TURK ATTACKS BEATEN OFF AT KUT-EL-AMARA

British Troops Hold Positions in Face of Heavy Assaults.

MORE TROOPS ON WAY

Hostile Arabs Dispersed on Sinai Peninsula by Reconnoitering Force.

LONDON, Dec. 13.—Turkish attacks on the British Mesopotamian army at Kut-el-Amara have been repulsed, it was announced in an official statement tonight. British reinforcements are being pushed forward.

The statement is as follows: "Gen. Townshend reports that the enemy shelled his position all day on Dec. 8. The bombardment continued during the 24th, when the enemy made with heavy losses from all sides. On the 10th the enemy again heavily bombarded Kut-el-Amara and developed an attack against the north front position, which, however, was not pressed. On Dec. 11 the bombardment was renewed and two attacks were made on the north front, which were repulsed with heavy losses to the enemy. Since then there has been less activity. The attitude of the Arabs is reported as satisfactory. Reinforcements are being pushed forward. The defeat of an Arab band in an engagement with a British reconnoitering party on the Sinai Peninsula is announced in an official statement issued in Cairo, Egypt, says a Reuter dispatch from that city tonight, which transmits the statement: "A band of 300 hostile Arabs was routed on Saturday by a British reconnoitering force in the vicinity of Matruh on the Sinai Peninsula. The Arabs, 35 of whom were killed and seven captured, were driven eastward. The British casualties were 16 killed and three officers and 15 men wounded."

BERLIN (via wireless to Tuckerton), Dec. 13.—The Turkish official communication of December 12 as received here says: "Sheik Said, east of Kut-el-Amara, was occupied upon the enemy's retreat by Turkish troops. Turkish artillery near Kut-el-Amara sank several enemy pontoons."

FIFTY-FOUR OFFICERS TO BE BROUGHT BACK

They Will Assist in Organization and Training of New Battalions.

MAJORITY ARE WOUNDED

Expectation is That Active Operations Will Be Suspended During Winter.

By a Staff Reporter. OTTAWA, Dec. 13.—In order to assist in the organization and training of the new battalions now being raised in Canada, 54 Canadian officers are being brought back from France or England for the winter. Most of them have been wounded and are now convalescing. It is considered that these officers, who do more important work during the winter, will be of great help during the spring. They are being brought back for the present. The other officers who are being brought back have done good work in the training of their men in Canada and England.

The officers now on the way back from France are: Col. Welch of Windsor, who commanded the new Essex Battalion; Col. Ingram, who will have a command of the new York and Ontario Battalion; and Capt. Molnes of Regina, who will take charge of raising a battalion in Regina district.

GALLANT IRISH STOOD AT BAY

Royal Inniskilling Fusiliers and Another Irish Detachment Saved Situation.

MUCH OUTNUMBERED

Two Companies Held Ridge All Morning Against Bulgar Hosts.

LONDON, Dec. 13.—How two companies of the Royal Inniskilling Fusiliers with another of the Irish Regiment forming the British divisions which are making a fighting retreat with Serbia, sacrificed themselves to cover the retreat of their comrades, is told by the wounded who have reached British headquarters in Macedonia. The British, according to the correspondent of Reuter's Telegram Co. in a despatch from the British front in Macedonia, were outnumbered one to one by the Bulgarians, who were well supplied with guns and machine guns. Last Monday morning they were awakened by a heavy bombardment by the Bulgarians, who poured a hail of shot and shell on them. Splintering rocks intensified the effect of their fire.

Bulgars Punished Severely. The Bulgarian infantry then advanced to the attack in massed formation and were punished severely, but the security of British guns did not permit them to take proper toll of the advancing Bulgars. The British emptied their rifles rapidly into the crush and tried to stem the tide with bayonets, but were overborne by sheer weight of numbers and the position was lost. Similarly, the second line was lost, and the British fell back on the third line of defence.

Inniskillings Held Out. Two companies of Inniskillings, however, held on to the ridge known as Kova's Crest and kept back the Bulgarians the whole morning, only being supported only by rifle fire. Hardly a man escaped, but their stand impressed and delayed the Bulgars, thus giving the British much needed time to complete defensive positions in the third line, where the Bulgars were finally held up for four days.

The Bulgarians, the correspondent adds, having suffered heavily, have since then attempted no strong offensive up to Sunday.

GIVE FURS THIS CHRISTMAS.

This is a real fur-giving Xmas season. Everybody is giving furs. They are the most popular gift for the whole family. Mother should have a fur coat. Sister needs a new set of furs—what more charming than a set of fox? Father has shivered long enough in that cloth coat; make him happy with a fur-lined coat from Dineen's. Brother will enjoy a fur cap. Dineen's, 140 Yonge street, have the greatest array possible to imagine of the finest furs that ever grew on the backs of animals. Made up into the most fashionable coats and sets. Dineen's furs are the most popular and serviceable gifts that you can buy.

MOBILIZATION OF SECURITIES ON BIG SCALE

British Government Will Purchase or Borrow Canadian and U. S. Stocks.

TO MEET LIABILITIES

Britain Hopes to Adjust Trade Balance With America by Move.

LONDON, Dec. 13.—After an explanation by the chancellor of the exchequer, Reginald McKenna, and a short debate the house of commons passed this evening the second reading of the bill empowering the government to mobilize American and Canadian securities, by purchase or by borrowing them to be used primarily as collateral for loans, or, in case of necessity, to be sold to meet Great Britain's liabilities in the United States.

The scheme is an entirely voluntary one, and the chancellor made it clear that the government had no intention of swamping the American market with securities, which would be unfair to holders here as they were to be paid for at the market price.

Trade Balance Exhausted. Mr. McKenna explained that the usual trade balance in favor of Great Britain had been exhausted by the demands made upon America for goods for England and her allies, and the amounts paid in interest on foreign securities held here, or earned by British shipping, were not sufficient to set this right. Consequently, in order to meet liabilities in the United States, they were obliged to

LOWEST EBB REACHED IN GERMAN EXCHANGE

Mark Only Worth Nineteen and Three-Eighths Cents on Latest Transaction.

NEW YORK, Dec. 13.—The value of the mark, as represented by marks, fell to its lowest known level today, when bills of exchange on Berlin dropped to 77 3/4, a decline of a cent from the recent minimum. In substance, marks, normally quoted at 2 1/2 cents, were worth only 19 3/8 cents.

Incidentally, American exchange on London fell to lowest rates, but in this instance the decline was sentimental rather than actual, no sales of exchange on Vienna being reported. The extreme weakness of exchange on the Teutonic countries was ascribed to unconfirmed rumors that the Reichsbank or Imperial Bank of Germany contemplates assuming command over all the gold now privately held within the empire.

RUSSIAN PARTY EXPELS GERMANS FROM VILLAGE

Bayonet Attack on Detachment of Enemy Succeeds in Dispersing It.

PETROGRAD, Dec. 13, via London.—The following official communication was issued today: "On the western (Russian) front there is no change in the situation. In the region west of Lake Boginskoi a detachment of our troops have outflanked the enemy, dislodged a half company of Germans at the point of the bayonet, from the village of Voinyushy, capturing an officer and some soldiers and a machine gun. "On the Caucasian front there is no change."

HEAVY STORM STRIKES DISTRICT OF TROY, N.Y.

Foot of Snow Has Fallen by Evening. Trains and Street Cars Held Up.

TROY, N.Y., Dec. 13.—The worst storm since the blizzard of February, 1914, struck this section today. This evening 12 inches of snow had fallen, and reports from the outlying districts of Rensselaer County were to the effect that there are two feet of snow on the hills and in the woods. The street cars were taken out of service and few cars were moving. Delaware and Hudson trains were much behind their schedule.

KING RESUMING DUTIES IN PART

He Has Lost Seriously in Weight and Must Avoid Fatigue.

STIMULANT NECESSARY

But King Will Return to Total Abstinence When Stronger.

LONDON, Dec. 13.—King George, who suffered severe injuries by being thrown from his horse at the British front in France on Oct. 23, has recovered sufficiently to take up affairs of state under certain restrictions. Respecting the King's condition, Sir Frederick Treves, surgeon to the King, and Sir Bertrand Dawson, physician extraordinary to his majesty, have made the following statement: "We are happy to report that the King has so far recovered from the grave accident of Oct. 23 as to be able to resume work with certain limitations."

