

DIAZ ANNOUNCES HIS RETIREMENT

Mexican President Says He will Resign as Soon as Peace Comes.

Meanwhile Madero Gets His Troops Together and Makes Ready for Final Dash Upon City of Mexico—Peace Conference Fails.

Mexico City, Mex., May 7.—General Porfirio Diaz tonight announced his intention to resign the presidency as soon as peace is restored. In this manner the president virtually accedes to the demands of Francisco I. Madero that he make announcement of such intention.

El Paso, Tex., May 7.—General Francisco I. Madero, provisional president of Mexico, has ordered all the insurgent troops to abandon positions they hold along the United States border, and to concentrate their attacks on the cities in the interior. The cry among the insurgents now is "on to Mexico." Madero's decision is due, it is said, to avoid intervention, and also to stop this action will bring about the recognition of the insurgents as belligerents by the United States.

In a proclamation issued today, Gen. Madero praises the alacrity with which troops under his command have responded to the call, and expresses the view that they could easily take Juarez and other border towns. He recalls the trouble which arose over the killing of citizens of Douglas, Arizona, and adds that such attacks "might bring about very serious complications with a nation which has given us proofs of friendship and assistance upon us to sacrifice the immense military advantage which would result from the taking of Juarez, as it would probably result in international conflict."

Premises Glory and Reward. In his manifesto to his soldiers, General Madero recognizes the hardship which such an order entails, especially on the field officers, particularly Gen. Pascual Orozco, who was forced to retire from before Juarez, when it seemed possible that he would carry the city. He adds that Gen. Orozco, "showing an example of patriotism and abnegation, with sorrow has joined me in this; but I promise you that which I also promised him, which is that from now on we will make a victorious march until we arrive at the capital of the republic, where you will receive the reward which your patriotism and self-sacrifice have fully earned."

Senators Brink and Oregon, go-between in the recent negotiations, probably will return to Mexico City tomorrow with Judge Caraball, the federal envoy. They made several efforts to persuade Gen. Madero and his followers to recede from their attitude on the resignation of Diaz, but without result. The insurgents lead ever that they must obtain their political reforms by force of arms. Gen. Madero's plans are not known. It is believed that he will march due south to Madero, near the point where he stopped recently, prior to his march to Juarez. Part of his army will march tonight and the rest tomorrow.

RECIPROCIITY MEETING WAS VERY CHILLY

Eloquence Of Dr. Clark And Dr. Neely Could Not Arouse Any Enthusiasm In Fredericton On Saturday.

Fredericton, May 7.—The people of Fredericton and York county did not show any warm feeling towards the proposed reciprocity pact with the United States on Saturday night, when Dr. Michael Clark, M. P. of Alberta and Dr. Neely, of Saskatchewan, opened the tour of New Brunswick by Liberal members of parliament speaking in favor of the reciprocity agreement.

The public meeting was held at the city Opera House, which will seat about 800 and was pretty well crowded at a recent anti-reciprocity meeting held under the auspices of the Conservative party, but it was very difficult to get a crowd of respectable proportions to get here for Saturday night's meeting. The meeting was called for 8 o'clock, and ten minutes after that hour there were only 50 people in the main body of the house with 16 men and women and one child in the gallery.

Later on the Liberal party men who were to have occupied seats upon the stage and others swelled the crowd to about 150, but at no time were there more than that number in the audience. C. Fred. Chestnut acted as chairman of the meeting and there was no real enthusiasm shown. All the applause was from the partisan Liberals who were to have been seated upon the platform if the expected large audience had materialized.

Dr. Neely spoke first and discussed immigration and other things, at the same time trying to arouse some fighting enthusiasm in the Liberal ranks, but the party have been so often and so soundly beaten in York county in the last little while, that the doctor tackled a hopeless task. His reference to the subject is explained by the fact that he was not properly told. Later Dr. Neely spoke of the proposed reciprocity agreement with the United States, contending that Canada did not seek the agreement from Washington.

Dr. Clark followed. He is a proponent of free trade, and says that to suit his views the reciprocity agreement does not go far enough. The Liberals are much disappointed over the result of the meeting.

A DRY NIGHT IN MONTREAL

Thirst Quenching Establishments Closed Early Saturday Night and Result Was Decrease Of Inebriates.

Montreal, May 7.—The early closing by-law forcing bars and saloons to close at 7 p. m. on Saturday night, was in force yesterday and coincident with this fact, comes the fact that the number of men taken into custody by the police last night was fifty per cent. smaller than the usual Saturday night average. Generally anywhere from seventy to eighty men spend Saturday night in the various police stations to a greater or lesser extent, under the influence of liquor, but last night, although almost the entire force was out to guard against infractions of the early closing law, only thirty-two inebriates were taken in charge.

A STEAMER AGROUND IN THE ST. LAWRENCE

Montreal, May 7.—The a. s. Steamship Company, which grounded early yesterday morning, between Les Pointes and Pointe-aux-Trembles, was hauled off the mud bank on which she came to grief early last night, by the combined efforts of four tugs. She has sustained practically no injury. Captain H. N. McMaster was in charge of the steamer, which piles between Sydney, N. B., and Fort William. She left the harbor commission's elevator empty late Friday night after unloading 135,000 bushels of grain, and in going down the river, ran out of the channel in some manner as yet unexplained and grounded on the left side.

At the House of Commons Theatre

SIR WILFRID LAURIER (AS THE PROSPEROUS FARMER) IN THE GREAT EXTRAVAGANZA COMEDY "RECIPROCIITY."—From the Toronto News.

DOCTOR McALISTER THE STAR PERFORMER AT THE RECIPROCIITY TALK-FEST

Member for Kings-Albert Very Much in the Lime Light at Sussex Meeting—His Speech Chiefly Remarkable for His Frank Admission that He Knew Nothing About Reciprocity and Did Not Think Others Knew Any More—C. J. Osman Pins Verbal Bomb on Doughty Doctor Duncan.

After the chairman had made a few remarks, "Doc" McAlister stepped into the arena. He said he often thought he had been born under an unlucky star. He had expected to act as chairman, but fate had decided that he was to be a speaker. He did not know more about the reciprocity question than I do. To be quite frank with you I don't know the whole story yet. After listening to many speeches here and there, I have listened to at Ottawa, one goes out to think for himself with mighty confused ideas. There are two sides to the question, and the politicians of both sides can put up pretty good arguments. And in politics, you know, it's pretty hard to know just what you're getting into. I don't know where you stand. You don't want to believe the speakers of both parties, or what you read in the Telegraph and the Standard. Both of them do a lot of exaggerating. And when you've read both, I tell you, you have to keep your eyes open if you want to know where to get on. You can't believe both sides, and it's a hard job to know what to believe.

Has Some Doubts. "I don't say this reciprocity scheme is going to be a good thing for everybody in this country; I don't like Mr. Cowan; I can't come here and tell you whether it will be good or bad for British Columbia, or other parts of Canada. But I do think it's going to be a good thing for New Brunswick. And I think I'm a judge of what's good for New Brunswick. I've lived here all my life, and I've had my eyes open as long as anybody I know of in this province. I've kept my eyes peeled, and worked along 13 hours a day—more than most of you—and I ain't as old as some I've made up the time by being awake longer hours—and I've watched how things have been progressing in this country, ever since I was a boy in short pants—I mean trousers—I've thought—I've had a feeling that better trade relations with the United States was what we wanted, because it would be a good thing for us.

Of course, I know it is very easy to get wrong ideas on anything. Any of you are liable to get wrong ideas if you start wrong. Even I may go wrong. I don't know any better. All of us are influenced by environment, and as a medical man I know something about your environment. But I think I've got the right end of the stick on this question of reciprocity. Maybe our forefathers were wrong in advocating reciprocity. I don't say they weren't, but that isn't the question we're fighting over now. What we've got is to ask ourselves: "What do we think?"

Free Trade's The Thing! "Some people think the government has no mandate to put through the reciprocity pact. But I'll tell you what I think: I think we ought to consider the history of this country, ever since Confederation the people have been advocating reciprocity. The Fathers of this country put Confederation on its pins they gave us a duty for revenue. Then the Tories in 1877 came in, and set up pro-

tection. They thought they would encourage manufacturing industries. I don't know whether they were right, and I'm not arguing the point now. But by and by the Liberals came in. Their policy was practically free trade, so speak, and therefore I say they had a mandate from the people. Mr. Harris up in Ottawa said they had no mandate, and maybe he thinks so. But we all know that in 1896 the free trade plank was the principal plank in the Liberal platform, and if it was then it's been the same since. It was on the books, and it's there yet. The Liberals had a mandate to bring in free trade. But they didn't lower the tariff. The manufacturers held up the government. They got round them some how. You know how it was. There were rich trusts holding up the farmers near here and in other places, and they didn't want to let go.

