A Preliminary Showing of New Styles For Fall In Millinery and Wearing Apparel For Women, Misses and Children

Will Begin on Monday and Continue The Following Days With An Interesting and Extensive Showing of Hats, Suits, Dresses, Coats and Blouses At Strictly Moderate Prices In Which Will Be Introduced The New Silhouette of The Straight Line

The Tendency in Gowns and Cloaks Being All Towards the Long, Drooping Effect

Suits Exploit the Long, Graceful Redingote

Top Coats Have Melon and Leg o' Mutton Sleeves

FASHION is of one mind concerning the new suits—that skirts shall be plain and full and coats long and semi-fitting, the waistline defined by braid, stitching or belt, and the shoulders ornamented with a wide-spreading collar of the cape or sailor variety. The exhibit in the suit department will exemplify the vogue, showing furthermore that wool velours, gabardine, wool poplin and serge are the materials of first favor, with plum, purple, blue, brown, mahogany and green the colors of chief importance. As for fur trimmings, they are more insistent than ever, with skunk and such smooth peltries as kolinsky, mole and seal rat (Hudson seal) as the most fashionable.

Suits, Coats and Dresses for Misses

THE easy-fitting, curveless line of the new mode is nowhere more happily employed than in the youthful garments for misses and juniors. It characterizes suits, gowns, coats and skirts, as will be seen in the special Autumn display in the department on Monday. From clever New York tailors who specialize in juvenile apparel have been procured a notable offering of models in sizes 14 to 20 years—Russian blouse, one-piece, and long-waisted dresses in satin, crepe meteor, taffeta, and, of course, in the fashionable navy serge; Norfolk and sacque suits in wool velours, gabardine, broadcloth and checked velours; and coats in long, loose, wide-sleeved styles in chinchilla, tweed and wool velours.

Blouses in Autumn Suit Shades

TO MAKE of your tailored suit a complete costume—this is the aim of the Autumn blouse. And very charmingly does it achieve its mission, being fashioned of Georgette crepe, crepe de Chine, and satin in the deep, rich tints of purple, plum, blue, brown and green which Fashion employs in the season's suitings. Collars are wider and longer than ever, many of them taking on the proportions of small capes, and Soutache braiding and bead embroidery are prominent by way of decoration on both French and American models.

Coats and Dresses for School Girls

IN these, too, is evident the vogue of the straight line. In dresses for girls of six to fourteen, the long waistline, loosely belted, is the prevailing mode, the one piece gown figuring prominently in the display of charming little New York models in blue green and brown serge. Russian blouse and middie dresses contribute to the same long, straight effect. Coats for school girls are of wool velours, zibeline, chinchilla and other soft, warm cloths, some in plain-tailored ulster style, others exploiting velvet or fur collars. Mothers of young daughters will find this display immensely interesting.

THICK soft materials compose them—materials such as heavy wool velours, zibeline, fleece-finished chevots, snowflake and heather tweeds, with plush promised a big vogue for later use. They are longer than they have been for several seasons past, reaching within a few inches of the hem of the gown, also infinitely more roomy, with the fulness of the great swirling skirt beginning at the shoulders, the collars stretching out wide or rolling up to envelope the throat, and the sleeves spreading out at the elbow in leg o' mutton or melon shape, the flare gathered into a deep cuff. A small multitude of models embodying these features—coats for motoring, traveling and street wear—will be on view in the cloak department at prices well within reach of the average pocketbook.

The Long Line Dominates

THE Russian blouse, the beltless basque, and the curveless bodice of the Moyen Age—all these are employed that Fashion's latest craze for long line may be achieved. Skirts, though immensely full, are inclined to droop rather than flare, being frequently laid in pleats. That tremendous favorite, the blue serge dress, will be represented by some wonderfully smart models, together with a charming galaxy in taffeta, crepe de Chine, satin, charmeuse, crepe meteor—the lustrous satin-finished fabrics carrying the seal of special favor, in which the afternoon gowns, navy blue, brown, mahogany, taupe, grey, deep plum and purple are the fashionable colors.

Separate Skirt-Fronted Yokes

GATHERED, pleated or gored—whatever the nature of the skirt may be, the yoke is likely to add itself to the hip line in some smart form or other. Plain velours, checked velours, wool poplins, and a soft Thibet cloth are the modish fabrics—the most approved colors being navy blue, Hunters' green, Java brown, and combinations of tan and brown, black and white, and green. All of which will be demonstrated in the skirt department in the splendid array of new models for sports and indoor wear.

For Little Tops of Two to Six

COSY LITTLE COATS, dainty little frocks, cunning little hats and bonnets—the Infants' Wear Department will be in gala array with Autumn togethery for the small folk. Such smart little reassemblies are for boys and girls of two to six—in shepherd's checks and navy serge with warmer Winter coats in grey chinchilla, soft brown tweeds and the always popular white lambs' wool cloth. Sailor and middie dresses, too, in navy blue serge, and for the tiny tots of two, three and four, exquisite little frocks of white batiste, smocked and feather-stitched in pink or blue. And all the way from France come adorable wee gowns in fine lawn, hand-sewn and hand-embroidered. Bonnets in silk bengaline crepe de Chine, and corduroy velvet; fascinating little caps of white rabbit; and Buster Brown hats of velvet, plush, coruroy and tweeds—these make up the offering in headwear.

