Aldermen Admit Flaws in Present Methods of Civic Government—Changes Suggested.

In unanimously recommending that a special committee be appointed to consider municipal government by commission, the civic legislation and reception committee yesterday took somewhat unexpected action...

New York in June.

If your vacation is necessarily a short one, it should be spent wherever you can do and see the most in a limited time.

New York in June offers unequalled attractions for a short holiday. Its parks, restaurants, theatres and the different beaches where sea bathing may be had afford every sort of amusement.

HUGE ROCK IN CHANNEL PERIL OF ST. LAWRENCE

Twice Within 3 Weeks Have Liners Struck Obstacle in Cap La Roche Channel.

MONTREAL, May 30.—(Special).—The steamship Crown of Castile, inward bound from the West Indies, came slowly into port to-night and reported having struck a huge rock in the Cap la Roche channel on Saturday night.

The boat will be surveyed and a strict investigation held, as the accident occurred at the point where the passenger liner Grampan grounded three weeks ago.

Cap la Roche is 20 miles above Quebec, and has always been the most dangerous spot in the St. Lawrence.

CABLED CONGRATULATION

Message From Canada on Natal Day of United South Africa.

OTTAWA, May 30.—(Special).—The following cablegram was to-day dispatched by F. C. T. O'Hara, deputy minister of trade and commerce to H. R. Pousette, Canadian trade commissioner to Natal.

"The school children of the Dominion of Canada, of all classes and creeds, of British and French extraction, will unite to-morrow, from the Atlantic to the Pacific Ocean, in a distance of over 3000 miles, in honoring the school children of British South Africa by flying the flag in celebration of the first Natal Day of United South Africa. It is hoped that the school children of South Africa, both Boer and Briton, will accept this as a mark of love and affection from their brothers and sisters across the seas."

PROBLEMS AHEAD OF THE UNITED S. AFRICA

Botha Announces His Cabinet—Duke of Connaught to Open the Union Parliament at Johannesburg—Program for Celebrating To-day.

(Canadian Associated Press Cable.) CAPE TOWN, May 31.—Premier Botha's cabinet for the Confederation of South Africa is as follows: Prime minister and minister of agriculture, Rt. Hon. Louis Botha; minister of railways, Hon. J. W. Sauer; minister of education, Hon. S. Malan; minister of finance, Hon. H. C. Hull; minister of native affairs, Hon. H. Burton; minister of lands and irrigation, Hon. A. Fischer; minister of public works, posts and telegraphs, Hon. W. P. Graaff; minister of trade and commerce, Hon. F. R. Moore; minister of justice, Hon. J. B. Hertzog; minister without portfolio, Hon. C. Gubbins; minister of internal affairs and defence, Gen. J. C. Smuts.

Botha was formerly premier of the Transvaal; Sauer was commissioner of public works in Cape Colony; Graaff was in the Cape Colony cabinet without portfolio; Hull was treasurer in the Transvaal; Moore was premier of the Transvaal; Gubbins was colonial secretary and minister of education for Natal; Fischer was premier of Orange River.

POLITICAL GARBAGE.

PRESENT SYSTEM "NONSENSE."

"There are changes which might be made even if we do not proceed in the direction of government by commission," agreed Ald. McCarthy. "It is absolute nonsense to elect 25 men annually to run the affairs of this city. I don't think such annual elections bring to the city continuously as good a class of men as might be brought out."

"We might suggest the introduction of party politics," said Ald. Phelan lightly.

"The school children of the Dominion of Canada, of all classes and creeds, of British and French extraction, will unite to-morrow, from the Atlantic to the Pacific Ocean, in a distance of over 3000 miles, in honoring the school children of British South Africa by flying the flag in celebration of the first Natal Day of United South Africa. It is hoped that the school children of South Africa, both Boer and Briton, will accept this as a mark of love and affection from their brothers and sisters across the seas."

SOUTH AFRICAN UNION—Building at Pretoria from which the government of the new union is to be directed, the legislature sitting at Cape Town. The building was built by the Transvaal Boers for the parliament six years before the war.

The Dominion of South Africa

Canadians should be peculiarly interested in the birth of a new dominion within the British Empire which nominally takes place to-day, when the Act of Union of the British colonies in South Africa becomes operative.

Transvaal—Area, 112,159 square miles; native population, 1,024,200. Chief product, gold. Output in sterling from Rand and outside districts for June, 1909, £2,521,818. Immense numbers of sheep and cattle reared; wool and hides exported.

Orange Free State—Area, 48,300 square miles; native population, 288,300. Chief product, wool, principal article of export; diamonds and other precious stones and gold found.

Zululand—Area, 10,450 square miles. Large crops of maize and Kaffir corn raised around the neighborhood of kraals. Oxen and maize are the chief articles of trade.

Natal—Area, 16,760 square miles. Chief exports, wool, gold, sugar, coal, rum, skins and hides. Kaffir industry, pastoral, coffee, tea, tobacco, wheat, barley, oats and Kaffir corn grown everywhere.

Cape Colony—Area, 250,000 square miles; native population, 1,896,820. Chief products, diamonds from Kimberley, copper from Little Namaqualand. Sheep, goats, cattle, horses reared. Wool, mohair, skins and hides exported. Wheat and grapes cultivated.

The total area of the union is 566,629 square miles.

Number of members in the first union house of assembly:

Cape of Good Hope 51

Natal 17

Transvaal 36

Orange Free State 17

The Population—White and colored. There are 5,471,490 persons in the South African states. Of these 1,188,570 are white and 4,282,920 are colored. They are distributed thus: The Cape, 610,880 white and 1,888,820 colored; Natal, including Zululand, 85,440 white and 1,072,000 colored; Transvaal, 325,250 white and 1,024,200 colored; Orange River Colony, 157,200 white and 289,000 colored.

THESE ARE BUSY DAYS FOR RECRUITING OFFICERS

Husky Young Men Who Want to Go Under Canvas for a Couple of Weeks Can Find Chances.

These are busy days with the militia recruiting officers, for the annual spring camp at Niagara is only a week ahead. The fact that the camp is to open a week earlier than usual, because of the Q. O. R. celebration towards the end of June, is responsible for the bustle and the advertisements appearing in the papers calling for men to fill out the ranks of the rural battalions.

It is worth while rounding out the muster with these casual followers of Mars? is a question often asked. According to Capt. A. T. Hunter of the 12th York Rangers it is.

"We like to get a little new blood," he said. "All the training that the regular men get is twelve days at the camp, outside of the annual rifle matches. If the country would only get generous and grant us days it would be so much the better, but I must say there are a number of regiments there which, at the end of the camp, drill better than any city regiment I have seen."

"As to the necessity for bringing in outsiders, there are a large number of employers who won't keep the men's places for them while at camp. We won't take men who have to lose their jobs if they go. There are a lot of men who get patriotic thrills while listening to after-dinner speeches, but when it comes to a little inconvenience to their business they begin to grum."

"Then there are the men who don't want to go. It is human nature to get tired of anything, but the man who has been to camp two or three times may think that he has had enough of it. We never force a man to come."

"The weather is against recruiting so far. A man doesn't think of going to camp these cool days, but when a hot weather comes, the men will start to flock in."

Referring to the fact that some of the counties had made grants towards the men's pay, the government allowing only 50c a day, the captain said: "Our York County Council is a peculiar body. They don't see their way to giving a grant towards the rifle matches. I think they are dominated largely by one or two members who are Quakerish."

FEAR BLOODED AT CONSTRUCTION CAMP

Constables Leave Port Arthur for Superior Junction—Sequel to Italian Shooting Affair.

PORT ARTHUR, May 30.—Fearing riot and bloodshed among the men employed at the railway construction camp, near Superior Junction, Dominion Commission Police Commissioner Quibble arranged to-night to leave for there on to-morrow morning's train, together with four regular constables, and eight other men, who will be sworn in as specials.

The trouble is a continuation of the quarrel that broke out Sunday, and which included the shooting of the young Italian laborer, Frank Duplig, by Constable Hubert, who arrived shortly after.

As Hubert was taking Dobbs onto the train the Italians made a demonstration, throwing rocks and gravel thru the windows. It is expected that they will attempt to vent their anger upon the men who protected Dobbs, and that an open war may break out any moment, if not done so already. The shooting of Dobbs, which is charged against Hubert, is said to have been caused by a quarrel which started when Dobbs was cook, told the Italian he was at his wrong table. The shot was shot in the groin and died that evening in the hospital at the junction.

Oak Hall's Rain Shedders.

The happiest man in Yonge-street these days is Maxwager Coombes of Oak Hall. Business at the big store is more than coming up to expectations, and every day sees a highly satisfactory trade done. The business in raincoats alone has been a phenomenal one. Monday in this respect being almost a record breaker. A good feature about Oak Hall raincoats is that they are all sold with two guarantees—the makers' and Oak Hall's—so you have no difficulty in getting your money back if you want it. All that is necessary is to "Come on in."

HERE TO PROMOTE BIG TERMINAL PROJECT

A. P. Gillies of Tacoma, Wash., Outlines Plan for the Expenditure of Twenty-five Millions Here—Mammoth Station and Office Building.

A. P. Gillies of New York and Tacoma, Wash., civil engineer and promoter, is here to investigate the local railway situation from a terminal standpoint, combined with the proposed big system, with the council, he says, of placing a scheme before the city council, involving an initial outlay of \$25,000,000.

Mr. Gillies has in mind the erection of a large terminal building, which will be designed to provide ample accommodation for the freight and passenger business of the city. It would have wharfage facilities and contain an immense hotel, and would also provide office accommodation for thousands of people.

In addition a complete system of underground railway or tubes is an essential part of the plan, and will be developed into a homecoming, reaching every part of the city and having ample facilities for any volume of traffic that can be produced.

Can Get the Railways. "Are you sure the railways would come in," he was asked. "There is no doubt about it," was his reply. "I can demonstrate to your railroad managers that I provide them with and maintain trackage at a much lower cost than is being done presently. They are bound to see the advantage of my system."

"This city would receive fixed percentage from the net earnings of the entire concern. All we ask of the city is to give us a franchise and we will file a plan of the tunnel routes and deposit a suitable bond for the carrying out of the undertaking.

"If we want any street locations we will ask the city to deed them to us and we will dedicate them to the use and will take care of sewers, water mains, etc."

His Tacoma Project. Mr. Gillies said that work had been done on the Tacoma proposition and three stories of the underground portion completed. According to a pamphlet prospectus, this building is to cost \$10,000,000, will have 24 stories of 22 acres floor space each, a tower 150 x 150 feet, and 1000 feet in height, providing 70 stories for railway exchange offices, 14 stories of subway levels, with tunnel entrances on each to a total mileage of 50; three arched streets with electric cars on 4th, 10th and 14th floors, giving a total of 6000 feet of street frontage within its walls, 150 elevators, and other Aladdin-like features.

"Every floor in this building acts as a roof, and is finished and occupied, drawing an income from time the ground floor is covered, a new feature in the favor of investors, as the prospectus. The building data is given as follows: \$20,000,000; Gillies' Subway Co., costing \$25,000,000; allied enterprises—Imperial Pressed Steel Car Co., \$5,000,000; Imperial Plate Glass Co., \$5,000,000; Hedden Commercial Power Building Co., \$5,000,000; and Heston & Co., \$5,000,000. Tacoma has 160,000 population.

IN DOUBT AS TO ROSES.

The spring of 1910 will long be remembered as the one with the early opening and with the sixty days' dark, and often cold, and not a single twenty-four hours of hot sun. Of the green spring and the green gardens, fires in the houses all the time, and frosts threatening the green stuff night after night. And yet, somehow, the farms and the gardens and the fruit trees are moving on, but always under cold and often rainy conditions. Last night was one of the coldest of the lot. And yet, after the coming midnight, the sun came out, and June brings the roses. Will the roses be here this June?

A RETROSPECT.

