BRITISH LABOR AGAIN SHUNS COMMUNISTS

MOVE TO REOPEN AFFILIATION MATTER BEATEN

Party's 26th Annual Meeting Opens at Margate

HEATED DEBATE

Question of Opposition in Parliament Also Likely to be Decided

Canadian Press MARGATE, Eng., Oct. 11.—An attempt to reopen the question of an affiliation between the Communist party and the Labor party was decisively defeated soon after the opening of the Labor party's twenty-sixth annual conference here today. The proposal was defeated on a card vote by 2,706,000 to 349,000. The debate was marked by heated scenes, and the result was received with cheers.

British United Press LONDON, Oct. 11.—Two most important political developments which will decide the character of the opposition to the government for some time to come are taking place this week.

OPPOSITION QUESTION The Labor party at Margate are going to decide whether to swing towards the right or left in consequence of the lessons taught by the general strike, while continuing the campaign of anti-communism within the party, while the future Liberal leadership may be decided. The labor party will decide what attitude shall be taken towards the Tories' determination to restrict trade union rights which are only lukewarmly reported by Premier Baldwin.

Ramsay MacDonald will lead the fight for moderation backed by Robert Williams, chairman of the Labor party who is remarkably outspoken in an article in the weekly paper "Answers," and says, "never again will I be for a general strike."

MACDONALD WANTS FREEDOM Ramsay MacDonald wants a free hand in conducting the parliamentary campaign, untrammelled by resolutions. He agrees generally with the ideas of Socialism, but wants them tempered by practicality.

He opposes the "living wage" policy of estate family allowance. He feels that Labor must attract the black-coated workers before they can hope to win the next election, and only a policy of moderation will achieve this. He will be severely criticized for "lack of courage" but retorts that the general strike proved that the only way that Labor can gain a complete victory is through the polls giving the Labor party a clear majority, therefore he is urging concentration on the parliamentary machine. The Communist delegates to attack MacDonald, excluding them from the Labor party, are trying to secure more power by urging delegates to attack MacDonald, and other moderates, and this will be dealt with severely it is predicted.

LIBERAL LEADERSHIP Liberals too are on the eve of an important decision. Lord Oxford is speaking at Greenock on Friday, unusual emphasis being given to the importance of the occasion by the Liberal Daily News. It is asserted that but for serious difficulties in the party, Lord Oxford, owing to the state of his health, would resign, and it is hinted that even now it is possible he will do so, providing another leader can be found. Lloyd George is his natural successor, but would only lead little more than half the party. Lord Reading and Lord Boscawen have been suggested, but they are in the House of Lords and the only other is Sir Herbert Samuel.

There is little doubt that if Lord Oxford resigns and Lloyd George is not elected in his place, that Lloyd George will drift completely away and will contemplate the forming of a new party.

LINEUP CHANGED. FREDERICTON, N. B., Oct. 11.—C. B. Burden, coach of the U. N. B. rugby team, made some important changes in the U. N. B. team lineup on Saturday, and it is expected they indicated how the team will be arranged against Regina tomorrow. Earl Hickson has replaced his former post at fullback. Dick Chestnut was put in at Paul Fraser's old place on the half line, and Capt. "Bill" Donohue was installed as half quarter, where his leadership qualities will be taken full advantage of.

When apprehended, he denied he had swallowed anything, but when advised of the replacement, agreed the hospital was the best place for him. Surgeons believe no ill-effects will result unless infection sets in, which is not expected.

123 ITALIANS ARE DEPORTED FROM HALIFAX Men Captured at Mill Cove Sent Home Again SIX STILL FREE

Four Effect Escape From Detention After Guards Doubled Saturday Canadian Press HALIFAX, Oct. 11.—One hundred and twenty-three Italians, all but six of the number who were landed at Mill Cove, N. S., some weeks ago, in direct connection to the immigration laws, were quietly deported today by Dominion immigration officials. In the cold still dawn of early morning, they sailed out of Halifax harbor on the Italian steamer Columbia away from the land they hoped to make their home, back to the shores of sunny Italy.

GLAD TO GET AWAY By their attitude, at least they indicated that they were glad to escape from their predicament, even at the cost of being sent back to the country from which they departed with such high hopes.

Broken in spirit by their confinement of the past several weeks, their dreams of a home in the new world shattered, they offered not the slightest resistance, as they were herded aboard the steamer which will take them back to their native country.

During the past four or five days, the Italians had been pretty restless. On Saturday the guards at the immigration sheds were doubled but despite this precaution four of the men managed to effect an escape. Up to the time the Columbia sailed, they had not been captured and at the time of their escape today, were still at large. Their escape brings the total of the smuggled Italians still at liberty in this country to six.

ACTION AGAINST OWNERS OTTAWA, Oct. 11.—The Department of Immigration here will take action against the owners of the vessels released the Italians on the shores of Nova Scotia a few days ago, it is said here, and will be against the Italians who owned the vessel. It was a privately owned ship, it is said here, and is not associated with any of the large shipping companies.

ARTILLERY ABANDONED When negotiations followed, the Cantoneses insisted that artillery in Wu Chang must not be moved by the evacuating forces. The northerners agreed to this condition, but refused to march in the direction of Chingnan, through the north gate of Wu Chang, because that road is still closed with southern troops occupying trenches in the vicinity.

AGREEMENT MADE Decision to abandon the beleaguered city Wu Chang was made by the northern soldiers earlier in the day under the following agreement with the southern troops: "Northern troops who are willing to join the Kuomintang forces will be incorporated into General Lin Tso-Lung's army. Each soldier having one rifle will be accepted, but those without arms will be rejected. After being incorporated with the southern forces, troops must obey their new officers, and wages in arrears will be paid by the Hupeh Provincial Government, the Wu Chang chamber of commerce guaranteeing payment; the evacuating troops then proceed to Chingnan, seven miles down the Yangtze River, where the southern forces will enter Wu Chang, and assume responsibility for maintaining peace. The entire action in this agreement must be completed before October 12."

Cobham's Return After Record Flight

ALAN COBHAM, famous British aviator, landed on the Thames river, opposite the houses of parliament, London, completing his 25,000 mile flight to Australia and back. He has been knighted by King George because of the feat. Cobham flew slightly more than the distance around the world. He was stopped last summer when an Arab took a pot shot at him as he flew over the desert. Cobham's mechanic was killed, but he himself resumed the attempt.

Soldiers With Rifles Taken Into Cantoneses Army; Unarmed Men Rejected HANKOW, Oct. 11.—A typical Chinese agreement of capitulation whereby the advancing Cantoneses army bargained to take over into its own army northern forces who boasted rifles, was held up here today because of lack of agreement over the disposition of artillery.

SCHOONERS ARE NECK AND NECK AT 25TH MILE

Advantage So Far Depends on Skill of Skippers PRETTY CONTEST Excellent Time Made Over First Half of Course; 3 Day Schedule

GLoucester, Mass., Oct. 11.—The 25th mile of the 40-mile contest between the Henry Ford and the Columbia for the United States championship saw both schooners today running neck and neck. This was the first of a series of three races. Observers predict it is a battle of wits now between the two skippers to reach the finishing line first.

