward," and as it is presented by Mr. Haines and his splendid support, the act is sure to be one of the best things of the season.

As an added attraction Manager Shea has secured Albert Von Tilzer, the American song writer and entertainer, who will be heard in many of his best known and most popular songs. Among the exciting encounters which are illustrated in the moving pictures of Col. "Buffalo" Jones' lecture, to be given at Massey Hall during the latter half of this week, is the capture of a lioness, full-grown, wild and one of the fiercest beasts on earth. The pictures show how Jones and his cowboys chase the lioness thru the tall grass, how she hides, then turns about, leaps after her pursuers, follows them away. But Jones and his men are right after her. He flings his lasso and catches her by a hind foot. Love-lace, a cowboy, throws and lands the animal by the front legs. The horses stand stiff holding the beast captive. Then the men tie the lioness by the feet and muzzle her mouth. They cut down trees and make a sort of "stone-boat" on which the queen of the jungle is dragged into camp.

The coming appearance of the New York Philharmonic Orchestra, with Josef Strausky conductor, at Massey Hall on March 31 and April 1, with the Oratorio Society in their concert, should draw an immense audience. The orchestra is classed among the best, and with such a conductor as Josef Strausky, who is able to get the best results from his players, a most pleasing program is assured. The plan opens Thursday, March 27.

BELGIUM'S NATIONAL STRIKE. BRUSSELS, March 23.—(Can. The action of the national committee was due to the refusal of the government to give consideration to electoral reform before the coming elections.

Getting the Window Boxes Ready. Window gardening is often the only phase of plant culture possible to many people, either because they have not sufficient time to spend on the work or because a garden is lacking. A true flowerer will manage an outside garden in some way or other, if it be but a small collection of pot-grown plants, or those grown in window-boxes.

But too often one sees evidences of neglect and poor judgment; either from ignorance or carelessness; either from a untidy window is not kept in appearance of cheerfulness and a disfigurement to the house, but worse, provides the passerby with a complimentary reflection upon the inhabitants.

What's the good and lasting possession of the real wealth? Times I've been down in civilization, meeting folks who'd been rusting and rotting on one spot, from a while or so to a long lifetime, and proud to boast in long decaying. They'd good memory, but nothing to remember. They're hazy about as purges if they were filled with gold. But where they're poor I'm rich, with wealth of memories, some good, some bad, all real. I'm a millionaire. Ah, yes, but times I wish that I could part with them for the good of the world, and keep mouths out of candles. Things lived ain't current coin to be given, sold, lost, thrown away, or bequeathed. A true flowerer will manage an outside garden in some way or other, if it be but a small collection of pot-grown plants, or those grown in window-boxes.

My host, who lived always at the edge of death, had eyes which seemed to see my very thoughts. How else could he know that silence was so kind? The snake-bitten man gave outspoken sympathy, to me his silence. Jones and I were his patients, and both of us found him out. The thing I had intended was a crime, and conscience-stricken, I dreaded lest he should speak. To you, you don't hear that. Already his camp was cleaned and in order, his pipe filled and alight, at all times. That's why it spoke, and at random, asking if he were not from the United States.

UNWORKABLE BILL SAY EMPLOYERS

Adoption of Draft Compensation Act Means Unnecessary Expense.

DEFINITE PROPOSALS

Canadian Manufacturers' Association Made Many Suggestions to Commissioner.

In view of the fragmentary character of the press reports of the hearings of the commissioner on workmen's compensation, held on Thursday last, as which the draft bill prepared by the commissioner was considered, and in view of the possibility that these reports might create the impression that the association was opposing such a measure, the Canadian Manufacturers' Association desires the following statement to be made of their position:

Since the appointment of the commissioner, some three years ago, the Canadian Manufacturers' Association has made every effort to further the enquiry. It has at considerable expense, brought experts from other jurisdictions, not in support of any particular interest of employers, but in order to profit by the experience of other countries and to secure a model act embodying the best results of this experience.