Now, I will give you a reason why I think this reciprocity is a good thing, and I want to say I'm just as loyal as Mr. Cowan or anybody else in Canada. I want to say this reciprocity pact is a good thing, and I'll tell you why I think so. The manufacturers are opposing it—that is my principal reason, and the bankers are opposing it, too—that is my second reason. "The manufacturers know this is the last call for my industry. If it goes through and you get one year's trial of it, it will be good to the Conservative party for 20 years. I want to tell you that if it goes through—and it looks to me like the sound sense of the whole thing.

Some Personal Reminiscences. "Mr. Cowan made some assertions here when he spoke against reciprocity—I don't think he spoke in the House on the question, and I don't mind telling you—neither did I. When I first went up there, I thought it was a good thing to be on my feet, and have something to say, but I got some insight into the way things go, and I learned to school myself to keep my seat. I tell you all that talk up there don't go far. I've seen men get up and talk for two hours, and not two members listening to them. And I'll read their speeches. They have their notes and books in their hats, and only the fellows at the nearby desks see how they are doing it. They all do it, and all pretend they're talking off the bat. They wouldn't make such good speeches if they had to stand out in the open and reel it off as I'm doing here tonight.

I don't go in for speeches in the House—there's nothing in it. I was a fool to make a speech on the navy question. It cost me a lot. I had it printed and sent around. It cost like mischief to mail it, and pay for postage. But I don't believe if men read it, I haven't met that many who knew anything about it.

So Confusing! "But they are making me up there. Some of them are talking all the time. And they've been talking on this reciprocity business till most of us are so confused we don't know what we're saying. They talk all around it, and the other members attend to their correspondence or read a book, or think of the folks at home. So we've agreed to let the Conservatives talk their ears off.

After replying to some arguments of Mr. Cowan and Mr. Jamieson on his own inimitable style, the "Doc" went on: "A man said to me the other day, 'If this agreement goes through, it's goodly to the hullo. How is that?' I well, says he, 'The Tanks will come in and take our pulpwood. Don't they do it now?' says I. Mr. Cowan talked a lot of rot about bushes, and said we'd become hewers of wood and drawers of water. I suppose we'll have to get back to the old oaken bucket. Did you ever hear the like. It starts the sweat.

Sussex, May 6.—A farce comedy entitled "Why Reciprocity," was presented at the Opera House this evening and a large audience, containing quite a percentage of the fair sex, was amused if not edified. The plot of the play was rather obscure, but it appeared to revolve around the question whether "Doc" McAlister, reciprocity, or the price of Ontario short horns was the issue before the country, with the odds on the hypothesis that the fate of Canada depended on the "Doc's" return to Ottawa.

AN ELECTION MAY COME THIS FALL

MR. FIELDING MADE THREAT OF RESIGNING

Minister Of Finance Practically Forced Laurier To Adjourn Rather Than Prorogue On The Reciprocity Question.

Ottawa, May 7.—Liberal members state positively that Sir Wilfrid Laurier was perfectly willing to agree to the demand of the members of his party, that parliament should prorogue instead of adjourn, but that Hon. W. S. Fielding declared he would resign from the cabinet if this was done. He pointed out he had pledged the honor of Canada to President Taft that the government would pass the reciprocity agreement before the session ended, and to prorogue without doing so would be to break faith. Prorogation would, therefore, be regarded by the minister of finance as a condemnation of the course he had pursued.

STREAM DRIVERS FIND MAN'S BODY IN AN OLD CAMP

Mystery Of The Disappearance Of Charles Pettipas Probably Solved By Discovery Made At Salmon River.

Ottawa, May 7.—Well No. 29, the last bored by the Maritime Oil Fields in the Stoney Creek field, is now down 1570 feet and a report on Saturday stated that a strong flow of gas had been struck. Indications are that this will be a four million producer. This well is nearer Hillsboro, thus indicating that the gas area is widely extended.

Bishop Richardson will hold confirmation in St. George's church here next Sunday. Last week stream drivers found the decomposed body of a man in an old lumber camp on the Salmon River, about 25 miles from Harcourt, Kent county. It is supposed to be that of Charles Pettipas, aged about 50, a trapper of Shediac, who has been missing since last September. Pettipas went north last September on a hunting expedition and had not since been heard from. Quite a sum of money and some pearls he had found in the river were found on his person. The cause of death cannot be determined, but he was doubtless taken ill while in camp and died from lack of care and attention.

FOUND THE ROADS IN GREAT SHAPE

James H. Crockett And Party Found Excellent Going From Fredericton Through To Houlton, Maine.

Fredericton, May 7.—What was the earliest auto trip ever made in any season from this city to Houlton, Me., was enjoyed on Saturday by James H. Crockett in his McLaughlin-Buick car, accompanied by W. E. Jardine, Robert MacCann, Wallace Crockett and chauffeur Harry Moore. The running time for the 76 miles from this city to Woodstock through to Houlton was 4 hours, and 19 minutes. The party left here about 2:45 o'clock on Saturday afternoon and returned this evening. Mr. Crockett who is an auto enthusiast, expressed himself this evening as much pleased with the condition in which they found the roads. "Why," he said, "I went over the same trip on the 22nd of May last year, and I can say that the roads are fully 100 per cent. better now than they were then. There are only two bad spots which automobile parties need to watch out for, one is at Shogomac where better drainage is needed with a new culvert, and the other is about two miles out of Woodstock going towards Houlton. Outside of those two places about all that is needed is a little spring work, and I think that if the work was done in the spring instead of in mid-summer the results would be more beneficial. There are comparatively few rough places on the road between Fredericton and Woodstock," concluded Mr. Crockett, "and the farmers are remarking upon the improved condition of the roads at their service in the past two or three years."

Impression Now is that General Election May Be in November.

Both Parties Active, and Political Battle Ground will Soon Change from Ottawa to the Country -- Mr. Borden's Western Tour.

Ottawa, Ont., May 7.—With the departure of Sir Wilfrid Laurier this week for England, the scene of the political battle will probably take place shortly while from the capital to the country. Members are arranging for meetings in their constituencies and leaders are arranging for more or less ambitious tours. Naturally the western tour of the leader of the opposition assumes first importance. While the dates are not definitely fixed, the tentative programme is that Mr. Borden will begin his tour of the west about the middle of June and that it will last three weeks. Manitoba, Saskatchewan and Alberta will be covered as thoroughly as possible in the short time at his disposal. British Columbia will not be visited, the assurance of the British Columbia ministers who have been in the capital being that the Pacific province will return to Liberals at the next general election.

There is some prospect now that there will be a general election in the autumn. It will probably take place about the end of November after the redistribution bill has passed the house. Liberals Are Active.

In the Liberal camp there is also activity. There will be a strong effort made to render abortive the western tour of Mr. Borden. Indeed Rodrick MacKenzie of the Grain Growers' Guide, has sent out the call to number of the Liberal workers who are connected with the Grain Growers' Associations to get together and spell Mr. Borden's meetings. Mr. MacKenzie has been here all winter assisting in the organization work of the Liberal party, with particular attention to the west. The columns of the Grain Growers' Guide, he had conducted a government campaign which has included misrepresentation of the position of the Conservative members. This charge has been made in the House. It has proved difficult to combat as he used the columns of the Guide for government purposes while assuming a feigned appearance of independence.

There have been rumors that the government, after parliament adjourns, will prorogue. This may be dismissed as mere speculation. It is altogether improbable that the opposition will allow enough supply to pass the house to lose their hold on the situation. The Conservatives are unanimous in declaration that the opposition will not adjourn, but that the reciprocity agreement will be fought to a finish. They have set out to defeat it on national and imperial grounds and prorogation would only stall off the fight. They want the fight now, and would not have suggested adjournment had it not been for every excuse the premier might have for not going to the convention and imperial conference.

BURGLARS AT WORK IN ALBERT COUNTY STORES

George W. Newcombe's General Store At Albert Visited Early Saturday Morning And His Cash Drawer Rifled.

Albert, Albert County, May 6.—On Saturday morning on arriving at his store, George W. Newcombe found the rear door of the shop had been forced and an entrance effected. Upon investigation, he found the cash drawers in the general store rifled, and the contents, amounting to about \$18, stolen. At the time of the burglary there was a large sum of money in the safe, but the safe was not tampered with by the burglars. Miss Annie Peck, who conducts a general store about a hundred yards from Newcombe's place of business, found the padlock on the door of her shop broken and the front door forced. The tills were rifled by the burglars, and besides \$80 in cash, a quantity of tobacco was stolen. The matter has been placed in the hands of the proper authorities, and as there are good clues as to the identity of the guilty ones, some arrests will probably follow soon.

