## Give Your Pulp We'll Let It In

Uncle Sam Has a Smooth Propo-  
sition, But Canadians Are  
Not Likely to Fall for It.

OTTAWA, Jan. 5.—It is learned that one of the proposals to be made at the reciprocity conference in Washington on Saturday by the United States representatives, to meet the needs of the American Newspaper Publishers' Association, will be that, in return for a removal of the duty on wood pulp and print paper entering the United States from Canada, the Canadian provinces, and especially, should remove the prohibition of the export of putwood and other unmanufactured lumber from their crown lands to the United States.

The paper manufacturers of the United States are anxious to get this pulp wood, in order to have an almost unlimited supply for their mills. Enquiry to-night shows, however, that there is no likelihood of Quebec cancelling the prohibition of export, and the Canadian commissioners have no power in the matter. The Province of Quebec is not a party to the reciprocity negotiations, is not represented by the Canadian commissioners, and the Canadian Government has no jurisdiction over the provinces in this regard.

## OFF TO WASHINGTON

Canadian Ministers Leave for Reciprocity Conference.  
OTTAWA, Jan. 5.—The Canadian ministerial party which left this afternoon for Washington included Hon. W. S. Fielding, Mrs. Fielding and Miss Edith Fielding; Sir Allen and Lady Aylesworth; Hon. William Peterson and Hon. L. P. Brodeur. Accompanying the ministers in the capacity of expert advisers were Dr. Wakeham, officer commanding the gulf division of the first frontier service; H. V. Porke, supervisor of customs, and William Rossell of the finance department. Hon. George E. Graham, minister of railways, will meet the party in New York, where he intends to spend a couple of days.

## GRAFT REPORT

Judge Snider Hopes to Have it Ready by January 15.  
WOODSTOCK, Jan. 5.—Before Judge Snider left Woodstock to-day he stated to D. O. Cameron, barrister, who worked up the case of the graft investigation, that he would likely have his report practically completed by the time he returns to Woodstock. The report, which is being examined by the attorney-general's hands in about 10 days, if the findings do not result in action, will be a long and detailed one. It is likely that the graft investigation will be completed in about 10 days.

## FIGHT IS ON FOR MONIES DEPOSITED BY A. & G. W.

Royal and Dominion Banks Will Contest Payment—Union Will Pay Money Into Court.  
EDMONTON, Alb., Jan. 5.—The fight for the \$1,000,000 of Alberta and Great Waterways monies, deposited in the Royal, Union and Dominion Banks, is now on. This morning the Alberta Government brought by the Alberta Government against the above banks to compel payment of these monies was entered by Dawson Hyndman and Hyndman on behalf of the Royal Bank, and by E. Walbridge, acting for the Dominion Bank.

## HUNT CLUB KENNELS BURNED

Defective Furnace, Pipe Caused Damage of \$3000.  
The handsome kennels of the Toronto Hunt Club were destroyed by fire which broke out from a defective furnace pipe in that building yesterday afternoon. This is the second fire at the club's within a short time, the kennels itself being gutted some weeks ago. Fortunately the 100 pairs of valuable hounds were saved unharmed. The damage is placed at \$3,000 by Captain Crowl, steward, who says that it is believed that the fire was caused by a defect in the pipe leading from the furnace in the kennels to a heater used for cooking the food for the animals.

## AN ALIEN GANG

London Police Find it Difficult to Trace Anarchists.  
LONDON, Jan. 5.—According to the latest report, the burglar killed in the Houndsditch affray and the two men killed in the Steyne affray were members of a gang of at least 20 aliens of the same type and character, some of them being women.

## BIG JEWELRY ROBBERY

NEW YORK, Jan. 5.—The entire detective force, and a famous private agency are trailing a clever and daring gang of western jewelry thieves who have stolen \$100,000 worth of jewelry and gems in this city within the past fortnight.

## A SIDE SPLITTING COMEDY

In the side-splitting comedy "Seven Days" which will be at the Princess Theatre next week, a girl consents to pass herself off at dinner as the host's wife, so his rich aunt won't suspect he is divorced. Then they are quarreling and she has to keep up the pretense for a week.

## Eleven Persons Injured

QUINCY, Mass., Jan. 5.—Eleven persons were injured in a collision here to-day between a car on the Old Colony Street Railway and a large carry-all of the Fore River Shipbuilding Company.

## WATER SPURTED 70 FEET MAKING POLAR SCENERY

For Over Three Hours Geyser Effects Lasted—Ice Piled Up Five Feet Thick.  
For three hours last night a treacherous stream of water was gushing 70 feet into the air at West Queen-street and O'Hara-avenue. This was from a fire hydrant, the spindle of which was broken by the firemen attending a fire in a carpenter shop there. The water gushed steadily into the air, drenching trees, wires and the roofs of nearby buildings and freezing in an increasing mound of ice in the roadway, until it was finally turned off. The ice had reached a thickness of five feet.

## EAST TILBURY FARMERS CHARGED WITH CRUELTY

Barnardo Boy's Feet May Have to Be Amputated—His Back Covered With Weils.  
CHATHAM, Jan. 5.—With his feet so badly frozen that it is likely that both may have to be amputated, his back covered with blue and red weils, a Barnardo boy of tender years, who had been put in the care of a farmer at Tilbury East, was brought to this city to-day by Inspector Kinder. Another Barnardo boy, who also worked for another farmer in Tilbury, and who showed signs of recent abuse, was brought in with him. Informations for cruelty to children will be laid against both farmers. From present appearances this seems to be one of the most revolting cases of cruelty to juveniles on record locally.

## "COUNT" GREGORY IN TOILS

is Serving Five Years in English Prison for Forgery.  
Word has been received in the city of the arrest of Count "Bertie" Gregory, formerly notorious in this city, at Brighton, England, upon a charge of forgery, upon which he was later convicted and is now serving a five-year term in an English prison. The crime was like to those which he committed while in Toronto, namely the passing of worthless cheques.

## BON'T WANT RECIPROCI- TY

Woodstock Board of Trade Pass Resolution of Protest.  
WOODSTOCK, Jan. 5.—Reciprocity with the United States and the tariff generally were the topics of the discussion at a well-attended meeting of the board of trade to-night. Addresses were delivered by prominent business men, after which the following resolution was unanimously passed:

## SIR CHARLES TUPPER BACK

Returned From England on Empress of Britain Yesterday.  
HALIFAX, Jan. 5.—Among the passengers who returned by the steamer Empress of Britain to-day, were Sir Chas. H. Tupper and Lady Tupper, on their way back to Vancouver. R. Hamilton Esq., M.P.; Donald Macmaster, M.P.; Prof. Swab Vincent, Winnipeg; Capt. A. R. Jones and Mrs. Jones of Vancouver. They left by the mail special for Montreal an hour after the arrival of the steamer.

## DR. NOBLE HOLDS SEAT

## CHARGED WITH MURDER

Twenty-Two Indictments in Connection With Los Angeles Explosion.  
LOS ANGELES, Cal., Jan. 5.—The grand jury in the Los Angeles Times explosion case returned 22 indictments late to-day. All of the indictments charge murder in connection with that crime. It is not likely that the names of the indicted will be made public until after the arrests are made. It is believed that a large number of San Franciscans have been indicted.

## ANARCHISTS HAVE A BRANCH IN MONTREAL

Affiliated With the "International"—Membership Over 200—Mostly Russians.  
MONTREAL, Jan. 5.—(Special.)—Montreal is a very peaceful community, but this does not prevent a full-fledged branch of the "International," which is the head centre of the Anarchists throughout the world, from being located in the central part of the city, not very far from St. Lawrence-Main-street. The membership is over 200, and is composed mostly of Russians, who have not yet been in Canada long enough to understand the effect of the British constitutional safety valve, and who have been drawn into the organization by active agents of the sect in this city.