The Ford was first away, and got to the windward of the Columbia. Captain Pine maneuvered the Columbia to the windward a few minutes after the start, blanketing the Henry Ford. At 10.10, however, the Ford again was to the windward with the Columbia a length ahead.

The official starting lines showed that the Columbia crossed the line at 47 seconds after 10 o'clock and the Ford was over the line 2 seconds later. A 25 mile wind.

COLUMBIA LEADING The Columbia was leading on the first turn when the official times were: Columbia 10:23:30; Ford 10:24:04. The Columbia at 11:11:37 had a 40-second lead over the Ford as the line at around the second mark at the end of one side of the 10-mile triangle. Fifteen miles of the 40 mile course had been sailed. The vessels stood away on a broad reach to the next turn with the wind on a true lighter offshore.

As the schooners swung along the third leg, the Columbia had increased her lead at the 25 mile mark. At noon two hours after starting, the lead had been extended to five lengths. The wind had hauled just a trifle to the northward.

NIP AND TUCK The skippers then began to show their seamanship. Both vessels started luffing back toward Gloucester; standing in so far that they had to jibe over to get back on the course. As they rounded the third buoy, marking completion of 25 miles, the Ford jibed the first and got away to a lead of several lengths. Captain Pine, however, made the Columbia swing out and as they swung about, brought her into the lead with a small margin. It was seen sailing, with the advantage depending on the skill of the handlers.

Trotsky and Zinoviev last week appeared before Moscow workers' meeting and attacked the Communist party leaders in speeches which urged that industrial workers should be favored at the expense of rich peasants.

Lancaster Ratepayers at  
Meeting Censure Councillors  
McCavour and Golding

ASK THEM TO HAND  
IN RESIGNATIONS

Citizens' Committee Ap-  
pointed to Carry Out  
Wishes of People

At a well attended meeting of the ratepayers of Beaconsfield, held on Saturday night, called to deal with the action of the Municipal Council at its meeting on Tuesday of last week, when a petition asking for an audit of the accounts of the Parish of Lancaster was refused, a resolution was adopted censuring the action of Councillors McCavour and Golding "for their failure to keep their pre-election pledge and support the petition." The resolution also invites the two councillors from Lancaster to resign their seats at the Municipal Council.

The meeting was well attended and there was some out-of-door discussion of the present conditions in Lancaster. It was felt by those present that an audit of the books was the only means whereby a reduction in taxation in the parish could be obtained.

A committee was also appointed to obtain necessary legislation for a full investigation into parish affairs.

The meeting was held in the Beaconsfield school. W. H. McFarlane was the chairman, and Charles E. Driscoll acted as secretary.

STATES OBJECT.

The chairman stated that the object of the meeting was to determine why two of the parish councillors refused to endorse the petition of ratepayers and failed to continue in their demand for said audit.

The chairman read the following letter, a copy of which had been sent to the councillors.

"Dear Sir.—As it was instrumental in the circulation of the petition for an audit of the financial affairs of the Parish of Lancaster, which petition was presented at the recent meeting of the Municipal Council, with the result that its prayer was refused, and as I have consulted several of the large tax payers of Beaconsfield, and the consensus of opinion is that a public

meeting should and will be held in the school house of Beaconsfield on Saturday, the 9th instant, at 8 o'clock p.m. This meeting is open to all rate payers of the Parish of Lancaster, and it has been suggested that a special invitation be sent to each councillor to attend.

"Will you kindly make every effort to be present as the elected representative of the parish. If you find it inconvenient please let me know. Trusting that you will be able to meet your constituents in this important matter."

IGNORES IT, HE SAYS.

Following the reading of the letter, Harold P. Crouse stated that Councillor McCavour had ignored this letter and had told him over the phone that he did not so because he, (Mr. Crouse) had not paid his taxes on the first of September. The speaker stated that this was due to his absence from the city, but as soon as he returned home his taxes were paid.

He felt this rebuff was uncalled for. Mr. Crouse stated that he had intended himself in the matter of an audit prior to the last councillors' election, and had drawn up a rough draft in the presence of Councillors Seely, Golding and McCavour and members of the committee. This was agreed to and same were printed and circulated in the Parish of Lancaster the day preceding the election.

"And further resolved that this meeting endorse the action of Messrs. Crouse and Seely."

And further resolved that a committee be appointed to obtain the necessary legislation for a full investigation into parish affairs.

Twice-A-Day  
—DENTISTS ADVISE TO  
CLEAR FILM FROM TEETH

To Overcome "Off-Color" Teeth and Harden Gums, This Method is Generally Suggested

MODERN dental science ascribes many tooth and gum disturbances, and most cases of dull or "off-color" teeth to a viscous film that forms on teeth. Run your tongue across your teeth, and you will feel it—a slippery sort of coating that ordinary brushing fails to combat successfully.

Film absorbs discolorations from food, smoking, etc. That is why, according to leading dental opinion, teeth look dingy and "off color."

Film clings to teeth, gets into crevices and stays. It invites and breeds the germs of decay. And that is why it is judged so grave a danger to the teeth by authorities.

Film is the basis of tartar. And tartar, with germs, is the chief cause of pyorrhea. That is why regular film removal is urged as probably first in correct gum protection.

Most dental authorities urgently advise thorough film removal at least twice each day. That is, every morning and every night twice each year. Make both a habit.

alkalinity of the saliva. And meets thus, in all ways, the exactments of modern dental science.

On dental advice, people are adopting this new way of tooth cleansing. Obtain Pepsodent, the quality dentifrice, at drug stores. Two months' supply at a moderate price—or send coupon for 15-day tube. Use twice every day. See your dentist twice each year. Make both a habit.

PREMIER KING  
LEAVES CANADA  
FOR BRITAIN

Says at Dock Dominion  
Takes No Grievance to  
Empire Meet

QUEBEC, Oct. 10—Canada took no grievance to the Imperial Conference, said Rt. Hon. W. L. Mackenzie King to the crowd here to bid him goodbye when he sailed Saturday night for England. Canada was to be represented at the conference as a full self-governing nation within the British Commonwealth, Mr. King told the Liberals of the district who gave a luncheon in honor of himself and Hon. E. Lapointe, minister of justice, who accompanied Mr. King overseas.

The morrow of a victory and the eve of a departure, the Prime Minister named the occasion. Liberals over in Quebec were in the ancient capital of the day and the Premier was occupied every moment from the time of his arrival from Ottawa the middle of the morning until the Magentie sailed at 9.30 p. m., with informal conferences, hurried calls and two speeches.

ADDRESSES GROWN

Before the ship left, Premier King addressed a crowd of citizens from a special platform on the wharf. Ships' flags were flying everywhere, and a military band greeted the party at the wharf.

The Prime Minister was accompanied to Quebec by Hon. J. A. Robb, minister of finance, who will be acting premier in his absence; Hon. Charles Dandurand, as well as members of the official party.

