MR. SAVARY WAITS \$5000 FROM I. C. R.

Claims That His Wife Was Injured by Bumping and Jolting of the Train-- Amorous Clergyman Left Hampton for Plymouth, Mass., This Morning.

HAMPTON, N. B., Oct. 2--(Special)--Mr. Savary, after leaving the hotel late last night was seen and hospitably cared for privately and his physical wants attended to. He was in a very bad condition. His nervous system badly affected and during the night he experienced a sharp attack of heart trouble. It would seem as though his condition is largely attributable to drugs. Anyway he does not seem to realize all that has been going on since last Saturday morning.

Mr. Justice McLeod opened the October Circuit. After the grand jury had been called, they retired and on their return announced that Rupert G. Haley had been elected foreman. LEFURGEY SAYS POPE AND FOWLER DID NOT MAKE FAIR DIVISION

Profits in Western Land Deal Were Not Properly Shared With the Others--- They Thought Mr. Borden Was in the Combine Until They Found He Was Not---Combine Was Formed During Borden's Western Tour.

Toronto, Oct. 1.-A. A. Lefurgey, M. P. for Prince Edward Island, this morning gave the royal commission on insurance the story of the land deal which has figured so prominently in the investigation into the affairs of the I. O. O. F. Mr. Lefurgey was one of a large party of Conservative members who accompanied R. L. Borden on his tour of the west in 1902.

"We have succeeded beyond our wildest hopes. We wired D. M. and he met us at the train at Toronto and took us to his office and gave us the route so far as located--of course, under cover of the strictest secrecy, so keep it mum except to Borden, Bennett and yourself. We expect to have a wealthy Englishman named Lister, head of the Canada Chemical Company, and Colonel Pellatt, in the combine with us. We have increased the thing to 200,000 acres. On arriving here we interviewed Sir Thomas Shaughnessy and have every reason to expect the most generous treatment as to terms and price. He said we should get the best that was going. We arranged for a meeting there when the party returns to Montreal. Tell Borden and Bennett about the meeting. It will be necessary for at least two of us to go out west this fall and locate, and that is one of the things that must be arranged at the meeting."

"GEORGE W. FOWLER." Before Mr. Lefurgey went into the box W. P. Bull gave evidence in connection with the sale of the Okanagan Lumber Company, in which he had one-tenth interest. That Powell McCormick and John told him the sale had been made to the Kamloops Lumber Company at a price which netted the shareholders two for one on their investment. He had 100,000 stock in the company, which had a capital of \$80,000, and Fowler gave him his personal check for \$8,000, which Bull received from the payment of a note for \$4,000 which he had given on account of his stock. The amount actually paid by the Kamloops company was \$177,000 for the property and \$42,000 for logs cut when the transaction was closed. Bull said he was in ignorance of the payment for logs until the transaction was disclosed before the commission. Mr. Fowler had taken an assignment of his interest in the company.

A. Worrall, K. C., appeared for the Bank of Montreal, C. A. Master for the Bank of Nova Scotia. The banks had been served with subpoenas requiring them to hand over their books for the purpose of tracing certain payments which had been made in connection with land and lumber deals in which subsidiary companies of the I. O. O. F. had been engaged. The legal gentlemen objected to the business of clients of the bank being exposed unaccountably without good reason being shown. Judge MacFavish ruled that the public interest required the examination of the books, and gave the necessary orders.

When Mr. Lefurgey went on the stand he, in reply to Mr. Shepley, stated that law was his profession, but politics were his preference. The narrative given by Mr. Lefurgey was not full enough to satisfy Mr. Shepley, who inquired when this visit to the west, on which the idea originated, was made. Mr. Lefurgey replied it was in September, 1902. There was a large party on the trip, it being the occasion when R. L. Borden, the Conservative leader, made a political tour of the west. Mr. Shepley quoted from the letter which Fowler wrote to Lefurgey from Montreal Oct. 4, 1902, a number of passages.