Wide Brims, Narrow Brims, Medium Brims and No Brims at All—There's infinite and interesting variety in the Formal Showing of New Modes

In Autumn Millinery For Tailored and Dress Wear Which Begins on Monday on the 2nd Floor

The "Beret"—The Turban With the Tam o' Shanter Crown Familiar in the Old Holbein Portraits—and the "Napoleon"—a Medium-sized Hat With Brim Flaring Back High in Front—These Are the Outstanding Novelties of the Display, Sharing Honors With the Wide, Flat-crowned Picture Hat, the "Jockey Poke" and the Little Round Toque Which Fits as Closely as a School-boy's Cap

Such designs will be exhibited in a host of delightful models from a group of Paris creators, including:

- Evelyn Varon
- Louison
- Germaine Adrienne
- Julia Saget
- Gage
- Eendel
- Joseph

Together with a splendid selection of original designs and reproductions from our own staff of milliners.

Nine-tenths of the hats are velvet—in the numerous shades of pansy and violet purple, in midnight blue, Java brown, Balsam green, stone and dove grey, mahogany and Burgundy red. Metallic cockades inset with jewel-like beads are a popular decoration. Furs—mole, kolinsky, chinchilla and seal rat—are lavishly employed, while for dress hats ostrich feathers in bandeau and plume effects are the almost invariable ornament.

Prices range from \$4.50 upwards. —Second Floor, Yonge St.

Physician Says Ordinary Nuxated Iron Will Increase Strength of Delicate Folks 200 per Cent. in Two Weeks' Time in Many Instances.

NEW YORK, N.Y.—In a recent discourse Dr. E. Sauer, Specialist of this city, said: "If you were to make an actual blood test on all the people who would probably be greatly astonished at the exceedingly large number who lack iron, who are ill for no other reason than the lack of iron. The moment iron is supplied to their multitudes of dangerous symptoms disappear. With iron in the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of your food; your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind, and as a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some tussy and irritable; some skiny and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, maybe at the expense of your life later. No matter what any one tells you, if you are not strong and you owe it to yourself to make the following how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times

per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and kidney troubles in from one to four days' time simply by taking iron in the proper form, and after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good, sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only iron which does not injure the teeth, like the old forms of inorganic iron, like tincture of iron acetate, etc., often ruined people's teeth, and their stomachs and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated iron, for example, is pleasant to take, does not injure the teeth and is almost immediately assimilated.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its purity that they authorize the announcement that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. Also they will return you your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by G. Tamblin, Limited, and all other druggists.

WILLS PROBATED

Donald F. MacLeod of England has applied for ancillary administration of the estate of his son, Capt. Donald MacLeod, of the 10th Scottish Battalion, King's Liverpool Regiment, Territorials, who fell in action in Flanders Sept. 23, 1915, leaving an estate valued at \$52,378.

Dr. C. K. Clarke of the General Hospital has applied for probate of the will of Chloé Ann McLean, who died in Toronto on July 21 last, leaving an estate valued at \$5437. With the exception of household goods valued at \$190, which is bequeathed to her niece, Anna Streets, of Toronto, the estate goes to a nephew, Alonzo Streets.

Mrs. Edna Rutledge and her children, Barry and Helen, will share equally in the estate of \$3493 left by her husband, Webster Rutledge, who died in Toronto March 16 last. He left no will.

Mrs. Emily Norris has petitioned the surrogate court for her appointment as guardian of her infant grandchildren, William Joseph, 5 years old, and Dorothy Gertrude, 4 years old, children of John Joseph Tavener, a locomotive engineer, who fell in action, serving with the Canadian forces in Flanders, the children since the death of their mother having made their home with their grandmother. The estate is valued at \$2000.

Fert Reeves, her husband and his children, Frank, Ethel and Ernest, will share equally in the distribution of the estate of \$1400 left by Mrs. Mabel Frances Reeves, who died in estate at Mount Dennis on July 25, 1915. Letters of administration have been applied for.

TORONTO HEROES IN BIG CASUALTY LIST

Evidence of Removal of Canadians to the Somme Front.

TWENTY LOCAL MEN

Three Are Dead, Fourteen Wounded, Others Missing or Prisoners.

The number of Canadian casualties announced yesterday from Ottawa showed a great increase over the number contained in the lists of the past few weeks, and is evidence of the removal of the Canadians from the Ypres salient to the Somme front, where the British are so hotly engaged. The list contained the names of 20 Toronto men, of whom one has been killed in action; two have died of wounds; one is wounded and missing; one is a prisoner of war; one is dangerously ill; one man has died, and fourteen have been wounded.

The following is the list of Toronto men who were mentioned in the casualty list:

Killed in Action. Pte. Arthur R. Sutton, 54 Summerhill avenue.

Died of Wounds. Pte. James Ackers, 51 Somerset avenue. Pte. Edward J. Field, 616 Gerrard street east.