"The King has lost seriously in weight, and, until a normal state of health is attained, it is essential that his majesty should avoid any cause of fatigue. It has been necessary on medical grounds that the King should take a little stimulant daily during convalescence. As soon as the King's health is quite restored, he will resume total abstinence, which he imposed upon himself for public reasons."

ENEMY EAST OF YPRES BOMBARDED BY BRITISH

"Considerable Activity" Reported by Sir John French—British Blew Up Mine in Front of Givenchy.

LONDON, Dec. 13.—(10:55 p.m.)—Field Marshal Sir John French sends the following report from the British in France: "Last night we blew up a mine in front of Givenchy and occupied the crater. Today there was considerable activity at various points on the front. We bombarded the enemy's position east of Ypres and in the neighborhood of Freilighien, and shelled with heavy howitzers an enemy mine shaft north of La Bassee Canal. "In the neighborhood of the Somme there was some fighting with trench mortars and rifle grenades. The weather today was bright and cold."

ISSUE OF NATIONAL CURRENCY AGAINST STOCKS AT OTTAWA?

Surmise Follows Announcement of British Plan to Mobilize American Securities, Possibly to the Extent of Four Billion Dollars.

By a Staff Reporter. OTTAWA, Dec. 13.—The announcement by the British chancellor of the exchequer that the imperial government would acquire American and Canadian securities to the value of possibly \$4,000,000,000 for the purpose of addressing the unfavorable rate of exchange between London and New York was not unexpected by members of the finance department. One of the latter said that the imperial government had been in negotiation for some time past with British insurance companies, trust companies and bankers holding "dollar" securities, which also include Canadian issues such as those of the Canadian Pacific Railway Company. He gave as his opinion that the securities will not be bought outright but only borrowed from the holders and that they will not be offered for sale in New York, but only hypothecated. A certain amount of money, he said, may have already been secured in anticipation of this step upon short time treasury bills and by pledging American securities the short time bills can be taken up and accommoda-

tion secured for longer maturities on more favorable terms. So far as can be learned tonight, it is not anticipated that any of these securities will be hypothecated in Canada for the purpose of financing war orders. The amounts are so large that the money or credit cannot be obtained here unless the Dominion Government accepted the securities as a collateral, reserve against which to issue national currency. In the absence of Finance Minister White no expression of opinion could be obtained upon this latter point.

How Canadian Securities Might Be Affected

A Toronto financial man said last night that he would not be surprised if this mobilization of American and Canadian securities did not have a very considerable effect on the values of any Canadian securities included, inasmuch as the deal would practically mean that the securities concerned would be taken off the market, and that as a consequence the market prices might considerably advance. But he wanted more details before he would speak with greater certainty. An out and out purchase of large blocks of Canadian securities would put up the price, and the despatch said they might be bought or borrowed by the imperial government.

AUSTRIA EXPECTS RUPTURE WITH U.S.

LONDON, Dec. 14.—A despatch to the Exchange Telegraph from Amsterdam says: "Reports from Vienna say that the American note concerning the sinking of the Greek steamer Ancona has caused intense anger in the Austrian Government, and a diplomatic rupture is considered probable. The question before Baron Burián, the Austro-Hungarian foreign minister, is only whether a rupture with Britain to a like step. "Count Tizsa, the Hungarian premier, has been summoned to Vienna to discuss the situation with the government."

BIG FORCE OF ENEMY NEAR GREEK FRONTIER

Forty Thousand Bulgars and an Equal Number of Austro-Germans.

LONDON, Dec. 14, 1:55 a.m.—A force of 40,000 Bulgarians and an equal number of Austro-Germans is being concentrated between Monastir and the Greek frontier, according to a despatch to The Times from its Saloniki correspondent. This force is said to include a considerable number of cavalry troops. Heavy fighting, the despatch said, was still in progress on Sunday in the neighborhood of Lake Doiran.

PERSONAL ASSURANCES GIVEN BY GREEK KING

Result of Audience With Members of Diplomatic Body Satisfactory.

LONDON, Dec. 13.—The king of Greece in the course of an audience accorded the members of the diplomatic body at Athens on Saturday, gave personal assurances which are regarded as satisfactory. This information is conveyed in a despatch from Athens to Reuter's Telegram Company.

Greeks Allow Retreat—ing Forces a Clear Road to Fall Back—Austrians and Germans May Enter Greek Territory.

LONDON, Dec. 13.—The British and French troops have successfully carried out their retreat from Serbia across the Greek frontier, and by an arrangement with the Greek Government a clear road has been left for them to fall back on Saloniki, which is being organized as a base. The German official report of today claims that "approximately two English divisions were annihilated" during the retreat, but this is considered here an exaggeration. Accounts from Athens and Saloniki say the retreat was carried out in an orderly manner, and without heavy losses. By the destruction of railway bridges and roads, and by stubborn rear-guard actions, in one of which two companies of the Inniskilling regiment sacrificed themselves to save their comrades, the Bulgarians were kept at a fairly safe distance.

Enemy to Follow.

The question now arises whether the Bulgarians and Austro-Germans intend to follow the British and French troops into Greece, and what action the Greek Government will take should they do so. The impression gained from despatches emanating in Athens is that neither the Bulgarians nor the Turks, who also are reported to have moved near the frontier, would be welcomed in Greece, and that, therefore, if it has been decided to follow the entente allies the task will be undertaken by Austrians and Germans. However, with the railroad destroyed, it may be some days before Greece is called upon to take action, and by that time the Anglo-French force should be safely in the defenses of Saloniki and under the guns of their ships.

The remnants of the Serbian army are still resisting the Austrians and Bulgarians in Albania, while the Austrians are making very slow progress in their efforts to overwhelm Montenegro, where heavy fighting continues.

Out of Macedonia?

The French and British have been expelled from Macedonia, and the territory, it is officially announced today by German army headquarters, is being advanced by the German General Todoroff occupying Doiran and Kresna. Berlin statement is: "Balkan theatre of war: The situation has not materially changed. More than 200 prisoners were brought in yesterday by the army group of Gen. Von Koevese. (Wireless) various gave number of prisoners as 500. "At Ipek twelve modern guns which the Serbians had buried were captured. "Behind our front more than 1000 struggling Serbians were taken prisoner within the last few days. "In Macedonia the army of Gen. Todoroff captured the villages of Doiran and Glogovli. No Englishmen or Frenchmen are now at liberty on Macedonian soil. "Approximately two British divisions have been annihilated in these engagements."

Bulgars Lost 8000.

Anglo-French troops have been receding across the frontier since early Saturday, according to information received by the Greek military authorities at Athens today. After being back a wave of attacking Bulgars that rolled up against their lines all day Saturday, the British north of Lake Doiran were forced to fall back to their second line. They rallied and were holding up the enemy's advance in a violent struggle when the last information was received at Saloniki. As on Thursday and Friday the British were subjected to the heaviest assaults in Saturday's fighting. The Bulgarians made repeated attempts to break the British line and surround small detachments. Two assaults against the British front cost the attacking forces 8000 men killed and wounded.

British Fire Deadly.

A grand assault was ordered by the Bulgarian commander, when the first charge was hurled back. The Bulgarians advanced first a thick line in dense formation to within 500 yards of the British trenches. British machine guns and rifles suddenly swept their front with a rain of fire. Those who escaped the first hail of bullets ran swiftly forward to within 200 yards of the British trenches. A second shower of bullets mowed them down by hundreds. The survivors broke and fled.

Bulgars on Border.

Bulgarian advance guards have reached the Greek frontier at several points in their pursuit of the retreating Anglo-French. Their movements, according to Saloniki despatches, this afternoon, are being closely watched by Greek military. No official statement is obtainable here as to what course the government intends to follow if the Bulgars cross the border.

TURKEY NOT TO START PROPOSALS OF PEACE

If Others Approach Turks With Them, They Will Be Considered.

BERLIN, Dec. 1.—(Via London.)—A Copenhagen despatch to The Zeitung An Mittag says that Halli Bey, the Turkish minister of foreign affairs, echoing the German imperial chancellor's reichstag speech, declared in an interview on Sunday that peace overtures from Turkey are absolutely out of the question. "The minister added: 'If others approach us with peace proposals we will consider them.'"

