

MANY FIRES YESTERDAY

Eleven Tenants Suffer in Exmouth Street

WATER PRESSURE LOW

Incendiary in the North End Destroys Valuable Property—Other Blazes in Brussels Street and West End—A Forest Fire

SUFFERERS IN WEEK END FIRES

- G. W. Colwell, loss \$3,500; insurance \$2,000. Mrs. Lillie Crockett, loss \$2,850; insurance \$1,800. Louis J. Murray, loss \$500; no insurance. George Viviane, loss \$500; no insurance. Mrs. J. E. Ratcliffe, loss \$450; covered. Charles W. Anderson, loss \$150; no insurance. Allan Agar, loss \$500; no insurance. Mary Kennedy, loss \$200; no insurance. Samuel L. Scribner, loss \$300; covered. St. Vincent de Paul Society, loss \$300; covered. B. J. Barnes, loss \$200; covered. Jarvis Purdy, loss \$2,000; insurance \$1,000. Miss Murphy, loss \$1,000; covered. C. S. Phillips, loss \$400; covered. Norton Griffiths Co., Ltd., loss \$400; covered.

Eleven families suffered, six buildings were damaged, and two lives were nearly lost yesterday morning about 8 o'clock when fire raged in the wooden district between Exmouth street and Waterloo, opposite Shaw's bakery. Had there been a high wind blowing, there is little doubt but that several blocks would have been wiped out of existence for the water pressure was exceedingly poor, and at no time Chief Blake says it ever twenty-seven pounds, whereas it should have been in the vicinity of fifty-five pounds. Seven tenants of the houses were played on the flames for three hours and through the energetic work of the firemen, called together by a third alarm, the flames were confined damage done amounted to about \$10,000. Few of the tenants were insured.

Set Buildings on Fire. When at 9:30 o'clock an all out alarm was sounded, the flames had done awful havoc. The large three story wooden building with an ell containing fire ten-ants, and owned by G. W. Colwell, was very seriously damaged, and a two story and a half house, newly repaired, and owned by Mrs. Lillie Crockett, was damaged almost as seriously. Two barns were totally destroyed, and the flames reached as far as the rear of St. Vincent de Paul's building and burned it badly. A house owned by Mrs. Mary Kennedy was slightly damaged. The tenants affected were: G. W. Colwell, B. J. Barnes, George Viviane, Louis Murray, Mrs. J. E. Ratcliffe, Charles W. Anderson, S. L. Scribner, Mrs. Lillie Crockett, Allan Agar, Mrs. Mary Kennedy and St. Vincent de Paul's Society.

The fire was discovered by E. Allan Agar who was awakened by the intense heat. He placed temporary shields against the rear windows and then ran to ring in the alarm.

W. J. Jones, an aged man, was asleep in the rear of an ell and was rescued from amid the flames by his daughter after he had partly succumbed to suffocation from smoke.

The youngest daughter of Louis J. Murray had a narrow escape from suffocation and burning and Mr. Murray also had difficulty in escaping. He lost all his belongings which were uninsured, but considered himself fortunate in escaping alive with his family.

There was some pilfering at the fire among the articles missed being a suit of clothes belonging to B. L. Barnes and a fur collar belonging to Mr. Colwell.

Fire arising from a gasoline device used in cutting a shaft in the Norton Griffiths Dredging Company's tug, the Betty D, yesterday morning caused damage to the machinery and wood-work estimated at about \$400.

Three buildings were destroyed yesterday at McCreary junction by a fire which started in the rear of the home of Mrs. Charles LeBell. Two unoccupied houses owned by H. J. Morgan, of Fredericton and the estate of the late John McCoy were destroyed by the flames. The loss is estimated at \$5,000.

Firebugs scattered their brands last night to commit one of their most serious crimes. In firing a barn in Clarendon street owned by Miss Murphy, of Indian town, they destroyed a \$3,000 Russell touring car belonging to Jarvis Purdy and also a Gladstone carriage and a pump and some poultry belonging to him, causing him a loss of about \$2,000. C. S. Phillips, who occupied one half of the barn, also a supply of hay and straw and some harness, but his horses and vehicles were removed before the fire had reached them. The damage to the barn amounts to about \$1,000. The total loss of the fire reaches nearly \$3,500. The barn is insured. Jarvis Purdy carries \$1,000 in the Queen Insurance Co. Mr. Phillips also carries insurance.