May 31, 1862: The Bank of British Columbia received a royal charter. The city of Vancouver was founded. The city of Victoria was founded.

May 31, 1877: Bradford, Ont., was made a city.

May 31, 1880: Flood of Johnstown.

May 31, 1890: Peace of Pretoria.

May 31, 1896: King Alfonso of Spain and Princess Victoria married.

Straw Hat Time.

The next hat you buy will, we are sure, be a straw or a Panama. There is a great breadth of styles in the Panama and straw hat makers this year, especially in the straw hats. Some of them are with wide and medium brims and high and low crowns, and others with narrow brims and high crowns. Plain or notched straw hats are all stylish. The Dineen Company have gone to some trouble to make this year's showing something exceptionally good. All prices. Straw open every evening until 10 o'clock.

UNCLE SAM: I've kept it too blame long.

HAMILTON HAPPENINGS

NOTE IN ASH BARREL SUGGESTS SUICIDE

Police Will Drag the Bay—Hamilton Will Amend the Dog Bylaw.

HAMILTON, May 30.—(Special.)—The finding of a note in an ash barrel in front of Alf Wright's hardware store on North James-street this afternoon has given the police reason to believe that there was a suicide in the bay. The note was signed "E. M. C. L." and read: "To whom it may concern, you will find my body in the bay near the ferry dock. On the back of the note was written: 'My name you will find on me.' The police received the note at 7 o'clock and it was too late to do anything to-night. They have no idea who the writer of the note was, but they will likely drag the bay near the ferry dock to-morrow morning.

There was a lively row at the home of Eugene Lamolle, 135 Rebecca-street, to-night as the result of which he was arrested by Constables Barrett and Duffy on a charge of threatening to kill his wife. He put up a fight with the officers.

The troublesome dog bylaw, against which a largely signed petition was presented to the property committee last week was finally revised by the city council to-night, in view of the decision of Judge Monk to-day in the appeal of Dr. Malloch. Ald. Birchall brought the subject up by announcing that, despite the refusal of his committee to take any action towards having the bylaw repealed, he would give notice of motion to have it amended. City Solicitor Waddell was asked for his opinion in the matter and suggested that the clause be changed to read that dogs "when in public places should be kept under control by someone." This satisfied the aldermen and the bylaw was thus amended.

Ald. Morris did not put into effect his motion to build a children's shelter, in view of the fact that the Children's Aid Society was holding a meeting to consider the matter, and most likely would be heard from. Ald. Hill thought the council should consider the appointment of a breed inspector, but Mayor Maclean announced that, as the board of health was considering the appointment of a food inspector, the inspection of breeds would be looked after. A resolution of sympathy was passed to the family of the late A. T. Nell, and an order made for the continuance of his salary until the end of the year. In view of a resolution sent to the council by the board of health re the revision of the milk bylaws, the legislative committee were instructed to confer with the committee on the board of health. Mayor Maclean announced that it had been necessary for him to suspend James Connor, one of the health inspectors, for neglect of duty.

Verdict of Accidental Death.
A verdict of accidental death was rendered by the jury which to-night investigated the death of Lister Hunter, the Hamilton Bridge Co. employe who was fatally crushed by a crane at the steel plant a week ago. John Stacey, 188 Robert-street, resident of this city for 40 years, died to-night. He was 64 years of age and an upholsterer. He leaves one son and three daughters.

The board of health held a special meeting to-night to consider the revision of the milk bylaw and a few minor matters.

Police Magistrate Jelfs is determined to stop street fights. This morning he sent Charles Dell to jail for two months for committing an aggravated assault on another man.

Suspect Foul Play.
CALGARY, May 30.—Thomas White, whose body was found on the trail near the Sarcee reservation yesterday, met with foul play, was the opinion of Coroner Dr. Sanson. A telephone message was received at the mounted police barracks Saturday night, stating that there was a dead body on the reservation trail, but the man who telephoned would not give his name. Dr. Sanson went to the place designated and could not find the corpse. He went back Sunday afternoon and located it and brought it to the city.

Maybe It's a Present.
MONTREAL, May 30.—With respect to the report that the C.P.R. has bought the Washington County Railway in Maine, Sir Thos. Shaughnessy says this is a case of some one buying a railway for the C.P.R. without consulting the company.

Neck Broken by Fall.
KINGSTON, May 30.—William McAdoo, a farmer living at Dufferin, was killed this evening at Barriefield, while driving home from the city. He was thrown off his wagon while racing his horses. His neck was broken by the fall.

Dr. McLaughlin's vegetable remedies for the liquor and tobacco habits are healthy, safe, inexpensive home treatments. No hypodermic injections, no loss of time from business, and a certain cure. Consultation or correspondence in English.

IMPORTANT DECISION

Ownership of Power in Rivers Belongs to Riparian Proprietors.
OTTAWA, May 30.—An important judgment affecting water powers in the Province of Quebec was given this morning by Justice L. N. Champagne in the superior court, Hull. Property owners along the Gatineau River are the rightful and legal proprietors of the bed of the river. The importance of it is due to the fact that there are very valuable water powers on the Gatineau, and the judgment affects not only the rights of the property owners on that river, but also of every river of a similar character in the Province of Quebec.

MUST STAY MUZZLED

No Change in Regulations, Say Ottawa Authorities.
OTTAWA, May 30.—Until existing conditions are considerably improved, there will be no change in the muzzleing regulations, and you may quote the department as saying so if you wish.

The department is flooded with petitions for the abolition of the regulation," said the doctor, "but no attention can be paid to them, nor will be paid them, until there is a change in existing conditions.

Bullet Crashed Thru Window.
KINGSTON, May 30.—The family of William Peters, Front-street, received a surprise this morning when a bullet came crashing thru their front window. No trace was found of the person behind the gun.

Protection for Old Age.
The public meeting which Mrs. Wiloughby Cummings, field secretary of the women's department, announced section, was to have addressed in the Margaret Eaton Hall, on May 9, and which was postponed on account of the death of the King, will take place on Monday evening next, in the same hall, at 8 o'clock.

Lake Huron and Lake Superior.
A magnificent summer trip is enjoyed by taking the "Fresh Water Sea Voyage" from Sarnia, Ontario, to Fort William, Ontario, thru these great inland seas. New steamers have been added to the Northern Navigation Co.'s fleet, and the finest and fastest vessels on the Great Lakes will fly the house flag of this popular company. The steamers run in connection with the Grand Trunk Railway System, and all particulars, rates and descriptive literature, etc., can be had for the asking by applying to the City Office, northwest corner King and Yonge-streets. Phone Main 4209.

At Loretto Abbey.
The Loretto Alumnae Dramatic Club will give a performance of "The Piper's Play" at Loretto Abbey to-morrow evening at 7:30 o'clock. Members of the Alumnae Association and their friends are cordially invited to be present.

Fought the Cop.
When Audrey Middleton, 23 1-2 Jarvis-street, met Policeman Snape in West Market-street yesterday afternoon he had a chance to go to the station as a plain drunk. Instead of that he chose to "slaw away" portions of the skin on the officer's face, and is now charged with assaulting the police.

A Sydney despatch says it has found impossible to cancel the general holiday in Australia ordered for King George's birthday, the cancellation being declared illegal and the holiday will be observed.

SATURDAY'S ATHLETIC MEET

Wilton Paul, who is to compete in the big invitation 1-mile race at Eaton's meet on Saturday next, will be accompanied by Miss Murphy, the famous athletic coach of the United States. Mr. Murphy is considered the greatest trainer of athletes in the business and accompanied the American Olympic team to Athens and England in that capacity.

Arnold Knox, the Central Y.M.C.A.'s speedy half-mile, has been extended.

THE ROCKEFELLER FOUNDATION

IN all the history of the world there is no other story like this one—the story of the most comprehensive and far-reaching scheme of benevolence ever conceived in the mind of man.

It started more than half a century ago, in a shabby boarding house in Cleveland. When the public heard of it the other day, it was called

The Rockefeller Foundation
THE first authentic account of this stupendous charity is given in **MUNSEY'S MAGAZINE** for JUNE. The article was prepared under Mr. Rockefeller's personal supervision, and places the purposes and scope of the Foundation before the public in authoritative form.

How the dream originated in the mind of a lad whose wage was sixty cents a day, paying a dollar a week for room and meals—how it grew through fifty years of patient toil and deep thinking—how it became the crowning achievement of a great man's life—all these furnish material for a fact-story that reads like some page from the life of Aladdin.

THE FRANK A. MUNSEY COMPANY, NEW YORK AND LONDON

Those Cricket Rules.

The committee in charge of the movement for the framing of rules for practice clubs may have a long and arduous task before them, for the rules of cricket are so numerous and so varied that it is difficult to select a few that will be of general use. The following are some of the rules that are being considered:

1. The last ball is bowled, and rest and interest will thus be added.
2. The average duration of a game will be easily ascertained.
3. The last man in will not, as heretofore, often get out on no runs, with perhaps not one ball bowled to him.
4. Every batsman will have a fair share of the batting, which will be more evenly distributed.
5. Evenly-balanced teams will have the advantage. One or two batsmen or one or two bowlers, with quite inferior players to complete the team, cannot so easily win the game.
6. Complete games may be played during the week, and the first practice game will not be restricted to Saturday afternoons.
7. Players not on the match teams will have more opportunities for playing in contested games.
8. If a player runs his partner out, the latter does not retire from the game, with very natural irritation by reason of his partner's fault, but the out will result in two runs being deducted from their combined score, and the players will continue to bat till the end of their three overs.
9. Handicap games can be easily arranged. One team can agree to take a less number of overs than the other.
10. A player who runs rarely field, except at matches. At a practice game the fielders will be keen to get the players out often as possible in order to reduce the score and deprive the batsmen of the extra two overs provided by Rules Nos. 4 and 5.
11. Individual scoring will not be so important as good team work.
12. Stogging will be discouraged by the deduction of two runs provided by Rules Nos. 6 and 7, and by the fact that the players will be anxious to be not out, so as to be entitled to an additional two overs.
13. If at practice each bowler is only allowed six overs each, team is more likely to develop some latent good material. At practice games, however, teams will be allowed to use their good bowlers to the best advantage.

Maple Leaf Pigeons Race.
The Maple Leaf Homing Pigeon Association of this city flew its second race of the old-bird schedule on Saturday from Cambridge, Ont., an air-line distance of 155 miles. Mr. McCordic liberated the birds at Cambridge at 10:46 a.m., under fine weather conditions and the first pigeon home here at 2:15 p.m. Following is the result:

| | |
|--|---------|
| Ed. Newberry's Pride of Wilmfrit | 3:29.30 |
| S. Blackburn's Black Prince | 3:32.38 |

Special Train for Horsemen.

A special train for the horsemen and their friends will leave Toronto 10:30 o'clock to-night via the Canadian Pacific Railway for Montreal, consisting of standard sleepers, high back first-class coaches, etc. Train will arrive Montreal Wednesday morning before 8 o'clock, and a fast run is assured. Phone Main 5580 for details, or call City Ticket Office, C.P.R., southeast corner King and Yonge-streets.

Beach Canoe Club.

A half mile handicap single blade race was held last evening by the Beach Canoe Club. The race was open to members of the two war canoe crews and brought out about 25 entries. This is the first of four such races, to be held on each of the next four Monday evenings at 7:30, and is done much to get the fellows into shape. Last evening the water was fine and the evening was somewhat chilly, the event was keenly contested, the following is the result with the re-

EATON'S DAILY STORE NEWS

Our New York Letter

From Our Own Correspondent

New York, May 28.—The New York fashion has such big meshes that the foundation mesh of fine Brussels net or maline is often necessary to prevent the features from looking through. Octagon meshes are the most fashionable sort in New York just now, and these are thread-like, making a cobwebby effect on the face rather than showing up in spots or definite patterns. With the shirt waist hat the white veil is creeping out again, and all women will seize upon this style with avidity, for the white veil is particularly dainty and fresh in appearance, and particularly flattering to the complexion also. These veils are often adjusted inside down on the hat, so that the pattern bordering the veil may show to good advantage against the dark hat brim, while the unbordered—or top part—of the veil is drawn beneath the chin and pinned back firmly to the hair at the back. Neatness, rather than flowing grace, is the desideratum in veil arrangement now, and most smartly dressed women draw the veil snugly beneath the chin, fastening it at the back with a long pin, and catching any evasive folds with invisible hat pins to the hair.

