OPPOSITION TO PRESS FOR CENSURE VOTE

COMMONS WILL TALK CUSTOMS PROBE REPORT

Question of Ministerial Responsibility Up Next Week

STEVENS' MOTION

Amendment Calls for Rebuke for Actions of Hon. G. H. Bovin

OTTAWA, June 19.—When the report of the customs probe committee comes up in the House early next week, the House will be asked to pass upon the question of ministerial responsibility for some of the irregularities revealed. Conservative members of the committee last night made it plain that they intend to press the vote of censure which was voted down in the private meeting of the committee last night by a majority of one.

INFLUENCE ALLEGED

"The evidence further discloses that ministerial action has been influenced by the pressure of political associates and friends of the minister or acting minister administering the department, resulting in disregard of the law, in suspension and in some instances abandonment of prosecutions against those charged with violation of the statutes and in loss of revenue to the country. Moreover, successful appeals have been made to the minister and acting minister administering the department to improperly interfere with the course of justice between the conviction of offenders and the execution of judgment thereon. The action of the Hon. George H. Bovin, the present Minister of Customs and Excise, in these instances, merits the censure of the House.

LOST IN COMMITTEE

This motion is similar to one moved at the private committee meeting but defeated by a majority of one. Another amendment on the question of ministerial responsibility was made, but was also lost. This amendment, it is understood, was objected to by certain members of the committee on the ground that it did not contain, in their opinion, a proper censure of ministerial interference in certain instances, and the condemnation in respect to liquor matters.

TO HALT DISCUSSION ON DISARMAMENT

Experts Will Await Economic and Financial Study of Problems

GENEVA, June 19.—The military, naval and air experts studying the technical preparation of the proposed international disarmament conference decided last night to adjourn their discussions about July 1, for three weeks to permit the mixed commission to examine the economic and financial aspects of the disarmament question. Many problems have still to be examined by the experts, but the recess will be taken as soon as they reach an agreement on the question of whether it is practicable to limit the ultimate war strength of a country instead of continuing limitation to peace strength.

Hagen Takes Lead in Pro. Golf Match

WEYBRIDGE, Eng., June 19.—Staging one of the fighting rallies for which he is famous, Walter Hagen, American pro, today overcame Abe Fitzhugh, lead of four holes, paired yesterday, in their match for unofficial match play honors and \$200 a side. Hagen was one hole in the lead at the end of this morning's 18 holes. This afternoon's play will decide the match.

Five Lose Lives Near Gaspe In Stream-Driving Mishap; Sixth Man In Boat Saves Self

CAMPBELLTON, June 19.—Word was received from Gaspe yesterday of a particularly sad drowning accident which occurred on the Dartmouth river there, in which five men lost their lives, while engaged in log-driving for the Shepard and Morse Lumber Company.

The tragedy occurred on June 3rd, but it appears that some time elapsed before details of the sad event were available at Gaspe village. According to information received, six men in a bateau were endeavoring to land on a centre jam when the accident occurred, and their craft was upset by coming into contact with a sunken log. Three of them clung to the overturned boat for some time, but were unable to save themselves. The sole survivor of the tragedy managed to make shore about a mile further down stream. The men all leave families residing at Little Gaspe, Gaspe county. So far only three of the five bodies have been recovered.

GERMANY AGOG OVER VOTE ON ROYAL PROPERTY

BERLIN, June 19.—Not since the revolution has Germany been stirred so deeply and universally as by the campaign over the question as to what shall be the disposition of the property of a monarchy. A plebiscite tomorrow will attract to the polls throughout the country, voters who have not voted since the election of the present Minister of Customs and Excise, in these instances, merits the censure of the House.

People of Country Vote Tomorrow on Question of Confiscation

Dr. Stresemann, the Foreign Secretary, describes as ridiculous, a charge that the plebiscite of Sunday is really tantamount to a vote for a republic or a monarchy. He predicts that sixteen or seventeen million votes will be cast against the former ruler and declares this will hardly be a sign of monarchist sentiment.

N. S. ATTORNEY TO PROBE GIRL'S DEATH

Asks B. C. Authorities For Particulars Miss Chisholm's Fatality

HALIFAX, N. S., June 19.—Hon. J. C. Douglas, attorney-general for Nova Scotia, announced last night, that he had requested the authorities of British Columbia to send him full particulars of the death last month at Port Essington, B. C., of Loretta Chisholm, Guyboro County, N. S. girl.

HOUSE VOTES SUM FOR T. B. RESEARCH

Appropriation For National Council Increased by \$15,000 For That Reason

OTTAWA, Ont., June 19.—Hon. J. A. Robb, Minister of Finance, announced last night when a vote of \$180,000 for the national research council was being considered, that the council was undertaking work in the field of tuberculosis together with the Federal Department of Health. For this purpose the amount of the vote was increased by \$150,000. Mr. Robb also stated that an insurance company had given \$100,000 a year. In the general discussion that took place on the vote members of both sides of the House spoke favorably on the work of the council.

NEW YORK, June 19.—Louis Sherry, famous restaurateur, who died June 8, left the bulk of an estate valued at more than \$1,000,000, to the Presbyterian Hospital as residuary legate.

UNION CHURCH COUNCIL MEET NEARING END

Sessions Are Expected to Come to Close Today

TALK BOOK NAME

Title of Rules and Regulations Cause of Considerable Debate

MONTREAL, June 19.—The general council of the United Church will likely complete its sessions at noon today, after sitting since June 10. That was the intention expressed when adjournment was taken last night. Last evening discussion broke out at an unexpected point and occupied a large part of the session, when an apparently eager desire not to do anything which might have the tinge of former denominationalism found expression in debate as to a name suitable for the rules and regulations of the church.

AMENDMENT APPROVED

His suggestion was presented in the form of an amendment to an amendment, and the council forgot its habit of giving these short shrift and concurred by an overwhelming show of hands.

FALSE REPORT SENT OF FLIER'S SAFETY

Hoax is Perpetrated on Wireless Station at Rio Janeiro

BUENOS AIRES, June 19.—A despatch to La Nación from Rio Janeiro tells of a hoax perpetrated on the wireless station there last night, in which a report had been broadcast by some station near Salvador Duggan, had been found at Salinas, near Para, Brazil. The director of telegraphs later announced that the report could not be confirmed.

Father Tells Regarding Proposed Move of Family to U. S.

SYDNEY MINES, N. S., June 19.—John W. Miles, father of "Johnny" Miles of marathon fame, gave out a statement yesterday regarding the reported removal of the Miles family to the United States. After referring to the family's twenty-year residence in Nova Scotia, he said that he had been practising his profession in Toronto for 10 years. It was charged that he had been acting as medical inspector for insurance companies, which violated Mexican laws. It is asserted that the revocation of the order was due to Dr. Cole explaining that he was ignorant of the companies having violated the law.

WEALTHY BUFFALO MERCHANT IS SLAIN

Body Found in Furnace Ash Pit Three Days After Disappearance

BUFFALO, N. Y., June 19.—A gruesome murder case to light here yesterday when a watchman found the body of Jacob Henderson, wealthy retired merchant in the ash pit of a furnace in the cellar of a vacant building at Swan and Centre streets. The victim was believed by the police to have been kidnapped, robbed and murdered by human ghouls, who were frightened away before they carried out their plan to destroy the evidence of their crime. Henderson disappeared last Tuesday after visiting the Liberty Bank where he made a deposit. Whatever money he had on his person, had been removed and a diamond ring worth \$1,000 was also taken by the slayers who evidently thought their victim had drawn money from the bank instead of depositing a large sum.

WOMAN IS SUICIDE

Hangs Self After Leaving Note For Husband—Ill Two Years

ST. THOMAS, Ont., June 19.—After leaving a note to her husband saying that "things are in a muddle," Mrs. George Steer, 40 years old, wife of a prominent citizen of the village of Vienna, yesterday hanged herself. She wrote in the note that she did not wish to commit suicide, but declared that she could see no other way out. Mrs. Steer had been in falling health for two years.

Million Catholics to Receive Communion Tomorrow

STADIUM BUILT

Soldiers' Field, on Lake Front, Has Seating Capacity of 145,000

CHICAGO, Ill., June 19.—Officials of the 28th Eucharistic Congress, which officially opens here tomorrow, today were looking forward to the influx of the masses of the pilgrims that have been heralded as coming from the ends of the earth.

VAST STADIUM

Included in the sights on the lake front, is Soldier's Field, a vast stadium with a seating capacity of 145,000, arranged for 145,000 people. On either side stretching aloft are lines of stately classic stone pillars such as would grace the architectural splendors of Ancient Rome. Facing the stadium is the magnificent outdoor altar, the altar of St. Paul's outside the walls in Rome. Between the stadium altar and the stadium pillars are immense open spaces affording full view standing room for spectators to the number of more than 100,000.

1,000,000 COMMUNIONS

Indications point to a likely fulfillment of the promise of Cardinal Mundelein to Pope Pius XI—one million communions—that is one million individual personal receptions of the Eucharist will take place in the 367 churches of the archdiocese of Chicago on the opening day of the congress.

SAINT JOHN N
FLAMES 49 YEARS
AGO ON SUNDAY

Tomorrow Anniversary of
Great Fire—Two-Fifths
of City Burned

Tomorrow will be the 49th anniversary of the great fire which destroyed so large a part of the City of Saint John and rendered 13,000 people homeless. In this catastrophe about 200 acres of the city was burned over and its course covered more than 91-2 miles of streets.

It started in Joseph Fairweather's building, York Point, at 2:30 on the afternoon of Wednesday, June 20, 1877, and its career was not ended until at least two-fifths of the city had been laid waste by the devouring monster.

Eight lives lost. Eight people lost their lives and a large number were more or less seriously injured during the progress of the flames and numberless others had hairbreadth escapes from death or serious injury.

Saint John has been visited on several occasions by big fires but this dwarfed them all. The first conflagration on record was in 1784. The next was in 1823. In 1837 the community was staggered by the loss occasioned and this was the biggest blaze the city has experienced, with the exception of that of 1877. The last big conflagration was in 1900 when a large part of Indiantown was destroyed.

BURNED 1,612 BUILDINGS. In the "Big Fire" 1,612 buildings were destroyed, 2,700 families turned out and 13,000 persons rendered homeless. The loss was conservatively estimated at \$27,000,000 and the insurance carried was about \$1,000,000, leaving a net loss of \$26,000,000.

The late Edward Lantaulm, M.P.P., rang in the alarm for the great 1877 fire.

