first week of June they came like that," said a clerk snapping his Open Air Horse Parade Association Hold Enthusiastic Meeting.

A very large and enthusiastic meeting of the Open Air Horse Parade Association was held last evening in the King Edward hotel. Noel Marshall, the president, was in the chair and reported that altho the entries closed today, the executive had decided to accept entries until Monday next, but merchants and other intending exhibitors are requested to send them in bitors are requested to send them in immediately. Letters were read from many prominent out-of-town judges, who have accepted invitations to act. A letter was read from his worship Toronto came in. The Clydesdale Horse Association of Canada have presented two very fine cups as first prizes in classes Nos. 22 and 26. The horses exhibited in these classes must be sired by a registered Clydesdale.

The city military bands have been engaged to play in the park during the judging and to take part in the parade. Everything is free to the public, and it is expected that nearly 1000 horses will take part in the parade, the association this year having introduced a brass medallion, suitably mounted on leather, as an award to Forgot "and Wife."

Price Opens Series in Parkdale in Argyle Hall Tonight.

"Is it correct that you have made a 'handsome contribution' to the campaign fund of Mr. Rowell, as some of the Liberals are stating?" asked The World of J. W. Flavelle last evening at his residence.

"I do not care to answer that question," was the reply. "I am leaving the city tonight and am not taking any part in the election whatever,"

The reference was to a statement put into circulation by several Liberal workers, to the effect that Mr. Flavelle had switched his allegiance from J. W. JACKSON, W. C. WILKINSON, Chairman of Committee. Sec.-Treas the Conservative party at this election. During the interview with Mr. Flavelle it was pointed out that if his ac-

tion were neither affirmed nor denied. it might be misconstrued, since he had signed the nomination paper of Mark Irish in Toronto N. E., and had op-posed the Methodist Conference adopt-Irish in Toronto N. E., and had opposed the Methodist Conference adopting the Rowell platform.

"Doesn't that show just where I stand?" he said, and was about to explain his position in the conference when he checked himself.

"I do not care to be interviewed on the subject at all," he said. The explanation, according to one authority, is that Mr. Flavelle is in sympathy with the stand of Mr. Rowell on temperance and consequently would feel free to support it. He did not ap-prove, however, of the church as a body coming out to ally itself with a

political party.

At the conference Mr. Flavelle stated that he did not consider abolition the best way to deal with the liquor evil. There were other ways, but he did not desire to discuss them. In his opinion it was not the wisest policy for the conference of the conference it was not the wisest policy for the as-sociation to endorse Mr. Rowell, whom he personally loved and respected.

"DON'T BE SUFFRAGETTES" ADVICE GIVEN TO GIRLS

Canadian Press Despatch.
HALIFAX, N.S., June 17.—"Girls, do not, oh, do not be suffragettes." earnestly pleaded Rev. Dr. John For-rest today of the graduates at the closing exercises of the Halifax Ladies' College. "I have no patience with them," he declared. "They are the women who have chosen to follow the worst example that man can give them. Don't be masculine women, and don't be like some women who use the hatchet." Dr. Forrest's strong denunciation

of the tactics employed by militant suffragettes was received with a long round of applause, not only from the scholars but also from the audience, the majority of whom were ladies.

Capt. Andersen of the Storstad dealt a heavy blow to Mr. Aspinall's theiry that the 12 feet penetration of the collier's nose indicated that her speed supplied the striking power, by saying that, loaded as his vessel was, she would have gone clear thru the Empress, traveling at ten knots.

Took Grave View of Case.

From the comments made by Lord Mersey, the fact that Mr. Tuftenes,

who was in charge of the Storstad just prior to the accident, did not call Andersen directly he saw fog coming, in accordance with his instructions, assumed a grave aspect, the Captain Andersen, while agreeing that he should have been called earlier, said it would have made no difference, as his reversal of his engines directly he came on deck was only due to the ap-pearance of the Empress, which was not expected. Lord Mersey pointed out that had the Storsad's engines beer reversed earlier the calamity would

not have occurred. Corroborated Kendall. Edward Jones, first officer of the Empress of Ireland, who was on the bridge when the collision happened, told much the same story as did Captain Kendall. He claimed the Empress was stopped and the collier moving, and C. H. Haight, acting for the Storstad owners, tried to indicate by his cross-examination of this witness that the Empress' master had disobeyed the navigation rules by stopping in the fog when the regulations required him only to go slow and under the other ship's stern after ascertaining the position of the Storstad. The confusion over the whistles -that is as far as the stories of the two sides are concerned—was heightened by Mr. Jones, Mr. Haight claiming that misleading signals were given. Lord Mersey pointed out that the officers on the Empress seemed to

have followed the rules in this connec-Manoeuvres on Empress. Edward Jones, the first officer of the Empress of Ireland, was examined by Butler Aspinall at the afternoon session and testified that he was on duty on the bridge, and that after the pilot was dropped at Father Point he saw about six miles off on the starboard bow. The course of the Empress was changed shortly afterwards and a little way was off her.