Traveling veils differ from motoring veils in that the latter are longer, with floating ends that whip back in the breeze behind the tonneau in a most fetching suggestion of speed and luxury. Pale corn color is the fad color of the moment for auto veils, and next to this shade a delicate pea green is in high favor. Red veils also are seen, in accordance with the Chantecler fad, but the yellows lead by the dozens.

The Petticoat Question is always an important one with the Summer gown. Petticoats are very short now, because of the shortness of the frocks, and flounces at the bottom are kept simple and soft, as the narrow, straight skirts demand. The tops of the petticoat must fit the hips like a glove also, and altogether this article of the wardrobe requires a deal more of attention than used to be the case. When a ready-made petticoat is bought, it is well to pick out a model a size or two too long, and then cut the skirt in two above the knees, refitting the upper portion carefully to the hips and then sewing on the lower or flounced portion. If this lower section proves now too wide—as will most likely be the case if the top has been accurately fitted—run in a double line of shirring, and the excess of fullness will only add to the good style and smart "hang" of the skirt.

Embroidered flounces are the smartest and most practical for wear with street frocks, but the house and evening petticoats may run riot in lace frills if one desires. It always pays to buy a good grade of either lace or embroidery, for the bottom of the petticoat receives rather hard wear and must be rubbed briskly by the laundress. Dotted Swiss flounces, with val. insertions, are very dainty and pretty on house petticoats, and sometimes dotted Swiss is combined with plain batiste by entre deux of lace.

Good News From Our Children's Shoe Section

Our splendid variety of styles for children was never more complete than at present, we have given this Section special attention, adding improvements, perfecting assortments, etc., until now we offer you one of the finest Sections in the country.

After picking the choicest styles from the popular makers of both Canada and the States, we are in a position to fit the young feet properly. If there is careful attention given to fitting the children's feet properly it is sure to avoid a great deal of trouble later on and prevent corns, tender and unshapely feet.

Among our large assortment of Boots, Oxfords and Slippers, plain and fancy designs in almost any leather you could wish for, we would like to emphasize our Special Nature Last, which we carry in a large variety of leathers, sizes and prices.

Come for these Women's Boots at 8 o'clock and save from \$1.00 to \$1.50 pair.

400 pairs Beautiful Quality Black Kid Blucher Boots, extension sewn soles, excellent styles for stylish street wear, patent toes, every pair perfect, sizes 2½ to 7. To clear \$1.50

—Second Floor, Queen St.

Beautiful Whitewear to be Rushed Out at Fractional Prices

We've not offered more remarkable values this season. It's a general collection taken from our best stocks of Domestic and French Whitewear. Some are garments that we've used for display purposes; others are slightly soiled or crushed and crumpled looking, and to hurry them out quickly we've made the prices but a fraction of the original, there being but one or two of a kind. We can't give description.

The Gowns are made of fine nainsooks and muslins, in slip-over and button front style, exquisitely trimmed with lace and embroidery insertions and edges of lace and embroidery. Prices \$1.00 to \$9.50

The Skirts are made of beautiful nainsooks and muslin, trimmed with lace and embroidery insertions and frills of lace and embroidery dust ruffles, lengths 38, 40 and 42. Prices \$1.00 to \$19.50

Corset Covers of nainsooks and muslins, full fronts, elaborately trimmed with fine lace and embroidery insertions and frills of same, some handsomely embroidered, all sizes. Prices 50c to \$1.75

Drawers, of nainsooks and cottons, lace and embroidery, insertions and tucks and frills of lace and embroidery, all sizes. Prices, 75c to \$8.50

Combinations and Princess Slips, of satin, silk, nainsook and muslins, lovely lace and embroidery insertions and frills of lace and embroidery, all sizes. Prices 88c to \$7.50

—Second Floor, Centre.

Summer Sewing

Have your cool Summer clothes to make for the little folks—for the wee girls?

Securing the patterns is rendered a very satisfying and easy matter by the arrival of the June consignment of the Ladies' Home Journal patterns. The patented guide chart that accompanies each is a great boon to mothers who find trouble in properly fitting together the many parts of the garment.

Patterns for Children's Summer Dresses, Skirts, etc., in a variety of dainty styles, at, each, 10c and 75c

—Dress Goods Section, Main Floor, Albert Street.

Cases for Vacation Travelers

There's style as well as comfort in a well equipped Traveling Case. You will be well satisfied with your investment when you have bought one of these ebony fitted sets. Made of the finest leathers, real seal, seal grain, buffed alligator, etc. The ebony brushes and nickle boxes are finely finished, all contain mirrors, whether for women's or men's use; some have razors, tooth brushes, etc. Splendid values and large assortment, \$5.00 to \$10.00

Others more costly, up to \$15.00

Also these traveling requisites:—Drinking Cups at 50c, 75c, \$1.25; Skirt Pockets, Jewel Pockets, 50c to \$1.25; Military Brushes, in leather cases, at \$1.00 to \$1.50; the new thin model Hat or Clothes Brush, in leather case, will fit nicely into pocket or in suit case, at \$1.00; Caloris Bottles, pint size, aluminum, at \$1.00; Metal Tie Racks, can be easily packed in grip. A new novelty in pigskin case, contains a motor coat done up in a bag, also handkerchief, both enclosed in a small silk bag, which again fits into a pigskin case. Case is 7 inches x 5, a very useful article to motorists or travelers, at \$10.00

—Main Floor, Yonge St.

Maxims and Curls

The Englishman says of one who is particularly fortunate: "He was born with a silver spoon in his mouth," revealing in the remark the national delight in eating. The proverbs of other countries betray in like manner the characteristics of the people who use them. Thus the Chinese, with their horrible addiction to the opium pipe, speak of the successful man as one who was "born in a poppy field," opium being, as is well known, obtained from the poppy. The cleanly Japanese say: "He was born in a bath," when they wish to infer that a man's lot is an especially pleasant one; while the Germans indicate their idea of happiness by referring to their famous men as having been "born in a brewery." Then comes the Frenchman—that master in the art of toilette making—who declares of those fortunately situated that they were "ne coiffe," in other words, born with their hair curled, dressed and scented.

The Smart Coiffure

Nothing can intimate much more forcibly the importance this same sartorial expert attaches to the matter of hairdressing. It may well be said, in the case of the feminine contingent, at least, to be the first consideration in the task of achieving a smart appearance. To be well hatted is of no avail unless the coiffure beneath the straw and plumes be in harmony with the general scheme of style and effect. A hat of to-day and a hair mode of yesterday prove not only a discord to the eye of the fastidious observer, but a combination that makes for discomfort and ill-adjustment in the wearing. And dowdiness in evening hairdressing makes null all efforts at success in the way of gowning.

In our parlors on the sixth floor hair goods representing the latest thought in coiffural circles in Paris are available, either by selection from stock, or by order. Made of the finest quality of natural wavy hair imported from Switzerland and Germany, and fashioned by skilled workmanship, the highest satisfaction possible is assured in the various productions.

"The Chantecler"

Among these the Chantecler curls occupy the centre of interest. This arrangement of puffs and ringlets which has succeeded the turban frame as accessory to the coronet braid may be worn with equal correctness in Grecian fashion without the surrounding coil. The basket braid, a round necklike contrivance of strands, which is offered for alternate adoption, is also, by size and nature, essentially a provision of the hairdresser, few persons being endowed by nature with tresses sufficient to achieve the effect.

Signal success has attended also the Store's turn-out of transformations, that complete head covering so indispensable for motoring or ocean voyaging, and so admirable a device for those whose hair has become thin beyond remedy. And besides this feature the adjustable pompadour, the wavy bang for elderly women and the little pin curls for anyone whose hair is creeping away from the temples are features of attraction for those whose needs lie in their several directions.

Trim the Summer Hat With Ribbon

For the simple Hat that accompanies the jaunty shirt waist, a smart, neat trimming is acquired by the use of velvet ribbons.

Late additions to our extensive stock will make Wednesday's display of Velvet Ribbons very extensive indeed. Black, colors and the new slot velvets are all shown in the millinery widths. The colors are sky, navy, pink, old rose, cerise, king's blue, Alice, brown, tan, red, emerald, moss, myrtle, grey, amethyst. Prices, 1½-inch, 20c yard; 2¼-inch, 25c; 3-inch 30c

Black Velvet Ribbon, satin back,
1½ in. 2¼ in. 3 in. 3½ in. 4 in.
20c 25c 30c 35c 45c 60c

Black Velvet Ribbon, silk back,
1½ in. 2¼ in. 3 in. 4 in.
25c 35c 45c 65c

—Main Floor, Yonge Street.

Cushion Frills Price Lowered

Pleated Ribbon Frill, 4 inches wide, to fit 20 and 22-inch forms, made of two satin ribbons, in combinations of harmonious colors, such as pink and brown, mauve and yellow, yellow and blue, green and blue, sky and yellow, black and yellow, red and green, yellow and green, violet and mauve and others. All perfect goods and reduced to, per frill 49c

—Main Floor, Yonge St.

Weddings and Tecoco Chocolates

The mere mention of June suggests weddings and the efforts of friends to give joy and happiness on such occasions. Wedding confectionery must not be overlooked—not alone as part of the menu, but Tecoco Chocolates will be most acceptable gifts for bride or guest. Rich cream centres, combined with pure fruit juices, they're carefully clothed in little brown jackets of pure chocolate, all daintily packed in ribbon-tied beauty boxes, will add flavor and due justice to the most elaborate occasions. ½-lb. boxes, 25c; 1-lb. boxes 50c

—Main Floor, Centre.

Straws for Children

New Summer shapes, Jack Tar, with navy band and binding; Turbans, with fancy white trimmings, and large Sailors, with round crowns, sky blue and white bands, and many other styles, all good quality straw braids. Price \$1.00

The Regulation Scout Hat for Boys

This Hat is specially made for Boy Scouts, has stiff brim, with leather band and chin strap and made of durable felt. Price, 50c

—Main Floor, Queen Street.

Parisian Pendant Jewelry

Silver Pendants, on quaint, square linked silver chains, are set with number of brilliant and rhine stones, in a great variety of designs. For wear with Summer frocks these sparkling creations are very attractive. Some are exquisite enamel chains and pendants and quite unusual, without being in any way extreme or conspicuous. Prices \$1.00, \$1.25, \$1.50, \$3.00 and \$3.50

—Main Floor, Yonge Street.

Lacrosse! Lacrosse! Lacrosse!

More popular than ever. Good players are using good sticks. "Lally's" Special is the stick for good players \$2.50

Lawn, Bowls, Taylor's first quality, pair, \$4.25. Extra quality \$5.25

D. and M. Official League Baseball 95c

Official C.L.A. Lacrosse Ball, pure white rubber all through 50c

Wright and Ditson's Noted Tennis Rackets, from \$1.35 up.

The above are merely reminders of our splendid stock of Sporting goods—5th floor.

Our Paris Letter

(From Our Own Correspondent)

Marriage Customs in France

Paris, France, May 23, 1910.—On either side of the Atlantic, the month of June is the favored one for weddings, the ideal time for bridal tours. In France there is a marked tendency to simplify the antique customs formerly reserved for the nuptial day—the signing of the marriage contract, a notarial act defining the fortune of both parties, which usually took place a few days before the wedding, is now the chosen date for the great social event. A dinner or lunch, followed by a reception, assembles on this occasion all the friends of both families.