The result of the enquiry was that the representatives of the employers and those of the workmen had reached practical unanimity upon every question except the amount of compensation, which question would naturally be the subject of difference of opinion, and, perhaps, just as naturally, a subject for reasonable compromise.

The Real Issue. The real issue is not with the workmen, but with the employer's liability interests, supported by the C. P. R. and other railway companies, which at a late stage in the enquiry came forward with representations in opposition to the system which had been proposed, and in favor of a system in which employers would be individually liable and would be driven to seek protection by insuring in private companies.

The objection of the Canadian Manufacturers' Association and other organizations of employers of the province to the draft bill brought down is that in order to meet the views of the railway companies the bill has been so drafted as to render it unjust and oppressive to other classes of employers, and, in fact, to the public, and, in fact, as employees are convinced, impossible of successful operation.

Definite Proposal. The Canadian Manufacturers' Association has placed in the hands of the commissioner a definite proposal of a system which would be based on the basis of twice as large as those of any other province of Canada, and, in fact, as large as, or larger, than any system in the world. This proposal, which is supported by the other organizations of employers in the province, is that in order to meet the views of these relatively small special interests, an act should be adopted which would be obnoxious to employers representing 85 per cent. of the payroll of the province.

The association has expressed itself as more than willing that an act of an advanced type, such as, for instance, that of the State of Washington, should be adopted, but a careful examination of the proposed bill has convinced the committee of the manufacturers that the bill is unworkable, that its adoption would mean merely an unnecessary repetition of costly and unsuccessful experimenting, the results of which have been conclusively proven in other countries.

USED GAS BOMBS TO CAPTURE A CRIMINAL

PARIS, March 23.—(Can. Press.)—A weapon for the firing of asphyxiating bombs, devised after the recent siege of the automobile bandits in their strongholds, was used for the first time today in the arrest of a negro, who had become suddenly mad and ran amuck in the Auteuil quarter, threatening everyone with a loaded revolver. Detectives chased the man from room to room in a house where he had taken refuge, firing gas bombs as they went. The fugitive was finally cornered on the roof of the house in a state of semi-asphyxiation. He was quite powerless and was transferred to a hospital.

"Financial relations are too thickly interwoven between the two countries." Last night's sermon was the second of a series on social questions.

WANTED—A MAN

He must be a man with the punch! He must be so full of energy that if he stood still for five minutes he'd explode. He must be so full of ideas that he germinates them like flies' eggs, and yet he must be so careful of his ideas that he hatches them like Ostrich Eggs. He must be able to take hold of this chair and this desk, and put at least ten per cent. more energy into them right away. And he must be able to get ten per cent. more profit out of them as quickly as possible. There is a great salary waiting for the man who can fill this job. Some firm is advertising a position like this almost every day. And the funny part of it is you are the man they are always looking for—only you don't know it. You can fill these positions that you see advertised day after day. There isn't any question about it. All you've got to do is to gear up your energy to a higher speed and make your mind work faster. There is no limit to what you can do if you will only try. Now the first measure of whether a man can fill these opportunities or not is whether he keeps looking for these opportunities. If firms keep advertising

And every time you answer an Ad mention this paper. That will show the people that you are alive to your own opportunities. Begin now!

BANK CLEARINGS OF THE DOMINION

Smallest Percentage Gain of Year—Effect of Money Stringency.

Canadian bank clearings last week totalled \$163,994,791 (excluding New Westminster), a gain of \$8,856,148, or 5.7 per cent. over the same week of 1912. The smallest increase of the year to date. The previous week the gain was 8.8 per cent. and the week before that 11.1 per cent. The smaller improvement plainly evidences the reaction in trade, real estate activity and stock market speculation, due to the acute money stringency throughout the Dominion.

The following table shows the detailed clearings for the week, the gain or loss compared with corresponding period of 1912, and the percentage of increase or decrease:

Clearings	Inc.	Pct.
Montreal	\$1,453,556	\$5,459,158 10.8

COBALT SHIPMENTS WERE CURTAILED

Output Was Lower Last Week—Due to Easter Holiday Period.