"I am sure we will express your wishes," Mr. King said, speaking at the docks, "when we extend the goodwill and heartiest greetings of the people of this Dominion to the people of Great Britain and the other dominions." It was the custom at Imperial conferences for prime ministers of the Dominions to meet His Majesty the King.

"I think I will express your wish, should that privilege be extended to me, if I tell His Majesty that nowhere more than in Canada are there subjects who love him personally and are loyal to the Crown."

The Prime Minister thanked the people of Quebec for their share in the people's election.

UNITY BREED OF DIVERSITY

Canada's destiny was to be one of "unity bred of diversity," a unity in which all people of the Dominion must participate. Canada was again on the verge of an era of a great prosperity similar to the years in which Sir Wilfrid Laurier was at the head of affairs.

"In the past 15 years the Liberal party has had great struggles in parliament and in campaigns, but out of it has come a new verdict and now we are going forward our great policies."

HUSBANDY Yes, dear, you look nice in that dress, but it cost me a heap of money.

Wife—Freddie, dear, what do I care for money when it is a question of pleasing you?

A tribute was paid to former Councillor John T. O'Brien for his efficiency in municipal affairs.

Mr. Logan informed the meeting that the cost of putting the bill through the Legislature would be in the vicinity of \$100, or \$1 for 100 men. Several men present at once rose to their feet and stated that they would give a much larger amount, if necessary.

MANY ACCIDENTS IN  
PETITCODIAC AREA

Epidemic of Mishaps in Last Few Days, More or Less Serious

PETITCODIAC, Oct. 10—An epidemic of auto accidents has visited the vicinity of Petitcodiac in the last few days. Last evening about 5.30 o'clock a large sedan, owned and driven by R. L. Phillips, of Fredericton, struck and seriously injured a cow the property of Roy Boyd, of Lower Petitcodiac, while Boyd was driving his cows across the highway. The car struck the cow with sufficient impact to hurt the cow to the side of the highway.

COACH UPSETS

A day or so ago a coach, driven by a traveling salesman, left the highway just west of Linden Bridge near Petitcodiac and after turning over a number of times came to rest upon its side. The top was completely demolished every pane of glass broken and two wheels smashed to kindling. Strange to say the driver was only slightly injured.

On Thursday evening a car proceeding westward at the River bridge crossing of the main trunk highway carried too much speed to make the turn and brought up in the ditch.

HORSES STRUCK

A team owned by Albert Brancome was struck by a car this week and one of the horses very seriously injured. The harness was severed by severe gash in the throat and breast. The misfortune was aggravated by the fact that the driver, upon realizing the damage turned out his lights and proceeded in the hope of avoiding detection. The number of the car was procured, however, and full restitution will be demanded.

It is learned that Mrs. William Dickie, of Cornhill, while on the way to church and accompanied by her daughter, was struck by a passing au-

SAINT JOHN, N. B., OCTOBER 11, 1926.

MUNICIPAL NETTLES.

Recent events prove beyond contention that Saint John must consider a change in its form of civic government. His Worship the Mayor favors a return to the aldermanic system. In addition he said:

THE ELEMENT OF WORK.

"I believe that the common sense of the British people is such that they would appreciate an indication in the advertising of Canada that the first essential for success in the Dominion is hard work, and that slightly less brilliant picturing would certainly do no harm."—Sir James Craig

SOME COMPARISONS.

When His Worship is of opinion that the commissioners are too busy with their several departments to give due attention to civic affairs generally we may be sure that this is so. But the aldermanic plan, good old British institution though it be, is not perfect. While we contemplate a change it might be well to examine the city manager plan, which aims at preserving the best features of the aldermanic system along with expert supervision of the executive departments. If we want an exposition of city manager government no man is better fitted to explain it than Dr. Horace Brittain.

While the extreme east languishes, the west forges ahead. For example, since 1921 the number of wholesale firms doing business in Edmonton has increased from 207 to 317 and the total volume of trade is estimated at 25 per cent. more. Over 800 commercial travelers now make their headquarters in that city. This expansion has taken place in a period of more or less severe financial stress. When we turn to the building record we find that the portion of Canada which has not made important gains in the Maritime Provinces. Our people are not envious of their neighbors, but they do not want economic changes as will enable them also to share fairly in the national prosperity and development.

POEMS I LOVE

"The House of the Trees," by Editha Wetherald. MISS WETHERALD is a Canadian singer, whose verses used to appear constantly in our magazines. Lately she has given us nothing. This old poem, which is a beautiful prayer, has always remained in my memory since I read it some years ago in a periodical—I forget just where. It is incomparably lovely, and it, I am glad to note, included in a recent anthology of out-of-doors verse.

DINNER STORIES

A COLLEGE professor who was always ready for a joke was asked one day by a student who was fond of matching wits with his instructor if he would like a good recipe for catching rabbits. "Why, yes, that sounds interesting," replied the professor. "What is it?" "Well," said the student, "I crouch down behind a thick stone wall and make a noise like a turnip." "That may be," said the professor, "but I prefer a recipe that would be for you to go and sit quietly in a bed of cabbage heads and look natural."

Queer Quirks of Nature

BOUNDLESS ARCTIC HIS HOME

NO bird has better right to be called a bird of the arctic than the snowy owl. His range is circumpolar and in summer includes only those lands north of the limit of tree growth. Here on the boundless rolling plains dotted with blue lakes, and soon to be clothed with bright-hued flowers, he and his mate make their home on some hillock raised from the damp ground. In a mound composed of grass and weed stems the six or eight round white eggs are laid. The weather is still cold and the eggs must not be left uncovered, so the mother bird begins to set when she lays the first egg, and the young are hatched at intervals. Arctic hares, ptarmigan and lemmings—these are the food of the young owls, and in due time, if all stars well, they are able to fly and each learns to catch its own food.

Arctic Owl

GO ON LONG JOURNEY

It is now August. The flowers have gone to seed and already many of the summer birds are starting on their long journey to their winter homes. But the snowy owl loves to tuck up and stay as long as he can. Snow storms come, small ones at first just whitening the barren hills, and then comes one which does not melt. The ptarmigan no longer can find food and the willows grow thickly and furnish a bountiful supply of buds.

EUROPE'S ATTITUDE TOWARD U. S. NOW EXTREMELY BITTER

By Stephen S. Wise, Noted Jewish Rabbi of New York, in an interview. NO American could be in Europe, as I have been during the last months, and note without sorrow the awful change of attitude on the part of the allied and central powers alike toward our country. It almost seems as if there were some growing up in Europe quite apart from and without any relation to the League of Nations—a league of deepening resentment against America. It must be borne in mind by American citizens that the only relation on our part to RABBI WISE—European lands struggling out of the war years is that of creditor to debtor. We take no counsel with them, although we occasionally send observers or spies, whatever the correct term may be, to report on the proceedings.