"Then we went from full speed ahead to full speed astern," said he, "and "I was not save three short blasts. The other vessel answered with her whistle. There's nothing to equal this treatment as a facial rejuvenator.

'PURE WHITE" IS PARAMOUNT COLOR

There is a particularly stunning combination which forms the basis of many a striking street garb, and which is undoubtedly accepted by the large majority of well-dressed 1914 women. There is a dark blue taffeta frock, there is a chic white chapeau and there is a touch of emerald green. The white straw hat may mean a host of things. It may be a small neat shape, with a circlet of gardenias and their soft green leaves, it may mean a soft white straw, faced with green and enhanced by two white mercury wings. The charming sailor shape may be constructed of white satin and the crown wreathed with an empire garland of green taffets leaves.

"All white" rules, says Dame Fashion, so milady proceeds to be ruled in very earnest. Snow white is paramount. The frocks are unreleved white; there are oddly shaped effective white parasols, and there are the above mentioned bewitching white hats. In many instances white flowers trim the hats and the foliage is often white.

White are the gloves, hose, and

Perhaps the prettiest and most serviceable sunshades are those which will stand the most use. Dainty little cotton crepe models of the morning glory type, the flowered inner part extended by a plain border, are very chic, as are the heavy linen washable shades with scalloped edge or hemstitched border. Pure white corded slik shades with bright silk linings are also very becoming and throw a pretty tint over becoming and throw a pretty tint over the all-white costume.

STRAWBERRIES AND JUNKET.

Great strings of electric lights that twinkled in green, yellow, sapphire and topaz shades, like so many fairyeys, heraided the coming of night and added witchery to the scene. The orchestra of De La Salle Institute played thruout the afternoon and evening, a Highland piper lending variety with the skirl and lit of his pipes. The beautiful stone house with the ivery growing about it was a notable feature of the landscape.

The lieutenant-governor, Lady Gibson and suite had tea in the large marquee, the coming of the gubernatorial party being greeted with the National Anthem, played by the orchestra. Among other visitors were: Rev. Fathers Keranhan, Dollard, McGrath, Flanagan, Brothers Rogation and Edward Claude Macdonell. M.P., W. Kernahan, T. J. Ford, Mr. Elmsley and E. J. Hearn.

Here is one that calls for one quart of milk, a tablespoonful of liquid remnet, a pint of fresh strawberries, hulled and dry, and a cupful of cream, whipped wery stiff. Proceed in the usual way with junket desserts by heating the milk in a double boiler till it is blood theat. Then add the rennet and remove from the fire, and when it begins to thicken pour into a dessert dish and add the strawberries. Keep on the ice for an hour before needed, and serve with whipped cream, slightly sweetened and a sprinkling of nutmeg if desired.—Copyright by McClure Newspaper Syndicate.

CURIOUS OLD LAWS.

Some of the old laws of Nepal, India. were curious. Killing cows ranked with murder as a capital offence, for in-stance. Every girl at birth was married with great ceremony to a betel fruit, which was then cast into a sacred stream. As the fate of the fruit was uncertain the girl was sup-posed never to become a widow. To obtain divorce from a husband a wife had only to place a betel nut under his pillow and depart. In Nepal the day is considered to begin when it is light enough to count the tiles on the roof or to distinguish the hairs on a man's hand against the sky.—Westminster Gazette.

BAKED RHUBARS.

An excellent way of cooking rhubarb is to bake it. Cut the stalks into oneinch lengths without removing the skin unless it is tough. Wash and arrange in an earthenware baking dish. Allow about a half cupful of sugar to each two cupfuls of fruit. Cover closely and bake in a moderate oven. Do not stir. When the rhubarb is tender remove the dish from the oven and put where it will chill. Transfer to a glass dish and top with sweetened whipped cream. Nothing requires more careful cooking than rhubarb.

The Wholesome Lemon.

EMON filling for tarts, short cakes and puffs: One fourth of a pound of butter, one pound of sugar, the well beaten yolks of six eggs, the rind and juice of six lemons. Melt butter and add the other ingredients and stir it gently until it is as thick as cream. Pour into glasses and seal. This will keep until used and is a most convenient filling to have at hand. It should be cooked in a double boller as it scorches easily.

