Speaker at Higgins' Meeting Is Critic of the Meighen Government.

Despite the damp weather a gathering of about two hundred heard the candidate and other members of the Soldier-Labor forces in vigorous addresses at the corner of Alcorn ave. and Yonge st. last night.

Mr. Meighen lunched upon the reported intention of the government to prohibit import of sugar from the United States into Canada.

James Higgins, following Mr. Meighen's record as a soldier with 30 months in France, and to his record as a working man with twenty years as a representative of the labor idealism.

ARRESTS FOLLOW THEFT OF SKINS

Kravitz Brothers Accused of Joining to Defraud a Business Partner.

Joseph Kravitz, 151 Ontario street, was arrested yesterday afternoon on a charge of theft from Harry Rosen, 20 West Adelaide street, and his brother Isaac, 270 Oxford street, was also taken custody on a charge of receiving stolen goods.

Joseph Kravitz and Rosen, the police say, were partners in the business of selling skins in the district of the past month.

OTTAWA FLOCKS TO HEAR BOOTH

Overflow Crowd Fills Street From Walk to Walk—Like Surging Mob.

Ottawa, Oct. 26.—General Bramwell Booth, world head of the Salvation Army, who spoke tonight in Dominion Methodist Church, under the chairmanship of His Excellency the Duke of Devonshire, attracted an audience such as has rarely been brought together in Ottawa.

At 7.30, altho the meeting did not commence till 8, every seat in the church was occupied and hundreds were left outside.

General Booth said that this was an overflow meeting and, standing on the steps of his car, addressed a few words to the crowd.

General Booth is certainly a magnet of attraction, and his rare and delightful touch of humor, and the frequent whimsical stories and touches with which he enlivened his talk.

His excellency the governor general delivered a telling speech, in which he spoke of the great work of the army, which, in traveling from coast to coast in Canada, had come under the personal observation.

General Booth caused laughter and applause when he mentioned that among other things the Salvation Army was a vast temperance organization.

He told his hearers that the army's flag was still flying in Moscow and Petrograd, and that his father had urged that the army be established in China, and that this wish had been carried out.

LORNE E. HELMER SAYS NOT GUILTY TO GREEK THRONE

Regent to Be Appointed Till the New King Arrives.

Athens, Oct. 26.—The Greek cabinet assembled immediately after the death of the King last evening and drew up a message to the people expressing the grief felt at the monarch's death and adding:

"In conformity with the constitutional order of succession the youngest brother of King Alexander, Prince Paul, is called to succeed him.

"The cabinet decided that King Alexander's body shall lie in state Wednesday night, and until the oath is administered to the regent in compliance with the same article of the constitution, the royal and constitutional powers will be exercised by the council of ministers."

French Government Approves. Paris, Oct. 26.—At the French foreign office it was said today that the French government is quite in agreement with the policy of Premier Venizelos in offering the Greek throne to Prince Paul.

Some considerable time was spent in selecting a jury, man after man being challenged and it was not until 11 o'clock that the jury was completed.

WILL SAY GOOD-BYE TO CIVIL SERVICE

Supernannation of Old Government Employees Goes Into Effect.

Between fifty and sixty provincial civil servants are, it is understood, to be retired on supernannation on Oct. 31, which is the end of the fiscal year.

Later, more who are due for retirement under the act passed at the last session of the legislature, will also be let out.

MANY ORDERS MAY BE FOUND INVALID

Failure of U.F.O.-Labor Government is Drawing Fresh Criticism.

The failure of the Farmer-Labor government at Queen's Park to insert a fair wage or eight-hour day clause in its public works contracts is again being brought to the attention of union officials thru the enforcement of road work in the vicinity of Hamilton of a ten-hour day.

James Simpson, editor of The Industrial Banner, knew of no action having been secured by the district council, but believed the exclusion of the wage and condition clauses to be a fact.

"The majority of the unions concerned," he stated, "are sufficiently strong to secure their wages and conditions themselves."

\$75.00

THE DECK is of No. 1 ash and popular, ribbed cross-wise, curved and slatted endwise, the slats being counter-sunk; all joints and laps are glued, screwed and nailed. The roof covering is in one piece, and of double texture, two-ply sail duck, with rubber between. No seams to tear, rot or leak. The exposed side, is heavy rubber-coated and grained, semi-bright finish.

BACK CURTAIN is made of same material as roof, reinforced with blind tacking strip on the inside, lower edge to fasten to rail of body, neat pyralin light, oval shape at back.

DOOR CURTAINS have large pyralin light. Each door curtain mounted on spring roller on inside of top. Curtain travels in grooves, making a weather-tight enclosure, and clever device holds curtain down snugly.

FRONT CORNER POSTS are of heavy gauge sheet steel. They hold the curtains tightly in place and prevent rattle and leakage.

CENTRE POSTS are for touring cars only and are not used with the roadster top. They can be detached instantly and placed under back seat if you wish to drive with the car open.

GLASS SIDE PANELS--The frames of the side panels are made of seasoned white ash, polished a rich black. The glass is double strength, set in tough, closely-woven felt cushions, to prevent rattle and breakage.

THE OUTFIT INCLUDES all the necessary irons, bolts and screws, to fit 1915 to 1919 (inclusive) Ford touring models, without alteration.

\$75.00 is a small outlay for the touring top, when you consider the great amount of comfort one derives from such an article. Tops for Roadsters are priced at \$47.50.

Taking The In Out of Indigestion

Stuart's Dyspepsia Tablets Are Nicely Balanced to Enable You to Eat What You Like Without Distress.

Indigestion is about the most universal complaint of mankind. And when the stomach is sour, gassy, bloated-like and you get that peculiar bilious taste in the

mouth due to indigestion or dyspepsia there is nothing more relieving than one or two Stuart's Dyspepsia Tablets. Many people are afraid of nearly all the good old savory dishes, the fried eggs, sausage, steak and onions and so on, as they usually experience the peculiar acidity which often follows such food. But Stuart's Dyspepsia Tablets were designed to supply the stomach with the alkaline effect to offset the acid condition. For this reason many physicians recommend these tablets and you can get them in any drug store at 50 cents a box.

RULES ASSOCIATION IS TRADE ADJUNCT

Revision Court Decides Bodies Representing Business Are Assessable.

The court of revision yesterday decided that associations representing trade interests are properly assessable as businesses. Two cases in point were those of the Rubber Association and the Men's and Boys' Clothing Association. In the case of the Rubber Association, it was argued that there was no share capital and no regulation of prices. Commissioner Ardagh thought it was for the promotion of the rubber industry and for that reason was a business. The clothing association case had been adjourned from a previous day. Mr. McIntosh, manager of the association, said the purpose was to deal with labor difficulties and wages solely, with a view to establishing harmony. The members of the association were assessed at their various places of business. The court ruled that the association was an adjunct to the business.

E. A. Walberg, consulting engineer and a director of the Leaside Engineering Company and other concerns, appealed against an assessment of \$50,000 on income, claiming that his income was only \$12,000. George Hurst of the assessment department said Mr. Walberg's returns had not been satisfactory. In 1918 he had filed a return placing his in-

CIVIC LEGISLATION FOR COMING SESSION

Preparation of Measures Is Now in Hands of the Legal Department.

Preparation of the city's bill, comprising the legislation which will be sought at the next session of the legislature, is now in the hands of the city legal department. The house will open early in January and the city's legislation will have to be advertised as early as Nov. 20, in order to fulfil the six weeks' notice condition.

The city is asking for authority to issue \$105,000 additional debentures in connection with the Bloor street sewer without a vote of the ratepayers, the additional outlay being the result of the increase in the costs of materials. A number of matters will be voted on by the electors on Jan. 1, before legislation affecting them can be prepared, and it is a question whether there will be time to get them thru before the session adjourns. The legislature has asked the city to secure

FAIR RENTALS BILL READY FOR HOUSE

Tentative Measure Makes Provision to Curb the Profiteering Landlords.

Without defining the percentage of increase or the date upon which standard rents are to become effective, the proposed "fair rentals act." It is explained, however, by the attorney-general that the measure is merely tentative. It will be introduced in the legislature as early as possible after the opening of the session.

The provisions of the draft bill are as follows: "1. This act may be cited as 'the fair rentals act, 1927.' "2. This act shall apply only to a city, the council of which passes a bylaw declaring that it will apply only to dwellings, not exceeding \$100 a month in cities having a population over 200,000, and \$60 in other cities.

