## HAD TO ABANDON EXPLORING PARTY

### Terra Nova Commander's Report Indicates, However, That Expedition Will Survive—Crater of Late Glacial Age Among Discoveries Which Include Various Mineral Deposits.

Copyrighted in the United Kingdom by the Central News Limited, London; registered in the Department of Agriculture, Copyright Branch, Dominion of Canada, by the Central News Limited; copyrighted in the United States by The New York Times Company. (From the Special Correspondent of The Central News Limited.) (All Rights Reserved.)

AKAROA, N.Z., April 3.—Acting on behalf of Captain, Commander Pennell to-day gave me short accounts of the journeys of the first two parties which were detached from the southern party as it advanced towards the pole. Day and Hopper, who left the southern party on the 4th of November, arrived safely at Cape Evans on Jan. 21. Atkinson, Wright, Cherry, Gerrard and Keokane, who left the southern party at Upper Glacier depot on Dec. 31, reached Cape Evans on Jan. 23.

The last supporting party in their report state that, during the forenoon of Jan. 4, the party, consisting of Lieut. Evans, Lashley and Croan, marched three miles south with Scott's advance party. Then bidding their leader and his comrades farewell, they turned northward at latitude 87.35 and commenced their homeward march. The southern party were then traveling rapidly yet easily and the members appeared to be exceptionally fit. The last returning party retraced their steps feeling confident that Scott would reach the south pole.

### Terra Nova's Report.

"The Terra Nova sailed for Lyttelton on Dec. 18 with seven months' fourteen dogs and a further year's supply of stores. Exceptionally the weather was experienced.

"Robertson Bay, reached on Jan. 3, was found completely filled with pack ice and icebergs, which, together with swift tidal streams, made the relief of Campbell's party, henceforth called the Northern party, difficult. After embarking the northern party on Jan. 4, the ship proceeded down the coast to land near Wood Bay. The party proposed to work due north thence, leaving Melbourne eastward and Moffat Nansen range to the west, proceeding as far as time allowed with the object of examining the north-eastern extreme land plateau, both geographically and geologically.

"It was seen to be impossible to reach the north pole with the present party. It was clear that winter conditions were ahead and that further attempts were useless, the ship being in danger of being frozen in for the winter. Here the ship abandoned the attempt to 'relieve' the northern party and shaped her course for New Zealand.

"The northern party, consisting of Campbell, Levick, Priestly, Abbott, Browning and Dickerson, will proceed along the coast to winter quarters at Cape Evans via Butter Point, the Debenham discovery, and Hut Point, a distance of about 200 miles. They are provisioned and equipped in view of this possible emergency arising." (Signed) H. L. Pennell.

"As the Campbell or northern party were not picked up only an incomplete report of their movements can be given. They landed at Cape Adair on Feb. 3, 1911, the ship sailing the following night. The northern party were able to make good geological collections. The party enjoyed excellent health throughout.

### Geological Discoveries.

The western geological party, consisting of Debenham, Wright and Petty Officer Evans, in charge of Griffiths and Taylor, landed at Butter Point and Ferrar Glacier on January 21, 1911. Snug camp was made in an alluvial thirty feet deep, excavated by the sun in the glacier. This alluvial shows the tremendous exciting power of the sun in these regions. Twenty-four hundred feet above the glacier Debenham discovered a distinct crater of late glacial age, also late basalt flows eighty feet thick.

The western geological party, in charge of Griffiths and Taylor, left Debenham, Grant and Ford, again left headquarters on Nov. 7, 1911, for Granite Harbor. Their sledging loads were exceptionally heavy, totaling 1,600 pounds. This necessitated relaying and a speed of five miles a day brought them on Dec. 1 to their destination at a cape nine miles inside Granite Harbor.

During the next fortnight they sledged around west harbor, finding near masses of marble remarkably large and mineral, such as topaz. At their headquarters thousands of wingless insects of two different species, were found clustering half frozen under almost every pebble.

## May Satisfy Manitoba Catholics.

MONTREAL, April 2.—(Special.)—It is understood that the speech to be delivered by Hon. Robert Rogers here on April 13 at the Conservative Club dinner will give out the secret in connection with the coming Manitoba school settlement by Premier Roblin.

Mr. Bourassa's paper, Le Devoir, does not, however, want to be pacified, as that paper has an article this evening stating that if The Free Press report of the alleged settlement is correct, it will never be satisfactory.

Es this as it may, it is well understood that His Grace Mgr. Langevin has been given an inkling as to the coming modification in the law and has expressed himself as perfectly satisfied. The same attitude is also reported to be taken by the papal delegate at Ottawa.

## PROFESSORS ON TRIAL FOR ASSAULT

### Physician Testifies That Pupil Was Severely Beaten at Woodstock College—Hoppwood Was Persistently Unruly and Had Been Warned Several Times.

WOODSTOCK, April 2.—(Special.)—A 7.30 o'clock to-night, the three Woodstock College professors, Messrs. R. A. F. McDonald, Leon McCrimmon and Vincent Price who it was alleged administered a severe thrashing to Vincent Hoppwood, a student at that institution, were charged in the local police court with assault. The accused professors were represented in court by G. G. McKay, K.C. of this city, while Crown Attorney Ball prosecuted.

Hoppwood stated that at about 11.30 p.m. on March 22, Prof. McDonald came to his room and told him to follow him. Witness did so and was taken to the gymnasium, followed by Prof. McCrimmon and Prof. Price. Hoppwood was ordered to take off his bath robe and to lie across the vaulting horse. He refused, but the three masters forced him to do so. McCrimmon and Price held him and McDonald applied ten cracks with a strap over his bare back, leaving long welts. Witness did not think he had been cut. McDonald told him he would get twice as much next time.

### Admits He Was Unruly

Hoppwood admitted that he had been a bad boy. He had been punished by other teachers several times and had been warned that his next offence meant severe punishment. Witness stated that he had attended other schools and had received similar punishment for disobedience, although it had never been on bare skin.

Dr. Walford, who examined the boy the day after the punishment, stated there were several marks on the student's back about 12 or 14 inches long. The skin was not cut. Dr. Walford thought that the beating was most severe.

The only witness called for the defence was Prof. R. A. F. McDonald, who administered the punishment. He stated that, previous to the whipping, he had repeatedly warned Hoppwood regarding his disobedience. Witness did not feel that the whipping had been too severe.

McDonald stated that, although he had not secured special instructions from the principal in this case, the masters were generally trusted regarding the punishment to be administered.

After the hearing of the evidence, Magistrate Ball reserved judgment until Tuesday next.

## SOCIALISTS ROUTED IN MILWAUKEE.

MILWAUKEE, April 2.—Milwaukee voters to-day swept from office the Socialist administration, installed a Non-partisan mayor, board of aldermen and county board of supervisors, and probably eliminated every national political party from participation in future municipal elections in the State of Wisconsin.

Nearly complete returns from the 146 precincts in the city show that Dr. Gerhard A. Bading, non-partisan candidate for mayor, defeated Mayor Emil Seidel, Socialist incumbent.

## NO MONEY LEFT WHEN REVELL DIED

### Letter From Mrs. Spurr Produced at Inquest States That There Were No Funds in the Estate Which Could Have Been Secured by Forged Cheques.