THE HOUSE FAMED FOR MILLINERY

BARGAINS Fancy Tailored Shirtwaists

These shirtwaists which were imported to sell at \$1.50 each are beautifully made of a Fine Quality of White Linen Lawn, tucked front and back, with fashionable side fastening, mother of pearl buttons and trimmed with Valenciennes insertion and embroidery. They are being offered at a reduced figure to make room for our Big Millinery Display. All are 1911 Summer Models and you can have them

QUEEN MOTHER MAY NOT ATTEND THE CORONATION

London, May 7.—It is announced that Queen Alexandra will be absent from London throughout the Coronation festivities. Her Majesty's health has been seriously impaired, and it is feared that she could not stand the strain of the celebration.

C. E. DORION, K. C., MAY GO TO THE BENCH

Quebec, May 7.—C. E. Dorion, K. C., ex-prosecutor of the bar, had a telegram today from Sir Wilfrid Laurier offering him the position of judge of this district, which is necessitated by the elevation of Sir Francois Langelet to the Lieutenant Governorship. The official appointment will be officially announced tomorrow. The appointment will be one of the most popular made in this district for a long period.

Hurry!

TO THIS STORE as soon as you notice any defects in your eyes. Delay is dangerous. We are the only exclusive opticians in this city. Our prices are moderate. D. BOYANER, Graduate Optician, 28 Dock Street.

ROMEO TOWED TO VINEYARD HAVEN

Woods Hole, Mass., May 6.—The British schooner Romeo, bound from St. John, N. B., for New York, which was in collision with an unknown schooner in Pollock Rip Slue, Thursday, was found anchored east of Horse Shoe Shoal today by the revenue cutter Arcusinet. The revenue cutter took her in tow for Vineyard Haven. The old harbor life saving crew boarded the Romeo yesterday and found that she was taking badly as a result of her collision, but the captain of the Romeo thought that he could make Vineyard Haven safely without assistance, and started across the shoals. Today he signalled for help.

LEAGUE BALL GAME ENDS IN LIVELY FIGHT

Umpires Mobbed And Police-men Beaten Up By Maddened Fans At The Close Of Eastern League Game.

Providence, R. I., May 7.—The Providence Reds and the Boston Braves today wound up in a riot in which the crowd swarmed onto the field, mobbed the umpires and finally attacked the force of constables who had placed under arrest one of the fans for striking Umpire Pender. Before the excitement had subsided the constabulary was pressed upon, several fans were cut and bleeding and the prisoner had escaped. The bleachers surged onto the field at first to show their displeasure with the ruling of Umpire Pender, who had called the game when his watch showed 5 o'clock, while Umpire Murray's watch lacked several minutes of that hour, which had been agreed upon in advance as the time to quit in order to permit the teams to catch their trains for the west.

The calling of time came in the 9th inning at the crisis of an exciting game in which the grays had reduced the visitors' lead of three runs to but two and had two men on base with but one out. Just at this juncture Umpire Pender declared the game over, as his watch showed five o'clock, and marking the end of the game had been reached. The demonstration at first was against the umpire's decision, but when the constables arrested one of the men, the rage of the crowd turned upon the police. A general fight ensued. The police wielded their black jacks with effect and drove the foremost members of the crowd back with bleeding heads and faces.

Undaunted, the fans returned to the attack and through sheer force of numbers overbore the police and liberated the prisoner. In the meantime the players of both teams formed about the umpires and keeping off the crowd, escorted them to the cars.

PART OF MAN'S BODY WAS FOUND ON BEACH

Ghastly Discovery Near Parrsboro—No Definite Evidence To Establish The Identity Of The Victim.

Special to The Standard. Parrsboro, N. S., May 7.—The lower part of a man's body was found on the beach at Bull's Bluff, near Diligent River, last night, and Coroner Rand was notified. An inquest was held today but it was impossible from the facts available to establish the identity of the remains.

The body which was terribly decomposed was missing from the hips up and was clothed in drawers, socks and one shoe. A pair of trousers was also found near the body and also some red flannel, enclosing several sections of human vertebra. It is believed to be the body of Everett Allen, who was drowned off Port Greville last fall while rafting logs. It was interred in the Baptist cemetery at Parrsboro.

Mrs. John Gulderson, whose husband died a week ago today, aged 72 years, passed away last night, aged 77. She had been in poor health for some time, but it is thought the shock of her husband's death hastened her end.

QUEEN MOTHER MAY NOT ATTEND THE CORONATION

London, May 7.—It is announced that Queen Alexandra will be absent from London throughout the Coronation festivities. Her Majesty's health has been seriously impaired, and it is feared that she could not stand the strain of the celebration.

C. E. DORION, K. C., MAY GO TO THE BENCH

Quebec, May 7.—C. E. Dorion, K. C., ex-prosecutor of the bar, had a telegram today from Sir Wilfrid Laurier offering him the position of judge of this district, which is necessitated by the elevation of Sir Francois Langelet to the Lieutenant Governorship. The official appointment will be officially announced tomorrow. The appointment will be one of the most popular made in this district for a long period.

DR. McALISTER STAR PERFORMER

Continued from page 1.

At the close of the meeting when Mr. Guthrie called for three cheers for the representative of King's county, the "Doc" seized with another spasm of modesty, or perhaps again that his cad-drum was broken by the sound of the cheers, hastily fled from the stage. But he need not have been so afraid. The cheers were faint and scattered.

The Curtain Rises. On the whole the production was well staged. Shortly after 8 o'clock Dr. G. N. Pearson, the chairman, and the speakers of the evening, Dr. McAlister, Chas. H. McIntyre of Boston, Hon. C. J. Oaman and Cuthrie, M. P., took seats on the stage. Then at the signal of the stage manager the lights were turned on and the curtain rose, revealing the distinguished performers to the waiting audience.

An Open Confession. After again declaring that the Liberals came to lower the tariff, he did not do so because the manufacturers wanted to amalgamate and put up prices and hold down the farmer, he was so afraid. The cheers were faint and scattered.

I've tried my level best to get everything I could for this constituency, and I have made no difference between Liberals and Tories, though when there was war, I usually tried to get it for a Liberal friend. But I did not try to kick Tories out of office when they were good men.

I don't know whether I'll be your representative again, and I don't care. There's nothing in it. But I tell you farmers, you who have stuff to sell, don't listen to all you hear from Conservatives or Liberals, but don't let them make you think that it will do you any harm to have another market. And this loyalty cry, don't let that run away with you. The old Mother Country lets in Yankee products. She can't blame us when she's doing the same, only to lower the tariff.

Easier Money For Doctors. "I'll tell you another reason why I support reciprocity and that is because Sir Wilfrid Laurier is the greatest statesman in the Empire. He's made few mistakes. As a doctor, I'm glad to see you get easier today than 10 years ago. Now I'm going to stop talking; if I don't talk till 12 o'clock, but I want to say to you, Give us a trial, stick to the party that has helped you. As I said it the last call to the dining car, I'm a doctor and I want to go to my practice—the rabbit's tail is getting short."

The Liberals want to get this through, but the Conservatives would sooner see the country swamped.

An American View. Mr. McIntyre, the next speaker, who belongs to Boston, said the people of New Brunswick were better fitted to take part in the government of their country than the people of Russia or southern Europe. But he did not think they had done enough to develop their province and should get together and see if they could do something to uplift themselves. He did not doubt there were many prominent men in the United States who believed that Canada would outdo the United States, and was a firm believer in this idea. But he regarded their views as harmless.

The Americans were not animated by the spirit of conquest, as regards the objection that reciprocity would interfere with imperial preference, he did not see anything inconsistent between the two. The product taken in the U. S. and England were dissimilar.

The speaker said that though a resident of the states, he only desired the mutual welfare of Canada and the republic. In conclusion he assured the audience that they were living in the age of great events, and as they looked to the opportunity in the face, they should grasp it by the forelock, lest it return no more.

Hon. C. J. Oaman said he had no intention of making a speech. He had been told once before to express how tedious, because the audience had come to hear Mr. Emmerson. He wanted however, to say a word for Dr. McAlister. No one was a personage than Sir Wilfrid Laurier had told him how much Dr. McAlister was esteemed at Ottawa, and how necessary it was that he should be sent back.

Mr. Guthrie who followed was apparently not of the "Doc's" opinion that the free trade propensities of the Liberal party were responsible for the reciprocity pact.

How, he asked, has the situation arisen? It has come about because of the increased cost of living in the U. S. The trusts and combines had the people at their mercy. So overtures were made to Canada with a view to getting our natural products and cheapening the cost of living.

A Boost For The Doctor. In opening his remarks, Mr. Guthrie said he had no words to express how much he felt flattered at the invitation of Dr. McAlister to speak at Sussex. He assured the audience that Dr. McAlister was the most popular man in the House of Commons. The doctor did not take up much of the time of the House. But he was regular in attendance, and did good service in committee.

Continuing he said he had driven about the surrounding country, and had noticed that it was an up-to-date

SEVEN MAY GO ON STRIKE BEFORE JUNE

World Wide Strike, Most Serious In Its Consequences, Feared If Ship Owners Do Not Heed Demands.

