BUNGLING PREMIER GRASPS AT STRAWS

Hon. R. McBride, Having Utterly Failed in "Better Terms" Mission, Seeks Credit Not Belonging to Him

(From Tuesday's Daily.)

Unfortunately for British Columbia, her case for "better terms" was entrusted to a poor advocate. Premier McBride has failed all along the line. His record throughout at Ottawa and at London can be described only by the word "failure." The case of British Columbia is not a weak one to that eventually, presented by an able representative, the province may get what it felt is coming to it.

The Imperial parliament will pass the amendment to the British North America Act which Sir Wilfrid Laurier backed up by resolution of the Dominion parliament, and on behalf of the government. The amendment is the embodiment of what the provincial premiers asked, and Sir Wilfrid in attempting to undo the errors of which he himself was guilty.

In a most direct way Hon. Mr. McBride was responsible for the objectionable phrase which has been struck out, being in the resolution which went forward to London. He was one of the members who selected the early hours of the interprovincial conference which met at Ottawa last fall to whom were entrusted the task of preparing a resolution embodying the views of the members of the conference on the subject matter of the resolutions adopted at the conference held at Quebec in 1902, which it was intended would be the basis of the 1906 conference.

That committee's report was adopted unanimously, and was to the effect that as subject matter of the resolutions of the Quebec conference of 1902 should be pressed upon the Dominion government under reserve of the right of any province to submit to the Dominion government memoranda in writing concerning any claims it may have to larger sums than those set out.

Thus Premier McBride, by most decisive way tied himself up to the resolutions of 1902, which were rejected by reported to carry with it certain conditions for a radical improvement in the service now furnished. In the great scheme mapped out by Sir Wilfrid Laurier at the Imperial conference for fast communication between England, Australia and New Zealand, via Vancouver, it was required that a faster steamship service should be inaugurated on the Pacific. Twenty-four days is the present time between Sydney and Vancouver and it is desired to cut this down to eighteen or nineteen days that mails can be landed in London from Sydney within twenty-nine days.

Union Steamship Gets Extension of Mail Subsidies and Will Improve Steamers.

(From Tuesday's Daily.) The Canadian-Australian line, operating a steamship service between British Columbia and Sydney, Australia, has concluded arrangements for an extension of mail subsidies for a period of two years from July 31, 1907. Cable advice stating that such an agreement has been made have been received at Montreal from London.

It is understood that James Mills, managing director of the Union Steamship Company of New Zealand, who has been in London for several months in connection with a renewal of the mail contract on this route, was only successful in securing it in the face of rather strenuous competition. Negotiations between the Union Steamship and other transportation companies have been proceeding for months, with an Australian Commonwealth, and for a long time it was by no means certain that the Union company would secure the subsidies.

The granting of a two years' renewal to the Union Steamship Company is

WENT OVER EMBANKMENT.

Seventeen Persons Injured in Train Wreck in North Dakota.

Mt. N. D., June 15.—Seventeen persons were injured in the wreck of the eastbound Oriental Limited on the G. N. R. near Palmero, to-day. Nine cars plunged down a twenty-foot embankment, and all but the mail car burned. Engineer James Longeneau went down the embankment with the locomotive, but escaped injury. Fireman Nolan's foot was injured in jumping as the locomotive tumbled over, but the wreck was raised by a broken rail. The injuries of the others hurt caused mostly of bruises and cuts.

JAP KILLED IN LUMBER MILL.

A Japanese employee of the Fairview Lumber Company was accidentally killed on Friday at the company's mill near the Cambie street bridge in Vancouver. It seems that the deceased was engaged in loading a scow with lumber for the mill when he got caught in the saw and his arms were caught in the chain. He was badly crushed. Upon examination it was found that his heart was crushed and all his ribs broken. He was removed to the hospital, where every possible aid was rendered, but he passed away before he had recovered from his injuries.

NEW UNION PACIFIC STOCK.

Salt Lake, Utah, June 15.—At a special stockholders' meeting of the Union Pacific Railroad Co. here to-day, it was decided to issue \$1,000,000 in new stock. The issue is for the purpose of meeting expenses of improvements, present and prospective, along the line of the Union Pacific.

MORE WITNESSES FOR THE STATE PROSECUTION WINS IMPORTANT POINTS

Drains were sent by Haywood to Jack Simpkins—Former Governor Peabody's Evidence. Boise, Idaho, June 15.—The prosecution in the Steubenburger murder case won its fight for the admission of the contents of the telegram Steve Adams sent from Ogden to the defendant, Haywood, at Denver, in June, 1903, and Detective Pender, of Ogden, was permitted to testify as to the contents of this message. The message was an appeal from Adams to Haywood for money. The state then produced and secured the admission of the letter sent by Haywood to Jack Simpkins at various times in 1904, 1905 and 1906. One was sent just before and one just after the Steubenburger murder, and the purpose for which they were introduced was to show the relations of Haywood and Simpkins, who aided Harry Orchard in the first attempt to kill Steubenburger.

The state next produced the fragments of the pistol and device by which the internal machine was placed in the Victim's mine was set, and this led to a general digression into the whole story of the Cripple Creek strike of 1903-4, in which the defence sought to show violence and incitement to violence by agents and officers of the Mine Owners' Association and high-ranking officials of the militia. Orchard's martial law was declared. Then the play went back to the Peabody bomb to prove its recovery from the Coast of Alaska by the former Governor Peabody, Mrs. Peabody and Miss Peabody, who had seats within the rail, intently watching the production of the bomb casing which so long held tragedy for them.

Charles T. Roach, a plumber, testified that he made the casing of what is known as the "Peabody bomb." It was made to order. He identified the bomb casing, examining it carefully. He said he did not think he could identify the person who ordered it and did not know Orchard.

Miss Cora May Peabody, daughter of former Governor Peabody, was one of the last witnesses at the morning session. She testified to seeing two men near her carriage during her father's term of office. Her mother and sister were with her. Orchard testified that one night he waited to shoot the governor but ladies got out of the carriage.

CONFESSES TO MURDER.

Man Who Surrendered Himself to Police Says He Killed Two People. Los Angeles, June 17.—The man who on Friday delivered himself into the hands of the police, admitting that he had committed a murder in Yatesville, Pa., has been identified as James McNulty, of Yatesville, Pa., by George Martin, formerly of Yatesville. Several years ago, according to Martin, McNulty was next in line to succeed to the position of a woman under a tree was approached from behind and shot in the back. The man who shot him, McNulty recognized the man who shot him, and who subsequently fled the country.

McNulty also confessed to the killing of Kate McDermott, in Yatesville, because, he said, she had persuaded his sister to go to a fortune teller, who predicted his father's death. The latter was accidentally killed shortly afterward.

HEAD HUNTERS OF FORMOSA

DIABOLICAL RACE GIVES NEW TROUBLE

Japanese Authorities Are Making Every Effort to Stamp Out the Practice.

(From Monday's Daily.) Among the gruesome and cold-blooded stories which are told of obscure races on the earth's surface to-day it would be difficult to surpass in its diabolical details the news which was brought to port this morning by the steamer Montezale. It is of the Head Hunters of Formosa, a race in physical formation resembling the Malay, but in inhuman attributes perhaps unsurpassed.

The Montezale called at Formosa on her present voyage to take on board a cargo of tea. The port at which the C.P.R. vessel touched was Keelung, a place which feeds the town of Taipei, the principal city of Formosa. The vessel was there for a couple of days taking on board 1,100 tons of tea, and while there heard some details of a race whose sole ambition is the accumulation of human heads.

Before the Montezale left Keelung news had reached that port of the latest outrage in the interior of the island. The news was that a party of Japanese soldiers and the perpetrators of the atrocious crime had accepted into their municipal government the island of Formosa now belongs to Japan. Since the China-Japanese war and the cession of Formosa to Japan, the island has been the theatre of a reign of terror, and falling extermination, to the far as the Japanese have gained the unenviable title of Head Hunters.

Their efforts have in great measure been in vain. Secure among the mountains and maintaining all the intricacies of a primeval land, the Head Hunters laugh pursuit to scorn. They are now growing bolder and are making raids on the centres of civilization. The blood lust seems to grow with what it feeds on, and the advent of the little yellow man into the island intervals the Head Hunters with a new prey, whereas before the cession of the island they used to hunt each other.

Their far as the Japanese have been able to do is to divide the island into several bands which have a common rallying point. The state next produced the fragments of the pistol and device by which the internal machine was placed in the Victim's mine was set, and this led to a general digression into the whole story of the Cripple Creek strike of 1903-4, in which the defence sought to show violence and incitement to violence by agents and officers of the Mine Owners' Association and high-ranking officials of the militia. Orchard's martial law was declared. Then the play went back to the Peabody bomb to prove its recovery from the Coast of Alaska by the former Governor Peabody, Mrs. Peabody and Miss Peabody, who had seats within the rail, intently watching the production of the bomb casing which so long held tragedy for them.

Charles T. Roach, a plumber, testified that he made the casing of what is known as the "Peabody bomb." It was made to order. He identified the bomb casing, examining it carefully. He said he did not think he could identify the person who ordered it and did not know Orchard.

Her mother and sister were with her. Orchard testified that one night he waited to shoot the governor but ladies got out of the carriage.

DROWNING ACCIDENT.

Logger Loses His Life in the Shuswap River. A sad drowning accident occurred in the river Shuswap, where by a logger working for the Enderby saw-mills, named William Radnor, lost his life a few days ago. The unfortunate man slipped off a log into the swiftly running stream, and was carried down several hundred yards before he struck a log jam. By that time he had become so exhausted that he did not stop to try to save himself, but he was quickly sucked under by the current. A number of his fellow workers witnessed the distressing occurrence but were unable to render any assistance, as they had no boat, and could not otherwise reach him.

LUMBER BROKER'S SUICIDE.

St. Louis, Mo., June 15.—Samuel Maskins, a wealthy lumber broker of Glasgow, Scotland, who has been living at Buckingham Club for a year, committed suicide last night by drinking carbolic acid. The police found no evidence to show the cause of the act.

PRESENTATION TO PASTOR.

The entrance of Rev. W. H. Barracough, B. A., upon his third year as pastor of Queen's avenue Methodist church, New Westminster, was marked by a congregational meeting held on Thursday evening in the schoolroom of the church, by a warm expression of appreciation for his services during the past two years. The expression took the form of a presentation of an address and the pastor in his response during the past two years. The expression took the form of a presentation of an address and the pastor in his response during the past two years.

CHILD FATALLY BURNED.

Toronto, June 15.—Gertie Cogswell, aged three and a half years, was burned so badly yesterday in her home at 40 Niagara street, that she died at 2 o'clock yesterday afternoon in St. Michael's hospital.

PRINCE FUSHIMI'S WESTERN TRIP

Desires to See as Much of Country as Possible—Impressed With Possibilities.

Brandon, June 15.—Now that we are about to leave Winnipeg after a stay of 13 hours, on our journey farther west, we feel justified in making the assertion that H. I. H. Prince Fushimi will not soon forget his visit to the Western metropolis. The programme, while not elaborate, was arranged and carried out in a most interesting and entertaining way to the Prince's party, and it may be said that the impression grows on one daily that the Prince is losing no opportunity to see as much of the chief features of Canada. The visit to the great Ogilvie mills, the horse show and a motor drive through the city were thoroughly enjoyed.

The Prince expressed surprise at finding a city so densely populated, and embodying so great industries in so young a country. The view to the Prince this morning was quite as cordial as the reception. The departure was arranged to take place before the hour of divine service in the cathedral, and a great crowd gathered at the depot, a guard of honor was furnished by the military band, and the sweet strains of the Japanese national anthem the train moved out sharp on time.

The necessary changes in the mode of elections cannot be submitted, he says, because the composition is unsatisfactory on account of the defects in the election laws itself, and declares that to the authority, which granted the first election law belongs the right to substitute new basis of suffrage.

"God entrusted us with imperial authority over our people," his majesty declares, "and before His throne we must answer for the fate of the Russian state. Conscious of this, we have taken a firm resolution to bring to an end the great task of the

Transformation of Russia begun by us and to grant Russia a new electoral law, the publication of which we entrust to the ruling senate. From our loyal subjects we expect a hearty and unanimous service to the motherland, whose sons ever have been the fortress of her power, glory and prestige.

DEGREE FOR HON. MR. LEMIEUX.

Ottawa, June 17.—Hon. R. Lemieux, postmaster-general, will be made an honorary LL. D. and a member of the Senate of Ottawa University at the approaching convocation exercises.