"We have succeeded beyond our wildest hopes. We wired 'D. M.' 'By the way, who is D. M.?' interposed Mr. Shepley. 'David Mann, of MacKenzie & Mann,' was the reply. Continuing Mr. Fowler wrote 'He met us at his office in Toronto and gave us the route so far as located, and of course in strictest secrecy, except to Borden, Bennett and myself.' 'This was the first intimation I had

THE MAYOR STOOD ALONE

The Times prints today the observations made by Mayor Sears yesterday to the members of the city council, when the question of telephone-wire conduits was under discussion. The council was about to adopt a resolution giving the telephone company authority to lay the conduits in certain streets.

It will be observed that the mayor presents in effect the same facts and arguments that were set forth by a number of aldermen and also by some members of the present telephone company before the merger was effected.

It might have been expected that after the mayor had made his remarks yesterday, and urged the council to proceed very carefully in this matter, some one at least of the aldermen would have risen in his place and offered an explanation of the changed attitude of the board. It would have been courteous to the mayor, if nothing more, and might also be appreciated by the citizens. But not a single alderman rose in his place. When the mayor ceased speaking silence prevailed until he called for the vote, which was unanimously in favor of the telephone company's contention.

There was, however, a long and animated discussion of the important question of telegraphers' salaries. Nearly all of the aldermen took part in this debate, and in the end they left the question just where they found it.

MR. SCHEWEN'S CRIME

The city council yesterday afternoon devoted a considerable portion of its valuable time to the discussion of the matter of official etiquette. It appears that Mr. Schewen, of the federal public works department, became somewhat weary of the frequent calls of many persons relative to the west side dredging, and suggested to him, and greatly facilitate the work of his department, if the communications were made in writing and those on the city's behalf through some one person, whom he thought might properly be the mayor. The mayor concurred in this view and at his suggestion Mr. Schewen put a request to that effect in writing. In doing so he had no thought of giving offence, or raising a blister on the dignity of any civil personage. But he had not reckoned with the board of works. Even if it were the work of that market the mayor, the dignity of the board must be maintained. Therefore the board of works fiercely protested. Therefore its chairman stormed, and talked of resigning the chairmanship. Therefore the council yesterday treated threatenings and slaughter and gave formal notice to Mr. Schewen that he must cut out, the mayor or the board would do something.

It may be hoped that Mr. Schewen will submit to discipline in a proper Christian spirit, and also that his worship the mayor will accept the gentle hint so graciously tendered him by the aldermen. The matter is one of such grave importance that much depends on the attitude now assumed by Mr. Schewen. Should he still persist in recognizing the mayor as the official head of the city, and should the mayor concur, the aldermen might spend a whole afternoon in giving vent to their explosive wrath.

THE CLAIMS COMMITTEE

Ald. Willett yesterday moved for the appointment by the city council of a claims committee to deal promptly with all possible claims for damages against the city, having the city's case prepared by the officials without the delay that now marks

such affairs, and which it is feared involves the city in greater loss. To the alderman's surprise his motion was adopted unanimously, and almost without debate. But the appointment of a committee does not end the matter. The mayor had pointed out earlier in the session that he had three times summoned the newly constituted salaries committee without once securing a quorum. As Ald. Willett is on the claims committee he may be able to make a better showing. The need for such a committee, or for the work which it may be assumed to undertake, has long been obvious though neglected.

ONTARIO LEADS

For some time nothing has been heard of the effort to provide in the province of New Brunswick a sanatorium for consumptive patients. It is also to be regretted that no systematic campaign of education on the subject of the white plague and its prevention and cure has been undertaken. They do better in the province of Ontario. There are several sanatoria in that province, and now the following announcement is made in the Toronto Globe:

"The Ontario government has decided upon a practical experiment with a view to educating the people of the province as to the dangers of tuberculosis and the best methods to be pursued in preventing that disease. An arrangement has been made to secure a tuberculosis exhibit, similar to that shown here during the recent meeting of the British Medical Association, from the National Association for the Study and Prevention of Tuberculosis, with headquarters at New York. This will be supplemented by materials from Europe, the whole forming an extensive and valuable exhibit illustrating the methods, appliances and medicines used in the fight against the white plague.