The French marriage customs differ much from the Anglo-Saxon ones, and though some brides have tried to introduce the graceful but less formal practices of the latter in France, the old aristocratic families are not willing to discard tradition, in adopting the same. The celebration always takes place at twelve, this hour being the official one, but it is a privilege of the queen of the day, to often appear later.

A vision of loveliness in her snowy robe, she steps out of her carriage or motor coupe, where she had taken place with her father, meeting at the church door the "cortège" primitively assembled at her home, and formed, according to rank and precedence, under the supervision of the bridegroom's best man. She enters first, leaning on her father's arm, followed by the bridegroom, leading his mother, and then, following, only after the witnesses and immediate family, appear the five or six graceful bridesmaids, clad in light-colored gowns, often of the same tint. They do not walk alone, as in America, but are led by the ushers, and wear flowered purses, destined to take up a collection for the poor during the ceremony. Those maidens are chosen in equal number among the friends of both parties, the maid of honor belonging to the bride's party.

After the church blessing the cortège enters the vestry, receiving the congratulations of all the assistants, shaking hands, the bride embracing her friends, amidst a shower of compliments and good wishes. When at last all the guests have proven their attendance and regained their respective places, the cortège, at the sound of a wedding march, leaves the church, the newly-wedded pair coming out together. A luncheon and reception then takes place at the home of the bride's mother.

Much could be said about the magnificent gowns worn on such occasions, richness and elegance being combined. Here antique laces, family heirlooms, take their place, enhancing the nuptial robe, at sometimes covering it entirely, or like Mademoiselle d'Yarville, who when recently wedded to the Comte de Marquise, wore a most marvelous veil of old English point.

In the personal trousseaus of the bride an increasing sumptuousness in of late displayed. Still, the number of pieces have been much reduced from what used to be, fashion decreasing changes in lingerie, as well, and as often, as in other garments. In one of these trousseaus composed recently Valenciennes lace was often discarded for Irish, Cluny, or Venice point. Out of six dozen of chemises, four of them were exclusively of Empire shape, as also the night robes, these having the large yoke, lavishly trimmed with tiny tucks and laces, without any other opening than the décolleté.

Among the very short and narrow drawers, with high pleated flounces, were noticed several of a new style and shape called "culottes marquis," made of fine linen lawn, enhanced on the sides with Irish lace, tightened above the knee with a garter of similar trimming, most becoming and practical for wear under the fashionable narrow skirt. Very close-fitting corset covers were entirely fashioned of English embroidery, of Venetian point even, and the beautiful lingerie petticoats were either of embroidered muslin, or else of Valenciennes insertions, joined together by Cluny applications.

Two very alluring "deshabilles" accompanied this superb trousseau, one of white silk, draped in Greek style, and ornamented with wide bands of old rose silk cashmere, embroidered in gold; the other of pale rose chiffon, covered with a silver tulle-mantlet with large iris flowers, wrought of some metal, thus forming the ideal frock for the charming days of the honeymoon.

NOTE.—See our announcement of special values in French and American lingerie on this page.

BELMONT STAKES EASY FOR KEENE'S "SWEEP."

Sempronius Wins National Stallion Stakes—Ross Fenton in Jumps.

BELMONT Park, May 30.—Before a crowd of 20,000 persons James R. Keene's Sweep, 4 to 1 in the betting, easily won the \$10,000 Belmont Stakes, one mile and three furlongs, at Belmont Park today.

The National Stallion Stakes resulted in a victory for the 5 to 1 shot, Sempronius, who defeated a high-class field of 2-year-olds.

The Grand National Steeplechase resulted in a fine race, with Ross Fenton being returned the winner by half a length over Kara, 15 to 1.

FIRST RACE—Two-year-olds, five furlongs, \$500 added. 1. Zeus, 122 (Garner), 6 to 5, 2 to 5, out. 2. Kormak, 122 (Shilling), 3 to 1, 4 to 5 and 1 to 2.

SECOND RACE—The National Stallion, for two-year-olds, par value \$4000 added, five furlongs, straight: 1. Sempronius, 122 (Laugan), 4 to 1, 4 to 5 and 1 to 2.

THIRD RACE—Grand National Steeplechase, four-year-olds and up, \$1000 added, about 2 1/2 miles: 1. Ross Fenton, 128 (Allen), 5 to 1, 1 to 2 and 1 to 1.

FOURTH RACE—The Belmont Stakes, \$10,000 added, three-year-olds, 1 1/4 miles: 1. Sweep, 126 (Butcher), 10 to 1, out. 2. Duke of Ormonde, 125 (Powers), 8 to 1 and 1 to 2.

FIFTH RACE—Highweight Handicap, three-year-olds and up, \$500 added, seven furlongs: 1. Falceda, 106 (Crevey), 8 to 1, 3 to 4 and 1 to 2.

SIXTH RACE—Selling, three-year-olds, \$500 added, 1 1/4 miles: 1. Bob R., 107 (Giles), 12 to 10, 2 to 5 and 1 to 2.

SEVENTH RACE—Purity course, 1 1/4 miles: 1. Salvage, 108 (Roberts), 4 to 1. 2. Combury, 106 (Taylor), 10 to 1.

EIGHTH RACE—Selling, three-year-olds, \$500 added, 1 1/4 miles: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

NINTH RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

TENTH RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

ELEVENTH RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

Twelfth RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

Thirteenth RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

Fourteenth RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

Fifteenth RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

Sixteenth RACE—Purse \$500, five furlongs: 1. Handzarella, 85 (Cotter), straight \$21. 2. Ben Double, 108 (Gann), place \$20. 3. Betwick, 102 (Martin), show \$3.

FOR YOUNG OR OLD as a spring tonic you will find our delicious

INDIA PALE ALE

is unexcelled. The fine malt gives it body and strength and the choice hops give it exquisite flavor.

Families supplied by retail dealers. At all hotels.

The Toronto Brewing & Malting Co., Ltd.

TUESDAY MORNING, MAY 31, 1910.

WELCOME, SOUTH AFRICA.

To-day the third of the great overseas British federations comes into being. South Africa takes its place with Canada and Australia, and, including New Zealand and Newfoundland, the imperial copartnership will hereafter consist of the motherland and five self-governing states, each with independent control of its own affairs and co-operating in matters of common concern. These states, too, present considerable constitutional differences, Newfoundland and New Zealand reproducing the centralized government of the British Isles; South Africa being the most centralized of the federations, the separate provinces enjoying practically no independent jurisdiction; Canada with provincial rights controlled by the federal power; Australia reproducing substantially the constitutional conditions of the United States of America. Yet all are based on the parliamentary system of the United Kingdom and maintain its distinctive features—a remarkable tribute to its adaptability to varying circumstances.

South Africa as to-day proclaimed united Cape Colony, Natal, the Transvaal and the Orange Free State. The area embraced is nearly half a million square miles, but ultimately it will include nearly a million square miles more in the native protectorates, still directly under the imperial government, and in Rhodesia, now administered by the British South Africa Company, under the charter of 1889, as later amended. The population of the new Dominion runs between five and six million, of whom about a million and a half are of European descent. It has several grave questions to race, prominent among which are the welding of Briton and Boer into one enduring nationality under the British flag and the problem involved in the black peoples, who greatly outnumber the white residents and are rapidly increasing.

This latest Dominion is the direct consequence of the grant of full representative and responsible government to the Transvaal and Orange Free State, which will always be associated with the name and premiership of the late Sir Henry Campbell-Bannerman. This important and courageous policy was due to his initiative and was opposed by the section of British public men who desired an intermediate period of limited government. Sir Henry, however, avoided the possible veto of the house of lords by embodying the new constitutions in letters patent from the crown, and they effected a veritable revolution in South African sentiment. In the words of Prof. H. E. S. Fremantle's dedication of his story of the new nation to Sir Henry's memory, the late premier "gave peace to South Africa and established there the moral and political position of England by teaching her not to fear her own greatness."

Mr. Lionel Phillips, a participant in the Jameson Raid, who at first entertained grave anxiety as to the possible consequences, has since declared that "it was a bold experiment. It has been justified by its signal success and it is entitled to generous recognition by all true lovers of South Africa." That whoever may be called to office by the electorate of the union shall have the qualities of high statesmanship necessary to lay a sure foundation for the development of a broad, vigorous and patriotic national spirit in South Africa is the hope of the British community of free states with whom it is to be numbered. Canada especially, which has herself confronted and surmounted the difficult task of welding two distinct nationalities in one Dominion under the common flag of the empire, says to-day with accord of heart and voice, Welcome, South Africa!

JAPAN AND FOREIGN LAND-OWNERS.

By an act passed in the closing days of its session the Japanese Parliament modified the previous law prohibiting foreigners from holding land in Japan. The restriction was a relic of the old exclusive days, and proposals for its removal have been submitted at intervals during the last thirty years. Opposition was, however, shown chiefly on two grounds, one that foreigners by purchasing large tracts of land would gain the advantage of their rapidly enlarging values, and the other, based on the argument that enforcement of the restriction was the best lever the Japanese had to procure general treaty revision. Negotiations for the latter purpose are now in progress, and the new act will come into operation when the new treaties are adjusted.

PROCURED YOUNG GIRLS.

PHILADELPHIA, Pa., May 30.—Two young girls were the principal witnesses here to-day against Henry Northstein, aged 35 years, who was committed to prison without bail by the magistrate charged with harboring minors for improper purposes. The girls, Lena Stewart, 14 years old, and Ruth Morris, 15 years, testified that they had been accosted by a woman on the streets, who told them they would have a good home if they went to Northstein's house. The girls said they saw the prisoner give \$2 to the woman, who took them to the man's place.

PILES.

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all druggists or by mail, \$1.00. Dr. Chase's Ointment.

in a fortified zone, to all foreigners whose own nation conceded a similar privilege to Japanese citizens. The house of representatives further limited the qualification to individuals with a domicile or place of residence in the country, and in the case of companies to those having a place of business. Foreign companies must also obtain the sanction of the minister of state for home affairs, and when the legal qualification is lost the foreign land owner must dispose of his estate within five years. This latter stipulation considerably affects the concession, and the Japanese Government is understood to desire a more liberal measure.

More than a passing thought should be given to the memory of Mrs. Jennie Arthur, former principal of Louisa-street school, whose funeral occurs this afternoon. Singularly devoted to her profession as a teacher for 25 years she exercised a marked influence over many young lives, and hundreds of immigrant children, as they pass on to maturity, will bear grateful recollections of the kindly matron who first introduced them to British traditions.

QUEEN ALEXANDRA AND JOHN BURNS.

A London cable of yesterday contradicts "some highly melodramatic despatches" alleging that Queen Alexandra had accused John Burns in the King's death chamber, of having been, with Premier Asquith, responsible for his majesty's demise. So far from Mr. Burns being regarded with any animosity by the Queen Mother, it is well known that both she and the late King have for years entertained for him feelings of the highest esteem. In fact, King Edward may be said to have had a warmer personal regard for Mr. Burns than he had for any member of the present government, with the exception of Mr. Harcourt.

WOULD STUDY NEW SYSTEM.

Continued From Page 1.
tenths of the legislation governing Toronto was municipal legislation, including nearly everything relating to mortality. It was a recognized fact that administrative work was most efficiently performed under concentrated authority, but that legislation was enacted by a large body. Municipal government in the United States had developed along this line and had led to Toronto's adoption of the board of control, which was supporting a council as a cabinet to parliament. The aldermen should be as closely as possible in touch with the people and for this reason he did not believe in the abolition of the ward system.

Mr. McColl Persistent.

A. B. McColl is still after the phantom job of commissioner of industries. He appeared before the committee to explain that as a taxpayer he felt his claim should be considered. Mr. McColl's idea of having council meetings start at 2 p.m. was hailed with favor and sent on. Mr. McCarthy said he had noted that, with meetings starting at 3 p.m., there was a tendency to rush matters.

To Restrain Autoists.