CZAR DISSOLVES RUSSIAN DOUMA

New Election to Be Held Under Revised Laws— Hundreds of Arrests in the Capital.

(From Tuesday's Daily.)

St. Petersburg, June 15.—Emperor Nicholas affixed his signature this morning to an imperial ukase abolishing the elections of members to its successor, which is to meet November 14th, be held under the new election law, which provides against the "submergence of the educated classes by the uneducated masses."

This act constitutes a virtual coup d'etat, and overrides the fundamental laws solemnly proclaimed by its majesty on the eve of the convocation of the first duma, which declared that the electoral law could never be changed without the consent of parliament itself. This breach of the Constitution is justified by the great law of necessity, the advisers of the emperor holding it impossible, under present conditions, to secure a parliament capable of co-operating harmoniously with the crown and rescue Russia from anarchy and revolution.

The session of the council of ministers at which the decision to dissolve parliament was reached lasted from 9 p. m. last night until nearly 4 a. m. today (Sunday). The ministers had agreed upon the terms of the ukase before midnight, however, and a draft of it was taken immediately to Peterhof, where the emperor affixed his signature.

The news of the dissolution was received at 2:40 a. m. to-day, but the meeting was continued until the arrival of the signed document. This document was delivered by Premier Stolypin to the official printers for publication in the Official Messenger and the Russian press this morning.

The imperial ukase is addressed to the ruling senate, and reads as follows: "According to paragraph 105 of the fundamental laws of 1906, we ordain: "Firstly—That the Imperial Douma be dissolved.

"Secondly—That the new elections of members to another Douma be held, beginning September 14th.

"Thirdly—That the new imperial Douma be convoked November 14th, of the present year.

"The ruling senate will not fail to take proper measures to place this in effect.

"NICHOLAS. "P. A. Stolypin, Premier."

The czar's ukase is accompanied by the manifesto setting forth the motives which led the emperor to act. He adverts to the duma's rejection of temporary laws, its refusal to condemn the delay in ratifying the budget, the Revolutionary Spirit of a large portion of its members, the abuse of the right of interpellation, and the failure of the duma to comply immediately with the demand for the election of the fifty-five Social Democratic members charged with conspiracy.

These various evils are ascribed to defects in the electoral law, consequently the emperor decided to change the basis of suffrage so that every part of the Russian population should be represented in the lower house.

The representation of the non-Russian nationalities the manifesto continues, should be decreased in order to prevent these delegates from becoming a decisive factor in purely Russian questions, and elections in the frontier regions, where the standard of civilization is low, should be temporarily suspended.

The necessary changes in the mode of elections cannot be submitted, he says, because the composition is unsatisfactory on account of the defects in the election laws itself, and declares that to the authority, which granted the first election law belongs the right to substitute new basis of suffrage.

BETTER SERVICE TO AUSTRALIA

FASTER VESSELS FOR THE SYDNEY ROUTE

Union Steamship Gets Extension of Mail Subsidies and Will Improve Steamers.

(From Tuesday's Daily.) The Canadian-Australian line, operating a steamship service between British Columbia and Sydney, Australia, has concluded arrangements for an extension of mail subsidies for a period of two years from July 31, 1907.

Cable advice stating that such an agreement has been made have been received at Montreal from London.

It is understood that James Mills, managing director of the Union Steamship Company of New Zealand, who has been in London for several months in connection with a renewal of the mail contract on this route, was only successful in securing it in the face of rather strenuous competition. Negotiations between the Union Steamship and other transportation companies have been proceeding for months, with an Australian Commonwealth, and for a long time it was by no means certain that the Union company would secure the subsidies.

The granting of a two years' renewal to the Union Steamship Company is

reported to carry with it certain conditions for a radical improvement in the service now furnished. In the great scheme mapped out by Sir Wilfrid Laurier at the Imperial conference for fast communication between England, Australia and New Zealand, via Vancouver, it was required that a faster steamship service should be inaugurated on the Pacific. Twenty-four days is the present time between Sydney and Vancouver and it is desired to cut this down to eighteen or nineteen days that mails can be landed in London from Sydney within twenty-nine days.

Under the terms of the new contract faster steamships will be placed on the Pacific and through traffic arrangements be made at present. During the life of the new contract arrangements are to be made for the operation of still faster steamers on the Pacific so that the time between Sydney and London may be reduced to at least twenty-five days.

GREAT OFF AREA OF THIS PROVINCE

J. Moore, One of British Columbia's Earliest Prospectors, Believes Northern Cassiar Will Rival Other Districts.

(From Saturday's Daily.) J. Moore, one of the pioneer gold miners of this province who for 40 years has been continuously engaged in that industry, arrived in the city last night from northern British Columbia.

He is delighted with the Cassiar country and prophesies for it better things than for any other part of the province. Mr. Moore is well qualified to act as a judge for he has traveled through most of the rich mining centres in British Columbia.

Interviewed this morning, Mr. Moore said: "I have just returned from a visit in the Telegraph Creek division of the Cassiar district in northern British Columbia after an absence of 33 years. I left here on the 18th of last month on the Princess May for Wrangell, calling at several places in route. I notice a great change for the better. Wrangell can now boast of a first class hotel under the management of John G. Grant, assisted by Fred Lynch, night clerk. The employees of the hotel which is run on the European plan are very obliging and attentive to guests. Wrangell as a whole is improved considerably. After remaining a few days in Wrangell waiting for the Mount Royal to ascend the Stikine river, I finally left for Telegraph Creek.

"The scenery from Victoria to Wrangell along the British Columbia coast is something grand and will become a great tourist route. The ascent of the Stikine river, passing glaciers and mountain scenery is a sight well worth seeing.

"When we arrived at Telegraph Creek the whole population turned out to meet us with flags flying from flag poles. It was the first trip of the river boat for the season, May 30th. There was great rejoicing that evening, the residents having a regular feast of dancing for the other fruit landed from the steamer. The principal business done here is by the H. B. Co. and the manager at this post, L. Dixon, leaves nothing undone to accommodate and oblige the traveling public.

"As I am more interested in mining I will confine myself to the mines and prospects of the Telegraph Creek division of the Cassiar district and I may say here that the best part of the great lode mining district of this province is British Columbia, when properly opened with railroad transportation. I am speaking now as an explorer and prospector of 55 years experience, 49 of which I have spent in British Columbia.

In support of this view Mr. Moore called attention to the report of Dr. G. M. Dawson in 1878. The latter said in his report: "The coast ranges where traversed by the valley of the Stikine and again where crossed still further north by the Chilkoot pass are found to consist for the most part of granite and granitic rocks almost invariably of gray color and frequently rich in hornblende. With these are occasionally found stratified masses of mica and hornblende schists and both these and the granites are frequently traversed by pegmatite veins, diabases and intrusive masses of coarse diorite.

ARRIVED LATE. REPUBLICS ARE AGAIN AT WAR

Nova Scotian Fishermen Secured One of Largest Catches of Mackerel in Recent Years. Halifax, June 14.—After abandoning hope that the much prized mackerel would strike in on Nova Scotia this season, the fishermen on the coast west of Halifax were rewarded by one of the richest catches in recent years.

Washington, D. C., June 14.—A sanguinary war, perhaps two wars or more, with as many revolutions, is what the American state department officials now expect to mark the summer of 1907 in Central America.

WELCOMED IN MARITIME TOWN

HON. W. TEMPLEMAN ON TOUR IN EAST Presented With Address and in Reply Emphasized Importance of B. C. Fisheries

Campbellton, N. B., June 14.—Hon. Wm. Templeman, Minister of Inland Revenue and Acting Minister of Marine and Fisheries, who is now on a visit of inspection of the lower St. Lawrence and vicinity, was the recipient of a cordially worded address of welcome upon his arrival at the fishing port of New Carlisle, Bonaventure county, this afternoon.

In the course of his reply, Hon. Mr. Templeman commented on the great progress of the fisheries in the Atlantic coast, and took occasion to explain the vast wealth of the fisheries of British Columbia, which he said were unsurpassed and were being more largely exploited each year.

London, June 15.—The Globe, the oldest evening paper in England, has been purchased by Hildebrand Harnsworth, brother of Lord Northcliffe. The paper will be taken place to our old traditions, and no change is contemplated in our policy.

END OF THE DOGMA IS NEAR AT HAND

Lower House Rejects Premier Stolypin's Ultimatum and Dissolution is Only Question of Hours.

St. Petersburg, June 14.—The resolution of the lower-house of the Russian parliament appears to-day to be a question of only a few hours, or at most a day or two.

An extraordinary session of ministers is being held to-night to discuss the decision of the lower house. Stolypin's Threat. St. Petersburg, June 14.—Five minutes before the sitting of the lower house of parliament opened to-day, President Golovine received a letter from Premier Stolypin, demanding in accordance with the regulations that the house go into executive session to discuss weighty matters of state.

Winnipeg, June 15.—It has turned out that robbery was the motive for a crime committed in Elmwood last Tuesday, when Joseph Kychk, of Winnipeg, who has been identified by his brother, was found insensate with a bullet wound in his head. The victim, who is still in a critical condition, had gone to collect a note of \$100 from a fellow-countryman and was known to have had about \$450 in his pockets in cash and notes. This has disappeared. He was picked up quite close to the farm on which he was to collect.

DEATH SENTENCE CARRIED OUT

Russian Colonel Slain in St. Petersburg—Assassin is in Custody. St. Petersburg, June 14.—Col. Kotolof, deputy commandant of the port of St. Petersburg, was murdered this morning by a workman in the admiralty section of the city.

New York, June 12.—August Meyer, a well-to-do shoe dealer of Brooklyn, was severely beaten by highwaymen and died a few hours later in the hospital. One of the alleged assailants, Nicholas Fenimore, 22 years, is under arrest. Two others escaped.

SCHMITZ MAYOR IN NAME ONLY SUPERVISOR MAY ACT TEMPORARILY

Accused Asserts His Innocence and Declares He Will Fight the Case. San Francisco, June 14.—According to a statement made to-day by Acting District Attorney Henry, Eugene E. Schmitz, being convicted, is mayor of San Francisco in name only.

San Francisco, June 14.—According to a statement made to-day by Acting District Attorney Henry, Eugene E. Schmitz, being convicted, is mayor of San Francisco in name only. Though unable to perform the duties of his office, under the law of California, Schmitz, it is said, still retained the office.

San Francisco, June 14.—According to a statement made to-day by Acting District Attorney Henry, Eugene E. Schmitz, being convicted, is mayor of San Francisco in name only. Though unable to perform the duties of his office, under the law of California, Schmitz, it is said, still retained the office.

San Francisco, June 14.—In refusing to grant bail to Mayor Schmitz to-day, Judge Dunne said: "In every criminal case after conviction by a jury the defendant is ordered into the custody of the sheriff. Any other disposition of this defendant certainly would have to be preceded by a proper and formal showing. This is a consideration I should not even allow the prosecution to waive."

At a recent meeting of the lighthouse board held at Ottawa, the question of still further rendering the waterways along the seaboard of British Columbia safe for mariners was fully discussed and an extensive list of aids to navigation was submitted to the board by Captain Troup, the British Columbia representative.

At a recent meeting of the lighthouse board held at Ottawa, the question of still further rendering the waterways along the seaboard of British Columbia safe for mariners was fully discussed and an extensive list of aids to navigation was submitted to the board by Captain Troup, the British Columbia representative.

COWICHAN RIVER IS IN NO DANGER

The Dominion Government Has Taken Precautions By Which it Will Be Improved for Sportsmen.

(From Friday's Daily.)

There seems to be some apprehension with respect to the lease which has been granted by the Dominion government to the Capital Canning Company to fish for Cowichan salmon.

The government, as has been announced previously in the Times, took every precaution to not only protect the river fishing for the sportsmen, but to increase its value from that standpoint.

A most important feature of the lease is that it requires the lessee to build immediately and operate a large salmon hatchery, of not less than ten millions capacity.

The hatchery is directly under Dominion supervision, some of its officials may, indeed, devote part of their time to aiding its operation, as the eggs of steel-heads, spring salmon and finer species of sea trout and river trout will be hatched in it, though the lessee will also hatch cohoes, dogsalmon, etc.

The netting to be carried on will not interfere with spring salmon, steel-heads and trout, as no spring salmon are to be taken before July 1st, and steel-heads are not to be taken at any time, both these fish if accidentally taken to be liberated alive.

Small salmon and the fine gamey trout of the Cowichan will pass through the large meshes of the nets permitted under the license which no lessee are required to take out. The lessee thus binds themselves to take none of these fine game fish, and the Indian interests too are safeguarded, while they are encouraged to engage in the fishing and in working for the canning and packing establishments. All the protective laws of the Cowichan are to be enforced on the Cowichan river.