"3. In this act 'dwelling' shall mean premises occupied for dwelling purposes other than a room in a hotel, lodging house, or 'tenant' shall include any person from time to time deriving title under the original landlord or tenant.

"(c) 'Standard rent' shall mean the rent which the dwelling house was let on the ... day of ... 19- or where the dwelling house was not let on that day the rent at which it was last let before that day, or where it was first let after that day the rent at which it was first let.

"4. (1) Any increase in the rent of a dwelling-house exceeding ... per cent. of the standard rent shall not be recoverable notwithstanding any agreement to the contrary heretofore or hereafter made.

"(2) Where the landlord incurs expenditure on the improvement or structural alteration (not including expenditure for decoration or ordinary repairs) of a dwelling-house, an increase in rent in addition to that allowed by subsection 1, but not exceeding 10 per cent. on the amount actually expended on such improvement or structural alteration may be charged by the landlord.

"(3) Any transfer to a tenant of a burden or liability previously borne by the landlord, the result of which is that the terms on which the dwelling-house is held, are less favorable to the tenant than the previous terms shall be deemed to be an increase in rent, whether or not the sum payable by way of rent is increased.

"(4) An increase in rent in respect of any transfer to the landlord of a burden of liability previously borne by the tenant, the result of which is that the terms on which the dwelling-house is held, are more favorable to the tenant than the previous terms shall be deemed not to be an increase in rent for the purpose of this act.

"5. No increase in rent permitted by this act shall be due or recoverable until the expiration of four weeks after the landlord has served upon the tenant a notice in writing stating: (a) the amount of the proposed increase; (b) the standard rent, where the increase is made on that account; and (c) the cost of the improvements or structural alterations where the increase is made on that account; and informing the tenant of his right to apply to the local board of health for a certificate as provided by section 6.

"6. No increase in rent permitted by this act shall be due or recoverable if the local board of health of the city on the application of the tenant certifies that the dwelling house is not reasonably fit for human habitation or is not in a reasonable state of repair.

"7. The landlord on the request of the tenant shall furnish to him a statement setting out the standard rent of the house, and if he fails to do so within fourteen days or furnishes a statement which is false in any particular he shall be liable on summary conviction to a penalty not exceeding \$50.

IT DID THE WORK, SAYS 'PHONE MAN

Has Enjoyed Finest Health Ever Since Tanlac Put Him on Feet Three Years Ago.

"Although it was three years ago that Tanlac relieved me of a bad case of stomach trouble and built me up 36 pounds in weight, I've been enjoying the best of health ever since, and today am feeling just as fine as I ever did in my life," said Frank Slingerland, employed by the Bell Telephone Company, living at 223 Balsam avenue south, Hamilton, Ont.

"I was in a terribly run-down condition, due to a badly-irritated stomach, caused by working in a munition factory. I was continually breathing the fumes and kept getting worse and worse, until I could scarcely retain a glass of milk on my stomach, and at times I couldn't even drink a glass of water. Everything I ate caused my stomach to pain for hours, and I had frequent headaches, lasting two or three days at a time. In the morning I was just as tired as when I went to bed at night, and I never felt rested, but was simply miserable all the time.

"I just kept hearing so much good said about Tanlac that I finally began taking it myself, and it wasn't but a little while until I was improving right along. After taking five bottles, I am in tip-top condition, feeling fine, and can eat anything set before me without my stomach hurting me a bit. I have put on 36 pounds, and have been feeling like a different man ever since. Tanlac certainly did the work for me all right, and I don't hesitate to give it my highest endorsement."

Tanlac is sold in Toronto by Tamblin Drug Stores and by an established agency in every town.

MOOD OF MAYOR IS QUITE GLOOMY

Trend of Things in General Moves Him to Pessimistic Utterance.

Mayor Church's active brain refuses to rest even on a rainy Tuesday. Yesterday he handed out a statement in which he finds a good deal of fault with the governments, both at Ottawa and Queen's Park. In part, this is what he says:

"The Ontario government has stopped the Hydro radicals, and the Ottawa government has dilly-dallied for six years about the Welland canal. "Canal contracts were scrapped during the war, which were at the cheap rates, and will have to be begun over again now, with money, labor and materials at much higher rates. The government stands to lose some millions.

"There will not be another boat in Toronto harbor until the new Welland canal is completed, as the boats on the upper lakes cannot get down to Lake Ontario until the new Welland is finished.

"I do not know what the Ottawa government is thinking of to allow the hold-up of the Welland ship channel, and allowing the Toronto Power Company to export power to the other side the way they do when our industries are crippled and paralyzed here.

"If the railway commission will get off the map it will be a good thing before they finish their work of rate-raising and hand-outs to everybody who wants, in the way of increased

rates for express, telephone, freight and passenger services. "We also applied to parliament, to the railway commission, and, on an appeal, to the committee of the privy council for a steam suburban service for the Toronto district, and we were beaten at every turn. Montreal can get this service, but Toronto can get nothing at all, although the railway act says there should be equality of treatment between localities.

"It is high time the city had a publicity and industrial department of its own to boom along all these matters, instead of being asleep. Detroit is an example to Toronto, in the great forward movement there is there to locate industries and boom along the improvement of canals and deep waterways."

ALLEGED NEGLIGENCE IN AUTO ACCIDENT

Mr. Justice Latchford and a jury in the assizes are trying the action of Frank Marino of Scarborough for himself and his son, Tony, aged 9, against Gordon Baker of Toronto for \$5000 damages for alleged negligence.

The boy was struck by the defendant's auto on the Kingston road last December, and had his head and arm out and several ribs broken. As a result, he is in the hospital nine weeks.

The defendant alleges that the boy ran from behind a wagon-load of hay in front of the auto.

APPROVE PLANS FOR COMMERCE SCHOOL

Suggest Toronto as Location for Proposed Dominion Technical College.

Principal A. C. McKay of the Central Technical High School and the members of the industrial education advisory committee were in high glee yesterday afternoon over the bright prospect for the early erection of the branch technical high school for the eastern district. Plans for the building were placed before the committee by the building department. The plans call for a structure to face east on Greenwood avenue. The school will have wings extending north and south from a central entrance building, and have an extension for working west.

It is expected that a street will be opened up at the south of the new technical high school across from Greenwood to Donlands avenue. The plans met with the approval of the members of the committee and will be sent to the department of education for adoption.

Principal McKay, in discussing the possibility of a Dominion central technical college for the training of technical department supervisors, said that Toronto would be a good place for it to be located as there would be a demand in Ontario for at least one hundred technical course teachers next year, with a steady increase in the demand. At present it was almost impossible to secure the expert

teachers required, and when found they were gifted men and women who had qualified themselves in the best haphazard way obtainable.

Principal McKay was of the opinion that either a central technical training college for the Dominion, or one each for the provinces, would be the eventual solution of the problem of how to get qualified technical teachers.

Miss Lexa Denne was appointed assistant teacher of domestic science in the Central Technical High School at an initial salary of \$1,700 a year.

Miss Charlotte Houlestone was appointed assistant teacher of domestic art at an initial salary of \$1,700.

PULLAN BUILDING FOR STEAMSHIP CO.

12-Storey Office Structure Will Be Erected When Prices Drop.

It is understood that the Pullan building at the northeast corner of Wellington and Bay streets has been selected by a steamship company for about \$200,000. The building occupies 100 feet on Wellington and 50 feet on Bay street, and it is known as 87-89 Bay street. The present structure will be pulled down to make way for a twelve-storey office building, which will be erected as soon as building costs come down.

Childs Company, Limited, who recently purchased from an English syndicate the property on the south side of King street west, from No. 9 to 13, will start in a couple of weeks removing the old buildings on the property to make way for a new 12-storey restaurant and office structure. The property has a frontage of 47 feet and runs back 175 feet to Melinda street. It was bought thru Robins, Limited, for about half a million dollars. The new building will be of steel and concrete construction and an up-to-date restaurant will be opened on the ground floor.

It is reported that Childs, Limited, have plans for the opening of a restaurant on Bloor street, at the northeast corner of Bellair street, formerly the T. H. Bull estate, but no confirmation of this is obtainable.