Ald. Maguire announced that the Ontario Motor League is sending letters to its members asking them to use great care when passing street cars, owing to the danger to persons passing from the sidewalk to the cars. This injunction is to apply particularly when the pedestrians are ladies and aged persons. The alderman said he was willing to defer his proposed by-law to compel autos to come to a stop on reaching a standing street car until it was seen that the autoist intended to pass.

Would Fill in Lagoon.

At the meeting of the island committee yesterday, the city engineer reported in favor of filling in that portion of the Hurlan's Point lagoon south of the bridge leading to the baths, to obviate the necessity of constructing a new bridge. He agreed that it would be advisable to clean out the lagoon so as to make it fit for bathing. The appointment of Norman Spears as city paymaster to succeed the late William Burton will be recommended by City Treasurer Coady.

Appeals in Seventh Ward.

The seventh ward ratepayers are apparently well satisfied with this year's assessment. There were only 27 appeals before the court of revision yesterday, nearly all of minor character, and few reductions were made. The more important appeals, those of the Grand Trunk and C. P. R. on the assessment of their lands in West Toronto, will be taken up this afternoon.

PHILADELPHIA, Pa., May 30.

Two young girls were the principal witnesses here to-day against Henry Northstein, aged 35 years, who was committed to prison without bail by the magistrate charged with harboring minors for improper purposes. The girls, Lena Stewart, 14 years old, and Ruth Morris, 15 years, testified that they had been accosted by a woman on the streets, who told them they would have a good home if they went to Northstein's house. The girls said they saw the prisoner give \$2 to the woman, who took them to the man's place.

Dr. Chase's Ointment.

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. This Four-drawer Vertical Oak Filing Cabinet Only \$21.00

IF YOU want a good, cheap Filing Cabinet, here it is. There is more value per dollar in this "Office Specialty" Solid Oak Four-drawer Vertical Filing Cabinet than in any other on the market. Each drawer has capacity for 4,500 papers. The Cabinet is finished in a rich golden shade. The trimmings are brass oxidized. The drawers slide on strong suspension arms, and in each is fitted a Follower-block.

To prove to your satisfaction that this Cabinet is all that we claim, we will ship it anywhere in Canada upon approval. Return at the end of ten days if it is not as represented.

OFFICE SPECIALTY MFG. CO. LTD.
97 Wellington St. West
"The Glass Front"
TORONTO
BRANCHES: Halifax, Montreal, Ottawa, Toronto (Head Office), Hamilton, Winnipeg, Regina, Calgary, Vancouver.

SOCIETY NOTES

The Georgina House fete, "A Rout in Old Toronto," which was postponed on account of the death of the King, will take place to-day, to-morrow and Thursday of this week, at the Grand Hotel, and promises to be an attractive social event. The stalls, which represent different periods of Toronto's history, are in charge of many pretty girls in fancy costumes. High tea will be served from 6 to 7.30, and an interesting musical program given each evening.

DISMEMBERED BODY OF GIRL FOUND IN CELLAR

Disappeared From Home Last December—Every Bone in Her Body Broken.

LOUISVILLE, Ky., May 30.—The badly decomposed body of Alma Keller, the 8-year-old girl, who mysteriously disappeared from her home last December, was found to-day in a sub-basement of St. John's School, at Clay and Walnut streets. The body was lying in three feet of water.

The condition of the corpse indicated that it had been in the hiding place for several months, and that a crude attempt to bury it had been made. The torso, for a leg was missing, was wrapped in a piece of carpet. The missing leg was found in another part of the cellar, the foot bearing the shoe.

As Coroner Duncan's investigation was pursued, it became evident that the girl had been murdered in a horrible manner. Her skull was crushed and practically every bone in the body was broken and charred. The coroner said it was evident that the body had been dismembered and packed in a stove or grate, but this means of disposing of the body having proved impossible, the body was used to aid in the disinterment.

Declared to Be Dead.

Justice Magee yesterday declared dead William J. Somerville, who in 1894, failed in the dry goods business here then left the city and in December, 1897, in writing from Chicago to his family was despondent and spoke of "leaving for some other place." No further word was received. Mrs. Somerville has an action against the Actina Life Insurance Co. for \$7065, which is dismissed on the ground that the company had not received reasonably sufficient proof of death before action.

Collection of Chinese Coins.

One of the most valuable collections of Chinese coins and medals ever gathered together has been presented to the Presbyterian Foreign Mission Society office by Rev. H. M. Clark, who recently returned from his mission field in Honan, China. Many of the coins are of very ancient origin, some of them being of the reign of Christ down to the present day. Mr. Clark has always had a great liking for making collections of such a nature, in which is probably the most complete ever accumulated.

Public Library Extends Privileges.

For the benefit and accommodation of patrons of the library who wish to take books with them in the vacation season, the chief librarian has sent out notice to all the libraries that during June, July and August those persons who may wish to retain a two weeks' book for a month, may do so by making application at the time of the issuing of the book, so that it may be specially marked as being due a month from that date.

Master Painters' Denial.

Secretary Merrick of the Employers' Association has issued a statement which says: "The Master Painters' Association and those firms that have been associated with it during the past year have agreed to give effect to a proposal to pay any stated minimum rate of wages, and that no action on their part has been responsible for the calling off of the strike by the journeymen painters."

Both By-laws Carry. NEW HAMBURG, May 30.—Two by-laws were voted upon here to-day. Both were carried. One was for the purchase by the municipality of the electric light plant for \$2000. The other was to grant the People's Electric Railway a franchise for 25 years to use certain streets within the municipality.

AT OSGOODE HALL

ANNOUNCEMENTS.
Osgoode Hall, May 30, 1910.
Judge chambers will be held on Tuesday, 31st inst., at 10 a.m.

Non-Jury Assizes (No. 1.)
Peremptory list for non-jury assize court, at city hall, at 10 a.m.
64. Noble v. Guana.
202. Courtenay v. O'Leary.
250. Can. Gas. Foy v. Orr.
251. Pierce v. Waldman.
252. Crawshaw v. Browne.
253. Johnson v. Bickel.

Non-Jury Assizes (No. 2.)
Peremptory list for non-jury assize court, at city hall, at 10 a.m.
24. Constantine v. Stewart.
245. Beatty v. Beatty.
246. Stewart v. Barton.
247. Stewart v. McDonald.
248. Griffin v. Stewart.

Master's Chambers.
Before Cartwright, K.C., Master.
Madock v. Saturday Night; Madock v. Fraser; Roberts v. Saturday Night; G. M. Clark for defendants. No one contra. Motion by defendants in each case to dismiss action for want of prosecution. Orders made dismissing actions, with costs in each case.

Reynold v. Construction Co. v. Walsh & Co.—H. D. Gamble, K.C., for defendant company. G. H. Sedgewick for plaintiff. Motion by defendant for set aside default judgment. Order setting judgment aside. Statement of defence to be delivered immediately. Costs to plaintiffs in the cause.

Allan v. Hammer Mill Paper and Pulp Co.—H. D. Gamble, K.C., for defendants. No one contra. Motion by defendants to make absolute the attaching order herein. Order made.

Cheesworth v. Davison—J. T. White for defendant. G. N. Shaver (McPherson & Co.) for plaintiff. Motion by defendant for a commission to take evidence at Vancouver and Dawson City, and to postpone trial until after the 1st of August next. Plaintiff to be at liberty to join if he desires.

Harley v. Canada Life—W. S. Edwards for defendant. Grayson Smith for plaintiff. Motion by defendant for leave to amend statement of defence by paying money into court. Motion referred to trial judge.

Ryco v. Cook—H. S. White for plaintiff. J. Mitchell for defendant. Motion by plaintiff to strike out statement of defence for want of defendant. Defendant is not attending for examination. Motion adjourned until 31st May.

Judge's Chambers.
Before Riddell, J.
Fraser v. Robertson—J. King, K.C., for plaintiff. A. Motz, Macdonell, K.C., for next friend. Renewed motion to dismiss action as frivolous, etc., and an abuse of the process of the court.
Judgment: The order asked a refusal to make, in view of the case. In my view any person is entitled to a relative so near as the present next friend, bringing an action in the name of one claimant to be of assistance to the other, and to decide that any person, and a next friend, any relative, is acting improperly in bringing an action, a case, or a case in the present, if the plaintiff is in fact of unsound mind, and the question of the sanity of the plaintiff is not in issue in some way for trial. I was under the impression (wrong, as one of the counsel for the plaintiff contended) that the plaintiff was satisfied if the issues to be determined on June 6 were to be tried before myself in the week of June 6, and that the plaintiff had agreed to an undertaking by the next friend to take proceedings to declare the plaintiff to be of unsound mind. The motion is refused. Judgment: The plaintiff is to be at liberty to proceed to trial on June 6, and to be at liberty to proceed to trial on June 6, and to be at liberty to proceed to trial on June 6.

Single Court.
Before Falconbridge, C.J.
Binney v. Hills—H. H. Shaver for plaintiff. J. Kerr, K.C., for defendant. Motion by plaintiff to continue injunction. At request of defendants, enlarged two weeks. Injunction continued meantime.

Re J. A. French—W. A. Froude for C. A. Herman. McGregor Young, C. C., for defendant. Motion by C. A. Herman for an order ratifying a certain agreement. At request of applicant, enlarged until 1st June to answer affidavits.

Trial.
Before Magee, J.
Somerville v. Actina Life Insurance Co.—G. C. Gibbons, K.C., and G. S. Gibbons, K.C., for plaintiff. W. E. Middleton, K.C., for defendant. An action by Mrs. J. Somerville, wife of William J. Somerville, who was insured in defendant company for \$5000, for an order declaring that the said William J. Somerville, who has since died, was deemed to have died on December 1, 1897, and for judgment for the said sum of \$5000, with interest from 1st April, 1907, being subsequent to and premiums paid on the said policy. Defendants deny death of insured, and deny death of insured. Judgment: Let judgment be entered declaring that William J. Somerville died on December 1, 1897, and that the said William J. Somerville, who has since died, was deemed to have died on December 1, 1897, and for judgment for the said sum of \$5000, with interest from 1st April, 1907, being subsequent to and premiums paid on the said policy. Defendants deny death of insured, and deny death of insured. Judgment: Let judgment be entered declaring that William J. Somerville died on December 1, 1897, and that the said William J. Somerville, who has since died, was deemed to have died on December 1, 1897, and for judgment for the said sum of \$5000, with interest from 1st April, 1907, being subsequent to and premiums paid on the said policy. Defendants deny death of insured, and deny death of insured. Judgment: Let judgment be entered declaring that William J. Somerville died on December 1, 1897, and that the said William J. Somerville, who has since died, was deemed to have died on December 1, 1897, and for judgment for the said sum of \$5000, with interest from 1st April, 1907, being subsequent to and premiums paid on the said policy. Defendants deny death of insured, and deny death of insured. Judgment: Let judgment be entered declaring that William J. Somerville died on December 1, 1897, and that the said William J. Somerville, who has since died, was deemed to have died on December 1, 1897, and for judgment for the said sum of \$5000, with interest from 1st April, 1907, being subsequent to and premiums paid on the said policy. Defendants deny death of insured, and deny death of insured. Judgment: Let judgment be entered declaring that William J. Somerville died on December 1, 1897, and that the said William J. W. G. ELLIS SCORED THE WATERWORKS BYLAW

W. G. ELLIS SCORED THE WATERWORKS BYLAW. Ex-Councillor Wanted to Know Ins and Outs of Deal—Suburban Happenings.

NORTH TORONTO, May 30.—Magistrate Ramsden will next Friday afternoon decide the cases of all infringements of cesspool, sidewalk, stock and other bylaws.

Opinion around town is distinctly opposed to the passage of the water by-law as at present constituted, and certain members of the council, while favoring it, admit that there is practically little or no hope of its going through. Apropos of the bylaw, a recent point was made by W. G. Ellis, who he proposed that the bylaw be amended so that it will give effect to the third reading.

At Saturday night's public meeting for the discussion of the waterworks bylaw, W. G. Ellis, in criticizing the bylaw, pointed out that it was very questionable whether they were asking for enough money to secure all the water they claimed they would secure if the bylaw were passed.

