## HUMBER BAY CLAIMS TWO MORE CANOES FROM UPSIDE CANOE

Francis J. Farley, Commercial Traveler, and a Lady Companion Perish in Waters Off Sunnyside.

### OTHER CANOES CLOSE BY BUT NONE COULD HELP

A double drowning fatality occurred in Humber Bay last evening at 9.30. The victims were Francis J. Farley, aged 29, traveler for the Parker's Dye Works, and a young lady companion whose name has not yet been ascertained.

The peculiar feature of the accident was the fact that a canoe could be seen among so many other canoes, and the occupants downed practically right under their very eyes.

Two hats, a man's coat, a camera, two pairs of gloves, two handkerchiefs and a canoe cushion were found, but no sign of the bodies of the men, and no letters in the coat, the identity of Mr. Farley was ascertained and a policeman was sent to the scene to break the news.

Mr. Farley is said to have been an expert canoeist for ten years and was a traveler for Parker & Co. W. G. Farley of the city assistance department is a brother of the deceased.

He was a member of the Toronto Tennis Club for many years and played goal for them as late as 1902. He was a member of the Commercial Travelers' Association.

### CANOERIST IS DROWNED.

Harry York of Smith's Falls Perishes in River.

SMITH'S FALLS, July 5.—(Special.)—Harry York, aged 22 years, was drowned here to-day by the capsizing of a canoe. With two companions named Leaver and Rabb he started out for a paddle on the river about noon. A gasoline yacht was coming behind them when one of the three turned quickly to call to someone on the launch and in doing so the frail craft was upset.

Leaver was the only one of the boys who could swim and with difficulty he got Rabb and York on the upturned canoe and started to tow it to shore.

York slipped off and sank before any one could reach him. His body was recovered almost immediately, but life was extinct.

Rabb became greatly exhausted and it was some time before he could be revived. York was a fine many young fellow and was the chief support of a widowed mother.

The America landed at Carsonville, Mich.

The occupants of the Cincinnati sail the disaster to the Ville de Dieppe and larder in Covert, Mich., to advise the life-saving stations of the accident.

Leslie Haddock and George Howard, pilots of the Cincinnati, report that their craft was in good condition, but that they gave up the contest to aid the American.

When the Ville de Dieppe left Chicago it was inflated to only 75 per cent. of its capacity, owing to a patch on the gas bag, the strength of which was problematical.

## ALL RED ROUTE IS CAMPAIGN FEATURE

Sir Wilfrid Laurier Gives Notice of a Resolution Pledging the Government to Its Support.

OTTAWA, July 5.—(Special.)—The "all red" is to be the feature of Sir Wilfrid's election program.

"That at imperial conference lately held in London the following resolution was unanimously passed:

"That in the opinion of the conference the interests of the empire demand that in so far as practicable its different portions should be connected by the best possible means of mail communication, travel and transportation, and that to this end it is advisable that Great Britain should be connected with Canada, and thence with Australia and New Zealand by the best means available within reasonable cost; that for purposes of carrying above the results of the conference should be submitted for the consideration of the imperial and colonial parliaments."

"That it is desirable that steps should be taken with all convenient speed to achieve the results aimed at in the said resolution.

"That this house do hereby endorse the terms of the said resolution affirming that Canada is prepared to assume her share of the necessary financial obligations."

"That in the opinion of this house it is desirable that the governments of Australia, Canada and New Zealand should, with as little delay as possible, agree a definite plan for carrying into effect the terms of the said resolution of the imperial conference, to be submitted for the consideration of the imperial and colonial parliaments."

### WINNIPEG TERROR CAUGHT.

Man in Jail is Believed to be Assailant of Women.

WINNIPEG, July 5.—(Western Associated Press.)—The police have made what will probably prove to be a very important arrest in a man supposed to be the perpetrator of a series of attempted outrages, at least one of which was admitted as yours in the neighborhood of Wellington-crescent, one of the best residential districts in this city.

The police refuse to divulge his name, but it is held to be the brother of a civil official and the case will probably be heard in camera to-morrow morning when the woman who was injured in the case will identify him. If he proves to be the man it is supposed it will relieve the district of a menace which has been a source of anxiety to the police for some time.

### REVOLUTION SUCCESSFUL

Paraguay Gets New Government Out of Case.

BUENOS AYRES, July 5.—Advices received here to-night state that the revolutionists have been victorious in the Argentine legation at Asuncion, officially notifying the minister that the revolutionary party had succeeded in overthrowing the Paraguayan government and that several of the Paraguayan ministers of state had taken refuge in the legation.

### GRAY AND BRYAN.

Judge's Managers Want to Reverse the Order of Nomination.

DENVER, July 5.—Josiah Marvel and Richard J. Beaulieu, Democratic campaign managers for Gray of Delaware, have mailed an open letter to all delegates to the convention, urging the nomination of Judge Gray for president and W. J. Bryan for vice-president.