**WILL ASK FOR GRANT**  
Hamilton Technical School Want \$2000 for Art Department.

HAMILTON, Jan. 5.—(Special.)—The internal management committee of the board of education met this evening, when it was decided to appoint a committee to wait on the deputy minister of education, to ask for a grant of \$2,000 for the art department of the technical school. This sum was formerly given to the defunct art school here. Dr. Thompson announced he had secured J. J. Edwards as teacher in modern languages for the collegiate institute, at a salary of \$1,800 a year. The committee agreed to recommend that Miss Matthews' salary be increased from \$400 to \$500. Miss Matthews has charge of the weak-minded children in Barton-street school, and on account of a refusal to increase her salary, did not turn up after the holidays.

The death took place this evening of James Carter, aged 65, at his late residence, 288 West Hunter-street. Deceased had been a resident of this city for 35 years.

Dedicatory Service on Sunday—Cost Over \$25,000.

The new Italian chapel and mission house, at the corner of Elm and Teray-lay-streets will be opened on Sunday next.

At 11 p.m. there will be a sermon by Rev. Frederick Wright, D.D., superintendent Methodist Italian Missions, U.S., followed by dedication ceremony, conducted by Rev. W. H. Hincks, D.D., president of Toronto Conference; at 3 p.m. an open session of Sabbath School; addresses by Rev. Dr. Wright and others, and at 7:30 p.m. a sermon by Rev. N. Cacciapuoti, and address by Rev. Dr. Wright.

On Monday night there will be an inspection of main building and chapel and social gathering, with addresses by Rev. James Allen, Rev. C. E. Manning, Rev. A. C. Farrell, N. W. Rowell, K.C., and others. Rev. Dr. Carrman will be chairman.

The premises were recently purchased by the executors of the estate of the late Hart A. Massey, from the Young Woman's Christian Temperance Union, and donated for the purposes of the Mission. The main building has been altered and equipped for institutional work.

The interior of the chapel is beautiful and artistic, and will seat about 300 people.

The Methodist Social Union has provided for the expense of the altar and equipment of the building, and the whole property has cost over \$25,000.

### L. S. LEVEE IS CHAIRMAN

**NO OPPONENT TURNED UP**

**Dr. Noble, However, Declined to Vote—How Committees Will Be Headed**

Smiling and triumphant the members of the new board of education gathered together at the inaugural meeting last night, and elected their officers and committees for the coming year, after which they became acquainted with each other.

Trustee Levee barely missed a unanimous vote for the chairmanship, he voting for himself in order to make this possible, but Dr. Noble, the new member from ward two, followed him by refusing to vote. Mr. Levee, on taking the chair, made a few appropriate remarks, promising to give his inaugural speech at the next meeting.

The following committees were appointed to act for the coming year: Management committee, Dr. Conboy, chairman; W. W. Hiltz, W. H. Shaw, A. C. Lewis, R. R. D. Fairburn, Alex. Mackay, F. H. Hartney, Dineen; property committee, W. W. Hodgson, chairman; J. B. Jackson, Dr. John Noble, C. A. B. Brown, W. O. McTaggart, R. R. D. Fairburn, J. A. Ellis and Boland; finance committee, C. A. B. Brown, chairman; Dr. Noble, chairman of committee of the whole; Dr. Conboy, chairman of management, W. W. Hodgson, chairman of property, and L. S. Levee, chairman of board.

### COLONEL A DESERTER?

**R. S. NEVILLE SAYS SO**

**Friction Between Rival Power Organizations Growing, So It Seems**

The breach between the patriots who wish to celebrate the centenary of peace in Canada is widening. R. S. Neville, secretary of the Centenary Celebration Association, is out with a statement in which he charges that Lieut.-Col. Merritt is guilty of defection from that organization which he helped to found, and of starting another body called "The Centenary of the War of 1812 Celebration Committee." He also says that Col. Merritt is trying to induce the Ontario Government not to give assistance to the original association.

Mr. Neville goes on: "To accomplish his purpose he wishes the public to understand that the Centenary Celebration Association is a peace association with only the one object—the celebration of the century of peace. He has no objection to a peace celebration, but he thinks a monument should be erected to the heroes of 1812-14, and he leads people to think that the Centenary Celebration Association does not provide for this."

#### Facts Suppressed.

Lt.-Col. Merritt's whole argument is based on a suppression of facts which he knows to be totally misleading. The Centenary Celebration Association has a constitution which contains a list of its "objects," and Lt.-Col. Merritt was one of the committee that drafted it, and, as chairman, he submitted it to a full meeting of the council of the association and helped to procure its adoption. Every clause of the constitution was approved by Lt.-Col. Merritt. Everything that he wanted was included, and he is not to be blamed for the adoption of the constitution. Its provisions in this respect are more ample than the narrower project his present committee proposes.

#### A FAMOUS PIANO.

Heintzman & Co., Limited, Piano Manufacturers, Now Located in Their New Warerooms.

The old premises at 115-117 King-street west, where the old firm of Heintzman & Co. did business for forty years, has now been closed up. This firm are in their new warerooms, 198-195-197 Yonge-street, and those who wish to know say that the piano warehouse will not be found on the continent. Readers of this paper are welcome to visit the store.

#### GUELPH'S RATES REASONABLE

W. K. McNaught Says Power Will Be Cheaper Later, However.

"The power rates which, according to the papers, have been decided upon by Guelph, are reasonable, but will be lower later when more power is consumed." So said W. K. McNaught, M.L.A., last night, when asked his opinion. He is an outgoing member of the city council, and has been adopted as a base rate \$1 per horse-power per month. The charge is made up on the maximum amount of power used at any ten minutes during the month. This will mean about \$3 per horse-power per year for the small users and about \$22 per horse-power per year for the large users, it is estimated.

#### FOUND AVIATOR'S CAP.

BRUSSELS, Belgium, Jan. 5.—The Aero Club of Belgium received a despatch from the president of the Ostend Aero Club, stating that an aviator's cap and glasses, probably those worn by Cecil Grieve, supposed to have been lost in the North Sea, had been picked up at sea off Marakerke, on the Belgian coast.

#### Section Foreman Killed.

FORT ARTHUR, Jan. 5.—Matt Pyntria, section foreman at Windigo, on the C.N.R., 120 miles from here, was killed when the handcar on which he was riding was struck by a freight train. He was 45 years of age and leaves a wife and two children.

### WHAT CIVIC OWNERSHIP HAS DONE FOR CALGARY

Ex-Mayor Jamieson Speaks Glowingly of Success of Municipal Railway

R. R. Jamieson, formerly general superintendent of the C. P. R. at Calgary, and until recently mayor of that city, was in Toronto yesterday on his way to Detroit and other American cities. Mr. Jamieson is very enthusiastic on the subject of public ownership. During his term of office as mayor of Calgary, a municipal owned street railway system was inaugurated and has since proved a good thing for that bustling Alberta metropolis. The installation of 16 1/2 miles of tracks, with 13 new cars, cost the city \$300,000. The first two cars were put in operation on July 1, 1906, and by January, 1910, they were operating 12 cars. These 12 cars, along with three additional ones which were put on in August, earned for the city last year \$210,000 gross.