Died. Signaller Roy B. Cheeseman, 55 Swanwick avenue. Dangerously Ill. Pte. John P. Brown, 16 Kimberley avenue.

Wounded and Missing. Acting-Corp. Charles Coyde, 227 Sackville street. Prisoner. Pte. James McAuley, 21 Jones avenue.

Wounded. Lance-Corp. Guy L. Marshall, 286 Gladstone avenue. Pte. Hector Brown, 41 Gerrard street west.

ASK MORE NIAGARA POWER

Representatives of U. S. Industries Present Case.

NIAGARA FALLS, N.Y., Aug. 25.—Appeal for additional diversions for power purposes of Niagara Falls water was made by representatives of Western New York industries at a hearing here today before Major Burgess, of the U. S. Lake Survey. Speakers decried the action of the Canadian Hydro-Electric Commission in appropriating 25,000 horsepower, is being severely felt in the United States, and expressed fears that before spring the Canadian authorities will further curtail export power by appropriating another 25,000 horsepower.

Major Burgess will report to the war department the result of his investigation and the department will decide whether additional diversion is to be allowed.

BABY'S GREAT DANGER DURING HOT WEATHER.

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera, infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in homes where there are young children. An occasional dose of the tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the tablets will cure the baby. The tablets are sold by medicine dealers or mailed at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

Southwest Toronto

Catholic Register: The peculiar character of the contest which closed in Southwest Toronto on Monday makes it a difficult matter to interpret the results.

It does not matter how often the German web is torn or destroyed. The instinct of industry works in a settled rut. The main idea is to build a web which will destroy all opponents. The destructive principle is uppermost.

Mr. Heineken admits that the Bremen and Deutschland submarines will not be used after the war. This is sufficient justification for the British contention that they were war vessels, designed as such, and only to be used as such.

The ceaseless industry of the German people, driven by their war lords to untiring and unending effort, is a lesson of the highest importance to the people of the entente alliance, and especially of the British Empire.

The successful Liberal standard-bearer played a part not a whit more ingenuous. He refused to declare his mind on the question of the two Liberal newspapers in the city, one openly repudiated him on this ground, and the other, while assisting him, did not give his candidature full approval.

Southwest Toronto

Orange Sentinel: There has been a provincial by-election in Southwest Toronto that held the interest of all the people of Canada.

No election held in Canada has ever got so much attention from the press as the one in Southwest Toronto. The daily papers are still discussing it; the weekly ones are full of it.

When you take into consideration that the Healey government lost three seats in succession and might lose thirty more if they were opened; that there is a soldier vote both here and abroad that is waiting to show politicians what they think of them; when you hear that Sir Sam Hughes is willing, anxious, to take a command at the front and drop out of the government...

The Toronto dictators of Liberalism, The Goods and stars have received what was coming to them. Hartley Dewar was able to win without their support. In fact, it looks as if the absence of that support was a godsend.

Perhaps the most surprising thing in all the Ontario papers of the last fortnight is the outspoken criticism of the papers of northern Ontario on the Healey government and of the minister of lands, forests and mines, Mr. Ferguson.

POLITICAL NOTES

No election held in Canada has ever got so much attention from the press as the one in Southwest Toronto.

When you take into consideration that the Healey government lost three seats in succession and might lose thirty more if they were opened; that there is a soldier vote both here and abroad that is waiting to show politicians what they think of them...

The Toronto dictators of Liberalism, The Goods and stars have received what was coming to them. Hartley Dewar was able to win without their support.

Perhaps the most surprising thing in all the Ontario papers of the last fortnight is the outspoken criticism of the papers of northern Ontario on the Healey government and of the minister of lands, forests and mines, Mr. Ferguson.

GIRLS BEAT BOYS AT PLAY FESTIVAL

Outjumped Their Supposed Superiors and Surprised Hundreds of Spectators.

CARLTON PLAYGROUND

Annual Midsummer Event Keenly Contested by Juveniles.

This week the banner event of the season took place at Carlton Park playground. The annual mid-summer play festival was run off. A most interesting and extensive program was put on by the superiors, and was most ably assisted by the boys and girls.

The exhibition of tether tennis by the midget girls, and the competition high jumping between the boys and girls proved a most interesting event as the applause showed when the girl jumper out-jumped their supposed superiors.

The dances by the girls were exceedingly pretty and well done, and showed that both the girls and the supervisors had put considerable work in developing the rhythm and the precision to carry the numerous dances thru without the leadership of the supervisors.

Wynne, when she sang a patriotic solo, and had to give an encore, although this is unusual in outdoor festivals, was an exception to the rule. She enjoyed an experiment that was enjoyed and applauded particularly by some of our boys in uniform.

CHARGE OF SMUGGLING

Existence of a Contraband Mail System Has Been Established.

NEW YORK, Aug. 25.—Charged with smuggling into the country jewels valued at \$25,000, Fred Iffert, man, landing baggage agent of the Norwegian-American Steamship Line, and Hans Edvard Thompson, an employee of the company, were arrested before United States Commissioner Department here today.