BARON AND ACCOMPLICES INDICTED FOR CONSPIRACY

SAN FRANCISCO, Dec. 13.—Baron George Wilhelm von Brincken, an attaché of the German consulate here, C. C. Crowley, a detective employed by the consulate, and Margaret Cornell, who was in Crowley's employ, were indicted today by the grand jury on two counts each. The first count charged conspiracy to interfere with and destroy commerce between the several states of the Union and the United States and foreign countries; the second charges use of the mails to incite arson, assassination and murder. Bell was fixed at \$5000 on each count.

WATER HAMMER GIVEN AS TRAGEDY'S CAUSE

Engineer of Greey Company Advances Theory at Coroner's Inquest on Victims.

INSPECTOR DIFFERS

Chief Provincial Officer Expresses Opinion That Screws on Plate Were Defective.

Two theories as to the cause of the boiler exploding in the engine room of the Greey Machinery Co., Esplanade and Church streets, on Dec. 6, were given at the inquest held last night by Coroner L. Pickering into the death of George Kellor and Arthur Goss, two of the four men killed in the explosion. The cause of the explosion given by the engineer, H. J. Squires, was that there was a water hammer in the pipe and the water hammer, he stated, was the steam turned on cause of the explosion. The theory given by M. Metcalfe, chief provincial boiler inspector, was that the screws on the plate over the cap of the valve were defective.

In his evidence Squires stated that he was not in the room at the time of the explosion. He had left the water cap closed instead of open. Within a few seconds of the catastrophe Squires stated that he heard a noise that sounded like someone tapping on the pipe. This noise led him to believe, he averred, that there was a water hammer in the pipe.

B. M. Metcalfe, who examined the boiler after the explosion, stated that the boiler was about 30 years old, and that the boiler of that kind are not equipped with safety devices.

Wouldn't Pass Inspection. "If this boiler had been inspected by our department we never would have passed it," he said. "Three of the bolts on the valve which exploded were broken and the other two crystallized."

He said that the conditions of the engine room were not adequate to take proper care of the boiler. When he went to examine the boiler he had to go up thru a space in a wall and drop down an eight-foot hole. The lighting in the engine room was so bad that he

said he had to pay \$3 to get a light to see what he was doing, and before anything else can be done the wall will have to be torn out, he said.

Mr. Metcalfe stated that the provincial inspectors did not inspect boilers only when they were being installed or repaired. The only inspectors they are given is by insurance inspectors and the man in charge of the boiler.

He stated that preparations were being made to put into force next year a new act, where the government inspectors will work in conjunction with the insurance inspectors and examine all boilers, once in the summer and once in the winter. The inspectors' reports will be gone over by the head office.

The hearing was adjourned until next Tuesday evening.

RECRUITING CAMPAIGN IS OPENED IN YORK

Plans to Secure Men for York Rangers Overseas Battalion Are Now Complete.

Practically the first step in the recruiting campaign in York County for the organization of the 12th York Rangers Overseas Battalion was taken in Newmarket last night when the town hall was insufficient to accommodate the crowd. The meeting was called to perfect the organization. Mayor Cane presided. At the close so great was the enthusiasm that volunteers were called for and 30 young men responded.

Stirring addresses were given by Capt. Craig, Rev. Capt. McGonigle, Pte. Harold Meredith, a returned soldier, who was severely injured at the battle of St. Julien; Sgt. Brown and Aubrey Davis. This meeting the new recruits will undergo a medical examination by Surgeon Major Dr. Hillary, of Aurora, attached to the new regiment.

Dr. Hillary stated last night that 75 recruits in the county had offered for service of whom all but four passed the examination.

It is proposed to establish stations at Newmarket, Aurora, Sutton, Markham, King, and St. Paul's Hill, upper Yonge street. Medical examinations will be conducted at the latter point every afternoon, and 300 uniforms were yesterday secured so that men enlisting for the county regiment will be at once outfitted.

The new regiment will be known as the 12th York Rangers Overseas Battalion. Extensive alterations were yesterday begun to separate the new regiment from the regular battalion and a vigorous policy of recruiting will be undertaken in every subdivision.

HYDRO MAY ACQUIRE DOMINION POWER CO.

Provincial Commission Reported in Negotiation for Mackenzie-Mann Interests.

WANT COMPLETE CONTROL. Transaction Would Strengthen Hydro's Position at De-Cew's Falls.

The Hamilton Herald last night published a story that it had "from an unimpeachable practical authority" that in connection with the increased power development and hydro-radial schemes, negotiations are now going on at Toronto and Hamilton with view to the acquisition of the complete holdings and business of the Dominion Power and Transmission Company (Cataract) and all subsidiary companies by the Provincial Hydro Commission.

This company, it will be recalled, was organized by Sir John Gibson and he was for a long time its president. That office is now held by C. J. Moodie. The capitalization of the company is in the neighborhood of \$12,000,000 and the bonds over \$4,000,000. The company controls the big power generating plant at Decew Falls, near Catharines, where a big flow of water from the old Welland Canal is allowed to drop over the mountain into generators developed, transmitted to Hamilton and used for driving Hamilton's manufacturing and driving Hamilton's local street railway and all the radials leading into that city. The power company owns the street car lines and radials.

The Herald was informed by its informant that it is regarded as important that the provincial hydro in buying out the Cataract, get complete control of the power that is or may be developed at Decew and give it the big auxiliary plant now being built by the company in the northeast corner of Hamilton; and would give the hydro an immediate and large supply of power at a different cycle from that of the hydro.

The Herald's informant also said that it believed the shareholders of the Cataract would be glad to sell out on reasonable terms.

The Herald also says it has been announced that Sir Adam Beck is to be in Hamilton this week, the no intention as to his intentions has been given by anybody.

The same informant also told the Herald that similar negotiations were understood to be going on for the acquisition of the Mackenzie and Mann interests, both in connection with development of power at the Falls transmission line and in connection with the radials.

ELIJAH EVANS DEAD. The death of Elijah Evans, a pioneer of Scarborough Township, occurred yesterday morning at his late residence on the outskirts of the Village of Agincourt, where he had resided practically all his life. The late Mr. Evans was 86 years of age, and was predeceased by his wife a number of years. There are no other members of the family. Interment will take place at St. Paul's Church Cemetery on Wednesday afternoon.

Prohibition. There is a large daily gathering at the Hotel Teck, of prohibitionists on the city's chlorinated drinking water, and their libations over the question are carried on as soberly and orderly as a Methodist Tea Meeting.

BUSINESS REVIVING. Saskatchewan Official Reports Big Crops Usher in Good Times. A visitor to the office of W. A. C. Clarke, assessment commissioner of York Township, yesterday was J. N. Bayne, deputy minister of municipal affairs in the province of Saskatchewan, an organization which in the western province corresponds to the Ontario Railway Board, the with somewhat limited powers. Mr. Bayne came east a week ago on matters pertaining to Ontario a short time. The City of Regina and the Province of Saskatchewan he reports as experiencing a great business revival. The wheat yield was immense in some sections, running up to 55 bushels per acre.

YORK COUNTY ...AND... SUBURBS

PROVIDING COMFORTS FOR MEN AT THE FRONT

Women's Branch of British Imperial Association Holds Concert at Belmont Theatre.

Under the auspices of the women's branch of the British Imperial Association a concert was held in the Belmont Theatre, West St. Clair avenue, Sunday evening. Alderman J. M. Warren occupied the chair.

Raid Warren, in his opening remarks, said the object of the concert was to raise funds to procure wool for socks, tobacco, cigars and other necessities for the soldiers at the front. The speaker further stated that Earlscourt had done more than any other district of its kind in Canada in supplying men for the firing line. The speaker concluded with a word of praise for the Toronto World and the press for their efforts in helping the cause of recruiting and also the ready response of the latter wing of the British Imperial Association to the call of the empire.

"I appeal for a generous collection tonight, in order that the women who are doing so enthusiastically for the benefit of your hearty response," said Alderman Warren.

Geo. R. Ellis spoke of the remarkable response made by the people of Newfoundland, his native place.

The women have already sent 20,000 pairs of socks to the boys in the trenches and military branches of the service in surprisingly large numbers," he said.

The musical portion of the program, which was of a high order of merit, was contributed by Miss Powell, piano solo; Mrs. Woods, reading; Mrs. Mohr, soprano concert soloist; J. Dawson, Government's Body Guard Band, cornet solo; Katharine Layton, saxophone solo; Miss C. Field, reading; J. Innes, violin solo; and others.