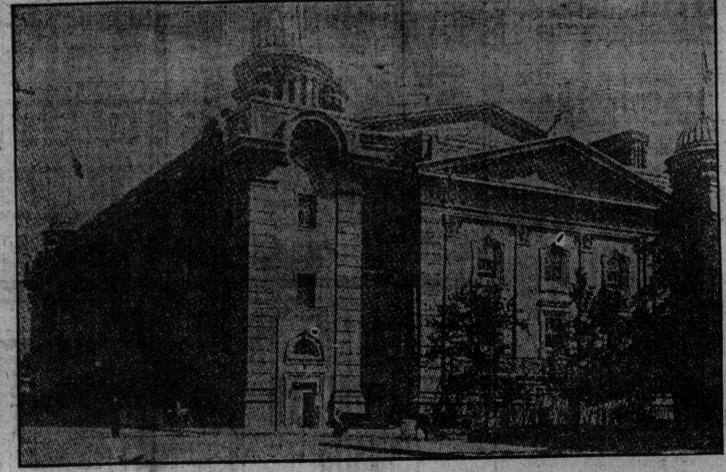

The revolutionists have appointed Dr. Emiliano Gonzalez Navero president. He held the office of vice-president in the government which has just been ousted.

### GRAY AND BRYAN.

DENVER, July 5.—Josiah Marvel and Richard J. Beaulieu, Democratic campaign managers for Gray of Delaware, have mailed an open letter to all delegates to the convention, urging the nomination of Judge Gray for president and W. J. Bryan for vice-president.

The revolutionists have appointed Dr. Emiliano Gonzalez Navero president. He held the office of vice-president in the government which has just been ousted.

## DENVER'S NEW CONVENTION HALL.

The Democratic nominating convention will meet in this great building on July 7 to nominate candidates for the presidency and vice-presidency. The hall has just been erected in the heart of the city and cost \$400,000. It is a permanent building, but will be christened by the convention. Four portraits only will adorn the walls next week: those of Washington, Jackson, Jefferson and Cleveland.

### FOSTER PLAYS LITTLE TRICK ON MEMBERS

Fights Adjournment and Leaves Rest to Swelter—Gallery Celebrates Triple Birthday.

OTTAWA, July 5.—(Special.)—In a sweltering atmosphere the house sat till nearly midnight on Saturday.

At 8 o'clock it was suggested that, as a good day's work had been done, it would be cruelty to human beings to compel the members to do more, but Mr. Foster protested against the adjournment as "wasteful waste of time and money," and the government consented to go on.

In the evening Mr. Foster was not there. Others perspired, while he sought cooler places than the heated chamber.

Mr. Pugsley's estimates were on and a large number of items for public works in New Brunswick were passed. The newspaper men found time to indulge in a little celebration in "The Ark," the occasion being the joint birthday of Fred Cook, E. W. Grange and the United States. Among the distinguished guests of these popular works were Mr. Speaker Sutherland, Sir Frederick Borden, R. L. Borden, Col. Sam Hughes and half a dozen other M.P.'s.

### INDEPENDENTS IN WEST.

Effort Will Be Made to Place Candidates in Field.

The World is in receipt of a circular letter addressed "to the electors of Moose Jaw constituency, signed by Ed Stephenson, on behalf of a committee, saying:

"At a meeting of the non-partisan electors of Moose Jaw and district, it was decided to place an independent candidate in the field in the approaching federal elections.

"A convention will be called in due time, of which due notice will be given. In the meantime kindly canvass your particular neighborhood and advise our secretary of the strength of the independent cause where you reside.

"Our object is to elect a representative who will be in touch with our regulations, and who will support legislation in the best interests of the country.

### FOR SMUGGLING CHINKS.

Windsor Man is Arrested by United States Authorities.

WINDSOR, July 5.—As he was about to board a pleasure steamer in Detroit in company with two ladies, George Richards of Windsor was recognized by a detective and arrested on a charge of Chinese smuggling. Richards was on his way to Bois Blanc and when the officer stepped up to him he merely accused himself of being obliged to leave his lady friends and offered no resistance.

### WILL HAVE NEW PASTOR.

German Lutheran Extend Call to Patterson, N.J., Divine.

As the resignation of Rev. P. W. Muller, pastor of the German Lutheran Church, took place on May 1 and was accepted by the congregation, a call was extended to Rev. D. A. Redder, pastor of the German Lutheran Church, to take part in the Quebec tercentenary celebration.

### ONTARIO'S MOST BEAUTIFUL

The World is asking its readers to name the most beautiful thing in Ontario. Here are some of yesterday's entries:

The Maple Leaf, beautiful in itself and the emblem of the most beautiful country in God's earth. Toronto, July 4. Wm. Back.

Ontario has many natural attractions, but none more beautiful than her daughters. Splendid to look upon, active and cheerful, broad-minded and intellectual, they are the very sunshine of life; bright, warm and encouraging, lightening our lives with cheerful companionship and making us feel that happiness is ours. (Dedicated to them all.) Jos.

My baby is the most beautiful thing in Ontario. I am going to send its picture to the editor of The Sunday World to prove it. Mother. West Toronto, July 4.

God never made anything more lovely than an Ontario autumn landscape. I vote for it. A. Williams. Toronto.

The most beautiful thing in Ontario I say is Niagara strawberry. Kattie. Broadview-avenue, Toronto.

Editor World: The most beautiful thing in the world is the kiss my two youngsters, aged 6 and 8, give me every morning. Daddy.

### CANAL READY FRIDAY.

Dredging Work is Rushing on Break at Cornwall.

CORNWALL, July 5.—The water was let into the Cornwall Canal yesterday morning and in the afternoon two big dredges were busy eating into the north bank for the new channel which will be used until the broken bank is repaired.

One dredge owned by M. A. Cleveland of Cardinal is working from the west, and the material dug out is being deposited in a bay of the canal. The eastern dredge is owned by the Randolph Macdonald Co., Limited. Its dredging are being towed out into the river. The big wooden dyke stood the strain splendidly, and there are only one or two trifling leaks which will probably cease as soon as the dredging is completed.