### Profits Cut Taxes.

"After paying cost of maintenance, operating charges and expenses and providing five per cent. of the gross receipts for the depreciation account, and setting aside sinking funds necessary to take care of the debentures, we had left \$80,000 net, or 12 per cent. on the money invested during the year," said Mr. Jamieson. This meant a tax reduction of two mills, based on last year's assessment, he said. "The pay-as-you-enter system is very popular with the citizens of Calgary, and he attributes this to the fact that they have used only properly equipped P. A. Y. E. cars since commencing operation. The Calgary cars are electric-heated and have a rear platform eight feet by seven feet six inches.

### TROULE NOT ANTICIPATED

Many of the Port Morien Miners Have Returned to Work.

HALIFAX, Jan. 5.—The situation at the Port Morien mine of the Atlantic Collieries, where the men ceased work because of a cut in wages, has considerably improved during the past few days, and little trouble is now anticipated. A number of the men have returned to work and accepted the previous year," was his reply, when asked if Calgary suffered as a result of the drought in Alberta last summer.

### AFTER FIFTY YEARS.

HALIFAX, Jan. 5.—Wreckers are bringing up iron that are saving from the steamer Hungarian, of the Allan Line, lost in the year 1860, on the coast of Nova Scotia. A cargo of this iron was brought to Halifax today. Years ago a large quantity of iron was salvaged from the Hungarian. It did not pay in the long run, and work ceased. The price of scrap iron now makes the operation profitable.

SHOOK HANDS WITH 3000

Politicians Large and Small at Reception in King Edward Banquet Hall

R. L. Borden has an aching arm this morning. He shook hands w.m.y., yes, vigorously, with three thousand people last night in the banquet room of the King Edward Hotel.

Great and Near Great.

At various times throughout the unique reception, Mr. Borden was reinforced by members of the local legislature, or members of the municipal council, but they came in relays. For a while the arrivals would be welcomed by Mr. Borden, Mr. A. C. Macdonell, Edmund Bristol, George E. Foster, and, perhaps, Reginald Geary, mayor of Toronto. Then, again, it would be Mr. Borden, Premier Whitney, Hon. W. J. Hanna, Controller Hocken and others. But every individual had the pleasure of a hand shake with the honored Conservative leader, and his genial re-

### Gave Banquet to Employes.

Charles and Alfred Lovays, proprietors of Lovays' Cafe, tendered a complimentary banquet to their employes and the Victoria Hall staff on Tuesday evening last, when about 200 sat down. After the supper, dancing was indulged in, after which everybody went away to bed. The Lovays Bros. are the best of good fellows.

## DEVELOP, NOT EXPLOIT RESOURCES SAYS BORDEN

He Sees Great Work for Conservative Commission—How to Make Politics Clean.

Hon. R. L. Borden devoted the greater part of his address at the Canadian Club yesterday to the question of conservation of the national resources. He called attention to the awakening in this respect in the United States, and the results of the conference held there. He had himself been utterly astounded by the lack of information regarding Canadian forestry, and had to rely on a United States writer. He hoped the Canadian Conservation Commission would do splendid work. The improvidence of methods attending the exploitation of minerals in the United States was a subject for comment. Every ton of anthracite coal mined involved a loss of a ton and a half, and a loss of a ton of bituminous to each ton of that quality. He was glad that in Nova Scotia nothing like this occurred.

**Canada's Great Fisheries.**

He had believed for many years that there were dozens of fish on the coasts of Nova Scotia which might be utilized for wholesome food. It was merely a matter of transportation to secure a splendid supply of fish from Nova Scotia to Toronto. The award given, which had formerly been thrown away, now brought 15 to 20 cents a pound in the New York market, and as they weighed from 350 to 400 pounds each, to catch one provided a good day's return of \$12 or 15 cents a pound.

**Depletion of Forests.**

He used to think that Canada had five or six times the forest wealth of the United States, but after three weeks' study, had come to the conclusion that Canada's forests were not greater than those of the United States. Destruction by fire from 1850 till 1895 in the States amounted to \$8,000,000,000 of merchantable timber, and the loss in immature growth was as much more. This equaled \$100,000,000 a year, or 30 times that of the Kingdom of Prussia. Another 20 per cent. of the cut was lost by unscientific methods.

"We have unknown wealth in our waterways and water powers," he said. "The fertility of the three great western provinces depends on the preservation of the forests on the eastern slopes of the Rocky Mountains."

The subterranean waters, according to calculation made by scientists, constitute a water table of 98 feet. In the United States there is 17 feet of water on the first 100 feet of depth.

## Government Support for Chartered Companies.

In view of the fire insurance reported to be done with unlicensed foreign fire insurance associations, the Dominion Government has issued a circular calling attention to the companies holding Dominion charters.

A similar circular is likely to be sent out by the Ontario Government.

## NEVER MAY MEAN PERJURY.

Michael Yavitch was sent to a jury from police court yesterday morning upon a charge of perjury. It is alleged by the defence that, when on a previous trial for conducting a gaming house, he swore that he "never" collected a rake-off, he meant "never" on the night then in question.

## STOLE BANK BOOK

Fifteen Year Old Lad Will Be Tried for Forgery.

KINGSTON, Jan. 5.—(Special).—A 15-year-old boy boldly walked into Merchants' Bank and, producing a bank cheque, asked the clerk to make out a cheque for \$80 in his favor. He signed the cheque and the money was about to be given him, when one of the clerks, who was watching and who knew the owner of the bank book, intervened. The lad was then questioned, but took to his heels. He was arrested by Constable A. J. Smith, who found that he had stolen the bank book from a Queen's student named Pierce, who boards with the lad's mother. He signed Pierce's name. He will be arraigned in the juvenile court on a charge of forgery.

## HONORED CANON TUCKER

Presentation Made of \$1000 on Behalf of Missionary Society.

Another farewell luncheon to Rev. Canon Tucker, former secretary of the Anglican hymnists' mission movement, who is leaving to take charge of St. Paul's Cathedral, London, Ontario, took place yesterday afternoon in McCone's restaurant, with His Lordship's Bishop Sweeney in the chair. Nearly 40 associates and friends attended.

Several representatives of the missionary movement in other churches were present: John A. Patterson, Rev. Dr. McKay, N. W. Rowell, Rev. T. E. E. Shore, H. C. Priest, among them. A small company of ladies represented the women's auxiliary of the church. The Bishop of Huron was detained owing to his attendance on the funeral of the late Canon Hingee.

Bishop Sweeney was the first speaker, and he spoke of Canon Tucker in eulogistic terms, following his career up to the laddie from his curatehip in St. George's Church, Montreal, and his later work in the parish of St. John's, Vancouver, to his great career as secretary and joint-builder of the Anglican missions.

"Canon Tucker has practically created the society, and it is true his work has been done," said his lordship.

Archdeacon Cody read the testimonial address, and Hon. S. H. Blake presented Canon Tucker, a silver inkstand, on which was inscribed in Latin the words "In the Body of Christ."

The treasurer of the society also made a presentation in the shape of a cheque for \$1000.

On behalf of the affiliated movements, Dr. McKay of the Presbyterian society, and N. W. Rowell of the laymen's movement, also addressed the gathering, after which Canon Tucker replied at length. He expressed his appreciation of the gifts and the generous feeling shown, and assured his associates that his constant good wishes and all available assistance in their work.

## A SPLENDID RECORD

Products of Mine, Forest and Sea in Nova Scotia total \$116,000,000.