The hearing, at the request of the prisoners' counsel, was postponed two weeks. The men were committed to the Tombs in default of \$5000 bail each. Their lawyers denied the smuggling charge, but the U.S. Commissioner, according to the testimony at a hearing before Special Deputy Surveyor of Port Smyth, large quantities of mail were safely despatched thru the "underground" route from Copenhagen, Denmark and thence to New York.

The existence of the contraband mail system was confirmed at the hearing of Hugo Schmidt, representative of the Deutsche Bank in this city. He admitted that Uffelmann had acted as a special messenger, and that he had paid him \$100 for his services.

The arrest of six other members of the band, one of them a woman, is expected soon.

Government agents declare that besides breaking the customs and mail laws, the band violated the regulations by obtaining false passports.

NINE CASUALTIES FROM ZEPP RAID

Six Airships Flew Over East and Southeast Coasts of England.

A WARM RECEPTION

Anti-Aircraft Guns and British Aeroplanes Met Invaders.

LONDON, Aug. 25.—Details of the raid by hostile airships which crossed the east and southeast coast of England between midnight and three o'clock this morning, as disclosed by the official statement of the war office, show that nine persons are reported to have been injured, some mortally. Other damage to property is slight. The announcement states: "Six hostile airships raided the east and southeast coasts of England last night at intervals between midnight and three o'clock this morning. One airship made her way westward well inland. The remainder of the fleet carried out short incursions over the coast. The number of bombs dropped by the raiders has not yet been ascertained. Several bombs are reported to have been directed at ships at sea. The damage effected by the raid was slight.

"In one locality, a railway station and some houses were damaged and two horses were killed. At another point, two houses were wrecked. "The total casualties have not yet been reported. To date nine persons are reported injured, some fatally. "Anti-aircraft guns came into action at certain points both on land and from ships at sea. Some of our aircraft went up in pursuit. One aeroplane succeeded in firing on a raider at close range, but she eluded her pursuers in the clouds. A further report will follow.

Three killed in town. Several injured by a zeppelin which dropped a large number of bombs in the neighborhood of a town on the southeast coast of England early today, says a despatch to the Exchange Telegraph Co. Several houses were damaged. On other places on the southeast coast many bombs were dropped. One fell into a railway station yard and demolished some railings, while another bomb completely wrecked a dairy near by.

A Central News despatch says there was great excitement in a town on the Thames estuary at one o'clock this morning, when the news was received of the appearance of a zeppelin. Mist obscured the raider, but it could be heard approaching rapidly from the coast. After hovering over the town for some time it passed toward the west. Shortly afterwards a series of violent explosions, followed by cannonading, shook buildings and lit the sky.

The people thronged the streets, calmly watching these operations, which lasted for half an hour.

REACHED LONDON SUBURBS.

LONDON, Aug. 25.—One of the six zeppelins that crossed England last night reached the outskirts of London and hurled down bombs, slightly damaging an electric power station. Gen. French, commander of the home forces, announced this afternoon that three men, three women and two children were killed by the raiders. Seven men, eleven women and three children were wounded.

DEATH OF SENATOR FROST.

OTTAWA, Aug. 25.—Hon. Senator F. T. Frost died suddenly at his residence in Smith's Falls this morning. He was in his 73rd year. He had sustained a stroke of paralysis about six months ago, but had seemingly regained his health and was quite well when he retired last night. He was found dead at 1 o'clock this morning, and died of a rally.

Senator Frost's death leaves another Liberal vacancy in the upper house.

RUBBER AND NICKEL CARGO FOR BREMEN

Barge Reported Laden and Waiting for Arrival of Sub.

NEW LONDON, Conn., Aug. 25.—The German steamer Willehad, which was interned at Boston at the outbreak of the European war, and which sailed from Boston yesterday by way of Cape Cod Canal, arrived here this morning, having passed into Long Island Sound shortly before 9 o'clock.

Heavy fog held up the steamer during the night, but the weather cleared at daybreak and the Willehad proceeded here and came directly up the harbor to the new state pier, on which are new storage sheds of the Eastern Forwarding Co., the American agency for the German submarine merchantmen. It is expected the Willehad will tie up here pending the arrival of the Bremen.

It is believed here the Willehad is to serve in the same capacity for the Bremen as the Neckar, interned at Boston, did for the Deutschland. The Bremen's cargo will probably consist of rubber and nickel, which will act as a "mother ship" for the other German submarines which are in port, and also protecting the submarine from enemy eyes.

Interest was increased here today by reports from Baltimore that the tug Hansa, formerly the German submarine, was to leave that port, towing a barge loaded with rubber and nickel.

TURK LEADERS DEFIED BY MOHAMMEDANS

Grand Sheriff of Mecca in Proclamation Says Independence is Complete.

ENVER PASHA AND OTHERS ACCUSED OF AUTHORIZING HANGING OF MUSLEMS.