Men and teams with plows and scrapers are working on the bank between the dredges. The canal will certainly be ready for navigation on Thursday or Friday at the latest.

### TO LIFT COASTING BAN.

Fielding Favors Repealing Restrictions on Foreign Vessels.

OTTAWA, July 5.—(Special.)—Yielding to the protests of the Dominion Coal Company and the Mackenzie and Mann interests, Mr. Fielding will move to amend the Canada Shipping Act by giving the governor-in-council power to rescind the order-in-council abrogating the coasting privileges of foreign vessels. The order was to go into effect in January next.

Under Mr. Fielding's proposed amendment the governor-in-council may rescind the order-in-council altogether or in so far as it applies to foreign countries, which give the same privileges to Canadian vessels.

### DECREES DEATH FOR HIS \$15,000 POINTERS

Owner Who Had to Pay \$5 Per Bark Finally Arranges to Give Kennels Away.

NEW YORK, July 5.—Charles V. Gabriel, a wealthy New York lawyer, who resides at No. 38 Clinton-avenue, Montclair, N. J., gave Dr. James McDonough, veterinary surgeon, a shock yesterday morning when he asked him to come to his place and kill his dogs. Mr. Gabriel has made a specialty of breeding high-class pointers.

When Dr. McDonough reached the lawyer's home and saw the splendid kennels, he asked, "Which dog do you want killed?"

"Every one of them," replied the lawyer.

"What!" exclaimed the veterinary; "I cannot put these dogs to death; it would be murder. I could never do it."

"I must get rid of them," said Mr. Gabriel.

"Give them away, then. Don't kill such beautiful animals," suggested the veterinary.

"Do as you like with them," said Mr. Gabriel, "but I don't want to hear of a bark when I get home from the city."

Dr. McDonough did not waste any time in finding good homes for the dogs, which are valued at \$15,000. There were 26 dogs in all, and, according to Mr. Gabriel, the ordinance which prohibits dogs from barking in Montclair was in a very short time strictly enforced, making him a poor man at the rate of \$5 a bark.

Four of the dogs are valued at more than \$1000 each. Two of them Dr. McDonough says he will guarantee good homes for, even if they bark every second in the day. Mr. Gabriel gives the veterinary the pedigree of every dog.

### TO FIGHT SKYSCRAPER.

Equitable Policyholders Object to New Building.

NEW YORK, July 5.—If the directors of the Equitable Life Assurance Society finally decide to build the 62-story "home," for which plans were filed in the New York Bureau of Buildings last week, certain policyholders who regard the structure not only as an architectural monstrosity, but as a financial Tower of Babel, will doubtless appeal to the superintendent of insurance, or, if necessary, to the courts, to prevent investment of their funds in such an enterprise.

The estimate of \$10,000,000 as the cost of the building is believed by them to be far under the amount of policyholders' money that eventually would be piled up, with no guarantee that it would earn reasonable interest on the investment.

### GIRL KILLED IN RUNAWAY.

Daughter of Farmer Seizes Horse by Lifting Parasol.

ST. CATHARINES, July 5.—(Special.)—Alvina, the 20-year-old daughter of W. D. Roland of Louth Township, was killed in a runaway yesterday. She had been into the city market, and was returning home along the Great Western Hill when she attempted to raise her parasol.

## BRYAN IS BOSS OF DENVER RALLY

Will Dominate the Convention Which Opens To-Morrow—Gayer of Gotham for Vice-President.

CHICAGO, July 5.—The Tribune's Denver correspondent writes: Denver is warming up. The big men of the party are pouring into the city on every train, and Democratic politics begins to be mixed up by the battles. There are half a dozen lively fights on foot, and, although Bryan's nomination is as certain as ever it was, the vice-presidential situation is shifting, the platform fight is becoming fustian, and the arrival of the New York leaders and Chicago Democracy has enlivened the streets of Denver until it begins to look like a real convention city.

There is also an abundance of live convention news to be had for the asking.

In the first place there is a brand new vice-presidential candidate in the person of Judge William J. Gayer of New York. The leaders of his delegation, who arrived here to-day, including the head of Tammany Hall, seem inclined to unite upon him, and if they do he will be a strong candidate before the convention.

Alton B. Parker, the late Democratic candidate for the presidency, is likely to be doubly humiliated, as his friends feared he would be if he came to the national convention. He has been repudiated by Murphy and compelled to take water on his resolution regarding Grover Cleveland. Any manifesto of that kind which is adopted by the convention will be so pruned by the national committee that it will contain nothing antagonistic or offensive to Bryan Democracy.

Beauregard this, former Judge Parker may be denied the privilege of representing his state on the resolutions committee, for which he was originally asked if he is given the place at all it will only be as a concession to him because he occupied a distinguished position in the party four years ago.

Bryan Owns Whole Show. It was developed by my personal investigations to-day that Bryan and the radical element of the convention will be in absolute control of the committee on resolutions. They can adopt any radical plank they choose, and they will do this if it goes into it. On the other hand the minority is composed of some of the strongest men in the party. The probable result of a platform fight is a distinct compromise, as was the case at Chicago. The plank will not go to the extreme demanded by Compers and his labor associates, but there will be a declaration in favor of a distinct limitation on the right of injunction.

Judge Gayer, however, for the vice-presidency, which was brought here in a hermetically sealed case and was opened by the New York leaders as demanded by Compers and his labor associates, but there will be a declaration in favor of a distinct limitation on the right of injunction.