MONTREAL, Jan. 5.—(Special).—Hon. B. F. Pearson, M.L.A., a member without portfolio in the Nova Scotia Government, states that the product of the mine, forest and the field and the sea in his province reached last year the splendid sum of \$116,000,000, beating the best possible record ever before attained by that part of the Dominion. He says that before the Whitney coal merger in Nova Scotia, that province exported 750,000 tons of coal, to-day the output is five millions, and the royalty, which was nil or nearly so, now totals \$600,000, out of a total revenue of \$1,700,000.

## THE NEW WAREHOUSES OF HEINTMAN & CO.

The Talk of Everyone—A "Perfect Palace" is What They Say.

Anyone and everyone who has visited the new warehouses of the real estate firm of Heintzman & Co., 193-197 Yonge-street express themselves in superlative terms in describing the beauty of the place. The large staircase, every other floor, and the view from the public eye, and so with many other appointments of the store. The public are welcome to drop in and see the place at any time.

## ST. JOHN, N. B., Jan. 5.—Word was received here to-night that the body of Charles Collins of Erin-street, this city, was found in a brook near Hampton about 20 miles from here, to-night.

Collins, who was about 25 years of age, left his home here early this morning and his brothers were much startled when they heard of his tragic end. The Hampton authorities think it is a case of suicide.

## Bitten by Mad Dog.

NEW YORK, Jan. 5.—Just as school was coming out in New Bergen, N.J., a dog, supposed to have been suffering from rabies, appeared in the yard, where it bit six little girls and two teachers. Earlier in the day it had attacked several others. A policeman finally captured the animal and shot it.

## Wishart Will Appeal.

Abraham Wishart, arraigned in police court under the Fugitive Offenders' Act, was remanded yesterday for 15 days, pending delivery to the Irish authorities by whom he is wanted. In the meantime he will appeal to the high court.

## Voting By Mail.

W. D. McPherson, K.C., M.L.A., has been asked to place before the Ontario Government a proposal that commercial travellers be allowed to vote by mail as in Tasmania.

## PERFERRED FIRE TO FROST

Families in Burning Brant St. House Quite Comfortable, Thank You.

The firemen had difficulty in surrounding the people in two roughcast houses at 51 and 53 Brant-street to vacate the premises and give them a chance to fight the fire which broke out there at 11 o'clock yesterday morning.

Owing to the intense cold and their desire to save their effects the families were loth to leave the houses. The Macklem in an upper floor of No. 51. Twenty people lived in the two houses. A woman died in No. 51 three days ago.

## The Public Be D—d.

NEW YORK, Jan. 5.—President Shonts of the Interborough has refused flatly to obey the orders of the Public Service Commission, directing his company to operate sufficient cars and trains during non-rush hours to provide passengers with seats.

## These Electors Not Keen.

City Clerk Littlejohn is more than ever convinced that it is useless to keep up a supplementary voters' list for persons whose assessment is under \$400 and who can vote only for board of education candidates.

In three polling places, where there are 227 names on the list, enquiry shows that only eight persons voted.

Basketball. A meeting for the purpose of organizing an inter-association basketball league was held Wednesday at All Saints' Athletic Club.

The following teams were represented: Centennial Methodist, Evangelical Settlement, Parliament-street Baptist, St. Paul's Methodist, Dovercourt Presbyterian, St. George's Anglican, St. James Anglican, All Saints Anglican, Chalmers Presbyterian, Simpson-avenue Methodist, St. John's Presbyterian.

The league will be divided into different sections. The next meeting will be held on Monday, 8, at 8 o'clock at All Saints' Athletic Club, corner Sherbourne and Wilton-avenue. All the above teams, and any other organizations desiring to affiliate with the league are asked to send representatives to this meeting or communicate with Mr. Shaw, care All Saints' Athletic Club.

Baseball Rulings. CINCINNATI, O., Jan. 5.—The National Baseball Commission today formally declared Player Fred W. Ulrich, formerly of the Brooklyn National League team, to be free moral agent. The player contended that he was released by the Brooklyn club to the New Bedford Club last spring, but did not sign a contract until the close of the season. He requested that either he be paid his salary for the full season, according to his Brooklyn contract, or that he be declared a free agent.

It seems that altho Brooklyn released the player to the New Bedford Club with the understanding that an option was to be obtained on him, the New Bedford Club in order to secure it, entered into an agreement with the New Bedford Club for an outright purchase of Player Ulrich. The Brooklyn team secured waivers on the player and released him to the Atlanta Club.

The sale by the New Bedford Club to the Brooklyn Club is set aside. The Brooklyn Club is required to reimburse the Atlanta Club for the money they received from that club for the player, and the New Bedford Club will be required to reimburse the Brooklyn Club.

Eastern League Must Be Satisfied. CINCINNATI, O., Jan. 5.—According to statements made here by President Barney Dreyfus, the joint schedule committee of the National and American leagues has arranged the schedules for both leagues so that each club will save between \$1000 and \$2000 in railroad fares next year.

He says that each of the clubs has been traveling many extra thousands of miles every year, and that the joint schedule committee has cut down the number of miles to the lowest ebb. He would give no other instance of this, and said that his hearers would have to await the delivery of the new schedule.

"We will grant no higher classification to either the American Association or the Eastern League," said President Dreyfus.

GOOD PRICES AT MAHERS

Quite a Few Buyers Present From Outside—About 65 Sold.

There was a good attendance at the horse sale at Maher's Exchange yesterday. Quite a few buyers from outside the city were present, as well as the usual number of city buyers. The sale was good, about 65 horses being sold, with good prices throughout.

Mr. M. G. Hartley bought a few exceptionally good horses, the best being a bay, a registered Clydesdale, four years old. This one was one of the best seen in the sale ring for a long time; had good action and legs. For this one he paid \$225.00, a real bargain. He also bought eight others, ranging from \$72.50 to \$125.00.

Mr. Shevman of Alberta bought four good horses to take west. He paid \$612.50 for them. Montrose Paper bought a beautiful roan gelding. He had good feet and legs and action like a hackney; he will make an ideal delivery horse. He paid \$230 for him. C. Calpan bought a good bay gelding for \$142.50, and a brown mare for \$140. H. C. Tomlin got a bay gelding for \$87.50. Bull Brothers of Weston, a bay mare for \$141; brown mare, \$130. Robert Holden got what was considered the bargain of the sale in a beautiful bay gelding. This fellow had the best of feet and legs, good flat-bones and well built, with action better than some hackneys; for this one he paid \$225.00, which was considered a snap. Mr. Pittady got a team of bay geldings. They were well matched and pulled like one horse; he paid \$45 for them. Mr. Rhodes of Creemore, Ont., got a grey team, which were well worth the money, \$232.50; also a

FRIDAY MORNING, JAN. 6, 1911.

CITY EXPANSION.

Advantage should certainly be taken of the clearly expressed desire of North Toronto to become an integral part of the city. It is one of those steps in the process of Toronto's expansion which must be taken and the sooner the better for both. Their interests are identical, no space intervenes since they are already continuous and the question of improved transportation can best be handled by a common authority. The experience of cities everywhere demonstrates the unwise of refusing to look ahead and anticipate future conditions. Many have suffered from adopting a narrow view and regarding only the position and circumstances of the movement. Much has been lost in this way that was never regained, resulted, indeed, in creating conditions that were later partially remedied at a cost far exceeding that entailed by prompt action. United States communities are beginning to realize the benefits secured by the unification of government where there is identity of interest. Los Angeles, California, has taken in numerous outlying towns, has reached out eighteen miles to obtain a waterfront and is now endeavoring to absorb Pasadena. Its ambition is to become the leading city of the state and its strenuous efforts in that direction have aroused San Francisco, which sees its supremacy threatened. Hence a movement to unite San Francisco, Oakland, Berkeley and Alameda. They perceive that with interests substantially identical their future would be more assured were they welded into one great metropolitan city. Toronto, if it maintains its present rate of expansion, must have plenty of room and must have a definite policy and plan for its proper development. North Toronto is willing to come in and should be welcomed.