ROME—Time was a duel for honor's sake was pretty much a private affair with only seconds and a doctor or two on hand. But now, all that's changed. A recent duel between two more-or-less literary lights found a bevy of photographers on the sidelines, busy snapping the better

of a very lively sword due. The pictures were used extensively in Roman newspapers. If this sort thing keeps up, Mr. Pyle will take a hand and duelling will become really worth while. No more of this silly duelling just for the fun of it, or even for honor's sake. Bigger and Better duelling is unquestionably on the way.

PARIS—Statistics—good old statistics, what a boon they are!—have come to light which show that fully 80 per cent. of the French war widows have been divorced from their soldier husbands. In many cases the cause

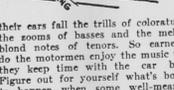

of the divorce was desertion by the husband but it's a certainty that many a soldier romance was completely wrecked the first time the war bride gave her nifty doughboy in civies. And no romance is really helped—no much, that is—when military matters fades and military muscles grow flabby. Another war is about the only thing that'll save such a situation.

NEW YORK—Music unites us all, makes us all one great friendly family, soothes our ills and gives us inspiration. Yes indeed. . . . The motorman on one of the main street car lines here are music lovers, after a fashion. They pass, on their route, several music schools and loud on

their ears fall the trills of coloraturas, the coars of basses and the mellow blood notes of tenors. So earnestly do the motorman enjoy the music that they keep time with the car bells. Figure out for yourself what's bound to happen when some well-meaning basso booms out "The bell in the lighthouse goes Ding-Dong" and a motorman comes right back at him with "Clang Clang." . . . A splendid time is enjoyed by all.

Fumbling For The Key.

A candidate for political office, while making a campaign speech, sought to discover the denominational sympathies of his audience. In order that he might turn the information to advantage, "My great grandfather," he began, "was an Episcopalian (stonny, stonny), but my great-grand mother (continued silence). My grandfather was a Baptist (more silence), but my grandmother was a Congregationalist (still rigid silence). But had a great-aunt who was a Methodist (loud applause). And—and I have always followed my great aunt." (Loud and continued cheering.) He got in.

Archives Record Deals With Organization of Saint John Government

BUSINESS SOUNDS QUAIN AT THIS DAY

Effigies Banned by City By-Law—Liquor Sale in Jail

The story of the first meeting of the Common Council of the City of Saint John is interestingly told in an article among the documents stored in the Princess street office of the Dominion Archives Department. It was held 141 years ago. Here is the account—

IN GERMAIN STREET.

Saint John was incorporated as a city on May 18, 1785. The charter was drawn up by the famous Ward Chipman, who, on enclosing the draft to Hon. Jonathan Odell, made the suggestion that the city should be called "Saint John" instead of the city of "Saint Johns."

The following entries from the old minute book gives a brief account of the opening years of the city government.

Where are the Women Who "Never Got Over Things," Who Mourned a Death for Forty Years?—Where are the Faded Old Maids, the Clinging Vine Girls?—And What Has Become of Dear Old Grandma?

I OFTEN wonder what has become of certain types of women who seem to have vanished off the face of the earth, and to have become as extinct as the mythical Doas.

DOROTHY DIX

Where, for instance, are the women who "never got over things"? Who mourned for forty years over a sorrow and were perpetual flowing fountains of tears?

They always dressed in lugubrious black and wore long, flowing face veils and slick black gloves. They wiped their eyes on handkerchiefs with wide black borders and derived most of their sustenance from strong black tea.

All of us who are middle-aged can recall a group of such women, who every now and then came to spend the day with our mothers and hold a lodge of sorrow.

We of today have no such visitors as these. No women come to spend the day in an orgy of grief at our houses. Only the most intimate of our women friends ever speak to us of all of what-

AND what has become of the woman with the broken heart? Each community used to have one. Generally she was a sweet-faced, thin old maid, with a sad, gentle smile and gray ringlets, which she wore after the fashion of her youth, straggling down the side of her face, and she affected faded colored clothes, draped in an old-fashioned way across her flat breast.

There was always some romantic story of how she had been hit in her youth by a gay young blade who kissed her and rode away. Or else the handsome young lover had died of some lingering complaint.

OR PERHAPS the broken-hearted one was a deserted wife whose good-for-nothing husband, after beating her and starving her and dragging her down into the gutter, had run away and left her. But the poor lady was still pining for him and keeping the light in the window burning in case he should return. Everybody adopted a laudible manner in dealing with her and she was regarded with awe and sympathy.

"Men were faithless ever," says the old song. They still are. Plenty of men leave girls waiting at the church, and wife desertion is a common crime, but you couldn't find a broken-hearted woman now with a search warrant.

AND where would you go to look for a clinging vine in this day and age? You remember the gentle feminine thing who rolled her eyes and asked every man she met what he thought she thought, and who was so frail and delicate she looked as if she was about to pass away at any time?

PERHAPS a few specimens of the clinging vine still survive in remote rural communities, but you never see one in cities. Every flapper can drive a car and play as hard a game of golf and tennis as her brother. Like Lady News' daughter, she knows everything that is to be told.

AND what has become of grandma? Dear old grandmas with the silvery hair, under a dusty lace cap, with her blue-veined hands folded on her silken lap, and a patient far-away look in her eyes? Grandmas, who was still waiting for the call to come to join her loved ones in the other world?

Quick, the needle, Watson! Sherlock Holmes will require it if he is setting out to seek grandma in a chair in the chimney corner, for grandma has benched her hair and is wearing granddaughter's clothes, and her highly manicured hands are dealing bridge, and she isn't thinking about her latter end. She is absorbed in learning Mah Jong.

THE RHYMING OPTIMIST

How graciously the story rings; a love surpassing all, worth more than wealth of fabled kings, yet free for great and small. But ask yourself how deep it goes, this splendid creed you preach, ask how your thought and action shows the love you voice in speech. Do you forget your wants to give your aid to one in need? Do you, through all life's changes, live with truth in hand and deed? Oh, ask yourself how much you do the very best you can.

BIBLE WORK IN WEST AFRICA IS DESCRIBED

Rev. A. W. Banfield Tells of Translating Gospels into Nupe Language

DIFFICULT TASK IS ACCOMPLISHED

Visitor Here Under Auspices of Canadian Bible Society

The fascinating story of how he translated the four Gospels into the Nupe language as related by Rev. A. W. Banfield, secretary for the British and Foreign Bible Society in Nigeria, West Africa, in his sermon in St. John's (Stone) church last night was followed with close attention by the large congregation present.

In that task Mr. Banfield had to make text books and reduce to writing a language which had never been written and to learn that language entirely from the natives who could not speak his language. He had also to discover or make new words that would express Bible thoughts of which the natives had no knowledge. Another difficulty which confronted him was found in the fact that in the Nupe language different intonation gives different meanings to the same sound, the same word meaning eye, nose or chest, according to the inflection.

He overcame all of these difficulties and inside of eight years had made translations of all four Gospels and submitted them to the British and Foreign Bible Society, through which society, with the financial aid of a Christian woman in London the translated gospels were printed for distribution.