Mr. Ellis pointed out the fact that two properties would require to be purchased, the Stibbard and the Hoyle, and taking the figures furnished by the Chairman Pears of the fire, water and light committee, the Stibbard property would produce about 37,000 gallons per day, and the Hoyle property would produce about 100,000 gallons, and as they had already endorsed the price of \$2000 per acre for the Stibbard property, to cover both land value and water value, an analysis of which would show that the land value was worth about \$500 an acre, leaving a net of \$1500 for the water value of 37,000 gallons per day, at this valuation for water, the Hoyle property's water value would be nearly three times as much, or at least \$4000, whereas they are only asking the people for the sum of \$25,000.

At this juncture Councillor Murphy jumped up in a very excited manner, proclaiming that the Hoyle property was to pay for the Hoyle property any such sum, upon which the speaker, after much difficulty, drew from the councillor the fact that they had not secured an option on the Hoyle property, that the councillor only had a private verbal assurance from the owner.

From this the speaker drew the deduction that if the Hoyle property was to be sold, the people to endorse the bylaw, and then proceeded to show that if the bylaw were defeated plenty of good water was available by making of a very insignificant expenditure.

Bedford Park Cricket Club played their first league match on the home grounds, situated on part of Melrose Park, Saturday afternoon. North Toronto may be well proud of their performance of retiring the well-known team of Graze Church by 15 runs. Bowlers from and against took 15 wickets each, while Capt. Gunn alone scored 15 runs, enough to win the match.

WEST TORONTO, May 30.—(Special)—Wm. J. Gordon, a C.P.R. brakeman living at 157 Vine-street, is in St. Michael's Hospital, suffering from a rear-end collision at Palgrave, Gordon was the only one hurt, and he was at once brought to the hospital, where injuries, which are not regarded as very serious, were treated at St. Michael's Hospital.

WEST TORONTO, Weston, Mount Dennis, East York, Mimico and New Toronto Orangemen will spend the Twelfth at Newmarket.

TODMORREN.

Funeral of the Late Mr. Macdonald Takes Place To-Day.

TODMORREN, May 30.—(Special)—The death of Mrs. J. A. Macdonald, which took place at the General Hospital, on Saturday afternoon, has been over the entire community. The deceased lady was well and favorably known, and the bereavement is expressed for the family. Mr. Macdonald and four children—Arthur, Hazel, Harry and Clarence—survive. The funeral takes place to-morrow (Tuesday) at 2 o'clock.

EARLS COURT.

EARLS COURT, May 30.—(Special)—Fire Chief Thomson and Aid. McCausland conferred with the Fire Board, a deputation of Earls Court property owners.

Stomach Troubles OFTEN COME FROM WEAK, EXHAUSTED NERVES—GREAT RESULTS FROM USING Dr. Chase's Nerve Food

When the nerves become exhausted the first sign of trouble often comes from the stomach. The nerves which control the flow of digestive fluids fall and the result is loss of appetite, indigestion, nervous headache and sleeplessness.

Opiates and narcotics cannot possibly do more than afford temporary relief, and aids to digestion are merely makeshifts. To get well you must get the nervous system back into condition by such treatment as Dr. Chase's Nerve Food. Here is a letter which illustrates the point.

Mr. John McLean, 315 Hunter-street, Hamilton, states: "My trouble was principally with my stomach. As a result of weak nerves my appetite was poor and I had several attacks of indigestion. I found that Dr. Chase's Nerve Food relieved me, and since using it regularly for some time my digestion is excellent, my appetite is good, my nerves strong and vigorous, and I feel altogether different from before. I am very grateful for the benefit I have derived from this medicine."

If you are in earnest about a cure why not make a try, though by using Dr. A. W. Chase's Nerve Food regularly and persistently until the whole nervous system is restored and you can know again the joys of living?"

Dr. A. W. Chase's Nerve Food, 25 cents a box, 6 for \$2.50, all dealers; or Edmanston, Bates & Co., Toronto.

WEST TORONTO, May 30.—(Special)—About three-eighths of a mile north of St. Clair-avenue, on Lakewood-avenue, a new village has come into existence within the last few months. To meet the church needs of the people a small meeting house has been erected, and will be opened next Sunday, June 6, for the first time, with services at 3 p.m. and 7 p.m. While the promoters belong to the Presbyterian Church, it has no official connection with that church, and the present will be interdenominational. The assistance of gospel workers will be welcomed and it is certain to be a great convenience to those who reside in the neighborhood.

YORK TOWNSHIP COUNCIL.

Yesterday's meeting of the York Township Council, attended by Reeve Hendry and Councillors Watson, Barker, Syme and Griffith dealt with routine matters, and an early adjournment was made.

On motion of Messrs. Syme and Griffith it was resolved that the petition of the Snydam Realty Co. and others, asking for the construction of a local improvement of a sewer in Spadina-road from its present northern limit of the City of Toronto to Montclair-avenue, being a distance of about 320 feet. Referred to assessment commissioner.

The general purpose money bill totaled \$3821.45.

On motion of Messrs. Barker and Watson the petition of W. A. Stephenson et al. asking for the construction of a granite sidewalk four feet in width, on the east side of Markham-road, as a local improvement, was referred to assessment commissioner.

On motion of Messrs. Griffith and Syme the petition of the Snydam Realty Co. and George C. Robb, asking for the construction of a local improvement of a sewer on Walmer-road, from the northerly limit of the city, about 600 feet, was likewise referred to the commissioner.

The Toronto Suburban Railway Company and the York Township Council to approve of the plans for the extension of that road from Bloor-street along Elizabeth-street, Park-road, Thompson-street, College-street, extension and Ellis-avenue, to a southerly limit. No action was taken.

NORWAY.

NORWAY, May 30.—(Special)—Bishop Reeves will hold confirmation service in St. John's Church to-morrow (Tuesday) evening at 8 o'clock.

Clark Planning Winter Cruises.

Altho the summer season of travel to Europe has not attained its height, plans already are under way for winter tours to warmer climes. Among the important announcements is that of Frank C. Clark's charter of the Arabic for his annual cruise to the Mediterranean and the Orient, a trip that has become a prominent feature in the world's travel. Clark says enquiries already are coming in for information as to his cruises and tours planned for the winter. A handsome program has been issued, which is distributed without charge.

DESTRUCTIVE STORM

Crops in Vicinity of Innerkip Wiped Out by Hail and Wind.

WOODSTOCK, May 30.—(Special)—Farmers in the vicinity of Innerkip woke up this morning to find most of their crops wiped out by a heavy hail and wind storm. The loss will run up into the thousands.

Tornado in West Virginia.

CHARLESTON, W. Va., May 30.—Many houses in the Village of Guthrie were destroyed, by a tornado which passed up the Elk Valley, a few miles north of Charleston, yesterday. Several persons were injured and much live stock killed. The Coal and Coke Railroad was a heavy sufferer, several hundred thousand dollars' worth of its property having been destroyed.

Ex-City Auditor Suicides.

ST. LOUIS, May 30.—Bernard Bierke, city auditor from 1901 to 1909, shot and killed himself to-day. Saturday morning he was found unconscious from partial asphyxiation.

The King's Birthday.

All banks will be closed on Friday next, King George's birthday, says a leading Toronto banker. By the bill of exchange the day must be observed by all such institutions. The schools, however, will be open, and so will all the government and civic departments. A royal artillery salute will, however, mark the event.

Indians for Q. O. R. Pageants.

A band of 30 Indians from the Six Nations Reserve will be used in the Q. O. R. pageants. They include direct descendants of the famous chiefs Brant and Tecumseh.

J. L. Englehart, chairman of the T. and N. O. Railway Commission, has left for the north on an inspection of the first half of the week.

Orders have been issued from the chief inspector's department for the raising of all flags on public schools to-day in honor of the opening of the first parliament of the new Dominion of South Africa by Lord Gladstone, the first governor-general.

LORD'S DAY ALLIANCE.

Very busy with the good work, but not more efficient than the old reliable Putnam's Corn Extractor, which cures corns and warts in one day. Fifty years' use proves the great merit of Putnam's. Use no other.

WEEKLY SAILINGS

R.M.S. LAURENTIC, R.M.S. MEGANTIC

14,822 tons, triple screw, 14,515 tons, twin screw.

Largest and most modern steamers on the St. Lawrence route. Latest production of the ship-builders' art; passenger elevator serving four decks. Every detail of comfort and luxury of present day travel built into these steamers, including orchestra. They proved very attractive last St. Lawrence season, owing to their superb accommodation for first, second and third class passengers.

MODERATE RATE SERVICE

R.M.S. CANADA R.M.S. DOMINION

(One Class Cabin Steamers called Second Class)

On these steamers passengers receive the best the steamer affords at a very moderate rate. They are very largely patronized by those making a trip to the Old Country, who wish to secure comfort at a moderate expenditure.

WHAT IT MEANS TO LIVE IN THE

PARSONS ESTATE

SOME OF THE EXCLUSIVE ADVANTAGES

The first, last and leading usefulness of our advertising the Parsons Estate is to rescue workmen from going blindly into the darkness of a resourceless future...

Consider These Special Features and Ask Yourself: "Wouldn't It Pay Me Best to Settle in the Parsons Estate?"

INSTITUTIONAL CHURCH

The Parsons Estate has had one of the most effective, broad-principled churches of any district in Toronto. It is too broad to be denominational and all are welcome.

BATHS

Baths, including shower baths, are provided for in the new building, which are available for men, boys and girls.

GYMNASIUM

The gymnasium is designed to give proper physical development to those who require it.

DAY NURSERY

How often the housewife feels the pressing need of going to the store or some other errand of importance, but cannot leave her baby.

READING ROOM

A reading room, especially during the long evenings, will be a godsend to a community such as live in the Parsons Estate.

RELIEF WORK

There is no greater proof of the great superiority of the Parsons Estate over any other, than the fact that aid is provided for it.

The Best Place on the Continent for Workingmen's Homes

Why?

BECAUSE the Lots are cheap. BECAUSE the Land is good. BECAUSE the Situation is healthful. BECAUSE the Terms are easy. BECAUSE of the Advantages.

No such Beautiful Home-site was ever offered at such low prices and on such easy terms before.

Go and Look at it Before You Buy. Phone us and we will take you up in our Automobile.

Take a Lansdowne Avenue car, get off at Davenport Road, walk east to Dufferin Street and up north to the property. You will see the sign. Office on the ground and Agent there every day.

Get in NOW at the Low Prices \$4 to \$10 Per Foot

Every man who is paying rent is unwise. Stop it. Buy a lot, build a small cottage and be independent. You can do it with the same money you pay for rent. Write or call for particulars. We can tell you how others have succeeded.

Don't Miss These Easy Terms \$10 Down, \$5 Monthly

Dovercourt Land, Building and Savings Co., Limited

24 Adelaide Street East :: Telephone Main 7280

Realty and Building

Not much progress is to be seen in the new Kent building at the southwest corner of Richmond and Yonge streets, but investigation shows that borings for forty feet down thru the clay to the solid rock have been made for the piers, and this work is now well forward and the bolts in position in the concrete to take the steel structure.

A GENEROUS OFFER

Loyal True Blues Willing to Care for Six Destitute Muskoka Children. James I. Hart, of Orillia, grand master of the Loyal True Blue Association, writes The World:

NOTICE TO CREDITORS

HAD QUITE A RECORD

Engineer Dies Who Had Charge of First Montreal-to-Toronto Train. CORNWALL, May 30.—(Special.)—One of the oldest locomotive engineers in Canada, Robert Witherspoon, a native of Edinburgh, Scotland, died here to-day, aged 77 years. Mr. Witherspoon has had the privilege of holding the throttle of two royal trains, one carrying the late Queen Victoria from London to Cambridge, England, and the other when the late King Edward, then Prince of Wales, traveled from Montreal to Sherbrooke in 1860. He was also in charge of the first passenger train that pulled out of Montreal for Toronto on Oct. 6, 1856, and was engineer of the first train to carry headlight.