LONDON, Aug. 25.—The Grand Sheriff of Mecca, chief magistrate of the Holy City, who announced his independence of Ottoman rule in June, and, supported by Arab tribes, captured the Turkish garrisons of Mecca and several other cities, has proclaimed a definite rupture between orthodox Mohammedans and those represented by the committee of union and progress which is now in power in Turkey. In his proclamation, as forwarded from Cairo by Reuters' correspondent, the grand sheriff denounces Enver Pasha, Talaat Bey and Djemal Pasha, young Turk leaders, staunch supporters of Germany and among the most powerful figures in Turkey. Djemal Pasha is commander of the Turkish forces in Syria and is reported to have adopted severe measures to crush the revolution.

The proclamation of the grand sheriff, addressed to all our muslim brothers, follows:

"We were one with the government until the Unionists appeared. Since which has overtaken the state, which now has been drawn into this fatal war. We bore with the Unionists, notwithstanding their departure from the precepts of religion, until it became apparent that Enver Pasha, Djemal Pasha and Talaat Bey absolutely ruled Turkey, doing whatever they pleased. On one day they hanged twenty-one of the most honorable and enlightened Muslims, while children, old men and delicate women were bound of their natural protectors and subjected to foul usage, even torture. What stronger proof of their faithlessness is needed than the bombardment of holy places, such as Abraham's tomb and the killing of persons praying within a mosque?"

"God has opened the way to independence and freedom for us. Our independence is complete and absolute. Our aim is preservation of Islam."

MR. ROSENBERG
589 Casgrain St., Montreal.
April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for constipation and indigestion as 'Fruit-a-tives.' I was a sufferer from these complaints for five years, and my sedentary occupation, music, brought about a kind of intestinal paralysis—with nasty headaches, belching gas, drowsiness after eating, and pain in the back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives,' and now for six months I have been entirely well."

"I advise anyone who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives,' and you will be agreeably surprised at the great benefit you will receive." A. ROSENBERG

BRITAIN'S NEW PLANE IS PROVING EFFECTIVE

Twenty-Seven Fokkers Have Been Destroyed by Improved Machine.

SMALL, BUT DEADLY

They Can Be Used to Advantage Against Zeppelin Raiders.

LONDON, Aug. 25.—A new type of aeroplane now being used by the British at the front has already accounted for twenty-seven Fokkers, according to a statement made by Baron Montagu.

C. G. Grey editor of The Aeroplane, gives the following description of this new aerial destroyer:

"These small fighting machines are distinctly a British product, first introduced by the Sopwith firm a year or two ago. They are being used in that first experiment which has been developed and fitted with more and more powerful engines until today the British scout biplane is the fastest thing in the sky. The German Fokker monoplane is a fast destroyer, but its success is limited to some extent."

Great improvement. Mr. Grey concludes as follows: "The improvement in the British aeroplanes may eventually have a considerable effect on the air defenses of this country, for the machine is more rapid than the improved in airships' defenses, and consequently it is quite probable that new types of destroyer airships may be produced which will make it almost impossible for airships to get away from this country, if they ever reach it. Improvements in climbing, speed, and power of aeroplanes have been so great that they can now reasonably be expected to outclimb an airship. The contention was that aeroplanes has always been superior to that of the best contemporary airship. So that with these improvements in the organization of the defenses of the air it is unlikely that even the most improved German airships may find it too expensive to continue to annoy the British."

PROHIBITION ACT UPHELD.

Nova Scotia Supreme Court Has Given Decision.

HALIFAX, N. S., Aug. 25.—The Supreme Court of Nova Scotia today upheld the prohibition act passed at the city and that consequently the courts were unable to impose penalties upon those found guilty of violating the act. The supreme court decided that part two of the act did apply to the city and consequently refused application for release of a woman who had been sentenced to jail under provisions of that part two of the act. The court decided that part two of the act imposing penalties previously to that portion bringing Halifax within prohibition provisions, did not apply to the city and that consequently the courts were unable to impose penalties upon those found guilty of violating the act. The supreme court decided that part two of the act did apply to the city and consequently refused application for release of the woman.

MILLIONAIRE ENDED LIFE.

CHICAGO, Aug. 25.—Henry J. Furber, 76, a prominent attorney and real estate operator, today shot and killed himself in St. Luke's Hospital, where he had been a patient for several years. He is said to have been depressed by a recent illness. Mr. Furber left a fortune estimated at \$6,000,000.

ARCHBISHOP SPENDING DEAD.

PEORIA, Ill., Aug. 25.—Archbishop John Lancaster Spalding, who has been in failing health for the last two weeks, died here this afternoon.

SAVAGE FIGHTING ON BRITISH FRONT

With Each Advance, Struggle Seems to Grow More Bitter.

PROGRESS IS STEADY

Repulse of Germans at Guillemont Followed Sanguinary Encounter.

WITH THE BRITISH ARMY IN FRANCE, Aug. 24, midnight, via London, Aug. 25.—There has been murderous work on both flanks in the Somme region where, with every stage of the British progress, the fighting seems to become more bitter and the artillery fire hotter. On the left the Germans hold Thiéval and on the right are clearing the woods which are all the ruined villages now, is most completely pestered by shell fire.

The repulse last night of a German attempt to break through the edge of Guillemont and the neighboring stone quarry was one of the most sanguinary since the war began. Tonight the British have been making further progress east of Delville Wood and further tightening of the pincers on Ginchy and Guillemont.