There may be good politics in this. Bryan cannot hope to get the vote of the substantial element in New York. He is as far away from them in spirit as ever he was. Tammany wants to carry the state, and to do this it would have the Bryan strength above the Harlem and thru Gayer might get the vote which went to the Independence League candidate in the last local election in the tenement house district and over on the east side.

Judge Gayer would not inspire confidence among the plutocrats of New Jersey nor the substantial farmer citizens of Pennsylvania, but he certainly would be a drawing card with the people to whom Hearst appealed so successfully and who are likely to stay out of the Democratic camp unless there is some one of the ticket who represents their extremely radical ideas.

There is a good deal more of personal state politics in the New York delegation than anything else. The "Bills" and the "Daves" are not "Bills" known by bitter experience that even if Bryan were elected president they would have little to say in the national administration. They have something at stake in the state and the good things in the delegations are to be split up accordingly.

The first plum to be shaken from the tree will be the position of member of the national committee. Now

LA PATRIE NOW REORGANIZED

In Rather Surprising Article, Lauds the Premier and Foreshadows His Early Retirement.

MONTREAL, July 4.—(Special).—The week end sensation in political circles is the tremendous furore excited to-day by La Patrie newspaper, which for months past has been talking of its independence in politics. In fact, it is only a few weeks ago that the paper's leader is devoted to a eulogy of Sir Wilfrid Laurier, declaring that there will be but one voice to proclaim his patriotism and his qualities as a statesman, and that will be the voice of the whole people.

The other day a Sunday paper accused Mr. Tarte's organ of having come under the influence of the prime minister, and a good many were surprised to see no repudiation of the charge.

To-day, however, the feline jumped straight out of the sack, as La Patrie's leader is devoted to a eulogy of Sir Wilfrid Laurier, declaring that there will be but one voice to proclaim his patriotism and his qualities as a statesman, and that will be the voice of the whole people.

La Patrie says that although the prime minister is a very well man, it is more than probable that the next parliament will see his retirement.

The crowning of his career of prime minister depends of course upon the verdict of the electorate at the coming election, says La Patrie, "but we are convinced that Sir Wilfrid Laurier can await that verdict with confidence because the people, conscious of his generous support which they have given him during the past twelve years, will still remain faithful in this the most solemn occasion of his life."

It is stated here that the article of La Patrie was written by no other than the postmaster-general, who is one of the two members of the cabinet able to write a newspaper article. This makes the illusion of Henri Bourassa all the more important.

For La Patrie says that the election of Henri Bourassa gave certain people an opportunity to understand that the Nationalist leader was an indication that Laurier's prestige was on the wane, but that the paper does not accept this theory, as Mr. Bourassa stated in his speeches that he had no quarrel with Sir Wilfrid Laurier.

"We do not believe," concludes the article, "that Mr. Bourassa intends to interfere in the Dominion election, his attention being centered alone in the provincial arena."

Whether this writer of the article of La Patrie was or was not the postmaster-general, it is quite patent that he is not at all pointed on Bourassa's rank of an admiral, which is a well known fact that Mr. Bourassa will take part in the very live part—in the coming elections for the house of commons.

ADMIRAL TO BE GUEST. Rear-Admiral Kingsmill to Be Entertained at Guelph.

GUELPH, July 5.—(Special).—It is now definitely understood that Admiral Kingsmill, recently appointed commander of Canada's branch of the British navy, will be a guest in this city during the old home week.

Admiral Kingsmill was born in this city in the residence where Charles Eaton now lives. He will be one of the foremost of the old Guelph boys to visit the home of his childhood during the old home week next August.

Arrangements have been made by the city to put up at the present time. It is understood a sword that would meet all the requirements would cost in the neighborhood of \$2500. Consequently the aldermen are of the opinion that it would be better to present Admiral Kingsmill with the suitable address in the council chamber.

DEPARTMENT IS NOT LOYAL TO CANADA

United States Marine Journal Stands Aghast at Palpable Disloyalty Shown in the Ice Breaker Contract.

The Marine Review, published at Cleveland, administers a stinging rebuke to the Canadian Government for its lack of patriotism in taking contracts abroad which should be placed in shipyards at home.

There is little sentiment in business between individuals. But there is supposed to be some slight patriotic sentiment in a government.

The Marine Review, after referring to the placing of the contract for a government ice crusher with Vickers, Seigs & Maxim, Barrow, says: "That the ways of government officials are devious and past finding out we are frequently reminded as they are in the United States the recent action of the Canadian Government in placing an order for another ice crusher steamer with an English firm is evidence, Canada pays a bonus to shrimboconofa, plants as an assistance and encourages the building and operating of a ship, and then as soon as the ship is built for them to do and which properly belongs to them, totally regardless of any difference in price, send it abroad."

"It cannot be urged as a reason that a better ship can be had, because the Canadian and American, have had more experience with ice and breaking craft than all the ship builders of the world put together. The only notable work in that direction which has followed is done exactly the lines developed here, and some of the methods adopted in securing the information was far beyond the bounds of decency, to say nothing of honesty."

"To be sure that this second ice breaker cannot be taken thru the canals, which is true, but while this may be a plausible explanation for the house of parliament or the general public, the man who knows will be more likely to conclude that the dimensions were conveniently arranged for that very purpose. There are naval architects on the lakes who follow without hesitation, undertake to produce a ship within certain dimensions that will do far more execution on St. Lawrence River ice packs than the ship proposed and for less money. It is a well-known fact that the boat having a form best adapted for ice work will never be driven at 18 knots per hour, we might say it cannot be, and those who seek anything of the sort are either not informed on the subject or are simply throwing their money at the birds."