Skin Diseases.

Under this name such troubles as Salt Rheum, Eczema, Erysipelas, Tetter, Ringworm, Scabies, Itching Rash, Eruptions, Boils, Pimples, etc., are included. Skin diseases, as a rule, are not dangerous, but are unsightly, irritating and often terribly annoying to the sufferer; they depend mainly on bad blood, from one cause or another, for if the blood is pure and the circulation good no skin disease can exist, except it arise from lack of proper cleanliness or from contagion.

NOTICE TO ARCHITECTS

Competitive designs for a Residence for the Lieutenant-Governor of the Province of Ontario, proposed to be erected on Bloor Street, in the City of Toronto, will be received by the undersigned at the Department of Public Works, Parliament Buildings, Queen's Park, Toronto, up to noon on the 15th day of July next.

INFORMATION AND PARTICULARS AS TO THE EXTENT AND CHARACTER OF THE SAID DESIGNS CAN BE OBTAINED UPON APPLICATION TO THE OFFICE OF THE SECRETARY OF PUBLIC WORKS.

Subject to such terms, conditions, etc., the following premiums are offered:

For the design most approved \$1000 00

For that approved as second in merit 500 00

The designs for which said premiums will be awarded are to be selected and approved of by the undersigned, and the same are thereupon to become the property of the Province.

J. O. REAUME, Minister of Public Works, Department of Public Works, Ontario, Toronto, May 12th, 1910.

FRACTURED HER SKULL

Bad Runaway Accident—Two Women Seriously Hurt.

WINGHAM, May 30.—While driving into this town on their way to church Miss Killpatrick, school teacher, and Miss Becroft of East Wawanosh, sustained very serious injuries in a runaway accident, caused by the breaking of the horse's bit in going down a hill. The former jumped, alighting on her head, sustaining a fracture of the skull, while the latter suffered a broken limb and dislocated ankle.

Was Looking Down Rifle Barrel. Alex. H. Porte, the young student fire ranger, who was shot in New Ontario, met death while looking into the barrel of a rifle in the hands of another ranger, when the weapon discharged. A coroner's report will be forwarded to the crown lands department here.

For sale by all dealers. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Mr. E. M. Myers, East Jeddore, N.S., writes—"I don't think there is anyone in this Dominion can recommend Burdock Blood Bitters more than I can. I suffer- ed terribly with Salt Rheum for six years, and did everything for it without relief. For curiosity sake I bought six bottles of Burdock Blood Bitters, and it completely cured me. I would advise others to use it."

COBALT

Liquidation Pronounced And Values Show Decline

Cobalt Market Affected by Substantial Sales, Which Have a Bad Effect Upon Quotations.

World Office. Monday Evening, May 30.

In almost every issue of the mining securities to-day there was a reactionary tendency, prices thruout the list showing a decline from those at the close last week.

There was nothing to account for the special selling in to-day's market, but the trend of prices indicated that substantial liquidation was going on in all the active issues.

The stocks chiefly dealt in were Beaver, City of Cobalt, Little Nipissing, Rochester, and Peterson Lake.

The upward movement in Nipissing and La Roca was admitted to have fallen absolutely flat last week, and such a takes place themselves in a market considerably below that which they were willing to take a few days ago, and unless better support is shown in these stocks in the near future holders are liable to consider the late movement as nothing but a manipulative one and will throw their stocks over at the market.

A wave of pessimism is evidently passing thru the mining markets as well as the larger exchanges and no adequate reason can be assigned for the present reaction.

At to-night's close there was no sign of any change in sentiment, and the outlook for the near future in values is improbable.

LARGE INCREASE EXPECTED

New York Curb Broker Predicts 25 per cent. Increase in Cobalt Production.

Percy Guard, the life of the New York Curb, returned yesterday from a visit to the Cobalt mines and predicts that the mines will produce 25 per cent. more silver this year than the best year in Cobalt's history.

Regarding the general conditions in New York he, however, is not quite so optimistic and says that the boom, which should come, may be delayed on account of the mine conditions which exist in the larger market.

The party, which was brought up by Frederick Morris of New York, looked over several Cobalt mines, and paid particular attention to the Waldman Mine.

Speaking of this Mr. Guard said that he expected in Cobalt mining to be more actively developed than in the Waldman Mine than at any other property in the camp, and he was particularly impressed with the work which had taken place on this company's property of 92 acres.

He thought that Superintendent O'Connell was doing a splendid job, and his abilities had been more than demonstrated by the work that had been done on the Waldman Mine since operations were first started less than a year ago.

PLENTY OF POWER

Cobalt Power Companies Can Fill All Demands and Will Benefit Camp.

About five thousand people daily are traveling on the electric and steam cars between Cobalt, Haliburton and New Liskeard. The several power companies are now delivering compressed air and electrical energy to the Deloro smelter at Marmora, and the three companies have their installation so arranged that they can add unit after unit as the demand for power increases, so that there is every prospect of plenty of power, and this will have a very beneficial effect on the camp.

Gowanda Shipment.

The Bonaill Mining Co. of Miller Lake, Gowanda mining division, made a shipment of 20,000 pounds of ore to the Deloro smelter at Marmora, on May 21, according to the weekly statement of the T. & N. O. Railway. This brings the total shipments from the Gowanda division to date this year up to 324 tons as follows:

Table listing various power companies and their respective power outputs in kilowatts.

INFLUX IS GROWING

Stopping Places for Porcupine Are Now Taxed to Their Limit.

Porcupine, May 26.—(Special.)—The latest report coming from Porcupine is that the number of people going into the camp is daily growing, and that the stopping places both at the railway and in the camp are being taxed to the limit of their capacity.

A party of government officials are in the camp on a tour of inspection. The trip from Toronto (mileage) is now made in one day, as well as the trip from the camp out. A few local improvements, such as draining of the streets, are being made in the camp. A good fund of native gold is reported from the forest reserve south of Mountjoy Township, but as yet it has been impossible to get any definite particulars.

CLEAR OFF OVERBURDEN

Nipissing Engineers Will Make Thorough Examination of Property for Leads.

COBALT, May 30.—Convicted that many leads are missed in the present

Substantial Liquidation on Mining Exchanges.

Liquidation Pronounced And Values Show Decline

New York Curb Broker Predicts 25 per cent. Increase in Cobalt Production.

Percy Guard, the life of the New York Curb, returned yesterday from a visit to the Cobalt mines and predicts that the mines will produce 25 per cent. more silver this year than the best year in Cobalt's history.

Regarding the general conditions in New York he, however, is not quite so optimistic and says that the boom, which should come, may be delayed on account of the mine conditions which exist in the larger market.

The party, which was brought up by Frederick Morris of New York, looked over several Cobalt mines, and paid particular attention to the Waldman Mine.

Speaking of this Mr. Guard said that he expected in Cobalt mining to be more actively developed than in the Waldman Mine than at any other property in the camp, and he was particularly impressed with the work which had taken place on this company's property of 92 acres.

He thought that Superintendent O'Connell was doing a splendid job, and his abilities had been more than demonstrated by the work that had been done on the Waldman Mine since operations were first started less than a year ago.

PLENTY OF POWER

Cobalt Power Companies Can Fill All Demands and Will Benefit Camp.

About five thousand people daily are traveling on the electric and steam cars between Cobalt, Haliburton and New Liskeard. The several power companies are now delivering compressed air and electrical energy to the Deloro smelter at Marmora, and the three companies have their installation so arranged that they can add unit after unit as the demand for power increases, so that there is every prospect of plenty of power, and this will have a very beneficial effect on the camp.

Gowanda Shipment.

The Bonaill Mining Co. of Miller Lake, Gowanda mining division, made a shipment of 20,000 pounds of ore to the Deloro smelter at Marmora, on May 21, according to the weekly statement of the T. & N. O. Railway. This brings the total shipments from the Gowanda division to date this year up to 324 tons as follows:

Table listing various power companies and their respective power outputs in kilowatts.

INFLUX IS GROWING

Stopping Places for Porcupine Are Now Taxed to Their Limit.

Porcupine, May 26.—(Special.)—The latest report coming from Porcupine is that the number of people going into the camp is daily growing, and that the stopping places both at the railway and in the camp are being taxed to the limit of their capacity.

A party of government officials are in the camp on a tour of inspection. The trip from Toronto (mileage) is now made in one day, as well as the trip from the camp out. A few local improvements, such as draining of the streets, are being made in the camp. A good fund of native gold is reported from the forest reserve south of Mountjoy Township, but as yet it has been impossible to get any definite particulars.

CLEAR OFF OVERBURDEN

Nipissing Engineers Will Make Thorough Examination of Property for Leads.

COBALT, May 30.—Convicted that many leads are missed in the present

NOT DISCUSSIONS AT PETERSON LAKE ANNUAL

Charge and Counter Charge Keeps Shareholders on Qui Vive—Meet Again Tuesday.

As a result of the allegations and charges against the former management of the Peterson Lake Silver Company, set forth in the many circulars which have been distributed during the last few weeks, the annual meeting held in the Jarvis Building, Bay-street, yesterday morning and afternoon, was a very animated one. A good representation of the shareholders was present to hear the arguments of the various parties and considerable interest was taken in the proceedings, which several times threatened to get beyond the power of the chairman to control. President MacLaren received able support, however, and managed to maintain a semblance of order thruout.

Considerable regret was expressed by many present at the inclination on the part of some of the shareholders to hold back proceedings by trivial discussions on matters altogether irrelevant to the meeting. It became necessary several times to call speakers to a point of order, but the president and his associates were prepared to answer any pertinent questions in relation to the proceedings, and with one or two exceptions satisfied the dissatisfied parties with their explanation.

The meeting was opened by the reading of the minutes of the last meeting and the annual report, which latter was the subject of considerable discussion, particularly the auditors' statement which it contained, was unsatisfactory to the majority of the shareholders. It was stated that the auditors were appointed against the wishes of the shareholders, and the board of directors, and not in accordance with the rules of the company. President MacLaren stated that he had no apologies to make regarding his actions as president, and proceeded to go into details in respect to the allegations made by his opponents. He stated that these were untrue, and that he was willing to answer any charges which Mr. Forst or his associates might make and would leave it with the shareholders as to whether his conduct with respect to the company was strictly above board or not.

A motion was made to adopt the report as read, but the meeting at this juncture became one of the most animated on every point. Frederick Morris, representing American stockholders, announced that he was in sympathy with those in opposition to the former directors, and lamented the fact that the shareholders' matters. Vice-President Sedgeworth, the actions of his colleagues, which he said were made wholly in the interests of the shareholders, and confidence in their management was expressed by several of those present.

On the other hand it was stated by N. Davidson, solicitor for three shareholders that a detailed statement of the receipts and expenditures was not given, but Secretary Sedgeworth offered to submit this at the pleasure of the meeting.

Considerable discussion took place regarding the leasing of Peterson Lake property, some of the shareholders charging that the management had not served the interests of the company in making the subsidiary agreements by which the subsidiary concerns operated. Mr. C. F. Wiche of New York maintained that no man could be a director of one company and hold a lease from the company and act squarely. This provoked a hot reply from D. M. Steindler, who stated that the leasing had only been done after a competent engineer, Mr. Lawrence, had been consulted and had declared the system to be wholly favorable to the Peterson Lake shareholders.

After much harangue on various topics, which were from time to time raised, the meeting proceeded to the election of directors, the names being nominated as follows: Messrs. A. F. MacLaren, J. W. Scott, Dr. Buell, S. E. Wickett and Barlow Cumberland. The election of directors was held by those supporting the old management, while the opposition nominated Sir Henry M. Pellatt, Alex. M. Hay, J. A. Roberts, Major Murray and Hugh Blair.