This afternoon the British and observers witnessed another artillery curtain of fire which utterly alienated the German machine guns as the British charge picked its way among shell craters for four hundred yards up a hill-side, entered the German trench and sent back the usual bunches of German prisoners.

A Vivid Picture. All was seen clearly as if on a stage and viewed from a gallery, even to the detail of men straggling on the edge of the trench and throwing bombs as they might toss biscuits into a basket. Ahead of the snipers, plodding forward the British, carrying their light machine guns, that persistent line of infantry, under the cover of the continuous blasts from their own guns and the rain of bursting shells of the enemy, never faltering, reached the very top of the ridge at one point for a front of one thousand yards.

They were within only five hundred yards of the pulverized remains of what was once the Village of Thiéval, which has become the most remarkable of names to hundreds of thousands of men.

Meanwhile the British kept on sending 15-inch shells into the Thiéval area and into the German dugouts which lie deep under the wreckage of houses. Spouts of smoke and dust rose from the bodies of men and what looked like the bodies of men or sections of timber were tossed about.

NEED MORE PREPARATION

LONDON, Aug. 25.—"Let us not be deceived by all this talk of peace," said a speaker at a meeting of the British Association, "we understand that we were not so ready for this offensive on the Somme as we should have been, and that the general offensive along the whole line will not successfully be undertaken until all our armies further north have the capacity of heavy guns, trench mortars, and munitions as the armies on the Somme."

Every politician, of course, thinks he knows about the war. Although he is an art more difficult to excel than any other, yet the politician is forever turning, fretting, trying to run day and night, in spite of the fact that he had his mind under a microscope and plainly made a most appalling bungler."

BRITISH TOOK BREMEN?

Sub. Reported Captured in Straits of Dover.

NEW YORK, Aug. 25.—The New York City News Association has received word from the British Merchant Marine, who arrived here today aboard the White Star steamship Baltic, as follows: "The statement that the German submarine Bremen has been captured by the British and 33 of her crew made prisoners of war. The Bremen, according to the account, was captured in the Straits of Dover in a steel net on August 2. The two members of the Bremen's crew lost their lives."

ON GEN. HUGHES' STAFF.

Lieut. R. C. Cowan, Oshawa, Gets Appointment.

LONDON, Aug. 25.—Frank Roux, Canadian Army Service, and Sidney M. G. of the artillery, are gazetted as military flying instructors.

Lieut. B. J. W. Purchase, East Kents, wounded, received a commission when he went from the Canadians in December.

Lieut. R. C. Cowan, Oshawa, is now attached to the minister of militia's staff.

Captains Brimmlado and Byres are attached for duty to Epsom Hospital.

SOLDIERS HUNT FOR GERMANS WHO ESCAPED

Over Two Thousand Searching St. Lawrence River Vicinity.

SPECIAL TO THE TORONTO WORLD. KINGSTON, Aug. 25.—Over 2500 soldiers from Barfield Camp are searching the river front for the two Germans who escaped from Fort Henry Wednesday afternoon. They were called out, as it is thought the escaped men are not far away. Major F. G. C. Campbell, in command of Fort Henry, has reported the escape to Gen. Hunter, and an investigation will be held.

KINGSTON AVIATOR HAS BEEN SERIOUSLY HURT

George Raill, Queen's Science Man, Was Serving With Royal Flying Corps.

SPECIAL TO THE TORONTO WORLD. KINGSTON, Aug. 25.—George Raill, a Queen's science man, was seriously hurt while serving with the Royal Flying Corps. He went to the front with Queen's Engineers, and was badly wounded, a bullet piercing his lung, but after his recovery he joined the football and hockey teams. A cablegram says he is doing nicely.

HEAVY LOSS TO FARMER.

M. Ruwaf Had Barn, Live Stock and Threshing Machine Burned.

SPECIAL TO THE TORONTO WORLD. BELLEVILLE, Aug. 25.—M. Ruwaf, a yeoman of Wollstone Township, Hastings County, met with a severe loss when his barn, some live stock and a threshing machine were burned. The fire originated from Mr. Ruwaf using a lantern to fill the tank of his auto with gasoline. His loss is estimated at over \$3000.

ELECTED DEPUTY REEVE.

Fred Jeffs, Councillor of Rawdon Twp., Fills Position Held by Late W. E. Hawkins.

SPECIAL TO THE TORONTO WORLD. BELLEVILLE, Aug. 25.—Fred Jeffs, councillor of Rawdon Township, has been elected deputy reeve of the township, to take the place of the late W. E. Hawkins, who died a few weeks ago. William Linn, reeve, was selected as councillor. Both positions were filled by acclamation.

KINGSTON SOLDIER WOUNDED.

SPECIAL TO THE TORONTO WORLD. KINGSTON, Ont., Aug. 25.—The name of Trooper Allen Forsythe, son of Andrew Forsythe, Fortmouth, appears among today's casualties. The family received word from the militia department at Ottawa that Allen had been seriously wounded. He was a member of the 8th C.A.S., and before enlisting for overseas service, was employed by the Theliday Electric Co. He is about 20 years of age.