Lemon snow jelly: The writer had occasion recently to judge recipe ent in to a popular magazine in competition. It was a molded dessert or est and more than two-thirds of the eight hundred recipes entered were for on jelly. This shows how very popular this simple dessert is. Dissolve u half a box of gelatine in a quart of water as directed on the box. Beat this to a foam with a half a pound of sugar. Flavor with the juice of three or four lemons. Put this in a mold, and when it is cold and firm serve with the stiff, sweet whites of three eggs or with whipped cream.

Lemon cookies: These small cakes are especially well liked with Russian Beat two cups of sugar with one cup butter; when this is creamy add teaspoon of soda with flour enough to make a dough that will roll out very thin. Stamp in rounds and bake in a moderate oven. As no liquid is used in this mixture except the eggs and lemon, these cakes are very rich, and improve with keeping, so that this is not too generous a recipe for anyone.

Lemon cream pie: Heat a pint of milk until it is boiling and add the

beaten yolks of three eggs, one cup of sugar and three teaspoons of corn starch. Continue cooking in a double boiler until the mixture is well thickened. Add the juice of four lemons and more sugar if needed. Have pastry shells waiting and pour this mixture into them and bake until the pastry is done. Decorate with the stiff whites of the eggs well sweetened. Set in the oven until the frosting browns. It is a good idea to bake the pastry shells first and then fill them with the custard and finish them off at once, as the filling cooks better in the double boiler than in the oven.

Lemon marmalade has been called the queen of sweets; it is delightful with all cold meats and a delicacy that everyone praises. Pare the outer rind from twelve lemons, using a very sharp knife and cutting it as thin as ble so as not to get any of the bitter white lining off. Boil this yellow peel in three cups of water twenty-five minutes. Remove the pulp from the lemons and cook it with six cups of sugar until the mass is a thick syrup. Press this thru a course sieve, add the strips of rind, cut small, and liquor that is with them. Measure this and add another cup of sugar to each pint of the mixture, boil ten minutes longer and pour into small containers. The juice of four oranges may be added to this, but the fine lemon flavor is im-

paired when this is done.

Lemon ice: Boil three pints of water and one pint of sugar until it is a thin syrup and reduce one-third. Cool and add the juice of half a dozen lemons. Cover and let this stand until ready to freeze. Pour into the freeze can and cover with ice; when partly frozen open the can and add the beater whites of three eggs. Re-cover and let it freeze without disturbing.

THE PROVINCIAL UNIVERSITY. One of the issues that contributed to the defeat of the Ross government in 1905 was the starvation policy adopted towards the provincial university. Some time before the election a big deputation waited on Premier Ross with the hope of getting some abatement of his parsimonious practice. The hope proved vain and the big university vote was a considerable factor in the contest nine

The Liberal party still makes the mistake of having it in for the university. Hostile criticism has pursued the big institution for years, and a legislation is passed. This means that specific demand has been made that congress, which convened in April, the administration of its affairs be made more or less directly subject to October. True, the congressional electhe legislature. Whatever reforms the tions occur this fall, but the Democrauniversity may need are not to be tic members seeking re-election will obtained in this way. Why the Liberal party should place itself in an unsympathetic relation with the university is difficult to understand. But all Ontario knows that it is money rather than criticism the university stands in need of, and that while the government provides the former, the only prospect the Liberal party appears to hold out is a little less money and a little more criticism. Mr. Row. ell should pay some attention to this

THE DIRECT NOMINATION. Sooner or later both political parties in Ontario will choose their candidates by direct popular vote, and ft would not be surprising if the Conservatives of Toronto made the initial experiment. In a thickly congested city district, where the nomination is equivalent to an election, the convenion system is getting to be a cumpersome and unsatisfactory device. No doubt excellent candidates are chosen, but none the less there is a growing demand on the part of the people everywhere to directly participate in the government of the over carriers on the ocean and great

In Canada round about manner. The people elect the commons and the commons elect the prime minister, and the prime minister appoints to the senate. But the indications are that the people will soon insist, upon electing the members of both houses, and in time the Conservative and Liberal voters alike will vote directly in the choice of the party candidates instead of

selecting delegates to a convention. In a number of ridings during the present campaign, charges and counter charges have been made which amount to a strong indictment of the convention system. All sorts of things may happen in the political field within the next few days, if there is anything lation. If they all develop into actualities, the fight in North Grey instead of a straight contest between Messrs. Cameron and Rodger, will be a four-cornered affair. As you see from the notice in this issue, the Labor men notice in this issue, the Labor men of the town have called a meeting for next Wednesday evening to select a candidate; and it is stated-how authoritatively we do not know—that a section of the Liberal party will bring out a man to contest the riding on the Rowell platform with the exception of the abolish the bar plank.

What the Labor leaders will do is hard to say; nothing has been decided, nor will be till the meeting Wednesday. Several of the prominent men in their ranks are said to be strongly in favor of putting a candidate in the field; and there is no doubt that a La-borite would command consider-able support in the town, tho how he would stand in the country is quite another question. He, would at any rate, make things interesting for the other candidates.