COBALT, March 22.—(Special.)—The output of the Cobalt camp for the week ended today was considerably below the production of recent weeks, the natural result of the holiday period. There were 12 cars sent out by seven companies, 8 cars of high grade and 4 of low. Last week the output was 15 cars, of which 11 were high and 4 low grade.

The bullion shipments were 87 bars, containing 39,492.10 ounces, valued at \$85,543.84, which compared with 218 bars valued at \$144,666.97 last week.

The Nipissing is now shipping to England the residue from the clean up of the high grade mill. The fact that it is marketable at all is indicative that there is a better demand for one of the most important by-products of the camp. The output is being sent to the firm of Fellows, Morton and Clayton, Ltd., Birmingham, England.

The shipments for the week in pounds were:

High.	Low.	Lbs.
O'Brien	1	65,800
La Rose	2	221,110
McKinley	2	121,418
Nipissing	4	187,623
Townsite	1	69,700
Peterston Lake	1	81,281
Dom. Reduction	1	66,491
Total	12	811,903

The bullion shipments for the week were:

Bars.	Ounces.	Value.
Nipissing	63	76,550.88
O'Brien	15	18,280.02
Miller Lake	2	734.20
O'Brien	7	7,917.00
Dom. Red.	7	4,052.93
Total	87	99,492.10

WHEAT ADVANCED ON MANIPULATION

Bull Movement Apparently Designed to Affect Prices on Foreign Exchange.

CHICAGO, March 22.—Leading bulls who were plainly in control, hoisted the wheat market today, presumably for effect on foreign exchanges after Easter. The close was firm at 1-4 to 5-8, a 3-4 net higher. Other leading staples, too, showed an advance as compared with 48 hours ago, corn 1-4, 3-8 to 3-8, oats 1-8 to 1-8, 1-2 and provisions 12, 1-2 to 25 cents.

There was not a great deal of selling opposition to the upturn in wheat. Cold weather discouraged the bears despite the fact that experts in the fields were unanimous in declaring the outlook as nearly perfect as it could be at this season. On the other hand considerable apprehension existed among many traders who held that whatever may happen between now and harvest time must be for the worst. Wheat bulls had a freer hand because winter conditions prevented receipt of quotations from outside points. It also figured that the natural effect of the storm would be to lessen arrivals at the principal railroads, forcing primary receipts of wheat for the day, however, could not be told exactly, as statistics were decidedly incomplete. Total seaboard clearances of wheat and flour for two days, equalled 480,000 bushels, Baltimore missing, against 187,000 bushels for one-day a year ago.

Corn Movement Retarded.

Expectation that bad roads would interfere with movement of corn caused a firmness in that grain. Later there was an easier feeling on account of advices that railroad facilities east were being overtaxed and corn shipments were being held on demurrage. The sending of oats sent prices in that market up.

Lightness of hog receipts caused firmness in the provision list. Nevertheless some swing developed on the theory that there would be a liberal run of storm delayed hogs next week.

RUMOR SAYS FOSTER HAS LAWSON VEIN

Reported Famous Lead Has Been Located on Leased Property in Cobalt.

There was a well-defined rumor in mining circles on Saturday that the famous Lawson vein had been picked up on the Foster property, which adjoins the Lawson holding of the La Rose on the east side of the Cobalt camp. Details of the discovery were lacking. The Foster claim of 40 acres is under lease to the Flynn interests, who have been carrying on development work for some months. There was quite a demand for Foster on "the street" on Saturday in consequence of the reported find in the Cobalt camp. Several points in the endeavor to locate stock.

GILT-EDGE STOCKS ON BARGAIN COUNTER

There is little or no inflation in the stock market, which is technically in a sound position, and gilt-edged securities ought to be a purchase upon any sharp recessions. But for the time being, and while general conditions remain so unsettled, we advise prudence and caution in buying. The money and credit situations are unthoroughly satisfactory, and the cure may be nothing less than enforced contraction.