A slight blaze on the roof of the J. Humphrey's dwelling, Water street, West End, yesterday afternoon, was extinguished before the flames had gained headway. The damage was slight.

A silent alarm about 9 o'clock yesterday morning called the firemen to Mrs. Mary Corleary's house, 82 Brussels street, to extinguish a slight fire in the chimney.

SUN CANOPY FOR THE HORSE

Instead of the old straw hat with ear holes, a Kansas farmer has provided his buggy horse with a canopy which protects the flanks, as well as the head of the animal. The canopy, which is made of imitation leather, and is provided with a fringe to discourage the flies, is attached to the shafts by four metal supports. A picture of this unusual equipage appears in the July Popular Mechanics Magazine.

HELPLESS CRIPPLE FROM RHEUMATISM

Toronto Lady Took "Fruit-a-Lives" And Cured Herself

4 Home Place, Toronto, Dec. 15th, 1909. "I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without benefit. I saw "Fruit-a-lives" advertised and decided to try them. After taking one box, I was much better. When I had taken three boxes, I could use my arm and the pain was almost gone.

After taking five boxes, I was entirely well again. The cure of my case by "Fruit-a-lives" was indeed splendid because all the doctors failed to even relieve me. "Fruit-a-lives" cured me. MRS. LIZZIE BAXTER. 50c. a box, 6 for \$2.50—trial size, 25c. At dealers or from Fruit-a-lives, Limited, Ottawa.

M. Hacker). Selection—A Night in Berlin—(John Hartmann). March—Felix Diaz—(Vellina Press). Waltz—Casino Tane—(Gung'l). Comic Opera—The Gay Musician—(J. Edwards). March—Sons of the Brave—(Bidgood). God Save the King.

Daily Hints For the Cook

DATE SALAD. One pound of dates, two sliced bananas, four oranges, cut in small pieces, juice of one lemon. Serve on lettuce leaves with mayonnaise dressing.

CORN FRITTERS. Make a batter of one cup of flour, half teaspoon of baking powder, a little salt, one beaten egg and one cup of milk. Add one cup of corn and fry in hot fat.

CANADA GINGERBREAD. One cup butter, two cups sugar, five cups flour, three eggs, nutmeg, one teaspoon ginger, one teaspoon soda, one cup milk, one tablespoon cinnamon, one pound currants beat the butter to a cream, add sugar, molasses, spices, then eggs well beaten, milk and flour, then currants. This will make three sheets. Bake in a moderately quick oven.

GIVE UP HALIFAX BUSINESS. It is announced that the wholesale fish firm of N. and M. Smith will, within a few months go out of business in Halifax, transferring all to their Newfoundland branch in St. John's.

The number of motor omnibuses on the streets of London has increased from 241 in 1905 to 2,641 at the end of 1912. At the present time Bunty is on tour in different parts of the world, and the royalties coming in to the lucky author are said to amount to £200 a week.

Stops Falling Hair. Hall's Hair Renewer certainly stops falling hair. No doubt about it whatever. You will surely be satisfied.

YOU ARE LOOKING OLDER THAN WHEN I SAW YOU LAST. Have You Ever Had This Said to You Because of Grey Hairs? People voluntarily recommend Hay's Hair Health. It is not unusual for them to say—"I want to tell others about it. It's perfectly splendid." Try it yourself, today. You'll be surprised how quickly the grey hairs disappear; how beautifully dark and glossy your hair will remain after using it. Druggists sell more Hay's Hair Health than all others combined because their customers prefer it and they know that it can be guaranteed satisfactory. E. Clinton Brown, Union and Waterloo streets.

No matter what size your kitchen is, there is a Glenwood Range that is made to suit it. This out shows the celebrated Sunny Glenwood, suitable for a small family. We also have the Glenwood E, Modern Glenwood E, and the Cabinet Glenwood. Buy a Glenwood and you are sure to have excellent satisfaction. McLEAN HOLT & CO., Limited. 155 UNION STREET. ST. JOHN, N. B. Store open Friday evening, closed Saturday afternoon during June, July, August and September.