NATIVE OF TORONTO

Mr. Banfield is in Saint John under the auspices of the Canadian Bible Society. He is a native of Toronto and went out to Central Africa in 1891 under the Sudan Interior Mission and served until that body in Central Africa until 1915 when he became general secretary of the British and Foreign Bible Society for the West Coast of Africa, the position in which he now serves. His territory covers about 3,000 miles along the West Coast of Africa in which there are about 40,000,000 people speaking hundreds of different languages.

The Bible Society, he said, had printed copies of the Bible or portions of the scriptures in 184 different African languages and published the scriptures in three or four new African languages each year. He gave three addresses on his work in the city yesterday. In the morning he spoke in St. Andrew's Kirk and in the afternoon he addressed a special meeting in the schoolroom at St. Jude's church, when he described mass movements that have taken place along the West Coast of Africa, thousands of natives are being converted to Christianity.

Commissioner W. L. Harding was chairman at the afternoon meeting and Rev. J. H. A. Holmes, rector of the church, and Rev. John Unsworth, rector of St. George's, were present. Rev. J. M. Murchison, a secretary of the Bible Society in New Brunswick and Prince Edward Island, accompanied Mr. Banfield and read the scriptures at each of the three services. In Stone church the harvest festival was being observed and the church was very beautifully decorated with fruits, flowers, foliage and grains. There was specially fine music. Rev. A. L. Fleming, the rector, introduced Mr. Banfield.

TELLS EXPERIENCES

Mr. Banfield said that when he went out to Central Africa 25 years ago he was one of a party of four pioneers and they experienced the exposure and privations to which pioneers would be subjected in traveling 500 miles up the Niger River. Of the party one was a medical man, one had charge of building operations, the third was to look after the provisions and do the cooking, and as the fourth he was to learn the language and make a translation.

To give his hearers a realization of the difficulties of translating the Gospels into the Nupe language even after he had some knowledge of its words and phrases, he quoted the first verses of Mark and told of how substitutes had been found for the different words not possible of literal translation. In reference to the word "sin," he said that it had been exceedingly hard to make the natives realize that they could sin against God. They said they wronged their brother, but what had God to do with it. "Believe, Faith, Promise, Heaven, Write, Gospel and Prophet, as well as the names of Deity had no equivalents in the native language, he said.

SPEAKS OF BIBLE

In Carmarthen United Church yesterday morning Rev. A. D. McLeod had as his subject, "The Bible and Why I Believe in It; It is the Inspired Word of God."

Mr. McLeod said in part: "The Bible is most wonderful in many ways. In the first place the way in which it was made. God being its author, that is why it is called the Word of God. Secondly, it took some standard authors from 15 to 38 years to create some work, while God took 40 distinguished men in different countries and different ages over 1,500 years to prepare the Bible. The Bible has done wonderful work. Some idea of the good accomplished by the Bible can be gleaned from the results of missionary work in such countries as the New Hebrides, Fiji Islands, Formosa, Korea, Japan, India and Africa.

Thirdly, the way in which the Bible has been persecuted. Many men and women have been martyred for the name of Christianity. Fourthly, the wonderful way in which the Bible has been preserved.

He said the Bible had been translated into 650 languages. According to information given out annually by the British and Foreign Bible Society, 40

500,000 copies of the Holy Scripture were printed. Since the origin of Bible Societies in England, Scotland and America, over 300,000,000 copies have been prepared. The British Bible Society printed the Bible in 898 languages, while the American Bible Society printed it in 67 different languages.

"The Bible," the speaker said, "contains the way of life, the mind of God, the state of man, the doom of sinners, the atonement of Christ, the offer of Salvation, the happiness of believers and the hope and assurance of eternal life."

AT ST. MATTHEW'S

St. Matthew's Presbyterian church annual congregational and Sunday school rally was held in the church on Sunday afternoon. G. J. Marr, newly elected superintendent of the school, presided. Rev. Dr. J. A. Morrison gave a very interesting address and urged the children to memorize the shorter catechism. He displayed a book which was 200 years old in which there was printed a sermon preached by Rev. George Gipps, rector of Elston, Leicestershire, England, who was one of the assembly of divines who composed the shorter catechism. The sermon was delivered on Nov. 27, 1646, in St. Marzaret's, Westminster, to the "Honorable House of Commons at their monthly fast." The book is in splendid state of preservation, the parchment like paper and the black ink being as good as when the book was printed.

Dr. Morrison said he valued the book very much, and it was worth a considerable sum of money. Mr. Marr announced that awards would be given to the pupils of the Sunday school who memorized the shorter catechism in the future. He also stated that John Andrews, who had given instrumental selections that were much enjoyed, was willing to organize a young people's orchestra for the church.

An interesting program was given and included the following items: Responsive reading, from the psalms; duet, Miss Beatrice Gullbraith and Miss Marion MacFarland; readings, Miss Carrie Bailey; instrumental solo, John Andrews; instrumental duet, Miss Marion MacFarland and Mr. Andrews.

TELLS OF SYNOD

Rev. W. M. Townsend in St. Columba Presbyterian church at the evening service gave a very interesting account of the recent Maritime synod meeting at Halifax. He said more than 120 were present, 60 being ministers and 60 representative elders. There were 22 more ministers in attendance than there had been at the convention in the previous year when the synod met at Glasgow.

Rev. Dr. Grant, general secretary of the Presbyterian Church in Canada and Rev. J. A. McGillivray, moderator of the General Assembly, were present, he said, and the moderator had stated that within the first year there were 10,000 new members added to the Presbyterian church after disruption and as much money raised as there was raised by the undivided church. The gospel was preached in 1,100 places, he said. He told of a special committee having been appointed to arrange for the coming of Rev. Mr. Rogers, a missionary evangelist, who will travel through Canada in the interests of the Presbyterian church.

Mr. Townsend announced that Rev. Alexander Craik, of Inverness, Kent county, had been appointed port chaplain for Saint John and is expected to assume his duties some time in November.

The usual standing committees were appointed, Mr. Townsend said, and he having been not to trust in organization out in the Word of God. The spiritual development of the church was the great aim it was conceded and special stress was laid on home and foreign missions.

RALLY SERVICES

Rally Day services and Harvest Festival services were held in a number of the city churches yesterday with large congregations attending. In St. Luke's church, where the harvest festival was held, the special preacher was Rev. W. V. Martin, of Canterbury. In the Mission Church St. John the Baptist, for the Harvest Festival, Rev. W. P. BOYS AND GIRLS OF CATHEDRAL MAKE JUBILEE

March in Lengthy Procession on Sunday Afternoon

SERVICES HELD AT THREE CHURCHES

Forty Hours Closed—Junior Holy Name Is Organized

More than 1,000 children of the Cathedral marched in impressive procession yesterday afternoon to Holy Trinity and St. Peter's churches, making the visit necessary to comply with the requirements of the Holy Year pilgrimages. In June many adults of the congregation made the jubilee publicly and October is chosen as the children's month for carrying out the exercises.