ACCIDENTALLY SHOT HIMSELF.

SPECIAL TO THE TORONTO WORLD. KINGSTON, Aug. 25.—Pte. Jack Burns, 14th Regiment Guard, while at Kingston accidentally shot himself with a revolver he was carrying. The bullet went thru his arm. Dr. O'Connor dressed the wound, and he was rushed by automobile to the Hotel Dieu, where Dr. Keyes had an "X-ray" taken. He will recover.

FORMER TORONTO SOLDIER HIT.

SPECIAL TO THE TORONTO WORLD. GALT, Ont., Aug. 24.—Mrs. Matilda Johnston, 141 Water street, received official notice this morning that her brother, Private James Browne, had been admitted to Bolognino Hospital with gunshot wounds in elbow. Pte. Browne had been living in Toronto, and went to the front with a Queen City unit. He had lived in Galt at one time.

Russians Able to Cope With Enemy's Attempts at Offensive.

POISONOUS GAS USED Germans Resort to Often-Used Methods, But Without Success.

PETROGRAD, Aug. 25, via London.—There has been no change on the western (Russian) and Caucasian fronts," says the official communication issued by the war department this evening.

The afternoon statement, referring to the Austro-German offensive before Kovel in Volhynia says:

In the region of the Village of Sankli, north of the Lida-Molodetchno Railway line, the Germans on Wednesday evening let loose a cloud of poisonous gas.

"At midnight Thursday in the region south of Turin (northwest of Baranovich), the enemy after a fierce artillery bombardment, launched an attack on our trenches. He was stopped by our advanced posts.

"In the direction of Kovel, in the region of the Village of Velick, the enemy made attempts to resume the offensive, but was repulsed."

WAR WILL BE LONG SAYS PROTOPOFF

Duma's Vice-President Warns Allies of Future Financial Drains.

FORMER STAFF OFFICER

Russian Official Pays Tribute to England's Foresight.

LONDON.—M. Protopoff, vice-president of the Russian Duma, now in London, is of the opinion, after having visited Italy and France, that the war will be a long one.

"Germany will fight to the last in defending her deformed ideals," said M. Protopoff. "To destroy deeply rooted ideas is rather a difficult job and that is why I do not believe in a speedy end to the war."

M. Protopoff is a most interesting personality in his younger days he was a general staff officer, but his energy could not find an outlet in routine work and he soon resigned, devoting himself to the development of a small factory which he had founded.

He is now at the head of one of the biggest textile producing factories in Russia and probably the most powerful of the Russian manufacturers.

M. Protopoff is very independent in his views and a democrat to his finger nails. He speaks out the truth to everybody. As vice-president of the Duma, he has been more firmly established than any other member.

Speaking about his impressions in the United Kingdom, France and Italy, M. Protopoff says that he has especially one examines the task now before our western allies the more one feels admiration for their courage. To stand especially the formidable task is allotted of being the treasurer of the war. Not only is she helping her allies, but she herself has now created a huge continental army, besides keeping the greatest fleet in the world.

Having acquired a thorough knowledge of the intimate side of this tremendous effort one gets a little anxious about the future financial possibilities. All the allies, in my opinion, ought to revise their state balance sheets, striking out mercilessly most of the items expenditure which do not directly pertain to the war.

"Great Britain is very far seeing. She is preparing—and I think rightly—for a long war. She has become a mighty ally of munitions and one can only admire the measures she has taken in order that compulsory service should not interfere with production of commodities. The efforts put forward for the country's safety by her women folk require special esteem and admiration. It is chiefly due to their self-sacrifice that England is able to finance the war. This example ought to find its echo in other countries. Many badly informed people grumble that England is too slow. They are short sighted and foolish. England is building her effort on a huge foundation and the building will be completed will be the wonder of the world."

"One thing is now certain and the Germans should note it—that the longer the war lasts the more industrial resources of the allies."

THE WONDERS OF NATURE.

Paul, aged 7, was enjoying his first trip to the Vacation Farm, and was further honored by sharing the driver's high seat during the ride from the station thru the open country.

"What's that?" he shrilly demanded of the driver, pointing to a large animal grazing near the roadside.

"That there's a cow," replied his companion good-naturedly.

"What's them things on his head?" "Them's horns. Didn't you know cows got horns?"

"This amounted almost to a rebuff; but after a moment the little fellow asked timidly, "But how does he blow 'em?"

INTANGIBLE ASSETS. As Col. Harris was on his way to attend a Dixie highway meeting he met an old friend who had lived on his plantation several years before. The negro carried a fowling piece of the Rip Van Winkle type.

"Hello, Rastus! How are you making it these days?" "Well, Massa George, I'm making 'em. 'Pine, Massa George! I'm makin' 'em a day now."

"That's great, Rastus! What are you doing?" "Hunting? Impossible! There isn't enough game round here that you could get to make you a day."

"I sure makes it, Massa George. I takes my old gun and goes out into the woods and traps around a while. Maybe one meadow possum's all I catch. At evening I goes home and skins him, and my day is done."