ELECTRICAL STORM
CAUSES DAMAGE IN
FREDERICTON AREA

Violent Display of the Elements is the First of Summer

FREDERICTON, June 18—The first violent electrical storm of the summer occurred this evening. Heavy thunder accompanied by a downpour of rain which lasted for an all-day rain. The Gibson cotton mill at Maryville was struck during the storm and a small fire was started in the mill-rooms. Two moles were destroyed but engines returned to the mill and stopped. Barker's Point was put out of commission by lightning and repairs had to be made.

RESIDENCE RAZED IN YARMOUTH CO. Home of Smith Nickerson at Forest Glen Lost by Fire

YARMOUTH, June 18—Forest Glen, a village about 25 miles from this town, sustained a bad loss by fire yesterday afternoon when the residence of Smith Nickerson was totally destroyed. The building originally was thought to be a defective fire and when discovered the flames practically had control of the upper portion of the dwelling. The fire was caused by a gas leak in the boiler room. Mr. Nickerson, with the help of a few neighbors, succeeded in saving a portion of the effects on the lower floor. He carried only a very small insurance.

Presbyterians Will Build New Church at Campbellton

CAMPBELLTON, June 17—Construction work on the new Presbyterian church here will, it is expected, be started before the end of the present month. At a recent congregational meeting plans and specifications for the proposed building were discussed at some length and the congregation finally decided in favor of a brick building in preference to a structure of tile or wood. At this meeting also the building committee was authorized to take the necessary steps to enable them to proceed with the erection of the building as speedily as possible.

LONDON, June 18—The coal stoppage which still shows no signs of ending, is costing Great Britain \$3,000,000 a day, according to P. J. Hannon, a big financier and secretary of the Conservative group of industrial magnates in the House of Commons.

Emergency Session Talked of to Stop Further Loss of Prestige

GENEVA, June 19—Following the resignation of Brazil from the League of Nations, have come threats of two other league members to resign and demand from a third which many consider a similar threat.

Statements from Spain and Poland that they will quit the League unless granted permanent council seats and the demand from China that she receive a similar place have caused league leaders to indicate that an emergency session of the council may be called late in August to consider measures for preventing further losses of prestige.

Brazil's announcement of resignation is felt now to have aggravated rather than simplified the council crisis in that it has opened the way for other nations to take similar action. Foreign Minister Yang Guo, of Spain, has declared that his country will not be represented at the September meeting of the assembly unless assured in advance that both the council and the assembly will give unanimous approval to Spain's claim for a permanent council seat.

POLAND RESUMES BATTLE. Poland again has taken up the battle over a permanent place. Members of the League from China advised unofficially that the Polish Government favors resignation from the League unless its claim at Geneva is acted upon favorably. In the meantime China, as the representative of the Asiatic continent, has announced definitely that she will accept a non-permanent seat only on the condition that Germany alone receives a permanent place in the new appointment, otherwise China will demand a permanent seat, too.

Mrs. Amelia Crosby. YARMOUTH, June 18—The death of Mrs. Amelia Crosby, formerly of Yarmouth, took place in the Union Hospital, Lynn, Mass., Wednesday. She was 70 years of age and her passing followed an illness of many months. Mrs. Crosby is survived by one sister, Mrs. Isaac Killam, Yarmouth, and three brothers, C. Henry Whitman, Yarmouth; James P. Whitman, Melborne, and Thomas W. Whitman, of Salem, Mass.

WATER DEPARTMENT. Repairs to the 24 inch main at Silver Falls will be completed this afternoon. It was said this morning at the office of the water and sewerage department. The first of week 12 men will be laid off and this will make 22 laid off in the last few days for lack of work in the department. Commissioner Wigmore said. The usual summer payroll has 800 names on it but at present only about 100 are employed, the commissioner said.

STORM HEAVY. No damage was done in the city last evening by a severe electrical storm which raged for a time, but including that of St. Stephen and Boston were put out of commission for a short period. Telephone service in West Saint John and to St. George was interfered with for a short time and lights were also affected in some localities. There was a very heavy rain. The C. P. steamship Empress caught part of the storm on her trip to Saint John but came through fine.

SAINT JOHN CLAIM READILY MADE GOOD

Trout Fishing Half Hour Drive Away Demonstrated For Boston Official

Correctness of the assertion that the visitor to Saint John who wants a short fishing trip can be readily accommodated was given practical demonstration the other day. Arthur J. Clark of Boston was a caller at the office of the Tourist Association and it was mentioned to him that within half an hour's drive of the tourist office he could have good trout fishing and scenic beauty unsurpassed. He was a bit doubtful but promised, on return from Halifax, to give the matter a test and take along a motion picture camera.

CLAIM MADE GOOD. Two days later he did so. He was taken to G. Simbal's camp at Loch Lomond. Various pictures were taken, including that of the graceful fly-casting at which Mr. Simbal is so well known to be expert. Then came a strike by a beautiful land-locked salmon, some minutes of skillful playing by the angler and then the landing of the fish in the boat. The picture series was completed with one of the captor and captured on the return to shore.

Mr. Clark is secretary of the Massachusetts Fish and Game Protective Association and he plans to use the Saint John pictures in lectures that he gives. He was well pleased with the successful demonstration of Saint John's claim.

Trade Commissioner To The Argentine Claims Producers Should Show More Interest

Hints That Dominion Exports to Southern Country Could Be Doubled—Major McColl to Address Rotary Club Here on Monday

"IF CANADIAN manufacturers and other producers would cringe greater interest in the market of South America and thoroughly embrace the marvelous opportunities awaiting them there, the \$27,500,000 last year, received by this Dominion from South America for Canadian exports to that country, would be doubled within one year," declared Major E. L. McColl, Canadian Trade Commissioner to the Argentine, who arrived in the city last night from Halifax, where he began a four months' tour of the Dominion for the purpose of arousing greater interest in Canadian trade with South America.

Arrangements were made last night by the Rotary Club to have Major McColl address them at a luncheon to be held at the Admiral Beatty Hotel Monday, at 1 o'clock. The Rotarians have extended a general invitation to the Saint John Export Club and the Board of Trade to be present at Monday's luncheon. Members of the latter body are advised to notify the secretary before 11 o'clock Monday morning in order that they may be accommodated. Major McColl will illustrate his remarks with lantern slides of South American countries.

DOUBLED IN YEAR, HE SAYS. "Of the \$1,700,000,000 spent annually by South America for foreign products, but \$27,500,000 comes to Canada. With enterprise this amount could be doubled in a year. South American countries are all young and are yet to be developed. Generally speaking they are still in the pastoral or agricultural stage, although Brazil and Argentina are manufacturing countries."

"Canadian producers have devoted their attention to European countries where intensive manufacturing has been in force for centuries. It is not desirable that they should pay less attention to Europe, but they should make strong endeavors for greater trade with South America," said Major McColl. "The greater part of South America is south of the equator, and the seasons there are the reverse of those here. When it is winter here and building trades are at a standstill, it is summer in South America and building activity is at its height. These Latin American countries have stable governments and are making great strides in the development of their agricultural and mineral resources. They are daily adding to their railway mileage. Their foreign trade is continually increasing and is creating a buying power which is fully appreciated by Great Britain, the United States and other countries, but which our producers appear, unfortunately, to neglect."

THOROUGHLY MODERN. "The faith foreign countries have in South America is evidenced in the amount of foreign capital invested there. All South American countries are thoroughly modern and abreast of the times in music, art, education, science and architecture. The agricultural departments are fully alive to the value of seed selection and the raising of pedigreed stock. Experts are being engaged to take charge of the different

departments along these lines. A Canadian tobacco growing expert has been engaged by the Argentine department of agriculture to supervise the tobacco industry of that country. This serves as an example of what is being done in all branches of agricultural work.

Canada has some 5,000 firms who export their products. But 60 to 65 of these firms send goods to the Argentine. During 1925, goods to the value of \$12,940,000 were exported by Canada to the Argentine. Agricultural machinery, rubber goods, automobiles, paper, tools, structural steel, chemicals, auto accessories, lumber, railway supplies, cement made up this amount of imports by the Argentine. This could be doubled easily within a year," is Mr. McColl's opinion.

While in the city, Major McColl is at the Admiral Beatty.

MRS. GALLOP FIRM IN MURDER DENIAL

Ends Testimony After 17 Hours on Stand; Verdict Tonight Likely

ROBERVAL, June 18—Emily Sprague, charged before Mr. Justice Gibson here with the murder of her husband, Abraham Gallop, on Aug. 6, 1925, at Ile Maligne, concluded testimony in her own defense this afternoon after having been 17 hours on the witness stand altogether. The case began last Friday. She was closely examined by the court on her testimony and adhered firmly to her evidence that she had not poisoned Gallop. She had not, she asserted, told Walter Simpson, that she had committed the deed, nor had she told Detective Roussin that Gallop had been drunk for two weeks before his death. Other witnesses were heard today, among them a carter named Roux, who testified that he had interpreted for Mrs. Gallop when the latter was making the purchase of a wedding ring. This was corroborated by the jeweler who sold her that article. She said she had bought the ring for a friend. Addresses of counsel are expected some time tomorrow afternoon with a verdict Saturday night.

SAINT JOHN, N. B., JUNE 19, 1926.

A CENTRAL CLEARING HOUSE

The account of a conference to talk over the problems of relief work in Saint John should be read with care. The atmosphere has been cleared and many popular misconceptions removed. To start with, the functions of the Red Cross in peace time were clearly defined by Dr. J. L. Biggar, Chief Commissioner of the Canadian Red Cross. He explained that the Red Cross was primarily a society to help official and unofficial organizations, and even then the Red Cross does not undertake to do the work of the societies it assists.

On taking the chair at the round-table discussion, Mayor White stressed the need for organization and co-operation. His particular recommendation was that of a clearing house for all charity and relief work in the city. This is a point that has been generally agreed to for a long time. W. Shivers Fisher, President of the Associated Charities, called attention to the body he represented. The Associated Charities has not been asked to notice it merits. It is already in effect a clearing house for charitable and relief work and undoubtedly it should be more generally utilized by the various institutions in Saint John concerned with these activities.

Fred T. Miller, Manager of the Seaman's Institute, pointed out how expensive present relief methods are and, while advocating the central clearing house, he would go a great deal further and organize an office with medical attendant, police supervision, distribution department and emergency canteen. Further, he stated that in his opinion relief work in the city would not be successfully handled except by a paid staff.