There are 1 1/2 to 3 grains of Caffeine in every cup of Tea or Coffee. It hardly seems our business to apologize for tea and coffee. But simply to place the truth before people and let them act as they see fit.

It hardly seems our business to apologize for tea and coffee. But simply to place the truth before people and let them act as they see fit. That easily explains the cause of many a tea and coffee drinker's disturbance of heart, stomach, liver and nerves. It's a good idea when the body begins to show disturbances, to quit tea and coffee and use Instant Postum. This pure food-drink, sold by grocers everywhere, is warranted pure and absolutely free from the tea and coffee drug, caffeine. It feeds and nourishes where tea and coffee destroy the tissues. Instant Postum is made of prime wheat and the juice of sugar-cane, roasted and blended to produce a rich, snappy flavor. A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly, and makes it right for most persons. A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream. Experiment until you know the amount that pleases your palate and have it served that way in the future. Postum comes in two forms. Regular Postum (must be boiled). Instant Postum doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in a cup of hot water. "There's a Reason" for POSTUM. CANADIAN POSTUM CEREAL CO., LIMITED, WINDSOR, ONT.

From the Fertile Plains of Western Canada To the Berthierville Distillery. Where the best gin offered to Canadian Consumers is distilled: A pure spirit made from the choicest Western Grains—the best in the world—combined with specially selected Juniper berries. RED CROSS GIN. Made under Government control. Combines purity, quality and age—making it a healthy stimulant without an equal. Each bottle of Red Cross Gin bears the official stamp of the Dominion Government. SOLD BY ALL DEALERS. BOIVIN, WILSON & CO., LIMITED, 529 St. Paul St., MONTREAL. PLIGHT OF A DOCTOR
(New York Herald)

Dr. Zippert, of No. 381 East Fourth street, weighs 307 pounds, and is not very tall and as much of his weight is amids his feet he finds it very uncomfortable to squeeze into narrow telephone booths.

He was at the Midpoint Students Club, of Burgess College, No. 20 Avenue C, late yesterday morning, when he was called to the telephone. He received a hurry-up call to attend to a patient. He said he would start at once and made an honest effort to start, but he didn't budge an inch.

He tugged and strained until he was blue in the face, but he could not move being in the booth, and seeing that he would be delayed, he called up the home of the patient, and there he had been waiting. Then he called for assistance. Dr. David Bader heard and answered his cry. Doctor Bader got hold of one of Doctor Zippert's arms and pulled until it appeared that either the arm or the booth must give way, but both held fast. Then Doctor Bader called for volunteers. As more than a score of physicians were dining at the club there was no lack of talent.

Several of the physicians formed a chain and tried to drag Doctor Zippert out of the booth, but they could not. While the physicians went into consultation on the case, Doctor Zippert was reporting progress over the telephone to the family of the patient. The consultation resulted in a decision to resort to the law, and Henry Stein, an officer of the Madison street court, was summoned.

Mr. Stein took careful measurements of Doctor Zippert and of the telephone booth. He did not know how Doctor Zippert got into the booth unless he got in before the booth was erected, and then had the booth erected around him. His mathematical calculations, however, convinced him that there was only one thing to do, and that was to tear down the booth.

Doctor Zippert agreed with Mr. Stein and the structure was razed. After having been imprisoned for twenty-five minutes the physician was liberated and jumped into an automobile and hurried off to see his patient. After administering first aid to the stricken man, Doctor Zippert collapsed from his exertions, but soon recovered.

R. S. Scarborough, representing the New York Telephone Company, said last night that the company erects booths of a size to accommodate any ordinary sized man and that the company receives few complaints. He said the size of the booths had been reduced recently, as stores and offices did not want to devote much space to them. The interior of the new booths, he said, is almost thirty inches by thirty inches, and he thinks that is sufficient space for almost any man.

This suit is a pass from the crowd into the King Row. It will give 100 points on looks.

The cloth, linings, designs, out, every point absolutely up to the hour. Price \$30. The famous 20th Century Brand Dress Suit.

FERTILIZER FROM THE AIR
New Aluminum Process Said to Have Solved a Problem

It is sixty years since St. Clair Deville first showed how aluminum could be extracted at a cost of \$120 a pound. But he declared his belief that new and cheaper methods would be developed, and there would come a day when aluminum factories would produce fertilizers. The first page of the prediction has already come true; the price has fallen from \$6 a pound in 1888 to twenty cents today. The other prediction seems to have been made true by an Austrian chemist named Serpek.