"It is a rank injustice to the Canadian builder and the government itself has added a foul wrong when it went abroad and placed orders for work that by every right belongs to him. The question of cost has no bearing on the case whatever."

LONGBOAT IN IRELAND. Indian Marathon Runner's Work Amazes Irishmen.

LONDON, July 4.—"Good luck" went up from a hundred throats as Longboat started on his 14 miles run from Killybegs on by Ballintraa creamery to Killybegs thence to Killybegs, then to Killybegs. Quite a big procession of cars and cyclists followed Longboat but when four miles was reached not half a dozen of the original muster were to be seen. When 12 miles had been covered he negotiated a steep hill as if he had not traveled a half mile that day, and he finished the last ten miles with a swiftness that was amazing and which provoked a scene of unbounded enthusiasm.

Hotelman Goes Free. WINDSOR, July 5.—(Special).—T. H. Wanted a Murder. Some one called up No. 2 police station yesterday afternoon and said that a man had been murdered at 70 Elizabeth-street. Acting Inspector Charlton and Acting Detective McKinney responded and found Harry Goodman of 58 Chestnut-street bleeding from the mouth. He said he had gone to the Elizabeth-street house upon invitation of David Eckley and as soon as he entered somebody jumped upon him. He was stunned and accused Benjamin Bremer of 36 Albert-street of the assault. An investigation developed that Bremer was asleep at the time. No arrests were made.

CANADA AND THE IMPERIAL PREFERENCE.

Considerable concern is being evinced in Britain by public men and newspapers favorable to inter-imperial preferential trade over the negotiations of foreign commercial treaties by Canada on the basis of reciprocal tariff concessions.

Stress is laid on the admission of Mr. Fielding, the Dominion Minister of Finance, that the general result of what is known as the intermediate schedule, established to admit of such reciprocal arrangements, is to reduce the British preference by one-third, taking the general tariff as the standard.

Let us, then, put it down as an indisputable proposition that in America—Canada and the United States—all men reverence a university degree. And what they reasonably want, they should have.

BRITISH TERRITORIAL ARMY.

Little attention has been paid here to the working out of the British war secretary's army reform plan. The period allowed for the enrolment of members of the old volunteer battalions in the new territorial army expired on June 30.

Various causes have been advanced for the unwillingness of the old volunteers to enter the territorial army. Judging from the tenor of the views that have been made public the chief objection can be found in the disinclination of recruits to place themselves under the strict rules and severe and arbitrary terms of military law.

NEW YORK PUBLIC SERVICE BOARD.

On July 1 the public service commission for the City of New York convened the first year of its existence. Invited to express his opinion regarding the results accomplished, Chairman Wilcox made an interesting statement, which shows the broad view taken by the commission of its duties and powers, and the multiplicity of the details of which it takes cognizance.

In other words, the New York public service board conceives that it has been called into being for the purpose of protecting the citizens against unfair treatment on the part of public service corporations and compelling observance by these corporations of the duties incumbent on them as public trustees. This is unquestionably the true view of the work devolving on a board created for the purpose of reorganizing the public service.

even if the present government undertook the responsibility of advising its authorization. If it is to be avoided some modification of the terms of enlistment in the territorial army seems to be imperative, and the militia retained as an integral part of the scheme.

A NIGHT UNIVERSITY.

In spite of the prating in Canada and the United States about democratic equality amongst men, a singular attitude affords conclusive proof that flat equality is not really desired, and were it actual, would be undesirable.

How deplorable requirements of this kind will appear to Canadian corporation politicians of the type of the Hon. A. B. Aylesworth, who see no impropriety in public service corporations making everything out of the public they possibly can!

DISTRESS AT THREE RIVERS.

Rev. J. R. MacLeod of St. Andrew's Church, Three Rivers, Que., writes: I notice in a Toronto paper a statement to the effect that the sufferers by the recent fire in this city are not in need of aid, and such a statement was attributed to the mayor of Three Rivers.

SING SING TO WASH NEW PRISON PLANNED

New York State Will Erect the Finest Penitentiary in America.

ALBANY, N. Y., July 5.—On the west bank of the Hudson River, on the border line of the Counties of Orange and Rockland, the State of New York is to build the model prison of the world, to take the place of the obsolete, celebrated, Sing Sing.

To provide a suitable site for this great penal institution, the state has purchased, at a cost of \$750,000, a tract of 600 acres on the west bank of the Hudson, midway between the Village of Fort Montgomery and Iona Island, and about one mile from each of the points named.

The line separating Rockland and Orange Counties will pass thru the prison plant, which will include 30 acres of ground, enclosed by a concrete wall more than a mile long, 30 feet high and four feet wide at the top.

The principal feature of the prison is, naturally, the cell house, a building 1200 feet long, the largest of its kind in the world, having 140 cells four tiers high, designed for one convict for each cell.

**CROPS TO CLEAR MONEY FROM HIGHER PRICES**  
 But the One Other Essential is Wanting—Canadian Securities Are Steady on Small Business.

World Office, Saturday Evening, July 4.  
 The Wall-street market has made a record this week at least for upwards of a quarter of a century. Total dealings for a complete day (Friday) fell to the small amount of about 70,000 shares. When it is considered that a few weeks ago transactions of over one million shares a day were common occurrences, it can readily be seen that the banking interests, including Morgan, Harriman, et al, have ceased endeavoring to invest the public for the time being. In other words outside speculators have been worked out, and a period is now being allowed for replenishing exhausted exchequers.