That there was no money remaining in the estate of John Revell which could be secured by the cheques with the forgery of which Drs. Evans and Harvey of College of Ophthalmology is charged with, is a statement contained in a letter from Mrs. Spurr to Mrs. Charles Bagley, which was produced at the inquest into the death of Revell at the morgue last night. In this and another letter, also produced, the woman says that before his death Revell willed all his money to her, and that, induced by Dr. Evans, a thousand dollars of this was put into stock of the college. She writes that both Evans and Harvey were present when this money was paid over, and complains bitterly that Evans, who promised to send the money after her to England, never sent any of it.

Bagley told of a number of interviews with Evans and Harvey in which when apart each laid the responsibility upon the other, and when finally got together, Evans declared that a meeting of the shareholders would be called and the money paid. This was immediately before the arrest of the pair.

Dr. J. M. McCormack declared that he had seen Revell under the name of Spurr at the Prisoner House. He was then far advanced in alcoholism, and might be expected to die in three or four months. He only saw him once. He understood that Evans was giving him medical attention.

The inquest was adjourned for two weeks, but the analysis of Revell's body will not likely be ready for a month.

Removed to Body.

Harry Banks, undertaker and inspector of anatomy, told of receiving a phone message from either Dr. Harvey or Evans, whom he had known for nine months, telling him that an old gentleman had died over at the hospital.

## MUST RECOGNIZE MINERS' UNION

### Anthracite Workers in Pennsylvania Declare No Satisfaction Them.

PHILADELPHIA, April 2.—(Can. Press.)—Sentiment among the workers in the anthracite region seems to be crystallizing in favor of prolonging the lay off until the operators grant recognition to the union. At a meeting held today in Nantcoke, near Wilkes-Barre, a thousand miners, mostly Poljs, declared that they would not accept a ten per cent. increase unless it was accompanied by union recognition. When one of the speakers announced that President Baer had said that the miners were not strong enough to strike, a score of workers jumped to their feet exclaiming, "Well, we'll show him."

Both operators and miners, however, seem content to await the result of the conference to be held in this city on April 10, and none of the large companies made any attempt to work their breakers today.

## Boys Refuse to Work

The Kathryn colliery, owned by Cleveland, Ohio, capitalists, situated about ten miles west of Soapokir, at the extreme end of the hard coal field, operated its breaker yesterday, but the slate pickers refused to work today, and the bosses and outside hands were obliged to do that work.

While peace prevailed generally throughout the coal fields, there were several instances of violence reported during the day. At McAadoo, near the Hazleton region, a fire boss employed in one of the collieries near that place was probably fatally injured in a fight, the direct outcome of the suspension. Another nine worker abused him for going to work and in the struggle that followed the fire boss skull was fractured. His assailant was committed to jail without bail to await the result of his injuries.

## DROPPING A GOOD DEAL OF IT

THE HODMAN: But sure, I'm getting some of it there.

## ALL EXPENSES WILL BE PAID

### Two Wealthy Toronto Baptists Have Donated Money to Cover Convention Next Week.

Two wealthy Toronto Baptists have donated the amount necessary to cover the expenses for the Baptist home mission ministers to hold a conference here April 9, 10, 11. Rev. Dr. Norton is superintendent. The visiting ministers will be guests of Baptist families, and have luncheons and suppers served at Jarvis-street Baptist church, where the conference will meet.

## REPUDIATE ENTIRELY

The following telegram has been received by Rev. Father Lurke, editor of The Catholic Register, from Archbishop Howley of Newfoundland, in connection with charges made by A. B. Morine's former private secretary. "Repudiate entirely. Have no knowledge of nature of charges. Send me night message. Can't answer till I know."

## CYCLONE IN NEW JERSEY

### Many Buildings Demolished in Camden, Where Two Women Were Fatally Hurt.

PHILADELPHIA, April 2.—(Can. Press.)—Two women were fatally injured, scores of houses were unroofed and more than 200 were completely demolished by a wind storm of cyclonic velocity which passed over that portion of Camden, N.J., known as Cooper's Point, and swept down the Delaware River to the centre of this city, doing thousands of dollars' worth of property damage.

To-night Camden lies in utter darkness, all lights having been turned off and streets in some sections are piled high with debris and telegraph poles.

Mrs. Annie Cleary of Camden, and Miss Annie Behrend of Philadelphia, who were riding in a street car in Camden, were caught beneath a building which was demolished by the storm, and both were so badly crushed that the physicians at the hospital say that neither can recover.

In a section of Camden where the storm was most severe entire blocks of dwellings were unroofed and the occupants driven to the street, where they crowded in terror, not knowing which way to turn to avoid the flying debris.

Although the full fury of the storm did not reach this city considerable damage was done here, the wind reaching a velocity of more than 40 miles an hour. An unoccupied six-story building at 62 Chestnut-street was unroofed, and an immense amount of its was blown across that thoroughfare. A driving rain, which accompanied the high wind, forced pedestrians to seek shelter, and this probably prevented loss of life.

## No State-owned Cable

"We are not in favor of a state-owned transatlantic cable nor a subsidy for the purpose. If any company offered to construct a cable which would carry messages at a reduced rate, then the proposal would be welcomed."

Such was Postmaster-General Samuels' reply to Harry Lawson when the latter asked if the government proposed to meet the wishes of the Canadian house for the establishment of an Atlantic cable.

## \$218,517 GRANT FOR TORONTO HARBOR

### Commission Will Spend \$162,217 For Sheet Piling, \$25,300 For Dredging Eastern Channel, \$21,000 on Island Breakwater, \$10,000 on New Pier and \$20,000 to Dredge Channel.

Alex. Lewis, secretary of the Toronto Harbor Commission, announced late last night that the government had made a grant of \$218,517 to the commission, which will be spent as follows:

- \$162,217 to provide sheet piling for the protection of the new land at the eastern channel.
- \$25,300 for dredging the eastern channel.
- \$21,000 for improvements on the island breakwater.
- \$10,000 for renewing a portion of the pier at the eastern channel.
- \$20,000 for dredging a steamer channel in the harbor.

This expenditure is the largest in years on the Toronto harbor, and the commissioners say that the government has granted them everything they have asked for. The only reason that there was not a larger expenditure is that the commissioners had not the necessary plans upon which to submit their estimates.

It was announced that tenders have been called for in connection with the usual spring dredging.

## NEW HATS FOR EASTER

In the show cases of men's hats for Easter there are many new blocks for this season's wear. In still felt there is the low crown, wide brim Derby, in soft felt a wonderful assortment of hats in varied colors, from olive green and black to lightest of brown and gray. See the Dimes display at 139 Yonge-st.

## BAPTISTS MEET IN CONVENTION

### B. Y. P. U. Will Gather in Jarvis St. Baptist Church Tomorrow and Floor St. on Friday Evening.

Hundreds of young Baptists from all parts of Ontario and some from Quebec will attend a two-days' annual B. Y. P. U. Convention here tomorrow and Friday.

Tomorrow and on Good Friday morning and afternoon the convention will meet in Jarvis-st. Baptist Church. It will close with a mass meeting at Bloor-st. Church on Good Friday night. The speakers at the closing meeting will be Rev. J. A. Macdonald, D.D., and Rev. Principal McCrimmon.

W. Hitchin, Bramford, is provincial B.Y.P.U. president and Rev. A. L. Brown, assistant minister at Walmer-road Church, secretary.