Every one who knows the famous river knows what fine sport the springs afford during the early months of the year, on to say July, while spring springles 5 to 12 pounds weight abound in the months of June, July and August.

From the middle of November to April, steel-head fishing is at its best and sea trout are best from April to November. The lessee cannot take these under any consideration—these are reserved for the angler. The cohoes from early September to the end of November do not rank with springs and steel-heads. Cohoes are so plentiful that the sportsmen will get their full quota, even if they process take and confer benefits to the dog salmon and humpback salmon.

which the angler views with contempt will be utilized. These before salmon under the lease, will no longer go to waste, while all the game species are, as shown above, amply protected.

The Ottawa government for nearly 40 years has issued leases on eastern rivers with the best results to sportsmen. The Moose river, one of the best salmon rivers in Quebec, has been commercially fished by Messrs. Holliday Brothers, but under the wise provisions of a lease it has been preserved and improved for the salmon angler. Leases are indeed, the only safe method of preserving salmon rivers of limited capacity, and the public gain is incalculable, as resources otherwise wasted are utilized, while the angler receives full benefit.

The case of the Moose river is very similar to that of the Cowichan. A lake is situated at its head similar to the Cowichan lake, so that the results on the Moose should be followed very closely in the Cowichan river when similar methods are adopted.

As Mr. Barker, manager of the British Columbia Packers' Association told the fisheries commission in November, 1905: "It is a very wise government which gives an exclusive right where there is only a pack of 8 or 10 thousand cases of salmon. If it were divided up to two lessees, both would be liable to overfish. The Nimpkish river is a splendid object lesson, it supports a profitable industry, and has improved the abundance of fish."

The Cowichan river is in no danger—no canner only will operate, the proprietors of which are bound to protect the sportsman's interests, while the river has long been famous indeed, increasing angling facilities, stocking it with fine fish, and yet utilizing several runs of the salmon of no value to the angler, and which at present are wasted and lost.

Very schools of dog salmon, sea trout, etc., have been going to waste, and the granting of the Cowichan lease to a reliable firm like the Capital City Canning and Packing Company prevents this waste and by a series of strict and wise provisions safeguards the interests of the anglers, as well as the results of the Japanese residents of the United States were involved, for some time the administration has been impatient and irritated by the persistence with which these incidents have been pressed to its attention.

Press Opinion.

Tokio, June 14.—The Mainichi, published at Osaka, with a circulation of 150,000, expresses anger at the reported recent attacks on a Japanese horiculi, which has been published in San Francisco at Berkeley, Cal. It says: "The outrage demonstrates the impotency of the California authorities to protect our countrymen from the lawless and irresponsible actions of a few irresponsible persons."

Rideau Hall Alterations.

The government is arranging to make alterations and extensions at Rideau hall, the residence of Canada's governor-general. The exterior is to be entirely changed. Tenders will be called early for the work. One hundred thousand dollars is available for the work beginning this year. An imposing structure of classical design of grey granite will replace the present unsightly structure. The brick casing of the ball room and tennis court which form two wings of the present building, are to be removed and replaced with granite walls. There will be a great entrance hall and promenade one hundred feet long and one hundred feet deep. The floor above will be divided into dressing rooms and toilet rooms for the use of the guests at balls and receptions. From the ground the hall will rise three stories to a dome. There will be two elevators. At present there are none. A feature of the interior will be a magnificent marble staircase leading from the promenade to the floor above. It will take a year to complete the work.

Freedom of Dublin.

Nationalists Will Carry Proposal to Make R. Croker a Freeman of Irish Capital.

London, June 15.—The proposal to bestow the freedom of the city of Dublin on Richard Croker will be contested, but probably will be carried by the Nationalists, who have a large majority in the council, and who were originators of the proposition. The motion, of which notice has already been given, is in the following terms: "That Richard Croker, an Irishman, in America, and his intention to spend the remainder of his life in the United States, and support the Irish parliamentary party in its struggle for Home Rule, he is hereby constituted an honorable freeman of the city of Dublin."

Bomb on Track.

San Francisco, June 15.—With intent to destroy a San Bruno car, some miscreant placed a dynamite bomb on the car tracks between Fifteenth and Sixteenth streets during the early hours of yesterday morning. Had it not been for a timely discovery by the police before the approach of the first car a frightful catastrophe might have occurred.

MR. CHAMBERLAIN AT HOME.

His Health Is Reported to Be Improving.

Birmingham, Eng., June 15.—Mr. and Mrs. Joseph Chamberlain arrived here today from London. The health of Mr. Chamberlain is improving, but his comparative helplessness was a great shock to his friends who assembled at the railroad station to meet him. All hats were raised in respectful silence as his carriage drove away.

LOS ANGELES TRAGEDY.

Lodging-House Keeper Killed His Wife and Then Blew His Head Off.

Los Angeles, June 15.—Frank T. Edson, lodging-house keeper, yesterday shot his wife and instantly killed her, and then blew his head off. He was 50 years old and his wife 45. The couple frequently quarrelled over financial matters. They came from Oskaloosa, Iowa, some time ago.

KILLED HIS DAUGHTER.

Forced Nine-Year Old Girl to Drink Carbolic Acid.

Indianapolis, Ind., June 15.—Robert Jolly killed his daughter Gladys, 9 years old, today, by forcing carbolic acid down her throat. He had been drinking and when arrested talked foolishly. It is believed his mind is affected.

THE LAUNCH DISASTER.

Body of One of the Victims Has Been Found.

Norfolk, Va., June 15.—A report from Jameson's expedition, yesterday, stated that the body of one of the eleven who were lost from the launch off the battleship Minnesota was today found floating in Hampton Roads. The body is believed to be that of the coxswain of the launch.

JAP INCIDENTS IN CALIFORNIA

AMBASSADOR CALLS ON SECRETARY ROOT

United States Administration Irritated By Persistent Reports Regarding Trivial Affairs

Washington, June 30.—Ambassador Aoki got something to think about when he visited Secretary Root yesterday afternoon to make formal complaint because small boys broke a few panes of glass in the greenhouse of a Japanese at Berkeley, Cal. He emerged clearly ruffled and refused to talk.

Secretary Root also refused to talk, but undoubtedly the Japanese ambassador Aoki regarding the action of the Japanese in magnifying to an international question every trivial case in which Japanese residents of the United States were involved, for some time the administration has been impatient and irritated by the persistence with which these incidents have been pressed to its attention.

Press Opinion.

Tokio, June 14.—The Mainichi, published at Osaka, with a circulation of 150,000, expresses anger at the reported recent attacks on a Japanese horiculi, which has been published in San Francisco at Berkeley, Cal. MAYOR SCHMITZ FOUND GUILTY

WAS TRIED ON A CHARGE OF EXTORTION

Sentence Will Be Passed June 27th --Will Appeal to Higher Court.

San Francisco, June 14.—Twelve jurymen last night pronounced Mayor Eugene Schmitz guilty of extortion on the second ballot.

The verdict would have been unannounced had it not been for a mistake on the first ballot.

A thousand spectators showed signs of approval. Ejaculations "good" and "shame" could be heard.

Sentence will be passed on Wednesday, June 27th.

Schmitz is downcast, but says he will appeal to the highest court.

Ordered to Jail.

San Francisco, June 14.—Mayor Schmitz has been ordered to jail by Judge Dunne, bail having been denied.

MILLIONS FOR STEEL CARS.

Large Order Placed By the United States Steel Corporation.

Chicago, June 13.—Contracts for the construction of 6,000 steel cars aggregating in cost \$6,500,000 have been placed with the United States Steel Corporation, this is one of the largest orders for steel products and the largest for steel cars that has been placed since the steel car construction has been an industry of the Pittsburgh district. To fill the orders about 20,000 tons of steel plates will be required.

The Union Railroad of the Carnegie Steel Company, a subsidiary of the United States Steel Corporation, has ordered for 1,500 steel hopper cars to the Pressed Steel Car Company of Pittsburgh, and 800 steel hopper cars and 500 steel dump cars to the Standard Steel Car Company.

The Chicago, Lake Shore & Eastern Railroad, another subsidiary of the United States Steel Corporation, has awarded a contract to the American Car & Foundry Co. for more than 3,000 steel cars for use on that system.

FOREIGN TRADE OF DOMINION

STATEMENT FOR THE PAST TWO MONTHS

One Hundred Thousand Dollars to Be Spent in Improvements at Rideau Hall.

Ottawa, June 14.—Canada's foreign trade for two months of the fiscal year, April and May, shows an increase of \$1,698,000 over the same two months of last year. The total trade was \$48,071,678. There was an increase in imports of over \$1,222,984, and a decrease of \$5,228,890 in exports. The decrease in exports was due to the backward season and labor disputes in Montreal and elsewhere. The output of the mine shows an increase of three-quarters of a million and all other branches show decreases.

Rideau Hall Alterations.

The government is arranging to make alterations and extensions at Rideau hall, the residence of Canada's governor-general. The exterior is to be entirely changed. Tenders will be called early for the work. One hundred thousand dollars is available for the work beginning this year. The health of Mr. Chamberlain is improving, but his comparative helplessness was a great shock to his friends who assembled at the railroad station to meet him. All hats were raised in respectful silence as his carriage drove away.

ENDED WORRY BY SUICIDE.

Two Old Residents of Stratford Took Their Lives by Drowning Themselves.

(Associated Press).

Toronto, June 14.—Two suicides of old people took place at Stratford yesterday. Samuel Rankin, about 80 years old, left his home at 2 o'clock yesterday morning, and last night his body was found in the river. The cause of the house-keeper's having committed suicide, for some time he had been brooding over financial difficulties which no doubt caused him to commit the rash deed during a state of temporary insanity. He was highly esteemed and had been in good circumstances before he met certain reverses in business speculation.

Mrs. Patterson, aged about 70, was found drowned in Victoria lake yesterday, all indications pointing to suicide while the victim was in a state of temporary insanity. Deceased had been brooding over the illness of her daughter.

UNIVERSITY APPOINTMENTS.

Frederick, N. B., June 14.—Dr. Philip Cox, of Chatham; Wm. P. Cartmel, of Greenwick, Eng.; and Charles McDermott, of London, Ont., were appointed by the senate of the University of New Brunswick today to fill the vacancies in the department of natural history and geology, electrical engineering, and chemistry respectively.

The directors of the Jubilee hospital at their meeting last night stated that a grant of between \$15,000 and \$20,000 from the provincial government is absolutely essential to enable them to make the improvements necessary to keep the hospital up-to-date and provide for the right and proper treatment of the public in cases of illness or accident; that owing to the lack of suitable female labor in the country women should be brought from England; and that their present laundry was in such a dangerous condition that it was not warranted the sum of \$400 for repairing, cementing and brick work. At the meeting last night the following were present: At the board, Messrs. J. M. Lewis, Campbell, Brett, Bone, Helmreich and the medical officer, Dr. H. M. S. Shearwater sent in a communication which he had received from the admiralty asking for particulars of terms under which, in cases of necessity, patients from any of His Majesty's ships could be admitted into the hospital, and if extra charges were made and what accommodation was provided. The admiralty will be advised that there is a standing scale drawn up by the hospital and that work on the subject and that such patients have always been charged one-third of the regular charges, \$10 for an operation and \$2.50 a day.

As to accommodation, the rule was to give any commissioned officer a private room, a N. C. a "semi-room" and the petty officers and men were accommodated in the ward. Rates for all are therefore provided, and it was mentioned that two marines have received treatment since the rule has been in force.

The attention of the board was drawn to the fact that repairs and improvements, estimated to cost \$100, were needed to the laundry and boiler house, the present laundry being too small for the work.

The board agreed that the structure was not worth repairing, and that the structure on which the chimney stood was threatened with fracture of the hip, because it was standing on rotten timbers. It was described as a rotten old shack. Moreover it was doubted whether the present building could be repaired sanitary, and it was very liable to be condemned by the health officer at his first inspection. It seemed to the board that the best thing to do would be to build an up-to-date laundry and boiler house suitable to the requirements of a large hospital. The matter was referred to a special committee. Messrs. Bone and Day were appointed as members of a committee to consider and report on the matter at the next meeting of the board.

The annual general meeting of the board will be held in the city hall at 4 p.m. on Friday, the 28th of June.

FATAL RESULT OF ACCIDENT.