If Wall-street securities were ever amenable to current conditions they should now succumb to the array of damaging evidence. Railroad earnings are averaging a decrease of nearly 25 per cent from those of last year. Recoveries are quite frequent and embarrassed because of their inability to create new obligations. The trend of affairs is shown by the immense falling off in the government receipts compared with the expenditures, and is only confirmed by the knowledge that some of the most important government securities have not been sold since the beginning of the year.

There are periods in the New York market, as in every other market, when the public becomes absolutely tired of financing a losing proposition. The London market has been passing through a period of this kind only recently that a ray of light has been perceived indicating the return of public interest. Wall-street has mirrored the public sentiment for upwards of seven years, and the market following to-day is but a wreck of what it was when the public was in its prime, and a whole continent was contributing to its upkeep. Current speculators (it would be difficult to name them as investors) are well informed to be hoodwinked by quotations, are taking profits as fast as they can see them, and the trading has received itself into a matter of diamond cut diamond.

The bank statement on Friday was a complete revelation. July disbursements accounted in part for the losses shown, but it was physically impossible for a moderate proportion of the disbursements to have entered into the computation of the financial institutions made up of \$60,000,000 in revenue, \$48,000,000 of this loss being due to the shrinkage in income on about \$100,000,000 of securities, a considerable loss in internal revenue, much of which was attributable to the increase in the cost of the crop, and, however, the government closed its books showing a surplus of \$87,000,000, a record for the year, which means a loss of about \$100,000,000 in the crop. Congress has complicated matters by making extravagant appropriations at a time when economy should have been the watchword. The treasury, however, is still in a strong position. Atchafalaya dam, which cost about \$23,000,000, of which more than \$10,000,000 is in the dispository banks. The deficit may be reduced materially by a call for \$50,000,000.

**Canadian Northern Railway.**

**MARKETS INFLUENCED BY HOLIDAY SEASON**  
 Selling, Brought About by Fire News, Was Well Taken Despite the Dulness.

World Office, Saturday Evening, July 4.  
 The market for Cobalt securities is suffering to some extent from the holiday season, accompanied as it usually is with a lack of interest in anything except that of most pressing nature. In other words the usual mid-summer dulness has stricken the market exchanges. Considering that such a large concession to the market was remarkably well taken, it is also considered that some unexpected selling was produced by the news of a fire in the camp. In the early part of the week it was thought that the conflagration would cause damage to many of the working properties, and that shipments to the market would be stopped. The loss from the fire would be serious, and with one or two exceptions no damage of consequence was done to the properties of any of the standard mining companies. The selling, which was brought about by this news, was well taken, and the market for the time being advanced to a respectable level. Improved outlook in the business world there may be a respectable advance from to-day's prices, both for speculative shares and for the more solid investment securities.

**HENRY CLEWS' VIEWS.**  
 Were it not for the great abundance of cheap money, many securities would not probably be selling at their present level. The market leaders, however, have unlimited funds at their command at low rates, and are in a position to sustain the market against all ordinary adverse influences. Briefly, the market is in a position to sustain the market against all ordinary adverse influences. Briefly, the market is in a position to sustain the market against all ordinary adverse influences. **DETROIT, Mich., July 4.**—Heilmann, the defaulting cashier for Nelson and Co., Toronto, arrested here, denies having played the races.  
 While on his way to the bank with the \$1100 he was seized with a sudden impulse to run away and have a good time.  
 "In Buffalo I met a woman, and we 'killed it,'" he says. "When we started for Detroit four days ago, nothing was too good for us. We had the most expensive parlor on the boat, and bought all the champagne in sight. I never thought of my creditors until I was arrested."

**FELL FROM THE ROOF.**  
 W. J. Brown, formerly a hotel proprietor and at present owner of a brick mill on the Weston road, had a narrow escape from death at midnight. He went up on the mill to look around and see that everything was all right. He was tired and fell asleep on the roof. Then he rolled off the roof and fell 20 feet.  
 He was removed to the Western Hospital and, it is believed, will recover.

**Lightning Storms Have.**  
 HESPELLER, July 5.—During a heavy electric storm, which passed over this section this evening, a man, a woman and a child were killed. The man was George Wehner, five miles southwest of here, was struck by lightning and completely burned to death. His wife and child were also killed. The man was a farmer and had a large number of other farm implements were destroyed.  
 The insurance on the barn was \$800 and on the contents \$500.

 Prosecutions of Branchion People May Follow.  
 GALT, July 4.—(Special.)—One of the most zealous and devoted agents of the Society for the Care of Neglected Children is Rev. J. R. Miller, Berlin. His good work along child-saving lines has won for him the heartfelt admiration of the whole Christian and philanthropic community.  
 Rev. Mr. Miller was here Saturday morning for Branchion, which is within his jurisdiction, to investigate a case reported to him in which, it is alleged, a girl of tender years is domiciled with a family of colored people and is suspected of being the victim of an Indian of the neighborhood.  
 The circumstances as detailed are of a most deplorable character, and it cannot but be pretty well known that Mr. Miller will enter criminal proceedings against the parties implicated in the case.