London, May 7.—Unless the shipping federation, the ship owners' organization, gives a satisfactory reply to the demands of the national seamen's and firemen's union of the United Kingdom, an attempt will be made some time in May to bring about a world wide strike of the crews of both steamers and sailing ships. A year ago the seamen's union asked the federation to agree to the formation of a national conciliation board so that the following questions could be discussed:

- 1.—A uniform scale of wages for all ports, a minimum living wage, and wages to be paid on the basis of a sliding scale.
- 2.—A scale of manning for the seamen employed on deck, in the stoke hold, and in the galley.
- 3.—The right of seamen to have a representative present when the articles of agreement are signed, so as to prevent the seamen's interests being sacrificed during the progress of the voyage.
- 4.—The right of seamen when on voyages exceeding a month, to claim for a minimum of 20 days of their wages due at the end of each month, so as to enable the men to purchase their clothes and other necessities in the open market.
- 5.—The right of seamen to have a system which has been in operation on foreign vessels for many years.
- 6.—The question of shipping federation and tickets.
- 7.—Medical examinations.
- 8.—The constitution of a board to settle claims for compensation under the workmen's compensation act, similar to the board now existing between the mine owners and miners so as to avoid costly and unnecessary litigation.

The federation replied that it was unable to entertain the proposals, and since then nothing has been done to settle the seamen's claims. An official of the union has announced that if nothing favorable was heard from the ship owners, the whole subject would be finally settled at one way or the other, at the international conference to be held in London in May. At the conference representatives will be present from the seamen's union of Europe, and the officials added that there was every probability of the conference deciding upon a strike as the only way out of the difficulty.

OLD KING'S COUNTY RESIDENTS DEAD

Special to The Standard.

Sussex, May 7.—The death of George Thompson at the advanced age of 91 years, occurred at his home at Hammond on Saturday. He was a farmer well known in the district. Besides his widow he is survived by one daughter, Mrs. William S. Taylor, of Sussex, and two sons, Alfred, of Hothesay, and William, of St. John. The funeral will take place on Monday.

Isaac Wallace Derry died at his home at the Head of Millstream on Thursday. He was 72 years of age. The funeral took place on Saturday at the Church of England burying ground at Apohquid, Rev. Canon Neales of that parish officiating. He was survived by his wife, Mrs. Derry, and two sons, William Beat, of Riverglade, who is in his 94th year and still well and active.

The death of Sarah Smith, wife of William Smith occurred at her residence at Sussex Corner on Saturday. Mrs. Smith was 72 years of age, was a life-long resident and well known and much respected throughout the county. She was formerly Miss Sarah Rees, of England. Three sons, J. Ernest, W. A. and Fred T., and one daughter, Mrs. Richard Roach, of St. John predeceased her. She is survived by one son, J. B. Smith, of Sussex Corner and one daughter, Mrs. R. A. Borden, of Moncton. P. C. Smith, of St. John, is a nephew. The funeral will take place on Monday at 3 o'clock. Rev. W. E. Clark, of Moncton will officiate.

FACTORY FIRE NEAR MONTREAL

Montreal, May 7.—Fire broke out in the testing department of the Allis Chalmers Bullock factory near Lachine late yesterday afternoon and burned fiercely for nearly three hours before the combined fire brigades of the Montreal and Lachine fire brigades, and the employees' brigades of neighboring factories could get it under control. The damage is estimated at between fifty and one hundred thousand dollars. A large oil tank in the testing department, and lumber piles in the rear of the building made the fire especially difficult to cope with, and it was only after a steel cable had been placed around the tank and it had been hauled to a safe distance that the efforts of the fire fighters met with success. The damage is estimated at between fifty and one hundred thousand dollars. The company carry one hundred thousand dollars of insurance with the Canadian Factories' Association, and many thousands with the New England Mutuals.

THE CHURCH AND THE QUESTION OF MIXED MARRIAGES

Quebec, May 7.—Some interesting questions are to come before the coming session of the Diocesan Synod of the Anglican church, which meets here on June 6.

Among the notices of the motion given is one by the dean to the effect that a committee to consist of three clergymen and three laymen be appointed to prepare a memorial to be sent to the general synod of the Church of England in Canada at its next session on the subject of mixed marriages, and the grave danger which threatens the whole community if the civil courts are allowed to annul marriages which have been solemnized in strict accordance with the laws of the land.

Another motion by Rev. H. A. Dickson is to the effect that the synod take such steps as may be considered necessary to maintain for the clergy of the Church of England in Canada, equal civil rights with those of the clergy of any other religious body in Canada, and the validity of the marriages they perform.

HELEN GRAYCE COMPANY IS GROWING IN FAVOR

Saturday's Performances Among the Best this Excellent Company has yet Given—Good Bills for this Week.

The Helen Grayce Company completed the first week of their present engagement on Saturday most auspiciously when the House of a Thousand Candles was presented afternoon and evening to audiences that taxed the capacity of the Opera House.

The play was produced in the pleasing manner that has characterized all the performances given during the week.

The members of the cast acquitted themselves capably in their roles. Patrons on Saturday were more fortunate than those who attended other productions during the week, for in "The House of a Thousand Candles" Miss Grayce had a role which afforded her an opportunity to show more than most of the pieces in which she has yet appeared, and she took advantage of all captivating her audiences with her clever and pleasing acting.

The second and final week of the engagement begins with the play, "Little Brother of The Rich," which is the bill for this evening.

It had been the intention of the company to present "The Clansman" on Tuesday evening, but through deference for Mayor Prink, the company has decided to withdraw the play.

OLD KING'S COUNTY RESIDENTS DEAD

Special to The Standard. Sussex, May 7.—The death of George Thompson at the advanced age of 91 years, occurred at his home at Hammond on Saturday. He was a farmer well known in the district. Besides his widow he is survived by one daughter, Mrs. William S. Taylor, of Sussex, and two sons, Alfred, of Hothesay, and William, of St. John. The funeral will take place on Monday.

Isaac Wallace Derry died at his home at the Head of Millstream on Thursday. He was 72 years of age. The funeral took place on Saturday at the Church of England burying ground at Apohquid, Rev. Canon Neales of that parish officiating. He was survived by his wife, Mrs. Derry, and two sons, William Beat, of Riverglade, who is in his 94th year and still well and active.

Why the New Encyclopaedia Britannica is sold at A LOW PRICE and upon such easy terms of payment as bring it within the reach of every reader

1.—The issue of the new edition of the Encyclopaedia Britannica, by the press of the University of Cambridge (England) has been received as an event of international importance, a triumph of organized scholarship for the benefit of the whole English-speaking world.

"Scholarship and research in no country have produced anything on the same scale."—Westminster Gazette.

"Something more than a merely literary event. It attains the dignity of a historical incident."—Daily Telegraph.

2.—But the distinguishing feature in connection with the new Encyclopaedia Britannica is to be found in the fact that this great effort of organized scholarship has been made in the service of a popular book.

The leading authorities and specialists in every department of knowledge and activity, and from all parts of the world, have here collaborated in the production, not of some wonderful monument of learning for the use only of their brother scholars, but of a book which appeals to the whole body of readers without distinction of class or occupation or interests.

Their efforts were given to the production of a "complete circle of instruction" (for this is what the word "encyclopaedia" implies), a work of which the value in these days is so evident as fairly to entitle it to be called a necessity.

3.—The need for such a book as the Encyclopaedia Britannica is a growth of "modern times." It has been said of Goethe that he was the last of those giants who, with Bacon, could take all knowledge for his province. The Encyclopaedia Britannica first appeared in 1788, when Goethe was in his twentieth year, as a fruit of the general intellectual ferment which in France was preparing the way for the Revolution. Already specialization was developing the arts and sciences beyond the reach of the individual mind, and the subsequent growth of the Encyclopaedia Britannica, its attainment of a position unique in the world of letters, were the consequence of such an expansion of knowledge as the first publishers could never have conceived.

4.—Were it still possible for a man to acquire—from his own experience, from his intercourse with others, from the ordinary course of his reading—even a passing acquaintance with the history, geography and biography of the world, with its beliefs, speculations and laws, with the sciences and their practical application, with the arts and industries, the need of "a circle of instruction" might be felt only by the studious. But the reverse is the truth.

Wide interests, the desire for information, the belief that knowledge tells, and tells in the most practical fashion, are features of our time—features reflected in its most characteristic product, the daily newspaper. In the pages of his newspaper the reader's interest is claimed for every conceivable topic, and his instinct is to refuse interest to none.

5.—Thus, in the 11th edition of the Encyclopaedia Britannica there appears, as one reviewer phrased it, "the right thing at the right time." And it appears, he added, "in the right way." For, while the cost of producing a new edition, which contains fully twice as much information, has inevitably risen to more than double that of the edition of a generation ago, it is at present being sold at a rate which is little more than half what the ultimate cost will be, and it may be paid for in such instalments as bring it within the reach of all.