## DAVID DEXTER PASSED AWAY

### Well-Known Hamilton Life Insurance Manager Died at His Residence Yesterday After a Lengthy Illness.

David Dexter, president and managing director of the Federal Life Assurance Co., died at his late residence in Hamilton yesterday afternoon. Mr. Dexter, who was 67 years of age, had been ill and confined to his bed for the past week. He was one of the founders of the Federal Life Assurance Co. and occupied the position of managing director since the company's inception. He was a past president of the Life Officers' Association of Canada. At one time he was a member of the Hamilton School Board. His activities were many and varied.

## THREE KILLED AT LEVEL CROSSING

THREE RIVERS, Que., April 2.—(Can. Press.)—Montreal bound train No. 352 crashed into a sleigh at Rochelaus crossing at 3.30 this afternoon, and instantly killed two men and a woman, all of Mount Carmel, named Doucet.

## CENTRAL OFFICERS.

At a meeting of the Central Liberal-Conservative Executive held in Victoria Hall last night the following officers were elected: President, Mayor Geary; vice-president, Mark H. Irish; secretary, Hilliard, Beamingham; treasurer, John Laxton; chairman of executive, Fred Armstrong; auditors, J. R. L. Searr and Thos. Hoole.

## VOTE ON LOCAL OPTION IN JANUARY

### Toronto "Drys" Decided on Early Action and Bylaw Will Be Introduced at Next Council Meeting—Petition to Abolish Club Licenses—Jos. Oliver Is New President.

Toronto "drys" decided at last night's big meeting at Broadway Hall, on a local option vote next January.

Ald. Austin will introduce a bylaw for the vote at the next city council meeting.

F. S. Spence approved immediate action. Ben H. Spence wanted it put off until 1914. They were both overwhelmed by the vote for a contest this year.

Joseph Oliver, in view of Mr. W. Rowell's "banish the bar" policy, accepted the presidency.

A petition to the legislature for club licenses to be prohibited in local option districts, was adopted.

A plan of organization will be adopted at a meeting on April 23.

## TEAMSTERS WILL RETURN TO WORK

### Striking Cartage Men Accept Offers Made by Hendrie's, Dominion Transport and Shelden Companies.

"Thanks to a good measure of common sense exercised by the three Toronto cartage companies, whose teamsters went on strike yesterday morning, a serious tie-up in the delivery of freight from the railroads has been averted.

After a conference between the Dominion Transport Co. and the committee appointed by the 300 striking teamsters at that firm, the men decided to accept the offer made by the company and agreed to return to work this morning. The Transport company refused to make public the wage settled on, as all the little details have not been completed.

NO WOMEN'S VOTES IN MASSACHUSETTS.

BOSTON, April 2.—With the galleries filled with feminine spectators and Governor Thomas R. Marshall of Indiana, looking on, the house today decided against woman suffrage legislation for the year, by a vote of 127 to 87.

## THE HAUD-UP CLUB.

John Florida.

Was York: I'm just up from Ottawa where we had a "St. Patrick's" a grand time had in the government. I did the "Haud-up" of the Senate as got them to throw out Tamm's bill for special federal money on provincial roads. We selected these two bodies for the Haud-up because they're new to the game and we think it's too good, it's their last gasp of glory. See we threw out their bills on the province they can't find on the subsidy to the T. & N. O. We chuck'd Old Ontario out on her best side by that 'yell understand Sir James that I of Old Haud-up. Yell know fine how I'm opposed to public ownership an' it give me a chance to think a public money gain to public ownership! That's a crime near that dignified by any sin in the Commonwealth! James Kirkpatrick Carr an' Archie Carvell an' av th' friends of th' Glob in th' Senate joined me in Haud-up in these government measures.

"An' the cozy council did fine when I was away; they handed up th' proposal to engage a traffic agent. Master Fleming wanted some expert an' he had the council lined up as most to a man. An' th' 'Tely had a word to say when Master Fleming was objectin'; Yell ken th' 'Tely has a smart o' sayin' 'what does Master Drayton say about this?' Master Drayton wrote that he wanted th' expert. Th' 'Tely was nax sayin' 'anything this time about Master Drayton.

Master Fleming is qualifyin' for th' Haud-up Club as he keeps th' people of th' town Haud-up the straps on th' cars. Yell be in th' Haud-up Club, John, if ye qualify. Master Fleming is in, an' Alderman Maguire. Sam McBride of th' ward wants in. What d'ye say? Jarr.

Jeff Toronto.

Florida: Anything Robert John wants goes in the Tely. Whenever say a word against him, I think Toronto ought to do something about giving the people a square deal in the matter of transportation, but I'll not press it against Robert John. But you should not call Sir James Old Haud-up, as he is doing well since he came up here from Maricburg. But Robert John must not interfere with Adam Bede. Wise men when the ice and slush are gone and I'll come to Toronto to build up. But it's too late now. Jarr.

PETER BELLINGER, PROPRIETOR

Canada's First Curling Bonspiel On Artificial Ice

After a week's curling, the first bonspiel to be held in Canada on artificial ice, at the Vancouver Curling Club, came to an end on March 28, the home rink gathering in exactly half the honors and silverware of the meeting.

The complete list of winning rinks follows: KELLY-DOUGLAS TANKARD. First—Calgary (R. Ferguson, S. McNeil, W. Geoghegan, S. S. Savage skip). Second—Vancouver (D. Taylor, S. D. Creelman, J. Moe, F. G. Crisp skip). Third—Vancouver (D. Taylor, S. D. Creelman, J. Moe, F. G. Crisp skip). Fourth—Vancouver (H. Blair, W. N. McKay, A. G. Smith, W. Bates skip). Fifth—Vancouver (E. P. Bremner, M. P. Cotton, G. F. Whalen, W. H. Whalen skip). Sixth—Vancouver (H. Blair, W. N. McKay, A. G. Smith, W. Bates skip). Seventh—Vancouver (E. P. Bremner, M. P. Cotton, G. F. Whalen, W. H. Whalen skip). Eighth—Vancouver (H. Blair, W. N. McKay, A. G. Smith, W. Bates skip). Ninth—Vancouver (E. P. Bremner, M. P. Cotton, G. F. Whalen, W. H. Whalen skip). Tenth—Vancouver (H. Blair, W. N. McKay, A. G. Smith, W. Bates skip).

Smith, W. Bates skip).

The constitution of the Pacific Coast A. L. A. was adopted with a few changes to meet the new conditions.

Cricket Club Elect Officers

Members of the East Toronto Cricket Club at their meeting last evening elected officers for this season as follows: President, Joe Townsend; vice-president, Joe Townsend; treasurer, W. Kelly; secretary, H. Stamps. The club requests secretaries of the local clubs to arrange for matches and send their open dates to H. Stamps, 63 Lyall-avenue, city.

The annual general meeting of the section of officers for the ensuing season will take place, will be held in Dovescourt Hall, 96 West Bloor-street, on Saturday evening next, at 8 o'clock prompt. A cordial invitation is extended to everybody interested in the game of cricket, and for their membership of the club. W. C. Larmouth, secretary, 104 Westmorland-avenue.