**BLEACHERS COLLAPSED.**  
 Score Injured at Ball Game in New Bedford.  
 NEW BEDFORD, Mass., July 5.—Nearly a score of persons were injured, one probably fatally, when the bleachers at the local ball grounds of the New England League collapsed Saturday, carrying down 1500 spectators. Five were taken to a hospital and 14 others were removed to their homes in carriages, while many more sustained slight injuries.  
 Want School Investigated.  
 SAULT STE. MARIE, July 5.—For some time past there has been friction between the principal of the Shingolen Indian Home at the Soo and certain members of the teaching staff. These difficulties have culminated in the retirement of two teachers, and it is understood that charges are being made regarding the manner in which the institution is conducted. It is stated that the matter has been brought to the attention of the department of Indian affairs at Ottawa with a request for a thorough investigation into the affairs of the house, which is partially maintained by government grants of money.

 HAMILTON, July 4.—The vaudeville war in Ontario has been practically ended by an agreement between the Barnett and Savoy Theatres, by which the former will play variety and the latter will run a stock company, and the profits will be pooled.  
 William Morris, the New York manager, had planned to hold the Savoy, to secure a house in Toronto, and another in Montreal. Morris will now be compelled to confine his fight against the Keith Circuit to the United States.  
 G. Tice Bastedo of the Traders' Bank, Carleton Place, sailed on the Virginian Friday for a two months' trip through England, France and Germany.

# The "Soul Kiss"

There is a stir in millinery circles in New York and Paris. The "Merry Widow" is being championed and condemned with interesting vigor by the critics of fashion. And in the horizon there has drifted a new hat known as the "Soul Kiss." It's smaller in size than the crown of the "Merry," and has little in the line of decorations. We are undisturbed by these excesses in designs, for these we sell are the select of the well-dressed New Yorker.

## MOOSE MOUNTAIN MINES IMPRESS CITY VISITORS

Board of Trade and Civic Delegations See Some of Ontario's Mineral Wealth.

In the early 90's men who were lured into the northern regions of Ontario by the prospect of gold near Vermilion River, tramped along the top of a ridge and wore the surface off rock formations. As a result was found to exist. It did not suggest fortunes to the gold seekers, however, and they pushed on. After returning they gave no attention to the rich deposits that have since been located. Hence the district was abandoned. Some years later the story that iron jutted out of the hill sides awoke a lively interest in men who have been commercial instincts and they sent agents to make investigations and bring back reports. The consequence of this was that Sudbury men bought the iron deposits at Moose Mountain, 30 miles to the north. About 1902 they sold their holdings to capitalists, among whom were Messrs. Mackenzie and Mann of the Canadian Northern Railway.

**Possibilities of Wealth Inspiring.**  
The possibilities of vast wealth being blasted out of the rock inspired these promoters and their associates to construct a line northward from Sudbury and to install the necessary machinery, equipment, etc., for handling and crushing the ore in its crude state.

As there is no smelter in northern Ontario for the treatment of such minerals it was found necessary to find an outlet at some harbor on the Georgian Bay so that it might be transported by water to whatever city taking the lakes offered smelting arrangements.

To carry out this idea a branch line had to be laid thru the rough and seemingly unproductive territory stretching from the main line of the

Canadian Northern Ontario Railway (as it extends from Toronto to Sudbury) to Key Harbor, which was selected at the place for shipping.

This was done. Great hills of rock were gone thru, numerous rivers were bridged, forests were cleared and valleys were filled. When the harbor was reached great traffic works were laid out into the harbor to permit of ore being dropped from freight cars and conveyed to boats. Iron ore running in value from 60 to 64 per cent. is now ready for shipment and the harbor accommodation will in a few weeks be prepared to receive it.

This in brief is the story of the trail and of the marvelous things that have been done in the north while the wheel of Canadian industry has turned noisily on.

**Quiet Development of North.**  
Few Canadians, doubtless, are fully aware of the development enterprises that have been going on in various parts of the Dominion. Certainly few are aware of what has been done in the north during the last few years, judging by the surprise the visitors from Toronto expressed who were taken up by C.N.O.R. officials on a special train Friday and who returned to this city Sunday morning at 1 o'clock.

It is difficult to give a picture of what this construction activity has done for the districts in which it has been carried on and for Canada generally. But it may truly be said that the world will hear much in the future of these north lands as a consequence of the initiative of those who have endeavored to open them up. Not only will more business be created in the Dominion, but Toronto and western Ontario will benefit thru the increased transportation facilities between the north and the south. Eventually it is supposed to link up the northern part of the C.N.O.R. with the Canadian Northern at Port Arthur.

To W. H. Grant, manager of construction of the new line at Moose Mountain, and to the contractor, Angus Sinclair, nearly everything is due for the splendid condition of the road, which should become one of the busiest in the Dominion. Many serious difficulties had to be overcome in a country which is peculiarly unpromising. But Mr. Grant has had a long and successful career, having supervised practically all of Mackenzie and Mann's construction work on the rocky ground that has to be overcome. He started with Mr. Mann when the latter was contracting years ago. Mr. Sinclair has also established his reputation in railway circles for careful and conscientious effort.

The pleasure and benefit derived by the guests from their trip were dwelt upon at length before Toronto was reached Saturday night, when speeches on the train were made by Mayor Oliver, L. H. Clarke, Noel Marshall, R. C. Steele, Controller Hocken, F. W. Gray, W. J. Gage, F. G. Morley and others. All remarked on the importance of the opening of the new line, which should become one of the busiest on the Georgian Bay. D. B. Hanna, third vice-president; A. J. Hills, superintendent; Mr. Hawkins and Mr. Sinclair suitably replied.

The first regular passenger train from Toronto to Sudbury was met Saturday afternoon at Walsbridge, and carried a goodly number of passengers.