The vote was then taken and the meeting thereupon adjourned until 8 p.m. At this hour the ballots were still being counted, consequently proceedings were adjourned until to-day, when it was stated the results of the voting would be known.

GOOD PROSPECTS

In Langmuir and Other Townships Around Nighthawk Lake.

COBALT, May 30.—That the district surrounding the south end of Nighthawk Lake has good prospects is the opinion of mining men who have recently made a survey of the country. When Engineer Sundrum of Peabody & Co. went north six weeks ago in the interests of clients, making a careful survey of the country, he came back thru Langmuir, where his clients staked 11 claims. Not a stake was driven in the making of the survey, which was inspected. Sulphide ore was well uncovered and the assays were in good order. The formation is schist.

In Shaw, thru the southwest half, the formation ran to quartz, schist and diorite, while the Reserve was some what the same.

Thomas, to the north of Langmuir, was more of the conglomerate and slate, with diorite in the ridge between.

The Niagara boats brought over large contingents of American visitors yesterday. They were celebrating Memorial Day.

MUNICIPAL BONDS

A most conservative form of investment.

The securities of our Canadian Municipalities (Counties, Cities, Towns, etc.) make one of the safest forms of investment—made to provide for public improvements, making them a direct obligation of the community—the principal and interest being payable from tax collections.

We give below the names of a number of City issues, the bonds of which we offer at prices affording good income yields.

American Stocks Are Higher In London Over the Holiday

Wall Street Closed, But London is Apparently Strong—Toronto Markets Dull and Fractional Advances Are Reported.

World Office, Monday Evening May 30. Canadian exchanges were left pretty well to themselves today without any guide by way of the New York market, which was closed.

Business during the morning session was fairly well distributed and prices indicated small advances in some issues at this season. The afternoon board, however, showed the narrowness of this market when only five issues were traded in, in three of which only broken lots represented the operations. The only criterion for better market sentiment came by way of London, on which centre prices for American securities were fractionally higher than at the close of New York on Friday.

Brokers appear to be nonplussed at the present inactivity of this exchange and fall to perceive any new buying power. All admit that money is distinctly tight and that there is, therefore, no incentive held out for market speculation. The support to the market continues to be comparatively good, but this is taken to be occasioned largely on account of the fact that realizing sales are of a small nature and that therefore there is at the present time no special pressure on prices.

MONTEREAL. May 29.—Financial statement of the Dominion Textile Co. presented at the annual meeting today, showed profits for the year, after providing for betterments, etc. of \$393,321.

The addition of the dividends received on stocks of Dominion and Merchants will bring the total up to \$1,018,407. After paying charges there was a surplus of \$35,732.

Sales for the year amounted to \$7,743,706, an increase of \$2,109,080. The old directors were re-elected.

Twin City Earnings.

The Twin City Rapid Transit Co. earnings for the third week of May amounted to \$137,788, an increase over the same week last year of \$10,258, or 8.04 per cent, and of \$1,198 over the corresponding period of 1908.

THE DOMINION BANK

E. B. COLLIER, President
W. D. MATTHEWS, Vice-President

Capital Paid Up, - \$4,000,000
Reserve Fund, - \$5,000,000

C. A. ROBERT, General Manager

Travellers' Cheques Issued

by the Dominion Bank he is assured of ready money at every point of his journey. No delay or difficulty experienced in getting them cashed. They are not available to order or sight, and are all foreign exchange notes.

BANKS ARE SCRUTINIZING LOANS.

Monday Evening, May 30.

Canadian markets had neither the advantage nor disadvantage of the New York stock market to-day. The usual plodding was done at the Toronto Exchange, and in a few instances prices showed a slight betterment. Whether this was due to a legitimate public demand or to operations made for effect it was hard to discover. It is again repeated, however, that money is scarce, and that the banks are carefully scrutinizing every loan. This, if it means anything, means that speculative freedom is being restricted, and that only in exceptional instances will any flitting in the matter of securities be allowed. Until a clearer outlook is available, holders should be eminently satisfied if prices hold their own.

HERBERT H. BALL.

THE STRATEGIC POINT

Port Arthur, Junction Point Between East and West of Canada.

Port Arthur has been, and is generally known as the gateway to the west. It is all this and more, it is the central city between eastern and western Canada, and is destined to be the connecting link between these two great sections of a great continent. The transportation facilities of this mid-city of Canada are unexcelled. The three big railways, the Canadian Pacific, Grand Trunk and the new Grand Trunk Pacific, have made this port their great lakes terminus, and the amount of shipping that is done makes it the largest inland port on the great lakes.

INJUSTICE TO TEACHERS

School Board May Set it Right—Teachers Accepted.

The finance committee of the board of education yesterday passed a resolution recommending that allowance be made for the experience of the present teachers of three years' standing. Under the present salary schedule, a lady teacher who began Jan. 3, 1908, now ranks as a third year teacher and receives \$59 per annum. A lady who began in September, 1909, a year and eight months later, ranks as a fourth year teacher and receives \$60 per annum. Some 25 teachers are affected.

HULL WAS CRUSHED

Inspection Proves That Crew of Sunken Submarine Were Drowned.

CALAIS, May 29.—Inspection of the sunken Pluviose, which went down in collision with the channel steamer Pas de Calais last Thursday, shows conclusively that the hull of the submarine was crushed, and that all members of her crew, which totaled 27 men, were drowned.

NEED OF HARBOR IMPROVEMENT

Because the water around the National Iron Works is too shallow the new steam freighter, Keystrom, from England, was grounded near the works yesterday. There was no place where she could dock, so she ran her aground near the works as the bottom would let her. She is within 200 feet of shore, and her cargo of 2000 tons of pig iron is being unloaded via scows. The ship draws 13 feet 10 inches of water.

WORK ON TREHEWEY

Mill Now Working at Almost Full Capacity—New Vein Cut.

COBALT, May 29.—The skips from the No. 2 shaft are now running regularly up the 460 foot tramway to the Trethewey mill and the plant is working with the exception of some minor adjustments at almost full capacity. It is probable that ore from the new shaft to the north, No. 4, will be coming up the tramway next week as everything is fixed up below ground.

PRICE OF OIL

PITTSBURGH, Pa., May 30.—Oil closed at \$1.35.

FOUR ARRESTED.

ST. THOMAS, May 30.—James Keblum, George A. Jones, Sarah Allen and Mrs. Irene Johnson, four of the companions of Richard Rock on the night preceding the finding of Rock's body beneath the Wabash Railway bridge, Friday, May 20, were arrested to-day.

CONFERENCE ON EMIGRATION.

LONDON, May 30.—The conference convened by the Royal Colonial Institute opened to-day.

PRESBYTERIANISM IN CANADA.

LONDON, May 30.—At the General Assembly of the Church of Scotland Dr. Norman Macleod claimed that no former work was being done than by the Presbyterian Church in Canada in the far west. He appealed for further help from Scotland.

DAN, MANN GOES WEST.

Dan Mann, accompanied by Lt. Col. J. B. MacLean, and other prominent business men of Toronto, left last evening for a three-weeks' trip to the west. In Mr. Mann's private car, with away they will visit Edmonton, Prince Rupert, Vancouver and Victoria and other important places along the line.

BRASS WORKS ASSIGN.

With liabilities and assets at about the same figure, \$20,000, the Ontario Brass and Copper Co. of 49 West King-street, has assigned to N. L. Martin. Creditors will meet on Wednesday.

DR. FREDERICK COOK HAS BEEN DISCOVERED.

Dr. Frederick Cook has been discovered in Scotland, preparing for a trip to Etah, to bring back his records.

THE TRADERS BANK OF CANADA

Dividend No. 57.

NOTICE IS HEREBY GIVEN that a dividend of two per cent. upon the paid-up Capital Stock of the Bank has been declared for the current quarter, being at the rate of eight per cent. per annum, and that the same will be payable at the Bank and its branches on and after the 2nd day of July next. The Transfer Books will be closed from the 18th to the 30th of June, both days inclusive.

A SUMMER SALE AT SIMPSON'S

We Usher in the Leafy Month of June with a Radical Reduction of Prices on Seasonable Merchandise in almost every Dep't of the Store

To our readers to-day we make an announcement of particular interest---we are going to hold a **Summer Sale**. The whole store will contribute to an **effective, dashing, Summer campaign** of one month's duration.

Stocks are usually adjusted in July, when a great many people are away from the city. We are going to **"break the back"** of Summer stocks **Now**. We are going to do the work when it counts most to **you** as well as to us, while the assortments of Summer goods are fresh and new and entire.

When July comes and holidays begin we shall feel that we have our stocks well in hand. That's our ambition---"to take time by the forelock."

Wednesday we start. Every day will add to our determination. We are going to hold a Summer Sale that will make June a month of most **remarkable shopping!**

EMBROIDERED SWISS ROBES at \$2.98

Embroidered White Swiss Muslim, large, fashionable, floral design, most stylish goods. They are in robe lengths of 7 1/2 yards, 53 inches wide. The length \$2.98.

The Annual June Sale of Whitewear

EVERY June we hold a sale of Whitewear. We find that by buying goods in bigger quantities we can afford to sell the made-up garments considerably cheaper. It means that customers can afford to be more liberal with their supply of white things for Summer, and works out advantageously all round. And so we place orders for June on the sale basis knowing that the natural Summer demand concentrates heavily upon that month.

The result may be seen in a scrutiny of the following prices. The designs and qualities are such as this store has long been known for.

Princess Silks, regularly \$1.25 each, June sale price 93c, fine, soft nainsook, waist trimmed with lace frills, beading and silk ribbon; skirt finished with deep flounce, with tucks and hem-stitched hem. Sizes 32 to 42 bust measure.

A Dainty Bridal Set, regularly \$7.50 a set, June sale price \$5.00, choice of three-piece set, including princess slip, gown and drawers, or four-piece set, gown, skirt, drawers and corset cover, fin. nainsook, prettily trimmed with lace insertions and frills, also with small tucks, lace beading and silk ribbons; a very beautiful matched set. Sizes for 32 to 42 bust measure.

Nainsook Corset Covers, regularly 50c each, June sale price 33c, fine quality, with deep all-over lace yoke, neck and arms finished with lace, run with ribbon. Sizes 32 to 42 bust.

Nainsook Corset Covers, regularly 75c each, June sale price 50c, a very pretty style, with deep Valenciennes lace yoke, lace beading and silk ribbon around neck and across bust, lace frill on neck and arms, back cluster tucked. Sizes 32 to 42 bust measure.

Isabelle Drawers, regularly 75c pair, June sale price 55c pair, the perfect one-piece garment, sold only by this store, fine nainsook, deep flounce, trimmed with three rows lace insertion and frill of lace; lengths 23, 25, 27 inches in both styles.

White Cotton Petticoats, regularly \$1.25 each, June sale price 83c, finished with wide embroidery insertion and deep flounce of embroidery; this skirt is cut full width, and comes in lengths 38, 40, 42 inches.

Nainsook Night Dresses, regularly 75c each, June sale price 53c, dainty slip-over neck, short sleeve style, neck and arms finished with lace beading and silk ribbon draws. Lengths 56, 58, 60 inches.

Fine Nainsook Night Dresses, regularly \$1.50 each, June sale price \$1.00, a beautiful gown, with square slip-over neck, formed with fine embroidery beading, run with silk ribbon, Valenciennes lace frill on neck and cuffs, elbow length sleeves.

WOMEN'S VESTS AND UNION SUITS.
 Women's Vests, regularly 50c each, June sale price Wednesday 25c, fine white ribbed cotton, shaped at waist, low neck, short or no sleeves, neck and arms prettily trimmed with Val. lace insertion and frill, silk ribbons; note the large sizes; sizes 32 to 42 bust measure.

Women's Union Suits, regularly 75c each, June sale price Wednesday 50c, fine white ribbed cotton, summer weight, semi-low neck, buttoned part, way down front, short or no sleeves, umbrella style drawers, lace trimmed, draw tapes in neck and arms. Sizes 32 to 40 bust measure.