The new process of aluminum is bauxite, a red earth of which the most important deposits are in France, though it is found elsewhere. By the Serpek method the bauxite is heated to something like 2,700 degrees in the presence of carbon, when it combines with the nitrogen of the air to form salts that can be easily reduced to metallic aluminum and ammonium sulphate.

And ammonium sulphate is the foundation of valuable fertilizers, for it supplies the nitrogen so hard to obtain for plant food.

Incidentally, this process is said to make it possible to produce aluminum for ten cents a pound. But as it is covered by patents that may not help the consumer.

HANDSOME DRUG STORE NOW COMPLETE

Watson's Building in King Street Presents Fine Appearance

After having been in the hands of carpenter, masons, painter, etc. for the last three months, the building occupied by Watson's Drug store, in King street, is now ready. The entire premises have been made over to meet the needs of this growing business, and St. John has at last a modern drug store with a properly equipped plant.

Six Prosperous Years

It is just six years since Mr. Watson purchased, from the late C. P. Clark, his building at 100 King street. Mr. Watson learned the business in this store, and, being well acquainted with the trade, he was in a position to make it a success. Business at this stand steadily grew, until at last it was found necessary to re-decorate the store in order to serve the public properly. Lack of space and equipment proved a great handicap, as many who have patronized this store know. Much to the regret of the proprietor the public was not able to receive the attention he desired them to receive, but everything possible was done to overcome the cramped condition of things. At last arrangements were made with the owners of the building to remodel it along lines suited to the modern drug store, with the result that about 600 square feet were added to the main store, and a modern all glass front replaced the old style one. These improvements, together with new soda fountain and show cases, make Watson's the largest and one of the finest drug stores in the provinces.

Upon entering the store one is struck immediately by the soda fountain, this apparatus is constructed entirely of marble and slate, with a magnificent back of mahogany. An American-made plate mirror sets the whole outfit off to fine advantage. It has all the modern features for keeping syrups, fruits, ice cream, etc., chilled to the proper temperature, also sinks with hot and cold water, where all glasses and dishes are thoroughly cleaned. J. J. McLaughlin, Limited, Toronto, installed the fountain, and it is indeed a credit to Canadian manufacturing. J. Murphy, of Cambridge, Mass., is in charge of the fountain. He came to St. John from the biggest store in Boston, where he has had a wide experience in soda water business.

Opposite the fountain is the candy department, where are stocked Huyler's, Liggitt's, Mot's, Nelson's, Willards and many other popular lines of high class confectionery. Your sweet tooth will be well taken care of here, if the attractive display in counter and cases means anything. Next to the candy department is the toilet goods counter, where you may find the best of everything. The Violet Dulce and Harmony lines are features in this department. Photographic goods of the Eastman and American makes are next. Brownie Cameras and Kodaks are sold young and old. This department also takes care of flannels, socks, hosiery, stationery which is now found in every up-to-date drug store is featured alongside the camera. Being agents for the United Stationery Co., gives this store the advantage of many exclusive lines and also of buying in conjunction with 2000 other stores in America. The values offered in writing materials indicate that this is a real advantage.

Refrigerators, infant foods, patent medicines and package drugs, take up a large portion of the shelves. The modern way is to have everything in this line put up as far possible ready to hand out. This insures quicker and cleaner handling of drugs.

The show case and fixture at the end of the store are given up entirely to surgical dressings, plasters, etc., rubber goods of every description, and sick-room supplies. A lady clerk in this department attends to the needs of lady customers. The prescription room in this store is unique. Instead of having the bottles spread over the counter, Watson's drug room is very compact, cabinets, shelves and drawers are used to the very best advantage and one is amazed to learn that upwards of 8,000 different packages of powders, liquids, pills, tablets, ointments, etc. could be taken care of in such a compact manner. Three graduate pharmacists or registered druggists look after the prescription end of this business, an indication in itself that the public and medical men have perfect confidence in this dispensing department.

The basement is given over to drug and candy stock. A new ice cream manufacturing plant is now turning out a very fine product here. Upstairs over the store is the office and manufacturing room. The stock of medicines and sundries for all Watson's five stores is carried here.