The annual meeting of the Guelph O. A. College Cricket was held on Monday. The club is entirely free of debt, and has handsome balance in cash and material on hand to commence the season of 1912. Matches have already been arranged for home and home fixtures with the six clubs in the Western Association. In addition to these, matches are being arranged with London, Hamilton, Toronto C. C. and Upper Canada Colleges. The following were elected for 1912: Hon. president, Dr. Berthou, Dr. H. O. Howitt; president, Dr. Berthou, Dr. H. O. Howitt; vice-president, W. Hunt; secretary, G. W. Harrison, G. H. V. Bowly; treasurer, G. W. Harrison, G. H. V. Bowly; captain, G. W. Harrison; vice-captain, G. W. Harrison; club secretary, F. Harrison. The club enjoyed a very successful season during the past year, and the enthusiasm shown at the meeting promises much for the forthcoming season.

Matches have already been arranged for home and home fixtures with the six clubs in the Western Association. In addition to these, matches are being arranged with London, Hamilton, Toronto C. C. and Upper Canada Colleges. The following were elected for 1912: Hon. president, Dr. Berthou, Dr. H. O. Howitt; president, Dr. Berthou, Dr. H. O. Howitt; vice-president, W. Hunt; secretary, G. W. Harrison, G. H. V. Bowly; treasurer, G. W. Harrison, G. H. V. Bowly; captain, G. W. Harrison; vice-captain, G. W. Harrison; club secretary, F. Harrison. The club enjoyed a very successful season during the past year, and the enthusiasm shown at the meeting promises much for the forthcoming season.

The annual meeting of the Guelph O. A. College Cricket was held on Monday. The club is entirely free of debt, and has handsome balance in cash and material on hand to commence the season of 1912. Matches have already been arranged for home and home fixtures with the six clubs in the Western Association. In addition to these, matches are being arranged with London, Hamilton, Toronto C. C. and Upper Canada Colleges. The following were elected for 1912: Hon. president, Dr. Berthou, Dr. H. O. Howitt; president, Dr. Berthou, Dr. H. O. Howitt; vice-president, W. Hunt; secretary, G. W. Harrison, G. H. V. Bowly; treasurer, G. W. Harrison, G. H. V. Bowly; captain, G. W. Harrison; vice-captain, G. W. Harrison; club secretary, F. Harrison. The club enjoyed a very successful season during the past year, and the enthusiasm shown at the meeting promises much for the forthcoming season.

The constitution of the Pacific Coast A. L. A. was adopted with a few changes to meet the new conditions.

CAUGH HILL WINNER FROM T. M. GREEN

Three Long Shots in Money in Third—Otherwise Favorites Have Good Day at Charleston.

EATON'S HATS for EASTER

THE climax to the Easter attire is a becoming and stylish hat. There's variety here in both the Soft and Stiff shapes, including Stetson, Croft and Knapp and best English makes. The hat shown here is a stylish fedora, becoming to many men, a pure felt in a brown shade, with silk band to match. The brim has raw edge and is soft and pliable, retaining any shape in which it is put. It's a stylish and becoming hat. The price is 2.50

NO MONEY LEFT WHEN BEVELL DIED

Continued From Page 1.

and as he had been in poor circumstance the college proprietors would settle the bill.

The telephone message was on Nov. 3, and after arriving at his hotel he went to find the body in a bedroom on the second or third floor.

It would be better to have the funeral from Ranks' parlors and in accordance with these wishes the body was taken from Ranks' parlors on the following day and interred in Norway cemetery.

The body was taken to the city hall as usual. The bill thru the city hall as usual.

When he came to the hotel first he seemed to have considerable money, but when he left on June 27, he went to England, and on his return was hard up and in poor health.

Falconer told of Harvey having taken on his meals at his hotel for about two years and of Evans stopping at the hotel from June 18 to Oct. 3 under the name of Dr. Evans.

Not knowing what was wrong with her husband, Mrs. Spurr spoke to Falconer about it. He advised her to get a physician.

Before going back to the old country Spurr had talked about starting a chicken farm, but this was dropped on his return to Toronto.

They had a boy aged about 18 and a daughter, who was considerably younger. All occupied the same room and their bill amounted to about \$8 per day.

Dr. H. B. Williams, Markham street, a graduate of the Empire College, told of getting a telephone message about a week before Spurr's death, asking him to attend the man.

There are combined in Dr. Chase's Nerve Food the elements which go to form new, rich blood.

Laet fall Williams gave six lectures at the college to the post-graduates, and at that time became acquainted with Dr. Evans.

"What was the trouble with Spurr?" he had liver trouble and had been a heavy drinker.

KEEP THE SKIN CLEAR

With CUTICURA Soap and Ointment

No other emollients do so much for pimples, blackheads, red, rough and oily skin, itching, scaly scalps, dry, thin and falling hair, chapped hands and shapeless nails.

Although Cuticura Soap and Ointment are used by doctors and dentists everywhere, a liberal sample of each, with 20-page booklet on treatment of skin diseases, will be sent post-free, on application to "Cuticura," Dept. 83, Boston, U.S.A.

Billions of people are suffering from skin diseases, and Cuticura is the only remedy that cures them.

REPORT PRESENTED TO MAYOR

Geary Yesterday Suggests That a Permanent Commission Be Appointed to Reduce Expense and Increase Efficiency of All-Such Work.

The report of the charities commission, which was received by Mayor Geary yesterday, constitutes an exhaustive analysis of work undertaken by charitable institutions and societies in Toronto, and makes many recommendations regarding methods of reducing the expense and increasing the efficiency in connection with all such work.

The report was prepared by the charities commission, which was appointed by Mayor Geary in 1910, and has since that time been engaged in a study of the work of the various charitable institutions and societies in Toronto.

The report is a most important one, and it is believed that it will result in a permanent commission being appointed to reduce the expense and increase the efficiency of all such work.

FRUIT-A-LIVES CURED HIM

AVONDALE, N. B., October 15th.—"I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty foods as beans, meats, potatoes and could not drink tea or coffee. For the past two years, I lived on porridge, stale bread, etc., I had treatment from two doctors, and tried nearly every kind of medicine, but got worse.

"Finally I saw a testimonial of 'Fruit-a-lives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-lives' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

LEMUEL A. W. BROWN. Many people look on "Fruit-a-lives" as a miraculous medicine. It has indeed performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, Dyspepsia, Constipation and Biliousness.

"Fruit-a-lives" is the only medicine in the world made of fresh fruit juices and valuable tonics. See a box, 6 for \$2.50, or three boxes, 18 for \$7.00. At all dealers or from Fruit-a-lives Limited, Ottawa.

NO COMMISSION FOR THE CIVIL SERVANTS

Sir James Whitney Introduced an Amendment Which Carried and N. W. Rowell's Proposition Was Defeated—Osleopaths' Bill Goes to Special Committee.

Lift the civil service out of politics, eliminate the spoils and patronage system, make appointments and promotions by competitive examinations, and create a non-partisan civil service commission. Such was the large order N. W. Rowell, leader of the opposition, advocated in a motion before the legislature yesterday.

The amendment introduced by Sir James Whitney, which would have placed the civil service under the control of a non-partisan commission, was defeated by a vote of 18 to 12.

The Osleopaths' Bill, which would have provided for the appointment of a special committee to investigate the civil service, was referred to a special committee.

TORONTO AGAIN TURNED DOWN

Private Bills Committee Refused City Power to Take Over Part of Radial Line.