The city architect's department issued the following permits yesterday: Mrs. E. Hood, dwelling, west side of Greenwood avenue, near Danforth avenue, \$4,000; Board of Education, portable school, Donlands avenue, \$5,000, portable school, Dufferin street, \$5,000, portable school, Malvern avenue, \$5,000; H. A. Johnston, store and dwelling, 74 Collin avenue, \$5,800; A. Miles, pair brick dwellings, 415-417 Bloor avenue, \$5,000; W. Padfield, dwelling and garage, 56 Chisholm avenue, \$3,500; Imperial Bank, bank building, southwest corner Queen and Carlaw avenue, \$10,000.

LIBRARY AS PART OF SCHOOL SYSTEM

President of Council Urges the Necessity of Bringing Institutions Together.

Speakers at the afternoon sessions yesterday of the congress of those interested in boys and girls were introduced by W. T. Banton, chairman of the public library board, who prefaced the proceedings by a few words in which he stated that the fact as to the children's work in connection with the libraries was concerned the board had always been co-operative with Dr. Locke and proud of the things being done.

A most interesting address on home and school clubs was given by S. B. McCready, president of the Home and School Council. The home and school clubs were closely related, said the speaker, who regarded the library as part of the school system. Home and school clubs together with these institutions together and to encourage team play. The best club of which the speaker knew was that of the consolidated school in Guelph, founded in 1905, the club in which work in the way of electing trustees and procuring many things for the school, such as new floors, cleaning and painting, fields and becoming more and more a community centre. Toronto has now 25 such home and school clubs, and a provincial charter has been obtained which takes within its range 75 clubs scattered throughout Ontario. The Hon. H. R. Grant, minister of education, considered the movement in so far as it has a light that he had given a grant of \$2,000 to help it along. As a result, Mrs. Courtice had been appointed organizing secretary, and any club wanted advice or other help in starting a club would find Mrs. Courtice available, said the speaker. Mr. McCready said there was no work for the club to do when there would be the day would come when there would be a home and school club in connection with every school in the Dominion.

Work to Help Boys. How the Y.M.C.A. works to help boys was told by Mr. J. L. Short of the west end branch. In connection with the west end activities there was 1,987 boys. These were divided into groups, according to age or occupation as to school or occupation. The program includes talks, pictures, Bible study, music, nature study, debating, lessons in life-saving and first-aid, trips to museums or industrial plants, week-end or other "hikes" and "special stunts," when boys having any specialty were given an audience. Toronto had at present 14 schools for the training of boys in the work. The speaker also told of extension activities in China.

What may be done for boys and girls through the medium of encouraging a love for books was told by Mr. Hume at the Hume Wood Public School. The speaker described a plan upon which he was working in connection with the library, whereby he hoped to take in some millions of children. Last year Toronto had 366,000 children who visited the libraries. If lists were made out of good books suitable for children of all ages and kept at the schools, and children were encouraged by the teachers to consult these lists with the libraries with the books listed as their goal, the speaker felt certain that the love for reading among boys and girls, especially among those who are less fortunate, would grow immeasurably, and that the love of reading would be a great asset to the child. He never reads a book without feeling that it is a gift to him, and he never reads a book without feeling that it is a gift to him.

Purpose of Books. The conference was resumed at 3.15, when Dr. Locke introduced Prof. J. A. Dale, M. A., director of social service at the University of Montreal. In connection with McGill during Mr. Dale served as chairman during the evening and expressed his pleasure at the character of the meeting, which, to his mind, was the wedding of social service and the library. On the subject of books, Mr. Dale said that the legitimate purpose was two-fold—to give power and pleasure. He introduced Miss Anna C. Tyler of New York, who is now of the training school at the reference library for librarians with Mr. Carson, to whom Dr. Locke expressed hearty thanks for the privilege of having the speaker for the evening sessions of the conference.

Miss Tyler told of how they interested the children of New York in library clubs, dividing them into groups of different ages, from ten years up. Before that time the little ones were altogether in the story class. Programs were arranged, suggestions coming very often from the children themselves. Readings, debates, questions, written out to be answered, were items of the meetings held two or

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel. By MILDRED MARSHALL

LORRAINE. Where Lorraine originated is difficult to say. That particular form has no etiological history. But it is possible that it is the modern outgrowth of the names arising from the old Roman "laurea," the little twin gods who preside over the household and were decorated with wreaths on festival days. The special feast of the Lorraine was on the 22nd of December and it was immediately followed by that of a feminine deity called Lara, Larunda, Laurentia, Laurentia or Acaia Laurentia, who was termed in old Latin "good mother." It was she to whom prayers were made in good slave might depart. (What a comfort her presence would be to the modern housewife!) When Greek mythology came in, poor Laurentia was turned into a nymph whose chattering annoyed Jupiter to such an extent that he ordered her tongue cut out and sent her to the lower world in charge of Mercury. But he that for may, her name was popular among Roman matrons and existed in various forms. Lorraine is generally regarded as the French interpretation of this popular name, which slipped over the border from Italy. Lorraine is her talismanic gem. It will bring her health, riches, long life, and happiness, according to the extravagant promise of the Chinese. Monday is her lucky day and her lucky number.

GIRLS OF TORONTO POWDER TOO MUCH

War Veteran Says So, and Would Import a Wife From Scotland.

The Glasgow Weekly News, in a recent issue, features on its front page the story of a young Canadian war veteran, Rupert Hamilton, living in Toronto, who is desirous of importing a Scotch girl to marry. His disapproval of the alleged grounds that "their faces are white with powder" that they "won't marry a man unless he has a nice motor car," and "want to go to the show every night." It appears that Hamilton, who is 25 years old, saw considerable war service and was shell-shocked. Since returning to Canada he has been in communication with a young woman employed in the Glasgow general post-office, and it is in letters to her that he has placed himself upon the Glasgow marriage market. Following are some excerpts from his letters: "What He Promises. "As I know Scotland ain't without pretty girls, they won't mind answering this. I took the notion I would like to marry a pretty Scotch girl, and the chance will not regret it. Plenty of nice girls here, but the Scotch girls look so much nicer. I am good-looking and decent, and will be as good as possible. My wife won't have to work more than to cook a meal, and keep the house a bit tidy while the old hubby is at work. "White With Powder. "I would like you to promise to marry me before I pay your passage. If you do, I will take you at your word. It would be a bit hard luck if you would turn me down for someone else when you got here. I don't think the girls in Scotland could do such a mean trick as some of the girls here do. No one likes a nice girl better than I do, but I would have no use for these we have out here, with their faces white with powder. "Perhaps you might get rather rich on Wrangel, but some girls out here won't marry a man unless he has a nice motor car. "I could get plenty of girls over here, but all they wish to do is powder their face and go to the show every night. No Talkers. The Weekly News story concludes: "That's the length this ardent young Canadian's search for a Scottish wife has reached. None of the ladies who have so far written to him has deemed it expedient to cross the Atlantic, but the Toronto Romeo is apparently not easily daunted in his search for 'a nice Scotch girl.'"

SOVIET HAS RATIFIED TREATY WITH POLAND

London, Oct. 26.—Ratification of the preliminary peace treaty between Poland and Bolshevik Russia was voted by the all-Russian soviet yesterday, according to a wireless despatch from Moscow. George Tchitcherin, Bolshevik foreign minister, explained the pact, and declared Poland had refused assistance to General Wrangel, head of the anti-Bolshevik government of South Russia. He also asserted Poland had agreed not to lend aid to forces of reaction in Russia. Those agreements on the part of Poland, he said, were compromise measures, which had been gained at the price of territorial concessions to the Polish government.

Reflections of a Bachelor Girl

By Helen Rowland. Copyright, 1920, by The Wheeler Syndicate, Inc. OF COURSE A man is not vain. And yet— He never appears in evening clothes, without feeling, somehow, conscious that the eyes of the whole world are focused on him. He never doubts, when he puts his cheek against a girl's, that it feels as soft and smooth as HER'S does. He never sees two women across the room, whispering together, without wondering what they are saying about him. He never even blushes when he appears in a bathing-suit. He never thinks it worth while to deny himself a potato or a slice of cream pie for the sake of his beauty; nor even dreams that a double chin and a few pounds avoirdupois could mar his fatal fascination. He never passes a chewing-gum machine without depositing a penny in the slot, for the privilege of glancing in the mirror and straightening his tie. (Tho he usually pretends that he's looking for a cinder in his eye.) He never gets married, without feeling sorry for all the girls he thinks are disappointed, or heartbroken at losing him. He never buys a pair of shoes, without trying on every other pair in the shop. He never doubts that it is sheer prudishness (or perhaps artful design) that makes a girl refuse to kiss him. In his childlike simplicity, he never can think of any other reason why she shouldn't WANT to kiss him. He never doubts that every blessed woman he meets, is going to try to lure him into matrimony—or out of it. He never denies any of these things. That would be VAIN! And he is NOT vain—bless his heart!