Twenty Employes, Short Hours

Twenty persons are employed in this store alone. The old system of long hours is not known. The staff is divided into two shifts, one beginning at 8 in the morning and working until 6, the other coming in at 1 p. m. until 11 p. m. Each week the staff changes.

Mr. Watson with his first lieutenant, C. J. Hay, together with the other salesmen extend to the public a cordial invitation to visit the store and be convinced that Watson's is the best place to buy drug store goods.

Announcement will appear in this paper tomorrow of a big anniversary, an opening to be held on Wednesday, Thursday and Friday of this week. There will be features of interest to everyone.

THE PARIS POLICE SYSTEM

Methods Were Introduced by Vidocq, Who Was Companion of Thieves and Criminals

The remarkable system of police supervision at Paris has its origin in methods introduced by Francois Eugene Vidocq, who had been for years the companion of thieves and murderers.

When he was a boy at Arras, where he was born in 1775, and in his youth, all France suffered from the lawlessness and crime that resulted from the revolution. Without being wicked by nature, Francois Vidocq drifted into evil ways among the bad influences that surrounded him, and his father was unwise in his courses with Francois. Early in his youth he desired to go to America, and, breaking away from present associates, he was able to begin life afresh under healthful moral conditions.

The elder Vidocq who was a baker would not help his son to carry out this plan. So Francois stole a large sum of

money from his mother, ran away to get a ship and was in turn robbed on the eve of sailing and thus prevented from carrying out his plan.

He drifted into the army and fought under Kellerman. For a time he had better fortunes, and at eighteen was an under officer.

But his evil genius kept him in constant difficulties, and for years he was in and out of prison, and his constant associates were the most hardened criminals. He hated his life, and when he received a long sentence on perjured evidence, he thought of a plan that might be of service to him.

His offer was accepted, for no criminal in France was more skilled in disguise of every sort than he, and to him the languages of the underground were thoroughly familiar. So he founded a system with secret agents to work for him, and these he gathered from among the most notable leaders of the criminal class.

For eighteen years Francois directed the detective force in the system he founded, and then under a new administration lost his position.

Still intent on being of service to society, Vidocq went to St. Mande, France and started an extensive manufactory of paper and cardboard. The people he employed were the unfortunate men and women who had served sentences in prisons and whom no one would hire.

For some years all went well, and then the government began to object to having centered at one place so many persons with evil records. It was not long till this resulted in the failure of Vidocq.

He again entered the service of the Paris police but had no real authority. Once in his life he was honored. The

minister of the interior commended him for his labors and Louis Philippe, the Citizen King, personally received him and thanked him.

Building activities in the different cities and towns of Texas are greater than ever before known at this time of year. This unusually busy period of the building trade is reflected in the increased demand for lumber and other building material.

HAD ITCHING PILES FOR 27 YEARS

Often Laid Up For Days at a Time—A Wonderful Tribute to Dr. Chase's Ointment

Few people were ever more enthusiastic in praising Dr. Chase's Ointment than the writer of this letter. When you read the description of his case you will not wonder why.

Mr. John Johnson, Coleman, Alta., writes: "Three years ago I was cured of blind, itching piles of 27 years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I would ever get from the terrible misery of this disease. I was laid up for three days at a time, and at other times worked when I should have been in bed."

Dr. Chase's Ointment is worth sixty dollars a box instead of sixty cents. I am a different man since using it. I am farming all the time, and never miss a day. Words fail to express my gratitude for the cure this ointment made for me. I cannot tell half as much about it as it deserves. Anyone doubting this can write direct to me."

Dr. Chase's Ointment, 60 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

The Evening Times and Star

ST. JOHN, N. B., JUNE 23, 1913.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

Telephone—Private branch exchange connecting all departments, Main 2417. Subscription prices—Delivered by carrier \$2.00 per year, by mail \$2.00 per year in advance.

Wire trouble—The C. P. R. wires to Montreal went out of commission last night and left the night editors of the morning papers in the condition of Mahomet's coffin by cutting off the press service just as it was about to begin.

They might as well settle the Valley railway route now as next June. Who is profiting by this delay? St. John might know about it—now, not next year.