Hardly had the City of Toronto got on its feet again after the harsh treatment handed out to it by the railway committee earlier in the season, when it received another blow yesterday by the action of the private bills committee in refusing the city the right to take over the Toronto and York Radial Railway from Sunnyside to a point near Long Branch.

The committee, which was composed of Messrs. G. H. Murray, J. H. Murray, and J. H. Murray, refused the city's proposition to take over the railway, and instead recommended that the railway be sold to the Government.

The city's proposition was that it should be allowed to take over the railway, and to operate it as a municipal enterprise. The committee, however, felt that this was not in the best interests of the city.

The city's proposition was that it should be allowed to take over the railway, and to operate it as a municipal enterprise. The committee, however, felt that this was not in the best interests of the city.

# The Greatest Real Estate Opportunity of To-day in Canada's Greatest City—MONTREAL

For the last few months, the huge deal engineered and consummated by the Canadian Northern Interests in Montreal has been the main topic of discussion in Canada's greatest metropolis. The magnitude of the C.N.R. undertaking—the project of driving a tunnel through Mount Royal, the securing of a terminal in the heart of Montreal, and the opening up of a new residential city north of the Mountain—has attracted world-wide attention. It is one of the greatest undertakings in the railway and real estate history of the North American Continent.

The public's chief interest, of course, is in the C.N.R.'s new residential city, for this new section provides the greatest real estate opportunity in Canada to-day. In no city in America of which we know is there a single residential district that offers such possibilities for real estate profits for investors as in the Canadian Northern's Model City in Montreal.

We are exclusive selling agents for nearly two million dollars' worth of property in the Model City, which has been purchased by Toronto & Montreal Properties, Limited.

These lots are **FIRST SELECTIONS**, only one other syndicate having an equally wide selection.

Oliver, Reid & Co., Limited, offer to the public these choice selections. Mail orders will receive the same prompt and courteous attention as personal calls. You have just as good an opportunity to make money in the Model City real estate investments as have Montreal people. It only remains for you to grasp the opportunity. The sale of lots starts on April 8th. Prompt action is therefore advisable.

## Montreal Growing at Rate of 50,000 a Year

The rapid growth of Montreal during the past ten years has caused amazement even in the great American cities, which look with jealousy on the rising greatness of the giant metropolis to the North. A glance at the percentage of increase in population during the last ten years shows that Montreal is without a rival when compared with the largest cities of the United States. Note the following table:

Montreal	70.3 per cent. increase
Detroit	63.0 " " "
Cleveland	46.9 " " "
Newark	41.2 " " "
New York	38.7 " " "
Milwaukee	31.0 " " "
Chicago	28.7 " " "
Buffalo	20.2 " " "

St. Louis, Washington, Pittsburg, New Orleans, Cincinnati, Philadelphia, Boston and Baltimore all show less than Buffalo.

Greater Montreal to-day has a population of 587,766. It is adding to its population at the rate of 50,000 a year. Where will this increase in population be accommodated during the next few years?

### Mount Royal the Cause of Congestion

Montreal City is already in a very congested state, in some sections really fearfully congested. The direct cause of this is old Mount Royal, which for years has stood as a formidable rocky barrier right in the path of the city's natural growth.

Mount Royal has forced the city to follow the shore of the river for miles both up and down. It has forced the many thousands, who cannot spend an hour or two each day traveling long distances to the centre of the city, to live in the multitude of tenements, flat houses and apartment buildings for which Montreal is noted. It has caused Montreal to become one of the most thickly populated cities on the American continent.

But soon Mount Royal, the barrier, will have a gateway through which the growing city can enter and expand on the other side. The C.N.R. tunnel will provide the gateway. The new Model City will provide the accommodation for the home-hungry apartment dwellers and the increasing population of the rapidly growing metropolis.

### The Model City's Ideal Location

The Model City will undoubtedly become the finest residential section of Montreal. Its location is beautiful. To the rear is the wooded slope of Mount Royal, shutting off from view the smoking factories of the city. In front the land drains gently towards the Riviere Des Prairies (The Back River), while in the distance rise the mountains of the Laurentian range.

A noted Landscape Gardener has drawn the plans of the Model City. There will be wide streets, diagonal boulevards, and a driveway circling around the city. About a dozen small parks will provide playgrounds and resting places.

There will be no factories or car shops in the Model City. The air will be pure and fresh and healthful. The fertile soil will grow flow-

ers of almost every description—truly an ideal situation for a home, all of which, of course, adds to the value and possibilities of Model City property.

### By Subway in 8 Minutes

And just think! Residents in the Model City, by means of the tunnel, will be brought closer to the centre of the metropolis than is almost any other purely residential district of Montreal. They will be brought closer to the centre than is almost any other suburban district of any large city in America. From the Model City Station to the terminal in the heart of Montreal will be a brief journey of about eight or ten minutes—a journey in comfortable electric trains through a double-track subway. Fast time will be made, because trains will be driven by powerful motors. There will be no blockades by street traffic, no snow to clear off. The trains will be independent of the weather.

Under such conditions it is a certainty that the Model City will be quickly built up, with property doubling and trebling in value. Already leading Canadian banks have selected sites on the streets that are planned for business purposes and have asked to have them reserved. You cannot do better than to follow their example.

### A Wide Margin of Profit

When you compare prices for the lots that Oliver, Reid & Co., Limited, are offering in the Model City with lots selling in other residential districts of Montreal, such as Westmount and Outremont, you will find that the margin of probable profit on a Model City lot is from 100 per cent. to 300 per cent.