**MORE HORSES IN PARIS.**  
They Are Increasing in Spite of the Auto's Competition.

While New York and London are talking about the displacement of horses in the city streets and the possibility of their final disappearance from the city thru the growing use of electricity and of automobiles, the number of horses used in Paris grows at a rapid rate, says The New York Sun.

The latest enumeration of the vehicles circulating in the French capital shows an increase in horse-drawn carriages for public hire alone of 33 1-3 per cent. in eight years. In 17 years omnibuses and street cars have increased almost two and a half times in number.

There are now 16,000 carriages for public hire drawn by horses, as against 12,000 in 1900, and the omnibuses and street cars have increased from 845 in 1884 to 2,000.

Private carriages drawn by horses number 9,000, merchant wagons 18,700, trucks 40,000, carriages and wagons of the municipality 1800.

Of automobiles in Paris there are 12,000 in private ownership and there are 2250 automobiles for public hire.

## WORLD'S SHOTS TO COMPETE AT BISLEY

Crack Shots of All Nations Will Take Part in the Olympic Shooting Contests Beginning This Week.

BISLEY, Eng., July 4.—The full arrangements have been completed for the great gathering of marksmen which will be held by the National Rifle Association in Surrey, beginning next week, and it is now possible to appreciate the extent and character of the assembly by the light of the later entries. The special gathering this year includes the Olympic and Bisley shooting.

With one or two exceptions, all the great military powers are sending official teams, and Germany and Russia (the latter instead of Finland) will take part in the contests. Thus the only first-class powers not included in any of the very few previous international will this time be represented on English soil. The contest will be for the world's Olympic championships in the various forms of shooting, and the rifles in use by the various nations will be seen and tested in opposition. At the eleventh hour the U.S.A. rifle team has been entered also, as well as the revolver side previously entered alone.

In addition to the foreign representatives who come for the big international, there are also present teams from the chief states of the British Empire, who, for the purpose of the contests, it is interesting to record, are reckoned as nations. There will thus be camped side by side the chosen marksmen of the entire globe. They will constitute the world's greatest rifle camp and one of unprecedented character, in which the flags of all nations will be flown in one long line in front of the quarters of the national teams. It will be the most important muster of marksmen that has ever been brought together, and will be more representative than any gathering in the annals of shooting in Europe, America, India, or anywhere else.

**A Wonderful Array.**  
This muster has, as already stated, a dual character, comprising the Olympic rifle matches and the ordinary Bisley meeting, run as 15 days' continuous shooting. The former specially draw the foreign teams together, while the latter is responsible for the presence of the empire teams, and this combination will be unique in the history of all rifle camps. The following nations and states will be represented at Bisley by their official teams: Great Britain, Denmark, France, Greece, Russia, Sweden, Norway, Hungary, Australia, Holland, United States, West Indies, India, Malay States, Fiji, Queensland, South Africa.

In addition to these representative teams there will be private entries from the United Kingdom, Natal, Cape Colony, Transvaal, British Guiana, New Zealand, Rhodesia, Egypt, Ceylon, Mediterranean, East Africa, Tasmania and Italy. Teams will also be in camp from the universities of England, Scotland, Ireland, Wales, the Navy, the Army, Marines, Territorial, Special Reserve, the Universities and the various public schools, the counties, regiments and rifle clubs. The teams, all told, will number over 200, and the rival competitors will account for about 50,000 entries.

The foreign teams arrive at Bisley about Monday and will be accommodated in huts as the guests of the National Rifle Association, who provide all expenses, will furnish a mess room, and will entertain the visitors during their stay. Cinematograph and other entertainments will be given in the evenings. The management of the Olympic firing is in the hands of the National Rifle Association for the Olympic committee.

**For World's Championship.**  
This great rifle camp practically opens on July 8, when the British army championship will be commenced. On July 9, the Olympic international begins and the big team match for the world's championship with the rifle will be shot on July 10 and 11, 200, 500, 600, 800, 900 and 1000 yards. On July 11 the Olympic contests end; and after the intervening day's interval the Bisley fortnight opens. The big Empire team match, the Kelpore, and also the Mackintosh, will be fired on July 17.

The Olympic team contest for the world's rifle championship will once again bring Great Britain, the United States of America, and Canada into competition, a fact of some interest, owing to the keen shooting of recent years. France will be strongly represented by Merillon and his colleagues, but of Germany, Denmark, Greece, Sweden and the others no comparative estimate of strength is available. This, of course, vastly increases the general interest to see how our men compare with, say, Germany and Russia.

Some idea of the giant preparations necessary for this unique shooting muster may be obtained from the fact that for one competition alone, that of 300 metres, for individuals, Lieut.-Col. Cross, the honorary secretary, N.R.A., has ordered 200,000 rounds of ammunition, "clean targets" by refecting frames as the contests proceed. The Olympic events have been drawn up as follows:

**Rifle**—The international match, July 10, 200, 500 and 800 yards; July 11, 800 and 1000 yards. Individual match, July 9, 1000 yards. Team match, July 9, 300 metres. Individual match, July 10, 300 metres.

**Miniature rifle**—Team match, July 11, 50 and 100 yards. Individual match, July 10, 25, 50 and 100 yards. **Revolver**—Team match, July 11, 50 yards. Individual match, July 10, 50 yards. **Running Deer**—Team match, July 10, 110 yards. Individual match, July 9, 110 yards.

Lord Chelysmore and Lord Deborough are the respective chairmen of the N.R.A. and Olympic councils, who are responsible for this world's camp of r