Vancouver, June 13.—William McColl, assistant manager of the Imperial cannery, who was injured in a car collision on the Eburne line last night, died today. His skull was fractured. J. Gow, a butcher of Eburne, received a compound fracture of the hip. A Chinaman was also badly injured. The accident is said to have occurred through the passenger car Eburne, which left here, overrunning its orders. The crew were told to cross at Ninth avenue, but went past and were rounding a curve just outside the city limits when the collision occurred. The car, with two heavy work cars attached coming towards them. Both were going down grade towards a dip and could not stop in time to prevent collision. The freight telescoped the vestibule of passenger car, but the motorman of the car appears to have jumped and escaped with slight injury.

The passengers were thrown forward by the shock, and the injuries followed. Mr. McColl was stepson of George Turner, of New Westminster, surveyor-general in the early days. He leaves a wife and two children. He was a brother-in-law of Mrs. McLagan, formerly proprietor of the World, and of S. Maclure, of Victoria.

THE ATTEMPT TO KILL BRADLEY

STATE TO INTRODUCE MORE EVIDENCE

Number of Witnesses from California Will Testify in the Hayward Case.

(Associated Press).

Boise, June 14.—Additional evidence bearing on the story told by Orchard of his attempt to kill the attorney, of Frisco, will be introduced by the state at the Hayward trial today. Laurence L. Guibbini, the proprietor of the store near the Bradley home, is to be the first witness. It was here Orchard says he made his rendezvous when he was watching the Bradley home.

Guibbini, an Italian, has been here for several days. He is a small man, quick and intelligent. Orchard, or Berry as he called himself, frequented the Guibbini store and made himself very popular with the family. It was the proprietor who went out and secured a room opposite the Bradley house from which Orchard said he could look into

THE REGIMENT TO BE AT HOME

FRIENDS WILL BE RECEIVED IN CAMP

Militia Will Parade to St. Paul's, Esquimalt, for Divine Service To-Morrow.

With splendid weather and other conditions perfect the Fifth Regiment is enjoying its annual training in camp. The medical inspection yesterday afternoon proved that the sanitary arrangements of the camp were perfect. Lieut.-Col. Grant, P. M. O., expressed general satisfaction with the conditions.

There will be a church parade to-morrow morning at 10.30. Services will be held in St. Paul's, Esquimalt. To-morrow morning also there will be the usual prize competition for the smartest tent. Only the strict regulation arrangements of the contents of the tents are allowed; no civilian embellishments being under any circumstances permitted. The conditions of the competition would disqualify any "improve" on the regulations of military discipline. The tents therefore always present a smart and serviceable appearance, while at the same time there is considerable variation possible in the ideas of the men themselves for the national precision and order to the precise and best position for the symmetrical arrangements of their camp furniture, rifles, blankets and accoutrements. The tents are then left as they were arranged for the rest of the day, and are carefully scrutinized and commented upon by the civilian friends of the regiment.

The public will have a great day to-morrow at the band concert in the afternoon between 2.30 and 5 p.m. The officers and men will be "at home" to their friends, and there is sure to be a good turnout of gay and happy crowds of Victorians at the beautiful grounds of the camp of the Fifth Regiment. It is impossible for too many to come. "The more the merrier" being the maxim of the regiment.

The camp this year is undoubtedly far ahead of preceding years in the attention to details, the discipline and the cleanliness of the men in their work. Each morning the inspection finds the whole camp cleaner and better than before. The men are as keen as they can be to make a record year for themselves and their regiment. The men this year are doing remarkably well, there are very few absentees. One who has been remiss in his duty has been brought before the commanding officer and confined to camp lines for two days.

Next week a similar routine of duty will be daily observed as during the past week. The men are looking forward to their annual firing of the big guns. About 60 rounds of ammunition will be fired.

Citizens may watch the results from the proximity of the forts, when they will be able to note each projectile as it reaches the water. The date of the firing will be probably Tuesday. The date for the field gun firing has not yet been fixed.

The regimental order for to-day is as follows:

Orderly officer for June 15th, Lieut. L. H. Garnett, in place of Lieut. H. H. Woolson.

Next for duty, Lieut. H. H. Woolson.

The paymaster will attend on Wednesday evening next to receive pay sheets and efficiency sheets from C. O. companies.

The medical officer will attend on Thursday evening next to receive medical officer's return.

CLUB TO MAKE A RUN TO ALBERNI

Local Motorists Have Decided to Have a Three Days' Trip

By Auto

At a meeting of the Victoria Motor Club, held at the residence of A. E. Todd Friday evening, following members were elected: Mrs. Robin Dunsmuir, Mrs. C. F. Todd, Mrs. Col. Hall, Mrs. Dr. Nelson, A. B. Van Decker, C. W. Brown, John Arbuthnot, E. V. Bodwell, H. Bullen, Arthur Robertson, T. C. Penderay, A. V. Trench.

It was decided to have a club run to Alberni, June 25th, 30th and 1st of July. This run is an exceptionally fine one along a route of unrivalled scenery, being, as it is, through some of the most beautiful spots to be found on Vancouver Island.

The subject of the road over Sooke summit was again before the meeting, and the Motor Club was thoroughly in line with the present action of the Board of Trade in approaching the government in order to make these most necessary improvements for facilitating and expediting the transit along the road to Duncan.

The club are going out on the 22nd to put up "GO SLOW" notices along the Goldstream and Methoish roads.

In the full court Friday afternoon argument was concluded in the appeal in Snow vs. Crow's Nest Pass Coal Company. Judgment was reserved.

D. H. Bale, the local contractor, has received the plans for his handsome residence to be built on Ribbet street, for G. W. Smith. He has also been given the work of erecting a modern bungalow on Linden avenue for Mr. Percy.

ON WAY WEST.

Prince Fushima and Party Enjoy Trip Over the C. P. R.

Schreiber, Ont., June 14.—Our first night's run on the C. P. R. made us on time, on one of the most beautiful mornings we have experienced for many weeks in eastern Canada, and the indications are that H. I. H. Prince Fushimi will be favored, as were T. R. H. the Duke and Duchess of York, with fine weather during his journey across Canada.

As the party were breakfasting at Heron Bay station was passed and the broad expanse of Lake Superior was before us. Here the conversation was at once changed, and great delight was expressed at the beauty of the scenery, this section of the lake with its dotted islands looking very beautiful members of the party expressed great surprise that the shores and islands were not covered with summer cottages.

The prince is taking the greatest interest in the country, and is much impressed with the immensity of the work that has been accomplished by the C. P. R. company. Through the different members his suite has piled the officials of the company with constant questions, and is evidently anxious to learn all he can of Canada and its greatest railway.

The members of the party have expressed the greatest gratification at the compliment paid them in naming the two new cars in the train the Yodogawa and the Kagoshima, the former being named after the river running through the city of Fushimi and the latter being the name of Mr. Nagasaki's native province. One of the principal members said that it was the greatest compliment that had been paid to the prince and his suite. Last evening the prince gave a small dinner party in his car, the Cornwall, which Mr. Pope and Mr. Baker had the honor of being invited.

Visited Elevators.

Port William, June 14.—The Japanese royal train arrived at Port William to-day. H. I. H. requested that he might have a few minutes' stop for exercise quietly and this was of course at once arranged for. The train will leave here at 1:30 o'clock and stop at the West Point siding in a few moments after the prince and his party, accompanied by the mayor and councillors, in charge of Mr. Baker and Mr. Taylor, left for an inspection of the C. P. R. elevators. These enormous structures have a capacity of 12,000,000 bushels of grain, and the necessary equipment of machinery, etc., which enable them to handle daily.

It was expressed by one gentleman: "This has been our greatest and grandest practical evidence of the wonderful richness and vast extent of your great northwest land," and he appeared to be more anxious than ever to view, as far as the eye will carry, the countless acres of the richest wheat belt in the world.

The weather is exceedingly warm, but the party has suffered little by the heat.

CANADIAN NOTES.

Two Men Drowned in Log Drive—Metal Workers' Strike Most Attend Examination.

Fort William, June 14.—A drowning accident took place in the Kaminis which two men, Horner Voyer, aged about 30 years, foreman for Kelly and Charles contractors, and a man named Quilley, about 25 years of age, employed by the same firm, lost their lives while engaged driving a boom across the river near Little Horsehoe rapids.

Tried to End Life.

Edmonton, June 14.—This afternoon John Hopman, cashier of the wholesale firm of Revillon, St. V. Wood, attempted suicide. He is now in the General Hospital.

Remanded.

Winnipeg, June 14.—Frank Nugent, of Canford, charged here with attempting to secure several thousand dollars by forged bills of lading from local grain merchants, was remanded yesterday at the request of the crown.

Takes New Position.

Winnipeg, June 14.—Dr. A. G. Hopkins, editor in chief of the Free Press Advocate, Winnipeg, resigned to-day to take a position on the Dominion department of agriculture, health of animals and fisheries.

Veterinary officer for the government in British Columbia, with headquarters in Vancouver, until Dec. 1904.

Will Visit Co.

Winnipeg, June 14.—Hon. Albert Brasse, accompanied by Mrs. Brasse and Major and Mrs. R. A. Scott, arrived from Regina, Sask., this morning. He is a son of the late Sir Thomas Brasse, and has represented the Banbury division of Oxfordshire in the Conservative interest. He is a keen sportsman. He is going to the coast.

Ordered to Attend.

Toronto, June 14.—For refusing to answer questions as to the disposition of funds, a motion was made at Osogood Hall to-day on behalf of the Metallic Roofing Company to commit Richard Russell, treasurer, and Samuel Cox, financial secretary, of the Amalgamated Sheet Metal Workers' Association. Justice Clute reserved judgment, but ordered that the officers attend for examination and answer questions put.

Ranch Herd Sold.

Calgary, June 14.—The Waldron ranch herd has been purchased by a Calgary capitalist, whose name has not been disclosed. The price paid is \$250,000.

DELICATE CHILDREN.

Baby's Own Tablets have done more than any other medicine to make weak, sickly children well and strong. And mother can use them with absolute confidence, as she has the guarantee of a government analyst that the Tablets contain no opiate or harmful drug. Mr. Robert Fry, Little Canada, N. B., writes: "I have used Baby's Own Tablets for colic, teething troubles and indigestion, and am more than ever convinced of their value. Mothers who use this medicine will not regret it." Sold by medicine dealers or by mail at 25c. a box from The Dr. Williams Medicine Co., Brockville, Ont.

DISMISSED CASE AGAINST CHINAMAN

Magistrate Came to Conclusion Omission to Feed Pigs Was Due to Mistake.

Magistrate Hall this morning dismissed the case against Jim Fook Yung, a Chinese merchant in the city, in which the defendant was charged with wanting cruelty to ten pigs through neglect to feed them. The case was remanded from yesterday in order that the prosecutor, A. J. Dallin, of the S. P. C. A., might obtain the evidence of H. Bishop, C. P. R. freight agent. The case for the prosecution was that the defendant, although notified of the arrival of the pigs, neglected to take them away for several days and did not feed them in the interim.

H. F. Bishop said that the pigs were landed from the steamer "Wain" last Saturday night. No notice was sent to the defendants until Monday, when a phone message was sent to the effect that the pigs were at the Kingston street corral, and that they had been fed a sack of potatoes by the day watchman at the wharf. On Tuesday evening witness heard that the defendant had fed some bread to the animals. He could not say whether this was true or not.

Lim Bang, the defendant's son and representative, was asked the witness his pointed questions causing much comment in the court. W. Thompson, day watchman at the wharf, was recalled by the prosecution to give evidence regarding the condition of the pigs while in the corral. "They did not eat that they were hungry," asked Mr. Dallin. "Well, they had nothing to eat for forty-eight hours. They made a noise about it, but I'd make a noise myself if I had nothing to eat for two days, wouldn't you?" was the reply.

Lim Bang, in cross-examining the witness, pointed out that there were several discrepancies in the evidence given by the various witnesses for the prosecution. He asked the witness where he obtained the potatoes to feed the pigs from. "I got them in the shed," witness replied. "Where were they?" asked Lim Bang. "I don't know. I just fed the pigs for humanity's sake, and didn't worry over who owned the potatoes," was the reply. "Then you stole them, eh?" came the query.

WILL REPRESENT THE B. C. DRUGGISTS

John Cochrane Elected to Attend Meeting at Toronto—Officers of Provincial Organization

The annual meeting of the banquet of the British Columbia Pharmaceutical Association held in the St. Francis hotel, Vancouver, on Wednesday evening, proved a most successful affair.