H. R. H. the Prince of Wales is nineteen years old today. The heir apparent is a fine-looking young man of admirable character, who is becoming as popular as his late royal grandfather was when he was Prince.

Section 16 of the Commission Act calls for the open door at all City Hall meetings except those where legal matters are to be discussed.

When the Donaldson Homestead case was discussed in Parliament and it was shown that a friend of the government had secured a \$275,000 "homestead" for Mr. Oliver.

There were many other things about which the government refused to give the country any information, although persistent inquiries were made by the opposition.

Gold beating is one of the oldest trades in Birmingham, Eng. To a large extent this trade has gone to Germany through the competition of cheap labor.

The suggestion is often made that swimming should be taught in connection with the public schools.

The Toronto department of health, in a bulletin just published, declares that there ought to be in connection with the public playgrounds, swimming pools for the boys and girls.

In thirty years the area of Manchester has extended from 4000 acres to 20,000 acres. The Corporation employs 20,000 workmen and officials, and pays one and three quarter million pounds in wages.

Princess Edward Island farmers by means of a placidist have declared strongly against the admission of the automobile to their province.

It sows the seed for grippe, pneumonia or consumption. Don't trifle with syrups and nostrums; take Scott's Emulsion which effectively drives out colds and builds strength and resistance.

BIRTHDAYS OF NOTABILITIES

MONDAY, JUNE 23 H. R. H. Edward Albert Christian George Andrew Patrick David, Prince of Wales, is nineteen years of age today.

REVERSES Men were born to command, but some of them married suffragettes.

A RABBIT SOUTHERNER "Col. Julep is the most rabid Southern I ever saw."

A COMPROMISE Gibbs—I often wonder who those fellows are that loaf around watching a new building going up.

WHAT THEY GET Wife (with suffragette leanings)—Unlucky women get the vote, it is impossible for them to get justice in the courts.

A PROPHECY A melodrama, "Murdered at Christmastide," was to be given for two nights on a small theatre.

AT THE THEATRE—A LULLABY. Sleep, little foot, beneath my chair; Father will guard thee with loving care.

Sleep, little foot, what'er betide; Mother is close at thy starboard side.

LIBERALS IN THE SADDLE IN AUSTRALIA

Premier Fisher Tenders His Resignation and Mr. Cook is Called on to Form a Government

London, June 21.—The Sydney, Australia, correspondent of the Times says that according to telegrams received by the Ottawa press attributes the despatch in the reciprocity negotiations with Canada to Australia's dislike of Canada's naval policy.

"It is regrettable," says the correspondent, "that such misstatements should be made. The sole cause for the postponement is the result of the opinion of the government, deprive them of authority to conclude such important negotiations in the name of Australia. It is hoped and believed here that the negotiations will be resumed with the Canadian trade commissioner as soon as the present political complications have been unravelled."

Premier Fisher, who yesterday tendered the resignation of the ministry, which was accepted by Lord Dunsen, the governor-general, took the course because the latest election returns showed that Sir W. L. Lyne was certain to lose the House division, thus placing the government in a minority of one in the house of representatives.

Mr. Cook will accept Lord Dunsen's commission to form a Liberal government this afternoon, and it is expected his task will be completed by Monday night. The new parliament will meet at the end of the second week in July.

Baptist District Meetings

That energetic opposition should be offered to the government proposal to run more Sunday trains over the I. C. R. was the opinion expressed in a resolution passed at the Sixth District meeting of the Baptist conference at Havlock on Saturday. The election of officers for the year resulted in the choice of Rev. S. M. Parker, president, Rev. Mr. Sandling, vice-president, H. A. Patterson, of St. John clerk, and Mr. Seaton, of Penobscot, treasurer. At the meeting of the Women's Missionary Aid Society in connection with the conference Mrs. N. C. Scott was elected president, and Miss Keith, both of St. John, secretary. Mrs. F. H. Wentworth gave an interesting reading and Mrs. W. E. McIntyre delivered an able address on Home Missions. Rev. Dr. McIntyre spoke on Foreign Missions at the evening meeting. The district meetings were well attended.

Mr. McLellan's Motion

Notice of motion that all city business shall be transacted in public in the future, which was given by Commissioner McLellan at the committee meeting of the city commissioners on Saturday, was received without comment by the other commissioners and will be before the common council for action at the week's meeting this afternoon.