Each item was received with much applause and repeated encores were given.

Henry Parfrey, J.P., in returning thanks on behalf of the women's branch B.A. to the artists, the theatre manager and press for the great interest shown with the first concert given by the organization, said: "The men's hands are full of a large number of parcels to be sent to the front. These very necessary articles are likely to be overlooked in sending parcels to the front," said Mr. Parfrey, and the women will see that more are sent, together with tobacco and cigars."

MRS. GRAY BURIED. Mrs. James Gray of Stouffville Died Saturday of Heart Failure.

The funeral of the late Mrs. James Gray, whose death from heart failure occurred on Saturday, was held yesterday from the family residence in Stouffville. There was a very large attendance of friends from different parts of the province, among them being Lieut.-Col. Sam Sharpe, B.A., a nephew.

Alex. Innes, B.A., of Toronto, has been engaged as principal of Stouffville High School, his duties to begin with the 10th year.

It is expected that a contingent of 50 men will be quartered in Stouffville during the winter months.

WHIRLWIND CAMPAIGN FOR RED CROSS FUND

Weston Captains Yesterday Succeeded in Raising Twenty-Four Hundred Dollars.

The whirlwind campaign inaugurated by the Town of Weston in aid of the Red Cross Society terminated last night. The idea in the mind of the committee was to interest everyone in the work to the extent of an active or associate membership, the former costing \$2 and the latter \$1, while a life membership, of which there were two. Mayor Charlton and Reeve J. M. Gardhouse, enriched the treasury to the amount of \$25 each. Last night when the returns were brought into the town hall by the captains, H. J. Alexander and Lorne Fraser, it was found that the town raised \$2402 in addition to former large amounts.

The scene of a patriotic recital was friendly rivalry between the north and south sections, the latter winging out by a small margin. A public meeting was held at which snor addresses were given by the mayor, reeve, captains and president of the society, Thomas Williams.

OTHER BATTALIONS RECRUITING IN YORK

And Members of York Rangers Believe They Are Unjustly Treated.

The joint committee representing the county council, citizens and officers of the county regiment, the 12th York Rangers, seem to find the work of recruiting within the county areas considerably restricted by reason of the fact that the Peel Battalion has hitherto been allowed to carry on recruiting on the west side of York Township and around the western and northwestern section of the city. The result is that the York Regiment finds its best recruiting districts invaded by the battalion of another county. A military order recently issued requires that since the government has made a call for county battalions the line of recruiting shall be sharply defined, confining each battalion to its own sphere, but this order is still said to be disregarded in the case of Peel county.

RED CROSS FORD CAR BROUGHT BIG PRICE

Auto Won by Russell Harding Sold for Over Fourteen Hundred Dollars.

Full returns from the sale of tickets from the Ford car donated by G. A. M. Davison of Unionville to the Canadian branch of the Red Cross Society, indicate that the results were infinitely more gratifying to the donor and recipients than at first supposed. The sale of tickets realized \$1206, while the receipts from the concert held in the Markham Town Hall on the evening of the drawing, were \$1237.50. Added to this was the fact that on the day succeeding the drawing Mr. Davison, on delivery of the car, was the winner. Russell Harding of Milliken Corners, was presented by Mr. Harding with a cheque for \$100, making him a grand total of \$1429, which will be at once turned over by Mr. Davison to the Red Cross Society.

NEWS FROM THE CITY HALL

SMITH TURNED DOWN FOR A SECOND TIME

Council Acts Speedily, Taking Vote Without Discussion, Ending in Tie.

CUTTING OF SALARIES UP

Ald. McBride's Pet Scheme Goes Out on a Big Majority.

At the quickest time the city council did at its long meeting yesterday was to defeat the recommendation of the board of control, naming acting Chief William Smith for the position of chief, and thus automatically turning down a second chance to give him \$4500 salary. In calling for the vote, Ald. McBride, chairman, locked all discussion, and a tie of 17-17 did the trick.

Not so fast, however, was the disposition of a recommendation to give the acting chief a grant raising his salary to \$4400 a year, and discussion on this point dragged for a considerable time, ending in the amount being given on a vote of 17 to 7. Almost as much time was taken up on the proposal to donate \$5000 to Major Le Grand Reed for recruiting purposes, and it was here the business methods of the City Council Recruiting League came in for criticism. The outcome of it was, however, that the money was voted, and will be paid immediately.

Ald. McBride's pet scheme, that of doing away with aldermanic salaries and cutting that of controllers to \$1500 a year, and of giving the acting chief a grant, but between the time the motion was presented and the time it was voted down there were a number of amendments, and the motion was finally defeated, which suggests that it was all an election scheme. It was claimed also that the alderman had been receiving an additional \$100 a year for acting as chairman, illegally, and in this Ald. Gibbons tried to score.

It was left with the board of control, police commissioners, and members of the social survey commission to decide as to the future of the latter's report, when that question came up for discussion. Some members favored submitting the report altogether, while others held out for a conference between the parties named, and this was finally decided upon.

Another interesting item was in regard to an occurrence of the last council meeting, when Ald. Maguire challenged Ald. McBride to put up \$200 when McBride said the members were salary grabbers. Yesterday Ald. McBride accepted the challenge, and produced marked checks to be sent to some patriotic purpose, Ald. McBride mentioning an Edith Cavell memorial.

Confusion Reigned.
Before the members of the city council had time to find out exactly what was going on, Ald. McBride, chairman, called for the vote on the recommendation to make Acting Chief William J. Smith chief of the fire department, and by a vote of 12 to 12 the motion was defeated. There was an uproar, preceding the actual vote, which ran something like this: "The members aren't here to vote." "Yes they are. We're voting now."

"But you can't take the vote—there's been no discussion." "Yes, there has and we are voting. Ring the bell somebody. Get the members in. All those in favor—?" "Hold on there—what are we voting on?" "You're voting for Smith for fire chief. All those in favor—?" "The count was being taken, while the doubtful members asked their neighbors which side was up. Some remained standing and other sat down. "Once more: All those in favor of William J. Smith for fire chief—?" "One, two, three," and so on—there were 12. "Now, then, all those opposed—?" "One, two, three—there were 12."

Ald. McBride: "I declare the motion lost."

And that is the way Acting Chief Smith's name was disposed of the second time. This was the vote:

For:	Against:
Ald. Maguire.	Ald. McBride.
Mayor Church.	Ald. Warren.
Ald. Gibbons.	Ald. Cowan.
Ald. Cameron.	Ald. Roden.
Ald. Robbins.	Ald. Walker.
Cont. Thompson.	Ald. Spence.
Cont. Foster.	Ald. Sinner.
Ald. Denn.	Cont. Spence.
Ald. Black.	Ald. Warren.
Ald. Ball.	Ald. Yemans.
Ald. Meredith.	Ald. Ramdeen.
Ald. Hydr.	Ald. O'Neill.

Ought to Be Paid.
There was a great deal more discussion as to whether Mr. Smith should be given a bonus of \$1800, as recommended by the board of control, than on the appointment itself, and by a vote of 17 to 7 the recommendation carried, as it seemed to be the consensus of opinion that the man who did the work, whether he was Mr. Smith or not, ought to be paid accordingly.

In discouraging the idea, Controller Spence said it was unwise to consider such a proposal at this time, but he would favor a reasonable allowance in view of the work performed. "But," added the controller, "he is in a special position in relation to this board, and I do not think it is right to give him a bonus if he is to receive a bonus if he is to be given when he steps out." It was contended that the amount was too liberal, and the controller was inclined to doubt the legality of such a grant. He was afraid also that a poor example would be set which would destroy discipline.

Ald. Roden took strong exception to Controller Spence's remarks, and made a lengthy speech in favor of the grant. Ald. Roden did not believe Mr. Smith was entitled to full measure of consideration because of his stand in the Gunn case, and moved an amendment to give an honorarium of \$500 instead. Ald. Yemans supported the recommendation on the belief that the money had been earned.

Controller Foster Opposed.
Declaring the principle wrong, Controller Foster declared that the time was not ripe to make such a grant, and upheld that it would not be proper until Mr. Smith was giving up the reins. Controller O'Neill ridiculed the word "economy," saying he proposed the grant because the acting chief was entitled to it. It was the justice of the thing that appealed to him. Ald. Cameron gave his endorsement.

