The copy filmed here has been reproduced thanks to the generosity of:

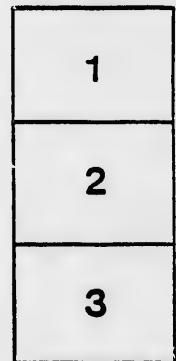

Archives of Ontario
Toronto

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

1	2	3
4	5	6

L'exemplaire filmé fut reproduit grâce à la générosité de:

Archives of Ontario
Toronto

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires origineux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

We the undersigned special auditors appointed by the Municipal Council of the Township of Walsingham have the honor to report that we have thoroughly examined the Accounts of the Treasurer, and are pleased to state that proper vouchers were found for every item with the exception of two which have not the signature of the Reeve.

We would suggest the propriety of furnishing the Treasurer with a copy of the Acts relating to Municipal matters collected and arranged by R. E. Kingsford, Barrister; Also one of Wilson's Day Book, Cash Book and Ledger combined. The first will enable him to discharge his duties in accordance with the requirements of the law, and the other will enable him (with less liability to err) to keep the various accounts separate and distinct. We regret to say that for some years Collectors have been in the habit of returning their rolls in open violation of the law, by not swearing to the same when returned.

C. L. BINGHAM.

JOHN E. STEARNS.

Walsingham Centre, August 18th, 1880.