At the meeting a communication was read from the president of the Nova Scotia Pharmaceutical Association suggesting that an association be formed in the whole province which should be formed and proposing that a meeting of delegates from the various provincial associations be held in Toronto during the coming September, while the Industrial Exposition is in progress. After a short discussion it was decided that the delegates should be invited to express the local association's hearty endorsement of the proposition at a meeting that might be called, and John Cochrane, J. R. McEae, R. Campbell, T. M. Henderson, H. J. Rogers, J. L. White, Wm. Henderson, James Emery, J. R. Sutherland, M. S. McDowell, T. R. Robinson, J. C. Knowlton, S. Curtis, R. R. Burns, Charles Nelson, G. A. McKinnon, G. A. Laidlaw, R. Webb (Winnipeg), J. Netherby, W. Nalmsith, H. M. Ferguson, W. A. Acton, George Loyal, F. G. Wood, C. J. McKay, V. Brinton, W. E. Davidson, J. M. Atkins, H. H. Watson, W. M. Harrison.

The election of officers resulted as follows: President, R. R. Burns, of Armstrong; vice-president, C. E. Netherby, of Vancouver; secretary, S. Curtis, of S. Knowlton, of Vancouver; councillors, Messrs. R. R. Burns, John Cochrane, E. S. Knowlton, W. M. Harrison, J. R. McEae, R. Campbell, T. M. Henderson, H. J. Rogers, J. L. White, Wm. Henderson, James Emery, J. R. Sutherland, M. S. McDowell, T. R. Robinson, J. C. Knowlton, S. Curtis, R. R. Burns, Charles Nelson, G. A. McKinnon, G. A. Laidlaw, R. Webb (Winnipeg), J. Netherby, W. Nalmsith, H. M. Ferguson, W. A. Acton, George Loyal, F. G. Wood, C. J. McKay, V. Brinton, W. E. Davidson, J. M. Atkins, H. H. Watson, W. M. Harrison.

The leader of the business meeting, the annual banquet was held, at which the following, and many others, were present: Messrs. T. A. Muir, C. D. Gilliland, J. R. McEae, R. Campbell, T. M. Henderson, H. J. Rogers, J. L. White, Wm. Henderson, James Emery, J. R. Sutherland, M. S. McDowell, T. R. Robinson, J. C. Knowlton, S. Curtis, R. R. Burns, Charles Nelson, G. A. McKinnon, G. A. Laidlaw, R. Webb (Winnipeg), J. Netherby, W. Nalmsith, H. M. Ferguson, W. A. Acton, George Loyal, F. G. Wood, C. J. McKay, V. Brinton, W. E. Davidson, J. M. Atkins, H. H. Watson, W. M. Harrison.

The toast to the Association was responded to in a witty vein by Mr. H. H. Watson, who alluded to the legislation which had been enacted at the instigation of the association through its parliamentary agent, Mr. Cochrane. Sister Associations were responded to by Mr. R. Webb, a newcomer from Winnipeg, who voiced the greetings of the prairie city in a well-rendered vocal selection. The wholesale trade was represented by Mr. T. Henderson, and the retail trade by Mr. D. S. Curtis, of New Westminster. The examiners were responded to by Mr. John Cochrane. He advocated the maintenance of a high standard by this board rather than standing by idly with other provinces. A good point was also made by this speaker when he suggested that the association should press for such arguments being made in the proposed provincial university as would be of benefit to students in pharmacy. The toast to The Ladies was taken up by Mr. McDowell, after which the members adjourned, to meet next year in New Westminster.

PARALYZED WITH LUMBAGO.

The surest relief is "Nervine." It sinks to the core of the pain, loosens the muscles, gives relief at once. No other liniment one-fifth as strong as Nervine. Try a 25c. bottle.

THE COMING RACES.

Perfect Arrangements Have Been Made By the Committee in Charge.

Owing to the fact that the band of the Sixth Regiment is unable to come to Victoria for the Friday of the race meeting owing to the visit of Prince Fushimi to Vancouver, other arrangements are being made for another well known band to supply its place. The assistant secretary of the Victoria Driving Club, A. L. Eaton, is leaving this city for Nanaimo. He will endeavor to arrange for an excursion from Ladysmith and Nanaimo for Saturday.

Great efforts are being put forth by the business men in their endeavors to make the race a success. Two thousand five hundred dollars has already been subscribed, a sum nearly sufficient to meet all the calls of the race gathering. The committee have in consequence of the weather could not issue any more shares. They are certain that they will have ample funds at their disposal to enable them to meet all the calls of the race gathering. The weather could not issue any more shares. They are certain that they will have ample funds at their disposal to enable them to meet all the calls of the race gathering.

Horses are arriving by every boat. Animals and entries are being made daily for the different classes. That every class will be well represented is a certainty.

A special committee has been appointed to superintend and arrange for the "policing" of the ground. So the public can feel assured that under the superintendence and personal exertions of the committee and through the promised assistance from the civic authorities that the meeting will in every sense be a most orderly one. Rowdyism or the slightest approach to rowdyism will immediately be suppressed. The regulations governing the management and orderliness of the ground during the present meet are so strict that the public will be absolutely protected from the chance arising of any possible annoyance.

The strenuous efforts will be put forth by the committee to ensure absolutely honest and clean racing.

GAVE LIQUOR TO INDIANS.

Two White Men Fined—Aborigine Molested for Having Whisky.

Provincial Constable Munro had a batch of prisoners up before Magistrate Alexander named Dan Jacobs. He arrested him, and at the same time took possession of a large trunk, which was discovered to be full of bottled whisky. When Jacobs came up on a district court he was fined \$5 for drunkenness, and \$25 for having whisky in his possession. Two white men, McDonald and Glandon, were each fined \$50 and costs.

LOST THE FIGHT.

Leader of Longshoremen Wept When He Had to Acknowledge Strikers Were Beaten.

New York, June 14.—There was a pathetic scene at yesterday's meeting of the longshoremen, whose strike for increased pay was declared off. Patrick Connor, leader of the strikers, broke down and wept when compelled to make the acknowledgement that the strike had failed. He had a moment of silence and then he rallied with cheers for the leader, while many of the men who had faced privation and hunger, and who were hurried to the platform, shook Connor by the hand and assured him that he had made a good fight.

The prospects for the new mine on the West Coast of Vancouver Island, which has been attracting attention on account of the valuable areas of timber located there, is also coming into prominence again as a mining district. The coast is rich in various kinds of mineral, copper and iron predominating.

One copper property which is likely to prove of commercial value is on Sidney Inlet, where Mr. Duryee, an eastern mining man, has taken an option. The option was given by E. Dewdney of this city, who has owned the mines for some time, and who has done considerable work on the claims.

The records show that a large number of men have landed here during the year, and most of these afterwards proceeded to Vancouver or the States.

PEACE DELEGATES AT THE HAGUE

The Foreign Minister of the Motherland Will Formally Open the Proceedings.

The Hague, June 14.—This city suddenly blossomed out with flags this morning, representatives of every civilized country on the globe holding its standard over the hotels and the principal squares, while the hotels facing the sea at Scheveningen, with their multi-colored banners snapping in a stiff breeze, formed a stirring picture. It was like a vast camp of the nations of the world. The weather could not have been finer, being cool with bright sunshine. Practically all the delegates arrived during the day.

The English, twenty-five, headed by Sir Edward Fry, judge of the Chancery division of the British High Court of Justice, and member of the permanent court of arbitration at The Hague, reached here early by way of Hook of Holland, Joseph H. Choate, William Buchanan, U. M. Rose, Charles Henry Butler and the other American traveling on the same steamer. Soon after their arrival the latter held their first meeting, M. Choate presiding. The Germans, Italians and many South and Central Americans came by train.

Following the precedent established in 1888, the minister of foreign affairs of the Netherlands in the opening of the conference in the Hall of Knights to-morrow will propose that the conference dispatch messages of greeting and appreciation to Emperor Nicholas, and in return M. Meijloff will send a message of thanks for the hospitality of Queen Wilhelmina and the government of the Netherlands. W. H. D. Baulfrot was elected president. After the inaugural session the delegation will make a tour of the Hall of Knights. The attitude of the Germans in favor of admitting the press to the plenary session is regarded as settling this point in the affirmative.

Mr. Tsubuki, head of the Japanese delegation, said to-day that the delegates of his country had been given the widest latitude in the matter of instructions. He pointed out that there was considerable misapprehension abroad concerning Japan's reservation to withdraw in her option the consideration of any particular subject would not lead to useful results. The inference that the limitation of armaments, he said, was incorrect. The reservation had been made before question of discussing the limitation of armaments was broached.

The Latin Americans have not yet held a general meeting, but they are talking over their policy among themselves. They are not much interested in European questions, and intend to avoid so far as possible any attempt to interpose. Generally speaking, they will follow the lead of the United States.

The signing of the protocol admitting the countries which were not participants in the last conference took place this afternoon in the old throne room of the Binnenhof, now used by the permanent court of arbitration. It is reported that the Pope has addressed a letter to Queen Wilhelmina setting forth that the Holy See will give not only moral but material support to any decision of the conference regarding the maintenance of peace and the furtherance of humanitarian principles throughout the world.

WOMEN PROPOSE REFORMS.

Nineteen Elected to Finnish Parliament Have Mapped an Exhaustive Programme.

The Finnish Parliament is now in full swing and public interest centres largely in the nineteen women deputies, who represent one-sixth of the entire parliament. The leader of the Finnish women's party—Baroness Alexandra Gripenberg—has given the following outline of immediate reforms to be proposed by the women:

Equality of men and women who contract civil marriages.

Marrriageable age, which is now 15, to be raised.

Increased penalties for crimes against women.

Curtailment of police powers.

Legitimate children to be placed on social and legal equality with those of legitimate birth.

Widening of the sphere of employment for women.

Elaboration of the laws affecting women.

The women deputies are determined to abolish a number of antiquated regulations affecting women. For example, those who desire to teach in boys' schools must petition the Czar as a man, and renounce their sex.

Baroness Gripenberg opposes the Socialist demand for special protection for women laborers as illogical.

Mme. Hilda Kakkikowski, the talented authoress, who possesses the confidence and support of the working women in Finland, is regarded as the link between the Social and Finnish parties.

Mme. Dagmar Neovius, the only woman member of the Swedish party, is in sympathy with Baroness Gripenberg's views.

Mlle. Silampe, the organizer of servants' unions, is a shrewd business woman and a prominent Socialist worker.

Mme. Evelina Atakulji, the wife of a peasant, is also a prominent Socialist, and an excellent speaker.

The parliament is expected to prohibit the importation, manufacture or sale of alcoholic liquors, but the Czar may reject this bill, as it conflicts with commercial treaties.

THEATRE DESTROYED.

Chicago, June 14.—Fire last night destroyed the Olympia theatre in the Ashland block on Clark street, causing a loss of \$100,000. There was no one in the playhouse, which was devoted to vaudeville. Guests of the Union restaurant and hotel next door were driven into the street.

CROPS FLOURISHING.

Favorable Reports Regarding Conditions in the West.

Winnipeg, June 14.—Reports coming in from points throughout the western section of the country clearly indicate that the crops are in a most flourishing condition. What in southern Manitoba is already about nine inches above the ground and very thick. Samples of wheat taken from near Brandon show a growth of nearly eleven inches. In the latter case the growth has been particularly fast; but the same conditions have been reported from other sections. The warmth of the past couple of days, following after the cold rains, has been the greatest possible factor in the grain, showing fine condition. The temperature yesterday of over 80 degrees had a great effect of the crops, and the farmers now are going about with broad smiles. Prominent grain growers state that any danger of a failure of a good crop is at an end. With a continuance of the ideal weather that has shown its presence, they see no reason whatever why they should not have an average crop, and the grain harvested at a date that will only be a few days later than usual. The crop should be as good as any in late years.

JEWS ASSAULTED.

Fresh Outbreak at Odessa is Attributed to the Governor-General.

Berlin, June 13.—Private dispatches from Odessa report that the case of the local Jews is as desperate as it was before the latest massacre. The Black Hundreds are assaulting the Jews in the streets. Many are wounded and the hospitals are crowded.

The fresh outbreak of violent anti-Semitism is attributed to the governor-general, Glagolov, who declared that a Christian named Mephoff, who was ostensibly attacked by the Jews, was tortured and scalped.

Mephoff is said to have denied that his assailants were Jews, and examination of his body reveals that he was not scalped, but his hair was simply shaved off in spots.

Jewish leaders at Odessa are convinced that the government trumped up the story to incite the population anew against the Jews.

BETTER CLASS OF HINDUS ARRIVING

Dr. Milne Says That the Immigrants From India Show a Marked Improvement.