Just what the effect would be of the advent of an old-line Liberal into the field is hard to figure out. It would not, we believe, affect the result to any great ex-tent, as the candidate would have the support only of that section of the Liberal party that is not prepared to follow Rowell in his temperance policy, and which, in a straight contest, would probably stay at home or support the Con-servative candidate.

Some of the Conservative paper are saying that the bilingual school, and not the abolition of the bar, is the issue at the coming election. Th Liberals, of course, deny this and say that temperance is the issue. As a rule, the people decide for themselves as to what is the issue at stake. In the future over the short-sightedness eastern Ontario, including East Ot-tawa, the school issue is certainly to of the city, as there is lamenting today over the folly of 1888 and 1891. However, Mr. Rowell has been pretty adroit in discussing the quesion, and it is not likely that many English-speaking Liberals will leave him on the school issue. But the school issue will help the government by keeping in line a certain number of temperance Conservatives.

Mr. Doughty has a good deal of ability and put up a better case than was anticipated. He faced a hostile assembly, but he got a good hearing. He might have complained, but he did not, that he was only allowed five minutes.

HOW TO CURE STOMACH TROUBLES

Excessive acid in the stomach or hyperacidity, as it is called, is primarily responsible for nearly all cases of indigestion, dyspepsia, gastritis and flatulence which quite frequently lead to stomach ulcers. The successful treatment for the prevention of such cases depends entirely upon neutralizing the excess acid, stopping the food fermentation and healing the inflamed mucous membrane that lines the stomach. For this purpose, specialists are now universally advising the use of pure bisurated magnesia which has recently been found to be unequalled in the treatment of even the severest cases, treatment of even the severest cases, One or two teaspoonfuls in a little water immediately after eating stops all pains almost instantly, neutralizes the acid and soothes the inflamed stomach, and if requirely year will cutchly if regularly used, will quickly remove the cause of the trouble. Being well known bisurated magnesia can be obtained from any druggist and will keep indefinitely if kent tightly corked.

Tenders are being received on the installation, and the initial output will be 4000 horsepower with a gradual in-crease until 8000 is reached.

Duplicating Lines.
One of the larger items of expenditure occurs in connection with the duplication of the transmission lines from Niagara Falls to Dundas. Yesterday the order in council, providing for the purchase of the right-of-way for this line, passed the cabinet. The cost in total will be \$700,000, the rightof-way itself costing \$200,000. line will be completed in the fall and ready for the current. The structure will be of the same nature as that of the Windsor line but of heavier ma-

Work on the Windsor-Walkerville line will be complete on July 1, and the power will be turned into a score of Western Ontario municiplities. The whole distribution system will be in a position, according to the statement of Hon. Adam Beck, to handle the needs of the district adequately. Material is on hand and tenders are now let to complete the branches into Dresden, Tilbury, Strathroy, Lambeth, Embro, Plattsville, Princeton, Drumbo, Fergus

When this Western Ontario program is completed the commission will have passed another milestone in the establishment of provincial power in municipalities. Hon. Mr. Beck stated ast evening that the construction work would be pushed to the limit thruout the summer, and that by the fall a great mass of their proposed exten-sions would be settled.

The Associated Advertising Clubs of America will hold their tenth annual convention in Toronto next week, commencing on Saturday, the convention meeting in exhibition grounds nowhere else providing space, as 5000 people will be in town to attend the meetings. There will be two tattoos in Exhibition Park, on Saturday and Wednesday nights. The Admanettes will not be forgotten, as there will be a luncheon for them at the Lambton Club on Monday at 1 o'clock, and various excursions and side trips during the week.

The garden party held at Benvenu o yesterday afternoon and evening, in id of Rosary Hall, took place under aid of Rosary Hall, took place under the patronage of His Honor the Lieut-Gov. and Lady Gibson. The weather was ideal and a great number of people strolled about the beautiful grounds and had an excellent tea served by innumerable pretty girls, or strolled about talking to their friends and comparing notes about their fortunes, which had been told by a gypsy from the cards in a realistic costume, with which she had to all appearance assumed the uncanny cleverness of those people, or from palmistry or chirography, the exponents of which were also in the gypsy tent. In the evening the crowd was much augmented and the scene was really lovely, the grounds being illuminated with many fairy lights and Chinese lanterns, the danger of these last being eliminated by electricity being the medium in use.