SECOND CHAMBERS.

When it is contended that a second chamber is necessary in order to prevent or delay legislation for which no popular mandate has been given, the latent but necessary assumption is that it must not be partisan and must be without class affiliations. A second chamber that accepts without objection all measures that emanate from sources with which it is in sympathy and rejects others with different origin or that conflict with the interests it represents is far from fulfilling its theoretical duty. The whole trouble is to get a revising chamber thoroughly competent and impartial. Defects inhere in all human devices, and individuals either free from prejudice or sufficiently self-detached to make the requisite personal allowance are few and far between. All the trouble about second chambers to-day arises from the fact that, whatever form they assume, they resolve their proper function into an adjunct of party or a defence of privilege. Both dispositions are in straight conflict with true democratic government, which, as representing the majority of the people, ought to be at liberty to make its own pronouncement effective. In these days it looks as if only those second chambers that voluntarily efface themselves have any chance of permanence. But is this not the single chamber government which the defenders of present day systems affect to decry? Second chambers must either revise their records or find short shrift.

GERMAN POTASH AND TARIFF WAR.

Germany and the United States have a dispute on hand which may possibly lead to a tariff war. It originated over contracts for the supply of potash entered into between American fertilizer companies and German potash mine owners for a term of years at highly favorable rates. Shortly after the conclusion of these contracts, the German Government procured the passing of a law imposing a heavy tax on the output of the mines in excess of a specified quantity based on the internal needs of the country. The result was to increase the cost of potash exported from \$30.40 to \$14 a ton, and the fertilizer companies contended that the real object of the enactment was the invalidation of their contracts. Private negotiation has failed to induce the German authorities to modify their position, and the companies have now appealed to the United States government to take action in defence of their contracts. In answer to the contention of the fertilizer companies, the German Government maintains that the legislation complained of was primarily intended to conserve the supply of potash, of which the country is the leading source, and not for the purpose of defeating the contracts. The companies, however, represent that it virtually amounts to a discrimination against United States interests, enough to justify the imposition of the retaliatory tariff. All the makings of a pretty tariff quarrel are in evidence and the outcome is not without importance for Canada, should the Dominion Government ever attempt to compel the United States copper companies to manufacture where they get their ore. Looking to the general course of German policy, it is scarcely possible that the government will alter its attitude.

TOBOGGANING.

Tobogganing is an excellent and attractive amusement and on this account very popular. For that reason it is all the more necessary that it should be under proper regulation and the element of danger eliminated, as far as it is humanly possible. The accident at High Park on Wednesday night was simply due to one party starting down the slide before it was clear, and therefore was easily preventable. Where there are so many children and young people, and older persons who ought to know better, but are ready to take chances, efficient supervision should be maintained, and this the city council should see is provided.

MADAME CURIE AND THE INSTITUTE.

Among the societies established for the advancement and cultivation of learning, letters, art and science, the most illustrious is the Institute of France, founded at Paris in 1795 "for the encouragement of science and the methods of research, by the publication of discoveries, by correspondence with other learned societies and by the preparation of scientific works." It comprises five distinct academies, the most famous being the French Academy, with its forty members. The other four are: The Academy of Inscriptions and Belles Lettres, the Academy of Sciences, the Academy of Fine Arts and the Academy of Moral and Political Science. Each is autonomous, but the Institute has a common fund and library for all.

By a vote of eighty-eight to fifty-five, the five academies meeting in joint session, have held that the election of women was contrary to immutable tradition, which it would be wisest to respect. The point arose thru the candidature of Madame Curie, who with her late husband, was joint discoverer of radium, and later succeeded him in his directorship of science. Since his death in 1906, Madame Curie has still further distinguished herself in physical research, and apart from her sex, is eminently worthy of election as a member of the Institute. "Immutability" is rather a strong term for a society little more than a century old, and it will be generally felt that the academies would have done themselves more credit by ignoring tradition and acknowledging that genius and talent worthily exercised suffice in whomsoever found.

MONEY TALK.

Rev. W. A. Cameron is in a difficult position. If he goes anywhere for a bigger salary in the next twenty years he will be accused of holding out for more. Looks as the consistency would hold him to Bloor-street for the rest of his life. And Mr. Rockefeller is in a still more difficult position for a long-headed millionaire. He did not make his money talk as loud as he thought it could. Money has to holler to be heard in good company.

METROPOLITAN BANK HAS GOOD YEAR.

The annual statement of the Metropolitan Bank, which appears to-day, shows continued steady progress. Net profits for the year are shown at \$116,387.13, being at the rate of 14.68 per cent. on the capital. The usual dividends, amounting to 3 per cent. for the year, were paid and the surplus, with the balance of \$307,809, of accumulated profits, formerly carried forward, has justified the addition of \$250,000 to reserve fund, making it equal to 125 per cent. of the capital, while the substantial sum of \$104,696.23 still remains at the credit of profit and loss account. The total assets now amount to \$10,938,115, of which an amount equal to 54 per cent. of the liabilities to the public is immediately available. An increase of 21 per cent. in deposits during the year is evidence that the stringency of the bank and the careful methods of its management, as emphasized by the present statement, are appreciated by the public.

DIDN'T REPORT ON KEELEY MINE

Editor World: In The World of Jan. 5, in an editorial entitled "The Farmers' Bank and the Keeley Mine," the following statement is made: "When the advance was made by the Trust Company, Frank C. Loring, mining engineer, was sent up to examine the Keeley mine, and made a report to his clients." I desire to state that I have never been employed by the Trust Company to report on the Keeley Mine, nor is any one authorized to quote me as making a statement as to its value. I have never made a report on the Keeley Mine, and have never been employed in any capacity in connection with the Keeley Mine.

Yours truly, Frank C. Loring.

RAILWAYS CO-OPERATING

C. N. R., G. T. R. and G. T. P. Make Working Arrangements. G.T.P., C.N.R. and G.T.P. officials met in conference yesterday at the Canadian Northern offices. Sir Wm. Mackenzie, Sir Donald Mann, of the Canadian Northern and Chas. M. Hays of the Grand Trunk, and E. J. Chamberlain of the Grand Trunk Pacific were among those in attendance. The conference is in relation to a working arrangement. At Winnipeg the G.T.P. has arranged to use the Canadian Northern station.

Another Year and Its Opportunities

Have gone. If you have not made the best use of them, do not repine. Forget all but the lesson it should teach, and see that 1911 tells a different tale. Is your financial position better than it was on 1st January, 1910? If you had saved and deposited for now ten dollars a month, there would now have been \$122.50 at your credit. You know you could have done this, probably much more. Ten dollars per month deposited for the past ten years would have given you now \$1,478.15 a nice sum, which might lay the foundation of a fortune. Begin to-day and make up for lost time.

Judges' Chambers.

Before Tetzelt, J. Crinkley v. Mooney—C. A. Moss for defendant. R. T. Harding (Stratford) for plaintiff. An appeal by defendant from the order of the local judge at Stratford of Dec. 23, 1910, directing an examination for discovery before delivery of particulars by plaintiff. Appeal dismissed. Costs in the cause to plaintiff.