It is intended that the exhibit, which will then become the permanent property of the province, will be displayed for a reasonable length of time in every city, town and large sized village in the province. An official of the board of health, or some competent person appointed by that body, will be in charge, and will give lectures illustrating the use of the appliances, and information respecting the methods to be followed in the attempt to prevent the spread of tuberculosis."

The question of currency reform is arousing more active and widespread attention in the United States. It is announced that the Chamber of Commerce Currency Commission will present a preliminary report at their October meeting in New York next Thursday. The commission, says a New York paper, have invited the views of leading financiers of the country, and have had a mass of such matter to guide them in their deliberations. The Council of Administration of the New York State Bankers' Association will meet on Oct. 5, also to take action on the currency question, while a general meeting of delegates from all the state bankers' associations of the country will be held at St. Louis on Oct. 16, which is the initial day of the annual convention of the American Bankers' Association. This association has taken a special interest in the matter of currency reform, and the subject will, it is understood, form the main subject of discussion at the approaching convention.

How would it do to permit the Empire steamers to make two or three trips direct to St. John? If they failed to equal the Halifax record there might then be some excuse for the present outcry in that city.

Hearst's repudiation of Murphy is one of the humors of the New York political campaign. Even Mr. Hearst himself can hardly hope that anybody will take the statement seriously. Murphy is his right hand man in the contest.

Mr. F. Blake Crofton, who has retired from the office of provincial librarian in Nova Scotia, has been a voluminous writer, and as such has given pleasure to a wide circle of readers.

Today's meeting of the board of trade might well be the beginning of an active fall and winter campaign by the board in the interests of the trade and commerce of St. John.

The school board is proceeding with commendable energy in the direction of the proper enforcement of the compulsory school attendance act.

CORN COB ALCOHOL
WASHINGTON, Oct. 1.—The department of agriculture has succeeded by simple methods of fermentation in getting a yield of 11 gallons of alcohol from a ton of green cobs, and, by similar methods, in getting six gallons of alcohol from a ton of green corn stalks. A department official says that these tests show that there are 340 pounds of fermentable substance in a ton of green corn stalks, which will yield about half their weight in absolute alcohol. There should be fifteen gallons in a ton.

IN AUTUMN TIDE

By Clinton Scollard.
The apple seeds are black at core; The hickory leaves, like fairy fire, Show the effluence of their gold, Paving the pathways green before. More pliant grows the sycamore's pipe; The quince's cheek is yellow ripe; And the smooth pallor of the pear Reveals, like dawn, a russet stripe. The mistral wind behind the hill Above its straggles is never still; Autumn through all the brooding land Works the rich wonder of its will. As in a necromancer's glass, We watch the radiant peasant pass, Wood waving banner back to wood Across the severing seas of grass. Forgetful what the hour presage, We feel that we have plucked a page From the untroubled Book of Dream—A leaf from out the colden Age! —From Appleton's Magazine (October).

On a certain occasion, while Company Infantry was at drill at bayonet exercise, there was a "mix-up" between two members of the company, their rifles coming in violent collision. HE FELL TO HIS DEATH
Edward C. Palmer of Delhi Street, Met Shocking Fate Last Night.

Edward C. Palmer, 21 Delhi street, fell to his death last evening at 7 o'clock while working on his house.

Mr. Palmer had built an ell to his residence and last night he and his son, William, were at work on one of the three-story windows, the elder man standing on a step ladder close to the sill on the inside. While attempting to do some work on the outside, the ladder slid from under him, and heading he went to the pavement below.