"But how do you get the rest of your possum?" "Down to the hotel, Massa George. Each possum fetch me one cent. Then I calculates I's had \$2.50 worth of fun that day."

NEW YORK STOCKS SHOWED HEAVINESS

U. S. Steel Displayed Early Strength, But Closed With Net Loss.

DEPRESSING FACTORS
Bull Accounts Are Over-Extended and Railway Dead-lock Causes Uneasiness.

NEW YORK, Aug. 25.—Additional profit-taking, induced in part by the approach of the week-end, increased concern regarding the railway labor difficulty and the general extension of belated bull accounts, contributed to the lower trend of today's market. Dealings were again moderately large in the aggregate, but half the turnover of 770,000 shares was limited to less than a dozen stocks. U. S. Steel alone furnishing a total of 150,000 shares.

Relatively, steel was among the heavy issues, its advance from 97 1/2 to 100 in the morning to 101 1/2 at midday giving rise to hopes of a new maximum that were not fulfilled. Steel later led the reversal to lower quotations, closing at 97 1/2, a net loss of 1 1/2 points.

Reading, next in activity, was under constant pressure and registered an extreme decline of 2 1/2 points, with moderate losses in grangers and eastern railway shares. The continental group was strong in the forenoon, but yielded in the general selling movement of the final hour.

Coppers Sold Off.
Coppers maintained their recent prominence for a time with new record for inspiration at 56 3/4, but these issues also succumbed to the weight of late profit-taking, only nominally. There were temporary advances of 1 to 2 points in leading industrial, equipment and munitions, as well as Mexicans and some of the motors, but the latter as a group showed irregular depression with American Consolidated Gas, U. S. Industrial Alcohol and Marines.

The strength of rubles was the sole feature of the dull exchange markets, sterling and franc being unaltered. Trading in bonds was comparatively light, with total sales (par value) of \$2,570,000.

U. S. coupons declined 3/4 on call, the coupon 7/8 advancing 1/2 per cent. on actual sale.

Mining Notes
THE TRETHERWEY DEAL.
Shareholders of the Tretthewey Mining Company have been circulated by Robt. E. Kemerer and Co. in connection with the proposed sale of the property to the Northern Custom Consolidator Co. for the sum of \$125,000.

When the negotiations were entered into during the early part of June, the returns from the mine were very poor and the grade of ore was even lower than had been expected. Subsequently, however, there was a very general improvement in the total returns and the grade of ore was approximated \$5,000; July showed a return of \$8,000, while the first 15 days of August show at the rate of \$12,000.

PARIS, Aug. 25.—The weekly statement of the Bank of France shows the Gold in hand increased \$1,017,000 francs; silver in circulation increased \$5,645,000 francs; treasury deposits increased 708,000 francs; general deposits increased 25,280,000 francs; bills discounted decreased 2,783,000 francs.

GRANBY JULY OUTPUT.
From its two smelters at Ansox and Grand Forks there was produced in July by the Granby Consolidated Copper Mining Company a total of 4,268,546 pounds of copper, which was a record, except for May, when 4,727,929 pounds were produced.

LONDON STOCK MARKET.
The stock market was quiet today, with most of the business done in foreign railroads and colonial. British funds were steady. A few of the industrials and oil shares received some attention.

HEAVY TRADING IN NEWRAY AT ADVANCE

Stock Reached New High Levels—McIntyre Easier Under Selling Pressure.

After a very dull morning session, the mining market at the standard exchange yesterday brightened up and became more active, with Newray the outstanding feature. This issue consolidated its advance, reaching new high levels at 56 1/2, with over twenty-three thousand shares dealt in during the day. Buying from the north appeared, and at the close 58 was asked for, but the stock, McIntyre was active, but was unable to selling pressure, and reacted from 1 1/2 on the opening to 1 1/4 on the close.

Net earnings of the Twin City Rapid Transit for July amounted to \$80,702, as compared with \$266,376 a year ago, an increase of \$44,376. For the seven months to date, the net amount to \$1,865,897, as compared with \$1,865,897, the same period a year ago, an increase of \$361,597. The July gross amounted to \$880,069, against \$738,404, and for seven months \$5,890,274, against \$5,890,093.

DOMELAKE OUTLOOK

H. B. Willis in his weekly letter says: "The recent new issue of what stock remained in the Dome Lake treasury was oversubscribed and distribution will be made as quickly as possible. The firm as a result of this security has remained a stock between 48 1-2 and 44, with the insiders continuing to absorb available stock. At the present time there is less before the history of this company, and the window of opportunity for shareholders in refusing to dispose of their holdings very long. Mine developments are meeting with splendid results."

A feature of The Toronto Sunday World is the number of individual portraits of Canadian fighting men at the front. There are also a number of interesting group views in the week's issue.

HURON OAT CROP POOR.

Special to The Toronto World. GODERICH, Ont., Aug. 24.—The oat harvest is in full swing in this district in most cases the grain is short in the straw and light in weight. The threshers of the adjoining townships are also busy. One farmer stated yesterday that one bushel measure of this year's oats weighs but half when tested as they came from the machine. This is due to the dry and extremely hot weather.