The heads of relief and charitable societies who were present were all in general agreement with the idea and since their activities cover all religions and the various associations for this class of work, it is to be hoped that something will be done soon to mitigate the nuisance of house to house begging and continuous calls on the individual's charitable budget for small amounts. If a man knows that he can send certain sums for charities and donate those sums to one central charity which will be used to the best advantage, he can then rest assured that he will not be called upon the following week to make further contribution to some unforeseen demand. The establishment of a central charity should go far to abolishing tag days which, in the opinion of many, are becoming something of a nuisance.

They need no voice at all.

DINNER STORIES

A WAITER at a western hotel said to one of the guests at the dinner table: "What kind of pie do you wish? We have peach, apple, pumpkin and lemon."
The guest replied: "Give me peach, apple and pumpkin, in learned terms, and with a shrug of his shoulders and an appropriate gesture, said: "What's the matter with the lemon?"

An Englishman sitting at an adjoining table, who overheard the conversation, now said to his neighbor, "I beg your pardon, but what WAS the matter with the lemon?"

THE immigration official was examining an Englishman on his arrival in New York.
"And what do you propose to do now that you're in the United States?" he inquired.

"Oh, I don't care," replied the Englishman hopefully. "I'm going to do anything to earn an honest living."
"Well, come along in, then," invited the official. "I guess there ain't much competition in your line of business."

IT was her very first voyage and she was very nervous. Moreover, she had made herself trying to the officers because of her many questions. It fell to the lot of one of the stewards to silence her finally.

"Doesn't this ship slip a good deal?" she remarked timidly to that official.
"The vessel, madam," he replied suavely, "is merely trying to set a good example to the passengers."

He used to sing over and over again, this poem of Dekker's, and many of Shelley's and most of Shakespeare's Sonnets. The caddy could not take away from him the beauty concealed in his mind.

Queer Quirks of Nature

"OLD 'POSSUM" IS A SOPHISTICATED FELLOW.

OPPOSUM.

OUR common opossum, dear to the heart of the old-time plantation negro, and still, perhaps, known to some of the less sophisticated of his descendants, still remains a mystery to many people.

It is perhaps not uncommon that the opossums differ from all the others so different from the egg-laying habit of its reptilian ancestors. The mother is provided with a pouch in which the mammary glands are situated.

When the tiny young, no larger than peas, are first brought forth, she places them in this pouch, and each one performs the first voluntary act of his life.

He sucks deep into his throat the soft, flexible nipple, and then remains tightly attached for several weeks, taking milk at will.

He is so helpless and undeveloped that, it is small wonder that the superstitious and ignorant should imagine that the little creatures came into being there—as they say, like the buds on a tree.

It is scarcely necessary to say, however, that the breeding habits of the opossums differ in no essential manner from the normal process among mammals, though the period of gestation is shorter than in any other of its size.

This enables the mother to produce several litters a season, the young being weaned in a few weeks and taken from the pouch to make room for the next family.

Then for several weeks longer they are carried abroad by the old one, clinging to the shaggy fur of her back with their hand-like feet and prehensile tails.

The Very Idea!

"HERE COMES DAD!"
WHO'S that comin' down the street?
I'm the one she's gonna meet.
Gosh, amighty, is she sweet? Sure she is—my daily treat!
Surely, things would seem quite wrong, if I didn't hear her sing. Sing a song of, "Here comes dad." That's the song she's always had.
Always up to same old tricks, when the hour is nearin' six. Wonder why she thinks it's fun, just to meet me on the run?
Every day, when work is through, I do what all fathers do. He for home. The story's told—so's to meet my three-year-old.
Nothin' like a tiny mite. Cheerful—makin' things look bright. Gee, you don't know what you miss, if you've never lived like this—
Work may make you all tired out. Still that feelin' swings about, when a child struts down the street—an' you're the one she's gonna meet.

When a motorist is pinched for speeding he's usually in a fine fix.
The fellow who waits long enough before putting up his screens, can use them to keep the flies in—not out.

He worried 'bout his rented suit, And thought it much too tight. And then, when he leaned over he found out that he was right.

You can't blame kids for wondering why they have to go to bed when they're not sleepy, and get up when they are.

People who never know what to do with their week end can at least put a hat on it.

"Southern exposure" must mean the way the girls dress at Palm Beach and points in that vicinity.

RELIEF PROBLEM IN SAINT JOHN IS DISCUSSED

Heads of Charitable Organizations Point Out Need for Co-operation

COMMUNITY CHEST IS ONE SUGGESTION

Dr. J. L. Biggar Outlines Function of Red Cross in Work

The best method of dealing with relief work in Saint John was very fully discussed yesterday afternoon at a conference in the Admiral Beatty Hotel.

Mrs. I. F. Longley, president of the local Red Cross, presided, but for the round table conference His Worship Mayor Dr. W. W. White presided.

Mrs. Longley welcomed the guests and introduced Dr. Biggar, who gave an impressive address on the work of the Red Cross Society.

Mayor White stressed the need for organization and co-operation in relief work. He spoke of his own experience as medical officer for the military district since 1917.

Mrs. Heber Vroom, regent of the Municipal Chapter, I. O. D. E., said all the relief work of that organization was done among soldiers' dependents.

Mrs. T. N. Vincent, president of the Saint John Women's Institutes, said she did not believe it a disadvantage to have the Associated Charities office in private homes.

W. S. FISHER SPEAKS. Mr. Shives Fisher, as the president of the Associated Charities, said that body was organized to do exactly the work that had been outlined.

LOCAL SCOUTS IN CONFERENCE WITH VISITOR

Imperial Official in "Pow-wow" Last Night at the Y. M. C. A.

A real Scout "pow-wow" was held at the Y. M. C. A. last night when Sir Alfred Pickford, Bart, Imperial headquarters overseas commissioner, and commissioner of migration, met the members of the local Scout Association Council and the Scout and Cub masters and assistants at a conference.

Mrs. Vroom on behalf of all present expressed grateful thanks to the Red Cross Society for arranging the meeting.

Sir Alfred stands six feet, three and a half inches in height and both he and Mr. Stiles were wearing regulation scout uniform with shorts.

The increase in Boy Scout enrollment during the last three years, Sir Alfred said, had been 20 per cent. each year.

Matters talked of. Among the problems discussed in the conference were leadership training, Gilwell camp, financing, troop management and practically every phase of Scouting.

Greatest Problem. It was only in Russia, Sir Alfred said, that there were no Scouts or Guides and he had hopes that when times became more settled in Russia there would be Scouts and Guides there.

She Could Hardly Do Her Household Nerves Were So Bad

Mrs. I. M. Parks, Concession, Ont., writes—"I had heart and nerve trouble, and became so short of breath I could hardly do my daily household work, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me.

I saw recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Dorothy Dix

Dorothy Dix's Recipe for Attractiveness: "To Good Looks and Pretty Clothes Add Intelligence—Season With Humor, Sweeten With Amiability, Flavor With Pep of Modern Ways, Serve With a Sauce of Feminine Tenderness."

A YOUNG woman writes asking if I will give her a formula for attractiveness.

Why, my dear child, there is no regular cut-and-dried follow-this-recipe-and-you-cannot-fail rule for acquiring attractiveness.

DOROTHY DIX

as there is for making a sponge cake. Attractiveness doesn't even consist in possessing any specific qualities. It depends on a thousand intangible assets.

Nor is there any standard of attractiveness. It is purely a matter of taste, for the very attributes that draw some of us toward an individual repulse others.

SOME worship the tall, stately, goddess type of woman. Others prefer the pocket Venus. Some adore the roly-poly girl. Others will look at nothing but a living skeleton. The college high-brow and the beautiful but dumb, each have their following. There are those who are vamped by the vivacious and those who prefer the quiet girl with the Madonna look in her eyes.

So there you are, with every man having his own ideal of what he finds attractive in a woman. So what is a poor girl to do?

As I have said, there are no plans and specifications that always work for making a charmer, but if I were giving a recipe for attractiveness I should say:

Take all the good looks, natural and artificial, upon which you can lay your hands. Beauty is not absolutely necessary in a woman, for some of the most fascinating women who have ever lived have been as homely as mud fences, but it is undeniable that putridness is a great help. Especially in the beginning, for we all just naturally like to look upon a woman who is easy on the eyes.

FORTUNATELY, the great majority of people are not connoisseurs in beauty and do not demand the real, pure, bottled-in-bond and blown-in-the-glass brand. They are willing to take a woman at her face value, so to speak, and this enables girls who are not really pretty to pass off on the public a synthetic good looks that is compounded of cosmetics and the latest thing in bobs and gay and charming chiffons.

Having, then, secured an adequate supply of good looks by hook or by crook, if nature did not provide them for you, see that they are carefully cleaned.

DO NOT spare soap and water and pressing, for nothing is more attractive in a woman than for her to appear spic and span and as if she had just come out of a bandbox. On the contrary, nothing renders her more disgusting than to look untidy and untubbed, and as if she had only just been fished out of the ragbag or the garbage can.

Next, take a moderate amount of brains. Not too much, for most men are more afraid of an intellectual woman than they are of a warring lion, and even the members of her own sex are apt to find one of the feminine intelligentsia hard to endure because she patronizes them too much.

BUT, on the other hand, a certain amount of brains is absolutely necessary to attractiveness. They are the yeast in personality that makes it rise and keeps it from being flat and leaden. But they must be used judiciously in just the right proportion. The brand called "Common Sense" is the preferable one and gives the best results.

Put in a pinch of the salt of humor. Nothing is so flat and tasteless as a woman who never can see the point of a story and who has to have every joke diagrammed for her. A very little of her goes a long way with all of us.

ON THE contrary, we never weary of the bright, cheerful, good-natured woman whose laughs are hung on a hair trigger, who can find fun in any situation and who carries sunshine and good cheer with her wherever she goes.

Use plenty of the sugar of amiability. The beauty, the wit, the charm have their hour of charm for us, but it passes. The woman who is sweet and gentle and lovely and lovable has the lure that never ends. Time cannot wither nor custom stale her infinite attraction.

THE sweet girl always has plenty of friends. The sweet mother is adored by her children. No happier lure is a husband away from a sweet wife. Just sweetness is the biggest factor in any woman's attractions.

Next, throw in a bouquet made of the herbs of little accomplishments. Read the new books and the current papers and magazines, so that you may be an interesting companion who can talk intelligently, instead of a bore who can only prate about her own little personal affairs and with whom one has to work like a coal heaver to keep the conversational ball going.