Wire-Pulling, Says McBride.
The opposition had a champion in Ald. McBride, and more than once the gallery applauded him. The alderman pointed out that after his election as Ald. Dunn, referring once or twice to Dunn's chances for election to the board of control. This appeared to please the audience. "He favors promotions, at his meetings," said Ald. McBride, "and I understand a fireman threatened an alderman of this council that he'd look after his election if the alderman didn't vote for Smith. That's what twelve men voted here against wire-pulling. It means that

the same gang that is trying to get Smith the job is trying to get the salary thru, and if they do that they will see to it that no other man is appointed."

Ald. McBride maintained that the principle involved was vicious, and that bonuses would have to be given all down the line. He characterized the Gunn affair as "small, petty, street corner jealousy," and claimed that the board asked for a 15 per cent. reduction in maintenance charges one day and voted bonuses the next. "Why do they want to give Smith \$1800? Because outside influence defies them, and if they don't vote for it their election is gone. We should get away from this political influence of the firehalls. This is no time for such a grant."

In the Estimates.
Mayor Church explained that the money was in the estimates and spoke very highly of the services the acting chief had rendered. The recommendation, he held, was fair and should be adopted. In support also, Controller Thompson spoke of the work necessary, and told how the acting chief had filled the post admirably. He believed Smith entitled to a chief's salary.

Before the recommendation was carried two amendments were voted down, one by Ald. Roden to give \$500, and another from Ald. Ryding to contribute all in the fire department who had done surplus work.

Civic Finances.
The open letters of the late Ald. S. M. Wickett regarding civic finances have left their impression on the council members. The first echo was heard yesterday, when Ald. Roden wanted to know why it was that the recruiting, repairing and renewing of pavements upon portions of the streets occupied by the Toronto Railway Co.'s right of way were not paid for out of the annual revenue received from the company. The question came up when a bylaw was introduced to authorize the issue of "City of Toronto Street Railway debentures," to the amount of \$450,000 for the purpose of constructing, reconstructing and repairing such pavements. The alderman was told that the revenue from the street railway went to reduce the tax rate.

The statute says that the interest upon and the amount of annual sinking fund necessary to discharge the said debentures at their maturity shall be and continue during the currency thereof a first charge upon all moneys received by the said city by way of mileage revenue and percentages on the receipts of and all other revenues derived from the said Toronto Railway Co.

In connection with this section Controller Spence pointed out that it was only introduced to draw the debenture so that they would expire not later than the date of the expiration of the franchise, as after that the city would have no revenue from the Toronto Street Railway Company, and for this reason the bylaw called for debentures running only five-and-a-half years.

A bylaw authorizing the issue of debentures to the amount of \$678,242.50 to defray the expense of laying water mains and house services on certain streets carried.

New Street Names.
Sixteen streets will now be given new names, the changes having been authorized by the adoption of the bylaw being as follows: Roper avenue to Craighurst avenue; Courtleigh crescent to Courtleigh boulevard; Radenhurst street to Labatt street; Richmond avenue to Bristol avenue; Kenilworth crescent to Kenilworth avenue; Gordon avenue to Alvin avenue; Park place to Indian Valley crescent; Grand terrace and Rosedale street to Inglewood drive; Melgund road to Lynhurst avenue; Fifth avenue in garden east, to Baltic avenue; and the Eastview avenue to Bismark avenue to Asquith avenue; Hanover place to Tracy street;

Schmidt place to Lefroy avenue; Renhold avenue to Ridgway avenue; Amroth avenue to Lanark street.

Hydro-Electric Improvements.
A bylaw to provide for the issue of debentures to the amount of \$448,100 to extend and improve the plant of the Toronto Hydro-Electric system, was given its second reading only, being referred back to the board of control for further information and some alteration in its wording. According to the bylaw the money is to be spent for extension and improvement, but it transpires that the money is not for this purpose at all but to provide for a shrinkage. One paragraph says that the system will derive sufficient revenue from the extensions to meet the annual payments and interest on the debentures being issued, while in another paragraph it says that the annual sum of \$28,179.53 which will have to be raised for a period of 22 1/2 years will be raised "by a special rate sufficient therefor on all the rateable property in the municipality of the City of Toronto." In other words, the taxpayers, and not the hydro-electric system will have to meet annually the sinking fund and interest charges.

Ald. Ball declared that the amount was to take care of a deficit that should never have occurred and that should be paid by the hydro-electric system and not the city.

Firemen's Benefit Fund.
A subcommittee has been appointed for a number of this year's meetings, viz., the Firemen's Benefit fund, received more consideration again, coming up in the form of a recommendation from the board of control that the sub-committee be instructed to apply for a grant authorizing the city to appropriate yearly a sum of money sufficient, when added to the contributions of the firemen, to put the fund on a sound, permanent basis so as to provide for all claims upon the fund. Objection was taken to the findings, and in view of the present unsatisfactory condition of the fund, but Controller Spence, one of the sub-committee, pointed out that the report was only a step towards remedying the defects in the present bylaw, which allows for the possibility of a report showing that its adoption would enable the committee to make a complete survey of the condition of the fund, including the getting of an actual report showing which an amended bylaw would be prepared and presented to council for approval. With this understanding the recommendation carried.

Social Survey Report.
For stirring up debate, perhaps nothing will have the exception of fire department matters, has been so successful as the report of the social survey commission (vice commission). On said deputation, which was only one step towards remedying the defects in the present bylaw, which allows for the possibility of a report showing that its adoption would enable the committee to make a complete survey of the condition of the fund, including the getting of an actual report showing which an amended bylaw would be prepared and presented to council for approval. With this understanding the recommendation carried.

Nervous Dyspepsia

The Modern Scourge and How to Meet it.

The speed at which we live, the hustle now so necessary for success have unfortunately a very adverse effect on the nervous and digestive systems of Canadians. The baneful results, increased lately to an alarming degree, often lay the seeds of more deadly trouble, but it will be satisfactory to learn of the ever-increasing popularity in the Dominion, of the Great British Remedy, Dr. Cassell's Tablets.

Dr. Ramsay Colles, J.P. of the City of Dublin, a man of high eminence in the scientific world, says:—"I have great pleasure in expressing my satisfaction as to the curative effect of Dr. Cassell's Tablets in cases of nerve troubles. From several cases which have lately come under my notice I am able to form the opinion that Dr. Cassell's Tablets constitute a safe and reliable family remedy, and appear to be specially effective for nerve and bodily weakness."

Dr. Cassell's Tablets are Nutritive, Restorative, Alterative, and Anti-Spasmic, and of great therapeutic value in all derangements of the Nerve, Digestive, and Functional Systems in old or young. They are the recognised modern home remedy for Dyspepsia, Nervous Breakdown, Stomach Catarrh, Kidney Disease, Nerve and Spinal Paralysis, Infantile Paralysis, Rickets, St. Vitus' Dance, Anaemia, Sleeplessness, Brain Fag, Headache, Palpitation, Wasting Diseases, Vital Exhaustion, Loss of Flesh, and Premature Decay. Specially valuable for Nursing Mothers and during the Critical Periods of Life.

of everybody, and referred to its being reproduced by a local paper, which he reproduced should not be allowed.

The discussion ended in Alderman McBride's motion being carried, which means that a conference will be held by the parties interested with a view to taking some action.

Recruiting League.
When the clause in the report pertaining to the \$5000 grant to the Toronto Recruiting Depot was considered, Alderman McBride was considered a letter that appeared in yesterday morning's Globe, making certain points against him in connection with his alleged attitude toward the report. Referring to the letter he declared, "that never in the history of Toronto had more damage been done by a man in any public position than from a public platform." The letter stated that the alderman made his report to the recruiting club for 14 years, he had never received one cent from it, and that the gambling carried on at Hillcrest was under the Miller bill to which Mr. Raney, the writer of the letter, was a party, and that the "ack was run on the same principles as those in England, and other tracks have been included in the bill. I don't know why Mr. Raney goes so far as to try and besmirch my name with a connection with gambling. My name never received one cent, we have made a little money for the Toronto Recruiting Club, but not for McBride. My money was made out of recruiting and not by gambling or any other way."

Alderman Wier was against allowing the report to get into the hands

of the brigade from outside the brigade or of selecting a commission as suggested, if a first class department was to be the result. He thought the scheme a good one, and would readily fall in line behind Ald. Warren.