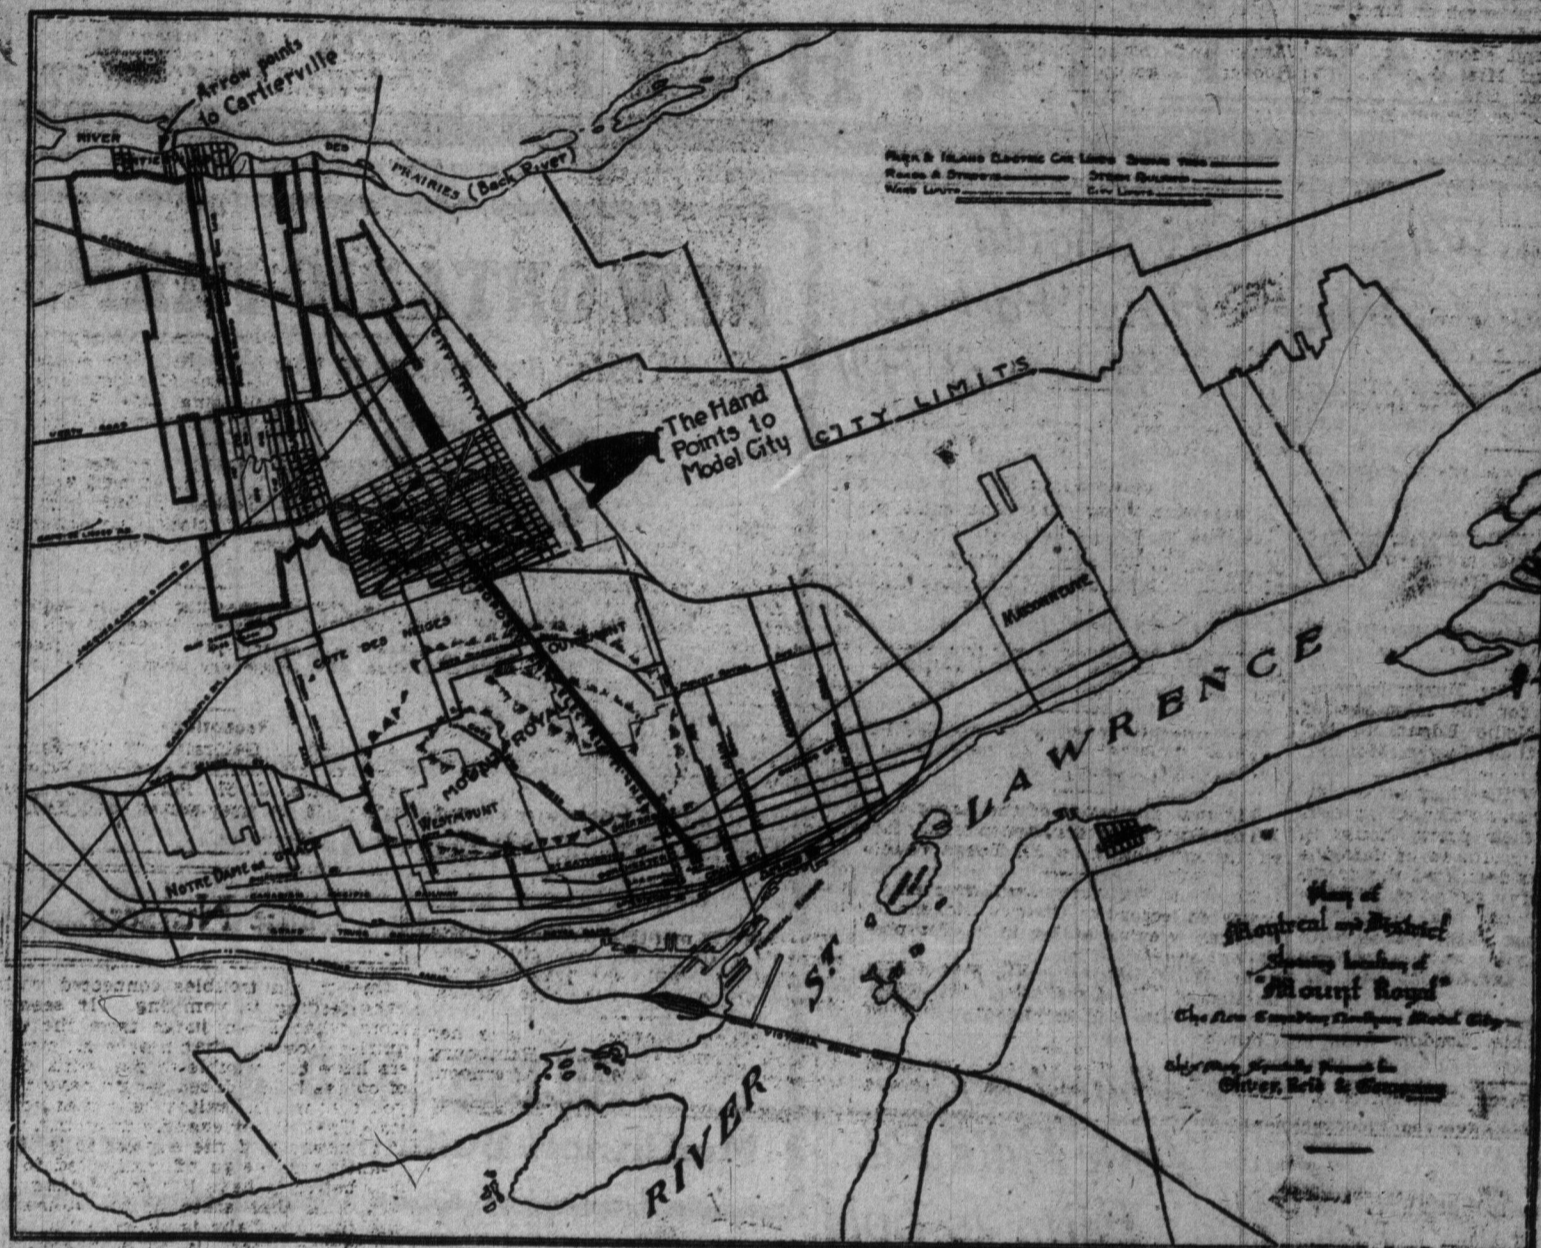

The earlier you buy the greater your margin of profit. The property is sure to advance as the work on the tunnel advances. That the tunnel will be rushed to completion is one sure thing. The C.N.R. are exceedingly anxious to become a strong factor in handling the increasing volume of business concentrating at the metropolis. The only way they can do so is by constructing the tunnel and erecting a terminal in the heart of the city.

### Sale Starts April 8th

The lots we offer are **FIRST SELECTIONS** in the Model City. They are choice locations. Nearly all are 50 ft. x 100 ft. They are all dry and level, the ideal lots for building purposes.

The lots carry certain building restrictions in order to assure that the Model City will be a first-class residential district. The taxes are low, as the land is just west of city limits.

Further particulars, prices and terms will be cheerfully and promptly furnished on request. You will find it a pleasure to do business with us, either in person or by letter. The sooner you get in touch with us the greater your possibilities for profit. But we hardly need to advise promptness. Business men will surely recognize the greatness of this opportunity and act quickly. Many, indeed, have already assured us that they will respond immediately to the first notification of the sale of our holdings. As the lots go on sale on the morning of April 8th, you'll want to become fully posted at once. Fill in, clip out, put in an envelope and mail to-day the coupon attached to this advertisement, and we will send you maps and booklet containing complete information.

## Here's What the Map Shows You

The map shows you the strategical location of the C.N.R. Model City, and the double-track tunnel that will lead from there to the new C.N.R. terminal in the business heart of Montreal.

Notice the direct course of the tunnel from Model City station to city terminal. An eight or ten minutes' trip.

Notice that the distance from Montreal Harbor to Cartierville on Riviere des Prairies (Back River) is considerably less than the distance between the city limits from East to West. The natural growth of Montreal in the future will therefore be in the direction of Cartierville. The Model City is midway between the Harbor and Cartierville.

Notice the close proximity of the fashionable suburb of Outremont to the Model City. Also notice that the Montreal City limits run just outside of the Eastern side of the Model City, continuing on to Riviere des Prairies.

## Some Facts You Should Know

Montreal is Canada's largest city. There are only two larger cities in the British Colonies.

Montreal's port handles one-third of Canada's commerce. It ships more wheat than any port in America. It is the gateway to and from Canada's interior.

Montreal is the financial centre of the Dominion. It is the greatest wholesale centre. Its manufactured products have increased in value over 40 per cent. in the last five years.

Montreal has the largest birth rate of any of the world's large cities. The natural increase, plus immigration, is adding 50,000 a year to the population of Montreal. The Model City is only large enough to accommodate about a one year increase in Montreal's population.

The C.N.R., C.P.R., G.T.R. and the Government are spending millions to improve the transportation facilities of Montreal. The C.N.R. undertakings alone are estimated at about \$25,000,000. That shows the faith of the great railway systems in the future greatness of an already great city.