LEARN how to play a good game of bridge and golf and tennis; how to swim and how to dance, so that you will be an asset to any group, and not one of the misfits who never work in anywhere, who are the despair of hostesses, a lemon at every party and who make every man who gets them wished off on him feet as if he were an early Christian martyr.

Finally, season these other attractions with pep to taste. Make it spicy, but not too hot. Be neither a pettee nor a prunes and prisms girl. Do not always be looking out for shocks, yet be not shockproof. Step out, but watch your step. No girl is more attractive than the girl who has a modern exterior but who keeps all the old-fashioned virtues of modesty and delicacy shined in her heart.

THERE are those who think that it is attractive for a woman to be hard-boiled—for her to be sophisticated and blue and self-centered and selfish. I think this is a mistake, and that the very essence of feminine attraction is for a woman to be tender and adaptable and sympathetic, and for her to be able to merge herself into those she loves until she is absolutely selfless.

So, then, here is my recipe for attractiveness: To good looks and pretty clothes add intelligence. Season with the salt of humor, sweeten with the sugar of amiability, flavor with a dash of the paprika of modern ways and serve in a sauce of tenderness.

Paris Continues To Sponsor Kasha For Gown, Wraps

By MME. LISBETH.
KASHA continues to play a prominent part in the creations put out by the great Paris couturiers. Both dresses and wraps are fashioned of this material and all the well liked colors of the season are seen, as well as the natural kasha.

An interesting Paul Poiret frock (left) interprets a combination of natural kasha and beige and black crepe de chine in unusual godet and jabot treatment. It is a one-piece model with high collar and long, elaborate sleeves.

A cape of old blue kasha (center) is lined with self-tone tussor. The cape has a hood which is fastened by two large buttons. It is worn over a printed frock with bandings of solid color, and is also a Paris design.

The third model (right) is composed of a new member of the kasha family. It is a new double-weave printed fabric called "Chelaine," which is fashioned into a smart coat with an inverted lapel in the centre of the back and a self-material belt across the back only.

Another interesting coat of natural kasha worn at the Belmont park race track displayed a trimming of plaid flannel applied to regular spacing. The plaid was in brilliant shades of orange, tan and black.

IN NEW YORK SEE-SAWING UP and down BROADWAY

SEE-SAWING up and down Broadway, I heard that Harry K. Thaw's latest romance concerns a pretty hat check girl in a Greenwich Village cafe.

Saw R. G. Bonchey, who writes pieces for Life, minus his mistress, Lillian Gish, back from Europe for her legal action against Mona Duell, attending a theatre premiere with none other than George Jean Nathan. Thus reviving the now one-year-old gossip that they may wed.

Saw a smartly dressed woman at the stage entrance of the Mansfield Theatre chatting with the doorman. And she was smoking a pipe. After a few moments she knocked out the ash. A few moments later she was joined by a male companion. But he smoked slender cigarettes.

Three "fat ladies" from a side-show learning to do the Charleston. Joyce Hawley, of Earl Carroll's late-lamented wine ball, now appearing at a side-show burlesque house. What price notoriety? "California Frank," from the "wild and woolly west" riding the great close spaces of Broadway in a taxicab. He lassoes show engagements for broncho busters.

Croquet sharks appearing on the central Park green. And among them two well-known Broadway critics. To say nothing of Noyes McNeil, who draws magazine covers and who prefers the "grand old game" to golf. Do they still play croquet outside New York? What-ever became of ping pong?

Fat-pierced Germans around their beer mugs in a "beer-chug" that has won sudden popularity not many blocks east of Broadway. Real beer. Long board tables and lots of limburger and lieder-kranz cheese.

And steaks smothered in onions. Limousines lined in front of it for two blocks. Try and get in during the noon hour! All Broadway seems to have discovered it. No questions asked! Wait through the swinging doors and order. At noon there are more girls than men. They come in parties of eight or less. And unescorted. Remember the back room for ladies. And how wicked we thought they were Broadway now closes at two in the morning. The order has nothing to do with daylight saving.

Last call for June brides! One of the most envied men I know is a bird who doesn't have to take his wife along on his vacation. The vehicle market is picking up as July approaches. And I intend to shoot the next box that asks me: "Well, what'll I drink for you when I get to Paris?"

GILBERT SWAN.

Is this your BIRTHDAY

JUNE 19—You are sensitive, retiring, sympathetic and loving. While you have strong convictions, you will yield to others rather than take a positive stand in your own behalf. You are very affectionate, although you have not many very great friends. You will not be happy if you go through life alone. Cultivate hope, and live out of doors a lot. Your birth-stone is a pearl, which means health and long life. Your flower is the honeysuckle. Your lucky colors are light blue and white.

JUNE 20—You have great ability, originality, and mechanical skill. You think deeply, are close-mouthed in regard to your own affairs, but always willing to lend a helping hand, and take a great deal of interest in affairs outside of your regular routine. You have many friends, and are a lover of home and kindred. Never listen to gossip and don't get too absorbed in money-making. Love is best. Your flower is the honeysuckle. Your lucky colors are light blue and white.

LITTLE JOE CONVINCE YOURSELF FIRST—THEN YOU CAN CONVINCE OTHERS

ADVENTURES of the TWINS

by OLIVE ROBERTS BARTON

THE QUEER CITY OF ANY PLACE AT ALL

Nancy and Nick did not remember leaving the toy car that rolled them down through Drowsy Land, but suddenly they were standing right on their feet in a big city. The pink ticket had rolled itself up with a snap and jumped back into Nick's pocket.

"What place is this, do you suppose?" said Nancy, looking around at the buildings, which were, if possible, queerer than those of Shut-Eye Town. The ticket stuck its head up out of Nick's pocket again and looked at them with its round pink eyes. "This is called 'Any Place At All,'" it said, and then went back to its pocket.

"Oh, ho! Any place At All!" cried Nick. "Then I suppose anything at all may happen to us, don't you think so, Nancy? I wonder what—"

I don't know exactly how he was going to finish his sentence, for suddenly a hand as large as a room whistled the Twins off their feet and before they could say "boo" (although it probably never entered their heads to say that) they found themselves looking into a pair of eyes as large as plates.

"Oho! What a funny pair of bugs!" said an enormous voice. "I never saw such funny bugs before. Look Mama! It's a giant boy!" shouted Nick to Nancy, for the giant boy had started to laugh and it sounded like thunder. "It's a giant boy who's got us. Let's jump!"

But when they looked down at the ground it seemed like a million miles for the giant boy was as tall as a now as flat as rain-drops. They were as large as wash-tubs, but as flat as fried eggs or wheat cakes. They felt very queer, but not at all uncomfortable. "Now who is going to scorp us up?" said Nick to Nancy.

I don't know what Mrs. Giant did for her big little boy. Most likely she put on soda or unguentine, but anyway our story isn't about him. We must follow the Twins.

The Twins kept falling and falling and falling down through a million miles of space, it seemed, and at last they landed softly on the ground. But wonders had not ceased. For both of them had melted on the way and were now as flat as rain-drops. They were as large as wash-tubs, but as flat as fried eggs or wheat cakes. They felt very queer, but not at all uncomfortable. "Now who is going to scorp us up?" said Nick to Nancy.

The Simple Way to Better Health

Freedom from constipation, skin and stomach troubles—abounding vitality again—with the aid of one fresh food

NOT a "dure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

Eat two or three cakes regularly every day

before meals: on crackers—in fruit juices, water or milk—or just plain, nibbled from the cake. For constipation especially, dissolve one cake in hot water (not scalding) before breakfast and at bedtime. Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days. All grocers have Fleischmann's Yeast. Start eating it today!

And let us send you a free copy of our latest booklet, "Yeast for Health." Health Research Dept., L-732, The Fleischmann Company, 408 Simcoe St., Toronto, Ont., Canada.

FLEISCHMANN'S YEAST IS MADE IN CANADA

"I WAS ON THE VERGE of a nervous breakdown. My face was all broken out and my mouth was sensitive to most everything I ate. The doctors told me my stomach was the same way. I gave Fleischmann's Yeast a trial. I ate Yeast every day for two months and at the end of that time my breaking out on my face disappeared, and my nerves were much improved. What has helped one can help others."

Mrs. Marie Gleason, Los Angeles, Calif.

"MY LITTLE GIRL, while not actually sick was not as robust as she should have been. She was tired and listless and her skin was sallow. My physician recommended Fleischmann's Yeast to be taken every day. I followed his advice. In a short time I noticed a remarkable improvement. Her energy returned. Now chubby, bright-eyed, rosy-cheeked—she is indeed the very picture of health."

Mrs. F. G. Hagan, Brooklyn, N. Y.

THIS FAMOUS FOOD tones up the entire system— aids digestion, clears the skin, banishes constipation.

What is the secret of this amazing taste? Just the right proportion of almond paste that flavours the caramel centre. In a square, flat jacket of "G.B." chocolate.

Husbands Keen On Electric Cooking. For the first time in history men have started studying the kitchen problems of their wives. Not the men, in some distant city, but right here in Saint John. Enquiry at our own Hydro reveals the fact that many a month registers more men than women taking a hand in looking over the Moffat Electric Ranges. They appeal to Mr. Husband because they lighten the load on household expense, costing but a tiny part what it takes to keep coal and gas stoves going. They can not wear out, save three hours of work every day—and last but not least, cook the loveliest meals with a controlled heat that never fails. The sight of cooking that looks like exhibits—done with perfect evenness and browning—has a lot to do with it. Our own Hydro reports that Husbands are the first to suggest throwing out the old money-eaters for those ever-sparkling Moffats. CENSURE OF EX-MINISTER AND MOVE TO DISMISS OFFICIALS STR OTTAWA

Recommendations for Suppressing Smuggling Likely to Receive General Approval When Debate Opens Next Week

CONSERVATIVES WILL ASSAIL BOIVIN

Action in Axis Case Forms Subject of Disagreement by Committees and is Left for Commons; Proceedings Against 27 Firms and Reorganization of Preventive Service Suggested

OTTAWA, June 18.—Tabling of the report from the committee which investigated the administration of the Department of Customs and Excise today is preliminary to what may prove one of the bitterest debates of the present session of Parliament.

A motion for the adoption of the report, it is expected, will be made in the House by Chairman Paul Mercier on Tuesday. There is a possibility that the debate may open on Monday, but this is not regarded as likely.

The report, with its numerous recommendations, is the chief topic of discussion in Parliamentary circles tonight, involving, as it does, censure of the former Minister of Customs, as well as the recommendation for the retirement and dismissal of a number of prominent officials of the Department of Customs, it has aroused widespread interest.