A meeting of the Toronto Amateur Baseball Association was held last night and a lot of important business was dealt with. A. O. Galbraith and Joe Oswin applied for reinstatement, but it was shown that they had played semipro. ball already this year, while Reg. Empey had accepted filthy lucre for his services, and therefore was not eligible. Cases of rowdyism were reported, and the association went on record that in future all penalties would be doubly severe until this element had been stopped. Three new leagues joined, the Lake Shore league in the senior and the Prespyterian and the Mount Dennis league in the intermediate.

Lord Wimborne was also a substitute, but he was not required. He is said to have won \$14,000 in wagers on the two matches, but was exceedingly nervous during the second game. He is quoted as saying: "If we had lost this game I do not think we would have won a third game. In the sixth period, when the American team made two goals, I began to feel anxious. I hope America will send over a team after the cup in 1915."

HASTINGS BY TEN GOALS.

HASTINGS, June 17.—Hastings and Campbellford met here today in an O. A. L. intermediate lacrosse match, the home team winning by 12 to 2. The game was conspicuous by the absence of rough play, owing to the able manner in which Referee Frank Doyle handled the horn. The pace set by Hastings was fast, and they had the game safe at all stages. The locals lined up as follows: Goal, Scriver; point, Clapper; cover, Scriver; defence, Armstrong and Dodd; centre, Scriver; first home, Tait; second home, Doonan; outside home, F. BEST TENNIS ON

Exciting Match in Mixed Doubles - Program.

The third day of the city lawn tennis champlonships produced some of the best tennis seen so far this week. The best and most exciting match was that bestween Mr. and Mrs. Keeble and Miss. Summerhayes and Robert Baird. Mr. and Mrs. Keeble have lately come out from England. They won the first set handlip, 6-4. The third and deciding set was nip and tuck up to four all, the Keebles showing much better team work than their opponents. Baird, however, was deadly at the net, and this won the same for his side. Laird again showed up well, beating the Rusholme player, MacKenzie, 6-4, 6-4, 4-8x. Robo did not play his usual game and was beaten easily by E. w Bickle. Partan and Spanner both won thair matches, but only after close games. Mrs. Rocke created rather a surprise by winning from Mrs. Cooper in, straight sets. Mra. Hodge again showed splendid form in the ladies' novice, winning from Mrs. Wilson after three close and exciting sets. Beth ladies novice, winning most noticeable. The Davis Cup match, Canade v. Australia, will be played on the Ontwentsia Curb courts in Chicago July 23, 24 and 25.

RUNNYMEDE TORIES HELD GRAND RALLY

Warm Welcome From His Constituents.

NO CAUSE FOR CHANGE

Says Campaign is More an Endorsation Than an Election.

Rousing enthusiasm marked the grand raily of the Runnymede Liberal-Conservative association, held in Cooke's Hall, St. John's road, last night. The members were welcomed by the strains of "The First Parade." played by the Runnymede—formerly the Swansea—Brass Band, which also rendered several patriotic selections.

J. C. Woolner, in opening the proceedings, said they started a new era, having succeeded in inducing the members of the band to associate themselves with them, and to make their headquarters in Runnymede.

Jesse G. Wright advocated the three-fifths vote in view of the four years of turmoil in West Toronto over the attempt to repeal the local option standing. He defied any man to say the government had not done its duty, considering the great reduction in the number of Econces and the greater revenue obtained.

Adverting to the bilingual question, he said: "There can only be one language—and that the English—in the Province of Ontario. After Doctor Godfrey has placed himself so splendtdly on record. I hope that he himself will institute legislation that will abolish the French language in the schools of Ontario. I would like the honor to fall to West York. A child, he proceeded, must in his own interest learn the English language.

Clause Ignored.

He pointed out that 13t schools in this province did not carry out the behests contained in clause 11, dealing with the teaching of English from the first form up, and he quoted from F. W. Marchant's report on English-French schools, in which the schools were described as lacking in efficiency. "The government propose," he said. "to carry out their declared intention. He believed they had an honest, progressive, and upright government now, and thought the people had no cause to change at the coming election."

Dr. Forbes Godfrey, M.L.A., was received with vociferation. He referred to

"I want to say this: That Mr. Rowell is not straight on the stand he takes on the question.

"I am going to wait a reasonable time,' he said, "if we get in, and if the progress made is not, as I feel, sufficient, I will get on the job, and make no mistake about it. I am going to give the little French pupils in sections of the province a chance to get rid of this great blot—and take it from me, that blot is a worse blot that you see there (pointing to a map published yesterday in The World, showing the dry and wet sections of Ontario)."

formulated the Chinese Exclusion Bill, preventing "Chinks" employing white girls in restaurants of the city. (Applause.) The bill had been accepted by the government and incorporated in the Factory Act, and only the other day the appeal by the Chinese Government to the paivy council had been dimissed, so that the bill is about to become law. He protested against the teaching of Chinese by female teachers, especially as the Chinaman did not want a class. He wished to be taught individually.