OPPOSE EXTENDING DIVORCE GROUNDS

Anglican Social Service Council Hits Annulment of Mixed Marriages.

At the annual meeting of the Council for Social Service of the Church of England in Canada yesterday, two strong resolutions were passed dealing with the mixed marriage annulment question and general divorce. The council protested strongly against any extension of the present grounds of divorce in any contemplated legislation on the subject, and pledged itself to seek amendment to existing legislation with which to effectively protect the wronged party from unfair treatment. It also protested, strongly against the annulment by the superior court of Quebec of mixed marriages, holding such annulment to be a menace to the moral life of Canadians. In regard to the widespread existence of venereal disease, the council pointed out the necessity of parents and guardians teaching children to reverently deal with their bodies, and promised it every support.

STONE FROM CANADA FOR SOLDIERS' GRAVES

London, Oct. 26.—Hon. Hugh Guthrie, Canadian minister of militia, who has been on a visit to England, today informed the Canadian Associated Press that he had discussed with the War Graves Commission the possibility of a supply of headstones being secured in Canada for graves in the war areas. Mr. Guthrie says that he finds that specimens of stone already submitted from Canada have been pronounced too expensive and also too hard, but he hopes that these difficulties may be overcome. Mr. Guthrie has arranged for the final demobilization of the Canadian military organization in London to come into effect on December 31. Mr. Guthrie sails tomorrow for Canada.

The Parkdale Canoe Club has issued invitations for their masquerade dance to be held at their club house, Sunny-side, on Friday evening.

Mrs. Frederic Boland, formerly Veronika Brown, received for the first time since her marriage yesterday afternoon with her mother, Mrs. J. F. Brown, 118 Dowling avenue. The bride wore her wedding gown of silver cloth and silver jewelry and carried a bouquet of blue and white flowers.

The Church of the Redeemer was the scene of the marriage of Elsie May, daughter of Mr. and Mrs. Alfred Wade, to Oswald Eugene Gray, Philadelphia, son of Mr. and Mrs. Walter Gray, Philadelphia. Rev. C. J. James officiated, and wedding music was played by Mr. Otto Golan, Miss Lillian Gough, Miss Edith Edmondson, Miss Ella Rogers and Miss M. H. Glover.

St. Anne's Anglican Church was the scene of a wedding when Edith, eldest daughter of Mrs. L. Parke, was united in marriage to James Batram Dixon, Rev. Canon Skoy officiating. The bride, attired in a richly-embroidered gown of brown satin, with hat to match, and carrying a bouquet of Opheelia roses, was given away by her uncle, Mr. Geo. Parke. Miss Georgina, sister of the bride, wearing a suit of navy blue broadcloth, acted as bridesmaid, the groom being supported by Mr. Ernest Willis. After a reception at the home of the bride's mother, the happy couple left for their home in Drayton avenue.

For Ladies

Said Mrs. C—— to Mrs. T—— One bleak and cold and wintry day, "You know, my dear, this time of year is hard on folks. If only we could feel assured Of health and comfort, 't would be fine, But it seems we can't, in such a climate."

"Well, do you know", smiled Mrs. T—— "I used to think this time of year, Meant colds and sickness always near, But we heard of an easy way, To be healthy and comfy every day. You know Mrs. Wise, across the street, (Just the picture of health and always neat) Well, she was told by a doctor friend She'd never regret the money she'd spend On good wool 'Undies', the 'Ceetee' kind, Made by Turnbull's of Galt, I think she said. An advertisement somewhere then she read— Telling folks how that particular kind Was fashioned by experts—and that you'd find The 'Undies' they made were the better kind— Fashioned of wool that was not one bit 'tickly' (Others, you know, tickle and seem sort of prickly) That all "CEETEE" garments are so downy and soft, We'd just love to wear them—in fact, very oft Mothers buy them for babies, all fears to allay Should they go for an airing on a stormy, chill day— Why! the rain would 'nt matter, neither wind, snow or frost— "CEETEE" garments, in truth, are worth twice their first cost. They're the finest of high-grade underwear, And the thriftiest, best-dressed women who care, Know that it pays to buy none but the best; Don't you think we'd do well to give them a test?"

"CEETEE" for ladies is made with low cut neck and no sleeves—also with elbow sleeves and in higher neck and long sleeves.

"CEETEE" is knitted on very fine needles—this makes it very warm, soft and light.

Any doctor will advise you to wear wool next the skin; it is a non-conductor, thus retains the warmth of the body, keeps out the cold—and safeguards your health.

Why not try it this winter?

Sir Henry Drayton's Mission.

Sir Henry Drayton had a frank talk Monday with the bankers, brokers and financiers of Toronto. It was a private conference, but there was an attempt to keep the substance of it from reaching the public.

But we need all the savings of our people to finance the government and the business of Canada. We cannot obtain money in the United States except by paying a ruinous premium.

The Color Line in the U. S. Election.

The color line is beginning to weave a black thread in the woof of the coming presidential election. It appears for the first time in years.

We care not who does the votin', so we do the countin'. All the bids made for harmony, the Republicans have been allowed to absorb the colored vote of the northern states and compete for it in the border states, under a gentleman's agreement that they would not make any fuss about the suppression of that same colored vote in the southern states.

It so happens this year that the Republicans are benefiting more than usual from the colored vote. During the war there was a large immigration of colored people from the southern states to Ohio, Indiana and Illinois.

The result has been a reaction against the Republicans in the border states, where the white people are just waking up to the fact that the suffrage amendment adds immediately to their pressing problem.

Remark in Passing. A world's fair is to be held in Reykjavik, the capital of Iceland, next year. In the meantime let's get busy and find out how to pronounce it.

PRESS COMMENT ON MACSWINEY'S DEATH

Times Calls Late Lord Mayor Sincere, But Misguided Patriot.

London, Oct. 26.—Articles on the death of Lord Mayor MacSwiney occupied much space in this morning's newspapers, regardless of their political views. Some of the journals refrained from commenting editorially on the situation which has arisen, while others have written in accordance with their customary attitudes on the Irish question.

The Times, which is hostile to the government's Irish policy and the Irish bill prepared by the cabinet, severely attacks the government, especially in the matter of reprisals. Referring specifically to MacSwiney, the newspaper expresses the fear that the effects of his death will not be confined to the British Isles, but it recalls it has always maintained the Irish question was essentially British.

Converted Into Martyr. The Daily News says the government imprisoned MacSwiney as a criminal and converted him into a martyr, and must bear responsibility for his death.

ITALIAN TROOPS OCCUPY THE CITY OF TRIESTE

Rome, Oct. 26.—The city of Trieste was occupied by Italian troops Sunday, according to telegrams from that place to the Corriere d'Italia and the Idea Nazionale. A report had been circulated that landing by Gabriele d'Annunzio was imminent, but this did not materialize, d'Annunzio telegraphing from Fiume a denial of any intention to land at Trieste.

CRIMEAN ARMY CAPTURES RED PRISONERS AND GUNS

Sebastopol, Crimea, Oct. 26.—Fifteen thousand Russian Bolshevik soldiers have been taken prisoner and many cannon and large quantities of war material have been captured in raids carried out by General Wrangel's army recently. An attack along the line running from Marioupol to Sineikovo resulted in the capture of 10,000 men, and the remainder of the soviet prisoners were gathered in during rear-guard actions while General Wrangel's forces were being pursued by the enemy two weeks ago.

KINGSTON CITIZENS TO DECIDE OWN TIME

Kingston, Ont., Oct. 26.—(Special)—The city council will take a vote in January on the question of whether or not the city will observe daylight saving next year. Last year the city observed daylight saving from May 1st till Labor Day, but owing to strong objections taken by a large number of citizens, the council decided to put the question to a vote of the people.

THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER XII. (Continued.)

"Yes," said Armathwaite. "I men Mr. Burt yesterday." "It's built on the ruins of Holland Castle, sir. Its barely ten years ago since Mr. Burt used the last of 't' stones for his new barn. These Hollands were descended from a lady who married Edward, the Black Prince. She had three sons by her first husband, an 'one of 'em ken to this part of Yorkshire. As was the way in them days, he set a church alongside his castle, and was that proud of his board of commerce, retail clothiers and shoe dealers who had lived, that he had that painted glass window med in his memory. In later times, when there was a cry about images, when there of Holland Castle had the window taken out an' hidden. Then, to please somebody or another, he set fire to 't' church. After that things went badly with him, the castle was deserted because it had the plague, the 'I'm thinking the only plague was bad drainage. Anyhow, nigh on two hundred years ago, a man named Faulkner, settled 't' this quiet spot—you can guess what it was like, sir, when there was a rain barrel, an' 'I'm not to say that he was a rare hand at drawin' terrible things, so he planned you devil's phiz on oiled paper, an' stuck it between two thin plates of glass, an' it was leaded in. If you was to climb on a ladder you'd find the difference at once between that part of 't' window an' all 't' remainder. Many's the time I've seen it when nallin' up the wistaria, an' if I'd dared, would have put the hammer-head thru it. But Mr. Garth refused to have it touched. He called it an antiquarian curiosity. All the same, he wouldn't have Miss Megg told about it, because it might have frightened her, but he was always careful to see that the blind was not drawn across the front door on June evenings. Megg, you'll have heard of a ghost, sir, and both men looked up, the hammer-head thru it, her face aglow with pleasure.

"Why, if it isn't my own dear Smith!" she cried. "What lucky wind brought you here Mr. Armathwaite, is this your doing?" Smith, III be down a jiffy, and you don't see daddy before I come!" "Thus it befell that when Betty Jackson brought an early breakfast to Percy Whitaker, and she was asked where Miss Megg was, she answered: "Out in the garden with Mr. Armathwaite. They're talkin' to Begonia Smith."

"Ah, I heard the voices. And who, pray, is Begonia Smith?" demanded Percy. "The old gardener," said Betty. "He was here years an' years." "Does Mr. Armathwaite mean to have the grounds attended to?" "Looks like it, sir. He an' Miss Megg are measurin' bits, an' Smith's stickin' in pieces of wood. It'll be nice to have the place kept spick an' span again."

"It was, perhaps, unfortunate that Miss Megg's friend from the bedroom window should have brought her downstairs pell-mell without even a tap on Whitaker's door to inquire as to his being there. It was, perhaps, remembered her remissness, she should have hurried to his room while her cheeks were flushed with the strong moonlight air, and her eyes shining with excitement. "How are you, Percy dear?" she said, entering in response to his surly "Come in!" "I ought to have looked in on you sooner, but I could hardly believe my eyes when I saw Mr. Armathwaite in the garden with Smith, our own old gardener, whom I've known ever since I was a baby."

"Why has Armathwaite brought Smith here?" said Whitaker, peering at her fixedly, yet veiling those gray-green eyes under lowered lids. "He didn't, Smith just came. But isn't it fortunate? He couldn't have found a better man, especially as Smith won't have any of the hard work on his hands. Mr. Armathwaite is giving him all the help he needs."

"To put the place in order?" "Yes, of course. Smith promises marvels by tomorrow evening. But you haven't told me yet how your poor ankle feels." "Never mind my poor ankle, Meg. I understood that the house was only let for three months!" "Oh, much longer, I believe. Mr. Armathwaite—" "Confound Mr. Armathwaite! The devil fly away with Mr. Armathwaite! I'm sick of his name; I spit on him!" He literally writhed in a paroxysm of anger. "Percy!" "He had chosen an unhappy word when he spoke of spitting on his rival. He reminded her of a toad, and she hated toads. With a desperate effort he sat bolt upright in the bed. "It's high time you and I had a few straight words, Meg," he said, and his voice lost its drawl, and the bias manner was dropped. "You haven't forgotten, I suppose, that I've asked you to marry me?"

Team Work

IT doesn't need an emergency to prove the value of your telephone service. But emergencies often demonstrate the team work that makes the telephone so vital to your welfare.

In Ottawa, not long ago, a lady working about the gas range in her kitchen, touched the loose sleeve of her dress to the fire, and in a moment was wrapped in flames. Rushing to the telephone, she had strength only to take down the receiver and cry "help."

"Central" heard the cry. She quickly told her supervisor, who consulted "Information," and found that there was a telephone in the house next door. The neighbor was called and rushing in, put out the fire in time to save a life!

Similar examples of resourcefulness, alertness and intelligence might be cited, from many cities, in which prompt action of telephone operators saved precious lives and property.

Our constant aim is to keep the standard of telephone service up to a point that will meet the call of any emergency, and at the same time give our subscribers complete satisfaction in the ordinary requirements of every day.

ELECTORS Northeast Toronto

MAJOR LEWIS Public Meeting MASONIC HALL Yonge and Davenport Rd. THURSDAY EVENING October 28th, 1920 8 p.m.

Speakers— Captain Jos. E. Thompson, M.A., Hon. T. W. Crawford, M.C., Hon. J. A. Currie, M.P., Rev. Fred Richardson, of Etobicoke, Ont., Miss Constance Boulton, the Candidate and other prominent public men.

LIST OF MEETINGS. Friday, October 24th—Winchester Hall, Winchester and Parliament streets. Tuesday, November 2nd—Aurora Lee Hall, Avenue Road and Davenport. Wednesday, November 3rd—St. Barnabas' Schoolhouse, Danforth Ave.

LIBERAL COMMITTEE ROOMS CENTRAL Old C.P.R. Hotel, 773 Yonge St. Phone North 572.

500 PARLIAMENT STREET, Phone North 1422W. 768 BROADVIEW AVENUE, Four Doors North of Danforth Ave. Phone Gerrard 5306.

APPEAL BY DEWART FOR LABOR SUPPORT

(Continued From Page 1). support of Hydro radicals, and added: "There has never at any time been any room for doubt as to where the Liberal party in this province stood with regard to Hydro. The Liberal party has been definitely committed to the fullest development of Hydro-Electric power, and also stands for the principle of public ownership."

At the present time there is a desperate effort being made to convert the friends of my opponent, Major Lewis, to make out that he is the only Simon-pure Hydro candidate. A section of the conservative organization that appears to be backing the candidature of Major Lewis claims the patronage of the voters in declaring adherence to the leadership of the Hon. Howard Ferguson as a claim upon the suffrages of Northeast Toronto. Before this particular section of the Conservative organization can be established in its claim to conduct Hydro, it should tell the electors of Northeast Toronto, frankly, whether it is going out for the support of the Liberal party or the support of the Conservative party as its leader."

In dealing with responsible government, the candidate contended that the Liberal party charged the Hearst government with responsibility for its financial and agricultural policy, and then added as a side smack at the present leader of the Conservative party the remark that "the present government has a commission at work probing the indictment of Mr. Ferguson, as the result of which a new government would probably have to appoint a commission to discover some."

In concluding his address, Major Kippen said that next year, when a redistribution of seats was made, would advocate that the city of Toronto be awarded not less than twenty representatives.

Dewart is Vigorous. H. H. Dewart, K.C., M.L.A., the leader of the Liberal party in Ontario, made one of his fighting speeches, and declared the Liberal party comprised no particular class, but fought for everyone. In going out for the support of the Liberal party, Mr. Dewart said a portion of the press were trying to depict the Liberal party as a party that should not be so, he declared, as the Liberals had had the way made all lower legislative bodies. The natural party for labor to vote was the Liberal, and that party would continue to stand by the workers for his betterment. It was owing to the persistent and constant efforts of Liberals that labor stood where it did today, and there was no reason why the two parties should not go hand in hand. (Cheers.) Mr. Dewart said that he had three seats in Toronto at the last election, but that they had shown no confidence in him. He thought the Liberals were to be so anxious to see the Liberal party in power that they had done so. Mr. Dewart believed that in the present election all fair-minded men would support the Liberal party, knowing that they would in no way be deceived.