The recommendations for the suppression of smuggling follow, in certain respects, suggestions made to the committee by the Commercial Protective Association and that they will meet with general approval when the discussion takes place in the House is regarded as likely.

A Conservative amendment involving censure of Hon. G. H. Boivin, Minister of Customs, will, it is stated, be moved during the debate. The action taken by Mr. Boivin in connection with the Moses Axis case in New Brunswick was the subject of disagreement among the members of the committee while the report was under consideration. In order that the report should be unanimous, however, it was determined to leave this contentious matter to the House of Commons. It is expected that the amendment will be moved by Hon. H. H. Stevens, who made the original charges resulting in the appointment of the committee, who has been active throughout the sittings, or by Rt. Hon. Arthur Meighen, Conservative leader.

SECOND MOTION TALKED OF. The possibility of a second amendment to the report, moved by D. D. McKeown (Progressive, Peace River), the one Progressive member on the committee is also suggested. Just what form this amendment will take is not known.

The report of the committee, in addition to recommending the retirement or dismissal of customs officials, suggests the investigation of the conduct of others and the taking of proceedings against 27 firms which were the subject of inquiry by the committee. Reorganization of the preventive service and of the appraisal branch of the department of customs and excise is recommended, as well as reduction in the number of ports of entry in Canada.

FOUR PROTESTANT CHURCHES OF FAIRVILLE, N. B. WRITE COMMENDING THE HOME

To the Friends of the N. B. Protestant Orphans' Home:

The children of the N. B. Protestant Orphans' Home are being well trained in the things that make for best citizenship. Each Sunday morning they march to the Fairville churches and participate in the morning services. Their attention and reverence are frequently commended upon a Sunday afternoon at various a Sunday school, staffed by volunteer officers and teachers from the Fairville churches, at which all the children attend. A thoroughly Christian atmosphere pervades the Home, and foundations for Christian character are being well and truly laid.

C. T. CLARK, Pastor Fairville Baptist Church. The Rectory, Fairville, June 15, 1926. Mr. H. Usher Miller, Saint John, N. B. Dear Mr. Miller,—I truly hope that the efforts which are being made at present to arouse a keener interest on the part of the Protestant people of the province in the Protestant Orphans' Home will be crowned with success. The building of it was a wonderful achievement. It is not merely an orphanage, it is a "Home" where the homeless, fatherless or motherless children are brought up in a clean, comfortable, loving atmosphere. No efforts are spared to give them, as far as possible, the same advantages as other more fortunate children. And what is still more vital, everything is done to give them that essential asset—a thorough Christian training.

Sunday after Sunday, down the Manawagonish road, one can see the long procession of bright, happy children on their way to church. Formerly they used to go all together to the four churches in turn. Very wisely the authorities came to the conclusion last year that such a system would fail in one essential point, that of establishing their faith upon a definite foundation. For the past nine months they are divided into four groups, attending every Sunday their respective churches. I do love to see them come into the church. I have never come into contact with a more reverend, earnest group of children.

Since last fall some of our teachers have gone up to the Orphanage every Sunday afternoon, and in union with those of the other churches, have carried on a very successful Sunday school. It is expected that the report will be made in the House by Chairman Paul Mercier on Tuesday. There is a possibility that the debate may open on Monday, but this is not regarded as likely.

W. M. TOWNSEND, Presbyterian Minister. Fairville, N. B. To the President and Directors, New Brunswick Protestant Orphanage. As Members of the Official Board of the United Church of Canada, Fairville, we are very glad to publicly express what has come to our knowledge and been freely discussed among our people since the Orphanage was established in the Parish of Lancaster.

The department of the children when visiting the Village has been the subject of much favorable comment, their regular attendance at Church Services, their neat appearance and happy manner reflects great credit on the home-like discipline and environment of the Institution. The work being conducted, we believe, is efficient to a very marked degree, and as such is heartily endorsed by our Church as a whole.

FERRY KELLY (Recording Stewart) H. M. STOUT (Treasurer).

of others and the taking of proceedings against 27 firms which were the subject of inquiry by the committee. Reorganization of the preventive service and of the appraisal branch of the department of customs and excise is recommended, as well as reduction in the number of ports of entry in Canada.

That a special committee of this House, consisting of nine members, be appointed forthwith to investigate the administration of the Department of Customs, and Excise and alleged serious abuses to the public treasury, on account of inefficiency or corruption on the part of officers of the Department, and others, and that such investigation extend back over such period of time, as the committee may decide and have regard to all matters affecting the prevention of smuggling, the prosecution of offenders, the seizure, storage and disposal of smuggled goods, or goods seized for purposes of excise or other taxes, the appraisal of goods for revenue purposes, the collection of customs and excise duties, the knowledge of ministers or of officials of offences or irregularities affecting the public service in said department, the efficiency of the administration thereof, and the necessity of safeguarding the public revenue and the public treasury, and that such committee have power to send for persons, papers and documents, to adjourn from place to place, to print the evidence taken before the committee, and to report from time to time.

COMMITTEE NAMED. 2.—By a subsequent resolution the committee was constituted as follows: Mr. C. W. Bell, K. C., Hamilton West; Hon. R. B. Bennett, K. C.; D. Donahue; K. G. A. J. Doucett; J. C. Elliott; K. C. D. M. Kennedy; P. Mercier, K. C.; St. Henri; E. C. St. Pierre; Hon. H. H. Stevens. Mr. Paul Mercier was elected chairman. Mr. Elliott having been appointed a minister of the Crown, by resolution of the House of Commons, Mr. William T. Doddison was appointed to the vacancy so created, on March 15, 1926.

3.—By a subsequent resolution the committee was constituted as follows: Mr. C. W. Bell, K. C., Hamilton West; Hon. R. B. Bennett, K. C.; D. Donahue; K. G. A. J. Doucett; J. C. Elliott; K. C. D. M. Mr. Elliott having been appointed a minister of the Crown, by resolution of the House of Commons, Mr. William T. Doddison was appointed to the vacancy so created, on March 15, 1926.

4.—By a subsequent resolution the committee was constituted as follows: Mr. C. W. Bell, K. C., Hamilton West; Hon. R. B. Bennett, K. C.; D. Donahue; K. G. A. J. Doucett; J. C. Elliott; K. C. D. M. Mr. Elliott having been appointed a minister of the Crown, by resolution of the House of Commons, Mr. William T. Doddison was appointed to the vacancy so created, on March 15, 1926.

5.—Since 1897 the customs department has been under the control of a partnership of excise, which has been a separate department of the public service since the year 1898, was amalgamated with the customs department in 1920 and 1924 respectively, the amalgamated departments were charged with the collection of sales and income taxes. The administration of these amalgamated departments, is a serious task. The customs frontier between the United States and Canada, is a very long one, and the position and number of bridges and highways crossing the boundary together with the extended line of sea coast, render the suppression of smuggling difficult. The adoption by the United States of the eighteenth amendment has increased the difficulty, because it has made the incentive to illegally convey liquor to the United States, very

great, and with the mass production of many products in that country, there is a correspondingly great incentive to illegally import such products into Canada. In the year 1925, smuggling assumed such large proportions, that a number of business men made representations to the government, in consequence of which an act, chapter 88 of the statutes of 1925, was passed, making smuggling an indictable offence, where the goods were of the value of more than \$200 and the penalties incurred by such smuggling increased.

6.—The evidence submitted to the committee leads to the general conclusion that for a long time the department of customs and excise has been slowly degenerating in efficiency, and that the procedure has greatly accelerated in the last few years. Apparently the Hon. Jacques Bureau, then Minister of Customs, failed to appreciate and properly discharge the responsibilities of his office, and as a result there was a lack of efficient

continuous and vigorous control of subordinates by the headquarters staff at Ottawa.

7.—The procedure provided by the customs act in the matter of customs seizures is as follows: Upon making a seizure the collector or seizing officer forthwith reports the circumstances of the case to the commissioner of customs, (Section 174). Thereupon the commissioner notifies the owner or claimant of the thing seized, stating the reasons for the seizure, and calls upon such owner or claimant to furnish within 30 days, any evidence he may desire to submit in support of his claim. (Section 175).

After the expiration of 30 days or sooner, if evidence is forthcoming on the part of the owner or claimant, the commissioner may consider and weigh the circumstances of the case, and report his opinion and recommendation thereon to the minister. (Section 176).

PROCEDURE NOT FOLLOWED. The minister thereupon either gives his decision and states the terms upon which the things seized or detained may be released or the penalty or forfeiture remitted or refers the decision to the court. (Section 177). The committee finds that this procedure was not followed. Although, as a rule the facts are correctly recited in the summary submitted to the minister, the opinion is not infrequently

difficult to ascertain from the summary. (Section 178).

difficult to ascertain from the summary. (Section 178).

8.—The evidence submitted to the committee leads to the general conclusion that for a long time the department of customs and excise has been slowly degenerating in efficiency, and that the procedure has greatly accelerated in the last few years. Apparently the Hon. Jacques Bureau, then Minister of Customs, failed to appreciate and properly discharge the responsibilities of his office, and as a result there was a lack of efficient

continuous and vigorous control of subordinates by the headquarters staff at Ottawa.

PROCEDURE NOT FOLLOWED. The minister thereupon either gives his decision and states the terms upon which the things seized or detained may be released or the penalty or forfeiture remitted or refers the decision to the court. (Section 177). The committee finds that this procedure was not followed. Although, as a rule the facts are correctly recited in the summary submitted to the minister, the opinion is not infrequently

difficult to ascertain from the summary. (Section 178).

RED RASH ON FACE AND NECK. Formed Eruptions, Suffered Much at Night. Cuticura Heals. "I was troubled with a rash that broke out on my face and neck. It was very red, and the irritation caused me to scratch it in my sleep. After scratching, little, sore eruptions formed. I suffered much at night, and my sleep was broken. It looked hopeless until I began using Cuticura Soap and Ointment. After a few days the eruptions started to heal, and after using five cakes of Soap and five or six boxes of Ointment I was healed." New Brunswick Protestants--These Letters are Written To You

Officers of Home Appeal To Public

Dear Friends: This is a call to the Fathers and Mothers of New Brunswick. The New Brunswick Protestant Orphans' Home is very much in need of funds. It is a very old institution, and its upkeep is a heavy burden on the shoulders of the few who are left to support it. We are making this appeal to the men and women, boys and girls of our province urging them to send all the assistance they can—no matter how small—to help in this work of saving our Protestant little ones and giving them a chance to grow up and become good and useful citizens of our country, and an ornament and example for our Home and country no matter where they live. As one of them good readers, Thank you all in anticipation of your generous and hearty support. Yours very truly, JAS. W. BRITAIN, First Vice-President.