Before Middleton, J. McConnell v. Timiskaming—A. M. Stewart for plaintiff. W. N. Tilley for defendant. Motion by plaintiff for an order striking out from statement of defence so much of paragraphs 15 to 21 as relates to the contract of October, 1902, and also by way of appeal from the order of the learned judge directing better production in so far as that order refers to documents relating to this contract. Judgment: The rights of the parties upon the agreement must be determined as to the contract itself unless there will be found in it some ambiguity or obscurity which brings the case within Forbes v. Watt. There is, however, an aspect of the case which prevents my striking out paragraph 15-20. They may be regarded as a statement of the fact that there was the earlier contract, that the agreement was entered into by the parties, and that an arrangement was made by which the material in question should be classified as ballast and that this arrangement was made to apply to the contract as well as the old, and the dispute as to the meaning of a contract vague, uncertain and obscure was in effect determined by a new and substantial agreement to be entered into by the parties. In this view the material clauses must stand. Clause 21, so far as it relates to work done under the contract, is not well pleaded and must be amended so as to conform to the second contract. The result is that the documents mentioned, save the first contract and the documents (if any) going to show an agreement based upon the contract mentioned in the letter of Nov. 14, 1904, and going to show an acceptance of that proposition by both parties as a solution of the controversy, are not relevant. The contract referred to in paragraph 19 is not relevant. The plaintiff may have a right to amend by admitting its truth in whole or in part as advised, and so still further narrow the issues. Discovery by defendant may also amend if these Order accordingly after the parties have elected as to amendment. Costs in the cause here and below.

Beautiful Homes

Every week TORONTO SATURDAY NIGHT through its "City and Country Homes" takes its readers on a week-end visit to some of the finest homes in Canada. House plans, the various phases of home life, and everything else that contributes to the rearing of the ideal home are interestingly and suggestively discussed. Detailed descriptions, entertainingly written, and illustrated with views—interior and exterior—are given of model Canadian homes. In connection with these are shown some of the most recent and best ideas of notable architects: some of the most artistic and tasteful examples of the decorators' art; some of the latest designs and arrangements of well-known furnishers. SATURDAY NIGHT through its "City and Country Homes" enables you to visit them without leaving your easy chair. As we go to the old masters for our knowledge of what is best in music and art and literature, so should we avail ourselves of the skill and inspiration of our modern masters in home building, whose efforts are reproduced weekly in SATURDAY NIGHT. Only in this way, so far as most of us are concerned, can we learn what is best to cultivate towards creating an attractive home and an attractive home atmosphere.

supposed difficulty on account of the son having been appointed an executor, the form of carrying out this intention was changed, and the farm was conveyed to the son and the covenant up- entered into by the son as part of the arrangement under which he obtained the farm; and the father being now dead the son repudiates his obligation under the covenant and refuses to pay the annuity to the appellant. There can be no shadow of doubt as to the respondent's moral obligation to pay the annuity, and it would be a injustice, we think, if the obligation were not as binding in law as it is in conscience. For the reasons we have given, the obligation is, in our opinion, as binding in law as it is in morals, and the result is that the appeal should be allowed with costs and that the judgment of Magee, J., should be reversed, and in lieu of it judgment should be entered directing payment of the arrears of the annuity with interest to be made by the respondent to the appellant, and also of the costs of the action and declaring that the respondent is bound to pay to the appellant the accruing annuity as they become due, and that the appellant is entitled to a charge upon the farm for the annuity, and directing a sale of the farm in default of payment. The respondent should pay the costs of action and of the appeal.

Escaped in Night Clothes. LAKE MEGANTIC, Que., Jan. 5.—Begin, the largest business block in this village, was completely destroyed by fire yesterday morning. The damage is estimated at \$30,000. As there is no fire brigade in the place, the building had to burn out, and two families who resided in the building had to make their escape in their night clothes, with the temperature ten below zero, they suffered severely. A Youthful Murderer. CHICAGO, Jan. 5.—Lester Carlson, 12 years old, to-day confessed that he shot and killed John Wisniewski, 8 years old, hid the body in the cellar of his home, and for six weeks professed complete ignorance of the whereabouts of his former playmate. He told the police to-day that he shot Wisniewski while the two were playing "Indian." Boys' School Burned. EAST NORTHFIELD, Me., Jan. 5.—Fire to-day destroyed Crossley Hall, one of the oldest dormitories of the Mount Hermon school for boys. The building was of brick, four stories in height, and accommodated 100 boys. Most of the students had not returned from the Christmas holidays. The loss is estimated at about \$100,000, with insurance of \$75,000.

The Famous Rayo Does Not Strain the Eyes Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain. The Rayo is designed to give the best light, and it does. It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price. Once a Rayo User, Always One. Dealers Everywhere. STATE OF FARMERS' BANK SOON TO BE MADE KNOWN

Shareholders Will Get Curator's Reports in Few Days—Loss in Halton

Within the next few days shareholders of the Farmers' Bank and, therefore, the outside world, will gain a much clearer idea of the bank's position.

Curator Clarkson stated yesterday that there was now in the hands of the printers a statement showing the exact position of the Farmers' Bank at the time of its suspension, and that this would be mailed to the shareholders and creditors within the next few days.

"There will be very much more in the bank's assets than is required to pay off the note holders," he said.

Actions Adjourned. An adjournment of one week has been agreed upon by counsel in the action brought by G. T. Clarkson, curator of the Farmers' Bank, against J. S. Saunders, a bill of sale whereby W. R. Traverser purported to sell the steam yacht Tenno and an automobile to A. M. Orpen, his bondsman.

"Appalling Conditions." The result in Halton from the failure of the Farmers' Bank is appalling," so said William Laddlaw, K.C., after a visit to Milton, at which he conferred with counsel retained by the shareholders of the Farmers' Bank.

It is estimated that the loss to Halton County shareholders alone will be \$300,000, even if a 25 per cent. payment were made, and this seems to be the best showing hoped for.

GALLAGHER WILL APPEAL

May Have Shot to Kill, But Not to Kill Commissioner.

NEW YORK, Jan. 5.—Counsel for James J. Gallagher will appeal from the verdict found against him, on which he was sentenced to 12 years in jail for shooting Commissioner of Street Cleaning Edward Edwards "with intent to kill." Commissioner Edwards pounced on Gallagher, just after the latter had shot Mayor Gaynor, and, in shielding the mayor from another shot, was wounded himself in the arm.

The point will be made that, although Gallagher may have shot "with intent to kill," he did not intend to kill Commissioner Edwards, as is specifically charged in the indictment.

Gallagher has never been indicted for his attempt on the life of Mayor Gaynor. The prosecutor's office decided to wait for a year and a day, to make sure that Mayor Gaynor was out of danger.

FIRST FIRE CHIEF DEAD.

RECIPROCIITY BETWEEN U.S. AND NEWFOUNDLAND

Island Colony Will Treat, Says Premier Bond, If Americans Are Reasonable.

BOSTON, Jan. 5.—Sir Edward Morris, Premier of Newfoundland, who was entertained at the chamber of commerce to-day, said that he anticipated no trouble with the Gloucester fishermen.

Regarding trade relations between Newfoundland and the U.S. the premier said: "If reciprocity between the U.S. and Newfoundland comes within the realm of reasonable diplomacy, my country will participate."

Newfoundland has three or four items to offer the United States, the value of which is not to be disregarded. The first is an enormous catch of codfish, the distribution of which, thru the inland states of this union would help materially, in my opinion, to solve the question of the high cost of living.

"At the present time the United States stands first in the list of countries from which Newfoundland obtains her imports."