That the new Encyclopaedia Britannica should be cheap and easy to buy may be described, then, as a feature no less essential than the thorough preparation of its contents.

It is to be remarked, however, that its present cheapness is temporary, and any reader who is acquainted with the work only through report, should use at once the form printed below. He will thus obtain interesting material from which to form his own judgment of a most interesting book, as well as an order form showing the present prices and terms upon which it may be acquired.

THE ENCYCLOPAEDIA BRITANNICA NEW ELEVENTH EDITION

A completely new work, founded on a fresh survey of the world in every department of knowledge at the end of 1910. 28 quarto volumes (12 inches by 9 inches) of text, each containing 900 to 1,000 pages, and index volume containing 60,000 references. 40,000 articles aggregating 41,000,000 words; 7,000 text illustrations; 450 full-page plates; 417 maps. The production of the work cost \$1,150,000 before a single volume was printed.

The 1,500 contributors include the great scholars, leading authorities and the best practical experts in all civilized countries. The employment of India paper reduces to one-third the weight and bulk of the volumes, and makes the work one to read, not merely to refer to.

NOTE—Those who possess copies of the 9th edition of the ENCYCLOPAEDIA BRITANNICA (now out of date) are requested to advise us of the fact (giving name of publisher and number of volume), and if they wish to purchase the new edition, will be informed how they can dispose of their old editions at a fair valuation.

Cook in Summer
WITH
\$1.00 Gas
And Enjoy the Comfort of a Cool Kitchen
Now is the Time to plan the summer cooking, working in a hot kitchen, which, by the old way, means dealing with hot lids, face-burning coals, dust, ashes and garbage.
Compare With \$1.00 Gas
You light the fire, when you want it, then go right ahead with your cooking—regulating the heat, in each burner to the exact needs of what it is to cook—and turn off the gas when done with it. No kindling or coal to carry, therefore no ashes or garbage to take away.

TENDERS FOR SEWER PIPE

The Municipality of the City and County of Saint John invites Sealed Tenders for the furnishing and laying of "Vitrified Salt Glazed Sewer Pipe," for the Village of Fairville, specifications for which may be obtained at the office of the Engineer, Number 74 Carleton Street, in the City of Saint John.

A cash deposit must accompany each Bid, the amount being as stated in the Specifications. The Municipality does not bind itself to accept the lowest or any tender. All Tenders must be addressed to the County Secretary, Number 108 Prince William Street, who will receive Bids until 4 p. m., of Friday, the 13th day of May, A.D. 1912. No Bid will be considered unless on the Form specified, copies of which will be furnished upon application at the office of the Engineer. Dated at Saint John, N.B., April 25th, 1912. GILBERT G. MURDOCH, Engineer. J. KING, Clerk. County Secretary.

Annual Meeting St. John Real Estate Company, Limited. The Annual Meeting of the Shareholders of The St. John Real Estate Company, Limited, will be held in the office of the company, 129 Prince William Street, on Wednesday, the 10th day of May, at 4 p. m. for the purpose of electing Directors, and for such other business as may properly come before said meeting. Dated this 20th day of April, A. D. 1912.

L. P. D. TILLEY, Managing Director. The above meeting will be held and adjourned until Wednesday, the 7th day of June, at the same hour and place, on account of the absence in England of the Managing Director.

Tenders for Stock

Up to 12 o'clock a. m., May 15th inst., tenders will be received by John Russell, Jr., Auctioneer, in the name of Joseph F. Bardsley, for stock in trade, consisting of drugs, patent medicines and stock in trade, including soda fountain, cash register, typewriter, show cases, shelf bottles and fixtures, also all accounts due said Jos. F. Bardsley. The stock list can be inspected at office of The Canadian Drug Co., Ltd., Prince Wm. Street, on application. Terms cash. Highest or any tender not necessarily accepted.

JOHN RUSSELL, JR., Assignee. MacRae, Sinclair and MacRae, Solicitors.

Relief & Aid Society

The annual meeting of the Relief and Aid Society will be held at the Board of Trade rooms, 85 Prince Wm. Street, on Monday, 8th inst., at 4 p. m.

H. D. EVERETT, Secretary.

PROBATE COURT, City and County of Saint John. To the Sheriff of the City and County of Saint John, or any Constable of the said City and County—GREETING:

Whereas the Executors and Trustees of the estate of Fannie E. Palmer of the City of Saint John in the City and County of Saint John, spinster, deceased, have filed in this Court an account of their administration of the said deceased's estate and have prayed that the same may be passed and allowed in due form of Law, and distribution of the said estate directed according to the terms of the last Will and Testament of the said Fannie E. Palmer, deceased.

You are therefore required to cite the devisees and legatees of the deceased and all of the creditors and other persons interested in her said estate to appear before me at a Court of Probate to be held in and for the City and County of Saint John, at the Probate Court Room in the Pugsley Building in the City of Saint John, on Wednesday the seventh day of June next at eleven o'clock in the forenoon then and there to attend at the passing and allowing of the said accounts and at the making of the order for the distribution of the said estate as prayed for and as by Law directed.

Given under my hand and the (L.S.) Seal of the said Probate Court, this 5th day of May, A.D. 1912. (Signed) J. R. ARMSTRONG, Judge of Probate. H. O. McNEILLY, Registrar. EDWARD T. C. KNOWLES, Proctor.

SPANISH QUEEN IS GOOD HOUSEKEEPER; LOVING MOTHER, AND ENJOYS SEWING

QUEEN VICTORIA IN HER SEWING ROOM. It is said that the Queen of Spain is the proudest mother in all Europe that not even the humblest mother among her royal consort's subjects lavishes more care and attention upon her own little ones than does Queen Victoria. She has three children—two boys and one girl. On May 21, it will be five years since the English princess was led to the altar by the Spanish ruler. Queen Victoria, as may be imagined from the above, is a very home-like sort of a person, and this notwithstanding the fact that the king is a notoriously unfaithful husband and spends little of his time with his family. The queen takes great delight in attending to her household affairs; and is quite in love with her sewing and embroidery work, making many dainty things for her children and for charity. Just now she is very busy planning for the coronation of her uncle, King George, which ceremony both she and her husband will attend, and in which she will be a most interested person, for she looks upon her native land with longing eyes, and would like to live there once again.

ELOQUENT LECTURE BY A SOCIALIST MEMBER

C. M. O'Brien, M. P. P. for Rocky Mountains District of Alberta, Spoke in the Unique Theatre Last Night. C. M. O'Brien, M. P. P. for Rocky Mountains, Alberta, delivered an able lecture on Socialism, in the Unique Theatre last evening. J. W. Eastwood presided and there was a big audience including a large percentage of small business men. A thousand organizations, said Mr. O'Brien, had sprung into existence to deal with the prevailing social unrest, but the socialist organization was the only one that went to the root of the evil. The others ignored the causes and tried to cure the evil by dealing with the effects. Aristotle found that the cause of poverty in his day was slow production. In the last few generations men's productive powers had enormously increased, yet poverty persisted. Why was this? It was because a small class exploited the labor of the masses. Formerly the millinaire hypnotized our forefathers into the belief that their wealth came from heaven. Now the kids wanted to know where and how the millinaire got his wealth. Under slavery, class exploitation depended on the ownership of men. Under feudalism the baron owned the land and they gave him a portion of the products of labor as if they had owned the serfs. Under capitalism a small number of people owned the machinery of production. This machinery of production represented the accumulated knowledge and labor of thousands of years. Yet a few men control it. Two-hundred men in Canada had it in their power to say whether the big industries should be kept in operation or not. The men who controlled the railways, steamboats and other arteries of commerce owned the products of earth. The farmer and business men might have title deeds to various kinds of property, but they merely amounted to a certificate to a steady job. Like the laborers they were merely wage-earners, selling not hay or boots, but their life-force or labor-power. As to Socialism the speaker said that it was the new science of sociology, developed by the laboring class in order to express the point of view of the workingman. The capitalist had taught the workers various kinds of science, when by so doing the efficiency of the laborer was increased. But they had not taught them the true science of sociology, because it was not advisable to reveal the system of labor exploitation. Moreover the capitalist could not get at the fact, because it was not their material interests to do so. History as taught in the schools gave false impressions. The great man theory had been exploded. Yet school histories deal almost wholly with the doings of alleged great men. The materialistic conception of history was the only true one. Turning to the question of surplus value, the speaker said that if the workers were taught to measure values as they were taught to measure lumber, capitalism would soon fall. Labor was the source of value. A gold mine at the north pole would be of no value, because labor could not be sent to it.

ARE YOUR CHILDREN "CROUPI?" This trouble is deadly—must be stopped quickly, nothing is so sure as the Nervine Treatment. Give it internally, rub it on the throat and chest, and then put on a Nervine Plaster. The marvelous power of Nervine, both as a liniment and in Plaster form, will surprise you. For sore throat, coughs, colds, and pleurisy alone, it is used by the homes every day. Invaluable in the home, especially for treating the minor ills that all children are bound to catch. Large bottles 25c. each. Nervine Plasters same price, at dealers. N. C. Poison and Co., Kingston, Ontario.