Dear People of New Brunswick: We do so need your thought, your money and your help in the care of our Orphan Children. We, the Directors, have done our best to carry on this work, and feel sure you in your comfortable homes, do not realize what it would mean to these little ones again to be cast adrift, should financial circumstances necessitate the closing of the Home, of which you, as well as we, have just cause to be proud. However, this anxiety faces us at the present moment unless you come to our assistance. It would indeed be a hard heart not touched by the pathetic letters of our children, which so often have read in the daily papers. Consider—Reconsider. Put your hands in your pockets and give them your help. Yours very truly, MABEL SYDNEY SMITH, Second Vice-President. Saint John, N. B., June 16, 1926.

TO THE PROTESTANT PEOPLE OF NEW BRUNSWICK. Ladies and Gentlemen: Our fiscal year, which closed on April 30, last, showed an average of 180 children in our care every day and a total cost for maintenance of \$55,000. We expect the total cost for maintenance to be a little more in this fiscal year because we will have a larger average number of children in our care every day. We expect the cost per child per day will be a few cents less. We estimate that we will want \$54,000 for maintenance, about twenty-five cents per Protestant of the population of this province. Surely not too much to expect. Not several centres of population other than Saint John do something of a community nature in 1926 for the maintenance of this splendid cause? Because even with the \$11,000 from the combined efforts of the Saint John Orphan Fair last fall we were behind \$8,400 in the last fiscal year, increasing our bank overdraft from \$16,000 to \$24,000. Since then we have increased our bank overdraft to \$27,000. Remember that the six per cent interest on this overdraft constitutes a maintenance cost. Unless this \$11,000 and the \$8,400 and the nearly \$11,000 extra needed are made up by increased general contributions and by community efforts we face an increase in our indebtedness of over \$20,000. That is a total maintenance indebtedness of \$45,000 on May 1st next against \$27,000 now. Does that not appeal to you as serious enough to do your utmost at once in the way of sending in your most generous possible contribution. Our income from all sources for this year, other than your generous contributions and from community ef-

KENNEDY TO QUIT SEAT IN COMMONS

Will Resign Over Peace River Dispute; Clashes With Meighen

OTTAWA, June 18.—D. M. Kennedy (Progressive, Peace River) made a statement in the House of Commons today on the question of privilege. He denied a rumor that he was to be given "The Children's Hundred" in order that his seat might be rendered vacant and he announced his intention of resigning from the House of Commons when he could legally do so and the legal proceedings were disposed of.

DEATH CERTIFICATE FOR LADY REFUSED

LOS ANGELES, Calif., June 18.—Coroner Nance today refused to issue a death certificate for Aimes Semple McPherson, Woodstock, Ont., evangelist, who disappeared while bathing May 18. Nance declared that he was not convinced that Mrs. McPherson was dead.

ANOTHER ELECTION NEARING IN FRANCE

Each Political Development Brings Dissolution of House Closer

PARIS, June 19.—Each new political development in France is bringing nearer a dissolution of the Chamber of Deputies and a call for new elections. Leading statesmen believe, following announcement of former Premier Herriot's call to head a new government, that the financial crisis would then be entrusted to a government unhampered by politics and the sole mandate of the new governing group would be to bring order out of what is becoming more and more a state of chaos.

YOU ARE WORRIED ABOUT HIS HEALTH

WHEN you are nervous, sleepless and out of sorts you know what to do. Experience has, perhaps, proven to you that under these circumstances you can depend on Dr. Chase's Nerve Food.

But your husband does not think that he is ill and hopes to be all right in a few days. Unfortunately nervous ills do not right themselves. Why not use the treatment which has already proven good in your case? There has yet to be discovered a medicine which so certainly restores exhausted nerves as Dr. Chase's Nerve Food. If you are nervous, irritable, tired and sleepless you can depend on it to overcome the cause of these symptoms. It is not like ordinary medicines because it benefits by the upbuilding, reconstructive method. Gradually and naturally it builds up new, rich blood and nourishes the depleted nerves back to health and vigor. For this reason Dr. Chase's Nerve Food is the most satisfactory treatment any man or woman can obtain to restore the nerves and bring back the vigor and energy which is essential to a full and happy life.

Overland Six. It has more inside space. More cubic feet than the average car of this price, due to its extra-long wheel base. The result is ample comfort for 5 full size passengers. The seats are wider, the windows larger, the doors much broader. All features you'll certainly appreciate when you inspect rival cars of this price. Two years were spent in designing the Overland Six. And twelve months were spent in proving it. We doubt if any car ever received more careful study from an engineering standpoint. Now over 100,000 owners give their endorsement to that fact. The Overland Six embodies the style, the smartness and the major advantages of 18 of the finest motor cars in Europe and America, plus many features developed by our own engineering experts. There is no Six built today that offers such quality at such a low price... no car made in which finer quality of material is used or better workmanship employed. The luxurious velour upholstery is but one indication of the exceptional quality which prevails throughout. In justice to yourself, see the Overland Six Coach, Sedan or Coupe. Reductions of \$45 to \$100. Excise tax reductions together with list price adjustments ranging from \$45 to \$100 on the Canadian-built Overland Six, are effective immediately. See your nearest Willys-Overland Dealer for details. Buy a Modern Car. The radical difference between the Overland Six and other cars built today is the new-type of engineering. The Overland Six is not a five year old chassis, with a modern body. Instead the whole car was engineered as a unit less than eighteen months ago. It is a modern car... designed for road speeds of from 50 to 60 miles an hour. That's why you can run the new-type Overland Six at high speed hour after hour without wear and tear on the motor. And why ordinary, braky, old-fashioned cars quickly go to ruin when pressed above 45. Today's modern car has a full, pressure-feed oiling system. That's why the Overland Six will run mile after mile at high speed, without the slightest friction. Each part operates smoothly in a bath of oil. The Overland Six will turn in a forty foot circle. Rear springs are under-slung and 52 inches long. 141 square inches of braking surface provide an ample safety margin. DYKEMAN OVERLAND SALES COMPANY. Rothsay Avenue, Saint John. CHANGE SUGGESTED.
In the opinion of the committee the procedure might be modified so as to provide that when the owner has his title to the satisfaction of the department the car should be forthwith released to him under bonds to re-export it, and upon payment of charges for storage, etc., such release to be made at a time and place of which notice should be given to the person in whose possession it was at time of seizure in order that he may take such legal proceedings as are competent to him to assert any claim thereto or lien thereupon.

FALSE SAILING PAPERS.

10—The committee finds that it is the common practice of the department to grant clearance to vessels laden wholly or in part with liquor for the United States or allegedly bound for a foreign port, but admittedly sailing to "rum row" and that false landing certificates have been produced to obtain cancellation of bonds given for foreign export of cargoes so cleared.

11—Subsection 4 of section 171 of the excise act provides that "no spirits subject to excise which have not been warehoused for at least two years, shall be entered for consumption."

12—The committee recommends that the following firms and companies should be proceeded against in the proper form to recover the same if any, now owing by them to the crown: John Gaunt Company, Dominion Distillery products and associated enterprises; B. B. Glove Company; Jas. A. Gilmore Company; Globe Suspenders Company; Perfecto Garment Company; Peerless Overall Company; It and G. Manufacturing Co.; Reliable Garment Co.; Standard Manufacturing Co.; W. M. Pike and Sons; Standard Manufacturing Company; Telford Bros. Garment Company; Telford and Chapman; Jenkins Overall Company; Limited; Rock Island Overall Company; Also Dress Company; O. B. RELEASE IS INJURIOUS

17—For the prevention of smuggling and of other frauds, a strong preventive force under a capable administrator, is necessary, and the committee therefore recommends:
1—That the preventive service be reorganized under a chief, possessed with the highest qualification for such office, clothed with wide powers of initiative, direction and control.

POWER OF ARREST

4—That preventive officers and persons authorized to act as customs and excise officers be given power to arrest without a warrant persons found committing any act declared by the customs and excise acts to be an indictable offence.

RETIREMENTS ASKED.

6—Marvin A. Sawyer, customs officer at Rock Island, and that in the interests of the public service arrangements should be made for the retirement of the following persons:
1—R. F. Farrow, deputy minister.

CONDUCT OF OFFICERS.

14—The committee recommends that the conduct of the officers at the port of Windsor, Ont., and other investigated ports should be further investigated and that the services of such of them as are found guilty of dereliction of duty, should be dispensed with.

REDUCTION IN PORTS.

16—The committee recommends that for reasons of sound economy and increased efficiency there should be a reduction made in the number of ports of entry in Canada.

COMMERCIAL SMUGGLING

23—The committee recommends that in cases of commercial smuggling of undervaluation, where the offenders are known, they should at once be arrested and brought to trial with the utmost promptness. The committee further recommends that the Department of Justice be requested to select at once capable and experienced counsel in important cases, and retain them to act for the Department of Customs and Excise in all future cases.

PRECIOUS METALS.

21—Where articles containing precious metals are seized and forfeited the committee recommends that they be not sold in the open market, as at present, but should be melted down and disposed of as bullion.

GRAVE SITUATION

The situation created by the location of Derby Line, Vermont, and Rock Island, Quebec, as brought to the attention of the committee, is of a grave nature, and we recommend that a bond be established in each factory in which bond goods imported from the United States shall be placed until released for manufacturing purposes, and that an officer be appointed to look after such bond at the owner's expense.

ONE DEAD IN \$150,000 FIRE AT MATAPEDIA

**Campbell Man, Aged 84,
Is Victim of Fatal
Blaze**

FIFTEEN FAMILIES RENDERED HOMELESS

**Buildings Destroyed Include
Three Churches, Hotel and
Post Office**

QUEBEC, June 18.—Edward Guidry, 84, of Campbellton, is dead, and damage, estimated around \$150,000, was received when fire practically wiped out the business section of the village of Matapedia, Que., about 300 miles from here, and 13 miles from Campbellton, N. B., on the New Brunswick border, today.

Fifteen families were rendered homeless and in addition to the Roman Catholic Church, two Protestant churches were destroyed. The Post Office, the Hotel Resigouche, and the stores of Ryan and Adam were burned to the ground.

K. Adam, son of mayor, was taken to the hospital, suffering from injuries received while fighting the fire.

Twenty other buildings also fell prey to the flames. Guidry lost his life when he re-entered his burning home to try and save some of his effects. The fire, fanned into fury by a gale which prevailed in this district this morning, broke out in a private dwelling about 11 o'clock and in less than an hour 23 buildings were reduced to charred ruins.