According to Dr. Milne, Dominion Immigration Inspector and medical officer, the class of emigrants coming to this country at the present time from India is much above that which prevailed when the tide of immigration first flowed in the direction of British Columbia. The lower caste Hindus, who made up the greater part of the first few parties to come over the Pacific have scattered over the country, receiving employment at various mills and canneries, on railroads and in other branches of work where manual labor is required. The type of men who have been coming to the province in the last few months is much higher than that of the pioneer immigrants, and no complaints are now received by government officials regarding them.

In conversation with a Times reporter Friday Dr. Milne said: "I am not receiving any complaints concerning these Hindus at present, and, as far as I can gather, the men are obtaining employment with little difficulty. The class of immigrants from India has greatly improved since the beginning of the influx, and the majority of the men coming into the country at present are well built, healthy fellows, capable of doing hard work, able, in most cases, to speak a fair amount of English, and generally provided with sufficient money to keep them until they obtain work. They are mostly old policemen or soldiers, which accounts for their military appearance and their knowledge of English. Moreover, they are nearly all Sikhs, a class of men much above the ordinary Hindu."

"Although Victoria receives a fair number of these immigrants, most of them go to Vancouver, where there are a number of finding employment. The trouble over the Hindu some time ago has died away, as the men are finding work on the railroads in the interior and in the lumber yards and mills. Some time ago I ordered some Hindus to be deported in consequence of complaints being received about them begging on the streets while they had money in their pockets. These men were dispatched to Vancouver to be sent back to India, but the C. P. R. Company found work for them on its lines, and they were set free on condition that they continued working. So far no complaints have been received regarding these men, and I believe that they are working steadily. The Tosa Maru brought five men to this city on Wednesday. They were men of good stature and were all

Toronto, June 13--Dr. E. W. Bell, inspector of the health department, reports a serious condition of affairs in regard to smallpox. Unable to Agree.

Toronto, June 13--The Holtermakers' and Shipbuilders' Unions have failed to reach a settlement with regard to an increase of wages, and the indications are for a strike on Monday morning.

Toronto, June 13--Forest fires in the Thunder Bay district are reported to the lands, forest and mines department to have in some instances been checked by rain and in others are now under control. Sparks from railway engines are supposed to have caused the fires.

Alameda, June 13--A fire which broke out in this town to-night threatened the residence of the town, but was finally extinguished.

A pitiful tale of cruelty to a six-year-old girl was told Wednesday to the Children's Aid Society, says the Vancouver News-Advertiser. The child lives with her parents on Westminster road, in South Vancouver, and it is alleged that she was turned from her mother's house half clad and without boots...

Alameda, June 13--A fire which broke out in this town to-night threatened the residence of the town, but was finally extinguished.

JUMPED FROM TRAIN. Unknown Foreigner Who Was Stealing a Ride Instantly Killed.

An unknown foreigner jumped from C. P. R. transcontinental No. 6 east of Winnipeg on Saturday morning and was instantly killed. At the time the limited was running at a high rate of speed and the brakeman found the foreigner stealing a ride on the platform of the train...

LICENSE FOR FAIR. Oak Bay Commissioners Met and Granted Application.

A meeting of the license commissioners for the municipality of Oak Bay was held Wednesday afternoon in the school house, Fossil Bay road, to consider the request of the Victoria Driving Club for a license at the track next week and another from the Agricultural Association for a license during the fair week...

PASS AND HONOR LIST OF NORMAL Students Who Have Qualified for Teachers in the Province at Last Examinations.

The results of the examinations in the provincial Normal school has been made known. It includes a number of names of students who have qualified for the profession of teaching...

- Miss Driver, who has passed with honors, was a graduate of the Victoria college. The following students of the advanced session of the provincial Normal school have been granted teaching certificates...

- Anderson, Margaret I. Best, Esther M. Bulman, Fanny E. Campbell, Helena E. Campbell, Norma E. Chadwick, Clara Cook, Doris L. Gault, Alice M. Gault, Margaret, Erskine, Katherine O. Fev, Bertha. Grant, James F. Haarer, Helena. Hardman, Beatrice. Harris, C. Lena. Hodgson, Ethel. Hutchinson, Henrietta B. Manifold, Edith. Miller, William H. Mitchell, Morley W. Morrison, Olive C. Raitch, Helen T. McArdie, Katharine B. McDougall, Catherine F. McKean, Frances. McNesley, Kathleen M. Paton, Mabel E. Pearson, Mabel M. Preston, Ella J. Raleigh, Helen T. Russell, Isabel R. Shaw, Helen H. Shaw, Leslie R. Smith, Hazel M. Smith, Laura I. Stephens, Mary E. Storey, Elizabeth C. Taylor, Mabel E. Thornton, Cosy M. Underhill, Ella M. Watson, Kathleen E. Webb, Annie B. Wooster, Annie B. Young, Lillian F.

- The next preliminary session will open at the end of August. Students desirous of attending this class can obtain the necessary form of application and other information by applying to the principal.

- Water Supply. Indian Head, June 13--The town council has completed a deal with the Brassey estate by which all the sections some miles south of Indian Head, which are situated the excellent springs from which the water supply is drawn, pass into the ownership of the town. The price paid was \$25 per acre.

- Alarming Fire. Alameda, June 13--A fire which broke out in this town to-night threatened the residence of the town, but was finally extinguished.

- CRUELTY TO LITTLE GIRL. A pitiful tale of cruelty to a six-year-old girl was told Wednesday to the Children's Aid Society, says the Vancouver News-Advertiser. The child lives with her parents on Westminster road, in South Vancouver, and it is alleged that she was turned from her mother's house half clad and without boots...

GRAND LODGE OF ODD FELLOWS OFFICERS ELECTED FOR ENSUING YEAR

Reports Presented Covering the Last Season's Work in Province of British Columbia

The Grand Lodge of Odd Fellows, at its meeting on Wednesday, in the Odd Fellows' hall, in Nanaimo, was presided over by D. G. M. Thos. Embleton. The local order of the Daughters of Rebekah, through Mrs. T. Aitken, presented an address of welcome and Mayor Planta welcomed the visitors on behalf of the city.

In greeting you this session, I can do but express my knowledge that the order has been prosperous the past year. The number of members in every branch has increased, but what is still more gratifying is the increase in the work of the order throughout the province...

I deem it just and proper at this time to make a few recommendations for what I consider the good of the order, and that you will give effect to the same. I believe that it would be to the interest of the order to reduce the basis of representation. With the growth of the order in this province, the Grand Lodge is growing, both in numbers and expense, and a reduction on the basis of representation will tend to expedite the expenses and tend to expedite the transaction of business.

At the afternoon session the reports of the finance and supplementary committees were adopted.

The election of Grand Lodge officers for the ensuing year resulted as follows: G. M.--Thos. Embleton, Rossland. D. G. M.--H. Fulton, Ladysmith. G. W.--Bro. Lay, Victoria. G. Sec.--Bro. Davey, Victoria. G. Treas.--Bro. Webber, New Westminster.

At the close of the night's session the Rebekahs initiated twelve members and put on the drill team work for the benefit of the Grand Lodge visitors, after which refreshments were served.

The following committees were appointed: Distribution--L. Neelands, A. Forrester, J. Bell. Finance--W. H. Cullen, M. J. Phillips, C. A. Foote, T. M. Bradshaw, E. Rogers. Appeals--J. Armstrong, W. A. Johnson, A. Davie, L. King, H. Williams. Laws of Subordinates--F. Davey, J. Bell, J. Carroll, J. Jamieson, G. Millar. Legislation--E. W. Fawcett, T. E. Bishop, R. Livingston, F. D. Falconer, J. M. Wright.

Appointments Made and Companies Incorporated. This week's Provincial Gazette contains the following appointments: To be Justice of the Peace for the Province of British Columbia: William Henry Gage, of Castlegar; Frederick J. Sampson, of Procter; Kootenay; Robert G. Leslie, of Goldstream; Robert Muehl Stewart, of Portland Canal; William James Shaw, of Gabriola Island; John Jex Woods, of the city of North Vancouver.

Canadair Marble and Granite Works, of Vancouver, has been given registration, H. E. Heaps & Co., with a capital stock of \$50,000. Great Northern Transfer Company, with a capital stock of \$50,000. Kwonk Chu Society, under the Benevolent Societies Act. McNair-Fraser Lumber Company, with a capitalization of \$200,000. Western Lumber Company, with a capital stock of \$25,000. The Columbia Lumber Company, of Portland, Maine, has been given registration as an extra provincial company, with L. L. Dickerman, Vancouver, as attorney for the same.

SUICIDE AT SEATTLE. Seattle, June 13--Mrs. Emma Harrison, wife of Dr. W. L. Harrison, committed suicide last night by hanging herself with a piece of a sheet, which she had attached to the top of the water tank in the kitchen of her house at 1227 Third avenue. Dr. Harrison discovered the lifeless body of his wife when he entered his home at 10 o'clock to-night. The coroner inquired of the neighbors and learned that Dr. Harrison had just retired to his room shortly before. He said that when he had entered his room to-night he appeared in her usual condition. Dr. Harrison can assign no reason for the act, but he is of the opinion that she had imagined ill-health. It is claimed that Mrs. Harrison several times threatened to end her life.

ADDS ON POSTAGE STAMPS. The Norwegian postal authorities have under consideration an application for permission to print and issue a series of back of postage stamps. It is proposed to devote the proceeds to the erection and maintenance of a large sanitarium for consumptives.

THE NEW ROAD AT GOLDSTREAM UNDER DISCUSSION AT BOARD OF TRADE

C. P. R. Make Offer of Right for it--Committee Will Wait on Government.

It was decided at the monthly meeting of the Victoria board of trade held Thursday afternoon, that a committee should wait upon the provincial government to ask for an early construction of the proposed road from Goldstream to Mill Bay along the Saanich inlet. A committee consisting of F. Pauline, C. H. Lugin, John Nelson, C. F. Rogers and E. H. Sterling was appointed to confer with representatives of the municipalities through which the new road will pass and to present the views of the board to the provincial officials.

C. F. Todd brought the matter before the board. He referred to the present road over the Sooke mountain grades, and suggested that these grades make the auto and general traffic a very hard proposition. If the new road was built it would be a great advertisement for the south end of the island and would attract much tourist traffic. It would be a shorter route to Alberni than the present one and would open up a new road for the government, and it was expected in some quarters that the road would be built this year but no action had been taken by the provincial government.

Secretary Elworthy read telegrams from B. Rogers and E. H. Sterling of Vancouver, saying that they, as motorists, heartily approved of the scheme and expressing the opinion that the Sooke mountain road was an especially dangerous one.

R. Marpole, executive assistant for the C. P. R. for the offer and the committee named above was appointed to confer with representatives of the adjacent municipalities and to meet the provincial officials.

A letter was received from the Vancouver board of trade in which a proposition was made that action be taken to have the amount recoverable in the small debts court increased from \$100 to \$200 was referred to the committee on legislation.

Another suggestion made by the same body that an official assignee be appointed was also referred to the committee on legislation.

A communication from W. H. Hayward was received in which the writer asked the board to assist in protecting Cowichan Bay from poaching. The writer claimed that the lease of the bay rights to the Capital Cannery Company in Cowichan Bay, would result in the destruction of the steel-heads and trout in the river. J. J. Shallcross explained the conditions under which the lease was made. He has been the agreement between the company and the government and it required the former to build a hatchery capable of accommodating 10,000,000 spaw which would be under the control of the government. Moreover the company agreed not to interfere in any way with the fishing rights of the Indians. The company would not fish until July 1st each year and by this time all the river fish would have gone up to the lake. The nets to be used would be of such a class as to allow of the return to the water of any steel-heads caught in them. Mr. Shallcross spoke of poaching on the river, claiming that there was a lot of it going on at the present time which would be stopped when the company commenced operations. He suggested that a committee be appointed to confer with the lessees on the matter of preserving and improving the fishing in the river and suggested that members of the board be the fish and game club be selected for the committee.

Chairman Mars elected the following to constitute the committee: William Christie, C. S. Baxter, E. G. Mens, Lindley Crease and G. H. Barnard. Before adjourning, C. H. Lugin announced that he would bring up the matter of the "All Red" line at the next meeting for discussion. Those present at the meeting were, Chairman Mars and F. A. Pauline, W. H. B. McKelving, A. G. Sargison, C. F. Todd, J. J. Shallcross, John Nelson, M. R. Smith, William Christ, S. R. Newton, W. Patterson, Simon Leiser and C. H. Lugin.