AMUSEMENTS.

Puritan Quartette at Nickel. A musical attraction of most unusual quality is the Puritan Quartette of mixed voices to be heard at the Nickel Theatre this week, commencing at 4 p. m. today. There have been many excellent singing aggregations at this popular house of entertainment in four years past, but it is doubtful if any have pleased more than the Puritans are expected to. The personnel of the quartette includes Ida Kerr, a soprano of note in N. Y. church circles; Edith Warren, one of Montreal's best contraltos; Arthur Thrasher, a familiar tenor to American audiences and Bert Clute, a basso who was heard with much acceptance in grand concerts in this city some years ago. Only the most popular of classical, semi-classical and current music is sung by the Puritans, but their repertoire is extensive and harmony exquisite. Their appearances will be at 4 p. m., 7:45, 8:45 and 9:45. The pictorial portion of the Nickel's bill for today and Tuesday will include a story of the Franco-Prussian war, Between Two Fires, by the Edison Co.; a Pathé-American comedy, Hoboy's Troubles; a scenic trip in the flooded districts of China, and a fisherfolk romance, The Girl Who Could Not Forget, by the Kalem Co. Miss Elyse Wallace and the orchestra.

Shipping Notes.
Gale for Pres. Shenandoah, Capt. Trinick, now on her way to London via Halifax, took away a cargo valued at \$55,200.

Greenwich, May 5.—The home of Mr. and Mrs. George T. Seeley was the scene of a happy event on Thursday, May 4th, when their daughter, Edith Winifred, became the wife of Bradford Dufferin Richards.

A very pretty wedding took place at 10 o'clock Saturday morning at the residence of the bride's father, 267 King street, Carleton, when Charles Bruce, C. E. of Shelburne, N. S., and Miss Bessie Bankin, daughter of W. D. Bankin, were united in marriage.

The bride was given away by her father, was unattended. The ceremony was performed by Rev. Jacob Heaney, B.A., in the presence of immediate friends and relatives.

The bride was beautifully costumed in a travelling suit of green with hat to match. After the ceremony a dainty lunch was served, after which the happy couple left on a honeymoon to Nova Scotia, where they will visit the various points of interest.

Among the guests at the wedding was Mrs. Robert A. Bruce, of Shelburne, N. S., mother of the groom.

THE SCIENCE OF THE SOILS: 16 FEET IN FLORENCEVILLE

A large and interesting meeting was held on Friday evening last in the assembly room of the trustees of the School of Florenceville, called by Principal R. L. Sims at the request of the School Board and some of the leading farmers of the district.

One hundred and seventy ladies and gentlemen and school children were in attendance. William Taylor presided and the speakers were W. W. Hubbard, secretary of agriculture, and members of the School Board and others.

W. W. Hubbard was the first speaker. He was delighted to see the interest manifested by the trustees and teachers of some of the consolidated schools, notably those at Florenceville and Sussex, in endeavoring to make the courses at these schools the practical value to the principal industry of these districts and he urged upon the farmers the importance of their taking an interest in agriculture and their schools.

Another cargo of coal for Fredericton, The schooner M. D. S., Captain Gale is now on her way to this port from New York with a cargo of hard coal for Fredericton.

From a market standpoint there was every prospect of making this year for the province was now sending some millions of dollars to other provinces and to the United States and other countries for butter, cheese, beef and pork and poultry and eggs.

CLOSING STOCK LETTER.

By direct private wires to J. C. Mackintosh & Co. New York, May 6.—Dealings were professional and uninteresting today, consisting largely of evening up operations over the Sunday holiday.

Business in some lines shows a reactionary tendency, but this is generally attributed to temporary political uncertainty affecting the tariff and the large corporations. The removal of this factor a little later on would very likely cause a revival of business especially in that department of the steel industry in which the necessities of the railroads figure most largely.

THE STANDARD'S PAGE OF SPORTS

AVERAGES OF THE PIN SPLITTERS

In the City League just finished on Black's Alley, the team's pin fall and average per game was as follows:

Team	Pin fall	Per game
Tigers	27,389	1304
Y. M. C. A.	26,354	1283
Nationals	26,387	1281
Yanigans	26,774	1275
Insurance	26,755	1274
Imperials	26,573	1265
Ramblers	26,208	1248
Pirates	26,060	1241

The highest game of the league was rolled by the Tigers, 1370, who won the league series and will receive gold lockets suitably engraved. The high single string was rolled by the Nationals, 485. The highest individual single string, 143, and 3 strings, 350, was rolled by A. J. Machum who receives an engraved locket. H. C. Olive led the league with the high average of 84.14. He receives an engraved locket.

The following are the individual averages:

H. C. Olive	84.14
A. J. Machum	80.03
T. L. Wilson	80.60
A. Bailey	80.36
H. McKenna	80.24
C. Lannan	80.04
H. I. Black	80.04
J. Hurley	80.04
H. Belyea	80.04

SOME HOME NEWS FROM SYDNEY, C. B.

(Sydney Record, May 5.) A meeting of the executive of the cricket club will be held tonight to meet a committee from the city baseball league to discuss the question of grounds. It is to be hoped that a satisfactory arrangement can be made whereby the ball teams will be allowed to use the cricket grounds two evenings of each week.

Hodd, who will pitch for the Pier team in the second game of the season, is counted one of the best pitchers in New Brunswick. He has played for the St. Peter's team for the past several seasons, and before that with the Rock City team in the Quebec league.

The Pier team are having their grounds well rolled and are going at things in a way that shows they intend to make their competitors hustle.

Nova Scotia is receiving a number of St. John's best players this year. The B. and A. grounds, the best in the winterport town, have been sold to the J. A. Lively Lumber company, and that scene of innumerable battles is now covered with lumber. Only the ground now remains, the Shamrock ground and as many of the players do not agree with its management, they are getting out. Eddie Ramsey and Copeland, who are perhaps the two fastest infielders in St. John, are going to New Glasgow, Ramsey who is well known here, is a second baseman, and Copeland is a shortstop. They are both graduates of the Quebec league and very finished players. No, Maude, dear, we do not know if there is any truth in the report that Art Mahoney, the crack St. John pitcher and shortstop will be with the Nationals in the city league this year. Better wait until the first game is played, and then you shall see what you shall see.

The Nationals had their first workout of the season at Victoria park last night, the boys contenting themselves with chasing flies for a start. Those out were Toby and Bud McDonald, Dave Knight, Fred Townsend, Frank Kunkle, Hector McKenzie, J. McNeil and Geo. Doyle. A full hour's fielding practice was indulged in, some of the boys showing up-season form. The Nationals will practice again tonight at the same hour, 6.30.

ST. JOHN WILL HAVE TWO PROFESSIONAL TEAMS

In Addition to the Marathons Another Fast Team will be Signed Up this Week—N. B. & Maine League Meeting at Fredericton Tuesday.

A meeting of representatives from Woodstock, Calais, St. Stephen, Fredericton and St. John will be held in Fredericton tomorrow night at a meeting called by the mayor of the Capital City and it seems certain that a Maine and New Brunswick professional baseball league will be formed. David Donald who will handle the Marathons again this season, and who is one of the chief promoters of the league, states that he expects that all of the cities mentioned will have teams in the league and some fast ball may be expected in St. John this summer.

The work of fitting up the Shamrock grounds is progressing well and on the 24th inst., when the baseball season will open in this city, the grounds will be in excellent condition.

For a grand opening the Marathons will be put up against one of the fastest teams from Montreal and games will be played for three days. There will be another professional team in the city besides the Marathons and a gentleman well versed in sport has decided to look up the right kind of material and will start to get a team signed on this week. Full arrangements regarding the new team will be made known in a few days.

The Fredericton Gleamer of Saturday says: "The best way to get fast baseball here this summer is to have a team in a compact league which will not take all the receipts to pay travelling."

CAMERON AND LONGBOAT BOTH LOST THEIR RACES

Alfred Shrubbs Proved Too Much for Amherst Man in Twelve Mile Run, in Boston, while Quael Defeated Tom Longboat by 300 Yards, in New York.

Boston, May 6.—Alfred Shrubbs, Great Britain's champion middle distance runner defeated Fred Cameron, of Amherst, N. S., winner of the Boston athletic association marathon, 1901, in a 12 mile match race at the Boston Arena tonight. Shrubbs' time was 1:09:23, and Cameron's 1:07:13. Shrubbs finished 2 3/4 laps ahead.