The residents turned out en masse at the outbreak of the flames and when their meagre fire protection equipment showed itself futile against such a serious blaze, help was summoned from Campbellton.

Chief A. E. O'Donnell, of the Campbellton brigade, ordered out the fire engine and called for volunteers. The company with equipment mounted on a flat car was rushed to the scene of the fire, a C. N. R. detachment under Chief E. J. Lavoie accompanying them. It was found impossible to get the engine to the river to ensure a plentiful supply of water, but with a hydrant available and 1,500 feet of hose the fire fighters did effective work. In the meantime other buildings were threatened, but were saved. By 12:30 the high wind had subsided and about 1 o'clock rain came on, making any fresh outbreaks less likely.

All that was left of the southern portion of the village is the Canadian National Railway station and the agent's residence.

Guidry, the victim of the fire, was an old resident of Campbellton who carried on a shoe-making business there for years. Recently he had been living with friends at Matapedia. His fire, but later disappeared. A search finally resulted in the discovery of his charred remains among the ruins of the building in which he had been living. Coroner Dr. L. E. German viewed the remains early this afternoon and gave permission for their removal, deeming an inquest unnecessary.

**Noted Anglophobe
Will Visit London**

LONDON, June 19.—In view of his anti-British diatribes, it is curious to know that the inspiring genius of the "Hearst Press," William Randolph Hearst, is due to arrive in London this month for a few months' holiday with his wife. They have taken a large house in Mayfair, where they are to entertain on an unusually lavish scale.

Mr. Hearst would have been here several weeks ago but for the strike on which his American newspapers expended themselves with much more than their usual energy. In London alone his staffs were kept working for 19 hours at a stretch.

**WOMAN SUES FOR
BURIAL ON OCEAN**

Royal Mail Steam Packet Co.
Defendant in Unusual
Proceedings

NEW YORK, June 19.—Because the body of her husband, Frederick Palmer Huff, was buried at sea instead of being brought to port, Mrs. Katherine D. Huff, of Brooklyn, in conjunction with five other relatives, has brought suit before Supreme Court Justice William C. Carew and a jury in Brooklyn to recover \$10,000 damages from the Royal Mail Steam Packet Company.

The suit brought up an unusual question of law, calling upon the court to pass judgment upon the age-old custom of consigning to the bottom of the sea those who die in vessels upon it. Matthew Wood and Abraham Lehmann, attorneys for Mrs. Huff and the relatives of Mr. Huff, argued that the steamship company should have anticipated that persons in poor health would be among those who went on tour to the West Indies, as Mr. Huff had done when he died on February 12, 1925. Facilities should have been provided, they said, for preserving and bringing back to port the body of anyone who might die.

With Mr. Huff on the trip were his daughter by another marriage, Kathleen M. Lindsay, and his wife. Their ship, the Oros, was to return to New York on February 17. Over the widow's protests the captain ordered the sea burial.

W. P. Allen, counsel for the steamship company, contended that the captain acted in accordance with the ancient law of the sea and with the laws of Great Britain, whose flag the Oros was flying.

CHAPTER HOUSE GIVEN TO I. O. D. E. AT ST. ANDREWS BY MRS. AYSCOUGH

Passamaquoddy Chapter Honored by Resident; Many Outstanding Personages Attend Presentation to Mrs. Todd, Wife of Lieut.-Gov.; Miss Wren, Regent, Accepts

ST. ANDREWS, N.B., June 18.—The Passamaquoddy Chapter, Imperial Order Daughters of the Empire, were on Thursday presented with a Chapter House by Mrs. Francis Ayscough, of Saint Andrews. This, it is said, gives the Passamaquoddy Chapter the unique distinction of being the only I. O. D. E. organization to have its own Chapter House.

The ceremony took place on the terrace behind the new building. Among those invited were the officers and executives of the Women's City Club, Caledonia, the Women's Canadian Club, Saint Stephen; the Women's Canadian Club, St. Andrews; the Town Council of St. Andrews; St. Andrews Tourist Association, clergymen and prominent citizens.

In presenting the Chapter House to Mrs. W. F. Todd, wife of His Honor the Lieutenant-Governor, and honorary president of the Provincial Chapter of New Brunswick, I. O. D. E., Mrs. Ayscough expressed her pleasure at the opportunity to aid in the work of the I. O. D. E. and her appreciation of the value of the work itself. She thanked Mrs. Todd, who, in spite of many calls on her time and her ill-health, had made a special point of being present.

MRS. TODD ACKNOWLEDGES.
Mrs. Todd, in replying, paid tribute to Mrs. Ayscough's kindness and generosity. She spoke about the philanthropic activities of Mrs. Thomas Wheelock, the noted yachtsman, Mrs. Ayscough's father, who had also taken such a great interest in St. Andrews. She complimented the Passamaquoddy Chapter on their energy and aggressiveness, and quoted Mrs. E. F. McLeod, provincial president of the I. O. D. E., who had described the Passamaquoddy Chapter as one of "the most up-and-coming in the province."

UNION JACK RAISED.
The Union Jack was then raised by Mrs. Todd and Mr. Francis Ayscough, donor of the flag and flagstaff, expressed the pleasure that being interested in the work had given him and called for three cheers for Mrs. Todd.

Bouquets were presented to Mrs. Todd and Mrs. Ayscough and after the conclusion of the ceremony Mrs. Ayscough entertained at tea in the Chapter House.

San Francisco episode is that after d'Artois had gone ashore to see a physician, and failed to return, they were fined \$1,000 by the United States immigration authorities for allowing him to leave the vessel without official sanction. Later he was taken into custody and deported to Vancouver, where he was handed over to the Canadian authorities, who finally released him.

It is for this action that d'Artois has brought suit. The case will be heard here in Supreme Court next September.

Collaborating with two others, Mr. Bates devised the secret code used between the War Department and the armies at the front. After the war, Mr. Bates entered the service of the Western Union Telegraph Company. Subsequently he served as general superintendent, Atlantic division, of the Atlantic and Pacific Telegraph Company, vice president of the American Union Telegraph Company, vice president of the Ganswell Fire Alarm Company and president of the Baltimore and Ohio Telegraph Company.

"SCION OF ROYALTY"**

False Arrest Alleged by Man
Claiming Descent From
House of Valois

YANCOUVER, June 19.—Arising from a trip ashore at San Francisco, while he was signed up as a seaman on the steamer Canadian Importer, Albert Ferdinand Maurice Andre du Valois, of d'Artois, at St. Verham et Valois, 37 years old, and claiming to be a descendant of the first governor of Montreal, has brought suit against the Canadian Government Merchant Marine, Limited, for damages for alleged false arrest and imprisonment.

The plaintiff, who goes by the name of d'Artois, says he was born in Saskatchewan, and that he is a scion of the ancient French royal house of Valois. He signed on with the Canadian Importer at Antwerp, where he had been deported from Belgian Congo after a residence there of 40 years, on account of a fracas with native laborers working with him on the construction of a railway.

The Government line's version of the case is that d'Artois, who was arrested at Antwerp, was a deserter from the Canadian Merchant Marine, Limited, for damages for alleged false arrest and imprisonment.

**A MEDICINE THAT
ALL MOTHERS PRAISE**

Baby's Own Tablets Banish Baby's hood and Colic. Mothers praise it. Mrs. H. Oakes, Selma, Ont., says: "I have used Baby's Own Tablets in my home for the past fifteen years and I believe the good health of my children is due entirely to this medicine. The Tablets are helpful at teething time; relieve colds and always beneficial in the minor ailments of little ones. I have recommended Baby's Own Tablets to other mothers whose experience with them has been as satisfactory as my own."

Baby's Own Tablets do one thing only, but they do it well. They act as a gentle laxative which thoroughly regulates the bowels and sweetens the stomach, thus banishing constipation and indigestion; colds and simple fevers and turn the cross, sickly baby into a well happy, laughing child. Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MANY CANDIDATES STAND IN ALBERTA

59 Conservatives and Nearly
Same Number of Two
Other Parties Run

EDMONTON, June 18.—The keen interest which has been displayed in the preliminary skirmishes in the Alberta provincial election fight resulted in the nomination today of a record number of candidates to contest the 60 constituencies in the provincial elections June 28. With few exceptions the nominations followed the choices made at conventions in the constituencies earlier in the month. There will be an exceptional number of three-cornered contests. All parties were well represented in nominations today and while the list is incomplete early indications were that the Conservatives had nominated 59 candidates, the Liberals an almost equal number and the United Farmers of Alberta only a few less.

The United Farmers of Alberta's Government headed by Premier J. E. Brownlee is seeking re-election on its record after a five-year term of office. Premier Brownlee is heading an election fight as head of the Government for the first time. Premier Herbert Greenfield headed the U. F. A. ministry from its inception until last fall, when he retired from politics and then Attorney-General, J. E. Brownlee, was chosen to succeed him.

In addition to the three major parties, Labor and Independents have candidates in a number of ridings.

Who shall ascend into the hill of the Lord? or who shall stand in His holy place?
He that hath clean hands, and a pure heart; who hath not lifted up his soul unto vanity, nor sworn deceitfully.
He shall receive the blessing from the Lord, and righteousness from the God of his salvation!

**Wins \$100,000 Verdict
From Mother-in-Law**
NEW YORK, June 19.—Mrs. Elsie Himmus Dula has been awarded \$100,000 damages by a jury which had

heard her \$20,000 allegation of affection suit against her mother-in-law, Mrs. Josephine C. Dula, widow of Robert B. Dula, former vice president of the American Tobacco Company.
The verdict marked the end of almost two years of bitter litigation. The former tobacco magnate was originally one of the defendants in the action, but he died before it came to trial. The plaintiff some months ago won a decree of separation from her husband and \$5,000 a year alimony.
THE thorn on the rosebud of an unmarried woman is the knowledge that the world thinks she is single because she had to be.

A MAN whose daughter had married away from home wants to know what kind of man her husband was, and received for reply:
"Tell you, father, he's a prime good whistler, and you never saw such a hand for snatches in all your life. He got blue eyes and his father's lineage to the chum."

N. B. TENNIS TOURNEY AT FREDERICTON EARLY IN AUGUST

PROVINCIAL ASSOCIATION IN FLOURISHING CONDITION NOW

Twelve Clubs in Organization Now—Interesting Dope on Prospects for the Coming Championship Contests

By J. H. DRUMMIE, Secretary N. B. Tennis Association. THE vagaries of the weather man this spring have been a source of despair to tennis devotees throughout the province...