Ald. D. Spence thought the recommendation the result of a Tammany field gang, composed of "Cabbage Town" principally, and it was time it was all stopped. The only reason he was leaving council was to attend personal affairs. He was sorry to leave, but glad he could do so with a clear conscience. He was opposed to the commission scheme, and believed one man only should have control. There should be no influences, no political pull, and if it was impossible to get such a man, then a commission might be selected, but it should be a paid commission.

The matter was sent back to the board of control for further consideration.

Fire Commissioner.
Ald. Warren re-introduced a motion which he brought up last September, that the city secure legislation giving power to appoint a commission composed of a member of the board of trade, city council and fire underwriters, with power to reorganize the fire department. He said it was probably providential that the matter had been delayed until the present, and urged that the idea contained was the proper way to deal with a vexed question. He stated that he had even been threatened, and had determined to at least see how the members stood. The commission would control the fire department as well as bring about a reorganization. Controller Spence pointed out that it meant respecting the commission question, while Ald. McBride eluded the question, and stated that the commission would solve the "political pull" problem in ward politics, and stated that yesterday afternoon a man who had a government position spoke to a resident in his ward, asking him to come out against Ald. McBride—"No man can exercise any pull over me," he said. "And I don't care who he is." The only way to get out of the rut we're in is to appoint a commission which will work for fire prevention as well as protection."

It was either a case of getting a

NEWS OF SPECIAL INTEREST TO WOMEN

EFFECTIVE JEWELRY FOR EVENING WEAR

Fewer Fads Are Noticeable in Women's Ornaments This Season, However.

NOVELTIES ARE NOTICED

Cameo Settings in Rings and Bracelets Have a Distinctive Style.

Fads in jewelry are not as numerous this season as previously, but the ornaments shown, especially those for evening wear, are particularly effective and in harmony with the modes which have been chosen, from the daintiest of Victorian and Empire styles. Noticeable among the newest novelties are the cameo settings in rings, bracelets and corsage pins. Old-fashioned settings in gold, delicately traced and introduced scrolls, are employed and exquisite cameo brooches, flowers and fruit designs are widely shown.

Platinum Chains

Long platinum chains, set with tiny diamonds or rhinestones, are very modern this winter, when fads are so generally worn on all formal occasions. These are most effective ornaments for the evening toilet of either matron or maid.

Platinum effects are very popular for bracelets, while slender bangles are again in demand both in gold and silver. Bands, delicately curved and with gemmed clasps, are shown for wear above the elbow, while friendly bracelets are also featured in a variety of pretty designs.

For Evening Wear. The evening wear of the outfit may be enhanced with one of the exquisite new headbands—platinum and gold set with semi-precious stones, and pearl or opal effects being favored. Earrings in antique designs are shown for formal wear only.

SOLDIERS' SOCK SHOWER.

A sock shower, sale of refreshments, musical program and tea, were the latest contribution for the patriotic cause undertaken by the Toronto Women's Liberal Club, at the residence of Mrs. Greenwood Wood, Silver Birch avenue. The charming program was arranged by Mrs. Rutter. The proceeds will be spent in the interests of the soldiers at the Knapesburg Detention Camp.

SUCCESSFUL MUSICAL.

The names of the following artists who contributed to the successful musical given in the Margaret Eaton School under the auspices of the Political Equality League, speak for the enjoyment and high quality of the program: Mrs. John Garvin (Katherine Hale); Mrs. George H. Hodson; Mrs. G. E. Liddle; Mrs. William Wood; Mrs. Ernest Caldwell and the Baron Allott. The proceeds of musical and tea will go for patriotic work.

MAN WITH ACID INDIGESTION LEARNS WHAT TO EAT.
PHYSICIAN: "Do you eat fruits, vegetables, nuts, Graham bread, and any other plain foods you like and take a little bicarbonate of soda after each meal."
PATIENT: "But, doctor, I've tried moderate, plain meals and they distress, bloating, sour stomach, constipation and headaches."
PHYSICIAN: "You have nothing but hyperacidity—excess acid secretion in the stomach, and the bicarbonate of soda will neutralize the excess acid and stop all trouble. Shortly everybody is subject to attacks of acid indigestion because nearly everybody eats fancy foods, eats too hastily, and has an occupation which prevents living the active, natural, outdoor life that Nature intended. So bicarbonate of soda is needed to help Nature restore normal digestion. As bicarbonate of soda is a quarter glass of water should be taken after each meal. As there are several forms of bicarbonate of soda, call for bicarbonate of soda."
D.L. 7, 14

NOTE: The bicarbonate of soda is a palatable, inexpensive, and can be purchased at any drug store. It gives immediate relief in all cases of sour stomach, acid indigestion, and other troubles due to hyperacidity. And most ordinary stomach disorders are due to excessive acid. Nearly everybody is subject to attacks of acid indigestion because nearly everybody eats fancy foods, eats too hastily, and has an occupation which prevents living the active, natural, outdoor life that Nature intended. So bicarbonate of soda is needed to help Nature restore normal digestion. As bicarbonate of soda is a quarter glass of water should be taken after each meal. As there are several forms of bicarbonate of soda, call for bicarbonate of soda."

COOL DISTRUST OF FOLKS AT HOME

Modern Instance of a Prophet's Honor and Where it is to Be Found.

When a middle-aged Scot was told that Mr. J. M. Barrie had made a great name in London as a writer he responded: "I'll no believe it, mon, it canna be true. He went to school with me. It is one of the sorrows of goin' that the folks at home are unbelief and grudging crew. For example, we in Canada would not take the trouble of going to hear the grand playing of William Smith. But a man named Korczakowitch would drag us out on the coldest night. It is the cult of the Ufflander, the perpetual approval of the foreigner. We even wait for the opinion of the man who dodges into town, plays once and dodges out. We seem to believe, first that he has an opinion on any subject, and secondly, that he is waiting to express it. People have been known to pay a price of a certain make because Korczakowitch played that instrument and issued a flaming testimonial to its value. They did not know that the opinion was often a matter of bargain. The Gourlay Piano is a Canadian product, built by Canadian capital and Canadian labor. The manufacturers have for 12 years been making a distinctly high-grade instrument. Their success has proved the merit of the Gourlay. And not five cents has been expended in exploiting castles of commerce from visiting foreign artists. The Gourlay testimonial comes from the Canadian household.

WAR WANTED BY WOMEN FOR SAKE OF PEACE

Consequently National Council of French Women Eschew International Congress

"We do not want war for war's sake, we want war for the sake of peace." This is what the National Council of French Women have sent out as a pronouncement, at the conclusion of a resolution to take no part in any international political congress as long as the war lasts.

The women of France have put in a nut-shell the sentiment that is at the root of all the work and all the thought that women today are expending on the war. The women of the empire and of the allies recognize that the only way to bring about a lasting peace is to break the power of the German autocrat. Peace just now would mean nothing save a respite during which the militant spirit of Germany would gather new strength and the munitions of war would pile up and prepare for fresh and continuous carnage.

No lasting peace can come except thru the partitioning of the country and the nation, that would rule the world with that against which all democrats must fight, "a one man government."

The Toronto World

FOUNDED 1880. Morning newspaper published every day in the year by The Toronto World Newspaper Company of Toronto, Limited.

It will prevent delay if letters containing "subscriptions," "orders for papers," "complaints," etc., are addressed to the Circulation Department.

TUESDAY MORNING, DEC. 14.

Successful Enlistment

If we can trust the latest reports, the plan which Lord Derby has been depending upon in Great Britain to justify the voluntary system of enlistment has been not only a success, but a great success.

A Tame Puss

The Globe after thinking it over has made another deliverance on the banking and currency question. It is convinced that deplorable results would follow a "free and open discussion" and therefore admits that it is pussyfooted around the question.

GRETCHEN IS ANXIOUS BUT SHY

Perhaps The Globe will tell us where it stands, and where the Liberal party stands on this question. Is it opposed to the government re-discounting commercial paper for the banks with national currency?

The Hydro Radial Franchise

Would any private corporation, given the terms on which the proposed hydro-radial railways are to be built, terms of routing, terms of franchise, terms of finance, terms of public sympathy, terms of business in sight, refuse to take up the project?

Enough Volunteers Will Come to Ranks

There will be no need of conscription in Canada, says Lt.-Col. Kingsmill. Recruits still come in hundreds and fifty-two accepted out of two hundred and twenty offering.