BOXING They Sign for \$500,000 Purse

GREATEST PURSE ON RECORD FOR HEAVYWEIGHT BATTLE

Half a Million at Stake When Jack and Georges Climb Thru the Ropes—Site Not Yet Selected and Date Is Yet to Be Settled.

New York, Oct. 26.—The number of rounds, the place of battle and the exact date of the Dempsey-Carpenter bout, to be fought early in 1921, are subject to discussion of the promoters, who are to inform the principals at least sixty days before the contest. Each fighter receives a 25 per cent. right in the boxing picture profits, the other 50 per cent. going to the promoters.

The bout will be conducted by Tex Rickard, Charles Cochran of London and Wm. A. Brady, the latter representing Cochran's interest. The contract was signed after a long conference today, at which were present the joint promoters, Jack Kearns (manager of Jack Dempsey), Francois Descamps (manager of Carpenter), and four lawyers, representing the various interests involved.

While Tex Rickard and his fellow-promoters refused positively to match the amount of the purse to be given the pugilists, before the formal signing of the contract tomorrow, it is known that including certain percentages, it will approach \$500,000.

This is far in excess of any previous purse, the record being held by Rickard's contract with Jess Willard and Jack Dempsey, whereby Willard appeared for \$100,000 and Dempsey \$27,500 for their fight at Toledo on July 4, 1919. The division of the purse will show Dempsey receiving more than Carpenter in the role of challenger and holder of the European heavyweight title.

While the promoters are understood to be planning to hold the bout here in Madison Square Garden, a provision is made for the shifting of the contest to another city in case opposition arises from any corner.

Canada a Possibility.

Under the contract it will be possible to hold the contest in Canada, Mexico, Cuba or the West Indies. The site of the contest and the date are not to be finally arranged for some time.

Many managerial and legal obstacles had to be overcome before the match could be made, because of the various contracts which one or the other of the pugilists had previously signed. Rickard was under an irrevocable contract to Charles Cochran of London not to sign with any other promoter before Jan. 1, 1921. Rickard has held Dempsey's signature to fight for him for some months, and it became necessary that the international heavyweight battle could not be arranged for months to come until the two managers joined forces. This was finally accomplished by Brady, who has noted in the capacity of promoter's United States representative until the latter arrived here recently to complete the details personally.

While it is understood that the promoters are counting upon a record gate in order to carry the burden of the huge purse involved, the promoters picture receipts are expected to prove the greatest revenue in the long run. It is estimated that if the bout is held in Madison Square Garden box seats around the ringside will sell for \$100 each, and other seats and positions ranging downward in proportion.

The total amount of the moving picture of the fight, especially should Carpenter win, will be worth millions abroad, which he is expected to receive. While films could be taken of the contest in the Garden, the pictures could not be shown through the United States unless the present laws are changed.

Georges Going Home.

Carpenter will leave for France within the next ten days to spend the Christmas holidays with his family, but it is part of his plan to return to the United States early in the new year and begin training for his contest with Dempsey. Neither boxer will be permitted under the contract to compete in the ring previously to the coming battle, and unless the present law is changed, will not be prohibited.

The signing of the agreement for the Dempsey-Carpenter contest will side-track, temporarily at least, plans for a return bout between Dempsey and a hard, but less well-known, contender scheduled for about the middle of March, and Willard was preparing to begin training in the near future for a chance to regain the title he lost to Dempsey more than a year ago.

Further on the office of the New York State Boxing Commission here today it was stated that no official notice of the arrangements for a bout between Dempsey and Carpenter had been received there. None of the commissioners was at the office, and Secretary White was unable to say if any immediate action would be taken by the commissioners in regard to the match.

FREEMAN AND BULL.

Toronto boxing fans are in for another boxing treat when the Canadian lightweight champion, Frankie Bull, meets that high-kicking, powerful, Freeman. These lads, it is understood, have been matched for the third time of adult age, and will commence training at Hart House, making his first appearance there last evening, when he donned the mits and worked out with several of the students.

GRANITE CURLING CLUB

Driving McGill Players and Hopes to Bolster Up Back Division.

The annual meeting of the Granite Curling Club will be held at the club house on Friday next, at 8 p.m. All members are requested to make an effort to be present.

BUSY DAYS FOR SHAG, THE COACH

Montreal, Que., Oct. 26.—Driving his players to the limit, Coach Shaughnessy kept the McGill rugby squad at work for over two hours at the stadium this afternoon. The early stages of the practice were devoted to rehearsing new formation plays to be used in the Varsity squad at Toronto on Saturday.

With a view to bolstering up the back division, Philpott was tried out in a number of plays, and gave every promise of making good as a back. Philpott is heavier than any of the backs used on Saturday, and is not only a good punter, but a good tackler. He should fit in nicely with Flanagan and Russell, which would leave Anderson to fill the position of flying wing, and Cope to go in at centre wing, a position well played by him a year ago.

SOME COMPARISONS BETWEEN ENGLISH AND CANADIAN RUGBY

Capt. W. R. Scott.

After witnessing the sorry spectacle of two good teams engaged in a "football" game, I must say that the sooner our varieties change over to the real game, the better for the most ardent rugby enthusiasts on the varsity grounds. The English game is not only a ball game, but a game of the mind as well as of the body. It is a game of strategy, and a game of tactics. It is a game of endurance, and a game of speed. It is a game of skill, and a game of strength. It is a game of courage, and a game of honor. It is a game of glory, and a game of fame. It is a game of love, and a game of respect. It is a game of peace, and a game of war. It is a game of life, and a game of death. It is a game of heaven, and a game of hell. It is a game of angels, and a game of devils. It is a game of saints, and a game of sinners. It is a game of kings, and a game of peasants. It is a game of lords, and a game of serfs. It is a game of nobles, and a game of commons. It is a game of gentlemen, and a game of gentlemen's sons. It is a game of gentlemen's daughters, and a game of gentlemen's granddaughters. It is a game of gentlemen's grandsons, and a game of gentlemen's great-grandsons. It is a game of gentlemen's great-granddaughters, and a game of gentlemen's great-grandsons. It is a game of gentlemen's great-granddaughters, and a game of gentlemen's great-grandsons. It is a game of gentlemen's great-granddaughters, and a game of gentlemen's great-grandsons.

Gideon and Rothstein Render Valuable Aid to Jury at Chicago.

Chicago, Oct. 26.—Arnold Rothstein of New York and Joe Gideon, St. Louis American League second baseman, today testified before the Cook county grand jury investigating the baseball scandal, and the state attorney's office, Fredward announced their evidence had "exonerated" the two men from complicity in the throwing of games in the 1910 world series, but had materially strengthened the cases against some of the men already indicted.

The jury today completed the taking of testimony in the investigation, which has lasted more than a month, and resulted in true bills being voted against thirteen men on charges of conspiracy to do as they pleased with the game during the season of 1919.

BRITISH RUGBY LEAGUE RECORD

West of England Club That Is Still Unbeaten Meet the Irish.

Next Saturday a league game will be played at Kew Gardens, kick-off at 2:30 p.m., the opposing teams being West of England and Toronto Irish. The West of England Club have not yet been beaten, and they display a very fine brand of rugby, their backs, in particular, being very fast and accurate in the forward line, and when the two teams meet on Saturday next a good game should result. The English forwards are a heavy lot, but the Irish, the light, can be depended on in the loose, where they invariably show their class. The league standing to date is as follows:

Team	P.	W.	L.	Pts.
West of England	4	4	0	8
Welsh	5	3	2	6
London	3	2	1	4
Scottish	3	0	3	0

McGILL'S STRONG TEAM FOR COLLEGE MEET

Montreal, Oct. 26.—A great deal of interest is being evinced here in the invasion of Toronto by the McGill track collegiate team, which will compete in the inter-collegiate track championships to be held on Friday afternoon in the Queen City. The McGill squad will arrive in Toronto on Thursday. Everyone of the men is on his toes and in the proverbial pink and will do hard. The team will consist of: King, Johnson and Kennedy, sprinters; Artley, Hamilton, Stephens, Creelman and Frederick, distance runners, and Foss and Kennedy, jumpers.