BORDEN'S ATTEMPTS TO DEBATE COUNTRY

Ottawa, June 21.—Considerable efforts have been made by the Conservative Jingo Press, at the instigation of Mr. Borden, to make capital out of the announcement of Winston Churchill on June 6, that the British admiralty intended to advance the construction of three battleships on this year's programme, starting them as soon as possible, as a result of "the situation created by the rejection of the Canadian Naval bill."

This is an absolute falsification of the facts. There is nothing in the whole course of the British Naval debates to indicate that the British programme could be affected in any degree by the "additional" naval policies of any of the dominions. This was time and again asserted by Mr. Churchill, the first lord of the admiralty. More than that, Mr. Churchill declares categorically that work on the three ships provided for had not been already started, that construction had been delayed because the ships would be so overloading with work it would be useless to give the orders until they were able to handle them. He asserted emphatically that these three ships would be begun when it was necessary to begin them and that their construction was not a matter of necessity but convenience.

Evidently the time when the capacity of the naval yards to build these battleships had arrived, and Mr. Churchill considered it convenient to build them.

MORNING LOCALS

Isaac Parker, the foreman in charge of the wharf which is being built by Contractor Boone on the West Side of the harbor was painfully injured on Saturday, when a log, which was being swung from the wharf, struck him on the knee, causing severe bruises and tearing some of the ligaments.

Two workmen employed by the J. S. Metcalfe Co. in the construction of the C. P. R. elevator at Carleton were severely injured yesterday morning. One man was struck by a piece of building material which inflicted an ugly scalp wound. Later in the day George McLennan, who was working beneath one of the towers, was struck by a piece of scantling which had fallen a distance of fifty feet. Severe wounds were inflicted about the head and shoulders.

The liquor store of T. Philip McGuire, 46 Mill street, was entered Saturday night or early Sunday morning and \$29 in cash besides a quantity of goods were taken. Two persons are believed to have been implicated in the robbery, which could only have been committed by men who knew the premises as the cash box was hidden in a secret place.

The case of Samuel Collier vs. the St. Croix Paper Co., which was to have been tried in Fredericton tomorrow, has been postponed until January on account of the illness of a material witness.

The Minister of Marine and Fisheries has taken advantage of his visit to St. John to inspect government work being carried on at the Lorneville boat-dock and the St. Martin's wharf. Captain Robert Carson, the contractor on the St. Martin's wharf has discovered a gravel pit on an adjacent corner.

Joseph Edge, who was arrested here last week after escaping several months ago, was taken back to Campbellton on Saturday by Chief of Police Hughes to answer to a charge of breaking into and robbing a store.

In future, according to word received by local representatives of the unions, united action will mark all dealings of the Brotherhood of Locomotive Firemen and Engineers, and the Brotherhood of Locomotive Engineers with the various railways of Canada and the United States.

ANNIE ABBOTT AT OPERA HOUSE.

Although dramas, covering almost every theme, comedies exploiting the best material for laughing purposes, vaudeville of almost every nature, motion pictures of various subjects, and in fact all other forms of amusement have been seen at some time in the local Opera House, it is surely difficult to state a feature has ever been presented there than that booked for the last three days of this week in Miss Annie Abbott, known far and wide as the famous Georgia Magnet.

Miss Abbott, unlike any other human being known to the scientific world, possesses what might be termed an occult power, that cannot be overcome by muscular strength. During her performance she gives many strange and almost weird demonstrations of her wonderful power of strength.

Miss Abbott will appear at the Opera House next Thursday, Friday and Saturday, afternoon and evening, in conjunction with three other artists, giving a performance at once mysterious, unique, coupled with a refined comedy playlet and novelty music. Further particulars tomorrow.

Red Rose Coffee

By our new crushing process, RED ROSE COFFEE is broken into uniform small grains and freed from bitter chaff and dust. Thus it brews readily and gives the true rich flavor of fine coffee, and—without any "settling"—it pours out bright, clear, a coffee to delight the epicure. WOMEN WHO WORK FOR A PENNY AN HOUR

(London Daily News)

Twelve sweated trades in which women workers are engaged were illustrated yesterday at an interesting exhibition at the Knightsbridge Palace Hotel.