A Lively Corps

Among the new regiments the 109th has made such a record that it will require some emphasized effort on the part of its competitors to overtake and keep up with it.

He Who Laughs Last

Detroit Journal: Major-General Sir Sam Hurd was the best abused man in all Canada for the past decade. The newspapers found in him an unending source of humor.

Mohammedan Leader slain

LONDON, Dec. 13.—The Delhi correspondent of Reuters Telegram Co. states that Aga Farukh Shah, cousin of the spiritual head of the Mohammedans in India, East Africa and Central Asia, Prince Aga Kahna, has been murdered by a Persian assassin at Kerma, Persia, according to a report received in Delhi from Kerman.

GRETCHEN IS ANXIOUS BUT SHY

I will not to him propose, to me he must propose aretty, yes.

UNIVERSITY'S DEGREE SHOULD BE SUFFICIENT

Witnesses Before Ontario Medical Commission Would Abolish Examination of Council. H. S. Osler Declares Council's Test Essential to Safeguard Public Interests. The Ontario Medical Commission in the person of Mr. Justice Hodgins spent the whole of yesterday in hearing argument for and against the abolition of the final medical examination of graduate students by the medical council, President Falconer, of the University of Toronto, and Dr. Hill, Western University, argued that dual control was humiliating, and that once a student received his university degree he should be entitled to practice.

WINTER TOURS TO CALIFORNIA, FLORIDA, ETC.

At this season of the year many are planning their winter tours. Considerable numbers annually visit the ever-popular Californian resorts, while many choose the Florida and Sunshine of Florida, together with the very even climate.

RECRUITING HELPED BY DODGER CAMPAIGN

Overseas Men Handing Them Out Gives Them Credit for Securing Recruits.

"How are you getting on?" said a woman to a member of the 10th Royal Grenadiers of the overseas battalion, who stood at the door of one of the large stores yesterday afternoon, handing out the dodgers with which the corps has been carrying on its recruiting campaign.

Another woman had just gone ahead and when the soldier proffered her the bit of paper she ignored it altogether and swept by as if utterly oblivious of the man who so patiently and courteously was doing the duty he had been deputed to undertake.

"Yes," was the answer. "We have nearly our complement of men now, 1100, and he smiled as if quite happy at the near attainment of the object for which he and his comrades were working.

As the appeal has been made especially to women it may be concluded that some at least have been doing their "bit." Yet there is much to be done for when one remembers that only about two and a half per cent. of Canada's population have enlisted.

BRITAIN TO MOBILIZE AMERICAN SECURITIES

McKenna's Striking Plan to Adjust Trade Balance is Approved.

USE AS COLLATERAL Securities Will Be Sold if Such Course is Advisable.

(Continued From Page 1).

do outside the ordinary course of trade and had to borrow or sell securities.

Mr. McKenna stated that the government would liquidate the treasury in five-year five per cent. exchequer bonds.

On Deposit Two Years. In explaining the plan for mobilization of American securities, Mr. McKenna said that in case individual holders were unable to sell their securities, the government would accept them on deposit for two years.

The lender would receive the interest accruing on one-half of the principal, the balance being held in reserve to meet contingencies, the chancellor paying the interest on the balance of the day and an additional two and one-half per cent. on the value thus calculated.

Huge Resources. Mr. McKenna began with a reference to the increase in British liabilities in the U. S.

"The most inveterate pessimist would not dispute our capacity to meet these obligations, provided our assets caused no surprise here, the plan having been reached as one of several which the holder of American or Canadian securities was in a position to sell outright."

No Injury to Markets. Whatever steps were taken under the mobilization plan every care would be exercised to avoid anything that would affect the American markets injuriously or be detrimental to American financial interests.

"I have conferred with insurance and trust companies which are large holders of the desired securities," he went on, "they fully approve the plan. Purchase seemed the simplest and best course where the holder of American or Canadian securities was in a position to sell outright."

The chancellor said the government believed the securities available would be sufficient to meet all liabilities and the needed support to the exchange market as long as the war lasts.

He estimated that the securities held here were valued anywhere from \$300,000,000 to \$500,000,000 (\$1,500,000,000 to \$4,000,000,000) and expressed the hope that this would be sufficient "to meet our liabilities and to maintain exchange in the United States for the period of the war."

Generally Approved. The bill met with general approval, although David Marshall Mason doubted whether the scheme would affect exchange, while Frederick H. Booth hoped the government would assist traders who had to meet liabilities in America, and that "these transactions will not lead to New York replacing London as the financial centre of the world."

Replying to the question of Sir Geo. Younger as to whether the government intended to confine itself to borrowing in America upon the securities, Mr. McKenna said that the government certainly did not propose to confine itself to either borrowing or selling. Regard must be had to the position of affairs in America, and the government proposed to

WALL STREET CALM. NEW YORK, Dec. 13.—The decision of the British government to make outright purchases of American securities caused no surprise here, the plan having been reached as one of several which the holder of American or Canadian securities was in a position to sell outright.

International bankers regarded the proposition as in the nature of a tender or bid that is being solely in the interest of strengthening and maintaining exchange between this country and London.

The recent revival of liquidation of our securities by British owners has further reduced the amount of American stocks and bonds owned in Great Britain, but conservative estimates place the total of such holdings at this time as well in excess of \$2,000,000,000.

Asked if securities to the amount of \$100,000,000 were offered in the next fortnight, would the government purchase them, Chancellor McKenna said the government would be prepared to do so, but he did not anticipate anything of the kind.

Frederick H. Booth hoped when the government was in possession of "this enormous roll of American securities," it would come to the aid of private traders. If not, there would be a considerable holding back in Lauenburg unless the cotton manufacturers knew how they were to meet their American liabilities.

Baseball League is Sound Says Ed. Barrow

O.H.A. The First Schedule

LOOKING FOR A HOME FOR DUNN'S OLD CLUB

International - Undecided Where to Place the Harrisburg Franchise - Baseball Meeting.

NEW YORK, Dec. 13.—Major and minor league baseball clubs were well represented at three or four of the uptown hotels today.

President Edward G. Barrow called the annual meeting of the International League to order late this afternoon and after a three-hour session he announced that the meeting had adjourned to meet here again on Jan. 17. Every club in the league was represented and the session was for the greater part devoted to arranging for next year's circuit. Alvin Smith and Jack Dunn of the Richmond, Va., club denied having any intention of resigning that franchise.

The Harrisburg club's location on the 1916 circuit was the principal matter discussed at the meeting, and three places—Hartford, Springfield and Worcester—were mentioned. President Barrow stated that the International League had paid the National Association for the reservation of Hartford and Springfield. He said his league would be willing to give up its claim on these two cities provided that his league would secure a first-class field for the Harrisburg club to be settled at Worcester. Messrs. T. Murman of Boston, John J. Farrell of Auburn, N.Y., and Mr. Barrow were appointed last night at San Francisco as a committee for the revision of playing territory in New England. They reported to the meeting today and final action on their report will be taken when the league meets next month. In the meantime the franchise of the Harrisburg club is entrusted to the care of President Barrow, and he believes that he will secure a desirable place in New England to which it will be transferred.

The questions of salary and player limits were also discussed as well as several economical suggestions. Just after the session was concluded President Barrow said:

"The International League has weathered every storm safely and today it is in a sound condition, sounder in fact than might be expected after such a bad baseball year."

The National League meeting will be held here tomorrow.

CHECKERS AND BOXBALL

The Moss Park boys visited East Riverdale and played checker and boxball tournaments. Moss Park boys proved too clever for East Riverdale at the checker games, but East Riverdale showed the most skill in handling the boxballs.

Checkers—Moss Park, Franchet 4, Black 3, Gutzen 3, Spyrz 3; East Riverdale, Parks 1, Edwood 0, White 0, Black 0, 107, Franchet 97, Gutzen 86, Spyrz 78; East Riverdale, Break 118, Parks 111, Edwood 109, Wilks 107.

Eddie Roberts, who was among the spectators at the first practice of the Ottawa, said that his brother would not be found with the Wanderers this winter. Gordon is taking his last year in medicine at McGill and has been attached to one of the Montreal hospital staffs. He cannot spare the time for out-of-town games. Wanderers are working hard to coax him back and may succeed. He was the best man on their line last winter.

NEW PLAYERS TURN OUT WITH THE ARGONAUTS

McCamus and Farr on the Job—Meeking Joins the Pros.—Gossip.