A real estate investment almost anywhere in a growing city like Montreal will prove a profitable one. The Model City section provides the largest probability of future profit.

OSHAWA NEEDS HOMES WE WILL FURNISH TRANSPORTATION HERE IS THE LAND  
**168 BAY ST. J. C. HAYES & CO., Limited TELEPHONE MAIN 7140**

### Robins Will Build Office

F. B. Robins yesterday announced that Robins Limited, would commence on May 1 the erection of a two-story ready building at the northeast corner of Victoria and Richmond-streets. This property has been owned by them for some months. The building will have a frontage on Victoria-street of 102 feet and will run along Richmond 87 feet. They will occupy the building themselves entirely. On the second floor will be a large room of real estate agents.

### Traders To Build Bridge Across Lane

A bridge is to be built from about the fifth or sixth floor of the Traders Bank Building across the narrow light lane to the Northmead Building. The bank bought the Northmead place about a year ago, and it was rumored at the time that they would build an entrance thru to King-street on the property, which is the present lot but one to the C. P. R. structure. Nothing came of this, and the present project, it is understood, will be undertaken without this idea in view. It is merely to afford connection between the two buildings. The Northmead property may be altered and brought up to date, but this is not yet decided upon. It runs thru from King to Coburn-street.

### City Should Have Park on Brow of Hill

In all Toronto there isn't a park that city hall officials can boast possessing a city-wide view. We have some great parks here, some with elevations that command a beautiful outlook of ravine, river or lake, but not one have we that commands a view of the city itself. We should have such a park if only for our visitors, but the chances of securing one are slipping away fast. The brow of the hill that extends from Yonge-street west to Davenport town is where that park should be situated. And now this hill has become dotted with homes, from the palatial structure of mercenary princes and financial wizards down to the humble shanty of the foundry worker. Everything is built up all but a couple of fair-sized open patches on the crest of the hill between Dufferin-street and Walmer-road. The city should exert itself to get one of these open spaces before they are gone. A park from which a city can be seen will prove a valuable investment, financially and sentimentally.

### Bathurst and York Mills Rd. Farm Is Sold

A farm of 156 acres on the second concession, West Works (Bathurst-st.), has been sold for \$600 an acre, or about \$92,000. This farm is situated at the corner of York Mills side line and Bathurst, and was owned by Thomas

### WESTERN LANDS.

### SASKATOON

If you are interested in Real Estate Investments in Saskatchewan communicate with the Saskatchewan Commission Company, Saskatoon, Sask. ed

Armstrong. From the corner of King and Yonge-streets the farm is 6 1/4 miles north and 1 1/4 miles west. The name of the buyer has not been announced, but it is thought that the farm will be subdivided into building lots.

### March Permits Show Decrease

Toronto's building permits took a big drop during March from the figures of last year. The number of buildings for which permits were issued was 514 as compared with 1015 in March, 1911. The total value took a plunge downward, too, this March it was \$1,357,750 and last March \$2,210,770.

One reason can be assigned for the slump. It is the backwardness of the open building season, which is considerably over a month behind last year's. While real estate has been exceptionally active this year, the cold and snow have deterred builders from commencing operations. For the first quarter of last year permits were taken out for 1983 buildings, amounting to \$2,938,940, and this year they number 718 and total \$3,965,830.

### VANCOUVER OVERTURN WITH UNEMPLOYED

VANCOUVER, April 2.—(Can. Press) Cordova-street today is lined with men out of work. The majority of these have come off from the work on the Canadian Northern line between Vancouver and Kamloops.

About 4000 men have thrown up their jobs and there seems to be no disposition on their part to organize into any particular demonstration. They say they will not return to work until their resources are exhausted. At the L. W. N. headquarters, many new members are being enrolled. Their complaints against the Canadian Northern are that the bunk houses are filthy; the food upon the prices high and the hours of work long.

### FARMS FOR SALE. STOP, LOOK, LISTEN, READ FARM AND STOCK FOR SALE

**\$1000**—HALF CASH, balance 5 per cent, for 120 acres of choice soil, with comfortable, 8-roomed, roughcast house, good stone cellar; large barn; comfortable frame stable with open roof; oil, kerosene and drive shed. This farm is only about 30 miles from Toronto, on a main road, 3 miles from Markham Village; 2 1/2 miles from Locust Hill, C. P. R. station and creamery; 1 mile to school. The soil and lay of the farm is suitable for all kinds of grain and crops; full ploughing done; 8 acres fall wheat in; 2 acres for hay. With this farm, and included in the above price, will go 7 good horses, 15 cattle, 16 registered sheep, several hogs, 700 bushels oats, 300 bushels implements, etc. for running the farm; good reasons for selling. Full information, and, if you wish it, our new list of 100 farms, Philip & Beaton, Whitvale, Ont. ed

Two-sided Market in Wall St.—New Records Made in Toronto

BONDS FOR Trustee Investment... Wood, Gundy & Co. Toronto, Can.

EARLY RISE WIPED OUT BY BEARISH TACTICS... Revival of Short Selling Campaign Turned Course of New York Market—Unfavorable Aspects of Situation—Closing Was at Decline.

NEW HIGH RECORDS IN MONTREAL MARKET

Montreal Power and Shawinigan Continue Their Advance—Trading on Active Plane.

MONTREAL, April 2.—Montreal Power and Shawinigan rose to new high levels today in an active and strong market. Montreal climbed to 206 7/8 in the morning, 2 3/8 points over its previous record, and Shawinigan at 129 5/8 in the afternoon, or 1 2/8 points over its previous record.

NEW YORK, April 2.—The stock market gave another demonstration of strength in the fore part of to-day's trading, presumably in response to London's better prices and the publication of a number of favorable rail returns. Quotations advanced in almost a score of issues, the most important new records for the movement in Union Pacific, Reading, Amalgamated Copper and some other copper securities. Before the end of the morning session, however, the rise ceased abruptly, dealings fell to minor proportions and virtually all gains were lost.

Current Gossip of the Street

Stephen J. LeHuray of Montreal has been appointed secretary of the La Rose Consolidated Mines. The office of the company will be moved from New York to Montreal in the near future.

The accountants working on the books of Ernest Terah Hooley, the London, England, formerly of Canada, have completed their examination of the accounts and report gross liabilities of \$27,865, which is expected to rank for dividends, in case there are any. This would seem to be the problematical, however, since up to this time the accountants have failed to disclose any assets.

The annual report of the Hudson Bay Co., made to the public in London yesterday, should total receipts in 1911 from sales of lands owned by the company of \$166,200, and from sales of lots of \$166,200. These figures show a decrease from the record of the previous year, when large sales were made for irrigation purposes in British Columbia. The land holdings of the corporation have been a remarkable source of revenue of recent years, and promise to enrich the treasury for a long time to come, the early grants to the company being by no means exhausted.

Our New Bank. The stock books of the Bank of Saskatchewan will be open for inspection during the months of April and May, at the office of the Moose Jaw Securities, Limited, Moose Jaw, Saskatchewan.