Assembling at the Cathedral grounds they marched into the church and the prayers of the first visit were offered and hymns sung. Led by a cross bearer with acolytes on either hand, the boys and girls then went their way in a long line up Cliff street and on to Holy Trinity church and thence to St. Peter's. In each, the prayers and hymns were repeated. The leader in the jubilee exercises was Rev. Roy M. McDonald and accompanying him were Rev. Francis Gillen and Rev. M. T. Nichol. The children were also looked after en route by the Sunday school teachers. The jubilee procession will be repeated on each Sunday of this month.

FORTY HOURS ENDED

The devotion of the Forty Hours in the Monastery of the Good Shepherd, Waterloo street, was brought to a close on Sunday. The special devotional period was begun on last Friday morning and since then until the close there had been continuous adoration, day and night, in the chapel of the monastery. At the evening service on Friday the speaker was Rev. E. P. Reynolds, chaplain, and on Saturday Rev. Roy M. McDonald, rector. Each spoke on the Blessed Eucharist, honored especially at this devotion. The altar was richly adorned. Electric lamps and many candles lighted it brilliantly, while flowers were in profusion on the altar and banking the altar steps in graceful arrangement. The reverend mother in charge spoke on the virtues of the Eucharist and had sent flowers for adornment of the altar and was grateful for their thoughtful assistance in this regard.

JUNIOR HOLY NAME

A Junior Holy Name Society was formed in St. John the Baptist church last evening when about 150 boys between the ages of seven and 14 years received the solemn pledge of membership at an impressive service when a very large congregation was present. The boys marched into the church in a body and sang "Come Holy Ghost" as the opening hymn. The Rosary was recited by Rev. Arthur Kinsella.

The sermon was delivered by Rev. Joseph Hanbery, who spoke on the aims and objects of the Junior Holy Name Society and exhorted the boys to very much, and it was with respect, Father Hanbery then received the boys into membership of the Junior Holy Name Society and when they had recited their pledge of membership they sang "Holy God We Praise Thy Name."

Solemn Benediction was celebrated by Rev. J. J. McDermott with Father Hanbery as deacon and Father Kinsella as sub-deacon and the service closed with the singing of the hymn "Mother Dearest, Mother Father" by the boys.

AT ST. ROSE'S

Rev. Michael Murphy preached at both masses in St. Rose's church yesterday morning on the gospel of the day, the 20th Sunday after Pentecost. Father Murphy brought out forcibly the lessons to be learnt from the act of the rich ruler, who approached Christ on his way to Capernaum, praying the Master to come and heal his son who was sick of a fever.

In the evening after vespers, Rev. M. O'Brien, of Norton, held the closest sermon on "The Blessed Virgin, the Mother of God." He developed the theme very beautifully from the text in St. Luke, "Behold from henceforth all generations shall call me blessed." The church was thronged.

C. program was carried out impressively and there was a large attendance of scholars and parents. W. H. MacDonald, superintendent of the school, presided. Rev. E. H. MacWilliam, the pastor, was also present and took part.

FIRST OF SERIES

The Men's Brotherhood of the Main street Baptist church held its first meeting of the season yesterday afternoon with a large attendance of members and Rev. M. S. Richardson, the pastor, gave the introductory address of the series he will deliver this season on the theme of Christ and the Modern Problems of Today.

RALLY DAY

Rally day was observed in the Fairville Baptist Sunday school yesterday. The associate superintendent, William Harris, Jr., presided. The Sunday school choir led in the singing and Miss Mary Kierstead was at the organ. Rev. C. T. Clark, the pastor, gave the address and afterwards gridding exercises were carried out and certificates and prizes were presented.

SOUTH AFRICA WAR SHAFT IS UNVEILED

Widow of Boer General Officially Commemorated With Many Notables Present

AMIENS, France, Oct. 10.—The imposing memorial to South Africa's war dead was unveiled in Deville Wood today by Mrs. Botha, widow of the famous Boer general and statesman, in the presence of Prince Arthur of Connaught, former Governor General of South Africa; Hon. J. B. Hertzog, Premier of the South African Union; Field Marshal Earl Haig and Lord Buxton and Lord Gladstone. Ex-service men and relatives of the fallen soldiers also witnessed the ceremony. There was a great gathering of representatives of the Union's defence forces.

"On the rights and wrongs of the war we do not feel called upon to decide," Premier Hertzog said. "Hearing a far-off call from a world in distress, imploring for national freedom and world peace, our countrymen marched to the battle field, forever determining their born conviction in righteousness and service."

Old Suite Puts New One in Your Home

Trade in your Old Suite of Furniture for the glorious ease and charm of the kind you find today at the Marcus Trade-In Sale.

The old suite—who's day is done—may become the down payment that delivers into your home—right away quick—the most beautiful and comfortable suite you ever saw.

Beyond All Comparison

Old Furniture looks funny beside the full-bloom beauty and accommodations of the New. How insufficient and awkward the old parlor set appears beside the cosy heartiness of a Chesterfield Suite! How dull the plump and plain Dining Suites of that time show up beside the Works of Art in wood and carving, never heard tell of until brought to Saint John of late by J. Marcus, Ltd.! What makeshifts of Bed Rooms were offered by all stores then! And what loveliness takes their place today along with all those niceties of wardrobe and vanity that warm the heart of the Woman as well as the House Manager.

Examine the way they create Furniture now as seen at the Marcus Trade-In Sale. Note the amount of use you get out of every piece in every suite—the completeness of it—the enduring beauty of design—the charming hues of the Walnut, the Mahogany, the Oak; effects never known until this last year.

Make Home Mean More

Your Home should come first. Bring it up to date, up to your station in life. For Home is everything, lived with more, used more than anything else. Make it mean more. Make it a place you are prouder to invite folks into, a place preferred by the whole family to pleasures that perish. Set the stage for a new lease of love and life with the help of the Marcus Trade-In Sale. Out with the old, so in can come the New,—the first payment provided thereby and the rest as easy as ABC. Telephone Mr. Marcus today to come and value your out-of-style suites. Get your name high enough on the waiting list for such visits. The Trade-In Sale will be over before you realize it. NEWSPAPERMEN REACH N. B. ON HUNTING TRIP

Farty of Fifteen Guests of Telegraph-Journal and Times-Star at Renous

NEWCASTLE, N.B., Oct. 10.—The spirit of the press made itself felt in Newcastle this afternoon when about fifteen of the most prominent newspapermen of Canada, representatives of the Canadian Press and of the Daily Newspaper Association, alighted from a private car at Newcastle station en route to the camp at Renous, where they are to be the guests of the publishers of The Telegraph-Journal and The Evening Times-Star of Saint John.

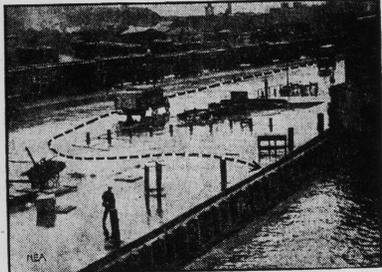

On their arrival they were met by the owners of the camp, J. D. McKenna and H. P. Robinson, president and vice-president of the New Brunswick Publishing Company, Limited. T. F. Drummond, general manager of the N. B. Publishing Company, Limited, accompanied the party from Quebec.