Central Y.M.C.A. Has Big Athletic Program for Winter

Never before in the history of Central Y.M.C.A. has such a program been in operation as is at present going on in the big college street gymnasium. P. T. classes are filled to capacity. Last night 70 attended the business men's class, taking a half hour for P. T. fifteen to twenty minutes basketball and volleyball and in addition over 30 played hand ball on the six courts, 33 swung dumbbells to the tune of popular music in the senior section at eight o'clock, while between 30 and 40 participated in the playing of various hand ball games, and over forty took part in the games of the recreational league series.

The track and field club held its organization meeting and outlined a live program. The officers elected for the ensuing year are as follows: President, Charlie Kelly, one of Central's oldest and most enthusiastic members; secretary, Leslie Judge, a splendid enthusiast of note; executive, Messrs. W. Wardrop, E. Chamberlin, M. Vaughan.

This club will hold athletic events each week, enter the international hexathlon, which they won last year, and will compete with Rochester in an inter-city championship, and will return the visit to Rochester during the coming season. The track club is a going concern.

Among the Juniors.

Under Mr. Martin, who has recently come to the staff, a basketball league will be organized in the junior section, weight and age being the basis. A track volleyball team and an athletic gymnasium team are also being organized, and these, with the annual hexathlon, in which Central won first place in Canada last year, will give the boys plenty to contend for, and in addition try out for the "all-round championship" medal in each class.

In the Nataratorium.

Central Y.M.C.A. Has Big Athletic Program for Winter

Never before in the history of Central Y.M.C.A. has such a program been in operation as is at present going on in the big college street gymnasium. P. T. classes are filled to capacity. Last night 70 attended the business men's class, taking a half hour for P. T. fifteen to twenty minutes basketball and volleyball and in addition over 30 played hand ball on the six courts, 33 swung dumbbells to the tune of popular music in the senior section at eight o'clock, while between 30 and 40 participated in the playing of various hand ball games, and over forty took part in the games of the recreational league series.

The track and field club held its organization meeting and outlined a live program. The officers elected for the ensuing year are as follows: President, Charlie Kelly, one of Central's oldest and most enthusiastic members; secretary, Leslie Judge, a splendid enthusiast of note; executive, Messrs. W. Wardrop, E. Chamberlin, M. Vaughan.

This club will hold athletic events each week, enter the international hexathlon, which they won last year, and will compete with Rochester in an inter-city championship, and will return the visit to Rochester during the coming season. The track club is a going concern.

Among the Juniors.

Under Mr. Martin, who has recently come to the staff, a basketball league will be organized in the junior section, weight and age being the basis. A track volleyball team and an athletic gymnasium team are also being organized, and these, with the annual hexathlon, in which Central won first place in Canada last year, will give the boys plenty to contend for, and in addition try out for the "all-round championship" medal in each class.

In the Nataratorium.

Under the enthusiastic leadership of Mr. Fred Young, an expert in teaching, advanced and beginners' swimming.

WINNERS OF THE PARTRIDGE TROPHY

BASEBALL Probe Wants Abe Attell

Gideon and Rothstein Render Valuable Aid to Jury at Chicago.

Chicago, Oct. 26.—Arnold Rothstein of New York and Joe Gideon, St. Louis American League second baseman, today testified before the Cook county grand jury investigating the baseball scandal, and the state attorney's office, Fredward announced their evidence had "exonerated" the two men from complicity in the throwing of games in the 1910 world series, but had materially strengthened the cases against some of the men already indicted.

The jury today completed the taking of testimony in the investigation, which has lasted more than a month, and resulted in true bills being voted against thirteen men on charges of conspiracy to do as they pleased with the game during the season of 1919.

FIND FOUL PLAY IN DEATH OF INFANT

Body of Unknown Child Is Found at Depot—Case of Murder.

That the unknown female child; found in the women's lavatory at Union Station on Saturday, Oct. 16, came to her death through suffocation and that she was murdered by some person or persons unknown," was the verdict brought in by Dr. Graham's jury at the inquest last night.

The body was wrapped in a Toronto newspaper dated Sept. 15, but there was no clue by which anybody could be traced. A white cloth had been pushed into the mouth and was kept in place by a white silk cord tied behind the head.

Mrs. Armstrong, the matron, said that she been in the lavatory twenty-five minutes previously and had not noticed any person acting in a suspicious manner.

Detective Levis said he had followed up various clues, but had found that they were in no way connected with the case in question.

"It is hardly possible in a depot for anyone to notice a white parcel where everybody is carrying parcels, and I think that everything the police did was regular and quite in keeping with the regulations," said Inspector Mackie.

The post-mortem which Dr. Lousten made revealed that the girl had not been alive more than twenty-four hours, and that the mother had not been attended by any medical practitioner.

It had breathed and was perfectly normal, weighing about nine pounds. A cloth, if inserted far enough into the mouth, would prevent her from breathing thru her nose and in the native tongue of the infant a small obstruction would be enough to stop the breathing.

TELL STRANGE STORIES OF WORK AMONG LEPEERS

The October meeting of the Mission to Lepers was held yesterday in the Sherbourne House Club, Rev. I. R. Dean presiding.

Rev. W. P. and Mrs. Byers, who are shortly leaving for India, sang both in English and in the native tongue. Mr. Byers spoke of the strange gifts which the Hindus sometimes make to their shrines.

Another speaker, brought a gift, which when unwrapped, turned out to be his own tongue which he had cut out.

Mrs. Byers spoke of the great fear of the lepers which she had a first. After her husband began working among them, she used to dream of it at night—dream that she had touched a leper.

The secretary's report was read by Mrs. Mullin, and Miss Lila Watt reported that since Christmas \$2246 has been received from Toronto for the lepers, an increase of \$653 over this time last year.

ROUGH USAGE CHARGED

The complaint of Albert Burdett jr., that he had been roughly treated by Plainclothesmen Sunderland and Robertson of Pape avenue station, when he tackled a police agent, sent by the officers to entrap his father into selling a bottle of liquor, was referred to the board of police commissioners by Acting Chief of Police Dickson yesterday.

This action was taken by the acting chief, following the hearing of the evidence of the two police officers, young Burnett, his wife, his father and another man.

FARMERS IN FRUIT BELT WELCOME THE RADIALS

Chief Engineer Gaby Sees No Difficulty in Securing Property for Right of Way—Obtain Eighteen Agreements in Two Days—Motor Trucks as Feeders to the Radials—Cost of Double Tracking.

At the Sutherland Radial Commission yesterday afternoon, R. S. Robertson, counsel for the municipalities, continued his questioning of Chief Engineer F. A. Gaby of the Hydro in respect to the trouble caused to fruit farmers in taking property for right-of-way.

Witness stated that they never had any trouble in the fruit belt; in fact, farmers welcomed them.

Mr. Robertson urged that he had complaints from several farmers, but Mr. Gaby retorted that there might be individual cases, and pointed to the fact that in two days they obtained eighteen agreements from farmers.

Mr. Robertson then asked witness if he could state something regarding the extraordinary fluctuation of the population in Guelph, Stratford, Welland and Thebes and Mr. Gaby remarked that Kitchener was growing since it had the Hydro, and it also had a good traffic system compared with those places mentioned.

The question of freight was then taken, and witness informed the court that men had been sent out to canvass merchant farmers and others, with a view to finding out possibilities.

At this stage, Mr. Justice Sutherland stated that the reports of these canvassers would be of great value if they could be produced. Huge bundles of correspondence relating to the canvass lay upon the table, and witness asked that portions might be selected for reference, which was agreed to.

The chairman then questioned witness regarding an estimate of \$225,000 freight revenue on the Toronto and Eastern, and asked if something regarding this could not be given in writing. He then asked Mr. Robertson if such a return was on hand; if not, he was to get it, as the commission required something more definite.

Discussion then ensued as to the manner of getting the estimated freight returns, and Gen. Mitchell suggested that the estimate was purely guesswork taken from the canvass returns.

Mr. Gaby retorted that their canvass returns showed less than the business they were now getting.

Eventually the going thru of the canvass returns was held over.

A lengthy argument followed on the question of motor trucks and the probability of competition with the radial, which Mr. Gaby compromised by saying that there would be no competition from this source, but he imagined that for the most part motor trucks could only be used as feeders to the radials.

Speaking of the costs of the new power required, Mr. Gaby said he had estimated it to be about \$40,000.

DRURY ROLLING UP BIG EXPENSE BILL

Major Lewis Attacks Outlay in Investigating Hydro Radials.