Longboat Beaten, Too. New York, May 6.—Over the quarter-mile cinder track at Celtic Park tonight Wm. Quael, of Alexandria Bay ran away from a field of six competitors and won the professional 15 mile sweepstakes in 1:23:35. Tom Longboat, the Indian runner from Toronto, was second, 300 yards behind the winner, and 500 yards ahead of William Kohlmanen, of Finland, who finished third. The other four starters who failed to last the route were Hans Holmer, of this city, formerly of Halifax; Gus Lungstrom, Sweden; James J. Lee, Boston, and Ted Crooks, of Fall River.

Quael won a rapid race from the start with Longboat in close pursuit, and for five miles Quael led by a couple of yards. The time for five miles was 25:46 2/5, a fine performance, which gave promise of record-breaking figures for the fifteen miles, but the pace gradually became slower, and at the finish the time was 2:45 behind the record held by Fred Appleby.

The weather and track were splendid, and ten thousand persons saw the race.

MARITIME TROTTERING CIRCUIT

The race tracks of the Maritime Provinces are swinging into line one by one and pretty soon the circuit of races for the season will be completed.

Moncton's intentions of joining the circuit are already announced. Last evening H. J. Flemming, the owner of Moosepath Park said that he was ready, and the last to get into line is the New Glasgow track. Spurgeon Gammon, the manager of the New Glasgow track, has written to the Fredericton Park Association secretary that at a meeting of the racing association there this week it was decided to open stakes to be raced on some dates allotted to New Glasgow in August, and prior to the Halifax Exhibition. The stakes are to be for two and three-year-olds, 240 and 230 trotters. In addition a number of class races will be offered, making a fine programme for the horsemen before they strike Halifax. The New Glasgow track will also give racing on May 24th, the classes being a 2:28 trot, a 240 pace and a green race, half mile heats.

BUTTLER GOING TO TRY FOR DIAMOND SCULLS. Toronto, May 6.—Butler, the Argonaut sculler, has finally decided to try for the Diamond Scull this year. He will sail for England on June 16 on the steamer Empress of Britain. The Ottawa eight will sail by the same boat. The Argonauts may also send an eight, but the question is not settled.

and will thus make it possible to pay salaries sufficient to attract capable players.

The promoters of the New Brunswick and Maine baseball league feel confident that they will be able to get a good circuit formed and a meeting of the representatives of the clubs will be held here on Tuesday afternoon. It is expected that Calais, Me., and St. Stephen which have lately shown a tendency to withdraw from the league, will be represented at the meeting.

League baseball is what the towns want. Independent teams playing exhibition games will not prove nearly as attractive to the fans as a league schedule with an exciting pennant race. With an independent team playing exhibition games it is necessary to stir up an interest in each game or series of games; with a pennant race going the fans are always on edge and the newspapers are continually having stories on the progress of the fight for the championship. That is half the battle.

Mayor Thomas' official call for the meeting of the citizens of Fredericton to attend a baseball meeting on Monday evening at the city council chamber at City Hall, appears in this page today. If the citizens of Fredericton want a fast baseball team here, if they are desirous of having the sport and also of advertising for the city that a fast team is sure to bring it up to them to go to the baseball meeting on Monday evening and go there prepared to do something.

MARATHONING A DEAD SPORT IN MONTREAL

Montreal, May 7.—That "Marathoning" is now a dead sport in Montreal was amply evidenced yesterday afternoon when scarcely two hundred people turned out to the National grounds to see the twenty-mile race between Henri St. Yve, Jim Crowley, Pierre Laque and Sveanberg, and the others quit after running half the distance, saying that they would run no more for such a small and unappreciative crowd. St. Yve and Jim Crowley were keeping well together when they quit and an exciting finish in fast time was promised.

ON THE LOCAL RIFLE RANGE

The City Rifle Club held their first spoon match of the season on Saturday. The scoring was as follows:

290 500 600 TL	R. A. C. Brown	33	28	32-94
	L. O. Bentley	32	31	29-92
	D. Connolly	33	29	28-91
	J. G. Sullivan	39	28	32-90

The next match will take place on Saturday afternoon next.

McFarland says he is willing to make it 134 at 3 o'clock, but Wolcott is dated until fall, so they won't mix just yet.

RESULTS OF THE BIG LEAGUES

SATURDAY'S GAMES.

American League.

At St. Louis: Detroit 205000010-8 13 2
St. Louis 011002000-4 12 4
Batteries: Mullin and Stange; George, Gregory, Bailey, Pelly and Clarke.

McAVITY'S BOWLERS TIE WITH I.C.R. IN COMMERCIAL LEAGUE

There was great excitement on Saturday afternoon and evening when the I. C. R. team managed to tie the McAvity and Sons team in the Commercial League, and as a result T. McAvity and Sons team and the I. C. R. team are tie for the championship and will have to roll off for the first place.

Saturday afternoon T. McAvity and Sons team played against the Brock and Paterson team and captured three points. They won the second string of the game by just one pin and this kept them in the running as in the evening game the I. C. R. team managed to take three points from the C. P. R. and placed them tie with the McAvity team. In the afternoon match the I. C. R. team took the first string and it looked as if they were going to take the second string from the leaders, when at the last Harrison, the hardware men, got two large fat singles and won the string for his team.

In the evening game there was some lively bowling. In the first string the C. P. R. team defeated the I. C. R. by 19 pins and there was joy for the McAvity and followers, for if the evening game were to lose the next string it would clinch the championship for the McAvity's. Such was not to be, for on the next string the I. C. R. won out by 18 points. They also captured the next string by 43 points and having the highest total pinfall, they captured three points and with the McAvity team. A roll-off will be arranged between these two teams for the championship and the match should be one of the most interesting held on the alleys.

The following is the individual score for Saturday's matches and the standing of the teams:

AFTERNOON.

T. McAvity and Sons.

Littlejohn	73	65	92	271-90 13
O'Brien	75	96	83	254-84 23

NATIONALS OF MONTREAL WON LACROSSE MATCH.

Toronto, May 7.—The Nationals of Montreal, who have the highest average with the Tecumseh's of Toronto at Hamilton's Point yesterday, in a fast and interesting exhibition of lacrosse. The Tecumseh's weakened their chances considerably by their penalties.

Both teams were in excellent condition for so early in the season and both Green and Collins of the Tecumseh made an excellent showing in their first game in senior company. The Nationals had on the best line up and played an excellent brand of lacrosse, well deserving their victory. They will be a hard team to beat for the championship again this season.

RING NOTES.

Bat Nelson is at Hot Springs, Ark. to try the effect of the mist on his system. He hopes to box in July.

"Salinas Jack" Burns won a fight in England. Heerod.

For a "dead one" Nelson is more popular than some of those in the live class. The reason is he always fights and doesn't know how to stall. And one-round Hogan swore "like a gentleman" that he hadn't been fighting with Wolcott. Um! Wonder what a fight looks like?

AROUND THE CITY

Ambulance Was in Demand. The ambulance was called on three times Saturday and once yesterday to remove sick persons.

Scale Part Found. A part of a weighing scale was found by the police in Thorne's alley, Prince William street Saturday night.

Will Meet Tonight. The Hod Carriers and Building Laborers' Union will hold a meeting this evening to consider the strike situation.

P. E. Islanders' Reunion. The annual reunion of Prince Edward Islanders residing in St. John will take the form of a dinner at White's restaurant, at 8 o'clock on Tuesday evening. All interested are requested to be present.

Machinists to Form Union. The Fitters and Machinists are talking strongly of organizing and a meeting of all these workmen is called for this evening in the union rooms, Opera House block, when they propose to form a union.

Trespassers in Trouble. Harold Garnett, Otto Northrup Cecil Brown and Jack Brown, four boys, have been reported by I. C. R. Policeman Collins for trespassing on the I. C. R. property and breaking windows in the elevator.

The Carpenters' Strike. The Carpenters' strike is practically over. On Saturday Edward Bates decided to concede the advance, and his men will return to work today. Practically all the contractors who have work in hand are now paying the Union scale.

The Salvation Army. The annual self-denial week of the Salvation Army began yesterday and will continue this week. The local corps, under Brig. Adby has made preparations to raise a large amount of money to aid in the social and religious work being carried on.

The 3rd Regiment's Affairs. Lieut. Col. Baxter, who has returned from Ottawa, speaking of matters in connection with the 3rd Regiment, C. A., said he had reason to believe the difficulties would be satisfactorily adjusted. They were due to the scheme of reorganization and had no political significance.

Died in Lynn. Mrs. James Masson, Fairville, has received word of the death of her niece, Mrs. Sarah Olsen, who died in Lynn. Mrs. Olsen was forty-three years of age, was a former resident of Fairville, but for the past twenty years has been in Lynn. She is survived by one son.

Seaman's Mission. A pleasant entertainment was given in the Seaman's Mission on Saturday night by the children of Exmouth street church under the direction of the Rev. Mr. Tanner. The children gave a very interesting programme and rendered solos, duets and recitations in a very pleasing manner. Miss Mabel Law acted as pianist.