THE New Brunswick championship tournament will be held this summer in Fredericton, probably during the week beginning August 9, the inter-provincial play-off with the champions of Nova Scotia taking place also in the capital city immediately following.

At present there are twelve members of the N. B. T. A., namely, Rothesay, Drury Cove, Renforth, Hampton, Westfield, Fredericton, Woodstock, Sackville, Moncton, C. N. R. Club, Newcastle and Dalhousie. These clubs were all represented at the last tournament, and an even bigger attendance is looked for this year with the possible entry of more clubs into the association.

It is confidently expected that many of the followers of tennis in Saint John and other places along the river will avail themselves of the opportunity of seeing the finals of the tournament, and, with the Maritime tourney taking place at Fredericton also the latter day in August.

It is in the ladies' events that New Brunswick has shown weakness against the sister province in later years, but with several of the younger girls coming along in splendid style and the possibility of a few former champions playing the season's championship play, it is expected that the province will be able to hold its own in the ladies' events.

According to reports, it is quite possible that the Suburban Tennis League, which comprised Renforth, Drury Cove, Hampton, Grand Bay, Pandemic and Westfield, may be discontinued this season. Certain of the clubs have lost several of their valued players, and it has been said that they prefer to play exhibition tournaments only during the summer.

The game generally has witnessed a revival of interest during the past two or three years, and there are enthusiastic clubs springing up in practically every town and village in the province, a great many of whom will no doubt be sending entries to the championships in a short time. In Saint John nearly every church society has a court or two, and there is a number of other organizations scattered about the city and environs.

One of the best signs for the future of the game in New Brunswick is the fact that so many of the boys and girls of High School age are going in for it, and each year the junior tournament, held in conjunction with the senior events during the week of the championship matches, sees a larger entry list.

The New Brunswick Tennis Association is a member of the Canadian Lawn Tennis Association, and it is hoped that, within a few years sufficient interest may be aroused to warrant sending entries to the Canadian championship when they are held in Montreal or Toronto.

The steamer Bellhaven, consigned to R. C. Elkin, Ltd., is due here next week from Norfolk with general cargo and will load a shipment of cattle for Glasgow.

To Hold Maritimes' First Girls' Track Meet Here Today

Along The Sport Trail

By JOHN J. DUNLOP. IN THE rush of senior leagues this year, the fans have somewhat overlooked the fact that there is functioning in the city these summer days a snappy young intermediate league with eight teams striving for honors. The Imperials, Alerts, Beavers, Glenwoods, Y. M. C. I., St. Peter's, Nationals and Canucks are out striving for league honors nightly with the Imperials in the lead at present. As a training agency for the future of amateur baseball here, it would be hard to estimate the value of such a league. There are few players in senior ranks today who did not secure their groundwork in an organized league and while these younger boys do not draw the crowds, they are playing for the love of the game and after all, we sometimes wonder if that is not the better spirit than bitter competition. Sports have developed wonderfully in the last 20 years but there is a tremendous urge to star the winner and forget all about the fellow who steps in and makes the game possible. The winner is likely to get a swelled head. We wonder if that is the true reason of sport. It seems to us the real reason that sport teaches is helping the other fellow and probably it is just as well for the intermediates they don't get the publicity given the older boys. Without this featuring they learn the value of teamwork. They get to understand that you can't even play baseball unless there are nine fellows willing to get together and help along. The older players might do well to remember this sometimes and in the heat of a misplay check the hasty, critical word that rises. What's a game between friends, boys?

Speaking about ball, softball is increasing in popularity every day. The West Side has the jump on the city in this respect and get a pile of fun out of this game.

THE one-two victory of Bagenbagg and Boot to Boot in the Latoro Derby, following a similar triumph of Bubbling Over and Bagenbagg in the Kentucky Derby, may help Edward Riley Bradley to become the most successful horseman of the current racing season. The stable's earnings already have passed the \$100,000 mark. Colonel Bradley presently will divide his stable in order to have a strong representation at Saratoga and about New York in the Autumn. As Calaris probably will not be ready until August, there does not appear to be anything to stop Bubbling Over in the other so-called Derbys to be run in the Middle West. Bubbling Over will be racing again soon, but even if he is not in shape before August, Bagenbagg and Boot to Boot look good enough to handle anything that may be sent against them.

IN the tournament this season, Rumor has it that Jack Thomson, one of the outstanding players in recent provincial tournaments and Hudson's partner in 1923 when they copied the title in doubles, will be back at Rothesay next year and will team with Hudson once more. These men will be dangerous contenders for the title.

It is in the ladies' events that New Brunswick has shown weakness against the sister province in later years, but with several of the younger girls coming along in splendid style and the possibility of a few former champions playing the season's championship play, it is expected that the province will be able to hold its own in the ladies' events.

According to reports, it is quite possible that the Suburban Tennis League, which comprised Renforth, Drury Cove, Hampton, Grand Bay, Pandemic and Westfield, may be discontinued this season. MONCTON A. A. A. IS AGAINST SECESSION

MONCTON, June 18.—At a meeting of the executive of the Moncton A.A.A. held in the City Hall, here, tonight with the president, J. D. McBeath, in the chair, the association unanimously decided against the proposal that New Brunswick secede from the Maritime Provinces' branch of the A. A. U. of C. The executive also appointed Frank M. Dayton as a delegate to attend the meeting called for Monday in Saint John when the question will be taken up.

KEEN CONTESTS ARE EXPECTED IN ALL EVENTS

All Marks Made Will Be Official Maritime Records

Every arrangement has been completed for the Maritime girls' track meet which will be staged this afternoon on the Allison grounds at Rockwood Park commencing at 2:30 o'clock. Five additional entries were received last night, one from this city and four from Charlottetown, P. E. I. All the contestants from outside places with the exception of those from Amherst, arrived in the city last evening while the Amherst party are coming by motor and will be here in plenty of time for the contests. Several motor parties from outside cities and towns are here to witness the events.

The track meet today will be the first program of its kind ever staged in Eastern Canada and the officials in charge have worked hard to ensure its success. It is expected that the citizens will aid the girls in their work by attending in large numbers. All times and distances made today will be official Maritime records and will stand until broken at future meets. The track will be in good condition this afternoon although the field may be a little heavy.

The meet is to commence at 2:30 sharp this afternoon on the Allison grounds at Rockwood Park. Much concern was felt yesterday because of the heavy downpour, which it was feared had put the field in a very soggy condition, but hopes were held that this morning's sun or wind might get in some good work in drying up the grounds. The weather predictions were for a fine day.

The ten events of the meet are 60 yard, 100 yard, and 220 yard dashes; 60 yard hurdles, running broad jump, standing broad jump, and running high jump; basketball throw, shot put and relay race. The teams that have entered in the relay race are those representing the Saint John Y. W. C. A., the Trojan Rovers, the Spartans of Fairville, the Moncton Y. M. C. A., and the Charlottetown team. Very nice programs have been printed for the meet.

The Y. W. C. A. committee in charge of the social arrangements for the meet have everything well in hand. At the banquet, which will be served in the recreation centre in the evening, Mrs. Allan Beattie will be chairman, and it is expected there will be about 100 in attendance.

FRIDAY HOODOO PROVES DEADLY TO N. Y. GIANTS

Team Suffers Defeat That Day for Eight Straight Weeks

NEW YORK, June 19.—Rain, snow, earthquakes or any other imaginable disturbance, sufficient to postpone a baseball game on Friday, will be welcomed in the future by the New York Giants. And the Friday does not have to be the thirteenth day of the month. The Giants' brief winning streak was halted yesterday by the Pirates, 8 to 3. For eight successive Fridays the Giants have lost and they may petition for a change in the calendar another season. John McGraw sent 10 players into the contest, but only Young and Tyson were able to solve Songer to any extent.

Cincinnati retained its lead in the National by outslugging Philadelphia for a 13 to 5 victory. The Phillies moundmen issued 10 passes, which gave the Reds material aid. Nixon of the Phillies sent forth two useless homers.

By topping Brooklyn 6 to 2, the Cubs gained undisputed possession of fourth place.

COBB IS BENCHED Manager Cobb, of Detroit, was expelled for objecting to a decision during an inning in which the Mackmen scored ten runs, winning the game 12 to 2. Every member of the Philadelphia team scored in the sixth.

Sixteen hits, four of them by Cobb and three by Koenig, supported Penock in his 10 to 2 conquest of the White Sox. Collins, of the Yanks, hit a homer.

Cleveland registered its second straight over the Red Sox 6 to 2. The Senators came through to a victory at last, beating St. Louis in ten innings, 4 to 8.

MANAGER RESIGNS McADAM JUNCTION, June 18.—F. McNeil has handed in his resignation as manager of the McAdam baseball team. The McAdam baseball team, under the leadership of Mr. McNeil, has been a winning team, losing but five games in three years and winning 14.

Milwaukee Captures 21 Straight Games

MILWAUKEE, Wis., June 19.—Milwaukee's march toward a world record for consecutive victories was halted by Toledo on Wednesday after the Brewers had scored 21 successive triumphs. McNamara was the victorious pitcher, the game ending with the score 9 to 6.

GOLFERS QUALIFY 107 Amateurs and Professionals Eligible For British Title Play

LONDON, June 19.—One hundred and seven amateurs and 10 professionals qualified in Wednesday and Thursday's play for the British open golf championship to be played next Wednesday, Thursday and Friday at Lytham and St. Anne's according to the draw announced yesterday.

At the close of the second round of medal play all competitors, 18 strokes behind the leader, will be retired from competition, the remainder playing two rounds on Friday for the championship. Four professional and four amateur golfers from the United States qualified.

FIFIELD IS MATCHED. George Fifield, Canadian welter-weight champion, has been matched to meet Sailor Darden of New York world's colored champion, according to word received here yesterday. Fifield will undergo the well-known acid test when he clashes with the New York fistic star. The Fifield-Darden go will feature an all-star outdoor show for Syracuse early in July. They are scheduled to go ten rounds.

GAS HEAT is more easily regulated

You can cook slowly over a low fire more easily on a gas range than on any other kind of stove. There's no danger of turning the wick too low—bothersome wicks don't exist in the gas range. There's no waiting for the fire to die down—just turn the cock and the fire is low. Then if you want to speed up cooking, the turn of the cock each fraction of an inch gives you another degree of heat. Especially in cooking, "You can do it better with Gas."