Continuing his campaign last evening, Major Lewis, Conservative candidate for Northeast Toronto, held two well-attended organizing meetings in wards one and three. Robert Lewis, chairman of Ward One Conservative Association, took the chair at the first meeting, while at ward two it was taken by M. McCutcheon.

Workers in both wards reported their canvasses, the result of which was very encouraging.

Major Lewis in his speeches strongly criticized the Drury government in connection with the huge expense entailed by the Hydro enquiry commission, which, he pointed out, was swelling up nearly \$1,000 per day in expenses and lawyers' fees.

Major Lewis prophesied that the enquiry would last six months or more, since half of the evidence has not yet been taken, and that the commission would probably have to go to the United States to take further evidence.

"Hydro radials," he said, "constitute the main point in my platform. Electors were just as chary over Hydro power when they collected about it, but it has proved its value to the community, and we cannot do without it."

Major Lewis also criticized the provincial government in regard to education, especially that part of the curriculum dealing with the teaching of needlework. The education of the city's children should be in the hands of the city council, he urged, and not in the hands of the government.

HYDRO COMMISSION IN SEMI-DARKNESS

Much amusement was caused yesterday afternoon when the Sutherland commission continued the probe into Hydro radials, the courtroom being in semi-darkness and the repeated efforts of the officials failed to get the current. "Looks as if this is a plant," commented one of the counsel. However, after a few minutes Hydro turned on the power and allowed the case hearing to proceed.

TORONTO MAY SOON HAVE NEW INDUSTRY

If the announced plans of the promoters are carried out, Toronto will before long have all new industry which will employ six hundred hands. It is stated that the Toronto Refining and Manufacturing Company, owned by Mona Oil Company, with an authorized capital of \$5,000,000, have obtained an option on 100 acres on the Lake Shore road and that the plan contemplate the outlay of \$4,000,000 on a refining plant which will have a capacity of 15,000 gallons of gasoline an hour.

It is asserted that prominent Toronto men are connected with the enterprise, which is based upon converting a new process for converting kerosene in gasoline.

ASA EMPLOYMENT OF RETURNED MEN

South Toronto Veterans Want Women Clerks and Girls Let Out.

South Toronto G.A.U.V. has passed two important resolutions affecting the unemployment problem among ex-servicemen in the city. The first requested the board of control to get the city council to let out all those women clerks and girls employed in the civic services, in order that the ex-servicemen may be enabled to earn a living; the other was in order to make room for an increasingly large body of unemployed and qualified ex-servicemen in Toronto.

At a morning sitting yesterday, Mr. Robertson left off with questions as to the estimates on the Toronto-Hamilton line. Mr. Gaby told the court that he had been sitting up until midnight, trying to get the data and to work out the riding habits of the district, and said that he had estimated that there would be 2,500,000 riders a year, with a doubt track only extending to Bathurst street, and the difference in double-tracking contemplated meant a jump of \$2,000,000 in construction estimates.

Mr. Robertson then took up cost of construction thru Hamilton, and witness stated that under the old scheme it would have cost \$5,200,000 but now, with the G.T.R. track being used as a right-of-way, it would only cost \$2,800,000.

Mr. Robertson then questioned witness as to the accuracy of the Hydro radial estimates on the score of its sources. "Where do you get your information from?" he asked. "The books of the company, the Toronto, Niagara & St. Catharines line."

Witness stated they got their information from the company, and worked out the data they had given.

Counsel then wished to know why no provisions had been made for sinking funds, when some of the bonds matured in 1922.

Mr. Gaby answered that their act provided for 50-year bonds and a 10-year deferment of the sinking fund.

"That may be; does it not have to be done?" commented Mr. Robertson.

Commissioner W. A. Ames interposed during a hot argument as to competition from the Grand Trunk, and stated that the latter railway was not yet part of the Canadian National Railway System, and that the company was simply under arbitration, and that there had been no exchange of gratuities between the employees.

I. F. Hellmuth here came to the rescue and informed the commission that a recent legislation passed by the house of commons made it clear that the Grand Trunk had been taken over, and the arbitration merely fixes the price paid.

The industry stands adjourned until such time as the commission hears from Mr. Murray, when a date for the next session will be fixed.

WILL BRING JEWISH ORPHANS TO CANADA

Professor Tells Toronto Audience of Pitiably Plight of Ukrainian Children.

Having received permission from the Dominion government to bring to Canada 200 Jewish war orphans from Ukraine, the Canadian European Jewish Orphans' Association are taking immediate steps to this end, and Mrs. A. J. Freeman of Ottawa, Dominion chairman, was in the city yesterday to complete arrangements that had already been started by the Toronto branch of the organization.

She addressed a meeting at the Y, which represented all the Jewish women's organizations in the city, and at which the Toronto women's committee were formed.

The committee consists of Mrs. P. Hermant, chairman; Mrs. J. Welner, secretary; Mrs. A. J. Willinsky, treasurer; Mrs. Sigmund Samuel, convener of sewing; Miss Helen Finberg, convener of the little gift fund, which has for its underlying motive the sending of boxes of clothes and small articles to the orphaned children of Ukraine. The executive committee of the Toronto women's branch will be composed of the presidents of all Jewish organizations, and the executive council of Jewish women will look after the financial and legal adoption of the children.

John Grimes Drowns at Foot of Spadina Avenue

When he fell from a scow into the bay, at the foot of Spadina avenue, John Grimes, 62 West Front street, a Togo-Walker construction company, was drowned at 5 o'clock yesterday morning.

George Lumsden, another watchman, and Grimes were together shortly before 5 o'clock when Lumsden stated to Grimes led him to start a fire on the scow, Lumsden, in a little while, noticed no smoke was coming out of the funnel, and investigated. Grimes was lying on the scow, near the boiler, and Lumsden, seeing about, found his hat floating in the alley. He notified the police, at 7:05 the life savers were called, and No. 3 boat, in charge of Officer Hilliard Lang, dragged the scow and recovered the body in 20 minutes. The body was taken to the morgue by the police. Grimes is married and his family are living in England.

MAKING EFFORTS TO PREVENT DISEASE

Membership Committee of National Council Organizes Campaign.

The membership committee of the national council for combating the spread of venereal diseases met in the city hall yesterday to organize a campaign to secure 20,000 members in Toronto. Gordon Bates, general secretary of the national council, outlined the object to be attained and the course of procedure. A fee, he said, of \$2 would be fixed and the \$40,000 arising from the campaign would be used for educational work.

The national council, said the doctor, had been formed to investigate the extent of venereal disease in this country, and also to arouse the public mind to a realization of the danger. He believed that great good could be accomplished by using the public schools during evening sessions as community centres and for delivering lectures. Many members of the community, he said, regarded social diseases as very nasty subjects, and on who are strangers in the view that the situation should be squarely faced. The head of every household should be a member of the council.

Addresses were also delivered by Canon Skey, Mr. Justice Riddell, Mrs. A. D. Hamilton and others. Mrs. Hamilton thought there was a great need to be done towards combating social vices by throwing home influences around young men and women who are strangers in the city. The great need, she believed, was for proper recreation. Canon Skey advocated the establishment of a home for wayward women.

SEEK INJUNCTION ON BIG FOUR DRIVE

Plaintiffs Ask Declaratory Order Fixing Terms for Distributing Money.

The funds collected by the Big Four drive in May last year will now be the subject of litigation. At Ospeoda Hall yesterday a writ was issued by J. Harry Flynn and others against the executive committee of the drive, asking by injunction to restrain the individual defendants from dealing in any way with the money collected in the drive, and particularly from paying over any portion of the fund to the Toronto district command of the Great War Veterans or any branch or officer of it, either for veterans' club houses or otherwise.

The plaintiffs ask a declaratory order setting out the terms on which the funds may be disbursed. They also ask a declaration that the executive committee of the repatriation league acted improperly in nominating five individuals from the G. W. V. A. to the exclusion of representatives from other veterans' associations as trustees. The court is asked to name five trustees.

PATROL-SERGT. BAILEY DIES

Stricken while in his home yesterday morning, Patrol Sgt. William W. Bailey, aged 42, of 594 Keele street, attached to Court street police station, died before medical aid could reach him. Sgt. Bailey joined the force in September, 1906, and received promotion in January, 1913. He had been on leave since June.