Prisoner Taken Ill. While working in the hard labor squad on Douglas Avenue Saturday, Robert McAdam one of the prisoners, took suddenly ill and fell in a faint. He was sent to the hospital in the ambulance where he recovered and was reported quite well last night. The cause of his fainting was exhaustion.

Bandmaster Jones Ill. Bandmaster F. H. Jones, of the 62nd band is seriously ill at his home Union street, and fears are entertained that he will not survive. Reports last night showed his condition to be very critical. Mrs. Charles H. Anderson, of Brooklyn, N. Y., who is a daughter, arrived here on Saturday night.

An Enjoyable Outing. About fifty of the junior members of the Natural History Society on Saturday held the first of a series of outings arranged for the season. The afternoon was spent at Bay Shore and an enjoyable time spent. A clam bake was held during the afternoon, and supper was served. The excursion was in charge of Wm. McIntosh.

Lancaster Teamsters Strike. The teamsters employed by the Highway Board in the Parish of Lancaster stopped work Saturday morning. They struck for an increase of twenty cents a day. There are but three men on strike. They have been receiving \$2.50 a day for single teams and they ask for \$2.50. The matter has not been placed before the board in an official manner, but the difficulty will probably be overcome today.

COUNTY COUNCIL WILL DISCUSS POWER BILL

Attitude of County Toward Hydro-Electric Company will Probably be Considered at the Meeting Tomorrow.

The regular meeting of the county council will be held tomorrow afternoon. One of the matters which will probably be dealt with is the attitude of the county to the Hydro-Electric Company. Some of the councillors are said to be of the opinion that the provincial and county authorities should work out an arrangement to develop water powers as is done in Ontario, but it is not expected that the county will offer serious opposition to the company's application for incorporation.

This year the wardship will go to a city man, and it is expected Councilor Hayes, who was selected for the position at the recent caucus of the city fathers will be elected without opposition.

JUBILEE IS CELEBRATED BY TWO OF THE CHURCHES

St. Mary's and St. Jude's Churches, Yesterday, Observed in Fitting Manner the Fiftieth Anniversary of their Dedication and Consecration -- Record of Progress in Both.

Sunday was a day of special significance in two of the city churches as it marked the fiftieth anniversary of their dedication and consecration. The golden jubilee was observed in St. Jude's, Carleton, and St. Mary's with becoming solemnity. In both the churches the services were of an especial character, and were attended by large congregations representative of various parishes.

In St. Jude's church yesterday morning service was held at 11 o'clock. The edifice was crowded. The service consisted of morning prayer followed by Holy Communion. The sermon was preached by Rev. W. B. Armstrong, who delivered an eloquent discourse in which he dealt with the life and work of the first rector of St. Jude's church—Rev. John B. Armstrong. In the evening service the pulpit was occupied by Rev. Sub-dean Street, of Fredericton. Special music was rendered by the choir at both services.

The jubilee ceremonies will continue during this week. This morning at 6 o'clock there will be Holy Communion; a thanksgiving service will be held at 8 o'clock tonight and at 8:30 o'clock an historical and social evening will be held.

At St. Mary's. At the morning service in St. Mary's church the attendance was unusually large. In addition to the regular congregation of the church there were present several members who were connected with the church at the time of its dedication, and representatives of a number of other churches in the city. Among the surviving members of the congregation present yesterday, who were active in the affairs of the church during its infancy and early growth were: Mrs. R. Willis, Mrs. Wm. Davis, Mrs. Lynam, Mrs. A. R. Campbell, Mrs. Walter Starkey, Mrs. J. T. Mann, Mrs. S. H. Givan, Mrs. C. Osborne, John Kenny, Samuel Willis, E. C. Moran and George Spencer. A large number of more recent workers attended the anniversary services as did also several former Sunday school teachers. The church was very tastefully decorated with flowers. At the entrance were hung portraits of four of the pioneer workers in the church, Rev. Mr. Gray, Rev. G. M. Armstrong, who was instrumental in the erection of the church; T. W. Daniel, a founder of the Sunday school, and of the late Rev. J. Desrochers, who helped to establish St. Mary's into a separate parish.

The rector, Rev. W. O. Raymond, delivered an historic sermon appropriate to the occasion, taking for his text, Lev. 10: "Ye shall hallow the fiftieth year, it shall be a jubilee unto you."

In opening the preacher said there are periods in the history of churches as well as of individuals that serve as landmarks where we may with profit look back and reflect, learn wisdom from the past and gather strength for the days that are to come. After referring to the observance of the jubilee of the Jews, he said: "It is ours today to proclaim the message characteristic of the jubilee of old, glad tidings to rich and to poor, liberty to those enslaved by sin, the vision of the Christ, to those living in darkness, the way of salvation to all men. Those who were present at the laying of the corner stone of St. Mary's or at the dedication on May 15th, 1861, realize that 50 years is a long period in human life. In this new land, it is also a long period in the history of the church. The preacher then traced the history of the church since its inception and during the subsequent years and of the building of the Sunday school five years after the church had been built.

The grand work of his predecessors was referred to in terms of praise and a fitting tribute to the past and present men and women interested in the work of St. Mary's. In concluding he made an earnest appeal to the congregation to be faithful to the traditions of the past, to emulate the work of the men and women who have contributed to make the church prosper and from the service of the day to gain inspiration for their future efforts.

A special service was conducted in the evening and the church was again crowded to the doors. The choir had prepared music especially for the service and was reinforced by former members. St. Mary's band rendered two selections from the Stabat Mater with pleasing effect. An address was made during the service by Rev. W. B. Armstrong, M. A. In the course of his address Rev. Mr. Armstrong said:

"The history of a church during 50 years must be always full of interest. How much might be written of the lives of all who have labored in it. In their years they have come to it to be baptized. Here they have come in the early season of youth, full of bright hope and looking forward to the battle of life with eagerness and expectation. Here through all cares and troubles of life have come souls weak to be strengthened for battle with word and Holy Sacrament. This evening I have been asked to address you as nephew of Rev. G. M. Armstrong, under whose rectorship this church was built. His name was spoken of all over the province, the speaker said, with reverence and affection. His name has always been a strength and aspiration."

He then sketched the life of Rev. Mr. Armstrong, and his work in St. John prior to the consecration of St. Mary's. The condition of the section of the city where the church is situated was dwelt upon by the speaker and the activities of Rev. Mr. Armstrong after taking charge of the work. He braved the ravages of the cholera, in 1854, as well as epidemics of smallpox, ministering to those in need of spiritual consolation. Many times had he preached within St. Mary's, to many souls he was a spiritual father and counselor. Since the building of the church there had been eleven curates; the speaker said he had known them and

he paid fitting tribute to their work during his address. "The history of St. Mary's," said Rev. Mr. Armstrong in closing, "has been an uphill one all these years, but it is astonishing how much has been done by perseverance and hard toil. There is distinct hope in your future. I trust that He who has guided you through so many difficulties and obstacles in the past, may prosper you in the years to come and that your rector who has worked so long in this parish, may reap an abundant harvest for all his labors. Rev. Mr. Daniel, said that he felt at home in St. Mary's because of the happy and friendly like spirit that appears to pervade the congregation. There seemed to be an unusual measure of mutual love and confidence between rector and people. But another reason for which he felt at home in the church was his past connections with St. Mary's. His parents, sister and brother, had been workers in the church's interests, had taught in the Sunday school, and his father had been privileged to be one of the first teachers when the services and Sunday school were conducted in the Orange Hall, Brussels street. He himself had taught during the summer months from 1880 to 1888. It was a pleasure to him, Rev. Mr. Daniel stated, to see the progress the church has made. St. Mary's has been an inestimable power for good in the community in past years, and its influence for good was never greater than at the present. In closing his remarks he expressed the hope that the good work should continue and appealed to the congregation to aid the rector in the noble work he is carrying on. Rev. G. A. Kuhring, rector of St. John (stone) church, addressed the congregation, referring to the work St. Mary's has accomplished in past years, and on the great future which awaits the church. There can be no strong future, he said except by remembering the past. St. Mary's is rich in her memory of the past, possessing a band of hard working and earnest men and women. The church had been especially favored in the present rector who is an energetic and self-sacrificing worker. Rev. Mr. Kuhring urged the congregation not to wait for something to do, for there is much to do each day and many souls to save, and prayed that they might have grace to continue as they have done in the past. The service closed with the singing of the doxology.

Painless Dentistry. Teeth filled or extracted free of pain by the celebrated "HALE METHOD." All branches of dental work done in the most skillful manner. BOSTON DENTAL PARLORS. 527 Main Street. Tel. 659. DR. J. D. MAHER, Proprietor.

NEW BRUNSWICK'S GREATEST SHOE HOUSE.

Women's Fashionable Pumps For Street Wear. Velvet, Cravenette, Suede, Patent, Dull Calf and Vici Kid, with or without ankle straps.

Velvet, Cravenette, Suede, Patent, Dull Calf and Vici Kid, with or without ankle straps.