SUBURBAN TRAIN. Service to Shawnigan Will Commence on Thursday of Next Week. The suburban train service on the Esquimalt & Nanaimo railway, between this city and Shawnigan Lake and intermediate stations, which has been popular in the past two years, will be inaugurated on Thursday next, the 20th inst., and will provide a similar service to the mainland last year. Already a number of family parties are being made up to spend the warmer months at Shawnigan Lake and other points along the line, and with the suitable service provided there will no doubt be a larger number of campers than ever.

Shawnigan Lake presents a most picturesque sight during the summer evenings with a number of pretty summer cottages and a large number of tents, and a more healthful and enjoyable manner of spending the warmer days cannot be imagined. The usual cheap rates will come into effect with the beginning of the suburban service.

CHINAMAN ARRESTED. He is Suspected of Having Robbed the Montana Restaurant.

A sequel to the robbery of \$80 from the Montana restaurant on Monday evening was the arrest of a Chinaman named Hop, formerly employed at the Montana, by Detectives Perdue and Palmer yesterday. The two men, in company with T. Goldsmith, the proprietor of the Montana, took a trip around Chinatown yesterday afternoon, and upon the return to the restaurant, when the Celestial observed that he drew forth a bag from under his coat and handed it to a companion, which was a money bag which had been gilded and it had some of the gilt upon it.

The action of Hop while the case was being investigated in leaving the restaurant without notice furnishes more evidence against him. He left several pieces of clothing behind him and hurried away on Tuesday, while Detective Palmer was investigating the theft. Hop will come up for trial in the police court to-morrow morning.

FIRE ON RACING YACHT. Hamilton, Bermuda, June 11--The sloop Isola, W. E. Meyer, St. George's Yacht Club, another of the contestants in the New York-Bermuda ocean race, met with a serious accident on Saturday, the wind blew with hurricane force and the yacht was flooded and the crew were rescued.

The captain of the vessel, upset the kerosene oil stove in the galley and set fire to the vessel. For a time much excitement prevailed, as the fire was spreading rapidly in several sections of the yacht. The flames were extinguished.

Secretary Elworthy read telegrams from B. Rogers and E. H. Sterling of Vancouver, saying that they, as motorists, heartily approved of the scheme and expressing the opinion that the Sooke mountain road was an especially dangerous one.

R. Marpole, executive assistant for the C. P. R. for the offer and the committee named above was appointed to confer with representatives of the adjacent municipalities and to meet the provincial officials.

A letter was received from the Vancouver board of trade in which a proposition was made that action be taken to have the amount recoverable in the small debts court increased from \$100 to \$200 was referred to the committee on legislation.

Another suggestion made by the same body that an official assignee be appointed was also referred to the committee on legislation.

A communication from W. H. Hayward was received in which the writer asked the board to assist in protecting Cowichan Bay from poaching. The writer claimed that the lease of the bay rights to the Capital Cannery Company in Cowichan Bay, would result in the destruction of the steel-heads and trout in the river. J. J. Shallcross explained the conditions under which the lease was made. He has been the agreement between the company and the government and it required the former to build a hatchery capable of accommodating 10,000,000 spaw which would be under the control of the government. Moreover the company agreed not to interfere in any way with the fishing rights of the Indians. The company would not fish until July 1st each year and by this time all the river fish would have gone up to the lake. The nets to be used would be of such a class as to allow of the return to the water of any steel-heads caught in them. Mr. Shallcross spoke of poaching on the river, claiming that there was a lot of it going on at the present time which would be stopped when the company commenced operations. He suggested that a committee be appointed to confer with the lessees on the matter of preserving and improving the fishing in the river and suggested that members of the board be the fish and game club be selected for the committee.

Shawnigan Lake presents a most picturesque sight during the summer evenings with a number of pretty summer cottages and a large number of tents, and a more healthful and enjoyable manner of spending the warmer days cannot be imagined. The usual cheap rates will come into effect with the beginning of the suburban service.

R. MARPOLE WILL MEET THE COUNCIL

C. P. R.'s Case Respecting Filling at Hotel Site to Be Presented Monday Evening.

At Monday's meeting of the city council, R. Marpole, General Executive Assistant of the C. P. R. for British Columbia, will be heard in connection with the filling in of the James Bay flats. At the last meeting Mayor Morley announced that he had received a communication from this official, in which Mr. Marpole expressed disappointment at the city's unwillingness to recognize its obligation to fill in more than 23,000 cubic yards, and asked for an opportunity to state his case before the board of aldermen. A meeting was arranged for Monday evening and Mr. Marpole will be heard before the regular routine business is taken up.

Several very important recommendations will come up for consideration in the reports of the various committees. The streets, bridges and sewers committee, at its weekly meeting last night received and discussed the resolution passed at a recent meeting of the Spring Ridge property owners, in which it is suggested that the council present a by-law authorizing the purchase of the land on which the much discussed gravel pits are situated. The committee decided that it would take some time to accomplish this, and that the investment would be a risky one for the city to make. The decision was embodied in a recommendation to the effect that the board reject the proposal made in the property owners' resolution.

The report of the lighting committee, of which Ald. Hall is chairman, will contain an important recommendation in regard to the suggested closing of streets in the city underground in order to rid the main thoroughfares of the unsightly poles which now disfigure them. The committee will also recommend the placing of additional lights at certain street corners.

Although the proposal made by Ald. Meston on behalf of the civic committee in regard to the old Quadra street burying-ground was adopted in most of its details, this decision has yet to be considered by the civic committee before being presented to the council. As Ald. Meston is anxious to have the matter settled to the satisfaction of all concerned within the shortest possible time, he will most likely arrange a committee meeting on Monday to prepare a report.

The fire wardens held a meeting last night, at which the question of allowing the use of certain patent fireproof materials for roofing was discussed. In the construction of the buildings within the city limits, was discussed. The wardens will probably recommend that the use of these materials be restricted to one of these patent roofing to which the underwriters have agreed. The building by-law governing this matter reads as follows: "All roofs of buildings, roofs of flats, coverings of domes, spires, lanterns or towers, platforms or deck roofs, or other coverings of buildings, shall be finished externally with tin, iron, zinc, copper, slate, tile, felt, and gravel, or some other material of an incombustible nature, and the building already erected shall hereafter be relined or re-roofed except with the materials before enumerated."

The provision made in the extract containing the words "or some other material of an incombustible nature" will probably justify the fire wardens in recommending the course mentioned and west as far as Vancouver in one direction, and sundry points on the coast of Australia and New Zealand in the other. The gap was something like 8,000 miles, or one-third of the world's circumference at the equator. Apart from the enormous scientific gains which would accrue, the important materials were to be expected from a closing of the gap. It is a matter of the utmost commercial advantage to determine with accuracy the exact situation of every port, every island, every coral reef. Sailors, ship-owners, insurance men all have an interest in such an enterprise.

As early as 1892 Dr. Klots had expressed a hope that Canada might be the nation to carry this work through. A few years later the persistence of Sir Sandford Fleming made the Pacific cable a fact, and the way was clear for globe-girdling. Mr. Sifton has a breadth of mind to see the value of the enterprise, and gave his consent. The cable began commercial work in December, 1902, and Dr. Klots, Dr. Ward and Mr. McDermid left Ottawa in February and March, 1903. There was a bit of reason in this promptitude, for the Americans were pushing on a trans-Pacific cable of their own from San Francisco to Manila by Honolulu, Midway and Guam; their scientists were following the cable hard, and if Canada was to win in this honorable and friendly competition, no time was to be lost. Indeed, the Canadian and American astronomers met in Honolulu, the American cable having been laid that far.

To summarize the dates, the Vancouver observations were finished by the end of April, the Fanning Island-Suva longitude was completed on June 24th, and the final observation at Sydney was taken in January, 1904.

This Canadian expedition, using a British cable largely promoted and partially supported by Canada, has done a scientific service of immense importance to the world. We have gained credit for the scientific researches of other nations, and we are beginning to pay the debt by doing a bit of service on our own account.

When serious, of course, is mainly a mass of mathematical computations, of purely technical interest, but some facts of general interest emerge from the columns of figures. For example, the accuracy of the results is most impressive to the non-scientific mind. A chain of observations has been run across Europe, Asia and Australia from Greenwich; another chain has been run across America; and when Dr. Klots closed the chain, the combined error was the one-hundredth part of a second, or, if we put it in terms of space, about 84 feet. Eighty-four feet in 25,000 miles! And that is the combined error in many observations.

CLOSED GIRDL ABOUT THE EARTH

Valuable Service Performed By Three Dominion Scientists--Canada First in Race.

On December 26th, 1905, Dr. Otto J. Klots completed his report on his expedition in 1903-04 across the Pacific to determine trans-Pacific longitudes. The Printing Bureau has just issued his report. The Canadian expedition did its work well ahead of the American expedition, and Canada was the first country to close the astronomical girdle about the earth.

This globe-girdling was a curious and important feat for which the American public first says an Ottawa dispatch. "Must in part thank the founders of the Pacific cable, and in part thank Mr. Sifton. To determine longitude observations have been made in the most important places in the world. The connection is necessary; the observations must be linked by an exchange of times. Scientific men long had desired the trans-Pacific cable because it would enable longitudes to be linked across the great ocean. Greenwich is the international prime meridian; from observations have been made in Canada and west as far as Vancouver in one direction, and sundry points on the coast of Australia and New Zealand in the other. The gap was something like 8,000 miles, or one-third of the world's circumference at the equator. Apart from the enormous scientific gains which would accrue, the important materials were to be expected from a closing of the gap. It is a matter of the utmost commercial advantage to determine with accuracy the exact situation of every port, every island, every coral reef. Sailors, ship-owners, insurance men all have an interest in such an enterprise.

As early as 1892 Dr. Klots had expressed a hope that Canada might be the nation to carry this work through. A few years later the persistence of Sir Sandford Fleming made the Pacific cable a fact, and the way was clear for globe-girdling. Mr. Sifton has a breadth of mind to see the value of the enterprise, and gave his consent. The cable began commercial work in December, 1902, and Dr. Klots, Dr. Ward and Mr. McDermid left Ottawa in February and March, 1903. There was a bit of reason in this promptitude, for the Americans were pushing on a trans-Pacific cable of their own from San Francisco to Manila by Honolulu, Midway and Guam; their scientists were following the cable hard, and if Canada was to win in this honorable and friendly competition, no time was to be lost. Indeed, the Canadian and American astronomers met in Honolulu, the American cable having been laid that far.

To summarize the dates, the Vancouver observations were finished by the end of April, the Fanning Island-Suva longitude was completed on June 24th, and the final observation at Sydney was taken in January, 1904.

This Canadian expedition, using a British cable largely promoted and partially supported by Canada, has done a scientific service of immense importance to the world. We have gained credit for the scientific researches of other nations, and we are beginning to pay the debt by doing a bit of service on our own account.

When serious, of course, is mainly a mass of mathematical computations, of purely technical interest, but some facts of general interest emerge from the columns of figures. For example, the accuracy of the results is most impressive to the non-scientific mind. A chain of observations has been run across Europe, Asia and Australia from Greenwich; another chain has been run across America; and when Dr. Klots closed the chain, the combined error was the one-hundredth part of a second, or, if we put it in terms of space, about 84 feet. Eighty-four feet in 25,000 miles! And that is the combined error in many observations.

IN POLICE CIRCLES. In the city police court yesterday A. Comb was charged, upon the information of Claude Hooper, a twelve-year-old boy, with assault. E. Lowe appeared for prosecution, and G. Morphy for the defence. The story told by the boy was that the defendant brutally assaulted and kicked him, while the defendant's wife and the boy were having a discussion over wages due to the latter. The defendant came down the stairs while this discussion was being held, and, according to the witness, backed his eye and kicked him. A very different story was told by Mr. Comb, in which he referred to many occasions upon which the plaintiff had used insulting language to him. Comb had ill-treated the defendant's children. He, defendant, admitted striking the boy once, but indignantly denied that he kicked him. He characterized the plaintiff as "fresh." Magistrate Hall fined the defendant \$7.50.

Peter Hansen, a Dane, was sentenced to one year's imprisonment by Magistrate Hall for breaking into the Royal Arms Hotel restaurant and stealing H. Hansen was paid off from the steamer Salvor a few days ago upon the vessel's return from salvaging the North-western, and since leaving the wrecking steamer had been spending his money freely on intoxicants. When sentence was passed upon him, Hansen expressed signs of surprise and characterized his penalty as too severe.

REBELS ATTACKED VILLAGE. Ten Chinese Soldiers Killed in Fight With Insurgents. Hongkong, June 13--Insurgents have attacked the village of Yung Chung in the prefecture of Wei-chow, where they burned the military yamen. A provincial punitive force was in pursuit of the insurgents, and engaged them in a bloody conflict near the village. Ten of the soldiers lost their lives. The victory of Canton is considered a triumph to open Wei-chow as a treaty port.

ribbons are then wound on pieces of cardboard and placed in each pocket.