Sir Edward smiled when asked if Newfoundland was likely to unite with little to offer them by way of inducement that would prove of any lasting advantage to the country or to the people, and as Newfoundland's prosperity increases there is a corresponding reduction in the possibilities of any such political departure.

"The question," he said, "has not been a plank in the platform of any party in the island for 40 years. Newfoundland the idea is not at all agreeable to the people, and fishermen think that confederation would be disastrous to them."

Canada would have little to offer them by way of inducement that would prove of any lasting advantage to the country or to the people, and as Newfoundland's prosperity increases there is a corresponding reduction in the possibilities of any such political departure.

Stuart's Dyspepsia Tablets are not a medicine, not a drug, not a cathartic. They do not cure anybody of anything but Dyspepsia and Indigestion and such ailments as arise from poorly digested food.

Why they digest the food the stomach recovers. The mucous membrane is coming out of its stupor, the gastric juice is coming to the surface, the muscles are regaining their power.

Every organ of the body takes on new life, the skin gains color, and the eyes are no longer tinged with yellow. You live.

Both Hands and Feet Were Frozen in a Starving Condition—His Squaw Also Found in a Starving Condition

PORT ARTHUR, Jan. 5.—Left alone by her husband with five small children and nothing to eat but rabbits, which she had caught as best she could, a squaw was found Dec. 27 wandering around in a starving condition, while the temperature hovered between 20 and 30 degrees below zero, by Contractor Mercier near his camp at Owl Creek, between Jack Fish and Long Lake.

Mercier took her and family to Jack Fish, where another family of Indians took care of them.

Monday night last the husband of the woman arrived at Mercier's camp with both feet and both hands badly frozen, and nearly exhausted from starvation.

He said he had had nothing to eat for seven days. His supply of matches had given out, and his clothing was quite insufficient to protect him from the cold. He was suffering intense pain, too, from a deep cut on his leg from an ax which he was carrying. He is not expected to recover. The snow is over three feet deep in that section.

He was a member of the Albany Club and a devout Roman Catholic. He was 57 years of age and leaves a widow and six children. The remains will be taken to London for burial.

Overcrowding at Winnipeg. WINNIPEG, Jan. 5.—The city street commissioner, who has been investigating the car service, condemns the overcrowding of cars and bunching of cars, which he says can be remedied. He further recommends three new lines, two of which would parallel Main-street and Portage-avenue, where concentration of all lines has reached the limit of convenience.

Stomach Sufferers Squander Millions

IN SEARCH OF RELIEF. Trial Package of Stuart's Dyspepsia Tablets Free.

The world is full of disordered stomachs and 90 per cent. of the money spent upon physicians and drugs goes in an attempt to cure the stomach.

People are made to believe that in order to gain health they must doctor their stomachs and use cathartics. So the doctor gets his fee for the stomach treatment, and the druggist for the physic, until the savings of a life time are exhausted and yet no cure.

Let's be reasonable. The sick stomach is in every case the result of over-eating, hurried mastication and improper choice of foods. The mucous lining, all the way down the food tract loses its sensitiveness, and when food is forced down the muscles fail to respond. They do not churn the food as they should. The glands no longer give out gastric juice to dissolve the food and render it capable of assimilation. The man has become a vegetable.

There is one sure way and only one to bring positive relief. Put into that stomach of yours the very elements that it lacks to get that food into liquid form. It takes pepsin, diastase, golden seal and other ferments to accomplish this. The healthy stomach contains these elements. The dyspeptic stomach lacks part or all of them.

Stuart's Dyspepsia Tablets is made up of just what the dyspeptic stomach lacks—nature's digestives.

Stuart's Dyspepsia Tablets are not a medicine, not a drug, not a cathartic. They do not cure anybody of anything but Dyspepsia and Indigestion and such ailments as arise from poorly digested food.

Why they digest the food the stomach recovers. The mucous membrane is coming out of its stupor, the gastric juice is coming to the surface, the muscles are regaining their power.

Every organ of the body takes on new life, the skin gains color, and the eyes are no longer tinged with yellow. You live.

Why doctor and why drug yourself? Stuart's Dyspepsia Tablets will take care of your food while Nature cures you. Try a box at your druggist, 50 cents.

Or, by mail, send your name and address to-day, E. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

INDIAN HAD NOT ING TO EAT FOR SEVEN DAYS

Both Hands and Feet Were Frozen in a Starving Condition—His Squaw Also Found in a Starving Condition

PORT ARTHUR, Jan. 5.—Left alone by her husband with five small children and nothing to eat but rabbits, which she had caught as best she could, a squaw was found Dec. 27 wandering around in a starving condition, while the temperature hovered between 20 and 30 degrees below zero, by Contractor Mercier near his camp at Owl Creek, between Jack Fish and Long Lake.

Mercier took her and family to Jack Fish, where another family of Indians took care of them.

Monday night last the husband of the woman arrived at Mercier's camp with both feet and both hands badly frozen, and nearly exhausted from starvation.

He said he had had nothing to eat for seven days. His supply of matches had given out, and his clothing was quite insufficient to protect him from the cold. He was suffering intense pain, too, from a deep cut on his leg from an ax which he was carrying. He is not expected to recover. The snow is over three feet deep in that section.

He was a member of the Albany Club and a devout Roman Catholic. He was 57 years of age and leaves a widow and six children. The remains will be taken to London for burial.

Offers Aid to Government. Because of the explosion of a barrel of wood alcohol and the resulting total destruction of the building in which the inland revenue department carried on analyses and the methylating of spirits at Ottawa, A. G. Peuchen, president of the Standard Mineral Company, with branches in Montreal, Hamilton, Toronto and Winnipeg, has wired the government that he would be glad to assist by methylating for them, so that the public will not suffer in the meantime.

UNITED STATES MAY STOP GOLD COINAGE

Proposal to Issue Gold Certificates Against Bullion and Foreign Gold Coin

WASHINGTON, Jan. 5.—Secretary Macveigh's plan to practically stop coinage of gold and permit the treasury to issue gold certificates against gold bullion and foreign gold coin, promises to become law at this session of congress.

Under the present law the mints spend \$300,000 or \$400,000 a year stamping gold bullion into coin, which is then stacked away in vaults, while gold certificates representing it circulate. At present, of the \$800,000,000 of gold coin in existence in the United States, \$32,000,000 is stored in the treasury vaults, and probably never will be called for in that form.

The present law also requires the millions of gold coin which come to this country in payment of trade balances to be recoined in our money before they can be put in circulation by the medium of certificates. In twenty years it has cost \$500,000 to recoin foreign gold in that way.

LESS INFANTILE PARALYSIS Report of Provincial Health Officer for December.

Dr. J. W. S. McCullough, secretary of the provincial board of health, in his report for December, says: "The returns of infantile paralysis give a greatly decreased number of cases of death, as compared with October last, when 46 cases and 8 deaths were reported, and in November, 21 cases and 5 deaths."

There were no deaths last month from smallpox. Deaths from contagious diseases in Ontario for the past month totalled 1843, and the deaths 157.

There were 108 cases of tuberculosis and 72 deaths, as compared with 133 cases and 120 deaths in December, 1909. Cases of contagious diseases in Ontario for the past month totalled 1843, and the deaths 157.

There were 14 cases of infantile paralysis and 2 deaths; 10 cases of cerebro-spinal meningitis and 8 deaths; 32 cases of smallpox as compared with 49 for December, 1909; 429 cases of scarlet fever, and 11 deaths, as compared with 115 cases and 21 deaths for December, 1909; 261 cases of diphtheria and 35 deaths, as compared with 209 cases and 83 deaths for December, 1909; 339 cases of measles and 7 deaths, as compared with 123 cases and one death for December, 1909; 25 cases whooping cough and 5 deaths, as compared with 505 cases and 11 deaths in December, 1909; 130 cases of typhoid and 30 deaths as compared with 109 cases and 35 deaths for December, 1909.