The boom in Canadian Marconi fattened out again to-day, and the stock sold back again to \$4.60, a loss of a full 60 points from the high record of 49 1/2 shares established on the movement. A London cable received by local brokers via New York reported that the old country was buying the stock, but the market failed to reflect any such action. Meanwhile it was announced that Signor Guglielmo, the discoverer of wireless, will be in Montreal on Thursday of this week, where he will confer with the officials of the company, presumably on the mysterious "deal" which lies behind the movement in the shares. It is reported that the Canadian concern will be taken over by the English Marconi and included in the great "All-Rad wireless" plan now promulgated in the old country. Considerable of the stock is being shipped to London recently, each steamer carrying scrip consigned to Lombard-st. brokers.

Westinghouse Earnings. For the year ended Dec. 31, 1911, the net earnings of the Canadian Westinghouse were \$1,013,133, an increase of \$127,759, or approximately 12 per cent. over the preceding year, which had been the largest up to that time. Dividends at the rate of 8 per cent. per annum were paid, amounting to \$250,128. The sum of \$100,000 was charged off for general depreciation of property and a plant of \$20,000 reserved for inventory investment, \$50,000 for insurance funds, while \$123,794 was written off for property and plant, making a total of \$233,794 charged out of earnings for these purposes, as compared with \$200,222 in 1910. After all these charges the balance, \$774,339, is equal to 15.47 per cent. on the stock.

The Lights of Other Days. The Montreal Star quotes the following interesting note from its issue of 20 years ago, recalling a scene that

TORONTO STOCK MARKET SHOWS MORE ACTIVITY

Rio and Sao Paulo Moved Up to New Records—Undertone Shade Firmer.

World Office, Tuesday Evening, April 2. The Toronto stock market started off to-day's session with activity for its watchword. Trading was much more vivacious than has been usual for some little time, and several of the more inactive issues put in an appearance in the list of transactions for the first time in months.

An early sustained buying movement carried Sao Paulo up a small fraction above its recent high price to 197, which established another record for the stock. The gain was not maintained later on in the day, however, the quotation receding to 186 1/4, and closing under that price. Rio and O. was up a full point to 122 1/4, by the buying movement coming from Montreal. The only other change of significance was a point recession in General Electric, which sold off to 110 1/2.

Morning Sales Table with columns for Stock Name, Price, and Change. Includes S. Paulo, Mackay, Rio, etc.

WEATHER CONDITIONS GOVERN COTTON MARKET

Ericksen Perkins & Co. (J. G. Beatty) wired the local market ruled dull and featureless to-day, speculation has been driven out of the market by the trading tactics of the large holders of the market, who take advantage of bullish factors to unbalance the market to make a better response to the strong spot situation, and continued unfavorable conditions tend to moderate the bullish sentiment. In fact, many predict a sharp setback with the first indication of clearing. The market has been again looked up as a market for recession, the inclined to look for some relief in the event of a better response to the weather.

MONTREAL STOCKS Table with columns for Stock Name, Price, and Change. Includes Can. Cen., Op. High, Low, Cl. Sales, etc.

Tractions in London. The South American traction stocks were quoted as follows in the London Market (Canadian equivalent):

BOOM IN COPPERS Chas. Head & Co. to J. E. Osborne: Market opened strong with buying orders all around the room, and trades were frequent. The Coppers were strong, reaching new high points in almost all instances, but this temporary realization and under the lead of selling orders the market heated and then sagged. Norfolk and West. has been acting well and gained 1 1/2 points to-day, reaching the highest point in its history. Heavy floods in the west, in the region of the Mississippi River and its tributaries have increased traffic and done considerable damage. Closing was strong at rally, with outlook good for further advance and activity.

TIME FOR CAUTION Ericksen Perkins & Co. (J. G. Beatty) wired: Stocks show distribution on the rally. We think prices should work somewhat lower before we get a substantial rebound. From what we hear of the labor situation in the anthracite region, the men threaten to demand recognition of the union more strongly, or quite as strongly, as an advance wages—at any rate, they give out this impression. If this is the case, we would not be disposed to buy stocks except on drives for moderate turns. The trade situation in general is extremely good, but Steel reports indicate a falling off in orders for the second half of March. Looking ahead, we have several important matters coming up next week, among them being the demands of the engineers for increased wages.

WILLS PROBATED The following wills were probated yesterday, the bequests going to relatives: The late Mrs. Habel C. Manche, \$7,000; Mrs. Mary Henry, \$30,000; Joseph D. Burk, \$200; T. Forbes, \$100; Mrs. Jane E. Anderson, \$300; and Anna W. Farnsworth, \$100.

THE STANDARD BANK OF CANADA QUARTERLY DIVIDEND NOTICE No. 86 Notice is hereby given that a dividend at the rate of Thirteen Per Cent. Per Annum upon the Capital Stock of this Bank has been declared for the quarter ending 30th April, 1912, and that the same will be payable at the Head Office in this city and its Branches on the first Wednesday, the 1st day of May, 1912, to shareholders of record of 20th April, 1912.

BIG FIELD IN WEST FOR WINNIPEG CO. Water from the Famous Stanley Springs Will Be Used in the Manufacture of Lager Beer.

WINNIPEG, April 2.—(Special.)—Considerable interest has been aroused here in the announcement that the Stanley Mineral Springs Company has been taken over by the Stanley Mineral Springs & Brewing Co., Limited, and that half a million dollars was to be spent in enlarging the plant for the manufacture of lager beer, ale and porter.

There is no doubt about the market for the product as the old company has been unable to fill more than 50 per cent. of the orders for the mineral springs product, and with the increase in population in the West, it is certain that the demand for table water and soda will increase as rapidly as the demand for beer, ale and porter is increasing. It is believed that the company has made a great business mistake in arranging with the Canadian Northern Railway Company for the use of its products in the company's hotels, boats and dining cars.

London Sentiment Somewhat Clouded LONDON, April 2.—Money was harder and discount rates were firmer to-day. The stock market developed irregularity. The miners' market depressed home rails and Marconi shares reacted under profit-taking, but consoled were supported. Foreign rails and oil shares had a rosy tone, and copper stocks were strong in sympathy with American advices, but closed below the best.

American securities opened steady and about unchanged. Trading was quiet during the day, but prices advanced on light covering under the lead of Canadian Pacific. There was a slight reaction in the late trading, but the market closed steady.

YOUR WILL Should Have a Clause Appointing as EXECUTOR THE TRUSTS AND GUARANTEE COMPANY LIMITED 43 & 45 King Street West - Toronto

WHEAT MARKETS DULL HOLIDAY IN CHICAGO

Influence of Big Speculative Exchange Removed—Crop News Generally Colorless—Winnipeg Market Holds Comparatively Unchanged.

Winnipeg, April 2.—There was little doing in wheat options locally to-day, and prices were unchanged to 1/4c higher at the opening, and, with the Chicago market closed, and undecided cables from abroad, trading was decidedly dull and uninteresting. The close was unchanged to 1/4c lower.

Chicago, April 2.—Wheat closed 1/4c lower than on Monday, and corn unchanged to 1/4c higher. Antwerp wheat closed unchanged. Berlin 1/4c lower to 1/2c higher, and Buda Pest 1/4c higher.

the crop promises well. Offerings of native wheat are moderate.

Germany: Outlook for the new crop is generally good. Supplies of native wheat fair, and the export demand continues on a large scale.

Hungary, Italy and Turkey: Outlook is favorable.

Roumania: Crop promises favorable. There are fair arrivals at ports, and these are loaded immediately, as the export demand is urgent.