An old woman, who sat making black braid, told a "Daily News" representative that the rate of pay for her work was 7d. per dozen yards, and that it took her about eight hours to make that quantity. The rate of pay was, therefore, less than one penny per hour.

Eight Shillings for 72 Hours

At artificial flower making a week can be earned by working twelve hours a day, and at brush making—that is, fastening the bristles into brushes—a week can be earned by working eleven hours a day. The two women illustrating these trades at the exhibition had toiled at their craft for over 60 years.

Shirt, blouse, skirt, match-box, doll, tooth-brush, and boot-making trades were also represented.

In opening the exhibition, which was organized by the Women Writers' Suffrage League and the Men's League for Women Suffrage, Mrs. Flora Annie Steel said that sweating was a woman's question, because 85 per cent of sweated workers were women. They were paid less than the men for the same work, although they had two hands, two eyes and everything else that men had—except votes.

An interesting speaker was Mrs. Abbott, who said she was employed at making buttonholes in collars at 1-1/2d. per dozen collars (that is, three dozen buttonholes), and told her story so graphically that the audience of West End London was moved to frequent applause.

Miss Clementina Black, who declared that every lady present who had a safety razor or a hook and eye about their clothing was concerned in the sweating business, urged that pious opinions would not help, but the Trades Board would, and A. G. Gardiner also emphasized the fact that legislation alone could be effective. Past experiments and accomplishments had been entirely successful, both on the employers' and the workers' side.

Poor Who Help the Poor

The Earl of Lytton, J. Malcolm Mackell, and Mrs. Pember Reeves also spoke. Mrs. Reeves said that from careful examination of family budgets in Lambeth she found that girls who earned 6s. a week actually supported themselves and contributed to the support of one or two other members of the family. It was always the sweated workers who supported others.

On the farm of Chariot T. Spear in Rockland, Me., there are 8,000 feet of sweet peas up and ready to stake. They consist of fifteen varieties.

Flies Won't Breed

Won't even stay where Cyclone Insecticide has been sprayed; it kills all forms of insect life, destroys typhoid, diphtheria and scarlet fever germs, and leaves a refreshing clean odor.

BLUE BLOODED BUT SINGLE

Hard Lot of the Daughters of the Arist-
ocracy - Husbands Outside Their
Own Set
(London Exchange)

Social tendencies of today make it a
handicap for a girl to be the daughter
of a peer-unless he is enormously rich.
What do we see? Most of our young
noble title, if they are not choosing
their wives from the variety stage of
American musical comedy, are going to
America in a wish to marry into the
aristocracy, but it frequently happens in
such cases that the wooer is not accept-
able to the young lady at whom he
sets his cap. He is generally very much
older, perhaps old enough to be her
father, and he has spent his best years
in making his "pile."

The English girl accepts the rivalry
of the American girl with the best grace
possible. The American certainly brings
money with her, and money has always
been a recognized weapon in the light
house of matrimony. But she is, to put it
quite frankly, just a little resentful of these
stage marriages.

Of course she has always had peers
marrying actresses since actresses first
made their appearance on the boards in
the time of Charles II. There was the
marriage of the twelfth Lord Derby to
Eliza Farren, from whom Lord Willton
is descended.

Later on the first Earl of Craven, to
mention but one other instance, married
Louisa Brunton, the great-grandmother
of the present Lord Craven.

But in all these instances the actress
was famous in her profession quite apart
from her marriage to a peer. Now-a-
days, however, it is not always abso-
lutely necessary to be a first-rate or even
a second-rate actress to catch an old
title.

No wonder our girls, my own among
them, are thinking that the surest way
to matrimony is to go on the stage.
What a commotion there would be if
one morning it were announced that
Lady Rose-the daughter of the Earl of
the third-rate actor! Yet why, if her
brother puts a coronet on the head of
Miss Brown, the third-rate actress, no-
body is shocked?

It will come to this, that our girls,
many of them, if they want to marry at
all, will have to make up their minds
to accept middle-class professional men.
Already a fair number of them are mar-
ried to doctors, solicitors, architects, and
patrons. At one time it would have
been looked upon as a dreadful mis-
alliance for the daughter of an earl to be
a solicitor or a doctor.