It was a busy day at the Arena yesterday, and the railbirds were in their glory. When the pros. trotted out for practice in the morning Gordon Meeking donned a suit and worked as hard as anybody. Meeking has finally decided and will be found with the Toronto this season. He will make a great partner for Skone Roman to change for the centre job. The blue shirts worked in nice fashion and tried a new system of attack that gives promise of adding to the score sheet.

Argonauts had out two new men in Jack McCamus and Toed Farr. McCamus, who is now one of the king's men, only took light work, but will be in shape to play the opening game. Farr, a handy defense man, can play the rover position to perfection. He will likely settle the Argos. Frank Knight and the full squad were out and they were sent against Aura Lee for half an hour.

Harry Meeking and Stevenson, the suspended ex-Victoria players, took light work with Argos, but will be unable to play this winter.

Aura Lee had 25 men out for practice and Captain Sheldon is going to have a fine job picking his team. Gouinlock was going like a young cyclone yesterday and he is sure of a place on this good junior outfit.

The 40th Battery has a good-sized squad working. They broke last and paid some attention to the passing game. Jack Gooch and Corbett will finish their course at Kingston on Saturday and will be available for practice at the first of the week.

Just who will be the forwards for the Toronto when they play the ice against the Canadiens for the first game on Saturday night is puzzling the fans. Brian should start at centre, but the wing jobs are anything but sure. The two Denney boys are showing a lot in practice, but Alf Skinner and Bayly are ready to step into the fray right now, and they will be hard to keep off the team.

Argonauts and T.R. and A.A. play an exhibition game at the Arena on Thursday night. This game will give the fans a chance to get a line on these two senior clubs.

The practice hours at the Arena today are: 11 to 12—Toronto pros. 4 to 5—St. Andrew's. 5.30 to 6.15—T.R. and A.A. 6.15 to 7—Riverdale.

A Stratford despatch says: Elmira has written Secretary Joe Rodgers of the Stratford Hockey Club, asking for a game on Christmas afternoon. Berlin would also like to play, and in all probability Berlin will be the favorite, as they will be the best drawing card, they having already played a couple of games. This game will not only enable the fans to get a line on their own team, but will

THE HOUSE QUALITY

\$25 Men's Top-Coats

We have a right to praise the distinction and the individuality of the designs of these splendid winter weight outer garments for men—they are checkful of character—

We have the fullest confidence in goods from which they are made—because the woolsens are from the looms of some of the most noted of the British weavers—

We have a pride in the workmanship—because they are London tailored—

We have the best of good words to say for these Overcoats on all points that count for quality—and so will you \$25 have when you look in at them...

enable them to get some dope on the flying Dutchmen as well, as they are rated as the team to beat for the senior championship.

The 147th Battalion of Owen Sound, which is taking a tour thru western Ontario, has also written asking for a game any time. It is not known whether they can be accommodated, but it is hoped they can, as their team is made up of men wearing the khaki.

As a result of the action of the Ottawa City Hockey League in disqualifying players who compete in any other league or league, it is not likely that there will be any senior O.H.A. hockey in Ottawa this winter. Following the withdrawal of the Aberdeens and 77th Battalion teams from the Ottawa section of the O.H.A., the Ottawa group was pushed down to the Ottawa section of the O.H.A. The Ottawa group was pushed down to the Ottawa section of the O.H.A. The Ottawa group was pushed down to the Ottawa section of the O.H.A.

Carl Kendall, the former Vancouver forward, says Saturday's practice of the Ottawa. He has written to Sammy Lichtenhan, requesting his release, and it is likely that the Wanderer president will grant it. He has always shown a willingness to help young players along and in this case it would be a big favor to Carl.

Angus Duford carries one of the greatest wrist shots in the game. The major drives thru their police or stoop, but without any apparent modification of his wrist. Brockett and Roberts were similarly gifted. None of the goalies could tell when it was coming.

Frank Nighbor arrived from Pembroke yesterday and reported to Coach Smith of the Ottawa club. He is in good shape and will work out at the first morning practice of the club today.

WELSH WAS SHADED.
PHILADELPHIA, Dec. 13.—Freddie Welsh, the lightweight champion, was outboxed in a six-round bout here tonight by Jimmy Murphy of this city. They met at catch weights and both appeared to be several pounds above the lightweight limit. Welsh was the cleverer of the two his work was marred by frequent clinching.

Murphy was very aggressive and led in every round after the first. In the hard left and in the fourth round started the champion with a right cross to the head, Welsh saving himself by clinching.

Ottawa thinks well of its team. Listen to this: In any event, Smith's squad, tho' none too large, represents quality in every department. It will be a big surprise if Ottawa, despite the improvement of opposing teams, does not make a great fight for the N.H.A. championship. Coach Smith viewed Saturday's practice from the stand, and was evidently tickled with the manner in which Heston, Hebert, Merrill, Gerard, Darragh, Duford and others played. He watched Morley Bruce closely, and expressed the opinion that the former Aberdeens star would make good in the top company. Gerard, Darragh and Duford executed some beautiful combination plays. The Ottawa-Clint Benedict a busy night. The Ottawa was skated out in their battle-scarred uniforms of red, white and black, which will, of course, again be their colors this winter. Harry Westwick sported a green and white relic of the olden days, while Archie Ahlstrom produced a Wanderer outfit. Several of the directors were down to look over, and they, too, went away pleased.

Joe Hall intended going to the front with one of the western battalions, but was turned down, probably on account of old age infirmities. Joe has been prominent in the hockey world for about twenty years.

Fred Lake and Harvey Pulford, Ottawa's referees on the N.H.A. board, were at Montreal attending the conference of N.H.A. officials. It is understood that the free shot and new overtime rule will be pushed down thru, notwithstanding the objections of the Ottawa players.

The championship race of the National Hockey Association will get under way with two games next Saturday night. Bananas and Toronto will play the Quebec Bulldogs meet the Wanderers at Montreal, Ottawa drew the bye.

The Quebec Hockey Club held its first workout Saturday night. Joe Hall, Harry Mommerly, Walter Mumery and John Johnson having arrived Friday night. Rusty Crawford is expected yesterday. Johnson is an Icelandic. Both Hall and Crawford say he will make good. Johnson is a wing man. He started at Brandon last year.

Curling Notes
The curlers are taking advantage of the present cold spell, and according to the outlook are likely to enjoy the ice for some time yet before the first thaw. All the clubs except the Torontos are at it daily, and curiously enough the Huron street brothers of the beam are alone with their Tankard teams completely selected for the season. They will go into the campaign with the same eight players who went thru last season undefeated. Perhaps they are starting out to emulate the Granites' wonderful record. They would merely have to repeat this winter and win again in 1917.

THE COUPON

By Harold J. Tennant, parliamentary under-secretary for war.
Mr. Tennant explained that the defence of London from aerial attacks heretofore had been a responsibility divided between the admiralty and the war office. This he said, had been the basis of many criticisms.

Sir Percy was appointed some weeks ago, prior to the last Zeppelin raid. His appointment was hailed with satisfaction, as his fame as a naval gunnery expert led Britons to expect great results from his control of the operations against aerial raiders.

Firm Attitude of Washington Towards Vienna Responsible for Dulness.

ATTACKS ON LEADERS

Trading Element Concentrates Efforts to Depress U.S. Steel and Pacific Rails.

NEW YORK, Dec. 13.—Washington's attitude toward Vienna regarding the striking of the Ancona furnished the likely reason for the Dulness and the domestic selling, the latter largely on professional strength on the New York market, which is expected to continue to be a dull one.

Among high-priced specialties, American Tobacco was the weak feature, maintaining an extreme loss of 3 points, with sympathetic declines in other specialties.

General Motors common and preferred, Standard Oil of Texas Co., the latter an ex-dividend, constituted the only strong features of the session, which closed to complete stagnation and low prices in the final hour.

A development of broad financial interest was the decline in exchange on Germany to 77 1/2, the lowest quoted since the outbreak of the war.

CHICAGO, Dec. 13.—Unexpected falling off in the United States visible supply today reacted to an advance in the wheat market here.

Wheat prices ran into a genuine surprise in the visible supply figures. It had been predicted that the report would show a good enlargement of stocks.

Exports of wheat from the United States supply total was the result of the non-report of wheat from Buffalo, where the same conditions have existed in previous years at the close of navigation.