"I am sure," concluded Dr. Godfrey, "that my own record will bear inspection by my constituents."

The meeting was also addressed by Reeve Geo. Syme, by Mr. Raybould, and Geo. Syme, sen., two of the oldest members in the West York Association; by Alderman Ryding, past president of the South York Association, and by S. M. Wilson, president of the Ward Seven Association.

O COME

The Raleigh Bicycle is a wonderful success -- of course, we knew it would be

And since we have been advertising, during the past three months, thousands of orders have been placed for this popular all-steel bicycle.

The Raleigh is built to Canadian standards by the oldest, yet most up-to-date, firm of bicycle builders in England. The big features of the Raleigh Bicycle are:

All-steel and no castings or malleable iron; forks and crown made in one piece of cold-drawn steel, never known to break; Raleigh coaster hub, guaranteed not to lock; rigid steel mudguards with front steel mudguards, with front extension; Michelin puncture-proof tires, with famous red fabric rubber inner tubes.

Guaranteed For

Remember, there is nothing cheap about the Raleigh except the price. We particularly recommend the "POPULAR" Model, at \$40, or the RALEIGH TRI-COASTER Model with 3-speed Gear and Coaster Brake, at \$50.

INQUIRY STARTED INTO OCEAN FREIGHT RATES

OTTAWA, June 17 .- Announcement was made by Hon. George E. Foster today that the department of trade and commerce had started an inquiry into the ocean freight rates question, and particularly the complements of the Dominion millers that flour is being discriminated against as compared with 16.000 | wheat rates.

This investigation is preliminary to the fuller inquiry which will be under-taken by the Dominion Royal Commis-5,200 sion when it tours Canada this sum-mer. The information which has been 6.600 secured by the department will be placed at the disposal of the commission in order to facilitate their work.

\$3.95 Return — "All Round Muskoka Lakes," From Toronto, June 20.
The words, "all aboard for Muskoka" is a call that sends a thrill of delightful anticipation through thousands, who, having perfected their plans, are ready to depart for that greatest of

all Canada's playgrounds. Do you wish to view nature's most lavish handiwork? Muskoka is a constellation of her wildest prodigalities. All are here—fertile plains, peaceful villages rugged rock-ribbed ridges, a wilderness of forests, laughing streams, rushing torrents over precipitors. rushing torrents over precipitous declivities, or sparkling lakes nestling on their bosoms hundreds of island gems rivalling Mirza's entrancing vision of Paradise.

The Grand Trunk Railway System 4.500

The Grand Trunk Railway System offers for the opening tourist season a popular excursion from Toronto via the favorite route, viz., Muskoka Wharf to "all round Muskoka Lakes." SAYS COMPANY DOES NOT OWE THE BANK.

MONTREAL, June 17 .- Ex-MONTREAL, June 17.—Expressing annoyance regarding rumors current concerning the Canada Steamship Lines, of which he is president, James Carruthers stated that the company does not owe \$1,-250,000 to the Bank of Montreal. He said there was a balance in the bank to the credit of the company. All vessels are in commission, and altho there has been a reduction in there has been a reduction in freight rates, the extent of this had been exaggerated.

Because of Belief That Huge Harvest is Certain.

CHICAGO. June 17.—Wheat today sold at the lowest prices here since in 1907. The reason was the belief that the promises of a huge harvest were now virtually certain to be fulfilled. Closing prices were steady at some reduction, but 1-4c to 3-8c under last night. The outcome in corn was 1-8c off to 1-8c up and for oats a shade to 1-4c advance. Provisions finished with a gain of 5c to 7 1-2c.

Break in Prices.

Liberal acceptances by the country in response to bids for new wheat to arrive led to general selling by commission houses and forced prices to break considerably under the level where stop loss orders were common. Wet weather west of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the common.

Parties making tender will be received by the Lieutenant-Governor-in-Council a tie preserving plant.

Parties making tender will be received to the Honorable that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region, but east of the Missouri River partly checked offerings from that region at the province of Ontario for \$25,000.00, to remain on deposit as eccurity for the carrying out of the conditions of their tender.

The highest or any tender to description of the trivity, capital to be

rural holders.

Export business, that developed to a fair extent on the setback, helped the market to something of a rally. There was gossip that French import requirements would be on a scale seldom approached, and that the European ctop outlook as a whole was not as good as had been generally supposed.

Recovery in Corn. Falling off in arrivals made corn re-cover from weakness due to sympathy with wheat and to improved conditions for growth. Eastern demand, however, was disappointing to the bulls and there were lower quotations from Ar-genting.