Mr. Palmer was conscious only a minute and was dead within fifteen minutes. As soon as the accident occurred, Dr. Corbett, who lives nearby, was summoned.

The deceased was a popular and permanent man of No. 2 fire station. Besides his wife and one son, he leaves two brothers, George and James of Boston; and two sisters, Mrs. LeBaron Emery, of Somerville, Mass., and Miss Nellie, at home. His mother, Mrs. Frances Palmer, also survives him.

Coroner Berryman viewed the body, but decided that an inquest was unnecessary. The flags on the fire stations are flying half-mast out of respect for the deceased.

MAYOR SEARS TELLS WHY HE OPPOSES CONDUIT SCHEME

The common council yesterday instructed the common clerk to notify E. T. P. Shewen, resident engineer of public works, that as the board of works had charge of all improvements in connection with wharves and matters generally at Sand Point, the chairman of that board was the proper person to whom all communications should be addressed and not the mayor, who was not a member of the board.

The competitive company having made a satisfactory financial bargain with the said N. B. Co., now unites with it in seeking to have permission from the city to lay conduits, and has abandoned its opposition to the N. B. Telephone Co.'s request.

BASE BALL

The executive of the Society Baseball League met last night in the rooms of the Young Men's Society of St. Joseph's. Delegates from the four teams were present, as follows: St. Joseph's—W. J. Magee, B. P. McCafferty, P. M. A.—J. McEneaney, E. Mahoney, F. M. A.—W. Harton, Vice-president—McMahon, president.

HERE'S A HOT ONE. Back in the old days, so Dan O'Leary says, they used leather bags to keep the balls in for the umpires, use the same as they do in the American League now.

Watch! Burnham was umpiring the game, and Tom Evans, of the old Washington Nationals, was at bat, runner on first, "One-Arm Finn" Daly was pitching and Charlie Snyder was catching.

Hold on, there! Nothing doing," yelled Umpire Burnham. "The one who pitched which ball you are throwing. There were twelve in the bag."

Snyder was knocked out. He didn't know which way to turn. His wife came to him quickly, however, and he acted in a flash. Rushing to the open bag he put the ball back, snapped the lock and started across the diamond.

SAVARY TELLS NEW STORY

Hampson, N. B., Oct. 1.—H. S. Savary, the man who yesterday was served from committing bigamy, much against his will and intention, arrived in Hampton this afternoon. He failed to get off the C. Today the situation which tries the skill and staggere the confidence of the church takes in the question of socialism and the drink habit, of child labor and long hours and hard conditions, of eye-service and pomp work among employees and of unifying relations and grinding wages among employees, of dishonesty and trade exploitation in finance, and of malfeasance in public life.

In an interview with W. J. Shannon, published in the Times on Sept. 27, a peculiar error was made by Mr. Shannon spoke about the shipbuilding industry in Belfast, but the printed interview read Dublin for Belfast. A full description of the dredge Boddfield, on which the city holds an option, has been received by A. McDouglrick. In referring to the matter yesterday, the alderman said it would appear she was in anything but a bad condition. She had been spoken of as only fit for the junk heap, but from the details which had come to hand he thought the city would not be making a bad bargain to secure her for \$22,500, the price asked.

LOST BOTH ANCHORS

Schr. Roger Drury Met Heavy Weather at Eastport.

The American schooner Roger Drury, Capt. Cook, was towed into port yesterday by tug Lady Kitchener. She was bound to Calais from Philadelphia with a cargo of 467 tons hard coal. There's going to be a lively sale of carpets at M. R. A.'s Ltd tomorrow, and as long as the special lot lasts. The advertisement in this issue tells about it, but an adequate description of the goods is impossible just now. Suffice it to say they are absolutely good carpets, Wiltons, Axminsters, Brussels, Tapestries, etc., the only fault with which is that they are last season's patterns, and must be sold to make room for the new stock soon to arrive. Prices will be so low that no person needing carpet will refrain from buying. At eight in the morning it starts.