The party left at once for the camp at Renous. They will travel part of the way by motor but, as the camp itself is deep in the forest, a lengthy tramp across the famous hunting trail will have to be made on foot.

COMFORTS SUPPLIED. The route is a hard one for those unaccustomed to travel by foot and every comfort has been provided by the hosts for their distinguished visitors. They have in readiness old-fashioned carry-alls and well mule guides are at the service of those who become fatigued. Mr. McKenna and Mr. Robinson have also provided wool socks, soft slippers and a generous supply of foot balm to soothe footsore tramps.

SPORTSMEN'S PARADISE. When the party arrives at the camp the visitors will be made at home in

WHERE COL. WILLIAMS DIED

Here is the scene of the final tragic episode in the career of Colonel Alexander Williams, U. S. marine, who was court-martialed by Smedley Butler last spring for serving Butler with cocktails. Following the dotted line sketched in the picture, Williams' auto swerved from the road, crossed the river, and sank in 30 feet of water, drowning the officer. It happened at night, as Colonel Williams was returning to his home from a party.

SCOUT LEADERS ON HIKE TO RED HEAD

Inspect Packing Co. Plant and Wireless Station on Saturday Afternoon

The unfavorable weather of Saturday afternoon caused some slight alterations in the plans for the Boy Scouts hike and instead of holding a council fire at Red Head, as had been intended, the hike was made an industrial visitation trip.

At Kane's Corner the main party from the city was joined by some Scouts from East Saint John and the whole company was shown through the new plant of the British Canadian Packing Company, where the installation of the machinery is now in progress. J. A. Kennedy kindly took the Scouts through the building, explaining all of the various processes.

The Scouts then hiked to Red Head where they were shown through the wireless station through the kindness of Mr. Gray. They next visited the old fort at Red Head and at 6 o'clock they set about the serious business of serving supper.

As rain came shortly afterwards the boys did not linger but left Red Head on their return about 8:30. They had reached Saint John before 1:30. There were with them Assistant District Commissioner F. C. Choppin, District Secretary W. E. Hoyt, F. D. Foley and Scoutmaster K. W. Stagg, of St. James troop.

Clare Bros. Furnaces Have the Following Essentials All Good Furnaces Should Have
Furnace drilled for hot water boiler connection.
Two-piece fire-pot.
Generous-sized firing door.

1.—Large Circular Water-Pan—keeps air healthfully humid
THE large circular pan runs all around the Hecla furnace—distributes naturally moist air to every warm air pipe. Every room in the house gets its proper share.

2.—Fused Radiator Joints—banish gas and dust leaks
Because most furnace radiators are made with steel sides and iron tops and bottoms, a leak occurs sooner or later—a cemented or bolted joint of iron and steel opens up because heating and cooling expands and contracts steel more rapidly than iron.

3.—Steel-Ribbed Fire-Pot—Saves Coal
By welding an extra number of steel flanges into Hecla's steel-ribbed fire-pot greatly increased radiation is obtained. To utilize the waste of this extra radiation—you can save 14% or One Ton of coal in Seven—over \$2.00 every time you buy a ton of coal.

Can Society Make Us Abolish MARRIAGE and MORALS?

Four writers—one a woman of exalted social position—another an internationally famous judge—the third and fourth the greatest social novelists in America—give their authoritative answers in the four greatest literary features that have ever been published in a single magazine.

JUDGE BEN B. LINDSEY on The Moral Revolt
MRS. PHILIP LYDIG on The Tragedy of Gilded Youth
OWEN JOHNSON'S GREAT "Children of Divorce"
RUPERT HUGHES' LATEST "We Live But Once"

In a democracy the mass of the people are given to imitation of the few. The few in America are the idle rich, who, in their search for new sensations, flamboyantly place themselves not only above the law but outside the moral code that society has evolved for its own discipline and salvation.

Case after case from his own Court, related in all their illuminating details, are offered by him in support of his belief that a new code of morals, particularly in relation to sex, is being evolved under our eyes today.

And in further support of Judge Lindsey's belief, Mrs. Philip Lydig, all of whose life has been spent in the world of fashionable society here and abroad, comes forward with an article entitled, "The Tragedy of Gilded Youth," in which she too cites case after case of youthful destruction as a result of young people growing up in the atmosphere that surrounds their rich and idle elders.

Nor is that all. For in the fascinating form of the novel, Mr. Owen Johnson and Mr. Rupert Hughes, themselves familiar with all strata of society, present dramatic pictures of just what is proceeding on the inside of that society. Their novels, "Children of Divorce" and "We Live But Once," are written with no less frankness and first-hand knowledge than the articles by Judge Lindsey and Mrs. Lydig.

In addition to these contributions of the deepest human interest, the same magazine offers, in its November issue, the best and latest work of the most popular novelists and short-story writers—among others, Struthers Burt, Robert Benchley, Arthur Mason, James Hopper, Virginia Dale, Margaret Cukin Banning, and Samuel Scoville, Jr.

The RED BOOK for November ON SALE AT ALL NEWS STANDS PRICE 25 CENTS MAGAZINE

AMAZING! Judge Ben B. Lindsey, presiding over Denver's famous Family Court, holds the amazing belief, as revealed in "The Moral Revolt," that a new code of sex morals is being created in America today.

FEARLESS! Mrs. Philip Lydig from her exalted position in our most fashionable society is fearless in her belief, as expressed in "The Tragedy of Gilded Youth," that the example set by the children of the idle rich, will, if followed, degenerate America.

BRILLIANT! Owen Johnson, the most brilliant of our novelists, an active observer and dramatist of society, paints in his great novel, "Children of Divorce," a picture of conditions as they are in high society that are terrifying in their implication.

THRILLING! In Rupert Hughes' new novel, "We Live But Once," his unmarried heroine deliberately sets out to steal a woman's husband and her attempt is fraught with thrilling possibilities.

# At last!

a real  
cold weather  
gasoline

IT is no trick to make a gasoline that will start quickly. But to make such a gasoline without sacrifice of power and mileage, has long been a problem that has baffled the best brains in the oil industry.

The discovery of Ethyl Brand of Anti-Knock Compound--after 7 years' research in the General Motors Laboratories--has enabled us to solve the problem.

We produced a very special grade of quick-starting gasoline. We added this Ethyl ingredient. We thus achieved a gasoline that, while "light" enough to explode the moment the spark jumps, gives more power and longer mileage than any winter gasoline heretofore made or sold in Canada. And in addition, it makes your motor absolutely knockless. 4 cents more per gallon--but emphatically worth it.

Fill with Imperial Ethyl. In the first mile it will show its superior acceleration. On the first hill it will reveal its truly remarkable climbing performance. On the first cold morning it will prove its readiness in starting.

You will come to it some day soon--why continue to miss the driving thrills, the real motoring satisfaction, you can get by filling with Imperial Ethyl.