Oats, after suffering a decline with other grain, rebounded owing to reports of rust damage in Nebraska. Big sales were made here to shippers. Shorts bought provisions freely. It was only at a decided bulge that longs were disposed to realize profits. were disposed to realize profits.

Money Rates Stiffer — Offerings Small—Gold Exports

Cease Temporarily.

NEW YORK, June 17.—The drift of stock quotations today was downward. The selling movement was small in volume and the average change was slight. The course of the market during the last two days indicated that professional traders were included to take a position on the short side, ut their operations falled to induce siquidation. Moders of rea, stock with the engine was bought and.

Bearlish sentiment was promoted by disturbing reports, regarding the Mexican situation. Of similar effect on the market was the May statement of demastic exports, indicating another recessions in foreign trade.

London was more cheerful, largery an account of the improved political outlook in France. American stocks were higher abroad. Foreign representatives bought here, London taking about 5000 shares.

There was a temporary cessation in the engagement of gold for export to the engagement

Rates Relaxed.

There was a temporary cessation in the engagement of gold for export to Europe, owing probably to the fact that no steamer available for shipments sails before the end of the week. Exchange rates relaxed somewhat from the high level of the present movement. Money rates were stiffer and offerings were smaller.

In a few stocks weakness appeared. Western Union was under pressure, yielding sharply for a time. Petroleum stocks were especially heavy. Of the railroad stocks, the Hill issues and Missouri Pacific were most susceptible to pressure. Bonds were under elight pressure.

DIVIDENDS

Pacific Burt Company, Limited, have declared the regular quarterly dividend of 13-4 per cent. on the preference stock and the regular half-yearly dividend of 1 per cent. on the common of 13-4 per cent. on the preference and 21-4 on the common stock, payable July 2 to shareholders of record June 18.

Toronto Market Quiet, Displays Better Tone — Steel

Stronger, Also Brazil.

Trading continued light on the Toronto exchange yesterday. Some of the leading issues were bought and sold, but even these transactions were in small quantities. A better tone was apparent, and the market appeared to be in a better position than of late. The same indifference to industrials as prevalls on the bigger markets seems to exist locally.

Dominion Steel was stronger. It statisted the days of the corport.

flected. Mining stocks were both active and strong locally.

The big feature of the day was the strength in Hollinger. The reason for this is not made known. "The stock is selling on mystery," one broker said. Another suggested short interest. Whatever may be the cause, the fact remains that it struck a new high record. This is indeed an unusual thing just now. For the past few days nothing but low records have been recorded. The stock opened at 18.05. It steadily advanced until 19.30 was paid; 19.25 was bid at the close, with sellers asking 19.50.

ARRANGING ERECTION

Manager Phillips of the Winnipeg Electric Railway Company arrived in Toronto yesterday. He is here on business connected with the erection of the big power plant which is to be built by that company at Big Bonnet Falls. This is for the development of power not only for consumption by the street railway, but for manufacturing purposes as well.

purposes as well.

It is located north of Winnipeg, about 70 miles. It will have a final capacity of approximately 150,000 horsepower. The cost will be close to \$6,000,000. "We will not develop more than 50,000 to 60,000 horsepower at first," said Mr. Phillips yesterday. "That will be sufficient for the immediate future," he said. "We will be prepared for the bigger load when that is required."

The eight pounds daily of new milk will keep the calves steadily growing. We have found our calves so raised were nearly or quite equal to those of our neighbors fed on whole milk or allowed to run with the cows for the same period. As soon as the calves will eat coarse, cracked, or whole corn they are allowed all they will eat, also all the hay they will consume.

As the calf season begins to close and it becomes difficult to get enough of them to consume the skim milk, the whole milk is not fed after the third

The milk is always fed warm. The perature is raised to about 100 defrees by the addition of hot water well stirred in. It is highly important that at all times the feeding be uniform, es-pecially in amount. We weigh all milk fed to calves, giving a regular amount at each feed. Weighing is as rapid as measuring and more accurate. At all periods due allowance must be made for age, size, and digestive ability. The moisture added in warming the milk will be acceptable to the calf. CURES FOR FOOT-ROT IN SHEEP

Contagious Form Is Far the More Serious, But Can Be Prevented.

There are two forms of foot-rot, one

contagious, one mechanical; the lat-

ter is due to injury of feet from decay, cuts or bruising, by which means \$14.00 soil and filth gain an entrance, and 2.00 set up inflammation of the sensitive structures of the foot, from which structures of the foot, from which

It only affects comparatively few animals in the flock. The treatment for this form of foot-rot consists first in carefully trimming the foot or feet. If pus has formed, give an exit for it at the lower surface of the foot, and apply an antiseptic foot poultice, such as bread, upon which a weak solution of Jewes fluid has been sprinkled. The recovery is usually soon with atten-

tion.