TO AID CHINESE SUFFERERS Lieutenant-Governor to Preside Over Citizens' Meeting at City Hall.

A meeting of citizens to consider what action should be taken to relieve the distress in China caused by floods, will be held in the council chamber of the city hall at 4 p.m. to-day.

The petition calling the meeting is signed by N. W. Powell, K.C., W. A. Charlton, W. D. Gwynne and S. J. Moore.

It is probable that the Dominion Government will be asked to give financial assistance.

Rev. G. M. Ross of Honan, who assisted in the distribution of relief in the famine of 1907, will be present at the public meeting, and the lieutenant-governor will preside.

The North China Herald received at the Presbyterian foreign mission office, gives more details as to the disastrous floods in China and the unspeakable distress amongst the people. The rivers rose in one night, and thousands were drowned. Villages have been swept away, causing an amount of distress that can more easily be imagined than expressed.

The Best. An Edmonton man called at the Grand Trunk office yesterday and stated that the Grand Trunk Pacific road-bed and equipment between Winnipeg and Edmonton was the best in the west, and, in fact, as good as any in America. He compared the roadbed to that of the Grand Trunk between Chicago and Montreal, which he conceded was the standard.

Why H. C. Hocken Ran. An editorial in The Orange Sentinel, of which Controller H. C. Hocken is editor, states that Mr. Hocken's announcement on Dec. 1 that he would retire from public life was sincerely made, but that he was prevailed upon by his friends to run, and he deemed it a public duty.

We Ought to Know How! We Do Know How! There's a Lot to Know

Here's another reason why Dalton's French Drip Coffee is so thoroughly delicious. The old way of roasting coffee was to put several hundred pounds of coffee in a steel cylinder or tube, and turn this cylinder over a hot fire. This method is still widely used but—it is too slow. It requires half an hour to roast the coffee—and in this time, much of the flavor of the coffee is driven off. The flavor of coffee depends on the presence of certain essential oils. The longer coffee is roasted, the more of its flavor is driven off by the heat. The Dalton process is entirely different. The green coffee is thrown through a naked flame of intense heat which roasts the coffee in one-third the time of the cylinder method. The Dalton process thus retains all the flavor, all the richness, all the deliciousness of the coffee berry. This is one reason why

Dalton's French Drip Coffee

is so economical—why one need use only two-thirds as much to make better coffee. It has the strength and it has the flavor. Dalton's French Drip Coffee is wholesome. It contains no chicory. It is free of the inner shell of the coffee berry which is ground up with the ordinary coffee, and which causes headaches and indigestion because it contains tannic acid and other bitter substances. Dalton's French Drip Coffee—strong and mild blends—are sold in 10c., 20c. and 40c. sealed tins—never in bulk.

**MARKET SHOWS GRADUAL IMPROVEMENT.**  
 The Toronto stock market shows further gradual improvement. To-day's buying was much more scattered than usual, and included a good deal of actual investment purchases. Considerable manipulation is going on at Montreal, but there is an almost entire absence of the local class of trading here. This makes for a stronger situation in the local market, although perhaps not so satisfactory to those looking for quick speculative turns. All the money needed is now available for carrying securities, and this, with the investment demand, will prove beneficial to the values of most stocks.

**Montreal Stocks**

MONTREAL, Jan. 5--Trading on the local stock market to-day was quiet and price movements were irregular, with an easterly tone in some cases. Shareings in yesterday's market, quieted down considerably to-day. Shareings were noted in 1910, but there was a sharp advance in Montreal Street, which opened at 22, or four points above the last previous close, and closed at 22 1/2. A sharp advance, selling up three points to 12 1/2, with 1910, and 1911, and a sharp advance in Montreal Street, which opened at 22, or four points above the last previous close, and closed at 22 1/2.

**WELLAND'S REMARKABLE GROWTH.**  
 Statistics which have just been compiled show that Welland has had a greater growth during 1910 than during any previous year in its history. When the new factories which have located in the town are completed in 1911, it is expected that the population will practically double again, as it had done each year during the past three years.

**Black Beaver Hats for Mourning Millinery**

There is no reason why Mourning Millinery should not be as "smart" as any other nowadays; in fact, the present desire for "silhouette" effects brings black millinery very strongly to the fore.

To-morrow we direct your attention to fifty large black beavers, trimmed with silk, velvets or draped flowers. The shapes alone are worth more than our Saturday price for the completely trimmed hat, which is \$4.85.

See our special display of Mourning Millinery at \$5 to \$7.

Also 37 of our better hats, trimmed in colors, hats that have been marked in our showcases at \$9.00 to \$16.50. Saturday \$5.00.

15 dozen Black Shapes, large, small, satin finish fur felt; sold in the regular way at \$1.75 to \$2.75; Saturday, 50c.

Baby Bonnets in fancy silk, white and black fur, Angora fur and white bearskin; regular \$1.75 to \$2.50; Saturday, 85c. (No mail or phone orders filled in this line.)

**Black Dress Goods for Early Spring**

The first important showing of the fabrics we will sell for one dollar in this department:

An advance shipment, which includes new Panamas, San Toys, Poplins, All-wool Voles in chiffon, medium and coarse weaves, West of England Suitings, Broadcloth Suitings, Cheviot Suitings in the new mill finish, Silk and Wool San Toys, Silk and Wool Henriettas, Silk and Wool Eoliennes, New Permo Suitings. You will be interested merely to see these beautiful fabrics, the finest collection we have ever shown at this price. Guaranteed fast, unfading dyes; 44 to 52 inches wide. Per yard, \$1.00.

**BLACK AND COLORED DRESS CHIFFONS.**

Chiffon veiling for fashionable wear is as pretty as it is stylish. We have just received a new shipment of these pure silk chiffons, that are clear, sheer and bright, exceptionally strong. Black is being worn over black satin and plain and fancy colored silks. The ivory and colored chiffons are worn over silks and satins, plain and fancy, in colorings that blend. Special, 46 inches wide, per yard, \$1.00 (Silk Dept., Second Floor.)

**Superior Overcoats and Ulsters**

There are Overcoats that look well, and last for winter after winter, and there are Overcoats which the wearer apparently borrowed; the kind you say things about every time you have to put it on. Under ordinary circumstances a really nice hand-tailored perfect fitting overcoat that suits you would cost from \$20.00 to \$26.00. To-morrow (Saturday) you can buy one of these \$26.00 coats for \$15.00.

There are heavy imported tweeds, single and double breasted ulsters, auto coats and dresy Chesterfields, Meltons and Kerseys, with a big range in colors. They are all hand-tailored from top to bottom, and there will be no trouble in getting a perfect fitting garment. Saturday \$15.00.

**A Shirt Sale---with a Difference**

When \$2.00 Neglige Shirts are selling for 79c, men do not, as a rule, expect to find designs and patterns of the first choice. But that is where to-morrow's Shirt Sale in our men's store will be most interesting. We will show you patterns that are very smart, and yet in perfectly good taste. Fifteen hundred of them to choose from, and for the most part worth double or more Saturday's price.

1,500 Men's Neglige Shirts, chambrays, zephyrs, French percales and solid prints; some are coat style; others plain and pleated fronts. Regular to \$2.00. Saturday to clear 79c.