### PRINCE ARTHUR AND HAGGARD VESSEL MISHAP

British Nobility on Steamer Which Grounded in Boulogne Harbor

BOULOGNE, Oct. 10.—The passengers on the cross-channel steamer Biarritz, who included prominent members of the British nobility and a distinguished delegation from South Africa, endured a harrowing experience in the run between Folkestone and Boulogne yesterday in a 70-mile gale. After being swept by tremendous waves, the Biarritz ran aground in Boulogne Harbor, but eventually was pulled off by tugs.

Prince Arthur of Connaught, Field Marshal Earl Haig, the Countess of Buxton, Viscount and Viscountess Gladstone and Col. L. C. M. Amery, minister for the Dominions, General Herzog, Gen. Maurice Botha, N. C. Havengood, South African minister of finance, and Sir Wm. Hoy, director-general of the South African Railway, shared the miseries of the tempestuous voyage with the 400 other passengers, military and civil dignitaries and women, who had come from South Africa to witness the dedication of a war shaft in memory of the South African soldiers killed in action on the Somme.

When the Biarritz left Folkestone heavy seas were breaking over the entire coastline and at places had almost reached the houses of the seaside resort. The British laws had been smashed in Indian summer, but this was rudely shattered by the fierce gale which came up suddenly. So high were the waves that they swept over the pier and 30 persons who had crossed the steamer.

Crossing the Channel the seas reached the entrance but in order to avoid happened until entering Boulogne harbor where a large crowd had assembled to witness the dedication of a war shaft in memory of the South African soldiers killed in action on the Somme.

All available tugs went to the assistance of the steamer and after 20 minutes of pushing and pulling she was refloated without damage and brought alongside by aid of a hawser run from the harbor.

This stock opened unchanged at 10 1/4, and in subsequent transactions touched 10 1/4 for a net loss of 1 1/2 points. The balance of the list was featureless. Smelters opening at 2 1/2, of a quarter, and Alcohol coming out at 2 1/2, down one-eighth.

IF KIDNEYS ACT BAD TAKE SALTS

When you wake up with backache and dull misery in the kidney region, it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed.

The night classes for boys and men will be opened at 7:30 o'clock this evening in the King Edward School, south end. Reading, writing, spelling and arithmetic will be taught. Registration of pupils has been carried on during the last two weeks, and it was said today that all looks favorable for another successful season.

Rev. R. Cormier, principal of King Edward School, has had charge of the work for many years, and he says that the applicants this year compare very favorably in general intelligence with those of former classes.

**SOME OF THE REASONS**

Some of the pupils wish to improve their general education so as to be qualified later to take a course at the Vocational School; others are seeking promotion in their present employment, but find that they are handicapped owing to a lack of knowledge of general subjects; and others left school at an early age rather than repeat the work of a grade from which they had failed to attain promotion.

**HUNTERS RETURN TO U. S. PLEASD**

Four from Pennsylvania in City on Saturday—Each Gets Moose

A. C. Amesbury, W. Charles Haney, Thomas S. Evans and Heiter DeWitt of Danville, Pa., arrived in the city from the moose woods of York county on Saturday train and proceeded homeward by the American boat route in the evening. These Pennsylvania boys, who have been in New Brunswick before, staking big game, are very enthusiastic about this country as a hunting ground. And they have good reason to be, it would seem, for while under the guidance of Guide Bonner and the Nason brothers, as well as Oscar Phillips, each one of the four men got his moose at the rate of a moose a day. Each animal was a bull with a splendid spread of horns and all the other desirable game markings. If they had left their order in advance for a quartette of forest kings they could not have been better pleased or more quickly served.

**As Hiram Sees It**

THE SETTLEMENT: While me an' the town feller was talkin' about 'Soulages an' Fort Jim-sag we seen some canoes with a lot of Injuns aboard crossin' the patch 'o' moonlight on Long Reach. They seemed to be yellin' an' wavin' their arms an' bein' a wild time.

"Them," says the town feller, "is the ghosts of a party of Injuns goin' home."

"That was about two hundred an' forty year ago. After Gov'nor Soulages died, a feller named la Valliere got the job for six or seven years an' robbed an' cheated the Injuns right an' left. A feller named Perrot was appointed to take his place in 1685—an' he was still worse. He sold brandy by the pint an' half pint to the Injuns—right in his own house—an' him the gov'nor. Things went all to the bad in his time—an' the wasn't much difference between the Frenchmen an' the Injuns. At last the was only five or six families left on the Saint John. Them was the ghosts of drunken Injuns we just seen in the moonlight of the river."

"Well," says I, "booleggin' got an' arly start on Long Reach—an' they say it aint all done yet."

**COUNCILLORS DO NOT MEAN TO RESIGN POSTS**

**Representatives in Lancaster Asked About Decision of Ratepayers' Meeting**

"No, I am not going to resign! Why should I pay any attention to a movement started by persons who have no vote in parish affairs just now, and why should I pay any attention to a letter signed by a man whose name is not on the voters' list, or should not be?" This was the reply of Councillor William McAvour this morning to a query as to whether he would resign in compliance with a resolution passed at a public meeting of the ratepayers of Lancaster, held Saturday evening in the Beaufield school.

The councillor said that it was his intention to have a check made of the names signed to the petition presented to the Municipal Council asking for an audit, so as to find out how many of them had their taxes paid and were eligible to vote at an election for councillors. He said that under the amendment secured at the last session of the legislature, any person who owed one cent of tax on September 1 in any year could not have his name on the voters' list for that year and could not vote until September 1 in the following year.

**LEAVES IT TO BALLOT**

"Under this legislation," said the councillor, the name of Harold P. Crouse, which was signed to the letter addressed to me, has no right on the voters' list, and why should I recognize any man who is not a voter? The voters of the parish elected me to serve them to the best of my ability, and so long as I am a member of the council that will be my aim until they are not satisfied they can get rid of me the same way they elected me—by their votes.

The legislation adopted last year provides that in the Parishes of Lancaster and Simonds the list of voters shall be made up each year September 1 by the assessors and shall contain the names of all persons whose taxes are paid in full up to that date, but does not say how the assessors shall ascertain who have paid their taxes and who have not.

**COUNCILLOR GOLDING**

Councillor William Golding, whose resignation was also asked for in the resolution adopted by the meeting, said this morning that he had nothing to say at present further than it was not his intention to resign at present.

**PREMIER DECLARES REPORT IS UNTRUE**

Nothing to Rumored Change in Position of Chief Inspector Under Prohibition

That there was nothing to a report about town over the week-end to the effect that W. S. McFarlane, chief inspector under the Prohibition Act, was slated for dismissal was the reply by Premier John B. M. Baxter this morning when questioned on the matter. The rumor coupled with the alleged dismissal report that A. J. Doucet, ex-M. P. for Kent county, would be appointed in Mr. McFarlane's place.

Respecting the telegram he sent to Rev. A. M. Angus, former liquor inspector in the Sackville district who made certain allegations with respect to prohibition there, the Premier said he had not had any reply yet in his telegram inviting Rev. Mr. Angus to return and lay his charges before a properly-constituted board of investigation.