The clever girl who is "living in her trunk" finds black velvet in almost every conceivable shape a fine renouveau touch and a fashion to her taste. Groups of little black velvet bows may appear in many odd and very pretty ways. They are also interesting in giving a face jacket or a summer waist a fetching style.

Economical girls know that short skirts cut quickly and soon show tiny festering spots on the edges, therefore it is well to finish a skirt for general wear with a braid that scarcely shows, but protects the edge of the hem. The new silk braids are soft and silky and do not rub the shoes.

A tanned complexion is often becoming and far preferable to a greasy white. If the skin feels tightly drawn down and dry, a good application of cold cream will be found soothing, but if your face is naturally oily, on no account use it. It is not good for an oily skin.

The great cause of a poor complexion is simply uncaring. The pores are clogged and need opening up with a good lather of pure, rough castile soap and hot water. Try hot water as hot as can be borne, after that rinse the face in luke warm water without soap. Do this daily. If girls would use less lotions, paint and powders and more good soap and water, their complexions would be more frequently seen than too freely.

If your hands appear too dry, take ten grains of anhydrous calcium sulphate of simple tincture of benzoin, two ounces of elder flower water, and three

ounces of rosewater. Mix well together and use on the hands freely. The result will be that they will remain fresh and cool to the economy of your gloves.

Now, during the reign of the short sleeve, it is very distressing to see blushing arms, and I have lately seen many—not habitually red, but arms that blush. I believe this is generally traceable to a tight sleeve, but a tight corset, or even a tight shoe, will account for this. If the arms are naturally pale this can be remedied with a good cream composed of equal parts of almond paste and honey, or if you prefer it, some massage cream from your druggist. Should the arms, however, look very red, get your druggist to make up a lotion composed of glycerine, rosewater and oxide of zinc. Apply it just before going out. It is harmless and will, while abolishing the ugly redness, endow your arms with whiteness, freshness and beauty.

Most girls hate most thoroughly the darning of holes in their stockings. I know one clever darning girl who cuts a piece of charcoal and shapes it to fit over the toes, by sewing two pieces together in a manner similar to a child's moonshin. She has scarcely any darning to do.

I know another girl who invariably washes her own white sweaters. These are her directions: Dissolve a level teaspoonful of borax and a quarter of a cake of castile soap in cold water enough to wet it generously, and let the sweater soak for an hour. Then rinse it out; do not wring it, rinse it thoroughly through several cold waters. Squeeze it as dry as possible, and once through the wringer, pull it into shape and dry it.

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives" are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. .50c. a box—\$2.50 for 6 boxes. At all dealers.

Before Going Elsewhere Get Our Prices

Over The Tea Table

Mr. and Mrs. Stuart Livingston, of Vancouver, are in town for a few days' recreation, and while here are making their headquarters at the Driad.

Mr. and Mrs. E. O. Scholefield have returned from their honeymoon trip to the East, and are now staying at Cherry Bank.

Mrs. A. S. Golog, of Aberdeen, South Dakota, is visiting her mother, Mrs. Jackson, Stanley avenue.

Mr. and Mrs. Walker have moved from the Asken residence on Pemberton road to their new cottage at Henderson Point, and the old house is being rebuilt by the new owner, Mr. Frank Stevenson, who expects to move in some time during the summer.

Miss Winona Troup is home from attending school in the East.

Mrs. Dunn, of Westholme, spent the week in the city.

At "Fernhill" on Wednesday afternoon Mrs. Pooley entertained a large number of friends in honor of her daughter, Mrs. Stanley, who will return very shortly to Russia. Tea and refreshments were served in the dining room. Tables were placed in the spacious and well kept gardens for bridge players. The tennis and croquet lawns were filled with players all afternoon, and a putting contest also helped to amuse a few of those there were: Mrs. McAllum, Mrs. Hunter, Mrs. Eberts, Mrs. Rithet, Mrs. Prior, Mrs. Tallor, Mrs. Freeman, Mrs. Little, Mrs. Genge, Mrs. Hys, Mrs. Martin, Mrs. Laing, Mrs. Grant, Mrs. Jones, Mrs. Sullivan, Mrs. Holmes, Mrs. Robertson, Mrs. Read, Mrs. Hughes, Mrs. Williams, Mrs. Chapman, Mrs. Crow Baker, Mrs. Gaudin, Mrs. Ward, Mrs. Gibb, Mrs. Lampman, Mrs. Pemberton, Mrs. Dudley, Mrs. Tilton, Mrs. Pooley, Mrs. W. G. G. Gillespie, Mrs. Irving, Mrs. Gore, Mrs. Hall, Mrs. A. D. Crease, Mrs. Oliver, Mrs. Miss McGraw, Miss Bell, Mrs. Arbuckle, Miss Green, Mrs. McAllum, Miss Chapman, Miss Eberts, Miss Todd, Chief Justice Hunter, Col. Williams, Mr. Musgrave, Col. Prior, Capt. Williams, Mr. Lampman, Mr. Pemberton, Capt. Hughes, Mr. Hagerty, Mr. Wright, Mr. Clarke, Mr. Jamble, Mr. Sullivan and Mr. Williams.

Mr. and Mrs. Gus Gowin are at Cowichan Lake.

Mrs. Dunsmuir and her two daughters, Miss Elinor and Miss Marion, returned from England on Thursday night. They were met at Sicomon and accompanied back by His Honor the Lieut-Governor, Major and Mrs. Andam and Mrs. Robin Dunsmuir.

Mrs. E. E. Blackwood returned from Spokane yesterday with her daughters, Miss Hattie and Miss Viva, who have been attending school there. Miss Viva Blackwood is a very clever musician.

THE RUSSIAN SITUATION

DISSOLUTION OF HOUSE DECIDED UPON

St. Petersburg, June 15.—The second Russian parliament, the Associated Press is informed on ministerial authority, will be dissolved to-night by an Imperial edict which will be promulgated as soon as the lower house acts on Premier Stolypin's ultimatum.

The possibility of the house granting the government's demand for a suspension of the 55 Social Democrats, members of parliament who are charged with conspiring against the present regime is not being considered by either side.

Want More Time.

St. Petersburg, June 15.—The parliamentary committee which has been examining the indictment of the 55 Social Democratic members charged with conspiring against the government, has decided that it is impossible to review all the evidence to-day and will ask the house to give it until Monday to report.

Mr. and Mrs. J. J. Godfrey and Mr. and Mrs. A. D. Taylor were amongst the Vancouver people here during the week.

Mr. J. J. Shalleross has commenced the erection of a stone house on Poul Bay road. Mr. MacIure is the architect.

Mr. George A. Fraser has taken Mr. J. A. Wyde's house, 219 Fort street, for the summer months. He expects Mrs. Fraser and daughter to hold the East next week.

Last Wednesday afternoon a very pretty wedding took place at the residence of the bride's mother, Esquimaux street, Victoria. The bride, Margaret Tait Campbell and Mr. Frank Dresser were united in the holy bonds of matrimony. The bride looked charming in white silk, wearing a veil, and a custom-made wreath of orange blossoms. The bridesmaid, Miss Alice Taylor, wore a gown of damask and tulle. The groom was supported by Mr. Wm. Batterby. The ceremony was performed by Rev. H. A. Carson, in which the wedding party and the guests were photographed on the terrace. Light refreshments followed. The groom's present to the bride was a pearl star brooch, and to the bridesmaid a gold brooch, and to the groomsmen a ruby stick pin. The house was most beautifully decorated with carnations and roses, the bride and groom performing their vows beneath a great bell of roses. The bride's travelling dress was of blue cloth with white trimmings. Amid showers of rice and good wishes Mr. and Mrs. Dresser left by the Princess Victoria for a short trip to South Island.

LADY GAY.

UNDERGRADUATES' REVELS.

Oxford Students Burned Down Grand Stand—Routed Police With Fire-Rockets.

All Oxford is laughing over the wild and irresponsible outbreak of the Christ Church undergraduates recently, in celebration of their success in the Summer Exams. Fifty-eight years have passed since this college last won the leadership of the river.

It was decided to celebrate the victory by holding a huge bonfire in Christ Church Meadow. Rumor had it that this was a ruse, and that the real bonfire was to be the flaming of the grand stand which has been erected in a field close by for the forthcoming August. Subsequent events confirmed this.

Between eight and nine o'clock, while the undergraduates were lighting the bonfire on the college ground in the fire brigade, with engine and hose, moved and observed into the pagant field and quietly they rushed among the police, they could protect the newly erected stand. Then a posse of twenty-five policemen crept noiselessly over the turf and secreted themselves in the structure.

It was a cold business waiting in the wind, and at 10.30 the watchers began to fear they had been hoodwinked. Through the trees in the flickering light of the flames they could see the upper part of the grand stand in a great hubbub of singing, dancing, and playing all manner of instruments. There were nearly 300 of them.

Suddenly, from the deep blackness beneath the trees a shriek half a yell half a war-whoop, was emitted. It was a signal from scouts to the undergraduates which had been eagerly awaited. Swiftly they sped over the meadow. The police advanced to meet them with drawn truncheons, and then an amazing thing happened. The collegians drew back and arranged themselves like soldiers preparing for battle. Six-rocket were stuck in the ground with their tips directed on the police in front. Lights were applied, and the missiles sped forward like a flight of stars. The police turned and fled.

By this time the collegians had reached the firemen, who stood there ready with the hose ready directed at the advancing body. With a swish like the sound of escaping steam, they drenched the riotous undergraduates. It looked as if they would have to beat speedy retreat, but reinforcements were at hand.

Around a bend in the river swept a squadron of fifty boats and punts filled with shrieking young men. Coming to the bridge, now guarded by police, they set it afire, and passed on to where confederates were standing armed with burning poles. The latter were conflagration, and with a yell they dashed to the meadow. First they cut the hose pipes, and then brandishing firebrands they rushed among the police. The damage is estimated at just over £300.

"Melodrama" was the name originally given to a kind of musical play.

Girl

It is a sensible fact that lingerie is considered smart, and a woman wears the black linoleum. It is often made of silk and trimmed with lace. The correct cover to match on the same lines. I saw two pieces of black lingerie the other day, they were designed to wear over black dresses. Well, mix mustard together and serve in a dish.

Woodcock: Ingredients—Two tablespoonful cream, two minced tongue, salt and Beat up the eggs and mix the them; warm the anchovies, with the eggs and cream into a saucepan, and stir them over a minute or two until the thicken. Add the minced salt and pepper to taste, in squares of hot buttered bread.

BRINGS SALMON CATCH.

Tug Baldy Arrives in Port With the Largest Lift of the Season.

Tug Baldy arrived in port yesterday with a salmon catch taken from one of the traps at Otter Point. The catch amounted to nine tons and was taken from one of the traps operated by Findlay, Durham and Brodie. Many of the fish were of a large size, the average weight of them being 23 pounds. The catch is the largest made this season.

The catch was turned over to Lindenberg & Co., and to-day the fish are being dry-salted at Turner-Beaton's wharf. As is customary they will be shipped to Germany via New York.

REPORTS DENIED

Japs Declare Their is No Truth in Reports of Preparations for War

Tokio, June 15.—The real leaders and best people in Japan depreciate the talk of war with America. Frothy agitators and yellow journals have bought up and are responsible for exaggerated reports, but they have no more weight than similar journals in the United States. High authorities say the current reports of preparations for war are canards. No claims for individual losses will be made on the federal government. Messrs have already been taken to secure compensation from the municipalities concerned.

Notice is hereby given that, thirty days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situate in the Clayoquot District:

No. 1. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 12 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 2. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 13 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 3. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 14 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 4. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 15 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 5. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 16 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 6. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 17 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 7. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 18 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 8. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 19 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 9. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 20 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 10. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 21 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 11. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 22 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 12. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 23 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 13. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 24 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 14. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 25 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 15. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 26 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 16. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 27 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 17. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 28 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 18. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 29 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 19. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 30 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 20. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 31 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 21. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 32 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 22. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 33 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 23. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 34 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 24. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 35 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 25. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 36 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 26. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 37 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 27. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 38 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 28. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 39 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 29. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 40 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 30. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 41 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 31. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 42 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.

No. 32. Commencing at a post planted at the N. E. corner of Joseph A. Drinkwater's No. 43 location, Bear River, thence 80 chains E., thence 80 chains S., thence 80 chains W., thence 80 chains N. to point of commencement.