The contagious form of foot rot is quite different, and is far more serious, but it can be prevented, and is amenable to treatment. It is primare to the contagination of percent. arily due to treatment. It is primarily due to the entrance of necrotic bacteria into soft structures of the foot. It spreads from sheep to sneep causing lameness, loss of flesh and even death. It first shows itself as a small, moist, unhealthy sag between the toes. This rapidly extends from above downwards and more version to above downwards and may extend to two, three or even all four feet. The horn becomes broken and the discharge attacks flies, eggs and larvae, which develop in the wound, or on the fleece which has come in contact with

erings, will quickly effect a cure.

The directions for bath are as follows: Make a bath of wood or concrete, 16 feet long, 8 inches wide, sides sloping out, provided with cross pieces to prevent slipping, and side fences boarded to admit sheep walking easily

The solution is made by dissolving one pound of powdered sulphate of copper to each gallon of water. Altho somewhat slow of solution, stirring and using warm water in the first instance will hasten it (for prevention half this strength will suffice). Part hoofs first, when necessary, so that the solution can come in direct contact with all the parts.

Choose a day when grass and soil are dry Remember the bath is poisonous, and take care the stock cannot get access to it. If ewes are treated, put them thru the bath quietly, so that the teats are not splashed or wetted, as this is likely to make lambs ill. Do not hurry sheep thru the bath. The object is only to wet the feet. If the wool becomes damped with the solution it may discolor it. This bath repeated at frequent intervals will effect a cure. The sheep should remain in the bath for about five minutes.—Southern Vet. in English F.

BEEF RINGS FOR PROVIDING MEAT FOR HOME CONSUMPTION

Local Organizations Are Being Formed Thru Which a Number of Farmers Unite to Provide Fresh Beef for Their Own Tables - Each Member Supplies an Animal in

How to provide a supply of fresh meat for summer consumption on the farm is a problem which is causing much concern in many farm houses. notine past salt or brine cured meat has been largely used, but this soon palls on the palate, and it is feit that some means of providing a regular supply of fresh meat must be found. In some of our rural communities. much concern in many farm houses. In the past salt or brine cured meat supply of fresh meat must be found. In some of our rural communities where the associative instinct has been developed this want has been satisfied thru the establishment of beef rings, and the results obtained from these organizations has been so satisfactory that it is felt that the scheme is worthy of a trial in many other districts.

A fixed price per pound is usually set at the annual meeting. Each mention ber is credited at that price with the dressed weight of the animal he supplies and charged at the same price for all most he receives exthement for all meat he receives, settlement being usually made from the butcher's scounts at the close of each season. Some rings require that all animals supplied up to the end of the second week in June shall be stall fed. As it costs more to produce than the grass fed animals which will be supplied during the rest of the season, a premium of two or three cents per pound over the regular price is paid and charged for this meat.

for this meat.

The animal to be slaughtered should be delivered to the butcher at least 12 hours before the time set for killing and should not be allowed to have any solid food for at least 24 hours prior to killing. Friday evening is the usual time selected for slaughtering. The carcass is allowed to cool over night and is cut up early Saturday morning. and is cut up early Saturday morning. In the cutting up it is so divided that each member will receive a roast, a boiling piece and a steak. The members, or their representatives, come to the butcher on Saturday morning and receive their allotted shares. Three or four farmers living close together may take turns in delivering the meat for the group and thus realize a consider-

able saving.

The financial outlay involved in the operation of a beef ring is small. For his services, in slaughtering the animal, dividing the carcass and keeping account of the quantities of meat received and supplied the butcher usually receives the hide and a set fee of one or two dollars per head. This tee is paid by the member supplying the animal at the time it is delivered for

secretary requires a supply of station-ery, the butcher needs an account book, etc., these all paid for from the annual membership fee. Beef rings have been successfully

operated for several years in different parts of the province, and if reasonable care is exercised in selecting trustworthy members, there is no reason why similar success should not attend their inauguration in other districts. If you wish to exercise attend their inauguration in other districts. If you wish to organize such a ring in your locality, talk the matter over with your neighbors, call a meeting of those interested, adopt a constitution and bylaws, elect your officers and get the scheme under way at once so that the members who may not have suitable animals on hand may

TRADE IN CATTLE **CONTINUED STEADY**

Prices Did Not Deviate From Levels of Beginning of

The demand for feeders and stockers continues to be weak compared with some two or three weeks ago.

Buyers seemingly are not as anxious for milkers and springers and prices are on the wane.

Veal calves were selling at as, high values as for some time past, and the quality was better yesterday than for weeks past, that is, there were more good to choice veals on sale.

The run of sheep and lambs was larger than usual, and prices were on the average not as high, altho some single lots of choice quality sold did not indicate any decline.
